REPORT CONCERNING EMIGRATION LAWS AND POLICIES OF THE REPUBLIC OF BULGARIA—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 104-246)

The SPEAKER pro tempore (Mr. BARRETT of Nebraska) laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Ways and Means and ordered to be printed:

To the Congress of the United States:

On June 3, 1993, I determined and reported to the Congress that Bulgaria is in full compliance with the freedom of emigration criteria of sections 402 and 409 of the Trade Act of 1974. This action allowed for the continuation of most-favored-nation (MFN) status for Bulgaria and certain other activities without the requirement of a waiver.

As required by law, I am submitting an updated report to the Congress concerning emigration laws and policies of the Republic of Bulgaria. The report indicates continued Bulgarian compliance with U.S. and international standards in the area of emigration policy.

SEC. 2. FINDINGS.

Congress finds that—

(1) safe drinking water is essential to the protection of public health;

(2) because the requirements of title XIV of the Public Health Service Act (commonly known as the "Safe Drinking Water Act") (42 U.S.C. 300f et seq.) now exceed the financial and technical capacity of some public water systems, especially many small public water systems, the Federal Government needs to provide assistance to communities to help the communities meet Federal drinking water requirements;

(3) the Federal Government commits to take steps to foster and maintain a genuine partnership with the States in the administration and implementation of the Safe Drinking Water Act;

(4) States play a central role in the implementation of safe drinking water programs, and States need increased financial resources and appropriate flexibility to ensure the prompt and effective development and implementation of drinking water programs;

(5) the existing process for the assessment and regulation of additional drinking water contaminants needs to be revised and improved to ensure that there is a sound scientific basis for drinking water regulations and that the standards established address the health risks posed by contaminants;

(6) procedures for assessing the health effects of contaminants and establishing drinking water standards should be revised to provide greater opportunity for public education and participation;

(7) in setting priorities with respect to the health risks from drinking water to be addressed and in selecting the appropriate level of regulation for contaminants in drinking water, risk assessment and benefit-cost analysis are important and useful tools for improving the efficiency and effectiveness of drinking water regulations to protect human health;

(8) more effective protection of public health requires—

(A) a Federal commitment to set priorities that will allow scarce Federal, State, and local resources to be targeted toward the drinking water problems of greatest public health concern; and

(B) maximizing the value of the different and complementary strengths and responsibilities of the Federal and State governments in those States that have primary enforcement responsibility for the Safe Drinking Water Act; and

(9) compliance with the requirements of the Safe Drinking Water Act continues to be a concern at public water systems experiencing technical and financial limitations, and Federal, State, and local governments need more resources and more effective authority to attain the objectives of the Safe Drinking Water Act.

SEC. 3. STATE REVOLVING LOAN FUNDS.

The title (42 U.S.C. 300f et seq.) is amended by adding at the end the following:

"PART G—STATE REVOLVING LOAN FUNDS

"GENERAL AUTHORITY

"SEC. 1471. (a) CAPITALIZATION GRANT AGREEMENTS.—The Administrator shall offer to enter into an agreement with each State to make capitalization grants to the State pursuant to section 1472 (referred to in this part as 'capitalization grants') to establish a drinking water treatment State revolving loan fund (referred to in this part as a 'State loan fund').

"(b) REQUIREMENTS OF AGREEMENTS.—An agreement entered into pursuant to this section shall establish, to the satisfaction of the Administrator, that—

"(1) the State has established a State loan fund that complies with the requirements of this part;

"(2) the State loan fund will be administered by an instrumentality of the State that has the powers and authorities that are required to operate the State loan fund in accordance with this part;

"(3) the State will deposit the capitalization grants into the State loan fund;

"(4) the State will deposit all loan repayments received, and interest earned on the amounts deposited into the State loan fund under this part, into the State loan fund;

"(5) the State will deposit into the State loan fund an amount equal to at least 20 percent of the total amount of each payment to be made to the State on or before the date on which the payment is made to the State, except as provided in subsection (c)(4);
