Congressional Record

PROCEEDINGS AND DEBATES OF THE 104th CONGRESS, SECOND SESSION

Vol. 142

WASHINGTON, WEDNESDAY, SEPTEMBER 18, 1996

No. 129

House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore [Mr. HASTINGS of Washington].

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 18, 1996.

I hereby designate the Honorable RICHARD "DOC" HASTINGS to act as Speaker pro tempore on this day.

NEWT GINGRICH,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We pray, O gracious God, that we would translate our good thoughts and words into deeds of mercy and compassion that reach out to the neediest in our communities. We admit that it is easier to talk about what we would do than to put our hands to the task and accomplish the works of justice. We thank You for the faith that You have given us and for the creeds and beliefs that we hold dear. But on this day we pray for the strength to transpose these ideas and words and faith into achievements that make our words come alive and help people wherever they are. This is our earnest prayer. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Missouri [Mr. VOLKMER] come forward and lead the House in the Pledge of Allegiance.

Mr. VOLKMER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER pro tempore. The Chair will entertain ten 1-minutes on each side.

REFORM THE IRS

(Ms. DUNN of Washington asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DUNN of Washington. Mr. Speaker, in 1995 the Internal Revenue Service's 1-800 number provided about 8½ million Americans the wrong answers to even the most basic questions about tax law. Further, Money magazine estimated in 1990 that nearly half the 30 million penalty notices the IRS mails out each year are erroneous.

Even more alarming, the latest impartial GAO audit of the IRS asserted that the agency that scrutinizes taxpayer finances cannot properly keep track of the \$1.4 trillion it collects each year. Mind you, that was the fourth straight audit the IRS has flunked.

Mr. Speaker, fair is fair. The IRS itself has failed to meet the standards of financial accountability and diligence it imposes on our citizenry. And since it can no longer adequately police itself, it can no longer be trusted with the authority to police individual American businesses and individuals.

We need a solution to our problem that empowers the hard working Amer-

ican taxpayer. We need to reform the IRS.

DOLE TAX PLAN WILL TEAR DOWN ENVIRONMENTAL PROTECTION

(Mr. PALLONE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALLONE. Mr. Speaker, the Republican leadership over the last 2 years has systematically tried to tear up 25 years of environmental protection, and I am afraid that the Dole tax plan which has been touted by the Presidential candidate over the last few weeks will just do that much more to accomplish the goal of tearing down environmental protection and not providing the funding for enforcement and investigation of serious environmental infractions.

We have seen in the last 2 years an attempt by the Republican leadership to basically gut the Clean Water Act, allow for more dumping in the ocean, and allow for the destruction of wetlands. We have seen them try to change the Superfund law so that basically instead of the polluter paying, the Government would be paying the polluter, and we would not see cleanup at most of the Superfund sites around the Nation. We have also seen Republican efforts to pass legislation that would close national parks, decommission national recreation areas around the country.

Most important, the Republican budgets and appropriation bills have significantly cut the amount of money that would be available for environmental enforcement, for investigating the polluters. That will only continue under the Dole tax plan and the cuts that he is proposing.

REPUBLICANS SEEK COMMON-SENSE REFORMS IN GOVERNMENT AND A BALANCED BUDGET

(Mr. KINGSTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KINGSTON. Mr. Speaker, let me say this to my friend from New Jersey. If he truly believes that information, which obviously his speech writer was inhaling when he wrote, then I would like to challenge him here and now for a debate on the environment on the House floor.

Usually during special hours when the Democrats have the floor, they do not yield to Republicans. I will do it on my own hour to debate such outrageous fantasy about cuts in the environment.

The fact is we have a \$5 trillion debt. The Republican Party is trying to put sanity and commonsense reforms both in environmental legislation and in all government legislation.

I think it is very important to cut out the rhetoric and get back to the fact that the children in America, a baby born today, owes \$187,000 over the next 75 years just in interest on the national debt.

It is time for the Democratic Party to quit hiding its head inside the sand, quit coming out with the partisan demagoguery and face the real problem of trying to balance the budget and have commonsense reforms in government. I hope my friend will debate me.

RISING IMPORTS, DWARFING U.S. EXPORTS MEAN LOST U.S. JOBS AND SINKING WAGES

(Ms. KAPTUR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KAPTUR. Mr. Speaker, there is an economic wind blowing across our Nation that has thus far failed to capture the attention of the leading Presidential candidates, and I am specifically referring to lost U.S. jobs and sinking wages eroded by rising imports dwarfing U.S. exports.

The latest Commerce Department figures show that for midsummer we had the highest trade deficits in over a decade. Over \$11.7 billion for the last month. The trade deficit with Japan, up 33 percent. Car parts, imported cars from Japan far dwarfing our exports. Trade deficit with China, up 15 percent. Imported clothing, imported shoes, imported textiles, meaning more lost jobs in this country.

Our dependence on oil continues to grow as we see U.S. troops being sent to Kuwait rather than energy resources developed here at home.

I am glad somebody notices. The Philadelphia Inquirer from September 8 through 22 is running an incredible series: "America: Who Stole the Dream?" Please read it. People in America somewhere are noticing, even if the Presidential candidates are not.

MOST PARTIAL-BIRTH ABORTIONS ARE ELECTIVE

(Mr. CANADY of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CANADY of Florida. Mr. Speaker, it has been widely reported that partial-birth abortions are extremely rare. Pro-abortion groups claim there are no more than 500 partial-birth abortions per year, and they are only performed in extreme circumstances, such as when the child is severely deformed or the mother is in grave danger.

These myths are finally being dispelled. The Record newspaper reported that a single abortion clinic in New Jersey performs 1,500 partial-birth abortions each year. One doctor was quoted as saying that "only a minuscule amount" of partial-birth abortions are performed for medical reasons.

The Washington Post also reported yesterday that most partial-birth abortions performed are elective. I quote: "[T]he 'typical' patients tend to be young, low-income women * * * whose reasons for waiting so long to end their pregnancies are rarely medical."

The evidence is overwhelming: the vast majority of partial-birth abortions are elective. I ask you, how long will we continue to allow children in this country to be partially delivered and then killed?

IT IS STILL THE SAME IN D.C.

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, in an effort to cut the budget, the GAO called the OMB, the CBO, the RTC, the NSC, the ITC, the GSA, and the IRS, and they had no success. So the GAO then called the DOD, the DOE, the DOT, and the DDT, and they could find no cuts. So the GAO then called the CIA, the DIA, the OSI, the PCB's, and the PCP's, and they could find no cuts. So, then they called OSI, ORI, and IUD and could find no cuts. And finally, so frustrated, they called the PMS, and there were no cuts to be made.

So they decided there should be a whole new program called the Accounting Selection System, hereafter to be known as A-S-S, which only goes to show us, when it comes to bureaucrats and cuts, it is still the same in Washington, DC. It is called the B.S. in D.C.

And with that, I yield back the B-O-M-T.

THE TAX-AND-SPEND DEMOCRATS

(Mr. DOOLITTLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOOLITTLE. Mr. Speaker, the ultra liberal Clinton administration is at it again. Yesterday Interior Sec-

retary Bruce Babbitt endorsed a plan to tax anything and everything having to do with enjoyment of the great outdoors.

This plan would impose a 5-percent tax on, and, mind you, this is just a partial list, backpacks, camping stoves, canoes, canteens, climbing equipment, flotation vests, also hiking boots, mountain bikes, outdoor sleeping mats, ski equipment, sleeping bags, tests, paddles, binoculars, cameras, film, books on bird identification, and audio tapes of wildlife calls.

Mr. Speaker, this is just a glimpse, a reminder, of what the tax and spend liberal Democrats would do if returned to power next year. They just refuse to acknowledge that what the American people want is fewer taxes, not higher taxes.

EDUCATION FUNDING

(Mr. HOYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOYER. Mr. Speaker, this September a record number of children entered elementary and secondary schools across this country. Every one of them should be concerned about what the House Republicans did with respect to education. Although we have never had so many children in our schools, House Republicans cut funding for elementary and secondary education by \$400 million.

In subcommittee I offered an amendment to add \$2.1 billion to Head Start and education. It was defeated on a party-line vote. On the floor, House Democrats offered an amendment to add these desperately needed funds. It was defeated on a party line vote.

But yesterday, the Senate voted to add \$2.3 billion to educate America's children. I hope that House Republicans have done their homework and will support this very important addition for America's children and America's families.

THE PRESIDENT AND THE RICH

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, if you had \$25,000, you could have spent last Friday evening with Bill Clinton, Hillary Clinton, and Barbra Streisand. Where else but in Hollywood can Bill escape the nagging problems of the average American, like the increasing drug use among teens, in order to rub elbows with his rich and famous pals?

That is \$25,000. Can you believe it? Mr. Speaker, the average American family of four working people with an annual income of about \$30,000 a year would have had to fork over almost all of their paycheck for an entire year just to have dinner with Bill and Hillary Clinton.

We had a great President from Hollywood, Ronald Reagan. Now we have a

President that acts like Hollywood. Mr. Speaker, it is time for the President to pay attention to the concerns of average Americans, not the labor bosses, not the Hollywood pals who make millions of dollars each year. It is time to make America better. It is time for a real American hero, Bob Dole.

□ 1015

DO NOT PUT THE OUTSIDE
COUNSEL'S REPORT ON ICE

(Mr. LEWIS of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEWIS of Georgia. Mr. Speaker, once again I rise to call on the Committee on Standards of Official Conduct to do the right thing, to release the outside counsel's report on Speaker NEWT GINGRICH.

POINT OF ORDER

Mr. LINDER, Mr. Speaker, I have a point of order.

The SPEAKER pro tempore (Mr. HASTINGS of Washington). The gentleman will state it.

Mr. LINDER. Mr. Speaker, several days in a row the gentleman from Georgia has risen on the floor of the House to address matters that are inappropriate, because the rules of the House specifically prohibit speaking of matters before the Committee on Standards of Official Conduct.

The gentleman does not seem to get that point. And on each occasion that I have raised this point of order, the Speaker has agreed with me. I would like the Speaker to make a ruling on this matter today.

Mr. LEWIS of Georgia. Mr. Speaker?

The SPEAKER pro tempore. Does the gentleman from Georgia [Mr. LEWIS] wish to be heard on the point of order?

Mr. LEWIS of Georgia. Yes, I do, Mr. Speaker. If the gentleman is familiar with the rules, he should know that the customary way to object is to ask that the Member's words be taken down.

Mr. LINDER. Mr. Speaker, I have a right to make a point of order at any time.

The SPEAKER pro tempore. The Chair is prepared to rule on the gentleman's point of order. The Chair will repeat the admonitions of the Chair from September 12, 1996, and September 17, 1996.

It is an essential rule of decorum in debates that Members should refrain from references in debate to the conduct of other Members, where such conduct is not the question actually pending before the House, by way of a report from the Committee on Standards of Official Conduct or by way of another question of the privileges of the House. This principle is documented on pages 168 and 526 of the House Rules and Manual and reflects the consistent rulings of the Chair in this and in prior Congresses and applies to 1-minute and special-order speeches.

Neither the filing of a complaint before the Committee on Standards of Official Conduct, nor the publication in another form of charges that are personally critical to another Member justify the references to such charges on the floor of the House. This includes references to the motivations of Members who file complaints and to members of the Committee on Standards of Official Conduct.

Clause 1 of rule XIV is a prohibition against engaging in personality in debate. It derives from article 1, section 5 of the Constitution, which authorizes each House to make its own rules and to punish its Members for disorderly behavior, and has been part of the rules of the House in some relevant form since 1789. This rule supersedes any claim of a Member to be free from questioning in any other place.

On January 27, 1909, the House adopted a report that stated the following:

It is the duty of the House to require its Members in speech or debate to preserve that proper restraint which will permit the House to conduct its business in an orderly manner and without unnecessarily and unduly exciting animosity among his Members.

This is Cannon's Precedents, volume 8, at section 2497. This report was in response to improper references in debate to the President, but clearly reiterated a principle that all occupants of the Chair in this and in prior Congresses have held to be equally applicable to Members' remarks in debate toward each other.

The Chair asks and expects the cooperation of all Members in maintaining a level of decorum that properly dignifies the proceedings of the House.

So the Chair would request that the gentleman proceed in order.

Mr. LEWIS of Georgia. Mr. Speaker, the outside counsel, James Cole, has prepared an extensive 100-page report on the Speaker's ethical violation. The American people deserve the right to know what is in that report.

POINT OF ORDER

Mr. LINDER. Mr. Speaker, I have a point of order.

The SPEAKER pro tempore. The gentleman will state it.

Mr. LINDER. Mr. Speaker, it is entirely possible that the gentleman in the well did not hear you, or it is entirely possible that the gentleman in the well does not know what the rules are. But I think you just ruled that he was speaking out of order, and I would like to have the Chair readdress his addressing matters before the Committee on Standards of Official Conduct.

Mr. LEWIS of Georgia. Mr. Speaker? Mr. Speaker? Let me say to my—

The SPEAKER pro tempore. The gentleman will suspend.

The Chair sustains the point of order from the gentleman from Georgia, Mr. LINDER, and asks the other Member from Georgia, Mr. LEWIS, to please keep his remarks in order.

PARLIAMENTARY INQUIRIES

Mr. VOLKMER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. VOLKMER. Mr. Speaker, the gentleman from Georgia [Mr. LINDER] appears to me to try to make a point of order and only on the point of order to silence the other gentleman from Georgia by having the Chair not only rule the gentleman out of order, but to perhaps even make the gentleman sit down.

I would like to know, is the Chair aware of any example in the entire history of this House of Representatives where the Speaker has unilaterally silenced a Member before his time has expired on his 1-minute without the consent of the House?

The SPEAKER pro tempore. On September 12 and on September 17 of this year, the Chair sustained points of order against Members who repeatedly made references in debate to a matter pending before the Committee on Standards of Official Conduct.

On those occasions, the Chair indicated that pursuant to the rule such Members could be required to take their seats where they declined to proceed in order at the directive of the Chair after points of order had been sustained against the references while demanding that an offending Member be seated is normally insisted upon only where there is a formal demand that the words be taken down pending disposition that the words be taken down. Pending disposition of the matter by the Chair and by the House, it is within the Chair's authority under rule I and rule XIV to deny that Member further recognition as a disposition of the question of order, subject to the will of the House on the question of proceeding in order.

A Member's comportment in the face of repeated admonitions by the Chair to proceed in order has itself been the subject of a ruling of the Chair that the Member may not be recognized to proceed unless permitted to do so by the House. That is cited on page 319 of the manual. Once a Member has been recognized and has the floor, rule I and rule XIV permit the Chair to respond to repeated points of order while permitting the House to determine the propriety of the Chair's rulings and its willingness to permit the Member to proceed in order.

Thus, if the Chair were to direct that an offending Member be denied the floor for the duration of the time for which he was recognized, he would do so in the context of a ruling that would permit the House to determine whether the Member should proceed in order.

Mr. VOLKMER. Mr. Speaker, I have a further parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. VOLKMER. Mr. Speaker, it appears from your ruling, one, that there is no precedent in this House prior to this Congress of the action that you said is appropriate for the Speaker. That is No. 1. I asked if there was any precedent; the only precedent you have

mentioned is just approximately a week ago, last week, so it is of this Congress, and within the last week, not any prior history in the whole United States.

No. 2, it appears from what you said, even though you feel that you have the authority under that ruling to make any Member sit down for not following regular rules of order, that the ultimate decision upon a proper motion made is that the House itself has to decide, which has always been the precedent of this body. The House decides whether a Member does or not, not the Speaker; is that correct?

The SPEAKER pro tempore. On the first question, the Chair is not commenting on the historical precedent.

On the second point, the gentleman is essentially correct.

Mr. VOLKMER. Well, Mr. Speaker, I just want to say, I have been unable to find the precedent that you have listed from last week.

The SPEAKER pro tempore. Without objection, the gentleman from Georgia [Mr. LEWIS] may proceed in order for the balance of his time.

There was no objection.

Mr. LEWIS of Georgia. Mr. Speaker, let me say to my colleague from Georgia, Mr. LINDER, I will not be harassed, bullied, or silenced. I know the rules of this House as well as the gentleman. But the gentleman knows, I have learned in my life that there are times when the rules must be challenged to confront an injustice. I will not sit down or keep silent until the report is released to the American people.

Last week NEWT GINGRICH brought an ice bucket to this floor to demonstrate a small savings achieved in the House. It is strange indeed that those savings are approximately the same amount as the cost of the report by the outside counsel. Now the Speaker and the Republicans in this House want to put the outside counsel's report on ice and it is wrong, just plain wrong.

HEALTH CARE ASSURANCE FOR RETIRED EMPLOYEES ACT

(Mr. KLECZKA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KLECZKA. Mr. Speaker, I rise today on behalf of 750 retirees in my district who were betrayed by their employer, and on behalf of retirees across the country who are increasingly victimized by corporate irresponsibility.

Last month in Milwaukee, the Pabst Brewing Co. abruptly informed its retirees that it would no longer provide health and death benefits. Just like that. Years of hard work and dedication. Labor agreements. Promises. Out the window.

This is a disturbing trend. Last week I introduced the Health Care Assurance for Retired Employees Act, or the CARE Act. It would provide that companies give their retirees 6 months no-

tice of any changes to their benefits. Further, the Labor Department would have to certify that the changes were in accordance with the applicable collective bargaining agreements.

Under the CARE Act, retirees aged 55 to 65 would have expanded access to health insurance under COBRA until they were eligible for Medicare. Medicare's late enrollment penalties would be waived, and a 6-month Medigap open enrollment period would be established.

I ask my colleagues to please join me in cosponsoring this bipartisan bill which will provide fair and workable safeguards for your retired constituents.

WAR ON DRUGS REQUIRES COMMITMENT AT THE TOP

(Mr. LUCAS asked and was given permission to address the House for 1 minute.)

Mr. LUCAS. Mr. Speaker, whether we like it or not, some among us are expected to be role models. By sheer virtue of a media-intensive position, actors, athletes, and politicians are often thrust into the role model limelight.

That's why it comes as no surprise that after a substantial decline during the late 80's and early 90's, overall drug use nearly doubled in the last 4 years.

It also should come as no surprise that those who idolize are often young and impressionable, and that overall drug use among 12- to 17-year-olds between 1992 and 1995 went up 78 percent.

Mr. Speaker, starting from the top, those of us in Congress and those at the other end of Pennsylvania Avenue should renew this Nation's commitment to fighting perhaps our most important war to date—the war on drugs.

CLOUD OF SHAME HANGS OVER CIA

(Ms. MCKINNEY asked and was given permission to address the House for 1 minute.)

Ms. MCKINNEY. Mr. Speaker, a cloud of shame is hanging over America's intelligence community. In August, the San Jose Mercury News reported that the Central Intelligence Agency shipped cocaine into south central Los Angeles, then used that money to buy guns to overthrow the Government of Nicaragua.

And while Aldrich Ames was busy selling us down the river, our "Central Intoxication Agency" was selling crack cocaine in south central Los Angeles.

It is no wonder we could not predict the fall of the Soviet Union; the CIA was too busy shipping crack into the United States.

Mr. Speaker, as the "Hemp-Dope" ticket traverses America proselytizing about the increase in drug use, the administration they hope to emulate, the Reagan-Bush administration, was running crack in the 1980's.

I urge my colleagues to just say "no" to the "Central Intoxication Agency" and the "Hemp-Dope" ticket.

□ 1030

THE CLINTON ADMINISTRATION AND THE WAR ON DRUGS

(Ms. GREENE of Utah asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. GREENE of Utah. Mr. Speaker, in 1993, Bill Clinton's National Security Council dropped the priority of the drug war from 3 to No. 29, that's 29th out of 29 priorities. At the same time, he slashed the Office of National Drug Policy by 83 percent.

In his budget for fiscal year 1995, Clinton proposed doing away with 621 total drug enforcement positions throughout the Government. And from 1992 to 1995, the Drug Enforcement Administration lost 227 agents.

In 1994, the Clinton administration told the Treasury Department's Financial Crimes Enforcement Network to devote only 50 percent to drug enforcement, instead of the normal 80 percent. This unit provides intelligence on money laundering by drug dealers.

And during his whole term as President, Bill Clinton has rarely talked about the drug issue or the explosion of drug use by our children.

Mr. Speaker, America cannot survive with this kind of leadership. The children of America need a President who is willing to wage a real war on drugs.

PARTIAL-BIRTH ABORTION BAN

(Mr. ROEMER asked and was given permission to address the House for 1 minute.)

Mr. ROEMER. Mr. Speaker, oftentimes over the last 2 years in this Congress we have not been bipartisan and we certainly have not looked out for the best interests of our children. Tomorrow, with the partial-birth abortion ban vote, we have an opportunity to be both bipartisan and to look out for our Nation's children.

This partial-birth abortion procedure is horrific. It is gruesome. It is totally unacceptable. I would hope Democrats and Republicans, men and women, prochoice and prolife Members would come together and join together tomorrow to have an important debate and an important vote in outlawing a procedure that hopefully most prolife and prochoice Members agree should be permanently banned in the United States of America.

IN APPRECIATION

(Mr. QUILLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. QUILLEN. Mr. Speaker, I want to thank all of those who participated in the special order in my behalf yesterday evening on the floor of the House. Their remarks brought tears to my eyes, and I appreciate it so much.

Leaving is a sad day for me, but 34 years is long enough. My career in the

House has convinced me that term limits are appropriate, and I think 17 terms should be the limit.

I want to thank my good friend JIMMY DUNCAN for spearheading the special order. His remarks were great, as were all the remarks of those who participated: JERRY SOLOMON, chairman of the Committee on Rules, spoke out in crystal clear language, and I am proud of that; BART GORDON, HAL ROGERS, and KIKA DE LA GARZA of Texas, who supplies me with onions. I am assured that Mr. DE LA GARZA is going to mail some to me even after I am out of the Congress. Thank you, thank you, and thank you. ED BRYANT, ZACH WAMP, VAN HILLEARY, DUNCAN HUNTER, and JOHN MYERS, and those who extended their remarks, you make me stand so tall and proud. I appreciate it from the bottom of my heart. God bless you all.

DOLE PROMISES EVERYTHING

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GENE GREEN of Texas. Mr. Speaker, let me say those are good ten fifteen onions developed in South Texas in Mr. DE LA GARZA's district by Texas A&M.

Mr. Speaker, I rise to address the House concerning Senator Dole going from issue to issue now in the Presidential campaign. Nothing seems to take hold. He is not talking about the tax cut as of yesterday, because the American people saw through the rhetoric and realized he could not balance the budget and cut \$548 billion in taxes at the same time.

Now he is trying to convince the public that the President's crime bill had nothing to do with the recent drop in the national crime rate. Instead he says it belongs to the Governors, who I am sure are also participants in it.

Senator Dole voted against the addition of 600 new police officers in my home town of Houston, TX, and he also voted against increased prison construction, increased border patrol, and the expansion of the death penalty in the crime bill of 1994. It is obvious that Senator Dole wants to have it both ways.

When something good happens, it is the Republican Governors; but when something bad happens, like drug use, it is the President; when Bob Dole also voted to cut the funding for safe and drug free schools.

I am confident the American people will see through this, just like they did through his tax plan.

PARTIAL-BIRTH ABORTIONS IN NEW JERSEY

(Mr. SMITH of New Jersey asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of New Jersey. Mr. Speaker, this past Sunday, New Jer-

sey's Bergen Record published a lengthy investigative report about the partial-birth abortions. I was appalled to read that a single facility in New Jersey—Metropolitan Medical in Englewood—performs at least 1,500 partial-birth abortions every year. This is three times the number of brain suction abortions that the National Abortion Federation, NARAL, and other pro-abortion groups have estimated are preformed annually throughout the country.

This revelation belies the statement of Bill Clinton that the process of sucking a baby's brains out moments before his or her full delivery is limited to 500 children per year nationally. Even if the lower number were true, however, I am stunned that he or anyone else could belittle the horror of partial-birth abortion by saying it only kills 500 children each year. This death toll exceeds the Oklahoma City bombings—an act of terrorism we have all condemned as barbaric.

What is equally as frightening is the fact that the same Record article reveals the most partial-birth abortions in New Jersey were done to teenagers, and they were done as elective procedures, not for medical reasons. Let me quote from the article.

"We have an occasional amnio abnormality, but it's a minuscule amount," said one of the doctors at Metropolitan Medical, an assessment confirmed by another doctor there. "Most are Medicaid patients, black and white, and most are for elective, not medical, reasons: people who didn't realize, or didn't care, how far along they were. Most are teenagers."

This contradicts everything the abortion President has said to justify his veto of the partial-birth abortion ban bill passed by both the House and the Senate. President Clinton should stop hiding from the truth.

An overwhelming majority of Americans believe that partial-birth abortions are infanticide and should be banned. Bill Clinton is now not only ignoring the American people, but facts and figures coming from the States and the press.

DISCREDITED HOUSE OF REPRESENTATIVES

(Mr. VOLKMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VOLKMER. Mr. Speaker, as a person who has been here for 20 years and been very proud to be a Member of the United States House of Representatives, I love this body. But today I see that this body is highly discredited. Actually, I am ashamed. We have a huge cloud that hovers over the House of Representatives, and it can be removed, but the Republican majority, under Speaker GINGRICH, refuses to remove that.

I say let the report from James Cole, the special counsel to the Committee on Standards of Official Conduct, filed

over a month ago, be given to every Member, to the media, to the public. Let it be released.

POINT OF ORDER

Mr. LINDER. Mr. Speaker, I rise to a point of order.

The SPEAKER pro tempore (Mr. HASTINGS of Washington). The gentleman from Georgia [Mr. LINDER] will state his point of order.

Mr. LINDER. Mr. Speaker, the gentleman in the well is referring to matters before the Committee on Standards of Official Conduct, which is prohibited by the rules of the House.

The SPEAKER pro tempore. The Chair sustains the point of order and asks the gentleman from Missouri to keep his remarks in order.

Mr. VOLKMER. Mr. Speaker, it is very apparent to me that Speaker GINGRICH and the Ethics Committee chairman are going to do a coverup and we are never going to see that report. We are going to adjourn here in a few weeks without anyone ever knowing what is in that report. I do not know what is in that report.

Mr. LINDER. Point of order, Mr. Speaker.

The SPEAKER pro tempore. The time of the gentleman from Missouri [Mr. VOLKMER] has expired.

APPOINTMENT OF CONFEREES ON H.R. 3259, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1997

Mr. COMBEST. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3259) to authorize the appropriations for fiscal year 1997 for intelligence and intelligence-related activities of the U.S. Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas? The Chair hears none and, without objection, appoints the following conferees:

From the Permanent Select Committee on Intelligence, for consideration of the House bill and the Senate amendment, and modifications committed to conference: Messrs. COMBEST, DORNAN, YOUNG of Florida, HANSEN, LEWIS of California, GOSS, SHUSTER, MCCOLLUM, CASTLE, DICKS, RICHARDSON, DIXON, TORRICELLI, COLEMAN, and SKAGGS, and Ms. PELOSI.

From the Committee on National Security, for consideration of defense tactical intelligence and related agencies: Messrs. STUMP, SPENCE, and DELLUMS.

There was no objection.

APPOINTMENT OF CONFEREES ON S. 640, WATER RESOURCES DEVELOPMENT ACT OF 1996

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent to take from the

Speaker's table the Senate bill (S. 640) to provide for the conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and for other purposes, with a House amendment thereto, insist on the House amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania? The Chair hears none and, without objection, appoints the following conferees: Messrs. SHUSTER, YOUNG of Alaska, BOEHLERT, OBERSTAR, and BORSKI.

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered or on which a vote is objected to under clause 4 of rule XV. Such rollcall votes, if postponed, will be taken after debate has concluded on all motions to suspend the rules.

RAILROAD UNEMPLOYMENT INSURANCE AMENDMENTS ACT OF 1996

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2594) to amend the Railroad Unemployment Insurance Act to reduce the waiting period for benefits payable under that act, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2594

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Railroad Unemployment Insurance Amendments Act of 1996".

SEC. 2. WAITING PERIOD FOR UNEMPLOYMENT BENEFITS.

Subparagraph (A) of section 2(a)(1) of the Railroad Unemployment Insurance Act (45 U.S.C. 352(a)(1)(A)) is amended to read as follows:

"(A) PAYMENT OF UNEMPLOYMENT BENEFITS.—

"(i) GENERALLY.—Except as otherwise provided in this subparagraph, benefits shall be payable to any qualified employee for each day of unemployment in excess of 4 during any registration period within a period of continuing unemployment.

"(ii) WAITING PERIOD FOR FIRST REGISTRATION PERIOD.—Benefits shall be payable to any qualified employee for each day of unemployment in excess of 7 during that employee's first registration period in a period of continuing unemployment if such period of continuing unemployment is the employee's initial period of continuing unemployment commencing in the benefit year.

"(iii) STRIKES.—

"(I) INITIAL 14-DAY WAITING PERIOD.—If the Board finds that a qualified employee has a

period of continuing unemployment that includes days of unemployment due to a stoppage of work because of a strike in the establishment, premises, or enterprise at which such employee was last employed, no benefits shall be payable for such employee's first 14 days of unemployment due to such stoppage of work.

"(II) SUBSEQUENT DAYS OF UNEMPLOYMENT.—For subsequent days of unemployment due to the same stoppage of work, benefits shall be payable as provided in clause (i) of this subparagraph.

"(III) SUBSEQUENT PERIODS OF CONTINUING UNEMPLOYMENT.—If such period of continuing unemployment ends by reason of clause (v) but the stoppage of work continues, the waiting period established in clause (ii) shall apply to the employee's first registration period in a new period of continuing unemployment based upon the same stoppage of work.

"(iv) DEFINITION OF PERIOD OF CONTINUING UNEMPLOYMENT.—Except as limited by clause (v), for the purposes of this subparagraph, the term 'period of continuing unemployment' means—

"(I) a single registration period that includes more than 4 days of unemployment;

"(II) a series of consecutive registration periods, each of which includes more than 4 days of unemployment; or

"(III) a series of successive registration periods, each of which includes more than 4 days of unemployment, if each succeeding registration period begins within 15 days after the last day of the immediately preceding registration period.

"(v) SPECIAL RULE REGARDING END OF PERIOD.—For purposes of applying clause (ii), a period of continuing unemployment ends when an employee exhausts rights to unemployment benefits under subsection (c) of this section.

"(vi) LIMIT ON AMOUNT OF BENEFITS.—No benefits shall be payable to an otherwise eligible employee for any day of unemployment in a registration period where the total amount of the remuneration (as defined in section 1(j)) payable or accruing to him for days within such registration period exceeds the amount of the base year monthly compensation base. For purposes of the preceding sentence, an employee's remuneration shall be deemed to include the gross amount of any remuneration that would have become payable to that employee but did not become payable because that employee was not ready or willing to perform suitable work available to that employee on any day within such registration period."

SEC. 3. WAITING PERIOD FOR SICKNESS BENEFITS.

Subparagraph (B) of section 2(a)(1) of the Railroad Unemployment Insurance Act (45 U.S.C. 352(a)(1)(B)) is amended to read as follows:

"(B) PAYMENT OF SICKNESS BENEFITS.—

"(i) GENERALLY.—Except as otherwise provided in this subparagraph, benefits shall be payable to any qualified employee for each day of sickness after the 4th consecutive day of sickness in a period of continuing sickness but excluding 4 days of sickness in any registration period in such period of continuing sickness.

"(ii) WAITING PERIOD FOR FIRST REGISTRATION PERIOD.—Benefits shall be payable to any qualified employee for each day of sickness in excess of 7 during that employee's first registration period in a period of continuing sickness if such period of continuing sickness is the employee's initial period of continuing sickness commencing in the benefit year. For the purposes of this clause, the first registration period in a period of continuing sickness is that registration period that first begins with 4 consecutive days of

sickness and includes more than 4 days of sickness.

"(iii) DEFINITION OF PERIOD OF CONTINUING SICKNESS.—For the purposes of this subparagraph, a period of continuing sickness means—

"(I) a period of consecutive days of sickness, whether from 1 or more causes; or

"(II) a period of successive days of sickness due to a single cause without interruption of more than 90 consecutive days which are not days of sickness.

"(iv) SPECIAL RULE REGARDING END OF PERIOD.—For purposes of applying clause (ii), a period of continuing sickness ends when an employee exhausts rights to sickness benefits under subsection (c) of this section."

SEC. 4. MAXIMUM DAILY BENEFIT RATE.

Paragraph (3) of section 2(a) of the Railroad Unemployment Insurance Act (45 U.S.C. 352(a)(3)) is amended to read as follows:

"(3) The maximum daily benefit rate computed by the Board under section 12(r)(2) shall be the product of the monthly compensation base, as computed under section 1(i)(2) for the base year immediately preceding the beginning of the benefit year, multiplied by 5 percent. If the maximum daily benefit rate so computed is not a multiple of \$1, it shall be rounded down to the nearest multiple of \$1."

SEC. 5. MAXIMUM NUMBER OF DAYS FOR BENEFITS.

(a) IN GENERAL.—Subsection (c) of section 2 of the Railroad Unemployment Insurance Act (45 U.S.C. 352(c)) is amended to read as follows:

"(c) MAXIMUM NUMBER OF DAYS FOR BENEFITS.—

"(1) NORMAL BENEFITS.—

"(A) GENERALLY.—The maximum number of days of unemployment within a benefit year for which benefits may be paid to an employee shall be 130, and the maximum number of days of sickness within a benefit year for which benefits may be paid to an employee shall be 130.

"(B) LIMITATION.—The total amount of benefits that may be paid to an employee for days of unemployment within a benefit year shall in no case exceed the employee's compensation in the base year; and the total amount of benefits that may be paid to an employee for days of sickness within a benefit year shall in no case exceed the employee's compensation in the base year, except that notwithstanding section 1(i), in determining the employee's compensation in the base year for the purpose of this sentence, any money remuneration paid to the employee for services rendered as an employee shall be taken into account that is not in excess of an amount that bears the same ratio to \$775 as the monthly compensation base for that year as computed under section 1(i) bears to \$600.

"(2) EXTENDED BENEFITS.—

"(A) GENERALLY.—With respect to an employee who has 10 or more years of service as defined in section 1(f) of the Railroad Retirement Act of 1974, who did not voluntarily retire and (in a case involving exhaustion of rights to normal benefits for days of unemployment) did not voluntarily leave work without good cause, and who had current rights to normal benefits for days of unemployment or days of sickness in a benefit year but has exhausted such rights, the benefit year in which such rights are exhausted shall be deemed not to be ended until the last day of the extended benefit period determined under this paragraph, and extended unemployment benefits or extended sickness benefits (depending on the type of normal benefit rights exhausted) may be paid for not more than 65 days of unemployment or 65 days of sickness within such extended benefit period.

“(B) BEGINNING DATE.—An employee’s extended benefit period shall begin on the employee’s first day of unemployment or first day of sickness, as the case may be, following the day on which the employee exhausts the employee’s then current rights to normal benefits for days of unemployment or days of sickness and shall continue for 7 consecutive 14-day periods, each of which shall constitute a registration period, but no such extended benefit period shall extend beyond the beginning of the first registration period in a benefit year in which the employee is again qualified for benefits in accordance with section 3 on the basis of compensation earned after the first of such consecutive 14-day periods has begun.

“(C) TERMINATION WHEN EMPLOYEE REACHES AGE OF 65.—Notwithstanding any other provision of this paragraph, an extended benefit period for sickness benefits shall terminate on the day next preceding the date on which the employee attains age 65, except that it may continue for the purpose of paying benefits for days of unemployment.

“(3) ACCELERATED BENEFITS.—

“(A) GENERAL RULE.—With respect to an employee who has 10 or more years of service as defined in section 1(f) of the Railroad Retirement Act of 1974, who did not voluntarily retire, and (in a case involving unemployment benefits) did not voluntarily leave work without good cause, who has 14 or more consecutive days of unemployment, or 14 or more consecutive days of sickness, and who is not a qualified employee with respect to the general benefit year current when such unemployment or sickness commences but is or becomes a qualified employee for the next succeeding general benefit year, such succeeding general benefit year shall, in that employee’s case, begin on the first day of the month in which such unemployment or sickness commences.

“(B) EXCEPTION.—In the case of a succeeding benefit year beginning in accordance with subparagraph (A) by reason of sickness, such sentence shall not operate to permit the payment of benefits in the period provided for in such sentence for any day of sickness beginning with the date on which the employee attains age 65, and continuing through the day preceding the first day of the next succeeding general benefit year.

“(C) DETERMINATION OF AGE.—For the purposes of this subsection, the Board may rely on evidence of age available in its records and files at the time determinations of age are made.”.

(b) REPEAL OF DEADWOOD PROVISION.—Section 2(h) of the Railroad Unemployment Insurance Act (45 U.S.C. 352(h)) is repealed.

(c) REPEAL OF EXPIRED PROVISION.—Section 17 of the Railroad Unemployment Insurance Act (45 U.S.C. 368), relating to payment of supplemental unemployment benefits, is repealed.

SEC. 6. EFFECTIVE DATE.

The amendments made by this Act shall take effect on the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Pennsylvania [Mr. BORSKI] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 2594, the Railroad Unemployment Insurance Amendments of 1996. This bill was reported out of the Committee on Transportation and Infra-

structure last November and enjoyed the full support of both labor and rail management.

This bill is good for railroad workers. It reforms, it has reforms in it which are very significant. It will increase the daily unemployment benefits for railroad workers from \$36 to \$42, in line with other nonrailroad workers. It reduces the waiting period before benefits begin to accrue from 14 days to 7 days. This will produce an immediate gain of \$294 for any unemployed rail worker.

It is no secret that the railroads have been reducing the size of their work forces. In fact, rail employment is less than half what it was in 1975.

By increasing unemployment benefits for rail workers to bring them in line with other nonrail workers across America, H.R. 2594 provides a little more security for workers who know that they, too, could one day be affected by a layoff.

It is high time that the rail unemployment benefits were reformed. Some of my colleagues may remember that a virtually identical bill was passed by the 103d Congress. The legislation was never taken up by the Senate. The issue has languished ever since. We now have an opportunity to get this bill passed. It should not be missed. Both rail labor and rail management support this legislation. I urge my colleagues to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. BORSKI. Mr. Speaker, I rise in strong support of the bill, and I yield 2 minutes to the gentleman from Illinois [Mr. LIPINSKI].

Mr. LIPINSKI. Mr. Speaker, I thank the gentleman from Pennsylvania for yielding me the time.

Mr. Speaker, I rise in strong support of H.R. 2594, the Railroad Unemployment Insurance Amendments Act of 1996.

This bill has been pending for over 3 years. It was first introduced by our former colleague Al Swift in the 103d Congress. It passed the House on suspension but, like too many other good bills, died in the other body when a single Senator put a hold on it.

The bill was introduced again last year by the bipartisan leadership of our committee and was quickly reported out by a voice vote. The bill is supported by both Republicans and Democrats, by both rail labor and rail management. The bill has four major provisions. Two favor management and the other two favor labor. Both sides feel the bill is a good deal for them.

The bill raises benefit levels so that they are more in line with benefits being paid by the States for nonrailroad employees. It also shortens the waiting time before rail workers qualify for unemployment and sickness benefits. On the other hand, it reduces the number of weeks of benefits received by employees with more than 15 years seniority, and it places a limit on the earnings of employees who are receiving benefits.

Action on this bill has been held up by having various controversial amendments attached to it in the past. The manager’s amendment makes some clarifying changes to the committee-reported bill that have been worked out jointly by the majority and minority staffs. I am happy to report that we now have a clean bill that all of us can support. I recommend the bill to my colleagues and urge its passage.

□ 1145

Mr. BORSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I simply emphasize there are no taxpayer dollars involved in this. This is totally financed by the railroad industry and the railroad workers.

With that, I urge support.

Mr. ARCHER. Mr. Speaker, the Committee on Ways and Means has a strong historical interest and involvement in the financing of the railroad unemployment compensation [RRUC] system. The RRUC has been in existence since 1938. Railroad workers were initially covered by the unemployment provisions of the Social Security Act of 1935, until the Railroad Unemployment Insurance Act (Public Law 75-722) was passed in 1938 to provide a uniform unemployment insurance system for railroad workers.

The committee has been closely involved in recent legislation concerning the RRUC. The Technical and Miscellaneous Revenue Act of 1988 (Public Law 100-647) increased the railroad unemployment and sickness daily benefit rate, indexed future benefit rates, qualifying earnings requirements and the contribution base to national wage levels, established a waiting period for benefits, and included other measures to improve the railroad unemployment insurance system’s financing. The Emergency Unemployment Compensation Act of 1991, as amended in November 1993 (Public Laws 102-164 and 103-152), provided temporary extended State unemployment benefits, and also provided temporary extended benefits under the Railroad Unemployment Insurance Act.

The railroad unemployment and sickness benefit programs are financed by payroll taxes on railroad employers. The Railroad Unemployment Insurance and Railroad Unemployment Insurance Administration Accounts are part of the Federal Unemployment Trust Fund.

Since 1959, the Railroad Unemployment Trust Fund has been able to borrow funds from the railroad pension fund when employer taxes have not been sufficient to cover the costs of unemployment and sickness benefits. The RRUC program became depleted during the 1960’s and 1970’s. A rapid decline in 1981 and 1982 in railroad employment resulted in substantial borrowing from the pension system which reached peak levels at the end of 1986. Financial measures to assist the Railroad Unemployment Insurance Account were included in the Railroad Retirement Solvency Act enacted August 12, 1983.

A temporary repayment tax on railroad employers began on July 1, 1986, to initiate repayment of the loans made by the Railroad Retirement Account. The Consolidated Omnibus Budget Reconciliation Act of April 1986

(Public Law 99-272) amended the temporary unemployment insurance loan repayment tax beginning July 1, 1986, continued authority for borrowing by the Railroad Unemployment Insurance Account from the Railroad Retirement Account, and provided a contingency surtax on rail employers if further borrowing took place. The contingency surtax was replaced in 1991 by a surcharge added to employers' unemployment insurance taxes for a calendar year if the balance in the unemployment insurance account goes below \$100 million.

The 1988 Technical and Miscellaneous Revenue Act railroad unemployment insurance amendments improved financing by indexing the tax base to average national wages and experience-rating employer contributions. The 1988 amendments required the Board to make annual financial reports to Congress on the status of the unemployment insurance system. The unemployment insurance financial report that was submitted in June 1993, before the loan was repaid in full, stated that the experience-based contribution rates would keep the system solvent, even under the most pessimistic employment assumptions. The report also indicated that no new loans will be required during the 10-year projection period (fiscal years 1993-2002). The Board therefore recommended no changes to the system at that time. However, given the cash outlay subsequently applied to the repayment of the prior loans, subsequent estimates indicate that new loans in small amounts could, under pessimistic assumptions, possibly be required during part of the projection period.

With respect to H.R. 2594, the benefit increases contained in the bill are offset by increased tax revenues on rail employers by operation of current law, since employer contributions increase automatically as benefits increase. Therefore, no changes to the revenue laws are required to implement the provisions of H.R. 2594. However, because of the recent history of financial difficulties in the RRUC system, the committee will continue to closely monitor the overall financial solvency of the RRUC system, especially in light of this most recent benefit increase.

Mr. WISE. Mr. Speaker, I rise in strong support of H.R. 2594. This bipartisan bill is long overdue and will greatly improve the unemployment insurance system for the over 4,200 railroad workers in my home State of West Virginia.

This legislation was crafted by both management and labor of our Nation's railroad and will amend the existing unemployment insurance system. Last November the House Transportation and Infrastructure Committee marked up this bill and unanimously recommended passage by the full House.

This legislation will make several needed changes to the railroad unemployment insurance system. First, it will increase the maximum daily benefits from \$36 to \$42 for the current benefit year and establish a new formula for determining the benefits so that they will increase automatically in the future. Second, this legislation will shorten the waiting period before and employee is eligible to receive unemployment and sickness benefits from 14 days to 7 days. These changes are especially important to railroad workers who experience seasonal layoffs during the winter months.

This bill is a reasonable balance between labor and management concerns and I applaud both sides for their willingness to work

together on this legislation. I support this bill and hope that my colleagues in the other body would act on this legislation quickly.

Ms. MOLINARI. Mr. Speaker, I rise in strong support of H.R. 2594, the Railroad Unemployment Insurance Amendments Act of 1996. This important legislation will modernize railroad unemployment and sickness benefits so that they are more in keeping with the State systems that apply to all other industries.

Too often Republicans are accused of supporting the interests of big business over those of the working people. I am pleased today to stand in support of legislation that will directly benefit the interests of working people. H.R. 2594 will increase the daily benefits payable to unemployed rail workers from \$36 to \$42. It will also reduce the waiting time before benefits begin to accrue from 14 days to 7 days. This means an automatic increase of \$294 for any qualified employees. The cost to the industry of these increased benefits will be partially offset by a reduction in the maximum number of days of extended benefits, and a reduction in the permissible amount of outside income.

These increased rail unemployment benefits will not impose any additional costs on the American taxpayer. Because the railroad unemployment system is funded through payroll taxes, the industry will bear the full costs of the new benefits.

This bill has been awaiting enactment for a long time. The House passed virtually identical legislation in the 103d Congress, but it was never taken up by the Senate. Because of the complicated budgetary effects of the legislation, it has taken a long time to be able to bring the legislation to this point. I also want to thank my colleagues on the Budget Committee for assisting our efforts in bringing this legislation forward.

I urge my colleagues to vote "yes" on H.R. 2594.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BE-REUTER). The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 2594, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

AVIATION DISASTER FAMILY ASSISTANCE ACT OF 1996

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3923) to amend title 49, United States Code, to require the National Transportation Safety Board and individual air carriers to take actions to address the needs of families of passengers involved in aircraft accidents, as amended.

The Clerk read as follows:

H.R. 3923

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Aviation Disaster Family Assistance Act of 1996".

SEC. 2. ASSISTANCE BY NATIONAL TRANSPORTATION SAFETY BOARD TO FAMILIES OF PASSENGERS INVOLVED IN AIRCRAFT ACCIDENTS.

(a) AUTHORITY TO PROVIDE ASSISTANCE.—

(1) IN GENERAL.—Subchapter III of chapter 11 of title 49, United States Code, is amended by adding at the end the following:

"§ 1136. Assistance to families of passengers involved in aircraft accidents

"(a) IN GENERAL.—As soon as practicable after being notified of an aircraft accident within the United States involving an air carrier or foreign air carrier and resulting in a major loss of life, the Chairman of the National Transportation Safety Board shall—

"(1) designate and publicize the name and phone number of a director of family support services who shall be an employee of the Board and shall be responsible for acting as a point of contact within the Federal Government for the families of passengers involved in the accident and a liaison between the air carrier or foreign air carrier and the families; and

"(2) designate an independent nonprofit organization, with experience in disasters and posttrauma communication with families, which shall have primary responsibility for coordinating the emotional care and support of the families of passengers involved in the accident.

"(b) RESPONSIBILITIES OF THE BOARD.—The Board shall have primary Federal responsibility for facilitating the recovery and identification of fatally-injured passengers involved in an accident described in subsection (a).

"(c) RESPONSIBILITIES OF DESIGNATED ORGANIZATION.—The organization designated for an accident under subsection (a)(2) shall have the following responsibilities with respect to the families of passengers involved in the accident:

"(1) To provide mental health and counseling services, in coordination with the disaster response team of the air carrier or foreign air carrier involved.

"(2) To take such actions as may be necessary to provide an environment in which the families may grieve in private.

"(3) To meet with the families who have traveled to the location of the accident, to contact the families unable to travel to such location, and to contact all affected families periodically thereafter until such time as the organization, in consultation with the director of family support services designated for the accident under subsection (a)(1), determines that further assistance is no longer needed.

"(4) To communicate with the families as to the roles of the organization, government agencies, and the air carrier or foreign air carrier involved with respect to the accident and the post-accident activities.

"(5) To arrange a suitable memorial service, in consultation with the families.

"(d) PASSENGER LISTS.—

"(1) REQUESTS FOR PASSENGER LISTS.—

"(A) REQUESTS BY DIRECTOR OF FAMILY SUPPORT SERVICES.—It shall be the responsibility of the director of family support services designated for an accident under subsection (a)(1) to request, as soon as practicable, from the air carrier or foreign air carrier involved in the accident a list, which is based on the best available information at the time of the request, of the names of the passengers that were aboard the aircraft involved in the accident.

"(B) REQUESTS BY DESIGNATED ORGANIZATION.—The organization designated for an accident under subsection (a)(2) may request from the air carrier or foreign air carrier involved in the accident a list described in subparagraph (A).

“(2) USE OF INFORMATION.—The director of family support services and the organization may not release to any person information on a list obtained under paragraph (1) but may provide information on the list about a passenger to the family of the passenger to the extent that the director of family support services or the organization considers appropriate.

“(e) CONTINUING RESPONSIBILITIES OF THE BOARD.—In the course of its investigation of an accident described in subsection (a), the Board shall, to the maximum extent practicable, ensure that the families of passengers involved in the accident—

“(1) are briefed, prior to any public briefing, about the accident, its causes, and any other findings from the investigation; and

“(2) are individually informed of and allowed to attend any public hearings and meetings of the Board about the accident.

“(f) USE OF AIR CARRIER RESOURCES.—To the extent practicable, the organization designated for an accident under subsection (a)(2) shall coordinate its activities with the air carrier or foreign air carrier involved in the accident so that the resources of the carrier can be used to the greatest extent possible to carry out the organization's responsibilities under this section.

“(g) PROHIBITED ACTIONS.—

“(1) ACTIONS TO IMPEDE THE BOARD.—No person (including a State or political subdivision) may impede the ability of the Board (including the director of family support services designated for an accident under subsection (a)(1)), or an organization designated for an accident under subsection (a)(2), to carry out its responsibilities under this section or the ability of the families of passengers involved in the accident to have contact with one another.

“(2) UNSOLICITED COMMUNICATIONS.—In the event of an accident involving an air carrier providing interstate or foreign air transportation, no unsolicited communication concerning a potential action for personal injury or wrongful death may be made by an attorney, representative of an attorney, insurance company, or air carrier litigation representative to an individual injured in the accident, or to a relative of an individual involved in the accident, before the 30th day following the date of the accident.

“(h) DEFINITIONS.—In this section, the following definitions apply:

“(1) AIRCRAFT ACCIDENT.—The term ‘aircraft accident’ means any aviation disaster regardless of its cause or suspected cause.

“(2) PASSENGER.—The term ‘passenger’ includes an employee of an air carrier aboard an aircraft.”

(2) CONFORMING AMENDMENT.—The table of sections for chapter 11 of such title is amended by inserting after the item relating to section 1135 the following:

“1136. Assistance to families of passengers involved in aircraft accidents.”

(b) PENALTIES.—Section 1155(a)(1) of such title is amended—

(1) by striking “or 1134(b) or (f)(1)” and inserting “, section 1134(b), section 1134(f)(1), or section 1136(g)”; and

(2) by striking “either of” and inserting “any of”.

SEC. 3. AIR CARRIER PLANS TO ADDRESS NEEDS OF FAMILIES OF PASSENGERS INVOLVED IN AIRCRAFT ACCIDENTS.

(a) IN GENERAL.—Chapter 411 of title 49, United States Code, is amended by adding at the end the following:

“§ 41113. Plans to address needs of families of passengers involved in aircraft accidents

“(a) SUBMISSION OF PLANS.—Not later than 6 months after the date of the enactment of this section, each air carrier holding a certificate of public convenience and necessity

under section 41102 of this title shall submit to the Secretary and the Chairman of the National Transportation Safety Board a plan for addressing the needs of the families of passengers involved in any aircraft accident involving an aircraft of the air carrier and resulting in a major loss of life.

“(b) CONTENTS OF PLANS.—A plan to be submitted by an air carrier under subsection (a) shall include, at a minimum, the following:

“(1) A plan for publicizing a reliable, toll-free telephone number, and for providing staff, to handle calls from the families of the passengers.

“(2) A process for notifying the families of the passengers, before providing any public notice of the names of the passengers, either by utilizing the services of the organization designated for the accident under section 1136(a)(2) of this title or the services of other suitably trained individuals.

“(3) An assurance that the notice described in paragraph (2) will be provided to the family of a passenger as soon as the air carrier has verified that the passenger was aboard the aircraft (whether or not the names of all of the passengers have been verified) and, to the extent practicable, in person.

“(4) An assurance that the air carrier will provide to the director of family support services designated for the accident under section 1136(a)(1) of this title, and to the organization designated for the accident under section 1136(a)(2) of this title, immediately upon request, a list (which is based on the best available information at the time of the request) of the names of the passengers aboard the aircraft (whether or not such names have been verified), and will periodically update the list.

“(5) An assurance that the family of each passenger will be consulted about the disposition of all remains and personal effects of the passenger.

“(6) An assurance that if requested by the family of a passenger, any possession of the passenger within the control of the air carrier (regardless of its condition) will be returned to the family unless the possession is needed for the accident investigation or any criminal investigation.

“(7) An assurance that any unclaimed possession of a passenger within the control of the air carrier will be retained by the air carrier for at least 18 months.

“(8) An assurance that the family of each passenger will be consulted about construction by the air carrier of any monument to the passengers, including any inscription on the monument.

“(9) An assurance that the treatment of the families of nonrevenue passengers (and any other victim of the accident) will be the same as the treatment of the families of revenue passengers.

“(10) An assurance that the air carrier will work with any organization designated under section 1136(a)(2) of this title on an ongoing basis to ensure that families of passengers receive an appropriate level of services and assistance following each accident.

“(11) An assurance that the air carrier will provide reasonable compensation to any organization designated under section 1136(a)(2) of this title for services provided by the organization.

“(12) An assurance that the air carrier will assist the family of a passenger in traveling to the location of the accident and provide for the physical care of the family while the family is staying at such location.

“(13) An assurance that the air carrier will commit sufficient resources to carry out the plan.

“(c) CERTIFICATE REQUIREMENT.—After the date that is 6 months after the date of the enactment of this section, the Secretary

may not approve an application for a certificate of public convenience and necessity under section 41102 of this title unless the applicant has included as part of such application a plan that meets the requirements of subsection (b).

“(d) LIMITATION ON LIABILITY.—An air carrier shall not be liable for damages in any action brought in a Federal or State court arising out of the performance of the air carrier in preparing or providing a passenger list pursuant to a plan submitted by the air carrier under subsection (b), unless such liability was caused by conduct of the air carrier which was grossly negligent or which constituted intentional misconduct.

“(e) AIRCRAFT ACCIDENT AND PASSENGER DEFINED.—In this section, the terms ‘aircraft accident’ and ‘passenger’ have the meanings such terms have in section 1136 of this title.”

(b) CONFORMING AMENDMENT.—The table of sections for such chapter is amended by adding at the end the following:

“41113. Plans to address needs of families of passengers involved in aircraft accidents.”

SEC. 4. ESTABLISHMENT OF TASK FORCE.

(a) ESTABLISHMENT.—The Secretary of Transportation, in cooperation with the National Transportation Safety Board, the Federal Emergency Management Agency, the American Red Cross, air carriers, and families which have been involved in aircraft accidents shall establish a task force consisting of representatives of such entities and families, representatives of air carrier employees, and representatives of such other entities as the Secretary considers appropriate.

(b) MODEL PLAN AND RECOMMENDATIONS.—The task force established pursuant to subsection (a) shall develop—

(1) a model plan to assist air carriers in responding to aircraft accidents;

(2) recommendations on methods to ensure that attorneys and representatives of media organizations do not intrude on the privacy of families of passengers involved in an aircraft accident;

(3) recommendations on methods to ensure that the families of passengers involved in an aircraft accident who are not citizens of the United States receive appropriate assistance;

(4) recommendations on methods to ensure that State mental health licensing laws do not act to prevent out-of-state mental health workers from working at the site of an aircraft accident or other related sites;

(5) recommendations on the extent to which military experts and facilities can be used to aid in the identification of the remains of passengers involved in an aircraft accident; and

(6) recommendations on methods to improve the timeliness of the notification provided by air carriers to the families of passengers involved in an aircraft accident, including—

(A) an analysis of the steps that air carriers would have to take to ensure that an accurate list of passengers on board the aircraft would be available within 1 hour of the accident and an analysis of such steps to ensure that such list would be available within 3 hours of the accident;

(B) an analysis of the added costs to air carriers and travel agents that would result if air carriers were required to take the steps described in subparagraph (A); and

(C) an analysis of any inconvenience to passengers, including flight delays, that would result if air carriers were required to take the steps described in subparagraph (A).

(c) REPORT.—Not later than 1 year after the date of the enactment of this Act, the

Secretary shall transmit to Congress a report containing the model plan and recommendations developed by the task force under subsection (b).

SEC. 5. LIMITATION ON STATUTORY CONSTRUCTION.

Nothing in this Act or any amendment made by this Act may be construed as limiting the actions that an air carrier may take, or the obligations that an air carrier may have, in providing assistance to the families of passengers involved in an aircraft accident.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Illinois [Mr. LIPINSKI] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I strongly support this legislation. I made a promise to the families of the victims of aviation disasters when they were before our committee in June that I would bring forward such legislation, and today we are fulfilling that promise.

Airline travel is remarkably safe. Indeed, since commercial aviation began over 80 years ago, less than 13,000 people have been killed in airplane crashes. That many die every 4 months on our Nation's highways.

However, when accidents do occur, it is important that the families of the victims be treated with the utmost sensitivity and compassion. The airlines usually do the best they can.

However, when we held a hearing on June 19, we heard some real horror stories from the families, including such things as impersonal notification, such as leaving messages about the death of a loved one on an answering machine, mass burials of unidentified body parts without informing the families, discarding the belongings of the victims without notifying the families, harassment by lawyers looking for clients and journalists looking for stories, and painful delays in notification of the death of a loved one. Sometimes the airline would refuse to tell them anything for hours and hours.

As that June 19 hearing I promised the families that we would move legislation to deal with these problems, and today we bring this bill to the floor to keep that commitment. The purpose of this bill is to address many of the complaints we heard and clarify the role of the Government and the Red Cross in helping the families of future airline disasters.

Key features of this bill include: It establishes a position within the NTSB to act as a liaison between the Government and the families and between the airline and the families.

It directs the NTSB to designate an independent organization, such as the Red Cross, to take primary responsibility for the care and support of the families.

It imposes a \$1,000 fine on anyone impeding the work of the NTSB or the Red Cross.

It requires airlines to return passengers' possessions to the families, if they request it, and retain all unclaimed articles for 18 months.

It establishes a task force involving the Department of Transportation, NTSB, FEMA, the Red Cross, family representatives, and the airlines to develop a model family assistance plan, and to recommend ways to speed up the next-of-kin notification process and get the military resources more involved in the identification of passenger remains.

It requires a rule prohibiting lawyers from contacting families within 30 days of an accident, similar to the rule that now applies to the members of the Florida bar.

It makes clear that airlines can go beyond the minimum requirements in this act and do more than is required to help the families as many airlines say they do now.

It is important to emphasize that the responsibility for notifying families in the death of a loved one remains with the airline. They are the only ones in a position to verify the accuracy of the passenger manifest. However, the bill gives families another option if the airline is slow in providing notification. They could now go to the NTSB or the Red Cross for information. The airline will have to turn over its best available passenger list to the NTSB or the Red Cross immediately upon request. The NTSB or the Red Cross could then tell the family whether or not their loved one was on the list and explain the limitations on the accuracy of the list.

At our hearing 2 weeks ago the families enthusiastically supported this bill, and the airline witnesses testified that they could live with it.

This legislation will help to minimize the suffering of those who lose loved ones in airline tragedies, and I certainly want to thank the gentleman from Tennessee [Mr. DUNCAN], the gentleman from Minnesota [Mr. OBERSTAR], the gentleman from Illinois [Mr. LIPINSKI], and others: The gentleman from Illinois [Mr. LAHOOD] and the gentlewoman from Missouri [Ms. DANNER] for their help in crafting this legislation.

I also want to thank the following family representatives who played important and very constructive roles in the formulation of this legislation:

Doug Smith, president of the National Air Disaster Alliance, Victoria Cummock of the Pam Am 103 Families, Richard Kessler, who lost his wife in the ValuJet crash, and Cynthia Cox from Montoursville, PA, who lost her daughter in the TWA tragedy.

I would urge strong support for this legislation.

Mr. LIPINSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2923, the Aviation Disaster Family Assistance Act of 1996. I am pleased to be a cosponsor of this important legislation.

As a result of hearings the Subcommittee on Aviation held on the

treatment of families after aviation accidents, it was generally recognized that there are improvements that must be made to ensure that families' interests are better addressed. The legislation introduced by Chairman SHUSTER takes significant steps in that direction by requiring the National Transportation Safety Board to designate a director of family support services as well as designating an independent organization, such as the Red Cross, to provide critical support to the families.

As this bill has moved through the Transportation and Infrastructure Committee, I have consistently expressed my concern with the burden we are placing on the NTSB's already thin resources. This is something we must keep a close eye on as we consider NTSB funding in the future.

I have also expressed concern with the notification aspects of this bill. I have advocated notifying families in person, and am pleased that the legislation encourages in person notification to the extent practicable. But I also understand that in many cases, families are learning of accidents on television, and that in person notification can never be accomplished with the speed that the media reports a plane crash. While I am pleased with the steps that this measure takes toward improving the notification system, I will continue to explore ideas to enhance the system.

There is no perfect way to handle aviation disasters. Our task is to make the process both efficient and compassionate. This bill is a big step toward both those goals.

Mr. Speaker, I want to commend Chairman DUNCAN for his leadership on this legislation and for the manner in which he has handled the subcommittee the entire 104th Congress. Since I became ranking member of the Aviation Subcommittee last October, I have been impressed with your commitment to this position and the manner in which you have treated me and the other members of the subcommittee.

I also want to recognize Chairman SHUSTER, the sponsor of this legislation, and of course the distinguished gentleman from Minnesota, the ranking member of the full Committee on Transportation and Infrastructure, Mr. OBERSTAR.

Mr. Speaker, I urge support for this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield such time as he may consume to the gentleman from Tennessee [Mr. DUNCAN], the distinguished chairman of the subcommittee.

Mr. DUNCAN. Mr. Speaker, I thank the gentleman for yielding this time to me, and Mr. Speaker, I rise in strong support of H.R. 3923, the Aviation Disaster Family Assistance Act.

Let me first congratulate the chairman of the Committee on Transportation and Infrastructure, the gentleman from Pennsylvania [Mr. SHUSTER], for his strong leadership on this

very important issue, and let me say not just on this issue, but I think that Chairman SHUSTER has led our committee through two of the most active years in the history of that committee and probably in the history of all of the committees in the Congress. He has been a really outstanding chairman, and I think the people need to know that.

The Subcommittee on Aviation, which I have the privilege of chairing, held a hearing on this matter on June 19 concerning the treatment of families of passengers killed in airline accidents. We held a second hearing 2 weeks ago, and from those hearings I think we have developed some outstanding legislation. Certainly interest in this issue has been heightened by the TWA 800 tragedy, the ValuJet crash, and certain other terrible accidents that have happened.

From our hearing in June we worked to develop H.R. 3923, and we did it, I am proud to say, on a bipartisan basis with strong support from our friends, the ranking members of the full committee and the subcommittee, the gentleman from Minnesota [Mr. OBERSTAR] and the gentleman from Illinois [Mr. LIPINSKI]. And let me say that I really deeply appreciate those kind words from Mr. LIPINSKI, and I think that I certainly can echo those words back to him because I do not think any subcommittee in the Congress has a chairman and ranking member who have a closer relationship than he and I do, and we have worked so well together, along with the leadership provided by Mr. OBERSTAR, who has developed such an expertise in the field of aviation and who has done so much in this area.

In our hearings on this legislation we heard some very terrible and troubling stories, such as mass burials of unidentified body parts without informing family members, something that was very hurtful to these families; the throwing away of personal belongings of victims without notifying the families; constant harassment by lawyers and the media; and leaving messages about the death of a family member on an answering machine. Several recommendations to correct those problems were brought to our attention by witnesses at the subcommittee's hearing in June and also again a couple of weeks ago.

H.R. 3923 would establish a reliable 1-800 telephone number assigned exclusively to handle accident-related calls from family members.

It establishes a director of family support services position within the National Transportation Safety Board. It provides the NTSB with the authority to designate a third party, such as the American Red Cross, the Salvation Army, or some other outstanding organization, to be responsible for post-trauma communication and work with families.

The bill requires that personal items be returned to family members and to any survivors of an accident.

Under the bill, each airline is required to submit its family assistance plan to the Department of Transportation and to the National Transportation Safety Board for approval.

Finally, among many other provisions, H.R. 3923 would prohibit unsolicited contact of the families by lawyers, both plaintiff lawyers and insurance company lawyers, for 30 days. And I am proud to say that I think the bar has adopted a very responsible position in regard to this, and we have a very strong letter of endorsement for this provision from the Association of Trial Lawyers of America which I will include for the RECORD.

Finally, Mr. Speaker, H.R. 3923 will help improve the tremendous coordination that must take place at the accident site. It will help improve communication between the family members and those assisting family members.

I urge my colleagues to support H.R. 3923 so that we can get this legislation over to the Senate and to the President before the 104th Congress adjourns. I think this is outstanding legislation that can be proudly supported by all Members of this body.

The letter referred to follows:

ASSOCIATION OF TRIAL LAWYERS OF AMERICA,

Washington, DC, September 10, 1996.

Hon. BUD SHUSTER,
Rayburn House Office Building,
Washington, DC.

DEAR REPRESENTATIVE SHUSTER: As President of the Association of Trial Lawyers of America, I wish to commend you on your consideration of H.R. 3923, which the Aviation Subcommittee will mark-up on Wednesday, September 11, and the full Transportation Committee will mark-up on Thursday, September 12. This legislation will lend much-needed support to the families of victims of airline disasters.

In particular, the Association strongly supports sec. 5. This provision states the sense of Congress that state bar associations should adopt rules prohibiting unsolicited contact concerning a legal action with victims or aggrieved families within 30 days of an accident. ATLA's longstanding Code of Contact goes even further, and entirely prohibits unsolicited contact, regardless of when the accident occurred. We believe that the 30-day time period you provide in the bill is a reasonable minimum period during which victims and their families should not be bothered against their will with the sometimes painful question of compensation.

However, we urge the committee to go further, by strengthening this bill to also prohibiting unsolicited contact by anyone concerning potential claims they or their loved ones may have. Until a family decides to consider its options with regard to compensation, no party should take advantage of them during this delicate emotional time. This prohibition should not extend to preventing airlines of other parties from providing for the needs of the families, such as transportation to the accident site, lodging and meals—only to communications relating to the family's right to bring an action.

The shock and grief the families of aviation disasters are experiencing should be respected by all and this is not a time for outsiders to be soliciting serious discussions from the victims or their families. This rule will ensure that families, not businesses or lawyers, make the decision of when to seek compensation, and the proper mechanism for it.

Further, the Association would be pleased to participate in the task force established in sec. 4 to help assure that families' privacy is not intruded upon by any party. We believe that the families must be protected, and our position in the legal community and our strong Code of Conduct gives us a unique ability and standing to contribute to such a task force.

The Association of Trial Lawyers of America strongly supports efforts to help families of victims of transportation disasters. Without taking a position with regard to any of the other issues in the bill, we believe that this legislation is a valuable step toward sheltering families in the midst of a personal crisis. Again, we commend your action supporting these families.

Sincerely,

HOWARD TWIGGS,
ATLA President.

□ 1100

Mr. LIPINSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. OBERSTAR], the ranking member of the Committee on Transportation and Infrastructure and former chairman of the Subcommittee on Aviation.

Mr. OBERSTAR. Mr. Speaker, I appreciate the gentleman yielding time to me, and I would like to say a few words on this measure.

To the very great credit of our chairman, the gentleman from Pennsylvania [Mr. SHUSTER], in the aftermath of the ValuJet crash, when we in the committee heard some of the tragedies that have already been related by the chairman of the committee, by the chairman of the subcommittee, the gentleman from Tennessee [Mr. DUNCAN], and the gentleman from Illinois [Mr. LIPINSKI], about treatment of the families, the chairman of the committee, the gentleman from Pennsylvania [Mr. SHUSTER], made a commitment to seize on this issue, to deal with it, to bring justice, and to build upon the legislation enacted in the aftermath of PanAm 103. We are here today because of that commitment. I salute our chairman for moving decisively, and bringing this issue to closure in the House and I hope closure in the other body rapidly.

Already the commission, headed by Vice President GORE, has taken a central element of this legislation and incorporated it into the Vice President's recommendations without waiting for legislation to be enacted. Of course, enactment of the legislation will only reinforce and strengthen what the Gore commission has initiated.

There is plenty of praise and commendation to go around, beginning with the chairman of the committee, the gentleman from Pennsylvania [Mr. SHUSTER], for the leadership he has demonstrated, for the genuine caring and sensitivity that he has shown on this issue; the gentleman from Tennessee [Mr. DUNCAN], also a man of great compassion and sensitivity, who has devoted a great amount of time and effort to the issue; to the gentleman from Illinois [Mr. LIPINSKI], our

ranking member, who again spent a great deal of time with family members hearing their concerns, addressing those issues, working together with Chairman DUNCAN to resolve some of the sticker questions, and to come up with a piece of legislation that will vastly enhance the treatment of families in the aftermath of an air tragedy.

Obviously, we all hope we will never have to exercise the provisions of this legislation, but we also know that tragedies happen in aviation, for one or another cause. We need to be prepared. The FAA needs to be prepared, the DOT, the airlines have to be prepared. This legislation will put a framework around preparedness, to deal with these tragedies in the future, so never again will a family member have to agonize, waiting for information, not know where to call, be given abrupt treatment or no information whatever, worst of all.

Outside the confines of the committee, Vicki Cummock, who lost her husband in PanAm 103, has proven to be a champion on behalf of family members. She has counseled in the case of many subsequent air tragedies and helped us formulate this legislation; George Williams, a leader of another group of families of the victims of PanAm 103, has provided great insight; Bill Kessler, with his tragic experience losing his wife in the ValuJet tragedy, provided great, compassionate insight.

I also would like to mention a woman from my district, Lorelei Valerie, who lost her father in a tragic crash 6 minutes from my home in Chisholm, MN, when a commuter aircraft crashed into a hillside for want to a ground proximity warning system, and who experienced many of these similar problems: notification, treatment of the families in the aftermath of a tragedy.

This legislation takes a big step forward. The bill specifies that its provisions do not prohibit airlines from providing families, victims' families, with additional support beyond what is provided in the framework of this legislation. It does require that all airlines, regardless of the size of their fleet, have disaster response plans on file with the Department of Transportation.

The bill does not require that the plan be approved as part of the carrier's operations specifications. That would be my preference. I believe, however, that if we included such a requirement, notwithstanding that it would improve the bill, it might also impede its chances for action.

There will be an effort to develop a model plan. When such a model plan is developed, I believe the DOT should give strong consideration to promulgating regulations to require that at least the contents of the model plan be included in each carrier's own individual airline response plan. That is an issue that I am going to be watching very closely. There may come a time when we need to take a tougher approach on these response plans than we

are taking in this bill. This bill is a good step in the right direction.

I just simply put the airlines on notice and the DOT on notice that we mean business in this committee on this issue. We will not tolerate inaction or lack of compliance with the spirit of this legislation. I urge strong support and a wholehearted unanimous vote in favor of this legislation.

In 1990, Congress passed legislation that required carriers to confirm a passenger manifest in a maximum of 3 hours on international flights. The airlines have been successful in forestalling the implementation of this requirement through a rider in the early appropriations legislation. Each time I learn of an aviation accident and hear and families waiting for hours without definite word of whether their loved ones have been involved, I cannot help but blame the airlines for working so hard to find a legislative fix to allow them to keep families in a state of uncertainty longer than necessary. The recently released recommendations of the Gore Commission include a proposal that the requirement in the 1990 legislation be implemented. In fact, many of the provisions included in H.R. 3923 are also Gore Commission recommendations.

The purpose of this legislation is to help create a process that, at a minimum, does not make an already very emotional situation even more traumatic for family members. It requires that all airlines, even the smallest, have, as a prerequisite for their operation, a disaster plan submitted to the Department of Transportation. The plan must address a number of key areas, including the notification of family members, and the ongoing obligations the carrier has with respect to the information and services to be provided to the family members throughout the duration of the disaster. The bill charges the National Transportation Safety Board with designating an individual to work with the family members and provide them with periodic briefings on the status of the recovery of victims' remains and the accident investigation, as well as coordinating and disseminating to family members other pertinent information from various government entities. We have learned that it is very important that family members not feel they have to contact several different Federal, State, and local entities to be fully informed about matters of importance to them.

Also in response to the testimony received at our June hearing, this bill requires that the NTSB designate an independent nonprofit organization with experience in disaster response to work with the families to provide information and counseling as required. In the hearing, the Red Cross was mentioned specifically as an organization that would be well suited to the role envisioned, and we have worked with that organization in developing this legislation.

This legislation does not improve the safety of commercial aviation or the adequacy of the Federal Aviation Administration's oversight of airlines, yet it address something that, in its own way, is just as important; the need for compassionate treatment of people who have suffered the unexpected loss of a loved one. The legislation is intended to help people who are desperate for information about their father, husband, son. It is intended to protect people who are hounded by the media as they seek news about the safety of their mother,

wife, daughter. It is intended to assist people who are subjected to lawyers eager to take advantage of their vulnerability and great personal loss to gain a percentage of a potential financial award.

This legislation is about providing compassion and respect for individuals experiencing deep grief. I think the fact that we need legislation to mandate compassion is a sad statement about our society, but I am gratified that, having seen a need, our committee has been able to respond in a timely manner.

The victims' families have known deep loss and shared similar experiences at the hands of Government agencies and the media. Some of these individuals have gone on to use their painful experiences to help others deal with their grief under similar circumstances, and we have worked with these individuals to develop this legislation, and will hear from some of them again today. Their shared experience has helped us in the legislative process. They understand the need to ensure that the dignity of the families will be preserved to the extent possible under extremely adverse conditions.

It is important to understand that there are services that an airline can provide that no government or independent agency can. As private companies, airlines can authorize immediate expenditures to provide transportation and lodging to family members, as well as accommodate other requirements they may have. Most large airlines have established disaster plans in place and trained individuals at the ready in the event of an accident. In fact, some airlines have worked with the family members groups who have testified before our committee to develop or modify their disaster response plans. Many airlines provide each family with the name and telephone number of an airplane employee who will work with them to provide them with the information and services needed. The airline representatives can help provide family members with assistance that is tailored to the needs of an individual family. For example, airlines have accommodated a family's need for money to make a mortgage payment or school tuition that comes due during the tragedy. This bill recognizes the need to preserve the airline's ability to provide financial support and other assistance to family members during emotionally stressful times. The role that many airlines have played in response to an accident cannot be duplicated by any Federal, State, or independent agency, and the services they provide must not be sacrificed in a naive attempt to eliminate contact between airlines and families.

However, while this bill specifies that its provisions do not prohibit airlines from providing the victims' families with additional support, it does require that all airlines, regardless of the size of their fleet, have disaster response plans on file with the Department of Transportation. The bill does not require that the plan be approved as part of the carrier's operations specifications. I believe that if we included such a requirement, it would improve the bill. But I recognize that there will be an effort to develop a model plan. After such a plan is developed, I believe the DOT should give very strong consideration to promulgating regulations to require that at least the contents of the model plan be in each carrier's own

plan. I will be watching this issue closely. There may come a time when we need to take a more firm approach on these plans than we are taking today in this bill.

I urge my colleagues to pass this important legislation.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I anticipate the overwhelming passage of this legislation today, and with its passage, it will mark the eighth piece of aviation legislation which this body has overwhelmingly passed and sent to our colleagues in the other body.

Unfortunately, they have not acted yet on any of those pieces of legislation. Of the seven that we have sent over, the one that had the poorest vote showing was a vote of 389 to 22, so I think that demonstrates the extraordinary, overwhelming bipartisan support for the aviation measures which this body has passed and sent to the other side.

So it is my hope that in the waning days of this Congress, our colleagues on the other side of the Capitol will indeed move these very, very important pieces of aviation legislation, not the least of which is this very important family bill that is before us today.

Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Illinois [Mr. WELLER], the distinguished vice chairman of the Subcommittee on Aviation.

Mr. WELLER. In a spirit of bipartisanship, I rise in strong support of this bipartisan bill, Mr. Speaker. This legislation responds to the pleas we all heard from families at the Subcommittee on Aviation hearings in June and then again on September 5. At our subcommittee markup the bill, as revised, reflects some of the concerns raised by the families, the airlines, and the Red Cross.

Specifically, the bill requires the NTSB to designate an employee to act as a point of contact with the families within the Federal Government and as a liaison between the airline and the families. The NTSB is also directed to designate an independent, nonprofit organization; for example, the Red Cross, to address some of the emotional needs called upon by the families.

H.R. 3923 sets out in some detail the responsibilities of the NTSB, the Red Cross, and the airlines. It is very important to note that the airlines will continue to be responsible for notifying the families of the death of a loved one. However, the bill also requires that the passenger list be turned over to the National Transportation Safety Board, the NTSB, and the Red Cross, if requested, so families will have someone else to turn to if the airline notification process is too slow.

As we all know, Mr. Speaker, there were too many complaints from families about the ValuJet and TWA crashes, but these complaints did not originate with these accidents. Similar problems have been brewing for many

years, going back to KAL 007 flight and PanAm 103. At our hearing in June, Chairman SHUSTER committed to the families that we would develop legislation in response to their concerns. This bill, a bipartisan bill, fulfills that commitment.

But we never could have done it without the bipartisan cooperation and input of the ranking members, the gentleman from Minnesota [Mr. OBERSTAR] and the gentleman from Illinois [Mr. LIPINSKI], whose experience and viewpoint made them invaluable partners in this process. I also would like to thank the gentleman from Tennessee [Mr. DUNCAN], the chairman, the gentleman from Illinois [Mr. LAHOOD], the gentlewoman from Missouri [Ms. DANNER], who made significant contributions to this bill.

This bill has broad-based sponsor support. We have over 40 cosponsors. So in short, Mr. Speaker, I think we have a good, well-balanced, thoughtful piece of legislation. I urge bipartisan support.

Ms. JACKSON-LEE of Texas. Mr. Speaker, given the recent crashes of a ValuJet flight in Florida and a TWA flight off the coast of Long Island, the Aviation Disaster Family Assistance Act is both timely and necessary. This bill will provide the National Transportation Safety Board to designate an employee as a family advocate. The family advocate would serve as a point of contact within the Federal Government for the families of victims, act as liaison between the families and the airline, and obtain the passenger list and use it to provide information to the families.

The measure also prohibits making unsolicited contacts with any individual injured in an airline crash or with the family of any victim of an airline crash for 30 days after the crash.

This measure will provide some protection and comfort to families who experience the painful uncertainty of not knowing the fate of a family member or the horror of losing a loved one. Hopefully, no one will have to suffer the terrible uncertainty and apprehension that Pam Lynchner's family in my hometown of Houston, TX, had to go through after the crash of that fateful TWA flight, without some comfort and counseling.

Mr. MCDADE. Mr. Speaker, I rise in strong support of H.R. 3923, the Aviation Disaster Family Assistance Act, a measure which will reform the National Transportation Safety Board's procedures for assisting families of aviation accident victims. As a cosponsor of this vital bill, I want to thank Chairman BUD SHUSTER of the Transportation and Infrastructure Committee for his timely efforts in bringing this very necessary legislation to the floor.

This measure will address many of the problems confronting families of air disaster victims such as those who lost loved ones in the ValuJet and TWA flight 800 aviation disasters. The need for this bill became apparent after these air disasters, where family members of victims complained about the bureaucratic friction which they had to fight through to determine the status of their loved ones. After the TWA flight 800 disaster, I became personally involved in this process when families from Montoursville, PA, in my district, faced the loss of sons, daughters, parents, friends, and neighbors. Regrettably, the cur-

rent mission of the National Transportation Safety Board does not include any requirements for coordinating care and support for the victim's families. H.R. 3923 will empower the NTSB, the logical organization to fulfill this mission, to advocate, support, and care for these families in their moment of need.

During the recent TWA 800 disaster, many families complained of poor handling of the situation by airline personnel, lawyers, and the press. The families and I were constantly confronted with bureaucratic friction in obtaining a list of passengers, securing for the victim's families a dedicated liaison officer between TWA, the U.S. Coast Guard, the NTSB, and the Suffolk County coroner's office. Many had to wait days for airline confirmation of their loved ones' deaths. They also waited weeks for identification of recovered bodies because the local authorities refused to accept outside assistance. These experiences are the motivation behind this bill, designed to establish guidelines for informing the families of victims and to spare families of future victims needless frustration during such trying circumstances.

The day after the TWA 800 crash, my office directly contacted the chairman of the National Transportation Safety Board, the vice president of operations for TWA and the Suffolk County coroner. Through this effort, I was able to obtain a U.S. Coast Guard liaison officer detailed to the Montoursville families, the passenger manifest for the families, and private briefings from the Suffolk County coroner's office. This measure will establish the National Transportation Safety Board as the lead organization to fulfill similar liaison functions in the future.

H.R. 3923 will require the NTSB to designate an NTSB employee as a family advocate who will coordinate care and support for the families through the Red Cross, the airline, and pertinent disaster response agencies. Specifically, the NTSB will coordinate the recovery and identification of accident victims, obtain the passenger manifest, brief families before press conferences, and inform families of any scheduled public hearings on the accident. The bill additionally tasks agencies such as the Red Cross to provide counseling to the families, ensure the privacy of the families from the media and lawyers, arrange a suitable memorial service, and to use the airline's resources as suitable.

The airlines will be required to submit a plan within 6 months for addressing the needs of families, publicize a reliable, toll-free number for handling calls from family members, immediately provide the passenger list to the family advocate and the Red Cross, even if all names have not been verified. The airlines must additionally consult the families before disposing of all remains and return the passenger's possessions to the families and retain all unclaimed possessions for 2 years. The bill will establish a task force involving the Department of Transportation, NTSB, Federal Emergency Management Association, the Red Cross, family representatives, and the airlines to develop a model family assistance plan and recommend ways to prevent lawyers and the media from violating family privacy.

Mr. Speaker, it is clear, after our experiences with the recent ValuJet and TWA 800 disasters, that there is a need for a dedicated Federal agency to address the Nation's air disaster response problems. I therefore urge

passage of this vital legislation and thank Chairman SHUSTER for his excellent efforts in bringing this bill to the floor in a timely fashion.

Mr. LAZIO of New York. Mr. Speaker, as an original cosponsor of H.R. 3923, the Aviation Disaster Family Assistance Act, I rise to express my strong support for this important bill designed to ensure that families of aviation accident victims receive timely emotional care and support when they most need it.

Those whose loved ones perish or are injured in airline crashes are particularly vulnerable as illustrated by the recent experiences of families of the victims of the TWA flight 800 tragedy near my district on Long Island, and the ValuJet crash in the Everglades. The surviving families require immediate attention by personnel who are adequately trained and experienced in handling these disasters.

H.R. 3923 makes the National Transportation Safety Board the lead Federal agency in dealing with the needs of victims' families. An NTSB employee would serve as a family advocate to act as a point of contact between the Federal Government and family members, as well as a liaison between the families and the airline.

In addition, the NTSB would designate an organization experienced in dealing with families in times of crisis—such as the Red Cross—to coordinate the care and support of families; meet with families who come to the scene of the accident; provide counseling to the families; ensure the privacy of the families; inform the families of the role of government agencies and the airline; arrange a proper memorial service; obtain a passenger list to provide information to families; and, use the airline's personnel and resources as needed.

Other important features of H.R. 3923 require the airline to submit a plan within 6 months for addressing the needs of the families of passengers involved in an airline crash; publicize a reliable toll-free number for handling calls from family members; notify families as soon as possible of the fate of their loved ones using trained personnel; and, provide the passenger list to the family advocate and the Red Cross immediately, even if all names have not been verified.

Finally, the bill creates a task force to develop a model family assistance plan, which would be completed and sent to Congress within a year. The task force would involve the NTSB, the Department of Transportation, the Federal Emergency Management Agency, the Red Cross, family representatives, as well as the airlines.

Families and friends, and often whole communities, are affected by these tragedies. The role of the Federal Government must be to support victims' families in any way possible, to help ease their pain after losing a loved one. They deserve no less, and I urge my colleagues to support this bill before us today.

Mr. BLUTE. Mr. Speaker, I rise in strong support of the Aviation Disaster Family Assistance Act. I learned first hand of the horrible experience that families of victims of air disasters go through.

A woman from my district in Swansea, MA lost her parents in the tragic incident that brought down TWA Flight 800 on July 17, 1996. She learned by reading the plane's manifest in the newspaper that her parents did, in fact, perish in this horrific aviation incident. Days after the plane crash this woman continued to receive unacceptable treatment

from the airline. She found herself caught in a bureaucratic nightmare when trying to get her daughter home from overseas to attend a memorial service. She was forced through hoop after hoop to simply confirm her daughter's relationship to the deceased. This is not the kind of experience one should be expected to go through during this period of enormous grief.

Therefore, I cosponsored this legislation and I commend Chairman SHUSTER and Chairman DUNCAN for moving this bill on a fast track. The legislation before us today reforms procedures for dealing with families of aviation accident victims. This bill establishes a family advocate within the National Transportation Safety Board [NTSB] to act as a liaison between the Government and the families, and it directs the NTSB to designate an independent organization, such as the Red Cross, to take primary responsibility for the emotional care and support of families. The bill also directs the airline to release the passenger list to the family advocate and Red Cross immediately so that families will have another option in their quest for information about the fate of loved ones.

To lose a loved one in an aviation disaster is a sudden and emotionally devastating experience. I am pleased to be a part of legislation that will help to ease this burden on families in the future.

Mr. LIPINSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 3923, as amended.

The question was taken.

Mr. LIPINSKI. Mr. Speaker, on that, I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore (Mr. BE-REUTER). Pursuant to clause 5 of rule I and the Chair's prior announcement, further proceedings on this motion will be postponed.

DEEPWATER PORT MODERNIZATION ACT

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2940) to amend the Deepwater Port Act of 1974, as amended.

The Clerk read as follows:

H.R. 2940

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Deepwater Port Modernization Act".

SEC. 2. DECLARATIONS OF PURPOSE AND POLICY.

(a) PURPOSES.—The purposes of this Act are to—

(1) update and improve the Deepwater Port Act of 1974;

(2) assure that the regulation of deepwater ports is not more burdensome or stringent than necessary in comparison to the regulation of other modes of importing or transporting oil;

(3) recognize that deepwater ports are generally subject to effective competition from alternative transportation modes and eliminate, for as long as a port remains subject to effective competition, unnecessary Federal regulatory oversight or involvement in the ports' business and economic decisions; and

(4) promote innovation, flexibility, and efficiency in the management and operation of deepwater ports by removing or reducing any duplicative, unnecessary, or overly burdensome Federal regulations or license provisions.

(b) POLICY.—Section 2(a) of the Deepwater Port Act of 1974 (33 U.S.C. 1501(a)) is amended—

(1) by striking "and" at the end of paragraph (3);

(2) by striking the period at the end of paragraph (4) and inserting a semicolon; and

(3) by inserting at the end the following:

"(5) promote the construction and operation of deepwater ports as a safe and effective means of importing oil into the United States and transporting oil from the outer continental shelf while minimizing tanker traffic and the risks attendant thereto; and

"(6) promote oil production on the outer continental shelf by affording an economic and safe means of transportation of outer continental shelf oil to the United States mainland."

SEC. 3. DEFINITIONS.

(a) ANTITRUST LAWS.—Section 3 of the Deepwater Port Act of 1974 (33 U.S.C. 1502) is amended—

(1) by striking paragraph (3); and

(2) by redesignating paragraphs (4) through (19) as paragraphs (3) through (18), respectively.

(b) DEEPWATER PORT.—The first sentence of section 3(9) of such Act, as redesignated by subsection (a), is amended by striking "such structures," and all that follows through "section 23," and inserting the following: "structures, located beyond the territorial sea and off the coast of the United States and which are used or intended for use as a port or terminal for the transportation, storage, and further handling of oil for transportation to any State, except as otherwise provided in section 23, and for other uses not inconsistent with the purposes of this Act, including transportation of oil from the United States outer continental shelf."

SEC. 4. LICENSES.

(a) ELIMINATION OF UTILIZATION RESTRICTIONS.—Section 4(a) of the Deepwater Port Act of 1974 (33 U.S.C. 1503(a)) is amended by striking all that follows the second sentence.

(b) ELIMINATION OF PRECONDITION TO LICENSING.—Section 4(c) of such Act is amended—

(1) by striking paragraph (7); and

(2) by redesignating paragraphs (8), (9), and (10) as paragraphs (7), (8), and (9), respectively.

(c) CONDITIONS PRESCRIBED BY SECRETARY.—Section 4(e)(1) of such Act is amended by striking the first sentence and inserting the following: "In issuing a license for the ownership, construction, and operation of a deepwater port, the Secretary shall prescribe those conditions which the Secretary deems necessary to carry out the provisions and requirements of this Act or which are otherwise required by any Federal department or agency pursuant to the terms of this Act. To the extent practicable, conditions required to carry out the provisions and requirements of this Act shall be addressed in license conditions rather than by regulation and, to the extent practicable, the license shall allow a deepwater port's operating procedures to be stated in an operations manual approved by the Coast Guard rather than in detailed and specific license conditions or regulations; except that basic standards and conditions shall be addressed in regulations."

(d) ELIMINATION OF RESTRICTION RELATING TO APPLICATIONS.—Section 4(e)(2) of such Act is amended by striking "application" and inserting "license".

(e) FINDINGS REQUIRED FOR TRANSFERS.—Section 4(f) of such Act is amended to read as follows:

"(f) AMENDMENTS, TRANSFERS, AND REINSTATEMENTS.—The Secretary may amend, transfer, or reinstate a license issued under this Act if the Secretary finds that the amendment, transfer, or reinstatement is consistent with the requirements of this Act."

SEC. 5. INFORMATIONAL FILINGS.

Section 5(c) of the Deepwater Port Act of 1974 (33 U.S.C. 1504(c)) is amended by adding the following:

"(3) Upon written request of any person subject to this subsection, the Secretary may make a determination in writing to exempt such person from any of the information filing provisions enumerated in this subsection or the regulations implementing this section if the Secretary determines that such information is not necessary to facilitate the Secretary's determinations under section 4 of this Act and that such exemption will not limit public review and evaluation of the deepwater port project."

SEC. 6. ANTITRUST REVIEW.

Section 7 of the Deepwater Port Act of 1974 (33 U.S.C. 1506) is repealed.

SEC. 7. OPERATION.

(a) AS COMMON CARRIER.—Section 8(a) of the Deepwater Port Act of 1974 (33 U.S.C. 1507(a)) is amended by inserting after "sub-title IV of title 49, United States Code," the following: "and shall accept, transport, or convey without discrimination all oil delivered to the deepwater port with respect to which its license is issued,".

(b) CONFORMING AMENDMENT.—Section 8(b) of such Act is amended by striking the first sentence and the first 3 words of the second sentence and inserting the following: "A licensee is not discriminating under this section and".

SEC. 8. MARINE ENVIRONMENTAL PROTECTION AND NAVIGATIONAL SAFETY.

Section 10(a) of the Deepwater Port Act of 1974 (33 U.S.C. 1509(a)) is amended—

(1) by inserting after "international law" the following: "and the provision of adequate opportunities for public involvement";

(2) by striking "shall prescribe by regulation and enforce procedures with respect to any deepwater port, including, but not limited to," and inserting the following "shall prescribe and enforce procedures, either by regulation (for basic standards and conditions) or by the licensee's operations manual, with respect to"; and

(3) by redesignating clauses (A), (B), and (C) as clauses (1), (2), and (3), respectively.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Pennsylvania [Mr. BORSKI] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I am pleased to yield such time as he might consume to the gentleman from New York [Mr. BOEHLERT].

Mr. BOEHLERT. Mr. Speaker, I thank the distinguished chairman of the committee for yielding time to me.

Mr. Speaker, I rise this morning in strong support of this bipartisan legislation to improve the way we manage and promote the use of deepwater ports. Unfortunately, only one deep-

water port has been constructed since the passage of the original 1974 Deepwater Ports Act, the Loop facility off the coast of Louisiana.

Deepwater ports make environmental and transportation safety sense, and with the passage of this measure, deepwater ports will make economic sense. By unloading supertankers laden with oil in deep offshore waters, we can dramatically reduce the likelihood of catastrophic oil spills like we have witnessed on both the Pacific coast and, most recently, off the coast of Rhode Island.

The Louisiana delegation has long realized the benefits of deepwater ports and has taken the lead in developing H.R. 2940. The gentleman from Louisiana [Mr. HAYES] has been especially effective in educating the members of the Committee on Transportation and Infrastructure on the merits of deepwater ports. Deepwater ports will become increasingly important as traffic entering our Nation's ports continues to grow.

This legislation has been developed with extensive input from transportation and environmental interests, and I am confident that this measure reflects the best ideas of both of these very important constituencies. We should be doing more to promote the use of deepwater ports, and this legislation is a huge step in the right direction.

As we enter into the next century, it would be my hope that we could develop deepwater ports for the Atlantic and Pacific coast as well. I urge all of my colleagues to support the passage of this Deepwater Port Modernization Act.

I thank the ranking member of our subcommittee, the gentleman from Pennsylvania [Mr. BORSKI], for his cooperation, I thank the distinguished chairman of the full committee, the gentleman from Pennsylvania [Mr. SHUSTER], for his leadership, and the ranking member of the full committee, the gentleman from Minnesota [Mr. OBERSTAR], for his partnership. Together we are moving on important legislation.

Mr. BORSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 2940, the Deepwater Port Modernization Act, which will help streamline the layers of regulation that apply to deepwater ports. Despite the ever growing thirst in this country for imported oil, there is currently only one deepwater port operating, and that port, the Loop facility in Louisiana, is only operating at 60 percent of its capacity.

The changes contained in H.R. 2940 should make it easier for deepwater ports to compete against other shipment options which do not face the same complex web of regulations. With passage of H.R. 2940, coordinated licenses and operation manuals will streamline the process. I want to emphasize that a provision in the intro-

duced bill that would have allowed a relaxation of environmental monitoring requirements for deepwater ports has been removed to address serious concerns about it.

H.R. 2940 contains only modest changes to existing law. Hopefully these changes will be enough to provide the springboard for more widespread use of deepwater ports for oil imports that was envisioned by the Deepwater Port Act of 1974. During the past 3 years a daily average of 700,000 barrels of oil have passed through the 48-inch pipeline that links the Louisiana offshore oil port 18 miles off the Louisiana coast to its inland storage terminal.

Loop is the off-loading point for about 12 percent of the Nation's oil imports. With the passage of this bill, and as the Nation's oil imports increase, Loop and other proposed deepwater ports should be used on a greater scale. H.R. 2940 is a sensible streamlining of regulations for an efficient means of meeting our Nation's needs for imported oil.

I believe very strongly, Mr. Speaker, that we should be working to reduce the demand for imported oil. Our Nation cannot maintain its position as a global power if we continue to increase our demand for foreign oil on a virtually unlimited basis.

However, until we begin to turn our oil import policy around, the use of deepwater ports makes sense. I urge support of H.R. 2940, the Deepwater Port Modernization Act.

Mr. Speaker, I reserve the balance of my time.

□ 1115

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

I would urge strong support for this legislation which is bipartisan and updates and improves the Deep Water Port Act of 1974. Representative JIMMY HAYES along with other colleagues introduced this legislation back in February. Our committee held hearings and worked with all the interested parties to craft this legislation. In some respects, the 1974 act has worked very well. However, there is a clear need to modernize and improve this act in several areas which have already been outlined. The committee report on this legislation contains a detailed description of the bill and of the committee's intent.

Finally, let me thank the ranking Democrat of the committee, JIM OBERSTAR, the chairman and ranking member of the Water Resources and Environment Subcommittee, SHERRY BOEHLERT and BOB BORSKI, and the chairman and ranking member of the Coast Guard and Maritime Transportation Subcommittee, HOWARD COBLE and BOB CLEMENT. They have been very instrumental in moving this important legislation. I would urge its strong support.

Mr. Speaker, I reserve the balance of my time.

Mr. BORSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Tennessee [Mr. CLEMENT], the distinguished ranking member of the Subcommittee on Coast Guard and Maritime Transportation.

Mr. CLEMENT. Mr. Speaker, I rise in strong support of H.R. 2940, the Deepwater Port Modernization Act. This bill will streamline the licensing and operating procedures.

On March 28, the Subcommittee on Coast Guard and Maritime Transportation held a joint hearing on this bill with the Subcommittee on Water Resources. At that time we received testimony from the administration, the deepwater port industry, and the environmental community on this legislation and how this industry has developed much differently from what was anticipated when the Deepwater Port Act was enacted in 1974.

The amendments contained in H.R. 2940 will allow the deepwater facility in Louisiana and the proposed deepwater port in Texas to meet new market conditions. For example, the present law prohibits the deepwater port from shipping oil from other oil production facilities on our outer Continental Shelf to refineries on shore. This prohibition is eliminated to allow these facilities more flexibility in their operations.

Since we have had only one deepwater port built to date, the regulations and licensing process were designed for that single facility. As a result the bureaucratic hurdles that must be overcome to make minor changes to the facility are overly burdensome and expensive. H.R. 2940 will allow many of the day-to-day decisions affecting the facility and minor modifications to the port to be completed by getting the approval of the local Coast Guard captain of the port instead of the Secretary of Transportation.

The history of the deepwater port in Louisiana demonstrates that this facility is safe and poses less of a threat to the environment than lightering crude oil between two floating tankers.

I am hopeful that H.R. 2940 will make the LOOP deepwater port facility more cost efficient and promote the construction of other deepwater ports in the United States.

I urge my colleagues to support the passage of H.R. 2940, the Deepwater Port Modernization Act.

Mr. SHUSTER. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Louisiana [Mr. HAYES] who has been a prime mover of this legislation.

Mr. HAYES. Mr. Speaker, I wish to thank both sides of the aisle, in the room as well as in the committee, and to briefly repeat the argument that was made that as a consequence of our energy dependence, we have the extraordinary circumstance where America is now looking at more of its energy needs coming from the region in the world that is most unstable, so that even with a small skirmish in the northern part of one country, the price

of a barrel of oil moves up almost 30 percent. This just cannot be acceptable as future energy policy.

In connection with what the House has done earlier in recognizing additional production that can be gained through advanced technology on our Outer Continental Shelf, it then becomes a simple question to understand what is the most environmentally efficient way to try to reduce energy dependence as well as to make sure that those folks in Pennsylvania, in the Northeast, as well as at my home on the gulf coast, are able to plan their future needs based upon a price of energy that allows them to lead their daily lives.

The answer is, we have got to increase the ability to move these ports. Whenever they give you a quote in a national news media about the price of oil, they do not tell you the cost to get it to the pump. When you begin looking at tens of thousands of miles in movement each and every year, you understand that all of that cost is added on, as opposed to shallow and deep offshore with much smaller distances to move.

The environmental dangers elevate with every mile that a tanker moves, and therefore, energy dependence on the Middle East also means environmental concerns and fears at a higher and higher level.

Finally, to my knowledge, no one in this place that keeps a notebook and a report on just about every subject has ever calculated the cost of our military presence in a region that we defend almost solely because of its energy production capability that we are so dependent upon. I wonder what the price of a barrel of oil would be in the Middle East if you put on the line all of those military personnel, aircraft carriers, and F-117A's that make that security, hopefully, dependable for the immediate future.

With that in mind, I want to again thank my colleagues on both sides of the aisle. This is the right thing for the only existing facility in Louisiana, and Louisiana is doing the right thing in helping to ensure the energy independence of America's future, for Pennsylvania and the rest of the Nation.

Mr. BORSKI. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota [Mr. OBERSTAR], the distinguished ranking member of the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, this bill has a broad consensus now and should pass. It was not always so.

At the outset, when the legislation was first proposed to revitalize the Louisiana offshore oil port and to revitalize the basic underlying law itself, there was considerable environmental concern and vigorous opposition. In fact, there were concerns expressed by the Department of Transportation that wanted to maintain a very strong regulatory hold on this legislation. Those concerns came to my attention.

I discussed these matters with the gentleman from Pennsylvania [Mr. SHUSTER], our chairman, and with the gentleman from New York [Mr. BOEHLERT] and the gentleman from Pennsylvania [Mr. BORSKI], the chairman and ranking member of the subcommittee, and we set about on our side to resolve within our Democratic ranks the outstanding issues. We brought in the environmental groups, we brought in the Department of Transportation, we heard them out, and we came up with proposals which I think were well received by the majority. We worked out a very fine bipartisan solution.

I say that because I have a piece of legislation pending in the other body that is not receiving the same kind of comity. I would hope that the leading supporters of this legislation in the other body would extend the same comity to concerns House Members have about issues that are intensely of concern to the people in their district.

This legislation is going to benefit not only the Louisiana offshore oil port but all future possible deep water ports by allowing ports to become more competitive, be more efficient and to do so in an environmentally safe regime with economic considerations that will advance the cause of energy efficiency and keep the cost of imported energy within reach and keep our U.S. ports competitive.

We can do those things when we work together on a sound, bipartisan, constructive basis, to look at what is best for the overall interests of the country. I urge the same kind of comity from our colleagues in the other body.

It had been my intention to obstruct the passage of this legislation by asking for a recorded vote, but I will not do that out of respect for our chairman and out of respect for the merits of the issue and in hopes that we get the attention of our colleagues across the way.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

I want to assure the gentleman from Minnesota that, as he knows, I am very well aware of the important legislation that he is referring to in the other body and as he knows we have already expressed our strong support for his legislation and this legislation, while I expect will pass the House overwhelmingly today, of course, what happens as we go to conference is a question mark and that question could be answered in the affirmative or the negative based on the comity which we know our good friends in the other body are likely to give to us.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I support this important legislation. It amends the Deepwater Port Act to remove some restrictions on the use of deepwater ports and clarifies and simplifies certain Coast Guard regulations. This legislation is designed to strengthen the ability of deepwater oil ports off of the U.S. coast beyond U.S. territorial waters to conduct their business. There is currently only one licensed deepwater port off of the

coast of the United States, which is the Louisiana Offshore Oil Port. I hope this legislation will help us see more of such ports off of the U.S. coast, especially in my home State of Texas.

With respect to operations of a deepwater port, the bill would require deepwater ports to only comply with regulations established in the Transportation Department's facilities operations manual instead of the various other licensing provisions that are currently required. Additionally, the bill would enable the Coast Guard to streamline the approval process for maintaining certain environmental safeguards.

Mr. HAYES. Mr. Speaker, when the U.S. House of Representatives first debated the merits of deepwater ports on June 6, 1974, Members on that day supported the concept of deepwater ports much for the same reasons that we support them here today—deepwater ports make environmental and economic common sense. This afternoon, H.R. 2940, the Deepwater Port Modernization Act, epitomizes the very essence of how this 104th Congress has tried to streamline our Federal regulatory structure to better meet the needs of the regulated community while still protecting the public interest and the environment.

H.R. 2940 will reduce the top-down, duplicate and unnecessary barriers that inhibit our Nation's only deepwater port—the Louisiana Offshore Oil Port [LOOP]—from making the business decisions required to most effectively compete in today's marketplace. This bill will make it easier for other potential deepwater ports to be constructed and operated successfully. Finally, H.R. 2940 will further improve one of the most cost effective and environmentally friendly means of transporting crude oil onshore.

The Deepwater Port Modernization Act clarifies LOOP's authority to receive oil from the Outer Continental Shelf [OCS]. Deepwater finds will significantly reduce our national dependence on imported oil and help keep more investments in oil exploration and production in Louisiana. Approximately 30 discoveries have been made by the offshore oil and gas industry on deepwater leases in the Gulf of Mexico, amounting to an estimated total of 3 to 4 billion barrels of oil. Recent discoveries have the possibility to provide yields equal to or greater than Prudhoe Bay, AK. With LOOP's proximity to the OCS and its available underused capacity, producers will have a cost effective and environmentally responsible option to transport these large oil quantities to pipelines and refineries across the Nation, particularly if the Federal Government removes unnecessary regulatory barriers.

LOOP's license allows the facility to physically double in size, but doing so has never made economic sense—until now. With such new sources of oil on the OCS and increased capacity, it is estimated that at least 200 new jobs will be created in Louisiana nearly doubling the employment at LOOP. The port's annual economic impact will also nearly double to \$62.7 million. Currently, LOOP employs more than 225 people, and has an economic impact of \$32.7 million each year on the local economy, including wages and purchases of local materials and services.

Under current law, LOOP is the only strictly regulated entity among its chief competitors. Day-to-day business decisions are inhibited and delayed due to federal requirements calling for unnecessary oversight at the highest

levels of the Federal Government. H.R. 2940 would simply regulatory activities, and enable LOOP and any new deepwater ports to respond more quickly to changing market conditions and improving technologies, as well as to pursue appropriate business opportunities, using procedures more comparable to those applicable to their competitors.

H.R. 2940 removes a redundant mandatory antitrust review for even minor changes in LOOP's license. The outdated legislative language proved unnecessary because abundant competition exists especially from ligherering operators that was not anticipated in 1974 when the Deepwater Port Act was originally enacted. Additionally, enforcement of rules will be transferred from the Department of Transportation [DOT] to local authorities, including the Louisiana Department of Transportation and Development, which support my bill.

H.R. 2940 makes a commitment to guaranteeing the efficient movement of this environmentally protective mode of transportation. I want to thank Chairman SHUSTER, Chairman BOEHLERT, Chairman COBLE, and the House leadership for bringing the Deepwater Port Modernization Act before the House, and I urge its immediate adoption.

Mr. SHUSTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BORSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BEREUTER). The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 2940, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

SNOW REMOVAL POLICY ACT OF 1996

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3348) to direct the President to establish standards and criteria for the provision of major disaster and emergency assistance in response to snow-related events, as amended.

The Clerk read as follows:

H.R. 3348

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Snow Removal Policy Act of 1996".

SEC. 2. FINDINGS.

Congress finds that—

(1) winter snow storms in recent years, and particularly in 1996, have interrupted essential public services and utilities, caused widespread disruption of vital transportation networks, stranded many motorists, and isolated many homes and businesses;

(2) the impact of the winter snow storms was of such severity and magnitude that effective response was beyond the capability of State and local governments;

(3) the policy of the Federal Emergency Management Agency for providing major dis-

aster and emergency assistance in response to snow-related events is unclear; and

(4) regulations should be promulgated for providing major disaster and emergency assistance in response to snow-related events in order to ensure the fair treatment of States and local governments that have incurred costs associated with such a response.

SEC. 3. RULEMAKING TO ESTABLISH STANDARDS AND CRITERIA FOR SNOW-RELATED EVENTS.

(a) NOTICE OF PROPOSED RULEMAKING.—The President, acting through the Director of the Federal Emergency Management Agency, shall issue a notice of proposed rulemaking to promulgate—

(1) standards and criteria for declaring a major disaster or emergency under the Robert T. Stafford Disaster Relief and Emergency Assistance Act in response to a snow-related event; and

(2) standards and criteria for providing assistance under such Act in the case of a snow-related major disaster or emergency, including reimbursement for snow removal and for debris removal and emergency protective measures.

(b) REQUIREMENT.—Rules to be promulgated under this section shall ensure that in determining the eligibility of a State or local government for assistance in connection with a snow-related event, the President will give consideration to existing capabilities of the State or local government.

(c) DEADLINES.—The President, acting through the Director of the Federal Emergency Management Agency, shall issue—

(1) a proposed rule under this section not later than 3 months after the date of the enactment of this Act; and

(2) a final rule under this section not later than 9 months after such date of enactment.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Pennsylvania [Mr. BORSKI] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the blizzard of 1996 swept across 12 States and the District of Columbia threatening the lives of thousands of individuals. Many of my constituents were cut off from critical facilities, such as hospitals, by record snowfalls.

At the time it appeared that the Federal response to this crisis was haphazard. Many State and local officials considered FEMA's response unfair and inconsistent with previous policy.

H.R. 3348 simply requires FEMA to set a coherent policy for responding to snow events so that Federal assistance will be more uniform and fair.

I would like to thank Mr. QUINN for bringing attention to this matter. However, as he points out, this is a bipartisan effort. More than half of the 25 cosponsors are Democrats, including Mr. TRAFICANT, Mr. MASCARA, Ms. NOR-TON, Mr. STUPAK, Mr. RANGEL, Mr. TOWNS, Mrs. LOWEY, and Mr. KILDEE.

FEMA has had the authority to provide assistance to clear roads in the event of severe snowstorms since 1988. Since that time, FEMA has responded to snowstorms in three winters, 1993, 1994, and 1996. In each year, the total assistance was well under \$1 million.

H.R. 3348 does not expand this authority but does require a consistent policy. The Congressional Budget Office agrees this will not result in significant new costs.

It is argued that this bill is unnecessary because FEMA is already working on a snow removal regulation.

The fact is, we need H.R. 3348 to make sure FEMA completes its work.

FEMA often starts rulemakings but does not complete them or finishes them months late.

For instance, in 1993 FEMA initiated approximately 14 new rules. Only 4 of these were completed on time—8 are still pending or have been discontinued.

H.R. 3348 makes sure this rule will happen and that it will happen quickly.

Again, I commend Mr. QUINN and the other sponsors of the legislation. I strongly support this bipartisan bill and urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. BORSKI. Mr. Speaker, I yield myself such time as I may consume.

(Mr. BORSKI asked and was given permission to revise and extend his remarks.)

Mr. BORSKI. Mr. Speaker, H.R. 3348 demonstrates the lasting impact of the blizzard of 1996 when cities throughout the northeast were faced with unprecedented snow removal costs.

My own city of Philadelphia ran up a bill of \$11 million for snow removal for which we have received Federal reimbursement of \$4 million.

Many other cities from the Canadian border to our Nation's Capital had equally staggering costs for which they were totally unprepared.

These cities looked to the Federal Emergency Management Agency for help and many were disappointed with FEMA's response.

FEMA, which has done an outstanding job under Director James Lee Witt, is currently working on a snow removal policy, which is scheduled to be released in draft form on October 1.

There are some complicated issues involved in this rulemaking, as was shown by the ranking member of the Transportation and Infrastructure Committee, the gentleman from Minnesota [Mr. OBERSTAR], during our subcommittee hearing on H.R. 3348 last week.

Mr. Speaker, I want to emphasize the tremendous job that Mr. Witt has done at FEMA. I have been involved in the oversight of FEMA for several years and it is clear that he has turned this Agency around.

Under Director Witt, there is an unprecedented level of professionalism and responsiveness.

After earlier disasters, there were numerous complaints about FEMA's lack of responsiveness.

We do not hear complaints about lack of responsiveness directed to FEMA under Director Witt.

It is because of Mr. Witt's outstanding performance at FEMA, his under-

standing of the needs of State and local governments and his experience in dealing with disasters that I have full confidence in his ability to issue a fair policy on snow removal.

In fact, H.R. 3348 does no more than tell FEMA to issue a policy. It does not direct what that policy should be.

As ranking member of the Subcommittee on Water Resources, I will be working with FEMA to make sure the snow removal policy meets the needs of the entire Nation. The problems faced by Philadelphia and other northeastern cities must be addressed in a fair and consistent manner.

FEMA is in the process of issuing its policy in less than 2 weeks and I look forward to seeing the agency's proposal.

□ 1130

Mr. Speaker, I reserve the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume to associate myself with the remarks of my friend from Pennsylvania in praising James Lee Witt and his leadership of FEMA. I think he has brought very, very substantial improvements to that agency.

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. QUINN], the distinguished Member who has really provided leadership in moving this legislation forward.

Mr. QUINN. Mr. Speaker, I want to begin by thanking the gentleman from Pennsylvania, Chairman SHUSTER, and the gentleman from New York, Mr. BOEHLERT, the subcommittee chair, for their assistance in moving this legislation forward, and begin by associating my remarks with the gentlemen from Pennsylvania, Mr. BORSKI and Mr. SHUSTER, and others, that Mr. Witt has done a fantastic job at FEMA.

The purpose of our legislation, as we have said from the beginning, is to move FEMA in the right direction. This is also an opportunity for me to acknowledge and to thank the gentleman from Michigan, Congressman BART STUPAK, who has worked as an advocate of this legislation on the other side of the aisle, as well as the others mentioned in Mr. SCHUSTER's opening remarks: Mr. David Rodham, the President-elect of the National Emergency Managers Association, for his early support; and especially the Water Resource Subcommittee staff, who were a great help in promoting this bipartisan measure from the beginning.

Mr. Speaker, I introduced this legislation earlier this year in the interest of developing a new, clear, concise snow removal policy. Last year, as we mentioned, in cities and towns in my district like Buffalo and Lackawanna, Cheektowaga, West Seneca, and Lancaster, all of those towns and cities endured 36 inches of snow in less than 24 hours.

When I tried to find help for these communities I ran into an astonishing

maze of bureaucracy. It seemed that no one could give me a straight answer as to whether these towns and cities would be eligible for any kind of assistance.

Now, I know some of my colleagues are thinking, "Mr. QUINN, you are from Buffalo, and it snows in Buffalo; you ought to expect it." And we do expect it. But as I discovered, no city, not even Buffalo, NY, can prepare for a storm of that proportion in any budget or with any amount of planning.

I am proud of what we were able to accomplish in Buffalo as a community to get ourselves out of that terrible mess. It might have taken other cities weeks to clean up, but Buffalo and western New York had our traffic bans and our travel advisories lifted within 3 days.

Regardless of how much one prepares going into a winter season, a storm such as the one we experienced in the Northwest and the mid-Atlantic region States last winter cannot be accounted for in any budget.

We worked with New York Governor Pataki and the National Emergency Managers Association to clarify the Federal snow removal policy and to help our communities cut through the bureaucratic redtape. The purpose, Mr. Speaker, of this legislation is to reduce the confusion, the ambiguity, and the lack of criteria we dealt with over this past winter.

The bill promotes a clear, concise and simple plan that will benefit everyone, from the Congress to FEMA to our local communities. Our thoughts and prayers go out to those people along the East Coast who were recently devastated by Hurricane Fran. Hurricane Fran illustrated why we as a Nation must reach out to our fellow Americans inflicted with natural disasters such as earthquakes, fires, floods, tornadoes, and hurricanes.

FEMA has a definitive policy and guidelines in place to deal with all of those natural disasters. Currently in their regulations there is no discernible Federal snow emergency policy. The blizzards we face across the Nation pose no less a threat to our lives and property than those of the other terrible disasters. Clear-cut trigger points would let States and local governments determine whether an emergency declaration is warranted or not and to what extent the Federal Government would be involved.

I believe, Mr. Speaker, and others who have cosponsored and supported the bill, that this is an opportunity for us as Federal legislators to provide meaningful help to our constituencies.

In closing, Mr. Speaker, in these times of tight budgets where all of us have been asked to make tough decisions on the allocation of funds, the supporters of this legislation are not looking for a handout. The legislation is only a straightforward attempt to come up with a policy that will assist our communities in understanding the Federal Government's policy concerning snow removal. Our local mayors

have asked for our help and our governors have asked for our help. Let us do something to help our local leaders.

This legislation does not create more government bureaucracy. This is an attempt to make the Government regulations we have already in place more understandable.

I want to conclude by making two points perfectly clear, Mr. Speaker. The first is that FEMA, who has done a great job, has had nearly 6 months to issue and to clarify these regulations; and, second, this legislation does not ask FEMA to expand the scope of the Federal involvement in snow emergencies, it simply asks FEMA to clarify the policy so that emergency managers in our district can understand them a little better.

I believe the bill is an example of responsible good government, and I urge my colleagues to vote "yes" on H.R. 3348.

Mr. BORSKI. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Michigan [Mr. STUPAK] who is a prime sponsor of the bill on our side of the aisle.

Mr. STUPAK. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, H.R. 3348 is an extremely important bipartisan piece of legislation for those citizens and communities that experience difficult winters year after year. In my district, which includes the Upper Peninsula of Michigan and the northern section of the Lower Peninsula, residents endured snow for 8 consecutive months last winter. And I may add that last Friday the first snowflakes of this winter fell.

In my area, in my district, we recorded a total snow accumulation of 321 inches or nearly 27 feet. If my colleagues can imagine for a moment, that level of snow would completely bury the typical two-story family home and would nearly reach the ceiling of this House Chamber.

Whether the cause of the disaster is flooding, fire, hurricane, like the recent devastation in North Carolina caused by Hurricane Fran, or snow, we gauge the impact of a weather event in terms of the number of people it affects and the magnitude of its financial impact. The winter of 1995-96 was not a single storm but rather a series of record-breaking storms.

The total accumulation of record-breaking snowfalls pushed road crews and local communities to the brink of financial disaster. The financial havoc these storms wreaked on my district will be felt for years to come. The storm caused snow and flood damage to roads and structures, curtailed agricultural planting, delayed home building and tourism, and induced other detrimental personal and financial effects.

As a result, local communities in northern Michigan faced budget overruns of at least \$10 million. Many local governments do not have the reserves to tap for this type of unexpected disaster. They must increase their taxes,

cut their community programs and services, or even curtail road repair and maintenance, causing layoffs and other future community and regional hardships.

The Snow Removal Policy Act will finally clarify FEMA's regulations regarding snow-related emergencies, giving communities the opportunity for relief from winter's violent and deadly storms.

I want to emphasize, however, that despite the clarification in these guidelines, no Federal assistance can be provided if the Governor of the State does not make a request for financial or disaster aid. Regardless of the nature of the extent of any natural disaster, the decision to ask for Federal help would remain with the State's chief executive.

In the winter of 1993-94 my district received financial help from FEMA. I am pleased with that response, but this legislation is needed so there is no further delay in putting forth these guidelines.

Mr. Speaker, I want to offer my thanks to my distinguished colleagues, the gentleman from New York, Mr. BOEHLERT, the gentlemen from Pennsylvania, Mr. BORSKI and Mr. SHUSTER, the gentleman from Minnesota, Mr. OBERSTAR, for their assistance and guidance on this legislation. I want to especially thank my friend, the gentleman from New York [Mr. QUINN], for sponsoring this important bipartisan legislation and working with me on it.

Mr. Speaker, I urge the passage of H.R. 3348.

Mr. BORSKI. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. OBERSTAR], the ranking member of the committee, a gentleman who knows a thing or two about snow himself.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman from Pennsylvania for yielding me this time.

We, too, on the other side of Lake Superior have a lot of snow, in the range of 130 to 140 inches a year. I am afraid the gentleman from Michigan gets the benefit of the prevailing wind passing over the 30,000 square miles of Lake Superior and dumping the excess moisture on the upper peninsula.

I think that the Federal policy on snow removal in disaster assistance situations should be clarified, and FEMA is moving to do that. I do not think this legislation is necessary. In just 3 weeks, FEMA, in their testimony before our committee, committed by October 1 to have an NPRM, a Notice of Proposed Rulemaking, published in the Federal Register, complete the 60-day comment period, and have a final rule in place by mid-December, in time for the snow season.

I think that is quite fair, and I think that the agency is moving along appropriately and there will be plenty of time for comment on their regulations. It just does not seem necessary to legislate what the agency is already doing.

I understand the arguments this is a push, this is a nudge, this is a shove from the Congress to FEMA to stay on track and do their job, but frankly, I am really concerned about disaster creep. We are seeing the spread of Federal responsibility to more and more types of situations that can be called or can somehow qualify as disasters.

Most of these calls come from State government, from local government, who preach to the Federal Government balance your budget. We hear this from the Governors all the time: Balance your budget, Federal Government. But then as soon as they have an earthquake, a tornado, a hurricane, heavy snow, they have their hand out to the Federal Government to come in and bail them out. But in the years when they do not have hurricanes or earthquakes or tornadoes, I do not see them coming back to the Federal Government and saying here is a downpayment for your good will on helping us out in times of disaster.

In the case of snow, snow is different from hurricanes. They come with some suddenness and unpredictability. Earthquakes come with great unpredictability. In the northern country we know the glacier retreated 10,000 years ago and every December it makes a return appearance, or at least a return effort, and we are prepared for it.

Now, I can understand when there is an occasional extraordinary event, a multi-State occurrence that dumps unprecedented amounts of snow and the economy is disrupted, the travel is interrupted for long periods of time. That makes a case for what FEMA is doing trying to develop a common policy. But I am concerned that this legislative push is moving us into ever more responsibility and ever greater expenditures and outlays of extraordinary amounts of Federal funds.

Someone may think that is strange coming from one who is advocating increasing our investment in infrastructure, but I think that is where we need to put those investments to make our economy more efficient.

So I just say my piece, express my concern, set a mark out there for those Governors and local government officials who come to Washington preaching to us about balance your budget, but help us out when we have a problem, to understand the broader responsibilities of the Federal Government and to shoulder more and more of their own financial obligations under circumstances of this kind.

I think we need to be careful about expansion of Federal disaster policies. I think that we can and we shall watch very closely FEMA's commitment to promulgating the NPRM on October 1 and getting a final rule out in December, and I will join with the chairman in any initiative needed to prod them along that route.

I just wish we did not have to move on legislation, but I will certainly not stand in its way, and I appreciate the cooperative spirit we have had with the

majority in scheduling hearings and hearing the issue, bringing these matters forth.

I understand the genuine concerns of our colleague from upstate New York, the gentleman from Michigan, and others who have concerns about snow removal policy and the application of the disaster assistance rules.

□ 1145

Mr. SHUSTER. Mr. Speaker, I yield 1 minute to the distinguished gentleman from New York [Mr. BOEHLERT], chairman of the Subcommittee on Water Resources and Environment.

Mr. BOEHLERT. Mr. Speaker, I wish to pay particular credit to the gentleman from New York [Mr. QUINN], my colleague, for his leadership on this issue.

When Mother Nature rears her ugly head, whether it is an earthquake on the West Coast or a storm off the coast of Florida or a heavy winter snowstorm, it can create havoc.

Mr. Speaker, we are not trying to micromanage for FEMA, an Agency for which I have the highest regard. I think James Lee Witt is doing a magnificent job. But we are asking the Agency to come up with a coherent policy so that we can give guidance to our constituents and our communities in the event of disaster.

I thank the gentleman from New York [Mr. QUINN] for his leadership in bringing this issue forward. I commend the chairman and the ranking member for participating in this exercise and providing the leadership necessary to move this legislation forward.

Mr. BORSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BE-REUTER). The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 3348, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

INTERMODAL SAFE CONTAINER TRANSPORTATION ACT AMENDMENTS OF 1996

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4040) to amend title 49, United States Code, relating to intermodal safe container transportation.

The Clerk read as follows:

H.R. 4040

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Intermodal Safe Container Transportation Act Amendments of 1996".

SEC. 2. REFERENCES TO TITLE 49.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 49, United States Code.

SEC. 3. DEFINITIONS.

Section 5901 is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) except as otherwise provided in this chapter, the definitions in sections 10102 and 13102 of this title apply.;"

(2) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively; and

(3) by inserting after paragraph (5) the following new paragraph:

"(6) 'gross cargo weight' means the weight of the cargo, packaging materials (including ice), pallets, and dunnage."

SEC. 4. NOTIFICATIONS AND CERTIFICATIONS.

Section 5902 is amended to read as follows:

"§ 5902. Notifications and certifications

"(a) PRIOR NOTIFICATION.—

"(1) IN GENERAL.—If the first carrier to which any loaded container or trailer having a projected gross cargo weight of more than 29,000 pounds is tendered for intermodal transportation is a motor carrier, the person tendering the container or trailer shall give the motor carrier a notification of the projected gross cargo weight and a reasonable description of the contents of the container or trailer before the tendering of the container or trailer. The notification may be transmitted electronically or by telephone.

"(2) APPLICABILITY.—This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier.

"(b) CERTIFICATION.—

"(1) IN GENERAL.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds, to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

"(2) CONTENTS OF CERTIFICATION.—The certification required by paragraph (1) shall include the following:

"(A) The actual gross cargo weight.

"(B) A reasonable description of the contents of the container or trailer.

"(C) The identity of the certifying party.

"(D) The container or trailer number.

"(E) The date of certification or transfer of data to another document, as provided for in paragraph (3).

"(3) TRANSFER OF CERTIFICATION DATA.—A carrier who receives a certification may transfer the information contained in the certification to another document or to electronic format for forwarding to a subsequent carrier. The person transferring the information shall state on the forwarded document the date on which the data was transferred and the identity of the party who performed the transfer.

"(4) SHIPPING DOCUMENTS.—For purposes of this chapter, a shipping document, prepared by the person tendering a container or trailer to a first carrier, that contains the information required by paragraph (2) meets the requirements of paragraph (1).

"(5) USE OF 'FREIGHT ALL KINDS' TERM.—The term 'Freight All Kinds' or 'FAK' may not be used for the purpose of certification under this subsection after December 31, 2000, as a description required under paragraph (2)(B) for a trailer or container if the weight of any commodity in the trailer or container equals or exceeds 20 percent of the

total weight of the contents of the trailer or container. This subsection does not prohibit the use of such term after December 31, 2000, for rating purposes.

"(6) SEPARATE DOCUMENT MARKING.—If a separate document is used to meet the requirements of paragraph (1), it shall be conspicuously marked 'INTERMODAL CERTIFICATION'.

"(7) APPLICABILITY.—This subsection applies to any person, domestic or foreign, who first tenders a container or trailer subject to this chapter for intermodal transportation within the United States.

"(c) FORWARDING CERTIFICATIONS TO SUBSEQUENT CARRIERS.—

"(1) GENERAL RULE.—A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator shall forward the certification provided under subsection (b) to a subsequent carrier transporting the container or trailer in intermodal transportation before or when the container or trailer is tendered to the subsequent carrier.

"(2) PRESUMPTION OF NO CERTIFICATION REQUIRED.—If no certification is received by the subsequent carrier before or when the container or trailer is being tendered to it, the subsequent carrier may presume that no certification is required.

"(3) LIMITATION ON CONSTRUCTION OF FORWARDING.—The act of forwarding the certification may not be construed as a verification or affirmation of the accuracy or completeness of the information in the certification.

"(4) LIABILITY.—

"(A) IN GENERAL.—If a person inaccurately transfers the information on the certification or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest charge incurred as a result of the inaccurate transfer of information or failure to forward the certification.

"(B) LIEN.—A subsequent carrier incurring a bond, fine, penalty, or cost (including storage), or interest charge as a result of the inaccurate transfer of the information or the failure to forward the certification shall have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest charge and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure.

"(5) NOTICE TO LEASED OPERATORS.—If a motor carrier knows that the gross cargo weight of an intermodal container or trailer subject to the certification requirements of subsection (b) would result in a violation of applicable State gross vehicle weight laws—

"(A) a motor carrier must inform the operator of a vehicle which is leased by the vehicle operator to a motor carrier which transports an intermodal container or trailer of the gross cargo weight of the container or trailer as certified to the motor carrier pursuant to subsection (b);

"(B) the notice must be provided to the operator prior to the operator being tendered the container or trailer;

"(C) the notice required by this subsection must be in writing, but may be transmitted electronically;

"(D) the motor carrier shall bear the burden of proof to establish that it tendered the required notice to the operator; and

"(E) if the operator of a leased vehicle transporting a container or trailer subject to this chapter should receive a fine because of a violation of a State's gross vehicle weight laws or regulations and lessee motor carrier cannot establish that it tendered to the operator the notice required by this section, the

operator shall be entitled to reimbursement from the motor carrier of the amount of any fine and court costs resulting from the failure of the motor carrier to tender the notice to the operator.

“(d) LIABILITY TO OWNER OR BENEFICIAL OWNER.—If—

“(1) a person inaccurately transfers information on a certification required by subsection (b)(1) or fails to forward a certification to the subsequent carrier;

“(2) as a result of the inaccurate transfer of such information or a failure to forward a certification, the subsequent carrier incurs a bond, fine, penalty, or cost (including storage), or interest charge; and

“(3) a subsequent carrier exercises its rights to a lien under section 5905,

then that person is liable to the owner or beneficial owner or to any other person paying the amount of the lien to the subsequent carrier for the amount of the lien and all costs related to the imposition of the lien, including court costs and legal fees incurred in connection with imposition of the lien.

“(e) NONAPPLICABILITY.—

“(1) CONSOLIDATED SHIPMENTS.—The notification and certification requirements of subsections (a) and (b) do not apply to any intermodal container or trailer containing consolidated shipments loaded by a motor carrier if that motor carrier—

“(A) performs the highway portion of the intermodal movement; or

“(B) assumes the responsibility for any weight-related fine or penalty incurred by any other motor carrier that performs a part of the highway transportation.

“(2) INTERMODAL TRANSPORTATION OF LOADED CONTAINERS.—

“(A) IN GENERAL.—Subsections (a) and (b) and section 5903(c) do not apply to a carrier when the carrier is transferring a loaded container or trailer to another carrier during intermodal transportation, unless the carrier is also the person tendering the loaded container or trailer to the first carrier.

“(B) SPECIAL RULE.—A carrier, agent of a carrier, broker, customs broker, freight forwarder, warehouse, or terminal operator is deemed not to be a person tendering a loaded container or trailer to a first carrier under this section, unless the carrier, agent, broker, customs broker, freight forwarder, warehouse, or terminal operator assumes legal responsibility for loading property into the container or trailer.”

SEC. 5. PROHIBITIONS.

(a) PROVIDING ERRONEOUS INFORMATION.—Section 5903(a) is amended by inserting “, to whom section 5902(b) applies,” after “A person”.

(b) TRANSPORTING PRIOR TO RECEIVING CERTIFICATION.—Section 5903(b) is amended to read as follows:

“(b) TRANSPORTING PRIOR TO RECEIVING CERTIFICATION.—

“(1) PRESUMPTION.—If no certification is received by a motor carrier before or when a loaded intermodal container or trailer is tendered to it, the motor carrier may presume that the gross cargo weight of the container or trailer is less than 29,001 pounds.

“(2) COPY OF CERTIFICATION NOT REQUIRED TO ACCOMPANY CONTAINER OR TRAILER.—Notwithstanding any other provision of this chapter, if a certification is required by section 5902(b), a copy of the certification is not required to accompany the intermodal container or trailer.”

(c) UNLAWFUL COERCION.—Section 5903(c)(1) is amended by striking “10,000 pounds (including packing materials and pallets)” and inserting “29,000 pounds”.

SEC. 6. LIENS.

(a) GENERAL RULE.—Section 5905(a) is amended to read as follows:

“(a) GENERAL RULE.—If a person involved in the intermodal transportation of a loaded container or trailer for which a certification is required by section 5902(b) of this title is required, because of a violation of a State’s gross vehicle weight laws or regulations, to post a bond or pay a fine, penalty, cost (including storage), or interest charge resulting from—

“(1) erroneous information provided by the certifying party in the certification to the first carrier in violation of section 5903(a),

“(2) the failure of the party required to provide the certification to the first carrier to provide it,

“(3) the failure of a person required under section 5902(c) to forward the certification to forward it, or

“(4) an error occurring in the transfer of information on the certification to another document under section 5902(b)(3) or 5902(c),

then the person posting the bond, or paying any fine, penalty, cost (including storage), or interest charge has a lien against the contents equal to the amount of the bond, fine, penalty, cost (including storage), or interest charge incurred, until the person receives a payment of that amount from the owner or beneficial owner of the contents or from the person responsible for making or forwarding the certification or transferring the information from the certification to another document.”

(b) LIMITATIONS.—Section 5905(b)(1) is amended—

(1) by inserting after “the first carrier” the following: “or the owner or beneficial owner of the contents”; and

(2) by striking “cost, or interest.” and inserting “cost (including storage), or interest charge. The lien shall remain in effect until the lien holder has received payment for all costs and expenses as described in subsection (a).”

SEC. 7. PERISHABLE AGRICULTURAL COMMODITIES.

Section 5906 is amended by striking “Sections 5904(a)(2) and 5905 of this title do” and insert “Section 5905 does”.

SEC. 8. EFFECTIVE DATE.

Section 5907 is amended to read as follows:

“§ 5907. Effective date

“This chapter, as amended by the Intermodal Safe Container Transportation Act Amendments of 1996, is effective on the date of the enactment of such Act. The provisions of this chapter shall be implemented 180 days after such date of enactment.”

SEC. 9. RELATIONSHIP TO OTHER LAWS.

(a) IN GENERAL.—Chapter 59 is amended by adding at the end the following new section:

“§ 5908. Relationship to other laws

“Nothing in this chapter affects—

“(1) chapter 51 (relating to transportation of hazardous material) or the regulations issued under that chapter; or

“(2) any State highway weight or size law or regulation applicable to tractor-trailer combinations.”

(b) CONFORMING AMENDMENT.—The analysis for such chapter is amended by striking the item relating to section 5907 and inserting the following:

“5907. Effective date.

“5908. Relationship to other laws.”

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from West Virginia [Mr. RAHALL] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill makes several critical changes to the 1992 Intermodal Safe Container Act to permit the act to be effectively implemented by ocean shipping lines, railroads, and trucking companies.

This legislation will ensure that the intermodal container transportation does not cause violations of our highways’ weight laws and, also, that commerce is not unduly burdened. It is critical that this bill pass swiftly, because the regulations implementing the 1992 bill will go into effect January 1.

This legislation is completely bipartisan. It is strongly supported by a comprehensive intermodal coalition of ocean shipping lines, railroads, trucking companies and shippers, as well as the Department of Transportation.

Mr. Speaker, I want to thank the gentleman from Wisconsin [Mr. PETRI], the gentlewoman from New York [Ms. MOLINARI], and the gentleman from North Carolina [Mr. COBLE] for their cooperation in swiftly drafting this intermodal bill.

I also want to thank my Democratic colleagues, the gentleman from Minnesota [Mr. OBERSTAR], the gentleman from West Virginia [Mr. RAHALL], the gentleman from West Virginia [Mr. WISE], and the gentleman from Tennessee [Mr. CLEMENT] for their cooperation and support in agreeing to quickly move this legislation.

Mr. Speaker, I strongly urge that my colleagues support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I commend the gentleman from Pennsylvania [Mr. SHUSTER], the full committee chairman, and the gentleman from Minnesota [Mr. OBERSTAR], the ranking minority member, for the very effective and capable manner in which they have worked together with me and the gentleman from Wisconsin [Mr. PETRI], the chairman of the subcommittee, in bringing forward this legislation. There has been a good give-and-take on both sides of the aisle.

I also commend the staff that have worked so very long and hard on bringing this bill to us today.

Mr. Speaker, as the full committee chairman has stated, while this bill basically consists of technical amendments, its enactment will fulfill congressional and DOT intent in addressing the issue of liability as it relates to intermodal shipments of potentially overweight freight containers.

Basically, we have a situation where a trucker picks up a container of, say, shoes at the Port of Long Beach that was packed in Taiwan and is headed for a J.C. Penny Store. On its way along our Nation’s highways to the store, the trucker is found to be overweight.

Under current law, the trucker pays the fine even though the trucking company had no involvement in the packing of the container and was led to believe it would not cause the truck to be overweight.

In 1992 we passed legislation to address this situation.

However, due to shortcomings in this law, DOT has yet to make effective a final rule implementing it. Hence, the need for this legislation.

The pending bill would facilitate the implementation of the 1992 act by, first allowing the shipper certification of the weight of intermodal containers to be incorporated into shipping papers or transmitted in electronic form.

If the certification is not made, or is incorrect, the shipper is liable for any violations which may occur of our highway weight laws.

And second, this bill sets the weight threshold for container certification at 29,001 pounds. It is my understanding from both DOT and industry that this is a more appropriate threshold than what is in current law.

With that stated, I urge the adoption of the pending measure.

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. OBERSTAR].

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I also want to commend the gentleman from Pennsylvania [Mr. SHUSTER], our full committee chairman, and the gentleman from Wisconsin [Mr. PETRI], chairman of the Subcommittee on Surface Transportation, for the work that they have done to bring this legislation to this point.

Mr. Speaker, I also commend the gentleman from West Virginia [Mr. RAHALL], on our side, who has devoted a great deal of time and energy to resolving a very puzzling and complex problem; one that on the surface would seem to be amenable to ready resolution.

In 1992, when we passed the Intermodal Safe Container Transportation Act, we thought that the legislation had corrected the problems. A broad consensus of transportation interests got together to support this legislation to encourage compliance with U.S. highway weight limits by ensuring that the party that first tendered cargo for intermodal shipment would be responsible for verifying the weight of that intermodal container and for providing appropriate documentation.

Unfortunately, DOT could not write regulations to make the law work. Try as they might, there was a combination of problems, conflicting interests, difficulty in writing appropriate language, to prevent the issuance of those regulations. So when I say it took a great deal of effort on the part of the leadership of the subcommittee to work this out, it certainly did. It was a matter that the Department itself, with all of their staffing, could not resolve.

So the parties went back to the drawing board, they reached agreement on a measure that the gentleman from West Virginia [Mr. RAHALL] has, I think, quite adequately described.

In 1989, the Federal Highway Administration estimated that some 1 million

containers moving through U.S. ports over a 1-year period would likely cause highway weight violations based on most commonly used truck configurations. Some 40 percent of the 20-foot containers would potentially cause overweight trucks; 17 percent of 40-foot containers were more than 10,000 pounds over the cargo weight.

Truckers should not have to bear that responsibility. Goods should not have to be impeded in their movement to marketplace, and bridges should not have to be encumbered and highways should not have to accept that additional pounding due to our ocean shipping interests.

So the legislation we have today will provide workable tools to allow carriers to comply with highway weight limitations and improve enforcement by ensuring that the one responsible, the party that loads the container, is the one liable if a subsequent violation occurs.

Mr. Speaker, that is what we bring to the House today. I want to thank the gentleman from West Virginia for the splendid effort that he has invested in bringing this issue to resolution, and again to our full committee chairmen for resolving the matter.

Mr. RAHALL. Mr. Speaker, I yield back the balance of my time.

Mr. PETRI. Mr. Speaker, I rise in support of H.R. 4040, the Intermodal Safe Container Act Amendments of 1996.

I want to thank my colleagues BUD SHUSTER, SUSAN MOLINARI, and HOWARD COBLE, and my Democratic colleagues JAMES OBERSTAR, NICK RAHALL, BOB WISE, and BOB CLEMENT, for their cooperation in swiftly moving this legislation.

This legislation corrects several problems in the 1992 Intermodal Safe Container Act which sets standards for the intermodal transfer of freight containers between ocean shipping lines, railroads, and motor carriers so that no trucks hauling containers are overweight. The 1992 act has been delayed by DOT only until January 1, 1997.

A coalition of ocean carriers, railroads, motor carriers, and freight shippers recommended changes to the 1992 act, since these problems could not be corrected by DOT. DOT supports these changes. These recommendations are the basis of this legislation.

This bill encourages compliance with highway weight rules. It clearly establishes that shippers must provide a certification that identifies the weight and contents of the container. If this certification is not made or is incorrect, the shippers are automatically liable for any resultant highway weight violations.

The Act speeds shipments by permitting all carriers to use electronic certifications and reduces paperwork by permitting a bill of lading to be used as the certification.

The weight threshold for a container certification has been set at 29,001 pounds. This reduces the burden of complying with the act, but still ensures that all containers likely to cause overweight violations will be identified.

Finally, it provides a phase-in for carriers to adapt to the new requirements.

I urge my colleagues to support the bill.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 4040.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SMITHSONIAN INSTITUTION NATIONAL AIR AND SPACE MUSEUM DULLES CENTER

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1995) to authorize construction of the Smithsonian Institution National Air and Space Museum Dulles Center at Washington Dulles International Airport, and for other purposes.

The Clerk read as follows:

S. 1995

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONSTRUCTION OF MUSEUM CENTER.

The Board of Regents of the Smithsonian Institution is authorized to construct the Smithsonian Institution National Air and Space Museum Dulles Center at Washington Dulles International Airport.

SEC. 2. LIMITATION ON USE OF FUNDS.

No appropriated funds may be used to pay any expense of the construction authorized by section 1.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Ohio [Mr. TRAFICANT] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation authorizes the construction of the Smithsonian National Air and Space Museum extension at Dulles Airport. To date, \$8 million had been authorized in appropriations for planning and design of this project. The construction of this facility will allow airplane, spacecraft, and aviation-related equipment currently stored outdoors to be safely housed in structures which meet museum standards, as well as create a restoration facility capable of handling the largest artifacts in the collection.

Mr. Speaker, these include such aircraft as the B-29 *Enola Gay*, the space shuttle *Enterprise*, and the SR-71 Blackbird. A request for \$5 million is included in the fiscally year 1997 budget to continue funding through the design development phase and begin the construction documents phase.

The final \$2 million authorized will be requested in fiscal year 1998 to complete the construction documents for the building.

Mr. Speaker, it is important to emphasize that no Federal funds will be made available for the construction

phase of the project. The Smithsonian Institution will be responsible for privately raising funds to pay for the construction. Also, the Commonwealth of Virginia has pledged to provide infrastructure support, which includes a \$3 million interest-free loan, a \$6 million construction appropriation, and authority for a \$100 million bond issue.

It is a good bill, Mr. Speaker, and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. TRAFICANT. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. OBERSTAR], our ranking Democrat member of the Committee on Transportation and Infrastructure.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, this is a really exciting initiative, the National Air and Space Museum to be developed at Dulles Airport. It is under the leadership of a truly great leader in aviation, former Adm. Don Engen, former administrator of the Federal Aviation Administration and former Member of the National Transportation Safety Board.

He is in charge of the fund-raising and of the organization and development of this project and has already launched a very significant nationwide effort, working very hard to raise the private sector funds which, as the gentleman from Pennsylvania [Mr. SHUSTER] indicated, will be entirely constructed with private sector funds.

It is going to be a true monument to aviation, to aviation technology, and I am very pleased that the committee has moved this legislation to make the extension facility possible. It is really an extension of the Smithsonian, but at a place that makes sense: Out at one of the Nation's premier airports, and an international airport; one of advanced design at that, where we can put on display this leadership that the United States has demonstrated throughout decades in the field of aviation.

Mr. Speaker, I urge the passage of this legislation.

Mr. TRAFICANT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, no Federal funds will be used for the construction of this project. In addition, the State of Virginia will be contributing to infrastructure construction and access roads. Finally, the board of regents of the Smithsonian have committed to an aggressive fund-raising program for the remainder of these necessary funds, and would make the University of Nebraska football program look meager in its wake.

Mr. Speaker, we have no other requests for time. We support this legislation. We commend the gentleman from Pennsylvania [Mr. SHUSTER] here at the end of our session for all the fine work he has done, and the gentleman from Maryland [Mr. GILCHREST] and staff as well.

Mr. Speaker, I yield back the balance of my time.

Mr. WOLF. Mr. Speaker, it is my pleasure today to rise in support of legislation to authorize the Board of Regents of the Smithsonian Institution to construct the National Air and Space Museum extension at Washington Dulles International Airport, and I want to thank all those members and individuals who have been so helpful in moving this legislation to the House floor. I especially want to thank Chairman SHUSTER of the House Transportation and Infrastructure Committee for his help.

S. 1995, introduced in the Senate by my Virginia colleague Senator JOHN WARNER, authorizes the Smithsonian to build a much-needed extension of the Air and Space Museum. The existing Air and Space Museum on the Mall is simply too small and inadequate to meet existing needs. Currently there is no storage space for large artifacts, making the safe preservation of these large artifacts quite impracticable. Furthermore, due to current space limitations at the Mall museum, only about 20 percent of the Nation's air and space collection is on public display.

Clearly, the extension of the Air and Space Museum at Washington Dulles International Airport will help to correct this problem. It will allow the Smithsonian to place on display historic and magnificent artifacts such as the *Enola Gay*, the SR-7 *Blackbird* spy plane, the space shuttle *Enterprise*, and many others. These planes and spaceships currently sit in warehouses away from public view and are improperly maintained because there is no room for these large artifacts at the Mall museum. This deprives the public of the opportunity to experience some of the most fascinating testaments to our Nation's creative genius in civil, military, and space flight.

The Air and Space extension will provide the space and facilities needed to display these artifacts and allow them to be enjoyed by people from all around the world. The Air and Space Museum is the most popular of the Smithsonian's museums and the extension is expected to draw over 3 million visitors per year.

In 1993 the Smithsonian Institution was first authorized to plan and design an Air and Space Museum extension at Washington Dulles International Airport and I was pleased to support this effort. In fiscal year 1996, Congress and the Commonwealth of Virginia in partnership provided funding for planning and design work on the extension. It is important to note that Congress has made it clear that no Federal funds are to be made available for the construction portion of the project. Instead, the Smithsonian Institution is responsible for raising private funds for the construction of the extension.

S. 1995 furthers the efforts already underway by authorizing the Board of Regents of the Smithsonian Institution to construct the museum extension while also making clear that no appropriated funds are to be used to pay any expense of the construction of this facility. Retired Adm. Donald Engen is the new director of the Air and Space Museum and I am pleased that the museum is headed by such an enthusiastic and able director. Admiral Engen has stated that his No. 1 priority is to wage a national campaign to raise adequate funding for construction and this goal will be accomplished more effectively once

Congress has clearly authorized this construction.

Mr. Speaker, the museum extension will significantly increase the amount of our air and space collection on public display, provide safe and climate-controlled storage facilities, and establish a restoration facility capable of handling the largest artifacts in the collection in full view of visitors. All of this will be accomplished with no Federal funds being used for the construction of the extension. I urge passage of S. 1995 and yield back the balance of my time.

Mr. GILCHREST. Mr. Speaker, I rise in support of S. 1995, a bill to authorize construction of the Smithsonian Institution National Air and Space Museum Dulles Center at Washington Dulles International Airport.

This bill authorizes the Board of Regents of the Smithsonian Institution to construct an extension to the Air and Space Museum currently located on the Washington Mall, on a 185 acre site in the Dulles Airport complex in Virginia.

The new facility will permit airplanes, spacecraft, and aviation related artifacts currently stored outdoors to be housed in structures built to museum standards; and provide improved facilities to house the aviation artifacts which are currently stored at the outdated Paul E. Garber facility in Suitland, MD. In addition, the extension will provide a restoration facility capable of handling the largest artifacts in the collection, such as the space shuttle *Enterprise* and the historic *Enola Gay* B-29 bomber, for public viewing.

The measure ensures that no appropriated funds will be used to pay any expense of the construction. The Smithsonian Institution is responsible for privately raising funds for the project and the Commonwealth of Virginia has pledged to provide infrastructure support in the amount of \$40 million, a \$3 million interest free loan, a \$6 million construction appropriation, and authority for a \$100 million bond issue.

The bill has bipartisan support and I wish to thank my colleagues on both sides of the aisle for their assistance in bringing this measure to the floor.

I urge my colleagues to support this bill.

Mr. DAVIS. Mr. Speaker, I rise in support of S. 1995 which authorizes construction of the Smithsonian Institute's Air and Space Museum Extension at Washington Dulles International Airport.

Since 1983 the Smithsonian has been looking to build an Air and Space extension large enough to properly display many aviation artifacts that there is no room for at the museum on the Mall. Few people realize that only 20 percent of the museum's collection is on display at the Air and Space Museum. Right now, the Space Shuttle *Enterprise*, a B-17 *Flying Fortress*, and an SR-71 *Blackbird* among others, are collecting dust in hangers at Dulles Airport, because there is no room at the Air and Space Museum. Only the nose section of the *Enola Gay* could be displayed at the Smithsonian's commemoration of the dropping of the atomic bomb, because the museum does not have room to display the entire refurbished aircraft. There are a number of historically important aircraft, such as a Lockheed Constellation, sitting outside exposed to the weather, because there is no space to store or display them. This new extension will accommodate these historic air and spacecraft.

S. 1995 authorizes the board of regents of the Smithsonian Institution to construct a museum extension at Dulles Airport. This legislation makes it clear that no Federal funds will be appropriated to pay for any expense associated with construction of this facility. The Air and Space Museum has already begun the process of raising private funds for construction, and I understand that new Air and Space Museum Director Donald Engen has set raising funds to build the extension as a top priority. The Commonwealth of Virginia also stands firmly behind its commitment to bringing this national educational facility to reality with a \$3 million interest free loan, a \$6 million design and construction grant, and authority for up to \$100 million in bonds.

It has been 13 years since the Air and Space Museum Extension was proposed, in that time the Smithsonian's Air and Space Museum has become the most visited museum in the world. This bill is noncontroversial. It requires no expenditure of Federal funds, in fact, the bill explicitly states that no Federal funds will be used. It passed the Senate by voice vote. Lets pass this bill and get on with expanding this enormously popular museum that celebrates America's love of aviation.

In closing, I want to thank Chairman GILCHREST for his tremendous efforts in bringing this legislation to the floor so quickly.

Mr. SHUSTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the Senate bill, S. 1995.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

MARK O. HATFIELD UNITED STATES COURTHOUSE

Mr. SHUSTER. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1636) to designate the U.S. Courthouse under construction at 1030 Southwest 3rd Avenue, Portland, OR, as the Mark O. Hatfield United States Courthouse, and for other purposes.

The Clerk read as follows:

S. 1636

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF MARK O. HATFIELD UNITED STATES COURTHOUSE.

The United States Courthouse under construction at 1030 Southwest 3rd Avenue in Portland, Oregon, shall be known and designated as the "Mark O. Hatfield United States Courthouse".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the courthouse referred to in section 1 shall be deemed to be a reference to the "Mark O. Hatfield United States Courthouse".

SEC. 3. EXTENSION OF FDR MEMORIAL MEMBER TERMS.

The first section of the Act entitled "An Act to establish a commission to formulate

plans for a memorial to Franklin Delano Roosevelt", approved August 11, 1955 (69 Stat. 694) is amended by adding at the end thereof the following: "A Commissioner who ceases to be a Member of the Senate or the House of Representatives may, with the approval of the appointing authority, continue to serve as a Commissioner for a period of up to one year after he or she ceases to be a Member of the Senate or the House of Representatives."

SEC. 4. EFFECTIVE DATE.

This Act shall take effect on January 3, 1997.

The SPEAKER pro tempore (Mr. BE-REUTER). Pursuant to the rule, the gentleman from Pennsylvania [Mr. SHUSTER] and the gentleman from Ohio [Mr. TRAFICANT] each will control 20 minutes.

The Chair recognizes the gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation designates the U.S. Courthouse under construction in Portland, OR as the Mark O. Hatfield United States Courthouse.

I strongly support this legislation in honor of an outstanding U.S. Senator who is retiring at end of the 104th Congress. Senator HATFIELD served his country during World War II in the U.S. Navy where he commanded landing crafts at both Iwo Jima and Okinawa. Following the war, Senator HATFIELD attended Stanford University. He became associate professor and dean of students at Willamette University.

He began his political career in 1950 serving in the State legislature, then as Oregon's Governor, and finally he has diligently served as a U.S. Senator for 30 years. Senator HATFIELD is well known for his impeccable character and integrity.

He has gained respect from both sides of the aisle for his leadership, and he has brought people together for what he believed to be right rather than what was popular at the time. This legislation is a fitting tribute to an outstanding public servant. I urge my colleagues to support the legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. TRAFICANT. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Minnesota [Mr. OBERSTAR].

Mr. OBERSTAR. Mr. Speaker, I join in supporting this legislation, a fitting and appropriate tribute to one of the most decent people ever to serve in the U.S. Senate, MARK HATFIELD. A student, practitioner of the legislative art and science, a teacher of public service throughout his public life, a person whose personal life has mirrored his public life of integrity, honesty and decency, he has championed conservation and environmental causes, supported and protected our national forests and parks.

He has called for reform in our health care system. Years ago I remember him very distinctly as an advocate for nuclear arms control. There are few people who cross our paths in public life

who have, who display that kind of broad concern, genuine, deep humanitarian, felt concern and exemplify it in their public practice and in their personal life.

To name a building in honor of such a Member reflects credit not only on him, on the people of Oregon who elected him, but on the entire U.S. Congress.

Mr. TRAFICANT. Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon, Mr. BLUMENAUER, who replaced RON WYDEN, now serving in the U.S. Senate. He is a dynamic young man.

Mr. BLUMENAUER. Mr. Speaker, I thank the gentleman for yielding me the time.

Before us today is a measure that means a great deal to us in Oregon, naming the new courthouse after Senator HATFIELD. I know it is not going to be the last memorial as tribute to Oregon's senior Senator but in many ways it will be the most fitting. I wholeheartedly support this measure.

In Oregon we have had a tradition of accepting unique elected officials to Congress and the U.S. Senate, men and women who have been known to take their stand, demonstrating a pioneering spirit which we think defines Oregon today.

For more than a generation, MARK HATFIELD has been a living exemplar of that tradition. Whether the topic under discussion was the war in Vietnam, when he was the only Governor in the United States who was willing to stand up and raise questions about our policy, to being the only member of his party who was willing to stand up and raise questions about the wisdom of a balanced budget amendment, he has proven time and time again his courage, his independence, and I would say, his vision.

He is a man of vision, insight, compassion, and consensus, as the chairman mentioned. The word "mentor" is overused today, and it would be presumptuous on my part to suggest that Senator HATFIELD was my mentor, but he was an inspiration. He has been a friend, and I have been honored to have had an opportunity to be a part of the Oregon delegation, to be a colleague with him at least for these few months. We, in Oregon, are a little apprehensive to lose such a trusted leader, but we are hopeful that his legacy for a generation of people in Oregon, inspired by his example to enter government service, will be found walking through the doors of this courthouse. I hope that their decisions will be marked by the wisdom and courage of this great Oregonian, this great Senator, this great American.

Mr. TRAFICANT. Mr. Speaker, I yield myself such time as I may consume.

It is an honor to support the bill and to acknowledge the career of MARK HATFIELD, the many accomplishments.

Mr. Speaker, S. 1636 is a bill to designate the courthouse under construction in Portland,

OR, as the "Mark O. Hatfield United States Courthouse." It is an honor to support this bill and to acknowledge the career, the life, and the accomplishments of the senior Senator from Oregon.

Senator HATFIELD consistently has been in the forefront of significant environmental legislation. His accomplishments include passage of the Oregon Wilderness Act of 1984, and the landmark Oregon Wild and Scenic Rivers Act of 1988.

His contributions to the dialog regarding nuclear disarmament lead, in 1992, to signing the nuclear test ban.

Senator HATFIELD is a prolific author, veteran of World War II, and a devoted father. His faith, compassion, and concern for his fellow beings is legendary.

He, and his wisdom, good humor, and gentlemanly behavior, will be missed by all. I join Mr. OBERSTAR and Mr. GILCHREST in bipartisan support for S. 1636, and urge its passage.

Mr. Speaker, I yield back the balance of my time.

Mr. SHUSTER. Mr. Speaker, I yield myself such time as I may consume.

Before we vote on this legislation, which I strongly support, I would like to say that our staff on both sides of the aisle, on our Committee on Transportation and Infrastructure, is absolutely performing an outstanding job not only on all of the bills which we are moving today but throughout this Congress. Indeed, I want to pay special recognition to Jack Schenendorf, the chief of staff, who is one of the most capable, well-intentioned, intelligent, experienced, sensitive chiefs of staff that we have had the privilege and pleasure of working with in the years that I have been in the Congress.

In fact, he follows in the footsteps of the legendary chief counsel, Dick Sullivan. Dick Sullivan is at home seriously ill, I understand. I think that much of the bipartisanship that we enjoy on our committee, much of the effectiveness of the committee, is very directly related to the foundation that Dick Sullivan helped lay when he was the chief counsel of this committee. I know we all certainly wish Dick Sullivan our very best. I think it is appropriate to acknowledge that he, indeed, has been a legendary chief counsel to this committee.

Mr. OBERSTAR. Mr. Speaker, will the gentleman yield?

Mr. SHUSTER. I yield to the gentleman from Minnesota.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding to me. I very much appreciate his recognition of the staff on both sides. Certainly Jack Schenendorf has provided leadership and vigorous initiative, as Dave Heymsfeld has done on our side and have worked together to iron out differences that maybe sometimes Members could not resolve. They have found creative ways.

I do want to express my appreciation for the chairman's recognition of Dick Sullivan. I talked with Dick last Friday. Though his voice was weak, his spirit is certainly strong. I know all of us join in our prayers for his recovery

in a bout with cancer and with ongoing chemotherapy. He certainly did set a standard, as the chairman said, for excellence in staff performance.

Mr. TRAFICANT. Mr. Speaker, will the gentleman yield?

Mr. SHUSTER. I yield to the gentleman from Ohio.

Mr. TRAFICANT. Mr. Speaker, I would like to associate myself with the remarks relative to Dick Sullivan on behalf of all the speakers here. I also commend the staff and I hope that Dick finds success in his struggle. His work with our committee is legendary, and we all wish him the very best.

Mr. GILCHREST. Thank you, Mr. Speaker. S. 1636 is an act to designate the U.S. courthouse under construction in Portland, OR, as the Mark O. Hatfield United States Courthouse. This designation is a fitting tribute to the senior Senator from the State of Oregon, who is retiring after serving 30 years in the U.S. Senate. Senator HATFIELD has provided thoughtful leadership and pragmatic philosophy to whatever office he has held, be that university president, State representative, Governor, or Senator.

Senator HATFIELD is a native of Oregon, and was educated in Oregon schools. Following service in the Navy during World War II, where he commanded landing craft at Iwo Jima and Okinawa, he returned to civilian life. He became an educator and university dean of students at Willamette University. He began his political career in 1950 in the Oregon legislature. After two terms in the Oregon house and 2 years in the Oregon senate, he was elected secretary of state for Oregon, and in 1958 was elected Governor and served two terms. In 1966, Senator HATFIELD was elected to the U.S. Senate, where he has served with distinction until his retirement this year. His 30-year service is the longest service of any Senator from Oregon.

I am pleased that our colleagues, Mr. BUNN and Mr. COOLEY, cosponsored a companion bill, H.R. 3134, and I am pleased that a Member of the committee, Mr. DEFAZIO was principal sponsor of that bill.

I support the bill and I urge my colleagues to pass the bill.

One final note on this bill. When the other body passed S. 1636, a floor amendment was added to extend the membership of retiring Members of Congress on the Franklin D. Roosevelt Memorial Commission. This Commission was created in 1955, and Senator HATFIELD has been a member of this Commission for 25 years. The Senate amendment would allow Senator HATFIELD to continue his service on this Commission for the dedication of the FDR Memorial in May 1997. The Commission will cease to exist after the Memorial opens.

Ms. FURSE. Mr. Speaker, I rise today in support of S. 1636, which will name a Federal courthouse in downtown Portland for MARK O. HATFIELD. This building lies in the heart of my district, but more importantly, Senator HATFIELD has been my close friend and valued ally for 16 years now.

Senator HATFIELD's commitment to justice issues through the years makes it fitting that this new courthouse be named for him. The achievements for justice we have accomplished together through the years include the founding of the Oregon Peace Institute, restoration of tribal status for several Oregon In-

dian tribes and bringing increased awareness to Oregonians regarding issues of global harmony.

MARK HATFIELD takes principled stands opposing such items as bloated military budgets and the death penalty. He is one of the Senate's bridge builders, one who helps forge policies that move us forward on so many issues that are important to our constituents.

Oregon has been deeply blessed by the service of MARK HATFIELD. As I bid him farewell from the institution of Congress, I feel immeasurable appreciation for his many contributions, great fondness for him personally, and a degree of sadness for all of us. Senator HATFIELD has been a great statesman, a champion for Oregon in every way, a peace activist and a true gentleman.

My friendship with Senator HATFIELD began 16 years ago when he and I worked on Oregon tribal concerns. Since then, I have continued to work with him closely on issues of peace and justice.

Senator HATFIELD has served the State of Oregon in elected office since 1951—45 years now. He has served as State representative, State senator, Oregon secretary of state, Governor and now U.S. Senator, never losing an election. He has served the State in countless other ways and his courageous leadership on a wide range of issues has truly made the world a better place.

Among Senator HATFIELD's contributions I admire most are his service on the founding board of the Oregon Peace Institute and his early opposition to our involvement in the Vietnam war. He was a champion of peace when it was not a fashionable issue, when it was dangerous politically. MARK HATFIELD voted against the resolution supporting the Gulf of Tonkin Resolution at the 1964 National Governor's Association. As Appropriations Committee chairman during the Reagan-era defense buildup, Senator HATFIELD worked arduously, and with some success, in preventing the increases.

MARK HATFIELD and I have worked together for years in the nuclear weapons freeze movement and I believe he has worked harder than anyone to stop nuclear testing. His success in that quest provided momentum vital to this month's successful adoption of a comprehensive nuclear test ban by the Nuclear Nations. I am confident that with the groundwork laid by Senator HATFIELD, we will eventually rid the world of the scourge of nuclear weapons.

MARK HATFIELD has been my colleague, my adviser, and most of all, my friend in this place called Capitol Hill. I look forward to continuing all of that when he returns permanently to Oregon, the home we both love.

I urge my colleagues to support H.R. 1636.

Mr. DEFAZIO. Mr. Speaker, it is my great pleasure that the House is, today, considering S. 1636, legislation designating the Mark O. Hatfield Courthouse in Portland, OR. Senator WYDEN and I introduced companion legislation earlier this year, with the full and enthusiastic support of the entire Oregon delegation. Passage of this legislation is just a small way of expressing our debt of gratitude to Senator HATFIELD for his lengthy career of public service to the State of Oregon and the Nation.

The State of Oregon has been graced by the representation and leadership of MARK HATFIELD for over 60 years. When Senator HATFIELD retires at the end of this year, it will represent a tremendous loss to the State. He

stands among the giants of Oregon politics. Very few others have rivaled his dedication and service. Senator HATFIELD served in World War II, as a college professor, as a State representative, as a State senator, as Oregon secretary of state, Oregon's Governor for 8 years and finally as a U.S. Senator for the past 30 years.

What's more, MARK HATFIELD's service to the Nation has been equally impressive and few here in Congress have matched the Senator's character and integrity. No matter how unpopular his stand, Senator HATFIELD's allegiance has always been to his principles first and foremost. He has gained respect on both sides of the isle for his thoughtful leadership and pragmatic philosophy. For MARK, his career has been about bringing people together and doing what is right instead of what's popular.

For a building that will exemplify integrity and service to Oregon and the United States, I can think of no better individual to name it after than Senator MARK O. HATFIELD.

Again, I'm very pleased that the House is adopting this measure today.

Mr. BUNN of Oregon. Mr. Speaker, I would like to take this opportunity to thank chairman SHUSTER and chairman GILCREST for bringing this important piece of legislation to the floor. This legislation is important, it is important to Americans, to those of us in the Congress, and most of all, to my fellow Oregonians. It is important because it honors a man who has served the State of Oregon as well as his country for all of his adult life. I am proud to support Senate bill 1636, a bill that will designate the Mark O. Hatfield Courthouse in Portland.

Mr. Speaker, it is said that the difference between a statesman and a politician is that a politician thinks of the next election while the statesman thinks of the next generation. Senator HATFIELD has been a true statesman of Oregon in every sense of the word. Generations of Oregonians, including my own children, will benefit from the hard work and dedication to Oregon by Senator HATFIELD.

As we designate this courthouse to Senator HATFIELD, generations of Oregonians will be reminded of the long and distinguished career of Senator HATFIELD. From his days as a State senator, to his days as Oregon's youngest Governor, and finally to his career in the U.S. Senate, the courthouse will serve to remind all Oregonians of a man they can be proud of.

Mr. Speaker, it has been my honor to have the opportunity to serve with Senator HATFIELD in the 104th Congress. As a member of the House Appropriations Committee I have had ample opportunity to watch Senator HATFIELD bring both sides of the aisle together in order to do what is right for America. Although I have not always agreed with the positions of Senator HATFIELD, I know that they have always been well thought out and what he believed best for Oregonians. Let me finish by wishing Senator HATFIELD and his wife Antoinette all the best in his retirement. And on behalf of the people of Oregon, offer him a well deserved thank you for all of his years of service.

Mr. SHUSTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER], that the House suspend the rules and pass the Senate bill, S. 1636.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SHUSTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on the bills just considered.

The SPEAKER pro tempore. Is there objection to request of the gentleman from Pennsylvania?

There was no objection.

AVIATION DISASTER FAMILY ASSISTANCE ACT OF 1996

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 3923, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania [Mr. SHUSTER] that the House suspend the rules and pass the bill, H.R. 3923, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 401, nays 4, not voting 28, as follows:

□ 1230

Mr. COBURN changed his vote from "nay" to "yea."

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1997

Ms. GREENE of Utah. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 522 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 522

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 3675) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore (Mr. BE-REUTER). The gentlewoman from Utah [Ms. GREENE] is recognized for 1 hour.

Ms. GREENE of Utah. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Massachusetts [Mr. MOAKLEY], pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for purposes of debate only.

Mr. Speaker, H.R. 522 provides for consideration of the conference report for H.R. 3675, the fiscal year 1997 Transportation appropriation bill. The rule waives all points of order against the conference report. The waiver covers provisions relating to legislation and unauthorized items on a general appropriations bill.

Waivers under the rule are in accordance with previous tradition on appropriations conference reports, and the rule was reported out of committee on a voice vote with no controversy or opposition.

On the bill itself, I would like to commend the gentleman from Virginia, Chairman WOLF, and Ranking Member COLEMAN for putting together an excellent bill that funds this nation's most critical transportation needs.

As my colleagues know, transportation plays a crucial role toward promoting our current and future economic growth and prosperity. This bill plays an important role in improving America's transportation infrastructure, thereby helping to secure our role in the global marketplace and, at the

same time, improving our quality of life.

Mr. Speaker, I would like to emphasize that this rule was unanimously reported out of committee without any controversy and that it is in keeping with tradition on conference reports for appropriations bill. I urge my colleagues to support both the rule and the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to join my Democratic and my Republican colleagues in supporting the rule for this Transportation appropriations conference report this morning.

I would like to commend Chairman Wolf and Ranking Member COLEMAN for all of their hard work in getting this bill to the floor today. This Transportation bill addresses some of the very real transportation issues facing our country today.

It allocates \$4.9 billion to the Federal Aviation Administration to help make airline travel in the United States even safer than it already is. Thanks to this bill, American airports will be able to hire 500 new air traffic controllers and 367 new safety inspectors.

In light of the recent tragedy in New York and the increasing danger of both international and domestic terrorism, I can not think of anyone who would object to our doing everything we can to make flying safer.

This bill also allocates \$35 million for boat safety and \$2.3 billion for the operation of the Coast Guard. As a Massachusetts Representative, I can tell you that these funds will mean a great deal to the safety of our Nation's boaters, vacationers, and maritime workers.

The conferees also allocated \$115 million for the Northeast corridor improvement project. The Northeast corridor is the most traveled passenger rail route in the country stretching from Boston to Washington. It carries 100 million passengers each year.

Although I still believe this country has a very long way to go in terms of improving its passenger rail system, these funds will certainly help.

So, Mr. Speaker, this bill will improve our air travel, our water travel, and our rail travel.

It is a strong package of investments in our infrastructure and as such it will prove to be a strong economic catalyst.

I urge my colleagues to support this rule and to support this bill.

Mr. Speaker, I reserve the balance of my time.

Ms. GREENE of Utah. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin [Mr. SENSENBRENNER] of the Committee on the Judiciary.

Mr. SENSENBRENNER. Mr. Speaker, I rise in opposition to this rule, not because the rule protects a good bill, but because there is a provision in this bill that does not belong in there. It is

a provision that is certainly a poster child of why the line-item veto is long overdue.

Section 351 of this legislation turns Congress into a domestic relations court, and a domestic relations court involving one very famous case in the District of Columbia involving Dr. Elizabeth Morgan and her former husband, Dr. Eric Foretich.

By protecting section 351 against the point of order, the Committee on Rules has, in effect, legislated the outcome of a child custody case when the Congress does not have any of the facts, and that is outrageous and it should not be allowed to stand without someone standing up here to object to it.

Let us look at the facts. Drs. Foretich and Morgan were involved in a very messy divorce case. That is not unusual. There are a lot of messy divorce cases that come up in the courts around our country. The divorce was granted.

Dr. Morgan was given custody of her daughter. Dr. Foretich was given visitation rights. Dr. Morgan objected to the visitation rights and went to court, alleging that Dr. Foretich was involved in child molestation. The court did not sustain Dr. Morgan's assertions and continued Dr. Foretich's right to visit. Dr. Morgan then hid the child and prevented visitation, and was jailed for civil contempt.

The gentleman from Virginia [Mr. WOLF] who has put the present provision in the bill, came to Congress, the 101st Congress, and asked us to pass a private bill for the relief of Dr. Morgan, to let her out of jail. When he testified before the subcommittee in the earlier bill, he said, "The legislation written with input from academic and legal communities took great care to protect the ability of the court to enforce its rulings. While the jury trial provision in my legislation protects the individual from indefinite incarceration, the court can pursue additional remedies. Individuals cannot simply wait out the year-long period and expect to walk away from their obligation to obey the court."

Under Public Law 101-97, Dr. Elizabeth Morgan technically could still be charged with criminal contempt of court and brought before a jury. The gentleman from Virginia, Mr. WOLF, said that some years ago. The legislation which he has introduced in this appropriation bill, without consideration by a subcommittee in either House, without a vote in either House, negates that provision.

Second, this is a direct assault on the independence of the judiciary, and is bad public policy. Dr. Morgan has access to a judicial body. If she thinks the judicial body has erred, she can either appeal, or if she thinks that the judge is biased, there are provisions in the D.C. civil procedure court to get a new judge. Instead, she has come to Congress to legislate the outcome.

Finally, Dr. Morgan and her daughter are in New Zealand. The New Zealand

courts have ruled that it is not in the best interests of the child to be brought back to the United States. The New Zealand court has possession of the child's passport. If this legislation is passed, our country will be in violation of the Hague Convention relative to child custody, and if the child is brought back to the United States without valid papers, both New Zealand and American law will be violated. Let us prevent this by voting down this rule.

Mr. Speaker, I include for the RECORD an op-ed piece by Paul Kolker in today's Washington Post.

The material referred to is as follows:

[From the Washington Post, Sept. 18, 1996]

CONGRESS AS A DOMESTIC-RELATIONS COURT
(By Peter R. Kolker)

The legislative branch of the federal government is about to become embroiled in a child-custody dispute. Congress would take one case out of the hands of the judiciary and decide it for itself. This unprecedented move has only two problems: It is bad public policy, and it is clearly unconstitutional.

As reported in The Post's Sept. 13 news story, this imminent legislation—a replay of previous efforts by Rep. Frank Wolf (R-Va)—would strip the District's court system of jurisdiction in the bitterly fought dispute between Elizabeth Morgan and Eric Foretich over the custody of 13-year-old Hillary Foretich, (now Ellen Morgan), and it would prevent the D.C. Superior Court from exercising its authority throughout Ellen's minority. Similarly, it would also prevent her father from seeking visitation through the courts, as is the right of every parent.

The Morgans have been in New Zealand since 1990 but now want to return home—but like all other citizens, they would be subject to the courts upon arrival. Morgan has asked Congress to remove her case from the courts and deal with it on the Hill. This would make her the only American parent whose child-custody case was put beyond judicial reach. It would not be the first time Congress did so for her.

When Morgan refused to comply with a D.C. Superior Court order in the custody battle, she was held in contempt of court, and—in a standoff with the trial judge—she spent more than two years locked up at the D.C. Jail. But with well-connected friends, she secured the backing of Wolf, who engineered special legislation to trump the court's ace and thereby gain her freedom. No one else was affected by that legislation. Once out of jail, she headed for New Zealand, where the courts were more accommodating to her. Now, she wishes to return home, but she needs something even more extraordinary to keep the courts from treating her like others, and she has enlisted the aid of Rep. Wolf again to further her exemption from the process of the law.

But this time, bill would affect someone else—Eric Foretich—by effectively stripping him of his parental rights and denying him access to the Superior Court, which is allowed to everyone else whose child resides in the District.

The Framers of the Constitution thought something like this could happen. And they prohibited it. The Constitution forbids "Bills of Attainder"—laws punishing a specific person or a very narrow class of individuals, constructed to deprive them of the due-process protections available to others.

Not that this subject wasn't raised when Wolf's subcommittee first took up the legislation. George Washington law professor Jonathan Turley appeared at a hearing a

year ago and explained to the subcommittee the three hallmarks of the prohibited Bill of Attainder: specificity, punishment and elimination of judicial due process. Turley pointed to the introduction to that early bill, which proudly states that it applies only to the Morgan/Foretich case. Elimination of the father's visitation rights certainly is a punishment (whether deserved or not is another question), and it does so without the protections found in court. Presto! A Bill of Attainder. So why has minimal-government proponent Wolf persisted?

The dramatic Morgan battle has had much media coverage, and one can feel passionately about the story. Who knows the truth of this case: whether or not Ellen, when a very young child, was sexually abused by her father, as Morgan alleged and Foretich denied? If he did, then serious restrictions on visitation, perhaps even prohibitions, are in order.

But what if he didn't? In our legal system, figuring out what happened in a private dispute is for the courthouse, not the Capitol. Our Constitution separates the judicial from the legislative functions for good reason. A political forum is hardly the place to take the testimony of witnesses in a custody case, or to find facts or to fashion custody orders.

Just consider how this remedy was crafted: as a last-minute add-on to a transportation appropriations bill having nothing to do with child custody. If Congress becomes the court of appeals for the Morgan case, will the federal legislature and Wolf be available to every District litigant who feels wronged by the trial court? Or do only the well-connected get to have their cases adjudicated on Capitol Hill?

The judicial process was, and continues to be, fully available to Ellen and both her parents. Whatever the decision may have been years ago, the trial judge is bound to consider the changed circumstances of the intervening years. Ellen, now a teenager, certainly can articulate her views to the judge, who undoubtedly would pay close attention. If there were reason to think the original judge was biased, a mechanism exists to replace him.

Mr. MOAKLEY. Mr. Speaker, I yield 5 minutes to the gentleman from Colorado [Mr. BEILENSEN].

Mr. BEILENSEN. Mr. Speaker, I thank my friend and ranking member for yielding time to me.

Mr. Speaker, I rise in opposition to the bill and to the conference report on H.R. 3675, transportation appropriations for fiscal year 1997, that it would make in order. Three of the bill's provisions that the rule protects are especially objectionable.

First, the rule provides waivers for the legislative provision in H.R. 3675 that freezes fuel economy or CAFE standards for the second year in a row. That is an unwarranted protection of a controversial and major provision that should not be in an appropriations bill in the first place. This legislative rider weakens an important successful environmental effort that has served us well.

The fuel economy standards freeze weakens our efforts to reduce pollution, to improve our Nation's energy security, and to lower the cost of gasoline for consumers. By reducing oil consumption, CAFE standards have been enormously successful in cutting pollution in this country. By prevent-

ing the emission of millions of tons of carcinogenic hydrocarbons into the air, the standards have improved air quality greatly, including those obviously in heavily populated cities like my own of Los Angeles.

In addition, CAFE standards have proved to be successful in saving an estimated 3 million barrels of oil a day, thereby reducing U.S. dependence on imported oil. There is no doubt that without these standards we would be importing far more oil than we already do. We now import about 52 percent of all the oil we use in the United States, which contributes \$60 billion annually to our trade deficit.

□ 1245

Of direct importance to consumers, CAFE standards result in savings when these consumers purchase gasoline. Because fuel economy standards doubled between 1975 and the late 1980's, a new car purchaser now saves an average of about \$3,300 at the gas pump over the lifetime of his or her car. CAFE standards mean over \$40 billion in consumer savings annually.

By continuing this freeze, Congress is preventing full implementation of the law that was enacted back in 1975 that, as I said, has served us so well since.

Specifically, the freeze is blocking improvements in the CAFE standards for light trucks. This means that our constituents who purchase the very popular minivans, sport utility vehicles, jeeps, and pickups are denied the benefits of existing fuel savings technologies.

These vehicles have become the most prevalent example of the gas guzzlers we have sought to do away with. They now comprise over 40 percent of the new vehicle market, expanding the demand for oil and of course increasing pollution.

Second, Mr. Speaker, many of us regret that the bill makes reductions in funding for Amtrak. Compared to the House bill, the conference report is certainly preferable and the conferees are to be commended for restoring much of Amtrak's funding. Still, the legislation before us appropriates \$70 million, or 11 percent less than current funding, and 11 percent less than requested. This is, Mr. Speaker, a bad transportation policy.

Instead of reducing funds for Amtrak, we ought to be providing more to improve and expand rail service in the United States. We are now making an investment that is totally inadequate. Our rail system is nowhere near so cost effective or consumer oriented as it should be, but instead of providing the funds to overcome those deficiencies, the action we are taking today represents a big step backwards.

An effective, efficient rail system is essential to the quality of life and the economic vitality of our Nation, and improving rail service should be a top priority. Instead, it has been sadly and badly neglected.

Trains run infrequently; the most popular ones are overcrowded; and passengers have well-founded fears about

safety and the lack of good reliable service. But rather than trying to meet the demands of consumers and would-be customers by improving our rail program, we have relegated rail service to the bottom of our list of priorities, where it takes a back seat to the enormous amount of funding we continue to pour into our multibillion dollar highway system.

Lastly, Mr. Speaker, and here I agree strongly with the gentleman from Wisconsin [Mr. SENSENBRENNER], those of us who believe that the procedural integrity of the House should be maintained are very troubled about the provision added in conference to strip the D.C. Superior Court of jurisdiction over the Elizabeth Morgan child custody case. This legislative rider is an egregious violation of several House rules, including the rule prohibiting legislation in an appropriations bill. It is certainly not germane to the bill and is definitely outside the scope of the conference's jurisdiction, since it was in neither the House nor the Senate version of the bill that was sent to conference.

The provision itself, as we have heard, is very controversial. It is unconstitutional, since the Constitution forbids bills of attainder, or laws that punish a specific person or deprive that person of the due process protections available to everyone else and is bad public policy for Congress to make this move, which is clearly unprecedented. The legislative branch should not interject itself in a domestic family dispute that is in the hands of the Judiciary, where it belongs.

Further, by agreeing to this provision, Congress would be putting itself in the position of passing legislation that encourages a violation of the Hague Convention, which both New Zealand, which has recently issued a ruling in this case, and the United States have signed.

Mr. Speaker, we all agree that there are times when exemptions to House rules are necessary to keep the legislative process moving along. They should not be provided, however, for provisions that represent such egregious violations of those rules as appear in at least, I think, these 3 instances in this particular rule.

Ms. GREENE of Utah. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia [Mr. BATEMAN].

Mr. BATEMAN. Mr. Speaker, I thank the gentlewoman for yielding me this time. I rise to support the position that we have heard articulated both by the gentleman from California [Mr. BEIL-ENSON] as well as the gentleman from Wisconsin [Mr. SENSENBRENNER]. It is unfortunate when we allow matters which are not germane to a bill to become a part of the bill. It makes it doubly unfortunate when it is not only not germane, it is totally extraneous, and when it is in violation of the rules of the House that it be legislating in an appropriations bill.

All of this would not shock my conscience given my years of service in

the House of Representatives. But indeed it does shock my conscience that we put in this bill or allow to be put in this bill and for the rule to come to the floor making it not subject to a point of order, when it is a flagrant act of unconstitutional interposition of the legislative branch and an abuse of legislative power. There are very strong feelings and emotions about the merits of the Morgan-Foretich child custody case. I am not here to argue those merits. I am here simply to say that it is an abuse of the legislative process and shocks the conscience of this Member that this is being done, to deny to one party who is entitled to access to the courts that access as a narrow and specific legislative act. It is a bill of attainder, it is clearly and flagrantly unconstitutional, and it is an abuse of our processes that it be in this bill or in this conference report without an opportunity to raise the numerous points of objection which lie against it.

Mr. MOAKLEY. Mr. Speaker, I yield 5 minutes to the gentleman from Colorado [Mr. SKAGGS].

Mr. SKAGGS. I appreciate the gentleman's yielding me this time.

Mr. Speaker, there are several provisions in this bill of particular concern to the area I represent in Colorado, and I wanted to speak to those very briefly.

First of all since I am going to be tied up in a conference committee meeting during debate on the adoption of the conference report itself, I wanted to express my appreciation to the gentleman from Virginia [Mr. WOLF], the chairman of the subcommittee, and the gentleman from Texas [Mr. COLEMAN] for their work on this bill and their efforts to accommodate many, many competing demands for limited funds.

In particular on the positive side, the conference report anticipates substantial funding for further research into aviation-weather safety issues, much of which will be conducted by very skilled scientists and researchers in the area that I represent in Colorado, and I am grateful for the funding for those important public safety activities.

The conference report also includes initial Federal funding toward the construction of a light rail system to handle the transportation needs of the people of metropolitan Denver under the authority of the Regional Transportation District.

This is an absolutely critical need for this major metropolitan area. As with so many places, we cannot continue to handle our commuter traffic merely by building additional lanes of highways, and getting this assistance on a light rail system for this fast-growing area is very important. I want to thank the gentleman from Virginia [Mr. WOLF] and the gentleman from Texas [Mr. COLEMAN] for their assistance there.

The bill also includes some provisions having to do with Denver International Airport. I respect and have had many conversations with the gentleman from Virginia about his concerns about the airport and the future

construction of a sixth runway at the airport. I believe that over time we will be able to have a successful dialog about the various concerns that, at this point, anyway, cause there to be some restrictions about that item in the bill. Among those concerns are a widespread feeling in the Denver area about noise violations emanating from airport operations. The FAA and the city and county of Denver have been working, I think, very hard on resolving those problems. We still have a way to go, and I think until those noise issues have been successfully addressed, it would probably be premature to worry about expansion of the airport with a sixth runway. But inevitably that will be needed. I hope that we can proceed in parallel with the resolution both of some very serious noise issues as well as the need ultimately for the sixth runway to be built so that the new Denver International Airport can reach its full potential, including handling trans-Pacific international flights for which that runway will be necessary.

Mr. Speaker, I look forward to supporting adoption of the conference report. I again state my appreciation for the work of the gentleman from Virginia and the gentleman from Texas in dealing with the needs of the State of Colorado.

Ms. GREENE of Utah. Mr. Speaker, I yield 5 minutes to the gentleman from Virginia [Mr. WOLF].

(Mr. WOLF asked and was given permission to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, I would like to insert and read a letter at the outset from Congressman CLINGER and Congressman DAVIS. It says:

"Dear Frank, this is to respectfully request that H.R. 1855," which is the bill with regard to Dr. Morgan, "be added to legislation now pending in the conference committee appointed to consider the appropriations bill for the Department of Transportation. As you know, H.R. 1855 was the subject of a hearing in the District of Columbia Subcommittee of the Government Reform and Oversight Committee on August 4, 1995. Subsequently, on February 1, 1996," and I will insert that letter in the RECORD, "a written request was made to Majority Leader RICHARD K. ARMEY that the bill be discharged from the Committee. A copy of this letter is attached for your examination, along with a copy of the bill.

"Thank you for your consideration of this request."

Signed "BILL CLINGER, Chairman, Committee on Government Reform and Oversight," and "TOM DAVIS, Chairman, District of Columbia Subcommittee."

Second, this Congress in the past had voted after Dr. Morgan was incarcerated in prison for over 2 years for not testifying in a case. Many people who are arrested in the District of Columbia for drug use and felonies get out faster than Dr. Morgan got out. And

this Congress has been on record overwhelmingly on this case.

Third, I would also say that I think, and I will submit the full statement in the RECORD, Members should know Dr. Morgan is extremely sick, she has had her rectum removed, she has a colostomy which is on a bag on her side. Her father died several months ago and she was not able to attend her father's funeral. Her mother is 80-some years old. Her mother is living with her in New Zealand, taking care of Dr. Morgan and also taking care of Dr. Morgan's young daughter. Dr. Morgan's young daughter desperately wants to return to the United States. This court has had the case for 9 years. Nine years.

Last, Dr. Morgan is very sick, and I would ask any Member of this body who has either been sick or has a husband or a wife or a son or a daughter, whether or not they would not have wanted them to have the very best health treatment they possibly could, and I know from this body, made up of good and decent people, the answer would be "yes." And Dr. Morgan would like to be able to return, so she could have first-class health treatment.

On January 25 of this year, at a press conference, attended by the gentleman from Virginia, TOM DAVIS, and the gentlewoman from Maryland, CONNIE MORELLA, I promised that if the legislation I cosponsored allowing Ellen to return to America had not been signed into law at this time, I would include it in the fiscal year 1997 Department of Transportation appropriations bill. I said, and I quote:

I am here to tell you that it is my intention to search for an appropriate vehicle for this legislation and I won't rest until it is passed. I will even attach this legislation to our fiscal year 1997 transportation appropriations bill as a last resort.

I did what I promised to do. The legislation passes no judgment on any of the parties involved. It does not take sides. It does not say anyone is right or anyone is wrong.

I was not elected to Congress to harm people. I was elected to Congress to help people, and I have done what I believe is right. It is unconscionable to me that an American girl has been forced to live in exile away from her family and friends, where the courts have failed for 9 years to find a solution to this situation. Quite frankly, they have failed miserably.

Mr. Speaker, I strongly support the rule.

HOUSE OF REPRESENTATIVES, COMMITTEE ON GOVERNMENT REFORM AND OVERSIGHT,

Washington, DC, July 24, 1996.

Hon. FRANK R. WOLF,
Member of Congress, House of Representatives,
Cannon House Office Building, Washington, DC.

DEAR FRANK: This is to respectfully request that H.R. 1855 be added to legislation now pending in the conference committee appointed to consider the Appropriations Bill for the Department of Transportation. As you know, H.R. 1855 was the subject of a hearing in the District of Columbia Subcommittee of the Government Reform and

Oversight Committee on August 4, 1995. Subsequently, on February 1, 1996 a written request was made to Majority Leader Richard K. Armey that the bill be discharged from the Committee. A copy of this letter is attached for your examination, along with a copy of the bill.

Thank you for your consideration of this request.

Sincerely,

WILLIAM F. CLINGER, Jr.,
Chairman, Government Reform and Oversight Committee.

TOM DAVIS,
Chairman, District of Columbia Subcommittee.

HOUSE OF REPRESENTATIVES, COMMITTEE ON GOVERNMENT REFORM AND OVERSIGHT,

Washington, DC, February 1, 1996.

Hon. RICHARD K. ARMEY,
Majority Leader, House of Representatives,
Washington, DC.

DEAR MR. LEADER: This letter is to request that H.R. 1855, a bill to amend title 11, District of Columbia Code, to restrict the authority of the Superior Court of the District of Columbia over certain pending cases involving child custody and visitation rights, be discharged from the Committee on Government Reform and Oversight. I have consulted with Ranking Minority Member Cardiss Collins and she concurs with this request.

Thank you for your consideration of this matter.

Sincerely,

WILLIAM F. CLINGER, Jr.,
Chairman.

H.R. 1855

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TREATMENT OF CERTAIN PENDING CHILD CUSTODY CASES IN SUPERIOR COURT OF DISTRICT OF COLUMBIA.

(a) IN GENERAL.—Subchapter II of chapter 9 of title 11, District of Columbia Code, is amended by adding at the end the following new section:

"§ 11-925. Rules regarding certain pending child custody cases

"(a) In any pending case involving custody over a minor child or the visitation rights of a parent of a minor child in the Superior Court which is described in subsection (b)—

"(1) at any time after the child attains 13 years of age, the party to the case who is described in subsection (b)(1) may not have custody over, or visitation rights with, the child without the child's consent; and

"(2) if any person had actual or legal custody over the child or offered safe refuge to the child while the case (or other actions relating to the case) was pending, the court may not deprive the person of custody or visitation rights over the child or otherwise impose sanctions on the person on the grounds that the person had such custody or offered such refuge.

"(b) A case described in this subsection is a case in which—

"(1) the child asserts that a party to the case has been sexually abusive with the child;

"(2) the child has resided outside of the United States for not less than 24 consecutive months;

"(3) any of the parties to the case has denied custody or visitation to another party in violation of an order of the court for not less than 24 consecutive months; and

"(4) any of the parties to the case has lived outside of the District of Columbia during such period of denial of custody or visitation."

(b) CLERICAL AMENDMENT.—The table of sections for subchapter II of chapter 9 of title 11, D.C. Code, is amended by adding at the end the following new item:

"11-925. Rules regarding certain pending child custody cases."

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to cases brought in the Superior Court of the District of Columbia before, on, or after the date of the enactment of this Act.

(2) CONTINUATION OF PROVISIONS UNTIL TERMINATION.—The provisions of section 11-925, District of Columbia Code (as added by subsection (a)), shall apply to any case described in paragraph (1) until the termination of the case.

In August 1987, Dr. Elizabeth Morgan, a northern Virginia plastic surgeon, was jailed in Washington, DC, for contempt of court for failing to disclose the whereabouts of her daughter Ellen in a child custody case. Dr. Morgan was never charged with any crime yet languished in prison for over 2 years. Hardened criminals convicted of drug dealing and other crimes often spend less time in District of Columbia prisons. On September 23, 1989, President George Bush signed legislation I introduced prohibiting the District of Columbia courts from incarcerating anyone for more than 12 months in a child custody case unless they are charged with criminal contempt and given a jury trial to determine their innocence or guilt. Because of my legislation, Elizabeth Morgan was released.

Dr. Morgan later joined Ellen who had been living in exile in New Zealand since 1987. On June 15, 1995, I cosponsored legislation, H.R. 1855, permitting Ellen and Dr. Morgan to return home. At that time, Ellen's grandparents were very ill as was her mother. Since that time Ellen's grandfather has passed away and her grandmother's health is rapidly deteriorating. In addition, her mother has undergone emergency colectomy surgery, was forced to live with a bag resulting from an ileostomy, and suffers from a severe intestinal ulceration. Dr. Morgan needs the medical attention she can only receive here at home and Ellen longs to return to America.

Because of the failure of the court system in the District of Columbia, Ellen was prohibited from attending her grandfather's funeral this year. I promised that I would do everything in my power to make sure that she could still live the life of an American teenager that she so desperately yearns for. On January 25 this year, at a press conference attended by Representatives TOM DAVIS and CONNIE MORELLA, I promised that if the legislation I cosponsored allowing Ellen to return to America had not been signed into law by this time, I would include it in the fiscal year 1997 Department of Transportation appropriations bill. I said, "I am here to tell you that it is my intention to search for an appropriate vehicle for this legislation and won't rest until it is passed. I will even attach this legislation to our fiscal year 1997 transportation appropriations bill as a last resort." That is what I have done and it should come as no surprise to anyone. Yesterday, the House and Senate conferees met to resolve the differences between the two Chambers' transportation spending bills and the

agreed-upon conference report includes a provision changing District of Columbia law permitting Ellen, now age 13, and Elizabeth to come home.

The legislation passes no judgment on any of the parties involved. It does not take sides. And it does not say anyone is right or anyone is wrong. I was not elected to Congress to harm people. I was elected to Congress to help people and I have done what I think is right. It is unconscionable to me that an American girl has been forced to live in exile away from family and friends while the courts have failed for 9 years to find a solution to this situation. And quite frankly, they have failed miserably.

The legislation changes District of Columbia law, in this case only, by transferring visitation decisions from the court to Ellen and prohibits the court from enforcing any outstanding civil contempt order on Dr. Morgan resulting from this custody case.

This is the right thing to do and it is the compassionate thing to do.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. GREENE of Utah. Mr. Speaker, I yield myself such time as I may consume.

At this time I would simply say that while there are some particular controversies that have been aired on the floor today, this is a good bill. It is a bill that provides for the transportation needs of every State in the Union, and it is a bill that should pass. I urge my colleagues to support the rule and the underlying bill.

Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1300

Mr. WOLF. Mr. Speaker, pursuant to House Resolution 522, I call up the conference report on the bill (H.R. 3675), making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. BE-REUTER). Pursuant to House Resolution 522, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of Monday, September 16, 1996, at page H10387.)

The SPEAKER pro tempore. The gentleman from Virginia [Mr. WOLF] and the gentleman from Texas [Mr. COLEMAN] will each be recognized for 30 minutes.

The Chair recognizes the gentleman from Virginia [Mr. WOLF].

GENERAL LEAVE

Mr. WOLF. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise

and extend their remarks on the conference report to accompany H.R. 3675 and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. WOLF. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to present to the House this morning a conference report accompanying the bill H.R. 3675, making appropriations for the Department of Transportation and related agencies ending September 30, 1997. This conference report is the 6th of 13 appropriations bills in the House that need to be completed before the beginning of the fiscal year just 12 days from today.

Let me first take a few minutes to summarize the conference report that we bring before you today. The bill appropriates \$12 billion from the general fund of the treasury and \$23.3 billion from the highway and aviation trust funds. The conference report is just \$50 million over the House passed version of the bill which passed by an overwhelming vote of 403 to 2.

A few of the high points include, Mr. Speaker, first, \$18 billion for the Federal aid highway program, \$450 million over the House level and \$350 million over the Senate level. This level represents the highest obligation ceiling in the history of the program.

Second, a total of \$4.98 billion for the operation of the Federal Aviation Administration. This appropriation represents an increase of 5 percent over the 1996 appropriation and provides funds for 500 new air traffic controllers, 367 new aviation safety inspectors and other regulatory oversight personnel, and an increase of 9 percent for field maintenance of air traffic control equipment.

Third, \$1.46 billion for the airport improvement program, an increase of over \$110 million over the budget request.

Fourth, \$3.5 billion for the Coast Guard with an additional \$300 million provided in the defense bill. In total, resources for the operations of the Coast Guard, which does an outstanding job, will increase \$41 million over the 1996 appropriation and \$100 million over the President's request.

Fifth, \$300 million for the National Highway Traffic Safety Administration, an increase of \$20 million over the 1996 appropriations.

Sixth, a total of \$565 million for Amtrak, an increase of \$103 million over the House-passed level. In addition, Amtrak will receive \$195 million for the Northeast Corridor Improvement Program, an increase of \$80 million over the last year.

Seventh, \$2.15 billion for transit formula programs, an increase of nearly \$100 million over the 1996 appropriation. In addition, the conference report includes \$1.9 billion for transit discretionary programs, an increase of \$235 million over the 1996 appropriation and \$100 million over the budget request.

Last, the conference report contains no highway demonstration projects, maintaining an important initiative this Congress began last year.

This conference report places its greatest emphasis on our highest responsibility, and that is protecting and enhancing transportation safety, and it provides the resources to improve the Nation's infrastructure.

The conference report was produced in full cooperation with the minority and all indications are that this bill is a bill the President will sign.

In closing, Mr. Speaker, I want to take a minute to thank my friend, the ranking minority member of the committee, the gentleman from Texas [Mr. COLEMAN].

Mr. COLEMAN has announced his retirement from the House at the end of the session. He and I have worked closely together for the last 2 years and I am sorry to see him leave. It does not mean we have always agreed on each and every issue, but I think he has always had a good sense of humor and we have had a good relationship.

I wish him Godspeed and would tell him that if he does not return to his home State of Texas, we would enjoy it very much if he made his new residence in the great State of Virginia. The great State of Virginia with the Skyline Drive, the Shenandoah Valley, the Appalachian Trail, Monticello, and Mount Vernon, and places like that. And he probably knows about those places because people from Virginia went to Texas but many are returning to live in the great State of Virginia. So if he makes this his place of residence, we clearly would welcome him, and I know he is a very objective man and we would encourage him to register to vote and participate in our politics here.

But I do want to say, quite seriously, that I do want to commend Mr. COLEMAN and wish him well.

Also, Mr. Speaker, in closing, I would like to pay tribute to the staff members. I wish to recognize and thank those staff members who supported the Members of the House in preparation and passage of the fiscal year 1997 Transportation and related agency appropriations bill, H.R. 3675: the Transportation Appropriations Subcommittee's staff, John Blazey, Rich Efford, Stephanie Gupta, and Linda Muir. We could not have done the job without them.

These are four of the finest, first-class individuals, and they have done an outstanding job. They know that I appreciate, and I am sure the minority appreciates the great work they have done.

The appropriations staff, John Mikel, Dennis Kedzior, Elizabeth Morra, Ken Marx, of the majority staff; and Cheryl Smith, who has done an outstanding job representing the minority's interests. I appreciate and salute her.

And also the associate staff of the committee, and I will have all their names in the RECORD. They have done

an outstanding job. We have done about as good a job as one can do, working in a bipartisan way to meet the needs of the Nation. And an indication of that is that the bill passed the House 403 to 2.

Mr. Speaker, I wish to recognize and thank those other staff members who supported the Members of this House in the preparation and passage of the fiscal year 1997 Transportation

and related agencies appropriations bill, H.R. 3675: The associate staff to the committee: Lori-Beth Feld Hua of my office, Monica Vegas Kladakis of Majority Whip DELAY's office, Connie Veillette of Mr. REGULA's office, Steve Carey of Mr. ROGER's office, Bill Deere of Mr. LIGHTFOOT's office, Ray Mock and Eric Mondero of Mr. PACKARD's office, Todd Rich and Sean Murphy of Mr. CALLAHAN's office, Sametta Klinetob of Mr. DICKEY's office, Paul

Cambon of Chairman LIVINGSTON's office, Michael Erlandson of Mr. SABO's office, Jim Jepsen of Mr. DURBIN's office, Laura McKinney of Mr. COLEMAN's office, Barbara Zylinski-Mizrahi of Mr. FOGLIETTA's office, and Paul Carver of Mr. OBEY's office.

Mr. Speaker, I include additional information for the RECORD.

Mr. WOLF. Mr. Speaker, I reserve the balance of my time.

(Mr. COLEMAN asked and was given permission to revise and extend his remarks.)

Mr. COLEMAN. Mr. Speaker, I yield myself such time as I may consume.

I am pleased to rise in support of the conference agreement on fiscal year 1997 transportation appropriations bill.

Mr. Speaker, they say in United States there are really only two kinds of folks, Texans and those who want to be Texans. So for those of us from Texas, while we certainly appreciate Virginia and the great State represented by the chairman of this particular subcommittee, we also believe that in working with the Virginians, we have been able to accomplish a great deal this year for the rest of the country. Indeed, the leadership of the gentleman from Virginia, FRANK WOLF, showed itself to be invaluable once again this year.

This measure is the last transportation appropriations bill that I will be able to manage for the minority on the House floor. It has been a pleasure and honor to work and act as the ranking minority member on the Subcommittee on Transportation appropriations for these last 2 years, a subcommittee on which I have served 8 years of my tenure here in the Congress. The cooperation of the gentleman from Virginia, working not just with me but with other members of the subcommittee, is well known and well documented.

I would also like to thank the minority members of that subcommittee, the gentleman from Wisconsin [Mr. OBEY], the ranking Democrat on the full committee, the gentleman from Minnesota [Mr. SABO], the gentleman from Illinois [Mr. DURBIN], and the gentleman from Pennsylvania [Mr. FOGLIETTA]. Their services on my behalf and on behalf of this transportation bill were also invaluable.

Their insight on various transportation issues that they brought before our subcommittee made their advice both valuable and appreciated by all of us.

I do also want to thank the staff, Mr. Blazey, Mr. Efford, Ms. Gupta, Ms. Muir of the majority staff; and certainly on the minority staff, Cheryl Smith. On my own personal staff Christy Cockburn and Laura McKinney worked very hard to see this bill through.

This conference agreement is certainly one we can all be proud of. It does have strong bipartisan support. This conference report takes the best elements from the respective versions of the transportation appropriations bill as passed by the House and the Senate.

Mr. Speaker, I am pleased to rise in support of the conference agreement on the fiscal year 1997 Transportation appropriations bill. I ask unanimous consent to revise and extend my remarks.

Mr. Speaker, this measure is the last Transportation appropriations bill that I will manage

for the minority on the House floor. It has been my pleasure and honor to be the acting ranking minority member on the Transportation Appropriations Subcommittee for the past 2 years, and to have been a member of the subcommittee for the past 8 years.

I would like to thank the chairman, Mr. WOLF, for his cooperation in working with me and the other members of the subcommittee. I especially want to acknowledge the Democratic subcommittee members—Mr. OBEY, Mr. SABO, Mr. DURBIN, and Mr. FOGLIETTA—for their fine work and insight on the various transportation issues that have come before our subcommittee. I have valued their advice and appreciated their collegiality.

I also want to thank the staff—John Blazey, Rich Efford, Stephanie Gupta, Linda Muir of the majority staff, and Cheryl Smith of the minority staff, and Christy Cockburn, Laura McKinney of my staff—for their hard work on this bill.

This conference agreement is one that we all can be proud of. It has strong bipartisan support. This conference report takes the best elements from the respective versions of the Transportation appropriations bill as passed by the House and the Senate.

The conference agreement provides \$12 billion in new budget authority, and \$37.9 billion in total budgetary resources for important transportation investments. It is well within the 602(B) allocation allotted to this bill.

I am pleased to note that the conference agreement provides significantly increased resources for the major transportation infrastructure programs:

It provides \$18 billion in new spending authority for the Federal Highway Program—\$450 million more than in 1996.

It provides \$1.46 billion in new spending authority for the Airport Improvement Program—slightly more than in 1996.

It provides \$2.15 billion in new spending authority for transit formula grants—\$100 million more than in 1996 for capital investments and \$400 million for transit operating subsidies, the same amount as in 1996.

It provides \$1.9 billion for discretionary grants to maintain and expand mass bus and transit transportation for citizens in both urban and rural communities across the country.

It provides \$150 million in new funding for state infrastructure banks, an important administration initiative to help States leverage private investment for highway and transit projects.

Mr. Speaker, thousands of Americans use Amtrak and Commuter Rail Transportation to get to work and for leisure travel. We have seen in the past year, growing evidence that keeping Amtrak alive and well is vital not only in the Northeast corridor, but throughout the country. I am pleased that the conference agreement provides \$339 million for Amtrak infrastructure investments in the Northeast corridor and on other Amtrak routes throughout the country. These additional funds are a prerequisite for, but not a guarantee of, Amtrak's survival and future self-sufficiency. Clearly, unless additional funds for infrastructure improvements will have to be provided to Amtrak in the future if it is to become truly self-sufficient.

Mr. Speaker, with the rash of tragic aviation accidents this year, we are all concerned about airline security and safety. The conference agreement provides a 5 percent in-

crease in funding for FAA operations, including the Nation's air traffic control system. The \$4.9 billion provided in the bill for FAA operations will enable the FAA to hire 500 new air traffic controllers, and 367 new aviation safety and certification inspectors. The conference agreement also includes nearly \$1 million in additional funds to enhance the FAA security office.

This bill does not address the additional \$198 million requested by the administration to increase security at our Nation's airports, as part of the administration's larger, \$1.1 billion, package to fight terrorism. Nonetheless, I am hopeful that we can include these additional resources in the continuing resolution that must be adopted before we adjourn this year.

In addition, this conference agreement does not include funding as requested by the administration for the Alameda Corridor Rail Project in California—a project that has strong support on both sides of the aisle. However, my understanding is that agreement has been reached to include this project in the continuing resolution when the CR is considered by the House.

Mr. Speaker, this conference report includes other worthy provisions, too numerous to mention now, but they are all detailed in the statement of managers on the conference report.

In closing, let me say that this conference report is a reasonable compromise between the House and Senate bills, while still protecting the priorities of the House. I urge the adoption of the conference agreement and I yield back the balance of my time.

Mr. Speaker, I reserve the balance of my time.

Mr. WOLF. Mr. Speaker, I yield 4 minutes to the gentleman from the great State of Alabama [Mr. CALLAHAN].

(Mr. CALLAHAN asked and was given permission to revise and extend his remarks.)

Mr. CALLAHAN. Mr. Speaker, there has been a lot of partisan activity on the floor of this House during the last several months. I know it must be very confusing to the people that are watching C-SPAN. They hear we are going to do things like cut Medicare and then they hear from someone else saying, no, we are not going to cut Medicare. They hear all of this partisan debate, and 90 percent of the debate that takes place on the floor of this House, especially at this time during the election process, is partisan.

We are not trying to convince anyone that this is a good transportation bill or a bad transportation bill. We are talking about whether or not whatever they say is going to be interpreted by some of those Americans listening and making a decision on whether or not to vote for a Republican President or a Democratic President, or whether to have a Republican controlled House or a democratically controlled House.

But behind the scenes, during all of this frivolous activity that takes place on the floor, there are people like the gentleman from Virginia, FRANK WOLF, people like the gentleman from Texas, RON COLEMAN, a Republican and a Democrat, who have a Republican staff and a Democratic staff who are doing

the work that they are supposed to be doing, doing the work that this body is supposed to be doing: Making certain that the Coast Guard is adequately funded to defend our shores; making certain that Amtrak gets a responsible amount of money and does a responsible job with that money that we appropriate for them; making sure that FAA has an adequate amount of money; to make sure that the people who travel on airplanes travel safely; making certain that our highway programs are adequately funded to ensure that we will maintain what we have today, and that is the best transportation system anyplace in the world.

So while we are out here bickering over all these other things, these two guys and their staffs and their subcommittees have been behind the scenes doing their responsible work.

There are some things in this bill that I disagree with. I am sorry that they chose not to ensure that the rail transportation station between Mobile and New Orleans was not funded. But they did the best they could do with the money that they have; ensuring, No. 1, that we are going to reduce the level of deficit spending; and ensuring, No. 2, that they have a fair and equitable report to bring to this committee. Both of these individuals and their staffs have put in literally hundreds of hours to bring us to this point today.

There are no demonstration projects in this bill. When I joined this subcommittee, I thought, boy, this is going to be a great day. Everything that I can dream up, all I am going to have to do, because I am a member of this subcommittee, is bring it to these two guys and smile at them and say I need this demonstration project. But for the first time in a great number of decades, we are doing it and they are doing it responsibly.

They are letting the States decide the priorities of the money that is available, and that is the way it should be. Politically, it might be to my advantage to go home and say, well, I got some special money put in this bill to build a new bridge. But from a responsible legislative point of view, FRANK WOLF and RON COLEMAN did it right.

So I am here to commend them today and to encourage my colleagues to accept this report, because it is the best that we can do. It has nothing to do with whether we are a Democrat or a Republican or whether we are going to vote for Bob Dole or whether we are going to vote for Bill Clinton. This is what we are here to do; that is to fund these programs that are in this bill.

I urge my colleagues to support this conference report.

□ 1315

Mr. COLEMAN. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. BENTSEN].

(Mr. BENTSEN asked and was given permission to revise and extend his remarks.)

Mr. BENTSEN. Mr. Speaker, I rise in strong support of the conference agree-

ment on H.R. 3675. I would like to thank the gentleman from Virginia [Mr. WOLF] and the gentleman from Texas [Mr. COLEMAN], our ranking member, and the Committee on Appropriations staff for their assistance in eliminating an environmental and safety hazard posed by more than 30 abandoned barges in my district.

I would also like to thank city of Baytown Mayor Pete Alfaro, Harris County Commissioner Jim Fonteno, and Texas State Representative Fred Bosse, along with the San Jacinto River Association and the Banana Bend Civic Association, for bringing this problem to my attention.

Mr. Speaker, the U.S. Coast Guard found in a 1995 study that these long-abandoned barges posed a potential threat to the health and public safety for the people who lived on or used the San Jacinto River in Texas. Furthermore, during the massive flooding that occurred in southeast Texas in 1994, one of these barges caught fire, causing the shutdown of I-10 in east Harris County and resulting in severe traffic problems for many days.

Mr. Speaker this conference agreement provides funds for removing these abandoned barges from the San Jacinto River and the Houston Ship Channel. Last February, I asked the Coast Guard to develop a plan for the disposal of the barges under the authority of the Barge Removal Act. This Federal law, passed by Congress in 1992, grants power to the Coast Guard to remove any abandoned barge after attempts to identify the owners have been exhausted.

Mr. Speaker, the Coast Guard has made every reasonable attempt to locate the barges' owners, and not it is time to stop the search and begin the removal process. I appreciate the hard work of both the chairman and the ranking member in working on this.

Mr. Speaker, I would also like to take this opportunity to thank my colleague, the gentleman from Texas [Mr. COLEMAN]. It has been a real pleasure to work with him as a colleague, because it was about 10 years ago that I had the opportunity to work for him as a staff member on both his personal staff and on the committee staff, and I can tell my colleagues in the House, since this is the last bill that he will be working on as one of the managers, that he has done a great service for not only the people of the 16th District of Texas, but also the people of Texas and the people of the United States.

Mr. Speaker, I commend the gentleman for his service, and I appreciate both his assistance and the assistance of the gentleman from Virginia [Mr. WOLF], I urge my colleagues to support this conference report.

Mr. COLEMAN. Mr. Speaker, I yield 4½ minutes to the gentleman from California [Mr. FILNER].

Mr. FILNER. Mr. Speaker, I thank the gentleman, and I also want to thank the gentleman from Texas [Mr. COLEMAN] for all his work in his tenure

here. He has not only developed the expertise and the technical knowledge, but he approaches the job with a sense of balance and a sense of humor that helps us all. I thank him for his friendship and mentoring while I have been a Member.

Mr. Speaker, we all recognize the need that exists to invest in our transportation infrastructure. I, therefore, somewhat reluctantly rise today in opposition to this conference report.

Mr. Speaker, in every State, in every municipality, the need for funds to repair or build new highways, bridges, or public transportation systems far exceeds our ability to pay for these needed improvements. Nowhere is this need more pronounced than for our Nation's regional and short-line railroads. That is why I cannot understand why this conference committee removed the funds that the Senate provided for section 511, the Railroad Rehabilitation and Improvement Program.

Mr. Speaker, this was not a lot of money. The Senate provided only \$4 million. But this appropriation would have had a beneficial effect that far outweighs this meager amount.

This small appropriation would have guaranteed a minimum of \$75 million in private sector loans. Private sector loans. That is, for every dollar appropriated for section 511 loan guarantees, we would have received almost \$20 in much-needed loan guarantees for our regional and short-line railroads.

These are not grants; these are loan guarantees that will be repaid, and these loans do not have a history of default. In fact, this loan program has one of the highest repayment rates of any government loan program. It is not corporate welfare. There were no earmarks. There was no pork. Regional and short-line railroads would have had to demonstrate economic viability to qualify for these loan guarantees. And while there were no earmarks on appropriation, section 511 would have had a tremendously beneficial effect for the economy of southern California.

Mr. Speaker, we have a project that enjoys widespread support, that will create tens of thousands of new jobs in San Diego and Imperial Counties, reestablishing what is called the San Diego and Arizona Eastern Railroad.

The lack of a direct rail link to the east is hampering the real growth potential of the San Diego economy. Currently, San Diego's few commercial rail shipments must first make a several hundred mile detour. Ships which would otherwise use the Port of San Diego are therefore forced to go elsewhere in search of faster rail routes to inland markets. As a result, our communities lose out on business opportunities and our port suffers from serious underuse.

Reestablishment of this San Diego and Arizona Eastern Railroad is one of the top priorities of everybody in San Diego and enjoys bipartisan support. The City of San Diego, the San Diego County Board of Supervisors, the San

Diego Association of Governments, the Port of San Diego, the Greater San Diego Chamber of Commerce, and the San Diego Economic Development Corporation all rank the reestablishment of this rail link as the highest priority for our area's economic development.

Many of our Nation's regional and short-line railroads find it difficult to obtain private financing for rail line improvements due to short terms and high interest rates. Government assistance in the form of loan guarantees often becomes the only viable means to rehabilitate these vital links in our transportation infrastructure.

Mr. Speaker, I believe that this section 511 program, because it is not a grant, because it is not even a loan, but a loan guarantee to leverage private sector loans, is precisely the type of public-private partnership this Congress ought to encourage.

Last year the chairman of the subcommittee joined me and several of my colleagues in a colloquy in support of this program. In that colloquy the chairman stated:

I concur that these loan guarantees have proven to be reliable and can be a cost-effective and wise use of Federal transportation dollars. * * * I can assure you that I am sensitive to the needs of our regional and short-line rail lines. I will certainly consider funding the 511 Loan Guarantee Program if it is brought before a House-Senate conference.

The Senate came through. They appropriated funding for section 511 loan guarantees, and I congratulate my colleagues in the other body for their vision.

I just want to conclude, Mr. Speaker, by saying that unfortunately the conference committee as a whole did not demonstrate the same vision nor interest in revitalizing our regional and short-line railroads. For that reason, I must oppose the conference report.

Mr. COLEMAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Speaker, I will not take as much time as the gentleman has yielded, but I simply want to take this time to urge support for this bill.

Mr. Speaker, I think it is a reasonably good bill in terms of meeting the country's transportation needs. I think it has been worked out in a very reasonable fashion. I think we need to move on and pass the bill.

Mr. Speaker, I congratulate the gentleman from Virginia [Mr. WOLF] and the gentleman from Texas [Mr. COLEMAN] for their work on it. I am also happy with the allocation of the highway funds for a number of States, including my own.

Let me also say that this will be the last time that the gentleman from Texas [Mr. COLEMAN] will be handling the bill for our side because of his ill-advised decision to retire. Let me simply say that I know the House will miss him. I certainly will miss him.

Mr. Speaker, I think he has demonstrated in the years that he has served in this House that he cares very

deeply about the people and the district he represents. I think he has also demonstrated a passionate commitment to the needs of people in this society who most need our help. I think he has always dealt with every Member of this House with absolute total honesty and frankness.

Mr. Speaker, it takes about a second-and-a-half to figure out where RON COLEMAN is coming from on an issue. That is the way it ought to be with human beings, especially in this profession. And I want to thank the gentleman for his service to the country, I want to thank him for the many contributions he has made to this institution, and I want to thank both the gentleman from Virginia [Mr. WOLF] and the gentleman from Texas [Mr. COLEMAN] for the good job that they have done on this bill.

Mr. COLEMAN. Mr. Speaker, let me just close by thanking all of my colleagues for the kind words this afternoon. I would only say that it has been a distinct honor and pleasure for me to have had the honor to serve with such fine Members and fine staff that we have produced here in these United States.

Mr. Speaker, I yield back the balance of my time.

Ms. HARMAN. Mr. Speaker, I rise today in reluctant support of the conference report on H.R. 3675, the Department of Transportation Appropriations Act, 1997.

I am very disappointed that funding for the Alameda Corridor, a key southern California project with national significance, was not included in this conference report. While the project was supported by Members on both sides of the aisle and was included in both the House- and Senate-passed bills, political gamesmanship during conference led to the removal of this vital project from this legislation.

The Alameda Corridor rail consolidation project is crucial to southern California and the Nation and was recently designated as a high-priority corridor by the Federal Government. The project will bolster our economy by facilitating the movement of goods through the Ports of Long Beach and Los Angeles to American and international consumers. By the year 2010, the Alameda Corridor is expected to create an estimated 700,000 new jobs locally and nearly 6 million nationwide.

This project should have been included in the conference report under consideration today. I am working with my colleagues on both sides of the aisle to ensure that this project is funded this year.

While I am disappointed that Alameda Corridor funding was removed from the conference report, I am pleased to see that the legislation provides nearly \$10 million for another key southern California transportation project—the advanced technology transit bus. Also known as the Stealth bus because it is constructed with the same graphite composite material used on Stealth bombers, the ATTB demonstrates how defense and aerospace technologies can be put to use in cutting-edge advanced transportation applications.

Additionally, I am glad that the conference report contains over \$72 million for funding for security at our Nation's airports and am espe-

cially pleased that the conferees added nearly \$1 million in additional security funds to the administration's request. Recent air tragedies in Florida and off Long Island have graphically underscored the need to direct more Federal attention to increasing aviation security. Enhanced aviation security is particularly important to my congressional district, which is home to the world's third busiest airport, LAX. Congress, the administration, airport operators, and airlines must all work together to battle this growing threat to our national security.

In conclusion Mr. Speaker, while this conference report is not perfect, I urge my colleagues to support it today.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today in support of the conference report on H.R. 3675, the Transportation appropriations for fiscal Year 1997. This report is an improvement on the already excellent legislation that passed this House. Included in these improvements are: Increased funding for Amtrak, \$331 million for mass transit programs, and \$450 million more for highways.

This bill provides funds for substantial improvements of service and safety in all facets of transportation across our Nation.

This bill improves safety in our skies by targeting \$488 million for aviation regulation and safety certification activities which will allow the hiring of 500 additional air traffic controllers and 367 additional aviation safety inspectors and other oversight personnel. It increases air service by providing \$26 million to subsidize airline services to smaller communities.

This bill also improves safety on our roads, especially by providing \$18.0 billion from the highway trust fund for Federal-aid highway grants, which provides formula and other grants for the construction and repair of the Interstate Highway System and other primary and secondary roads and bridges.

This is a good bill that represents the work that Congress can accomplish when we work together for the good of the American people. I salute the work of Chairman WOLF and the ranking member, my colleague from Texas, Mr. COLEMAN, and the rest of the committee for the hard work and bipartisanship that produced such a quality piece of legislation.

I urge all of my colleagues to vote for the conference report and keep the American transportation system the best in the world.

Mr. PORTER. Mr. Speaker, I rise in strong support of the fiscal year 1997 Transportation appropriations conference report. This bill includes important report language impacting my district as well as the Chicago area as a whole.

I am very concerned over the implementation of the Swift Rail Act which preempts State rights to ban the blowing of train whistles at highway rail grade crossings regardless of the safety records at the individual crossings. This act does nothing more than apply a Washington-knows-best mandate to a matter of State and local jurisdiction. The impact of this law as enacted could be catastrophic to the Chicago area. Many of the communities I represent have five or more highway rail grade crossings running through them, and if train whistles are mandated to blow at every crossing 24 hours a day, people will be blasted out of their homes. The law does offer supplementary safety alternatives to the train whistles but they consist of costly unfunded Federal mandates. According to the law, communities can

construct four quadrant gates to replace the need for train whistles. However, four quadrant gates are completely unaffordable to most communities and amount to an unfunded Federal mandate.

Mr. Speaker, highway rail grade crossing safety is of paramount importance to me and I believe we can construct a solution to highway rail grade safety that is more palatable to communities than the Swift Rail Act. I am, therefore, pleased that Chairman WOLF supported the inclusion of the whistle ban language which instructs the Secretary of Transportation to consider the safety records of each individual highway-rail grade crossings and provide exceptions to the mandate where risk is limited. The language also asks the Secretary of Transportation to consider comprehensive local rail safety enforcement and public education programs as supplementary safety measures. Finally, the language specifies that where supplementary safety measures are deemed necessary, the particular characteristics of the crossing and the views of the affected community will be considered in determining the practicality of a proposed supplementary safety measure.

The adoption of this language provides the Federal Railroad Administration with an outline of how to develop a notice of proposed rule-making governing the implementation of the Swift Rail Act and I look forward to a continued dialog with the Department and Chairman WOLF on this issue.

Mr. SHUSTER. Mr. Speaker, I rise in support of the fiscal year 1977 transportation appropriations bill conference report.

First and foremost, I want to thank Mr. LIVINGSTON, Mr. WOLF, Mr. OBEY, and Mr. COLEMAN, and their staff for the high level of consultation and cooperation with the Transportation and Infrastructure Committee in developing this bill.

Overall, the bill balances the need for a strong Federal role in transportation safety with the need to increase investment in our Nation's infrastructure. It increases funding for many important programs, including highway, transit, and aviation. In fact this bill exceeds the President's budget request for infrastructure funding.

The obligation limitation for the Federal-Aid Highway Program is at an all time record of \$18 billion. The overall funding level for highways is over \$20 billion, more than \$1 billion higher than the President's request.

For the Transit Program, the overall level is also increased over the President's request—by almost \$100 million. Federal transit funds help modernize, and maintain our transit systems. They also help build new systems. Good transit has an important role to play, especially in our large and congested cities. This bill will dispel the myth that this Congress is somehow hostile to transit and the transportation problems of our cities.

For aviation, the bill funds an increase of \$254 million for operations over the fiscal year 1996 level. This increase will fund important safety functions and initiatives. The bill also provides funds to continue the modernization for the air traffic control system—a critical safety issue. Once again, for airport grants, the bill provides more funding than the President's request for \$110 million for a total level of \$1.46 billion. I believe, however, that there continue to be significant needs for additional Federal investment in our airports for both safety and capacity reasons.

I am particularly pleased at the high level of funds for the critical infrastructure programs funded from the highway and aviation trust funds.

Earlier this year, the House by an overwhelming margin passed a bill I sponsored—H.R. 842—to take these trust funds off-budget. This strong vote in support of transportation is a major reason that we have such high funding levels in this bill. While I applaud the appropriations committee's action in increasing trust fund expenditures, I remain committed to passage of the off-budget legislation to ensure that all trust fund moneys are spent for their dedicated purpose.

For the Coast Guard the committee has ensured that there are sufficient funds to continue all its missions. We strongly support the Coast Guard's important role in Drug interdiction. This is a vital Coast Guard mission that affects every community across this country.

There is report language accompanying this appropriations bill that encourages Amtrak, the Department of Transportation, and the States to explore using funds derived from the Congestion Mitigation and Air Quality Improvement [CMAQ] Program for intercity rail service. The CMAQ Program is part of the Federal-Aid Highway Program and is funded from the highway trust fund. Such a use of CMAQ funds is without statutory authority and is contrary to congressional intent.

The congressional intent in enacting the CMAQ Program was to assist nonattainment areas that do not meet the national ambient air quality standards [NAAQS] by funding projects that contribute to improving air quality. In order to be eligible, a project must either be listed as eligible under section 108(f)(1)(A) of the Clean Air Act or the EPA, in consultation with DOT, must publish information that it has determined that a project or program is likely to contribute to the attainment of the NAAQS. Intercity rail is not listed in section 108(f)(1)(A) of the Clean Air Act, and, according to the DOT, the EPA has not made any findings that intercity rail is likely to contribute to meeting NAAQS. It is therefore very clear that intercity rail may not be funded under the CMAQ Program.

Last year, the Secretary of Transportation wrote a letter to Members of Congress concerning an application by the State of Oregon to use CMAQ funding for certain Amtrak service. The letter stated that "since the service operates substantially outside the Portland nonattainment area, it would not normally be eligible for CMAQ funding." I fully agree with that statement.

That letter, however, goes on to state that "given its importance to the area, however, I believe that it could be funded as an 'experimental pilot' * * *". I believe that this statement is in error. It is not within the Secretary's discretion to waive certain very specific statutory provisions because an area believes its Amtrak service is important.

I certainly understand the concern of communities that are losing Amtrak service. Diverting funds from the highway trust fund and from projects that improve air quality, however, is not the answer. The reason Amtrak is being forced to close routes, such as the Texas Eagle, is that Amtrak is badly in need of reform, without which its ability to continue operating a national route system is very much in question. The freedom to make good business decisions, not more Government

subsidies, offers Amtrak the best chance at long-term survival. The reforms contained in H.R. 1788, which was passed by the House by an overwhelming majority of 406 to 4 on November 30, 1995, would afford Amtrak the flexibility it needs to operate like a business and stretch scarce resources further.

These reforms include modifications to Amtrak's extremely costly severance benefits under which employees who are laid off due to a route elimination are eligible for up to 6 years full pay and benefits. H.R. 1788 would also allow for contracting out of work; which, except for food service, Amtrak is currently statutorily prohibited from doing. The bill also reforms Amtrak's liability arrangements. Without liability reform, the costs that Amtrak pays freight railroads for the use of their track are likely to rise substantially, leading to further cutbacks in passenger service. These reforms and others contained in H.R. 1788 are the key to improving and sustaining intercity rail service.

I wish to reiterate that the use of CMAQ funds for intercity rail service is not authorized under the law and language in the statement of managers in the transportation appropriations bill can not authorize such use of CMAQ funds.

Ms. FURSE. Mr. Speaker, I rise today to strongly support the conference report. I want to thank members of the subcommittee, particularly Mr. WOLF, for their work on behalf of the Westside light rail project in Oregon. Of course, no discussion of Westside light rail would be complete without thanking Senator MARK HATFIELD for his relentless support of this project. He is a good friend and has served our State with honor and dignity. It is a dramatic understatement to say that he will be missed.

The conference report today includes \$138 million for the Westside-Hillsboro project in Oregon. Westside light rail is one of my top priorities in Congress, and I'm proud that today marks the fourth year in a row that record funding has been provided to this vital project. Previously appropriated funds for Westside light rail have been fully obligated, and the project is on schedule for opening in 1998.

As indicated by the bipartisan and diverse group which I helped organized to testify before the subcommittee earlier this year, light rail continues to enjoy strong support in the Portland area. In the 1990's, Oregon taxpayers have voted to put their money into the South-North and Westside projects by margins of 64 percent and 74 percent.

I am particularly pleased that this conference report also includes an additional \$40 million in authorization for the Westside project. Earlier this year, I testified in the Transportation and Infrastructure Committee along with Tri-Met's general manager, Tom Walsh, in support of making this necessary change. I want to thank both Mr. WOLF and Mr. SHUSTER for agreeing to this language.

I'm also delighted that the conference report includes \$6 million for the South-North light rail project. Light rail is integral to our region's future. As a region, we have developed a vision for liveable communities with less traffic and vibrant commerce which depends on regional and State land use decisions. The Portland metropolitan area's ability to handle our projected growth is predicated on the completion of light rail, and the South-North project is our region's next step toward making our vision a reality.

I want to thank everyone in the delegation who has supported this project, and urge my colleagues to support the conference report.

Mr. WOLF. Mr. Speaker, I have no further requests for time, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. BE-REUTER). The question is on the conference report.

Pursuant to clause 7 of rule XV, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 395, nays 19, not voting 19, as follows:

[Roll No. 419]

Messrs. NEAL of Massachusetts, BARRETT of Wisconsin, HOEKSTRA, and MARKEY changed their vote from "yea" to "nay."

Mr. STEARNS changed his vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed bills and a concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 1080. An act to amend chapters 83 and 84 of title 5, United States Code, to provide additional investment funds for the Thrift Savings Plan, to permit employees to gain additional liquidity in their Thrift Savings Accounts, and for other purposes;

S. 1965. An act to prevent the illegal manufacturing and use of methamphetamine;

S. 2085. An act to authorize the Capital Guide Service to accept voluntary services; and

S. Con. Res. 71. Concurrent resolution expressing the sense of the Senate with respect to the persecution of Christians worldwide.

"DEAR COLLEAGUE" LETTER FROM THE PAST APPLICABLE TO THE PRESENT

(Mr. HOKE asked and was given permission to address the House for 1 minute.)

Mr. HOKE. Mr. Speaker, I would like to read from a "Dear Colleague" that was signed by the gentleman from Georgia [Mr. LEWIS] who just spoke, as well as the gentleman from Missouri [Mr. VOLKMER] just a few years ago.

Quote,

As the Ethics Committee prepares its recommendations to the full House, it should release only the information which the committee agrees is relevant and necessary to support its findings. To ask a Member, any Member, to also respond in the court of public opinion to allegations, rumors and innuendo not deemed worthy of charge by the Committee would be totally unfair and a perversion of the process. Especially in a time of press sensationalism.

Public release of material not germane to formal Committee action would be similar to the process used during the Joe McCarthy era: Ignore the discipline of due process and firm evidence, and dump unproven allegations out in public and let the ensuing publicity destroy the person's reputation and career.

Signed, RICHARD GEPHARDT, PAT SCHROEDER, HAROLD VOLKMER, JOHN LEWIS, JOHN DINGELL, MARTIN FROST, et cetera.

Mr. Speaker, I include the following for the RECORD:

CONGRESS OF THE UNITED STATES,

Washington, DC, April 13, 1986.

Re: Wright case raises crucial fairness issue

DEAR COLLEAGUE: Calls by some Members of this House for release of all gathered background material on Speaker Wright—no matter how irrelevant to specific recommendations of the Ethics Committee—threatens every Member of Congress. And it should offend every Member who values this institution and fair play.

We all support the ability and the obligation of the Ethics Committee to take a close, hard look at all responsibly made charges formally brought against any House Member. But, every Member, from the newest freshman up to the Speaker, is entitled to protection and fair treatment at the conclusion of the internal inquiry.

This requires that only supporting material on those charges the Committee decides to proceed on should be released. Releasing

the other material—unsubstantiated charges, rumors, innuendo and speculation—on Speaker Wright would be a terrible precedent for the House, threatens all Members and makes a mockery of fair play.

The Outside Counsel has followed every lead, pursued every rumor, and reported on each to the Committee. Appropriately so.

But as the Ethics Committee prepares its recommendations to the full House, it should release only the information which the Committee agrees is relevant and necessary to support its findings. To ask a Member, any Member, to also respond in the court of public opinion to allegations, rumors and innuendo not deemed worthy of charge by the Committee would be totally unfair and a perversion of due process. Especially in a time of press sensationalism.

Consider this: More than 70 Members of Congress were investigated in the outside counsel's inquiry into the sex/drugs page scandal in 1983, of which only two Members were eventually proceeded against. Would it have been fair to release unedited, unsubstantiated or inconsequential allegations that the Committee considered against the other 68 Members?

For the Ethics Committee to release raw material not deemed by the Committee to be worthy of formal action sets the stage for the ruination of any Member's career—possibly triggered by the political or personal animosity of any other Member or outside group.

Public release of material not germane to formal Committee action in the Wright case would be similar to the process used during the Joe McCarthy era: Ignore the discipline of due process and firm evidence, and dump unproven allegations out in public and let the ensuing publicity destroy the person's reputation and career.

Is that the procedure we want the House to adopt? Is that what this institution and our Ethics Committee stand for? We hope not.

We hope the Committee on Standards of Official Conduct will adhere to its distinguished history of fairness in the matter of releasing unsubstantiated, uncharged items. Fairness to all Members requires the same treatment now.

DAVE NAGLE.
JIM MOODY.
ROBERT T. MATSUI.

Below is a list of 100 Democrats who signed a "Dear Colleague" letter asking for the suppression of information in the Wright inquiry.

THESE MEMBERS DID NOT WANT FULL DISCLOSURE OF INFORMATION ON SPEAKER WRIGHT'S ETHICS

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. MCINNIS). Under the Speaker's announced policy of May 12, 1995, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon [Mr. DEFAZIO] is recognized for 5 minutes.

[Mr. DEFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. GOSS] is recognized for 5 minutes.

[Mr. GOSS addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana [Mr. BURTON] is recognized for 5 minutes.

[Mr. BURTON addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. BILIRAKIS] is recognized for 5 minutes.

[Mr. BILIRAKIS addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. SCARBOROUGH] is recognized for 5 minutes.

[Mr. SCARBOROUGH addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Utah [Mr. HANSEN] is recognized for 5 minutes.

[Mr. HANSEN addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Florida [Mr. WELDON] is recognized for 5 minutes.

[Mr. WELDON addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

REVIEW OF TODAY'S HEARING IN THE COMMITTEE ON NATIONAL SECURITY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania [Mr. WELDON] is recognized for 5 minutes.

Mr. WELDON of Pennsylvania. Mr. Speaker, I rise this evening, or this afternoon, to review a hearing that was held this morning in the House Committee on National Security. I think that this should be of concern to every Member of this body. The hearing this morning, which lasted for approximately 3 hours, had before us Secretary Perry; Secretary of Defense, General Shalikashvili, Chairman of our Joint Chiefs of Staff; and Gen. Wayne Downing, director of the Downing Assessment Task Force. General Downing is the author of the report that was done following the attack that resulted in the deaths of 19 of our troops in that housing complex in Saudi Arabia just a few short months ago.

Mr. Speaker, this hearing today was important because it revealed some concerns that I raised that I think should be the concern of every Member of this institution. During the discussion by General Downing of his assessment of the attack on the barracks in Saudi Arabia, he made some very critical comments about the Pentagon and the Defense Department and what we should have done and could have done to better protect our troops.

First of all, Mr. Speaker, one of the suggestions that he made was that the Pentagon needed to provide more focus on the operation in the Middle East in terms of protecting our pilots and the enforcement of the no-fly zone for the Iraqis. It was because we did not have it as a separate line item in the budget where we could provide adequate resources, where we could have had the backup materials and equipment in place to better support the command officer in that theater. When he made that comment and that suggestion, I was taken aback, Mr. Speaker, because exactly 1 year ago the House Committee on National Security included as a part of our defense authorization bill a very specific requirement addressing that very concern because a year ago we felt the same thing. We felt there was not enough focus within the Pentagon in terms of prioritizing resources for the Middle Eastern operation. We asked for that, and even though the Pentagon certified to us just a few short weeks ago that they were doing that, in fact they in fact had not done that.

So here we were recommending something that now after the fact we find out perhaps helped cause the loss of life in that barracks.

Secondarily, Mr. Speaker, they said we need more focus on terrorism, and I pointed out in the hearing, and I will point out to our colleagues, that it was our Committee on National Security in a bipartisan manner and this House in cooperation with the other body that included over \$200 million of additional funds for antiterrorism initiatives to properly protect our troops, and when we approved that funding this year the President and the Secretary of Defense were criticizing us, saying we were giving the military more money than what they needed. These very dollars that we plused up, \$200 million, the technology work in the area of bombs and weapons and antiterrorism, could have helped us in this situation, yet we in fact were criticized.

□ 1400

What bothered me most this morning, Mr. Speaker, and should bother every American is the fact that now we know the Air Force has assigned a three-star general to look at accountability and to possibly instigate a court-martial proceeding against the general in charge of the operations in Saudi Arabia. What is so outrageous about that is that there is no one looking at the general's level above him in terms of culpability, only below him.

When I asked Secretary Perry this morning who is going to look at those above that general, including the CINC commander, including the Secretary himself and his staff, the Secretary of Defense told me that this same three-star general was tasked with that responsibility.

What that means, Mr. Speaker, is that we now have a three-star Air Force general who has been charged with investigating a four-star Air Force general who happens to be his commanding officer, who absolutely had control over these decisions. Mr. Speaker, that is outrageous. I have never heard of a fair process occurring when the person doing the investigation actually reports to the person who may in fact be a subject of the inquiry. That does not even include the Secretary himself.

Mr. HUNTER. Mr. Speaker, will the gentleman yield?

Mr. WELDON of Pennsylvania. I yield to the gentleman from California.

Mr. HUNTER. Mr. Speaker, I want to thank the gentleman for his excellent question to the Secretary this morning. I was reminded, as the Secretary and others talked about responsibility, and responsibility being on the base commander, I was reminded of Stonewall Jackson's comment that defending Harpers Ferry was like trying to defend the bottom of a teacup. Somebody placed those thousands of Americans in the bottom of a teacup right next to public roads where terrorists could drive up or down in large trucks. Then we are charging the base commander with the responsibility for defending the bottom of that teacup.

I think the gentleman made exactly the right questions when he asked

whether responsibility could go up as well as down.

NATIONAL SECURITY AND RESPONSIBILITY

The SPEAKER pro tempore (Mr. MCINNIS). Under a previous order of the House, the gentleman from California [Mr. HUNTER] is recognized for 5 minutes.

Mr. HUNTER. Mr. Speaker, I want to continue this discussion with my colleague, the gentleman from Pennsylvania [Mr. WELDON], concerning the national security hearings that just took place with the Secretary of Defense, Mr. Perry, and General Shalikashvili, chairman of the Joint Chiefs, and General Downing, the director of the task force assigned by the Secretary to investigate the bombing of the Khobar Towers.

I just want to ask the gentleman from Pennsylvania to go a little further into the assessment as to whether or not we should have an upward evaluation with respect to blame for this incident, as well as a downward direction, which appears to be the way it is going. It appears that blame is going to be laid at the feet of the base commander. Yet, there are a number of indications that show that this was an untenable position that this base commander was placed in.

As General Downing said this morning, he was dealt a fairly poor hand to begin with, because of a number of circumstances that he could not control.

Mr. WELDON of Pennsylvania. Mr. Speaker, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Pennsylvania.

Mr. WELDON of Pennsylvania. Mr. Speaker, I appreciate the gentleman yielding. I would follow up by saying, and I think he would agree, Secretary Perry's statement was an eloquent statement. I think he did accept the responsibility himself for the incident, and I appreciate his candor in that regard.

Let me go further and state that the disappointment that we feel is that what is happening right now in the Pentagon is exactly what the New York Times today editorialized on. That is, they are using one low-level enlisted person as the scapegoat, much like was done in the crash of the Ron Brown airplane. There was a lower-level enlisted person who was held accountable.

As much as we have seen time and again, there is an investigation and there is blame, but it seems as though that blame only goes one way, and that is down. What I suggested today, and what I would ask our colleagues in this body to support me on, is the need for us to have not just the investigation by the Air Force three-star general about those lower who were involved in the chain of command, including the base commander, who has been criticized, and perhaps he deserves that; but I think we also need to know who is culpable above that level.

Is it, in fact, the commander of the CINC operation who, in fact, has the ultimate responsibility for that theater, and who, under the Goldwater-Nichols reform that this body passed a few years ago, reports directly to the office of the Secretary of Defense? Were there, in fact, any preliminary warnings made? Were there, in fact, any assessments of that facility? Why was the security of that facility in Saudi Arabia less than the security currently involved in Bosnia with our troops, where we have gone to great lengths?

These are questions that need answered, not just from the general on the scene, who is being blamed for what occurred and who will likely be, as the New York Times put it, the scapegoat, but who is looking at his superiors and what their role was?

When Secretary Perry says that he is confident that this three-star Air Force general can do this assessment, I say I cannot believe that. I cannot believe that we are empowering a three-star to investigate his four-star boss, and even, if necessary, the Secretary of Defense and his underlings in the Pentagon itself.

Therefore, in thanking my colleague for yielding, Mr. Speaker, I would say that this body needs to make sure that there is an independent assessment, whether it is done by the General Accounting Office, the Justice Department, or whatever. There needs to be an independent assessment so that general who is being targeted right now and may be the subject of a court-martial can feel confident that the same look is being done of those above him.

Mr. HUNTER. I thank the gentleman for his statement, Mr. Speaker.

Let us review the basic facts here. This bombing took place because we had a building housing thousands of Americans literally within feet, within 85 feet, of not only a public highway, down which any terrorist could drive a truck, but also a public parking lot, where the terrorists could park a truck.

This truck, loaded with explosives, with thousands of pounds of explosives, and the Secretary estimated it at 20,000 pounds, and General Downing said between 3,000 and 8,000; but even if you say it is 20,000 pounds, for country boys that is basically half the weight of a hay truck. Any large truck can carry that amount of weight very easily.

That truck was within 85 feet. It was closer to our personnel and their living area than the distance in the House Chamber from one end of the Chamber to the other. That happened. If we were to expand our perimeter, which should have been done, or we should have vacated the site, we would have had to expand out and take out part of the Saudi public road. If we had to do that, we had to do that. But the people who placed this contingent in this indefensible area should be examined.

CONCERNING THE APPROPRIATE
PLACEMENT OF RESPONSIBILITY
REGARDING THE ATTACK ON
KHOBAR BARRACKS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina [Mr. HEFNER] is recognized for 5 minutes.

Mr. HEFNER. Mr. Speaker, I have served on the Subcommittee on National Security of the Committee on Appropriations. We seem to have gotten in a mode here to where we want to take the House floor and we want to blame the President for everything that happens all across the country.

I just want to bring back something that happened a few years ago when Ronald Reagan was President of the United States, and we lost 240 men in their sleep in Lebanon. We were in real secret negotiations and hearings upstairs in this Capitol, it was so secret. We had Navy people there, and we had these people, they had been informed there were three pickup loads of explosives in the area, and nobody acted on that. We did not blame President Reagan for being derelict of duty in that, because that was in Lebanon. We lost 240 Marines in Lebanon.

Mr. Speaker, it just seems that everybody is in the mood here, anything that happens in the world is a problem of the President of the United States. Mr. Speaker, down here in the well yesterday, one day last week, the gentleman from Pennsylvania said if we lose one person, if we lose one person in Iraq, we are going to hold the President of the United States to blame for losing that one person. Mr. Speaker, to me this is going a little bit far.

Mr. WELDON of Pennsylvania. Mr. Speaker, will the gentleman yield?

Mr. HEFNER. I yield to the gentleman from Pennsylvania.

Mr. WELDON of Pennsylvania. Mr. Speaker, I thank my colleague.

First of all, we did not mention the President today. We mentioned a hearing with the Secretary of Defense, and the fact that we do want to find out, as the Secretary has said, who was responsible.

What we are saying is we do not just want to go from the middle down, we want everyone in the chain of command to be looked at. In terms of what happened with President Reagan, I was not here then, so I cannot speak about what you all did when President Reagan was President.

Mr. HEFNER. Let me tell my colleague what we did. When the hearings got real tight, heads were going to roll, guess what we did? We invaded Grenada. All the focus of the hearings went to the invasion of Grenada. We did not hear any more into the investigation of the people who were derelict in Lebanon.

It seems to me when we are kind of getting in the area of politics where elections are coming up, that it is in vogue here to blame the administration or the Secretary for everything that happens on somebody else's for-

eign soil. We cannot tell the Saudis, they tell us to some extent, because if you remember, when we were trying to keep the Persian Gulf open a few years ago they would not even let us fuel our ships and planes there. The same for Kuwait.

Mr. HUNTER. Mr. Speaker, will the gentleman yield?

Mr. HEFNER. I yield to the gentleman from California.

Mr. HUNTER. I thank the gentleman for yielding, Mr. Speaker.

Let me just tell my friend, as a guy who went over to Lebanon shortly before the bombing and who stayed to work with Colonel Garrity, because I thought there were security problems, our problem is this, and not in terms of assigning blame, but you have two bombings. We see that truck bombs are the weapon of choice in the Middle East for terrorists. We had the Riyadh bombing 6 months ago. That showed us where we had public areas, public drive areas near troop concentrations, we were in danger of being hurt.

If this hearing today made people upset, if we got after people and we embarrassed them or made them feel uneasy, if that results in the Pentagon going back and saying, we will not have a troop concentration in the Middle East that is within 85 feet of a public road, then that is good.

Mr. HEFNER. Mr. Speaker, I take back my time.

I am not questioning the fact we need to have hearings, but it seems to me we oversimplify when we say we are going to decide right here what is going to be the policy of the Saudis as far as allowing us to do things for the protection of our troops. To me this goes just beyond where foreign policy ought to end.

Everybody, I do not know of any person in this building that does not want to support our troops and see that they are not put in harm's way. But I just wanted to remind the Members that there was not a hue and outcry in this body when 240 of our fine Marines were killed in their sleep. And we did not personally hold President Reagan, as we should not have done, we did not personally hold him responsible for the deaths of these fine young men.

In this well the other day, the gentleman from Pennsylvania said, if we lose one person, we are going to hold the President of the United States, we are going to hold him personally to blame for losing these lives.

BIPARTISAN PROGRESS ON THE
USE OF FIREARMS IN LAW EN-
FORCEMENT

AMERICA'S PRESENCE IN THE MIDDLE EAST

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Colorado [Mrs. SCHROEDER] is recognized for 5 minutes.

Mrs. SCHROEDER. Mr. Speaker, as we can see, nerves are taut here. One of the things I would just like to put that into context about is I have always thought it was a shame that we had

not done more on energy independence so we did not have to be in the Gulf anyway.

One of the problems we have is we are not defending great democracies. I have been very upset about how the Saudis treat our women in the military. They cannot drive, they cannot do this, they cannot do that. I think it is kind of ridiculous that when you are there to protect them, they then make it very difficult and put all sorts of restrictions on. Exactly the same thing had happened in Lebanon. I remember visiting Lebanon as a young member of the Committee on Armed Services, and saying this is an absolute nightmare. They said, this is the only place they will let us be.

That is one of the reasons I get so frustrated about burden-sharing. I keep figuring if we are there to help, we ought to be able to use our best military judgment and not have them say, no, no, we want you just over the horizon. We want you here to help, but we do not want you to be seen, and we do not want women out, or we do not want this or that.

Really, Mr. Speaker, what I came to talk about was something that we did today, I did today with the gentleman from New Mexico, Mr. STEVE SCHIFF. Mr. SCHIFF and I are probably about as far apart as you can be when you come to the issues of firearms. Yet today we had a joint press conference, because we do agree on one thing. I wish we could see more bipartisan types of progress such as this.

The gentleman from New Mexico [Mr. SCHIFF] and I have been working for the last 3 years trying to get money from the Defense Department to transfer it over so we could use it to better the world of law enforcement, to bring that up to speed. Today we had the people from Colt Manufacturing showing a prototype safe gun that was absolutely exciting, because it went from being a glint in our eye to a real thing, a real gun that people could see.

What does this gun do? Guess what, it only works for the owner. When you look at the numbers of law enforcement officers every year that are killed by their own gun, not to mention people who are guards in jail or guarding prisoners or on our border, we have all sorts of people. One of the major fears is your gun is stolen and used to kill you.

This gun would end that fear once and for all, because, as we demonstrated today, it would only go off for the owner. The technology is here and the gun was there, and we could show it. I think that is the type of thing I would hope Republicans and Democrats would work together on, so we could fight crime not only by beating our chest and saying who is the toughest, who is the meanest, who is the gruffest, but also who is the smartest. We have not fought crime as smartly as we should.

When you look at this gun and you look at the very high percentage of

crimes committed with stolen weapons, all of that would go away, because if everybody had this type of weapon, you could steal it, but so what? It would be like a rock, it would not do you any good.

□ 1415

The tremendous number of gun accidents in the home with children, or with despondent teens or whatever finding the family gun, again, those would go away, because it would only work for the family member who was the owner. And, of course, the law enforcement thing was what we really, really put all of our force into.

So Sandia Labs, the National Institute of Justice, and law enforcement officers across the country have all been working to make sure that this gun is every bit as workable as the gun they have today. It cannot be some fancy-schmantsy thing that only works in a perfect climate, in a perfect temperature, with or without gloves, whatever.

This works all the way across the board. It works with a tiny little chip. I got to be ring bearer at this event. It could work with a ring. It can work with something in the watch. It can work with a chip in the hand. It can work any number of ways that sets this off, so that it would work in a certain radius around the person but be absolutely not able to be reprogrammed or worked by someone else unless they had mega, megacomputers that could rewrite the codes.

So my dream would be that we see more of these types of actions. Because while maybe many of the people who support me would like to see a gun-free world, and while many of the people who support the gentleman from New Mexico [Mr. SCHIFF] would like to have no restrictions, we know that there are going to be guns around and that law enforcement is going to need them. So why do we not use whatever we have got to make them as safe, as accident-free and as valueless if anyone steals them as possible. That is today what we did in the safe gun. I would hope we would see that as a model for future action.

MEDICARE

The SPEAKER pro tempore (Mr. MCINNIS). Under a previous order of the House, the gentleman from Florida [Mr. SCARBOROUGH] is recognized for 5 minutes.

Mr. SCARBOROUGH. Mr. Speaker, Medicare is bleeding to death. It is losing more money than it ever has before. In 1995 the President's Medicare trustees said that Medicare would be bankrupt by 2002. This year we hear that it is bleeding to death even faster and it is going to be bankrupt by 2000.

In 1993 President Clinton understood that fact and so he proposed that Medicare spending's rate of increase go to 6.9 percent. In 1995 we understood that, so we proposed a 7.1-percent increase.

We were absolutely savaged by a minority that was so desperate to get back into control that the truth meant absolutely nothing and they shamelessly demagogued on this issue.

In fact, let me give you a few quotes, not from Republican publications but from publications that have consistently supported the Democratic Party. The Washington Post accused the Democratic minority of shameless demagoguery. Those are their words, not mine.

Mrs. SCHROEDER. Mr. Speaker, will the gentleman yield for a parliamentary inquiry?

Mr. SCARBOROUGH. I do not yield.

The SPEAKER pro tempore. The gentleman will not yield for that purpose. The gentleman may proceed.

Mrs. SCHROEDER. Mr. Speaker, will the gentleman yield?

Mr. SCARBOROUGH. I yield to the gentlewoman from Colorado.

Mrs. SCHROEDER. I was concerned about the words "shameless demagoguery." I think those are words we could have taken down, and I do not really want to do that. But I think that is a very strong word.

Mr. SCARBOROUGH. Reclaiming my time, they are not my words, they are the words of the Washington Post. If you wish to try to take them down, you can, but I am not addressing one person, I am addressing what the Washington Post accused Democrats of doing. They accused them of shameless demagoguery.

An adviser to the President, Matthew Miller, wrote in the Washington Post and in the New Republican, "The President has taken the low road on Medicare in such a way that only political pundits could call it standing tall."

The New Republican, a traditionally liberal publication, said that "The Democrats' demagoguery on Medicare is even worse than we suspected."

Mr. Speaker, why do I bring this up? Nobody has talked about Medicare in a year. It is because they have been cowed down because they are afraid of hearing more lies in this Chamber. I bring it up because everybody on the Democratic side of the aisle recognizes, like everybody on the Republican side of the aisle, that Medicare is going broke and nobody is doing anything about it. Nobody. When we tried to do something last year, when the President tried to do something in 1993, they were attacked.

Now, I give you the past as prolog. David Broder had a column in the Washington Post this weekend talking to future chairmen if the Democrats were to take power. Let us hear what one such chairman said on Medicare, the same chairman-to-be who called us Nazis. You want to talk about taking down words. Called us Nazis for trying to save Medicare. And this is what he said about Medicare. His committee, and I will not give his name, whose committee has main jurisdiction said, "The people who have made out best in the last 20 years are the old folks. They

have their pensions, Social Security and health care. The explosion in these programs has to be dramatically reduced."

Mr. Speaker, I harken back to the McCarthy hearings, when at the end of the McCarthy hearings in the dramatic conclusion, the question was asked, "Have you no shame, sir? Have you no shame?"

I would recommend to any Democrat that comes into the well and stands behind this podium and attacks any efforts to curb spending in Medicare, we suggested 7.1 percent last year and your chairman knows what is going to happen to Medicare next year regardless of who is elected. We are going to have to save it. We cannot afford demagoguery. I have got a 93-year-old grandmother, I have got two parents that are eligible for it, and we have got to put the political gamesmanship behind us. What we have done now by irresponsible actions last year is we have cowed politicians in this election year from talking about it. Bob Dole does not talk about it, Bill Clinton does not talk about it, while Rome is burning. We have got to grow up.

EDUCATION IS THE BRIDGE TO THE FUTURE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland [Mr. HOYER] is recognized for 5 minutes.

Mr. HOYER. Mr. Speaker, we do have to be real when we deal with financial questions, with investment questions, and what America is going to be like in the future.

President Clinton talked about a bridge to the future. Every one of my constituents believes that the bridge to the future is education. Almost every American believes that one of the reasons we have opportunity in America is because we have educational access for every American.

This year, however, when we passed the Labor-HHS-Education appropriation bill out of the House, we cut education very substantially. Democrats wanted to add education funds at the subcommittee makeup. I offered an amendment to add \$2.1 billion so that we would not lose Head Start slots, we would not lose Chapter 1 slots, we would not lose Goals 2000 dollars for investment in education.

Today there was an article in the Post written by David Broder, one of Washington's most respected columnists and political observers. It is entitled, "Empower Qualified Teachers." His point is that we are not spending sufficient sums on education.

I want to quickly add that I do not believe that money is the only answer or particularly the answer to solving the educational problems that confront our Nation. Nor, however, do I delude myself—nor should we delude the public—that not spending money, not paying teachers properly, not having Head Start slots, not having Chapter 1 slots,

not doing Goals 2000, not having objectives that will empower our young people to be competitive in a world marketplace, that not doing those things will enhance education in America.

We came to the subcommittee of the Committee on Appropriations and I offered the amendment to essentially keep education even. Even then it would fall behind the very sharply growing numbers of students in our school systems. There are more students in school in America today than ever before in history.

And what did we do in the House of Representatives when we passed the education bill? We sounded retreat. Terrel Bell, the Secretary of Education under Ronald Reagan, did a report on the status of education. The result of that was "A Nation At Risk," in which the Reagan administration said that we were at risk of becoming a nation of mediocrity because our education system was not up to speed.

Very frankly, in the Subcommittee on Labor-HHS appropriations, by a straight party-line vote, the Republicans rejected increasing education. When the bill came to the House floor, which is the process, subcommittee, full committee, and House floor, DAVID OBEY, the ranking member of our committee, again offered my amendment. He said, "My friends, on both sides of the aisle, let us not abandon our children," because they are our bridge to the future.

On an almost straight party-line vote, that amendment was again rejected, notwithstanding the fact that I had a chart that showed that education funding was going down in an era when student population was going up.

Mr. Speaker, that legislation then went to the Senate. And just yesterday, having, I presume, read the polls and figured out what the American public really wants, and talking not about their policies and principles of 1995 but their policies of 1996, Senate Republicans now suggested adding \$2.3 billion to education. That is \$200 million more than I suggested was necessary to keep education even, that DAVID OBEY suggested was necessary to keep kids from falling through the cracks.

I am pleased that the Senate has seen the light. I hope that the Republicans in the House have done their homework and that this amendment will be accepted when this bill again comes to the floor of the House of Representatives.

ANNOUNCEMENT OF INTENTION TO OFFER RESOLUTION RAISING QUESTION OF PRIVILEGES OF THE HOUSE

Mr. LEWIS of Georgia. Mr. Speaker, pursuant to clause 2 of rule IX, I hereby give notice of my intention to offer a resolution which raises a question of the privileges of the House.

The form of the resolution is as follows:

Whereas on December 6, 1995, the Committee on Standards of Official Conduct agreed to appoint an outside counsel to conduct an independent, nonpartisan investigation of allegations of ethical misconduct by Speaker NEWT GINGRICH;

Whereas, after an eight-month investigation, that outside counsel has submitted an extensive document containing the results of his inquiry;

Whereas the report of the outside counsel cost the taxpayers \$500,000;

Whereas the public has a right—and Members of Congress have a responsibility—to examine the work of the outside counsel and reach an independent judgment concerning the merits of the charges against the Speaker;

Whereas these charges have been before the Ethics Committee for more than two years;

Whereas a failure of the Committee to release the outside counsel's report before the adjournment of the 104th Congress will seriously undermine the credibility of the Ethics Committee and the integrity of the House of Representatives: Now, therefore, be it

Resolved, That the Committee on Standards of Official Conduct shall immediately release to the public the outside counsel's report on Speaker NEWT GINGRICH, including any conclusions, recommendations, attachments, exhibits or accompanying material.

The SPEAKER pro tempore. Under rule IX, a resolution offered from the floor by a Member other than the majority leader or the minority leader as a question of the privileges of the House has immediate precedence only at a time or place designated by the Chair in the legislative schedule within 2 legislative days. The Chair will announce that designation at a later time.

A determination as to whether the resolution constitutes a question of privilege will be made at that later time.

□ 1430

WE NEED TO SUPPORT OUR TEACHERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas, Mr. GENE GREEN, is recognized for 5 minutes.

Mr. GENE GREEN of Texas. Mr. Speaker, Senator Dole, at the Republican National Convention, blamed teachers for the failure of our educational system. Senator Dole attacked teachers and particularly teacher unions and associations.

I stand today to note that Senator Dole's logic disturbs me. Teachers in our schools are now required to do much more with much less, and they do not deserve this kind of treatment. Many resent this attack, because they work hard, day and night, to prepare our children for the future.

In last Saturday's edition of the Houston Chronicle there were several letters from teachers responding to Senator Dole's comments, and I want to read some of their remarks. Senator Dole was talking about unions or associations, and you cannot attack an association without attacking the members. The members, again, are the ones

who are providing that opportunity for our children to be citizens, educated citizens for our tomorrow.

JoNell Parker of Humble, TX, wrote, "In referring to public funding of private schools, Bob Dole said in his acceptance speech before the Nation on August 15th, 'There is no reason why those who live on any street in America should not have the same right as the person who lives at 1600 Pennsylvania Avenue, the right to send their child to the school of your choice.' As a teacher and a member of the teachers' association whom Dole attacked, I have to admit I agree with the right to choose. I just don't believe I should have to pay for his choice. Public support of religious indoctrination is unconstitutional. Taking tax money from public schools and giving it to private, for-profit institutions is financially unsound and elitist at best."

In a letter to the editor that same day, Judy Hoya of Houston, TX, said, "Bob Dole's attack on teachers' unions in his acceptance speech tried to place the blame for the problems facing our schools on the people who are trying to solve them," and I will repeat, he is placing "the blame for the problems on the people trying to solve them" when you attack the classroom teachers. "Bob Dole is out of touch with the educational mainstream. He would be far wiser to join with the 80 percent of the teachers who are in the unions to help solve problems in our schools."

Martha Barrett of Kingwood, TX, remarked, "What a way to launch a Presidential campaign, attack teachers and kids in American schools. Bob Dole said in his acceptance speech that 'Teachers unions nominated Bill Clinton in 1992. They are funding his reelection campaign now and they, his most reliable supporters, know he will maintain the status quo.'"

Ms. Barrett of Kingwood continued, "I don't speak for all teachers, but I personally feel much better about a Presidential candidate supported and funded by teachers than one supported by tobacco interest."

Finally, Sherry Mutula of the Pasadena Education Association stated in Pasadena, TX, "I would like to set Bob Dole straight on the errors in his acceptance speech. Attacking America's schools and teachers, he said, 'Not for nothing are we the biggest educational spenders and among the lowest educational achievers of the leading industrial nations.'" He was wrong according to Ms. Mutula. "America does not lead the industrial nations in education spending for K-12 public education. We are not even close. Of the top 17, America ranks 12th."

"The American people have been named the most productive workers in the world. Know where 90 percent of those workers were educated, Bob Dole? In the public schools of America."

The 21st century will bring new challenges for our young people, and we have an obligation to educate them to

deal with these challenges. Democrats believe that education is the key to our children's future and the key to our country's continued success.

Under this Republican Congress, however, education has not fared well. In 1995, Senator Dole supported the largest cuts in Federal education funding in the history of our Nation, and the assault continues. Instead of considering further education cuts, we should be involved in debating increasing Federal commitment to our children's education.

Most of education is paid for at the local and State level, but as a Nation we have to be competitive with the world. It is time to stop blaming teachers for our educational problems and start blaming those who have consistently opposed funding for education. We will be judged by how we treat and educate our children.

Senator Dole, who has a poor record on education, should be judged appropriately on November 5.

COMMUNICATION FROM THE HONORABLE THOMAS J. BLILEY, JR., MEMBER OF CONGRESS

The Speaker pro tempore laid before the House the following communication from the Honorable THOMAS J. BLILEY, Jr., Member of Congress:

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,

Washington, DC, September 18, 1996.

Hon. NEWT GINGRICH,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule L (50) of the Rules of the House of Representatives, that Reid Stuntz, currently the minority general counsel of the Committee on Commerce and formerly the staff director and chief counsel for the Subcommittee on Oversight and Investigations for the Committee on Energy and Commerce, has been served with a subpoena issued by the U.S. District Court for the District of Columbia in the matter of United States v. Jeffrey M. Levine, Cr. No. 94-034.

After consultation with the Office of General Counsel, I have determined that the subpoena appears not to be consistent with the rights and privileges of the House and, therefore, should be resisted.

Sincerely,

THOMAS J. BLILEY, Jr.

COMMUNICATION FROM THE HONORABLE THOMAS J. BLILEY, JR., MEMBER OF CONGRESS

The Speaker pro tempore laid before the House the following communication from the Honorable THOMAS J. BLILEY, Jr., Member of Congress:

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,

Washington, DC, September 18, 1996.

Hon. NEWT GINGRICH,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule L (50) of the Rules of the House of Representatives, that a trial subpoena (for documents and testimony) issued by the U.S. District Court for the District of Columbia in the matter of United

States v. Jeffrey M. Levine, Cr. No. 94-034, has been served on me.

After consultation with the Office of General Counsel, I have determined that the subpoena appears not to be consistent with the rights and privileges of the House and, therefore, should be resisted.

Sincerely,

THOMAS J. BLILEY, Jr.

COMMUNICATION FROM THE HONORABLE THOMAS J. BLILEY, JR., MEMBER OF CONGRESS

The Speaker pro tempore laid before the House the following communication from the Honorable THOMAS J. BLILEY, Jr., Member of Congress:

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON COMMERCE,

Washington, DC, September 18, 1996.

Hon. NEWT GINGRICH,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule L (50) of the Rules of the House of Representatives, that a trial subpoena (for documents and testimony) issued by the U.S. District Court for the District of Columbia in the matter of United States v. Jeffrey M. Levine, Cr. No. 94-034, has been served on me as custodian of records for the Subcommittee on Oversight and Investigations of the Committee on Commerce.

After consultation with the Office of General Counsel, I have determined that the subpoena appears not to be consistent with the rights and privileges of the House and, therefore, should be resisted.

Sincerely,

THOMAS J. BLILEY, Jr.

THE EXAMPLE OF HARRY TRUMAN

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DORNAN] is recognized for 5 minutes.

Mr. DORNAN. Mr. Speaker, this is going to be hot stuff.

I said last week I would quote from battling Harry Truman. Everybody wants to be Harry Truman if they are coming from behind in an election, and I said that Harry Truman was tough on adultery, loyal to his Bess.

My dad was Harry Dornan, D Artillery Battalion, World War I, 30th Division. Harry was 34th Division, Battery D, Artillery. Harry. Harry.

Listen to this on adultery, Mr. Speaker, and I bring this up during a Presidential race period for obvious reasons. "Harry Truman said, 'Any man who was dissolute with women,' Truman believed, 'was not a man to be trusted entirely. He discovered that'—two names from the past—"both loved the ladies and kept telephone girls on the payroll. 'I'll say this for the big boss,'" referring to the Tom Pendergast of Pendergast machine fame, "he has no feminine connections."

This is the book called "Truman" that won a Pulitzer Prize for an author and biographer of some note, David McCullough. David McCullough.

Listen to this paragraph. It seems that Harry Truman was plagued with

headaches, as was my mother, as I was at one point studying for exams, but lucky in my later years. "Harry Truman says he worried always about possible entrapment with women," would have saved a lot of careers in the Senate and this body if people had taken this advice, "an old device for destroying politicians. Once, responding to a call for a meeting in a room at the Baltimore Hotel," this is in Missouri, "He asked Edgar Hine to go along, just in case. When they knocked at the room, Hine remembered a blond woman was there in a negligee. She opened the door. Harry Truman spun on his heels and ran back down the hall, disappearing around the corner. Hine thought it was a fear verging on the abnormal." Or maybe the decent.

"Three things rule a man,' Harry would tell a reporter long afterward, 'power, money and women.'" The great archbishop and evangelist in the Catholic church, Fulton Sheen told me the same thing. Only he put women in the first category, the downfall in the twenties and thirties; then came power, the obsession of men in their thirties, forties, and fifties; and then money, for men in their older years, the accretion of power, money you are never going to get to spend at the end of your life.

Hine wrote this: "I have been around Legion conventions with Harry Truman. He would have his room there. Naturally, everybody would kind of gravitate to the Senator's room. If some fellow brought a woman in there, or even his wife, I have seen Truman pick up his hat and coat, take off out of there, and that would be the last you would see of him until those women left. He just didn't want women around his hotel room. He had a phobia about it."

This is not the story of Little Rock, AK, folks. This is the story of Harry Truman and Missouri.

I would like to put in the RECORD, Mr. Speaker, the editorial from the Wall Street Journal on Monday, the 16th, titled "Will Anyone Believe?" It is all about the Clintons stonewalling on both their medical records, but particularly the commander-in-chief. Shalikhshvili's medical records are out there.

Every combat commander down to a private, the whole chain of command, their whole medical records are out there. It was asked for of Perry before he became Secretary of Defense. But only these doctor summaries.

So the Wall Street Journal says nobody is going to believe because it is a stonewalling pattern, as it was with the tax return commodity trade stonewall, as it was with the health care task force stonewall, as it was with the White House passes stonewall, as it was with the billing records stonewall, as it stonewalled House committees here on Waco, on every other scandal, on Haiti, on Bosnia now, on Somalia, stonewalling on people in drug programs at the White House.

No, if America is going to pass a morality and an IQ test on November 5 in the Presidential race, they had better know something about the full physical records, the actual documents. Not summaries by doctors taking down, as when I get a physical, they say, "How is your health?"

"Pretty darn good, doc. Generally excellent." And they write all that down.

No, no, not testimony from Clinton himself, the medical records.

There are all sorts of ricochets flying around, like the center of the new book by Roger Morris called "Partners In Power." In the middle it has a brother who went to prison for cocaine under a cocaine pusher named Lassiter who got pardoned, saying my brother has a nose like a shovel. Guess of whom he was speaking, Mr. Speaker?

Rule XVIII prohibits me from telling the million or so people in our audience. Use your imagination. Who has a shovel for a nose in Federal Government today?

TEEN DRUG PROBLEM IS NATIONAL CRISIS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. MICA] is recognized for 5 minutes.

Mr. MICA. Mr. Speaker, I come to the floor again. I have been here just about every day recently, talking about what I consider a national crisis, as a parent, as a father, someone concerned about the future of my children, how I tried to raise my children, and talk about the serious problem of teen drug use and abuse.

What prompted me today to come to the floor is really an ad I have seen which features the President talking about his efforts to curtail drug use, and I just do not think that the President is really dealing with the facts here.

Now, if we listen to the ad, the President says the Republicans cut funding in programs. Now, I just have to remind the Congress and the American people that, in fact, from 1992 to 1994, the House of Representatives was controlled, by an overwhelming majority, 250 Democrats plus, I believe, and the Senate was controlled by the other party, and the White House was controlled by the Democrats. Now, we did not have the power to do anything in that time period except raise concerns.

I came to this floor repeatedly and raised concerns. I had over 100 Members sign a letter to the committee of jurisdiction asking for hearings because we knew then what was starting to happen; that we cannot put all our eggs in one basket in treatment, in the end, treating only the wounded, as it may be in a battle, and not paying attention to education, to interdiction, and also importantly to enforcement.

Here we see the results. Again I bring this to the floor. Twice as many teens using drugs as in 1992. These are the facts. This is not something that the

Republicans have manufactured, the new majority has manufactured. It is the result of firing the Drug Czar's office, of hiring a Surgeon General, the chief health officer of the country, who says, "just say maybe."

□ 1445

Then we had a President who got on TV, and I still cannot believe it. I was personally offended by it because I have children, and he said if he had it to do over again, he would inhale. What kind of message does that send to our people? And what does it do? And the evidence is here again. These are the statistics and the latest.

Overall drug use by our teenagers 12 to 17, up 78 percent; marijuana use up 105 percent; LSD use up 105 percent during this time frame; and, cocaine use up 166 percent. And heroin is epidemic even in my own community. I brought the headlines from my community.

So what the President has sown, now we are reaping with our children. First of all, they controlled the House of Representatives, the other body, and the White House. Then, to top it off, they killed our interdiction program. And I spoke out against it on the floor. We even met with the President in Miami and we said this is a disaster. We stopped our radar sharing and our information sharing to shoot down drug planes in the Andean region.

They transferred, this administration transferred, and I met with the agents in South America who told me that they transferred, \$40 million and left them with a shoestring operation in Haiti for their agenda and nation-building in that country.

So the facts are in that just treatment does not work. You have to have education, you have to have interdiction, and you have to have enforcement. The fact is in. The Republicans expressed concern, I expressed concern on the floor of this House in letters to the chairman and to the administration about what was going to take place.

The fact is that now this new majority is taking steps to restore money in interdiction. We are giving our military and our Coast Guard the tools to stop drugs cost-effectively at our borders and at their sources. So we are taking positive steps. We are providing the leadership that is lacking in the White House.

And, again, the President is wrong when he tells the American people that the Republicans, or the new majority, cut. We did not even have control. We did not have votes to change anything here, but we did express concern and this is the results you see today. Again, a situation out of control, a situation where we have lost our streets, lost our children, and we must turn this around.

ENVIRONMENT MUST BE PROTECTED AT ALL COSTS

The SPEAKER pro tempore. Under the Speaker's announced policy of May

12, 1995, the gentleman from New Jersey [Mr. PALLONE] is recognized for 60 minutes as the designee of the minority leader.

Mr. PALLONE. Mr. Speaker, for more than a quarter of a century successive Congresses sought to strengthen environmental law in order to protect our air, water, and land from pollution and other threats, and from the time that Democratic Senator Gaylord Nelson organized the first Earth Day over 25 years ago and Republican President Richard Nixon created the Environmental Protection Agency in 1970, there was a consensus that we needed laws to protect the health of our families and the quality of our natural resources.

It is a consensus, a bipartisan consensus, that led to passage and strengthening of the Clean Water Act, the Clean Air Act, the Endangered Species Act, the Marine Mammal Protection Act, the Solid Waste Disposal Act, Superfund, Safe Drinking Water Act, and many other pieces of pro-environmental legislation.

However, that consensus, that bipartisan consensus that existed, both with the White House as well as with Congress, broke down during the Dole-Gingrich 104th Congress that we are now in, that is now about to end. Under the leadership of Dole and GINGRICH, Congress for the first time in 25 years devoted more time to rolling back environmental protection than to improving the health, safety, and well-being of our families and our Nation.

Now, many in Congress have tried to further environmental protection in ways that would be for the average American. But Bob Dole, NEWT GINGRICH, and their Republican leadership colleagues have instituted a campaign to reward special interests at the expense of the health and environmental heritage of our citizens. From the very first day of this current Congress, we saw the special interests, the polluters, actually sitting down in committee writing legislation that would gut many of the environmental bills that I already mentioned.

Clearly, it is the obligation of those who care about the purity of the water for their children, that their children drink and the air that they breathe, to actively oppose this extremist Republican agenda that we have seen in this 104th Congress. We have to make sure that the disastrous environmental record of this 104th Congress will not be repeated.

Now, I just wanted to say that this effort, if you will, to turn back the clock on environmental protection manifests itself in a major way in terms of the budget cuts that we have seen and have been proposed by the Republican leadership for those agencies that deal with the environment, such as the EPA, such as the Department of the Interior. And I know that we have to make tough decisions if we are going to balance the budget. We have to figure out where our priorities should be.

But I do not believe that environmental protection in this country has to suffer because of belt tightening, or budget tightening if you will.

What we are seeing is that time and time again, Bob Dole and NEWT GINGRICH, the Speaker, have basically deprioritized environmental protection. They have taken money in budget cuts from the EPA and those agencies that protect the environment in order to primarily finance tax breaks for wealthy Americans.

The reason I am mentioning this today is because I am very concerned that with the economic plan that Bob Dole has put forward, that what we will see if he were elected and if that economic plan were put into place is a further deterioration of our environmental protection laws because less and less money would be available for investigation and for enforcement of violations of our environmental laws.

Basically, what we would see, what we would expect if the Dole economic plan went into effect is about a 40-percent cut, if you will, in environmental programs, 40-percent cut in enforcement and investigation against violations of our environmental protection laws.

And these cuts, if you will, these efforts to cut back on these agencies and what they can do for enforcement indirectly accomplish what the Republican leadership tried to do in this Congress by simply gutting the Clean Water Act or the Superfund Program outright. They were not able to make the changes in the substantive law, and so what they do instead is to go after the funding for those agencies that carry out the law because they know that if there is not adequate enforcement then the laws do not mean anything.

I just wanted to give an idea of what kind of impact these cuts would have if they were enacted into law. A 40-percent cut in enforcement would mean that the EPA, for example, would not be able to reach its normal average of 9,000 inspections per year. It would have a significant impact on the 3,700 enforcement actions normally taken by the EPA annually as a result of their inspection programs. So if you do not have the people to do inspection, then you cannot bring the enforcement actions, where you basically slap a fine on those who are violating the law.

Based upon estimates from last year's budget cuts, it is likely that scores of Superfund sites ready for significant new construction would not get funded and, furthermore, the cleanups at many of the hundreds of Superfund sites currently being remediated would be slowed down essentially to a snail's pace.

A 40-percent budget cut would also have a marked impact on the leaking underground storage tank trust fund that was established by the Superfund Amendments and Reauthorization Act of 1986. Leaking tanks have polluted drinking wells in many communities, and the trust fund has proven to be an

effective effort to combat the problem. Current funding for this program represent about a 30-percent cut from fiscal year 1995 levels, and a further 40-percent cut would lead States to lay off hundreds of enforcement personnel and greatly reduce their cleanup activities.

So, even with the current appropriation levels we are seeing cutbacks in the enforcement actions and the inspections that these environmental agencies can do. Whatever cuts would come about as a result of the Dole economic plan would simply reduce the ability to enforce the law that much more.

I just wanted to point out some of these facts because I think it is important when we are debating the issue of what Bob Dole's economic plan would mean that we realize and that we take into consideration what the effect would be on the environment.

Now, I just wanted to point out also that interestingly enough, President Clinton has been very proactive in terms of what he says he would do if reelected on November 5. At the Democratic Convention he basically pointed out a progressive, if you will, environmental agenda. He said, for example, that he would accelerate Superfund toxic waste cleanup, nearly doubling the pace of cleanup. By the year 2000, approximately two-thirds of the Superfund priority sites would be cleaned up.

So here we have a situation where one person, the Republican in this case, is talking about cutting funds for some of these agencies that would mean less cleanups of Superfund sites, and President Clinton is actually talking about increasing the pace of cleanup at Superfund sites.

Also, the need to expand the right to know. One of the major reasons why we are able to bring enforcement actions against polluters for various violations that occur is because we have a community right to know law on the books now that allows individual Americans, individual citizens, to know some of the toxic substances that exist in the community around them. And oftentimes they will bring actions on their own or citizen groups will bring actions on their own so that it is not always necessary for the Federal Government to get involved. This supplements the enforcement action of the Federal agency.

Again, what the President has proposed is basically expanding Americans' rights to know about toxics in their community so that the EPA would do more investigation, release more information and individual companies that generate toxic waste, for example, would have to provide more information about what kind of toxic wastes are being generated in their communities.

I wanted to just give some examples about how President Clinton has worked to protect the environment, and how former Senator Dole has worked very hard to do just the oppo-

On August 6, 1996, President Clinton signed a bill reforming the Safe Drinking Water Act, which requires drinking water tests to eliminate dangerous contaminants. President Clinton also vetoed the extreme Republican leadership VA-HUD-EPA appropriations bill, which cut safe drinking water funding by 45 percent from the President's request. On the other hand, Senator Dole, Bob Dole when he was a Senator, in December 1995 voted for the extreme Republican VA-HUD-EPA appropriations bill which would have cut safe drinking water funding by 45 percent. The 1995 Dole regulatory reform bill, which was written by lobbyists for polluters, would have prevented the EPA from instituting effective safety regulations for drinking water.

Let us talk about toxic wastes. Since taking office, the Clinton administration has cleaned up more toxic waste dumps than in the first 12 years of the Superfund Program, increasing the pace of Superfund cleanups by 20 percent and reducing costs, reducing costs by 25 percent. In December 1995, President Clinton vetoed the GOP appropriations bill which cut Superfund toxic dump cleanup funding by 25 percent from his request. So not only has the President increased, accelerated the pace of the Superfund cleanup in this country in the 4 years that he has been in office, but he also vetoed these bills, the Republican leadership bills, that would have made it more difficult to clean up Superfund sites.

On the other hand, then Senator Dole in 1965 was one of only four Representatives, actually when he was a Congressman in this House, to vote against the Clean Air and Waste Disposal Act, which authorized \$92.5 million during fiscal year 1966 through 1969 for research and development of methods to dispose of solid waste. The bill passed 294 to 4. Dole supported repealing the Superfund provision which forces polluters to pay for toxic waste cleanup, and he supported repeal of retroactive Superfund liability, which is also supported by his political contributors.

What the Republican leader has proposed and what then Senator Dole has basically supported is this idea that instead of having the corporations that polluted the environment, that caused the toxic waste sites to be created, the Superfund sites, instead of having those corporations clean up the sites, we would have the Federal Government clean up the sites or pay the polluters for the work that they already did to clean up the sites.

□ 1500

Essentially instead of polluter pays, it is government pays the polluters. I see that my colleague from Minnesota is here. I yield to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for his statement that he has been making, calling attention to the dismal record of this Congress responding to environmental laws and policy.

The last point that Mr. PALLONE was making with regard to Superfund is an especially important one in the end because I think of what I would characterize as extreme positions in Congress, outside the mainstream of the last 20 or 30 years of environmental law, of what we have learned and what we know and have put that knowledge to use in terms of public policy, it has been disregarded and run roughshod over. As I said in the past, I think science to some of the new majority is what the Inquisition was to religion, something to be used basically to undermine and to keep raising questions against and to withdraw from what, I think, had been historically a bipartisan effort to deal with the conservation of our resources, the preservation of what deserves to be and the rehabilitation of our landscapes and air and water, a very important endeavor, one that is strongly supported by the American people, and it reaches back over across Democratic and Republican Presidents and on a bipartisan basis in Congress.

But that has not been what has happened in this Congress. It is a great tragedy, because it meant that we did not do the big things or the little things in this Congress that needed to be addressed with regards to environmental law.

In fact, one example the gentleman was just touching on was Superfund, which means that we are still without a current policy. I think all of us admit that the 1980 Superfund law that was passed has had its imperfections. But as an example, I work on the Committee on Banking and Financial Services. Many financial institutions are saddled with lender liability. And even that fundamental issue cannot be resolved in this Congress because those forces that want to keep all liable, even though a bank may have exercised its right to recover property and the damage that has been done to it has been done by a third party, that was delinquent in terms of their loan transfers the liability to the financial institution. So it is a great tragedy that we cannot focus on that because there has not been an adequate effort to resolve that lender liability issue, the polarized positions that have existed.

Frankly, in the first 2 years of the Clinton administration, a lot of progress was made, in spite of the hand that was dealt to him by his predecessor administration in terms of a host of issues highlighted by the northwest forests. The Clinton Northwest Forest plan, a controversial plan, one that all of a sudden forced everyone to face reality. Before that I think many in congress and certainly in the administration had been in a state of denial with regards to what was happening in the Pacific Northwest with regards to the harvesting of trees and the crashing of the ecosystem in that region.

But the Clinton administration had made a commitment for a positive effort, and all the news was not good

news. As we learned more and more about these areas, we realized the fragility of those areas and what had to be done. The tragedy is that Congress on its own in the 1970's and 1980's had mandated cuts in timber harvests in these areas that were excessive over the carrying capacity of those lands in the Pacific Northwest. The truth is that dollars are gone that come from those historic big timber harvests. In so far as we do make some dollars in profitable sales areas, too often we do not have profitable sales but lose money and the forests. Today we are faced with very expensive land management schemes that are necessary to restore and maintain these landscapes in terms of forest restoration, in terms of watershed restoration, in terms of thinning and a whole range of different responsibilities in which the Forest Service itself and those that are involved in that industry could no longer sustain themselves. So they necessarily needed investment.

But beyond that, this administration had worked on the Endangered Species Act, working out significant problems in Florida with the Florida panther, working incidentally in the Everglades with regards to the water problem, arguably a good solution with regards to the sugar farmers there, the gnatcatcher in terms of the west coast in California. All across the Nation we saw a new spirit that existed, even with regards to our industries. This administration put in place something called the XL, XL means excellence in terms of environmental and compliance with rules, leaving industries and businesses to come up with solutions that really exceed the requirements of law that the Environmental Protection Agency may have with respect to air, to water, to other indices that are required. So we had, I think, for some time and throughout this administration a good positive effort embracing pragmatic solutions to problems which had festered for decades.

Unfortunately, that had not all been picked up. The whole idea of brownfield restoration, in other words, changing the whole dynamic and agenda of what we do in terms of cleanup was something that was put forth by this Clinton administration.

Many are now trying to emulate it, and that is good. In politics there is no law that bars us from taking other people's good ideas and putting them into law. I guess that is the idea. The competition of ideas, the competition of debate ought to bring forth the best that we have to offer with regard to solutions, especially I think in issues of the environment.

Of course, in the past 2 years much of that has changed, things are at a standstill here, fingers pointed back and forth. But I think as we look at what happened in the Clean Water Act, where it was an open secret that special interests reported that Washington, DC, K Street lobbyists on the front page of the newspaper had been respon-

sible for writing the Clean Water Act. It turned out to be a very bad bill and that should have been no surprise. Fortunately, that did not pass the Senate. It left the House on almost a straight party line vote, and it has not been heard from in the Senate since.

The fact there were various actions taken on the Endangered Species Act which, incredibly, the policy came out of a committee that is supposed to be the specialists in this issue, which stated that species could exist without habitat, that you could have a living animal or plant without a habitat. So you could protect it in a zoo, I guess, and make a greenhouse for plants. The proponents actually wanted to count zoo populations as protected. But it was really pretty elemental in terms of the differences that existed there. I am sure that the point is well understood.

Mr. Speaker, as we looked, sadly, some measures were not considered by the committee and were enacted such as suspending the Endangered Species Act for a long period of time, and this action did irreparable harm to some of the fostering of biodiversity in our society. Other measures like the timber salvage bill today are still, because it was signed into law and in a must pass appropriation bill; of course many of us feel the President should have vetoed that bill a second time to make the point but the President relented.

Apparently some thought that there was more authority, executive flexibility and that the President could prevent the damage from the timber rider. The courts have ruled to the contrary. Now we see the harvest of not just salvage trees but the harvest of green trees, old growth trees in the Pacific Northwest because of provisions put on the affected section 318 lands.

We areas of Montana that were wilderness study areas at one time. They were administrative wilderness study area, roadless areas that have now been opened to harvest areas like the Yak that Bass has written about, Dick Bass, many other areas that really in a sense should have been set aside and left as the way they left the hand of the creator are now being spoiled because of specific provisions that related to Montana.

Of course, the whole issue of forest health and the science of that forestry, I think, was made a mockery of by the execution of this timber rider, which suspended all the environmental laws and fundamentally provided for expedited harvest of many areas. I think that the administration, frankly, the Clinton administration under Jack Ward Thomas had in fact moved ahead, administratively, with salvage sales.

In fact, that made up a greater part of the harvest in the Pacific Northwest where there was controversy about the limits of what could be cut. It concerned many of us, but they at least had put in place certain safeguards. This measure went far beyond that and has of course as its purpose to invade these green tree areas. It has done

great damage with little money available really to offset that.

As we look at these forest sentinels that have stood for hundreds of years over the past centuries in terms of their evolution, we know that once they are harvested, they will not be back in our lifetime and the lifetime of my grandchild, my one grandchild or many, or any of, maybe perhaps his grandchildren.

Of course, this Congress attempted to put on the bidding block many, many different resources, selling our water resources, the grazing language, all very polarized, obviously we have to come to resolution with that. No one expects we are going to get wealthy as a nation and solve our fiscal problems on the back of ranchers and farmers. But clearly I think we need to expect a higher degree of conservation and stewardship on the part of those that use those lands. That is only reasonable, but not to many in this Congress.

Mr. Speaker, I think we are moving in that direction under the guidance of Secretary Babbitt. He tried very, very hard, I must say. It was partly my fault and others that we did not pick up on some of his work in the last session in 1993-94. We also committed the same trespasses that I suggested in opposite direction that others are doing in this session in despoiling our landscapes. ANWR, the Arctic National Wildlife Refuge, at 1.4 million acres in area on the Buford Sea north of the Brooks Range, was proposed by this Congress to be opened up.

This 1.4 million acres which is the calving area for 160,000 porcupine caribou herd really, I would say, represents a window on the Ice Age. It is the way life existed in North America 20,000 years ago when the glaciers pulled back and retreated from the ocean, the northern arctic oceans the current Buford Sea. It is an area that needs to be preserved.

It is something, I think, that while there may be a 1-in-10 chance of finding oil, there is a 100-percent chance of destroying this arctic tundra, this arctic desert, as it were, in the north of the Brooks Range.

So I think these examples indicate the actions that have taken place in the 10th Republican Congress. Of course it is no wonder that the record of this Congress is reported to be so dismal with regard to the environment. The Members have received such very low grades by objective groups looking at this, that the Republican majority have formed committees and groups on the side to try to restore their credibility.

It sort of reminds me of the story of the two Marx brothers that I adopt from my friend BARNEY FRANK. They said, when Groucho said to Harpo, he said, Harpo, who are you going to believe, me or your own eyes? So we have to look at what this 20-month record is that has occurred, not just the slogans that seems to characterize the election cycles, as we know, where everybody

seems as a prerequisite of being elected they must be an environmentalist. But being an environmentalist or being someone that is working on these issues is enormously important not just for the political stump at home or for the political stump on this floor in election years but what happens over the course of our service in Congress.

There are many more things that should be talked about, the rules and regulations game that was played here, suggesting that a Member could be against bureaucrats and rules, the various ways we put laws into effect, ending up with more and more litigation and less and less effectiveness, the result effectively tying the hands of the EPA or departments or agencies that have these responsibilities, which I might say from the land management agencies, from the other agencies that regulate our air and water, we are very fortunate in this country that they are led by professionals, and staffed by professionals from the ground on up.

They are decisions that are not necessarily political, but they certainly are authorities with regard to science and the facts and what has to be done. So we have a great task here. I think Congress has a role, an unchallenged Federal role in terms of working with the States, the significant collaboration that has gone on between the Federal and State government, the great success in terms of turning the corner on solving environmental problems.

We see streams and rivers and landscapes that are being restored because of the 30 years and many decades before that of work that went on with the great Democratic Presidents and Republican Presidents. But this Congress itself obviously had not learned those lessons, it is very clear. Whether they are being educated today in the election cycle remains to be seen.

Mr. Speaker, I just came from committee sessions, at which the Republican majority were trying to strip away the U.S. authority to designate world heritage areas. We are one of 125 countries that participate, 146 signatories worldwide trying to preserve cultural and natural landscapes. All we would have is the power of persuasion, but this new majority on September 17, 1996, want to somehow take away that power, take away whatever authority exists. The United States, which led and created this list of man in the biosphere sites, seek to limit U.S. leadership that voluntarily seeks to build, educate nations around the globe. That did not happen last year. That is happening right now.

That bill has passed out of the Resources Committee today, the committee that holds itself up as your expertise and specialist, that is suppose to be a knowledgeable group of men and women that are to guide this Congress in terms of such issues. That is what they did this day. That is the type of Congress that we have. That is the type of House of Representatives that we have had for 2 long years. I submit that

to the American people and to my colleagues in this body. I hold that up as an example of what not to do.

I thank the gentleman for yielding to me and for taking out this special order.

□ 1515

Mr. PALLONE. I appreciate the gentleman's comments, particularly since he brought out what this Republican leadership has been trying to do for the last 2 years on the natural resource issues, because that is the truth. They have basically been selling the store and trying to basically give away all of our natural resources, and I think it has to be brought out.

In addition, I know the gentleman from Minnesota [Mr. VENTO] talked about the record, if you will, by non-partisan groups in basically analyzing this Republican Congress, and because of the poor record on the environment that was established by the Republican leadership, they put together this Republican Environmental Task Force early in this session in order to try to highlight how they were going to improve things, and the League of Conservation Voters actually gave the members of that task force, of that environmental task force on the Republican side, a 27-percent rating.

In fact, we heard just this past Monday that a group of the most antienvironmental Republicans in Congress had urged the Speaker, NEWT GINGRICH, to remove moderate Congressman SHERWOOD BOEHLERT from his position as cochair of this Republican Environmental Task Force. They were so outraged by his behavior in trying to moderate this terrible Republican antienvironmental agenda that they actually wanted him removed as the cochair of the task force, and if they, of course, had dropped Congressman BOEHLERT from the task force, the rating by the League of Conservation Voters would have even been less than 27 percent.

So this is not something that is going away. The Republican leadership continues to this day, with only a few weeks left in this Congress, to continue to try to turn back the clock on environmental protection.

I would like to yield now to my friend, Mr. MARKEY, the gentleman from Massachusetts.

Mr. MARKEY. I thank the gentleman very much, and I thank you for calling this special order because it is so important to remind the American people here at the end of this congressional session that the GOP—you know, GOP used to stand for grand old party, but today it stands for gang of polluters. They took the whole first year and a half of this Congress trying their best to undermine the environmental law which were put on the books in this country over the last 25 years. They took the EPA and they wanted to change it from EPA to every polluter's ally.

You know, the American people, they have to ask the question: Is the water

really too clean? Is the air too clean? Is there too little cryptosporidium in our water? Is there too little *E. coli* in our hamburger? Is the ozone hole too small? Can we really afford to cut the EPA, the Environmental Protection Agency, enforcement budget by 30 percent, which was the Republican proposal?

I do not think so. I do not think the American people want less environmental protection. I do not think they want their water to be dirtier, their air to be dirtier, their food to be less safe. They want it to be more safe. They appreciate the fact that in the 20th century, largely because of Democratic initiatives, we have extended the life expectancy of the average American from age 48 in 1900 to age 70 today. We have added 31 years to the life expectancy of the average American in this country in the 20th century, largely because the Democratic Party health and environmental and job safety initiatives.

What a radical change. We went from the Garden of Eden to 1900, and the life expectancy of the average American male or female was 48 years of age, added 31 years in the last 95 years, and the Republicans look at it, and they say, "Let's roll back Medicare, let's roll back Medicaid, let's roll back the Environmental Protection Agency, let's roll back all the safeguards we offered to ordinary people so their lives could be protected in ways that no one from the dawn of time until the introduction of these programs had ever been protected if they are working people, if they are ordinary people, white, black, hispanic, Asian, whatever, in our country they all get the protections."

Then they look at the Superfund Program. As you know, we have hundreds of sites across this country where polluters in the twenties, in the thirties, in the forties, fifties, sixties, they just dumped their chemicals into the water, into the ground near neighborhoods, turning the whole neighborhood into a neighborhood nightmare, but, more importantly, putting the children in those neighborhoods at risk because the water that they drank, the dirt which they might have been playing in, it came back to haunt communities, and so the Superfund Program was put into place. It is not perfect. It needed to be reformed, and the Democrats were more than willing to work to ensure that the imperfections were corrected.

But that was not the objective of the Republican Party. Their objective was to destroy the Superfund Program. In fact, they constructed something which I call the Ed McMahon polluters' clearinghouse sweepstakes, which meant that if you were a polluter, if you had already in a court of law or in an administrative proceeding accepted legal responsibility for having polluted a neighborhood and you had already cleaned it up, you will get a rebate from the Federal taxpayer, and it will

be half of all the money which we, as taxpayers, put into the Superfund Program. We give the money to the polluters, but accepted legal responsibility.

And then they had a backup solution. It is the Evian solution: Well, we really cannot afford to clean up your site, but if there is an acceptable alternative for you to get water in your neighborhood, then the site will not be cleaned up. And this is called the Evian solution. That is, if you can go down to the corner store and buy bottles of Evian every day for the rest of your life, that is a good substitute for actually having water that is drinkable coming through the tap.

Now, there is a great innovation. Everyone in America, buy stock in Evian, buy stock in any water, and, by the way, you will get no Federal subsidies for that either.

And then you have the superfence. If there is a way in which you can build a superfence around the site, not cleaning it up, well, that is a good substitute, too, for ensuring that the hazardous waste material has been taken out of the community. It is the superfence superfiction, to be more accurate, because we all know that kids on their bikes are going to go right through these fences within about 15 minutes after they are put up, and they will be riding up and down these hills, these embankments of hazardous materials, not really aware of what the long-term consequences for them and their families will be.

That is the concept that the Republicans brought to environmental reform in our country.

And then I sit on the Committee on Natural Resources. What a great idea they came up with. We have subsidies on the public lands which we give to the mining industry. We have subsidies on the public lands of the United States that we give to the timber industry. We have subsidies; we are talking billions of dollars every year that come out of the Federal taxpayers' pockets. That is money we do not ask mining companies, timber companies, grazing companies to pay the American people for use of the public lands of our country. We just give it away to these Fortune 500 companies.

So the Republicans, they said, "Well, we have a deficit crisis in America. We're going to have to do something in order to ensure we raise more money to reduce this deficit."

So they touched grazing subsidies of the Fortune 500 companies? No. Gas, timber, mining, no. We would not want to touch those people, those people who exploit our resources every day and then go and make a private sector profit on it.

What do they offer as a reform in our committee? Well, we allow grandmothers and grandfathers to get into national parks across our country for half price. What they did was strip out this spring the protection given to grandma to get in with her Golden Age passport into the national parks of America.

That is how we are going to balance the budget, on grandma's back, not the mining, not the oil, not the gas, not the timber, not the grazing industries that are on the public lands. They do not have to pay market price. But grandma, she loses her senior citizen pass.

And, by the way, and the gentleman from New Jersey knows this better than anybody, what a tough year and a half for grandma, huh? Boy, has she had a tough year and a half.

You know we have about 13 million elderly women in America who live on \$13,000 or less a year. The Republican proposal was to take their Medicare payment and increase it by \$400 a year.

And grandma, of course, has sacrificed throughout her life. A lot of people think she has really been getting too much for free here in America; you know, all these grandmothers living on \$13,000 a year and Medicaid. Well, grandpa might be in the nursing home, but the Republicans' proposal was to make grandma sell her home before she would qualify for any Federal help at all to keep grandpa in the nursing home, and we know the average cost of nursing home care in the United States is \$55,000 a year in most of the larger States, \$40,000 at a minimum even in the smaller States, \$40,000 a year.

No matter how hard you try, no matter how many years you save, you cannot save enough money, if one of the spouses has Alzheimer's or Parkinson's, to pay \$40,000, \$50,000, \$60,000 each year to keep them in a nursing home. And, by the way, 50 percent of all people in nursing homes in this country have Alzheimer's, and 70 percent of all people in nursing homes are on Medicaid. But let us make grandma sell the house before she qualifies for anything.

And, by the way, they also propose to strip off the books the regulation which said that grandpa cannot be drugged while he is in the nursing home or tied down just to keep him under control.

Mr. PALLONE. The gentleman forgot when he came to the well and challenged the Speaker on the qualified Medicaid beneficiaries we are going to take away from the poorest widows in the country where Medicaid was paying for their Medicare part B premium. You brought that up. The Speaker said he was going to correct it and he never did. You might want to mention that.

Mr. MARKEY. Again, when they were called on it out here on the floor, they said, "Don't worry, our intention is not to hurt grandma," and they never corrected it. We were forced to vote out here on the floor on the bill with grandma paying 400 extra bucks each year, and, by the way, the same bill giving \$25,000 a year tax breaks for people who make \$400,000 or \$500,000 a year. It would take 70 or 80 grandmas, each kicking in 400 bucks to then turn around and hand away 25,000 tax breaks to people making over \$400,000 or \$500,000 a year.

Now let me say this about grandma. There was one weekend where she could get grandpa out of the nursing home, and they were so happy. They decided to take the grandkids to a national park, and so they got into the 1974 Ford Fairlane with the grandkids and headed off for the national park, and then the ultimate indignity: The Republicans propose to strip away the Golden Age passport so they can get into national parks.

Now is that right? I mean, yeah, OK, maybe we should look at some of these programs, but do you really think grandma and grandpa are getting too much? You know they took us through the thirties, the Depression, World War II, and then they built us into the greatest country in the world in the fifties, sixties, and seventies that has ever been known in the history of the planet. They have sacrificed to make this the great country it is.

Now is it really fair to tell yuppies who are making \$500,000 that you deserve a \$25,000 tax break and we are going to turn again to grandma and get \$400 out of her in order to make that tax break possible? That is wrong. We should not be giving out those tax breaks to the wealthy.

And within the same bill we should not be telling the mining and the timber and the grazing industries that they should be paying market price. If you are taking coal, if you are taking oil, if you are taking timber, if you are taking grazing materials off of public lands, you should pay the same that you would pay if it was on a private piece of property. We should not be subsidizing you.

Adam Smith is spinning in his grave looking at this policy. We tip grandma upside-down on Medicare and Medicaid, and then we turn a blind eye to the people making \$500,000 a year and say, "No, we're going to give you a tax break this year." Well, where is the sacrifice, the shared sacrifice? Grandma will always do what she always has, but is it fair, before you have gone to the people, that you should ask her to sacrifice for tax breaks? That is wrong. So that we do not have to touch the mining or the grazing or the coal or the other companies on—that is wrong.

So the environmental policies of the Republican Party over the last couple of years have been just upside-down, just completely misunderstanding what the American people want.

□ 1530

They want clean water, they want clean air, they want hazardous waste sites cleaned up. They want our national parks to be protected. Again, Americans are willing to sacrifice, but they want it to be fair. They want the priorities to be correct. They do not want it to be all skewed toward the wealthiest in our society. They want it to be balanced. If it is balanced, they will sacrifice. But there is no reason why the environment has to be sacrificed in this entire endeavor.

So my point is that we have a reckoning that has arrived where the American people have to decide whether or not in fact they are going to allow for a continued erosion, and by the way, a lot of the Republicans right now, they are engaging in the moderate macarena, where for about 6 weeks here they are going to pretend that they are as concerned with all these issues as we are. The point is, though, that once they get back in January, we are going right back to where we were over the last 1½ years. We have a 6-week macarena where they are walking around, I see nothing, I hear nothing, I am with you, and they do the little twist, and let us hope we make it through this election. But we are coming right back with the same agenda, cutting, slashing the environment of this country.

Mr. Speaker, I thank the gentleman for bringing this subject up. I think it is very important for us to have the American people know the critical nature of this election and the referendum that has been created on whether or not we should gut the EPA and Superfund and clean air and clean water, right down the whole line, all of these issues. I do not think that they do.

I hope that, working with the gentleman and those who have led this charge across the country, because it has been a grassroots movement, ordinary people in cities and towns all across this country, who have risen up against this environmental radicalism, I think that the day of reckoning is approaching where the voice of the people will be heard on clean air, clean water, and all the rest of the environmental issues.

Mr. PALLONE. Mr. Speaker, I just want to thank the gentleman, because I think he is bringing back the fact that we are talking about real people here when we are talking about these policies, whether they are natural resources, clean air, clean water. We are talking about real lives and individuals that are impacted by it.

We had a hearing today as part of our Democrats' Family First agenda on environmental issues. We had three just regular citizens, essentially, from the DC metropolitan area who talked about their own experiences with health problems or environmental problems that really have not been addressed.

In other words, here we are talking about the Republican leadership trying to turn the clock back, when there are real needs that have not even been addressed, when there is a need for legislation in certain health, safety, and environmental areas that has not even been addressed, that the Republicans have not even yet thought about.

We have one gentleman who actually lives in the District of Columbia who died from Salmonella poisoning, or I should not say died, nearly died from Salmonella poisoning. He went into the whole situation of how he was im-

pacted. He was in the hospital for such a long period of time.

Last night on Dateline there was a whole expose, basically, about Salmonella poisoning, and how eggs, so many of the eggs that are now produced in the country and that people buy in the store have the potential for Salmonella poisoning. There have been hundreds of deaths and thousands of people who may have been made sick because the Federal Government has not addressed the issue of how to deal with eggs, not only producing them, but making sure they are properly processed before they get to the market and before people buy them.

Mr. MARKEY. If the gentleman will continue to yield, Mr. Speaker, it has come to my mind, listening to you, that there was another initiative which was absolutely preposterous. It was a national parks closings bill. We had a military base closings bill, because as the cold war ended, there was clearly going to be a need to consolidate military activities across this country to save a little bit of money.

The Republicans in this Congress, they decided they were going to have a national parks closings bill. They were going to close down national parks across the country. Mr. Speaker, I have been in Congress for a while and I have talked to thousands and thousands of people over my years in public service. I can tell the gentleman this, I have never had a person come up to me yet and say, "Ed, do you know what the problem with this country is? We have too many parks in this country. Really, we have to shut down the parks in this country." That is the preposterousness of their interpretation of what the American people were saying in 1994.

The American people want a balanced budget. We accept that. We are going to go along with it. We heard the message.

Mr. PALLONE. Mr. Speaker, that parks bill, I think they called it the parks decommissioning bill, they were trying to make out that they were going to do a study and see which parks should be decommissioned, and obviously it was a nice way of saying closed. When the bill was originally proposed, the sponsor sent a Dear Colleague to other Members of Congress and he used a national park, the Sandy Hook unit of Gateway National Park, in my district as an example of a park or recreation area that should be closed.

This summer we had somewhere between 2 million and 4 million people that visited Sandy Hook, mostly, pretty much from the New York metropolitan area; New York, New Jersey. Imagine that many people using this facility, and he is proposing to close it, and using it as an example of a national recreation area that should be closed. It is just incredible.

Mr. MARKEY. Again, Mr. Speaker, this bill is not going anywhere this year, but it just sits there right behind

the moderate macarena for the next 6 weeks. They are sending out memos about adopting a tree, or go visit a zoo and show that you are politically sensitive to the environmental concerns of your constituents, but it is the agenda of the Contract With America.

I do not think the American people understood that in 1994, but as it has been outlined in detail, as each week and month has gone by in the last 1½ years, the American people have become quite aware that it is an environmentally radical program that has been put on the books that calls into question every environmental advance we have made over the last quarter of a century. I do not think the American people want to go backwards. I think they want even cleaner water, even cleaner air, even safer areas around hazardous waste sites.

Mr. PALLONE. I think the gentleman is correct.

Mr. MARKEY. In each and every one of these areas I think they have a big decision to make in 1996, and thanks to the gentleman, I think millions are having it explained to them here today.

Mr. PALLONE. I want to thank the gentleman for coming on the floor, Mr. Speaker, and talking about this issue. I think there is no question that if you ask the average person, and certainly all the polling data that both Republicans and Democrats have done shows that people feel that there needs to be more environmental protection and more health and safety protection.

When we had our Families First hearing today and we talked, and we had witnesses that talked about some of the problems they face, we had another gentleman who was infected with *Cryptosporidium* from tap water, and almost died. We had another woman who helped organize a community effort to reduce toxic waste in her neighborhood. She talked about how we need more right-to-know measures.

So the types of things that the President has proposed, accelerating the cleanup of Superfund sites, providing more right to know for citizens and citizen groups, trying to basically provide better enforcement and more money for enforcement, this is what my constituents are telling me, and I believe when I talk to other members of Congress and other colleagues, what their constituents are telling them, that there should be more protection and more funding where necessary for investigation and enforcement.

I just want to conclude the special order today just giving an idea of what, again, the Dole economic plan would mean in terms of environmental protection. The concern many of us have is that not only many of the environmental programs, whether it be the Clean Water Act, the Clean Air Act, Superfund, that the Republican leadership in this Congress tried to gut that legislation, but even more so, that by deprioritizing funding for environmental protection, by slashing the amount of money that was available to

the EPA, to the Department of the Interior, to protect our national resources and protect our health, and to protect our environment, that by allowing those levels of cuts to be proposed and in some cases actually implemented, what we are seeing is the inability, if you will, of the Federal Government and also State governments that depend on Federal dollars to actually do the investigation and the enforcement that is necessary to carry out our environmental laws and to make sure that there is adequate protection of individual's health and safety and environmental concerns.

If the Dole economic plan were to be put into effect, we know that there would be essentially a 40-percent cut in environmental programs. So the types of cuts that were proposed in this last Congress for the last 2 years would even be deeper, and the effect would be that the environmental protection and the 25 years, if you will, of efforts on a bipartisan basis to protect the environment and improve the level of protection by the Federal Government would simply be reversed, because of the inability of Federal agencies to carry out the law.

That is what we do not want to see. That is what we do not think that the average American wants to see.

TRIBUTE TO THE HONORABLE SAM GIBBONS AND THE HONORABLE GLEN BROWDER

The SPEAKER pro tempore (Mr. MCINNIS). Under the Speaker's announced policy of May 12, 1995, the gentleman from Alabama [Mr. CALLAHAN] is recognized for 60 minutes as the designee of the majority leader.

WATCH FOR ELECTION-YEAR SPIN IN HOUSE FLOOR SPEECHES

Mr. CALLAHAN. Mr. Speaker, it must be confusing to the people who are watching this, both in the gallery and on C-SPAN, about what we are talking about today. During this time of our political careers in history, it is an election year. It is like selling Coca-Cola and Pepsi-Cola. You have one side that says Pepsi-Cola is better, and one side that says Coca-Cola is better. What we do is create spin efforts. We try to convince the American people that one side is going to do all of these evil things, and the sky is going to fall if indeed a certain individual is elected President.

You hear things about cutting Medicare. There is not a provision anywhere in Washington where anybody has introduced or even suggested that we cut Medicare. All of this is partisan politics, trying to convince you, trying to manipulate you, the audience, into believing their side or our side of any particular issue.

They just talked about the environment. We are not going to destroy the environment. Not one individual in this entire body wants to do anything to do harm to the environment.

So as you go through these little periods of speeches on the floor of the

House, keep in mind that it is that time of year. You are intelligent people. You can make your own mind up. Base it on character, base it on history, base it upon the future, base it on whatever you want. But keep in mind that these are like television ads. They are just a few minutes dedicated to the Members of the House to come here and express their views, and to try to convince you that the future lies in someone else's hands, or the future lies in the hands of those that have it today.

Spin is interesting here in Washington, because, you know, I heard the Secretary of Defense went over to Kuwait. I think all of us in the House knew, and certainly everybody in television land knew, and certainly, Mr. Speaker, you knew, that the Kuwaitis decided they did not want us there, even though we sent 500,000 men over there to save their country. When we tried to send 3,500 men there, they balked. But in any event, the Secretary went over there and he explained it. Finally, they let us come in.

But the spin that came out of it, and I quote the Washington Post, Mr. Speaker, it said that the Kuwaitis are inviting us over there to protect their interests. That is spin.

But for the next hour, we are not going to be partisan. We are not going to be Republicans, we are not going to be Democrats. We are going to be telling you some of the things that have taken place during the last several sessions of the Congress, and about two or three individuals that have been an integral part of that. They are two Democrats, and I am a Republican, but there are two Democratic Members of the House who are retiring from Congress this year.

I have requested 1 hour of this time to come in a nonpartisan sense to talk about these two individuals, these two Members of Congress that have made a tremendous contribution to this country during the time that they have served.

We have not always agreed. We agreed generally only on those things that were very beneficial to Alabama, because in the Alabama delegation, unlike some of the other delegations in this Congress, we work together, whether we are Democrats or Republicans. If we have a problem, if we have a need in the State of Alabama, the delegation meets on a monthly basis and we discuss with each other the needs, and why we need it.

I had a home port in Mobile that I was trying to get and got it, because I brought it to our delegation. I said, I need the help of all seven of you. We have things in Huntsville, we had an Army base in Anniston that one of our Members had some problems with. We always work together.

Some States do not work together on anything. Some Democrats never work with Republicans, and some Republicans never work with Democrats. But in Alabama we have been blessed,

blessed to have seven members of our delegation who do work together; who do not always agree on the national issues, who do not always agree on individual bills, but who do have a guidance and a direction that moves toward a better America and a better Alabama.

The gentleman from Alabama, Mr. TOM BEVILL, from Alabama's Fourth Congressional District, married to Lou, has three lovely children; born in Townley, AL, the son of a coal miner, he attained the rank of captain in the U.S. Army while serving in the European theater during World War II.

□ 1545

He holds an LL.B. degree from the University of Alabama School of Law. He was first elected to the House of Representatives in 1966.

He was chairman for most of this time of the Appropriations Subcommittee on Energy and Water Development, from 1977 to 1994. As chairman, Congressman BEVILL encouraged substantial development of Alabama's waterways and the Port of Mobile and all the waterways and all of the ports of this entire Nation. For example, he was instrumental in the development of the Tennessee-Tombigbee Canal. This development allowed the United States to assert its full power in international trade. He remains the ranking member of the Subcommittee on Energy and Water Development even today.

The other Member retiring is GLEN BROWDER from the Third Congressional District of the State of Alabama, married to Becky. They have one daughter, I think a student at Auburn. At least they live near Auburn. He holds a Ph.D. in political science from Emory University in Atlanta. He served as a political science professor at Jacksonville State University, served for 4 years in the Alabama State House of Representatives, and was elected to Congress in a special election in 1989. He serves on the House Committees on Budget and National Security. While serving on these committees in the House, Congressman BROWDER has exerted an influential, fiscally responsible philosophy. As I have said, we did not always agree on some national issues. But you could never, never worry about the integrity of these two individuals, or about the word of these two individuals. If they told you they were not going to vote for you, you just as well put it in your hat to know they were not going to vote for you, not because they disliked you, not because I was a Republican, but because they disagreed with me. And that is the way this body works. It is made up of 435 individual men and women from all walks of life, from all of the States. All of us have had some degree of success in our other lives or we would not be here today. You do not elect unsuccessful people to Congress. You elect people that have been responsible people and leaders in their community.

So while there is bickering between these two on all these partisan issues

trying to convince you through their statements to vote for either Bob Dole or for Bill Clinton or to tell you that there ought to be a Republican majority versus a Democratic majority in the House, keep in mind that all of that is partisan spin politics. You are the people who make that decision, and I trust your decision.

We have only 1 hour today to talk about these two individuals, these two great Americans, and dozens of people have called and dozens have asked to come and to share with me this 1 hour that we have to pay tribute to these two great American people.

The first is a friend of mine from Indiana, Congressman JOHN MYERS. He is going to retire as well, but now he is chairman of the same subcommittee that TOM BEVILL once chaired.

Mr. MYERS of Indiana. Mr. Speaker, we thank our friend, the gentleman from Alabama, SONNY CALLAHAN, for taking this hour to remember and honor 30 years of service of our colleague.

On November 8, 1966, 72 new Members were elected to Congress, 59 Republicans and 13 Democrats. Today, there are three of us in that class remaining in the House of Representatives, and as has been mentioned already, all three of us have chosen this 30th year in Congress to retire: Congressman MONTGOMERY from Mississippi; the person we are honoring this afternoon, TOM BEVILL of Alabama; and I am from Indiana.

That class, there was another Member who went on, had trouble keeping a job here, served only 4 years in the House, but I talked with him this morning, former Vice President and former President of the United States, George Bush, said for me to extend best wishes and congratulations to TOM BEVILL and SONNY MONTGOMERY for their 30 years of service.

TOM, as I call him, has served 16 years as chairman of the subcommittee where we both have served those 16 years, and I served those 16 years as his ranking member; and the past 2 years, because of the election, I have been given the honor of holding the chairmanship and TOM has been the ranking member. But the relationship never changed; it is completely, absolutely nonpartisan.

TOM is a gentleman. Nothing went into a bill unless we both agreed, when he was chairman. The last 2 years, with the confrontation of a few people, partisanship does not play a role in our subcommittee; it continued the same way. The country was more important.

TOM grew up in Alabama, was born in Alabama. His family had a little country store, and TOM worked as a clerk in that country store, growing up. It was a coal mining area. He went on to graduate from Walker County High School in Alabama, went on to the University of Alabama, where he got his law degree, and then served in Europe in World War II.

He came back and practiced law for 16 years in Jasper, AL, where they still

claim home. But the thing in Alabama, and I have visited his district many, many times, both Democrats and Republicans voted for TOM BEVILL because they knew they had a person that was fair, and just as the gentleman from Alabama [Mr. CALLAHAN] mentioned here, would tell you the truth and you knew you were not getting doubletalk. They loved TOM BEVILL and they still love TOM BEVILL.

So he is going to go back home, I understand, and be an Alabamian once again, go back with his wife, Lou. His wife, Lou, my wife, Carol, the two couples have been friends for the 30 years we have had the honor of serving together in this Congress, but TOM and Lou BEVILL are true great people. Their three children and their grandchildren, I know they are going to enjoy.

So today I am pleased to be able to join the many friends that TOM BEVILL has to say thank you, TOM, for your years of service and thank you for your courtesy. Thanks for being a gentleman all of those years when we served together.

Mr. CALLAHAN. Mr. Speaker, I yield to the gentleman from Mississippi, SONNY MONTGOMERY, another gentleman that is retiring this year, who was just mentioned by the gentleman from Indiana [Mr. MYERS].

Mr. MONTGOMERY. I thank the gentleman from Alabama [Mr. CALLAHAN] for giving me this opportunity, and I would like to pay tribute to both TOM BEVILL and GLEN BROWDER on their retirements.

Mr. Speaker, I am pleased to speak today about our longtime friend, TOM BEVILL. TOM and I both, as mentioned by JOHN MYERS, started as freshmen together. We have been friends ever since. That was 30 years ago. During that time, I have to say that there has never been a better representative for Alabama or for this Nation than TOM BEVILL.

Mr. Speaker, he served in the European theater during World War II and attained the rank of captain. We three, TOM BEVILL, JOHN MYERS and I, all three served in the European theater. We did not serve together, but we were there at the same time. So coming to Washington for TOM BEVILL was not a tough, big problem; because he had been in the war, he knew that he could handle the job.

His constituents are very proud of him. He has had an excellent record with the people of his State and his congressional district. Mr. Speaker, he might have had a tough race the first time he ran, the first 2 years, but after that, he has been elected without opposition and really has had no problems coming to the Congress again.

As has been mentioned, he is the senior member of the House Committee on Appropriations and served as chairman of the Subcommittee on Energy and Water Development from 1977 to 1994. He is now the ranking member, as we all know, and he and JOHN MYERS

worked together so well. He did have a lot to do with the Tenn-Tom waterway system which goes between our two States, Alabama and Mississippi.

Mr. Speaker, on the Tenn-Tom, there is a lock and dam that bears the name of Tom Bevill Lock and Dam. And our congressional districts adjoin each other. But the biggest sign in my congressional district is Tom Bevill Lock and Dam and the sign points that way. I tease him a lot about that, but it is the biggest sign in my congressional district.

I have enjoyed having TOM BEVILL be a part of the prayer breakfast group, and PETE GEREN of Texas asked that I would mention about TOM BEVILL, he is known as the assistant to the assistant chaplain at our prayer breakfast. He does not get to act much, but he does come a lot, and we have enjoyed very much working together.

So about TOM, Lou has been wonderful. He has got three wonderful children. I wish him the best.

Moving to GLEN BROWDER, we are very proud of GLEN and what he has done since he has been in the Congress. I serve with him on the Committee on National Security, and he has performed his duties as well as any Member I know. Fort McClellan, AL, is in his congressional district. He has actually himself, with help from the other Members of the Alabama delegation, saved Fort McClellan, AL, from being closed. Fort McClellan has been on the base closure list for a number of years. I know for sure he has saved it for 2 years in a row.

We wish GLEN, his wife, Becky, and their daughter, Jenny Rebecca, the best in the future. GLEN, Washington and the House of Representatives will miss you.

Mr. CALLAHAN. Mr. Speaker, I would like to yield just a few minutes to one of the individuals we are retiring. To show you what kind of individual he is, he is here to give praise to the other Member we are talking about, Congressman TOM BEVILL of Alabama.

Mr. BEVILL. Mr. Speaker, I thank my good friend and colleague, Congressman CALLAHAN.

Mr. Speaker, I rise today to pay tribute to my good friend and colleague from Alabama, Congressman GLEN BROWDER.

GLEN is leaving office with a fine record of service to Alabama's Third Congressional District since 1989. As you know, GLEN was elected after the death of our long-time colleague Bill Nichols.

While no one could replace Bill Nichols, GLEN certainly has done an outstanding job picking up where Congressman Nichols left off. He has made a name for himself as a quietly determined, highly intelligent and well-focused Member of Congress.

Like Bill Nichols, GLEN BROWDER won a seat on the House National Security Committee where he has become a very effective advocate on a wide range

of military issues. He fought to keep Fort McClellan off the base closure list and developed broad expertise on the use and storage of chemical weapons.

He has worked diligently on behalf of Persian Gulf veterans who have suffered strange symptoms since returning from the conflict with Iraq. GLEN has pushed the Pentagon to provide more information on their potential exposure to chemical agents.

GLEN BROWDER has always been fiscally conservative and has provided outstanding leadership on campaign reform issues and budget matters.

I have thoroughly enjoyed working with GLEN BROWDER, especially on projects of concern to Alabama. He has always been very dedicated, not only to his district, but also to our entire State of Alabama and our Nation.

Whatever course GLEN BROWDER chooses to pursue, I am confident he will be highly successful. Meanwhile, his accomplishments here in the Congress will always be remembered and appreciated.

GLEN, I wish you and your lovely wife Becky all the best in your future endeavors.

Mr. CALLAHAN. Mr. Speaker, at this time I would like to recognize, he has a conference he must attend, a little bit out of order but nevertheless not out of order with respect to his vitality to this conversation, Mr. ALAN MOLLOHAN of West Virginia.

Mr. MOLLOHAN. I thank the distinguished gentleman and chairman. I appreciate very much his making possible this special order.

Mr. Speaker, I thank you for allowing me to take the floor today for this fitting tribute to our distinguished colleagues from Alabama, TOM BEVILL and GLEN BROWDER. I am pleased to add my personal words of appreciation for their contributions to this House and to offer my best wishes to each of them as their terms come to a close and as they look to their future.

I had the great pleasure of serving with GLEN on the Committee on the Budget. He is particularly distinguished, bright, makes a wonderful contribution to that committee and brings a lot of common sense to the process. I know that he will prosper as he leaves the House and I certainly wish him well.

Naturally as a member of the Committee on Appropriations, I will acutely feel the absence of the gentleman from Alabama [Mr. BEVILL] and the leadership that he has provided to that committee as chairman and the ranking member of the Subcommittee on Energy and Water Development.

□ 1600

He is one of the most respected members of our Committee on Appropriations and the entire U.S. House of Representatives, and it saddens me greatly to see him go.

For a long number of years, my father, who served in this body, served with TOM BEVILL, and dad always con-

sidered him to be as close as you could come to the ideal of a Member of Congress.

Since taking up the responsibilities of representing the First Congressional District here, I have found that dad is absolutely right. TOM BEVILL is bright, he is disciplined, he is full of integrity, and not only courteous but he is kind. These are the qualities that have made him an effective, popular Representative of the people of Alabama's Fourth Congressional District. They are the same qualities that have made him a widely admired Member of the House.

Of course, he has made his mark through his years of leadership of the Energy and Water Development Subcommittee. That can be a tough job. There are so many worthy projects brought to the attention of this subcommittee, real needs, urgent needs in communities all across the Nation, yet even in the best of times there are simply not enough resources to go around.

Being able to take up as many of them as possible and blend them into a thoughtful national policy, well, that is a real legislative art, and TOM BEVILL is the master of it.

Mr. Speaker, I doubt there is a district anywhere that has not benefited in some measure from TOM BEVILL's commitment to meeting America's energy and water development needs. His good work will be remembered long after he leaves this body. So, too, will his gracious manner and the good will he has consistently shown to Members on both sides of the aisle.

That is a real hallmark of his service. In fact, he has worked hand in hand in a real bipartisan spirit with another very distinguished and retiring Member of this House and of this committee, the gentleman from Indiana, JOHN MYERS.

JOHN MYERS has been equally an outstanding servant of the people. They are both wonderful men and a powerful legislative team.

TOM BEVILL is a true gentleman, as well as a distinguished legislator, and he will be missed sorely. Thank you, Mr. BEVILL, and thank you, too, Mr. BROWDER, for your faithful service to this House and to the people of West Virginia, and my best personal best wishes go with you.

I also want to share with you the great expression of appreciation from the constituents of the First Congressional District of West Virginia for all your consideration of their needs over these many years. God bless.

Mr. CALLAHAN. Mr. Speaker, at this time I would like to recognize one of the gentlemen we are talking about today so he can pay honor to the other gentleman we are talking about today. I am talking about Mr. BROWDER of Alabama.

(Mr. BROWDER asked and was given permission to revise and extend his remarks.)

Mr. BROWDER. Mr. Speaker, I want to thank SONNY CALLAHAN, my good

friend and fellow Alabamian, for arranging this special order and for all who are participating here.

I was in the gallery with my wife, Mr. Speaker, and I heard TOM BEVILL speaking about me and now it is my turn to speak about him.

For the past 30 years, TOM BEVILL has been representing our State and our country with distinction and dedication. His sincere interest in the betterment of this great land of ours has meant a great deal to many of our districts.

In my own district of east Alabama, for example, TOM BEVILL has exercised his leadership to help Alabama, Georgia, and Florida avoid a nasty scrap over the water resources we share. Because of the work and studies he sponsored, we seem to be moving toward a regional understanding on this vital issue.

TOM served 14 years as chairman of the House Appropriations Committee's Subcommittee on Energy and Water Resources. There is not a State in this country that is not a better place because of TOM BEVILL's work and his knowledge. Without a doubt he will leave an indelible imprint on our country that cannot be erased and will not be duplicated.

TOM has always been a special friend. He introduced me to the House when I was sworn in as a Member after a special election in 1989. At a time like that, it is nice to have a man of his stature speaking for you.

TOM has the respect of Members on both sides of the aisle. He has earned this respect by his hard work, his attention to detail, and his willingness to help another Member, even when there is no political gain for himself.

On this occasion I also want to mention TOM's lovely wife, Lou, who is as strong and caring a person as TOM. I wish them both the best for all they have done for Alabama and the rest of the country.

Mr. CALLAHAN. Mr. Speaker, I thank Mr. BROWDER for his kind words and for his service.

I want to now introduce my next-door neighbor, the man who represents the congressional district next to mine, Congressman TERRY EVERETT, of Alabama.

Mr. EVERETT. Mr. Speaker, I would like to first thank my colleague, SONNY CALLAHAN, for giving me and the rest of us this opportunity to offer a personal tribute to two of my colleagues who leave this House having earned very distinguished records of service. TOM BEVILL, the Fourth District of Alabama, and GLEN BROWDER, of the Third District, are well-known to the people of Alabama for their active leadership to Alabama and the Nation.

TOM BEVILL is the dean of the Alabama delegation here in Washington, having been elected to this body 30 years ago. TOM's gentlemanly manner, his character, and his great legislative skills have earned him the respect of his peers.

Having served as a long-time chairman of the House Appropriations Subcommittee on Energy and Water Development, TOM's influence has, as has already been noted here, today has been felt over the entire Nation for decades in major energy research development and public works projects from coast to coast.

At home in Alabama, Chairman BEVILL led the drive to build the Tennessee-Tombigbee Waterway. We heard Mr. MONTGOMERY talk about signs in his district, in Mississippi, naming something after Mr. BEVILL. There is a joke that you cannot travel through a single town in Mr. BEVILL's district in north Alabama without seeing the Beville name on a building somewhere. And while that may be true, let it also be known that there is a Beville building on the campus of Sparks State Technical College in Eufaula, AL, down in my district in southeast Alabama.

TOM and his wife, Lou, will be missed here in Washington after January, but they certainly deserve a much earned rest back home in Jasper. I wish them both the very best, and I know that TOM will have more opportunities to meet with my good friend, our mutual friend, Doug Pearson, for coffee more often.

Mr. Speaker, I also want to speak about another departing colleague, GLEN BROWDER of Alabama of the Third District. GLEN BROWDER came to Congress in a special election in 1989 to fill the unexpired term of the late Congressman Bill Nichols.

GLEN, who sits with me on the House Committee on National Security, quickly proved his mettle in successfully blocking three out of four Base Closure Commission attempts to close Anniston's Fort McClellan Army base.

GLEN also made a name for himself as a budget hawk by gaining a seat on the House Committee on the Budget and adding focus to the congressional effort to reach a balanced budget. GLEN's fiscal conservatism and hard work in support of our Nation's military and veterans will be very, very much missed.

I wish him and his wife, Becky, the very best as they return to Jacksonville, AL.

Mr. Speaker, both these gentlemen have given great service to Alabama and to the Nation and have extended great courtesy to me personally and I thank them. God go with them.

Mr. CALLAHAN. Mr. Speaker, I thank the gentleman from Alabama, and at this time we are going to go outside the State of Alabama, Mr. Speaker. I yield time to the gentleman from Arkansas, Mrs. BLANCHE LINCOLN.

Mrs. LINCOLN. Mr. Speaker, I thank the gentleman from Alabama for yielding. I, too, Mr. Speaker, rise today to pay tribute to two fine gentlemen from the State of Alabama. I am also proud to be here among the other folks that are here paying tribute. I find myself in excellent company.

I have had the privilege of serving with these two gentlemen for my tenure here in the Congress. I feel like it has been a real honor to be along their side.

Congressman TOM BEVILL has served the Fourth District of Alabama with distinction since 1966, but in many ways he has served all of our districts at one time or another. As chairman of the Energy and Water Appropriations Subcommittee from 1967 to 1995, Congressman BEVILL has probably been more instrumental than any Member in protecting, preserving, and managing America's water resources.

His charge has not been an easy one in distributing an ever-shrinking amount of funds to an ever-increasing number of worthy projects from around the Nation. Yet he has always been fair and nonpartisan in his work, and his word is ironclad.

When I first came to Congress 4 years ago, the appropriations process was an unintelligible maze to me. In an effort to understand the process better and to serve my district, I went to TOM BEVILL for advice. It could have been a very intimidating experience, a young woman, new on Capitol Hill, visiting a powerful chairman, but it was not. TOM BEVILL welcomed me as an equal and treated me with the utmost of respect. He helped me learn more about the process and was instrumental in guiding several landmark Arkansas water projects through the Congress, one on behalf of the people of the First District of Arkansas. I want to thank him for his hard work on our behalf.

I know that Mr. BEVILL's best days are ahead of him as he leaves Congress to return to his life of a private citizen. I want to wish him and his wife Lou the best.

There is one story I think that I must share with the rest of my colleagues, and I think it says a little bit about Mr. BEVILL that we all really know.

Not only has he served the people of this country and of Alabama and all of our other districts well, he has done so in a very wise and gentlemanly way, but he has not forgotten the important things in life. One day as we sat on the floor here, Mr. BEVILL and I were visiting, and I had on a red jacket. And he looked at me and he said: I see you in that red jacket and, he said, I am reminded. My wife was wearing a red jacket the day that we first had our—I think it was the day you proposed to her, perhaps? Or maybe it was your first date.

TOM BEVILL does not forget, and he does not forget the most important things in life. He has served us all very well in this institution. He served our Nation and the folks of Alabama. We would all do well to follow the example of his career, commitment, fairness, grace, and humility. TOM BEVILL is the kind of Member and person that we all strive to be, and I am proud to have served here with him and to have learned so much.

Mr. Speaker, I also want to say a word about my fellow Congressman, GLEN BROWDER, from Alabama's Third District. I have had the true honor of serving as a blue dog with GLEN during the 104th Congress. GLEN, like myself, is a founding member of this notorious band of independent Democrats. We have worked hard for that name and have had a great deal of fun with it.

The blue dog mission, however, has been about meeting two principal goals: balancing the budget in a fiscally responsible as well as a fair way, and bringing commonsense solutions to Washington, DC.

Since coming to Congress in 1989, GLEN has never swayed from those goals. He was instrumental in crafting the blue dogs' balanced budget and had an active voice in all of our policy decisions.

I am not sure what GLEN's plans are for the future, but I certainly know he will bring the same dedications and honor to his new endeavors as he has to his work here in Congress. I join my colleagues in honoring these two gentlemen, and I wish them Godspeed in the future ahead for both of them.

Mr. CALLAHAN. Mr. Speaker, I thank the gentlewoman from Arkansas, and I now recognize the gentleman from north Alabama, Mr. CRAMER.

Mr. CRAMER. Mr. Speaker, I thank my colleague from Alabama. I, of course, want to stand here today to pay tribute to two of my best friends, TOM BEVILL and GLEN BROWDER. I joined this Alabama team in 1991, so I have been here for 6 years. During that time the entire Alabama delegation taught me that Alabama has a notorious reputation for sticking together. We put Alabama's issues first, we put our party labels second.

□ 1615

And they demonstrated that all of the time that I was here. Of course, TOM BEVILL and I represent all of north Alabama. I have many industries in north Alabama that are dependent for their jobs on Federal budgets, like the NASA Marshall Space Flight Center and the Army presence at Redstone Arsenal. I have the Tennessee Valley Authority in north Alabama, as well.

We have so many connections to the Federal budget that if any part of it is squeezed, we feel part of the pain from that squeeze. TOM BEVILL jumped from the get-go when I got here to make sure that I had available to me his position of power, as I would put it, not as he would put it, there on the Subcommittee on Energy and Water and on the Committee on Appropriations, as well.

Whenever I needed to fight a battle, I could fight that battle with the presence of TOM BEVILL, literally. Tom and his wife Lou, his daughters Patty and Susan, and his son Don, are like family members to me, so it is very difficult for me to think of losing TOM BEVILL to this institution, much less as part of my professional life here in the Congress.

But as I stand here today in the presence of JOHN MYERS, and SONNY MONTGOMERY who left here, and listen to them talk, as I have both today and days before today, about their experiences here together and separately in this Congress, it makes me think that they just do not make people like that much anymore. They are all three illustrations to those of us here now that the behavior that we sometimes fall into does not have to be fallen into.

These are men who work well together. They put their partisan politics to the side. There is an appropriate place for that, but they bring into this institution daily a professionalism that would be hard to match this day and time. We are going to miss all three of them.

My colleague, GLEN BROWDER, was slightly behind me in his tenure here. I should say ahead of me; he came here slightly before I came here. And GLEN was, as well, an Alabama team member available to me when I got here; from Jacksonville State University, where he served on the faculty at that fine Alabama educational institution. He served also in the Alabama State House. He was Alabama Secretary of State as well. He brought that Alabama background to our Alabama team.

Of course, when you come to Congress you do not get to be on every committee you want to be on. GLEN was on the Armed Services Committee and, as I said, with our presence in north Alabama at the Redstone Arsenal, with the jobs that we had there, often I had to go to GLEN and say, "We in the Fifth District need your help." And he was available to me just as the rest of the Alabama team was available to me. And because I have the kind of district that I have, I was often turning to GLEN for advice about how do I get ready to fight NASA's battles on the floor or how do I help my district with the weather service issues that we constantly have there? And he was always available to help me, whether that meant meeting with constituents there or whether it was joining with me to lobby on the floor to win the victories that we needed to win.

GLEN, to you and your wife Becky, and daughter, I will lose you as family members, as well. I have enjoyed your presence and your moral support here in Congress. You, as well as TOM BEVILL, represent the kind of personality and professionalism that I want to be a part of while I am here. We will miss you, but we will look forward to seeing you and working with you in different ways. TOM BEVILL, GLEN BROWDER, we will miss you. Alabama thanks you, as we should.

Mr. CALLAHAN. Mr. Speaker, I now yield time to the gentleman from Kentucky [Mr. ROGERS].

Mr. ROGERS. Mr. Speaker, I thank the gentleman for yielding and for taking out this special order to honor two of the very distinguished Members of this body who happen to be from the great State of Alabama.

GLEN BROWDER, whom we have known since he came here, one of the great and distinguished Members of this body who has served our country so very, very well in his tenure. And GLEN, we wish for you the best in your future endeavors, and we are going to miss your service around here. We hope we do not miss your company. We hope you will come back and be with us all the time that you can.

Of course, the other Member who is being honored here today, TOM BEVILL, whom I have had the pleasure of serving with not only in this body but in the committee and on his subcommittee of recent years, I do not know how I can summarize this man's life in Congress in 2 or 3 minutes. In fact, I do not think I can. But I am reminded of something that was written some years ago that I think applies to TOM BEVILL as well as anything that I could say, and I am just going to quote it.

The writing was, "Real generosity is doing something nice for someone who will never find it out."

And, Mr. Speaker, there are thousands of people in my district and in every district in this country who would not know TOM BEVILL's name and yet who have benefited magnificently from his work here in this body. He has been so many things to so many people, touching the lives of millions of people who would not know his name if they heard it and likely never will.

And that is the nature of the labors of TOM BEVILL. To his colleagues, he is both the quiet, genteel, gentle man who served as chairman of a very powerful subcommittee of this body, and he is a very caring southern gentleman in the corridors of this Capitol.

To his constituents back home, he was and is a man and leader who rose to one of the most powerful positions in the Federal Government and yet never forgot where he came from, where he lives, who he is, who sent him here, and what he could do for his district and his Nation.

And as has been said, the evidence of his devotion to his people back home is evident in every corner of his district in Alabama. And not just in his home district, as TERRY has said, but throughout the State of Alabama and certainly throughout the Nation.

His support for higher education is symbolized by the tremendous assistance he has been to the University of Alabama. His appreciation for his State's lands and rivers. I mentioned the Little River Canyon National Preserve as one star in his crown. And, of course, as has been mentioned, the Tennessee-Tombigbee Waterway. I will not forget going down to the dedication of that great economic boost to the entirety of the Southeast United States, and being so proud to stand there as TOM BEVILL was lauded by the people of his home region and the rest of this country for that signal improvement to the Southeast.

And of course I have been a very close friend with TOM over the years on

so many fronts, but one comes to mind immediately, and that is his tremendous work on behalf of the Appalachian Regional Commission, a region that we share, and the ARC would not exist today had it not been for the work of TOM BEVILL. It would have been done away with years ago; certainly the funding would have been sliced to a negligible amount.

The same can be said of the Tennessee Valley Authority, which has meant so much to the economic growth of the entire South. And since TOM BEVILL has been here, the TVA has had no bigger and better or more effective supporter and promoter than TOM BEVILL.

We could talk about the silent work that he has done for which there is no notoriety or credit, even dating back to his very first days in the Congress, on this committee responsible, among other things, for the Nation's nuclear capability. It is this subcommittee that TOM BEVILL chaired for so many years that funded the Nation's nuclear weaponry, and of course that had to be done in supersecrecy.

And I know personally of the long hours that TOM BEVILL has sat and worked with the most powerful weaponry known to mankind, being sure that this Nation was prepared in the eventuality of that awful event of Armageddon. And through most of the cold war era it was TOM BEVILL who sat in the hall and decided how much money would be spent and for what in the Nation's preparation for our nuclear protection. That is a thankless job that TOM BEVILL did with great effectiveness and pride.

But my personal point of view, my district's point of view, there are literally thousands of people today in my district who are now protected from the ravages of nature, flooding, that TOM BEVILL saw to. And I suspect a great many Members of this body can say exactly the same thing, but I can say it with feeling, as can they, that TOM, our people thank you for your dedication to their well-being; people who never saw, people probably that would not recognize your name, except when I tell them who did it, that are now protected from these almost annual ravages of having their homes washed away, their family Bibles destroyed, their family pictures washed away. Everything they have would be gone. Today they can say they are safe because of your service to your country and to them in this great body. The infrastructure of our country has done well because of your tenure.

I am reminded of two stonemasons who were asked the same question, and I say this because TOM BEVILL kept in mind why he was here all the while. He did not waiver. He did not wander, he was always there. Two stonemasons were asked the same question: What are you doing? The first one said, "I am cutting this block into two pieces." The second one, though, said, "I am on a team and we are building a cathedral."

TOM has been on the team, and he has been building not a cathedral but a much, much better America, and for that we are eternally thankful to him.

I have to say this in closing, too. His wife, Lou, was one of my and my late wife Shirley's best friends. These two people, as his close friends and even distant friends know, are two of the best people that God ever created. Lou, an accomplished musician among other things in her life, is a true American and a great American, and someone that we are going to miss almost as much as TOM, if not more so. But we are going to miss the service of a gentle man. He was gentle, and yet when it came to the things that he believed in, a better America, he was tenacious and he persevered and at times was even ferocious in his defense of these things so important to him, his district, and our people across the country.

I know that TOM and Lou are going to enjoy the next phase of their life. We hope for the very, very best. We hope that they will at least come back and honor us with their presence, because we are going to sorely miss their personal friendship in their absence from us for what time they are absent.

So, TOM, in your next phase of your life, we wish you Godspeed.

Mr. CALLAHAN. Mr. Speaker, I thank the gentleman from Kentucky. And I now recognize the gentleman from Alabama [Mr. BACHUS].

Mr. BACHUS. Mr. Speaker, I thank Mr. CALLAHAN.

Mr. CRAMER mentioned the Alabama delegation and what a special group I think we are. I think he said it better than I would have said it when he said that party labels come second. We put the interest of the State first.

We have not had the partisan wrangling that we have sort of seen in this Congress in our delegation. We really like each other, we work well together, we cooperate together. It is the sort of bipartisanship that this country needs, and you see it in the Alabama delegation. And I think that the two gentlemen we are here to give tribute to today are two of the big reasons for that.

GLEN BROWDER and TOM BEVILL, you all were here before I came. You worked well together. You worked well with SONNY CALLAHAN and Bill Dickenson, and you sort of established that tradition in the Alabama delegation, something that I benefited from, something that the State of Alabama has benefited from, our delegation, working together for the good of the State and for the Nation. And, first of all, I think that is a legacy that you all will leave with those who stay behind, that we will continue as an Alabama delegation to put aside petty politics and party labels for the best interests of our State.

□ 1630

So I compliment you first for that.

Second, I compliment you for the fact that you have been a good example

to me, both of you. When I came here, I came into a Congress where I was a Member of a minority party. And probably the first month I was here, the first legislation that I decided to sponsor, a little piece of legislation, saved a little bit of money in the total picture, but I went to TOM BEVILL. I am not sure at that time I appreciated that he was a powerful cardinal on appropriations. I probably did not even know that I was not supposed to be approaching him at the time, but I approached him and I asked him to cosponsor my bill with me.

He could have said, I am not going to cosponsor a bill with you. You are a little Republican freshman and I am not going to give you the benefit of my reputation. It is too small a bill. It is just too inconsequential. I am working on important issues that affect this country every day. I do not want to give a young Republican Congressman anything that might give him an advantage.

But, no, Mr. Speaker, he put all of that aside. He saw that it was good legislation, and he cosponsored it with me. I was able to get Members on both sides of the aisle to join with me in that legislation because TOM BEVILL's name was on that legislation.

I will never forget that, TOM. Mr. ROGERS from Kentucky, his district and your district are very much alike. One is in Kentucky; one is in Alabama. But they are Appalachia. They are hard-working people. They are God-fearing people. And he much better than I could describe, he served with you here longer. He has known you and Lou, he and his late wife Shirley. You all were good friends. He knows you man to man. He can much better talk about your legacy than I can. I enjoyed listening to that. I can simply say that I second everything that he said in that regard. He certainly gave a wonderful tribute to you.

I would only add to that by saying that I have been so impressed with your wife, Lou Bevill. She sort of, I guess if you pick out someone that you want your wife to sort of use as a role model, because she is here, she is up here and she, as my wife is, they are both here with us during the week. I am so impressed with her, her and Mike Heflin. It is hard to talk about GLEN BROWDER and TOM BEVILL without thinking about Senator HEFLIN because that is sort of a dynamic trio that we are going to be without. I am going to miss you; I am going to miss Lou. I am going to miss Senator HEFLIN, and I am going to miss Mike. It is hard to think of you without thinking of Lou. It is hard to think about Senator HEFLIN without thinking about Mike. I wanted to tell you how much I appreciated her and her example.

Mr. EVERETT mentioned the joke about every building in north Alabama having a Bevill center. I told you about a year ago at a reception that we had, I was actually trying to describe a town in your district to someone. And

I described it as having a railroad that ran through it and about two traffic lights. It was on Highway 78. That really did not give them much of an indication.

I remembered that there was a building in the town that said the Bevill Building. I said, it has a building named after TOM BEVILL. And actually this person's remark back to me was, You have not eliminated one town on Highway 78 by saying it had a Bevill Building in it.

So you have left behind in your district a better place and something that you can be proud of.

They mentioned the University of Alabama. You have been committed also to our community colleges in Alabama. Even as a member of the State legislature, GLEN and I preceded you several years later, but you were one of the first in Alabama to recognize that not everybody could go to the University of Alabama; not everybody could go 120 miles to Auburn University. So some people had to go in their communities. If they had to travel over 20 or 30 or 40 miles, they simply would not get an education. And you were one of the people in Alabama who led the fight for community colleges. Thousands and literally millions of Alabamians owe that part of their education to your insight and your wisdom and your participation in that.

GLEN BROWDER, I will tell you a tribute, once a man asked me if I would recommend him for a job. I said that I would recommend him because he had coached my little boy in Little League and he had done a good job. You learn something about somebody when they coach your son in Little League baseball. You get a real insight into them. And I remember that when I came up here and GLEN BROWDER and I were going to serve together, I knew GLEN, as we had been in the State legislature together. You had been a constitutional officer in the State. I had been. But I knew you as capable. I knew you as articulate. I knew you as a good man. But Randy Dempsey, one of my law partners, he had been in your class. You taught him at Jacksonville State. And you had evidently been a mentor to him and you had encouraged him.

He shared with me what a fine teacher you were and how you really cared about your students and how your students really enjoyed your classes. You did a good job and you really cared about the students. GLEN, that has always impressed me, that someone who was there in your classroom had such a wonderful opinion of you.

Becky, your wife, people like Becky, people are impressed with Becky. There, again, both of you, you all have several similarities. One is that you are committed to your family. You are committed to your marriages. I commend you. You are a good example in that regard.

GLEN, you are going to leave a legacy to our gulf war veterans. That is something that I came about 25 minutes ago

and I had not heard anybody mention. But I am not sure if you are not the first person to go over to the Pentagon and say, we have got people that have returned from the gulf war. They are sick.

Mr. CALLAHAN. Mr. Speaker, I hate to interrupt the gentleman from Birmingham, but we only have 4 minutes left and we have two more distinguished speakers.

Mr. BACHUS. I will simply say this, GLEN. That is a devastating illness. You have been at the forefront of that and you are to be commended on that. And all our gulf veterans and all of us who support the military owe you a debt of gratitude for that.

Mr. CALLAHAN. I certainly hate to interrupt the gentleman.

Mr. Speaker, I yield to the gentleman from Minnesota, Mr. VENTO.

Mr. VENTO. I thank the gentleman, Mr. CALLAHAN, for this special order and wanted to commend my friends and colleagues, Congressmen TOM BEVILL and GLEN BROWDER. I think that what we see epitomized in these two good national policymakers is the magic of what happens in Congress.

People are elected with many different talents and they assume responsibility here, and although they are not specialists in national security or specialists in the role, they grow into that role and do yeoman's service. That certainly is the case with our friend GLEN BROWDER, and TOM BEVILL has grown really to be a giant in the work he has done in trying to hold together programs like the Corps of Engineers.

Over 30 years we have seen that evolve from a far different role than what it has played before. It really shows up when you work with him on a different project, as we did with a park unit in his district. It was one of the easier jobs I have had chairing the committee because I did not have to ask anyone to help. TOM did all the work, and he had helped so many Members of Congress and had had such an impact that it was obviously with acclaim that that was enacted. TOM, it was a tough job for you but we commend you and Lou and GLEN and Becky, and we wish you well. I know in the case of GLEN it is just an interruption in terms of his public service. We look to see him back in action quite soon. Best wishes to you all. Thank you for your services for the country.

Mr. Speaker, let me congratulate TOM BEVILL and thank his colleague from Alabama for sponsoring this special order in TOM BEVILL's and GLEN BROWDER's honor. These are really two good Members who will be missed and reflect very positively upon the Congress, their good State of Alabama, and the Nation.

GLEN BROWDER a teacher, farmer, Alabama State legislator, and State official served in Congress for 8 years, and has made an impressive contribution in national security and congressional reform issues. GLEN sought election to the other body, and for the moment is sidelined from public service but I've every expectation that our friend GLEN BROWDER will be back in public service in the near future.

My best to GLEN, Becky, and their family as they make a transition within public service.

TOM BEVILL for over 30 years has labored and contributed in his role of representing the people of Alabama in the U.S. House. His work on the Appropriations Committee has been very important, in the last years he has reformed and guided this program of projects based on merit not just legislative clout.

TOM has been my neighbor in the Rayburn Office Building these past 10 years. We've spent many days walking back and forth to the floor to vote, he has been a good counselor and friend. I was pleased to work with TOM on the Little River Canyon National Park Unit in the authorizing process as I led the Parks and Public Lands Subcommittee, one of the easier tasks I had because TOM really did the heavy lifting. He had more friends, both Democrats and Republicans, that were interested in helping which is a real tribute for TOM BEVILL. Naturally this become the first national park unit in Alabama, a legacy that will hopefully be in Alabama forever a testament to Congressman BEVILL.

My colleague, my friend, you have well earned your place in our affection and best wishes to you TOM, Lou and the family in the years ahead as you enjoy your free time from the duties of service in the Congress.

Mr. CALLAHAN. I yield to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank my friend, Cardinal CALLAHAN, for yielding.

Mr. CALLAHAN. You may approach.

Mr. HOYER. I have just a few minutes. Two decent Americans are leaving the service of the people's House at the end of this year. This House will be a lesser body for their departure. Alabama will have suffered a significant loss.

Each of us individually in this House will have lost good friends. GLEN BROWDER is a relative newcomer relative to Mr. BEVILL but then again, most of us are relative newcomers relative to Mr. BEVILL. GLEN BROWDER, as SPENCE BACHUS indicated, is someone who cares about people, who is a capable, able, regular guy that you would be proud to have as your dad or your brother or your uncle or as your Congressman. I have been honored to serve with him.

TOM BEVILL is a giant. TOM BEVILL helped America invest in its future. One of the first votes I cast was on the Tennessee-Tombigbee when I came here to Congress. It was a controversial vote. It was the right vote. TOM BEVILL stood and said if America is to grow, if we are to create jobs, if we are to have economic viability and be competitive in world markets, we need to invest in America.

TOM BEVILL is my friend and he is an historic figure in this body. Few Members who have ever served in this House will be able to look back on their record of making America better. That is TOM BEVILL's. God bless you, TOM.

Mr. CALLAHAN. Mr. Speaker, I yield to the gentleman from Alabama, Mr. HILLIARD.

Mr. HILLIARD. Mr. Speaker, I am very appreciative for the time to both

of my friends, TOM BEVILL as well as GLEN BROWDER. I am very happy to have had the pleasure to serve with both of them. I have known GLEN BROWDER for about 20 years. We served together in the Alabama State Legislature, and it was indeed a pleasure to have had the opportunity to serve with him there as well as here.

But to my good friend TOM BEVILL, he has been a true Alabamian, he has been a true American. He has been true to the cause. He has been fantastic in what he has done for this country. I congratulate him for his length of service, and I thank you for giving me the opportunity of being here with you.

I will surely miss both TOM BEVILL and GLEN BROWDER. We have been lucky, and yes, blessed, to have had two such strong Congressmen as these men, they are able and true. First, I must mention my good friend, TOM BEVILL of Alabama's Fourth District. Mr. BEVILL, as chairman of the Appropriations' Energy and Water Development Subcommittee created the Tenn-Tomm Waterway which flows through the length of my district. Just last week, TOM helped me in my efforts to stop the flooding along Birmingham's Village Creek, an area which is not even close to Mr. BEVILL's district, but that is the kind of man he is, kind and caring, a real gentleman.

Also, Mr. Speaker, allow me to say how much I will also miss Alabama's GLEN BROWDER, of the Third District. GLEN, a former political science professor, as well as a member of the Alabama Legislature, brought a professionalism to the House and to the Armed Services Committee which is hard to beat.

We will miss both of you, Congressman BEVILL and Mr. BROWDER.

Mr. CALLAHAN. Mr. Speaker, in closing, let me thank the Speaker for his patience. I recognize our time has expired. The gentleman from Louisiana, I think, is next going to be recognized and he has indicated since so many Members want to pay homage to TOM that he may yield some time to them. But this is not a eulogy. This is just an appreciation ceremony to two great Americans.

Mr. STOKES. Mr. Speaker, I want to thank my colleague, the distinguished gentleman from Alabama, SONNY CALLAHAN, for reserving this special order. We gather today to pay tribute to retiring members of the Alabama congressional delegation. I am honored to join my colleagues in saluting Congressman GLEN BROWDER, who represents the Third Congressional District of Alabama.

GLEN BROWDER was elected to the U.S. Congress in a special election in 1989. Prior to his election, GLEN served in the Alabama State House of Representatives from 1982 to 1986. In 1986, GLEN BROWDER won election as Alabama's Secretary of State, and served with distinction in that capacity. Thus, he came to this legislative body armed with strong political skills and a commitment to public service. During his 7-year tenure in the Congress, the Nation has benefited as a result of his leadership on important issues.

Mr. Speaker, GLEN BROWDER has served with distinction on the National Security Committee where he is a member of the Subcommittee on Military Installations and Facilities, and Military Readiness. In addition, he is

the ranking minority member of the Subcommittee on Morale, Welfare and Recreation. GLEN has also served with distinction as a member of the House Budget Committee.

During his career in the House, we recall GLEN BROWDER's efforts to serve his constituents by keeping Fort McClellan Army Base operational. He has pushed the Defense Department to be more forthcoming on the use of chemical weapons during the Persian Gulf war. GLEN BROWDER has also gained respect for spearheading efforts to reform our Nation's campaign finance regulations. His hard work has earned him the respect and admiration of his colleagues and others across the Nation.

Mr. Speaker, as he departs this legislative Chamber, we pause to pay tribute to GLEN BROWDER. He is a skilled legislator whose voice will be missed in the Halls of Congress. We also extend our good wishes to his wife, Becky, and members of the Browder family. GLEN is a good friend who will always be remembered.

Mr. RICHARDSON. Mr. Speaker, I rise today to join my colleagues in acknowledging one of the finest Members of the House of Representatives, TOM BEVILL.

As a Member of this House since 1966, TOM has been a respected and intellectual leader. His work as chairman of the Subcommittee on Energy and Water Appropriations has produced the Nation's major energy research programs and America's water resource projects. TOM has also been a true advocate for senior citizens by working hard in defense of Social Security.

I want to specifically mention that TOM always found time amidst his extremely busy schedule to consider the concerns of other Members. I remember a time when TOM came to my home State of New Mexico to study the irrigation needs of the Hispanic communities in my district. Because of TOM's assistance and support, many of New Mexico's centuries old irrigation ditches, so-called acequias, have received critical congressional funding for needed repair and restoration. Not only did TOM devote his energy and skill to his constituents, but he also found time to care about mine.

TOM added dignity to this House by working in the spirit of bipartisanship, and he will definitely be missed. Good luck, TOM and thank you for all you have done for this great institution.

Mr. RAHALL. Mr. Speaker, I feel particularly privileged to be able to say farewell to Representatives TOM BEVILL and GLEN BROWDER of Alabama as friends as well as beloved colleagues in the House. I have learned much from them, and I appreciate their having allowed me to grow as a Member by drawing from the wealth of their experience and their knowledge.

TOM BEVILL was elected a full 10 years ahead of my election to the House, in 1966, and he has been reelected by overwhelming margins ever since by the folks he represents in Alabama's Fourth Congressional District.

As chairman of the Energy and Water Appropriations Subcommittee, TOM has stood with me many, many times on behalf of the people I serve in southern West Virginia as we worked together to facilitate development of West Virginia's waterways and energy development projects. My constituents have benefited greatly through TOM's willingness to listen and to understand and to respond to the needs of my congressional district with respect

to water resources development and Corps of Engineers projects throughout southern West Virginia.

TOM BEVILL's mastery of the appropriations process is legendary. The people of the Fourth Congressional District of Alabama are indeed fortunate to have had such a champion fighting for their needs all these years, and he will be long remembered by all of us who remain behind here in this body as the man who helped each of us better serve our own constituents. He is a man who believed that every dollar he ever appropriated was spent on a worthy cause—to help someone down on his luck, to help a community grow, to help a university educate its young people, to ensure that a small child had enough to eat. And he believed that money for these purposes needed to be spent in Alabama, and in West Virginia, and in every State in the Union.

TOM BEVILL has served with distinction, pride, integrity and style. He will be sorely missed in the years to come by this House of Representatives.

GLEN BROWDER, elected in 1989, has served with distinction on the National Security Committee, formerly the Armed Services Committee, where he has labored to fulfill a responsibility to assure that our Nation's military readiness is second to none in the world.

While many of us in the House never served on committees with jurisdiction over national security, I knew, and my colleagues knew, that we could rely upon GLEN's knowledge and expertise in the area of national defense in keeping us strong as a nation and ready to defend our country, its people, and our allies abroad. We knew that GLEN's thoroughness and his vast knowledge about our armed services and military readiness, would lead to a reasonable and responsible use of our vast military resources where they would do the most good.

GLEN also served his constituents in the Third Congressional District of Alabama, not only by making wise decisions of our Nation's security, but by taking great care to see to the domestic needs of the people in Alabama's Third Congressional District. He combined his natural leadership skills with his innate sensitivity to their socioeconomic circumstances in order to improve the lives of his people.

Above all, both TOM and GLEN deeply believed in good Government throughout their tenures in the House, and their years of service and commitment to good government is visible across this great country. I commend them for their diligent service to Alabama and to the United States.

I wish them both Godspeed.

Mr. STOKES. Mr. Speaker, I want to thank my colleague, the distinguished gentleman from Alabama, SONNY CALLAHAN, for reserving this special order. We gather today to pay tribute to retiring members of the Alabama congressional delegation. I am honored to join my colleagues in paying special tribute to TOM BEVILL, who will depart the U.S. Congress at the end of this legislative session.

TOM BEVILL was first elected to the U.S. Congress on November 8, 1966. His retirement brings to a close a 30-year career in public service. I share the sentiments of many others who state that TOM is one of the most respected and effective Members to have served in this legislative body.

Mr. Speaker, TOM BEVILL is a senior member of the House Appropriations Committee

and the former chairman of its Subcommittee on Energy and Water Development. He is also a member of the Appropriations Subcommittee on the Interior. Through these assignments, TOM BEVILL has been instrumental in funding the Nation's major energy research programs and our Nation's water resource development projects.

The Fourth Congressional District of Alabama has benefited as a result of TOM BEVILL's commitment and hard work. I recall working closely with TOM BEVILL on the Tennessee-Tombigbee Waterway project. It was an important initiative that could not have gone forward without his strong leadership. During his tenure in Congress, TOM has also demonstrated a steadfast commitment to education. A leading defender of Social Security and Medicare, as well as a strong advocate for health care, TOM has earned the support of our Nation's seniors.

Mr. Speaker, I have been privileged to serve in the Congress with TOM BEVILL. He is a skilled lawmaker and a dedicated public servant. He is also a gentleman and a close personal friend. Throughout our Appropriations Committee and floor deliberations, he has been the voice of reason and compassion. Members on both sides of the aisle will agree that over the years, TOM BEVILL has taught us valuable lessons about working together and public service. I am proud to share a very special relationship with TOM BEVILL. He is someone whom I greatly admire and respect.

Mr. Speaker, as he departs this legislative Chamber, I join my colleagues in saluting TOM BEVILL for a job well done. I also extend my best wishes to his charming wife, Lou, and members of the Bevill family. TOM BEVILL will be missed in the Halls of Congress. We take pride in knowing, however, that he leaves behind a record of legislative achievement and service that will stand in the years to come.

AFFIRMATIVE ACTION

The SPEAKER pro tempore (Mr. QUINN). Under the Speaker's announced policy of May 12, 1995, the gentleman from Illinois [Mr. JACKSON] is recognized for 60 minutes.

CONTINUED TRIBUTE TO TOM BEVILL AND GLEN BROWDER

Mr. JACKSON of Illinois. Mr. Speaker, with that I yield to the distinguished ranking member, the gentleman from Ohio [Mr. STOKES].

Mr. STOKES. Mr. Speaker, I thank the gentleman from Illinois for yielding to me. I will just take a couple of moments of his time. I am sorry that I did not arrive earlier to be able to speak on Mr. CALLAHAN's special order on behalf of TOM BEVILL and GLEN BROWDER. Mr. OBEY and I have been in a House-Senate conference on the VA-HUD bill, and we just got a chance to get here to the floor.

I will just take a moment, but I do want to say that with reference to TOM BEVILL, with whom I have served almost all the time that I have been in the Congress, that I have established a lot of friendships in this Congress but no greater friendship have I had than that I have had with TOM BEVILL. I do not know of any Member of Congress who is respected any more highly than

he is, nor do I know of anyone who has made a greater contribution to this Nation than he has.

We have worked on a lot of projects together over the years and it has been a real privilege and honor to serve with him, to get to know not only him but members of his family, his lovely wife and members of his family. I want to say we are going to miss TOM here.

□ 1645

His level of leadership has been something that we can all point to as a model and with great admiration.

In the same vein, I want to take just a second to say what a pleasure and privilege it has been to serve with GLEN BROWDER. He too, following in the footsteps of TOM BEVILL and other leaders from Alabama, has been a real model here. He has had a long and distinguished record legislatively and is someone whom all of us not only admire, but we will miss greatly when he leaves this body.

And just lastly, TOM, I might say that I am sure that our good friend, Bob Jones, is watching this special order this afternoon and I am sure there is a smile on his face with the knowledge that you and I shared a special friendship over the years.

Mr. JACKSON of Illinois. I thank you, Mr. STOKES.

Mr. Speaker, I yield to the distinguished ranking member of the Committee on Appropriations, Mr. OBEY.

Mr. OBEY. I thank the gentleman. I do not want to impose on his time. I would simply ask unanimous consent that the remarks I made about our good friend, TOM BEVILL, when we considered the energy and water appropriations bill be incorporated in my remarks at this point in the RECORD and to simply say again, TOM, how much I have enjoyed the opportunity to serve with you and how grateful we are for the service you have given the country.

And I want to say to GLEN that you have, I think, performed tremendous service in this institution with good humor and with grace, with understanding of other people's points of view and with deep commitment to the things that you believe in. That is what makes this country strong, and that is what makes this institution what it is supposed to be, and I thank you both for your service here.

Mr. JACKSON of Illinois. Mr. Speaker, I certainly want to take this opportunity to thank TOM BEVILL and GLEN BROWDER, as well, for their years of service to this institution, and while I have not had the privilege of knowing and working with them at the level that I wish I could have, their reputations in this institution as genuine public servants certainly precedes them and I am just honored to have the privilege to be from the State of Illinois, to follow in their tradition of public service. The roles that they have represented in this institution are not without great distinction and without the kind of merit that truly needs to be

bestowed upon public servants in this institution.

AFFIRMATIVE ACTION

Mr. JACKSON of Illinois. Today, Mr. Speaker, I am joined by the distinguished gentleman from Louisiana [Mr. FIELDS] to talk about an issue of critical importance during this electoral season, the issue of affirmative action, and with that, Mr. Speaker, I would like to ask the gentleman to engage with me in colloquy for the remainder and the balance of our time.

Mr. FIELDS of Louisiana. I thank the gentleman, and I, too, would like to add to the accolades that have been bestowed upon both TOM BEVILL and GLEN BROWDER for their years of service. As a young Member of this Congress, I want to thank each of you for the leadership that you have shown on the floor of the House. You have always conducted yourselves in a very professional manner, and I would hope that people outside of this Chamber have had the opportunity to watch the two of you on the floor, and also in committee. Hopefully, the Congress is better served because you had an opportunity, the two of you had the opportunity, to serve. And as a young Member, I say to you, I appreciate the leadership that you have given to others such as myself.

I want to thank the gentleman from Illinois [Mr. JACKSON] for yielding to me. I want to apologize to the gentleman. I had intended to be a part of this entire hour. I will not be able to participate the full hour, but I want to thank the gentleman for bringing such an important issue to the forefront, and that is affirmative action.

Today, the Small Business Committee held hearings which assessed the value and the continued need for the Small Business Administration's 8(a) program—one of the most successful programs for helping the socially and economically disadvantaged to become self-reliant entrepreneurs. It is no surprise that we find ourselves addressing the issue of affirmative action during this political season—for despite what all of the macroeconomic indicators may describe, many in our Nation find themselves dominated by economic anxiety. We know from past experience that in such a climate politicians use the fear-driven dynamic of scapegoating and blame to divide us from each other.

We are at a critical juncture in the way our Nation addresses issues of race and gender. The greatest civil rights gains were achieved in the 1950's and 1960's at a time of economic health, prosperity, and growth. Today, as we face the results of the globalization of the economy, the downsizing of Government and corporate America, fear-driven political divisiveness abounds and threatens the gains we have made.

There is probably no issue in current political discourse that speaks more to the Nation's acceptance or denial of the existence of race and gender discrimination than affirmative action.

After his review of existing affirmative action programs, President Clinton strongly endorsed the principle of equal opportunity and the means to achieve it—strongly and adequately enforced affirmative action programs.

Opponents of affirmative action, who use the issue as a wedge to divide society for the sake of political expediency, uniformly deny that discrimination continues to be a pervasive evil—a fact of life for a majority of Americans. Opponents perpetuate the idea of achieving a colorblind society despite overwhelming evidence of discrimination against people of color. When opponents present their rationale for eliminating affirmative action as a remedy for such discrimination, they often take Dr. King's quote about "judging people by the content of their character and not the color of their skin" out of context. What Dr. King actually said was that "He looked forward to the day" that people would be judged by the content of their character, not the color of their skin. We know that such a day has yet to arrive.

In order to understand why we are discussing affirmative action today, it is important to place the development of affirmative action programs in their proper historical context. To this end, today we would like to first trace the history of affirmative action in America. Second, we will attempt to dispel the myths surrounding this complex arena, and finally, we will specifically address the merits of the 8(a) program and the positive effects it has had and will continue to have on our Nation's small businesses if we sustain this valuable program.

Mr. JACKSON of Illinois. Contrary to popular opinion, the concept of affirmative action has a very long and protracted history in the United States. The longer, more pervasive form has been exclusive affirmative action which established and perpetuated the dominance of white male Anglo-Saxon landowners. For a brief period following the Civil War and then not again until the Civil Rights era of this century, a positive inclusive affirmative action was enacted into law in an effort to end the institutionalized racism and sexism in our society.

The highest law of the land, the U.S. Constitution, codified State-sanctioned preferential treatment for white male landowners, guaranteeing the slave trade, the return of fugitive slaves and the counting of African descendants as three-fifths human. African descendants were prohibited from learning to read, from marrying or giving their children names. Women were not allowed to vote. Native Americans, the original inhabitants of the land, were decimated as a people, and survivors were stripped of political and human rights. Tenant farmers and other non-landowners lacked political rights. While white male landowners reaped the tremendous group benefits of the Homestead Act and the land reclamation laws which provided them with oil

and soil-rich land they earned purely by luck of birth, those who had worked the land, mostly Mexican-Americans and Asian-Americans and immigrants, were prevented from owning land by anti-alien laws which were on the books until the 1950's. Asian men were imported to work on the railroad in the West while Asian women were employed in menial positions and Asians were often not allowed to marry.

The judicial branch also enforced exclusive affirmative action. In the 1857 Dred Scott ruling, the Supreme Court made the strongest possible statement of white males' preferred treatment and status, that a black man had no rights that a white was bound to respect. It was not until the Emancipation Proclamation that the concept of inclusive affirmative action originated with the Civil War amendments to the Constitution. The first major Reconstruction legislation was enacted specifically for the benefit of African Americans as a group. The Freedman's Bureau Act of 1865 allowed for provisions, clothing, and for land and for lease of land and sale to descendants of slaves. It also set up schools to educate freed slaves who had previously been denied access to education. This healing period, however, was short-lived.

In 1873, just 8 years later, the Supreme Court narrowly redefined the 14th amendment, giving States broad authority to reestablish second-class citizenship for former slaves. The Tilden-Hayes Compromise of 1877 cut short the potential reconstruction by eliminating the promise of "40 acres and a mule," taking land away from freed slaves, redistributing plantations to original Confederate owners, pulling out Federal troops who were sent in to protect the freed slaves and allow the Ku Klux Klan to reign by terror and oppression.

Then, in 1896, the Supreme Court in Plessy versus Ferguson codified American apartheid with its mandate of separate but equal, legally sanctioning the segregation of the races. Jim Crow laws strictly segregated African Americans in every facet of life from public transportation and accommodations to schools. The disparities were beyond severe with white schools spending more than 10 times the amount of money per pupil than black schools.

Mr. FIELDS of Louisiana. African Americans were not the only group to have suffered at the hands of white male supremacy. White women and women in general did not gain the right to vote until the 19th amendment afforded them suffrage in 1920. Mexican Americans in the southwest were subjected to widespread discrimination in housing, education, and employment. They were murdered, executed without trial, and lynched. Asians were denounced for taking white men's jobs, and the feat of yellow peril led to anti-Asian immigration laws on the books in 1924 and 1945. Japanese Americans were illegally confined to detention camps during World War II and lost

most of their property while wrongfully incarcerated.

Exclusive affirmative action remained the law of the land until Brown versus Board of Education in 1954. Brown rejected "separate but equal" as inherently unequal and laid the legal basis to end segregation across the country. Momentum for this milestone had been building since the 1940's and had its roots in educational opportunity. Following WWII, the GI bill laid the groundwork for the first affirmative action plan in education. Upon their return from the war, veterans of all races were offered home loans, job training and a free college education. Veterans of all backgrounds benefited from the college waiver and lower interest requirements that were given extra points on entrance exams and provided extra help for education. Veterans prospered, and so did the Nation. It was in the spirit of equal opportunity that President Truman 47 years ago desegregated, not integrated, the Armed services in 1948. I yield to the gentleman from Illinois.

Mr. JACKSON of Illinois. President Kennedy was the first to coin the phrase of "affirmative action" in his Executive order of 1961 which barred discrimination in Federal employment and in private firms that entered into contracts with the Federal Government. His premise was that those who had been historically locked out by law or by practice would have the opportunity to prove themselves on the job. This order though had no enforcement powers.

In 1964, Lyndon Baines Johnson and Congress passed the Civil Rights Act—the first truly effective piece of civil rights legislation since Reconstruction. Title VII prohibited public and private employers from discriminating based upon race, gender, national origin, or religion. It specifically outlawed the use of "preferential treatment" to any protected group. The act established the right of courts to order affirmative action plans to remedy widespread practices of discrimination.

However, after its passage, individual victims of discrimination found it difficult to prove their cases in court since employers were able to craft counterstrategies which hid their bias. For example, how do you prove that the job has not already been filled, or that you would've received the job on your merit if the employer hadn't hired his son-in-law; or that the employer, upon finding that the most qualified applicant was a person of color, internally filled the slot; or that you were barred from tenure-track position because of your gender?

□ 1700

The reality is that it is really hard to do so, especially for unemployed victims of discrimination who are trying to find a job to survive.

It became clear to policymakers of that day that a proactive government strategy would be necessary to overcome the vestiges of discriminations

past. It was not enough to merely cease discriminatory practices. We needed measures to undo or compensate for the effects of past discrimination. We needed an affirmative action to overcome a negative action.

Mr. FIELDS of Louisiana. Mr. Speaker, to that end, in 1965, President Johnson issued Executive order 11246, which required all employers with Federal contracts to file written affirmative action plans with the Office of Federal Contract Compliance Programs, giving a Federal Government review of one-third of the private work force. Announcing his rationale in his famous "to fulfill these rights" speech at Howard University commencement, he stated:

You do not take a person who, for years, has been hobbled by chains and liberate him, bring him to the starting line of a race and then say, "You are free to compete with all others," and still justly believe that you have been completely fair.

He recognized that merely outlawing discrimination and equalizing the law of competition was not enough. He called for "equality as a result, not as a philosophy." In 1967 the order was extended to women.

By the end of his administration, LBJ was mired down by the Vietnam War and unable to carry out his enforcement and promise of his economic justice agenda. Interestingly, it was under President Richard Nixon that the parameters of modern affirmative action programs were set. Several hundred large corporations recommended use of a management by objective concept of goals and timetables, not quotas. The order required that employers make a good-faith effort to hire women and people of color by setting targets and timetables to achieve these goals. Penalties were not invoked if employers made good-faith efforts to make their goals, and the Executive order specifically prohibited the use of quotas.

This standard remains the state of the law today. In 1973, affirmative action was extended to people with disabilities, and in 1974, to veterans.

Mr. JACKSON of Illinois. Mr. Speaker, in 1978 a divided Supreme Court in University of California versus Bakke struck down a UC Davis admission program, which set aside 16 out of 100 slots for disadvantaged students, as an impermissible quota. The Bakke court did, however, affirm the use of race or ethnicity as a factor to be considered, along with many other factors.

It is commonplace for schools to seek out students with special talents or skills or leadership ability or unique geographic origins, to consider whether they are veterans, or promising athletes, or children of alumni. Significantly, the court recognized a diverse student body as a compelling State interest. The vote by the UC regents, however, has circumvented the Supreme Court's recognition of the public schools' ability to enrich their educations and the educational environ-

ment. We now sit in fear of the long-term implications that this will have, not only in California, for California residents, but for the students of other States who have followed suit.

Two decades of constitutional law have defined lawful affirmative action plans in employment, in contracting, and education, which include activities from recruiting and special outreach to goals, targets, and timetables, not quotas. The court requires that the following five guidelines are met when implementing an affirmative action plan:

No. 1, race, national origin, or gender is one of several factors to be considered;

No. 2, relevant and valid job or educational qualifications are not compromised;

No. 3, numbers do not amount to numerical straitjackets or quotas and reflect the relevant pool of applicants;

No. 4, timetables for achieving the goals are reasonable, and there is an appropriate review of the plan's continuing value;

No. 5, the rights of nonbeneficiaries are respected.

The court has held a plan is illegal if any of the following five situations occur:

An unqualified person receives a benefit over a qualified one;

Second, numeric goals are so strict to the degree of being inflexible;

Third, the numeric goals do not reflect the available pool of qualified candidates, and thus easily become a quota;

Fourth, the plan is of indeterminate length, causing it to outlast its objectives; and

Fifth, innocent bystanders are impermissibly burdened.

One year ago the Supreme Court dealt a blow to affirmative action policies. The court, in the Adarand versus Pena decision, made it more difficult to implement Federal affirmative action programs as it raised the level of review to the highest measure of scrutiny. Significantly, seven out of nine justices, excepting Scalia and Thomas, rejected the notion of color-blind justice. Prior to Adarand, the court would defer to Congress and to Congress' expertise in crafting programs to ensure that victims of past governmental or societal discrimination were able to benefit from the educational opportunities and business of the Federal contracts that their tax dollars actually went to support.

Mr. Speaker, while strict scrutiny is certainly a higher threshold, the Department of Justice has studied affirmative action programs and is promulgating regulations to ensure that existing programs are narrowly tailored to meet their "compelling government interest."

Prior to the Adarand decision last year, the Supreme Court likewise declined to overrule a lower court decision which outlawed the University of Maryland's Banneker scholarships.

This was a program which attracted high-achieving African-Americans to the university, leaving minority targeted scholarships severely jeopardized. Earlier this year, in the April Hopwood decision, the Fifth Circuit Court of Appeals ruled that the use of racial diversity as a remedy for past discrimination is not enough of a compelling Government interest to justify an affirmative action program.

Prior to Hopwood, the University of California dismantled its affirmative action programs, and several State universities are following suit. We are pleased to hear that the extremist Dole-Canady bill will not come to the floor for a vote due to the lack of support for the outright dismantling of this very effective mechanism for equal opportunity, and note that the same opposition applies to the so-called California civil rights initiative and other State efforts to undermine equal opportunity, whether in employment, in education, or in contracting.

Mr. FIELDS of Louisiana. Mr. Speaker, I want to talk a moment about dispelling the myths of what affirmative action is and what it is not.

Today most discussions of affirmative action start at the end, discounting the entire history of affirmative action by claiming that affirmative action really means quotas and preferential treatment. I thought it was important to start at the beginning and not at the end.

After 250 years of slavery, 100 years of apartheid, the 1954 decision ending segregation, nondiscrimination laws—negative action to offset negative behavior, and then positive action to overcome the vestiges of a discriminatory past—we are not yet to the day of Dr. King's rainbow. It is a myth that affirmative action is no longer necessary.

The Glass Ceiling Report, a study commissioned by the Department of Labor and created by the 1991 Civil Rights Act by a bipartisan majority in this Congress, and a Republican administration, found that women in the largest corporations hold less than 5 percent of the top management posts, while African-Americans, Latinos, and Asian-Americans, hold less than 1 percent of these positions. White males comprise 43 percent of the work force, yet hold 95 percent of these jobs.

The unemployment rates of African-Americans and Latinos are twice that of whites. Women are 53 percent of the population, African-Americans are 13 percent, Latinos, 10 percent. Yet, in the 1994 labor market 22 percent of all doctors were women, 4 percent African-American, and 5 percent Latino. Twenty-four percent of all lawyers were women, 3 percent African-American, and 3 percent Latino. Thirty-one percent of all scientists were women, 4 percent African-American, and 1 percent Latino.

The well-documented pay gap between white men, and women, and people of color persists. In 1993, on the average, for every dollar a white man

earned, an African-American man made 74 cents, a white woman 70 cents, a Latino man 64 cents, and an African-American woman 63 cents.

Mr. JACKSON of Illinois. Divisive forces claim Asian-Americans no longer affirmative action protections against current discrimination. Yet, whites with high school degrees make up almost 11 percent more than Asian-Pacific-Americans with college degrees. As a group, whites make almost 26-percent more than Asian-Pacific-Americans. Asians remain vastly underrepresented in many occupations. Furthermore, many groups within the Asian community, the Vietnamese, the Laotians, and Filipinos, are characterized by high rates of illiteracy and poor job skills.

Asian-Americans are rarely seen in tenured faculty or administrative positions in academia, comprising only 4 percent of all full-time professors. It is manipulative to claim that Asian-Americans are the model minority in an effort to eliminate race-conscious inclusion policies.

A 1990 Urban Institute study stands as empirical proof of the pervasive nature of discrimination in the workplace. Comparing African-Americans and white job applicants with identical credentials, the study found unequal treatment was entrenched and widespread. In nearly a quarter of these cases, whites advanced further through the hiring process than blacks. A similar study with Latinos found whites received 33-percent more of the interviews and 52-percent more job offers than equally qualified Latinos. Even when African-Americans and Latinos are hired, they are promoted and paid less.

In 1992, Manufacturers Hanover Trust rejected 18 percent of loan applications from high-income whites, yet rejected twice as many, 43 and 45 percent, from high-income African-Americans and Latinos. In 1994, the Chevy Chase Federal Savings Bank agreed to an \$11 million settlement of a lawsuit for redlining in mortgage lending, refusing to serve neighborhoods predominantly comprised of people of color.

Last summer the Chicago Federal Reserve Bank reported that African-Americans are twice as likely to be denied home loans, and Latino applicants one and one-half times more likely to be rejected as equally qualified whites.

Less than 2 weeks ago, on September 5, 1996, the Long Beach Mortgage Company paid a \$3 million settlement to African-American, Latino, female, and elderly borrowers who were victims of unlawful pricing practices. The settlement resulted from allegations of race, gender, and age discrimination, in violation of the Equal Credit Opportunity Act and the Fair Housing Act.

Mr. FIELDS of Louisiana. Mr. Speaker, academia is not immune to discrimination. A study of faculty hiring practices found that once a hiring goal was met, departments would stop seeking out people of color, pulling their

ads from relevant publications, despite the number of vacancies that subsequently arose. People of color, and in particular women of color, remain clustered on the lower tier of professorship as assistant professors and non-tenure track lecturers.

In 1989, for example, a study showed that 30 percent of all faculty members were women, 26 percent were white, with women of color making up about 4 percent. Without affirmative action, the precarious position of women of color in higher education is seriously threatened.

As in most States across the country in higher education, it is the perception or fear, rather than the reality of loss of which make opportunities. And I think that is something we must deal with, because that is what many people talk about today.

Even though more African-American, Latinos, Asian-Americans, Native Americans students have enrolled in higher education, whites still constitute 75 percent of the student body nationwide, earn 88 percent of the Ph.D.'s awarded to American citizens, are 87 percent of college administrators, hold 87 percent of full-time faculty positions. The Chronicle of Higher Education, for example, listed the racial composition of 3,400 schools across America and their student bodies. Thirty-two percent of the schools proved to be more than 90 percent majority.

Many have claimed that we do not need affirmative action any longer because we still have title VII in the statutes of the Civil Rights Act, and non-discrimination laws to punish violators. Title VII is good, but it is not enough. It only kicks in after an instance of discrimination is claimed.

Affirmative action means taking positive or proactive and preemptive steps to root out the pervasive discrimination as we know exists. Rather than waiting for an after-the-fact lawsuit, it is there to provide an opportunity for people before they are faced with such problems. It provides a far less costly and disruptive alternative to a protracted litigation.

Mr. Speaker, I want to thank the gentleman for this special order. I want to thank the gentleman for basically putting together the historical context of affirmative action, because all too often, the gentleman is absolutely right, people view affirmative action as two parallel lines, where you take somebody who is not qualified and elevate them to the level of somebody who is. As the gentleman has stated over and over again, that is not affirmative action, it is a circle. The first requirement is one must be qualified to do the job.

People in America must realize this. People do not get jobs because of affirmative action, they only get a chance to compete because of affirmative action. I want to thank the gentleman for this special order today.

Mr. JACKSON of Illinois. I thank the gentleman, who has represented the

people of the Fourth Congressional District of Louisiana with great distinction. I am really going to miss the gentleman from Louisiana, Mr. CLEO FIELDS, in the 105th Congress. He has opted not to return to this institution, in light of serious redistricting that is being challenged, that is not inconsistent with some of the history that we have discussed on this occasion.

□ 1715

I want to deal with some more myths concerning affirmative action. The distinguished gentleman from Louisiana spoke of just one myth, but there are others out there.

Some have suggested that affirmative action means quotas. Affirmative action has never been about quotas. It has always been about providing women and people of color with full educational and workplace opportunities. Quotas are illegal and they should be illegal.

What affirmative action programs do is provide a measurement of their own effectiveness. School admission officers and employers must only prove that they have made a good faith effort to achieve the flexible goals that they have set. If employers persist in illegal discrimination, then a court can impose a rigid quota to bring them up to the level of a nondiscriminating employer. Quotas are only imposed as a last resort and they are imposed only by the courts, not schools or employers or by the government.

Is it a myth that affirmative action is preferential treatment for the unqualified over the qualified? Now, this is one of the biggest myths of affirmative action. Affirmative action does not demean merit. In school admissions, race and gender are considered along with many other factors. Where two equally qualified applicants have applied for a job, then and only then can race or gender be considered. This is the only one, and I emphasize, very limited situation where preference arises.

Affirmative action is a conservative legal remedy. If affirmative action policies truly granted group preferences, African-Americans would have long ago received the proverbial 40 acres and a mule, native Americans would be governing vast areas of the country, and women would be at the helm of half of the country's major corporations, maybe even President of the United States and Speaker of this institution. Affirmative action is indeed a conservative form of redress when one takes into account that true reparation for past discriminations entail.

Practically, poor management on the part of an employer may have led to the hiring or promotion of an unqualified person. These abuses must be corrected and punished. We do not need to throw the baby out, however, with the bath water. These violations do not indict the overall effective mechanisms for achieving equal access for all.

What just amazes me about affirmative action, oftentimes when we look

at the NCAA and we look at professional basketball, we see Michael Jordan and Toni Kukoc on the Chicago Bulls playing together, we see equal opportunity and we see fairness. As the football season begins, we see African-Americans and we see Anglo-Americans enjoying equal opportunity and playing because of their merit and their ability to play professional or college athletics.

But what do we not see as Americans? We do not see in the NCAA the vast recruitment mechanism that goes into finding qualified basketball players. The booster clubs all across our country send in newspaper articles to coaches and they say, listen, here is a qualified person who can shoot, here is a qualified person who can dribble, here is a qualified center, someone who can rebound and grab the ball and pass the ball.

We find qualified people based on merit until we get to the area of coaching, and then we have a problem when we suddenly cannot find coaches all across our country who may be female or who may be African-Americans. Suddenly when we are no longer on the football field, in the NCAA and colleges across our country, suddenly when we are no longer playing basketball where blacks and whites play together, and we start looking at the classroom, at these major universities, suddenly the same aggressive recruitment that went into looking for qualified basketball players and football players did not go into looking for qualified people who can write, people who can think, people who can administrate and run these institutions.

Here is another myth. It is a myth that affirmative action amounts to reverse discrimination against white males. Reverse discrimination is not only unlawful, it is also very rare. Of the 91,000 cases before the Equal Employment Opportunity Commission, less than 2 percent are reverse discrimination cases. A Rutgers University study commissioned by the Department of Labor found that reverse discrimination is not a significant problem in employment, and a high proportion of claims brought by white men are without merit. Many of the claims were brought about by disappointed job applicants who are found by the courts to be less qualified for the job than the successful applicant.

White men are 33 percent of the population and 48 percent of the college-educated work force, but they hold 90 percent of the top jobs in the news media, are over 90 percent of the officers of American corporations. They are 88 percent of the directors, they are 86 percent of the partners in major law firms. They are 85 percent of tenured professors. They are 88 percent of the management level training jobs in advertising, in marketing and public relations. They are 90 percent of the House of Representatives, 90 percent of the U.S. Senate, 100 percent of all Presidents. I fail to see why some of

them could be so angry. Affirmative action has not caused jobs to go from white to black to brown.

It is also a myth that programs for the economically disadvantaged can substitute for race and gender-conscious programs. This nonsolution cynically rejects the notion that plain old-fashioned racism and sexism are alive and well.

I do not need to repeat the data above to drive in the point that such proposals would not rectify the realities of the glass ceiling. Women are sexually harassed no matter their income. Women and people of color are still denied promotion, job opportunities or access to credit and equal opportunities in education based upon their race or their gender, not their income.

Is it a myth that affirmative action has not benefited the Nation as a whole? Everyone has benefited from fair employment practices. Everyone has benefited from the Voting Rights Act of 1965 which desegregated this Congress. It has allowed 39 African-Americans who represent majority-minority districts to come to this floor of this Congress and represent the disenfranchised, the locked out, points of view different than traditional Anglo-American points of view.

It was the desegregation of these laws and the desegregation of these institutions that were the goal of the civil rights movement of the 1960's. Since the standard of living started falling in 1973, fathers and husbands have benefited from two-wage-earner households. Pre-affirmative action, Mississippi State troopers were also adjusted under affirmative action laws. It is really a myth to assume that affirmative action has only helped African-Americans. It has ushered in a broad-based body of equal employment opportunity laws.

For example, there was a time in Mississippi where in order to be a State trooper you had to be 6 feet tall. Now, as a result of equal employment opportunity laws, as a result of affirmative action, you can be a 5 foot 8 white male applying for that job. You can be 5 foot 4, 5 foot 2. You do not have to be 6 feet tall to be a State trooper in Mississippi any longer. That law did not just help African-Americans. It made it possible for short white males in Mississippi to become State troopers.

Now with the elimination of such irrelevant job classifications, even African-Americans and women can also serve as State troopers in Mississippi.

Diversity in professional schools has been good for America. With the inclusion of women in medicine, strides have been made in breast cancer research and other areas of women's health. Recruitment and training of women police officers, of judges and prosecutors have led to treatment of domestic violence for the crime that it is. The enrollment of people of color in higher education has increased from practically zero percent to 20 percent

over the last 20 years. But we still have a long way to go. Public services have benefited from the increase of African-Americans, of Latinos and Asians and native American personnel who more genuinely reflect the diversity and the needs of the communities that they serve. A diversified corporate America has become more competitive in this increasingly globalized economy. They have opened up new markets in the African-American community, in the Latino community, by advertising with not only African-Americans but also with female advertisers. Upgrading the educational and employment skills of a majority of the Nation has been good for the country. To turn back the clock on equal opportunity for the sake of political gain is not only immoral as public policy but it is also misguided. It is counterproductive, and it does not bode well for the future of our Nation.

To that end, today we began discussions in the House Committee on Small Business. In that particular committee, we are talking about the 8(a) program which was a program that has really been used to serve as an incubator for businesses, particularly businesses that affect minorities. But it is not limited to minorities. If white women can demonstrate that they qualify as a disadvantaged business, they can apply through the 8(a) program. White males can also apply through the 8(a) program. But there has been a history of Federal contracts that have historically denied African-Americans, women and those who have been historically disadvantaged the opportunity to participate. There is a movement afoot in this body to eliminate the 8(a) program. I am asking Democrats and Republicans on both sides of the aisle, particularly in this church-burning climate, to thwart that movement. We need not engage during this electoral season in race-based politics, and that is what challenging the 8(a) program really is.

One of the myths about the 8(a) program is that it is no longer necessary. Programs like 8(a) have not outlived their usefulness because discriminatory treatment of certain groups of Americans is really not a thing of the past. The burning of churches with predominantly African-American congregations is just one tragic example of this discrimination that persists. I have only been a Member of this institution for 10 months. Usually I do not wear this little pin right here which I do not particularly care that much for but it is a little identification that lets everyone around Capitol Hill know that you are a Congressman. Not long ago I was speaking to a group of African-American interns here in the U.S. Congress and I told them, when you walk down the halls of the U.S. Congress without this pin on, no one ever mistakes you for being a Member of Congress. But every time I see an elderly white gentleman with a briefcase or with gray hair in this institution, I have to assume first that they are a

Member of Congress, and then second, I assume that maybe they are a lobbyist or maybe they are the head of some corporation coming to meet with some significant Member of Congress in this institution. But never, as a young African-American in this institution, am I ever mistaken for being a Congressman except for by my colleagues who know me.

Toward that end, I got up one morning a few months ago, at 7:30 in the morning I came to work determined to serve my country and the people of the Second Congressional District that day, and stayed here until 11:00 that night. After I got off work, the same time most Members of Congress got off work, I decided to go to my office and check for my schedule tomorrow to find out what time I had to come back to the institution. Once I got ready to go, my assistant asked me if she could give me a ride home, and I said "No, that's quite all right, I will just go outside and catch a taxi." Well, I went outside to catch a taxi. The first taxi passed me by at 11:30. I waited for a couple of minutes and another taxi passed me by. I could have just gone and asked someone from the Capitol Police to give me a ride home, but I just decided to wait as a young Member of Congress to find out how many taxis were going to pass me by in the District of Columbia. That night more than 17 taxis passed Congressman JESSE JACKSON, Jr., by. They did not see a Member of Congress first, they saw a young African-American first.

So why is it that the 8(a) program is so necessary? Because there are Federal agencies out there that engage in almost any kind of business, from selling widgets to selling bolts to selling airplanes, to selling F-22's, we sell everything to the Defense Department. The Defense Department must buy everything. There are hundreds of Federal agencies that make purchasing decisions in our Nation. The only issue really before us when we consider eliminating a program like the 8(a) program is whether or not those Federal agencies are going to drive right past qualified Latinos, qualified women, qualified African-Americans, or whether or not we are going to slow the Government down long enough to help people who have been historically locked out. Discrimination is not gone. If it is gone, it is only underground. Discrimination is insidious because it affects the individuals with whom one associates, the businesses one patronizes, the perception of who gets a job and when they get a job.

I was talking to another group of businessmen not long ago. They were very proud to hear from a young African-American, a Member of Congress, and so we began talking about affirmative action. Some of them began questioning whether or not affirmative action was necessary. And so I asked them, I said, "How many of you do business with the Federal Government?" A significant number of them

raised their hand. I asked them how many of them did business with local municipal governments. A significant number of them raised their hands. I then turned around and asked them, "How many of you have an African-American that is a lawyer with your firm or with your business and general counsel?" Very few hands went up. How many of you have women that head up your accounting department or your finance department? Or how many of you put money in banks that are owned or operated by women or by African-Americans or by Latinos? How many of us spread the wealth out from the benefits that we have received from these local municipalities and the Federal Government? Very few hands went up. So what are we suggesting? We are suggesting that these businesses and that these individuals continue to drive by at 11:30 at night, no matter who serves their country, they just drive right by in search of their friend who went to school with them.

□ 1730

They drive right by in search of someone who went to Harvard or someone who went to Yale or someone who went to North Carolina A&T State University.

How do we break up the good old boy network? One way to do it is to have programs on the books like the 8(a) program that make it possible for minorities to participate. It does not mean they do not compete. Of course they compete within the 8(a) program. But a lot of these businesses that have been in this incubator for 9 years and then subsequently leave the 8(a) program, they end up facing the same kind of discrimination that the 8(a) program sheltered them from and, therefore, beyond the 8(a) program many of these businesses, quite frankly, cannot survive.

It is a myth. The 1994 Federal Acquisition Streamlining Act, FASA, addresses all concerns of those seeking to assist the socially and the economically disadvantaged. FASA will expire in 2000, and it has not been implemented because all affirmative action programs have been attacked since the 1995 Adarand versus Peña Supreme Court decision.

Fact: While FASA regulations have not even been promulgated to avoid Adarand roadblocks, 8(a) has survived strict administration reviews because of its focus on business development.

Another myth: Many businesses see 8(a) as an end in itself. SBA rarely or never graduated businesses out of the 8(a) program.

Fact: Businesses participate in the 8(a) program for a maximum of 9 years and must withstand annual reassessments of their eligibility every year. This is a 4-year developmental stage, and then there is a 5-year transitional stage for these businesses that are being groomed to do business with the Federal Government.

In 1987, Alfred Ortiz, for example, went into business for himself and

found Source Diversified Inc. in Laguna Hills, CA. His company customizes computer hardware. Now Source Diversified has \$21 million in sales and employs 15 workers.

Alfred is just one successful graduate of the 8(a) program who attributes the strong and rapid growth of his business to the program.

Myth: If you teach a man to fish, he can feed himself for a lifetime. Well, I really like this one. Here are the facts. 8(a) participants do not have any fish handed to them. These minority-owned businesses competed with each other for those procurements which have been set aside. The 8(a) program teaches businesses to fish. It teaches businesses to fish. This is not about a hand-out, this is about a helping hand. It teaches businesses to fish.

When minority-owned businesses start out looking for contracts in the private sector, their proven ability to win a Government 8(a) contract is actually their diploma, or their doctorate in fishing, and in that way they can come back and approach the Federal Government or they can approach the private sector after having developed a proven track record under the shelter of the Government's protection, because racism, discrimination, and sexism exist outside of that shelter which does not allow those businesses the opportunity to foster, to grow and to develop.

Myth: The 8(a) program does not foster the free enterprise system. Nothing could be further from the truth.

Here are the facts. The free enterprise system flourishes when there is full participation, and without the 8(a) program there would not be as much participation for minority-owned businesses.

Supporting a development of minority-owned businesses through the 8(a) program puts market forces and the free enterprise system to work for all Americans because those minority-owned businesses eventually buy supplies and services from other businesses. Moreover, last year 8(a) participating firms paid more than \$100 million in Federal taxes.

Myth: The 8(a) program does not encourage opportunity for everyone to compete. Nothing could be further from the truth. Here are the facts. The 8(a) program is precisely the ray of hope which encourages all Americans, regardless of ethnicity, gender, or economic condition. Those opponents of 8(a) who accuse it of excluding certain Americans from procurement opportunities are guilty of scapegoating.

The answer is not to turn one group of Americans against the other. Rather than dismantle 8(a), we need to improve and augment educational and training opportunities for all Americans so that no one in this country can complain about being overlooked.

The 8(a) program exists to provide opportunities for everyone to compete, opportunities many have not had and would not have without this program.

Here are three quick myths: 8(a) wastes money through reliance on sole source contracting. This is not true; 8(a) is riddled with fraud and abuse even after 3 congressional attempts to reform it. That is not true; and 8(a) has failed to help fledgling minority businesses and is primarily a rich-get-richer program for Beltway bandits. That is not altogether true.

Here are the facts. Total 8(a) contracts in 1994 represented only 3.2 percent of all Federal contracts. We are talking about only 3.2 percent of all Federal contracts.

And in this institution we have a budget of \$1.7 trillion every year and we are talking about 3.2 percent of Federal contracts. That does not include the entire \$1.7 trillion. It is even smaller than that, 3.2 percent of Federal contracts. Just 3.2 percent. The total 8(a) program received less than half of the actual contract dollars than were awarded to either of the top two defense contractors. The total program received less than half.

Reforms to further bring 8(a) into compliance with the strict Adarand standard are included in proposed regulatory changes that have been published in the Federal Register. The Department of Justice believes that these changes will, one, allow agencies to use race conscious tools to assist disadvantaged businesses, enable agencies to assess what level of minority procurement would be probable in the absence of discrimination, require agencies to implement measures that do not rely on race to broaden opportunities for small minority firms, tighten certification and eligibility requirements.

Mr. Speaker, I hope today that with our brief colloquy between the gentleman from Louisiana and myself on the issue of affirmative action, 8(a) programs, and the need to offset years of historical discrimination against African-Americans, minorities, women, and people of color in this country will not go unheeded and unheard by the membership in this august and esteemed body.

The challenges before us are great as a nation, and I am more convinced than ever if we can move beyond racial battle ground to economic common ground and on, as my father would say, to moral higher ground, we can make sense and make sense for all of America.

Many Americans still long for the day when they can say, "My country 'tis of thee, sweet land of liberty." That day has not yet arrived, and many African-Americans and disadvantaged businesses in our Nation need a helping hand. Not a handout, a helping hand. It would serve this institution well, it would serve all of us as Democrats and Republicans if we could move beyond the politics of divisiveness and expand programs that make sense for the most people.

GENERAL LEAVE

Mr. SAXTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the special order today by the gentleman from Alabama [Mr. CALLAHAN].

The SPEAKER pro tempore (Mr. QUINN). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

JOINT ECONOMIC COMMITTEE SETS OUT TO DISCOVER SOURCE OF PESSIMISM REGARDING ECONOMY

The SPEAKER pro tempore. Under the Speaker's announced policy of May 12, 1995, the gentleman from New Jersey [Mr. SAXTON] is recognized for 60 minutes.

Mr. SAXTON. Mr. Speaker, I have had the pleasure for the last 2 years of serving as the vice chairman of the Joint Economic Committee, and I found it to be quite an interesting task because I am not an economist and, in fact, I do not think any of the members of the Joint Economic Committee are true economists, although some studied history and some courses in economics, but none of us are truly economists.

Our job is, however, to try to understand as best we can, as Members of the House who are former schoolteachers or real estate salespeople or car salespeople or doctors or housewives or lawyers or whatever we may be, we need to understand the process of our Nation's economy so that when we enact laws here we will know, hopefully before we enact those laws, what effect those laws have on the performance of our country's economy.

And of course in order to do that we do talk with economists and we do read things that they have written and we try to understand ourselves and explain to our colleagues what it is that we have done or are about to do or may do in the future that will help our economy grow, help to provide jobs, help to provide a larger set of opportunities for people who are involved in the economic sector, as we all are as we make our daily livings.

And to the extent that we can be successful in doing that, and to the extent that we can be successful in imparting what we think we have learned to our colleagues on both sides of the aisle, then we are successful as Members of the Joint Economic Committee in carrying out our function.

Now, as I have gone about the business of this task over the last couple of years, I have also talked with lots of American people who are involved every day in the economic system; people that work, people looking for jobs, people looking to advance, people looking to get wage increases and people just looking to go to work every day so they can earn a wage to bring home to their families.

And I have noticed in the last several years that there has been a marked upturn in people who know that I do this job here and who have come to me and have said, well, this year I am not making as much as I made last year. What is wrong? And people who have said, well, when I go to look for a job, like my son or daughter did when they graduated from college, all they could find was a temporary job because employers did not want to pay benefits. When other people go looking for a job or go into the workplace they say, well, gee, I have not been able to advance as I thought I would.

All of these kinds of things have made people nervous about the economy and nervous about opportunities, and for the first time public opinion polls show that it is the opinion of the younger generation that they probably will not do as well as the former generations.

This is unique in our country's history, because always before the new generation aspired to do better than the older generation and thought they would and were optimistic about it. But today that is not the case.

And so the Joint Economic Committee set about trying to find out what it was that was causing this aura of pessimism about our economy. We had a lot of research, read a lot of books, listened to a lot of economists and we began to see that there was, in fact, a trend that is occurring, and that trend was not necessarily good news for Americans.

I brought some charts with me today to try to demonstrate what it is that we have found about our economy. This chart has two lines on it. I hope those who are further away can see it has a solid line and kind of a dotted line. The dotted line shows what economic growth has been in our country and how well the economy has done since World War II.

It is a rather steady increase. That increase is actually about 3.5 percent, on average, each year. In other words, the economy grows. There are more jobs by a substantial margin each year since World War II than there were the year before. As the economy grew, wages went up and people prospered and everybody was happy.

The black line shows what actually happened in the economy at any given point along that trend, and we can see that at some point the black line, in terms of what was really happening, was above the dotted line and that other points, when there was a recession, it fell back to or below the dotted line. But by and large, until this point, the lines tracked along pretty well together.

Where the dark line begins to fall below the dotted line, that happens to be in 1993. And the Congressional Budget Office here, which does all kinds of economic projections and forecasts and estimates about money and what is going to happen and economic growth, has forecasted here that the outlook

for the future is different than it has been since World War II.

□ 1745

The outlook in terms of economic growth actually falls off in the next decade or so, according to the Congressional Budget Office.

They say we will not grow at the traditional 3.5 percent any longer. It will be closer to 2.2 percent. That gap widens as we go out into the years beyond the year 2000, and once we get to about 2005 or 2007, our economy actually will be performing at 15 percent less on total performance than it is today.

And so, this is evidence that we see for the first time of what is making American workers nervous, have not been able to do so good on the job. I see direct evidence of it, says the worker. My wages have not gone up this year. In fact, they have gone down. I have not been able to find that new job that lets me advance. My kids graduated from college and can only find a temporary job. Companies are downsizing and rightsizing and merging and trying to find ways to do things because CBO's and managers of businesses, big businesses as well as small businesses have discovered that the CBO and other economic projectors, people who do projections, are saying that we probably, given these situations that we find ourselves in today's economy, we are probably not going to grow at the traditional 3.5 percent. We are probably going to grow at more like 2.2 percent. So this has caused concern throughout our economy.

Mr. Speaker, if we look at where this began to happen, it began to happen about 1993. Well, what does this mean to the American people? If we look at different segments of the economy we can see here, for example, what effect does this have on small businesses? I should say at this point that what happened in 1993, we think, is that we had a big tax increase. We had a tax increase that took more out of the pockets of the folks who have money to spend in the private sector who go to the grocery store, who buy appliances, who buy clothes for their kids when they go to school. Took money out of their pocket—and it was the Clinton tax increase—and said, send that money to Washington because we need to have more money to spend in Washington. We need to balance the Federal budget, as it was said. I think it was called the Deficit Reduction Act, which actually was the biggest tax increase in our country's history.

When we found out what happened, and all of you have heard about small business. You know, it has been said in our country year after year after year after year for decade after decade that small business is the economic engine that pulls the train. When we begin to look at what the Clinton tax increase did in the beginning of 1993, we find out that it had a tremendous effect on small business. This is one of the factors that we have identified as being

bad for the economy, bad for new jobs, bad for economic growth, bad for wages, bad for opportunities.

Young people have started to say for the first time in our history we cannot aspire to do better than the last generation because things have gone awry. This is what happened to small business. The tax increase, the income tax increase that occurred is paid, 70.3 percent of it is paid by small business. And so no wonder those small businesses that provide the incentive, the engine that drives our economy, all of a sudden 70 percent of this new tax increase that this House passed—I am proud to say I did not vote for it—70 percent of those revenues are paid by small business.

So it has had a tremendous effect on the free enterprise system in our country. The young people who would like to get jobs at the corner grocery store, those jobs are not there; and if they are, they are temporary. All the folks that take part in that part of the economy are having a more difficult time, but it also had some other effects. It had some effects on all Americans or on most Americans. We can look at this next chart, and it shows what happened during this period of time to wages in our country.

Wages in our country have not done particularly well since that large tax increase because small business was directly affected by it. The median income has also suffered.

In 1992, the median weekly income in our country was \$493. In 1993, the year the Federal Government increased taxes with the Clinton tax increase, in 1993 for the last time we saw growth in median family income, weekly income, I should say. It grew from \$493 in 1992 to \$498 in 1993. Then the rest of this chart is self-explanatory. Median weekly income for American workers has gone down consistently ever since.

It is more evidence that things are not going well for workers and another reason why today's young generation is not as optimistic about the future as they once were.

In fact, I stood right here at this podium in 1993 when that tax increase was being debated and said that this tax increase would be bad for our economy, and others of my colleagues did the same. But the tax increase went through anyway. So what do we do about this? Of course, this is one of the functions of Members of Congress who are interested in making our economy grow. Not only do we need to identify the problems, but we need to make some suggestion about how we can remedy the problems.

Mr. SMITH of Michigan. Would the gentleman yield?

Mr. SAXTON. I am pleased to yield.

Mr. SMITH of Michigan. I think one example is the taxes that we put on businesses that buy new equipment and machinery to put better tools in the hands of the American work force. So, we call it neutral cost recovery. But the fact is that Government, this Fed-

eral Government in an effort to get more taxes out of people says to a business, if you buy machinery and equipment, we are going to penalize you on the way we tax you because we make that business spread out that depreciation over 5, 15, 20 years, and that depreciation and inflation eat up the value of that deduction.

So if we were to allow a business to deduct the full amount of their purchase of machinery and equipment and state-of-the-art tools to make our workers more productive, that is going to increase that average weekly income of those workers. If we were to allow a business to deduct the full amount, it would reduce the cost of that equipment by 16 percent. I just use that as one example to show how tax penalties can discourage business efficiency and business productivity.

Mr. SAXTON. Mr. Speaker, I thank the gentleman for pointing that out. It is certainly one of the elements of things that we ought to get done around here to get business going again.

Obviously there are other people in this town who have similar ideas. For example, we all know that there is a Presidential campaign underway. One of the candidates, who happens to be Bob Dole, has suggested something similar to what Mr. SMITH has suggested. He has suggested that, as we saw in 1993 when this tax increase was imposed by the Clinton administration and primarily by the Democrats in the House, that we reverse that, that we begin to put in place something that we like to call growth policy.

So, Bob Dole has suggested that we ought to cut income taxes, that we ought to cut the capital gains tax, that we ought to have a family child tax credit and that other tax changes such as the one that Mr. SMITH just suggested might be part of the package as well, although in the case of the specific one, that is not part of his particular package.

But Dole has suggested that significant tax decreases would help to remedy the problem that we have identified in terms of the speed or the rate of growth of our economy. Bob Dole has suggested, for example, that under his program, a family making \$35,000 a year in gross income would save \$1,374 a year in tax savings under his plan, and a family making \$45,000 a year would actually save \$1,603 a year. This pumps money back in the economy and relieves the tax burden on families and small business and helps to get the economic engine fired up and going again.

Mr. Speaker, I am going to say something that some of the Members on this side of the aisle may have forgotten. I can remember in 1984, which happens to be the first time I aspired to run for Congress and come here and be a Member of this body, I can remember it was the time when Ronald Reagan was running for his second term. I was so proud to be on the ticket with Ronald Reagan because he talked about a

growth policy. I went through that campaign, and I talked about the Reagan tax cuts that went into place in 1981 and 1982 and 1983 and how the economy began to grow. And then I came here and I began to study Reagan's policies. I found out that there was somebody before Ronald Reagan who had the same kinds of ideas and he was not from our party; he was from the other party. His name was John Kennedy. Surprising.

In 1963 John Kennedy said in his State of the Union Address from that podium: We cannot for long expect to lead the cause of peace and freedom around the world if we fail to set the economic pace at home.

He recognized that the economy was slowing down. He recognized that there were problems. He recognized that wages were not increasing the way they should be. And John Kennedy, the member of the other party, the Democrat President, went on in that speech to outline a series of tax cuts much like Bob Dole's, not exactly, but much like them. Unfortunately, his death occurred. But after his death, LBJ and the Democrat controlled Congress put in place those tax cuts, and guess what? The economy grew. The economy grew.

We took off again. We had good growth in jobs and good growth in wages, and it was a wonderful experience to have watched that.

So when I ran in 1984, I was so proud of Ronald Reagan. One of the first conclusions that I made here when I got my feet on the ground and began to understand a little bit about this growth policy, and I kind of laugh to myself now, I think Ronald Reagan read John Kennedy's speech. So this does not have to be a partisan issue. This does not have to be a part of a Presidential campaign. It just happens to be the truth. It happens to be what works.

And so what Bob Dole has suggested here really can work. And the experience that we had in the 1980's proves that it works. Did we do everything right in the 1980's? No. We did not do everything right in the 1980's, but we did some things right in the 1980's, and tax policy is part of what we did right.

Mr. Speaker, let us talk about what we did right for a minute. This next chart shows what happened in 1981, 1982, and 1983. This is where Ronald Reagan got elected. Our economy was flat, much the same condition only maybe a little bit worse than it is now. We are experiencing about 2.2 percent growth. I have forgotten exactly what the growth was, but we had a recession, which means we had negative growth, and Ronald Reagan said: I know how to fix this. We are going to reduce taxes and put in place growth policy like Bob Dole is talking about in today's campaign. And in 1982 when the second installment of that tax cut went into place, the economy started to grow. It grew astonishingly throughout the decade of the 1980's.

So, not only did John Kennedy understand what it is that Bob Dole has

suggested and why it works, we see in the 1980's that Ronald Reagan did much the same thing in terms of tax policy.

Let me just show what happened to wages during that period of time. We talked about what is happening with wages today. They are going down. During the Carter years, remember the years of malaise and inflation and high interest rates and the lousy economy, wages were going down during those Carter years, too. But as soon as Reagan's policies went into effect, wages started to go up again. It was better for families. People were optimistic again. We believed in our selves, and it was in large part of the economic policies that both Kennedy and Reagan have at different time in our history subscribed to and have helped to bring about changes in our country.

I mentioned a minute ago though that we did not do everything right in the 1980's, and we did not. We all know that, because we continued, collectively, and I think there is enough blame to go around for this, we continued the spending spree during the 1980's. In spite of the fact that the economy grew and in spite of the fact that we had economic growth, we did not balance the budget. But it is not because of the tax cuts that we did not balance the budget.

A lot of people will be very surprised to see this. This is a chart with a red line on the top and a blue line on the bottom.

□ 1800

The blue line shows what happened with our Federal revenue. When the economy grew, more people went back to work. They made higher wages, so they paid more in taxes, and that meant Washington had more money available to spend. And as the economy grew through the 1980's, this blue line shows that revenues went up. In fact, in 1980 we had at our disposal \$517 million to spend in 1980. By 1990 we had \$1.03 trillion. In other words, we had increased by \$514 billion the money that we had to spend.

Let me say that again. We had tax cuts, that is right, tax rate decreases. And when the economy began to grow because of it, our revenues that we had available to us doubled between 1980 and 1990. Pretty astonishing. What did we do wrong? We kept right on spending.

Mr. WAMP. Mr. Speaker, will the gentleman yield?

Mr. SAXTON. I yield to the gentleman from Tennessee.

Mr. WAMP. Mr. Speaker, I had to get up and pipe in here if I could, and I appreciate the gentleman yielding, because many people have asked me about these years in the 1980's. I am a freshman Member of this body. I have participated in the first Congress in 26 years that actually voted to cut spending. Not a single Congress for 26 straight years actually voted to cut spending. People ask me, how did this happen in the 1980's, if Reagan's tax

policies actually worked? And you are, right here, right now, showing us exactly how that happened.

Frankly, I believe that if this Congress, the one we have now that has cut spending for the first time in 26 years, would have been the Congress under Ronald Reagan, the growth here, coupled with the spending cuts, would have achieved a balanced budget, because the two coming together is what you do. You cannot have spending rising above income. Income was going up. Spending was going up even higher. A lot of Members were getting re-elected by giving away the ranch, so to speak, and continuing to do that. And we have just now accepted our fate as a nation and come to these tough votes to reduce spending for the first time.

The country does have a choice this fall. We cannot have President Reagan and this Congress, but we can have the next best thing. That is somebody who believes in Reagan's growth policies, tax policies, and this Congress. And what you will see, I believe firmly in my soul, is growth and spending reductions and the most responsible coming together of those two forces in our budget process, and achieve a balanced budget and help all families create more wealth and keep more of their take-home pay, as we make progress towards a balanced budget.

Mr. SAXTON. Well, the gentleman is exactly right. As your class, 70 freshman who came here, 71 freshmen who came here on the Republican side have clearly demonstrated that we can reduce the rate of growth in spending and that we can move these two lines closer together.

President Clinton, incidentally, Mr. WAMP, President Clinton has talked a lot during his campaign appearances about reducing the deficit. And it is kind of funny to say, but it seems to me that it was the Congress that actually put in place the provisions and the budget process in the appropriations bills last year. And now, of course, we are following suit again this year, with the 71 freshman, with people like JOHN KASICH who have led us in the budget debate, like our majority leader, DICK ARMEY, who believes so much in what we are talking about here on the floor tonight. It is kind of interesting that President Clinton has found it possible, seemingly possible, to take credit for that.

Mr. SMITH of Michigan. Mr. Speaker, will the gentleman yield?

Mr. SAXTON. I yield to the gentleman from Michigan.

Mr. SMITH of Michigan. Just to expand a little bit on why balancing the budget is important with this whole tax reduction to motivate economic and job expansion, if we can balance the budget at the same time, that means that the demand for borrowing money from the Federal Government will reduce the pressure on interest rates. Right last year the Federal Government borrowed 41 percent of all of the money lent out in the United

States. Just think back to your Economics 101. If you lower that demand with Government borrowing 41 percent of the money, if you can balance the budget and have Government borrow less money, it is going to mean interest rates go down.

In our Committee on the Budget, Alan Greenspan, chairman of the Federal Reserve, came to our Committee on the Budget and said, look, if Congress balances the budget, we could see interest rates go down up to between 1½ and 2 percent. That means that if interest rates go down, every business in this country finds that whatever they are going to buy in terms of tools, in terms of expansion, they see a significant reduction in their costs. So interest rates going down means a tremendous stimulant to the economy.

A combination, like ZACH WAMP says, a combination of stimulating economic and job expansion, at the same time that we start pinching those pennies here at the national level and making sure we balance that budget, is going to see the greatest economic and job expansion this country has ever seen.

Mr. SAXTON. The interesting thing about what you say is that by reducing the tax burden on American families, by making it possible, again, to achieve this 3.5-percent growth that we have seen since World War II on average, and by balancing the budget by continuing the policies that we started during the last year in terms of reducing expenditures, by putting together a program like that it makes it better for all families in America. It makes it better for people who are workers. It makes it better for people who are entrepreneurs. It makes it better for people who are in all kinds of businesses across our country. It makes it better for the labor unions and the working folks because they can expect once again to see wages on the increase and our standard of living go up.

It is not extreme importance that we as Members of Congress and the American people generally come to grips with what it is that we have been attempting to do here the last 2 years and what it is that Bob Dole has suggested that we do, which is very similar to what John Kennedy and Ronald Reagan each in their time suggested.

I yield to the gentleman from Tennessee.

Mr. WAMP. I thank the gentleman for yielding. You have given a great historical perspective of how we got into this dilemma and what forces are necessary to pull us out of this dilemma with our debt and this issue of taxes. I think it is very important. We need tax reform. We need tax relief and tax reform, I think, at the same time.

I grew up as a member of the Democratic Party. Ronald Reagan and his tenure is what brought me to the Republican Party on some simple principles of exactly how large the Federal Government was going to be in our lives, exactly how intrusive. I remember he said at one time, I do not think

it was an original quote, but he said a government big enough to give you everything you want is a government big enough to take from you everything you have. And I just wonder how far we are going to go down this road toward big government and more and more of our resources and our rights taken from the big central government.

Our Founding Fathers, I am sure, are rolling over in their graves, but it is this principle. I am not a partisan person, really becoming less and less partisan the longer I am involved in public policy. I think, though, that there are some stark differences between the Democratic agenda in 1996 and the Republican agenda.

One of them is a very simply issue of whether or not we are going to stand on the side of the American taxpayers, that they are already overtaxed.

Let me give you a historical perspective. We all know that the average family now, the mother and the father are both having to work. That is happening because one of them is working for the government and the other one is working for the family. And we know that is not right.

And just in my lifetime, this has happened. This has not been going on for a long time. In 1957, when I was born, my father paid less than 10 percent of every dollar that he made to the government combined. State, Federal, and local governments combined was 10 cents of the dollar, about what you are supposed to tithe in church. The Federal tax rate was between 3 and 4 percent. The whole thing was less than 10 percent.

Today, one generation later, that figure is roughly half of every dollar an American makes goes to the government. My son is 9 years old. Then he is my age, just going through one more generation. That figure is going to be about 84, 85 percent of every dollar he makes. Let me tell you, we cannot sustain our freedom going in this direction.

I have been to fundraisers. I have heard wealthier people say, we do not need tax relief. It is okay, just hold the line. Well, those wealthy people may not need tax relief. It is the people in the middle and at the bottom who need tax relief the most, and they are the ones that are having a hard time keeping their heads above water.

I constantly think of single moms who are working to get their kids ready for school during the morning and they are going to work, and they have no hope of ever getting ahead. They are barely keeping their heads above water, day in, day out.

I think of parents, both working, and they just have a little hope anymore in our society, knowing that as the government grows they are going to have to take an extra job. Many two-parent families are working multiple jobs because the government is taking a larger and larger chunk of our resources.

So this issue, fundamental issue, as we make measurable progress toward a

balanced budget and our President continues to say, and this is one thing we agree on, we have got the lowest budget deficit in 15 years because this Congress cut spending for the first time in 26 years, and because the economy, albeit 2-percent growth versus 3-percent growth, has grown somewhat, we have this low budget deficit.

Is it reasonable and logical to give the American people some of their money back as we make real and measurable progress toward a balanced budget, give them some tax relief and tax reform, simplify the system and at the same time give them some of their money back? Yes, it is reasonable and logical. Why? Because we are at 50 percent, and we are climbing, of every dollar we make.

Our Founding Fathers warned us that the big central government could get bigger than the people that are supposed to control it. We have already passed that day in America. We need to go back slightly, ever so slightly, and give them some tax relief.

I am not going to endorse any plan. I am not going to endorse President Clinton's plan. I will not unilaterally endorse Mr. Dole's plan. I am going to endorse the notion of giving the American people some of their hard-earned money back and try to give it to everybody.

The Kemp Commission made some excellent recommendations about how to create growth and opportunity by using our Tax Code. We ought to go to that Kemp Commission recommendation.

We talked about what hourly workers make in this country just a few months ago in this body. But we talked about what 2 percent of the workers make, and that is minimum wage. We did not talk about what the other 98 percent of workers make. The other 98 percent of workers should have a pay increase now. We should do that by making that Social Security tax, that FICA tax deducted from their paycheck, fully deductible, so we are not taxing the tax, and putting money back in the pocket of every working American. That is a recommendation of the Kemp Commission, which worked for months to establish pro-growth policies, and there is tax relief that can return more money to the Federal Government.

A capital gains tax is a tax on inflation. It is an unfair tax to begin with. And if you reduce the rate, it is a pro-growth policy. When we reduced the capital gains tax rate in this country previously, the history shows the revenues for capital gains increased each and every year to the Federal Government. We return more revenues.

There are people out here pent up with assets, many of them poor to middle income, not rich, not wealthy, regular folk that are waiting to sell some stock that they may have inherited because the appreciation, the inflation that has set in made that asset worth so much. Why should we as a Nation

tax inflation? Inflation on other things with Federal Government, we actually index them and compensate people for inflation. But with an investment we actually tax the investment. No wonder we do not have enough savings and investment in this country like they do in other industrialized countries.

Japan and Germany, they know not to overtax investment and savings. We need a pro-growth policy. We need some tax relief to be done in a reasonable way. This Congress, early next year, is going to address this issue, I am quite confident.

There is a big difference between the two parties on this issue of how much of your money you get to keep every time you get paid. We want you to keep more of your money and we are willing to make those tough votes to shrink the Government so you can keep more of our money. It is a defining issue, Mr. Speaker. I hope that the people in this country will wake up to these issues and realize there is a big difference and our future is at stake, because I want my son to keep more than 15 cents of every dollar he makes when he gets my age.

I thank the gentleman for yielding to me.

Mr. SAXTON. Mr. Speaker, I would just like to emphasize one of the things that you have correctly and articulately pointed out. I guess I would do it this way.

During the last 3 or 4 years we have gotten ourselves into a situation where wages have shrunk and taxes have increased. And so when you have shrinking wages and increased taxes, you get people in a pinch. You get people in a crunch. And, of course, that has happened during the Clinton administration, and there have been some around here who have called that Bill Clinton's crunch. In other words, we have got these lowering wages, increasing taxes, which means for every family in America less disposable income.

□ 1815

Tougher to get a loan, tougher to get the kids clothes in September when they go back to school, tougher to go to the Acme Market or the Super Saver Market or whatever market you go to every week, and this issue of less disposable income is one of the primary reasons why the generation that you just spoke about, your kids, are looking at their adult life and saying: "Wow, did my parents have more opportunity than I did for the first time in the history of our country?"

Mr. SMITH of Michigan. If the gentleman will yield, you know it is so disconcerting that government is so hell bent on having more control over people's lives is disrupting and making those lives worse by having a bigger government and by having more and more taxes, because it hurts those jobs.

You know, I am an economist by education, but I always through the school of economics might be better in social studies because it is human reaction,

economics is human reaction. If we want more and better jobs in this country, we have to decide what products the people in this country and other countries want to buy, and we have got to make a quality product at a competitive price. When we tax investment and saving more than any of these other countries because in government's eagerness to be bigger and do more things for more people, we have increased the tax.

You know, we heard a lot of discussion: How are we going to pay for the Dole Tax cut? It is \$540 billion.

It is interesting to note that this liberal Congress in the last 5 years, not in the last 1½ years of Republican control, but in the last 5 years has increased taxes \$540 billion, and so that tax increase is now being offset with a suggestion: "Let's reduce taxes by \$540 billion."

The liberal press says, "Well, how are you going to pay for it?"

I like the Speaker's reaching in the pocket and bring out six pennies, because we have got a pinch pennies if we are going to pay for the tax cut.

But the fact is that if we can cut down the waste and the fraud and the abuse of Federal Government by just 6 cents out of a dollar, we are going to pay for that tax cut.

I mean, Mr. Speaker, if I could ask the American people right now how much fraud and abuse and waste do you think is in government, you know we could have a bidding process. We could say, I bet most of the people of America think we could cut out 10 percent, or even 15 percent.

But what we are talking about is pinching pennies in the Federal Government, just like every family has to do, and cutting down this budget by 6 percent and reducing those taxes by 15 percent, leaving more money in every citizen's pocket.

That is what we are interested in, take-home pay. We have got to have more and better jobs, but at the same time, if we can reduce those taxes by 15 percent, what we are talking about is for a family, for a man, a husband and wife and two kids, making \$30,000, they will have \$1,264 more in their pocket if we have this tax cut, and that is just what government and a liberal Congress has taken out of their pockets in the last 5 years.

So let us offset it, let us move ahead. It is ridiculous having bigger and bigger government that not only taxes more but takes over more of your freedom and more of your liberty.

Mr. SAXTON. I thank the gentleman for pointing that out, and certainly savings and finding ways to pinch pennies, as you have correctly pointed out, is crucial to our getting the job done that we need to get done. Because we can get more revenue through economic growth policies, but if we do wrong again, that which we did wrong in the 1980's, it will all be for naught because this has got to be a two-pronged program. We can do right,

what we did in the 1980's, but we also have got to pinch pennies.

I saw the Speaker of the House, Mr. GINGRICH, give a speech on television the other day, and he was talking about this very subject. He did not have six pennies, but he had an ice bucket, and I thought what in the world is the Speaker going to do with this ice bucket? And he held it in his hand, and he pointed that when we took control of this House 2 years ago, or a year and a half ago, the Republican Party decided to do things differently around here, and prior to the time we took over every office, every Member of Congress had two buckets of ice delivered to his or her office every day.

I just kind of took it for granted in the 10 years or so that I had been here that ice showed up. I do not know whether anybody used it or not. I did not. But when we took over, we decided it was something we did not need to do, and let me tell you we saved.

According to the Speaker, from what I heard him say the other day, we saved \$400,000 by pinching ice buckets, I guess, and not doing the foolish things that happened back in the days before we had refrigeration, back in the days when we maybe needed to put lunch on ice, literally. Today, every office has a refrigerator in it, and the Congress was continuing to spend \$400,000 every year on ice.

Mr. SMITH of Michigan. If the gentleman would yield again, it is interesting because it is very personal. When I came to Congress in 1993, first thing, I told my staff, "Look, stop the delivery of ice," and they—after 5 days I said, "The ice is still coming," and they said, "Well, we can't stop it." They said it is in the labor contract, and they are required to deliver two buckets of ice to every congressional office.

So I wrote a letter to the Speaker, the Democratic Speaker at that time, and suggested that this was pretty ridiculous, that we had a small refrigerator, we had all the ice we needed. If we wanted cold pop, we had cold pop.

But, you know, there are so many examples like that.

The post office, the post office is another half a million dollars. Instead of the Government running its own post office and feeding out the stamps and allowing the kind of corruption that existed in the past, when this Congress, when this new Republican Congress, came in, we said the U.S. Postal Service is responsible for running the post office. That saved another half a billion dollars.

This, JIM, is so amazing. I wish everybody could know some of the things that have happened.

You know, when we took office in our term in Congress, we cut out 270 different agencies and programs. On the first day of the session when we came into session in 1995, on January 5 or something, what we did is did away

with 23 subcommittees, four full committees; we cut legislative staff by almost 32 percent in an effort to do exactly what we are talking about, pinch pennies, and that is what we are going to continue to do.

And, you know, I for one, and I suspect you for another, and many of us in the Republican Caucus, among the Republican Members of Congress, are not going to vote for a tax increase unless it is paid for with spending cuts, because we are very determined that we are going to have a balanced budget.

Mr. SAXTON. I would just like to reclaim my time here for just a minute. I will be happy to continue the discourse, the dialog, with the gentleman.

One of the things that we have done on the Joint Economic Committee, and I am sure that, as the gentleman knows, we have done a number of studies to try to identify where we ought to be and how we ought to get there, and one of the things that surprised me—I had no idea this had happened, probably should have known.

When I was elected to Congress, the Federal Government was consuming something like 19 percent of the gross domestic product, and since I have been here, and I am not proud of this, since I have been here, usually voting against these policies, but since I have been here, in the 12 years we have grown so that our government today consumes 23 percent of the gross domestic product. In other words, over this short period of time, relatively short period of time, we have gone from consuming 18 percent of GDP to 23 percent of GDP. That is dangerous.

We talk about big government a lot around here and about how to make it smaller, and if there is anything that I think points to the necessity of remaining serious about the things that we have started here in the last 2 years, it is that statistic, because as government grows bigger and more expensive, obviously it take more money away and more freedoms away from the people that elect us to come here to safeguard those very freedoms and to run our government as economically as we can.

So when I saw that study which showed that kind of growth in government, it frightened me to death, and I hope that when people hear about it, it will sober some of our friends on the other side of the aisle as well.

Mr. SMITH of Michigan. I think it is important that we point out that under the Republican budget resolution that we passed, by the end of this 6-year effort to balance the budget we will be back down to 8 percent of GDP. So the effort is there.

It takes a lot of conviction. It is not easy for politicians to make those cuts. We have seen so much demagoguing as Republicans have tried to pinch pennies that the demagoguery to criticize Republicans for cutting any of this spending has resulted in an attitude among many Americans that, well, gosh, maybe those Republicans are too

cruel and maybe they are putting burdens and pinching pennies for tax breaks for the rich.

JIM, I see you have got a chart down there, and I think this tax break for the rich idea is so ridiculous as we try to give middle-class tax breaks, and that is exactly what the Dole plan does, that is exactly what the Republican plan does. But I believe this is a recollection of what happened in the 1980's under Ronald Reagan.

Mr. SAXTON. This shows clearly what happened in terms of various income groups under the Reagan tax policies beginning in 1981 and going through the year 1988. The claim by some on the other side of the aisle always is that, well, Reagan was great for the rich people because their taxes were cut and they all profited, you know, the rich people, and Reagan took care of them.

Nothing could be further from the truth, and these statistics prove that.

There are three colored lines here which represent taxes paid by various income groups. Here in 1981 this green line shows that people who were in the top 1 percent of the wage-income earners in this country paid 17.6 percent of the total tax burden. People who were between the 51st and the 95th percentile paid 57 percent, and the bottom 50 percent of the taxpayers in the United States in 1981 paid 7.5 percent.

Now, if we jump all the way to the other end of this chart—of course each year goes across, 1982 and 1983, all the way over to 1988, we find that in 1988 the people who were in the top 1 percent of the income class in our country no longer paid 17.6 percent of the total taxes, but paid over 27 percent of the total taxes, an increase of nearly 10 percentage points. Conversely, people who were in the bottom 50 percent, who paid 7.5 percent of the taxes in 1981, by 1988 paid only 5.7 percent, and so they dropped almost 2 percentage points over the 8 years of the Reagan administration.

So this is a clear indication that once again these growth policies that we talk about, the Dole suggestion that we ought to once again reduce tax rates, the Dole suggestion that the capital gains tax is too high, the Dole suggestion that people ought to get a \$500 tax credit for each child in the family to reduce the burden of taxes on families, is not only a nice thing to do for families, it not only makes them feel better and not only gives them a little bit more money to spend each year, it is a significant amount of money to spend each year; but more importantly, or at least equally importantly, it makes the economy do better, it makes the economy grow as we have historically done since World War II. It gets us out of the 2.2 percent rate of growth back on track toward 3.5 percent, which is so important to job creation, which is so important to increasing wages, which is so important to opportunities for young people to progress and move up.

So that is what the Dole program is about. If we can continue, as we have, under this leadership in the Senate to reduce spending, to continue, as we have, in this House to reduce spending and still get this growth policy in place, we will certainly do so much better for families than we have during the past 3 years since the huge Clinton tax increase went into place.

Mr. SMITH of Michigan. I would just say, JIM, it is true that American workers are currently the most productive in the world, but we cannot continue that kind of efficiency and productivity because the other countries are increasing their rate of productivity faster than the United States.

□ 1830

Part of these reasons is because we make it so expensive under our Tax Code for people to save and invest. We penalize.

I am just reading some of the statistics here, where the average tax in the United States is 28 percent, compared to France at 18 percent, and this is for savings and investment; 28 percent in the United States, 18 percent in France. Canada has 23 percent, and Japan has 20 percent. So here the United States is making it more difficult to save and invest, and like we mentioned before, the capital gains tax relief means if the American family buys a home, for example, and it goes up with inflation but does not go up any faster than inflation, when they sell that house we penalize that family for the increased value of their house because of inflation.

So if we have some capital gains tax relief, then we say, look, if that house would only buy the equivalent of, say, five cars when you bought it, it doubles in price over 15 years, but it still only buys five cars, if we are going to tax on increased wealth, then we should not be taxing that inflation. That is what we are trying to do when we talk about capital gains tax relief.

Mr. SAXTON. Exactly. That is what the Dole suggestion is all about, about reducing the rate of taxation in order to promote this type of economic growth that we have seen before.

I would like to thank the gentleman for taking part in this special order, and just conclude by saying that it has been proven since the 1960's, when John Kennedy was President, he gave that famous speech right here at the podium where he said taxes are too high and the economy is suffering because of it, and Lyndon Johnson, his successor, actually put those programs into place and the economy grew. Then Ronald Reagan got elected in 1980 and said almost the same thing, almost the same words, almost the same policies, very similar, similar enough to promote the kind of growth that we got during the 1980's.

If we today, in 1996, can look at the examples set by Kennedy and Reagan, and if we can look at what they did right, and if we can duplicate, as nearly as we can in today's situation, the

policies that they did which were so right for our country and so right for economic growth, and at the same time recognize what this House and the other House and the President did wrong in the 1980s; which was a failure to control spending, if we can do those two things and do them right, we will leave a legacy for our children that we can be very proud of.

I would like to thank both the gentleman from Michigan [Mr. SMITH] and the gentleman from Tennessee [Mr. WAMP] for taking part in this special order.

COMMUNICATION FROM THE HONORABLE JOHN D. DINGELL, MEMBER OF CONGRESS

The SPEAKER pro tempore (Mr. QUINN) laid before the House the following communication from the Honorable JOHN D. DINGELL, Member of Congress:

HOUSE OF REPRESENTATIVES,
Washington, DC, September 18, 1996.
Hon. NEWT GINGRICH,
Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: This is to formally notify you, pursuant to Rule L (50) of the Rules of the House of Representatives, that a subpoena (for documents and testimony) issued by the U.S. District Court for the District of Columbia in the matter of *United States v. Jeffrey M. Levine*, Cr. No. 94-034, has been served on me.

After consultation with the Office of General Counsel, I have determined that the subpoena appears not to be consistent with the rights and privileges of the House and, therefore, should be resisted.

Sincerely,

JOHN D. DINGELL,
Member of Congress.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Miss COLLINS of Michigan (at the request of Mr. GEPHARDT), for today, on account of illness.

Mrs. COLLINS of Illinois (at the request of Mr. GEPHARDT), for today, on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mrs. SCHROEDER) to revise and extend their remarks and include extraneous material:)

Mr. DEFAZIO, for 5 minutes today.

Mr. GENE GREEN of Texas, for 5 minutes, today.

Mr. HOYER, for 5 minutes, today.

(The following Members (at the request of Mr. WELDON of Pennsylvania) to revise and extend their remarks and include extraneous material:)

Mr. MCINTOSH, for 5 minutes, today.

Mr. SCARBOROUGH, for 5 minutes, today.

Mr. HANSEN, for 5 minutes, today.

Mr. WELDON of Pennsylvania, for 5 minutes, today.

(The following Members (at their own request) to revise and extend their remarks and include extraneous material:)

Mr. HUNTER, for 5 minutes, today.

Mrs. SCHROEDER, for 5 minutes, today.

(The following Member (at his own request) to revise and extend his remarks and include extraneous material:)

Mr. DORNAN, for 5 minutes, today.

(The following Members (at their own request) to revise and extend their remarks and include extraneous material:)

Mr. HEFNER, for 5 minutes, today.

Mrs. SCHROEDER, for 5 minutes, today.

Mr. HUNTER, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mrs. SCHROEDER) and to include extraneous matter:)

Mr. SERRANO.

Ms. DELAURO.

Mr. KANJORSKI.

Mr. HAMILTON.

Mr. KLECZKA.

Mr. VISCLOSKY.

Mr. FILNER.

Mr. ACKERMAN.

Mr. DELLUMS.

Mr. STARK.

(The following Members (at the request of Mr. WELDON of Pennsylvania) and to include extraneous material:)

Mr. FIELDS of Texas.

Mr. LARGENT in two instances.

Mr. BURR of North Carolina.

(The following Members (at the request of Mr. SAXTON) and to include extraneous material:)

Mr. VENTO.

Mr. WELLER.

Mr. WELDON of Pennsylvania.

Mr. ROTH.

Mr. WHITFIELD.

Mr. PASTOR.

Mr. LAHOOD.

Mr. GILMAN in two instances.

Mr. STARK.

Mr. DELLUMS.

Mr. VISCLOSKY.

Mr. BAKER of California.

Mrs. MEYERS of Kansas.

Mr. SOLOMON in two instances.

SENATE CONCURRENT RESOLUTION REFERRED

A concurrent resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. Con. Res. 67. Concurrent resolution to authorize printing of the report of the Commission on Protecting and Reducing Government Secrecy; to the Committee on House Oversight.

ADJOURNMENT

Mr. SAXTON. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 6 o'clock and 34 minutes p.m.), the House adjourned until tomorrow, Thursday, September 19, 1996, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

5185. A letter from the Administrator, Agricultural Marketing Service, transmitting the Service's final rule—Limes and Avacados Grown in Florida; Relaxation of Container Marking Requirements [Docket No. FV96-911-4FIR] received September 18, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

5186. A letter from the Administrator, Rural Utilities Service, transmitting the Service's final rule—Use of Consultants Funded by Borrowers (RIN: 0572-AB17) received September 18, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

5187. A letter from the Director, the Office of Management and Budget, transmitting the cumulative report on rescissions and deferrals of budget authority as of September 1, 1996, pursuant to 2 U.S.C. 685(e) (H. Doc. No. 104-265); to the Committee on Appropriations and ordered to be printed.

5188. A letter from the Under Secretary of Defense, transmitting the Secretary's certification that the survivability and lethality testing of the UH-1N variant of the USMC H-1 upgrade program otherwise required by section 2366 would be unreasonably expensive and impractical, pursuant to 10 U.S.C. 2366(c)(2); to the Committee on National Security.

5189. A letter from the Chairman, Federal Deposit Insurance Corporation, transmitting the annual report to Congress by the Division of Compliance and Consumer Affairs of the FDIC, pursuant to 15 U.S.C. 57a(f)(6); to the Committee on Banking and Financial Services.

5190. A letter from the Director, Office of Management and Budget, transmitting OMB's estimate of the amount of discretionary new budget authority and outlays for the current year (if any) and the budget year provided by H.R. 3845, pursuant to Public Law 101-508, section 13101(a) (104 Stat. 1388-578); to the Committee on the Budget.

5191. A letter from the Assistant Secretary for Occupational Safety and Health, Department of Labor, transmitting the Department's final rule—Occupational Exposure to Asbestos, Tremolite, Anthophyllite and Actinolite Final Rule: Corrections (RIN: 1218-AB25) received September 18, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Economic and Educational Opportunities.

5192. A letter from the Administrator, Energy Information Administration, transmitting the Energy Information Administration's "Annual Energy Review 1995," pursuant to 15 U.S.C. 790f(a)(2); to the Committee on Commerce.

5193. A letter from the Director, Office of Congressional Affairs, Nuclear Regulatory Commission, transmitting the Commission's final rule—Topical Guidelines for the Licensing Support System (Regulatory Guide 3.69) received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

5194. A letter from the Acting Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Air Force's proposed Letter(s) of Offer

and Acceptance [LOA] to Egypt for defense articles and services (Transmittal No. 96-78), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

5195. A letter from the Acting Director, Defense Security Assistance Agency, transmitting notification concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance [LOA] to Egypt for defense articles and services (Transmittal No. 96-77), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

5196. A letter from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries Off West Coast States and in the Western Pacific; Pacific Coast Groundfish Fishery; End of Pacific Whiting Regular Season [Docket No. 951227306-6117-02; I.D. 090696E] received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5197. A letter from the Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Reef Fish Fishery of the Gulf of Mexico Amendment 13 [Docket No. 96061317-6247-02; I.D. 050996C] (RIN: 0648-AI71) received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5198. A letter from the Assistant Administrator for Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Northern Anchovy Fishery; Quotas for the 1996-97 Fishing Year [Docket No. 960903241-6241-01; I.D. 081996B] received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5199. A letter from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries Off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Closures from the U.S.-Canadian Border to Cape Alava, WA, and from the Queets River to Leadbetter Point, WA [Docket No. 960126016-6121-04; I.D. 090696B] received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5200. A letter from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries Off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Inseason Adjustments from the U.S.-Canadian Border to the Queets River, WA [Docket No. 960126016-6121-04; I.D. 090696C] received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5201. A letter from the Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries of the Caribbean, Gulf of Mexico, and South America; Consolidation of Regulations [Docket No. 960313071-6237-03; I.D. 050996D] (RIN: 0648-AI20) received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5202. A letter from the Program Management Officer, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Allowing Quota Shares and Individual Fishing Quota to be Used on Smaller Vessels [Docket No. 960612171-6227-02; I.D. 060496A] (RIN: 0648-AI57) received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5203. A letter from the Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Eastern Regulatory Area of the Gulf

of Alaska [Docket No. 960129018-6018-01; I.D. 090996A] received September 17, 1996, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

5204. A letter from the Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting the Service's final rule—Fisheries of the Exclusive Economic Zone Off Alaska; Sharpchin and Northern Rockfish in the Aleutian Islands Subarea [Docket No. 960129019-6019-01; I.D. 090696D] received September 17, 1996, to the Committee on Resources.

5205. A letter from the Assistant Attorney General, Department of Justice, transmitting a draft of proposed legislation to amend title 18, United States Code, to extend certain statutes of limitation; to the Committee on the Judiciary.

5206. A letter from the Chief Justice, Supreme Court of the United States, transmitting notification that the Court will open the October 1996 term on October 2, 1996; to the Committee on the Judiciary.

5207. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a memorandum of justification for Presidential determination regarding the POW/MIA military drawdown to Cambodia, pursuant to 22 U.S.C. 2348a; jointly, to the Committee on International Relations and Appropriations.

5208. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting obligation of funds for additional program proposals for purposes of nonproliferation and disarmament fund activities, pursuant to 22 U.S.C. 5858; jointly, to the Committees on International Relations and Appropriations.

5209. A letter from the Chairman, Railroad Retirement Board, transmitting the Board's budget request for fiscal year 1998, pursuant to 45 U.S.C. 231f; jointly, to the Committees on Transportation and Infrastructure, Appropriations, and Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SOLOMON: Committee on Rules. H.R. 3024. A bill to provide a process leading to full self-government for Puerto Rico; with an amendment (Rept. 104-713 Pt. 2). Referred to the Committee of the Whole House on the State of the Union.

Mr. BLILEY: Committee on Commerce. H.R. 2988. A bill to amend the Clean Air Act to provide that traffic signal synchronization projects are exempt from certain requirements of Environmental Protection Agency rules; with an amendment (Rept. 104-807). Referred to the Committee of the Whole House on the State of the Union.

BILLS PLACED ON THE CORRECTIONS CALENDAR

Under clause 4 of rule XIII, the Speaker, filed with the Clerk a notice requesting that the following bills be placed upon the Corrections Calendar:

H.R. 3153. A bill to amend title 49, United States Code, to exempt from regulation the transportation of certain hazardous materials by vehicles with a gross vehicle weight rating of 10,000 pounds or less.

H.R. 2988. A bill to amend the Clean Air Act to provide that traffic signal synchronization projects are exempt from certain requirements of Environmental Protection Agency Rules.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. EWING (for himself, Mr. BUYER, Mr. POSHARD, Mr. BARCIA of Michigan, Mr. HASTERT, Mr. LATHAM, Mr. MANZULLO, Mr. LAHOOD, Mr. GANSKE, Mr. BEREUTER, Mr. BUNNING of Kentucky, Mr. GILLMOR, Mr. WELLER, Mr. MCINTOSH, Mr. DEAL of Georgia, Mr. LIGHTFOOT, Mr. COBLE, Mr. BOEHRNER, Mr. LEACH, Mr. MILLER of Florida, Mr. NETHERCUTT, Mr. BARRETT of Nebraska, Mr. PETERSON of Minnesota, Mr. ROSE, Mr. LUCAS, Mr. COMBEST, Mr. MCHUGH, and Mr. TOWNS):

H.R. 4102. A bill to provide regulatory relief for certain farm transportation of hazardous materials; to the Committee on Transportation and Infrastructure.

By Mr. BILIRAKIS:

H.R. 4103. A bill to amend title 10, United States Code, to provide limited authority for concurrent payment of retired pay and veterans' disability compensation for certain disabled veterans; to the Committee on National Security, and in addition to the Committee on Veterans' Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BRYANT of Tennessee:

H.R. 4104. A bill to amend title 10, United States Code, to establish a sentence under the Uniform Code of Military Justice of confinement for life without eligibility for parole and to provide that a decision to deny parole for a military offender serving a sentence of confinement for life may be appealed only to the President; to the Committee on National Security.

By Mr. GRAHAM (for himself, Mr. FUNDERBURK, Mr. KASICH, Mr. LARGENT, Mr. SENSENBRENNER, Mr. STOCKMAN, Mr. MILLER of Florida, Mr. TALENT, Mr. HAYWORTH, Mr. DORNAN, Mr. SCARBOROUGH, Mr. BARTON of Texas, Mr. INGLIS of South Carolina, Mr. ROHRBACHER, Mr. HOKE, Mr. HERGER, Mr. LAHOOD, Mr. SMITH of Michigan, Mr. ISTOOK, Mr. BARR, Mr. SHADEGG, Mr. HILLEARY, Mr. HOSTETTLER, Mr. BOEHRNER, Mr. FORBES, Ms. DUNN of Washington, Mr. BRYANT of Tennessee, Mr. CHAMBLISS, Mr. MCINTOSH, Mr. WICKER, Mrs. MYRICK, Mr. RADANOVICH, Mr. SOLOMON, Mr. COOLEY, Mr. JONES, Mr. WAMP, Mr. CHABOT, Mr. WATTS of Oklahoma, Mr. SAM JOHNSON, Mr. BURTON of Indiana, Mr. NORWOOD, Mr. KNOLLENBERG, Mr. LAUGHLIN, Mr. BARTLETT of Maryland, Mr. HASTERT, Mr. THORNBERRY, Mrs. SMITH of Washington, Mr. MCKEON, Mr. TAYLOR of North Carolina, Mrs. SEASTRAND, Mr. STUMP, and Mr. DEAL of Georgia):

H.R. 4105. A bill to repeal the Goals 2000: Educate America Act to allow local areas to develop elementary and secondary education programs that meet their needs; to the Committee on Economic and Educational Opportunities.

By Mrs. JOHNSON of Connecticut (for herself, Mr. CASTLE, Mr. CLINGER, Mr. HOUGHTON, Mr. SERRANO, Mr. BACHUS, and Mr. LEWIS of Georgia):

H.R. 4106. A bill to amend the Internal Revenue Code of 1986 to provide that 0.5 cent of the general revenue portion of the highway motor fuel taxes shall be deposited into an

intercity passenger rail trust fund and to deposit the remainder of such portion into the highway trust fund; to the Committee on Ways and Means, and in addition to the Committee on Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. PETERSON of Minnesota:

H.R. 4107. A bill to direct the Administrator of the Environmental Protection Agency to revise water quality criteria for ammonia, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. RICHARDSON (for himself, Mr. SCHIFF, Mr. CRAPO, and Ms. FURSE):

H.R. 4108. A bill to authorize the sale of excess Department of Defense aircraft to facilitate the suppression of wildfire; to the Committee on Government Reform and Oversight, and in addition to the Committee on Agriculture, and National Security, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ROTH:

H.R. 4109. A bill to extend the authority for certain export programs, and for other purposes; to the Committee on International Relations.

By Mr. STARK:

H.R. 4110. A bill to amend the Internal Revenue Code of 1986 to require that group health plans and insurers offer access to coverage for children and to assist families in the purchase of such coverage; to the Committee on Ways and Means.

By Mr. STUDDS (for himself, Mr. FOX,

Mr. MOAKLEY, Mr. TORKILDSEN, Mr. KENNEDY of Massachusetts, Mr. FRANK of Massachusetts, Mr. MEEHAN, Mr. NEAL of Massachusetts, Mr. MARKEY, and Mr. OLVER):

H.R. 4111. A bill to provide educational assistance to the dependents of Federal law enforcement officials who are killed or are permanently and totally disabled in the line of duty; to the Committee on the Judiciary.

By Mr. TAYLOR of North Carolina:

H.R. 4112. A bill to provide for the settlement of claims of Swain County, NC, against the United States arising under the agreement entered into on July 30, 1943, by the Tennessee Valley Authority, the State of North Carolina, Swain County, NC, and the United States; to the Committee on Resources.

By Mr. VENTO:

H.R. 4113. A bill to regulate the use by interactive computer services of personally identifiable information provided by subscribers to such services; to the Committee on Commerce.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 559: Mr. LANTOS.
 H.R. 580: Mr. CUMMINGS.
 H.R. 789: Mr. MARTINI, Mr. MYERS of Indiana, and Mr. STENHOLM.
 H.R. 1130: Mr. HERGER.
 H.R. 1148: Mr. CANADY.
 H.R. 1386: Ms. DANNER.

Congressional Record

PROCEEDINGS AND DEBATES OF THE 104th CONGRESS, SECOND SESSION

Vol. 142

WASHINGTON, WEDNESDAY, SEPTEMBER 18, 1996

No. 129

Senate

The Senate met at 9:30 a.m., and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

The prophet Isaiah asked some very penetrating questions. The answers lead us to an authentic attitude for profound prayer:

"Who has measured the waters in the hollow of his hand, measured heaven with a span and calculated the dust of the earth in a measure? Weighed the mountains and the hills in a balance? Who has directed the Spirit of the Lord, or as His counselor has taught Him? With whom did He take counsel, and who instructed Him, and taught Him the path of justice? Who taught Him knowledge, and showed him the way of understanding?"—Isaiah 40:12-14.

Almighty God, these questions expose the shallowness of our understanding of prayer. So often we come to You in prayer as if it were our responsibility to brief You on world affairs or current national problems. Or we come to prayer with our shopping list of needs as if You did not know all about us. And then there are times we try to get You to bless our plans about which we never consulted You.

Father, You created prayer for us to be with You, to know You, to have our characters emulate Your character, and, most of all, to be filled with Your spirit. So we humble ourselves. Instead of telling You what to do, we open ourselves completely to receive Your marching orders and to follow You. In the name of the One who taught us to pray, "Not my will but Yours be done." Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able majority leader, Senator LOTT, is recognized.

Mr. LOTT. Good morning, Mr. President.

SCHEDULE

Mr. LOTT. Mr. President, this morning, there will be a period of morning business until the hour of 11 a.m., and the first 45 minutes of morning business will be under the control of Senator HUTCHISON, and the second 45 minutes will be under the control of Senator DASCHLE, or his designee.

Following morning business at 11 a.m., the Senate will resume consideration of S. 994, the FAA reauthorization bill. A unanimous-consent agreement limiting amendments to that bill was reached last night. Also under the order, all amendments listed must be filed at the desk by 11 a.m. this morning. It is hoped that most of those amendments can be agreed to or not be offered at all.

Upon disposition of the FAA bill, the Senate will be asked to turn to the consideration of the conference report to accompany the Transportation appropriations bill, if available, or the Magnuson fisheries bill under a previous consent agreement. In any case, there will probably be rollcall votes throughout the day, and Senators should expect those votes.

I am pleased with the progress that has been made on the FAA reauthorization bill. The Senator from Arizona, Senator MCCAIN, and the Senator from Kentucky, Senator FORD, have been working very hard on this. We need to get this done. In fact, we need to get it completed and we need to do it quickly so we can move on to other bills we need to get done. If we don't get this FAA reauthorization bill completed,

there will be a prohibition at the end of the year on use of the airport trust fund. So we absolutely have to get it done.

Also, I would like to make sure Senators are aware that we are considering moving to other conference reports when they are available. We are also considering taking up, perhaps on tomorrow and Thursday, the maritime legislation from the Commerce Committee that will be managed by the Senator from Alaska, Senator STEVENS, and we are now beginning to see if we can clear the way on both sides of the aisle to take up the pipeline safety legislation, something, once again, we really need to do. Certainly, in America, we should make sure we have a program and plan for our pipelines being safe.

Until we see if we can work out some understanding that we can do our appropriations bills without a lot of delay or extraneous amendments, we will move forward on making progress on these other bills, these other issues. I had hoped we could get all of the appropriations bills done in regular order, but that has not been the case on the last two bills. Rather than just a squabble back and forth, I thought we could go on and do the people's business in other areas. I think we can do a lot of good work in that area over the next 3 or 4 days.

I yield the floor, Mr. President.

MORNING BUSINESS

The PRESIDENT pro tempore. Under the previous order, there will now be a period for morning business until the hour of 11 a.m., with the first 45 minutes under the control of the Senator from Texas, Mrs. HUTCHISON, and the second 45 minutes under the control of the Democratic leader, Senator DASCHLE, or his designee.

Mrs. HUTCHISON addressed the Chair.

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

S10729

The PRESIDENT pro tempore. The able Senator from Texas is recognized.

Mrs. HUTCHISON. Thank you, Mr. President. Mr. President, we are now in morning business, according to the order, and I control 45 minutes of time.

DEFENSE APPROPRIATIONS BILL AND INTERNATIONAL MILITARY COMMITMENTS

Mrs. HUTCHISON. Mr. President, the reason that I asked for the time this morning is I think we have a very crucial decision that is being made right now in our Nation's Capital, and that is how much we are going to fund the defense of our country. In fact, Congress is in a dispute with the President, as we speak, about how much we should spend to defend our Nation.

I find it ironic, if not sad, that as 3,500 of our American troops are on their way to Kuwait right this minute that the President would be threatening to veto the Defense appropriations bill if \$2 to \$3 billion is not cut from that bill.

Our troops are on their way, possibly for a conflict. We hope not. But, as you know, as the distinguished Presiding Officer is the chairman of the Armed Services Committee and the President pro tempore of the Senate, this is not the time to let down our defenses. This is not the time to say that we should be shifting valuable weapons systems for the protection of our troops and for their ability to protect the interests of the United States into unnamed other programs—social programs, perhaps education programs.

I don't know what the President has in mind. But I do know that the President of the United States is today saying he will veto an appropriations bill for the Defense Department at the same time that he is ratcheting up a conflict in the Middle East.

Mr. President, several people would like to speak on this issue. I have more to say, but at this time, I am going to yield to my colleague, the senior Senator from Idaho, LARRY CRAIG.

Mr. CRAIG addressed the Chair.

The PRESIDENT pro tempore. The able Senator from Idaho is recognized.

Mr. CRAIG. Mr. President, I have comments that will take probably up to about 8 minutes. The Senator from Arizona is with us, and I understand he has a scheduling conflict, so I will be more than happy to yield to him.

Mr. KYL addressed the Chair.

Mrs. HUTCHISON. I will be happy to yield to the distinguished Senator from Arizona, who has provided so much leadership in our Nation's defenses, and ask how long, approximately, he would like.

Mr. KYL. Mr. President, I inform the Senator from Texas, probably about 5 minutes, if that is acceptable.

Mrs. HUTCHISON. That is acceptable. Thank you, and I yield the floor.

The PRESIDENT pro tempore. The able Senator from Arizona is recognized.

Mr. KYL. Mr. President, first of all, let me say the Senator from Texas is to be complimented for beginning this very important discussion which I think, frankly, is going to have to go on for some time here until we can get this matter resolved.

It boils down to something very, very simple. On the one hand, you have the administration making substantial international commitments for the deployment and use of American military forces which will cost billions of dollars of money, and, at the same time, you have the administration suggesting that unless the Congress is willing to take money from the defense budget and spend it on other things that the President wants, there is the possibility of a Presidential veto of the defense appropriations bill.

Mr. President, we have been, I think, appropriately discreet here in this body in sharing our views on international policy, especially as it relates to the Middle East and the President's action in Iraq. We passed a resolution here overwhelmingly supporting the action that the administration took and supporting our troops in Iraq. We have not gone out of our way to criticize the President's policy there, even though many of us have grave concerns and questions about where that policy is leading us.

But when it comes to passing the defense authorization and defense appropriations bill, this body has a responsibility to ensure that our military forces have what they need to carry out these commitments. And nobody, Mr. President, more than you, as the chairman of the Senate Armed Services Committee, has fought harder over the years to ensure that our troops have what they need.

I remember that after the Persian Gulf war was over and everyone was passing out compliments to Secretary Cheney and to President Bush and to the Chairman of the Joint Chiefs of Staff, Colin Powell, they all pointed out that what won that war was the character and skill of our men and women who were fighting there and the decisions that were made 10 or 12 years before by the Senate, by the House, and by the administrations at that time to begin the research and development of the smart weapons and other weapons that we used in the Persian Gulf war. That is what enabled us to win that war quickly and with a minimum of casualties.

Now we are again engaged in conflict in Iraq, and we are again using those same weapons, and at the same time the President is suggesting that we have to cut the defense budget because he wants to spend more money in other areas. I remind my colleagues that last year we added money back into the defense bill to buy Tomahawk missiles, more than the President requested. He did not request that money. We said, you are going to have to buy more Tomahawk missiles because that is what we are going to need if we have

another conflict in the Middle East. And what happened? We had another challenge from Saddam Hussein, and the President ordered the firing of Tomahawk missiles. I am glad that the Senate disagreed with the President on that last year, added that money in, and we had those Tomahawk missiles ready to go to fight this conflict.

Now we have the same issue again. Are we going to be permitted to properly fund the military forces? What we are suggesting is still far less than the military was provided last year. So this is not an increase over last year's spending. It is less money. It is more money than the President requested, and that is because we have identified some areas in which we think the administration's request was deficient, just as it was with the Tomahawk missiles last year.

Mr. President, it boils down to this. I have a lot of statistics here and might ask for unanimous consent to submit some matters in writing that gets into the specifics, but I know that my other colleagues here wish to add their voices to this concern. So I am just going to make this statement very generally.

Mr. President, I ask unanimous consent to have printed in the RECORD this statistical information and related material.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[Press release from the House Appropriations Committee]

LIVINGSTON TO CLINTON: NOW IS NOT THE TIME TO FURTHER CUT DEFENSE

WASHINGTON, DC.—Charging that President Clinton is putting the nation's servicemen and women at risk overseas, House Appropriations Committee Chairman Bob Livingston (R-LA) urged the President to reconsider reports that his Administration is now seeking \$3 billion in additional cuts to the defense bill.

"Further cuts to the defense bill will mean less medical care funding for military personnel, a weakening of the drug war, and an inability to relocate troops in Saudi Arabia. If the President wants \$3 billion more cut from the defense budget, he should present our committee with a list of cuts and we'll be happy to consider them.

The defense conference report added nearly a half billion dollars to the President's request for medical care, which was cut in the Clinton Budget; added \$600 million to the President's request for barracks and base repair; and added \$165 million to the President's request for drug interdiction and counter-drug activities.

"President Clinton claims Congress wants to spend \$10 billion more than he wants, but he won't admit that he asked for \$10 billion less than last year's funding level for defense. This cut comes at a time when our nation's military is preparing for a new round of bombing in Iraq; facing more than \$100 million in costs for troop relocation in Saudi Arabia; and underfunding Bosnia by more than \$200 million to date. It is a bad time to cut defense, yet that's all the Commander-In-Chief offers in relation to negotiations on unfinished appropriations bills," said Livingston.

Even more disconcerting is the fact that the President holds the Defense Appropriations bill hostage to more spending cuts,

while he vows to sign to the \$265.6 billion Defense Authorization bill (which actually authorizes more funding than the appropriation bills spends). When adjusted for inflation, defense spending actually declines between FY96 and FY97 marking the twelfth consecutive year defense spending has come down.

"I am simply amazed that the President thinks he can dupe the American public into thinking that he is pro-defense by signing the authorization bill, while threatening to veto the legislation that actually pays the defense bills. The President's veto would deny a 3% pay raise for military personnel, deny funding for a half billion dollar shortfall created in the President's request for medical programs, and deny essential upgrades to our nation's aging weapons systems, which the President's own Joint Chief of Staff say falls more than \$100 billion short over the next five years," said Livingston.

ANOTHER CLINTON FOREIGN POLICY FAILURE—
CRISIS IN IRAQ WORSENS

On August 31, 1996, Saddam Hussein sent 40,000 troops to seize the northern Kurdish city of Irbil.

The U.S. responded to this with cruise missiles in the South and by extending the "no fly."

Clinton declares this a success.

Rhetoric (declared victory) is inconsistent with the reality in the region.

Hussein has expanded his power over the whole Kurdish region.

A major CIA-funded effort to destabilize Saddam is virtually defunct.

The Gulf War international coalition is fractured. Kuwait balks at accepting U.S. troops and few voice opposition to Saddam's moves.

The 1991 humanitarian relief program is in shambles.

If the President is serious about achieving what he believes are U.S. goals, he must act now to set his case before the American people and to include their elected representatives in the Congress in his deliberations. Anything less would be a major failure of leadership.

3500 (not 5000) Fort Hood troops are enroute to Kuwait beginning this morning.

23 F-16s will go to Bahrain to help enforce the "no-fly" zone.

8 F-117 Stealth Bombers are in Kuwait with 4 B-52s at Diego Garcia.

Within days, the force will include 2 aircraft carriers with more than 150 Navy aircraft and more than 20 other warships and submarines.

Actions thus far are a replay of Administration actions in previous events, e.g., Somalia, Haiti, Bosnia, all of which are unraveling or failing to meet original administration promises.

No notification by the Administration.

No consultation with Congress.

No strategic goals/objectives presented to the American people.

Failure to state what actions Hussein must take to satisfy the U.S.

Mr. KYL. Thank you, Mr. President.

Just to summarize it this way, nothing is more important than the defense of our country and ensuring that when the Commander in Chief gives the order for our young men and women to go into combat, to risk their lives, that ensuring that they have the means of achieving their missions in the safest way possible.

As I read a couple days ago about the first F-111 pilot at the beginning of the gulf war, on the very first night, who had to fly through the flak over Bag-

dad, he drew the lucky straw, or the unlucky straw, as it may be. He and his wing man told the story about how the night was black, it was eerie, but he could see the lights of Baghdad in the distance. And he said, as he got closer, it looked like a big fireworks display, there was so much flak over that city. He knew he had to fly through that. But he had the training and he had the equipment because we provided it, and he got through in good shape and performed his mission.

We can never shortchange the men and women that we send into combat without adequate equipment. That is why it is so important that the President get on board here and agree with us to fund the military to the degree that is necessary, to the degree that your committee has recommended.

Mrs. HUTCHISON addressed the Chair.

The PRESIDENT pro tempore. The Senator from Texas.

Mrs. HUTCHISON. I yield up to 10 minutes of our time to the Senator from Idaho.

The PRESIDENT pro tempore. The able Senator from Idaho.

Mr. CRAIG. Mr. President, let me thank the Senator from Texas for requesting this morning business and special order to talk about not only the situation of Defense appropriations, but the impending foreign policy crisis in this country. And as we begin to look seriously, Mr. President, at ending this legislative session and completing our work, there are some remaining appropriations bills that simply must be dealt with in a fair and honest way to effectively close down the Congress. One of those is the 1996 Department of Defense appropriations bill.

In short, Mr. President, saber rattling by this administration has occurred in places other than Iraq. Recent indications that President Clinton will veto the bill that the Senators from Arizona and Texas and I are talking about this morning, which provides funding to our Nation's armed services—including the current deployment in the gulf and those now preparing to respond to the President's call of another 3,500 troops to be deployed, and who may well be in the air at this moment headed for Kuwait—is, to me, a position that our President should find unconscionable, but yet at this very moment the message coming out of the White House is, veto Defense authorization.

The brave men and women serving this Nation and protecting our security and the Nation's interests should not be turned into pawns for Presidential election politics. I cannot begin to express my frustration over this situation because the timing for this President and his political agenda appears to be extraordinary. Therefore, I hope the President will respond by indicating his support for our Armed Forces and his willingness to sign this critical piece of legislation.

The deployment of our troops does not occur without cost. The Senator from Arizona has already referenced that very effectively. The President has deployed U.S. forces widely in peacekeeping efforts, and it is time to respond in kind by paying for it. That is what the American public would expect of a Commander in Chief.

Mr. President, I would like also to take a moment to again address some of the concerns that I mentioned last Friday in the press about the ongoing situation in Iraq, because it is fair to talk about that situation in the context of Defense appropriations, all in one statement, because they fit so well together. As I have said, they clash at this moment in what appears to be a Presidential political agenda that just does not fit.

What is our policy? What is our mission? What is our goal in Iraq? It is a straightforward question that deserves to be answered. The President, as I mentioned, is now deploying troops to Kuwait. More American lives could well be on the line. And it is past time—it is clearly past time—for this President to tell the American people what his answer to those three questions are.

Reports yesterday from CNN stated that 3,500 troops are headed to Kuwait. Claims were made that calling off the deployment now would send the wrong message of weakness to Iraq. I would argue that the message has already been sent in the form of a lack of foreign policy to address this situation. The deployment of troops to Kuwait is clearly a case in point. This announcement of sending 3,500 troops comes on the heels of comments by the President that he was reconsidering a decision to send several thousand troops to Kuwait.

The Washington Post quotes President Clinton as saying this:

We have sought no confrontation with Saddam Hussein. We never did, and we don't now. My concern is that we limit Saddam Hussein's ability to threaten his neighbors, that we do it with the "no-fly" zone, and in so doing, we keep our pilots safe.

I am not here to criticize the worthy goal of keeping our pilots safe. However, this administration's policy is changing daily. The White House has not had its press conference this morning, so we do not know what the foreign policy of today is. We were told the actions of expanding the southern no-fly zone was a reaction and a lesson to Saddam Hussein that his use of force would be met with force. However, the message did not register. We did not address the area of violation, which was the introduction of 30,000 Republican Guard troops into the Kurdish safe haven at the request for help from one of the Kurdish factions. In addition, our reaction did little to dissuade Iraqi activities.

The administration claimed that our actions were justified because of the inhumane actions of the Iraqis against the Kurds. However, we have already lost that battle.

Hussein's troops moved into the safe haven under the vigilant watch of our intelligence sources and they have remained. We have done nothing to respond to Saddam Hussein's actions. In a recent article printed by the Canadian news magazine Maclean's, an unidentified State Department official was quoted as saying:

By attacking in southern Iraq rather than striking at the forces that Saddam used against the Kurds in the north, the United States sent him a clear signal that it is concerned only about the security of the oil supplies from Kuwait and other Persian Gulf states, and does not care much about what he does inside his own borders. . . . We've not demonstrated [in all fairness, Mr. President] a lot of courage. . . . Our actions have not left the region any more secure. [Bluntly put] Saddam has gotten away with it.

Mr. President, this concern is not isolated but has been quite widely reported in news from Government officials and independent analysts.

These criticisms do not question the need to respond to Hussein. Rather, they question the nature of the response chosen by our President. An action was necessary, but it should have reflected Hussein's aggressive behavior. Brent Scowcroft, former national security adviser under Presidents Ford and Bush, put it very succinctly in an article printed in the September 23 edition of Newsweek.

We were right to strike back, but we did so in a way that did no lasting military damage to him and inflicted significant collateral damage on us. The cruise-missile attack was quick, clean, and easy. But, it may have sent Saddam the wrong message—that he would only pay the price of a pinprick. When the smoke cleared, it looked to most political leaders around the world as though Saddam was better off and the United States was worse off than before the current crisis began.

Mr. President, the article covers a number of other cogent issues on this situation. I ask unanimous consent that the article be printed in the RECORD following my statement.

The PRESIDING OFFICER (Mr. GREGG). Without objection, it is so ordered.

(See exhibit 1.)

Mr. CRAIG. In addition to the loss of this high-stake game, I argue that Saddam Hussein won the divide-and-conquer battle. It is disturbing to note how many nations who were supportive of active participation in the coalition developed by President George Bush in the gulf war, have either failed to offer support or have condemned the American strikes and the American actions.

The Russians not only opposed United States actions, but they went so far as to criticize the administration for playing electoral politics. France, once an important ally in the region, has refused to participate in patrolling the expanded area of the southern no-fly zone. Turkey, an ally since World War II, Jordan, and Saudi Arabia have all expressed concern and refused to allow the United States to base some of their actions in their countries.

By moving unilaterally, the President has isolated the United States in the region and weakened our position not only in the gulf, but it could spill over into other regional issues such as the U.S. effort to further the Middle East peace process.

One point that has come to light which bothers me greatly is the lack of action to address growing concerns about the division and strains against the various Kurdish factions. Efforts to push diplomatic negotiations could have prevented the situation from escalating to the point that both Iran and Iraq were called into the conflict for support by the various factions.

In addition, when new intelligence reports indicated troop movement, why were there no efforts to deter the looming action before troops were allowed to reach the Kurdish safe haven and quickly move into Irbil, remove the Patriotic Union of Kurdistan, and execute approximately 100 non-Kurdish Iraqi dissidents who based their anti-Hussein activities out of the area?

Mr. President, the \$1 billion-plus that the United States has spent establishing and maintaining the Kurdish safe haven is also lost. It has been acknowledged by U.S. officials that Saddam Hussein has left a massive security presence. That presence will keep his political opponents muted, and serve as a constant reminder to Iraqis and, indeed the world, that he intends to regain control of his entire country. Saddam is here to stay.

In closing, while I appreciate the President's efforts to brief congressional leaders yesterday, I remain frustrated at the lack of a clear and precise direction on the part of the administration in dealing with Saddam Hussein. He is not going away, and neither are our interests in the region. We have lost ground during this go-around. But, we have been given a reprieve by the Iraqis, who recently announced a discontinuance of attacks on United States aircraft patrolling the no-fly zone, and ceased efforts to rebuild air defense systems destroyed by our missiles. Therefore, time is of the essence, and the President must get his policy on track, and this situation back into balance.

And, President Clinton, you do accomplish this by vetoing the very bill that will fund our efforts in the Middle East and keep our men and women in uniform safe.

I say in conclusion that it is time that the White House woke up, that America demand the answer to the fundamental questions: Why are we there? What is our mission? What is our end game?

I must say to President Clinton, you have not demonstrated even the simple logic of why you would want to veto a defense appropriations bill at a time when you are offering expanded activities in an area where no mission is clear. I say, Mr. President, step up to the mike and step up to the country. Do what you are supposed to do as our

Commander in Chief. Respond, in a clear, unequivocal message, as to what is our mission and work with us to not only defend our troops but to finance them, because as you send them in harm's way, you have a simple and most important obligation as our Commander in Chief, and that is to make sure that they are well financed and well cared for.

EXHIBIT 1

[From Newsweek, Sept. 23, 1996]

WHY WE STOPPED THE GULF WAR

(By Brent Scowcroft)

We have been listening to the same sad refrain for five years; if only George Bush had finished off Saddam Hussein when he had the chance at the end of the gulf war, we wouldn't be in this mess today. There are two things wrong with this reinterpretation of history. The first is that we never had the objective of destroying Saddam's regime during Desert Storm. The second is that had we continued the war and overthrown Saddam, we might be worse off today.

We had a crucial but limited objective in the gulf war, to reverse Iraqi aggression, and to cripple Saddam's offensive military capabilities. The international coalition that President Bush put together to fight the gulf war was based on this carefully defined goal. We certainly hoped that Iraq's defeat would lead to Saddam's collapse, but we viewed that prospect as a potentially beneficial by-product of our victory.

If we had made Saddam's overthrow part of the objective, there would have been no international coalition; even during Desert Storm, our Arab allies stopped their troops at Iraq's border because they wanted no part of an attack on Iraqi territory. If we had continued to prosecute the gulf war after we achieved or stated objectives, we would have destroyed the coalition and squandered much of what our victory had achieved.

So if we had pressed on to Baghdad in 1991, we would have been on our own. And if we had succeeded in overthrowing Saddam, we would have confronted a choice between occupying Iraq with thousands of American troops for the indefinite future and creating a gaping power vacuum in the Persian Gulf for Iran to fill. There was no support among the American people for the first alternative in 1991, and even less so today. The second alternative would have put our vital national-security interests in jeopardy.

Put simply, we recognized that the seemingly attractive goal of getting rid of Saddam would not solve our problems, or even necessarily serve our interests, any more than the overthrow of Diem was a silver bullet to the conundrum of Vietnam. So we pursued the kind of inelegant, messy alternative that is all too often the only one available in the real world. Having driven Saddam out of Kuwait and destroyed much of his offensive military capabilities, we concentrated on keeping the pressure on Iraq so that it could not and would not once again threaten its neighbors. This is the policy that the Clinton administration inherited. Saddam may have made his move into northern Iraq two weeks ago because he thought that with a presidential campaign underway in the United States, we would not respond. Not for the first time, Saddam miscalculated. We were right to strike back, but we did so in a way that did no lasting military damage to him and inflicted significant collateral political damage on us. The cruise-missile attack was quick, clean and easy. But it may have sent Saddam the wrong message—that he would only pay the price of a pinprick. When the smoke cleared, it looked to most political

leaders around the world as though Saddam was better off and the United States was worse off than before the current crisis began.

A far more effective military response, though a more dangerous one, would have targeted the Republican Guard units that moved into northern Iraq. An air attack on those forces would have put Saddam on notice that he must pay a real price for his defiance. It also would have put on notice Iraqi soldiers—on whom Saddam depends to remain in power—that any time they march out on Saddam's orders, they will be subject to devastating aerial bombardment.

Now we are into the next round. Saddam has fired missiles at our aircraft patrolling the no-fly zones. In return, we have threatened a further "disproportionate" response and are ostentatiously augmenting our military forces in the area.

The next time we hit Saddam, we should hit him hard, and where it hurts him most, so that he cannot mistake our message. Air strikes will have to focus tightly on Iraq's military machine, making it clear that we intend to punish Saddam, not harm the Iraqi people. The Republican Guard is an obvious target.

The key point, however, is that the "Iraq problem" is not susceptible to quick fixes. Dealing with Iraq will continue to require patience and persistence, leadership and skill. For the foreseeable future, a successful and sustainable—if unsatisfying—policy is likely to share the same objectives as the one we have followed since the end of the gulf war: relegating Saddam to the category of a nuisance and preventing him from re-emerging as a threat to his neighbors or our vital interests.

Mrs. HUTCHISON. Mr. President, I ask that I be notified at the end of 40 minutes, and I ask unanimous consent the remainder of my 45 minutes then be delayed until 10:55.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. HUTCHISON. Mr. President, I want to thank the Senator from Idaho for talking about General Scowcroft, who is one of the great foreign policy minds of our country, and I thank the Senator for talking about the principles that we should have in foreign policy. I think it is very important we look at the principles of foreign policy with the eye toward letting our enemies, as well as our allies, know what they can expect from us.

Mr. President, what we are talking about today is a very important issue that is to be discussed in the Capitol, and that is defense spending. In fact, the President asked for \$234 billion for defense spending. Congress asked the President to sign a bill for \$244 billion. There is a difference of \$9.5 billion between the President's request and that of Congress.

Now, Mr. President, we are in military operations in Haiti, in Bosnia, we have been in Somalia, which cost precious defense dollars, we now have an escalation in the Middle East, we have 3,500 troops as we speak on their way to Kuwait because we have an escalation there, and yet the President of the United States, while putting our troops into these missions that are costing approximately \$10 billion all together, nevertheless is asking us to cut \$10 billion from the defense budget.

Now, I point out some of the things that Congress would like to have in the defense budget that the President did not request. Two additional F-16's, to replace fighters that are lost due to combat, such as Captain O'Grady, who was shot down and was a true hero in surviving after being shot down by the Serbs. And, in fact, we are also sending F-16's right now to Kuwait and Saudi Arabia to try to make sure that we have enough F-16's, which are such an important base of our operations in the Middle East. In fact, we are sending 23 F-16's right now. We are asking for two additional ones, which the President wants us to cut from the budget.

We added \$66 million above the President's request for additional up-armored Humvees. I am sure my colleagues will remember that it was up-armored Humvees that saved the life of one of our soldiers in the early days of the Bosnia conflict when his vehicle was destroyed—actually, it was struck by a landmine, but was not destroyed, because it was one of the up-armored Humvees. We want more of those to protect our troops if they are going to be in harm's way. But the President says "no," he wants to cut those, even though they are proven to have saved at least one life in the Bosnia operation.

Next, \$190 million for additional scout helicopter aircraft. They are playing a major role in Bosnia today, and the Army is critically short of these scout helicopters. We are asking to upgrade the fleet of helicopters because they are such an important part of our military readiness. But the President says "no."

Then there is \$53 million for night vision devices that allow our soldiers to fight and win at night against this adversary that can't see us. That's what we are asking, Mr. President, among other things, for the readiness of our forces. Yet, the President, as the troops are going into harm's way for the protection of our interests, says he will veto a defense budget, unless we cut \$2 to \$3 billion out of it. Mr. President, you can't have it both ways. You cannot send our American troops into the world to be police and peacekeepers and to secure the interests of America—you can't ask them to do that if we don't have the equipment and the protection for them with theater defenses. Mr. President, you can't do it.

Why would you threaten to veto a bill because it has \$2 to \$3 billion you would like to put somewhere else, when you are asking more from our military and they are performing? Mr. President, they are performing as they always do. They are performing with guts, with patriotism, and with belief in our country. They are representing our country. Mr. President, now is not the time to argue about cutting the defense budget.

How much is this operation in Kuwait going to cost to defend against an aggression that might occur from Iraq? How much? We don't know how much.

So, of course, the idea of cutting our defenses beyond bone, beyond muscle, but into contingencies, does not make sense.

How could our Commander in Chief be talking about vetoing the Defense appropriations, the Defense appropriations bill? How could he be talking about vetoing the Defense appropriations bill at the time that he is sending our troops into a heightened area of awareness and caution and readiness in the Middle East? How could he do it, Mr. President?

It's not right, and we, today, are calling on the President of the United States, the Commander in Chief, to work with us to keep our defenses funded. He is commanding our armed services, and he must fund them. Congress is trying to do that. Mr. President, work with us. If you expect our troops to do the great job they always do, you must fund them. You must give them the equipment. You must give them the ballistic missile protection in the theater.

From my home State of Texas, we are sending 3,500 troops on the ground to Kuwait. We have sent about 120 from Fort Bliss, with the Patriot missiles, to protect them. Mr. President, we even have missiles that the President, the Commander in Chief, did not ask for, that have already been used in this conflict with Iraq. As the Senator from Arizona has said, the President did not ask for the missiles that he has already used. We must have the replacements. We have already used them. How could he at this time be talking about cutting \$2 to \$3 billion out of our defense budget at the same time we are having cost overruns in Bosnia that will have to be funded, and we don't even know what Iraq will cost? This is not the time, and this is not leadership.

Mr. President, I yield such time as he may consume to the distinguished President pro tempore, the dean of the Senate and the chairman of the Armed Services Committee, who has done so much to make sure that our men and women that serve our country are equipped and trained and protected, the Senator from South Carolina.

Mr. THURMOND. Mr. President, I wish to commend the able Senator from Texas on this special order to have a discussion on this very important matter. She is a very able member of the Senate Armed Services Committee and stands for a strong defense. She does all she can to promote the welfare of our men and women in uniform.

Mr. President, I rise to join my colleagues in urging President Clinton to show his support for our men and women in uniform by indicating his support for the fiscal year 1997 Defense appropriations bill and conference report.

In his radio address on September 7, just days after he authorized the cruise missile strikes against Iraq, President Clinton indicated that he would sign the Defense authorization bill. This legislation, the result of our work on

the Senate Armed Services Committee this year, authorizes appropriations for defense.

In expressing his support for the Defense authorization bill, President Clinton stated:

Once more, we have seen that at home and abroad, our servicemen and women go the extra mile for us, and we must go the extra mile for them. This bill makes good our pledge to give our Armed Forces the finest equipment there is so that they have the technological edge to prevail on the battle fields of tomorrow . . . it also carries forward our commitment to give our troops the quality of life they deserve by funding family and troop housing improvements that we want and by providing a raise of 3 percent . . .

Mr. President, I believe the President was absolutely right in these statements of support for the Defense authorization bill and his decision to sign it. Yet, here we are within only a week or so of these statements, the administration is attempting to negotiate substantial reductions in the Defense appropriations bill.

I have tried to determine why the President might not want to support the Defense appropriations bill. What events have transpired that might have caused him to think that the Defense appropriations bill has too much money for defense?

The President has sent additional airpower, seapower, and ground troops to the Middle East to bolster our military force in that troubled region. Every day, it appears more likely that the United States will have to continue some kind of military presence in Bosnia past the December 20 deadline currently set for the withdrawal of our forces currently serving in Bosnia. In addition, United States forces were recently dispatched to Haiti to help stabilize the government of President Preval.

Mr. President, the Defense authorization bill for fiscal year 1997 authorizes for appropriations \$265.6 billion—\$11.2 billion above the President's budget request. However, in real terms, this bill provides \$7.4 billion less than last year's defense bill. Mr. President, this is a very modest bill. Is there a Senator here who believes that our military forces will be called upon to do less next fiscal year than we have done in this fiscal year?

Mr. President, the Congress has indicated strong support for the amounts of money provided for the Department of Defense in the Defense authorization bill and the Defense appropriations bill. We passed a budget resolution bill which supported this amount for defense. We passed a Defense authorization bill, voting several times in support of the amounts for defense in this bill. I do not believe we should now be negotiating these funds away for what appears to be political gamesmanship.

It is clear that this administration relies greatly on our military services. The President must recognize that we must maintain a strong military, capable of performing anywhere in the world and at a moment's notice.

Now is the time when the Congress and the administration must stand together in support of our men and women in uniform, as the President himself has stated, "our service men and women go the extra mile for us, and we must go the extra mile for them."

I urge the President to indicate clearly his support for the Defense appropriations bill as he has for the Defense authorization bill.

Thank you, Mr. President. I yield the floor.

Mrs. HUTCHISON addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that 3 of the 5 minutes that I have remaining at the end be allocated now to the Senator from Idaho.

The PRESIDING OFFICER. Is there objection?

Mr. DORGAN. Reserving the right to object, Mr. President, it is my understanding that we provided 45 minutes of morning business to begin at 9:30 for the majority side of the aisle, with 45 minutes of morning business to follow by our side of the aisle beginning at 10:15. My understanding is that the unanimous-consent request was previously propounded without objection, I think, by anyone on our side of the aisle, to segregate the first 45 minutes so that the last 5 minutes of it would occur at the end of the hour and a half block.

If the Senator from Texas wished to change the agreement that was made last evening about morning business, then I would urge that we make that change in a manner that allows the additional 5 minutes between 10:55 and 11 to be controlled by the Senator from Texas and 5 minutes controlled by me from 11 to 11:05.

The PRESIDING OFFICER. Is there objection?

Mrs. HUTCHISON. Reserving the right to object, I do object, Mr. President. What I would like to do is ask that 3 of the 5 minutes from my last 5 minutes go to the Senator from Idaho now, and then I would like to have the last 2 minutes of the morning business time. So if you would like to extend for 5 minutes, would you be willing to extend 5 minutes from 10:58 to 11:03?

Mr. DORGAN. Mr. President, I do not quite understand the request. My intention is not to prevent the Senator from Idaho from speaking in any order. My only point was that, if we are intending to change the agreement that was made last evening without consultation, then the agreement should provide, if the Senator from Texas has 5 minutes, at 10:55 to 11 o'clock, that we would have 5 minutes from 11 to 11:05.

Mrs. HUTCHISON. Let me add this. If you are wanting the last 5 minutes, how about your taking 10:55 to 11 and letting me have my last 5 minutes, giving 3 minutes to the Senator from

Idaho at this time, and then 2 minutes, before you go into your last 5 minutes.

Mr. DORGAN. The only caveat to that would be, why don't we just provide that our side will have 45 minutes? To whatever extent that takes us over the 11 o'clock hour, it does. We would want to have the full 45 minutes. We have Senator FEINSTEIN who wants to speak, and Senator BIDEN may be here to speak on a couple of things. I would like to make sure that we have equal time.

I was surprised that the agreement last evening, which was 45 minutes on each side, was changed this morning without consultation. I have no objection to anyone speaking at any time except that we would like to have the last 5 minutes in this block today. So the Senator from Texas apparently now has, by unanimous consent, 5 minutes from 10:55 to 11, and she is asking consent that the Senator from Idaho be included in that.

Is that correct?

Mrs. HUTCHISON. That is correct.

Mr. DORGAN. I am asking consent that we also in that request add that we would have 5 minutes additional from 11 to 11:05 for our side to close in morning business.

Mrs. HUTCHISON. Let me see if I can make this easier. Let me just take my last 5 minutes right now and then the Senator can have—if you are still wanting to go over, I am concerned about going past 11 just because of the order of voting and what Senators have been told. So if you would like, the point is you would like to have the last part of the debate, would you be willing to let me give 3 minutes to the Senator from Idaho, let me finish with 2 minutes, and then you take until 11. Would that be acceptable?

Mr. DORGAN. No. The agreement last evening was that we would have 45 minutes. We would insist under the agreement that our side receive 45 minutes. It is certainly acceptable to having you complete your morning business now. In fact, if you wanted a couple of extra minutes, that is fine with me. We would simply provide that we would want an equal amount of time on our side.

Mrs. HUTCHISON. At this point, then, I would like to reserve my 2 minutes at the end and give the other 3 minutes to the Senator from Idaho.

The PRESIDING OFFICER. Is there objection?

Mr. DORGAN. Mr. President, reserving the right to object, I don't mean to quibble about this. But does that include the opportunity for our side then to extend beyond 11 o'clock, as I have indicated?

Mrs. HUTCHISON. Let me ask if we could do this. Let me ask the Senator from Idaho to have up to 3 minutes now, and then the Senator from North Dakota would be able to get 45 minutes, and then I would have 2 additional minutes, whatever that would take.

Mr. DORGAN. I would object. Let me say to the Senator from Texas with

great respect that we had an agreement last evening about morning business. Without consultation, we have a unanimous-consent propounded and agreed to because no one on our side was on the floor. If you wish to propound a further unanimous-consent request, I will object unless we restore the agreement that was obtained last evening of 45 minutes on each side. You are certainly welcome to 5 minutes toward the end, provided you accord the same opportunity to us. If you choose not to do that, I would be constrained to object.

Mrs. HUTCHISON. In an effort to give the Senator everything I think he has asked for, not to be quibbling, the only reason that I would give up what I have by unanimous consent is because the Senator from Idaho has been waiting, and in order to give him 3 minutes I am going to give you whatever you want. So I will say that I will ask unanimous consent that the 3 minutes of the 5 minutes that I have left be given to the Senator from Idaho, and that then I will have 2 additional minutes for my 45 minutes, and then the Senator from North Dakota will control 45 minutes.

The PRESIDING OFFICER (Mr. DEWINE). Is there objection?

Without objection, it is so ordered. The Senator from Idaho is recognized.

Mr. KEMPTHORNE. Mr. President, I thank the Chair. These are precious 3 minutes. I will make the best use of them.

For the 11th year in a row, we have cut the defense of this Nation—11 years. Last year, the administration assured the Senate Armed Services Committee that this year there would be no further cuts and that we would see the adding of funds for procurement so that we could buy the ships and the tanks and the trucks our men and women in the military so critically need.

As passed, the current budget for the Department of Defense, the budget that is now in question and we are talking about this morning, does not even keep up with inflation. What is in it? Things that are so straightforward, such as a 3-percent pay increase for men and women in the military, a very real issue, and all of the equipment that they need.

Later today, the Senate Armed Services Committee will hold a hearing on General Downing's report on the terrorist bombing of Khobar Towers in Saudi Arabia. Nineteen Americans lost their lives in that bombing.

Yesterday, the President announced he was sending an additional 5,000 American soldiers to Kuwait to keep Saddam Hussein in Iraq. In Bosnia the elections have taken place. Now the administration is considering keeping the American soldiers in Bosnia after the 1-year deployment we were told would do the job. These so-called peacekeeping missions have shown us repeatedly that the world remains a very dangerous place for Americans and cer-

tainly for the men and women in uniform. We must make the hard decisions and spend what is required to protect our Nation's vital interests.

If the President wants to once again reduce funding for defense, I would ask him, which requirements does he propose to cut? Which requirements does he propose to cut? Is the President ready to remove our troops from Bosnia? If so, declare it. Is the President ready to end our enforcement of the no-fly zone over Iraq? If so, declare it. Is the President willing to now say there is no need to send the troops to Kuwait? If so, declare it. What do the cuts do to the responsibilities he is giving to our troops? We continually ask our troops to do more and more and we ask them to do it with less and less. That is wrong. That is not what a Commander in Chief should be asking of those troops that are under that Commander in Chief's command.

Last night, we had the celebration of the 180th anniversary of the Senate Armed Services Committee. We acknowledged the leaders that have been in that position. We acknowledged Senator STROM THURMOND and Senator SAM NUNN, who I believe are together on this issue. There was an interesting quote that was pointed out to us last night by President Calvin Coolidge who said:

The Nation which forgets its defenders will be itself forgotten.

I think that says it all. Let us not forget our defenders. Let us not forget the men and women in uniform that we repeatedly ask to put their lives on the line.

No more cuts, Mr. President. No more cuts.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota is recognized for 45 minutes under the previous order.

Mrs. HUTCHISON. Mr. President, I think the previous order was that I had the last 2 minutes after Senator KEMPTHORNE's 3 minutes and then the Senator from North Dakota would have 45 minutes.

The PRESIDING OFFICER. If the Senator wishes to take the time now, that is fine, if there is no objection.

Mrs. HUTCHISON. That was the agreement. I thank the Chair.

I think the Senator from Idaho said it all. If you are going to cut the defense budget at the same time that you continue to ask our military to do more with less, tell us where you want to cut.

The President of the United States is now threatening to veto the Defense appropriations bill if we do not cut \$2- to \$3 billion out of it. As 3,500 troops are on their way to Kuwait to defend the interests of this country, the President is threatening to veto the Defense appropriations bill. How could he do it? With troops going into Haiti, with troops in Bosnia, overruns there right now, and more troops on the way to a hot spot in the Middle East, and he is

telling Congress cut \$2- to \$3 billion out of the defense budget.

Mr. President, where do you want to cut? Are you going to cut F-16's, as you send 23 more to Kuwait and Saudi Arabia? Or are you going to cut the cruise missiles that you did not put in the budget in the first place which have already been used in your operation over Iraq? Is that what you want to cut? Or do you want to cut the Humvees with the added armor that has already saved one life in Bosnia when a landmine was run over by a Humvee but the protection was there and an American life was saved? Is that what you want to cut?

Those are the things in our budget that the President did not ask for and would be asking us to take out. Mr. President, step up to the line. If you are going to cut the defense budget, you tell us where you want to cut. It is very clear we are going to need Stealth bombers. We have already used them. Are we going to start cutting Stealth bombers as we are sending them into harm's way?

Mr. President, step up to the line. Tell us where you want to cut. Let us be responsible. Let us fund our men and women who are defending the interests of this country.

I thank the Chair. I yield the floor.

The PRESIDING OFFICER. Under the previous unanimous consent agreement, the Senator from North Dakota is recognized for 45 minutes.

Mr. DORGAN. Mr. President, I shall not use the entire 45 minutes. Senator FEINSTEIN from California is here. I believe Senator BIDEN wishes to speak. I do want to call a couple of items to the attention of my colleagues and I do want to respond some to the comments that have been made this morning in the previous 45 minutes.

THE FEDERAL RESERVE BOARD

Mr. DORGAN. Mr. President, I wish to make a couple of comments, first, about the Federal Reserve Board and a piece in this morning's newspaper about the Federal Reserve Board and, second, about the issue of confirming U.S. judges. First, the Federal Reserve Board.

Page 1 references the story on page 2 about the Federal Reserve Board. Next Tuesday, the Federal Reserve Board is going to meet in secret and make a decision about whether or not it wants to increase interest rates in our country. Apparently 8 of the 12 regional Federal Reserve Bank boards have made a recommendation to the Federal Reserve Board that they ought to increase interest rates and somehow that was leaked to the press. "Newspaper Story's Apparent Leak of Advice on Rates Shocks the Fed. Regional Banks' Opinions Are a Tightly Held Secret."

Why is this interesting? Because next Tuesday the Fed will make a decision that will affect every single American. If they increase interest rates, they will tax every single American with

higher interest rate charges on their indebtedness. Will there be a debate about it? No. Will it be public? Will it be a democratic system? No. It will be done in secret, just as everything else is done in secret. That is why this story talks about the FBI being called out in other circumstances to find out who leaked information about what is happening at the Fed.

Why ought it be a crime to leak information? The American people ought to have information about what is happening in monetary policy. We ought to disinfect the Federal Reserve Board by opening the doors and providing some sunlight into their process, so the American people can become, at least in some minor way, a part of the process in determining whether this country ought to have higher interest rates.

I simply want to point out how incredible this story is, written by John Berry. John Berry always writes stories from the institutional side of the Fed. I do not know, if he stepped back, six or eight paces away, he would see the absurdity of this institution which is now a dinosaur, the last remaining dinosaur in Washington operating in secret behind closed doors with those who are coming from around the country, hired by their boards of directors in the regional Fed banks—the boards of directors are local bankers—coming to Washington, DC, to make public decisions about interest rate policy that all Americans will be confronting.

This obviously commends a much longer discussion than this. But next Tuesday the Federal Reserve Board, if it is thinking straight, will decide to just say no to higher interest rates.

Inflation is down one-tenth of 1 percent, announced last week. You can almost find no inflation in this economy. It is down 5 years in a row. Unemployment is down to 5.1 percent. The models that the Federal Reserve Board use simply are not working. They have always felt you cannot have lower unemployment because lower unemployment would mean higher inflation. Now they are scratching their heads, wondering how is this happening? How is it that unemployment has come down to 5.1 percent and there is no new inflation?

If the Fed would open its doors and send some of its folks around the country to talk to real people, they will find wage earners know what the Fed has not known for the last two decades. Wage earners know wages have not been going up, they have been going down. The pressure to create more inflation from higher wages is not happening in this global economy. The global economy and circumstances of our participation in it are pushing wages down, not up. It is time the Fed changes its models or goes out and talks to real American people about this and maybe they would come to the right conclusion next Tuesday.

FEDERAL JUDGES

Mr. DORGAN. One point about Federal judges. We are nearing the end of

this congressional session. Some of us believe this Congress ought not adjourn until the majority party does for us what we did for them—yes, even in election years—and that is clear off the calendar and clear through the committee, judges, Federal judges that have been appointed by this President. The fact is, the record is not good. We have seen stutter-stepping and stalling. Some of us are going to decide, one of these days, nothing more is going to happen in this Senate until those many judges out there waiting for confirmation by this Senate are brought before this Senate for a vote.

DEFENSE POLICY AND DEFENSE SPENDING

Mr. DORGAN. Now, having said that, and there will be more discussion about that in future days, I want to turn just for a moment to the discussion we have seen on the floor of the Senate now for 45 minutes this morning.

Senators have every right to come to this floor and talk about defense policy, and the Senators who came are Senators for whom I have great respect. But I have real disagreement with those who would leverage the issue of American troops going in harm's way to the Persian Gulf this morning, leaving their loved ones because the Commander in Chief and our military people feel it is necessary to send them to the Persian Gulf. I have real concern about those who would leverage that with criticism of the President for his defense budget proposals just weeks before an election, in an obvious attempt to try to find a way to undermine President Clinton on this Senate floor. But it not only tries to pull the rug out from under President Clinton, I think it sends all the wrong signals at this moment as this country prepares to confront foreign policy initiatives that are serious.

The discussion on the floor is, "President Clinton wants to cut defense spending." Let us look at the record just for a moment. Oh, the President has cut some in defense. I will give you an example of what he cut, he and Vice President GORE. There was a 16-page regulation on how to buy cream-filled cookies at the Pentagon. They cut that. It does not take 16 pages of regulations anymore to buy cream-filled cookies because this administration said that does not make any sense. That is nuts. Let us streamline all that.

They tried to buy \$25,000 worth of ant bait to kill ants. It took them months and dozens and dozens of pages of regulations and forms. They cut that.

So, has the President wanted to cut some in defense? Yes—unnecessary regulations, unnecessary bureaucracy. It is about time. We ought to commend them for that, not criticize them.

Now, on the question of spending, what was sent to this Congress from the Defense Department? A budget. The cold war is over. The Soviet Union

does not exist. And from the height of the cold war we are now spending less than we were spending then. Does anyone in this country think that we ought to spend now as much on military preparedness and defense as we did at the very height of the cold war? Does anyone believe that? Of course not. We are not at the height of the cold war. Things have changed. Defense spending has come down some—not a great deal, but some. So what is the debate?

The debate is this. The Pentagon prepares a budget. The uniformed personnel, the service Secretaries going through the White House, they prepare a budget, send it to the Congress, and they say: Here is what we think, as an Army, Navy, a group of Marines, and the Air Force, here is what we think is necessary to defend America. Here is what we think we must build, what we must spend. Here is what we think we must accomplish to defend America.

That budget came to this Congress, giving us the best recommendations of those who wear our uniform in this country, the generals and the admirals, the service Secretaries, saying here is what we want to defend America. But when it got here it was not enough. We had folks in this Chamber saying, "You know, we think you are dead wrong. It is true we are the folks who stand up and boast every morning about how much we want to cut Federal spending, but we think you are wrong. We think, Mr. and Mrs. Pentagon, over there in that big building, we think you ought to spend \$13 billion more. We think you ought to buy more trucks, more ships, more planes, more submarines. We think you ought to spend more money because we think you are wrong."

Everybody has a right to his or her opinion on what it takes to defend this country. Everybody has a right to stand up and talk about that. I do not deny that. But I would like to talk about a couple of the specifics, because I think in many respects this has a whole lot more to do with politics than it has to do with policy. It has a whole lot more to do with elections than it has to do with the defense of this country. I want to run through just a couple of charts, because I think it is instructive on this issue.

One of the big items we have been debating is the issue of star wars. I know they do not like to call it that, but star wars. There is a proposal called the Defend America Act. Who on Earth can be opposed to defending America? The Defend America Act is to build an astrodome over America, an astrodome effect that would prevent missiles from coming in and hitting our country. We have already spent somewhere around \$99 billion on research and development on missiles. We have built one ABM site—incidentally, we built it in my State. It was declared mothballed the very month it was declared operational, after the equivalent of today's \$25 billion was spent on it. But we have people saying that it does not matter what the cost is, we need to build this.

The Congressional Budget Office says the proposal that they have been talking about here would cost up to \$60 billion to build and up to \$4 billion a year to operate. And, in a reasonable time period, would cost \$116 billion. The question is, where does that come from? Senator Dole held a press conference about it, feeling—and it was in the Washington Post—feeling this would give him an edge in the election. This can be a wedge issue. We support defending America with the star wars program, somebody else does not, so therefore we are better than they are. At the press conference he was asked:

Senator, how much do you think this is going to cost? And where is the money going to come from?

Well, I'll leave that up to the experts.

The majority leader, asked the same question:

We'll have to look at that . . . I don't have a fixed number in mind.

I will tell you what it costs, \$60 billion to build, \$4 billion a year to operate. The question is where are you going to get the money, who is going to pay for it, but, more important, do we need it? What kind of system do we need for our defense?

The reason I mention this issue is this issue happens to be one which is a very large expenditure that is proposed for which there is no proposed method of payment. It is just saying: We are for defense and the other folks are not. I happen to think the defense of this country is critically important. I think there is a lot of waste in defense. But I have been on plenty of military bases and seen men and women wearing the uniform of this country who do some wonderful things, and who sacrifice greatly for this country. They ought to have the best equipment that we can purchase for them. They ought to fly the best airplanes we can purchase. I know, despite what a lot of people say about our Defense Department, I think we have the best defense system in the world by far.

We spend far in excess of any other country or group of countries combined. If you take all the NATO countries combined and throw all their defense expenditures into one pot, they don't measure up to our knees on defense expenditures. The fact is, we spend an enormous amount of defense money, far more than any other country in the world—far more than any other country in the world—and for anyone to say somehow those men and women and the equipment we buy don't measure up, I just don't think they understand.

The controversy has not been that somebody is weak on defense. The controversy is some see defense as a jobs program. I have come to the floor and said, "Here are trucks the Pentagon said it didn't want that some insisted be built. Here are jet fighters the Pentagon didn't want to build that some in Congress insisted they build. Here are ships that the Defense Department said it didn't want to build at this point." The Congress said, "You must build."

I even found buried deep in the Defense authorization bill an authorization, I think, for \$60 million to buy blimps. No hearings, no discussion, no debate, just somebody writing in, "Let's buy blimps." Lord knows what they would buy blimps for, but buried deep in an authorization bill, "Let's buy blimps." When the Defense bill is on the floor, the sky is the limit.

So the question is not for this President or for this Congress of whether we should have a strong defense, a defense this country can count on. The President wants that, I want that, all my colleagues want that. The question is, What kind of investments and expenditures will provide a strong defense?

Did it strengthen our country to have 16 pages of regulations to buy cream-filled cookies? I don't think so. I suppose you can make the case the person hired to interpret the regulations on how to buy cream-filled cookies was defending America. It seems to me they were defending cream-filled cookies. If we streamline that and that person is now doing something more meaningful in this country's defense, doesn't that strengthen defense?

I urge you to look at what this Vice President and this President have done in the area of reinventing Government and see what they have done in the Pentagon in streamlining rules and regulations, especially with respect to purchases and acquisitions. And if you are not impressed by that, you will not be impressed by anything.

This administration deserves credit for that. The fact is, the Pentagon is one of the largest organizations on this Earth, and like every large organization in the public or private sector, it has an enormous amount of bureaucracy and fat. And this administration has tackled that.

But the administration has done more than that. This administration has also proposed directed, specific investments in weapons programs and systems that will strengthen this country, and I think it ill behooves other Members of Congress to come to this floor and try to use this issue for leverage for an election. That is what this is about. This is not about troops moving to Iraq or the Persian Gulf today. It is about an election that is held in early November. When I heard that this morning, I thought, "This needs a response. This really needs a response."

I would like to just make a couple of other points. We are often, when we discuss these issues, having to economize, as is a classic case in the field of economics. We have to try to determine what are our wants and needs and what are our resources. The wants are almost unlimited and resources are limited. How do you respond to unlimited wants with limited resources? That is true in defense, and it is true in our entire budget.

I thought it was fascinating about a year ago when I was standing at this point in the well of the Senate, and we had conflicting proposals that I

thought made it stark, as clear as it can be about priorities. We had a tiny little program called the Star Program, a tiny little program, and the proposal was, "Well, let's cut star schools 40 percent," and then a big program called star wars, "Let's increase star wars 120 percent." I can't think of anything clearer than where the priorities were for those who opposed it.

Is there a relationship between education and defense? You bet. Where do you think F-16's came from? Where do you think the stealth bombers came from? Where do you think the Patriot missile came from? It came from the product of this country's education and genius and people who invent, create, build, construct. That is where it all comes from.

My first job out of graduate school, after I got my MBA, was with the Martin Marietta Corp. I saw firsthand the marvels of engineering and the genius of invention in not only NASA but also defense programs with weapons systems. It is quite remarkable. But the Martin Marietta Corp. knew, as do most others in this country, that that starts with education.

You tell Americans that we will short change education and somehow we will be a stronger country, we will have a better defense, and most Americans will say, "No, no, you're not thinking very straight." Thomas Jefferson once said, and I have quoted this many times and I will again because it is so important, "Any country who believes it can be both ignorant and free believes in something that never was and never can be."

So my point is we are hearing now today about criticism of a President who some believe has not proposed enough money for defense. We have, in fact, a President who has proposed a defense budget that represents what the armed services believes is necessary to defend this country and that makes some very important strategic investments in new weapons programs and new systems, and I think the budget the President proposed is a good budget. In fact, if you take a look at last year's Republican budget enacted by the Senate and take a look at the President's proposed budget and go to the outyears, 2000 and 2002, you will see the President is proposing higher defense spending than those who are now criticizing him. I don't understand that either.

So, there is more to say, I guess, but we will likely hear a great deal about this and a dozen other issues where someone thinks they might be able to drive a wedge between now and election day. It is important, I think, now, however, for us to decide that as troops go to the Middle East and as we as a country try to speak with one voice about our goals, we ought to decide that debate about defense policy is perfectly appropriate for all of us. But mingling a defense policy debate at this point with the discussion about the role of our troops, I think, is not

what we ought to do here in the Senate or elsewhere.

Mr. President, Senator FEINSTEIN is here and is prepared to speak, I believe, on this and another subject. I, at this point, yield the floor, and I may use some time later in the special order.

Mrs. FEINSTEIN. I thank the Senator from North Dakota. I also thank the Chair.

I must say, I came to this floor to speak for the fifth time about methamphetamine this morning. However, I happened to hear the preceding speakers, and I really want to identify myself with the comments just made by the Senator from North Dakota.

Even on this side of the aisle, there is legitimate difference about how much should be in the defense budget. I, for one, voted for more than the President put forward in his budget. I think that is legitimate, but I also think we should talk about it, and I think we should debate it.

However, it is clear to all of us, I think, that we are engaged in a military operation. Therefore, the lives of our pilots, of our men and women in the Armed Forces, and of innocent civilians are at risk.

I think during a military operation, an attack on the President, on the very policy that is determining that operation is, frankly, ill-advised, I think it is highly partisan, I think it could put American and other lives at risk, and, frankly, I think it is just plain tacky.

So I want to say that. I would be hopeful that during a time of some national emergency—and I think this operation does qualify—we can come together as Republicans and as Democrats to support the Commander in Chief of the United States of America, who happens to be the President, whether that President is Democratic or whether that President is Republican. I pledge as a Democrat that should the President be a Republican, I would do the same, because I think it is important.

COMPREHENSIVE METHAMPHETAMINE CONTROL ACT OF 1996

Mrs. FEINSTEIN. Mr. President, I come here because I have spoken on this floor five times about methamphetamine. There is good news. I think it is stellar news. It is how this body can work together to solve what is a very real problem in America. I mentioned before that methamphetamine has been a major problem in the State of California. As a matter of fact, the DEA has determined that California is the "source country" for methamphetamine, much like Colombia is for cocaine. In Operation Pipeline, conducted by the DEA, 92.8 percent of all methamphetamine seized in a national drug operation actually originated in California. Hospital admissions are up, way above that for cocaine. Deaths are up. Medical costs are up. Methamphetamine has become a real problem and a national emergency.

Last June and July—that is 1995—I wrote to the Attorney General laying out the vast extent of the methamphetamine problem in California and asking her for proposals to crack down on this trade, especially on the precursor chemicals used to make methamphetamine.

Over the ensuing months, my staff and I worked with prosecutors, narcotics officers, and the California Department of Justice, in a bipartisan way, to try to develop solutions. In February of this year, Senator GRASSLEY and I, along with Senator REID, introduced the Methamphetamine Control Act of 1996. We had a bipartisan group of Senators which also included Senator KYL. Representatives FAZIO and RIGGS in the House introduced the same bill.

In April, President Clinton announced his national methamphetamine strategy adding additional measures to attack meth. In July of this year, Senators HATCH, BIDEN, GRASSLEY, and I and others introduced the bill which was passed last night, incorporating our earlier proposals. Frankly, thanks to Chairman HATCH and Senator BIDEN, I think this is a much better bill than the original bill we introduced.

I note with some interest that yesterday was Senator GRASSLEY's birthday. How nice to have a birthday and at the same time to have a bill that you worked on which passed the Senate of the United States unanimously, and which will solve a major problem out there.

This would not have happened had it not been bipartisan. It would not have happened had it not been for the chairman of the Judiciary Committee and the ranking member of that committee coming together to work on a problem. A lot of staffs were involved across the aisle. I think they worked in the best bipartisan way this body can muster to solve a real problem. That is practical.

You know, I often hear a lot about ideology around here. I have never been in a place that is more partisan than around here. Yet, the fact of the matter is, some problems take very conservative solutions, some take more innovative solutions, and most take just plain sitting down at a table and working out a solution. And that is methamphetamine.

So last night the Hatch-Biden-Feinstein-Grassley bill, known as the Methamphetamine Control Act, was passed. Among some of the things it does is it adds seizure and forfeiture authority for precursor chemical violations.

It provides for stiff escalating civil penalties for the reckless sale of chemicals used to manufacture methamphetamine.

It gives the Attorney General the authority to shut down chemical supply houses which provide chemicals to clandestine methamphetamine manufacturers.

It provides for restitution for the cost of cleaning up clandestine methamphetamine labs, which runs about \$7,000, \$8,000 a lab.

It allows the Attorney General to require, by regulation, reporting the sales of ordinary, over-the-counter, pseudoephedrine-containing products in quantities above 24 grams. This is really important because as there are controls on ephedrine, pseudoephedrine, which goes into over-the-counter cold medication, developed as a major source for methamphetamine makers to buy. So they would go into something like a Long's drugstore that has maybe 30 feet of display space of over-the-counter cold medication and they would buy maybe 5,000 packages, everything they could get their hands on, ring it up, not have to give a name, address, a driver's license, anything, and walk out, open the packages or bottles, get children to open the blister packs, and go into their clandestine labs and make methamphetamine.

This bill cracks down on that. I have heard that Long's, for example, is interested in being part of a major education program, which is provided for in this bill, to educate people and their own retail outlets about what is happening in methamphetamine.

I am very proud to say that pharmaceutical houses, like Warner-Lambert, became solidly in support of this legislation once they understood what was actually happening with their products.

So I think this bill is a Republican win; it is a Democratic win. It is a good, strong, tough bill. Amazingly enough, 2 months before a Presidential election, on a bipartisan basis, it passed the Senate of the United States. We hope it will be marked up either today or tomorrow in the House of Representatives and we will get something done.

Mr. President, you are a Republican. I am a Democrat. I happen to think this is what the people of America sent us both here to do. So I would like to send my warm congratulations to Chairman HATCH, to Senators GRASSLEY, KYL, REID, most particularly to ranking member Senator BIDEN, whose staff worked very, very hard, and Senator HARKIN, who came aboard and was supportive early on. This is important legislation. Oh, and, Mr. President, my staff just told me, you are part of this effort as well. Let me salute you and say thank you. Californians are grateful, and I think all of America will be as well. Thank you very much.

Mr. President, I ask unanimous consent that a summary of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

COMPREHENSIVE METHAMPHETAMINE CONTROL ACT OF 1996 FINDINGS

A. Methamphetamine is a very dangerous and harmful drug. It is highly addictive and is associated with permanent brain damage in long-term users.

B. The abuse of methamphetamine has increased dramatically since 1990. This increased use has led to devastating effects on individuals and the community, including:

1. A dramatic increase in deaths associated with methamphetamine ingestion.

2. An increase in the number of violent crimes associated with methamphetamine ingestion.

3. An increase in criminal activity associated with the illegal importation of methamphetamine and precursor compounds to support the growing appetite for this drug in the United States.

C. Congress finds that illegal methamphetamine manufacturer and abuse presents an imminent public health threat that warrants aggressive law enforcement action, increased research on methamphetamine and other substance abuse, increased coordinated efforts to prevent methamphetamine abuse, and increased monitoring of the public health threat methamphetamine presents to the communities of the United States.

TITLE I.—IMPORTATION OF METHAMPHETAMINE AND PRECURSOR CHEMICALS

Sec. 101. International coordination

The Attorney General shall coordinate international drug enforcement efforts to decrease the movement of methamphetamine and methamphetamine precursors into the United States.

Sec. 102. Long arm provision

Imposes a maximum ten-year penalty on the manufacture outside the United States of a list I chemical with intent to import it into this country, by adding list I Chemicals to 21 U.S.C. §959(a).

This provision also makes it a crime to manufacture or distribute a List I chemical aboard an aircraft or to possess a List I chemical aboard an aircraft with the intention to distribute it by adding List I chemicals to 21 U.S.C. §959(b) (1) and (2).

TITLE II.—PROVISIONS TO CONTROL THE MANUFACTURE OF METHAMPHETAMINE

Sec. 201. Trafficking in precursor chemicals: seizure and forfeiture of precursor chemicals (List I chemicals)

Will amend various provisions of the Controlled Substances Act and the Tariff Act of 1930 to permit seizure and forfeiture of List I chemicals, even if the individual or firm involved is a non-registrant, or by a registrant whose registration has expired or been revoked or suspended.

Sec. 202. Study and report on measures to prevent sales of other agents used in methamphetamine production

The Attorney General is required to conduct a study and report to Congress on possible measures to effectively prevent the diversion of red phosphorus, iodine, hydrochloric gas and other agents for use in the production of methamphetamine.

Sec. 203. Increased penalties for manufacture and possession of equipment used to make controlled substances

Increases the penalties for the possession of equipment used to make controlled substances to 10 years and a \$30,000 fine for the first offense and 20 years and a \$60,000 fine for the second offense. Requires the Sentencing Commission to ensure that the manufacture of methamphetamine in violation of this section is treated as a significant violation.

Sec. 204. Addition of iodine and hydrochloric gas to List II

Adds iodine and hydrochloric gas to List II. Exempts iodine from the importation provisions for listed chemicals, but allows the Attorney General to impose these limitations, if warranted, under the provisions of current law.

Sec. 205. Civil penalties for firms that supply precursor chemicals

Imposes civil penalties for the distribution of a laboratory supply to a person who uses,

or attempts to use that laboratory supply to manufacture a controlled substance or a listed chemical, if the distribution is done with reckless disregard for the illegal uses to which a laboratory supply will be put.

The civil penalties provided for in this provision are:

A. Up to \$250,000 for the first violation, and
B. \$250,000 or up to double the last previously imposed penalty, whichever is greater, for any succeeding violation.

Sec. 206. Injunctive relief

The Attorney General may commence a civil action under 21 U.S.C. §843 for appropriate relief, including a temporary or permanent injunction to shut down the production and sale of listed chemicals by individuals or companies that knowingly sell precursor agents for the purpose of methamphetamine production.

Any person convicted of a felony violation of Sec. 402. of the Controlled Substance Act related to the receipt, distribution, manufacture, exportation or importation of a listed chemical may be enjoined from engaging in any transaction involving a listed chemical for not more than 10 years.

Sec. 207. Restitution for clean up of clandestine laboratory sites

The court may order restitution for the costs associated with the investigation and clean up of a clandestine methamphetamine laboratory.

In addition, the court may order restitution for any person injured as a result of the operation of a clandestine lab.

Sec. 208. Record Retention

The record retention requirements for list I and II chemicals are two years after the date of the transaction.

Sec. 209. Technical Amendments

This section corrects misspellings of chemicals in the Controlled Substances Act.

TITLE III.—INCREASED PENALTIES FOR TRAFFICKING AND MANUFACTURE OF METHAMPHETAMINE AND PRECURSORS

Sec. 301. Trafficking in methamphetamine

Sentencing scheme shall be comparable to crack cocaine: 5 g pure methamphetamine=5 year mandatory minimum term (5-40 years); 50 g pure methamphetamine=10 year mandatory minimum term (10-life).

Sec. 302. Illegal sale of listed chemicals

Increases the penalties for trafficking in listed chemicals to the penalty corresponding to the quantity of controlled substance that could reasonably have been manufactured according to a table to be developed by the Sentencing Commission.

Sec. 303. Enhanced penalty for dangerous handling of controlled substances: Amendment of sentencing guidelines

Requires the Sentencing Commission to determine whether current sentencing guidelines adequately punish violation of environmental laws during the operation of clandestine labs. If punishment is not adequate, the Sentencing Commission is required to promulgate guidelines or amend existing guidelines to provide an appropriate enhancement of the punishment for a defendant convicted of such an offense.

TITLE IV.—LEGAL MANUFACTURE, DISTRIBUTION AND SALE OF PRECURSOR CHEMICALS

Sec. 401. Retail Sales

Lawfully manufactured drug products are exempt from regulation unless the Attorney General finds a need to control them because of their diversion.

Reduces the single transaction reporting requirements for all retail sales other than ordinary over-the-counter pseudoephedrine and phenylpropanolamine containing products from 1,000 grams to 24 grams.

Defines ordinary over-the-counter pseudoephedrine or phenylpropanolamine products as those sold in package sizes of not more than 3.0 grams of pseudoephedrine base or 3.0 grams of phenylpropanolamine base, that is packaged in blister packs when technically feasible, each blister containing not more than two dosage units.

Except as defined below, the sale of ordinary over-the-counter pseudoephedrine or phenylpropanolamine products by a retail distributor shall not be a regulated transaction.

The Attorney General may, following documentation that ordinary over-the-counter pseudoephedrine and phenylpropanolamine-containing products purchased via retail sales constitute a significant source of precursor substance used in the illegal manufacture of a controlled substance, establish by a notice, comment and an informal hearing a single-transaction limit of 24 grams of pseudoephedrine or phenylpropanolamine base.

Any business or individual that violates the single transaction limit, if established, will receive a warning letter from the Attorney General for the first violation and, if a business, shall be required to conduct mandatory education of the sales employees of the firm with regard to the legal sales of pseudoephedrine. For any second violation occurring within 2 years of the first violation, the business or individual shall be subject to civil penalty of not more than \$5,000. For any subsequent violation occurring within 2 years of the previous violation, the business or individual shall be subject to a civil penalty not to exceed the amount of the previous civil penalty plus \$5,000.

Sec. 402. Mail Order Restrictions

Each regulated person or entity who engages in a transaction by mail with a non-regulated person involving ephedrine, pseudoephedrine, or phenylpropanolamine shall, on a monthly basis, submit to the Attorney General a record of each such transaction conducted during the previous month.

TITLE V.—EDUCATION AND RESEARCH

Sec. 501. Methamphetamine Interagency Task Force

Creates a Methamphetamine Interagency Task Force, headed by the Attorney General with DoJ, HHS and non-governmental experts in drug abuse prevention and treatment. This task force will be responsible for designing, implementing, and evaluating methamphetamine education, prevention and treatment practices and strategies.

Sec. 502. Public Health Monitoring.

Requires the Secretary, HHS to develop a public health monitoring program to monitor methamphetamine abuse in the United States. The program will include collection and dissemination of data related to methamphetamine abuse, which can be used by public health officials in policy development.

Sec. 503. Public-Private Education Program

Develop a Methamphetamine National Advisory Panel to develop a program to educate wholesale and retail distributors of precursor chemicals and supplies in the identification of suspicious transactions and their responsibility to report such transactions.

Sec. 504. Suspicious Orders Task Force

Establishes a Suspicious Orders Task Force to develop a proposal to define suspicious orders of listed chemicals and to evaluate proposals for the development of an electronic system for registrants to report suspicious orders.

Mrs. FEINSTEIN. Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the call for the quorum be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FORD. I understand there are 14 minutes left on this side.

The PRESIDING OFFICER. There are 13½ minutes left.

Mr. FORD. So, 13½ minutes. I yield myself as much time as I might use.

The PRESIDING OFFICER. The Senator from Kentucky.

EDUCATION IN AMERICA

Mr. FORD. Coming from Kentucky, and I guess in some other States, we have heard about midnight conversions or death-bed conversions. "I've seen the light. Everything's going to be all right." Lo and behold, we found for a long time that this side of the aisle has been pushing for additional funding for education. And I read in the morning paper where there was a midnight conversion. Somebody has been reading the polls.

For the first time in a Presidential campaign, education is No. 1—No. 1. So rather than going out with a whimper, Republicans want to close this session down with a bang. It is not enough. If you read the stories in the press, the Republicans were forced into putting this money in the budget by Democrats. That is the story. That is the story.

The midnight conversion was one we have been pushing hard, trying to get our amendment up yesterday, were refused, objected to, everything, because you did not want Democrats to offer their amendment yesterday. That is parliamentary procedure. I understand it. Every Senator in here understands it. I think the public understood it.

So now the \$2.3 billion or whatever the Republicans tried to put in last night in their midnight conversion, we think, is not enough. It should be a little over \$3 billion. I hope that the Senate will allow us to vote on that amendment.

We are getting to a point now where we cannot get appropriations bills out. It is not our fault. We are left out. We have bills that are coming up here that only the Republicans have dealt with—Democrats have never been called into the room. That is the way it has happened for over 18 months now. Somebody said, "Why should Democrats be in?" Some old fellow in the back said, "Well, a blind hog finds an acorn once in a while."

Maybe, just maybe, they would have a good idea. A good idea has been education. I do not know who said it, but I want to tell you I will remember it as long as I live: A cut in education never heals—a cut in education never heals. That is what has happened here. The Republicans cutting education, that

wound will never heal. I do not care how you try to paint it, how you try to phrase it in a 30-second ad, how the incumbents and challengers try to play it back home, that cut that was out there will never heal. The people will remember how you wanted to cut education.

Mr. President, I am delighted that the Republicans were converted last night. I am glad the death-bed conversion worked because at least we are a little over \$2 billion closer to what the administration feels and we on this side feel should be available for education. It used to be, and now I think it is a foregone conclusion, that a high school education is not enough.

We worked hard in Kentucky with KET, with the Star Program, to get KET by television. It worked well. Practically every State in the Nation picked up on it, the Star Program, so that everybody would have an opportunity, even if they worked, they could stay at home and get their GED. I do not know how many tens of thousands of GED certificates were given as a result of the Star Program. It all came from Kentucky educational television. It was the pilot project that spread across this country.

Now the President says that 2 years of college, 2 years of college ought to be the norm. We hear all about this tax cut. I do not hear much about it now; it has kind of faded away—15 percent tax cut. For an individual making \$200,000, your tax cut at the period of time proposed in the tax cut is \$28,900. That is annual. That will put 19 students through the community college if my hometown. So we give one individual making over \$200,000 a year, the equivalent of giving 19 students their tuition, getting them through community college.

I do not think Government ought to be in everything. I think they ought to be out of most things. But we have to give some leadership, and education is leadership in this country. The people understand it, constituents understand it, and, lo and behold, Republicans found out about it last night.

So as you read the story where Democrats forced Republicans to add over \$2 billion in education, that is the story. They are cutting. The cut in education never heals, and the cut that was attempted in education under the Republican budget, under the Republican appropriations bill, that cut will never heal because the people will remember what was attempted to do.

Mr. President, I hope we will be able to bring our amendment up, and we will be able to offer it as we wanted to and which we were precluded. When you ask unanimous consent that your amendment be brought up and it is objected to, everybody understands that. You think it does not resonate beyond this Chamber? Of course it does. People that watch C-SPAN understand who is preventing the amendment to come forward to improve education, so that they, being the Republicans, could make their effort last night and make

some headlines today. Read the story—the Democrats forced them to do it. The Democrats forced them to do it.

Mr. President, I am pleased at the movement in the right direction. I hope we can do a little bit more so that those students out there in my State and your State and other States will have an opportunity for education and will not continue to burden the families with the borrowing of money and the struggling in order to see that their family is educated.

I yield the floor.

The PRESIDING OFFICER (Mr. INHOFE). The Senator from North Dakota.

FEDERAL JUDGES

Mr. DORGAN. Mr. President, let me take the remaining couple of minutes of morning business to further amplify about the number of judges we need still to clear. We have on this calendar six judges, four of them appeals judges, two district court judges. There is pending in the Judiciary Committee 22 judges, 4 appeals judges, and 17 district judges. In the last 40 years, Congress has never adjourned, ever, without confirming at least one Federal appellate court judge, and some are saying that will happen now. This would be most unfortunate.

Many of us have sent a letter on September 16 making this point. This confirmation process on judges has virtually ground to a halt. That is unfair. It is unfair to the judges that have been appointed and are awaiting confirmation. It is unfair to the Federal court system, unfair to the American people. This is only about politics—only about politics.

Now, the statistics are quite clear. In election years previously when we controlled the Senate, we did not do this. We pushed through a substantial number of judges. If you compare the numbers—I invite anybody to compare the numbers—what we see this year is a very few judges confirmed and many left on the calendar, with some proposing that that is it, we will not have time to do them, or refuse to do them, or will not do them. I think that is not fair to those awaiting confirmation or to the American people.

We have confirmed fewer than 20 district court judges and not a single appellate judge during this session of Congress. The number of confirmations—in our letter, we point out—even in past Presidential election years far exceeded what we are experiencing today. For example, the Senate confirmed an average of almost 55 Federal judges, including 10 appellate judges annually in the years 1980, 1984, 1988, 1992. In each of these years, the Senate Congress confirmed no fewer than seven appellate court judges. In our letter, we write, "Have circumstances changed so dramatically that the Senate would now turn its back on our rich tradition of bipartisanship in appellate court confirmations?"

I hope things have not changed that much. Circuit court dockets have grown by over 20 percent in the last 5 years, we are told by the judiciary. So the failure to do this is not just a political failure, but it is a failure that has profound impact on the Federal court system. To our knowledge, none of the nominees that are awaiting action on the floor have been opposed by any member of the Judiciary Committee for any ideological reasons. Some of us, who believe that the Senate ought to complete its work on this, simply say, let us have votes on these confirmations. The names are here, the nominations have been made, and the candidates are available.

There was a need for these judges to be placed in the Federal judiciary, and this Senate has a responsibility to act. As I said previously, this is not a circumstance that existed in prior years. But this year it has been like pulling teeth to get any judgeships through this Senate, because some believe that since they control the Senate, there should be no judges appointed by an opposing party. It reminds me of the line-item veto legislation, which I supported for years in the House, and I supported it here. We passed it here, and the majority party said they wanted it, but they did not want this President to have it during his term. We passed it, but they prevented President Clinton from having it this year. They control the Senate, and they were able to do that.

That didn't make much sense to me. Nor does this make any sense to me. Let's confirm judges. That's our job and our responsibility. It doesn't matter who is President; appointments come and confirmations ought to be made. This Senate ought to act.

So if there are those who think we are going to adjourn and slap each other on the back and thank each other for a job well done and leave all these judgeships in the lurch, for political reasons, they need to think again, because a fair number of us will insist that we do our work before we adjourn.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

The PRESIDING OFFICER. Under the previous order, the Senate will now resume consideration of S. 994, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 994) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes.

The Senate resumed consideration of the bill.

Pending:

Chafee amendment No. 5361, to remove certain provisions with regard to FAA's authority to regulate aircraft engine standards.

Simon/Jeffords amendment No. 5364, to amend the Employee Retirement Income Security Act of 1974 with respect to the auditing of employee benefit plans.

AMENDMENT NO. 5364

The PRESIDING OFFICER. The pending question is the Simon amendment No. 5364.

Mr. BYRD. Mr. President, I ask unanimous consent to speak out of order for not to exceed 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

HOWARD O. GREENE

Mr. BYRD. Mr. President, I rise today to pay tribute to a true professional, a loyal public servant, a staff member and Senate official who has served the Senate with allegiance and honor during his 28 years of working for this body, in this body, and with this body—Howard O. Greene.

It isn't enough that we say in our hearts
That we like a man for his ways;
And it isn't enough that we fill our minds
With psalms of silent praise;
Nor is it enough that we honor a man
As our confidence upward mounts;
It's going right up to the man himself
And telling him so that counts.
Then when a man does a deed that you really
admire,

Don't leave a kind word unsaid,
For fear to do so might make him vain
Or cause him to lose his head;
But reach out your hand and tell him, "Well
done",

And see how his gratitude swells;
It isn't the flowers we strew on the grave,
It's the word to the living that tells.

Yesterday, a goodly number of Senators on both sides of the aisle expressed their word to the living. Howard Greene served the Senate since 1968 as a door messenger, a Cloakroom assistant, the Assistant Secretary for the Minority, Secretary for the Majority, Secretary for the Minority, and most recently as Senate Sergeant at Arms.

Now, these are the bare facts about Howard Greene's Senate career. But there is much more than one could say about Howard Greene's work. Over the years, I found him to be an individual of unflinching courtesy and cooperativeness, one who was always respectful of the Senators on this side of the aisle as well as those on the other side. His word was always his bond, and that counts a great deal in this day and time. He was a man of strict principle in this Chamber, and absolute dedication to duty, dedication to his party, dedication to the Senate.

He carried out his many responsibilities in the various Senate offices which he held with distinction and uncommon integrity. He unflinchingly presented his views in an objective and straightforward manner.

During my years in the majority as leader of my party, and during my

years in the minority as leader of my party in the Senate, I always found Howard Greene to be trustworthy, forthright, straightforward, honest. It was not just a job for Howard Greene; it was a calling. He literally devoted his life to this institution. And so today, he richly deserves all of the accolades of yesterday, when a resolution commending him for his outstanding service and an outstanding career was adopted by the full Senate.

He will be missed on both sides of the aisle. I will miss him, and he will be missed on a personal and on a professional basis. I wish him all the best in his future endeavors, and I hope that he will come around and see his old friends.

I consider him to be my friend. Friendship crosses the aisle, friendship crosses party lines. "He that hath friends must show himself friendly."

I say to my true and dear friend, JOHN CHAFEE, a Republican Senator from the State of Rhode Island, who is my friend, has been my friend, and will always be my friend, that we should treasure friendships. I treasure a friend and a friendship like that of Howard Greene.

I shot an arrow into the air,
It fell to earth, I knew not where;
For, so swiftly it flew, the sight
Could not follow it in its flight.

I breathed a song into the air,
It fell to earth, I knew not where;
For who has sight so keen and strong,
That it can follow the flight of song?

Long, long afterward, in an oak
I found the arrow, still unbroke;
And the song, from beginning to end,
I found again in the heart of a friend—

Howard Greene.

Mr. President, I yield the floor.

Mr. CHAFEE addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. CHAFEE. Mr. President, I thank the distinguished senior Senator from West Virginia for the very kind comments that he made about the friendship that we have had. I am here now in my 20th year, and as I look back on the individuals I have known here and the friends I have had and the respect I have for them, there is none that stands higher than the distinguished senior Senator from West Virginia, who I feel lucky to have known. We have worked together on issues. Sometimes we have been in opposition on issues, I will confess to that, but never with rancor and always with friendship and always with, certainly from my point of view, respect, and I would like to believe the respect was mutual.

I am absolutely confident that there is no tribute that Howard Greene has received on this floor that will mean more to him than the one he has received from the distinguished senior Senator from West Virginia, because he has, as do all the Members on this side and all the Members of the Senate, tremendous respect and affection for the gentleman who once upon a time was majority leader, and he has been minority leader. He has had every post in

the Senate. And Howard Greene, I know, will be very, very pleased to receive the accolades that came from the distinguished senior Senator from West Virginia.

Mr. BYRD. Mr. President, I thank the distinguished Senator from Rhode Island for his kind remarks. He is a gentleman, and his high dedication to purpose is worthy of adulation and emulation. I shall always treasure our associations over the years, and I look forward to the future years of service with my friend, John CHAFEE.

Mr. CHAFEE. Mr. President, again, I thank the Senator and say how flattered I am by the kind comments that the Senator from West Virginia made about me.

FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

The Senate continued with the consideration of the bill.

AMENDMENT NO. 5361

Mr. CHAFEE. Mr. President, I call now for my amendment No. 5361.

The PRESIDING OFFICER. The Senator has that right. It is now the pending question.

AMENDMENT NO. 5361, AS MODIFIED

Mr. CHAFEE. Mr. President, I ask unanimous consent to modify my amendment, and I send that modification to the desk.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The amendment is so modified.

The amendment (No. 5361), as modified, is as follows:

Page 78, line 12, strike "and aircraft engine emissions,".

Page 78, line 19 through 24, strike all of paragraph (C) and insert the following:

(C)(1) The Environmental Protection Agency shall consult with the Federal Aviation Administration on aircraft engine emission standards.

(2) The Environmental Protection Agency shall not change the aircraft engine emission standards if such change would significantly increase noise and adversely affect safety.

(3) The Administrator, as the Administrator deems appropriate, shall provide for the participation of a representative of the Environmental Protection Agency on such advisory committees or associated working groups that advise the Administrator on matters related to the environmental effects of aircraft and aircraft engines.

Mr. BAUCUS. Mr. President, I am pleased that we have been able to reach an agreement with the managers on this issue. The amendment offered on behalf of Senator CHAFEE and myself corrects language in the bill that creates overlapping authority in the EPA and the FAA, conflicting regulations, and fiscal waste.

The result of the Commerce Committee's proposal contained in S. 1994 would have been confusion and uncertainty for the airline industry, and unnecessary burdens for the taxpayers.

Let me explain the situation briefly. The Clean Air Act Amendments of 1990 require the EPA to set emission stand-

ards for new aircraft engines. The bill before us, however, grants the FAA the very same authority. Thus, two different agencies would have the same authority.

With all the effort by this administration and Congress to downsize the bureaucracy and trim agency budgets, I don't think the committee intended this duplication. The Secretary of Transportation acknowledges that, if this provision became law, the FAA would have had to develop the expertise and capacity to set emission standards. So this bill would have required an entirely new office, with a new budget and new workers all to do a job already being done by the EPA.

This just didn't make sense. The FAA is now straining to meet its basic responsibilities in aviation security and safety. We should not divert them from those critical missions by forcing them to duplicate work already being performed by another agency.

Mr. President, this amendment corrects the situation by eliminating the provision in S. 1994 which creates the FAA's duplicate authority over emission standards. I'm pleased that the compromise we reached with the managers also requires greater cooperation between the two agencies by directing the EPA to consult with the FAA prior to setting new emission standards for aircraft engines. The amendment also allows the FAA Administrator to include representatives from the EPA on advisory committees that deal with issues of aircraft standards.

This should facilitate coordination between EPA, the FAA and interested parties early in the development of any future regulations.

In conclusion, I believe this amendment makes good sense all around. It protects the taxpayer by eliminating unnecessary bureaucracy and duplication. It encourages better dialogue between government and industry. And it avoids any weakening of our environmental standards.

I'm pleased the managers of the bill have accepted the amendment and I thank them for their willingness to work with us on this important issue.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Mr. President, I thank the Senator from Rhode Island for his cooperation and the modification of his amendment. As far as this Senator is concerned, as far as our side is concerned and the administration is concerned, his modification makes his amendment now acceptable.

The chairman of the subcommittee, Senator MCCAIN, is working on one other amendment. We feel we are ready to go at some point with your amendment, which will be accepted, I am sure. I do thank him, again, for his cooperation and congeniality.

Mr. CHAFEE. Mr. President, let me express my appreciation to the distin-

guished Senator from Kentucky for his help on this and also Senator MCCAIN, the floor manager of this legislation. This is something that has been worked out. Amazingly enough, we seem to have everybody satisfied. Having seen these things in the past, I am a great believer in getting things done, if we can.

I will suggest the absence of a quorum and see perhaps if we can get Senator MCCAIN here just briefly and get this one accepted, if it is agreeable. If there is no other business, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ASHCROFT). Without objection, it is so ordered.

Mr. FORD. As far as Senator Chafee's amendment is concerned, now, as modified, this side has no objection.

Mr. MCCAIN. Mr. President, we have no objection to the amendment. But also I would like to thank Senator CHAFEE. He is the watchdog in this body for environmental issues. I am very grateful that he would reach this compromise so that we can move forward with the bill. Frankly, I think the bill will be stronger now that we have his seal of approval. So we have no objection.

The PRESIDING OFFICER. The question occurs on agreeing to the amendment No. 5361, as modified.

The amendment (No. 5361), as modified, was agreed to.

Mr. MCCAIN. I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question now occurs on the Simon amendment No. 5364.

Mr. FORD. Mr. President, I ask unanimous consent that the Simon amendment be set aside temporarily.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CHAFEE addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. CHAFEE. Again, I want to express my appreciation to Senator MCCAIN and Senator FORD for their assistance in this, also the folks from the FAA and EPA. I think we have worked out a good solution here, and I am very pleased with that.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FORD. Mr. President, we sometimes appear not to be working as it relates to the camera in the Senate Chamber. However, those that have been observing from the balcony and those who are staff and Senators will understand we have been working feverishly for about the last 2 hours in order to accommodate Senators who have amendments that are reworded and so forth so that we might move forward with legislation that is meaningful and that is doable.

I thank the distinguished Senator from Rhode Island, Senator CHAFFEE. We arrived at an agreement and modified his amendment and we were able to accept that.

I want everyone to know we have been working hard to put this piece of legislation together. It is important. Hopefully, we will be able to finish by 2 o'clock.

AMENDMENT NO. 5359

(Purpose: To express the sense of the Senate regarding acts of international terrorism)

Mr. FORD. Mr. President, I call up amendment 5359, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. REID, proposes an amendment numbered 5359.

Mr. FORD. I ask unanimous consent reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following new section:

SEC. . SENSE OF THE SENATE.

(a) FINDINGS.—The Senate finds that—

(1) there has been an intensification in the oppression and disregard for human life among nations that are willing to export terrorism;

(2) there has been an increase in attempts by criminal terrorists to murder airline passengers through the destruction of civilian airliners and the deliberate fear and death inflicted through bombings of buildings and the kidnapping of tourists and Americans residing abroad; and

(3) information widely available demonstrates that a significant portion of international terrorist activity is state-sponsored, -organized, -condoned, or -directed.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that if evidence establishes beyond a clear and reasonable doubt that any act of hostility toward any United States citizen was an act of international terrorism sponsored, organized, condoned, or directed by any nation, a state of war should be considered to exist or to have existed between the United States of America and that nation, beginning as of the moment that the act of aggression occurs.

Mr. FORD. Mr. President, this is a sense of the Senate as it relates to evidence established relating to hostilities toward any U.S. citizen as it relates to the airlines. I believe this amendment is cleared and we can move forward.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5359) was agreed to.

Mr. FORD. I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

AMENDMENT NO. 5369

(Purpose: To provide for additional days for comment for proposed regulations establishing special flight rules in the vicinity of Grand Canyon National Park)

Mr. FORD. Mr. President, I send an amendment to the desk for immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. BRYAN, proposes an amendment numbered 5369.

Mr. FORD. I ask unanimous consent reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following:

SEC. . SPECIAL FLIGHT RULES IN THE VICINITY OF GRAND CANYON NATIONAL PARK.

The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration, shall take such action as may be necessary to provide 30 additional days for comment by interested persons on the special flight rules in the vicinity of Grand Canyon National Park described in the notice of proposed rulemaking issued on July 31, 1996, at 61 Fed. Reg. 40120 et seq.

Mr. FORD. On behalf of Senator BRYAN, this amendment relates to flying over the Grand Canyon National Park. I believe this is also agreed to.

The PRESIDING OFFICER. Is there debate on the amendment?

Without objection, the amendment is agreed to.

The amendment (No. 5369) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 5372

(Purpose: To prohibit the Surface Transportation Board from increasing user fees)

Mr. FORD. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. DORGAN, for himself and Mr. PRESSLER, proposes an amendment numbered 5372.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following: "Notwithstanding any other provision of law, the Surface Transportation Board shall not increase fees for services in connection

with rail maximum rate complaints pursuant to 49 CFR Part 1002, STB Ex Parte No. 542."

Mr. FORD. Mr. President, I ask unanimous consent that Senator PRESSLER be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FORD. Mr. President, this is an amendment relating to increasing fees in connection with rail rates. I believe this is agreed to.

The PRESIDING OFFICER. Is there debate on the amendment?

Without objection, the amendment is agreed to.

The amendment (No. 5372) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 5371

(Purpose: To assure adequate resources for the Essential Air Service program)

Mr. FORD. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. EXON, for himself, Mr. DASCHLE, Mr. DORGAN, and Mr. PRESSLER, proposes an amendment numbered 5371.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 95 at the end of line 11 insert the following new sentence: "Services for which costs may be recovered include the costs of air traffic control, navigation, weather services, training and emergency services which are available to facilitate safe transportation over the United States, and other services provided by the Administrator or by programs financed by the Administrator to flights that neither take off nor land in the United States."

Mr. FORD. Mr. President, I ask unanimous consent that Senator DASCHLE, Senator DORGAN, and Senator PRESSLER, be added as cosponsors of this amendment by Senator EXON.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FORD. I believe this amendment is also agreed to.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5371) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 5368

Mr. McCAIN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN], for Mr. DOMENICI, proposes an amendment numbered 5368.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 119, line 1, strike all after "activities", through "collections" on line 2.

Mr. DOMENICI. Mr. President, my amendment would make a technical change to a provision contained in the bill regarding the budgetary treatment of certain fees. The amendment would not change the budget scoring of the bill by the Congressional Budget Office, nor would it change the budget treatment of the user fees created in the bill for international overflights.

The amendment has been cleared by both managers of the bill and I urge its adoption.

Mr. McCAIN. Mr. President, this is a technical amendment that has to do with offsetting budgetary considerations. It is acceptable to both sides. I have no further comment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5368) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN. Mr. President, I ask unanimous consent for the consideration of an amendment by Senator HELMS, and I ask unanimous consent because this amendment by Senator HELMS had been intended to be included in the package last night. We neglected to do so by oversight. So, again, I ask unanimous consent that an amendment by Senator HELMS be in order.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5377

(Purpose: To provide for the transfer of the United States' interest in the Hickory, North Carolina Air Traffic Control Tower.)

Mr. McCAIN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN], for Mr. HELMS, for himself and Mr. PRESLENER, proposes an amendment numbered 5377.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

SEC. 41 . TRANSFER OF AIR TRAFFIC CONTROL TOWER; CLOSING OF FLIGHT SERVICE STATIONS.

(a) HICKORY, NORTH CAROLINA TOWER.—

(1) TRANSFER.—The Administrator of the Federal Aviation Administration may transfer any title, right, or interest the United States has in the air traffic control tower located at the Hickory Regional Airport to the City of Hickory, North Carolina, for the purpose of enabling the city to provide air traffic control services to operators of aircraft.

Mr. McCAIN. Mr. President, this amendment by Senator HELMS has to do with flight service stations and an air control tower. It is acceptable by both sides.

I have no further comment on the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment?

Without objection, the amendment is agreed to.

The amendment (No. 5377) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN. Mr. President, Senator ROTH will be coming to the floor momentarily to propose an amendment, which is without controversy. We are ready to accept that amendment. That will leave us with three amendments remaining—one by Senator BROWN of Colorado, one by Senator GRAHAM of Florida, and one by Senator SIMON of Illinois.

We are in the process of working out language on these three final amendments, and I am hopeful that following Senator ROTH's statement, within a very short period of time, we will have completed all pending amendments on this bill. We will then be prepared to move to third reading and a vote, and that decision is to be made by the majority leader and Democratic leader.

Until Senator ROTH arrives and we finish working out this language, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ROTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Delaware is recognized.

AMENDMENT NO. 5370

(Purpose: To provide for expenditures from the Airport and Airway Trust Fund)

Mr. ROTH. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. If there is no objection, the SIMON amendment will be set aside. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Delaware [Mr. ROTH], for himself and Mr. MOYNIHAN, proposes an amendment numbered 5370.

Mr. ROTH. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following:

TITLE—EXTENSION OF AIRPORT AND AIRWAY TRUST FUND EXPENDITURE AUTHORITY

SEC. . EXPENDITURES FROM AIRPORT AND AIRWAY TRUST FUND.

Section 9502(d)(1) of the Internal Revenue Code of 1986 (relating to expenditures from Airport and Airway Trust Fund) is amended by—

(1) striking "1996" and inserting "1997"; and

(2) inserting "or the Federal Aviation Reauthorization Act of 1996" after "Administration Authorization Act of 1994".

Mr. ROTH. Mr. President, this bill calls for expenditures from the airport and airway trust fund. The airport and airway trust fund is governed by the Internal Revenue Code which is exclusively within the jurisdiction of the Finance Committee. Therefore, at the request of the Commerce Committee, Senator MOYNIHAN and I are offering an amendment to modify the Internal Revenue Code in order to allow expenditures from the airport and airway trust fund as provided in this bill. I am pleased to take action today to ensure continued funding for the airway system, particularly in light of current security and system concerns.

It is my understanding that this amendment has been cleared on both sides of the aisle and there is no objection to it.

I yield the floor.

Mr. FORD. Mr. President, this side has no objection. We accept the Senator's amendment and thank him for his interest.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 5370) was agreed to.

Mr. ROTH. Mr. President, I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN. Mr. President, I thank the distinguished chairman of the Finance Committee while he is in the Chamber. This legislation has a lot of implications associated with it concerning the way we are going to fund the Federal Aviation Administration, and a great deal of what is going to happen in the future falls under the authority of the Finance Committee. I thank Senator ROTH for his cooperation, for joining us in an effort at reforming the Federal Aviation Administration financially and for finding ways that we can fully fund it. I believe we could not have done so without the spirit of cooperation that he and his staff have displayed.

I thank the Senator from Delaware.

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Let me join my colleague in complimenting Senator ROTH. I believe it was almost unanimous among

those Senators who were here last night who were very concerned about the so-called ticket tax expiring on December 31 and going through a 10-month hiatus as we had, and it was finally worked out. Many of our colleagues are going to be asking about additional security operations, new and innovative ideas, new machinery, LOI's, letters of intent, that we have on airports, things of that nature.

I encourage the Senator, if he could, to find a way in his good work to see if there is something we could do to extend the so-called ticket tax until such time as a report comes back with suggestions from the group on how to finance FAA. I think it would meet with a great many accolades and applause, and so forth, if he could do that.

Many of us have projects that are ongoing, and many of us have letters of intent. I do not want any Senator to look at me and say, "Where is the money?" and I did not make every effort to try to accomplish that. So I say that to my friend in a spirit of cooperation.

Mr. ROTH. Mr. President, I agree with my distinguished colleague as to the urgency for action in this area, and the desire for the Finance Committee to move expeditiously on the tax matters. I have to say, like the Senator from Kentucky, I am very concerned about the security of the airports and want to work very closely with the Commerce Committee in assuring it is adequate, and that whatever financing is necessary becomes available.

I yield the floor.

EMERGENCY REVOCATION AMENDMENT TO S. 1994

Mr. INHOFE. Mr. President, I had intended to offer an amendment regarding the Federal Aviation Administration's [FAA] emergency revocation powers; however, after conferring with the chairman and ranking member I have withdrawn my amendment because they have agreed to work with me on this issue in the 105th Congress.

Aviation safety not only requires consistent diligence, but also balance. It is balance that my amendment sought to achieve between the rights of the airmen to use their certificates and the need for the FAA to immediately revoke the certificates of unsafe operators. Over the past several years we have witnessed a sharp increase in the number of emergency revocations. In an revocation action, brought on an emergency basis, the airman or other certificate holder loses the use of the certificate immediately, without an intermediary review by an impartial third party. The result is that the airman is grounded and in most cases out of work until the issue is adjudicated.

My amendment would have established a procedure whereby the airman could request a hearing before the NTSB Board on an expedited basis to determine if a true emergency existed and therefore justified the immediate revocation of the airman's certificate. If the NTSB decided no emergency existed, then the airman could have use

of his certificate while the FAA pursued their case against the airman. If the NTSB decided an emergency existed then the revocation would remain in effect until the case could be fully adjudicated.

Given the chairman's assurances of his willingness to work with me on this issue in the 105th Congress, I have withdrawn my amendment and look forward to working him and the ranking member to address this problem.

Mr. PRESSLER. Mr. President, if the Senator will yield, I want to assure him that it is my intention that the committee work closely with him on this issue.

Mr. McCAIN. If the Senator will yield further, I concur with Chairman PRESSLER and want to add my assurances that the Subcommittee on Aviation will thoroughly examine this issue through the hearing process in the 105th Congress.

Mr. HOLLINGS. If the Senator will yield, I too want to assure the Senator from Oklahoma that we will work with him to address the problem he has highlighted.

Mr. FORD. If the Senator will yield, I agree with the chairman that we should review this issue more closely in the 105th Congress.

Mr. INHOFE. I thank the chairmen and ranking members. I appreciate their willingness to not only discuss this issue but to come to some resolution.

Mr. BURNS. I join my colleagues in calling for hearings on this important issue. This issue deserves our immediate attention and I look forward to working with the chairman in developing a record on this issue.

THE "AGE 60 RULE"

Mr. SIMPSON. Mr. President, I should like to address a critical issue that is very familiar to Members of this body who have been involved with the Federal Aviation Administration—it is the "age 60 rule." In 1959, the FAA implemented a regulation to prohibit pilots, having reached the age of 60, from flying jets regulated by part 121 of the FAA regulations—that is, passenger-carrying jets with more than 30 seats. This year, the FAA has extended that ban to include commuter jets with more than 10 seats.

I do not want to hold up this very important bill in order to carry out a lengthy debate on whether or not the ban is justifiable. I am not here to overturn that rule. Indeed, few of us here would be in any way qualified to do such a thing. Instead, I believe the FAA must certainly be willing to treat pilots over the age of 60 in a manner that is fair and consistent with its treatment of other pilots.

The FAA, acting in the interest of public safety has concluded that pilots—however experienced they may be—over the age of 60 should not be allowed to fly. I would submit, however, that this conclusion has not been supported through any independent study. It can not be accurately studied be-

cause no U.S. pilot over the age of 60 has been allowed to fly "part 121" aircraft at any time during the last 36 years.

In light of this situation, the judiciary—in a number of cases, but notably in the October 31, 1990 Baker versus FAA (7th Circuit Court of Appeals)—has upheld the FAA's position for the reason, as they stated, that the issue of age discrimination is clearly subordinate to that of passenger safety. The court did point out, however, that one of the FAA's own studies on flight time for class III pilots indicated that pilots between 60 and 70 with more than 1,000 hours of total flight time and more than 50 hours of recent flight time had the lowest accident rates of any age group of pilots.

In conclusion, the court admitted that these pilots face a catch 22 in that they are unable to obtain exemptions from the age 60 rule until they can show they can fly large passenger aircraft safely, yet they cannot show such ability until they obtain an exemption. In the end, the court affirmed the FAA's order, saying, "it is supported by substantial, albeit certainly not compelling evidence."

In the FAA's "part 121" regulations, the FAA is empowered to grant exemptions to this rule if it "finds that such action would be in the public interest," however, no exemptions have ever been granted regardless of physical condition or safety record. This is in spite of the fact that the FAA currently issues special certificates to pilots under the age of 60 with histories of alcohol abuse or even heart conditions. The FAA's explanation is that it has "present tests that can predict the expected course of a known medical deficiency" such as heart disease or alcoholism "with sufficient accuracy to allow valid, individualized judgments" but that "the same accuracy is not possible when assessing the decrements associated with the aging process." I do not believe this is a consistent policy or a fair treatment of many pilots with impeccable records, but who also have more than 60 years of life behind them.

In this bill, which will do so much to advance the issue of airline safety, I think it is a tragedy that there has been no mention of the fact that hundreds of this country's potentially safest and most experienced pilots have been grounded because of a rule with little or no empirical basis. I strongly believe that the FAA should outline the criteria by which it would consider exempting certain pilots from the "age 60 rule," so that even a very small number of exceptionally fit pilots could be studied in order to form the basis for a future review of this outdated rule.

I know this issue was briefly touched upon in Commerce Committee hearings, but it was not explored in enough depth, so I would like to ask my friend from Arizona, chairman of the Aviation Subcommittee of the Senate Commerce Committee, whether he would

consider calling hearings on this important issue to many airline pilots, the "age 60 rule."

Mr. MCCAIN. I say to my friend that the Aviation Subcommittee has held a number of hearings on this in the past and I would again consider having additional hearings on this very important matter.

Mr. SIMPSON. I thank the Senator for his courtesy and his extremely hard work on this legislation.

TERRORISM AND AVIATION SECURITY

Mr. KERRY. Mr. President, I congratulate the distinguished chairman of the Commerce Committee for moving forward on this important bill and for including provisions that seek to address terrorism and aviation security. I have worked with the chairman on these important provisions for many months. The Gore Commission recommended that the FAA move forward expeditiously with deployment of advanced explosive detection equipment, and this legislation contains provisions to implement that recommendation.

For too long our efforts have fixated on finding the perfect technology that will give us a silver bullet against terrorism at our airports. While other countries have deployed explosive detection technology that is commercially available, economically reasonable, and compatible with realistic air carrier operating conditions, our research-oriented approach has resulted in the U.S. deploying nothing, and thus becoming an attractive target for terrorists.

It is my understanding that the language in the managers' amendment requires the FAA Administrator to deploy existing, commercially available, and operationally practicable explosive detection devices.

Mr. PRESSLER. Mr. President, the Senator from Massachusetts is correct. This legislation requires the FAA to begin immediate deployment of commercially available explosive detection equipment. This deployment will occur as an interim measure to address airport and air carrier security vulnerabilities while the FAA continues to undertake research and operational testing of equipment such as the CTX.

Mr. KERRY. Mr. President, I ask the Senator from South Dakota if I am correct that the language contained in this bill will result in the speedy deployment of a variety of explosive detection systems that are cost effective, and compatible with realistic operating conditions, such as those systems manufactured by Vivid Technologies, Thermedics Detection, EG&G, IonTrack, and AS&E.

Mr. PRESSLER. Mr. President, the Senator from Massachusetts is correct—that is the intent of this bill.

Mr. KERRY. Mr. President, I thank the Senator from South Dakota for his clarification and I voice my strong support for these security provisions.

Mr. HOLLINGS. Mr. President, for years we have been asking passengers

to pay money to support the safety needs of the aviation system. In 1970, Congress created the airport and airway trust fund as a means to make sure that the Federal Aviation Administration [FAA] had enough money to build and support our Nation's airports and the FAA's own air traffic control system.

The FAA's mission is to oversee the safety of the traveling public. When any accident occurs, as we have seen in the recent ValuJet and TWA accidents, there are many possible reasons for the accident. People on television are quick to rush to conclusions. We use the expertise of the National Transportation Safety Board [NTSB] to determine the cause of a crash. The Everglades crash scene, as Bob Francis, Vice Chairman of the NTSB, has indicated, was extremely treacherous and necessitated a difficult investigation. The TWA accident presents the additional complication of a criminal investigation carried on side-by-side with the accident investigation. One thing is certain—the FAA must be fully funded to meet the challenges and aviation growth in the future.

S. 1994 incorporates much of the text of S. 1239, the FAA reform bill, reported by the Commerce Committee last November. Those provisions call for an independent review of the precise needs of the FAA, followed by the submission of a funding proposal to finance the agency. The industry must recognize that ultimately we have to decide how best to support and fund the agency. Delay is no longer an option.

OVERSIGHT OF SAFETY

When we take a broad perspective, we do know that aviation is the safest form of transportation. More than 40,000 people die each year in highway accidents. According to testimony before the Commerce Committee, more people die each year because of electrocution—525—than because of airline crashes. Yet, the tragic crash of ValuJet flight 592 into the Florida Everglades on May 11 is significant because it may well have been avoidable.

We can go back over every action by the FAA, every inspector general [IG] report, every report by the General Accounting Office [GAO], and still not resolve what is safe. If someone says "you need more inspectors or better training for inspectors," and a crash occurs, the person pushing for more inspectors and training is touted as a sage by the media. Anyone, however, can pick any issue in the aviation field, make a broad statement, and tomorrow there may be a crash that may make the statement appear to be the essence of wisdom.

The FAA oversees the activities of carriers and maintenance facilities through its inspector work force. Each air carrier is assigned a principal operations, maintenance, and avionics inspector. For a large carrier, there may be 30 to 60 FAA inspectors assigned to oversee its operations. In addition, the

FAA uses "geographic" inspectors who, for example, are responsible for air carrier operations at a particular airport or area. The geographic inspector may conduct ramp inspections on a wide variety of aircraft types, even though the inspector may only be certificated on one aircraft type. As a general matter, FAA inspectors are extremely well qualified. An air carrier operations inspector, for example, is required to hold a pilot's license, with a minimum of 1,500 flight hours.

The DOT IG's office testified on April 30 before the Senate Governmental Affairs Committee on problems concerning the inspector work force. Substantial and serious concerns were raised and as a result I asked the chairman for a hearing on that matter. The concerns raised by the IG included insufficient training for inspectors and the inadequate computerization of inspection reports. These are legitimate concerns that must be addressed.

The FAA will be completing a review of its inspector work force perhaps this week. I wrote to the FAA Administrator expressing my desire to work with him to address the inspector issues. GAO has indicated that the FAA inspectors need substantial training, perhaps \$17 million more than requested by the FAA. The training budget has been cut by 42 percent from the 1993 level. If we are to expect the FAA inspectors to do their job properly, they must be adequately trained and have the tools needed to do their job. For example, the FAA is struggling with developing a computer system to track inspector safety reports. The inspectors are frustrated with the new computer system, and spend far too much time inputting data, rather than doing inspections. The system is supposed to be able to aid the FAA in targeting its resources. FAA management must work with its work force to get that system back on track so that the inspectors have confidence in the system. DOT needs additional inspectors.

AVIATION SECURITY

Aviation security is an extremely complex issue. It involves technology, people, intelligence information, national security, and a recognition that there are people willing to commit heinous crimes aimed at our government and our citizens.

On December 21, 1988, Pan Am flight 103 blew up over Lockerbie, Scotland, killing 270 people. It took almost 2 years to pass legislation to address some of the problems that stemmed from that crash.

Investigators in New York have not yet identified the cause of the crash of TWA flight 800, and numerous options are being considered. We have to let the investigators complete their mission. The NTSB, Navy, FBI, and State and local personnel are working hard to determine the cause of the accident. We do know this, however—the public deserves the best technology operated by the best trained individuals, to reduce the risks of a terrorist attack.

Another thing is clear—security is going to be costly. The FAA has estimated that it will cost as much as \$2.2 billion to install up to 1,800 machines at 75 airports. Today, there are approximately 14,000 to 18,000 screeners, paid an average of \$10,000 to \$15,000 per year. These screeners are one line of defense, but a critical one in the fight against terrorism. They need training, and they need to be paid in accordance with their responsibilities. The present turnover rate among these employees is extremely high. Unless we change the way we provide security, we cannot upgrade it. All the technology in the world still requires a person to watch a screen, listen to alarms, and be able to recognize materials that should not go on board an aircraft.

No matter what we do, safety comes first. Nothing should go onto an aircraft without being screened. Cargo, company material, and baggage all should be subject to inspection.

Security changes may require a fundamental alteration in the way air carriers provide services. Longer lines can be expected. Unfortunately, it is a price we must pay to deal with people in this world willing to stop at nothing.

I urge my colleagues to vote for passage of this bill.

NOISE MITIGATION PROGRAMS

Mr. GORTON. Within the programs authorized in S. 1994, the Federal Aviation Administration reauthorization bill, are allocations for noise mitigation. Under the Airport Improvement Program [AIP], the Federal Aviation Administration [FAA] has allocated funds to airports of all sizes to implement noise mitigation programs. Due to lower funding levels of the AIP, the FAA has recently implemented a rule that limits an airport to \$8 million maximum for Federal noise mitigation funds—\$5 million a year for single family housing and \$3 million a year for all other uses.

Mr. President, while this type of new cap may be appropriate in certain circumstances, I believe that a single cap, regardless of an airport interests or needs, is inappropriate for two reasons. First, in evaluating existing noise programs around the country, I think it is evident that certain airports have made noise mitigation a top priority. Seattle-Tacoma International Airport, for example, has been the national leader and was the first to implement the local housing insulation program to reduce noise impacts in houses surrounding the airport. Having enacted noise mitigation programs, certain airports that enacted plans prior to imposition of this new cap, and after extensive negotiations and commitments with both the surrounding communities and the FAA, are now expected to follow through on previous commitments. If the program cost exceeds the new cap, the FAA is essentially abandoning its previous commitments. I believe that is unacceptable.

Second, it is clear that large airports in densely populated areas should have

to implement broader noise mitigation programs than small, general aviation airports. For that reason, a single, hard cap for all airports, regardless of size and location, is not the best way to distribute funds in an equitable manner.

Mr. President, the Senator from Arizona knows that I included language in the fiscal year 1997 Transportation appropriations Senate report that directs the FAA to consider pledges and agreements made by the airport authority, in consultation with the FAA, to communities prior to the promulgation of the new ceiling, and to make appropriate exceptions to the policy where necessary to meet legitimate expectations of neighborhoods near airports. Because the fiscal year 1997 Transportation appropriations House report was silent on the issue, the Senate language is the prevailing language that should be followed by the FAA.

I believe it is appropriate, however, to also discuss this matter within the context of this legislation to ensure that my sentiments on this issue are correct.

Mr. McCAIN. I agree with the Senator from Washington. We all understand that, in an era of constrained budgets, it may be necessary for the FAA to try to limit noise mitigation funds per airport. As the Senator mentioned, however, I agree that where prior commitments have been made it is necessary and appropriate that the FAA show flexibility so that those commitments may be honored.

TRAIN WHISTLE PROVISION

Ms. MOSELEY-BRAUN. Mr. President, the managers' amendment to the legislation before us includes a provision that provides important direction to the Department of Transportation with regard to the implementation of a provision of the Swift Rail Development Act of 1994.

Under this 1994 law, the Federal Government is required to develop regulations that direct trains to sound their whistles at all hours of the day and night at most at-grade railroad crossings around the country, unless the local communities can afford to act on a specified list of alternatives. The Swift Rail Development Act will require trains to blow their whistles at approximately 168,000 railroad crossings in the United States and more than 9,900 in Illinois—including about 2,000 in the Chicago area and 1,000 in Cook County alone.

This provision was inserted into the 1994 law without debate or discussion. Communities had no input into the process, even though it will be communities that will be most affected.

I am acutely aware of the need to improve the safety of railroad crossings. A recent tragedy in my home State involving a train and a schoolbus in Fox River Grove, IL, killed seven children and shattered the lives of many more families. According to statistics published by the Department of Transportation, someone is hit by a train every 90 minutes. In 1994, there were nearly

2,000 injuries and 615 fatalities caused by accidents at railroad crossings around the country. Clearly, ensuring the safety of our rail crossings is imperative.

The Swift Rail Development Act mandates that trains sound their whistles at every railroad crossing around the country that does not conform to specific safety standards. It does not take into consideration the effect of this action on communities, nor does it require the Department of Transportation to take into consideration the past safety records at affected at-grade crossings.

Requiring trains to blow their whistles at every crossing would have a considerable effect on people living near these crossings. It is unclear, however, that there would be a commensurate improvement in safety. In Fox River Grove, for example, the engineer blew his whistle as he approached the road crossing, but the schoolbus did not move.

At many railroad crossings in Illinois and elsewhere, accidents never or rarely occur, while some crossings are the sites of frequent tragedies. Just as we do not impose the same safety mandates on every traffic intersection in the country, we should not universally require trains to blow their whistles at every railroad crossing in the country.

When transportation officials decide to make safety improvements at a highway intersection, they consider a wide range of factors, including its accident history, traffic patterns, and conditions in the surrounding area. Every intersection is a case study. There are guidelines, but not inflexible rules.

The approach to railroad crossing safety should be no less reasoned. The train whistle should be one tool in the transportation safety official's regulatory repertoire; it should not be the only one. Because every community has a different history and different needs, I do not believe that a one-size-fits-all, top-down approach to railroad crossing safety is appropriate.

In Dupage County, IL, for example, there are 159 public railroad crossings. In 1994, there were accidents at only 18 of these crossings, and 45 have not experienced an accident in at least 40 years. On one of METRA's commuter rail lines, 64 trains per day pass through 35 crossings. In the last 5 years, there have been a total of three accidents and one fatality along the entire length of this corridor.

Every one of the crossings on this METRA commuter line has a whistle ban in place to preserve the quiet of the surrounding communities. The imposition of a Federal train whistle mandate on this line would, therefore, have a considerable negative impact on the quality of life of area residents. The safety benefits, on the other hand, would, at best, be only marginal.

METRA's Chicago to Fox Lake line has 54 crossings and is used by 86 trains per day. A whistle ban is in place on 37

of these crossings. Between 1991 and 1995, there were a total of 13 accidents on this line, with 5 injuries and 1 fatality.

In Des Plaines, IL, one of my constituents reports that she lives near 5 crossings. In the last 11 years, there has been only one accident at any of these crossings. She will hear a train whistle at least 64 times per day and night.

In Arlington Heights, IL, there are four crossings in the downtown area about 300 feet away from one another. A total of 5,400 residents live within one-half mile of downtown, and 3,500 people commute to the area every day for work. Sixty-three commuter and four freight trains pass through Arlington Heights every weekday between the hours of 5:30 a.m. and 1:15 a.m.

Train whistles are blown at nearly 150 decibels, and depending on the weather, they can be heard for miles. According to one Burlington Northern railroad conductor, a train traveling from Downers Grove, IL to La Vergne, IL—a distance of approximately 12 miles—would have to blow its whistle 124 times. There are 144 trains traveling this route every day.

Mr. President, the residents of these communities, and others across Illinois and the country, are confused by the 1994 law that will require train whistles to sound at all hours of the day and night in their communities—in some cases hundreds of times per day—at railroad crossings that have not experienced accidents in decades, if ever.

Under a Federal train whistle mandate, homeowners in many of these communities would experience a decline in their property values, or an increase in their local taxes in order to pay for expensive safety improvements. The 1994 law, in this respect, represents either a taking of private property value, or an unfunded mandate on local communities.

The train whistle mandate places the entire burden on the community. Trains will keep rolling through quiet, densely populated towns at all hours of the night, and both the railroads and the passengers will experience no disruptions.

In aviation, by contrast, airline flights are routinely routed to minimize the disturbance to surrounding communities. Flight curfews are established, and restrictions are placed on certain types of aircraft in efforts to minimize the disruption to area residents. These restrictions place burdens on airlines, passengers, and the communities; it is a joint effort.

The pending legislation includes a provision providing the Department of Transportation with important direction on how to implement the train whistle law in a more rational and flexible manner. It directs the Secretary of Transportation to consider the interests of affected communities, as well as the past safety records at affected railroad crossings. The concerns of local communities must be heard—not just the sounds of train whistles.

It also addresses safety concerns. In situations where railroad crossings are determined not to meet the supplementary safety requirements, communities will have up to a maximum of 3 years to install additional safety measures before the train whistle mandate takes affect. In these situations, the Department of Transportation will work in partnership with affected communities to develop a reasonable schedule for the installation of additional safety measures.

Mr. President, I have been concerned about the implementation of the Swift Rail Development Act since Karen Heckmann, one of my constituents, first brought it to my attention more than a year ago. Since that time, I have spoken and met with mayors, officials, and constituents from Illinois communities, and visited areas that would be most severely affected. In response to their concerns, I have written several letters to, and met with Transportation Secretary Peña and other officials numerous times, and have been working with the Department of Transportation to ensure that they implement the 1994 law in a manner that both works for communities and protects safety.

The pending legislation provides important congressional direction to the Department of Transportation that is consistent with the ongoing discussions that I, and other members of Congress, continue to have with the Department.

The Senate adopted a functionally identical amendment to the Transportation appropriations bill this summer. During conference committee consideration of that bill, the amendment was deleted and language was instead inserted into the conference report that accompanies that bill.

I am pleased that the Senate today will again pass the strong, legislative language providing direction to the Department of Transportation. I want to thank my colleague, Senator RON WYDEN, for his work on this issue, and also the members of the Commerce Committee for again accepting this important provision.

Mr. KERRY. This bill to reauthorize the Federal Aviation Administration is good legislation. I would like to commend the diligent efforts of several Senators in drafting this legislation and in shepherding it through the committee process—including Senators FORD, MCCAIN, HOLLINGS, and PRESSLER, and also the work of their capable and helpful staffs.

Mr. President, this is a very important bill to our Nation because the FAA plays such a critical role in our nation's transportation infrastructure. We ask the FAA each year to ensure the safety of all civil aviation and to oversee the continued development of our national system of airports. Significantly, through a comprehensive program that includes a vast air traffic control network, and thousands of maintenance inspections of our na-

tion's civilian airlines, the FAA carries out the important task of ensuring the safety of the millions of Americans that utilize air travel each year. This bill is also important to Massachusetts which relies very heavily on air transport for both people and cargo. From Logan Airport in Boston to the smaller airports located throughout Massachusetts, airports and air transport are critical to the economic and social travel needs of the people of Massachusetts.

Foremost, I support this bill because it provides the FAA with the necessary tools to carry out these important tasks. S. 1994 provides the FAA with \$9.28 billion in total budget authority for fiscal year 1997 which includes \$5 billion for operations, \$2.28 billion for the airport improvement program, \$1.8 billion for facilities and equipment, and \$200 million for research, engineering, and development. This total figure represents an increase of \$1.13 billion over the FAA's total budget authority for fiscal year 1996 and an increase of \$1.07 billion over the administration's budget request.

But this bill does more than simply provide funding. In order to improve our civil aviation system, the bill seeks to reform and improve the FAA's operations. The bill affords the FAA a needed measure of autonomy from the larger Department of Transportation. For example, the FAA administrator will have the final authority to accept or reject proposed changes to FAA regulations. This change moves the final word to where it belongs: the agency with the expertise. In addition, the bill places time restrictions on the FAA's ability to act on pleadings from the aviation industry and other interested parties. This change will lend a measure of certainty to the timing of FAA actions and, thereby, make it easier for the industry to forge ahead with business plans that depend on FAA regulatory action.

The bill also contains a provision to make sure that smaller airports continue to receive sufficient financial assistance should FAA Federal funding levels decline. Specifically, S. 1994 caps the percentage of funding that can be allocated to large and medium airports. This provision will permit smaller airports, such as those in New Bedford and North Adams, MA, to continue to receive a substantial level of FAA funding.

I am pleased to note that the bill does not reverse the FAA's long-standing and sensible policy of permitting multi-modal independent authorities, such as the Massachusetts Port Authority, to function as intended by their enabling statutes. For years, MASSPORT has been permitted to manage a multi-modal transportation system for the Boston region, using revenues from Logan Airport, the Port of Boston, Tobin Bridge, and other activities, to administer the system as a whole. At different times, this has meant that one individual component has subsidized other components that

MASSPORT operates. Because the region relies on all components working together, federal law has recognized such subsidies as legitimate and permissible. Indeed, without the authority to merge revenues, the entire transportation infrastructure of the greater Boston region would be thrown into chaos causing disastrous consequences for the region's economy. I want to thank Senator MCCAIN and his staff for working with my staff on this issue so that a compromise could be reached that is acceptable to all parties involved. I also want to recognize the efforts of Minority Counsel Sam Whitehorn for his contributions to the discussions between our offices and the ultimate agreement.

I also would like to call the Senate's attention to the FAA's recent decision to award the contract for designing and constructing the next generation of air traffic control systems, known as the Standard Terminal Automation Replacement System or STARS, to the Raytheon Co. which is headquartered in Lexington, Massachusetts. The STARS program will provide a complete replacement of critical air traffic control radar displays of aircraft in the "terminal area"—the airspace within 50 miles of an airport.—The systems in use today are based on outdated technologies and their replacement is absolutely essential to keep up with our Nation's increased air traffic demands. I am proud that this Massachusetts company, known for years to be on the cutting edge of important technological advances, has been given the opportunity to reconstruct our air traffic control systems for the 21st century. I am equally pleased that the location of first implementation is to be Logan Airport.

Finally, and importantly, I am very pleased that this bill contains some very important steps toward enhancing airport security that will result in greater safety for commercial flights originating at U.S. airports. I have been pushing the FAA for several years to begin to use existing advanced technologies far more capable than x-rays and metal detectors to screen passenger baggage for explosives before it is placed on aircraft. At long last, based on the conclusions of the Gore Commission established by President Clinton to address airline security in the aftermath of the TWA crash off Long Island, the FAA will be instructed to move forward in this respect. Rather than awaiting the arrival of a new sensor technology that can meet all desired sensor standards perfectly or nearly perfectly, the FAA will be instructed to procure and implement use of the best currently available technology—which is the approach taken by virtually all European nations. It is long past time for the United States to take this step. I have addressed this subject at greater length with Chairman PRESSLER previously during this debate.

Mr. President, this is a well crafted bill. I will vote for this bill, and I urge my colleagues to support it.

SUPPORT FOR FAA AUTHORIZATION BILL AIR TRAVEL SAFETY AND SECURITY PROVISIONS

Mr. REID. Mr. President, I want to express my appreciation to the managers of the FAA reauthorization bill for incorporating into the bill many of the provisions of the Travelers Rights Act which I introduced prior to the August recess.

Mr. President, air travel is fundamental to our national transportation system. Americans who travel across this Nation and globally would not be able to conduct their business without the conveniences of air travel. However, recently the dangers of air travel have become even more clear. With the risks of air travel in mind, I introduced the Travelers Rights Act to provide for a way that consumers could obtain safety information. To provide to the public the safety background on airlines is a matter of common sense. It is a matter of public policy to provide citizens the information necessary for them to make choices in most other areas basic to their health, safety, and welfare. Given that food labeling must reveal ingredients, automobile labels must indicate maintenance and mileage, and under the Safe Drinking Water Act, recently reauthorized, water contaminants must be revealed annually to the water users and communities, we should do require no less in regard to air travel.

Besides mandating intensified security and safety for air travel, the provisions of the Travelers Rights Act that have been incorporated were the travelers' access to information and the safety survey and reports that the FAA will be required to submit to Congress. There is information that ought to be available and if the customer seeks the information the airlines should expeditiously provide it. This bill is not to scare travelers about the safety and security of air travel, rather on the contrary, I believe this bill will inspire confidence through openness and knowledge. Additionally, if customers of air travel exercise their right to know about certain elements about the airlines, aircraft, and crew then that too will enhance the trust between customers and the airlines. In this effort to require knowledge and the coordination of information, Senators FORD and WYDEN have been extremely helpful in their communication with the Federal Aviation Administration.

I do regret that absent from title III of the FAA reauthorization is the Victims Rights Program, which I see as integral to expediting the distribution of information to the survivors of victims of terrible airline accidents and destruction. The responsible Federal agencies should be coordinated better to provide families the details and facts as quickly as possible and in such a manner so that survivors can grieve and cope with tragedy with all of the knowledge that they need.

But I do commend Senator FORD for integrating into title III of the bill the provisions of consumer access that the Travelers Rights Act contained.

Mr. LUGAR. Mr. President, as the Senate moves to a conference with the House of Representatives on the Federal Aviation Administration Reauthorization Act of 1996, I am hopeful conferees will give thoughtful consideration to the provisions included in the manager's amendment adopted Tuesday evening. I noted with some concern that a number of provisions in this amendment were new to the bill, and in some cases, not germane to the purpose of the legislation. I hope my colleagues will share my interest in assuring that an appropriate check and balance is maintained as the 104th Congress continues its legislative work.

While I support swift enactment of this important measure to reauthorize the Federal Aviation Administration, I am concerned about a provision of the bill included with the manager's amendment amending the Johnson Act. In response to concerns about the rapid growth of legalized gambling in the United States in recent years, Congress recently approved legislation to create a 2-year National Gambling Impact Study Commission. This Commission will conduct a comprehensive review of the social and economic impact of legalized gambling on our Nation, and will provide a report to Congress, the President, Governors, and others, on this important issue. Until we know more about the effects of this recent national trend, I have reservations about changing a Federal law that could allow for further expansion of legalized gambling in the United States.

AMENDMENT TO THE JOHNSTON ACT

Mr. SIMON. Mr. President, it is my understanding that there was language included in the manager's amendment to the Federal Aviation Authorization Act of 1996 that would allow a gambling operation off the coast of California.

I am the chief sponsor of legislation establishing a gambling commission to study the impact of gaming on municipalities, states and tribal governments. It is my feeling that we are making a mistake by sanctioning this new operation before we have a chance to study the Commission's findings.

The Federal Aviation Authorization legislation is an important bill, which is why I offered my support despite the language amending the Johnston Act.

Mr. BYRD. Mr. President, today we are considering the reauthorization of the Federal Aviation Administration [FAA]. The FAA performs a critical role in managing our nation's air traffic control system, which handles two takeoffs and landings of aircraft every second of every hour of every day. Yet most Americans are unaware of the complexity and scope of this system, and simply take it for granted.

Nonetheless, the deregulation of the airlines and expansion of the air transportation system have imposed significant strains upon the existing system.

Some air control centers are using older equipment that is not as reliable as what is currently available. Other centers, that lack both equipment and sufficient numbers of air traffic controllers, are forced to delay flights. Reform of the FAA is needed, because increasing demand for air travel will only exacerbate these problems at our nation's major airports.

My own state of West Virginia, however, does not have a major hub airport. We have not had to worry about delays of frequently scheduled, and low-priced flights. Our problems have been of an entirely different magnitude. We have had to endure the cancellation of flights, the end of airline service to some of our communities, and a huge increase in fares charged to passengers who fly out of airports in West Virginia.

This dramatic decline in airline service to my state has occurred as a result of airline deregulation. On the day that I cast my 14,000 vote, I observed that one of the votes that I most regret was supporting airline deregulation. At the time, I was told it would lead to cheaper fares. It has, but only in some regions of the country and large urban areas, while my own constituents have paid hundreds of dollars more for even shorter flights. I was told that deregulation would lead to an increase in the number of flights, and make air service more convenient. Again, it has, but only if your city is fortunate to be at the center of a major market. My own constituents have far fewer flights to choose from, and in many cases, must drive to an airport in another state in order to fly at a reasonable price. This is a far cry from convenience.

This bill addresses these concerns, as it directs the Secretary of Transportation to conduct a study to examine air fares that are charged to passengers using airports located in small communities, as compared with air fares charged to passengers using large hub airports. The purpose of the report will be to determine if passengers using airports in small communities are paying "a disproportionately greater price" as compared with passengers using hub airports in large urban areas, as well as to indicate the number of small communities that have lost air service as a result of the deregulation of commercial air carriers.

I strongly support this study, and believe that an examination of the impact of deregulation on rural America is long overdue. Nonetheless, from the perspective of West Virginia, it is almost self evident that small communities are paying a disproportionately greater price. For example, if I want to fly from my office in Charleston, West Virginia's capital and largest city, to my office in Washington, I will pay a one-way walk-up coach fare of \$332. If I want to benefit from airline deregulation, I must spend over two hours driving to Columbus, OH, in order to fly for \$179. In other words, I must drive west, consuming gasoline and adding another

automobile to the highways, in order to fly east at a reasonable fare. To use another example, it costs twice as much to fly from Charleston to Houston, TX, as compared with flying from Columbus to Houston.

In a 1996 study by the General Accounting Office (GAO), the GAO found that fares have decreased at small and large hub airports. However, airports serving small and medium-sized communities in the Southeast and Appalachian region "have experienced sharp increases in fares since deregulation." Not surprisingly, the GAO found that where low-cost carriers have entered a market, the fares have declined. But in areas that have not been so fortunate—where one or two higher cost airlines dominate service—fares have risen by more than 20 percent. When the GAO examined the fares charged per passenger mile at the Charleston airport, it found that fares had increased by 24.7 percent from 1979 to 1994.

Under the onslaught of deregulation, it is becoming increasingly difficult for small airports in West Virginia to continue to operate. Several of these airports benefit from Essential Air Service (EAS) support. The EAS program was created as a direct result of airline deregulation, for even as the supporters of deregulation trumpeted its benefits, they recognized that deregulation would hurt small airports. EAS was intended to be a temporary subsidy for small airports to help them develop profitable service. The impact of deregulation has been so severe that EAS has become a permanent necessity in order to keep some small airports open. This bill includes a provision that permanently funds the EAS program at a level of \$50 million, which is an increase of \$24.1 million, when compared to current appropriations. If less than \$50 million is obligated for EAS programs, the remaining funds will be made available for grants to rural airports to improve rural air safety. This increase in EAS funding, and the provision calling for the study of rural air fares, was offered in the Commerce Committee by Senator BYRON DORGAN, and I wish to thank him for his efforts to help struggling airports in small communities.

S. 1994 also includes a provision that requires that funding to large and medium hub airports would be limited to a percentage of total AIP funding. This provision will help protect small airports from disproportionate cuts in AIP funding, in the event that future levels of appropriations to AIP should decline.

This bill is a significant and positive step in examining the impact of deregulation on small airports in our country. But it is not enough. Small airports across America are suffering under the burden of rising fares and declining service. As the Congress continues to examine the issues surrounding FAA reform in the next few years, it is my hope that the impact of deregulation on small community airports can be given additional consideration.

Mr. McCAIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5378

Mr. McCAIN. Mr. President, on behalf of Senator BROWN, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, the Simon amendment is set aside.

Without objection, the amendment may be considered at this time.

The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona (Mr. McCAIN), for Mr. BROWN, proposes an amendment numbered 5378.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following:

SEC. . REPORTING FOR PROCUREMENT CONTRACTS.

Section 47112 is amended by adding at the end the following new subsection:

"(d) REPORTING FOR PROCUREMENT CONTRACTS.—(1) The Secretary of Transportation shall promulgate regulations to require that each grant agreement that includes the awarding of any contract that includes Federal funds in an amount greater than or equal to \$5,000,000 under this subchapter provides for a report to the Secretary that states—

"(A) the number of bids from qualified, responsive and reasonable bidders that were in amounts lower than the amount specified in the bid submitted by the bidder awarded the contract;

"(B) for each bid referred to in subparagraph A (other than the bid submitted by the bidder awarded the contract) the amount by which the bid submitted by the bidder awarded the contract exceeded the lower bid.

"(2) APPLICABILITY.—This subsection shall apply to grants referred to in this paragraph that are awarded on or after the date of enactment of this Act."

Mr. McCAIN. Mr. President, Senator FORD and I have examined this amendment. It has to do with disclosure of contract awards. We appreciate Senator BROWN's willingness to change the language so that it is acceptable to both sides.

I yield the floor.

The PRESIDING OFFICER. If there is no further debate, the question is on agreeing to the amendment of the Senator from Colorado.

The amendment (No. 5378) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Oregon is recognized.

Mr. WYDEN. Thank you, Mr. President.

Mr. President and colleagues, I rise in support of this legislation, S. 1994, to reauthorize the programs of the FAA. This is important legislation, and I especially want to commend the chairman of the Aviation Subcommittee, Mr. McCAIN, and also the distinguished ranking member of the Aviation Subcommittee, Senator FORD, for working closely with me on several provisions that have been included in this legislation.

Suffice it to say that when consideration of this bill began, it was a relatively modest reauthorization measure. No safety or security issues—certainly not any dramatic changes in safety or security policy—were envisioned at that time. Now these concerns are finally back to the forefront where they belong. It is my view that with this legislation the Senate takes the first step toward meaningful action to improving aviation safety and security in our country.

I think it has to be understood that there is still a long way to go even with the enactment of this legislation, but with the passage of this bill at least the prospect has begun in earnest to strengthen safety and security for the citizens who fly in our country.

My view is that in particular it is time to adopt new policies that empower the consumer, make it possible for consumers to be in a position to get critical information about aviation safety in our country. Right now it is possible for consumers to find out if their bags get crushed, and it is possible to find out if their flight is on time. But it is pretty darned hard for consumers to find out if the airline that they fly on has been fined for violating a major safety law.

At present what happens is, if there is a violation of a major safety law by an airline, for a citizen to find out they have to file a Freedom of Information Act request in order to get the information about a safety violation on the part of an airplane on an airline that they fly regularly. I do not think that is good enough. I think consumers deserve better. And Senator FORD and I have requested that the Federal Aviation Administration undertake an effort to make this kind of information available to the citizens of our country.

In the next few weeks we expect to receive a report from the Federal Aviation Administration about the best

way to make important safety information available to the public, and this legislation that the Senate considers today requires a comparable report to the National Transportation Safety Board.

Mr. President, colleagues, let me say that from my standpoint this is only part of what needs to be done to empower consumers to get relevant information about safety and security. For example, today the Federal Aviation Administration posts signs in U.S. airports about the security dangers in foreign airports, but there are not any signs about security problems at our airports. It seems to me, again, that consumers, in line with certain uniform criteria so that the airlines and all who work in aviation understand what the standards are—the airlines would be expected to act in concert with those kinds of safety and security criteria, and the public would have a right to know whether airports in our country are meeting those safety and security criteria just as we now have postings with respect to security problems at foreign airports.

So I think that in these next few weeks we will begin to get information from the FAA with respect to how to make this key safety information public. I want it understood, Mr. President and colleagues, that I think this is just the beginning.

I want to thank the chairman of the Aviation Subcommittee. Both he and his staff have been very helpful to me in this effort to empower consumers. I am going to make a couple of other quick comments with respect to the legislation, but I want Chairman McCAIN to know that I very much appreciate the help that he and his staff, as well as Senator FORD, have given me on this; because, for the life of me, I cannot figure out why it is right for consumers to find out if their bags get crushed, find out if their flights are on time, but why they ought to have to go out and file a Freedom of Information Act request to determine whether an airline has violated major safety laws. That is not right. That has to be changed. On a bipartisan basis, working with Chairman McCAIN and ranking member FORD, I think we can get it changed. We will get that information with respect to the FAA in the next couple of weeks.

This legislation makes a positive step forward as well as by requiring a comparable report from the National Transportation Safety Board.

I also want to say to Chairman McCAIN that I want to work very closely with him on the matter of security postings at our airports. I have had a chance, both publicly and privately, to discuss this with officials in the aviation field. It is important to do it in line with certain recognized criteria. But it seems to me that, if an airline passenger in Phoenix, Portland, or anywhere else goes into an airport and finds out about overseas airports that have security problems, it seems to me

they ought to have a right to know about the airports in our country where there are security concerns as well because I think those empowered consumers, once they have that kind of information, will help us and help us on a bipartisan basis to work for the kind of safety and security that the public deserves.

Mr. President, colleagues, one of the other aspects of this bill that I think makes a positive step forward deals with the need for uniformity in definitions relating to safety. Right now an accident involving a death or a serious injury or substantial damage to an aircraft is treated the same as an accident involving a plane backing into a truck or a coffee-cup spill that causes problems which are also reported as an accident. An incident involves less severe mishaps that affect safety in other ways, such as planes hitting birds or things of this nature. This legislation will provide some uniformity in terms of definitions in this area, and I think that is a fortunate step forward.

I also think this legislation is very helpful from the standpoint of requiring more comprehensive employment investigations, including criminal history record checks for individuals who will screen airline passengers, baggage and property. Under Senators McCAIN and FORD, what has happened here is the legislative straitjacket that has hamstrung FAA efforts in this area are removed. I think that is a helpful step forward as well.

Finally, I think this legislation is a very important measure with respect to the small airports of our country. These airports, such as Bandon and John Day and Klamath Falls, in my home State, serve citizens in rural Oregon. This legislation makes it possible for those small airports around the country to get some help at a critical time. Without the funding formula of this legislation, the smaller airports would suffer disproportionate cuts in grant funding at a time when appropriations are especially tight.

So this is a piece of legislation that needs to be enacted. I think, with respect to safety and security, it is important to note that when this reauthorization began, safety and security were not much measured in what looked, at that time, to be a modest reauthorization. But the events of the last few months have indicated that important and much more significant action needs to be taken, especially with respect to safety and security. I think the legislation that Chairman McCAIN and Ranking Member FORD bring to the Senate moves us significantly in the right direction.

Mr. President, I yield the floor and urge adoption of the legislation.

The PRESIDING OFFICER (Mr. CAMPBELL). The Senator from Arizona.

Mr. McCAIN. Mr. President, I thank the Senator from Oregon for not only his kind words but, far more important, for the exuberance, passion, and knowledge that he brings to the Aviation Subcommittee and the Commerce,

Science and Transportation Committee. Obviously, he is committed and knowledgeable on these issues. We value his participation and the very important contributions he has made to this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Mr. President, let me join my colleague, Senator MCCAIN, in complimenting the Senator from Oregon, Mr. WYDEN. He has been a great asset to this institution since he arrived and has been a tremendous asset to the Commerce Committee since he has joined us there. He has been thoughtful, he has been thorough, he has been amenable, but all the time pushing forward as it relates to help in all pieces of legislation, not particularly this one, in his effort to see that his constituents are protected and are helped.

I compliment him on the contribution he has made to having S. 1994 at this point, and I look forward to working with him in the future.

AMENDMENT NO. 5364

Mr. FORD. Mr. President, it is my understanding the Simon pension amendment is pending?

The PRESIDING OFFICER. The Senator is correct.

Mrs. KASSEBAUM. Mr. President, I rise for the purpose of entering into a colloquy with the Senator from Illinois regarding his limited scope audit amendment.

Mr. SIMON. I would be delighted to enter into such a colloquy.

Mrs. KASSEBAUM. We have drafted a sponsors' memorandum to accompany the amendment to assist with the interpretation of this legislation. Would the Senator agree that this interpretative memorandum embodies what the sponsors intend to accomplish with this legislative change to ERISA?

Mr. SIMON. Yes.

Mrs. KASSEBAUM. I would ask unanimous consent that the interpretative memorandum be printed in the RECORD immediately preceding the disposition of the amendment, and I thank the Senator from Illinois.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

INTERPRETIVE MEMORANDUM FOR REPEAL OF PENSION LIMITED SCOPE AUDIT

This amendment addresses potential deficiencies with ERISA's current audit requirements for employee pension benefit plans. Specifically, the legislation addresses the "limited scope audit" provisions in ERISA. The sponsors of the amendment intend this memorandum to accompany the legislation to provide guidance to employee benefit plans, accountants, auditors, and regulated financial institutions.

Under current law, ERISA Sec. 103(a)(3) requires the administrator of a benefit plan to engage an independent qualified public accountant to examine the financial statements of the plan and render an opinion as to whether the financial statements are presented fairly in conformity with generally accepted auditing principles. However, under Sec. 103(a)(3)(C), the accountant need not render an opinion as to assets of the plan

held by a bank, insurance company, or other financial institution subject to State or Federal regulation.

Since many pension plans have a material portion of their assets held by regulated financial institutions, and an accountant generally will not provide an opinion (e.g. the accountant provides a disclaimed opinion) as to a plan when a material portion of its assets are not accessible to the accountant, a great number of plans receive no opinion. The General Accounting Office and the Department of Labor's Inspector General have identified the large number of disclaimed opinions that have been issued as a source of concern.

The sponsors intend this amendment to require, in virtually every circumstance, that pension plan accountants rely upon the audits (e.g. SAS 70 reports) performed for banks and other regulated institutions. Thus, pension plan auditors, relying upon the audit report of the regulated entity, would be able to perform an audit and express an opinion on the plan's financial statements without any scope restriction.

The sponsors recognize the concerns of pension plan sponsors and regulated financial institutions regarding duplication of effort, increased cost, and disruption of operations that might otherwise be associated with modifying the limited scope audit provisions of ERISA. The sponsors do not intend that regulated institutions undergo multiple independent audits to satisfy the requirements of this legislation. Such a requirement would needlessly raise costs to plans and disrupt the operations of the regulated institution. For these reasons, the sponsors intend, in the vast majority of cases, that plan accountants will rely upon the audits (e.g. the SAS 70 report) performed by the auditors of the regulated financial institution.

However, there are a narrow set of circumstances where the SAS 70 report may not be, on its face, sufficient for the plan auditor's purpose. The auditor's response to those situations will vary depending on many factors, including the plan's own system of reviewing the results of the regulated institution's processing of the individual plan's activities. Significantly, the situations where the pension plan auditors needs physically to visit the regulated institution are very infrequent, and are most likely to occur when problems are identified with the regulated institution's processing.

The instances where the sponsors anticipate that plan auditors may need to perform additional audit work, beyond the SAS 70 report, include the following:

1. The SAS 70 report is a so-called Type I audit, which includes a description of whether the policies and procedures in place at the regulated institution's operation are fairly represented and are suitably designed. However, the Type I audit does not include an assurance on the functional, operating effectiveness of the regulated institution's policies and procedures, as would be provided under a Type II SAS 70 report. In this situation, the plan auditor may need to perform tests of the controls, depending upon whether it is more efficient to reduce the assessed level of control risk at the regulated institution or to perform additional work at the plan.

2. If the SAS 70 report covers a different reporting period than the plan's fiscal year, then the auditor may need to inquire of the regulated institution as to whether there were any changes to the institution's policies and procedures during the period not covered by the SAS 70 report. If the difference in coverage period is significant, or there have been material changes to the regulated institution's policies and procedures

as they relate to the plan's transactions, then the plan auditor may need to gain an understanding of the policies and procedures in effect during the period not covered by the SAS 70.

3. If the SAS 70 report is limited as to its coverage of the regulated institution's policies and procedures as they relate to the plan being audited, then the auditor may need to gain an understanding of the policies and procedures not covered in the SAS 70 report. For instance, if the SAS 70 report does not address the policies and procedures specific to the services performed for the plan, or the report does not cover activities performed by subservices, then additional work may be required (such as, in the latter case, obtaining a SAS 70 report from the subservicer).

4. If the SAS 70 report identifies instances of noncompliance with the regulated institution's internal control structure policies and procedures, then the auditor would have to consider the effect of those findings on the assessed level of control risk of assertions in the plan's financial statements.

Mr. KENNEDY. I strongly support the Jeffords-Simon amendment, and I strongly urge the Senate to approve the Pension Audit Improvement Act of 1996. This will make a significant improvement in the safety of working Americans' pensions.

The amendment will require that every penny of assets held by pension plans is subject to rigorous annual audit. Plan participants and the Department of Labor will be able to identify where plan assets are held and what investment vehicles are being used to fund pension benefits.

Under current law, if a pension plan invests a large percentage of its assets in a highly leveraged insurance company, plan participants often have no way to know that their benefits are at risk.

Current law exempts nearly one-third of the \$3 trillion in assets held by pension plans from the strict audit requirements of the ERISA statute. That's more than \$950 billion in pension plan assets that pension plan participants and the Department of Labor cannot track.

This amendment will change all that. Under the amendment, plan sponsors will be required every year to provide a detailed audit of 100 percent of a plan's assets. Plan participants and the Department of Labor will have the tools necessary to assess whether plan sponsors are living up to strict fiduciary requirements. Hard-working Americans should not have to fear that their pensions will disappear before they retire.

This amendment is sensible and needed. It enhances the safety of the vast assets held by America's pension plans. Working Americans deserve the pensions they have labored hard and long to earn. This amendment will significantly advance that goal and I urge its adoption.

Mr. FORD. We are ready to accept the Simon amendment.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment.

The amendment (No. 5364) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 5373

(Purpose: To amend the Tariff Act of 1930 to clarify the authority of the Customs Service to require air carriers to provide by electronic transmission advance cargo and passenger manifest information)

Mr. FORD. Mr. President, I call up an amendment by Senator GRAHAM of Florida.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Kentucky [Mr. FORD], for Mr. GRAHAM, proposes an amendment numbered 5373.

Mr. FORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following new section:

SEC. . ADVANCE ELECTRONIC TRANSMISSION OF CARGO AND PASSENGER INFORMATION.

(a) CARGO INFORMATION.—

(1) IN GENERAL.—Section 431(b) of the Tariff Act of 1930 (19 U.S.C. 1431(b)) is amended—

(A) by striking "Any manifest" and inserting "(1) Any manifest", and

(B) by adding at the end the following new paragraph:

"(2)(A) Every passenger air carrier required to make entry or to obtain clearance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission cargo manifest information described in subparagraph (B) in advance of such entry or clearance in such manner as the Secretary shall prescribe.

"(B) The information described in this subparagraph is as follows:

"(i) The airport of arrival or departure, which ever is appropriate.

"(ii) The airline prefix code.

"(iii) The carrier code.

"(iv) The flight number.

"(v) The date of scheduled arrival or date of departure, whichever is appropriate.

"(vi) The permit to proceed to the destination, if applicable.

"(vii) The master and house air waybill numbers and quantities.

"(viii) The first airport of lading of the cargo.

"(ix) A description and weight of the cargo.

"(x) The shipper's name and address from all air waybills.

"(xi) The consignee name and address from all air waybills.

"(xii) Notice that actual boarded quantities are not equal to air waybill quantities.

"(xiii) Transfer or transit information.

"(xiv) Warehouse or other location of the cargo.

"(xv) Any other data that the Secretary may by regulation prescribe."

(2) CONFORMING AMENDMENT.—Subsection (d)(1)(A) of section 431 of such Act is amended by inserting before the semicolon "or subsection (b)(2)".

(b) PASSENGER INFORMATION.—The Part II of title IV of the Tariff Act of 1930 is amended by inserting after section 431 the following new section:

"SEC. 432. PASSENGER MANIFEST INFORMATION REQUIRED FOR AIR CARRIERS.

"(a) IN GENERAL.—Every passenger air carrier required to make entry or obtain clear-

ance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission passenger manifest information described in subsection (b) in advance of such entry or clearance in such manner and form as the Secretary shall prescribe.

"(b) INFORMATION DESCRIBED.—The information described in this subsection is as follows:

"(1) Full name of each passenger.

"(2) Date of birth and citizenship of each passenger.

"(3) Passport number and country of issuance of each passenger.

"(4) Passenger name record.

"(5) Any additional data that the Secretary, by regulation, determines is reasonably necessary to ensure aviation safety pursuant to the Customs laws of the United States."

(c) DEFINITION.—Section 401 of the Tariff Act of 1930 is amended by adding at the end the following new subsection:

"(t) PASSENGER AIR CARRIER.—The term 'passenger air carrier' means an air carrier (as defined in section 40102(a)(2) of title 49, United States Code) or foreign air carrier (as defined in section 40102(a)(21) of such title 49) that provides transportation of passengers to or from any place in the United States."

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect 45 days after the date of the enactment of this Act.

Mr. FORD. Mr. President, we are now in a position to accept this amendment. I think our colleagues will be thankful that this is the last amendment on the agenda.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment.

The amendment (No. 5373) was agreed to.

Mr. FORD. Mr. President, I move to reconsider the vote.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 5379

(Purpose: To change the caption of title III)

Mr. McCAIN. Mr. President, I have a technical amendment at the desk. I ask unanimous consent that it be considered at this time.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 5379.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 2, in the item relating to title III, strike "AIRPORT" and insert "AVIATION".

On page 14, line 11, strike "AIRPORT" and insert "AVIATION".

Mr. McCAIN. Mr. President, this is an amendment which is purely technical in nature. It was requested by the Finance Committee and is simply changing one word. I yield the floor.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment.

The amendment (No. 5379) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona.

AMENDMENT NO. 5374

(Purpose: To provide for sequential referral of an implementing bill to the Committee on Commerce, Science, and Transportation and the Committee on Finance)

Mr. McCAIN. Mr. President, it is my understanding that amendment No. 5374 had never been called up. It was an oversight. I believed it had been called up last night. That was part of our unanimous-consent managers' amendment.

I ask that amendment No. 5374 be considered at this time.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 5374.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 113, beginning with line 16, strike through line 10 on page 115 and insert the following:

"(c) CONSIDERATION IN SENATE.—An implementing bill introduced in the Senate shall be referred to the Committee on Commerce, Science, and Transportation. The Committee on Commerce, Science, and Transportation shall report the bill with its recommendations within 60 days following the date of introduction of that bill. Upon the reporting of the bill by the Committee on Commerce, Science, and Transportation, the reported bill shall be referred sequentially to the Committee on Finance for a period of 60 legislative days.

"On page 116, strike lines 3 through 9."

THE PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment.

The amendment (No. 5374) was agreed to.

Mr. McCAIN. Mr. President, I move to reconsider the vote.

Mr. FORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCAIN. Mr. President, there may be additional colloquies that may be submitted between now and 2 o'clock, when I intend to propound a unanimous consent agreement concerning a vote on this bill today. But, according to the unanimous consent agreement entered into last night, that completes the amendments that are applicable to the omnibus FAA bill. That would complete our consideration of the bill, with the exception of the entry of colloquies and final passage, on which we will be asking for a roll-call vote.

In that case, Mr. President, before I turn to my friend from Kentucky, I

want to express my deep and profound appreciation for his effort on this legislation. This legislation is the product of many years of work together. He and I have been concerned about issues of aviation safety for the last 10 years that we have closely worked together. We have been concerned about the very serious issue of FAA reform and providing the right amount of funding for the FAA. We have been concerned about so many aspects of this bill from FAA reform to airport security to airline safety to airport revenue diversion and many others. We have been through a very long hearing process in all areas of this omnibus aviation bill. I think, when you look at the broad scope of this bill, it is really a fundamental piece of legislation as far as aviation in America is concerned. It would not have been possible without the bipartisan effort, especially led by my friend from Kentucky.

I want to express my appreciation to the chairman of the committee, Senator PRESSLER, who urged us on, who made valuable and important contributions, and without whose leadership this legislation would not be possible. Senator HOLLINGS, of course, who is one of the more knowledgeable individuals on the Commerce, Science, and Transportation Committee, has been extremely helpful, as well as Senator STEVENS.

Mr. President, I also would be remiss in not pointing out that Senator FORD, Senator PRESSLER, Senator HOLLINGS and I worked very closely with the Administration on this very important legislation. The Secretary of Transportation, Secretary Federico Peña, the Administrator of the Federal Aviation Administration, Mr. David Hinson, and especially—certainly especially—Ms. Linda Daschle, who did, really, the difficult spade work involved with this bill, especially FAA reform, spending literally hundreds of hours of negotiations in crafting this legislation between the Administration and Congress and Democrats and Republicans. So I especially thank Linda Daschle for her tireless stamina and outstanding work.

I also would like to thank our staff: Paddy Link, Tom Hohenthaner, Mike Reynolds, and Mike Korens of Senator PRESSLER's staff, Mitch Rose of Senator STEVENS' staff, of course, Sam Whitehorn of Senator HOLLINGS' staff and Tom Zoeller of Senator FORD's staff. Sam and Tom have been extremely helpful and cooperative. Finally, I would like to personally thank the tireless efforts of Chris Paul and Mark Buse on my staff. They worked very hard and spent many long hours, and I am especially grateful to them, as well. As I have said earlier, the staff of the Finance Committee worked with us in order to complete this bill and I wish to recognize them.

I would like to add one final note before yielding the floor to my friend from Kentucky.

Last night and again today, the Senator from Kentucky and I talked about

this issue of the ticket tax. Mr. President, it was a disaster. It was a disaster when we let this ticket tax lapse last December. I value the opinion of my friend from Kentucky on this. It is almost unconscionable for us to go out of session and let this ticket tax lapse again. We all know that the ticket tax lapses on the 31st of December. Congress will not be doing anything until, at best, late in January, and it could be much longer than that.

I would like to tell my colleagues that the Senator from Kentucky and I will be having to, if necessary, resort to parliamentary measures in order to get this ticket tax extended, ideally until such time as the commission reports out its recommendations or the Finance Committee will complete the entire process, but certainly a year, I would say, as a bare minimum. There is going to be a big crush of business coming up in a week or so. I do not intend to inflict further damage on our ability to complete our obligations—they are not our privileges; our obligations—to the American public concerning the maintenance, the improvement of and the safety of America's aviation system.

Again, I thank all of my colleagues for their cooperation on this bill. It is a very complex piece of legislation, encompassing a lot of different issues concerning aviation, in fact, just about everything we can think of. I thank my colleagues for their consideration.

I yield the floor, Mr. President. I know the Senator from Kentucky has comments before I propound the request concerning the vote at 2 p.m. I yield the floor.

The PRESIDING OFFICER. The Senator from Kentucky [Mr. FORD] is recognized.

Mr. FORD. Mr. President, I am pleased to support S. 1994, the Federal Aviation Administration Reauthorization Act of 1996. As the ranking member of the Aviation Subcommittee, I want to thank the chairman of the subcommittee, Senator MCCAIN, for his leadership and determination in bringing this bill to the Senate floor.

Mr. President, as the 104th Congress comes to a close, there are many bills which are labeled as "must pass." But this bill truly is a must-pass piece of legislation.

The FAA reauthorization act includes provisions which reauthorize the Airport Improvement Program [AIP]. The AIP program funds hundreds of airport improvement and construction projects throughout our Nation. But the program expires on September 30. Without this reauthorization bill, the FAA would be unable to fund many worthy aviation infrastructure projects. We cannot let that happen. The FAA's forecasts for the aviation industry project tremendous growth. Those forecasts project an average increase of 3.7 percent in domestic passenger traffic by the year 2007. One of the big growth areas will most likely be in the regional and commuter indus-

try. In 1995, regional and commuter air carriers carried 53.7 million passengers. By the year 2007, the FAA projects these same carriers to carry 96.9 million passengers—an annual growth of 5.4 percent.

The tremendous growth of air traffic will place tremendous challenges on airports and airways management. That is why it is so important for the Senate to pass S. 1994. We cannot permit the AIP program to lapse. We must continue to support many worthy airport construction and improvement projects that will help to sustain and support the growing demand for air carrier services, both passenger and cargo.

These increased demands on the air transport system require the Congress to re-examine the way in which the FAA is managed and funded. The FAA is predominantly funded through the airport and airway trust fund. The monies which are in the trust fund are distributed among specific programs and functions, including the FAA's operations account, the facilities and equipment account, research, the engineering and development account, as well as the Airport Improvement Program.

The trust funds is supported solely through revenue derived by a 10 percent passenger ticket tax, interest paid on Treasury certificates, and other taxes associated with air travel and aviation. However, on January 1, 1996, the aviation excise taxes lapsed. That lapse in the taxes resulted in a loss of \$500 million a month in trust fund revenues. With the enactment of the minimum wage and small business tax credits act, the aviation excise taxes were reinstated, but only to the end of this calendar year.

This experience has highlighted some problems and concerns with the FAA. Without a steady and reliable source of revenue, the FAA cannot fulfill its mission to promote a safe and reliable aviation system. To that end, S. 1994 establishes a 11-member panel to conduct an independent assessment of the FAA financing and cost allocations through 2002. This independent panel shall include individuals who have expertise in the aviation industry and who are able, collectively, to represent a balanced view of the issues which are important to all segments of the aviation industry, including: general aviation, major air carriers, air cargo carriers, regional air carriers, business aviation, airports, aircraft manufacturers, the financial community, aviation industry workers, and airline passengers.

This independent assessment is required to complete its work within 12 months. At which time the panel will make a report to the Secretary of Transportation. S. 1994 includes provisions which would provide for expedited consideration of any legislative proposal forwarded by the independent panel.

It is important to point out that we want this panel to be independent. It is

important that this panel consider all the options which can be considered for funding the FAA. By including all segments of the aviation industry, it is our hope that the independent panel will produce an unbiased and balanced report which considers all the pros and cons to funding options. We need to depoliticize the process for funding the FAA. By creating this independent panel, it is our hope that we can get a fair and reliable assessment of needs and funding sources. And through the expedited procedures contemplated in the bill, we hope to be able to enact those funding options as quickly as possible so that we will not face another funding lapse to the trust fund and the FAA.

This funding study will build upon personnel and procurement reforms already in place at the FAA, which were included in the Transportation Appropriations Act for fiscal year 1996.

In addition to the independent study on funding solutions for the FAA, the bill also includes provisions for the creation of a Management Advisory Council. Mr. President, I think we all acknowledge that the FAA has been an agency with its problems. Some of that criticism is well-deserved. But, I think that most Members will also acknowledge, that under the current leadership of David Hinson, the FAA is beginning to respond to the challenges. We want to build on these improvements and we want to enable the FAA to improve its management so that it is prepared to face the challenges of the 21st century.

The Management Advisory Council [MAC] will be composed of 15 members to provide the Administrator with input from the aviation industry and community. Membership on the MAC will include representatives from all government and all segments of the aviation industry; all of whom will be appointed by the President with the advice and consent of the Senate. Members of the MAC should be selected from among individuals who are experts in disciplines relevant to the aviation community and who are collectively able to represent a balanced view of the issues before the FAA. It is important to note that selection for MAC membership is not required to be based on political affiliation or other partisan considerations.

As was noted in the committee's report on S. 1994, the MAC is not another paper tiger. Rather, it is intended that the MAC's recommendations be taken under serious consideration by the Administrator.

Among the issues that we expect that the MAC to examine are: air traffic control modernization; FAA acquisition management; rulemakings and cost-benefit analysis; review the process by which the FAA determines to use advisory circulars and service bulletins; review of old rules, including FAR part 145.

Mr. President, since the Commerce Committee reported S. 1994, we experienced another air tragedy: the destruc-

tion of TWA flight 800 over the Atlantic Ocean. At this time, we do not know what caused that tragedy. But we do know that we need to reexamine our aviation security measures. Following this tragedy, the President appointed Vice President GORE to head a special commission on aviation security. Earlier this month, the Gore commission presented to the President's its initial report to the President. That report made a number of recommendations including the purchase of explosive detection equipment; the placing of security equipment at our major airports; increasing the use of passenger profiling through the use of existing data bases and air carrier computer reservation systems; criminal background checks and FBI fingerprint checks for all security screeners and other airport and airline personnel with access to secure areas; increasing funding to be used to facilitate a greater role for the U.S. Customs Service and other law enforcement agencies; designate the National Transportation Safety Board to deal with the families and relatives of crash victims; and provide additional funds for the training of airport security screeners. Within the managers amendment, we have included legislative language that will give the FAA the legal authority to undertake and implement the recommendations of the Gore commission.

It is important to note, however, Mr. President, that the Gore commission has not completed its work. In fact, the review of aviation security and safety is a dynamic and evolving process. While we have attempted to include security provisions within this bill, it is anticipated that the Congress will be considering further security recommendations and enhancements as the Gore commission continues its work.

I want to express my thanks to the Senator from New Jersey [Mr. LAUTENBERG] and the Senator from Texas [Mrs. HUTCHISON] for their contributions to this effort. I look forward to working with them in the future on this issue.

Mr. President, let me thank all Members who have expressed an interest in this bill. As my colleagues are aware, last night, Senator MCCAIN and myself worked throughout the evening to fashion a managers' amendment. Within that amendment, we have tried to include provisions and language that are of concern to other Members. I want to express my appreciation to my colleagues for their willingness to work with us on drafting this managers' amendment. Because of their cooperation and assistance, I believe that we will be able to move this bill forward quickly and complete action prior to September 30.

Mr. President, let me conclude by addressing one particular issue, the privatization of airports. I am aware that the House bill includes a provision which would establish a pilot program for six airports. I oppose those efforts

because the definition of privatization allows the new airport owner to divert revenues off of the airport; to receive Federal grants; to collect federally authorized PFC's; allow major carriers to dictate who runs an airport; and gives general aviation no say in privatization. In my mind, this form of privatization is a new form of corporate welfare. Moreover, Mr. President, privatization is opposed by the airlines, by general aviation, and by the airports. I am not opposed to finding new and innovative solutions to financing our airports. But I do not believe that privatization is a means to achieve that end.

Mr. President, let me thank my friend from Arizona, the chairman of the Subcommittee on Aviation of the Commerce and Transportation Committee. It is always a joy to watch him work. It is a joy to work with him. He has the kind of tenacity that is needed around here at times to accomplish something that is important not only to this country but internationally.

Senator MCCAIN is called on for more than just aviation. Senator MCCAIN is leaned on quite often as it relates to our defense policy. His love of the country and his defense of military personnel is always above reproach and without doubt.

So I am pleased that we have had this opportunity to work together, because the ingredients in this piece of legislation, if we can maintain it in conference, bring us to a point, I think, I say to Senator MCCAIN, that we have been striving for for a long time.

We have learned something, and I hope a lot of our colleagues have learned something. One of the top five Senators in the U.S. Senate over the centuries is from Kentucky. He is Henry Clay. Henry Clay was known as "the Great Compromiser." Compromise is not a nasty word, it is not a word that you ought to run from. But that is how you accomplish things around here.

Henry Clay described compromise as "a negotiated hurt." A compromise is a negotiated hurt. Sure, it hurts to lose something that you feel strongly about, but you usually get something. My father always told me, "You give up something, you get something," and that is compromise.

So I think in the proceedings on this bill, once it was brought up, that we have injected the Henry Clay philosophy. We have worked together. We have had give and take. We have had Senators who were very reluctant to give up what they wanted, but somehow or another we found a way to modify their amendment so that it would not be so onerous to some and yet pleasing to the offeror of the amendment.

So the experience of the moment is always something that builds on the education of the time spent in this institution.

Let me join with my friend in thanking his staff—I will not go through the list—for all of their fine cooperation,

and my two—I want to say staffers, but they are my friends. That is the way I look at them, Sam Whitehorn and Tom Zoeller, and the others on the staff and those from other committees who have been working with us. We found an air of cooperation and camaraderie that has been unusual, I think. So I am very pleased with the cooperation we have had, and I thank my friends.

Mr. President, let me thank all Members, too, who have expressed an interest in this piece of legislation. As my colleagues are aware, last night, Senator MCCAIN and I worked throughout the evening to fashion what we referred to here as a “managers’ amendment.” Those are amendments to be offered to the bill that we were able to work out and find agreement on. Rather than go through the long harangue of debate and running back and forth, our staffs worked together and our Senators cooperated. So we worked hard to fashion what we refer to and what was offered, what was adopted, as the “managers’ amendment.” Of course, the leadership in putting that together is given to Senator MCCAIN for his extraordinary effort in putting this managers’ amendment together.

Within that amendment, we have tried to include provisions and language that are of concern to not only our Members but others, because when we pass legislation, we either help or hurt our constituents. We either make it better or worse. So we have to be careful, once we agree on it, of what it does for the safety, for the betterment of the economy, whatever it might be. Even though we may agree, it is for those beyond this Chamber for whom we are here to work.

Sometimes I don’t always vote the way I personally feel. I think it was Hamilton who said in referring to the Congress, “In these Halls, the people’s voice shall be heard by their immediate representative.” That is us, and we vote what we hear from our constituents. Sometimes it is not exactly the way we would want it, but you try to respond to those who are interested.

I think we have another interested group out there that we have not had before, and it is the so-called “C-SPAN junkies.” I read the other day where some tape C-SPAN and come home at night and watch us. I didn’t know we were that good. I thought maybe some of them just turned us off. But these are people who have watched us, listened to us, and have become informed.

I don’t know how many calls you get, but every once in a while, someone will call and say, “I heard you speak. I don’t agree with that. I think you ought to do this,” and it has been an interesting period in the institution of the Senate.

I want to express my gratitude and appreciation to all my colleagues for their willingness to work with us in drafting this piece of legislation. Because of that cooperation and assistance, I believe we will be able to move this bill forward quickly and complete action, hopefully, before September 30.

So we have some time. I assure my colleagues, as Senator MCCAIN and I have assured each other, as soon as this bill is passed, we are going to work. We are not going to rest on our laurels and beat our chests. We passed a bill. We are not finished. We have a conference to go to. We have a final bill to complete. We have to have one that the administration will agree to. As Senator MCCAIN said, we have worked with the administration. We have tried to work with all parties. I believe in the end we will have a piece of legislation that will be acceptable all around.

Mr. President, let me conclude by reiterating one particular issue, and that is the privatization of airports. I am aware that the House bill includes a provision which would establish a pilot project of six airports. Up front—I am not trying to kid anybody—I oppose those efforts because the definition of privatization allows the new airport owner to divert revenues off of the airport, to receive Federal grants, to collect Federally authorized PFC’s, allow major carriers to dictate who runs an airport, and gives general aviation no say—gives general aviation no say—in the privatization.

So in my mind, Mr. President, this form of privatization is a new form of corporate welfare—a new form of corporate welfare. Moreover, Mr. President, privatization is opposed by the airlines, by general aviation, and by the airports. I am not opposed to finding new and innovative solutions to financing our airports, but I do not believe that privatization is a means to achieve that end.

So having said that, Mr. President, I believe we are ready to go to third reading.

I yield the floor.

The PRESIDING OFFICER. Are there further amendments? If not, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading, and was read the third time.

The PRESIDING OFFICER. Under the previous order, the clerk will report calendar No. 588, H.R. 3539.

The bill clerk read as follows:

A bill (H.R. 3539) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes.

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. Under the previous order, all after the enacting clause is stricken, and the text of S. 994 as passed by the Senate is inserted in lieu thereof.

The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

Mr. MCCAIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona [Mr. MCCAIN] is recognized.

Mr. MCCAIN. Mr. President, again, I would like to thank my friend from Kentucky. I remember when I was a new Member of the Senate, he was kind enough, as chairman of the Aviation Subcommittee, to come to my State and have a hearing on the Grand Canyon and other issues. That has characterized our relationship now for more than 10 years.

Mr. President, I ask unanimous consent that final passage occur on H.R. 3539, at 2 p.m. today, and that paragraph 4 of rule 12 be waived.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, I ask for the yeas and nays on the pending legislation.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

MORNING BUSINESS

Mr. MCCAIN. Mr. President, I ask unanimous consent that there now be a period for the transaction of morning business until the hour of 2 p.m., with Senators permitted to speak for up to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BENNETT addressed the Chair.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I ask unanimous consent that I be allowed to continue for up to 15 minutes as in morning business.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The Senator is recognized for 15 minutes.

A NATIONAL MONUMENT IN UTAH

Mr. BENNETT. Mr. President, something is going to happen today in the State of Arizona that will have great impact on the State of Utah. I would like to discuss that issue in somewhat greater detail than I have been able to do in the press. Unfortunately, we now live in a time where the press looks for the 7-second sound bite or the two-sentence summary to print in the newspaper, and the overall issue gets lost. So I appreciate the opportunity to lay out the whole circumstance of what has happened, and is happening, for the record.

Several weeks ago in the Washington Post there was a story about a leak out of the White House saying that the President was considering creating a national monument in the State of Utah, somewhere in the neighborhood of 2 million acres. That came as unexpected news to me and the other Members in the Utah delegation, and we raised the issue. “Oh, no,” we were assured, “nothing is really under consideration. These are just discussions that are taking place in the White House, and they probably should not have

been leaked. There shouldn't be any press discussion about it because nothing really is going to happen."

But the rumors persisted. The build-up continued to the point that our Governor decided to call Secretary Babbitt. I also called Secretary Babbitt and asked about this issue. Finally, last Saturday, Senator HATCH and I were invited to go to the Interior Department to meet with Secretary Babbitt and members of the White House staff to talk about this proposed national monument.

When we got there, having been told in advance that the Secretary was going to calm our fears and lay out a full statement of what was going on, I got a little startled when the Secretary began the presentation by saying, "We're here just to listen." And that was all. Well, Senator HATCH and I indicated that we were very concerned that something as significant as this was going to be done without any consultation with Congress, let alone Members of the Utah delegation. Congress as a whole, having historically played a significant role in the creation of national monuments, was being cut out.

"Well," said Secretary Babbitt, "I can tell you categorically, no decision has been made with respect to this." We said, "We read in the newspapers that the President is going to announce it on Wednesday, when he's in Arizona at the Grand Canyon." And Secretary Babbitt repeated, "I tell you categorically, no decision has been made."

When we met with the press afterward, they asked us, "What do you think will happen?" I am afraid I am cynical enough, Mr. President, and I said, "I believe the President will make the announcement on Wednesday." Senator HATCH—perhaps he is a little more trusting—said, "I can't believe that the President would do that, given the assurances we've just been given."

It is not just Republicans that are involved; the Democratic Congressman who represents the district in which this monument will be formed, uttered the same concern, expressed the same amazement on the fact that he had not been consulted, and came away from his interview with Secretary Babbitt saying "I have been assured there is nothing imminent going to happen."

So we had the Democratic Congressman saying, "nothing imminent." We had the senior Senator from Utah saying he was sure there would be no announcements. As I say, I was more cynical. I predicted that there would be an announcement. I went away from the meeting convinced that, in spite of the assurances we were given that no decision had been made, in fact we were on a track toward a certainty of an announcement on Wednesday—today.

We then went through the weekend. And at the beginning of the week, the news reports started to come in, from CNN and elsewhere, that the President

was going to announce the formation of a major national monument in Utah when he was at the Grand Canyon. "Oh, no," said the White House. "We deny these news reports. Anybody who says that is going to happen does not know what he is talking about. No decision has been made."

Once again, I continued to believe that the President was going to do it.

Today I received a phone call from Leon Panetta. He told me, to my great surprise, that today the President will announce the creation of a new national monument in the State of Utah in the neighborhood of 2 million acres. Among the other things Mr. Panetta told me was that there will be a 3-year period for the development of a management plan for this land. In that 3-year period, he said, all of the issues will be dealt with and sorted out.

That is, frankly, Mr. President, a "trust us" kind of statement on the part of the administration. "We are going to turn the process completely around. Instead of going through the development of the plan and then creating the monument, we will create the monument, and develop the plan after the fact," but "trust us, we will take care of all of your concerns." Given the history leading up to this announcement, Mr. President, it is fairly difficult for many people in Utah to trust the administration on this one.

That having been said, I want to take the balance of the time to talk about the misconceptions surrounding this entire circumstance. I cannot find a better place to summarize most of those misconceptions than today's New York Times. They have an editorial entitled "A New and Needed National Monument." Once again, Mr. President, the fact that this appears in the New York Times the day the President is making his announcement says to me that they knew far in advance of Leon Panetta's call to me that the President was going to do this, their protestations to the contrary notwithstanding. Based on the New York Times editorial, there are several misconceptions about western land use which continue to perpetuate myths, at least in Manhattan, if not all of the Eastern States that are unfamiliar with the realities in the West.

The editorial starts out praising the President for placing an area off limits to development. Now, I am sure that to the people in the New York area, development means hotels, condominiums, and other commercial activities. But this land is already developed in many areas by western definition; that is, there are grazing activities going on in this land.

Mr. Panetta assured me that the grazing would be allowed to continue. There is hunting that goes on in this area. Mr. Panetta assured me that the hunting would be allowed to continue. There are State parks already in this land, which means tourism. Mr. Panetta assured me the State parks would be excluded from the designation

and tourism would be allowed to continue. Finally, there are thousands of people who live within the boundaries of this national monument. I assume they will be allowed to continue to live there under the same circumstances. We will not find out until we go through this 3-year process.

All these activities constitutes, in western terms, development, Mr. President, and I was assured by the Chief of Staff in the White House that that kind of development will be allowed to continue. So when the New York Times says the President is setting the area "off limits to development," the New York Times is at odds with the statement of the President's Chief of Staff.

It goes on to say:

The President's move is also virtually certain to block plans by a Dutch company, Andalex Resources, to develop a coal reserve twice the size of Manhattan that sits right in the middle of the wilderness area. The administration has tried to persuade the company to swap these lands for an equivalent amount of coal in less vulnerable parts of the State, but the company has said no.

Two items, Mr. President. No. 1, the suggestion that the coal reserve is right in the middle of the wilderness area—"wilderness," by definition in the law, means land where there is no evidence of the presence of humans and, very specifically, land where there are no roads. I have, myself, driven over the existing road to the mine site. You cannot, by any stretch of the imagination, say that an area where there is an existing, used road, constitutes wilderness. The mine site is not smack in the middle of the wilderness area. The mine site is miles away from the wilderness area.

Second, the New York Times says the administration has tried to persuade the company to swap out for lands of equal value. That is a very interesting statement to make in the newspaper. Here are some of the facts, if you take the Bruce Babbitt method of appraisal of value.

The market value of the coal in this area is \$1.2 trillion. There are some who say, why, that is an inflated figure. You cannot expect to get that much out. They are right. But that is the way Bruce Babbitt appraises minerals in the ground when he wants to make press release statements about how valuable a developing gold mine is. So we will use the Bruce Babbitt method of appraisal here and say we have 1.2 trillion dollars' worth of coal. I do not know of any other coalfield in the State, or the Nation or the world that comes to \$1.2 trillion in projected value. How can they say "we are going to swap out equal value, but you, nasty coal company, are not willing to cooperate?" I would say to the administration, find me another coalfield with an estimated value of \$1.2 trillion before you start talking about swaps. The New York Times conveniently does not mention that when they talk about the swap.

The New York Times goes on to talk about the way the President has done

this. He is doing it under the Antiquities Act. He says that is what gives him the right to act without consulting Congress, and the New York Times obviously agrees. It says:

The Antiquities Act, inspired by the discovery of archaeological treasures in the Southwest at the turn of the century, has served as a useful mechanism for Presidents to preserve valuable public lands without congressional consent. The act has been invoked 66 times, and many of the Nation's most treasured sites, including the Grand Canyon, where Mr. Clinton will make his announcement, began as protected monuments and ended up as national parks by act of Congress.

All true. What they do not tell us, however, Mr. President—and, indeed, what they may not know—is that the Antiquities Act has never been used by a President since the passage of the two landmark land usage acts by Congress, NEPA and FLMPA. For the C-SPAN junkies, NEPA is the National Environment Policy Act; FLMPA, the Federal Land Management Policy Act. NEPA and FLMPA were Congress' attempt to bring order to the process. NEPA and FLMPA have clear procedures for moving ahead on a matter of this kind, and no President has ever ignored NEPA and FLMPA to create a national monument until now. Citing the precedence of Theodore Roosevelt and his use of the Antiquities Act, as the New York Times by implication does, does not excuse Mr. Clinton from violating appropriate processes.

Enough about the misconceptions in the editorial. There are other things that need to be brought to our attention that we should understand about this proposal. One thing I hope the editorial writers in the New York Times will realize, if they do not already, is that there is a great difference between a national monument and wilderness. Wilderness, as defined by the law, is a territory that is set aside because there is no evidence that human beings have ever been there.

Although there is clear evidence of human activity in most of this area, there are about 350,000 acres that qualify as wilderness, under the most strict definition of that term. The Utah delegation wanted to set aside those 350,000 acres as wilderness. We were prevented from doing so by a filibuster on this floor. We had enough votes to pass it, but we did not have enough votes to shut off debate.

Those 350,000 acres of pristine wilderness will now be included in the national monument. What does that mean? That means that tourists can go there; that means people can camp there; that means people can take mechanized vehicles there, because all of that is permitted at a national monument. It is not permitted in a wilderness area, but it is permitted in a national monument.

Ironically, when you create a national monument, you must, of necessity, create visitor centers. There are buildings within a national monument, which would not be allowed in a wilder-

ness area. You must pave the roads because the tourists don't go over Jeep trails. We have plenty of national monuments in Utah, with miles and miles of paved roads. Ironically, we are now going to see the road, which they are trying to stop the coal company from using, paved, so that tourist buses can go over it.

And then we must have concessions. If you have a 2 million acre area set apart for tourism, you have to have a place for them to relieve themselves, a place to refresh themselves. And you are going to see refreshment stands, hot dog stands; and you are going to maybe even see, in as in the big national parks, hotels, cafeterias, and movie theaters—all set up to meet the demands of the tourists. Do you do this to protect the wilderness? I am not sure that the people who are applauding this set-aside as being a way to protect the wilderness understand that a national monument is not a road to wilderness. A national monument is a road to a national park, and a national park is a major tourist attraction with hundreds of thousands, if not millions, of people coming to an area that is now completely desolate. This is what the New York Times thinks is a really good way to protect the wilderness and the pristine nature of this land.

Going on to further misconceptions, one thing that the folks in Manhattan have probably never heard of, because it is unheard of in the East, is something we in the West call school trust lands. When the Western States were created, the Congress, in addition to holding most of the land in Federal ownership, created a series of alternate sections every so often along the land. Almost thrown across the face of the land like smallpox eruptions, these sections would be owned by the State and held in trust for the value of the school children in that State. There are over 200,000 acres of school trust lands in the area that the President will set apart as a national monument. Oh, we are assured that the money that would come to the school children, if these lands were used for mineral development, will be made up some other way. If you go, again, to the Bruce Babbitt method of appraisal, at \$1.2 trillion, the amount the schoolchildren would get out of it would be on the billions of dollars. Are we prepared in this Congress to appropriate billions of dollars to make the Utah schoolchildren whole? Of course, we are not. And, of course, that number is too high. But whatever the appropriate number is, the President is asking us to trust him that Utah schoolchildren will be made whole. I can tell you how Utah's schoolchildren have reacted. In Kane County, the county where the majority of this monument will lie, the city of Kanab has, today, shut down in protest. The schoolchildren have been let out of school and they are walking the streets of Kanab wearing black armbands and carrying posters protesting the administration's decision. The

president of the Utah Education Association—a group not known for its Republican proclivities—has publicly said that the administration has committed “felonious assault on Utah schoolchildren” by the way they are approaching this.

That may come as news to the New York Times, who has never heard of school trust lands, but those are the reactions of the education leaders—not the Utah congressional delegation, not the Republican establishment—but the education leaders in the State of Utah.

So, Mr. President, I summarize this way. We have a proposal from the President to create a massive, new national monument in my State. Am I opposed to a new national monument in Utah? I can't be opposed in principle. A new national monument will indeed mean many tourists and great activity in my State. But we have been given this proposal after assurances that it was not going to happen, at a time when we were told it wasn't going to happen, with a presentation that we should now trust the administration to work out all of the details.

If, indeed, the whole thing is done in proper good faith, I believe we could end up with a national monument that makes sense in one area, wilderness that made sense in another area, and mineral activity that made sense, environmentally, in the third area.

The President's actions do not lead me to believe that that will be the result. On the contrary, the way he has proceeded leads me to believe that we are in for a protracted period of controversy and difficulty over this issue. I wish the President had followed the procedures laid down by the Congress in NEPA and FLPMA and had given us an orderly process to produce a worthwhile result. Instead, he has chosen a photo op that will undoubtedly be gorgeous. As we look at the evening news, we will see the President with the Grand Canyon in the background, with Vice President GORE standing at one side and Carol Browner at the other side, proclaiming his protection of the beauties of nature from the plunderers. Then when the photo op has passed and the television images have faded from our screen, the realities of what he has done will leave us with 3 years of hard slogging trying to sort this out and come up with the proper kind of result.

I don't wish to say that I do not trust the administration. They say, “Trust us in this circumstance,” but I conclude with the advice that was left by Ronald Reagan: “Trust but verify.”

I intend to do whatever I can through this process to see that the administration keeps its initial pledges of guaranteeing that existing rights will not be trampled, and that the schoolchildren of Utah will be taken care of. “Trust but verify” should become our watchword.

Mr. President, there is one other thing about the coal mine that people should understand and is not outlined in most of the press reports dealing

with this land. We have images of coal mining that are very, very hurtful. We see strip mines in Kentucky and West Virginia. We see smokestacks belching out black smoke and blaming it on coal. When the administration talks about stopping coal mining in this area, there is an immediate emotional reaction that this is a good thing to do. I have personally been to the proposed location of this mine. We are not talking about strip mining here, Mr. President, we are talking about mining below the surface of the ground. The only impact on the ground would be a mine opening smaller than one of the walls here on the side of the Senate—an opening just wide enough to bring out the trams carrying the coal, and that is it. With long-wall mining technology, you can go into the mine and produce the coal with no more impact on the surface than that.

Second, we are not talking about the kind of coal that comes out of West Virginia and Kentucky, a high-sulfur coal which when burned produces dramatic damage to the atmosphere. We are talking about the low-sulfur coal that the environmentalists are hoping we can find to burn in this country. We are talking about coal that will produce the right kind of environmental impact when it ultimately ends up in a furnace somewhere.

So, by saying we are going to stop the production of low-sulfur coal in Utah, people are in fact admitting they are going to increase or at least maintain the burning of high-sulfur coal that comes from elsewhere with the appropriate damage to the environment.

Finally, all of this talk about a Dutch company implies that you are going to see a giant come from overseas to somehow fasten itself on Utah and suck things out of Utah's ground. The company may indeed have its shareholders as citizens of a European country. I do not know exactly where they live. I do know the company has been a responsible, tax-paying, job-producing corporate citizen of the State of Utah for decades. It is already mining coal in an environmentally sensitive way in central Utah. It has demonstrated that it knows how to do it, minimizing any kind of environmental impact. If there ever was a company I would want to proceed with the development of these coal resources, it would be one with the experience and the track record of good corporate citizenship which this company has shown in the years it has operated in Utah. So it is true to say that their shareholders don't live in Utah or maybe in the United States. But that I find is irrelevant when one recognizes what they have done for our State and how important the economic activity that they have generated for our State has been.

I thank the Chair. I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. MOSELEY-BRAUN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

Ms. MOSELEY-BRAUN. Mr. President, I would like for a moment to comment on the pending legislation, the FAA Reauthorization Act, to add a few words in support of comments made by Senator WYDEN earlier regarding the train whistle amendment.

I am particularly gratified at the activity of the managers in accepting the language of the train whistle amendment because I think it does represent a step in the right direction in calling for Federal-State cooperation, Federal-State partnership and engagement and involvement of local governments in the decisionmaking process.

Certainly, we are all concerned about safety, and safety is at the core of the legislative authority pertaining to the train whistle requirement. At the same time, our laws have to achieve a balance. We have to balance the various interests, particularly the interests of local communities in maintaining quality of life in those communities—areas like my own and those represented by Senator WYDEN. There are parts of my State, for example, in which you have the confluence of many different railroad lines, in particular in suburban communities, which may mean that, at the behest of safety, the communities lose whatever quality of life they have because you may have train whistles sounding every 5 minutes.

As you know, Mr. President, the Chicago area has been known historically as the transportation hub of the United States. So in the hub, when we have the confluence of many different rail lines, the train whistle issue cuts to the heart of our ability to balance the needs of communities, to maintain communities where people can live versus our national need for safety.

So I think the language of this amendment goes a long way in encouraging local input, in encouraging flexibility, and encouraging the kind of cooperation we need. The days of heavy-handed bureaucratic responses to these kinds of issues have to be over. We have to begin to explore ways in which we can maximize local input, at the same time recognizing our connection as a national community.

I believe the train whistle language does that, recognizes the overarching interests that bring us together, but it also provides local governments the capacity and ability to be heard without having to spend a lot of money for lawyers and hiring specialists and the like, that they can do it in a simplified and straightforward manner.

So I thank the managers of this legislation. I thank Senator WYDEN for his leadership in this area.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, the hour of 2 p.m. having arrived, morning business is now concluded.

FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

The Senate continued with the consideration of the bill.

VOTE

The PRESIDING OFFICER. Under the previous order, the question is on passage of H.R. 3539, as amended. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. FORD. I announce that the Senator from West Virginia [Mr. ROCKEFELLER] is necessarily absent.

The PRESIDING OFFICER (Ms. SNOWE). Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 99, nays 0, as follows:

[Rollcall Vote No. 293 Leg.]

YEAS—99

Abraham	Feinstein	Lott
Akaka	Ford	Lugar
Ashcroft	Frahm	Mack
Baucus	Frist	McCain
Bennett	Glenn	McConnell
Biden	Gorton	Mikulski
Bingaman	Graham	Moseley-Braun
Bond	Gramm	Moynihan
Boxer	Grams	Murkowski
Bradley	Grassley	Murray
Breaux	Gregg	Nickles

Exon	Leahy	Warner
Faircloth	Levin	Wellstone
Feingold	Lieberman	Wyden

NOT VOTING—1

Rockefeller

The bill (H.R. 3539), as amended, was passed, as follows:

Resolved, That the bill from the House of Representatives (H.R. 3539) entitled "An Act to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) *SHORT TITLE*.—This Act may be cited as the "Federal Aviation Reauthorization Act of 1996".

(b) *TABLE OF CONTENTS*.—

Sec. 1. Short title; table of contents.

Sec. 2. Amendments to title 49, United States Code.

TITLE I—REAUTHORIZATION OF FAA PROGRAMS

- Sec. 101. Federal Aviation Administration operations.
 Sec. 102. Air navigation facilities.
 Sec. 103. Research and development.
 Sec. 104. Airport improvement program.
 Sec. 105. Interaccount flexibility.

TITLE II—AIRPORT IMPROVEMENT PROGRAM MODIFICATIONS

- Sec. 201. Pavement maintenance program.
 Sec. 202. Maximum percentages of amount made available for grants to certain primary airports.
 Sec. 203. Discretionary fund.
 Sec. 204. Designating current and former military airports.
 Sec. 205. State block grant program.
 Sec. 206. Access to airports by intercity buses.

TITLE III—AVIATION SAFETY AND SECURITY

- Sec. 301. Report including proposed legislation on funding for airport security.
 Sec. 302. Family advocacy.
 Sec. 303. Accident and safety data classification; report on effects of publication and automated surveillance targeting systems.
 Sec. 304. Weapons and explosive detection study.
 Sec. 305. Requirement for criminal history records checks.
 Sec. 306. Interim deployment of commercially available explosive detection equipment.
 Sec. 307. Audit of performance of background checks for certain personnel.
 Sec. 308. Sense of the Senate on passenger profiling.
 Sec. 309. Authority to use certain funds for airport security programs and activities.
 Sec. 310. Development of aviation security liaison agreement.
 Sec. 311. Regular joint threat assessments.
 Sec. 312. Baggage match report.
 Sec. 313. Enhanced security programs.
 Sec. 314. Report on air cargo.

TITLE IV—MISCELLANEOUS PROVISIONS

- Sec. 401. Acquisition of housing units.
 Sec. 402. Protection of voluntarily submitted information.
 Sec. 403. Application of FAA regulations.
 Sec. 404. Sense of the Senate regarding the funding of the Federal Aviation Administration.
 Sec. 405. Authorization for State-specific safety measures.
 Sec. 406. Sense of the Senate regarding the air ambulance exemption from certain Federal excise taxes.
 Sec. 407. FAA safety mission.
 Sec. 408. Carriage of candidates in State and local elections.
 Sec. 409. Train whistle requirements.
 Sec. 410. Limitation on authority of States to regulate gambling devices on vessels.
 Sec. 411. Special flight rules in the vicinity of Grand Canyon National Park.
 Sec. 412. Increased fees.
 Sec. 413. Transfer of air traffic control tower; closing of flight service stations.
 Sec. 414. Sense of the Senate regarding acts of international terrorism.
 Sec. 415. Reporting for procurement contracts.
 Sec. 416. Provisions relating to limited scope audit.
 Sec. 417. Advance electronic transmission of cargo and passenger information.

TITLE V—COMMERCIAL SPACE LAUNCH ACT AMENDMENTS

- Sec. 501. Commercial space launch amendments.

TITLE VI—AIR TRAFFIC MANAGEMENT SYSTEM PERFORMANCE IMPROVEMENT ACT

- Sec. 601. Short title.

Sec. 602. Definitions.

Sec. 603. Effective date.

Subtitle A—General Provisions

- Sec. 621. Findings.
 Sec. 622. Purposes.
 Sec. 623. Regulation of civilian air transportation and related services by the Federal Aviation Administration and Department of Transportation.
 Sec. 624. Regulations.
 Sec. 625. Personnel and services.
 Sec. 626. Contracts.
 Sec. 627. Facilities.
 Sec. 628. Property.
 Sec. 629. Transfers of funds from other Federal agencies.
 Sec. 630. Management Advisory Council.
 Sec. 631. Aircraft engine standards.
 Sec. 632. Rural air fare study.

Subtitle B—Federal Aviation Administration Streamlining Programs

- Sec. 651. Review of acquisition management system.
 Sec. 652. Air traffic control modernization reviews.
 Sec. 653. Federal Aviation Administration personnel management system.
 Sec. 654. Conforming amendment.

Subtitle C—System To Fund Certain Federal Aviation Administration Functions

- Sec. 671. Findings.
 Sec. 672. Purposes.
 Sec. 673. User fees for various Federal Aviation Administration services.
 Sec. 674. Independent assessment and task force to review existing and innovative funding mechanisms.
 Sec. 675. Procedure for consideration of certain funding proposals.
 Sec. 676. Administrative provisions.
 Sec. 677. Advance appropriations for Airport and Airway Trust Fund activities.
 Sec. 678. Rural Air Service Survival Act.

TITLE VII—PILOT RECORDS

- Sec. 701. Short title.
 Sec. 702. Employment investigations of pilot applicants.
 Sec. 703. Study of minimum standards for pilot qualifications.

TITLE VIII—ABOLITION OF BOARD OF REVIEW

- Sec. 801. Abolition of Board of Review and related authority.
 Sec. 802. Sense of the Senate.
 Sec. 803. Conforming amendments in other law.
 Sec. 804. Definitions.
 Sec. 805. Increase in number of Presidentially appointed members of Board.
 Sec. 806. Reconstituted Board to function without interruption.
 Sec. 807. Operational slots at National Airport.
 Sec. 808. Airports authority support of Board.

TITLE IX—AIRPORT REVENUE PROTECTION

- Sec. 901. Short title.
 Sec. 902. Findings; purpose.
 Sec. 903. Definitions.
 Sec. 904. Restriction on use of airport revenues.
 Sec. 905. Regulations; audits and accountability.
 Sec. 906. Conforming amendments to the Internal Revenue Code of 1986.

TITLE X—EXTENSION OF AIRPORT AND AIRWAY TRUST FUND EXPENDITURE AUTHORITY

- Sec. 1001. Expenditures from airport and airway trust fund.

SEC. 2. AMENDMENTS TO TITLE 49, UNITED STATES CODE.

Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision of law, the

reference shall be considered to be made to a section or other provision of title 49, United States Code.

TITLE I—REAUTHORIZATION OF FAA PROGRAMS

SEC. 101. FEDERAL AVIATION ADMINISTRATION OPERATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS FROM GENERAL FUND.—Section 106(k) is amended—
 (1) by striking “and” after “1995.”; and
 (2) by inserting before the period at the end the following: “, and \$5,000,000,000 for fiscal year 1997.”.

(b) AUTHORIZATION OF APPROPRIATIONS FROM TRUST FUND.—Section 48104(b) is amended—
 (1) in the subsection heading by striking “FOR FISCAL YEARS 1993”; and
 (2) by striking the phrase “for fiscal year 1993”.

(c) CLERICAL AMENDMENT.—Section 48108 is amended by striking subsection (c).

SEC. 102. AIR NAVIGATION FACILITIES.

Section 48101(a) is amended by adding at the end the following:

“(5) For the fiscal years ending September 30, 1991–1997, \$17,929,000,000.”.

SEC. 103. RESEARCH AND DEVELOPMENT.

Section 48102(a) is amended by striking “title:” and all that follows through the end of the subsection, and inserting the following: “title, \$206,000,000 for fiscal year 1997.”.

SEC. 104. AIRPORT IMPROVEMENT PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 48103 is amended—

(1) by striking “and \$21,958,500,000” and inserting “\$19,200,500,000”; and

(2) by inserting before the period at the end the following: “, \$21,480,500,000 for fiscal years ending before October 1, 1997.”.

(b) OBLIGATIONAL AUTHORITY.—Section 47104(c) is amended by striking “1996” and inserting “1997”.

SEC. 105. INTERACCOUNT FLEXIBILITY.

Section 106 is amended by adding at the end the following new subsection:

“(1) INTERACCOUNT FLEXIBILITY.—

“(1) Except as provided in paragraph (2), the Administrator may transfer budget authority derived from trust funds among appropriations authorized by subsection (k) and sections 48101 and 48102, if the aggregate estimated outlays in such accounts in the fiscal year in which the transfers are made will not be increased as a result of such transfer.
 “(2) The transfer of budget authority under paragraph (1) may be made only to the extent that outlays do not exceed the aggregate estimated outlays.
 “(3) A transfer of budget authority under paragraph (1) may not result in a net decrease of more than 5 percent, or a net increase of more than 10 percent, in the budget authority available under any appropriation involved in that transfer.
 “(4) Any action taken pursuant to this section shall be treated as a reprogramming of funds that is subject to review by the appropriate committees of the Congress.
 “(5) The Administrator may transfer budget authority pursuant to this section only after—

“(A) submitting a written explanation of the proposed transfer to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and
 “(B) 30 days have passed after the explanation is submitted and none of the committees notifies the Administrator in writing that it objects to the proposed transfer within the 30 day period.”.

“(A) submitting a written explanation of the proposed transfer to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and
 “(B) 30 days have passed after the explanation is submitted and none of the committees notifies the Administrator in writing that it objects to the proposed transfer within the 30 day period.”.

“(A) submitting a written explanation of the proposed transfer to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and
 “(B) 30 days have passed after the explanation is submitted and none of the committees notifies the Administrator in writing that it objects to the proposed transfer within the 30 day period.”.

“(A) submitting a written explanation of the proposed transfer to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and
 “(B) 30 days have passed after the explanation is submitted and none of the committees notifies the Administrator in writing that it objects to the proposed transfer within the 30 day period.”.

“(A) submitting a written explanation of the proposed transfer to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Commerce, Science, and Transportation and Appropriations of the Senate; and
 “(B) 30 days have passed after the explanation is submitted and none of the committees notifies the Administrator in writing that it objects to the proposed transfer within the 30 day period.”.

TITLE II—AIRPORT IMPROVEMENT PROGRAM MODIFICATIONS

SEC. 201. PAVEMENT MAINTENANCE PROGRAM.

(a) PAVEMENT MAINTENANCE.—Chapter 471 is amended by adding the following section at the end of subchapter I:

“§ 47132. Pavement maintenance

“(a) IN GENERAL.—The Administrator of the Federal Aviation Administration shall issue guidelines to carry out a pavement maintenance pilot project to preserve and extend the useful life of runways, taxiways, and aprons at airports for which apportionments are made under section 47114(d). The regulations shall provide that the Administrator may designate not more than 10 projects. The regulations shall provide criteria for the Administrator to use in choosing the projects. At least 2 such projects must be in States without a primary airport that had 0.25 percent or more of the total boardings in the United States in the preceding calendar year. In designating a project, the Administrator shall take into consideration geographical, climatological, and soil diversity.

“(b) EFFECTIVE DATE.—This section shall be effective beginning on the date of enactment of the Federal Aviation Reauthorization Act of 1996 and ending on September 30, 1999.”

(b) COMPLIANCE WITH FEDERAL MANDATES.—(1) USE OF AIP GRANTS.—Section 47102(3) is amended—

(A) in subparagraph (E) by inserting “or under section 40117” before the period at the end; and

(B) in subparagraph (F) by striking “paid for by a grant under this subchapter and”.

(2) USE OF PASSENGER FACILITY CHARGES.—Section 40117(a)(3) is amended—

(A) by inserting “and” at the end of subparagraph (D);

(B) by striking “; and” at the end of subparagraph (E) and inserting a period; and

(C) by striking subparagraph (F).

(c) CONFORMING AMENDMENT.—The chapter analysis for subchapter I of chapter 471 is amended by inserting after the item relating to section 47131 the following new item:

“47132. Pavement maintenance.”

SEC. 202. MAXIMUM PERCENTAGES OF AMOUNT MADE AVAILABLE FOR GRANTS TO CERTAIN PRIMARY AIRPORTS.

Section 47114 is amended by adding at the end thereof the following:

“(g) SLIDING SCALE.—

“(1) Notwithstanding any other provision of this title, of the amount newly made available under section 48103 of this title for fiscal year 1997 to make grants, not more than the percentage of such amount newly made available that is specified in paragraph (2) shall be distributed in total in such fiscal year for grants described in paragraph (3).

“(2) If the amount newly made available is—

“(A) not more than \$1,150,000,000, then the percentage is 47.0;

“(B) more than \$1,150,000,000 but not more than \$1,250,000,000, then the percentage is 46.0;

“(C) more than \$1,250,000,000 but not more than \$1,350,000,000, then the percentage is 45.4;

“(D) more than \$1,350,000,000 but not more than \$1,450,000,000, then the percentage is 44.8; or

“(E) more than \$1,450,000,000 but not more than \$1,550,000,000, then the percentage is 44.3.

“(3) This subsection applies to the aggregate amount of grants in a fiscal year for projects at those primary airports that each have not less than 0.25 per centum of the total passenger boardings in the United States in the preceding calendar year.”

SEC. 203. DISCRETIONARY FUND.

Section 47115 is amended—

(1) by striking “and” at the end of subsection (d)(2) and inserting a comma and the following: “, including, in the case of a project at a reliever airport, the number of operations projected to be diverted from a primary airport to that reliever airport as a result of the project, as well as the cost savings projected to be realized by users of the local airport system;”;

(2) by redesignating paragraph (3) of subsection (d) as paragraph (5), and by inserting after paragraph (2) of that subsection the following:

“(3) the airport improvement priorities of the States, and regional offices of the Administration, to the extent such priorities are not in conflict with paragraphs (1) and (2) of this subsection;

“(4) any increase in the number of passenger boardings in the preceding 12-month period at the airport at which the project will be carried out, with priority consideration to be given to projects at airports at which, during that period, the number of passenger boardings was 20 percent or greater than the number of such boardings during the 12-month period preceding that period; and”;

(3) by redesignating the second subsection (f) as subsection (g); and

(4) by adding at the end the following:

“(h) PRIORITY FOR LETTERS OF INTENT.—In making grants in a fiscal year with funds made available under this section, the Secretary shall fulfill intentions to obligate under section 47110(e).”

SEC. 204. DESIGNATING CURRENT AND FORMER MILITARY AIRPORTS.

(a) GENERAL REQUIREMENTS.—Section 47118(a) is amended to read as follows:

“(a) GENERAL REQUIREMENTS.—The Secretary of Transportation shall designate current or former military airports for which grants may be made under section 47117(e)(1)(E) of this title. The maximum number of airports bearing such designation at any time is 12. The Secretary may only so designate an airport (other than an airport so designated before August 24, 1994) if—

“(1) the airport is a former military installation closed or realigned under—

“(A) section 2687 of title 10;

“(B) section 201 of the Defense Authorization Amendments and Base Closure and Realignment Act (10 U.S.C. 2687 note); or

“(C) section 2905 of the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. 2687 note); or

“(2) the Secretary finds that such grants would—

“(A) reduce delays at an airport with more than 20,000 hours of annual delays in commercial passenger aircraft takeoffs and landings; or

“(B) enhance airport and air traffic control system capacity in a metropolitan area or reduce current and projected flight delays.”

(b) ADDITIONAL DESIGNATION PERIODS.—Section 47118(d) is amended by striking “designation.” and inserting “designation, and for subsequent 5-fiscal-year periods if the Secretary determines that the airport satisfies the designation criteria under subsection (a) at the beginning of each such subsequent 5-fiscal-year period.”

(c) PARKING LOTS, FUEL FARMS, AND UTILITIES.—Subsection (f) of section 47118 is amended by striking “the fiscal years ending September 30, 1993–1996,” and inserting “for fiscal years beginning after September 30, 1992.”

(d) ONE-YEAR EXTENSION.—Section 47117(e)(1)(E) is amended by striking “and 1996,” and inserting “1996, and 1997.”

SEC. 205. STATE BLOCK GRANT PROGRAM.

(a) PARTICIPATING STATES.—Section 47128(b) is amended—

(1) by striking paragraph (2);

(2) by redesignating subparagraphs (A) through (E) of paragraph (1) as paragraphs (1) through (5), respectively; and

(3) by striking “(1) A State” and inserting “A State”.

(b) USE OF STATE PRIORITY SYSTEM.—Section 47128(c) is amended by adding at the end the following: “In carrying out this subsection, the Secretary shall permit a State to use the priority system of the State if such system is not inconsistent with the national priority system.”

(c) CHANGE OF EXPIRATION DATE.—Section 47128(d) is amended by striking “1996” and inserting “1997”.

SEC. 206. ACCESS TO AIRPORTS BY INTERCITY BUSES.

Section 47107 (a) is amended—

(1) by striking “and” at the end of paragraph (18);

(2) by striking the period at the end of paragraph (19) and inserting “; and”; and

(3) by adding at the end the following:

“(20) the airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport, but the sponsor does not have any obligation under this paragraph, or because of it, to fund special facilities for intercity bus service or for other modes of transportation.”

TITLE III—AVIATION SAFETY AND SECURITY**SEC. 301. REPORT INCLUDING PROPOSED LEGISLATION ON FUNDING FOR AIRPORT SECURITY.**

(a) IN GENERAL.—Not later than 30 days after the date of enactment of this Act, the Administrator shall conduct a study and submit to the Congress a report on whether, and if so, how to transfer certain responsibilities of air carriers under Federal law for security activities conducted onsite at airports to airport operators who are subject to section 44903 of title 49, United States Code, or to the Federal Government or providing for shared responsibilities between air carriers and airport operators or the Federal Government.

(b) CONTENTS OF REPORT.—The report submitted under this section shall—

(1) examine potential sources of Federal and non-Federal revenue that may be used to fund security activities including but not limited to providing grants from funds received as fees collected under a fee system established under subpart C of this title and the amendments made by that subpart; and

(2) provide legislative proposals, if necessary, for accomplishing the transfer of responsibilities referred to in subsection (a).

(c) CERTIFICATION OF SCREENING COMPANIES.—The Federal Aviation Administrator is directed to certify companies providing security screening and to improve the training and testing of security screeners through development of uniform performance standards for providing security screening services.

SEC. 302. FAMILY ADVOCACY.

(a) IN GENERAL.—Subchapter III of chapter 11 of title 49, United States Code, is amended by adding at the end the following new section:

“§ 1136. Family advocacy

“(a) IN GENERAL.—The National Transportation Safety Board shall establish a program consistent with its existing authority to provide family advocacy services for aircraft accidents described in subsection (b)(1) and serve as the lead agency in coordinating the provision of the services described in subsection (b). The National Transportation Safety Board shall, as necessary, in carrying out the program, cooperate with the Secretary of Transportation, the Administrator of the Federal Aviation Administration, and such other public and private organizations as may be appropriate.

“(b) FAMILY ADVOCACY SERVICES.—

“(1) IN GENERAL.—The National Transportation Safety Board shall work with an air carrier involved in an accident in air commerce and facilitate the procurement by that air carrier of the services of family advocates who are not otherwise employed by an air carrier and who are not employed by the Federal Aviation Administration to, in the event of an accident in air commerce—

“(A) apply standards of conduct specified by the National Transportation Safety Board;

“(B) to the extent practicable, direct and facilitate all communication among air carriers, surviving passengers, families of passengers, news reporters, the Federal Government, and the governments of States and political subdivisions thereof;

“(C) coordinate with a representative of the air carrier to jointly direct the notification of the next of kin of victims of the accident; and

“(D) carry out such other related duties as the National Transportation Safety Board determines to be appropriate.

“(2) DEFINITIONS.—For purposes of this subsection, the following definitions shall apply:

“(A) AIR CARRIER.—The term ‘air carrier’ has the meaning provided that term in section 40102(a)(2).

“(B) FAMILY ADVOCATE.—The term ‘family advocate’ shall have the meaning provided that term by the National Transportation Safety Board by regulation.”.

(b) GUIDELINES.—Not later than 90 days after the date of enactment of this Act, the National Transportation Safety Board shall issue guidelines for the implementation of the program established by the Board under section 1136 of title 49, United States Code, as added by subsection (a).

(c) CONFORMING AMENDMENT.—The chapter analysis for subchapter III of chapter 11 of title 49, United States Code, is amended by adding at the end the following:

“1136. Family advocacy.”.

SEC. 303. ACCIDENT AND SAFETY DATA CLASSIFICATION; REPORT ON EFFECTS OF PUBLICATION AND AUTOMATED SURVEILLANCE TARGETING SYSTEMS.

(a) ACCIDENT AND SAFETY DATA CLASSIFICATION.—

(1) IN GENERAL.—Subchapter II of chapter 11 of title 49, United States Code, is amended by adding at the end the following new section:

“§1119. Accident and safety data classification and publication

“(a) IN GENERAL.—Not later than 90 days after the date of enactment of this section, the National Transportation Safety Board (hereafter in this section referred to as the ‘Board’) shall, in consultation and coordination with the Administrator of the Federal Aviation Administration (hereafter in this section referred to as the ‘Administrator’), develop a system for classifying air carrier accident and pertinent safety data maintained by the Board.

“(b) REQUIREMENTS FOR CLASSIFICATION SYSTEM.—

“(1) IN GENERAL.—The system developed under this section shall provide for the classification of accident and safety data in a manner that, in comparison to the system in effect on the date of enactment of this section, provides for—

“(A) safety-related categories that provide clearer descriptions of the passenger safety effects associated with air transportation;

“(B) clearer descriptions of passenger safety concerns associated with air transportation accidents; and

“(C) a report to the Congress by the Board that describes methods for accurately informing the public of the concerns referred to in subparagraph (B) through regular reporting of accident and safety data obtained through the system developed under this section.

“(2) PUBLIC COMMENT.—Upon developing a system of classification under paragraph (1), the Board shall provide adequate opportunity for public review and comment.

“(3) FINAL CLASSIFICATION.—After providing for public review and comment, and after consulting with the Administrator, the Board shall issue final classifications. The Board shall ensure that air travel accident and safety data covered under this section is classified in accordance with the final classifications issued under this section for data for calendar year 1997, and for each subsequent calendar year.

“(4) REPORT ON THE EFFECTS ASSOCIATED WITH PUBLICATION OF AIR TRANSPORTATION ACCIDENT AND SAFETY INFORMATION.—

“(A) IN GENERAL.—Not later than the date specified in subsection (a), the Board shall prepare and submit to the Congress a report on the effects and potential of the publication of air transportation accident safety information.

“(B) CONTENT AND FORM OF REPORT.—The report prepared under this paragraph shall in-

clude recommendations concerning the adoption or revision of requirements for reporting accident and safety data.

“(5) RECOMMENDATIONS OF THE ADMINISTRATOR.—The Administrator may, from time to time, request the Board to consider revisions (including additions to the classification system developed under this section). The Board shall respond to any request made by the Administrator under this section not later than 90 days after receiving that request.

“(c) PRESENTATION OF FINAL CLASSIFICATIONS TO THE INTERNATIONAL CIVIL AVIATION ORGANIZATION.—Not later than 90 days after final classifications are issued under subsection (b)(3), the Administrator shall—

“(1) present to the International Civil Aviation Organization the final classification system developed under this section; and

“(2) seek the adoption of that system by the International Civil Aviation Organization.”.

(2) CONFORMING AMENDMENT.—The chapter analysis for subchapter II of chapter 11 of title 49, United States Code, is amended by adding at the end the following new item:

“1119. Accident and safety data classification and publication.”.

(b) AUTOMATED SURVEILLANCE TARGETING SYSTEMS.—Section 44713 is amended by adding at the end the following new subsection:

“(e) AUTOMATED SURVEILLANCE TARGETING SYSTEMS.—

“(1) IN GENERAL.—The Administrator shall give high priority to developing and deploying a fully enhanced safety performance analysis system that includes automated surveillance to assist the Administrator in prioritizing and targeting surveillance and inspection activities of the Federal Aviation Administration.

“(2) DEADLINES FOR DEPLOYMENT.—

“(A) INITIAL PHASE.—The initial phase of the operational deployment of the system developed under this subsection shall begin not later than December 31, 1997.

“(B) FINAL PHASE.—The final phase of field deployment of the system developed under this subsection shall begin not later than December 31, 1999. By that date, all principal operations and maintenance inspectors of the Administration, and appropriate supervisors and analysts of the Administration shall have been provided access to the necessary information and resources to carry out the system.

“(3) INTEGRATION OF INFORMATION.—In developing the system under this section, the Administration shall consider the near-term integration of accident and incident data into the safety performance analysis system under this subsection.”.

SEC. 304. WEAPONS AND EXPLOSIVE DETECTION STUDY.

(a) IN GENERAL.—The Administrator of the Federal Aviation Administration (hereafter in this section referred to as the ‘Administrator’) shall enter into an arrangement with the Director of the National Academy of Sciences (or if the National Academy of Sciences is not available, the head of another equivalent entity) to conduct a study in accordance to this section.

(b) PANEL OF EXPERTS.—

(1) IN GENERAL.—In carrying out a study under this section, the Director of the National Academy of Sciences (or the head of another equivalent entity) shall establish a panel (hereinafter in this section as the ‘panel’).

(2) EXPERTISE.—Each member of the panel established under this subsection shall have expertise in weapons and explosive detection technology, security, air carrier and airport operations, or another appropriate area. The Director of the National Academy of Sciences (or the head of another equivalent entity) shall ensure that the panel has an appropriate number of representatives of the areas specified in the preceding sentence.

(c) STUDY.—The panel established under subsection (b), in consultation with the National

Science and Technology Council, representatives of appropriate Federal agencies, and appropriate members of the private sector, shall—

(1) assess the weapons and explosive detection technologies that are available at the time of the study that are capable of being effectively deployed in commercial aviation;

(2) determine how the technologies referred to in paragraph (1) may more effectively be used for promotion and improvement of security at airport and aviation facilities and other secured areas; and

(3) on the basis of the assessments and determinations made under paragraphs (1) and (2), identify the most promising technologies for the improvement of the efficiency and cost-effectiveness of weapons and explosive detection.

(d) COOPERATION.—The National Science and Technology Council shall take such action as may be necessary to facilitate, to the maximum extent practicable and upon request of the Director of the National Academy of Sciences (or the head of another equivalent entity), the cooperation of representatives of appropriate Federal agencies, as provided for in subsection (c), in providing the panel, for the study under this section—

(1) expertise; and

(2) to the extent allowable by law, resources and facilities.

(e) REPORTS.—The Director of the National Academy of Sciences (or the head of another equivalent entity) shall, pursuant to an arrangement entered into under subsection (a), submit to the Administrator such reports as the Administrator considers to be appropriate. Upon receipt of a report under this subsection, the Administrator shall submit a copy of the report to the appropriate committees of the Congress.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated, for each of fiscal years 1997 through 2001, such sums as may be necessary to carry out this section.

SEC. 305. REQUIREMENT FOR CRIMINAL HISTORY RECORDS CHECKS.

(a) IN GENERAL.—Section 44936(a)(1) is amended—

(1) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(2) by striking “(1)” and inserting “(1)(A)”; and

(3) by adding at the end the following:

“(B) The Administrator shall require by regulation that an employment investigation (including a criminal history record check in any case described in subparagraph (C)) be conducted for—

“(i) individuals who will be responsible for screening passengers or property under section 44901 of this title;

“(ii) supervisors of the individuals described in clause (i); and

“(iii) such other individuals who exercise security functions associated with baggage or cargo, as the Administrator determines is necessary to ensure air transportation security.

“(C) Under the regulations issued under subparagraph (B), a criminal history record check shall, as a minimum, be conducted in any case in which—

“(i) an employment investigation reveals a gap in employment of 12 months or more that the individual who is the subject of the investigation does not satisfactorily account for;

“(ii) that individual is unable to support statements made on the application of that individual;

“(iii) there are significant inconsistencies in the information provided on the application of that individual; or

“(iv) information becomes available during the employment investigation indicating a possible conviction for one of the crimes listed in subsection (b)(1)(B).”.

(b) APPLICABILITY.—The amendment made by subsection (a)(3) shall apply to individuals hired to perform functions described in section

44936(a)(1)(B) of title 49, United States Code, after the date of the enactment of this Act, except that the Administrator may, as the Administrator determines to be appropriate, require such employment investigations or criminal history records checks for individuals performing those functions on the date of enactment of this Act. Nothing in section 44936 of title 49, United States Code, as amended by subsection (a) precludes the Administration from permitting the employment of an individual on an interim basis while employment or criminal history record checks required by that section are being conducted.

SEC. 306. INTERIM DEPLOYMENT OF COMMERCIALY AVAILABLE EXPLOSIVE DETECTION EQUIPMENT.

Section 44913(a) is amended—

(1) by redesignating paragraph (3) as paragraph (4); and

(2) by inserting after paragraph (2) the following:

“(3) Until such time as the Administrator determines that equipment certified under paragraph (1) is commercially available and has successfully completed operational testing as provided in paragraph (1), the Administrator shall facilitate the deployment of such approved commercially available explosive detection devices as the Administrator determines will enhance aviation security significantly. The Administrator shall require that equipment deployed under this paragraph be replaced by equipment certified under paragraph (1) when equipment certified under paragraph (1) becomes commercially available. The Administrator is authorized, based on operational considerations at individual airports, to waive the required installation of commercially available equipment under paragraph (1) in the interests of aviation security.”

SEC. 307. AUDIT OF PERFORMANCE OF BACKGROUND CHECKS FOR CERTAIN PERSONNEL.

Section 44936(a) is amended by adding at the end the following:

“(3) The Administrator shall provide for the periodic audit of the effectiveness of criminal history record checks conducted under paragraph (1) of this subsection.”

SEC. 308. SENSE OF THE SENATE ON PASSENGER PROFILING.

It is the sense of the Senate that the Administrator of the Federal Aviation Administration, in consultation with the intelligence and law enforcement communities, should continue to assist air carriers in developing computer-assisted and other appropriate passenger profiling programs which should be used in conjunction with other security measures and technologies.

SEC. 309. AUTHORITY TO USE CERTAIN FUNDS FOR AIRPORT SECURITY PROGRAMS AND ACTIVITIES.

(a) IN GENERAL.—Notwithstanding any other provision of law, funds referred to in subsection (b) may be used to expand and enhance air transportation security programs and other activities (including the improvement of facilities and the purchase and deployment of equipment) to ensure the safety and security of passengers and other persons involved in air travel.

(b) COVERED FUNDS.—The following funds may be used under subsection (a):

(1) Project grants made under subchapter 1 of chapter 471 of title 49, United States Code.

(2) Passenger facility fees collected under section 40117 of title 49, United States Code.

SEC. 310. DEVELOPMENT OF AVIATION SECURITY LIAISON AGREEMENT.

The Secretary of Transportation and the Attorney General, acting through the Administrator of the Federal Aviation Administration and the Director of the Federal Bureau of Investigation, shall enter into an interagency agreement providing for the establishment of an aviation security liaison at existing appropriate Federal agencies' field offices in or near cities served by a designated high-risk airport.

SEC. 311. REGULAR JOINT THREAT ASSESSMENTS.

The Administrator of the Federal Aviation Administration and the Director of the Federal Bureau of Investigation shall carry out joint threat and vulnerability assessments on security every 3 years, or more frequently, as necessary, at airports determined to be high risk.

SEC. 312. BAGGAGE MATCH REPORT.

Within 30 days after the completion of the passenger bag match pilot program recommended by the Vice President's Commission on Aviation Security, the Administrator shall submit a report to Congress on the safety effectiveness and operational effectiveness of the pilot program. The report shall also assess the extent to which implementation of baggage match requirements, coupled with the best available technologies and methodologies, such as passenger profiling, enhance domestic aviation security.

SEC. 313. ENHANCED SECURITY PROGRAMS.

(a) IN GENERAL.—Chapter 449 is amended by adding at the end of subchapter I the following:

“§ 44916. Assessments and evaluations

“(a) IN GENERAL.—

“(1) PERIODIC ASSESSMENTS.—The Administrator shall require each air carrier and airport (including the airport owner or operator in cooperation with the air carriers and vendors serving each airport) that provides for intrastate, interstate, or foreign air transportation to conduct periodic vulnerability assessments of the security systems of that air carrier or airport, respectively. The Administration shall perform periodic audits of the assessments referred to in paragraph (1).

“(2) INVESTIGATIONS.—The Administrator shall conduct periodic and unannounced inspections of security systems of airports and air carriers to determine the effectiveness and vulnerabilities of such systems. To the extent allowable by law, the Administrator may provide for anonymous tests of those security systems.”

(b) CLERICAL AMENDMENT.—The table of sections for such chapter is amended by inserting after the item relating to section 44915 the following:

“44916. Assessments and evaluations.”

SEC. 314. REPORT ON AIR CARGO.

Within — days after the date of enactment of this Act, the Secretary of Transportation shall prepare a report for the Congress on any changes recommended and implemented as a result of the Vice President's Commission on Aviation Security to enhance and supplement screening and inspection of cargo, mail, and company-shipped materials transported in air commerce. The report shall include an assessment of the effectiveness of such changes, any additional recommendations, and, if necessary, any legislative proposals necessary to carry out additional changes.

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. ACQUISITION OF HOUSING UNITS.

Section 40110 is amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by inserting after subsection (a) the following:

“(b) ACQUISITION OF HOUSING UNITS.—

“(1) AUTHORITY.—In carrying out this part, the Administrator may acquire interests in housing units outside the contiguous United States.

“(2) CONTINUING OBLIGATIONS.—Notwithstanding section 1341 of title 31, United States Code, the Administrator may acquire an interest in a housing unit under paragraph (1) even if there is an obligation thereafter to pay necessary and reasonable fees duly assessed upon such unit, including fees related to operation, maintenance, taxes, and insurance.

“(3) CERTIFICATION TO CONGRESS.—The Administrator may acquire an interest in a housing unit under paragraph (1) only if the Administrator transmits to the Committee on Transpor-

ation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate at least 30 days before completing the acquisition a report containing—

“(A) a description of the housing unit and its price; and

“(B) a certification that acquiring the housing unit is the most cost-beneficial means of providing necessary accommodations in carrying out this part.

“(4) PAYMENT OF FEES.—The Administrator may pay, when due, fees resulting from the acquisition of an interest in a housing unit under this subsection from any amounts made available to the Administrator.”

SEC. 402. PROTECTION OF VOLUNTARILY SUBMITTED INFORMATION.

(a) IN GENERAL.—Chapter 401 is amended by redesignating section 40120 as section 40121 and by inserting after section 40119 the following:

“§ 40120. Protection of voluntarily submitted information

“(a) IN GENERAL.—Notwithstanding any other provision of law, neither the Administrator of the Federal Aviation Administration, nor any agency receiving information from the Administrator, shall disclose voluntarily-provided safety or security related information if the Administrator finds that—

“(1) the disclosure of the information would inhibit the voluntary provision of that type of information and that the receipt of that type of information aids in fulfilling the Administrator's safety and security responsibilities; and

“(2) withholding such information from disclosure would be consistent with the Administrator's safety and security responsibilities.

“(b) REGULATIONS.—The Administrator shall issue regulations to carry out this section.”

(b) CONFORMING AMENDMENT.—The table of sections at the beginning of chapter 401 is amended by striking the item relating to section 40120 and inserting the following:

“40120. Protection of voluntarily submitted information.

“40121. Relationship to other laws.”

SEC. 403. APPLICATION OF FAA REGULATIONS.

In revising title 14, Code of Federal Regulations, in a manner affecting intrastate aviation in Alaska, the Administrator of the Federal Aviation Administration shall consider the extent to which Alaska is not served by transportation modes other than aviation, and shall establish such regulatory distinctions as the Administrator deems appropriate.

SEC. 404. SENSE OF THE SENATE REGARDING THE FUNDING OF THE FEDERAL AVIATION ADMINISTRATION.

(a) FINDINGS.—The Senate finds that—

(1) the Congress is responsible for ensuring that the financial needs of the Federal Aviation Administration, the agency that performs the critical function of overseeing the Nation's air traffic control system and ensuring the safety of air travelers in the United States, are met;

(2) the number of air traffic control equipment and power failures is increasing, which could place at risk the reliability of our Nation's air traffic control system;

(3) aviation excise taxes that constitute the Airport and Airway Trust Fund, which provides most of the funding for the Federal Aviation Administration, have expired;

(4) the surplus in the Airport and Airway Trust Fund will be spent by the Federal Aviation Administration by December 1996;

(5) the existing system of funding the Federal Aviation Administration will not provide the agency with sufficient short-term or long-term funding;

(6) this Act creates a sound process to review Federal Aviation Administration funding and develop a funding system to meet the Federal Aviation Administration's long-term funding needs; and

(7) without immediate action by the Congress to ensure that the Federal Aviation Administration's financial needs are met, air travelers' confidence in the system could be undermined.

(b) *SENSE OF THE SENATE.*—It is the sense of the Senate that there should be an immediate enactment of an 18-month reinstatement of the aviation excise taxes to provide short-term funding for the Federal Aviation Administration.

SEC. 405. AUTHORIZATION FOR STATE-SPECIFIC SAFETY MEASURES.

There are authorized to be appropriated to the Federal Aviation Administration not more than \$10,000,000 for fiscal year 1997 for the purpose of addressing State-specific aviation safety problems identified by the National Transportation Safety Board.

SEC. 406. SENSE OF THE SENATE REGARDING THE AIR AMBULANCE EXEMPTION FROM CERTAIN FEDERAL EXCISE TAXES.

It is the sense of the Senate that, if the excise taxes imposed by section 4261 or 4271 of the Internal Revenue Code of 1986 are reinstated, the exemption from those taxes provided by section 4261(f) of such Code for air transportation by helicopter for the purpose of providing emergency medical services should be broadened to include air transportation by fixed-wing aircraft for that purpose.

SEC. 407. FAA SAFETY MISSION.

(a) *IN GENERAL.*—Section 40104 is amended—

(1) by inserting "safety of" before "air commerce" in the section caption;

(2) by inserting "SAFETY OF" before "AIR COMMERCE" in the caption of subsection (a); and

(3) by and inserting "safety of" before "air commerce" in subsection (a).

(b) *CLERICAL AMENDMENT.*—The table of sections for chapter 401 is amended by striking the item relating to section 40104 and inserting:

"40104. Promotion of civil aeronautics and air commerce safety."

SEC. 408. CARRIAGE OF CANDIDATES IN STATE AND LOCAL ELECTIONS.

The Administrator of the Federal Aviation Administration shall revise section 91.321 of the Administration's regulations (14 C.F.R. 91.321), relating to the carriage of candidates in Federal elections, to make the same or similar rules applicable to the carriage of candidates for election to public office in State and local government elections.

SEC. 409. TRAIN WHISTLE REQUIREMENTS.

The Secretary of Transportation may not implement regulations issued under section 20153(b) of title 49, United States Code, requiring audible warnings to be sounded by a locomotive horn at highway-rail grade crossings, unless—

(1) in implementing the regulations or providing an exception to the regulations under section 20158(c) of such title, the Secretary of Transportation takes into account, among other criteria—

(A) the interest of the communities that, as of July 30, 1996—

(i) have in effect restrictions on sounding of a locomotive horn at highway-rail grade crossings; or

(ii) have not been subject to the routine (as the term is defined by the Secretary) sounding of a locomotive horn at highway-rail grade crossings; and

(B) the past safety record at each grade crossing involved; and

(2) whenever the Secretary determines that supplementary safety measures (as that term is defined in section 20153(a) of title 49, United States Code) are necessary to provide an exception referred to in paragraph (1), the Secretary—

(A) having considered the extent to which local communities have established public awareness initiatives and highway-rail crossing traffic law enforcement programs allows for a period of not to exceed 3 years, beginning on the date of that determination, for the installation of those measures; and

(B) works in partnership with affected communities to provide technical assistance and to develop a reasonable schedule for the installation of those measures.

SEC. 410. LIMITATION ON AUTHORITY OF STATES TO REGULATE GAMBLING DEVICES ON VESSELS.

Subsection (b)(2) of section 5 of the Act of January 2, 1951 (commonly referred to as the "Johnson Act") (64 Stat. 1135, chapter 1194; 15 U.S.C. 1175), is amended by adding at the end the following:

"(C) *EXCLUSION OF CERTAIN VOYAGES AND SEGMENTS.*—Except for a voyage or segment of a voyage that occurs within the boundaries of the State of Hawaii, a voyage or segment of a voyage is not described in subparagraph (B) if such voyage or segment includes or consists of a segment—

"(i) that begins that ends in the same State;

"(ii) that is part of a voyage to another State or to a foreign country; and

"(iii) in which the vessel reaches the other State or foreign country within 3 days after leaving the State in which such segment begins."

SEC. 411. SPECIAL FLIGHT RULES IN THE VICINITY OF GRAND CANYON NATIONAL PARK.

The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration, shall take such action as may be necessary to provide 30 additional days for comment by interested persons on the special flight rules in the vicinity of Grand Canyon National Park described in the notice of proposed rulemaking issued on July 31, 1996, at 61 Fed. Reg. 40120 et seq.

SEC. 412. INCREASED FEES.

Notwithstanding any other provision of law, the Surface Transportation Board shall not increase fees for services in connection with rail maximum rate complaints pursuant to 49 CFR part 1002, STB Ex Parte No. 542.

SEC. 413. TRANSFER OF AIR TRAFFIC CONTROL TOWER; CLOSING OF FLIGHT SERVICE STATIONS.

(a) *HICKORY, NORTH CAROLINA TOWER.*—

(1) *TRANSFER.*—The Administrator of the Federal Aviation Administration may transfer any title, right, or interest the United States has in the air traffic control tower located at the Hickory Regional Airport to the City of Hickory, North Carolina, for the purpose of enabling the city to provide air traffic control services to operators of aircraft.

(2) *STUDY.*—The Administrator shall conduct a study to determine whether the number of operations at Hickory Regional Airport meet the criteria for contract towers and shall certify in writing to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Commerce and Infrastructure of the House of Representatives whether that airport meets those criteria.

(b) *NEW BERN-CRAVEN COUNTY STATION.*—The Administrator shall not close the New Bern-Craven County flight services station or the Hickory Regional Airport flight service station unless the Administrator certifies in writing to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives that such closure will not result in a derogation of air safety and that it will reduce costs to taxpayers.

SEC. 414. SENSE OF THE SENATE REGARDING ACTS OF INTERNATIONAL TERRORISM.

(a) *FINDINGS.*—The Senate finds that—

(1) there has been an intensification in the oppression and disregard for human life among nations that are willing to export terrorism;

(2) there has been an increase in attempts by criminal terrorists to murder airline passengers through the destruction of civilian airliners and the deliberate fear and death inflicted through

bombings of buildings and the kidnapping of tourists and Americans residing abroad; and

(3) information widely available demonstrates that a significant portion of international terrorist activity is state-sponsored, -organized, -condoned, or -directed.

(b) *SENSE OF THE SENATE.*—It is the sense of the Senate that if evidence establishes beyond a clear and reasonable doubt that any act of hostility towards any United States citizen was an act of international terrorism sponsored, organized, condoned, or directed by any nation, a state of war should be considered to exist or to have existed between the United States of America and that nation, beginning as of the moment that the act of aggression occurs.

SEC. 415. REPORTING FOR PROCUREMENT CONTRACTS.

Section 47112 is amended by adding at the end the following new subsection:

"(d) *REPORTING FOR PROCUREMENT CONTRACTS.*—(1) The Secretary of Transportation shall promulgate regulations to require that each grant agreement that includes the awarding of any contract that includes Federal funds in an amount greater than or equal to \$5,000,000 under this subchapter provides for a report to the Secretary that states—

"(A) the number of bids from qualified, responsive and reasonable bidders that were in amounts lower than the amount specified in the bid submitted by the bidder awarded the contract;

"(B) for each bid referred to in subparagraph A (other than the bid submitted by the bidder awarded the contract) the amount by which the bid submitted by the bidder awarded the contract exceeded the lower bid.

"(2) *APPLICABILITY.*—This subsection shall apply to grants referred to in this paragraph that are awarded on or after the date of enactment of this Act."

SEC. 416. PROVISIONS RELATING TO LIMITED SCOPE AUDIT.

(a) *IN GENERAL.*—Subparagraph (C) of section 103(a)(3) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1023(a)(3)(C)) is amended by adding at the end the following new clause:

"(ii) If an accountant is offering his opinion under this section in the case of an employee pension benefit plan, the accountant shall, to the extent consistent with generally accepted auditing standards, rely on the work of any independent public accountant of any bank or similar institution or insurance carrier regulated and supervised and subject to periodic investigation by a State or Federal agency that holds assets or processes transactions of the employee pension benefit plan."

(b) *CONFORMING AMENDMENTS.*—

(1) Section 103(a)(3)(A) of such Act (29 U.S.C. 1023(a)(3)(A)) is amended by striking "subparagraph (C)" and inserting "subparagraph (C)(i)".

(2) Section 103(a)(3)(C) of such Act (29 U.S.C. 1023(a)(3)(C)) is amended by striking "(C) The" and inserting "(C)(i) In the case of an employee benefit plan other than an employee pension benefit plan, the"

(c) *EFFECTIVE DATE.*—The amendments made by this section shall apply with respect to opinions required under section 103(a)(3)(A) of the Employee Retirement Income Security Act of 1974 for plan years beginning on or after January 1 of the calendar year following the date of the enactment of this Act.

SEC. 417. ADVANCE ELECTRONIC TRANSMISSION OF CARGO AND PASSENGER INFORMATION.

(a) *CARGO INFORMATION.*—

(1) *IN GENERAL.*—Section 431(b) of the Tariff Act of 1930 (19 U.S.C. 1431(b)) is amended—

(A) by striking "Any manifest" and inserting "(1) Any manifest", and

(B) by adding at the end the following new paragraph:

“(2)(A) Every passenger air carrier required to make entry or to obtain clearance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission cargo manifest information described in subparagraph (B) in advance of such entry or clearance in such manner as the Secretary shall prescribe.

“(B) The information described in this subparagraph is as follows:

“(i) The airport of arrival or departure, whichever is appropriate.

“(ii) The airline prefix code.

“(iii) The carrier code.

“(iv) The flight number.

“(v) The date of scheduled arrival or date of departure, whichever is appropriate.

“(vi) The permit to proceed to the destination, if applicable.

“(vii) The master and house air waybill numbers and quantities.

“(viii) The first airport of lading of the cargo.

“(ix) A description and weight of the cargo.

“(x) The shipper's name and address from all air waybills.

“(xi) The consignee name and address from all air waybills.

“(xii) Notice that actual boarded quantities are not equal to air waybill quantities.

“(xiii) Transfer or transit information.

“(xiv) Warehouse or other location of the cargo.

“(xv) Any other data that the Secretary may by regulation prescribe.”

(2) CONFORMING AMENDMENT.—Subsection (d)(1)(A) of section 431 of such Act is amended by inserting before the semicolon “or subsection (b)(2)”.

(b) PASSENGER INFORMATION.—The Part II of title IV of the Tariff Act of 1930 is amended by inserting after section 431 the following new section:

“SEC. 432. PASSENGER MANIFEST INFORMATION REQUIRED FOR AIR CARRIERS.

“(a) IN GENERAL.—Every passenger air carrier required to make entry or obtain clearance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission passenger manifest information described in subsection (b) in advance of such entry or clearance in such manner and form as the Secretary shall prescribe.

“(b) INFORMATION DESCRIBED.—The information described in this subsection is as follows:

“(1) Full name of each passenger.

“(2) Date of birth and citizenship of each passenger.

“(3) Passport number and country of issuance of each passenger.

“(4) Passenger name record.

“(5) Any additional data that the Secretary, by regulation, determines is reasonably necessary to ensure aviation safety pursuant to the Customs laws of the United States.”

(c) DEFINITION.—Section 401 of the Tariff Act of 1930 is amended by adding at the end the following new subsection:

“(t) PASSENGER AIR CARRIER.—The term ‘passenger air carrier’ means an air carrier (as defined in section 40102(a)(2) of title 49, United States Code) or foreign air carrier (as defined in section 40102(a)(21) of such title 49) that provides transportation of passengers to or from any place in the United States.”

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect 45 days after the date of the enactment of this Act.

TITLE V—COMMERCIAL SPACE LAUNCH ACT AMENDMENTS

SEC. 501. COMMERCIAL SPACE LAUNCH AMENDMENTS.

(a) AMENDMENTS.—Chapter 701 of title 49, United States Code, is amended—

(1) in the table of sections—

(A) by amending the item relating to section 70104 to read as follows:

“70104. Restrictions on launches, operations, and reentries.”;

(B) by amending the item relating to section 70108 to read as follows:

“70108. Prohibition, suspension, and end of launches, operation of launch sites and reentry sites, and reentries.”;

and

(C) by amending the item relating to section 70109 to read as follows:

“70109. Preemption of scheduled launches or reentries.”;

(2) in section 70101—

(A) by inserting “microgravity research,” after “information services,” in subsection (a)(3);

(B) by inserting “, reentry,” after “launching” both places it appears in subsection (a)(4);

(C) by inserting “, reentry vehicles,” after “launch vehicles” in subsection (a)(5);

(D) by inserting “and reentry services” after “launch services” in subsection (a)(6);

(E) by inserting “, reentries,” after “launches” both places it appears in subsection (a)(7);

(F) by inserting “, reentry sites,” after “launch sites” in subsection (a)(8);

(G) by inserting “and reentry services” after “launch services” in subsection (a)(8);

(H) by inserting “reentry sites,” after “launch sites,” in subsection (a)(9);

(I) by inserting “and reentry site” after “launch site” in subsection (a)(9);

(J) by inserting “reentry vehicles,” after “launch vehicles” in subsection (b)(2);

(K) by striking “launch” in subsection (b)(2)(A);

(L) by inserting “and reentry” after “commercial launch” in subsection (b)(3);

(M) by striking “launch” after “and transfer commercial” in subsection (b)(3); and

(N) by inserting “and development of reentry sites,” after “launch-site support facilities,” in subsection (b)(4);

(3) in section 70102—

(A) by striking “and any payload” and inserting in lieu thereof “or reentry vehicle and any payload from Earth” in paragraph (3);

(B) by inserting “or reentry vehicle” after “means of a launch vehicle” in paragraph (8);

(C) by redesignating paragraphs (10) through (12) as paragraphs (14) through (16), respectively;

(D) by inserting after paragraph (9) the following new paragraphs:

“(10) ‘reenter’ and ‘reentry’ mean to return or attempt to return, purposefully, a reentry vehicle and its payload, if any, from Earth orbit or from outer space to Earth.

“(11) ‘reentry services’ means—

“(A) activities involved in the preparation of a reentry vehicle and its payload, if any, for reentry; and

“(B) the conduct of a reentry.

“(12) ‘reentry site’ means the location on Earth to which a reentry vehicle is intended to return (as defined in a license the Secretary issues or transfers under this chapter).

“(13) ‘reentry vehicle’ means a vehicle designed to return from Earth orbit or outer space to Earth, or a reusable launch vehicle designed to return from outer space substantially intact.”; and

(E) by inserting “or reentry services” after “launch services” each place it appears in paragraph (15), as so redesignated by subparagraph (C) of this paragraph;

(4) in section 70103(b)—

(A) by inserting “AND REENTRIES” after “LAUNCHES” in the subsection heading;

(B) by inserting “and reentries” after “space launches” in paragraph (1); and

(C) by inserting “and reentry” after “space launch” in paragraph (2);

(5) in section 70104—

(A) by amending the section designation and heading to read as follows:

“§ 70104. Restrictions on launches, operations, and reentries”;

(B) by inserting “or reentry site, or to reenter a reentry vehicle,” after “operate a launch site” each place it appears in subsection (a);

(C) by inserting “or reentry” after “launch or operation” in subsection (a)(3) and (4);

(D) in subsection (b)—

(i) by striking “launch license” and inserting in lieu thereof “license”;

(ii) by inserting “or reenter” after “may launch”; and

(iii) by inserting “or reentering” after “related to launching”; and

(E) in subsection (c)—

(i) by amending the subsection heading to read as follows: “PREVENTING LAUNCHES AND REENTRIES.—”;

(ii) by inserting “or reentry” after “prevent the launch”; and

(iii) by inserting “or reentry” after “decides the launch”;

(6) in section 70105—

(A) by inserting “or a reentry site, or the reentry of a reentry vehicle,” after “operation of a launch site” in subsection (b)(1); and

(B) by striking “or operation” and inserting in lieu thereof “, operation, or reentry” in subsection (b)(2)(A);

(7) in section 70106(a)—

(A) by inserting “or reentry site” after “observer at a launch site”;

(B) by inserting “or reentry vehicle” after “assemble a launch vehicle”; and

(C) by inserting “or reentry vehicle” after “with a launch vehicle”;

(8) in section 70108—

(A) by amending the section designation and heading to read as follows:

“§ 70108. Prohibition, suspension, and end of launches, operation of launch sites and reentry sites, and reentries”;

and

(B) in subsection (a)—

(i) by inserting “or reentry site, or reentry of a reentry vehicle,” after “operation of a launch site”; and

(ii) by inserting “or reentry” after “launch or operation”;

(9) in section 70109—

(A) by amending the section designation and heading to read as follows:

“§ 70109. Preemption of scheduled launches or reentries”;

(B) in subsection (a)—

(i) by inserting “or reentry” after “ensure that a launch”;

(ii) by inserting “, reentry site,” after “United States Government launch site”;

(iii) by inserting “or reentry date commitment” after “launch date commitment”;

(iv) by inserting “or reentry” after “obtained for a launch”;

(v) by inserting “, reentry site,” after “access to a launch site”;

(vi) by inserting “, or services related to a reentry,” after “amount for launch services”; and

(vii) by inserting “or reentry” after “the scheduled launch”; and

(C) in subsection (c), by inserting “or reentry” after “prompt launching”;

(10) in section 70110—

(A) by inserting “or reentry” after “prevent the launch” in subsection (a)(2); and

(B) by inserting “or reentry site, or reentry of a reentry vehicle,” after “operation of a launch site” in subsection (a)(3)(B);

(11) in section 70111—

(A) by inserting “or reentry” after “launch” in subsection (a)(1)(A);

(B) by inserting “and reentry services” after “launch services” in subsection (a)(1)(B);

(C) by inserting “or reentry services” after “or launch services” in subsection (a)(2);

(D) by inserting "or reentry" after "commercial launch" both places it appears in subsection (b)(1);

(E) by inserting "or reentry services" after "launch services" in subsection (b)(2)(C);

(F) by striking "or its payload for launch" in subsection (d) and inserting in lieu thereof "or reentry vehicle, or the payload of either, for launch or reentry"; and

(G) by inserting "reentry vehicle," after "manufacturer of the launch vehicle" in subsection (d);

(12) in section 70112—

(A) by inserting "or reentry" after "one launch" in subsection (a)(3);

(B) by inserting "or reentry services" after "launch services" in subsection (a)(4);

(C) by inserting "or reentry services" after "launch services" each place it appears in subsection (b);

(D) by inserting "applicable" after "carried out under the" in paragraphs (1) and (2) of subsection (b);

(E) by striking "Space, and Technology" in subsection (d)(1);

(F) by inserting "OR REENTRIES" after "LAUNCHES" in the heading for subsection (e); and

(G) by inserting "or reentry site or a reentry" after "launch site" in subsection (e);

(13) in section 70113(a)(1) and (d)(1) and (2), by inserting "or reentry" after "one launch" each place it appears;

(14) in section 70115(b)(1)(D)(i)—

(A) by inserting "reentry site," after "launch site,"; and

(B) by inserting "or reentry vehicle" after "launch vehicle" both places it appears; and

(15) in section 70117—

(A) by inserting "or reentry site, or to reenter a reentry vehicle" after "operate a launch site" in subsection (a);

(B) by inserting "or reentry" after "approval of a space launch" in subsection (d);

(C) by amending subsection (f) to read as follows:

"(f) LAUNCH NOT AN EXPORT; REENTRY NOT AN IMPORT.—A launch vehicle, reentry vehicle, or payload that is launched or reentered is not, because of the launch or reentry, an export or import, respectively, for purposes of a law controlling exports or imports."; and

(D) in subsection (g)—

(i) by striking "operation of a launch vehicle or launch site," in paragraph (1) and inserting in lieu thereof "reentry, operation of a launch vehicle or reentry vehicle, or operation of a launch site or reentry site,"; and

(ii) by inserting "reentry," after "launch," in paragraph (2).

(b) ADDITIONAL AMENDMENTS.—(1) Section 70105 of title 49, United States Code, is amended—

(A) by inserting "(1)" before "A person may apply" in subsection (a);

(B) by striking "receiving an application" both places it appears in subsection (a) and inserting in lieu thereof "accepting an application in accordance with criteria established pursuant to subsection (b)(2)(D)";

(C) by adding at the end of subsection (a) the following new paragraph:

"(2) In carrying out paragraph (1), the Secretary may establish procedures for certification of the safety of a launch vehicle, reentry vehicle, or safety system, procedure, service, or personnel that may be used in conducting licensed commercial space launch or reentry activities.";

(D) by striking "and" at the end of subsection (b)(2)(B);

(E) by striking the period at the end of subsection (b)(2)(C) and inserting in lieu thereof "and";

(F) by adding at the end of subsection (b)(2) the following new subparagraph:

"(D) regulations establishing criteria for accepting or rejecting an application for a license under this chapter within 60 days after receipt of such application."; and

(G) by inserting "or the requirement to obtain a license," after "waive a requirement" in subsection (b)(3).

(2) The amendment made by paragraph (1)(B) shall take effect upon the effective date of final regulations issued pursuant to section 70105(b)(2)(D) of title 49, United States Code, as added by paragraph (1)(F) of this subsection.

(3) Section 70102(5) of title 49, United States Code, is amended—

(A) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively; and

(B) by inserting before subparagraph (B), as so redesignated by subparagraph (A) of this paragraph, the following new subparagraph:

"(A) activities directly related to the preparation of a launch site or payload facility for one or more launches.";

(4) Section 70103(b) of title 49, United States Code, is amended—

(A) in the subsection heading, as amended by subsection (a)(4)(A) of this section, by inserting "AND STATE SPONSORED SPACEPORTS" after "AND REENTRIES"; and

(B) in paragraph (1), by inserting "and State sponsored spaceports" after "private sector".

(5) Section 70105(a)(1) of title 49, United States Code, as amended by subsection (b)(1) of this section, is amended by inserting at the end the following: "The Secretary shall submit to the Committee on Science of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a written notice not later than 7 days after any occurrence when a license is not issued within the deadline established by this subsection.";

(6) Section 70111 of title 49, United States Code, is amended—

(A) in subsection (a)(1), by inserting after subparagraph (B) the following:

"The Secretary shall establish criteria and procedures for determining the priority of competing requests from the private sector and State governments for property and services under this section.";

(B) by striking "actual costs" in subsection (b)(1) and inserting in lieu thereof "additive costs only"; and

(C) by inserting after subsection (b)(2) the following new paragraph:

"(3) The Secretary shall ensure the establishment of uniform guidelines for, and consistent implementation of, this section by all Federal agencies.";

(7) Section 70112 of title 49, United States Code, is amended—

(A) in subsection (a)(1), by inserting "launch, reentry, or site operator" after "(1) When a";

(B) in subsection (b)(1), by inserting "launch, reentry, or site operator" after "(1)A"; and

(C) in subsection (f), by inserting "launch, reentry, or site operator" after "carried out under a".

(c) REGULATIONS.—(1) Chapter 701 of title 49, United States Code, is amended by adding at the end the following new section:

"§ 70120. Regulations

"The Secretary of Transportation, within 6 months after the date of the enactment of this section, shall issue regulations to carry out this chapter that include—

"(1) guidelines for industry to obtain sufficient insurance coverage for potential damages to third parties;

"(2) procedures for requesting and obtaining licenses to operate a commercial launch vehicle and reentry vehicle;

"(3) procedures for requesting and obtaining operator licenses for launch and reentry; and

"(4) procedures for the application of government indemnification.";

(2) The table of sections for such chapter 701 is amended by adding after the item relating to section 70119 the following new item:

"70120. Regulations.";

TITLE VI—AIR TRAFFIC MANAGEMENT SYSTEM PERFORMANCE IMPROVEMENT ACT

SEC. 601. SHORT TITLE.

This title may be cited as the "Air Traffic Management System Performance Improvement Act of 1996".

SEC. 602. DEFINITIONS.

For the purposes of this title, the following definitions shall apply:

(1) ADMINISTRATION.—The term "Administration" means the Federal Aviation Administration.

(2) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Aviation Administration.

(3) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

SEC. 603. EFFECTIVE DATE.

The provisions of this title and the amendments made by this title shall take effect on the date that is 30 days after the date of the enactment of this Act.

Subtitle A—General Provisions

SEC. 621. FINDINGS.

The Congress finds the following:

(1) In many respects the Administration is a unique agency, being one of the few non-defense government agencies that operates 24 hours a day, 365 days of the year, while continuing to rely on outdated technology to carry out its responsibilities for a state-of-the-art industry.

(2) Until January 1, 1996, users of the air transportation system paid 70 percent of the budget of the Administration, with the remaining 30 percent coming from the General Fund. The General Fund contribution over the years is one measure of the benefit received by the general public, military, and other users of Administration's services.

(3) The Administration must become a more efficient, effective, and different organization to meet future challenges.

(4) The need to balance the Federal budget means that it may become more and more difficult to obtain sufficient General Fund contributions to meet the Administration's future budget needs.

(5) Congress must keep its commitment to the users of the national air transportation system by seeking to spend all moneys collected from them each year and deposited into the Airport and Airway Trust Fund. Existing surpluses representing past receipts must also be spent for the purposes for which such funds were collected.

(6) The aviation community and the employees of the Administration must come together to improve the system. The Administration must continue to recognize who its customers are and what their needs are, and to design and redesign the system to make safety improvements and increase productivity.

(7) The Administration projects that commercial operations will increase by 18 percent and passenger traffic by 35 percent by the year 2002. Without effective airport expansion and system modernization, these needs cannot be met.

(8) Absent significant and meaningful reform, future challenges and needs cannot be met.

(9) The Administration must have a new way of doing business.

(10) There is widespread agreement within government and the aviation industry that reform of the Administration is essential to safely and efficiently accommodate the projected growth of aviation within the next decade.

(11) To the extent that the Congress determines that certain segments of the aviation community are not required to pay all of the costs of the government services which they require and benefits which they receive, the Congress should appropriate the difference between such costs and any receipts received from such segment.

(12) Prior to the imposition of any new charges or user fees on segments of the industry,

an independent review must be performed to assess the funding needs and assumptions for operations, capital spending, and airport infrastructure.

(13) An independent, thorough, and complete study and assessment must be performed of the costs to the Administration and the costs driven by each segment of the aviation system for safety and operational services, including the use of the air traffic control system and the Nation's airports.

(14) Because the Administration is a unique Federal entity in that it is a participant in the daily operations of an industry, and because the national air transportation system faces significant problems without significant changes, the Administration has been authorized to change the Federal procurement and personnel systems to ensure that the Administration has the ability to keep pace with new technology and is able to match resources with the real personnel needs of the Administration.

(15) The existing budget system does not allow for long-term planning or timely acquisition of technology by the Administration.

(16) Without reforms in the areas of procurement, personnel, funding, and governance, the Administration will continue to experience delays and cost overruns in its major modernization programs and needed improvements in the performance of the air traffic management system will not occur.

(17) All reforms should be designed to help the Administration become more responsive to the needs of its customers and maintain the highest standards of safety.

SEC. 622. PURPOSES.

The purposes of this title are—

(1) to ensure that final action shall be taken on all notices of proposed rulemaking of the Administration within 18 months after the date of their publication;

(2) to permit the Administration, with Congressional review, to establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

(3) to establish a more autonomous and accountable Administration within the Department of Transportation; and

(4) to make the Administration a more efficient and effective organization, able to meet the needs of a dynamic, growing industry, and to ensure the safety of the traveling public.

SEC. 623. REGULATION OF CIVILIAN AIR TRANSPORTATION AND RELATED SERVICES BY THE FEDERAL AVIATION ADMINISTRATION AND DEPARTMENT OF TRANSPORTATION.

(a) IN GENERAL.—Section 106 is amended—

(1) by striking “The Administrator” in the fifth sentence of subsection (b) and inserting “Except as provided in subsection (f) of this section or in other provisions of law, the Administrator”; and

(2) by striking subsection (f) and inserting the following:

“(f) AUTHORITY OF THE SECRETARY AND THE ADMINISTRATOR.—

“(1) AUTHORITY OF THE SECRETARY.—Except as provided in paragraph (2), the Secretary of Transportation shall carry out the duties and powers of the Administration.

“(2) AUTHORITY OF THE ADMINISTRATOR.—The Administrator—

“(A) is the final authority for carrying out all functions, powers, and duties of the Administration relating to—

“(i) except as otherwise provided in paragraph (3), the promulgation of regulations, rules, orders, circulars, bulletins, and other official publications of the Administration; and

“(ii) any obligation imposed on the Administrator, or power conferred on the Administrator, by the Air Traffic Management System Performance Improvement Act of 1996 (or any amendment made by that Act);

“(B) shall offer advice and counsel to the President with respect to the appointment and qualifications of any officer or employee of the Administration to be appointed by the President or as a political appointee;

“(C) may delegate, and authorize successive redelegations of, to an officer or employee of the Administration any function, power, or duty conferred upon the Administrator, unless such delegation is prohibited by law; and

“(D) except as otherwise provided for in this title, and notwithstanding any other provision of law to the contrary, shall not be required to coordinate, submit for approval or concurrence, or seek the advice or views of the Secretary or any other officer or employee of the Department of Transportation on any matter with respect to which the Administrator is the final authority.

“(3) DEFINITION OF POLITICAL APPOINTEE.—For purposes of this subsection, the term ‘political appointee’ means any individual who—

“(A) is employed in a position on the Executive Schedule under sections 5312 through 5316 of title 5;

“(B) is a limited term appointee, limited emergency appointee, or noncareer appointee in the Senior Executive Service as defined under section 3132(a) (5), (6), and (7) of title 5, respectively; or

“(C) is employed in a position in the executive branch of the Government of a confidential or policy-determining character under Schedule C of subpart C of part 213 of title 5 of the Code of Federal Regulations.”.

(b) PRESERVATION OF EXISTING AUTHORITY.—Nothing in this title or the amendments made by this title limits any authority granted to the Administrator by statute or by delegation that was in effect on the day before the date of enactment of this Act.

SEC. 624. REGULATIONS.

Section 106(f), as amended by section 623, is further amended—

(1) by redesignating paragraph (3) as paragraph (4); and

(2) by inserting after paragraph (2) the following:

“(3) REGULATIONS.—

“(A) IN GENERAL.—In the performance of the functions of the Administrator and the Administration, the Administrator is authorized to issue, rescind, and revise such regulations as are necessary to carry out those functions. The issuance of such regulations shall be governed by the provisions of chapter 5 of title 5. The Administrator shall act upon all petitions for rulemaking no later than 6 months after the date such petitions are filed by dismissing such petitions, by informing the petitioner of an intention to dismiss, or by issuing a notice of proposed rulemaking or advanced notice of proposed rulemaking. The Administrator shall issue a final regulation, or take other final action, not later than 18 months after the date of publication in the Federal Register of a notice of proposed rulemaking or, in the case of an advanced notice of proposed rulemaking, if issued, not later than 24 months after that date.

“(B) APPROVAL OF SECRETARY OF TRANSPORTATION.—

“(i) The Administrator may not issue a proposed regulation or final regulation that is likely to result in the expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$50,000,000 or more (adjusted annually for inflation beginning with the year following the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996) in any 1 year, or any regulation which is significant, unless the Secretary of Transportation approves the issuance of the regulation in advance. For purposes of this paragraph, a regulation is significant if it is likely to—

“(1) have an annual effect on the economy of \$100,000,000 or more or adversely affect in a material way the economy, a sector of the econ-

omy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

“(II) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

“(III) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

“(IV) raise novel legal or policy issues arising out of legal mandates.

“(ii) In an emergency, the Administrator may issue a regulation described in clause (i) without prior approval by the Secretary, but any such emergency regulation is subject to ratification by the Secretary after it is issued and shall be rescinded by the Administrator within 5 days (excluding Saturdays, Sundays, and legal public holidays) after issuance if the Secretary fails to ratify its issuance.

“(iii) Any regulation that does not meet the criteria of clause (i), and any regulation or other action that is a routine or frequent action or a procedural action, may be issued by the Administrator without review or approval by the Secretary.

“(iv) The Administrator shall submit a copy of any regulation requiring approval by the Secretary under clause (i) to the Secretary, who shall either approve it or return it to the Administrator with comments within 45 days after receiving it.

“(C) PERIODIC REVIEW.—(i) Beginning on the date which is 3 years after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996, the Administrator shall review any unusually burdensome regulation issued by the Administrator after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 beginning not later than 3 years after the effective date of the regulation to determine if the cost assumptions were accurate, the benefit of the regulations, and the need to continue such regulations in force in their present form.

“(ii) The Administrator may identify for review under the criteria set forth in clause (i) unusually burdensome regulations that were issued before the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 and that have been in force for more than 3 years.

“(iii) For purposes of this subparagraph, the term ‘unusually burdensome regulation’ means any regulation that results in the annual expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$25,000,000 or more (adjusted annually for inflation beginning with the year following the date of enactment of the Air Traffic Management System Performance Act of 1996) in any year.

“(iv) The periodic review of regulations may be performed by advisory committees and the Management Advisory Council established under subsection (p).”.

SEC. 625. PERSONNEL AND SERVICES.

Section 106 is amended by adding at the end the following new subsection:

“(I) PERSONNEL AND SERVICES.—

“(1) OFFICERS AND EMPLOYEES.—Except as provided in section 40121(a) of this title and section 347 of Public Law 104-50, the Administrator is authorized, in the performance of the functions of the Administrator, to appoint, transfer, and fix the compensation of such officers and employees, including attorneys, as may be necessary to carry out the functions of the Administrator and the Administration. In fixing compensation and benefits of officers and employees, the Administrator shall not engage in any type of bargaining, except to the extent provided for in section 40121(a), nor shall the Administrator be bound by any requirement to establish such compensation or benefits at particular levels.

"(2) EXPERTS AND CONSULTANTS.—The Administrator is authorized to obtain the services of experts and consultants in accordance with section 3109 of title 5.

"(3) TRANSPORTATION AND PER DIEM EXPENSES.—The Administrator is authorized to pay transportation expenses, and per diem in lieu of subsistence expenses, in accordance with chapter 57 of title 5.

"(4) USE OF PERSONNEL FROM OTHER AGENCIES.—The Administrator is authorized to utilize the services of personnel of any other Federal agency (as such term is defined under section 551(1) of title 5).

"(5) VOLUNTARY SERVICES.—

"(A) IN GENERAL.—(i) In exercising the authority to accept gifts and voluntary services under section 326 of this title, and without regard to section 1342 of title 31, the Administrator may not accept voluntary and uncompensated services if such services are used to displace Federal employees employed on a full-time, part-time, or seasonal basis.

"(ii) The Administrator is authorized to provide for incidental expenses, including transportation, lodging, and subsistence for volunteers who provide voluntary services under this subsection.

"(iii) An individual who provides voluntary services under this subsection shall not be considered a Federal employee for any purpose other than for purposes of chapter 81 of title 5, relating to compensation for work injuries, and chapter 171 of title 28, relating to tort claims."

SEC. 626. CONTRACTS.

Section 106(l), as added by section 625 of this title, is amended by adding at the end the following new paragraph:

"(6) CONTRACTS.—The Administrator is authorized to enter into and perform such contracts, leases, cooperative agreements, or other transactions as may be necessary to carry out the functions of the Administrator and the Administration. The Administrator may enter into such contracts, leases, cooperative agreements, and other transactions with any Federal agency (as such term is defined in section 551(1) of title 5) or any instrumentality of the United States, any State, territory, or possession, or political subdivision thereof, any other governmental entity, or any person, firm, association, corporation, or educational institution, on such terms and conditions as the Administrator may consider appropriate."

SEC. 627. FACILITIES.

Section 106, as amended by section 625 of this title, is further amended by adding at the end the following new subsection:

"(m) COOPERATION BY ADMINISTRATOR.—With the consent of appropriate officials, the Administrator may, with or without reimbursement, use or accept the services, equipment, personnel, and facilities of any other Federal agency (as such term is defined in section 551(1) of title 5) and any other public or private entity. The Administrator may also cooperate with appropriate officials of other public and private agencies and instrumentalities concerning the use of services, equipment, personnel, and facilities. The head of each Federal agency shall cooperate with the Administrator in making the services, equipment, personnel, and facilities of the Federal agency available to the Administrator. The head of a Federal agency is authorized, notwithstanding any other provision of law, to transfer to or to receive from the Administration, without reimbursement, supplies and equipment other than administrative supplies or equipment."

SEC. 628. PROPERTY.

Section 106, as amended by section 627 of this title, is further amended by adding at the end the following new subsection:

"(n) ACQUISITION.—

"(1) IN GENERAL.—The Administrator is authorized—

"(A) to acquire (by purchase, lease, condemnation, or otherwise), construct, improve, repair, operate, and maintain—

"(i) air traffic control facilities and equipment;

"(ii) research and testing sites and facilities; and

"(iii) such other real and personal property (including office space and patents), or any interest therein, within and outside the continental United States as the Administrator considers necessary;

"(B) to lease to others such real and personal property; and

"(C) to provide by contract or otherwise for eating facilities and other necessary facilities for the welfare of employees of the Administration at the installations of the Administration, and to acquire, operate, and maintain equipment for these facilities.

"(2) TITLE.—Title to any property or interest therein acquired pursuant to this subsection shall be held by the Government of the United States."

SEC. 629. TRANSFERS OF FUNDS FROM OTHER FEDERAL AGENCIES.

Section 106, as amended by section 628 of this title, is further amended by adding at the end the following new subsection:

"(o) TRANSFERS OF FUNDS.—The Administrator is authorized to accept transfers of unobligated balances and unexpended balances of funds appropriated to other Federal agencies (as such term is defined in section 551(1) of title 5) to carry out functions transferred by law to the Administrator or functions transferred pursuant to law to the Administrator on or after the date of the enactment of the Air Traffic Management System Performance Improvement Act of 1996."

SEC. 630. MANAGEMENT ADVISORY COUNCIL.

Section 106, as amended by section 629 of this title, is further amended by adding at the end the following new subsection:

"(p) MANAGEMENT ADVISORY COUNCIL.—

"(1) ESTABLISHMENT.—Within 3 months after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996, the Administrator shall establish an advisory council which shall be known as the Federal Aviation Management Advisory Council (in this subsection referred to as the 'Council'). With respect to Administration management, policy, spending, funding, and regulatory matters affecting the aviation industry, the Council may submit comments, recommended modifications, and dissenting views to the Administrator. The Administrator shall include in any submission to Congress, the Secretary, or the general public, and in any submission for publication in the Federal Register, a description of the comments, recommended modifications, and dissenting views received from the Council, together with the reasons for any differences between the views of the Council and the views or actions of the Administrator.

"(2) MEMBERSHIP.—The Council shall consist of 15 members, who shall consist of—

"(A) a designee of the Secretary of Transportation;

"(B) a designee of the Secretary of Defense; and

"(C) 13 members representing aviation interests, appointed by the President by and with the advice and consent of the Senate.

"(3) QUALIFICATIONS.—No member appointed under paragraph (2)(C) may serve as an officer or employee of the United States Government while serving as a member of the Council.

"(4) FUNCTIONS.—

"(A) IN GENERAL.—(i) The Council shall provide advice and counsel to the Administrator on issues which affect or are affected by the operations of the Administrator. The Council shall function as an oversight resource for management, policy, spending, and regulatory matters under the jurisdiction of the Administration.

"(ii) The Council shall review the rulemaking cost-benefit analysis process and develop recommendations to improve the analysis and ensure that the public interest is fully protected.

"(iii) The Council shall review the process through which the Administration determines to use advisory circulars and service bulletins.

"(B) MEETINGS.—The Council shall meet on a regular and periodic basis or at the call of the chairman or of the Administrator.

"(C) ACCESS TO DOCUMENTS AND STAFF.—The Administration may give the Council appropriate access to relevant documents and personnel of the Administration, and the Administrator shall make available, consistent with the authority to withhold commercial and other proprietary information under section 552 of title 5 (commonly known as the 'Freedom of Information Act'), cost data associated with the acquisition and operation of air traffic service systems. Any member of the Council who receives commercial or other proprietary data from the Administrator shall be subject to the provisions of section 1905 of title 18, pertaining to unauthorized disclosure of such information.

"(5) FEDERAL ADVISORY COMMITTEE ACT NOT TO APPLY.—The Federal Advisory Committee Act (5 U.S.C. App.) does not apply to the Council or such aviation rulemaking committees as the Administrator shall designate.

"(6) ADMINISTRATIVE MATTERS.—

"(A) TERMS OF MEMBERS.—(i) Except as provided in subparagraph (B), members of the Council appointed by the President under paragraph (2)(C) shall be appointed for a term of 3 years.

"(ii) Of the members first appointed by the President—

"(I) 4 shall be appointed for terms of 1 year;

"(II) 5 shall be appointed for terms of 2 years;

and

"(III) 4 shall be appointed for terms of 3 years.

"(iii) An individual chosen to fill a vacancy shall be appointed for the unexpired term of the member replaced.

"(iv) A member whose term expires shall continue to serve until the date on which the member's successor takes office.

"(B) CHAIRMAN; VICE CHAIRMAN.—The Council shall elect a chair and a vice chair from among the members appointed under paragraph (2)(C), each of whom shall serve for a term of 1 year. The vice chair shall perform the duties of the chairman in the absence of the chairman.

"(C) TRAVEL AND PER DIEM.—Each member of the Council shall be paid actual travel expenses, and per diem in lieu of subsistence expenses when away from his or her usual place of residence, in accordance with section 5703 of title 5.

"(D) DETAIL OF PERSONNEL FROM THE ADMINISTRATION.—The Administrator shall make available to the Council such staff, information, and administrative services and assistance as may reasonably be required to enable the Council to carry out its responsibilities under this subsection.

"(7) REPORT TO CONGRESS.—The Council, in conjunction with the Administration, shall undertake a review of the overall condition of aviation safety in the United States and emerging trends in the safety of particular sections of the aviation industry. This shall include an examination of—

"(A) the extent to which the dual mission of the Administration to promote and regulate civil aviation may affect aviation safety and provide recommendations to Congress for any necessary changes the Council, in conjunction with Administration, deems appropriate; and

"(B) the adequacy of staffing and training resources for safety personnel of the Administration, including safety inspectors.

The Council shall report to Congress within 180 days after the date of enactment of this Act on its findings and recommendations under this paragraph.

SEC. 631. AIRCRAFT ENGINE STANDARDS.

Subsection (a)(1) of section 44715 is amended to read as follows:

"(a) STANDARDS AND REGULATIONS.—(1) To relieve and protect the public health and welfare

from aircraft noise, sonic boom, the Administrator of the Federal Aviation Administration, as he deems necessary, shall prescribe—

“(A) standards to measure aircraft noise and sonic boom;

“(B) regulations to control and abate aircraft noise and sonic boom; and

“(C)(i) the Environmental Protection Agency shall consult with the Federal Aviation Administration on aircraft engine emission standards;

“(ii) the Environmental Protection Agency shall not change the aircraft engine emission standards if such change would significantly increase noise and adversely affect safety;

“(iii) the Administrator, as the Administrator deems appropriate, shall provide for the participation of a representative of the Environmental Protection Agency on such advisory committees or associated working groups that advise the Administrator on matters related to the environmental effects of aircraft and aircraft engines.”.

SEC. 632. RURAL AIR FARE STUDY.

(a) IN GENERAL.—The Secretary shall conduct a study to—

(1) compare air fares paid (calculated as both actual and adjusted air fares) for air transportation on flights conducted by commercial air carriers—

(A) between—

(i) nonhub airports located in small communities; and

(ii) large hub airports; and

(B) between large hub airports;

(2) analyze—

(A) the extent to which passenger service that is provided from nonhub airports is provided on—

(i) regional commuter commercial air carriers; or

(ii) major air carriers;

(B) the type of aircraft employed in providing passenger service at nonhub airports; and

(C) whether there is competition among commercial air carriers with respect to the provision of air service to passengers from nonhub airports.

(b) FINDINGS.—The Secretary shall include in the report of the study conducted under subsection (a) findings concerning—

(1) whether passengers who use commercial air carriers to and from rural areas (as defined by the Secretary) pay a disproportionately greater price for that transportation than passengers who use commercial air carriers between urban areas (as defined by the Secretary);

(2) the nature of competition, if any, in rural markets (as defined by the Secretary) for commercial air carriers;

(3) whether a relationship exists between higher air fares and competition among commercial air carriers for passengers traveling on jet aircraft from small communities (as defined by the Secretary) and, if such a relation exists, the nature of that relationship;

(4) the number of small communities that have lost air service as a result of the deregulation of commercial air carriers with respect to air fares;

(5) the number of small communities served by airports with respect to which, after commercial air carrier fares were deregulated, jet aircraft service was replaced by turboprop aircraft service; and

(6) where such replacement occurred, any corresponding decreases in available seat capacity for consumers at the airports referred to in that subparagraph.

(c) REPORT.—Not later than 60 days after the date of enactment of this Act, the Secretary shall submit a final report on the study carried out under subsection (a) to the Committee on Commerce, Science, and Transportation of the Senate.

(d) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

(1) ADJUSTED AIR FARE.—The term “adjusted air fare” means an actual air fare that is adjusted for distance traveled by a passenger.

(2) AIR CARRIER.—The term “air carrier” is defined in section 40102(a)(2) of title 49, United States Code.

(3) AIRPORT.—The term “airport” is defined in section 40102(9) of such title.

(4) COMMERCIAL AIR CARRIER.—The term “commercial air carrier” means an air carrier that provides air transportation for commercial purposes (as determined by the Secretary).

(5) HUB AIRPORT.—The term “hub airport” is defined in section 41731(a)(2) of such title.

(6) LARGE HUB AIRPORT.—The term “large hub airport” shall be defined by the Secretary but the definition may not include a small hub airport, as that term is defined in section 41731(a)(5) of such title.

(7) MAJOR AIR CARRIER.—The term “major air carrier” shall be defined by the Secretary.

(8) NONHUB AIRPORT.—The term “nonhub airport” is defined in section 41731(a)(4) of such title.

(9) REGIONAL COMMUTER AIR CARRIER.—The term “regional commuter air carrier” shall be defined by the Secretary.

Subtitle B—Federal Aviation Administration Streamlining Programs

SEC. 651. REVIEW OF ACQUISITION MANAGEMENT SYSTEM.

Not later than April 1, 1999, the Administration shall employ outside experts to provide an independent evaluation of the effectiveness of its acquisition management system within 3 months after such date. The Administrator shall transmit a copy of the evaluation to the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives.

SEC. 652. AIR TRAFFIC CONTROL MODERNIZATION REVIEWS.

Chapter 401, as amended by section 402 of this Act, is amended by redesignating section 40121 as 40123, and by inserting after section 40120 the following new section:

“§40121. Air traffic control modernization reviews

“(a) REQUIRED TERMINATIONS OF ACQUISITIONS.—The Administrator of the Federal Aviation Administration (hereafter referred to in this section as the ‘Administrator’) shall terminate any program initiated after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 and funded under the Facilities and Equipment account that—

“(1) is more than 50 percent over the cost goal established for the program;

“(2) fails to achieve at least 50 percent of the performance goals established for the program; or

“(3) is more than 50 percent behind schedule as determined in accordance with the schedule goal established for the program.

“(b) AUTHORIZED TERMINATIONS OF ACQUISITIONS.—The Administrator shall consider terminating, under the authority of subsection (a), any substantial acquisition that—

“(1) is more than 10 percent over the cost goal established for the program;

“(2) fails to achieve at least 90 percent of the performance goals established for the program; or

“(3) is more than 10 percent behind schedule as determined in accordance with the schedule goal established for the program.

“(c) EXCEPTIONS AND REPORT.—

“(1) CONTINUANCE OF PROGRAM, ETC.—Notwithstanding subsection (a), the Administrator may continue an acquisitions program required to be terminated under subsection (a) if the Administrator determines that termination would be inconsistent with the development or operation of the national air transportation system in a safe and efficient manner.

“(2) DEPARTMENT OF DEFENSE.—The Department of Defense shall have the same exemptions from acquisition laws as are waived by the Ad-

ministrator under section 348(b) of Public Law 104-50 when engaged in joint actions to improve or replenish the national air traffic control system. The Administration may acquire real property, goods, and services through the Department of Defense, or other appropriate agencies, but is bound by the acquisition laws and regulations governing those cases.

“(3) REPORT.—If the Administrator makes a determination under paragraph (1), the Administrator shall transmit a copy of the determination, together with a statement of the basis for the determination, to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives.”.

SEC. 653. FEDERAL AVIATION ADMINISTRATION PERSONNEL MANAGEMENT SYSTEM.

Chapter 401, as amended by section 652, is further amended by inserting after section 40121 the following new section:

“§40122. Federal Aviation Administration personnel management system

“(a) IN GENERAL.—

“(1) CONSULTATION AND NEGOTIATION.—In developing and making changes to the personnel management system initially implemented by the Administrator on April 1, 1996, the Administrator shall negotiate with the exclusive bargaining representatives of employees of the Administration certified under section 7111 of title 5 and consult with other employees of the Administration.

“(2) MEDIATION.—If the Administrator does not reach an agreement under paragraph (1) with the exclusive bargaining representatives, the services of the Federal Mediation and Conciliation Service shall be used to attempt to reach such agreement. If the services of the Federal Mediation and Conciliation Service do not lead to an agreement, the Administrator’s proposed change to the personnel management system shall not take effect until 60 days have elapsed after the Administrator has transmitted the proposed change, along with the objections of the exclusive bargaining representatives to the change, and the reasons for such objections, to the Congress.

“(3) COST SAVINGS AND PRODUCTIVITY GOALS.—The Administration and the exclusive bargaining representatives of the employees shall use every reasonable effort to find cost savings and to increase productivity within each of the affected bargaining units.

“(4) ANNUAL BUDGET DISCUSSIONS.—The Administration and the exclusive bargaining representatives of the employees shall meet annually for the purpose of finding additional cost savings within the Administration’s annual budget as it applies to each of the affected bargaining units and throughout the agency.

“(b) EXPERT EVALUATION.—On the date that is 3 years after the personnel management system is implemented, the Administration shall employ outside experts to provide an independent evaluation of the effectiveness of the system within 3 months after such date. For this purpose, the Administrator may utilize the services of experts and consultants under section 3109 of title 5 without regard to the limitation imposed by the last sentence of section 3109(b) of such title, and may contract on a sole source basis, notwithstanding any other provision of law to the contrary.

“(c) PAY RESTRICTION.—No officer or employee of the Administration may receive an annual rate of basic pay in excess of the annual rate of basic pay payable to the Administrator.

“(d) ETHICS.—The Administration shall be subject to Executive Order No. 12674 and regulations and opinions promulgated by the Office of Government Ethics, including those set forth in section 2635 of title 5 of the Code of Federal Regulations.

“(e) EMPLOYEE PROTECTIONS.—Until July 1, 1999, basic wages (including locality pay) and

operational differential pay provided employees of the Administration shall not be involuntarily adversely affected by reason of the enactment of this section, except for unacceptable performance or by reason of a reduction in force or reorganization or by agreement between the Administration and the affected employees' exclusive bargaining representative.

"(f) LABOR-MANAGEMENT AGREEMENTS.—Except as otherwise provided by this title, all labor-management agreements covering employees of the Administration that are in effect on the effective date of the Air Traffic Management System Performance Improvement Act of 1996 shall remain in effect until their normal expiration date, unless the Administrator and the exclusive bargaining representative agree to the contrary."

SEC. 654. CONFORMING AMENDMENT.

The chapter analysis for chapter 401, as amended by section 403(b) of this Act, is amended by striking the item relating to section 40120 and inserting the following new items:

"40121. Air traffic control modernization reviews.

"40122. Federal Aviation Administration personnel management system.

"40123. Relationship to other laws."

Subtitle C—System To Fund Certain Federal Aviation Administration Functions

SEC. 671. FINDINGS.

The Congress finds the following:

(1) The Administration is recognized throughout the world as a leader in aviation safety.

(2) The Administration certifies aircraft, engines, propellers, and other manufactured parts.

(3) The Administration certifies more than 650 training schools for pilots and nonpilots, more than 4,858 repair stations, and more than 193 maintenance schools.

(4) The Administration certifies pilot examiners, who are then qualified to determine if a person has the skills necessary to become a pilot.

(5) The Administration certifies more than 6,000 medical examiners, each of whom is then qualified to medically certify the qualifications of pilots and nonpilots.

(6) The Administration certifies more than 470 airports, and provides a limited certification for another 205 airports. Other airports in the United States are also reviewed by the Administration.

(7) The Administration each year performs more than 355,000 inspections.

(8) The Administration issues more than 655,000 pilot's licenses and more than 560,000 nonpilot's licenses (including mechanics).

(9) The Administration's certification means that the product meets worldwide recognized standards of safety and reliability.

(10) The Administration's certification means aviation-related equipment and services meet world-wide recognized standards.

(11) The Administration's certification is recognized by governments and businesses throughout the world and as such may be a valuable element for any company desiring to sell aviation-related products throughout the world.

(12) The Administration's certification may constitute a valuable license, franchise, privilege or benefits for the holders.

(13) The Administration also is a major purchaser of computers, radars, and other systems needed to run the air traffic control system. The Administration's design, acceptance, commissioning, or certification of such equipment enables the private sector to market those products around the world, and as such confers a benefit on the manufacturer.

(14) The Administration provides extensive services to public use aircraft.

SEC. 672. PURPOSES.

The purposes of this title are—

(1) to provide a financial structure for the Administration so that it will be able to support the future growth in the national aviation and airport system;

(2) to review existing and alternative funding options, including incentive-based fees for services, and establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

(3) to ensure that any funding will be dedicated solely for the use of the Administration;

(4) to authorize the Administration to recover the costs of its services from those who benefit from, but do not contribute to, the national aviation system and the services provided by the Administration;

(5) to consider a fee system based on the cost or value of the services provided and other funding alternatives;

(6) to develop funding options for the Congress in order to provide for the long-term efficient and cost-effective support of the Administration and the aviation system; and

(7) to achieve a more efficient and effective Administration for the benefit of the aviation transportation industry.

SEC. 673. USER FEES FOR VARIOUS FEDERAL AVIATION ADMINISTRATION SERVICES.

(a) IN GENERAL.—Chapter 453 is amended by striking section 45301 and inserting the following new section:

"§45301. General provisions

"(a) SCHEDULE OF FEES.—The Administrator shall establish a schedule of new fees, and a collection process for such fees, for the following services provided by the Administration:

"(1) Air traffic control and related services provided to aircraft other than military and civilian aircraft of the United States government or of a foreign government that neither take off from, nor land in, the United States.

"(2) Services (other than air traffic control services) provided to a foreign government.

"(b) LIMITATIONS.—

"(1) AUTHORIZATION AND IMPACT CONSIDERATIONS.—In establishing fees under subsection (a), the Administrator—

"(A) is authorized to recover in fiscal year 1997 \$100,000,000; and

"(B) shall ensure that each of the fees required by subsection (a) is directly related to the Administration's costs of providing the service rendered. Services for which costs may be recovered include the costs of air traffic control, navigation, weather services, training and emergency services which are available to facilitate safe transportation over the United States, and other services provided by the Administrator or by programs financed by the Administrator to flights that neither take off nor land in the United States.

"(2) PUBLICATION; COMMENT.—The Administrator shall publish in the Federal Register an initial fee schedule and associated collection process as an interim final rule, pursuant to which public comment will be sought and a final rule issued.

"(c) USE OF EXPERTS AND CONSULTANTS.—In developing the system, the Administrator may consult with such nongovernmental experts as the Administrator may employ and the Administrator may utilize the services of experts and consultants under section 3109 of title 5 without regard to the limitation imposed by the last sentence of section 3109(b) of such title, and may contract on a sole source basis, notwithstanding any other provision of law to the contrary. Notwithstanding any other provision of law to the contrary, the Administrator may retain such experts under a contract awarded on a basis other than a competitive basis and without regard to any such provisions requiring competitive bidding or precluding sole source contract authority."

(b) CONFORMING AMENDMENT.—The chapter analysis for chapter 453 is amended by striking the item relating to section 45301 and inserting the following new item:

"45301. General provisions."

(c) REPEAL.—

(1) IN GENERAL.—Section 70118 is repealed.

(2) CONFORMING AMENDMENT.—The chapter analysis for chapter 701 is amended by striking the item relating to section 70118.

SEC. 674. INDEPENDENT ASSESSMENT AND TASK FORCE TO REVIEW EXISTING AND INNOVATIVE FUNDING MECHANISMS.

(a) INDEPENDENT ASSESSMENT.—

(1) INITIATION.—As soon as all members of the task force are appointed under subsection (b) of this section, the Administrator shall contract with an entity independent of the Administration and the Department of Transportation to conduct a complete independent assessment of the financial requirements of the Administration through the year 2002.

(2) ASSESSMENT CRITERIA.—The Administrator shall provide to the independent entity estimates of the financial requirements of the Administration for the period described in paragraph (1), using as a base the fiscal year 1997 authorization levels established by the Congress. The independent assessment shall be based on an objective analysis of agency funding needs.

(3) CERTAIN FACTORS TO BE TAKEN INTO ACCOUNT.—The independent assessment shall take into account all relevant factors, including—

(A) anticipated air traffic forecasts;

(B) other workload measures;

(C) estimated productivity gains, if any, which contribute to budgetary requirements;

(D) the need for programs; and

(E) the need to provide for continued improvements in all facets of aviation safety, along with operational improvements in air traffic control.

(4) COST ALLOCATION.—The independent assessment shall also assess the costs to the Administration occasioned by the provision of services to each segment of the aviation system.

(5) DEADLINE.—The independent assessment shall be completed no later than 90 days after the contract is awarded, and shall be submitted to the task force, the Secretary, the Secretary of the Treasury, the Committee on Commerce, Science, and Transportation and the Committee on Finance of the Senate, and the Committee on Transportation and Infrastructure and the Committee on Ways and Means of the House of Representatives.

(b) TASK FORCE.—

(1) ESTABLISHMENT.—Not later than 30 days after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Treasury, shall establish an 11-member task force, independent of the Administration and the Department of Transportation.

(2) MEMBERSHIP.—The members of the task force shall be selected from among individuals who have expertise in the aviation industry and who are able, collectively, to represent a balanced view of the issues important to general aviation, major air carriers, air cargo carriers, regional air carriers, business aviation, airports, aircraft manufacturers, the financial community, aviation industry workers, and airline passengers. At least one member of the task force shall have detailed knowledge of the congressional budgetary process.

(3) HEARINGS AND CONSULTATION.—

(A) HEARINGS.—The task force shall take such testimony and solicit and receive such comments from the public and other interested parties as it considers appropriate, shall conduct 2 public hearings after affording adequate notice to the public thereof, and is authorized to conduct such additional hearings as may be necessary.

(B) CONSULTATION.—The task force shall consult on a regular and frequent basis with the Secretary of Transportation, the Secretary of the Treasury, the Committee on Commerce, Science, and Transportation and the Committee on Finance of the Senate, and the Committee on

Transportation and Infrastructure and the Committee on Ways and Means of the House of Representatives.

(C) FACA NOT TO APPLY.—The task force shall not be considered an advisory committee for purposes of the Federal Advisory Committee Act (5 U.S.C. App.).

(4) DUTIES.—

(A) REPORT TO SECRETARY.—

(i) IN GENERAL.—The task force shall submit a report setting forth a comprehensive analysis of the Administration's budgetary requirements through fiscal year 2002, based upon the independent assessment under subsection (a), that analyzes alternative financing and funding means for meeting the needs of the aviation system through the year 2002. The task force shall submit a preliminary report of that analysis to the Secretary not later than 6 months after the independent assessment is completed under subsection (a). The Secretary shall provide comments on the preliminary report to the task force within 30 days after receiving it. The task force shall issue a final report of such comprehensive analysis within 30 days after receiving the Secretary's comments on its preliminary report.

(ii) CONTENTS.—The report submitted by the task force under clause (i)—

(I) shall consider the independent assessment under subsection (a);

(II) shall consider estimated cost savings, if any, resulting from the procurement and personnel reforms included in this Act or in sections 347 and 348 of Public Law 104-50, and additional financial initiatives;

(III) shall include specific recommendations to the Congress on how the Administration can reduce costs, raise additional revenue for the support of agency operations, and accelerate modernization efforts; and

(IV) shall include a draft bill containing the changes in law necessary to implement its recommendations.

(B) RECOMMENDATIONS.—The task force shall make such recommendations under subparagraph (A)(III) as the task force deems appropriate. Those recommendations may include—

(i) alternative financing and funding proposals, including linked financing proposals;

(ii) modifications to existing levels of Airport and Airways Trust Fund receipts and taxes for each type of tax;

(iii) establishment of a cost-based user fee system based on, but not limited to, criteria under subparagraph (F) and methods to ensure that costs are borne by users on a fair and equitable basis;

(iv) methods to ensure that funds collected from the aviation community are able to meet the needs of the agency;

(v) methods to ensure that funds collected from the aviation community and passengers are used to support the aviation system;

(vi) means of meeting the airport infrastructure needs for large, medium, and small airports; and

(vii) any other matter the task force deems appropriate to address the funding and needs of the Administration and the aviation system.

(C) ADDITIONAL RECOMMENDATIONS.—The task force report may also make recommendations concerning—

(i) means of improving productivity by expanding and accelerating the use of automation and other technology;

(ii) means of contracting out services consistent with this Act, other applicable law, and safety and national defense needs;

(iii) methods to accelerate air traffic control modernization and improvements in aviation safety and safety services;

(iv) the elimination of unneeded programs; and

(v) a limited innovative program based on funding mechanisms such as loan guarantees, financial partnerships with for-profit private sector entities, government-sponsored enterprises, and revolving loan funds, as a means of

funding specific facilities and equipment projects, and to provide limited additional funding alternatives for airport capacity development.

(D) IMPACT ASSESSMENT FOR RECOMMENDATIONS.—For each recommendation contained in the task force's report, the report shall include a full analysis and assessment of the impact implementation of the recommendation would have on—

(i) safety;

(ii) administrative costs;

(iii) the congressional budget process;

(iv) the economics of the industry (including the proportionate share of all users);

(v) the ability of the Administration to utilize the sums collected; and

(vi) the funding needs of the Administration.

(E) TRUST FUND TAX RECOMMENDATIONS.—If the task force's report includes a recommendation that the existing Airport and Airways Trust Fund tax structure be modified, the report shall—

(i) state the specific rates for each group affected by the proposed modifications;

(ii) consider the impact such modifications shall have on specific users and the public (including passengers); and

(iii) state the basis for the recommendations.

(F) FEE SYSTEM RECOMMENDATIONS.—If the task force's report includes a recommendation that a fee system be established, including an air traffic control performance-based user fee system, the report shall consider—

(i) the impact such a recommendation would have on passengers, air fares (including low-fare, high frequency service), service, and competition;

(ii) existing contributions provided by individual air carriers toward funding the Administration and the air traffic control system through contributions to the Airport and Airways Trust Fund;

(iii) continuing the promotion of fair and competitive practices;

(iv) the unique circumstances associated with interisland air carrier service in Hawaii and rural air service in Alaska;

(v) the impact such a recommendation would have on service to small communities;

(vi) the impact such a recommendation would have on services provided by regional air carriers;

(vii) alternative methodologies for calculating fees so as to achieve a fair and reasonable distribution of costs of service among users;

(viii) the usefulness of phased-in approaches to implementing such a financing system;

(ix) means of assuring the provision of general fund contributions, as appropriate, toward the support of the Administration; and

(x) the provision of incentives to encourage greater efficiency in the provision of air traffic services by the Administration and greater efficiency in the use of air traffic services by aircraft operators.

(G) ACCESS TO DOCUMENTS AND STAFF.—The Administration may give the task force appropriate access to relevant documents and personnel of the Administration, and the Administrator shall make available, consistent with the authority to withhold commercial and other proprietary information under section 552 of title 5, United States Code (commonly known as the 'Freedom of Information Act') cost data associated with the acquisition and operation of air traffic service systems. Any member of the task force who receives commercial or other proprietary data from the Administrator shall be subject to the provisions of section 1905 of title 18, United States Code, pertaining to unauthorized disclosure of such information.

(H) TRAVEL AND PER DIEM.—Each member of the task force shall be paid actual travel expenses, and per diem in lieu of subsistence expenses when away from his or her usual place of residence, in accordance with section 5703 of title 5, United States Code.

(I) DETAIL OF PERSONNEL FROM THE ADMINISTRATION.—The Administrator shall make available to the task force such staff, information, and administrative services and assistance as may reasonably be required to enable the task force to carry out its responsibilities under this subsection.

(5) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this subsection.

(c) REPORT BY SECRETARY TO CONGRESS.—

(1) CONSIDERATION OF TASK FORCE'S PRELIMINARY REPORT.—Within 30 days after receiving the preliminary report of the task force under subsection (b), the Secretary, in consultation with the Secretary of the Treasury, shall furnish comments on that report to the task force.

(2) SECRETARY'S REPORT TO CONGRESS.—Within 30 days after receiving the final report of the task force and in no event more than 1 year after the date of enactment of this Act, the Secretary, after consulting the Secretary of the Treasury, shall submit a report, based upon the final report of the task force, containing the Secretary's recommendations for funding the needs of the aviation system through the year 2002 to the Committee on Commerce, Science, and Transportation and the Committee on Finance of the Senate and the Committee on Transportation and Infrastructure and the Committee on Ways and Means of the House of Representatives.

(3) CONTENTS.—The Secretary shall include in his report to the Congress under paragraph (2)—

(A) a copy of the final report of the task force; and

(B) a draft bill containing the changes in law necessary to implement the Secretary's recommendations.

(4) PUBLICATION.—The Secretary shall cause a copy of the reports to be printed in the Federal Register upon their submission to Congress.

(d) GAO AUDIT OF COST ALLOCATION.—The Comptroller General shall conduct an assessment of the manner in which costs for air traffic control services are allocated between the Administration and the Department of Defense. The Comptroller General shall report the results of the assessment, together with any recommendations the Comptroller General may have for reallocation of costs and for opportunities to increase the efficiency of air traffic control services provided by the Administration and by the Department of Defense, to the task force, the Administrator, the Secretary of Defense, the Committee on Transportation and Infrastructure of the House of Representatives, and the Committee on Commerce, Science, and Transportation of the Senate not later than 120 days after the date of enactment of this Act.

SEC. 675. PROCEDURE FOR CONSIDERATION OF CERTAIN FUNDING PROPOSALS.

(a) IN GENERAL.—Chapter 481 is amended by adding at the end thereof the following:

"§ 48111. Funding proposals

"(a) INTRODUCTION AND REFERRAL.—Within 15 days (not counting any day on which either House is not in session) after a funding proposal is submitted to the House of Representatives and the Senate by the Secretary of Transportation under section 674(c) of the Air Traffic Management System Performance Improvement Act of 1996, an implementing bill with respect to such funding proposal shall be introduced in the House by the Majority Leader of the House, for himself and the Minority Leader of the House, or by Members of the House designated by the Majority Leader and Minority Leader of the House; and shall be introduced in the Senate by the Majority Leader of the Senate, for himself and the Minority Leader of the Senate, or by Members of the Senate designated by the Majority Leader and Minority Leader of the Senate. The implementing bill shall be referred by the Presiding Officers of the respective Houses to the appropriate committee, or, in the case of a

bill containing provisions within the jurisdiction of two or more committees, jointly to such committees for consideration of those provisions within their respective jurisdictions.

“(b) CONSIDERATION IN THE HOUSE OF REPRESENTATIVES.—

“(1) REFERRAL AND REPORTING.—Any committee of the House of Representatives to which an implementing bill is referred shall report it, with or without recommendation, not later than the 45th calendar day of session after the date of its introduction. If any committee fails to report the bill within that period, it is in order to move that the House discharge the committee from further consideration of the bill. A motion to discharge may be made only by a Member favoring the bill (but only at a time or place designated by the Speaker in the legislative schedule of the day after the calendar day on which the Member offering the motion announces to the House his intention to do so and the form of the motion). The motion is highly privileged. Debate thereon shall be limited to not more than one hour, the time to be divided in the House equally between a proponent and an opponent. The previous question shall be considered as ordered on the motion to its adoption without intervening motion. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order.

“(2) CONSIDERATION OF IMPLEMENTING BILL.—After an implementing bill is reported or a committee has been discharged from further consideration, it is in order to move that the House resolve into the Committee of the Whole House on the State of the Union for consideration of the bill. If reported and the report has been available for at least one calendar day, all points of order against the bill and against consideration of the bill are waived. If discharged, all points of order against the bill and against consideration of the bill are waived. The motion is highly privileged. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. During consideration of the bill in the Committee of the Whole, the first reading of the bill shall be dispensed with. General debate shall proceed, shall be confined to the bill, and shall not exceed one hour equally divided and controlled by a proponent and an opponent of the bill. The bill shall be considered as read for amendment under the five-minute rule. Only one motion to rise shall be in order, except if offered by the manager. No amendment to the bill is in order except an amendment that is relevant to aviation funding and the Federal Aviation Administration. Consideration of the bill for amendment shall not exceed one hour excluding time for recorded votes and quorum calls. No amendment shall be subject to further amendment, except pro forma amendments for the purposes of debate only. At the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion. A motion to reconsider the vote on passage of the bill shall not be in order.

“(3) APPEALS OF RULINGS.—Appeals from decision of the Chair regarding application of the rules of the House of Representatives to the procedure relating to an implementing bill shall be decided without debate.

“(4) CONSIDERATION OF MORE THAN ONE IMPLEMENTING BILL.—It shall not be in order to consider under this subsection more than one implementing bill under this section, except for consideration of a similar Senate bill (unless the House has already rejected an implementing bill) or more than one motion to discharge described in paragraph (1) with respect to an implementing bill.

“(c) CONSIDERATION IN THE SENATE.—An implementing bill introduced in the Senate shall be referred to the Committee on Commerce, Science, and Transportation. The Committee on Com-

merce, Science, and Transportation shall report the bill with its recommendations within 60 days following the date of introduction of that bill. Upon the reporting of the bill by the Committee on Commerce, Science, and Transportation, the reported bill shall be referred sequentially to the Committee on Finance for a period of 60 legislative days.

“(d) CONSIDERATION IN CONFERENCE.—

“(1) CONVENING OF CONFERENCE.—In the case of disagreement between the two Houses of Congress with respect to an implementing bill passed by both Houses, conferees should be promptly appointed and a conference promptly convened, if necessary.

“(2) HOUSE CONSIDERATION.—Notwithstanding any other rule of the House of Representatives, it shall be in order to consider the report of a committee of conference relating to an implementing bill if such report has been available for one calendar day (excluding Saturdays, Sundays, and legal holidays, unless the House is in session on such a day) and the accompanying statement shall have been filed in the House.

“(3) SENATE CONSIDERATION.—Consideration in the Senate of the conference report and any amendments in disagreement on an implementing bill shall be limited to not more than 4 hours equally divided and controlled by the Majority Leader and the Minority Leader or their designees. A motion to recommit the conference report is not in order.

“(e) DEFINITIONS.—For purposes of this section—

“(1) IMPLEMENTING BILL.—The term ‘implementing bill’ means only a bill of either House of Congress which is introduced as provided in subsection (a) with respect to one or more Federal Aviation Administration funding proposals which contain changes in existing laws or new statutory authority required to implement such funding proposal or proposals.

“(2) FUNDING PROPOSAL.—The term ‘funding proposal’ means a proposal to provide interim or permanent funding for operations of the Federal Aviation Administration.

“(f) RULES OF HOUSE OF REPRESENTATIVES AND SENATE.—This section is enacted by the Congress—

“(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of implementing bills described in subsection (d); and they supersede other rules only to the extent that they are inconsistent therewith; and

“(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.”

(b) CLERICAL AMENDMENT.—The table of sections for chapter 481 is amended by adding at the end thereof the following:

“48111. Funding proposals.”

SEC. 676. ADMINISTRATIVE PROVISIONS.

(a) IN GENERAL.—Chapter 453, as amended by section 654 of this title, is further amended by—

(1) redesignating section 45303 as section 45304; and

(2) by inserting after section 45302 the following:

“§45303. Administrative provisions

“(a) IN GENERAL.—

“(1) FEES PAYABLE TO ADMINISTRATOR.—All fees imposed and amounts collected under this chapter for services performed, or materials furnished, by the Federal Aviation Administration (hereafter in this section referred to as the ‘Administration’) are payable to the Administrator.

“(2) REFUNDS.—The Administrator may refund any fee paid by mistake or any amount paid in excess of that required.

“(3) RECEIPTS CREDITED TO ACCOUNT.—Notwithstanding section 3302 of title 31 all fees and

amounts collected by the Administration, except insurance premiums and other fees charged for the provision of insurance and deposited in the Aviation Insurance Revolving Fund and interest earned on investments of such Fund, and except amounts which on the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 are required to be credited to the general fund of the Treasury (whether imposed under this section or not)—

“(A) shall be credited to a separate account established in the Treasury and made available for Administration activities;

“(B) shall be available immediately for expenditure but only for congressionally authorized and intended purposes; and

“(C) shall remain available until expended.

“(4) ANNUAL BUDGET REPORT BY ADMINISTRATOR.—The Administrator shall, on the same day each year as the President submits the annual budget to the Congress, provide to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives—

“(A) a list of fee collections by the Administration during the preceding fiscal year;

“(B) a list of activities by the Administration during the preceding fiscal year that were supported by fee expenditures and appropriations;

“(C) budget plans for significant programs, projects, and activities of the Administration, including out-year funding estimates;

“(D) any proposed disposition of surplus fees by the Administration; and

“(E) such other information as those committees consider necessary.

“(5) DEVELOPMENT OF COST ACCOUNTING SYSTEM.—The Administration shall develop a cost accounting system that adequately and accurately reflects the investments, operating and overhead costs, revenues, and other financial measurement and reporting aspects of its operations.

“(6) COMPENSATION TO CARRIERS FOR ACTING AS COLLECTION AGENTS.—The Administration shall prescribe regulations to ensure that any air carrier required, pursuant to the Air Traffic Management System Performance Improvement Act of 1996 or any amendments made by that Act, to collect a fee imposed on another party by the Administrator may collect from such other party an additional uniform amount that the Administrator determines reflects the necessary and reasonable expenses (net of interest accruing to the carrier after collection and before remittance) incurred in collecting and handling the fee.

“(7) COST REDUCTION AND EFFICIENCY REPORT.—Prior to the submission of any proposal for establishment, implementation, or expansion of any fees or taxes imposed on the aviation industry, the Administrator shall prepare a report for submission to the Congress which includes—

“(A) a justification of the need for the proposed fees or taxes;

“(B) a statement of steps taken by the Administrator to reduce costs and improve efficiency within the Administration;

“(C) an analysis of the impact of any fee or tax increase on each sector of the aviation transportation industry; and

“(D) a comparative analysis of any decrease in tax amounts equal to the receipts from which are credited to the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986.”

(b) CONFORMING AMENDMENT.—The chapter analysis for chapter 453 is amended by striking the item relating to section 45303 and inserting the following:

“45303. Administrative provisions.

“45304. Maximum fees for private person services.”

SEC. 677. ADVANCE APPROPRIATIONS FOR AIRPORT AND AIRWAY TRUST FUND ACTIVITIES.

(a) IN GENERAL.—Part C of subtitle VII is amended by adding at the end the following new chapter:

“CHAPTER 482—ADVANCE APPROPRIATIONS FOR AIRPORT AND AIRWAY TRUST FACILITIES

“Sec.

“48201. Advance appropriations.

“§ 48201. Advance appropriations

“(a) MULTIYEAR AUTHORIZATIONS.—Beginning with fiscal year 1998, any authorization of appropriations for an activity for which amounts are to be appropriated from the Airport and Airway Trust Fund established under section 9502 of the Internal Revenue Code of 1986 shall provide funds for a period of not less than 3 fiscal years unless the activity for which appropriations are authorized is to be concluded before the end of that period.

“(b) MULTIYEAR APPROPRIATIONS.—Beginning with fiscal year 1998, amounts appropriated from the Airport and Airway Trust Fund shall be appropriated for periods of 3 fiscal years rather than annually.”.

(b) CONFORMING AMENDMENT.—The analysis for subtitle VIII is amended by adding at the end the following new item:

“482. Advance appropriations for airport and airway trust facilities48201.”.**SEC. 678. RURAL AIR SERVICE SURVIVAL ACT.**

(a) SHORT TITLE.—This section may be cited as the “Rural Air Service Survival Act”.

(b) FINDINGS.—The Congress finds that—

(1) air service in rural areas is essential to a national transportation network;

(2) the rural air service infrastructure supports the safe operation of all air travel;

(3) rural air service creates economic benefits for all air carriers by making the national aviation system available to passengers from rural areas;

(4) rural air service has suffered since deregulation;

(5) the essential air service program under the Department of Transportation—

(A) provides essential airline access to rural and isolated rural communities throughout the Nation;

(B) is necessary for the economic growth and development of rural communities;

(C) is a critical component of the national transportation system of the United States; and

(D) has endured serious funding cuts in recent years; and

(6) a reliable source of funding must be established to maintain air service in rural areas and the essential air service program.

(c) ESSENTIAL AIR SERVICE AUTHORIZATION.—Section 41742 is amended to read as follows:

“§ 41742. Essential air service authorization

“(a) IN GENERAL.—Out of the amounts received by the Administration credited to the account established under section 45303(a)(3) or otherwise provided to the Administration, the sum of \$50,000,000 is authorized and shall be made available immediately for obligation and expenditure to carry out the essential air service program under this subchapter for each fiscal year.

“(b) FUNDING FOR SMALL COMMUNITY AIR SERVICE.—Notwithstanding any other provision of law, moneys credited to the account established under section 45303(a), including the funds derived from fees imposed under the authority contained in section 45301(a), shall be used to carry out the essential air service program under this subchapter. Notwithstanding section 47114(g) of this title, any amounts from those fees that are not obligated or expended at the end of the fiscal year for the purpose of funding the essential air service program under this subchapter shall be made available to the Administration for use in improving rural air

safety under subchapter I of chapter 471 of this title and shall be used exclusively for projects at rural airports under this subchapter.”.

(d) CONFORMING AMENDMENT.—The chapter analysis for chapter 417 is amended by striking the item relating to section 41742 and inserting the following:

“41742. Essential air service authorization.”.

(e) SECRETARY MAY REQUIRE MATCHING LOCAL FUNDS.—Section 41737 is amended by adding at the end thereof the following:

“(e) MATCHING FUNDS.—No earlier than 2 years after the effective date of section 679 of the Air Traffic Management System Performance Improvement Act of 1996, the Secretary may require an eligible agency, as defined in section 40117(a)(2) of this title, to provide matching funds of up to 10 percent for any payments it receives under this subchapter.”.

(f) TRANSFER OF ESSENTIAL AIR SERVICE PROGRAM TO FAA.—The responsibility for administration of subchapter II of chapter 417 is transferred from the Secretary of Transportation to the Administrator.

TITLE VII—PILOT RECORDS**SEC. 701. SHORT TITLE.**

This title may be cited as the “Pilot Records Improvement Act of 1996”.

SEC. 702. EMPLOYMENT INVESTIGATIONS OF PILOT APPLICANTS.

(a) IN GENERAL.—Section 44936 is amended by adding at the end the following new subsection:

“(f) RECORDS OF EMPLOYMENT OF PILOT APPLICANTS.—

“(1) IN GENERAL.—Before hiring an individual as a pilot, an air carrier shall request and receive the following information:

“(A) FAA RECORDS.—From the Administrator of the Federal Aviation Administration (hereafter in this subsection referred to as the ‘Administrator’), records pertaining to the individual that are maintained by the Administrator concerning—

“(i) current airman certificates (including airman medical certificates) and associated type ratings, including any limitations to those certificates and ratings; and

“(ii) summaries of legal enforcement actions resulting in a finding by the Administrator of a violation of this title or a regulation prescribed or order issued under this title that was not subsequently overturned.

“(B) AIR CARRIER AND OTHER RECORDS.—From any air carrier or other person that has employed the individual at any time during the 5-year period preceding the date of the employment application of the individual, or from the trustee in bankruptcy for such air carrier or person—

“(i) records pertaining to the individual that are maintained by an air carrier under regulations set forth in—

“(I) section 121.683 of title 14, Code of Federal Regulations;

“(II) paragraph (A) of section VI, appendix I, part 121 of such title;

“(III) paragraph (A) of section IV, appendix J, part 121 of such title;

“(IV) section 125.401 of such title; and

“(V) section 135.63(a)(4) of such title; and

“(ii) other records pertaining to the individual that are maintained by the air carrier or person concerning—

“(I) the training, qualifications, proficiency, or professional competence of the individual, including comments and evaluations made by a check airman designated in accordance with section 121.411, 125.295, or 135.337 of such title;

“(II) any disciplinary action taken with respect to the individual that was not subsequently overturned; and

“(III) any release from employment or resignation, termination, or disqualification with respect to employment.

“(C) NATIONAL DRIVER REGISTER RECORDS.—In accordance with section 30305(b)(7), from the

chief driver licensing official of a State, information concerning the motor vehicle driving record of the individual.

“(2) WRITTEN CONSENT; RELEASE FROM LIABILITY.—An air carrier making a request for records under paragraph (1)—

“(A) shall be required to obtain written consent to the release of those records from the individual that is the subject of the records requested; and

“(B) may, notwithstanding any other provision of law or agreement to the contrary, require the individual who is the subject of the records to request to execute a release from liability for any claim arising from the furnishing of such records to or the use of such records by such air carrier (other than a claim arising from furnishing information known to be false and maintained in violation of a criminal statute).

“(3) 5-YEAR REPORTING PERIOD.—A person shall not furnish a record in response to a request made under paragraph (1) if the record was entered more than 5 years before the date of the request, unless the information concerns a revocation or suspension of an airman certificate or motor vehicle license that is in effect on the date of the request.

“(4) REQUIREMENT TO MAINTAIN RECORDS.—The Administrator shall maintain pilot records described in paragraph (1)(A) for a period of at least 5 years.

“(5) RECEIPT OF CONSENT; PROVISION OF INFORMATION.—A person shall not furnish a record in response to a request made under paragraph (1) without first obtaining a copy of the written consent of the individual who is the subject of the records requested. A person who receives a request for records under this paragraph shall furnish a copy of all of such requested records maintained by the person not later than 30 days after receiving the request.

“(6) RIGHT TO RECEIVE NOTICE AND COPY OF ANY RECORD FURNISHED.—A person who receives a request for records under paragraph (1) shall provide to the individual who is the subject of the records—

“(A) written notice of the request and of the right of that individual to receive a copy of such records; and

“(B) a copy of such records, if requested by the individual.

“(7) REASONABLE CHARGES FOR PROCESSING REQUESTS AND FURNISHING COPIES.—A person who receives a request under paragraph (1) or (6) may establish a reasonable charge for the cost of processing the request and furnishing copies of the requested records.

“(8) STANDARD FORMS.—The Administrator shall promulgate—

“(A) standard forms that may be used by an air carrier to request records under paragraph (1); and

“(B) standard forms that may be used by an air carrier to—

“(i) obtain the written consent of the individual who is the subject of a request under paragraph (1); and

“(ii) inform the individual of—

“(I) the request; and

“(II) the individual right of that individual to receive a copy of any records furnished in response to the request.

“(9) RIGHT TO CORRECT INACCURACIES.—An air carrier that maintains or requests and receives the records of an individual under paragraph (1) shall provide the individual with a reasonable opportunity to submit written comments to correct any inaccuracies contained in the records before making a final hiring decision with respect to the individual.

“(10) RIGHT OF PILOT TO REVIEW CERTAIN RECORDS.—Notwithstanding any other provision of law or agreement, an air carrier shall, upon written request from a pilot employed by such carrier, make available, within a reasonable time of the request, to the pilot for review, any and all employment records referred to in paragraph (1)(B) (i) or (ii) pertaining to the employment of the pilot.

“(11) **PRIVACY PROTECTIONS.**—An air carrier that receives the records of an individual under paragraph (1) may use such records only to assess the qualifications of the individual in deciding whether or not to hire the individual as a pilot. The air carrier shall take such actions as may be necessary to protect the privacy of the pilot and the confidentiality of the records, including ensuring that information contained in the records is not divulged to any individual that is not directly involved in the hiring decision.

“(12) **PERIODIC REVIEW.**—Not later than 18 months after the date of enactment of the Pilot Records Improvement Act of 1996, and at least once every 3 years thereafter, the Administrator shall transmit to the Congress a statement that contains, taking into account recent developments in the aviation industry—

“(A) recommendations by the Administrator concerning proposed changes to Federal Aviation Administration records, air carrier records, and other records required to be furnished under subparagraphs (A) and (B) of paragraph (1); or

“(B) reasons why the Administrator does not recommend any proposed changes to the records referred to in subparagraph (A).

“(13) **REGULATIONS.**—The Administrator may prescribe such regulations as may be necessary—

“(A) to protect—

“(i) the personal privacy of any individual whose records are requested under paragraph (1); and

“(ii) the confidentiality of those records;

“(B) to preclude the further dissemination of records received under paragraph (1) by the person who requested those records; and

“(C) to ensure prompt compliance with any request made under paragraph (1).

“(g) **LIMITATION ON LIABILITY; PREEMPTION OF STATE LAW.**—

“(1) **LIMITATION ON LIABILITY.**—No action or proceeding may be brought by or on behalf of an individual who has applied for or is seeking a position with an air carrier as a pilot and who has signed a release from liability, as provided for under paragraph (2), against—

“(A) the air carrier requesting the records of that individual under subsection (a)(1);

“(B) a person who has complied with such request; or

“(C) an agent or employee of a person described in subparagraph (A) or (B); in the nature of an action for defamation, invasion of privacy, negligence, interference with contract, or otherwise, or under any Federal or State law with respect to the furnishing or use of such records in accordance with subsection (a).

“(2) **PREEMPTION.**—No State or political subdivision thereof may enact, prescribe, issue, continue in effect, or enforce any law (including any regulation, standard, or other provision having the force and effect of law) that prohibits, penalizes, or imposes liability for furnishing or using records in accordance with subsection (a).

“(3) **PROVISION OF KNOWINGLY FALSE INFORMATION.**—Paragraphs (1) and (2) shall not apply with respect to a person who furnishes information in response to a request made under subsection (f)(1), that—

“(A) the person knows is false; and

“(B) was maintained in violation of a criminal statute of the United States.”.

(b) **CONFORMING AMENDMENT.**—Section 30305(b) is amended—

(1) by redesignating paragraph (7) as paragraph (8); and

(2) by inserting after paragraph (6) the following:

“(7) An individual who is seeking employment by an air carrier as a pilot may request the chief driver licensing official of a State to provide information about the individual under paragraph (2) to the prospective employer of the individual

or to the Secretary of Transportation. Information may not be obtained from the National Driver Register under this subsection if the information was entered in the Register more than 5 years before the request unless the information is about a revocation or suspension still in effect on the date of the request.”.

(c) **APPLICABILITY.**—The amendments made by this section shall apply to any air carrier hiring an individual as a pilot whose application was first received by the carrier on or after the 120th day after the date of enactment of this Act.

SEC. 703. STUDY OF MINIMUM STANDARDS FOR PILOT QUALIFICATIONS.

The Administrator shall appoint a task force consisting of appropriate representatives of the aviation industry to conduct a study directed toward the development of—

(1) standards and criteria for preemployment screening tests measuring the psychomotor coordination, general intellectual capacity, instrument and mechanical comprehension, and physical and mental fitness of an applicant for employment as a pilot by an air carrier; and

(2) standards and criteria for pilot training facilities to be licensed by the Administrator and which will assure that pilots trained at such facilities meet the preemployment screening standards and criteria described in paragraph (1).

TITLE VIII—ABOLITION OF BOARD OF REVIEW

SEC. 801. ABOLITION OF BOARD OF REVIEW AND RELATED AUTHORITY.

(a) **ABOLITION OF BOARD OF REVIEW.**—Section 6007 of the Metropolitan Washington Airports Act of 1986 (formerly 49 U.S.C. App. 2456) is amended—

(1) by striking subsections (f) and (h);

(2) by redesignating subsection (g) as subsection (f); and

(3) by redesignating subsection (i) as subsection (g).

(b) **CONFORMING AMENDMENTS.**—

(1) **RELATIONSHIP TO AND EFFECT OF OTHER LAWS.**—Section 6009(b) of the Metropolitan Washington Airports Act of 1986 (formerly 49 U.S.C. App. 2458(b)) is amended by striking “or by reason of the authority” and all that follows through the end of the subsection and inserting a period.

(2) **SEPARABILITY.**—Section 6011 of the Metropolitan Washington Airports Act of 1986 (formerly 49 U.S.C. App. 2460) is amended by striking “Except as provided in section 6007(h), if” and inserting “If”.

(c) **PROTECTION OF CERTAIN ACTIONS.**—Any action taken by the Airports Authority and submitted to the Board of Review pursuant to section 6007(f)(4) of the Metropolitan Washington Airports Act of 1986 before April 1, 1995, shall remain in effect and shall not be set aside solely by reason of a judicial order invalidating certain functions of the Board.

SEC. 802. SENSE OF THE SENATE.

It is the sense of the Senate that the Airports Authority—

(1) should not provide any reserved parking areas free of charge to Members of Congress, other Government officials, or diplomats at Washington National Airport or Washington Dulles International Airport; and

(2) should establish a parking policy for such airports that provides equal access to the public, and does not provide preferential parking privileges to Members of Congress, other Government officials, or diplomats.

SEC. 803. CONFORMING AMENDMENTS IN OTHER LAW.

Any reference in any Federal law, Executive order, rule, regulation, or delegation of authority to the Board of Review or the provisions of law repealed under this title is hereby repealed.

SEC. 804. DEFINITIONS.

For purposes of this title—

(1) the terms “Airports Authority”, “Washington National Airport”, and “Washington

Dulles International Airport” have the same meanings as in section 6004 of the Metropolitan Washington Airports Act of 1986; and

(2) the term “Board of Review” means the Board of Review of the Airports Authority.

SEC. 805. INCREASE IN NUMBER OF PRESIDENTIALLY APPOINTED MEMBERS OF BOARD.

(a) **IN GENERAL.**—Section 6007(e) of the Metropolitan Washington Airports Act of 1986 (formerly 49 U.S.C. 2456(e)) is amended—

(1) by striking “11 members,” in paragraph (1) and inserting “13 members,”;

(2) by striking “one member” in paragraph (1)(D) and inserting “3 members”; and

(3) by striking “Seven” in paragraph (5) and inserting “Eight”.

(b) **STAGGERING TERMS FOR PRESIDENTIAL APPOINTEES.**—Of the members first appointed by the President after the date of enactment of this Act—

(1) one shall be appointed for a term that expires simultaneously with the term of the member of the Metropolitan Washington Airports Authority board of directors serving on that date (or, if there is a vacancy in that office, the member appointed to fill the existing vacancy and the member to whom this paragraph applies shall be appointed for 2 years);

(2) one shall be appointed for a term ending 2 years after the term of the member (or members) to whom paragraph (1) applies expires; and

(3) one shall be appointed for a term ending 4 years after the term of the member (or members) to whom paragraph (1) applies expires.

SEC. 806. RECONSTITUTED BOARD TO FUNCTION WITHOUT INTERRUPTION.

Notwithstanding any provision of State law, including those provisions establishing, providing for the establishment of, or recognizing the Metropolitan Washington Airports Authority, and based upon the Federal interest in the continued functions of the Metropolitan Washington Airports (as defined in section 6004(4) of the Metropolitan Washington Airports Authority Act of 1986 (formerly 49 U.S.C. 2451(4)), the board of directors of such Authority, including any members appointed under the amendments made by section 805, shall continue to meet and act after the date of enactment of this Act until such time as necessary conforming changes in State law are made in the same manner as if those conforming changes had been enacted on the date of enactment of this Act.

SEC. 807. OPERATIONAL SLOTS AT NATIONAL AIRPORT.

Nothing in this title shall affect the number or distribution of operational slots at National Airport.

SEC. 808. AIRPORTS AUTHORITY SUPPORT OF BOARD.

Section 6005 of the Metropolitan Washington Airports Authority Act of 1986 (formerly 49 U.S.C. 2454) is amended by adding at the end thereof the following:

“(f) **FEDERAL AGENCY OVERSIGHT.**—The Airports Authority shall not be required—

“(1) to pay any person;

“(2) to provide office space or administrative support; or

“(3) to reimburse the Secretary of Transportation for expenses incurred,

for carrying out any Federal agency oversight responsibilities under this Act. Nothing in this subsection precludes the Airport Authority from providing services or expenses to any member of the Board of Directors.”.

TITLE IX—AIRPORT REVENUE PROTECTION

SEC. 901. SHORT TITLE.

This title may be cited as the “Airport Revenue Protection Act of 1996”.

SEC. 902. FINDINGS; PURPOSE.

(a) **IN GENERAL.**—The Congress finds that—

(1) section 47107 of title 49, United States Code, prohibits the diversion of certain revenue

generated by a public airport as a condition of receiving a project grant;

(2) a grant recipient that uses airport revenue for purposes that are not airport related in a manner inconsistent with chapter 471 of title 49, United States Code, illegally diverts airport revenues;

(3) any diversion of airport revenues in violation of the condition referred to in paragraph (1) undermines the interest of the United States in promoting a strong national air transportation system that is responsive to the needs of airport users;

(4) the Secretary and the Administrator have not enforced airport revenue diversion rules adequately and must have additional regulatory tools to increase enforcement efforts; and

(5) sponsors who have been found to have illegally diverted airport revenues—

(A) have not reimbursed or made restitution to airports in a timely manner; and

(B) must be encouraged to do so.

(b) PURPOSE.—The purpose of this title is to ensure that airport users are not burdened with hidden taxation for unrelated municipal services and activities by—

(1) eliminating the ability of any State or political subdivision thereof that is a recipient of a project grant to divert airport revenues for purposes that are not related to an airport, in violation of section 47107 of title 49, United States Code;

(2) imposing financial reporting requirements that are designed to identify instances of illegal diversions referred to in paragraph (1);

(3) establishing a statute of limitations for airport revenue diversion actions;

(4) clarifying limitations on revenue diversion that are permitted under chapter 471 of title 49, United States Code; and

(5) establishing clear penalties and enforcement mechanisms for identifying and prosecuting airport revenue diversion.

SEC. 903. DEFINITIONS.

For purposes of this title, the following definitions shall apply:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Aviation Administration.

(2) AIRPORT.—The term "airport" has the meaning provided that term in section 47102(2) of title 49, United States Code.

(3) PROJECT GRANT.—The term "project grant" has the meaning provided that term in section 47102(14) of title 49, United States Code.

(4) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(5) SPONSOR.—The term "sponsor" has the meaning provided that term in section 47102(19) of title 49, United States Code.

SEC. 904. RESTRICTION ON USE OF AIRPORT REVENUES.

(a) IN GENERAL.—Subchapter I of chapter 471, as amended by section 201(a) of this Act, is further amended by adding at the end of subchapter I the following new section:

"§ 47133. Restriction on use of revenues

"(a) PROHIBITION.—Local taxes on aviation fuel (except taxes in effect on December 30, 1987) or the revenues generated by an airport that is the subject of Federal assistance may not be expended for any purpose other than the capital or operating costs of—

"(1) the airport;

"(2) the local airport system; or

"(3) any other local facility that is owned or operated by the person or entity that owns or operates the airport that is directly and substantially related to the air transportation of passengers or property.

"(b) EXCEPTIONS.—Subsection (a) shall not apply if a provision enacted not later than September 2, 1982, in a law controlling financing by the airport owner or operator, or a covenant or assurance in a debt obligation issued not later than September 2, 1982, by the owner or operator, provides that the revenues, including local

taxes on aviation fuel at public airports, from any of the facilities of the owner or operator, including the airport, be used to support not only the airport but also the general debt obligations or other facilities of the owner or operator.

"(c) RULE OF CONSTRUCTION.—Nothing in this section may be construed to prevent the use of a State tax on aviation fuel to support a State aviation program or the use of airport revenue on or off the airport for a noise mitigation purpose."

(b) CONFORMING AMENDMENT.—The chapter analysis for subchapter I of chapter 471 is amended by adding at the end the following new item:

"47133. Restriction on use of revenues."

SEC. 905. REGULATIONS; AUDITS AND ACCOUNTABILITY.

(a) IN GENERAL.—Section 47107 is amended by adding at the end the following new subsections:

"(m) AUDIT CERTIFICATION.—

"(1) IN GENERAL.—The Secretary of Transportation (hereafter in this section referred to as the 'Secretary'), acting through the Administrator of the Federal Aviation Administration (hereafter in this section referred to as the 'Administrator'), shall promulgate regulations that require a recipient of a project grant (or any other recipient of Federal financial assistance that is provided for an airport) to include as part of an annual audit conducted under sections 7501 through 7505 of title 31, a review and opinion of the review concerning the funding activities with respect to an airport that is the subject of the project grant (or other Federal financial assistance) and the sponsors, owners, or operators (or other recipients) involved.

"(2) CONTENT OF REVIEW.—A review conducted under paragraph (1) shall provide reasonable assurances that funds paid or transferred to sponsors are paid or transferred in a manner consistent with the applicable requirements of this chapter and any other applicable provision of law (including regulations promulgated by the Secretary or the Administrator).

"(3) REQUIREMENTS FOR AUDIT REPORT.—The report submitted to the Secretary under this subsection shall include a specific determination and opinion regarding the appropriateness of the disposition of airport funds paid or transferred to a sponsor.

"(n) RECOVERY OF ILLEGALLY DIVERTED FUNDS.—

"(1) IN GENERAL.—Not later than 180 days after the issuance of an audit or any other report that identifies an illegal diversion of airport revenues (as determined under subsections (b) and (l) and section 47133), the Secretary, acting through the Administrator, shall—

"(A) review the audit or report;

"(B) perform appropriate factfinding; and

"(C) conduct a hearing and render a final determination concerning whether the illegal diversion of airport revenues asserted in the audit or report occurred.

"(2) NOTIFICATION.—Upon making such a finding, the Secretary, acting through the Administrator, shall provide written notification to the sponsor and the airport of—

"(A) the finding; and

"(B) the obligations of the sponsor to reimburse the airport involved under this paragraph.

"(3) ADMINISTRATIVE ACTION.—The Secretary may withhold any amount from funds that would otherwise be made available to the sponsor, including funds that would otherwise be made available to a State, municipality, or political subdivision thereof (including any multimodal transportation agency or transit authority of which the sponsor is a member entity) as part of an apportionment or grant made available pursuant to this title, if the sponsor—

"(A) receives notification that the sponsor is required to reimburse an airport; and

"(B) has had an opportunity to reimburse the airport, but has failed to do so.

"(4) CIVIL ACTION.—If a sponsor fails to pay an amount specified under paragraph (3) during the 180-day period beginning on the date of notification and the Secretary is unable to withhold a sufficient amount under paragraph (3), the Secretary, acting through the Administrator, may initiate a civil action under which the sponsor shall be liable for civil penalty in an amount equal to the illegal diversion in question plus interest (as determined under subsection (o)).

"(5) DISPOSITION OF PENALTIES.—

"(A) AMOUNTS WITHHELD.—The Secretary or the Administrator shall transfer any amounts withheld under paragraph (3) to the Airport and Airway Trust Fund.

"(B) CIVIL PENALTIES.—With respect to any amount collected by a court in a civil action under paragraph (4), the court shall cause to be transferred to the Airport and Airway Trust Fund any amount collected as a civil penalty under paragraph (4).

"(6) REIMBURSEMENT.—The Secretary, acting through the Administrator, shall, as soon as practicable after any amount is collected from a sponsor under paragraph (4), cause to be transferred from the Airport and Airway Trust Fund to an airport affected by a diversion that is the subject of a civil action under paragraph (4), reimbursement in an amount equal to the amount that has been collected from the sponsor under paragraph (4) (including any amount of interest calculated under subsection (o)).

"(7) STATUTE OF LIMITATIONS.—No person may bring an action for the recovery of funds illegally diverted in violation of this section (as determined under subsections (b) and (l)) or section 47133 after the date that is 6 years after the date on which the diversion occurred.

"(o) INTEREST.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary, acting through the Administrator, shall charge a minimum annual rate of interest on the amount of any illegal diversion of revenues referred to in subsection (n) in an amount equal to the average investment interest rate for tax and loan accounts of the Department of the Treasury (as determined by the Secretary of the Treasury) for the applicable calendar year, rounded to the nearest whole percentage point.

"(2) ADJUSTMENT OF INTEREST RATES.—If, with respect to a calendar quarter, the average investment interest rate for tax and loan accounts of the Department of the Treasury exceeds the average investment interest rate for the immediately preceding calendar quarter, rounded to the nearest whole percentage point, the Secretary of the Treasury may adjust the interest rate charged under this subsection in a manner that reflects that change.

"(3) ACCRUAL.—Interest assessed under subsection (n) shall accrue from the date of the actual illegal diversion of revenues referred to in subsection (n).

"(4) DETERMINATION OF APPLICABLE RATE.—The applicable rate of interest charged under paragraph (1) shall—

"(A) be the rate in effect on the date on which interest begins to accrue under paragraph (3); and

"(B) remain at a rate fixed under subparagraph (A) during the duration of the indebtedness.

"(p) PAYMENT BY AIRPORT TO SPONSOR.—If, in the course of an audit or other review conducted under this section, the Secretary or the Administrator determines that an airport owes a sponsor funds as a result of activities conducted by the sponsor or expenditures by the sponsor for the benefit of the airport, interest on that amount shall be determined in the same manner as provided in paragraphs (1) through (4) of subsection (o), except that the amount of any interest assessed under this subsection shall be determined from the date on which the Secretary or the Administrator makes that determination."

(b) REVISION OF POLICIES AND PROCEDURES; DEADLINES.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary, acting through the Administrator, shall revise the policies and procedures established under section 47107(l) of title 49, United States Code, to take into account the amendments made to that section by this title.

(2) STATUTE OF LIMITATIONS.—Section 47107(l) is amended by adding at the end the following new paragraph:

“(5) STATUTE OF LIMITATIONS.—In addition to the statute of limitations specified in subsection (n)(7), with respect to project grants made under this chapter—

“(A) any request by a sponsor to any airport for additional payments for services conducted off of the airport or for reimbursement for capital contributions or operating expenses shall be filed not later than 6 years after the date on which the expense is incurred; and

“(B) any amount of airport funds that are used to make a payment or reimbursement as described in subparagraph (A) after the date specified in that subparagraph shall be considered to be an illegal diversion of airport revenues that is subject to subsection (n).”

SEC. 906. CONFORMING AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986.

Section 9502 of the Internal Revenue Code of 1986 is amended—

(1) by striking “and” at the end of subsection (b)(3);

(2) by striking the period at the end of subsection (b)(4) and inserting “, and”; and

(3) by adding at the end of subsection (b) the following:

“(5) amounts determined by the Secretary of the Treasury to be equivalent to the amounts of civil penalties collected under section 47107(n) of title 49, United States Code.”; and

(4) in subsection (d), by adding at the end of subsection (d) the following:

“(4) TRANSFERS FROM THE AIRPORT AND AIRWAY TRUST FUND ON ACCOUNT OF CERTAIN AIRPORTS.—The Secretary of the Treasury may transfer from the Airport and Airway Trust Fund to the Secretary of Transportation or the Administrator of the Federal Aviation Administration an amount to make a payment to an airport affected by a diversion that is the subject of an administrative action under paragraph (3) or a civil action under paragraph (4) of section 47107(n) of title 49, United States Code.”

TITLE X—EXTENSION OF AIRPORT AND AIRWAY TRUST FUND EXPENDITURE AUTHORITY

SEC. 1001. EXPENDITURES FROM AIRPORT AND AIRWAY TRUST FUND.

Section 9502(d)(1) of the Internal Revenue Code of 1986 (relating to expenditures from Airport and Airway Trust Fund) is amended by—

(1) striking “1996” and inserting “1997”; and

(2) inserting “or the Federal Aviation Reauthorization Act of 1996” after “Administration Authorization Act of 1994”.

Mr. LOTT. I move to reconsider the vote.

Mrs. FEINSTEIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LOTT. Was that motion to reconsider laid on the table?

The PRESIDING OFFICER. It was.

Mr. LOTT addressed the Chair.

The PRESIDING OFFICER. The distinguished Senate majority leader.

Mr. LOTT. Thank you, Madam President. I ask unanimous consent that the Senate insist on its amendments to H.R. 3539, that the Senate request a conference with the House on the disagreeing votes, and the Chair be authorized to appoint conferees.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. Madam President, for the information of all of our colleagues, we are awaiting receipt of the Transportation appropriations conference report. We expect to have it here momentarily, hopefully in 10 minutes or so. We would then ask consent to take up that Transportation conference report and proceed to its conclusion.

Following that, then we would go to the Magnuson fisheries bill. I know that the Senators from Massachusetts and Alaska and the two from Washington are interested in that. It is our intent to go to Magnuson as soon as we complete action on the Transportation appropriations conference report. In view of that, while we await the receipt momentarily of the Transportation conference report, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Madam President, I ask that I be allowed to speak as in morning business.

Mr. LOTT. I do reserve objection just to make this point. How long?

Mr. BINGAMAN. Eight minutes I was planning to speak.

MORNING BUSINESS

Mr. LOTT. Madam President, at this point I ask unanimous consent that there be a period of morning business for 15 minutes. Would that be all right?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN addressed the Chair. The PRESIDING OFFICER. The Senator is recognized.

Mr. BINGAMAN. I thank the Chair, Madam President.

EDUCATION IN AMERICA

Mr. BINGAMAN. Madam President, I want to speak for a few minutes on the issue of education funding, which is of vital importance to most Americans and certainly is to the people in my State.

First of all, I think we need to put the issue into context. When I go around my State of New Mexico, I talk to people at townhall meetings and I ask, what percentage of the Federal budget do you believe is committed to improving education? Usually I start by saying, “How many of you think 15 percent of the Federal budget is committed to education?” Quite a few hands go up in the audience. Then I say, “How about 10 percent?” and even more hands go up. I say, “Five percent?” and not that many hands. So the consensus in my State is that perhaps we are spending about 10 percent of our Federal budget on education.

Madam President, the truth is, we are spending 1.4 percent, less than 2 percent, of our Federal budget on education. It is in this context that we need to consider the proposals which have come forward in this Congress to actually cut back on Federal support for education.

At the same time, as baby boomers’ children enter the schools, as enrollment grows in my State, as it is growing in many States around this country, we are seeing Federal support for education dropping in absolute terms.

I had a chance to visit Las Cruces, NM, with a group of experts on education who were looking at the problem of Hispanic students who are dropping out of our schools in very large numbers in my State and throughout the country. We were having lunch in a restaurant, an excellent restaurant named Roberto’s in Las Cruces. I recommend it to anybody. But we were having lunch there, and a woman recognized me and came over to introduce herself.

She said that she was a seventh grade teacher. She taught math in the seventh grade. So I suggested she sit down with this group of experts and talk to them about what needs she saw in education.

The first thing she raised was, “We would certainly appreciate anything that you can do to get us more money for supplies.” And I said, “What do you mean, ‘supplies?’” She said, “We get an allocation. I, as a seventh grade teacher, get an allocation of \$50 a year for supplies for my entire class, and that includes the cost of copying materials that I want to pass out to my students. So we wind up either with me not providing the materials or with me paying for it out of my pocket or having bake sales or depending upon charity of some kind to cover this cost.”

Madam President, it is in that context that we are talking about cutting funds for education here at the national level. It is also in the context of a defense bill which is pending or will be pending soon here in the Senate that goes \$9.4 billion over what the Pentagon requested this year.

So we are cutting back on education funds and adding over \$9 billion to what the Defense Department requested, and I think the American people believe that our priorities are out of whack. The priorities of this Congress are not the priorities of the American people. The American people would like us to spend more than 1.4 percent of the Federal budget on education.

I also want to say that this issue about whether the Federal Government should help or whether it is none of the Federal Government’s business is really an inside-the-beltway kind of an issue, as far as I can tell. When I go home and talk to teachers and parents, they are not particularly concerned about which level of government is providing the support. What they want is to see the local school district and the

State and the Federal Government working together to solve the real problems of providing quality education.

This is a real issue here. Today, as I understand it, some Members on the House side announced yet another proposal to repeal Goals 2000. They did so by making a statement about how this is a first step toward eliminating Federal involvement in education. Madam President, this is not the burning issue, this issue of eliminating Federal involvement. It is not the burning issue in my State. The issue is how do we get the resources and the support to educate our children in the way we believe they should be educated.

In a State like mine, which is growing, student enrollment is also growing. It is estimated by the year 2002 we will have 20,000 additional students in my State. These are students who we are not presently planning funding to support.

We need technology in our schools. I think everybody here, the Presiding Officer, has been a leader in trying to assist schools in obtaining technology to improve education.

We need to put our money where our mouth is on this issue of technology for education, and begin here at the Federal level to support local school districts and States in their efforts to obtain technology and upgrade the quality of education through the use of technology.

We simply have to do more than the House has proposed to do. In my view, I am encouraged that there have been negotiations. I am encouraged there seems to be a bipartisan consensus to restore funds to a previous level in most areas. Frankly, Madam President, I believe we need to do better than this bipartisan discussion seems to be taking us.

As I understand it, the majority leader has an amendment he will offer in this area. It should be praised in several respects. It is strong in such areas as special education grants to the States and title I funding and several smaller student aid programs. However, as I understand the amendment, it would be at a level of \$2.3 billion, which is still substantially less than the \$3.1 billion that Senator HARKIN would propose in his alternative amendment. By cutting away at some of those funds that Senator HARKIN would provide, it keeps us from addressing some key areas.

In particular, as I understand it, the Lott amendment provides no additional funds for key programs such as the Goals 2000 Program, for bilingual education, for school-to-work, for teacher training, for the TRIO Program, nor does the Lott amendment provide \$68 million in additional funds the Department needs to continue its very successful direct lending program. This amendment also fails to increase education technology programs to the same extent that the Harkin amendment would. In addition, the Lott

amendment would appear to not include any additional funding for Head Start or job training programs.

As I understand the Harkin amendment, in contrast, it increases spending levels for key programs well beyond the previous year's level in the committee bill or in the Lott amendment. There is \$136 million more for Goals 2000, \$77 million for bilingual and immigrant education, \$227 million more for education technology programs. Clearly, those are very important to us as we approach the new century.

Cutting, freezing, or even reluctantly supporting minor increases in education funding is simply the wrong way to go, in my opinion. We need some restructuring in our schools. All of the problems in our schools cannot be solved by additional resources. That is clear. We need smaller schools. We need better trained teachers. We need to have classrooms that are better equipped. Clearly, funding is part of the solution. Just as funding is part of the solution to improving and modernizing our defense capability, adequate resources are part of the solution to improving and upgrading the quality of education for our students.

I hope very much, Madam President, before the Congress adjourns, we can get a chance here on the floor of the Senate to vote for a level of funding which is equal to what the President requested in education. I do not think his request was in any way excessive. It still keeps us at about 1.5 percent of the official budget. It is a very modest increase by any measure. I believe that is consistent with what the American people would like to see in the area of education.

I hope, very much, that we will have a chance to vote on that level which is represented by the Harkin amendment. I urge my colleagues to support that. I know it is consistent with the people I speak to in my home State. I believe it is consistent with the majority view throughout this country.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LOTT. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1997—CONFERENCE REPORT

Mr. LOTT. Madam President, I submit a report of the committee of conference on H.R. 3675 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the

amendments of the Senate to the bill (H.R. 3675) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of September 16, 1996.)

Mr. LOTT. Madam President, I understand the managers of the legislation are on their way here. The Senator from New Jersey will be here momentarily. We will proceed at that time.

For now, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HATFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. KEMPTHORNE). Without objection, it is so ordered.

MEASURE RETURNED TO THE CALENDAR—S. 1994

Mr. HATFIELD. Mr. President, I ask unanimous consent that S. 1994 be returned to the calendar.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1997—CONFERENCE REPORT

The Senate continued with the consideration of the conference report.

Mr. HATFIELD. Mr. President, I understand the conference report on the Transportation Subcommittee of the Appropriations Committee is now before us.

The PRESIDING OFFICER. The Senator is correct.

Mr. HATFIELD. I move that the Senate adopt the conference report.

Mr. President, I withhold making that motion at this time.

Mr. President, we are here to present the conference report, myself and Senator FRANK LAUTENBERG, representing the State of New Jersey and the ranking member of the Transportation Subcommittee of the Appropriations Committee. We have enjoyed a marvelous working relationship, and I take another opportunity to thank Senator LAUTENBERG for his fine support. His contribution has been great. We have had not only a wonderful working relationship, but we enjoy a deep personal friendship as well, by which I am blessed.

Also, at this time I would like to comment that Anne Miano of my staff took on this role as being the chief clerk of the Transportation Subcommittee really kind of in the winding down days of the Senate, showing her great capacity to move into the No. 1 slot upon the retirement of Pat McCann, who had held that position for many years. I thank her especially for her efficiency and her quick comprehension of all the details which she now has performed so well as the chief clerk for the majority on this subcommittee.

Peter Rogoff is also a very fundamental part of our operation. As I have said frequently and I say again, Mr. President, the relationship that exists between the minority and the majority—and I have been in both—is that we hardly know a distinction, at the staff level especially, and he has filled in, provided me with information as well as Senator LAUTENBERG. We have no distinctions of partisanship, no labels that separate us. It is a marvelous kind of collaborative effort that Peter Rogoff and Anne Miano now—and before Pat McCann—enjoy.

We have now concluded our conference for the fiscal year 1997 Department of Transportation and related agencies appropriations bill, H.R. 3675. In total, this conference report contains \$12 billion in new budget authority for transportation programs and projects and \$35 billion in outlays.

The conference report includes funds to continue the vital air traffic control operations for the Federal Aviation Administration, the search and rescue activities of the U.S. Coast Guard, as well as many other critical functions of the department. In addition, it will provide billions of dollars for needed infrastructure projects across the Nation.

I am particularly pleased to point out that this report includes \$150 million for State infrastructure banks programs. This program will permit interested States to use innovative financing to stretch their transportation dollars and maximize the Federal investment in transportation. Ten States are already in the program and this appropriation will allow even more States to participate. I believe that the SIB's Program will become increasingly important in the years ahead as States work to find modern financing tools to help improve their State's transportation networks.

The Essential Air Service has been funded at \$25.9 million, the Senate-passed level for this Program. I have heard from many Senators in support of the EAS Program. They have told me that without the EAS program, people in communities dependent on EAS service would find themselves isolated and be forced to drive long distances to reach their destinations. I am pleased that we were able to increase the funds for this program, which had received only \$10 million in the House-passed bill. In other words, we are now more than 2½ times that House figure.

The conference report includes an increase for FAA operations of \$254.3 million above the fiscal year 1996 level. This 5-percent increase will support the hiring of 500 new air traffic controllers, 367 new aviation safety inspectors, and other regulatory oversight personnel. It also provides a 9-percent increase in funding for field maintenance of air traffic equipment.

In light of the recent TWA flight 800 tragedy, the conferees have fully funded the administration's request of \$36.055 million for aviation security technology. This amount includes \$27.4 million for research and development into new devices to detect explosives and weapons, and \$1.3 million to harden aircraft against the effects of explosives. We have fully funded the administration's request for operational security by providing \$71.9 million to fund about 780 security personnel.

The conferees included \$13 million for FAA research, engineering, and development in order to improve aviation safety in hazardous weather. This amount is about \$6.6 million above the administration's request for weather research and will enable FAA to place a higher priority on aviation weather safety research.

The conference report contains \$1.46 billion for grants for the Airport Improvement Program [AIP]. This is an increase of \$10 million above the fiscal year 1996 level and \$110 million above the administration's request. I believe that these grants are very important for airports around the Nation and will do much to improve the quality of aviation service for the public.

I would also like to underscore that we have provided an obligation limitation of \$18 billion for grants to States from the highway trust fund. This amount is \$450 million above the fiscal year 1996 level for the Federal-aid highway program. We have rejected the administration's request to make some previously exempt highway programs part of the overall obligation ceiling and rescind \$300 million of previously authorized ISTEA projects. The conferees were not able to include an amendment that was adopted on the Senate floor to address the impact of the reporting of excise tax data on the allocation of Federal-aid highway funds. This issue and other related issues will be taken up during next year's debate on reauthorizing the ISTEA Program.

A total of \$760.45 million is provided for all Amtrak accounts—including the Northeast corridor—an increase of \$10.45 million above the fiscal year 1996 level. This appropriation includes \$115 million for the Northeast corridor, a freeze at the current level. It also includes \$80 million in high-speed rail funds for Amtrak, as well as \$342 million for operations, the amount requested by the administration. Amtrak capital is funded at \$223.45 million, which is close to the fiscal year 1996 level of \$230 million.

The conferees were mindful of Amtrak's need for more funds and added

\$38 million to the Transportation Subcommittee's conference allocation in order to increase Amtrak's capital account. Amtrak's long-term problems require legislative solutions that cannot be addressed by the Appropriations Committee on this bill. The conference report includes language assuring States where Amtrak has announced service cuts that they may use their CMAQ—Congestion Mitigation and Air Quality Improvement Program—funds to preserve rail service.

In addition, this conference report contains \$1.9 billion for discretionary transit capital grants. This includes \$380 million for bus-related projects, \$760 million for new starts, and \$760 million for fixed guideway modernization. The conferees also added \$97 million to transit formula capital grants, and agreed to the Senate-passed level of \$2.149 billion—this program includes \$400 million in operating aid.

Transit helps to provide affordable, efficient, and reliable transportation to get people to work, school, and to reach needed services. Moreover, transit funds help to improve air quality, mitigate highway congestion, and provide expanded mobility for elderly and disabled persons.

I believe that the funds contained in this conference report will assist States in making their transportation systems more efficient. They also will enhance transportation safety throughout the Nation.

Mr. President, I could go on at considerable length in identifying many of these accounts. I think these that I have identified very clearly indicate what the committee's priorities have been, both from our creating the Senate bill, as well as our defense of that Senate action in the conference with the House of Representatives. I want to say, we have had excellent support from the House of Representatives in our conference. It was a very efficient conference. It did not drag on forever. I believe we had over 170 amendments that we had to deal with in conference. As I recall, at the staff level the staff had resolved over 153 of them. Then, as the principals got together prior to the formal conference, we resolved further. This was, I would say, a harmonious, effective, cooperative conference experience.

So, I really do not think we have any unresolved, vital, important issues. We have not been able to get the level of funding we would like for many of these important issues, but nevertheless I think we have covered the basic priorities of the administration, of the Senate, and of the House of Representatives.

In closing, I want to say I do not believe we can overemphasize the important and vital need of addressing our national infrastructure, whether it be by water, by highway, by rail, by air, by all the modes we have employed in transportation. Urban centers are in deep need of further assistance in the infrastructure to maintain the viability of urban centers. And rural areas,

which figure so much into our overall economy, have to have, certainly, consideration as well in their special needs.

I always like to repeat a factor, here, that I think sometimes we forget. A lot of people think the infrastructure is sort of a local matter, a local interest, a local priority. Let us not forget, when the great President, and the great general, Dwight Eisenhower, out in Topeka, KS, in his administration, launched the Interstate Highway System, he launched it as an Interstate Defense Highway System. He said such a tying together by a complex infrastructure of transportation was as vital to our national security as were the armaments in our arsenal.

He also said that about his Education Defense Act, relating to moneys for education, for health, for housing, for a productive economy.

So, I hope we will see this, not as individual States, individual communities, as important as that is, but also as a national interest of high priority for the security of the Nation.

Again, it was not only President Eisenhower who gave us that lesson, but we have been reminded frequently by the Senator from West Virginia [Mr. BYRD] of the importance of maintaining our commitment to the infrastructure, as I have sat on everything from a summit with the White House settling certain budget problems, as well as having heard his admonitions on the floor of the Senate. I yield the floor at this time.

Mr. BYRD. Will the Senator yield? I do not believe Senator LAUTENBERG has spoken yet, but I want to respond to something the distinguished Senator from Oregon said.

Daniel Webster, in his reply to Hayne, in 1830, January 26, was critical of Hayne for asking a question as to why he, the Senator from South Carolina, should support a canal of importance to the State of Ohio.

And Webster said that we who represent the people of New England do not limit our patriotic feeling to geographical limits such as "rivers and mountains, and lines of latitude, beyond which public improvements do not benefit us."

But, he said, "I look upon a road over the Alleghenies"—and that struck me as being pretty significant. Daniel Webster, speaking of a road across the Alleghenies, or "a canal round the falls of the Ohio, or a . . . railway from the Atlantic to the western waters" saw these as being "an object large and extensive enough to be . . . for the common benefit." If he were to question such things, said Webster, since they are of sufficient import to be "for the common benefit," he would not be willing to face his constituents in New England.

So, long before our time, Webster and Clay—Clay was an advocate of the great American system which dealt with the banks, with tariffs, and with public investments in highways and ca-

nals and railroads, so these were early advocates of infrastructure. They looked at the importance and benefits that would accrue to the Nation, not just to a locality or community or a State. I wish that some of those critics who criticize what they call pork, which is really infrastructure, will go back and read the speeches of those great Senators—Clay and Webster.

Perhaps those of today will get a new understanding and light upon these very important subjects, and 10, 15, 20 years from today, people are going to look at the crumbling infrastructure and wonder where we have been.

When God went to the Garden of Eden looking for Adam in the cool of the evening, Adam hid from God. God said, "Adam, where art thou? Adam, where art thou?" And one day our constituents will say, "Where were you? Where were you when you failed to build infrastructure for the future?"

I have a statement commending the chairman and ranking member, but I will withhold my statement until Members have had an opportunity to respond. I just could not resist recalling the words of Webster when he spoke of the significance of building for the future, building highways, canals and railroads. I shall remember MARK HATFIELD as one who thought and believed the same way as Daniel Webster. I thank the Senator.

Mr. HATFIELD. Mr. President, I thank the Senator from West Virginia. His eloquence is always very commending. But I couldn't help but reflect when he goes back to Daniel Webster, that this bill has been crafted across this aisle, between Democrats and Republicans. But if we lived in that period of time, I am convinced all three of us would have been Whigs, because we have to attribute to the Whig Party, even though we sort of fluff it off as an insignificant part of our great history, that it was the Whig Party that held fast in the words of Daniel Webster and Henry Clay and others that building a national infrastructure was of the utmost priority. It was the Democrats who took issue with them on that subject, and is an interesting way of how our political labels and our political philosophies tend to evolve and flow. But I have no doubt that on this issue, the three of us would have been of one party.

Mr. BYRD. We're Whigs at heart. We're Whigs at heart.

Mr. HATFIELD. I yield to my colleague at this time for his opening remarks.

Mr. LAUTENBERG. Thank you very much, Mr. President.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

Mr. LAUTENBERG. Mr. President, obviously, as the ranking member of the Subcommittee on Transportation of Appropriations, I strongly support H.R. 3675, the Transportation appropriations bill for this coming fiscal year. The conference report was filed by the Transportation appropriations

conference on September 16, just a couple of days ago. But this bill is marked by more than just dollar amounts or designated programs. This bill exhibits the extraordinary leadership of the distinguished chairman of the Appropriations Committee, the chairman of the subcommittee, as well as the very distinguished former chairman of the Appropriations Committee—two gentlemen who have left, to use the expression, a mark on this body that will endure far beyond the lives of anybody within earshot of our voices.

It has been a real privilege for me to work with these gentlemen. I came here at a rather mature status in life. I spent 30 years in the corporate world before coming to the U.S. Senate. But one of the great delights of serving here is to have the occasional respite from the tensions and the differences that are so prominent in this body of ours when we hear from people like Senator MARK HATFIELD or Senator ROBERT BYRD, who bring not only experience but wisdom to our deliberations.

Frankly, Mr. President, I have to tell you that I worry about the U.S. Senate. I worry about our governance and our congressional responsibilities when we lose contact with someone like MARK HATFIELD, who has chosen to retire, and many other fine colleagues who have also chosen to make this their last year in the U.S. Senate.

I find it to be a very depressing prospect, because so much experience and so much knowledge will leave the floor of this U.S. Senate, and I hope those of us who are left to carry on for however long that is, can learn from the examples set by Senator MARK HATFIELD and by Senator ROBERT BYRD.

Senator BYRD is going to stay with us and he is going to keep working, thank the Lord for that. But this bill is uniquely marked by the fact that it is the last transportation bill that Senator MARK HATFIELD is going to manage. His is a very special legacy. He will be remembered for his spirit, his integrity, for his character, for his intelligence, and for his friendship. I will sorely miss him. I don't want this to turn into a eulogy, Mr. President, but I couldn't let this bill be considered without noting the unique contribution made to our country in these transportation programs by Senator HATFIELD.

Given the funding limitations we face in this year's appropriations process, I think this conference agreement does a very good job. It addresses numerous and sometimes competing transportation needs throughout the country.

There is no question that the conference agreement before us represents a much more balanced approach than did the House-passed bill. The conference agreement goes a long way toward addressing the priorities of Members. Moreover, the conference agreement also addresses many of the priorities of the administration.

As such, the President has indicated that he will sign this bill when he receives it. I almost want to say "hallemujah," because it gives us added reason to get it over there.

As is the case with all appropriations conferences, I cannot say that the Senate position ruled the day on all contentious matters addressed by the conferees. Indeed, I am disappointed with several individual issues contained in the conference report. However, by no means is it the fault of our distinguished chairman. After hours of tough negotiation, matters were necessarily resolved in a fashion that would ensure the passage of the separate and independent transportation bill, again, that will gain the President's signature and avoid getting caught up in the quagmire of a continuing resolution.

One result that I find to be exceedingly disappointing is the action by the conferees in rejecting an amendment that I offered to ensure that no State endures a cut in its annual highway funding from the huge Federal-Aid Highway Program.

The conference agreement before us calls for the overall obligation ceiling for the major highway formula program for the Nation to increase to a record-high level of \$18 billion. This level is a full \$450 million higher than the current year's level, \$450 million higher than the House-passed level, and \$350 million higher than the original Senate-passed bill.

I have always—and again I join with the other Whigs here—I have always supported increased infrastructure spending, especially in the highway area. I was shocked, however, to find that under formulas contained in the authorizing law, ISTEA, 28 States—28—will actually receive less money from the highway program in 1997 than they did in 1996. I want to restate that. At the same time as we are going to be providing an unprecedented increase in the highway formula program, a larger increase than was granted in either the House or Senate bill, a majority of the States will actually endure a cut in their highway obligation ceiling below the current year's level.

This situation stems from the formulas contained in ISTEA, Mr. President. It is a formula already established. However, I do feel that, when we provide historic funding increases to the program, States should at least be held harmless—they should be guaranteed at least what they received for the preceding year.

Mr. President, I ask unanimous consent that a table be printed in the RECORD which displays each State's highway obligation ceiling at the current funding level opposite the level they can expect to receive in fiscal year 1997.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

COMPARISON OF ESTIMATED FY 1997 OBLIGATION LIMITATION
[Dollars in thousands]

State	Fiscal year 1996 actual	Conference	Percent	Dollar loss/gain
Alabama	270,610	329,746	122	59,136

Reserve	647,311	620,000		
Total	17,550,000	18,000,000		

Mr. LAUTENBERG. As I earlier stated, I offered an amendment in the conference on this bill to implement a hold-harmless provision to ensure that, as we added a half billion dollars to the National Highway Program, no State would be cut below the current year's level. Unfortunately, my amendment was not accepted, and we are where we are.

Mr. President, this is a scenario that will serve as the backdrop as we attempt to reauthorize ISTEA in the next congressional session. More than half the States will actually see their highway funding cut as we appropriate—a historic funding increase to the National Highway Program. As we approach ISTEA reauthorization, I hope and expect that all Members will focus on these formula issues and work to restore fairness to the highway program so all States will benefit when we add substantial sums to the program.

Mr. President, Amtrak funding is a favorite subject of mine; it is a favorite subject, I know, of the chairman of the Finance Committee and of our other colleagues who recognize the value of having Amtrak, the national passenger rail service, improved, maintained and available. When it comes to Amtrak

funding, the conference agreement is a vast improvement over the House-passed bill.

I am grateful to my many Senate colleagues who joined us to try to get an adjustment. I am disappointed, however, that the funding for Amtrak's Northeast Corridor Improvement Program—that is the corridor that runs from Washington up through Boston—will be funded at \$115 million, which is well below the President's request.

Mr. President, the key to Amtrak's future is the expeditious completion of the major infrastructure improvements that have begun in the Northeast corridor. If these things are forced to drag out, costs go up, changes come in, and as we all know, sometimes even political influences begin to change the course of events.

Amtrak's own studies indicate that all—and I emphasize all—of the increased revenue that Amtrak can hope to capture in the near-term will come from the Northeast corridor. That is where the traffic is, the largest share of the population that is served by the railroad.

In recent months we have heard the usual arguments from Members of Congress that Amtrak must become self-sufficient. Now many of the Members who have advocated substantial cuts in the railroad's operating subsidy are bemoaning the fact that they are going to lose Amtrak service. The conference agreement before us, they should be aware, cuts Amtrak's operating account some \$50 million below Amtrak's request.

Some of these Members are now trying to find a way to restore service to their constituents. I know that Amtrak service is valuable wherever it exists, but funding cuts cannot be inflicted without pain. The solution is improving Amtrak's revenue wherever possible.

I have long believed, Mr. President, that we should have a financially healthy and adequately capitalized national railroad that serves as many areas of the country as possible. I want to support Members' efforts to maintain service throughout the country, but I also believe that my colleagues need to recognize that the key to Amtrak's self-sufficiency, the key to Amtrak having enough revenue to operate these lines throughout the Midwest and the Far West, is adequate funding for Amtrak's Northeast corridor. That is where the revenue opportunities lie. That is where the investment has to be made in order to generate the revenue to feed these less productive, less revenue-producing parts of the system.

Amtrak's president, Tom Downs, recently testified at the Senate Commerce Committee. He explained that, were it not for the recent positive financial performance of the Northeast corridor, the trains now slated for termination in the next few months would have been terminated several months ago.

The corridor carries half of all Amtrak riders, and generates well over

half of Amtrak's passenger-related revenues. As I stated during the conference on the transportation bill, I expect to seek increased funding for the Northeast corridor on any legislative vehicle seeks to provide funding to Amtrak to maintain service on the lines currently slated for termination.

Finally, I want to point out where this bill sits in regard to the funding stream for the airport and airways trust fund. As many Members know, the tax-writing committees extended the ticket tax, which finances the aviation trust fund, only through December of this year. Once again, come the beginning of the year, the ticket tax will expire, leaving the trust fund without an adequate revenue stream.

The conference agreement before us assumes obligations from the aviation trust fund totaling \$5.1 billion in fiscal year 1997. I am told by the FAA that, with the termination of the ticket tax this coming December, the trust fund will be between \$400 and \$500 million short in financing the FAA's 1997 appropriation.

I want everybody to think about that, that while there are substantial funds in there right now, they are drawn down at a rate of half a billion dollars a month. With the expiration of the ticket tax, the FAA will literally run out of money absent any further action of the tax-writing committees. The agency will either be required to cease making airport grants, terminate certain procurements, terminate some research projects, or slow down expenditures in critical operating areas, such as controller training and safety inspections.

Mr. President, these shenanigans with the aviation trust fund must come to a stop. It is not fair to the employees of the FAA, not fair to the airports, not fair to the traveling public. So I want to add my voice to those of Senator MCCAIN, Senator FORD, Senator DORGAN, and others who are insisting that some action be taken before the end of this session to make sure that the ticket tax is extended beyond the end of the year. I feel that it is critical to point out that no Senator has been more diligent in advocating appropriate action by the authorizing and tax-writing committees than our distinguished chairman of the full committee and subcommittee, Senator HATFIELD.

The conference agreement on the transportation bill was truly a bipartisan effort. Throughout the process, Chairman HATFIELD exhibited his customary openness, fair-mindedness, and delicate hand. He was, once again, the conductor of the orchestra, trying to make rhythm and good sound out of the cacophony that prevails at times during these conferences.

In those 2 years as chairman of the Transportation Subcommittee, once again, Senator HATFIELD has left his mark. He is an informed, wise, just policymaker in the transportation arena. He believes deeply in the infrastructure

investment that our country has to make. I agree with him. I admire his leadership and will always treasure his friendship.

The Senator from Oregon mentioned President Eisenhower and his creation of the highway system in 1952. My graduation certificate from my Columbia diploma carries President Eisenhower's signature because he was then president of Columbia. I served under his leadership in World War II. I do not think he knew I existed. I knew he existed because he came through my area one time and we scraped and cleaned and made sure everything looked right. I did join him here, but I came a long time later. It was a pleasure to have him lead our country.

Once again, Mr. President, I voice my support for the conference agreement, and thank Senator HATFIELD for his courtesy throughout his tenure as chairman of the Appropriations Committee and the Transportation Subcommittee. I also want to note the excellent job done by staff, by Peter Rogoff on my side, Anne Miano on the other side, Mike Brennan, and those staff people who worked throughout the process. We had a retirement take place in the middle of this bill, and Anne jumped into the fray, as did Peter. We are grateful to them for superb and loyal service.

I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I rise to express my thanks to the chairman of the Appropriations Committee for his dedicated work throughout the year in this body, his work on the Appropriations Committee, where he has always stood as a solid rock in the interest of the economy, in the interest of improving our country's infrastructure, and where he has been a dedicated servant of his State.

This will be the last appropriations bill he will manage on the floor of the Senate. I say to him I shall not forget him in the coming years. I shall remember him as one who demonstrated supreme courage, high integrity and steadfast patriotism always. I also should think of him as one who could very well have sat during the deliberations of the Constitutional Convention, which operated behind closed doors during those days, from May into September, and which, 209 years ago yesterday, completed its work.

Benjamin Franklin, according to a story, which may or may not have been apocryphal, said in response to a lady's question after the Convention had finished its work—the lady's question was, "Dr. Franklin, what have you given us?" And his answer, according to the story, was, "A republic, madam, if you can keep it." He did not say, "A democracy." He said, "A republic, madam, if you can keep it."

I think of that, and Senator HATFIELD as someone who could very well have graced the membership of that Convention, along with Benjamin

Franklin, Elbridge Gerry, James Madison, Alexander Hamilton, and George Washington, who presided over the Convention.

So it was on yesterday, 209 years ago, that that conference completed its work. It was a gamble. Those who wrote the Constitution did not know, of course, what the future would be, how their work would be accepted, or how long they would be in the minds of their countrymen.

MARK HATFIELD is one who has stood steadfast in the defense of that Constitution. I remember him for many things. I will thank him again and again for the inspiration he has provided to me and to others in this body.

While I did sign the conference report to accompany this bill, the RECORD will note that I excepted myself as to the disposition of amendment No. 150, to which the distinguished Senator from New Jersey, Mr. LAUTENBERG, has referred. This amendment pertained to the Baucus amendment and the overall issues surrounding the distribution of Federal aid highway funds for the coming fiscal year. I was disappointed that the Senate receded to the House regarding the Baucus amendment, since it sought to correct an error made by the Treasury Department in calculating highway gas tax revenues.

The result of the insistence in the House conferees in not correcting the error is that my State of West Virginia will see \$6 million less in Federal aid highway funding than it would have received had this genuine mistake been corrected.

Moreover, I am especially disappointed that the conferees did not accept Senator LAUTENBERG's amendment which would have ensured that no State would see a cut in Federal aid highway funding below the 1996 level. Members should take note of the fact that the conferees on the transportation bill increased the Federal aid highway formula obligation ceiling to a historically high level of \$18 billion.

Now, I have been an advocate for increased infrastructure spending in our Nation especially in the area of highways. Normally, I would be here to praise the conferees' work in finding more money for highways than was contained in either the House or Senate bill. But a thorough review of the impact of the existing highway formulas on this program shows, as Senator LAUTENBERG has just stated, that only 22 States will enjoy any increase at all in highway formula funding next year. Those States will see very sizable increases of up to 25 percent, while a majority of States—28 in number—will see their funding cut below the current year's level, by anywhere from 1 percent to 17 percent. All of this takes place as the overall obligation ceiling for highways is increased 2.6 percent. I cannot support a policy of this kind, which directs all the increased funds for the highway program to 22 States and indeed reallocates funds from those other States to give more money to the

22 States. The problem that gives rise to this situation is embedded in the formulas pertaining to the highway program as contained in ISTEA.

I, perhaps, ought to do as Demosthenes did, speak with pebbles in my mouth, so that I can better be heard above the sound of the "waves of the sea."

I fully expect these issues to be revisited thoroughly during the upcoming reauthorization of that bill. Careful review of the distribution of highway obligation authority for next year indicates that the two States that will lose a larger percentage than any others are Rhode Island and Montana—precisely the two States represented by our chairman and ranking member of the Environment and Public Works Committee. As such, I am confident that Senators CHAFEE and BAUCUS will take a hard look at these formula issues and rectify this problem as we reauthorize ISTEA next year—and I hope that my voice is better by then. I apologize to the Senators for such a weak voice today. I am imposing on other Senators who are straining to hear me, I am sure. But I intend to work with the Senators to rectify this and other problems in connection with next year's ISTEA reauthorization.

Let me make clear that my upset concerning the disposition of this item should not be viewed as a reflection on the efforts made by the chairman of the Transportation Subcommittee and the chairman of the full committee, Senator HATFIELD, nor on the very capable ranking member, Senator LAUTENBERG. Senator HATFIELD has been very attentive to my transportation concerns throughout this year's process. He has been a most able and conscientious steward of the transportation budget of the Nation. I appreciate his efforts, as well as those of Senator LAUTENBERG, who has been an excellent chairman in the past and an equally excellent ranking member. I appreciate not only their efforts, but that of all the conferees on this very important transportation measure.

Mr. President, I yield the floor.

Mr. ROTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware is recognized.

Mr. ROTH. Mr. President, first of all, I want to join my distinguished colleague from New Jersey in the very kind and gracious remarks he made about the chairman, the distinguished senior Senator from Oregon. Like him, it has been my pleasure to join with him from time to time. I have often sought his counsel. He is a leader, he is a doer, he has brought great wisdom to the Senate, and we will be poorer as an institution without him.

I say to the distinguished Senator from New Jersey, as I was listening to his remarks and I looked at these two Senators—one from West Virginia and one from Oregon—it seemed to me one of the best reasons to be against a two-term limitation, because of the expertise, knowledge, and good judgment

they bring to this institution. We are indeed all richer for it.

I must rise to express my disappointment in the funding levels for Amtrak in the fiscal year 1997 Department of Transportation conference report. While the House-Senate conference committee did not reduce Amtrak funding as drastically as the House originally proposed, I am, as I already stated, very disappointed that Amtrak will not receive the full funding contained in the Senate-passed bill.

Frankly, we would not have done as well if it hadn't been for the Senate conferees. I do want to express my great appreciation to Senator HATFIELD and Senator LAUTENBERG for their leadership, for their efforts on behalf of Amtrak, and I say that the fight is not over.

Mr. President, I believe the appropriation numbers for Amtrak are, frankly, shortsighted and do not help the Nation's transportation needs. Our goal is for Amtrak to be self-sufficient, and we cannot achieve that goal without adequate funding for capital improvements. How can Amtrak be expected to provide better service and attract more riders without the needed funding to modernize?

Now, as you know, twice this year, the Senate has voted in support of providing Amtrak the capital funds needed to preserve innercity passenger rail as a critical component of our country's transportation network. On May 23, the Senate overwhelmingly approved a sense-of-the-Senate resolution supporting the creation of a capital trust fund for Amtrak. On July 30, the Senate resoundingly defeated—82-17—an attempt to cut fiscal year 1997 appropriations for Amtrak expenses to a level which would have crippled passenger rail services. But those votes of confidence from the Senate cannot balance Amtrak's books. Financial investment in the system by Congress is critical. Recently, Amtrak announced that fiscal year 1997 included cost-cutting and revenue-enhancing initiatives, designed to keep Amtrak on a course of reducing its dependence on Federal operating grants.

Amtrak is committed to the goal of totally eliminating its dependence on Federal operating grants by the year 2002. But it cannot do this without a strong source of capital funding. As my colleagues are well aware, I have been working to provide a dedicated source of capital funding for Amtrak to avoid just this sort of annual appropriation crisis, in which Amtrak's viability hangs by a thread.

My staff and Senator ROBERT BYRD's staff have been meeting in an effort to craft a proposal that would take 4.3 cents per gallon fuel tax to the highway trust fund, with one-half cent of that tax going to Amtrak for 5 years. The legislation would provide a total of \$2.8 billion for Amtrak over the next 5 years. Under this proposal, for the first time ever, Amtrak would have a dedicated source of funding. New revenue

for capital improvements would allow Amtrak to purchase new locomotives, to operate more efficiently, and to attract new passengers.

As my good friend, the Senator from New Jersey, pointed out, there must be Northeast corridor improvement if we are going to increase the number of passengers that utilize the system and thereby increase the revenue available to help make the railroad system self-supporting.

As a Nation I believe that we must take steps now to make sure that passenger rail service remains a viable means of transportation into the next century. The current funding levels for Amtrak will not allow this to happen.

I might add that the conference report does include my earlier proposal to allow States to use remaining dollars for Amtrak, and I believe this is a wise move.

In closing, I want to again restate my disappointment in this conference report but urge my colleagues to support Senator LAUTENBERG's and other efforts to boost Amtrak's funding for next year through an omnibus appropriations bill.

In addition, I also ask that my colleagues continue to support my efforts to give Amtrak a secure funding source for capital improvements to avoid just this sort of appropriations crisis.

In closing, I once more thank my distinguished chairman and ranking member for their efforts in this regard, and for that I am indeed grateful.

Mr. HATFIELD addressed the Chair.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. HATFIELD. Mr. President, I thank the Senator from Delaware for his kind personal remarks. I also thank him for focusing again on this vital part of our national transportation system, Amtrak.

I have to say to the Senator that I can't disagree with a word he said vis-a-vis the importance of Amtrak not only to the East and Northeast corridor specifically but throughout the whole Nation. I have to say that we lost a leg of that Amtrak due to cutbacks and reductions from Portland to Boise, the Pioneer. It was a hard pill to swallow. That affected my constituency very directly. We lost a number of other legs to the Amtrak.

But, Mr. President, I have to come back to some fundamentals here in which we operate, and to say not only have we at the Senate level—we came into the conference with \$872 million for Amtrak. That is all the funding relating to Amtrak; and had to deal with the House of Representatives with \$542 million. We came out with \$760 million which is still \$10 million more than the level of 1996.

When I say we have to look at the context in which we in the Appropriations Committee operate, we have to go back to the budget resolution. We have to go back to the proposition that there are those who think we can balance the budget by only an 18 percent

baseline; namely, the nondefense discretionary programs.

Mr. President, I want to say—now from my perspective—that we will never balance the budget on that kind of a baseline. But we exempt all entitlements, we exempt all mandated spending programs, we exempt the military, or the defense programs, and then we come down to 18 percent which is the nondefense discretionary part of the budget. We say we are going to balance the budget on that. With the expansion of these others, particularly the entitlement programs, by the year 2011 or 2015—wherever you want to light on with these economic projections—we will not have a penny of money left for nondefense programs and challenging even defense programs because they will all be swallowed up by the entitlements. But, oh, we get so nervous any time we talk about touching those entitlements. When I say “entitlements,” I mean including Social Security. You can say, “Well, HATFIELD, it is easy for you to say that. You are on your way out. You do not have to face the consequences.” I want you to know that I voted in 1986 for an across-the-board freeze on all entitlements. I had a reelection campaign facing me in 1990.

Nevertheless, that is not the important part of it. I am making the point simply that we cut \$22 billion off of Federal spending levels, and it was all in nondefense discretionary.

A lot of people talk about reducing the size of Government. It is easy to talk that. But let me tell you. It has been the appropriators that have been really at the business of reducing the size of Government, but with, of course, the assistance of the Budget Committee, and many other committees as well. But I am saying we are the executioners. And we have been put into a situation, as I have said before, of performing surgery without the benefit of anesthetics. We have to face up to these. And we shoulder the burden.

So I say that we are going to have to begin to really put this into context when we are dealing with the lesser amount for Amtrak—or the lesser amount for some other favorite program, or worthy program such as Amtrak—that what the appropriators ended up doing was the command of the reductions made by the body. And that command took place in many different forms—not just the Budget Committee or the budget resolution. I am happy to say that we have raised the level for Amtrak. Maybe it is a very small amount. But many other accounts went down 10 percent, or 15 percent, or 20 percent. Amtrak went up a fraction. But, nevertheless, we had what you might call a freeze level of Amtrak.

I want to say, too, at this point that I am very, very impressed with Tom Downs. I am a staunch supporter of Tom Downs. He has been given a tremendous task of administering Amtrak, and he has not been given the

tools really to do the job or to fulfill the mission which has been set for Amtrak. The Senator from Delaware, Mr. ROTH, made that very clear—about Amtrak ultimately becoming self-supporting.

So, Mr. President, I join with the critics of this appropriations bill. But all I can say is we have done our very best under limited conditions of not only dollars but policies that surround us.

Senator BYRD brought up the Baucus amendment. I have to say again that my State was not affected that much one way or the other. But when you get into rewriting formulas, it is very, very difficult to do that without the support or the acquiescence of the authorizing committees. I have to say that we dropped that. We receded to the House because the information we had was the House authorizing committee would not consent to those formula changes proposed by the Baucus amendment. The House operates under perhaps more structure than the Senate. Being a much larger body it is incumbent that they do operate that way. I am not being critical. But the chairman of the Subcommittee on Transportation of the Appropriations Committee brings in a statement of the chairman of the House authorizing committee that he will in no way acquiesce for the appropriators to take this kind of action, that sort of freezes in the appropriators on the House side more so than it does with us because we are a smaller body and we operate a little more informally, and we communicate quickly maybe even on the floor while we are debating an authorization action that is being offered on an appropriations bill as a rider. Not so the House.

So I think there we were really in a situation where we needed a bill. We wanted a bill. We have a bill now that I am convinced the administration will sign, and we can have one less bill in the continuing resolution that we are going to face this next week. My friends, it is going to be a very, very difficult continuing resolution even with fewer bills but it certainly would be more complex with more bills.

So I am only here to say that we have done our very best under the circumstances. So it is not just a decision rendered by Senator LAUTENBERG and myself as leaders of this appropriations subcommittee. Much of the problem we are facing here responding to critics has been imposed by the body, by the Congress, through the budget resolution process, and by their orders to exclude military spending—exclude the programs of entitlements from this commitment we have to balance the budget by the year 2002 and the reductions have to take place in Government spending. I just want to put it in that context.

One last thing I want to do here today before I yield the floor. I was negligent a moment ago because I did mention Anne Miano and Peter Rogoff

on their contributions as staff people. I did forget Joyce Rose because, like many people in this institution who quietly operate at staff level, in the background, we sometimes forget them, and I apologize for that. I cannot really say I have forgotten her because it was merely an oversight. She has been an integral part of our operation by which we have been able to bring this bill to the floor, and I am very grateful.

Mr. NICKLES. Mr. President, I thank the chairman of the committee, Senator HATFIELD, for his support of Oklahoma City's proposal to construct a rail trolley system in the downtown area, which includes the acquisition of additional buses and bus routes connecting various parts of the city to the downtown circulator. The transportation system is an integral component of the city's \$285 million locally funded Metropolitan Area Projects [MAPS] Program. MAPS, funded through a 5-year, 1-cent city sales tax, is an aggressive project which includes the construction of an indoor sports arena, a professional baseball park, renovations of convention and civic centers, and construction of a canal system in downtown Oklahoma City. Federal funding for the transportation system is the only Federal assistance included in the MAPS program.

The conference report for fiscal year 1997 transportation appropriations includes \$2 million for the Oklahoma City project. It is my understanding the committee supports the city's proposal to acquire equipment with these funds, such as buses and bus stops, which will be an integral component of the downtown transportation system. The Federal funds provided in this bill for this purpose will be matched with local funds.

Mr. HATFIELD. I applaud the city's effort and support its proposal to proceed in the manner outlined by the Senator from Oklahoma.

Mr. DOMENICI. Mr. President, I wish to speak on the conference report to the Department of Transportation and related agencies appropriations bill for fiscal year 1997.

I commend both the distinguished chairman of the Appropriations Committee, Chairman HATFIELD, and the chairman of the House Appropriations Subcommittee on Transportation, Congressman WOLF, for bringing us a balanced bill considering current budget constraints.

The conference report provides \$12.6 billion in budget authority and \$12.3 billion in new outlays to fund the programs of the Department of Transportation, including Federal-aid highway, mass transit, aviation, and maritime activities.

When outlays from prior-year budget authority are taken into account, the bill totals \$36.1 billion in outlays.

The subcommittee is essentially at 602(b) allocation in both budget authority and outlays.

While I am pleased with many aspects of the bill, I must object to the

manner in which the conference dealt with the Baucus amendment. The Senate had unanimously agreed to this important amendment during floor consideration of H.R. 3675.

The rejection of the Baucus amendment will directly lead to 31 States losing 1997 highway funding. New Mexico will lose \$20 million when compared to 1996—a reduction of 12 percent.

This reduction is totally unacceptable and I will be working with my colleagues over the next few weeks to address this critical issue before the end of this congressional session.

Mr. President, I ask unanimous consent that a table displaying the Budget Committee scoring of the final bill be printed in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

TRANSPORTATION SUBCOMMITTEE SPENDING TOTALS—
CONFERENCE REPORT

[Fiscal year 1997, in millions of dollars]

	Budget authority	Outlays
Defense discretionary:		
Outlays from prior-year BA and other actions completed		37
H.R. 3675, conference report		
Scorekeeping adjustment		
Subtotal defense discretionary		37
Nondefense discretionary:		
Outlays from prior-year BA and other actions completed		23,748
H.R. 3675, conference report	11,991	11,668
Scorekeeping adjustment		
Subtotal nondefense discretionary	11,991	35,416
Mandatory:		
Outlays from prior-year BA and other actions completed		
H.R. 3675, conference report		
Adjustment to conform mandatory programs with Budget Resolution assumptions	605	602
Subtotal mandatory	605	602
Adjusted bill total	12,596	36,055
Senate Subcommittee 602(b) allocation:		
Defense discretionary		37
Nondefense discretionary	12,050	35,416
Violent crime reduction trust fund		
Mandatory	605	602
Total allocation	12,655	36,055
Adjusted bill total compared to Senate Subcommittee 602(b) allocation:		
Defense discretionary		
Nondefense discretionary	-59	
Violent crime reduction trust fund		
Mandatory		
Total allocation	-59	

Note.—Details may not add to totals due to rounding. Totals adjusted for consistency with current scorekeeping conventions.

HOOD RIVER, OREGON BUSES

Mr. HATFIELD. The bus and bus facilities distribution table included in the statement of managers accompanying the conference report—House Report 104-785—directs funds to Hood River, OR, for buses. However, it has lately been brought to my attention that these funds can best be used for intermodal purposes. I ask my colleague if he will agree that the notation “buses” should be interpreted by the Federal Transit Administration to include an intermodal project at Hood River?

Mr. LAUTENBERG. Yes. It is my understanding that this interpretation is acceptable to the conferees.

Mr. HATFIELD. I thank the Senator. This interpretation will enable Hood River to make the best use of these funds according to local priorities.

AMTRAK PRIVATIZATION STUDY

Mr. GORTON. Mr. President, I am pleased that the conference report on H.R. 3675, the Department of Transportation and related agencies appropriations bill for FY 1997, incorporated the Amtrak Privatization Study that was included in the Senate report.

As my colleagues know, within 1 year, the Federal Railroad Administration is to conduct a study of reforms and specific privatization options that I believe hold the potential to revitalizing intercity passenger rail service in the United States. As the sponsor of the Senate report language, I want to emphasize that this is a very important undertaking. Congress has failed to enact much-needed reforms in liability and other areas during this Congress, and Amtrak is facing numerous financial difficulties. Accordingly, Amtrak announced its intention last month to cut back routes as a means of reducing its current operating deficit. In my view, Congress must not sit by and watch Amtrak wither away.

The language included in the “Statement of Managers” refers to the Senate initiative, which permits the Federal Railroad Administration’s study to include the recommendations of the Discovery Institute Inquiry on Passenger Rail Privatization of October 1995. As many may know, representatives from the Discovery Institute in Seattle, WA, have already done substantial work on passenger rail privatization. In fact, I recently met with Bruce Chapman, president of Discovery Institute, who indicated that the Discovery Institute intends to give this matter high priority. Already, Discovery has scripted plans to form a high-level Public-Private Council, which would assist in the study process, analyze various options, and make recommendations to the Federal Railroad Administrator for the final report, which is to be transmitted to Congress by August 1, 1997. Because of its continued enthusiasm regarding this issue, I would hope that the Discovery Institute is allowed to play a significant role in the Federal Railroad Administration study following its commencement later this year.

Mr. HATFIELD. Let me thank the Senator from Washington for his thoughts on this matter. I was pleased to work with Senator GORTON on this issue because I recognize the importance of passenger rail in the Pacific Northwest, and I agree with his comments.

Mr. KERRY. Mr. President, I wish to commend the leadership of my colleagues from Oregon and New Jersey, Senators HATFIELD and LAUTENBERG, for their key role in bringing this Transportation appropriations bill to this point, which should take it to a White House signature.

No bill is ever all that we might like it to be, of course, and this bill is not

an exception. Among its disappointments is the fact it does not reverse the troubling course of this Congress towards disinvestment in critical areas of our infrastructure such as passenger rail. Amtrak continues to be underfunded; this bill contains \$565 million for Amtrak in fiscal year 1997. This number is simply not sufficient for Amtrak to function effectively and to meet the intercity passenger rail needs of our Nation’s rail passengers. We continue, for ideological and other reasons, to insist on inadequately funding Amtrak. The results are already apparent. The difficult cuts in Amtrak service with which we now struggle in central and western Massachusetts and other areas of the country are a direct result of this course. Ironically, as Amtrak is beginning to cut service and eliminate routes, Senators who often oppose Amtrak funding suddenly emerged at a hearing last week as strong proponents of intercity passenger rail service. I hope these Senators will join me next year as I continue to fight for increased funding for Amtrak and to ensure that we have a sufficiently capitalized intercity passenger rail system.

In addition, the conference report appropriates only \$115 million for the Northeast Corridor Improvement Project. This is another example of the Congress failing to respond to important needs of its citizens. The Northeast corridor is where the greatest proportion of Amtrak’s passengers are, and NECIP, therefore, represents the key to Amtrak’s future. We cannot continue to attract riders if we do not furnish them with a first class mode of transportation. Those Members who seek to see Amtrak “wither on the vine,” in the words of the Speaker of the House, are attempting to achieve this goal by short-funding NECIP. I will continue to fight in the future for sufficient funding of this important project.

Before I depart this topic, I want to express my sincere gratitude to Senator LAUTENBERG of New Jersey, who continues to be one of the best friends that Amtrak has in the Congress. I know that the Senator from New Jersey did all he could to maximize funding for Amtrak in the coming year, and I look forward to working with my friend next year as we continue to fight for Amtrak and our Nation’s rail passengers.

Senator LAUTENBERG also sought through this bill to ameliorate the effects of a formula alteration affecting highway funding under the Intermodal Surface Transportation Efficiency Act—or ISTEA. His efforts would have been helpful to Massachusetts and 27 other States who are losers under that alteration. I regret his proposal for a temporary hold harmless was rejected. The result is that this important funding distribution issue will have to be confronted next year when ISTEA reauthorization legislation is considered.

As much as I wish the conference report could have provided more adequately for Amtrak and provided the hold harmless for highway funding, I still deeply appreciate the work of Chairman HATFIELD and Senator LAUTENBERG with respect to many other provisions in this bill. This bill makes extremely important commitments to Massachusetts on several projects which form the backbone of intracity and commuter rail traffic in my State, and in these very tight fiscal times, such commitments are all the more important.

This bill continues the Federal Government's commitment to the rebuilding of Worcester's historic Union Station, the hub of transportation in that city and, indeed, for all of central Massachusetts. It continues the Federal Government's commitment to the further development of the Gallagher Terminal in Lowell, which has become one of the Nation's most successful intermodal facilities, and a pivot point for commuter traffic among and between the Merrimack Valley, southern New Hampshire, and greater Boston.

This bill makes a critical initial commitment to the creation of a true intermodal facility at Springfield's Union Station, which, like Worcester's, will become the focal point for expanded transit in its area—which is the Pioneer Valley. And this bill makes a similar commitment to Cape Cod, which will create a new intermodal center in Hyannis to help the Cape address its need to provide alternative transportation in a region often choked with cars.

Finally, this bill continues the government's commitment to the South Boston Piers Transitway Project, on which the city of Boston has rested so much hope and expectation for a renaissance along its waterfront.

On another matter, with regard to the Coast Guard budget, I would like to bring attention to the fact that this is the 7th year in a row where the Congress has failed to appropriate for the Coast Guard the amount sought in the President's budget. I am pleased that we came closer than we have the past 6 years, but we still failed to meet the mark. I find this action very troubling when the Coast Guard has been one of the star performers in the administration's efforts to reduce the size of Government and eliminate all excess waste from the budget. Just this past year, the Coast Guard executed, very successfully I might add, a very aggressive internal streamlining effort without commensurate reductions in any of the services that it provides to the American public. The Coast Guard continues to do more with less.

With the renewed focus on the war on drugs, the Coast Guard will be one of the lead agencies in our effort to stop drugs from entering our country and ultimately ending up in the hands of people—even children—in our neighborhoods and schools, yet no additional resources are being provided for this

purpose, so the Coast Guard will have to absorb the cost of executing this renewed effort. If we want the Coast Guard to continue to provide the services that many Americans have come to take for granted, we must not continue to shoulder it with greater responsibilities and more missions without adequate resources to do the job.

We must be vigilant in our obligation to the men and women of our Nation's oldest continuous seagoing service, and the world's premier maritime experts and guardians of the sea. We must ensure that they have what they need to do the job, and to remain "Semper Paratus" (always ready).

This bill bears the mark of Chairman HATFIELD's thoughtful leadership, which we will so sorely miss in the next Senate, and of the distinguished ranking member of the subcommittee, Senator LAUTENBERG, on whose knowledge and leadership on transportation issues I and many of my colleagues have come to depend.

We in Massachusetts owe Senator LAUTENBERG a continuing debt of gratitude, not only for the work he has done in this Congress under very difficult conditions, but for the work he has done for so many years past. Senator LAUTENBERG understands the needs and priorities of our State and all the Northeastern States, and he understands them almost instinctively. He has been our champion for a fair and equitable approach to Federal transportation policy that supports the economies and the public convenience of every area of this country, including the kind of enormously complex urban areas that we both represent. I want to thank him, once again, for his help with these important matters. It also is fitting that I say thanks to his staff, Peter Rogoff, who consistently has been helpful and accessible to me and my staff. In fact, it is a pleasure to deal with all the staff for this subcommittee, who epitomize the professionalism that enables this institution to get its work done for the American people.

Mr. BINGAMAN, Mr. President, when we passed the fiscal year 1997 Transportation appropriations bill in this Chamber, it passed with an important amendment offered by my distinguished colleague, Senator BAUCUS. The Baucus amendment would have corrected an accounting error made by the Treasury Department with regard to the State distribution formula for highway trust fund obligation authority.

When the Transportation appropriations bill went to conference, the conferees refused to accept the Baucus amendment, which would have empowered the Federal Highway Administration to remedy this error and would have given Congress the time needed to adjust this formulaic distribution issue next year when we consider ISTEA's reauthorization.

The bottom line result in this conference report is that 28 States are los-

ing money for general road repair, construction, maintenance, and service in a year in which the overall obligation ceiling for these expenditures is rising to its highest level in history. This conference report increases overall highway spending authority to \$18 billion, a full \$450 million higher than the current year's level. Thus, in a year in which we are pumping half a billion dollars into this program, 28 States are getting hit with reductions, some of which are very serious.

In contrast, there are some big winners because of this accounting error. Texas is receiving a \$183 million increase, which is about 19 percent greater than last year. Arizona, which also borders New Mexico, is receiving a 24 percent increase; and California is receiving a 9 percent increase. Clearly, in a year in which we are raising the level of expenditures for highways, some States will naturally see an increase in spending authority. But I do not feel that there is any justification for the serious cuts that many States are now facing because of this conference report.

My own State of New Mexico received approximately \$169 million from the Federal Highway Administration during the last fiscal year. New Mexico would have received roughly the same level of spending authority if the conference report had followed the Senate bill recommendation. But as we can now see, New Mexico is getting a real decrease of about 12 percent, amounting to a \$20 million reduction from last year's levels. New Mexico's total obligation limitation from Federal Highway Administration funds is \$149 million. I can't accept this.

I had intended to support this year's Transportation Appropriations Conference Report. I was pleased that the Albuquerque, NM-based Urban/Rural Intelligent Corridor Application [URICA] project had been funded at a level of \$2 million. The Alliance for Transportation Research, a consortia of Sandia National Laboratory, the city of Albuquerque, Los Alamos National Laboratory, and the University of New Mexico, has been at the forefront of many important innovative transportation initiatives. New Mexico has been well-positioned in advanced efforts in transportation system problem solving.

The goal of this URICA project is to implement a system that helps integrate the transportation needs of physically challenged citizens with fixed transportation systems in both rural and urban regions.

This conference report also encourages cities and regions in the United States to consult with Los Alamos National Laboratory on the problem of transportation and air emissions. Los Alamos has also worked within the New Mexico-based Alliance for Transportation Research to tie together technologies from this important national laboratory with air quality monitoring programs and remediation efforts.

This report also provided ongoing essential air service funding, which is critically important to three regions in my State which are Clovis, Alamogordo, and Silver City.

And I also endorse the \$1 million appropriation included in this bill that would be provided to Texas, New Mexico, Arizona, and California for increased Mexican border law enforcement activities.

I did want to support this conference report, but unfortunately, without much warning and little fanfare, 28 States will be seeing less highway funding authority next year while 22 States will be reaping increases, some of which are very large increases.

Mr. President, I regret that I must vote against this Transportation Appropriations Conference Report, and if asked by the President about my opposition, I will recommend that he veto this legislation from the Congress. We were not sent here to protect and defend the results of accounting errors. I urge my colleagues to reject this conference result as well.

I yield the floor.

Mr. BIDEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. BIDEN. Mr. President, let me begin by saying that the criticisms I am about to make are in no way directed at the chairman of the full committee and the ranking member of the subcommittee. I think they share my views on these issues. I am under no illusions; the chairman said earlier that the Senate had straitjacketed the committee in many ways and the House had stiffed the committee in other ways, that what we were able to do here on the Senate side in conference was not made extremely difficult. I understand that.

I rise today to point out what I believe to be some serious flaws in this legislation. This Transportation appropriations bill, I am sorry to say, is unacceptable.

I do not want to mislead my colleagues. I am not sure there was a request for a time agreement, but I indicated to floor staff if there was I would object, and to be completely blunt with my two colleagues, I have never engaged in a filibuster in my 23 years, almost 24 years in the Senate, and I am, quite frankly, weighing as I speak and my staff talks whether or not there would be any utility in my doing that.

The chairman makes a very important point relative to the continuing resolution. My fear and concern is that even were I successful in keeping this bill from passing, the continuing resolution would, in effect, include the numbers that, in fact, are the ones that disturb me the most about the bill.

So to the extent that I do not want to mess up their schedules and be straightforward with them, which is what I am going to do, I would just suggest they stay tuned for another few minutes. I will, quite frankly, make that judgment and determine

whether to do what I have never done before, to engage in what we say is extended debate.

Let me direct my comments this afternoon to what I think are the most serious flaws in this legislation.

First, I think this appropriations bill badly fumbles the task of putting our Nation's passenger rail service, Amtrak, on its feet, earning operating income and ending its operating subsidies. I want to remind you that is the goal we all signed on to—we, the Congress. We said that our goal is, in the Senate and the House, that Amtrak will be able to operate without subsidies by the year 2002, or, put another way, we are not going to help them after that.

Implicit in setting that goal—and I remember how reluctant some of us were to agree to that goal because there is no other major passenger rail service in the world that does not have some government subsidy, none that I am aware of. It always surprises me; my friends in my home State, my friends in the Senate will be somewhere on business or pleasure that takes them to another country, and they will come back and they will talk about, gosh, I was on that bullet train in Japan, or, gosh, I was on the train in Germany, or, gosh, I was on that train in Sweden. It is remarkable. They are clean and they are fast and they are on time. Why can't we have that here?

The reason we do not have it is we do not support the passenger rail service like they do in other countries. Now, there are a lot of reasons we do not do that, not the least of which is our industries, like the cement industry, like the blacktop industry, the trucking industry, see rail as a threat. They do not see it as an adjunct to the economic growth and vitality of the Nation. They see it as a threat.

So we have had incredible difficulty doing what other countries have done, and that is to look at transportation as a whole, not look at transportation as airplanes and highways but looking at the entire component of what constitutes transportation—passenger transportation and freight transportation in this country.

I know Senator LAUTENBERG has labored mightily, and I mean that literally, to try to convince people—along with Senator MOYNIHAN, before he went over to the Finance Committee—that we have to look at transportation in a different way than we have up to now, thinking only in terms of highways.

There is a lot of money in it, and for the life of me I cannot understand why the highway interests in this country, which we support by hundreds of millions of dollars—it is not as if we are against highways if you are for mass transit or you are for mass transit passenger service. They have fought tooth and nail anything that spends any of our highway trust fund moneys or any moneys for anything other than laying concrete and blacktop.

Now, it does not take a rocket scientist to figure out that in certain

parts of our country we cannot lay much more concrete and blacktop. In the Northeast corridor, from Richmond up to Boston, there is not a whole lot more land available to accommodate the increased traffic patterns.

What do we do, make I-95 20 lanes wide? By the way, you think I am joking. In some places, I-95 is already 10 lanes wide. Where are we going to accommodate this extra movement of people when Amtrak is no longer available in our corridor? And also, what happens when, as we repeatedly see happening, there is a constant cutback in Amtrak into rural areas and into States in the Midwest and the Northwest that profited very much from the access to Amtrak?

It is a funny thing, it seems, that old expression of "the more things change, the more they remain the same." I used to be a county councilman in 1970 in our State's largest county before I was elected to the Senate. I was a big booster in the late 1960's and 1970 when I was a council person, for mass transportation, because it was obvious at that time the county I lived in, was the fastest growing county in America. As a matter of fact, "Candid Camera," Allen Funt's "Candid Camera," did a whole program on taking the four-lane highway that connected Pennsylvania and Delaware at the Pennsylvania-Delaware border at the northern part of the county and on the Pennsylvania side as they crossed into Delaware put up a giant sign with the permission of the highway department: "Sorry, Delaware Closed Today," and people were actually stopping. People actually stopped. It was a "Candid Camera" stunt.

So, in the midst of all of that, some of us, myself in particular, started to turn toward trying to deal with mass transit, a minor thing. We are talking about 450,000 people in the county. It is not like we are talking about—there are 10 counties in New Jersey bigger than that and there are probably 20 cities bigger than that. And so we are not talking about a vast number of people in relative terms in relation to other places.

I found something interesting. This is the part about "the more things change, the more they remain the same." I would be told that the bus service—we had no rail service—the bus service we have, that is, servicing the community, is losing money. And so when it starts to lose money, what we do is we go out and cut out a route. Let us assume for the sake of discussion there were 50 bus routes, and the system is losing money. They say, well, we have to cut some expenditures here, and so we are going to cut out two routes.

Now, assume it had 50 routes and 100,000 people getting on the bus. If you cut out two routes, you would think that you would have, then, a commensurate reduction in the amount of ridership. But that is not how it works. When you cut out two routes, twice as

many people who rode those routes stopped taking the bus because the choices are diminished, not just the people who rode that one route. What happens is, it has a geometric impact. As you cut a piece in terms of your operation, what you do is you cut a much larger piece in terms of ridership. That is how it works.

So, here we are. In the name of saving Amtrak, we put Amtrak's leadership in a position of having to make significant operational cuts in service. So, when they cut the train that goes through Montana to the State of Washington, what do they do? They cut alternatives, so that means fewer people ride the train in Illinois as well. It means fewer people ride the train in Indiana. It increases in geometrical proportion to the cut that is made.

It also has a very serious political impact. Then the Senators from Montana or the Senators from other States that got cut say, "What interest do I have in funding this Amtrak thing, it does not service my State anymore?" And it becomes a self-fulfilling prophecy.

There was one place, one section in the National Passenger Rail Service System that, if we improved it, could make money, money enough to, in turn, through Amtrak, subsidize other Amtrak routes so that you would be able to, without coming back to the Government or the taxpayers, say, OK, we can keep that train going through Montana because Amtrak management says we make a surplus in the trains that run from Boston to Washington. That was part of the whole deal we made here. We said, OK, we will run the risk of having this whole passenger rail service go belly up by the year 2000 by committing not to have any more subsidies. But we need to do some things in the interim to put the system in a position to be able to make it.

So what did we do? In this legislation we went out and we slashed, by a significant amount, the amount of money that would be available to further modernize the corridor, as they call it, between New York and Boston.

What has happened is that Amtrak is an electrified system. What has happened, once you get above New York City—actually in New Haven, CT—you have to switch the trains you use. The tracks are old and some of the bridges need to be repaired and some of the curves have to be straightened out, et cetera, because it is not electrified. So we made a deal. We said, OK, we are going to electrify the whole system so it is unified all the way along that megalopolis, and we said we are going to bring in modern high-speed trains that allow us to compete, in fact, with air transportation and road transportation between Boston and Washington. We even picked out the trains we were going to purchase. And because the projections were that ridership would be up because we had improved the number and type of trains that were being used, so that we would gen-

erate enough capital, and we would generate enough money to operate as well as maintain the system. And we would have money left over to go out and continue the train in Texas which is being cut, continue the train in Louisiana which is being cut, in Montana, et cetera, so we could build the system.

By the way, obviously, I am sure some are sitting there, willing and ready, and I do not blame them, to make the ad hominem argument, which is: Obviously, JOE BIDEN wants this because it affects the Northeast corridor where he lives. It affects his State employment, affects his State's economy, it affects the whole region.

That is true. But look beyond that. Notwithstanding the fact that it positively affects my State and the Northeast corridor, it is the only salvation for the rest of the system. We can duplicate that process over time on the west coast. So we can have the capability of similarly moving people rapidly, with high speed, on the west coast. We do not need quite as much improvement because you do not have to electrify the system, and so on and so forth.

What have we done? We have done what we used to do in the county council days. In order to save money, allegedly, we will, by this legislation, force Amtrak to make further cuts, further reducing Amtrak's capability to meet the goal which we all set and insist that they be able to meet by the year 2002. We are guaranteeing, unless we get a supplemental or defeat this or change the number that is in this, we are guaranteeing that Amtrak cannot meet the goal.

It is a little bit like saying to someone you are coaching on the track team who has great potential:

Look, I will tell you what we are going to do. You do not have much money. You have to pay me my salary, and I know you don't have enough money to have me train you, and you have 9-second capability in the hundred meter, which is world class. But I will tell you, in order to save money, you have to wear old Keds sneakers. You cannot wear shoes that, in fact, are the kind that are light, lightweight, modern and functional. By the way, we cannot afford starting blocks. So I am going to continue to coach you if you can break the record. But, in order for you to get me as a coach, what you have to do is we have to cut out these frills—the frills meaning your shoes and the starting blocks—guaranteeing you will never get out of the blocks in order to keep me as your coach, because you never get to the number, you can never get to the speed, you can never get to the time I am going to be satisfied with in order to be able to continue to coach you.

So why start the process in the first place? That is kind of where we are now. I mean, the idea that the rail connection between Boston, Washington, and New York, will basically have to be put on hold—by the way, we need to up

the authorization in this bill for the Northeast corridor to be able to keep Amtrak on track, which is about \$17 million in outlays, I believe that is the number, to be spent next year to continue to complete the project.

I know my colleagues understand all this Senate jargon, congressional jargon, but the bottom line is, unless the number is higher, we do not have \$17 million to do what needs to be done to keep the Northeast corridor project on time and be able to get us in a position where we can buy those train sets and where we can in fact begin to generate the revenue you need in order to meet the objective of being free of subsidies by the year 2002.

Let me point out one other thing that has been pointed out repeatedly by Senator LAUTENBERG. If you deal with this fairly and you measure "the Government subsidies," both in direct expenditures and in tax expenditures that go for highways, that go for the airlines and go for mass transit, Amtrak gets subsidized less.

For example, all you may not realize, when you pay for your plane ticket, the Government subsidizes an air traffic controller that makes sure you can land or not land, it subsidizes the building of that airport and runway, it subsidizes that control tower. The airline does not pay for that. They pay part of it, but they do not pay anywhere near the cost of it. It is a significant subsidy.

So all the airlines are out there touting that this is a subsidy to—I should not say that—touting this is a subsidy to Amtrak, "Why should we pay to subsidize a person's ticket, a woman who wants to get on a train in Gainesville, FL, and go to Raleigh, NC? Why should we do that?"

I ask the reciprocal question: Why should we do that for someone getting on an airplane? The subsidy is greater for the airline industry than it is for the passenger rail service, and the same way with highways. We have a highway trust fund that pays for the laying of the concrete and the putting up of the barriers, et cetera, but it does not pay for all those cops that are out there, it does not pay for all those maintenance crews, it does not pay for the accidents when they occur, it does not pay for a lot of things. So we subsidize beyond—beyond—what we, in fact, collect in the gasoline tax for the highway system.

Why is it we apply a different standard when we are talking about the "subsidies for passenger rail service?" I will tell you why. Because there are a lot of people who make a lot of money and have a lot of influence down here who, in fact—and they are good people—who, in fact, make the concrete that gets poured on the highways. If you are going to spend money on a railroad, you are not pouring concrete on a highway. That is how they view it.

A lot of people out there make an awful lot of money in the trucking industry. I suggest to you all that you

walk down the corridor connecting the House and the Senate Chambers, and there are political cartoons that are on display, historical cartoons on display—I believe it is on the first floor—that show cartoons from the days of the turn of the century. Some of them you will remember from your grade school and high school civic books where they have the pictures of the bloated Senators, like blimps, representing the big mega interests, the oil cartels and the railroad interests and the rest.

This is an ongoing fight. This is money; this is power. This is a big deal to a lot of different people. They do not think of the national interest. What they are thinking of—and it is human nature—is their own particular selfish interests.

Look, how many railroads at the turn of the century were happy to see automobiles come into existence, and then trucks? They did everything in the world to keep trucks and highways from being built, because they knew if you were able to put this stuff on the back of a truck and cart it down the highway, then they did not have the cargo going on top of a rail car where they were charging a fee to send it to folks. The folks who owned the railroads did not want that, and here we have come full circle. The folks who pour the concrete, the folks who make the blacktop, the folks who put up the reflectors on the highways do not want rail passenger service. They don't want it, because they view it as somehow that will affect how many more highways they build.

In a sense, it will. If we, in fact, have Amtrak go belly up in the Northeast corridor, we are going to have to build other lanes of I-95—not figuratively, literally—we are going to have to build more lanes, unless you want to get on 95 and go bumper to bumper from Washington to New York, or maybe you do not want to go to New York anymore, but that is what it is going to take. You will have to do that.

You will have a few people make a whole lot of money, but you sure won't help the environment. You are going to pollute the environment more. You sure won't help in terms of safety, and you sure won't help in terms of public policy, and I do not know why we cannot get that through to people, why that doesn't resonate.

I realize we have a love affair with the automobile. I have a love affair with my automobile. I have a 1967 Corvette I had restored. Next to my kids—maybe my dog comes next—I love it. So I have a love affair with my car, too, but that does not mean I also cannot be rational in how I am going to approach what are the environmental and transportation needs for this country.

So what happens here? What happens here is that we are in a circumstance where—and I have not even mentioned yet the cuts to the 28 States that are small States in highway trust fund

moneys. You have tens of millions of people going through my little old State of Delaware on I-95, and you just got our transportation money, highway money, too. You give us a nice double whammy here. I mean “you” in an editorial sense. The appropriations bill makes sure that we diminish the prospects of Amtrak, which is critically important to my region, and I think to the Nation. By the way, you are going to force us to have to build more highways, and then you turn around and say, “By the way, we're not going to give you as much in highways.” We are going to get less money this year with a \$400 million increase in expenditures than we did last year with a highway bill that was \$400 million less. Talk about sharing in the wealth. There is a lot of wealth to be shared, but the small States, 28 States, are not sharing this.

Without belaboring the point about the highways, it is not long ago the Senate passed its version of the Transportation appropriations bill. Under the leadership of Senators LAUTENBERG and HATFIELD, that bill provided funding for Amtrak's capital function and important Northeast corridor improvement projects at appropriated levels. Some of my colleagues may recall, and I know that I do, that my good friend, Senator MCCAIN from Arizona, offered an amendment to return to the completely inadequate funding levels that Amtrak had in the House version of the bill, which is what we are closer to now in this version. Specifically, his amendment would have cut the Northeast corridor funding to zero from \$200 million in the Senate bill and would have cut overall capital spending in half from \$250 million in the Senate bill down to \$120 million.

Mr. President, we had what I would like to think was a pretty good exchange of views on the role of passenger rail in our Nation's transportation system and how our Federal system of Government allocates the many benefits and burdens shared by the citizens of all 50 States.

Senator MCCAIN's proposal in the end was defeated by 82 to 17—82 to 17—and that was an overwhelming endorsement of the funding levels provided for Amtrak by the Senate in its version of the bill. But despite the best efforts of Senator LAUTENBERG, this conference report was a giant step backward toward the wholly inadequate numbers of the House bill, which is what Senator MCCAIN was pushing.

The bill before us today is not just a step backward, it is a step on a very slippery slope toward the demise of our country's passenger rail system. Under the mistaken assumption that a penny cut from Amtrak's investment functions somehow is a penny saved, this bill actually offers us the formula for failure, as I referenced earlier, by cutting important investment functions.

Mr. President, the legislation actually reduces the efficiency of the remaining dollars spent on Amtrak. Good

business practice that Congress has demanded of Amtrak requires investment in equipment and services that will increase ridership, increase revenues and increase Amtrak's ability to become self-sufficient when it comes to its operating expenditures.

Amtrak has undertaken just such an investment program, and the Northeast corridor improvement project is a major portion of it. By straightening out the right-of-ways, by strengthening bridges and overpasses, by extending electrification along the route between Boston and Washington, this project is going to make possible the inauguration of the most modern, high-speed rail connections along one of the country's most populous transportation corridors—and be able to be transferred, I might add, as well to the west coast.

All over the globe other advanced economies and some not so advanced are also providing such services to their citizens. This country is finally approaching the standard set elsewhere for clean air, fuel efficiency, and convenient passenger rail service that can take some of the load off the rest of our overburdened transportation system.

Mr. President, I wonder if anyone really thinks that the answers to our transportation problems lie in more asphalt, lie in more concrete, increasing our dependency on an already overloaded highway system in significant sectors of the country? If the improvements to Amtrak's Northeast corridor were fully funded and completed, it would remove 325,000 drivers from the crowded I-95 corridor—325,000. That does not even raise the issue of, if it goes under, how many people will it add to that corridor.

Herein lies the problem. Highway guys do not like that, to pull a third of a million people off I-95. Your maintenance is down, you do not have to pour as much concrete, you do not have to expand as much, though the air would be cleaner, there will be fewer accidents, there will be less overall cost to the economy, and there will be greater comfort and efficiency. That is what it is about.

Are we prepared to undertake the construction of more expensive airports? My friend from New Jersey and I are bordering States. One of the things they are trying to figure out in South Jersey and Northern Delaware is, as the Philadelphia airport continues to get overcrowded, what relief airports are we going to build? Where are we going to build other airports? How congested can the air get in a Delaware valley that is 10 million people? Think of what it is for my colleague from New Jersey in the northern part of his State where there is probably closer to 15 million. I do not know what the number is, but it is bigger than the Delaware valley.

Where do you go? How many airplanes can you circle? Come with me on a Friday night, sit out in my yard,

which is just 22 miles from the Philadelphia airport. It looks like fireflies lined up as far as the eye can see, wasting fuel, wasting time, increasing dangers, because there is not enough space to be able to land all those planes at one time.

So what are we going to do? Are we going to build more airports? Let me tell you, that will cost you more than building more Amtrak capability. What it also does—concrete guys are happy. There is an awful lot of concrete in those airports, an awful lot of concrete.

So I just do not understand where people think this is going to go. I do not know where they think our traffic and control systems—how many more flights can they take, especially now? If you live in the middle of Montana or the middle of Nebraska or the middle of other parts of other big States, yeah, there is all kinds of room for this; there are not many people, but all kinds of room for more airports. But they do not need the airports there. They need the airports where we are.

So what you are saying to us on the west coast and the east coast and the congested areas is, you are saying, "OK. Pick your poison, BIDEN." We either are going to congest the airways or we are going to congest the highways. We are going to increase the safety risk. Which do you want? I say, you are giving me a Hobson's choice. It is a false choice.

Have those systems in place, improve them—they will probably have to be expanded anyway—but give us also another alternative, a clean alternative, an economical alternative, in relative terms. Allow us to have rail transportation which will benefit the whole country.

As the distinguished ranking member of the Transportation Appropriations Subcommittee understands, and as Senator LAUTENBERG likes to remind us, annual ridership on Amtrak's Northeast corridor alone is equivalent to 7,500 fully loaded 757 jets. I did not know that number until he raised it. But think of that. Just the passengers in the Northeast corridor. Understand, the passengers in the Northeast corridor are going, in the Northeast, to either Washington, Baltimore, Wilmington, Philadelphia, Trenton, Camden, et cetera.

Mr. LAUTENBERG. If the Senator would yield.

Mr. BIDEN. I will be glad to.

Mr. LAUTENBERG. I was going to remind him as we discuss this and ask if he was aware of the fact we would be loading the skies with some 1,500 more flights a week—that is typically in a 5-day week—where the delays now are unbearable, even when the sun shines bright.

Mr. BIDEN. That is right.

Mr. LAUTENBERG. Plus the fact that I want to know whether the Senator was aware that if we had to relocate or substantially expand the Logan Airport, which would be required in the

Boston area absent substantial Amtrak improvements, the cost to the taxpayer would be several billion dollars.

Mr. BIDEN. With a "B," billion.

Mr. LAUTENBERG. Hardly compares with a few hundred million dollars spent to get Amtrak's Northeast corridor up to shape where we could produce a surplus revenue cash flow that would not have us here with the beggar cup waiting every year to try to get a few dollars.

I want to say to the Senator that the case you make is so clear. I hope that some of our colleagues who come from distant places are able to see the connection. It is just like the Army Corps of Engineers. If they are not financed to take care of the problems out West, then they are not available nor would they be available in the East. This is a national thing, even though its presence is principally in the heaviest populated area of our country.

When it comes to services that are headquartered here, like the FAA—one does not say, "Well, wait a second. Don't put more money in the FAA safety research office in Washington, because we are out in Colorado or New Mexico or someplace"? They say, "No. Keep on investing because we all benefit from such investments." Would the Senator agree?

Mr. BIDEN. I would agree fully. The Senator from New Jersey, since he has been here—I am not being solicitous here—has been a leader on a number of issues, but two in particular, on environmental issues, and on this issue of transportation.

That image, of which is literally true, of 7,500 fully loaded 757's is something I hope everybody kind of keeps in their minds. But put it another way. I ask my colleagues from other States that do not have the same congestion problems, OK, Amtrak goes belly up. Who do you think is going to come after your highway money? Who do you think is coming after your highway money then? Do you think we are going to sit around and say, OK, we are just going to go to gridlock in the East? We are just not going to do anything? We are going to have a new battle. So the money you think you are benefiting from by not spending on Amtrak and putting more money in the highways in States that do not have Amtrak because we are not competing for as many of those dollars with you, we will have to if it changes.

What formula will you be able to draft that in fact will not justify our getting the significantly larger amount of the highway trust fund moneys? We are talking about a third of the Nation's population. This is a big deal. We are not asking for anything that we are not entitled to, that does not make good public policy, that is not in the national interest, and that is not anything any other mode of transportation is not already getting.

But, again, keep that image in mind. I just see it now, folks, those 7,500 fully loaded 757's bouncing around annually

beyond what we have now. Try to get home from National Airport when you are going home for the weekend to whatever State you are from.

Mr. LAUTENBERG. Will the Senator yield?

Mr. BIDEN. I am delighted to yield.

Mr. LAUTENBERG. What do you think would happen if there was a bad weather day along the way? The economy of the country would grind to a halt because we are inextricably linked with our other sections of the country in our business, the stock market, you name it. What might happen when those 7,500 airplane trips try to deal with a snowstorm in the East, or tornadoes or hurricanes, whatever else is the latest in the mode of weather disasters?

Mr. BIDEN. The Senator makes a good point. He and I ride Amtrak a lot. When I leave my house in the morning, I commute every day. I have clean hands here; I have a naked self-interest. I ride Amtrak every day, OK, and have been doing it for 24 years. As my mother says, "When you are hung by your thumbs long enough, you get used to it." I have been riding a long time.

Literally one of my rituals, I say to my friend from New Jersey, as I shave, I turn on the weather channel, because if airports are socked in, I will not get a seat on Amtrak. I better get to the station early. The converse of that is true. What happens if there is no place to go? Right now Amtrak ridership increases exponentially when there is bad weather because the airports are not flying, the airlines are not flying, or they are so delayed the business people and others cannot count on them.

The funding levels in this bill that delay the upgrade are adding to the cost of air pollution, wasted time in traffic, airport delays, highway and airport maintenance costs, and safety problems. Even more foolishly, Mr. President, by indefinitely delaying the completion of the Northeast corridor improvements, this bill will indefinitely delay the day when new high-speed transit—already ordered, already funded in the same legislation—will be able to go into full operation. Not only is this a pointless waste of the new equipment, but a false economy.

By postponing the day when full high-speed rail service becomes available between Boston and Washington, this bill means Amtrak will lose indefinitely the ability to generate profits, precisely the goals we have been told and we have told Amtrak they must, in fact, meet.

Once lost, these profits will never be made up. Every year without profits is another year Amtrak routes suffer and go further in the red ink, another year in which Amtrak will need operating subsidies from the Congress. Instead of committing to the investment now that will start generating this income, that could support other less profitable routes, this legislation guarantees that Amtrak will remain hobbled. So the consequence and impact will be that

train that our friends from Texas—and I compliment them on their effort—are trying to maintain going into Texas will be lost, that train that the Governor of Montana wants to get back in Montana will not be able to be routed because it cannot sustain itself.

It is like the business of setting up electric and telephone service. It is not as profitable to run a line 8 miles down a road to a farm to light a farmhouse and a barn as it is to run a line a mile and a half into a neighborhood that has 450 homes. So what happens? The people who live in the 450-home neighborhood end up subsidizing the person who lives out there on the farm. That is what we are about as a Nation. That is why, for example, we subsidize water in the West. My mother pays her taxes and I pay my taxes in the East so that somebody else's mother can have a glass of water in Arizona or in southern California or in many of the Rocky Mountain area States that are fed by the Colorado River, and the billions of dollars we have spent on dams.

I do not complain about that. That is not a complaint. It is an observation. That is what we are supposed to do. We are one Nation. We are one Nation and different areas of the Nation have different needs. If the taxpayer of the United States stops subsidizing, or never subsidized in the first place, what was done to the Colorado River, there would not be 32 million people in California.

Mr. BENNETT. Will the Senator yield?

Mr. BIDEN. I am happy to yield to the Senator.

Mr. BENNETT. I am about to do something I have been warned is unwise, and that is to enter into debate and ask questions without knowing in advance what my position will be. I do this in the hope I might learn something, but I realize I might get caught. It is with some trepidation I do this.

I say to the Senator from Delaware, first, in the spirit of full disclosure, I am sure he does not know this. I would plead guilty. I am the lobbyist in the Nixon administration who was responsible for convincing the Congress to create Amtrak in the first place. I worked as a head lobbyist for John Volpe of the Department of Transportation. My final assignment in the Nixon administration was to convince the Congress to create Amtrak. In the process of convincing the Congress, I remember saying to the appropriate chairmen of the appropriate committees that Congress only has to subsidize Amtrak for a few years, that within 3 and certainly no more than 4, Amtrak would become a profitmaking corporation, stand alone, based on the projections that were then being made for the use of train service.

Then political reality set in after the bill was passed. The blessed Harley Staggers, late chairman of the House Commerce Committee, made it very clear that nothing would proceed unless a train servicing all of the junior

colleges in West Virginia was kept on. Indeed, the senior Senator from Montana, who was then the majority leader, made it clear that nothing would pass the Senate unless a train to Yellowstone in Montana was kept on.

Now, my question is this, Mr. President. I recognize fully that passenger transportation in the Eastern corridor—we abbreviate and say Boston to Washington—is a very intelligent use of the rails. I question, however, from personal experience, all of the rest of Amtrak's route structure. I ask the Senator from Delaware if he has any sense of whether or not trains are being kept on for those parts of the country where they have nostalgic value but not the kind of practical value that he has described in his own commute, daily, from Delaware.

Mr. BIDEN. Mr. President, I am happy to answer my colleague's question. Let me first say to him that one of the reasons why he is so well-respected in this institution, and he is on both sides of the aisle, is because he has such intellectual integrity and he is so straightforward. I assure you, my answers to this or other questions will not attempt to nor could they in any way cause you trepidation.

I must admit I did not know that the Senator was with Secretary Volpe at the time. It is just one more reason I admire you.

You did the right thing. Maybe the projections were not what they should have been. The Senator is correct. What happened was a number of Senators on both sides of the aisle—and Members of the House—who had some significant power said, we want you to run a train into a section of the country or a section of my State where we could not justify the cost that it would entail to run the train relative to the number of people it serviced. That actually happened.

What also happened was, we came along over the years and we finally told Amtrak that they, in fact, had to make some significant cuts, particularly the last 3 years. So they went out and they went after all those non-profitable routes. I will not say with certainty because I cannot say, I do not know, to the best of my knowledge, but all of the most egregiously costly routes that were maintained are gone now—gone, in the last 3 years. I cannot say to him I know that every route that continues to exist is fully justified if you use a cost-benefit ratio in terms of the number of people riding it versus the cost of maintaining the service.

Let me add one other point. I think the problem is not merely that one person gets on the train when you need 15 people to meet the cost of running the train. What we should do, and what we did in part with the landmark highway bill that we passed several years ago, the so-called ISTEA, we did what should have been done but did not quite take it far enough. We should have said to the State of West Virginia, or the State of Delaware, Montana or

Utah, we should have said what ISTEA started. That is, we should say we have the transportation moneys, most of which are generated by the highway trust fund. Now, you in your State should be able to, after you meet the minimum-plus of your highway needs, you should be able to take some of your highway trust fund moneys if you choose, Governor, and State legislator, and you should be able to take that and say to Amtrak in West Virginia, "Look, it may be nostalgic, but it is important to us, and we are willing to put up our money to you, Amtrak, so that you, Amtrak, nationally, don't have to swallow the loss of maintaining a train that goes to every junior college," or whatever the example you gave was.

That should be a decision that the State should be able to make. Now, that State may say, "Look, we want to be able to connect those junior colleges. It is cheaper for us to add a lane of blacktop connecting those," or, "We want to put on a bus that is maintained by the West Virginia Department of Transportation," or whatever. And so the one piece that I don't think my colleague from Utah could have envisioned back in 1970, or thereabouts, was that you had to look at the whole transportation component. I think you did the right thing back then. But what we did not do about this and a lot of other things, like we just did on welfare—we have to give States more flexibility to be able to use their funds. What we do now is straitjacket them.

Senator ROTH and I have been pushing three things. In your State, Senator, you have, in addition to your State highway—I know you know this much better than I do, and I am not being solicitous. But for the purpose of people understanding our dialog here—your State, your Governor, your legislature gets, figuratively and literally speaking, a check for highways. Now, you get it in two or three different ways, sometimes, under the new highway bill. You get one that comes for interstate, you get one that comes—and then you get one for rural transportation. There is a section of the highway trust fund, the highway bill, the so-called ISTEA bill, that says if you don't want to build a highway to connect Provo to some small little town, then you can take some—only a small portion—of your highway trust fund money going to your State and you can buy buses—and this goes from the ridiculous to the sublime—or you can build bicycle paths or walking paths, but you can take some of those highway moneys.

But you are not allowed to take any of that money for inner-city rail transportation. It may be that you want to connect to Las Vegas, NV, to Salt Lake City because a lot of people go that route. That is a long way, by eastern standards, but not so long by western standards. You may say, instead of us building a highway to have the economic benefit that we anticipate—although I suspect that many in Salt

Lake would not want to be connected to Las Vegas, but I don't know.

Assuming that was the decision. Then it seems to me that you should be able to say, and the Governor of the State of Nevada should be able to say, "We want to take these highway trust funds and build a rail, and we want to have a train run this way. It is better for us, less damage to our environment," or whatever. You may say, "No, we want to build a highway."

So what the missing link here is, and what we are fighting so hard for is to get basically three things that will put Amtrak in the circumstance where they can be as you asserted in 1970 they would be in 3 years. Let me tick them off and I will stop and I will be happy to hear what my friend has to say.

One is to say, look, there are certain basic capital improvements that are needed in areas where we know there is a need, where we know there is a ridership, where we know there is the market to get this thing up to the point where it is running a surplus. No. 1. That relates to the Northeast corridor expansion—that is, electrifying and straightening out the old routes, et cetera, and buying these train sets. By the way, these train sets are also available for the west coast because there is a growing need, and the Governors in the States of Washington, Oregon, and California say they see how it would be profitable for them to have it available. So that is one thing we do.

The second thing we have to do, it seems to me, is say that in order to deal with this transportation component in the areas where we know the need exists, we should take one-half cent of a highway trust fund, which is now about 18 or 19 cents for a gasoline tax—take one-half cent and dedicate it to a trust fund for intercity rail service. That would generate \$600 million a year, one-half cent. Then we would be out of the business of us having to depend on direct appropriations. And by every estimate, that would maintain the entirety of Amtrak's national capital needs per year.

The third thing we should do, in my humble opinion, is we should not keep unprofitable routes on, making Amtrak have to swallow the cost of that. We know why it works that way—in order to get votes. You have to get 51 votes here for anything to happen. So we should say to the States, if you want Amtrak, where it is not profitable for them to send a train, pay them, just like you pay to build a highway, like you pay to build an airport, or for anything else. Here is how you can do that. We are going to allow you—you, the State—to have the flexibility of the funds that are available, one small portion of the funds you get, instead of building another highway. I am oversimplifying it—it costs \$200,000 a year to run this train through Montana to the ski resorts, which you say generates—I think \$30 million, the Governor said, a year. Now, Amtrak can make on its own \$100,000 of the

\$200,000. You have to come up with the rest.

Make a choice, Montana legislature, make a choice. Do you want to build an extra route or highway into Sun Valley, or do you want a train to continue to run? If you don't want to do it, fine, you don't have to do it. Amtrak shuts down that train. But it's flexibility, and it seems to me it is consistent with a rational national transportation policy. We are then not telling the people of Utah that they have to spend money to build rail systems out there that they don't want, where, environmentally, practically, politically, substantively, it makes more sense to build a highway. Conversely, we are saying to Amtrak, you no longer have to carry the burden of training the system to maintain systems that don't meet the economic imperative of breaking even. And so that is what this whole game plan was supposed to be.

My complaint about this bill is, I say to my friend from Utah, before I yield to him, is that they have taken one of the legs out of that three-legged stool—the only way Amtrak is going to make it. It is a catch-22 situation. I think the Senator may have gone with some of us over to the Library of Congress the other night where Joseph Heller, the author of "Catch-22," was one of the readers. And TRENT LOTT, the majority leader, read a passage from a great book series that they are doing. It was quite an interesting event. I hadn't read "Catch-22" since college. Hearing Heller get up there and read a passage of "Catch-22," and watching him laugh at his own passages, was kind of infectious. But this is kind of a catch-22 for Amtrak. We need your vote. We need the vote from the Senators from Texas and the Senators from Montana and the Senators from Arkansas. But if you don't have a train going into your State, then you say—and I am not being critical—you say, well, why should I vote for this? Why should I vote for this? So what Amtrak has done up until now is they have been caught in that catch-22. They know if they don't keep the train going—I will pick somebody deceased, Harley Staggers—if we don't keep the train going for Harley Staggers into his district in West Virginia, they ain't going to get the money. They are not going to get enough votes to get it passed.

So we blame Amtrak for continuing to run on unprofitable routes. But Amtrak management sits there and says, "I know if I don't run that train, we don't get to run them anywhere." And so the bottom line, for me, is that this particular bill takes out one of the three pieces of the equation that are needed to make the assertion of the Senator from Utah in 1970, in fact, true. I think the three things that need to be done—and I will not repeat them—are things that meet the test of equity, fairness, national interest, and parochial needs, without the Federal Government demanding any State do anything they do not want to do.

I would be happy—I see my friend—to yield to him.

(Mr. THOMAS assumed the chair.)

Mr. BENNETT. I thank my friend from Delaware.

Mr. President, I would like to comment with the understanding that my friend retains the floor.

First, let me share a bit of history that I am sure my friend from Delaware will find instructive in this. What the Senator from Delaware has described was, in fact, in the original legislation where we had the opportunity to say to the Governor, "If you want this to continue in your State, you have to pay x amount." And that is how we got rid of a lot of the trackage.

I remember one New England Governor, whose State will remain nameless, who complained bitterly that certain trains had to stay. We realized that quickly it was a matter of State pride. And we ran the numbers. We sat down with him, and said, "Governor, for the amount of money you have to pay you could afford to pick up every one of the passengers that get on this train at his or her home in a limousine and drive them to any location in the United States cheaper than you could keep this train." When he looked at it, he said, "You mean the average boarding of that train is 3 per day?" We said, "Yes. You are trying to hang onto this train as a matter of State pride. That is what it is."

That is how we got rid of a very large chunk of the original passenger network. And that is what led us to believe in 1970 that we could, in fact, rationalize this network to the point where it would perhaps become profitable. But a number of things happened in the meantime. I have had people say to me that the airplane has destroyed passenger services in the United States—rail passenger service—as people prefer to take the airplane. That is not true. It was the Interstate Highway System that destroyed the rail passenger service in this country. Something like 98 percent of intercity trips in this country are still done on the Interstate Highway System. When we built the Interstate Highway System we sounded the death knell for rail passenger service except in congested corridors like Washington to Boston where it is just as fast to take the train as it would be to fly.

I had an office in New York as well as an office in Washington when I was in private business. I found that I could get to downtown New York just as fast on a metroliner as I could by taking the plane to LaGuardia and then fighting the traffic with a taxicab.

So I assure the Senator from Delaware that I am in favor of doing what I can to see to it that intelligent rail passenger service continues in the heavily congested corridors, primarily the Northeast corridor.

So all I would say to my friend is that I was unaware of the details of this bill until I heard him speaking. I will now examine it. I assure him that

my vote will not be based on whether or not there is a train running through Utah but on what makes good national policy sense. That does not mean that I will vote with the Senator. That just means that I will look at the issue in the way I would not have had I not heard him speak on it.

I will make one comment on the discussion he has had with respect to the National Highway Trust Fund. Again, during my years in the Department of Transportation, I was getting intimately acquainted with the National Highway Trust Fund. And one of the other programs that I was responsible for convincing the Congress to pass in that same period was the airport and airways trust fund. We naively believed when we got that bill through both Houses of Congress and down to President Nixon's desk that we had solved the funding crisis for the FAA for perpetuity. Now there is a trust fund set up to be funded by ticket revenues and takeoff and landing charges at the various airports that would see to it that the FAA never need compete with any other agency for Federal funds. It had its own trust fund and its own source of funding.

Well, Mr. President, then came along the unified budget. I do not know which President it was that did it. I am afraid if I checked it that I would discover that it was probably a Republican. But the fact is that the highway trust fund always runs a surplus. The funds are subjected to appropriations, and the money to build our highway infrastructure is always constrained by political decisions made on this floor and at the other end of the Capitol. And the people who run the Federal Highway Administration can no longer, as it was envisioned that they would when President Eisenhower worked to create it, depend on a steady source of income for their fund. Neither can the people who run the FAA depend on a steady source of funds because their fund is always overfunded and Presidents always dip into that fund. Now they say they do not dip into the fund. They use the mechanisms of the unified budget to underappropriate from the fund so the money in paper is still there but in fact it is never spent.

I say to the Senator that, if he created a trust fund for rail, he would discover that subsequent Presidents would do the same thing to that trust fund that they have done to the highway trust fund and the airport and airways trust fund, and every other fund. They would render it, frankly, a dead letter.

If we were to spend the amount of money—to conclude this on the airport and airways trust fund—on the airport and airways trust fund actually on airports and airways right up to the full amount that comes into the trust fund every year, we wouldn't have the current problems that we have.

Not to delay the debate, but my friend enjoys a good anecdote. So I will leave him with this as I leave the floor.

In a discussion about computer systems and their vulnerability to hackers getting into computer systems and having access to information that they do not have, the expert who was running that discussion said, "All parts of the Government are vulnerable. The hackers can get into anything—the Pentagon, the Social Security files, anything—with one exception; and, that is the FAA computer system running our air traffic control system. The reason it is not vulnerable to a hacker is that it is so obsolete and so ancient that no amount of modern computer activity can get into that."

So I share that with my friend and indicate to him that a trust fund might not be the answer to his problem. I assure the Senator that I will now look at this bill in a new light.

Mr. BIDEN. Mr. President, I realize I still have the floor. A number of people want to speak. Before my colleague leaves the floor, let me say that one of the things that I know he has knowledge about is how so much has changed in the last 30 years. And that is that we had plenty of room to expand with airports in certain areas. We do not have that same flexibility now. We had the ability to expand the highways in certain areas. We do not have that now. He may be right that this trust fund might in fact meet the same fate that he suggested the others had. But the bottom line is that I am a lot better off with this than I am with any other alternative that I can think of. I think that is fair. I thank him. I know he sincerely means it when he says he will listen. And I thank him very much for that. I thank my friend from Oregon. He indicated that he might have a question. I yield for a question.

Mr. WYDEN. Mr. President, I thank the Senator from Delaware for yielding.

I want to discuss briefly the Amtrak issue with him, and in effect pose the question that I am having to wrestle with at home, and your sense of how you handle it. I have been both as a Member of the House and in the Senate a member of the Commerce Committee a very strong supporter of Amtrak. I think that it is important to have a national rail program. It is important policy for our country. I have been in support of the Senator from Delaware. In fact, I remember, as the Senator from Delaware does, your Governor, our former colleague. He called me a bit ago in terms of the funding formula that we all wanted. And I was in strong support of it at that time because I think it is important that the east coast of the United States have good rail service. But I tell my friend that because of what I have seen with Amtrak in the last few months in terms of their handling of the Pioneer, which is a run that serves rural Oregon—it also serves Idaho and Wyoming, and the rural west—that it leaves me very troubled.

I want to just take a quick minute and tell the Senator my concern.

My concern is that the new philosophy in terms of Amtrak is essentially to tell people I represent in rural eastern Oregon you are supposed to put up your hard-earned tax dollars today to support the development of all these runs on the east coast of the United States, in densely populated areas, and then maybe if those runs are exceptionally profitable we will come back and one day have rural Oregon get served with Amtrak service. My constituents are very exasperated by this.

I had a community forum in Hermiston, OR, on this, and Amtrak officials came. Now, this is not the Senator from Oregon. These are Amtrak officials. And they told the community: We have given you lousy service. In fact, people don't even know when the train is going to show up. That is kind of the joke. There has been absolutely no promotion, and there has been absolutely no investment in infrastructure.

Now, what our communities have said—and I think this is a reasonable proposition—is that what they would like to have is 1 year to get the State governments out in the West and local governments and the Federal Government together to try to come up with a new cost-effective strategy to keep that Pioneer serving rural Oregon open. They did not say the Federal Government is supposed to write out a check today for everything. They said give us a year in order to try to have a new partnership that acknowledges what the Senator from Delaware has correctly said, which is that times really have changed. We understand that. And so, give our communities and our staffs 1 year to try to come up with a new plan, and the Amtrak officials, who very much like this Senator to vote for their budget covering east coast lines, will not give our part of the country, rural Oregon, a 1-year deferral to try to work it out.

I would just close this by asking my friend from Delaware, if the Senator were in front of a community meeting in rural Oregon where those folks are being asked to support the lines in the East and they are being told after Amtrak admits that there has not been any service, there has not been any promotion, there has not been any investment, that they still cannot have a year for self-help to come back. What would the Senator tell those folks in that community? I say this out of friendship to the Senator and as one who voted for the Senator's request.

Mr. BIDEN. I understand. Mr. President, let me respond by saying that that is an incredibly difficult position for the Senator from Oregon to be placed in.

What I would try to do is explain to my constituency in eastern Oregon what the facts are. I would point out to them that the Amtrak officials who went back from that meeting and met with the Amtrak board said, you know, we should keep this going for another year to give them a chance to work

this out, and were met with a response that said, if we do not cut 10 more routes and cut out another \$1.5 million or \$2.6 million, whatever the number may be, Mr. WOLF, the chairman of the committee over on the House side, is going to cut everything out, because he is going to turn to us and say that Amtrak is doing what the Senator from Utah has said. Amtrak is continuing to put money into a line that costs money. And we have run out of runway. We, the Amtrak management, have run out of runway.

Then I would say to them that Amtrak's inability to give you another year is not related to what they really want to do. The truth of the matter is, Amtrak knows that their ultimate future lies in a national rail system—not a Northeast rail system, but a national rail system—and the reason it does is that we are going to, over the next 30 years, have increases in population and shifts in population around this country that cannot be accommodated merely by building more airports and highways. So for every day that we grow older as a country, the necessity for extending rail as a mode of transportation increases exponentially.

Then I would say to them that we had a problem back in 1934 and 1935 and 1936 when all those Eastern Senators and their constituency said, why in God's name are we paying to build those dams out there in the West? Why are we doing that? I do not understand that. I am taking my hard-earned tax dollars to build a dam on the Columbia River, or on the whatever river, and I do not know eastern Oregon well enough to cite a specific dam, if it does affect eastern Oregon. And I would say what happened then was somebody stood up and said, look, this is in the national interest.

Now, if we spend the billions of dollars to build those dams out West, if we spend the billions of dollars to do those things, what we will eventually do is our economy will grow in the East as well. We will benefit, but you are not going to see it for a day, a week, a year, 10 years, a decade. It may take several decades for that to be seen. And that is the hardest thing to convince any constituency that understandably is aggrieved and understandably has need for a service and has money being taken out of their pockets for something they do not see develop quickly.

The last thing I would say to them is that those who are pushing the hardest to continue to fund Amtrak are the people who support you the most, who are the people who are saying, we should give you a year and we should give you more than that, we should give you flexibility to be able to work out compacts with the other States in the region in order to be able to use other moneys that are available to you to keep the Pioneer running.

However, I do not in any way suggest that it is an easy sell. We are a nation, whether we are in the East, West, South or North, that is very much ac-

customed to and seeks an instant answer to a larger problem. My experience has not been in eastern Oregon, although I have been there once at a major political event, but my experience has been that when one explains in honest terms to your constituency the overall benefit that will accrue to them, in fact, sometimes they are willing to forbear them not having movement immediately.

But I certainly appreciate the Senator's problem. Let me tell you something that happened to me recently. I will not mention the Senator. I got a call from the president of Amtrak saying, "I don't know what to do. One of the States that we need help from is telling us that they want to keep their particular train going in their State. These two Senators have said basically, if you don't continue to keep this train moving, we are not going to be willing to vote for the things that need to be done," whether it was the half-cent gas tax, whether it was the use of rural funds, or whether it was the direct funding. And, he says, "Then I got a call from a major political figure who holds significant office beyond Senator here in this body, saying, if you continue to fund that train which is not making money, I will not be willing to support Amtrak's long-term needs."

It is really a catch-22 circumstance. That is why I wish we could all basically say time out, time out for a couple of years.

Let us explain two things. Unless you get the Northeast corridor up and running with the new train sets, you have no section of the system that is going to be generating a profit. Unless you provide more flexibility to the States to be able to kick in and work in compacts—you helped me in the compact amendment we had last year.

Mr. WYDEN. Right.

Mr. BIDEN. With no compacts, we are not going to be able to run certain lines. And unless we provide an alternative source of revenue for capital investment, we are not going to be able to maintain the system.

So why don't we look at transportation needs as a whole? That is why this is so debilitating. I will yield the floor—

Mr. WYDEN. Will the Senator yield just one second more? I will be very brief.

Mr. BIDEN. Surely.

Mr. WYDEN. The Senator's case would be logical, in many respects, to my constituents, if my constituents were not acknowledging there does need to be change. The Senator mentioned the dams in Bonneville. We are now reinventing Bonneville. We have all our Governors out, trying to set about to adopt practices that relate to the next century.

The same is true in the Amtrak area. But what would not make sense to my constituents is to say, "Look, we are going to slam the door on you. We are not going to give you the chance to try

to change, to have local communities do more, to have States do more, to be cost effective. We are just going to shut the door on you and, instead, adopt what sounds almost like supply-side transportation policy, which is have the east coast of the United States make lots of money on their runs and presumably some day some of it may trickle down."

I know the Senator does not intend that, but I want him to understand I intend to work closely with him. I am a supporter of Amtrak and supporter of a national rail system. But it is getting harder and harder to explain to folks in rural Oregon how they are supposed to wait, they are supposed to be cut off, when they are committed to change. The citizens of my region are saying, "You bet, it is different now than it was 30 years ago, and we are not being given the chance to change."

Mr. BIDEN. I say to my friend from Oregon, I truly do understand that. At the beginning of my comments, which started some time ago, I started off by saying that the more things change the more they remain the same. I cited my experience as a county councilman dealing with bus service in our most populous county. Some of my friends said it had to be totally self-sufficient. So the bus service was put in the position of having to cut routes that were not, in fact, profitable. As they cut routes that were not profitable, exponentially ridership dropped off. The more they cut one route, twice as many riders dropped off because fewer options were available because of transit changes.

Once you start down that road, you are headed for the demise of the system. What I am saying to the Senator is that this is only one of the three pieces of effort we have to have underway. I am suggesting that I, personally, and I suspect everyone who supports Amtrak, understands and appreciates that it is in everybody's best interests if eastern Oregon has access, if eastern Oregon has the Pioneer. The more you invest, the more ridership you generate. But I think we put an artificial timeframe on Amtrak and a standard, a bar, so high they cannot possibly meet it.

I see my colleagues are standing on the floor here. Before I yield to the chairman of the subcommittee and the ranking member, I would like to acknowledge, because he asked for a couple of minutes and I will let the ranking member conclude when that should occur, but the man who, in fact, wrote the book about the megalopolis, I mean literally, not figuratively, literally, literally the guy who wrote the book is the senior Senator from Rhode Island. I say to my friend from New Jersey—he asked whether or not at some point, shortly, we would be willing to yield him 2 minutes. But I will yield the floor and let the chairman make the decision.

Mr. LAUTENBERG. Mr. President, I ask recognition from the Chair.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. I will be happy, in a moment, to yield to whomever the Chair recognizes. But we are getting lots of inquiries because I know that there is a request to have a rollcall vote. That has not yet been propounded. In fairness to our colleagues who have work to do, as everyone here on the floor has, we started this debate shortly after 2 o'clock this afternoon, and I think in fairness it would be a good idea if I could ask the Senator from Delaware how long the Senator from Delaware thinks the debate might go? I wonder if the Senator from Delaware would answer that question?

If the Senator from Delaware could answer the question as to how much longer he needs? Obviously, he has as much time as he requires. There is a request for a rollcall vote I know.

Mr. BIDEN. Mr. President, in response to my friend's question, and in response to his counsel, I will seek no more time. I, frankly, was going to attempt a filibuster on this bill but I think—I am not being facetious when I say this—the wisdom of the chairman is correct. I probably would end up no better off, even if I succeed, in terms of what would come out of a continuing resolution.

But I will tell the chairman, although I am not going to pursue any strategy other than voting "no" on this legislation and on a continuing resolution, I am hoping to convince some of our colleagues, notwithstanding the fact we will have passed this legislation today, and I expect it will pass, that we get a supplemental to, in fact, give us an opportunity to work out things we are working out with the Senator from Oregon. But I do not seek recognition beyond voting "yes" or "no" when the time comes.

Mr. LAUTENBERG. I thank the Senator very much. Mr. President, I wonder if I might yield to the distinguished Senator from Rhode Island, and I ask unanimous consent I be able to yield up to 3 minutes or 4 minutes, as the Senator needs, and still retain the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Rhode Island.

Mr. PELL. Mr. President, my purpose for rising was to congratulate and thank the Senator from Delaware for underlining this point. Those of us living on the east coast in the corridor have it as part of our lives. It has been in my own life. I know what it means to many millions of people.

The book to which he referred, which was written about 30 years ago on this subject, is still pretty well current, because in this 30 years so little progress has truly been made. I look forward to the day, while I may not be here, but I look forward to the day in the not too distant future where we will have high-speed railroads, really high speeds, as our friends in Europe have, speeding around the country to the different cities of our great land.

In this regard, I am struck by the number of States that are traversed by the high-speed railroad. And, from a political viewpoint for both parties, about a fifth of the electoral votes in the United States are traversed by the high-speed railroad. I hope that will help spur on support.

I have some regrets about retiring myself. I look forward to visiting Washington in the years to come on a high-speed railroad.

I thank the Chair.

Mr. LAUTENBERG addressed the Chair.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, by agreement with our colleagues on the Republican side, I now ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Is there further debate? If there is no further debate, the question is on agreeing to the conference report accompanying H.R. 3675, the Transportation appropriations bill for fiscal year 1997. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from New Hampshire [Mr. GREGG] is necessarily absent.

The PRESIDING OFFICER (Mr. SMITH). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 85, nays 14, as follows:

[Rollcall Vote No. 294 Leg.]

YEAS—85

Abraham	Glenn	McCain
Akaka	Gorton	McConnell
Ashcroft	Graham	Mikulski
Baucus	Gramm	Moseley-Braun
Bennett	Grams	Moynihan
Bond	Grassley	Murkowski
Boxer	Harkin	Murray
Bradley	Hatch	Nickles
Breaux	Hatfield	Nunn
Bumpers	Heflin	Pell
Burns	Helms	Pressler
Campbell	Hollings	Pryor
Chafee	Hutchison	Robb
Coats	Inhofe	Rockefeller
Cochran	Inouye	Santorum
Cohen	Jeffords	Sarbanes
Conrad	Johnston	Shelby
Coverdell	Kassebaum	Simon
Craig	Kempthorne	Simpson
D'Amato	Kennedy	Snowe
Daschle	Kerrey	Stevens
DeWine	Kerry	Thomas
Domenici	Kohl	Thompson
Faircloth	Lautenberg	Thurmond
Feingold	Leahy	Warner
Feinstein	Levin	Wellstone
Ford	Lott	Wyden
Frahm	Lugar	
Frist	Mack	

NAYS—14

Biden	Dodd	Reid
Bingaman	Dorgan	Roth
Brown	Exon	Smith
Bryan	Kyl	Specter
Byrd	Lieberman	

NOT VOTING—1

Gregg

The conference report was agreed to.

Mr. LOTT. Mr. President, I move to reconsider the vote.

Mr. HATFIELD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER OF PROCEDURE

Mr. LOTT. Mr. President, for the information of all Senators, there will be no further votes during today's session.

The Senate will now begin consideration, though, of S. 39, the Magnuson Fisheries Act, under a previous unanimous-consent agreement reached in August. Any votes ordered with respect to that bill will be stacked to occur at 11 a.m. on Thursday.

Also, during the session of the Senate on Thursday, I expect the Senate to consider the Merchant Marine Act, H.R. 1350, possibly the pipeline safety bill, and any other calendar items that may be cleared for action. The Senate may also consider available appropriations bills conference reports, if agreements can be reached with respect to amendments in order on those.

I know a lot of work has been put into this Magnuson fisheries bill. I think it is a very good piece of legislation, and it is very important for fisheries and conservation all over our country—the Northeast, Northwest, the Gulf of Mexico. I see the Senator from Massachusetts here. He has worked on it, and, obviously, the Senators from Washington, and Senator STEVENS, of course, has been very instrumental in this legislation. I commend one and all that have been involved in it.

It would have been a real travesty if we would have left this very important piece of fisheries legislation on the table. I hope you can get it done tonight. I assume there could be as many as three votes tomorrow. I assume most of the amendments have been worked out, and I know you will continue to work on that.

I yield the floor.

SUSTAINABLE FISHERIES ACT

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 39) to amend the Magnuson Fishery Conservation and Management Act to authorize appropriations, to provide for sustainable fisheries, and for other purposes.

The Senate proceeded to consider the bill, which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) *SHORT TITLE.*—This Act may be cited as the "Sustainable Fisheries Act".

(b) *TABLE OF CONTENTS.*—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—CONSERVATION AND MANAGEMENT

Sec. 101. Amendment of the Magnuson Fishery Conservation and Management Act.

Sec. 102. Findings; purposes; policy.

Sec. 103. Definitions.

Sec. 104. Authorization of appropriations.

Sec. 105. Highly migratory species.

Sec. 106. Foreign fishing and international fishery agreements.

Sec. 107. National standards.

Sec. 108. Regional Fishery Management Councils.

Sec. 109. Fishery management plans.

Sec. 110. Action by the Secretary.

Sec. 111. Other requirements and authority.

Sec. 112. Pacific community fisheries.

Sec. 113. State jurisdiction.

Sec. 114. Prohibited acts.

Sec. 115. Civil penalties and permit sanctions; rebuttable presumptions

Sec. 116. Enforcement.

Sec. 117. North Pacific and Northwest Atlantic Ocean Fisheries.

Sec. 118. Transition to sustainable fisheries.

TITLE II—FISHERY MONITORING AND RESEARCH

Sec. 201. Change of title.

Sec. 202. Registration and data management.

Sec. 203. Data collection.

Sec. 204. Observers.

Sec. 205. Fisheries research.

Sec. 206. Incidental harvest research.

Sec. 207. Miscellaneous research.

Sec. 208. Study of contribution of bycatch to charitable organizations.

Sec. 209. Study of identification methods for harvest stocks.

Sec. 210. Clerical amendments.

TITLE III—FISHERIES FINANCING

Sec. 301. Short title.

Sec. 302. Fisheries financing and capacity reduction.

Sec. 303. Fisheries loan guarantee reform.

TITLE IV—MARINE FISHERY STATUTE RE-AUTHORIZATIONS

Sec. 401. Marine fish program authorization of appropriations.

Sec. 402. Interjurisdictional Fisheries Act amendments.

Sec. 403. Anadromous fisheries amendments.

Sec. 404. Atlantic Coastal Cooperative Management Act amendments.

Sec. 405. Technical amendments to Maritime Boundary Agreement.

TITLE I—CONSERVATION AND MANAGEMENT

SEC. 101. AMENDMENT OF MAGNUSON FISHERY CONSERVATION AND MANAGEMENT ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

SEC. 102. FINDINGS; PURPOSES; POLICY.

Section 2 (16 U.S.C. 1801) is amended—

(1) by striking subsection (a)(2) and inserting the following:

“(2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a consequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.”;

(2) by inserting “to facilitate long-term protection of essential fish habitats,” in subsection (a)(6) after “conservation,”;

(3) by adding at the end of subsection (a) the following:

“(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

“(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fisheries resources important in sustaining their economic growth.”;

(4) by striking “and” after the semicolon at the end of subsection (b)(5);

(5) by striking “development.” in subsection (b)(6) and inserting “development in a non-wasteful manner; and”;

(6) by adding at the end of subsection (b) the following:

“(7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.”;

(7) by inserting “minimize bycatch and” after “practical measures that” in subsection (c)(3);

(8) striking “and” at the end of paragraph (c)(5);

(9) striking the period at the end of paragraph (c)(6) and inserting “; and”;

(10) adding at the end a new paragraph as follows:

“(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.”.

SEC. 103. DEFINITIONS.

Section 3 (16 U.S.C. 1802) is amended—

(1) by redesignating paragraphs (2) through (32) as paragraphs (4) through (34), respectively, and inserting after paragraph (1) the following:

“(2) The term ‘bycatch’ means fish which are harvested by a fishing vessel, but which are not sold or kept for personal use, and includes economic discards and regulatory discards but does not include fish caught and released alive that are the target species of recreational fishing under catch and release programs.

“(3) The term ‘commercial fishing’ means fishing in which the fish harvested, either in whole or in part, enter commerce through sale, barter or trade.”;

(2) in paragraph (6) (as redesignated)—

(A) by striking “COELENTERATA” from the heading of the list of corals and inserting “CNIDARIA”; and

(B) in the list appearing under the heading “CRUSTACEA”, by striking “Deep-sea Red Crab—Geryon quinque-dens” and inserting “Deep-sea Red Crab—Chaceon quinque-dens”;

(3) by redesignating paragraphs (8) through (34) (as redesignated) as paragraphs (10) through (36), respectively, and inserting after paragraph (7) (as redesignated) the following:

“(8) The term ‘economic discards’ means fish which are the target of a fishery, but which are not retained by a fishing vessel because they are of an undesirable size, sex, or quality, or for other economic reasons.”

“(9) The term ‘essential fish habitat’ means those waters and substrate necessary to fish for spawning, breeding, feeding or growth to maturity.”;

(4) by redesignating paragraphs (15) through (36) (as redesignated) as paragraphs (16) through (37), respectively, and inserting after paragraph (14) (as redesignated) the following:

“(15) The term ‘fishing community’ means a community which is substantially dependent on the harvest of fishery resources to meet social and economic needs, and includes fishing vessel owners, operators and crew and United States

fish processors that are based in such community.”;

(5) by redesignating paragraphs (20) through (37) (as redesignated) as paragraphs (21) through (38), respectively, and inserting after paragraph (19) (as redesignated) the following:

“(20) The term ‘individual fishing quota’ means a revocable Federal permit under a limited access system to harvest a quantity of fish that is expressed by a unit or units representing a percentage of the total allowable catch of a fishery that may be received or held for exclusive use by a person.”;

(6) by striking “of one and one-half miles” in paragraph (22) (as redesignated) and inserting “of two and one-half kilometers”;

(7) by striking paragraph (27), as redesignated, and inserting the following:

“(27) The term ‘optimum’, with respect to the yield from a fishery, means the amount of fish which—

“(A) will provide the greatest overall benefit to the Nation, particularly with respect to food production and recreational opportunities, and taking into account the protection of marine ecosystems;

“(B) is prescribed on the basis of the maximum sustainable yield from the fishery, as reduced by any relevant social, economic, or ecological factor; and

“(C) in the case of an overfished fishery, provides for rebuilding to a level consistent with producing the maximum sustainable yield in such fishery.”;

(8) by redesignating paragraphs (28) through (38) (as redesignated) as paragraphs (30) through (40), respectively, and inserting after paragraph (27) (as redesignated) the following:

“(28) The terms ‘overfishing’ and ‘overfished’ mean a rate or level of fishing mortality that jeopardizes the capacity of a fishery to produce the maximum sustainable yield on a continuing basis.”;

“(29) The term ‘Pacific Insular Area’ means American Samoa, Guam, the Northern Mariana Islands, Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Wake Island, or Palmyra Atoll, as applicable, and includes all islands and reefs appurtenant to such island, reef, or atoll.

(9) by redesignating paragraphs (31) through (40) (as redesignated) as paragraphs (33) through (42), respectively, and inserting after paragraph (30) (as redesignated) the following:

“(31) The term ‘recreational fishing’ means fishing for sport or pleasure.

“(32) The term ‘regulatory discards’ means fish caught in a fishery which fishermen are required by regulation to discard whenever caught, or are required by regulation to retain but not sell.”;

(10) by redesignating paragraphs (34) through (42) (as redesignated) as paragraphs (35) through (43), respectively, and inserting after paragraph (33) (as redesignated) the following:

“(34) The term ‘special areas’ means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, the term refers to those areas east of the maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of Russia is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.”;

(11) by striking “for which a fishery management plan prepared under title III or a preliminary fishery management plan prepared under section 201(h) has been implemented” in paragraph (42) (as redesignated) and inserting “regulated under this Act”;

(12) by redesignating paragraph (43), as redesignated, as paragraph (44), and inserting after paragraph (42) the following:

“(43) The term ‘vessel subject to the jurisdiction of the United States’ has the same meaning

such term has in section 3(c) of the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1903(c))."; and

(13) by redesignating paragraph (33) as paragraph (45).

SEC. 104. AUTHORIZATION OF APPROPRIATIONS.

The Act is amended by inserting after section 3 (16 U.S.C. 1802) the following:

"SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to the Secretary for the purposes of carrying out the provisions of this Act, not to exceed the following sums (of which not less than 10 percent in each fiscal year shall be used for enforcement activities):

"(1) \$147,000,000 for fiscal year 1996;

"(2) \$151,000,000 for fiscal year 1997;

"(3) \$155,000,000 for fiscal year 1998;

"(4) \$159,000,000 for fiscal year 1999; and

"(5) \$163,000,000 for fiscal year 2000."

SEC. 105. HIGHLY MIGRATORY SPECIES.

Section 102 (16 U.S.C. 1812) is amended by striking "promoting the objective of optimum utilization" and inserting "shall promote the achievement of optimum yield".

SEC. 106. FOREIGN FISHING AND INTERNATIONAL FISHERY AGREEMENTS.

(a) **AUTHORITY TO OPERATE UNDER TRANSHIPMENT PERMITS.**—Section 201(a)(1) (16 U.S.C. 1821(a)(1)) is amended to read as follows:

"(1) is authorized under subsections (b) or (c) or section 204(e), under a permit issued under section 204(d);"

(b) **INTERNATIONAL FISHERY AGREEMENTS.**—Section 202 (16 U.S.C. 1822) is amended—

(1) by adding at the end of subsection (c) "or section 204(e)";

(2) by adding at the end the following:

"(h) **BYCATCH REDUCTION AGREEMENTS.**—(1) The Secretary of State, in cooperation with the Secretary, shall seek to secure an international agreement to establish standards and measures for bycatch reduction that are comparable to the standards and measures applicable to United States fishermen for such purposes in any fishery regulated pursuant to this Act for which the Secretary, in consultation with the Secretary of State, determines that such an international agreement is necessary and appropriate.

"(2) An international agreement negotiated under this subsection shall be—

"(A) consistent with the policies and purposes of this Act; and

"(B) approved by Congress in the manner established in section 203 for approval of a governing international fishery agreement.

"(3) Not later than January 1, 1997, and annually thereafter, the Secretary, in consultation with the Secretary of State, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a report describing actions taken under this subsection and section 205(a)(5)."

(c) **PERIOD FOR CONGRESSIONAL REVIEW OF GOVERNING INTERNATIONAL FISHERY AGREEMENTS.**—Section 203 (16 U.S.C. 1823) is amended—

(1) in subsection (a) by striking "60 calendar days of continuous session of the Congress" and inserting "120 days (excluding any days in a period for which the Congress is adjourned sine die)";

(2) by striking subsection (c); and

(3) by redesignating subsection (d) as subsection (c).

(d) **TRANSHIPMENT PERMITS AND PACIFIC INSULAR AREA FISHING.**—Section 204 (16 U.S.C. 1824) is amended by adding at the end the following:

"(d) **TRANSHIPMENT PERMITS.**—

"(1) **AUTHORITY TO ISSUE PERMITS.**—The Secretary may issue a transshipment permit under this subsection which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish products at sea from a point within the bound-

aries of any State or the exclusive economic zone to a point outside the United States to any person who—

"(A) submits an application which is approved by the Secretary under paragraph (3); and

"(B) pays a fee imposed under paragraph (7).

"(2) **TRANSMITTAL.**—Upon receipt of an application for a permit under this subsection, the Secretary shall promptly transmit copies of the application to the Secretary of the department in which the Coast Guard is operating, any appropriate Council, and any interested State.

"(3) **APPROVAL OF APPLICATION.**—The Secretary may approve, with the concurrence of the appropriate Council, an application for a permit under this section if the Secretary determines that—

"(A) the transportation of fish products to be conducted under the permit, as described in the application, will be in the interest of the United States and will meet the applicable requirements of this Act;

"(B) the applicant will comply with the requirements described in section 201(c)(2) with respect to activities authorized by any permit issued pursuant to the application;

"(C) the applicant has established any bonds or financial assurances that may be required by the Secretary; and

"(D) no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated to the Secretary an interest in performing the transportation at fair and reasonable rates.

"(4) **WHOLE OR PARTIAL APPROVAL.**—The Secretary may approve all or any portion of an application under paragraph (3).

"(5) **FAILURE TO APPROVE APPLICATION.**—If the Secretary does not approve any portion of an application submitted under paragraph (1), the Secretary shall promptly inform the applicant and specify the reasons therefor.

"(6) **CONDITIONS AND RESTRICTIONS.**—The Secretary shall establish and include in each permit under this subsection conditions and restrictions which shall be complied with by the owner and operator of the vessel for which the permit is issued. The conditions and restrictions shall include the requirements, regulations, and restrictions set forth in subsection (b)(7).

"(7) **FEES.**—The Secretary shall collect a fee for each permit issued under this subsection, in an amount adequate to recover the costs incurred by the United States in issuing the permit.

"(e) **PACIFIC INSULAR AREAS.**—

"(1) At the request of and with the concurrence of the Governor of the applicable Pacific Insular Area, the Secretary of State in concurrence with the Secretary of Commerce, and the Western Pacific Council, may negotiate and enter into a Pacific Insular Area Fishery Agreement (hereinafter in this subsection referred to as a 'Pacific Fishery Agreement') to authorize foreign fishing within the exclusive economic zone adjacent to such Pacific Insular Area.

"(2) In the case of a Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands, the Secretary of State, with the concurrence of the Secretary of Commerce and the Western Pacific Council, may negotiate and enter into a Pacific Fishery Agreement to authorize foreign fishing within the exclusive economic zone adjacent to such an area.

"(3) In the case of American Samoa, Guam, or the Northern Mariana Islands, the Secretary of State shall not negotiate a Pacific Fishery Agreement to authorize foreign fishing within the exclusive economic zone adjacent to such a Pacific Insular Area without consultation with and the concurrence of the Governor of the applicable Pacific Insular Area.

"(4) A Pacific Fishery Agreement shall not be considered to supersede any governing international fishery agreement currently in effect

under this Act, but shall provide an alternative basis for the conduct of foreign fishing within the exclusive economic zone adjacent to Pacific Insular Areas.

"(5) A Pacific Fishery Agreement shall not be entered into if it is determined by the Governor of the appropriate Pacific Insular Area, the Secretary, or the Western Pacific Council that such an agreement will adversely affect the fishing activities of the indigenous peoples of such Pacific Insular Area.

"(6) Foreign fishing authorized under a Pacific Fishery Agreement shall conform to the terms of such agreement establishing the conditions under which a permit is issued and held valid. These terms, at a minimum, shall require that a Pacific Fishery Agreement include provisions for a Western Pacific based observer program, annual determination of the quantity of fish that may be harvested, annual determination of fees, data collection and reporting systems, research plans, and monitoring and enforcement tools such as the Vessel Monitoring System (VMS) to ensure effective compliance with the provisions of the Pacific Fishery Agreement and any other terms and conditions deemed appropriate by the Secretary of State, in consultation with the Secretary, the Governor of the appropriate Pacific Insular Area, and the Western Pacific Council.

"(7) The Secretary of State may not negotiate a Pacific Fishery Agreement with a country that is in violation of a governing international fishery agreement in effect under this Act.

"(8) A Pacific Fishery Agreement shall be valid for a period not to exceed three years and shall become effective according to the procedure of section 203 of this Act.

"(9) Foreign Fishing under a Pacific Fishery Agreement shall not be subject to sections 201(d) through (f) and section 201(i) of this Act.

"(10) Prior to entering into a Pacific Fishery Agreement, the Western Pacific Council or the appropriate Governor shall develop a three-year plan detailing uses for funds to be collected by the Secretary pursuant to such agreement. Such plan shall include conservation goals and guidelines and prioritize planned conservation and management projects. In the case of American Samoa, Guam, and the Northern Mariana Islands, the appropriate Governor shall develop such a plan in consultation with the Western Pacific Council. In the case of other Pacific Insular Areas, the Western Pacific Council shall develop such a plan in consultation with the Secretary. If a Governor or the Western Pacific Council intends to renew a Pacific Fishery Agreement, a subsequent three-year plan shall be developed at the end of the second year of the existing three-year plan.

"(11) Fees established pursuant to a Pacific Fishery Agreement shall be paid to the Secretary by the owner or operator of any foreign fishing vessel for which a permit has been issued pursuant to this section. The prescription of such fees is not subject to 31 U.S.C. 9701. The amount of fees may exceed administrative costs and shall be reasonable, fair, and equitable to all participants in the fisheries.

"(12) Amounts collected by the Secretary from a Pacific Fishery Agreement for American Samoa, Guam, or the Northern Mariana Islands shall be deposited into the United States Treasury and then covered over to the Treasury of the Pacific Insular Area for which those funds were collected. After the transfer of such funds, the Governor of each appropriate Pacific Insular Area shall compensate:

"(A) the Western Pacific Council for mutually agreed upon administrative costs incurred relating to any Pacific Fishery Agreement of the respective Pacific Insular Area; and

"(B) the Secretary of State for mutually agreed upon travel expenses for no more than two federal representatives incurred as a direct result of complying with section 204(e)(1).

"(13) There is established in the United States Treasury a Western Pacific Sustainable Fisheries Fund into which amounts collected by the

Secretary from a Pacific Fisheries Agreement in any Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands shall be deposited. The Fund shall be made available, without appropriation or fiscal year limitation, by the Secretary to the Western Pacific Council, for the purpose of carrying out the provisions of this section.

“(14) Amounts used from this Fund to carry out the provisions of this section shall not diminish other funding received by the Western Pacific Council for the purpose of carrying out activities within the Western Pacific Council’s mandate other than Pacific Fisheries Agreements.

“(15) Amounts generated by Pacific Fishery Agreements in American Samoa, Guam, or the Northern Mariana Islands shall be used for purposes, as described in a three year conservation and management plan developed under paragraph (10), that have been determined by the Governors of the respective Pacific Insular Areas in consultation with the Western Pacific Council to contribute to fishery conservation and management in the respective Pacific Insular Area.

“(16) The Western Pacific Sustainable Fisheries Fund, shall be made available by the Secretary to the Western Pacific Council for purposes, as described in the three year conservation and management plan, that have been determined by the Western Pacific Council in consultation with the Secretary to contribute to fishery conservation and management in the Western Pacific Region. Travel costs of no more than two federal representatives, incurred by the Secretary of State as a direct result of complying with paragraph (2) shall be reimbursed from the Western Pacific Sustainable Fisheries Fund.

“(17) ‘Fishery conservation and management’ as used in paragraphs (15) and (16) includes but is not limited to:

“(A) An approved Western Pacific based observer program to be operated by the Secretary, subject to the approval of the Western Pacific Council, and in consultation with the Governor of the relevant Pacific Insular Area;

“(B) Marine and fisheries research, including but not limited to: data collection, analysis, evaluation, and reporting;

“(C) Conservation, education, and enforcement, including but not limited to: living marine resource, habitat monitoring and coastal studies;

“(D) Grants to the University of Hawaii for technical assistance projects in the United States Pacific Insular Areas and the Freely Associated States including but not limited to: Education and training in the development and implementation of sustainable marine resources development projects, scientific research, data collection and analysis, and conservation strategies;

“(E) Western Pacific Community-Based Demonstration Projects to foster and promote the management, conservation, and economic enhancement of the indigenous, traditional fishery practices of Western Pacific Communities.

“(18) Monies collected by the Secretary from a Pacific Fishery Agreement for a Pacific Insular Area may be allocated for other marine and coastal related uses by the government of each Pacific Insular Area or in the case of Pacific Insular Areas other than American Samoa, Guam, and the Northern Mariana Islands by the Western Pacific Council only after the costs of uses specified in paragraphs (6) and (17)(A) through (17)(E) under this title and the administrative costs of Pacific Fisheries Agreements have been met. The determination of when conservation and management and administrative costs have been met shall be made, in the case of American Samoa, Guam, and the Northern Mariana Islands by the Governor of the respective Pacific Insular Area with the concurrence of the Western Pacific Council, and in the case of any Pacific Insular Area other than American Samoa,

Guam, or the Northern Mariana Islands by the Western Pacific Council.

“(19) The Western Pacific Sustainable Fisheries Fund of the United States Treasury, shall be made available by the Secretary for the purpose of fisheries conservation and management in the State of Hawaii and the Western Pacific Region only after fisheries conservation and management needs in such Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands have been met as determined by the Western Pacific Council in accordance with its operational standards, policies, procedures, and program milestones.

“(20) In the case of American Samoa, Guam, or the Northern Mariana Islands, amounts received by the Secretary which are attributable to fines or penalties imposed under this Act, including such sums collected from the forfeiture and disposition or sale of property seized subject to its authority, will be covered over to the Treasury of the Pacific Island Area adjacent to the exclusive economic zone in which the violation occurred, after payment of direct costs of the enforcement action to other entities involved in such enforcement action. The Governor of the respective Pacific Insular Area may use such monies available under this paragraph for purposes other than fisheries conservation and management. In the case of violations occurring in the exclusive economic zone adjacent to a Pacific Insular Area other than American Samoa, Guam, and the Northern Mariana Islands, amounts received by the Secretary which are attributable to fines or penalties imposed under this Act, including such sums collected from the forfeiture and disposition or sale of property seized subject to its authority, will be covered over to the Western Pacific Sustainable Fisheries Fund of the United States Treasury to be used for conservation and management as described in paragraphs (6) and (17)(A) through (17)(E) or other related marine and coastal projects.”

(e) **IMPORT PROHIBITIONS.**—Section 205(a) (16 U.S.C. 1825(a)) is amended—

(1) by striking “or” at the end of paragraph (3);

(2) by inserting “or” after the semicolon at the end of paragraph (4); and

(3) by adding at the end the following:

“(5) he has been unable, within a reasonable period of time, to conclude with any foreign nation an international agreement to establish standards and measures for bycatch reduction under section 202(g).”

(f) **LARGE SCALE DRIFTNET FISHING.**—Section 206 (16 U.S.C. 1826) is amended—

(1) in subsection (e), by striking paragraphs (3) and (4), and redesignating paragraphs (5) and (6) as (3) and (4), respectively; and

(2) in subsection (f), by striking “(e)(6),” and inserting “(e)(4).”

SEC. 107. NATIONAL STANDARDS.

(a) Section 301(a)(5) (16 U.S.C. 1851(a)(5)) is amended by striking “promote” and inserting “consider”.

(b) Section 301(a) (16 U.S.C. 1851(a)) is amended by adding at the end thereof the following:

“(8) Conservation and management measures shall take into account the importance of the harvest of fishery resources to minimize, to the extent practicable, adverse economic impacts on, and provide for the sustained participation of, fishing communities; except that no such measure shall have economic allocation as its sole purpose.

“(9) Conservation and management measures shall, to the extent practicable, minimize bycatch and the mortality of bycatch which cannot be avoided.

“(10) Conservation and management measures shall promote the safety of human life at sea.”.

SEC. 108. REGIONAL FISHERY MANAGEMENT COUNCILS.

(a) Section 302(a) (16 U.S.C. 1852(a)) is amended—

(1) by inserting “(1)” after the subsection heading;

(2) by redesignating paragraphs (1) through (8) as subparagraphs (A) through (H), respectively;

(3) by striking “section 304(f)(3)” wherever it appears and inserting “paragraph (3)”;

(4) in paragraph (1)(B), as amended—

(A) by striking “and Virginia” and inserting “Virginia, and North Carolina”;

(B) by inserting “North Carolina, and” after “except”;

(C) by striking “19” and inserting “21”; and

(D) by striking “12” and inserting “13”; and

(5) by striking paragraph (1)(F), as redesignated, and inserting the following:

“(F) **PACIFIC COUNCIL.**—The Pacific Fishery Management Council shall consist of the States of California, Oregon, Washington, and Idaho and shall have authority over the fisheries in the Pacific Ocean seaward of such States. The Pacific Council shall have 14 voting members, including 8 appointed by the Secretary in accordance with subsection (b)(2) (at least one of whom shall be appointed from each such State), and including one appointed from an Indian tribe with Federally recognized fishing rights from California, Oregon, Washington, or Idaho in accordance with subsection (b)(5).”;

(6) by indenting the sentence at the end thereof and inserting “(2)” in front of “Each Council”; and

(7) by adding at the end the following:

“(3) The Secretary shall have authority over any highly migratory species fishery that is within the geographical area of authority of more than one of the following Councils: New England Council, Mid-Atlantic Council, South Atlantic Council, Gulf Council, and Caribbean Council.”.

(b) Section 302(b) (16 U.S.C. 1852(b)) is amended—

(1) by striking “subsection (b)(2)” in paragraph (1)(C) and inserting “paragraphs (2) and (5) of this subsection”;

(2) by inserting “full” before “consecutive” in the second sentence of paragraph (3); and

(3) by striking paragraph (5) and inserting after paragraph (4) the following:

“(5)(A) The Secretary shall appoint to the Pacific Fishery Management Council one representative of an Indian tribe with Federally recognized fishing rights from California, Oregon, Washington, or Idaho, from a list of not less than 3 individuals submitted by the tribal governments. The representative shall serve for a term of 3 years and may not serve more than 3 full consecutive terms. The Secretary, in consultation with the Secretary of the Interior and tribal governments, shall establish by regulation the procedure for submitting lists under this subparagraph.

“(B) Representation shall be rotated among the tribes taking into consideration—

“(i) the qualifications of the individuals on the list referred to in subparagraph (A),

“(ii) the various treaty rights of the Indian tribes involved and judicial cases that set forth how those rights are to be exercised, and

“(iii) the geographic area in which the tribe of the representative is located.

“(C) A vacancy occurring prior to the expiration of any term shall be filled in the same manner as set out in subparagraphs (A) and (B), except that the Secretary may use the list from which the vacating representative was chosen.

“(6) The Secretary may remove for cause any member of a Council required to be appointed by the Secretary in accordance with subsection (b)(2) if—

“(A) the Council concerned first recommends removal by not less than two-thirds of the members who are voting members and submits such removal recommendation to the Secretary in writing together with a statement of the basis for the recommendation; or

“(B) the member is found by the Secretary, after notice and an opportunity for a hearing in

accordance with section 554 of title 5, United States Code, to have committed an act prohibited by section 307(1)(O)."

(c) Section 302(d) (16 U.S.C. 1852(d)) is amended in the first sentence—

(1) by striking "each Council," and inserting "each Council who are required to be appointed by the Secretary and"; and

(2) by striking "shall, until January 1, 1992," and all that follows through "GS-16" and inserting "shall receive compensation at the daily rate for GS-15, step 7".

(d) Section 302(e) (16 U.S.C. 1852(e)) is amended by adding at the end the following:

"(5) At the request of any voting member of a Council, the Council shall hold a rollcall vote on any matter before the Council. The official minutes and other appropriate records of any Council meeting shall identify all rollcall votes held, the name of each voting member present during each rollcall vote, and how each member voted on each rollcall vote."

(e) Section 302(g) (16 U.S.C. 1852(g)) is amended by redesignating paragraph (4) as paragraph (5), and by inserting after paragraph (3) the following:

"(4) The Secretary shall establish advisory panels to assist in the collection and evaluation of information relevant to the development of any fishery management plan or plan amendment under section 304(g). Each advisory panel shall participate in all aspects of the development of the plan or amendment; be balanced in its representation of commercial, recreational, and other interests; and consist of not less than 7 individuals who are knowledgeable about the fishery for which the plan or amendment is developed, selected from among—

"(A) members of advisory committees and species working groups appointed under Acts implementing relevant international fishery agreements pertaining to highly migratory species; and

"(B) other interested persons."

(f) Section 302(h) (16 U.S.C. 1852(h)) is amended—

(1) by striking "section 304(f)(3)" in paragraphs (1) and (5) and inserting "subsection (a)(3)"; and

(2) by striking "section 204(b)(4)(C)," in paragraph (2) and inserting "section 204(b)(4)(C) or section 204(d)."

(g) Section 302 is amended further by striking subsection (i), and by redesignating subsections (j) and (k) as subsections (i) and (j), respectively.

(h) Section 302(i), as redesignated, is amended—

(1) by striking "of the Councils" in paragraph (1) and inserting "established under subsection (g)";

(2) by striking "of a Council:" in paragraph (2) and inserting "established under subsection (g)";

(3) in paragraph (2)(C)—

(A) by striking "Council's";

(B) by adding the following at the end: "The published agenda of the meeting may not be modified without public notice or within 14 days prior to the meeting date.";

(4) by adding the following at the end of paragraph (2)(D): "All written data submitted to a Council by an interested person shall include a statement of the source and date of such information. Any oral or written statement shall include a brief description of the background and interests of the person in the subject of the oral or written statement.";

(5) by striking paragraph (2)(E) and inserting:

"(E) Detailed minutes of each meeting of the Council shall be kept and shall contain a record of the persons present, a complete and accurate description of matters discussed and conclusions reached, and copies of all statements filed. The Chairman shall certify the accuracy of the minutes of each meeting and submit a copy thereof to the Secretary. The minutes shall be made available to any court of competent jurisdiction."; and

(6) in paragraph (2)(F)—

(A) by striking "by the Council" the first place it appears;

(B) by inserting "or the Secretary, as appropriate" after "of the Council"; and

(C) by striking "303(d)" each place it appears and inserting "402(b)".

(i) Section 302(j), as redesignated, is amended—

(1) by inserting "AND RECUSAL" after "INTEREST" in the subsection heading;

(2) by striking paragraph (1) and inserting the following:

"(1) For the purposes of this subsection—

"(A) the term 'affected individual' means an individual who—

"(i) is nominated by the Governor of a State for appointment as a voting member of a Council in accordance with subsection (b)(2); or

"(ii) is a voting member of a Council appointed under subsection (b)(2); and

"(B) the term 'designated official' means a person with expertise in Federal conflict-of-interest requirements who is designated by the Secretary, with the concurrence of a majority of the voting members of the Council, to attend Council meetings and make determinations under paragraph (7)(B).";

(3) by striking "(1)(A)" in paragraph (3)(A) and inserting "(1)(A)(i)";

(4) by striking "(1)(B) or (C)" in paragraph (3)(B) and inserting "(1)(A)(ii)";

(5) by striking "(1)(B) or (C)" in paragraph (4) and inserting "(1)(A)(ii)";

(6)(A) by striking "and" at the end of paragraph (5)(A);

(B) by striking the period at the end of paragraph (5)(B) and inserting a semicolon and the word "and"; and

(C) by adding at the end of paragraph (5) the following:

"(C) be kept on file by the Secretary for use in reviewing determinations under paragraph (7)(B) and made available for public inspection at reasonable hours.";

(7) by striking "(1)(B) or (C)" in paragraph (6) and inserting "(1)(A)(ii)";

(8) by redesignating paragraph (7) as (8) and inserting after paragraph (6) the following:

"(7)(A) After the effective date of regulations promulgated under subparagraph (F) of this paragraph, an affected individual required to disclose a financial interest under paragraph (2) shall not vote on a Council decision which would have a significant and predictable effect on such financial interest. A Council decision shall be considered to have a significant and predictable effect on a financial interest if there is a close causal link between the Council decision and an expected and disproportionate benefit, shared only by a minority of persons within the same fishery and gear type, to the financial interest. An affected individual who may not vote may participate in Council deliberations relating to the decision after notifying the Council of the voting recusal and identifying the financial interest that would be affected.

"(B) At the request of an affected individual, or upon the initiative of the appropriate designated official, the designated official shall make a determination for the record whether a Council decision would have a significant and predictable effect on a financial interest.

"(C) Any Council member may submit a written request to the Secretary to review any determination by the designated official under subparagraph (B) within 10 days of such determination. Such review shall be completed within 30 days of receipt of the request.

"(D) Any affected individual who does not vote in a Council decision in accordance with this subsection shall state for the record how he or she would have voted on such decision if he or she had voted.

"(E) If the Council makes a decision before the Secretary has reviewed a determination under subparagraph (C), the eventual ruling may not be treated as cause for the invalidation

or reconsideration by the Secretary of such decision.

"(F) The Secretary, in consultation with the Councils and by not later than one year from the date of enactment of this Act, shall promulgate regulations which prohibit an affected individual from voting in accordance with subparagraph (A), and which allow for the making of determinations under subparagraphs (B) and (C)."; and

(9) by striking "(1)(B) or (C)" in paragraph (8), as redesignated, and inserting "(1)(A)(ii)".

SEC. 109. FISHERY MANAGEMENT PLANS.

(a) REQUIRED PROVISIONS.—Section 303(a) (16 U.S.C. 1853(a)) is amended—

(1) by striking paragraph (7) and inserting the following:

"(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 305(b)(1)(A), minimize where practicable adverse effects on such habitat caused by fishing, and identify other actions which should be considered to encourage the conservation and enhancement of such habitat.";

(2) by striking "and" at the end of paragraph (8);

(3) by inserting "and fishing communities" after "fisheries" in paragraph (9)(A);

(4) by striking the period at the end of paragraph (9) and inserting a semicolon; and

(5) by adding at the end the following:

"(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or Secretary has determined is overfished, or is approaching an overfished condition, contain conservation and management measures to rebuild the fishery;

"(11) assess the amount and type of bycatch occurring in the fishery, and, to the extent practicable and in the following priority, include conservation and management measures to—

"(A) minimize bycatch; and

"(B) minimize the mortality of bycatch which cannot be avoided;

"(12) assess the amount and type of fish caught during recreational fishing, and to the extent practicable, include conservation and management measures to minimize the mortality of fish caught and released that are the target species of recreational fishing, under catch and release programs;

"(13) take into account the safety of human life at sea.";

(b) IMPLEMENTATION.—Not later than 18 months after the date of enactment of this Act, each Regional Fishery Management Council shall submit to the Secretary of Commerce amendments to each fishery management plan under its authority to comply with the amendments made in subsection (a) of this Act.

(c) DISCRETIONARY PROVISIONS.—Section 303(b) (16 U.S.C. 1853(b)) is amended—

(1) in paragraph (6)—

(A) by striking "system for limiting access to" and inserting "limited access system for"; and

(B) by striking "fishery" in subparagraph (E) and inserting "fishery and fishing community";

(2) by inserting "one or more" in paragraph (8) after "require";

(3) by striking "and" at the end of paragraph (9);

(4) by redesignating paragraph (10) as paragraph (11); and

(5) by inserting after paragraph (9) the following:

"(10) include, consistent with the other provisions of this Act, conservation and management measures that provide a harvest preference or other incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch; and".

(d) REGULATIONS.—Section 303 (16 U.S.C. 1853) is amended by striking subsection (c) and inserting the following:

“(c) PROPOSED REGULATIONS.—Proposed regulations which the Council deems necessary or appropriate for the purposes of implementing a fishery management plan or plan amendment may be submitted to the Secretary for action under section 304—

“(1) simultaneously with submission of the plan or amendment to the Secretary for action under section 304; or

“(2) at any time after the plan or amendment is approved.”.

(e) INDIVIDUAL FISHING QUOTAS.—Subsection 303 (16 U.S.C. 1853) is amended further by striking subsections (d), (e), and (f), and inserting the following:

“(d) INDIVIDUAL FISHING QUOTAS.—

“(1)(A) A Council may not recommend and the Secretary may not approve or implement any fishery management plan, plan amendment or regulation under this Act which creates a new individual fishing quota program during the fiscal years for which funds are authorized under section 4.

“(B) Any fishery management plan, plan amendment or regulation approved by the Secretary on or after January 4, 1995 which creates any new individual fishing quota program shall be repealed and immediately resubmitted by the Secretary to the appropriate Council and shall not be recommended, approved or implemented during the moratorium set forth in paragraph (1).

“(2)(A) No provision of law shall be construed to limit the authority of a Council to recommend and the Secretary to approve the termination or limitation, without compensation to holders of any limited access system permits, of a fishery management plan, plan amendment or regulation that provides for a limited access system, including an individual fishing quota system.

“(B) This subsection shall not be construed to prohibit a Council from recommending and the Secretary from approving amendments to a fishery management plan, plan amendment, or regulation which implement an individual fishing quota program, if such program was approved prior to January 4, 1995.

“(3) Individual fishing quotas shall be considered permits for the purposes of sections 307, 308 and 309.

“(4)(A) A Council may recommend, and the Secretary may approve and administer, a program which allows up to 25 percent of any fees collected under section 304(d)(2) to be used, pursuant to section 1104A(a)(7) of the Merchant Marine Act, 1936 (46 U.S.C. App. 1274(a)(7)), to guarantee or make a commitment to guarantee, payment of principal of and interest on an obligation which aids in financing the—

“(i) purchase of individual fishing quotas by fishermen who fish from small vessels; and

“(ii) first-time purchase of individual fishing quotas by entry level fishermen.

“(B) A Council making a recommendation under subparagraph (A) shall recommend criteria, consistent with the provisions of this Act, that a fisherman must meet to qualify for guarantees under clauses (i) and (ii) of subparagraph (A) and the portion of funds to be allocated for guarantees under each clause.”.

(f) INDIVIDUAL FISHING QUOTA REPORT.—(1) Not later than June 1, 1999, the Secretary, in consultation with the Councils and National Academy of Sciences, shall submit to the Congress a comprehensive report on individual fishing quotas, which shall propose amendments to the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) to implement a national policy with respect to individual fishing quotas. The report shall address all aspects of such quotas, including an assessment of the impacts and advisability of—

(A) limiting or prohibiting the transferability of such quotas;

(B) mechanisms to prevent foreign control of United States fisheries under individual fishing

quota programs, including mechanisms to prohibit persons who are not eligible to be deemed a citizen of the United States for the purpose of operating a vessel in the coastwise trade under section 2(a) and section 2(c) of the Shipping Act, 1916 (46 U.S.C. 802) from holding individual fishing quotas;

(C) limiting the duration of individual fishing quota programs;

(D) providing revocable Federal permits to process a quantity of fish that correspond to individual fishing quotas;

(E) mechanisms to provide for diversity and to minimize adverse social and economic impacts on fishing communities, other fisheries affected by the displacement of vessels, and any impacts associated with the shifting of capital value from fishing vessels to individual fishing quotas, as well as the advisability of allowing capital construction funds to be used to purchase individual fishing quotas;

(F) mechanisms to provide for effective monitoring and enforcement, including incentives to reduce economic discards and allow for the inspection of fish harvested;

(G) establishing threshold criteria for determining whether a fishery may be considered for individual fishing quota management, including criteria related to geographical range, population dynamics and condition of a fish stock, characteristics of a fishery, and participation by commercial and recreational fishermen in the fishery;

(H) mechanisms to ensure that vessel owners, vessel masters, crew members, and United States fish processors are treated fairly and equitably in initial allocations, to require persons holding individual fishing quotas to be on board a vessel, and to facilitate new entry under individual fishing quota programs;

(I) allowing individual fishing quotas to be sold by the Federal government through auctions; and

(J) such other matters as the Secretary deems appropriate.

(2) The report shall include a detailed analysis of individual fishing quota programs already implemented in the United States, including the impacts of transferability, the impacts on past and present participants, on fishing communities, on the rate and total amount of bycatch (including economic and regulatory discards) in the fishery, on the safety of life and vessels in the fishery, on any excess harvesting or processing capacity in the fishery, on any gear conflicts in the fishery, on product quality from the fishery, on the effectiveness of enforcement in the fishery, and on the size and composition of fishing vessel fleets. The report shall also include any information about individual fishing quota programs in other countries that may be useful.

(3) The report shall identify alternative conservation and management measures, including other limited access systems, that could accomplish the same objectives as individual fishing quota programs, as well as characteristics that are unique to individual fishing quotas.

(4) The Secretary shall, in consultation with the Councils, the fishing industry, affected States, conservation organizations and other interested persons, establish two individual fishing quota review groups to assist in the preparation of the report, which shall represent: (A) Alaska, Hawaii, and Pacific Coast States; and (B) Atlantic Coast and Gulf of Mexico States. The Secretary shall, to the maximum extent practicable, attempt to achieve a balanced representation of viewpoints among the individuals on each review group. The review groups shall not be subject to the Federal Advisory Committee Act (5 App. U.S.C.).

(5) The Secretary shall conduct public hearings in each Council region to obtain comments on individual fishing quotas in preparing the report, and shall publish in the Federal Register a notice and opportunity for public comment on the draft of the report, or any revision thereof.

The dissenting views of any Council or affected State shall be included in the final report.

(6) In the event that the authorization of appropriations under section 4 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) expires prior to enactment of amendments to such Act implementing a national policy with respect to individual fishing quotas, a Council may recommend and the Secretary may approve new individual fishing quota programs only with the approval of a two-thirds majority of voting members of the Council. In such event, the Councils and Secretary shall take into account changes that may be required upon enactment of such amendments.

(g) NORTH PACIFIC LOAN PROGRAM.—(1) By not later than January 1, 1997, the North Pacific Fishery Management Council shall recommend to the Secretary a program which uses the full amount of fees authorized to be used under section 303(d)(4) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1853(d)(4)) in the halibut and sablefish fisheries off Alaska to guarantee obligations in accordance with such section.

(2)(A) For the purposes of this subsection, the phrase “fishermen who fish from small vessels” in section 303(d)(4)(A)(i) of such Act shall mean fishermen wishing to purchase individual fishing quotas for use from Category B, Category C, or Category D vessels, as defined in 50 CFR 676.20(a)(2) (iii) and (iv), whose aggregate ownership of individual fishing quotas will not exceed the equivalent of a total of 50,000 pounds of halibut and sablefish harvested in the fishing year in which a guarantee application is made if the guarantee is approved, who will participate aboard the vessel in the harvest of fish caught under such quotas, who have at least 150 days' experience working as part of the harvesting crew in any U.S. commercial fishery, and who do not own in whole or in part any Category A or Category B vessel.

(B) For the purposes of this subsection, the phrase “entry level fishermen” in section 303(d)(4)(A)(ii) of such Act shall mean fishermen who do not own any individual fishing quotas, who wish to obtain the equivalent of not more than a total of 8,000 pounds of halibut and sablefish harvested in the fishing year in which a guarantee application is made, and who will participate aboard a vessel in the harvest of fish caught under such quotas.

(h) Nothing in the Sustainable Fisheries Act shall be construed to require a reallocation of individual fishing quotas under any individual fishing quota program.

SEC. 110. ACTION BY THE SECRETARY.

(a) SECRETARIAL REVIEW OF PLANS AND REGULATIONS.—Section 304 (16 U.S.C. 1854) is amended by striking subsections (a) and (b) and inserting the following:

“(a) REVIEW OF PLANS.—

“(1) Upon transmittal by the Council to the Secretary of a fishery management plan or plan amendment, the Secretary shall—

“(A) immediately commence a review of the plan or plan amendment to determine whether it is consistent with the national standards, the other provisions of this Act, and any other applicable law; and

“(B) immediately publish in the Federal Register a notice stating that the plan or plan amendment is available and that written data, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

“(2) In undertaking the review required under paragraph (1), the Secretary shall—

“(A) take into account the data, views, and comments received from interested persons;

“(B) consult with the Secretary of State with respect to foreign fishing; and

“(C) consult with the Secretary of the department in which the Coast Guard is operating

with respect to enforcement at sea and to fishery access adjustments referred to in section 303(a)(6).

“(3) The Secretary shall approve, disapprove, or partially approve a plan or plan amendment within 30 days of the end of the comment period under paragraph (1) by written notice to the Council. A notice of disapproval or partial approval shall specify—

“(A) the applicable law with which the plan or amendment is inconsistent;

“(B) the nature of such inconsistencies; and

“(C) recommendations concerning the actions that could be taken by the Council to conform such plan or amendment to the requirements of applicable law.

“(4) If the Secretary disapproves or partially approves a plan or amendment, the Council may submit a revised plan or amendment to the Secretary for review under this subsection.

“(5) For purposes of this subsection and subsection (b), the term ‘immediately’ means on or before the 5th day after the day on which a Council transmits to the Secretary a plan, amendment, or proposed regulation that the Council characterizes as final.

“(b) REVIEW OF REGULATIONS.—

“(1) Upon transmittal by the Council to the Secretary of proposed regulations prepared under section 303(c), the Secretary shall immediately initiate an evaluation of the proposed regulations to determine whether they are consistent with the fishery management plan, this Act and other applicable law. Within 15 days of initiating such evaluation the Secretary shall make a determination and—

“(A) if that determination is affirmative, the Secretary shall publish such regulations, with such technical changes as may be necessary for clarity and an explanation of those changes, in the Federal Register for a public comment period of 15 to 60 days; or

“(B) if that determination is negative, the Secretary shall notify the Council in writing of the inconsistencies and provide recommendations on revisions that would make the proposed regulations consistent with the fishery management plan, this Act, and other applicable law.

“(2) Upon receiving a notification under paragraph (1)(B), the Council may revise the proposed regulations and submit them to the Secretary for reevaluation under paragraph (1).

“(3) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (1)(A). The Secretary shall consult with the Council before making any revisions to the proposed regulations, and must publish in the Federal Register an explanation of any differences between the proposed and final regulations.”;

(b) PREPARATION BY THE SECRETARY.—Section 304(c) (16 U.S.C. 1854(c)) is amended—

(1) by striking “fishery,” in paragraph (1) and inserting “fishery (other than a fishery to which section 302(a)(3) applies).”

(2) by striking all that follows “as the case may be.” in paragraph (1);

(3) by striking paragraph (2) and inserting:

“(2) In preparing any plan or amendment under this subsection, the Secretary shall consult with the Secretary of State with respect to foreign fishing and with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea.”;

(4) by inserting “under this subsection” after “him” in paragraph (3); and

(5) by striking “system described in section 303(b)(6)” in paragraph (3) and inserting “system, including any individual fishing quota system”.

(c) INDIVIDUAL FISHING QUOTA FEES.—Section 304(d) (16 U.S.C. 1854(d)) is amended—

(1) by inserting “(1)” immediately before the first sentence; and

(2) by inserting the at the end the following:

“(2) Notwithstanding paragraph (1), the Secretary is authorized and shall collect a fee of up to 3 percent of the annual ex-vessel value of fish

harvested under any individual fishing quota program or community development quota program to recover the costs directly related to the management and enforcement of such program. Fees collected under this paragraph shall be in addition to any other fees charged under this Act and shall be an offsetting collection available only to the Secretary for the purposes of administering and implementing this Act in the fishery in which the fees were collected.”.

(d) DELAY OF FEES.—Notwithstanding any other law, the Secretary shall not begin the collection of fees under section 304(d)(2) from persons holding individual fishing quotas in the surf clam and ocean quahog fishery or in the wreckfish fishery until January 1, 2000.

(e) OVERFISHING.—Section 304(e) (16 U.S.C. 1854(e)) is amended to read as follows:

“(e) REBUILDING OVERFISHED FISHERIES.—

“(1) The Secretary shall report annually to the Congress and the Councils on the status of fisheries within each Council’s geographical area of authority and identify those fisheries that are overfished or are approaching a condition of being overfished. For those fisheries managed under a fishery management plan or international agreement, the status shall be determined using the criteria for overfishing specified in such plan or agreement. A fishery shall be classified as approaching a condition of being overfished if, based on trends in fishing effort, fishery resource size, and other appropriate factors, the Secretary estimates that the fishery will become overfished within two years.

“(2) In addition, if the Secretary determines at any time that a fishery is overfished, the Secretary immediately shall notify the appropriate Council and request that action be taken to end overfishing in the fishery and to implement conservation and management measures to rebuild affected stocks of fish. The Secretary shall publish each notice under this paragraph in the Federal Register.

“(3) Within one year of an identification or notification under this subsection, the Council (or the Secretary, consistent with section 304(g) and where practicable for fisheries under section 302(a)(3)) shall prepare a fishery management plan, a plan amendment, or proposed regulations for fisheries under the authority of such Council or the Secretary—

“(A) to end overfishing in the fishery and to rebuild affected stocks of fish; or

“(B) to prevent overfishing from occurring in the fishery whenever such fishery is identified as approaching an overfished condition.

“(4) For a fishery that is overfished, any fishery management plan, amendment or proposed regulations prepared under this section shall—

“(A) specify a time period for ending overfishing and rebuilding the fishery that shall—

“(i) be as short as possible, taking into account the status and biology of any overfished stocks of fish, the needs of fishing communities and other economic interests, recommendations by international organizations in which the United States participates and the interaction of the overfished stock of fish within the marine ecosystem; and

“(ii) not exceed 10 years, except in cases where the biology of the stock of fish or other environmental conditions dictate otherwise.

“(B) allocate both overfishing restrictions and recovery benefits fairly and equitably among sectors of the fishery; and

“(C) for fisheries managed under an international agreement, reflect the traditional participation by fishermen of the United States in the fishery relative to other nations.

“(5) If, within the one-year period beginning on the date of identification or notification, the Council does not submit to the Secretary a fishery management plan, plan amendment or proposed regulations under paragraph (3)(A), the Secretary shall within nine months prepare under subsection (c) a fishery management plan or plan amendment to stop overfishing and rebuild affected stocks of fish.

“(6) During the development of a fishery management plan, a plan amendment, or proposed regulations under this subsection, the Council may request the Secretary to implement interim measures, to be replaced by such plan, amendment or regulations, to reduce overfishing. Such measures, if otherwise in compliance with the provisions of this Act, may be implemented even though they are not sufficient by themselves to stop overfishing of a fishery.

“(7) The Secretary shall review any fishery management plan, plan amendment or regulations implemented under this subsection at routine intervals that may not exceed two years. If the Secretary finds as a result of the review that such plan, amendment or regulations have not resulted in adequate progress toward ending overfishing and rebuilding affected fish stocks, the Secretary shall—

“(A) in the case of a fishery to which section 302(a)(3) applies, immediately make revisions necessary to achieve adequate progress; or

“(B) for all other fisheries, immediately notify the appropriate Council under paragraph (2).”.

(f) FISHERIES UNDER AUTHORITY OF MORE THAN ONE COUNCIL.—Section 304(f) is amended by striking paragraph (3).

(g) ATLANTIC HIGHLY MIGRATORY SPECIES.—Section 304 (16 U.S.C. 1854) is amended further by striking subsection (g) and inserting the following:

“(g) ATLANTIC HIGHLY MIGRATORY SPECIES.—

The Secretary shall prepare a fishery management plan or plan amendment with respect to any highly migratory species fishery to which section 302(a)(3) applies that requires conservation and management, in accordance with the national standards, the other provisions of this Act, and any other applicable law. In preparing and implementing any such plan or amendment, the Secretary shall—

“(1) conduct public hearings, at appropriate times and in appropriate locations in the geographical areas concerned, so as to allow interested persons an opportunity to be heard in the preparation and amendment of the plan and any regulations implementing the plan;

“(2)(A) consult with the Secretary of State with respect to foreign fishing and with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea; and

“(B) consult with and consider the comments and views of affected Councils, as well as commissioners and advisory groups appointed under Acts implementing relevant international fishery agreements pertaining to highly migratory species and the advisory panel established under section 302(g);

“(3) establish an advisory panel under section 302(g) for each fishery management plan to be prepared under this paragraph;

“(4) evaluate the likely effects, if any, of conservation and management measures on participants in the affected fisheries and minimize, to the extent practicable, any disadvantage to United States fishermen in relation to foreign competitors;

“(5) with respect to a highly migratory species for which the United States is authorized to harvest an allocation, quota, or at a fishing mortality level under a relevant international fishery agreement, provide fishing vessels of the United States with a reasonable opportunity to harvest such allocation, quota, or fishing mortality level;

“(6) review, on a continuing basis (and promptly whenever a recommendation pertaining to fishing for highly migratory species has been made under a relevant international fishery agreement), and revise as appropriate, the conservation and management measures included in the plan;

“(7) diligently pursue, through international entities (such as the International Commission for the Conservation of Atlantic Tunas), comparable international fishery management measures with respect to fishing for highly migratory species; and

“(8) ensure that conservation and management measures adopted under this paragraph—

“(A) promote international conservation of the affected fishery;

“(B) take into consideration traditional fishing patterns of fishing vessels of the United States and the operating requirements of the fisheries;

“(C) are fair and equitable in allocating fishing privileges among United States fishermen and not have economic allocation as the sole purpose;

“(D) minimize the discarding of Atlantic highly migratory species which cannot be returned to the sea alive; and

“(E) promote, to the extent practicable, implementation of scientific research programs that include the tag and release of Atlantic highly migratory species.”

(h) REVIEW OF SECRETARIAL PLAN.—Section 304, as amended, is amended further by adding at the end the following:

“(h) REVIEW OF SECRETARIAL PLAN.—

“(1)(A) Whenever the Secretary prepares a fishery management plan or plan amendment under this section, the Secretary shall immediately—

“(i) for a plan or amendment prepared under subsection (c), submit such plan or amendment to the appropriate Council for consideration and comment; and

“(ii) publish in the Federal Register a notice stating that the plan or amendment is available and that written data, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

“(B) Whenever a plan or amendment is submitted under paragraph (1)(A)(i), the appropriate Council must submit its comments and recommendations, if any, regarding the plan or amendment to the Secretary before the close of the 60-day period referred to in subparagraph (A)(ii). After the close of such 60-day period, the Secretary, after taking into account any such comments and recommendations, as well as any views, data, or comments submitted under subparagraph (A)(ii), may adopt such plan or amendment.

“(2) The Secretary may propose regulations in the Federal Register to implement any plan or amendment prepared by the Secretary. The comment period on proposed regulations shall be 60 days, except that the Secretary may shorten the comment period on minor revisions to existing regulations.

“(3) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (3). The Secretary must publish in the Federal Register an explanation of any substantive differences between the proposed and final rules. All final regulations must be consistent with the plan, with the national standards and other provisions of this Act, and with any other applicable law.”

SEC. 111. OTHER REQUIREMENTS AND AUTHORITY.

(a) Section 305 (18 U.S.C. 1855) is amended—

(1) by striking the title and subsection (a);

(2) by redesignating subsection (b) as subsection (f); and

(3) by inserting the following before subsection (f), as redesignated:

“SEC. 305. OTHER REQUIREMENTS AND AUTHORITY.

“(a) GEAR EVALUATION AND NOTIFICATION OF ENTRY.—

“(1) Not later than 18 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall publish in the Federal Register, after notice and an opportunity for public comment, a list of all fisheries

“(A) under the authority of each Council and all fishing gear used in such fisheries, based on information submitted by the Councils under section 303(a); and

“(B) to which section 302(a)(3) applies and all fishing gear used in such fisheries.

“(2) The Secretary shall include with such list guidelines for determining when fishing gear or a fishery is sufficiently different from those listed as to require notification under paragraph (3).

“(3) Effective 180 days after the publication of such list, no person or vessel shall employ fishing gear or engage in a fishery not included on such list without giving 90 days advance written notice to the appropriate Council, or the Secretary with respect to a fishery to which section 302(a)(3) applies. A signed return receipt shall serve as adequate evidence of such notice and as the date upon which the 90-day period begins.

“(4) A Council may submit to the Secretary any proposed changes to such list or such guidelines the Council deems appropriate. The Secretary shall publish a revised list, after notice and an opportunity for public comment, upon receiving any such proposed changes from a Council.

“(5) A Council may request the Secretary to promulgate emergency regulations under subsection (c) to prohibit any persons or vessels from using an unlisted fishing gear or engaging in an unlisted fishery if the appropriate Council, or the Secretary for fisheries to which section 302(a)(3) applies, determines that such unlisted gear or unlisted fishery would compromise the effectiveness of conservation and management efforts under this Act.

“(b) FISH HABITAT.—

“(1)(A) The Secretary shall, within six months of the date of enactment of the Sustainable Fisheries Act, establish guidelines to assist the Councils in the description and identification of essential fish habitat in fishery management plans (including adverse impacts on such habitat) and the actions which should be considered to ensure the conservation and enhancement of such habitat, and set forth a schedule for the amendment of fishery management plans to include the identification of essential fish habitat.

“(B) The Secretary shall provide each Council with recommendations and information regarding each fishery under that Council's authority to assist it in the identification of essential fish habitat, the adverse impacts on that habitat, and the actions that should be considered to ensure the conservation and enhancement of that habitat.

“(C) The Secretary shall review programs administered by the Department of Commerce and ensure that any relevant programs further the conservation and enhancement of essential fish habitat.

“(D) The Secretary shall coordinate with and provide information to other Federal agencies to further the conservation and enhancement of essential fish habitat.

“(2) Each Federal agency shall consult with the Secretary with respect to any action undertaken, or proposed to be undertaken by such agency that may adversely affect any essential fish habitat identified under this Act.

“(3) Each Council—

“(A) may comment on and make recommendations to the Secretary and any Federal or State agency concerning any activity undertaken, or proposed to be undertaken, by any Federal or State agency that, in the view of the Council, may affect the habitat, including essential fish habitat, of a fishery resource under its authority; and

“(B) shall comment on and make recommendations to the Secretary and any Federal or State agency concerning any such activity that, in the view of the Council, is likely to substantially affect the habitat, including essential fish habitat, of an anadromous fishery resource under its authority.

“(4)(A) If the Secretary receives information from a Council or Federal or State agency or determines from other sources that an action undertaken, or proposed to be undertaken by any State or Federal agency would adversely affect

any essential fish habitat identified under this Act, the Secretary shall recommend to such agency measures that can be taken by such agency to conserve such habitat.

“(B) Within 30 days after receiving a recommendation under paragraph (4)(A), a Federal agency shall provide a detailed response, in writing, to the commenting Council and the Secretary regarding the matter. The response shall include a description of measures being considered by the agency for avoiding, mitigating, or offsetting the impact of the activity on such habitat. In the case of a response that is inconsistent with the recommendations of the Secretary, the Federal agency shall explain its reasons for not following the recommendations.”

(b) Section 305(c) (16 U.S.C. 1855(c)) is amended by striking paragraph (3) and by inserting the following after paragraph (2):

“(3) Any emergency regulation which changes an existing fishery management plan shall be treated as an amendment to such plan for the period in which such regulation is in effect. Any emergency regulation promulgated under this subsection—

“(A) shall be published in the Federal Register together with the reasons therefor;

“(B) shall, except as provided in subparagraph (C), remain in effect for not more than 180 days after the date of publication, and may be extended by publication in the Federal Register for an additional period of not more than 180 days, provided the public has had an opportunity to comment on the emergency regulation, and, in the case of a Council recommendation for emergency regulations, the Council is actively preparing a fishery management plan, amendment, or proposed regulations to address the emergency on a permanent basis;

“(C) that responds to a public health emergency may remain in effect until the circumstances that created the emergency no longer exist, provided that the Secretary of Health and Human Services concurs with the Secretary's action and the public has an opportunity to comment after the regulation is published; and

“(D) may be terminated by the Secretary at an earlier date by publication in the Federal Register of a notice of termination, except for emergency regulations promulgated under paragraph (2) in which case such early termination may be made only upon the agreement of the Secretary and the Council concerned.”

(c) Section 305(e) is amended by striking “12291, dated February 17, 1981” and inserting “12866, dated September 30, 1993”.

(d) Section 305, as amended, is further amended by adding at the end the following:

“(g) NEGOTIATED CONSERVATION AND MANAGEMENT MEASURES.—(1)(A) A Council or the Secretary may, in accordance with regulations promulgated by the Secretary pursuant to this paragraph, establish a fishery negotiation panel to assist in the development of specific conservation and management measures for a fishery under authority of such Council or the Secretary.

“(B) No later than 180 days after the enactment of this section, the Secretary shall promulgate regulations establishing procedures, developed in cooperation with the Administrative Conference of the United States, for the establishment and operation of fishery negotiation panels. Such procedures shall be comparable to the procedures for negotiated rulemaking established by subchapter III of chapter 5 of title 5, United States Code.

“(2) Upon receipt of a report containing proposed conservation and management measures from a negotiation panel convened under this subsection, the report shall be published in the Federal Register for public comment.

“(3) Nothing in this subsection shall be construed to require either a Council or the Secretary, whichever is appropriate, to include all or any portion of a report from a negotiation panel established under this subsection in a

fishery management plan or plan amendment for the fishery for which the panel was established.

“(h) CENTRAL REGISTRY SYSTEM FOR LIMITED ACCESS SYSTEM PERMITS.—

“(1) Within 6 months after the date of enactment of the Sustainable Fishery Act, the Secretary shall establish an exclusive central registry system (which may be administered on a regional basis) for any limited access system permits established under section 303(b)(6) or other Federal law, including individual fishing quotas, which shall provide for the registration of title to, and interests in, such permits, as well as for procedures for changes in the registration of title to such permits upon the occurrence of involuntary transfers, judicial or nonjudicial foreclosure of interests, enforcement of judgments thereon, and related matters deemed appropriate by the Secretary. Such registry system shall—

“(A) provide a mechanism for filing notice of a nonjudicial foreclosure or enforcement of a judgment by which the holder of a senior security interest acquires or conveys ownership of a permit, and in the event of a nonjudicial foreclosure, by which the interests of the holders of junior security interests are released when the permit is transferred;

“(B) provide for public access to the information filed under such system, notwithstanding section 402(b); and

“(C) provide such notice and other requirements of applicable law that the Secretary deems necessary for an effective registry system.

“(2) The Secretary shall promulgate such regulations as may be necessary to carry out this subsection, after consulting with the Councils and providing an opportunity for public comment. The Secretary is authorized to contract with non-federal entities to administer the central registry system.

“(3) To be effective and perfected against any person except the transferor, its heirs and devisees, and persons having actual notice thereof, all security interests, and all sales and other transfers of permits described in paragraph (1), shall be registered in compliance with the regulations promulgated under paragraph (2). Such registration shall constitute the exclusive means of perfection of title to, and security interests in, such permits, except for federal tax liens thereon, which shall be perfected exclusively in accordance with section 6323 of the Internal Revenue Code of 1986 (26 U.S.C. 6323).

“(4) The priority of security interests shall be determined in order of filing, the first filed having the highest priority. A validly-filed security interest shall remain valid and perfected notwithstanding a change in residence or place of business of the owner of record. For the purposes of this subsection, “security interest” shall include security interests, assignments, liens and other encumbrances of whatever kind.

“(5) Notwithstanding section 304(d)(1), the Secretary may collect a reasonable fee of not more than one-half of one percent of the value of limited access system permits upon registration and transfer to recover the costs of administering the central registry system.”

(e) REGISTRY TRANSITION.—Security interests on permits described under section 305(h)(1) that are effective and perfected by otherwise applicable law on the date of the final regulations implementing section 305(h) shall remain effective and perfected if, within 120 days after such date, the secured party submits evidence satisfactory to the Secretary and in compliance with such regulations of the perfection of such security.

SEC. 112. PACIFIC COMMUNITY FISHERIES.

(a) HAROLD SPARCK MEMORIAL COMMUNITY DEVELOPMENT PROGRAM.—Section 305, as amended, is amended further by adding at the end:

“(i) ALASKA AND WESTERN PACIFIC COMMUNITY DEVELOPMENT PROGRAMS.—

“(1)(A) The North Pacific Council and the Secretary shall establish a western Alaska community development quota program under which a percentage of the total allowable catch of any Bering Sea fishery is allocated to the program.

“(B) To be eligible to participate in the western Alaska community development quota program under paragraph (1), a community shall—

“(i) be located within 50 nautical miles from the baseline from which the breadth of the territorial sea is measured along the Bering Sea coast from the Bering Strait to the western most of the Aleutian Islands, or an island within the Bering Sea;

“(ii) not be located on the Gulf of Alaska coast of the north Pacific Ocean;

“(iii) meet criteria developed by the Governor of Alaska, approved by the Secretary, and published in the Federal Register; and

“(iv) be certified by the Secretary of the Interior pursuant to the Alaska Native Claims Settlement Act to be a Native village;

“(v) consist of residents who conduct more than one-half of their current commercial or subsistence fishing effort in the waters of the Bering Sea and Aleutian Islands management area; and

“(vi) not have previously developed harvesting or processing capability sufficient to support substantial participation in the groundfish fisheries in the Bering Sea, unless the community can show that the benefits from an approved Community Development Plan would be the only way for the community to realize a return from previous investments.

“(C)(i) During the fiscal years for which funds are authorized under section 4, the North Pacific Council may not recommend to the Secretary any fishery management plan, plan amendment, or regulation that allocates to the western Alaska community development quota program a percentage of the total allowable catch of any Bering Sea fishery for which, prior to October 1, 1995, the Council had not recommended that a percentage of the total allowable catch be allocated to western Alaska community development quota programs.

“(ii) During the fiscal years for which funds are authorized under section 4, with respect to a fishery management plan, plan amendment, or regulation for a Bering Sea fishery that—

“(1) allocates to the western Alaska community development quota program a percentage of the total allowable catch of such fishery; and

“(II) was recommended by the North Pacific Council to the Secretary prior to October 1, 1995, the Secretary shall, notwithstanding any expiration date in such plan, plan amendment, or regulation, allocate to the program a percentage of the total allowable catch that is no greater than the percentage described in such plan or plan amendment.

“(D) The Secretary shall deduct from any fees collected under section 304(d)(2) for fish harvested under the western Alaska community development quota program costs incurred by fishing vessels in the program for observer or reporting requirements which are in addition to observer or reporting requirements of other fishing vessels in the fishery in which the allocation to such program has been made.

“(2)(A) The Western Pacific Council and the Secretary may establish a western Pacific community development program which may include an allocation of a percentage of the total catch of any fishery, limited entry permits, or other quotas related to vessel size and fishing zones to western Pacific communities that participate in the program.

“(B) To be eligible to participate in the western Pacific community development program, a community shall—

“(i) be located within the Western Pacific Regional Fishery Management Area;

“(ii) meet criteria developed by the Western Pacific Council, approved by the Secretary and published in the Federal Register, and based on

historical fishing practices in and dependence on the fishery, the cultural and social framework relevant to the fishery, and economic barriers to access to the fishery;

“(iii) consist of community residents who conduct more than one-half of their current commercial or subsistence fishing effort in the waters within the Western Pacific Regional Management Area;

“(iv) not have previously developed harvesting or processing capability sufficient to support substantial participation in the western Pacific Regional Fishery Management Area; and

“(v) develop and submit a Community Development Plan to the Western Pacific Council and Secretary.

“(C) For the purposes of this subsection—

“(i) ‘Western Pacific Regional Management Area’ means the area under the jurisdiction of the Western Pacific Council, or an island within such area; and

“(ii) ‘western Pacific community’ means any community located in the Western Pacific Regional Management Area where a majority of the inhabitants are descended from the aboriginal peoples indigenous to the area and in which traditional fishing practices are or have been historically used for subsistence or commercial purposes.

“(D) Notwithstanding any other provision of this Act, the Western Pacific Council shall take into account traditional indigenous fishing practices in preparing any fishery management plan.

“(E) After the date of enactment of the Sustainable Fisheries Act, no Council may recommend a community development quota program except as provided in this subsection.”

(b) WESTERN PACIFIC DEMONSTRATION PROJECTS.—(1) The Secretary and Secretary of Interior are authorized to make direct grants to eligible western Pacific communities, as recommended by the Western Pacific Fishery Management Council, for the purpose of establishing not less than three and not more than five fishery demonstration projects to foster and promote traditional indigenous fishing practices, which shall not exceed a total of \$500,000 in each fiscal year.

(2) Demonstration project funded pursuant to this subsection shall foster and promote the involvement of western Pacific communities in western Pacific fisheries and may—

(A) identify and apply traditional indigenous fishing practices;

(B) develop or enhance western Pacific community-based fishing opportunities; and

(C) involve research, community education, or the acquisition of materials and equipment necessary to carry any such demonstration project.

(3)(A) The Western Pacific Fishery Management Council, in consultation with the Secretary shall establish an advisory panel under section 302(g)(2) of the Sustainable Fisheries Act to evaluate, determine the relative merits of, and annually rank applications for such grants, which shall consist of not more than eight individuals who are knowledgeable or experienced in traditional indigenous fishery practices of western Pacific communities and who are not members or employees of the Western Pacific Fishery Management Council.

(B) If the Secretary or Secretary of Interior awards a grant for a demonstration project not in accordance with the rank given to such project by the advisory panel, the Secretary shall provide a detailed written explanation for the reasons thereof.

(4) The Western Pacific Fishery Management Council shall, with the assistance of such advisory panel, submit an annual report to the Congress assessing the status and progress of demonstration projects carried out under this subsection.

(5) Appropriate Federal agencies may provide technical assistance to western Pacific community-based entities to assist in carrying out demonstration projects under this subsection.

(6) For the purposes of this subsection, 'western Pacific community' shall have the same meaning as such term has in section 305(i)(2)(C)(ii) of the Magnuson Fishery Conservation and Management Act.

SEC. 113. STATE JURISDICTION.

(a) Paragraph (3) of section 306(a) (16 U.S.C. 1856(a)) is amended to read as follows:

"(3)(A) A State may regulate a fishing vessel outside the boundaries of the State if the fishing vessel is registered under the law of that State, and—

"(i) there is no fishery management plan in place for that fishery; or

"(ii) if there is a fishery management plan or plan amendment in place for that fishery, the State's laws and regulations are consistent with the purposes of that fishery management plan or plan amendment.

"(B) For the purposes of this paragraph, the term 'registered under the law of that State' means that—

"(i) the owner, captain, or vessel holds a fishing license, or other document that is a prerequisite to participating in the fishery, issued by the State;

"(ii) the vessel is numbered by the State in accordance with chapter 123 of title 46, United States Code; or

"(iii) the documentation of the vessel under chapter 121 of title 46, United States Code, identifies the vessel's homeport as located in the State."

(b) Section 306(b) (16 U.S.C. 1856(b)) is amended by adding at the end the following:

"(3) If the State involved requests that a hearing be held pursuant to paragraph (1), the Secretary shall conduct such hearing prior to taking any action under paragraph (1).

"(4) For any fishery occurring off Alaska for which there is no fishery management plan approved and implemented under this Act, or pursuant to a fishery management plan under this Act, the State of Alaska may enforce its fishing laws and regulations in the exclusive economic zone off Alaska, provided there is a legitimate State interest in the conservation and management of the fishery, until a Federal fishery management plan is implemented for any such fishery which does not allow for such enforcement. Fisheries in the exclusive economic zone off Alaska currently managed pursuant to a Federal fishery management plan shall not be removed from Federal management and placed under State authority without the unanimous consent (except for the Regional Director of the National Marine Fisheries Service) of the North Pacific Council. The preceding sentence shall not be construed to require the North Pacific Council to unanimously vote to continue a fishery management plan under which the State of Alaska is already principally involved in the management or enforcement of a fishery."

(c) Section 306(c)(1) (16 U.S.C. 1856(c)(1)) is amended—

(1) by striking "and" in subparagraph (A);

(2) by striking the period at the end of subparagraph (B) and inserting a semicolon and the word "and"; and

(3) by inserting after subparagraph (B) the following:

"(C) the owner or operator of the vessel submits reports on the tonnage of fish received from vessels of the United States and the locations from which such fish were harvested, in accordance with such procedures as the Secretary by regulation shall prescribe."

SEC. 114. PROHIBITED ACTS.

(a) Section 307(1)(J)(i) (16 U.S.C. 1857(1)(J)(i)) is amended—

(1) by striking "plan," and inserting "plan"; and

(2) by inserting before the semicolon the following: "or in the absence of any such plan is smaller than the minimum possession size in effect at the time under the Atlantic States Marine Fisheries Commission's American Lobster

Fishery Management Plan (and, for purposes of this clause, if the Secretary withdraws the Federal plan or any successor to that plan, and the Atlantic States Marine Fisheries Commission has not implemented a plan to manage the American Lobster Fishery, the minimum possession size in effect at the time the American Lobster Fishery Management Plan was withdrawn shall remain in effect until the Atlantic States Marine Fisheries Commission implements a plan that contains a minimum possession size)".

(b) Section 307(1)(K) (16 U.S.C. 1857(1)(K)) is amended by striking "knowingly steal or without authorization, to" and inserting "to steal or to negligently and without authorization".

(c) Section 307(1)(L) (16 U.S.C. 1857(1)(L)) is amended to read as follows:

"(L) to forcibly assault, resist, oppose, impede, intimidate, sexually harass, or interfere with any observer on a vessel under this Act, or any data collector employed by the National Marine Fisheries Service or under contract to carry out responsibilities under this Act;"

(d) Section 307(1) (16 U.S.C. 1857(1)) is amended—

(1) by striking "or" at the end of subparagraph (M);

(2) by striking "pollock," in subparagraph (N) and inserting "pollock; or"; and

(3) by adding at the end the following:

"(O) to knowingly and willfully fail to disclose or falsely disclose any financial interest as required under section 302(j), or to knowingly vote on a Council decision in violation of section 302(j)(7)(A)."

(e) Section 307(2)(A) (16 U.S.C. 1857(2)(A)) is amended to read as follows:

"(A) in fishing within the boundaries of any State, except—

"(i) recreational fishing permitted under section 201(i),

"(ii) fish processing permitted under section 306(c), or

"(iii) transshipment at sea of fish products within the boundaries of any State in accordance with a permit approved under section 204(b)(6)(A)(ii);"

(f) Section 307(2)(B) (16 U.S.C. 1857(2)(B)) is amended by striking "204 (b) or (c)" and inserting "204 (b), (c), or (d)".

(f) Section 307(3) (16 U.S.C. 1857(3)) is amended to read as follows:

"(3) for any vessel of the United States, and for the owner or operator of any vessel of the United States, to transfer at sea directly or indirectly, or attempt to so transfer at sea, any United States harvested fish to any foreign fishing vessel, while such foreign vessel is within the exclusive economic zone or within the boundaries of any State except to the extent that the foreign fishing vessel has been permitted under section 204(b)(6)(B) or section 306(c) to receive such fish;"

(g) Section 307(4) (16 U.S.C. 1857(4)) is amended by inserting "or within the boundaries of any State" after "zone".

SEC. 115. CIVIL PENALTIES AND PERMIT SANCTIONS; REBUTTABLE PRESUMPTIONS.

(a) Section 308(a) (16 U.S.C. 1858(a)) is amended by striking "ability to pay."

(b) The first sentence of section 308(b) (16 U.S.C. 1858(b)) is amended to read as follows: "Any person against whom a civil penalty is assessed under subsection (a) or against whom a permit sanction is imposed under subsection (g) (other than a permit suspension for nonpayment of penalty or fine) may obtain review thereof in the United States district court for the appropriate district by filing a complaint against the Secretary in such court within 30 days from the date of such order."

(c) Section 308(g)(1)(C) (16 U.S.C. 1858(g)(1)(C)) is amended by striking the matter from "(C) any" through "overdue," and inserting the following: "(C) any amount in settlement of a civil forfeiture imposed on a vessel or other property, or any civil penalty or criminal

fine imposed on a vessel or owner or operator of a vessel or any other person who has been issued or has applied for a permit under any marine resource law enforced by the Secretary, has not been paid and is overdue,".

(d) Section 310(e) (16 U.S.C. 1860(e)) is amended by adding at the end the following new paragraph:

"(3) For purposes of this Act, it shall be a rebuttable presumption that any vessel that is shoreward of the outer boundary of the exclusive economic zone of the United States or beyond the exclusive economic zone of any nation, and that has gear on board that is capable of use for large-scale driftnet fishing, is engaged in such fishing."

SEC. 116. ENFORCEMENT.

(a) The second sentence of section 311(d) (16 U.S.C. 1861(d)) is amended—

(1) by striking "Guam, any Commonwealth, territory, or" and inserting "Guam or any"; and

(2) by inserting a comma before the period and the following: "and except that in the case of the Northern Mariana Islands, the appropriate court is the United States District Court for the District of the Northern Mariana Islands".

(b) Section 311(e)(1) (16 U.S.C. 1861(e)(1)) is amended—

(1) by striking "fishery" each place it appears and inserting "marine";

(2) by inserting "of not less than 20 percent of the penalty collected" after "reward" in subparagraph (B), and

(3) by striking subparagraph (E) and inserting the following:

"(E) claims of parties in interest to property disposed of under section 612(b) of the Tariff Act of 1930 (19 U.S.C. 1612(b)), as made applicable by section 310(c) of this Act or by any other marine resource law enforced by the Secretary, to seizures made by the Secretary, in amounts determined by the Secretary to be applicable to such claims at the time of seizure; and"

(c) Section 311(e)(2) (16 U.S.C. 1861(e)(2)) is amended to read as follows:

"(2) Any person found in an administrative or judicial proceeding to have violated this Act or any other marine resource law enforced by the Secretary shall be liable for the cost incurred in the sale, storage, care, and maintenance of any fish or other property lawfully seized in connection with the violation."

(d) Section 311 (16 U.S.C. 1861) is amended by redesignating subsection (g) as subsection (i), and by inserting the following after subsection (f):

"(g) ENFORCEMENT IN THE PACIFIC INSULAR AREAS.—The Secretary, in consultation with the Governors of the Pacific Insular Areas and the Western Pacific Regional Fishery Management Council, shall to the extent practicable support cooperative enforcement agreements between Federal and Pacific Insular Area authorities.

"(h) ANNUAL REPORT ON ENFORCEMENT.—Each year at the time the President's budget is submitted to the Congress, the Secretary and the Secretary of the Department in which the Coast Guard is operating shall, after consultation with the Councils, submit a report on the effectiveness of the enforcement of fishery management plans and regulations to implement such plans under the jurisdiction of each Council, including—

"(1) an analysis of the adequacy of Federal personnel and funding resources related to the enforcement of fishery management plans and regulations to implement such plans; and

"(2) recommendations to improve enforcement that should be considered in developing plan amendments or regulations implementing such plans."

(e) Section 311 (16 U.S.C. 1861), as amended by subsection (d), is amended by striking "201 (b), (c)," in subsection (i)(1), as redesignated, and inserting "201 (b) or (c), or section 204(d)".

SEC. 117. NORTH PACIFIC AND NORTHWEST ATLANTIC OCEAN FISHERIES.

(a) NORTH PACIFIC FISHERIES CONSERVATION.—Section 313 (16 U.S.C. 1862) is amended—
(1) by striking “RESEARCH PLAN” in the section heading and inserting “CONSERVATION”; and

(2) by adding at the end the following:

“(f) BYCATCH REDUCTION.—In implementing section 303(a)(11) and this section, the North Pacific Council shall recommend conservation and management measures to lower, on an annual basis for a period of not less than four years, the total amount of economic discards occurring in the fisheries under its jurisdiction.

“(g) BYCATCH REDUCTION INCENTIVES.—(1) Notwithstanding section 304(d), the North Pacific Council may recommend, and the Secretary may approve, consistent with the provisions of this Act, a system of fees in a fishery to provide incentives to reduce bycatch and bycatch rates; except that such fees shall not exceed one percent of the estimated annual ex-vessel value of the target species in the fishery. Any fees collected shall be deposited in the North Pacific Fishery Observer Fund, and may be made available by the Secretary to offset costs related to the reduction of bycatch in the fishery from which such fees were derived, including conservation and management measures and research, and to the State of Alaska to offset costs incurred by the State in the fishery from which such fees were derived and in which the State is directly involved in management or enforcement.

“(2)(A) Notwithstanding section 303(d), and in addition to the authority provided in section 303(b)(10), the North Pacific Council may recommend, and the Secretary may approve, conservation and management measures which provide allocations of regulatory discards to individual fishing vessels as an incentive to reduce per vessel bycatch and bycatch rates in a fishery, provided that—

“(i) such allocations may not be transferred for monetary consideration and are made only on an annual basis; and

“(ii) any such conservation and management measures will meet the requirements of subsection (h) and will result in an actual reduction in regulatory discards in the fishery.

“(B) The North Pacific Council may recommend restrictions in addition to the restriction imposed by clause (i) of subparagraph (A) on the transferability of any such allocations, and the Secretary may approve such recommendation.

“(h) CATCH MEASUREMENT.—(1) By June 1, 1997, the North Pacific Council shall recommend, and the Secretary may approve, consistent with the other provisions of this Act, conservation and management measures to ensure total catch measurement in each fishery under its jurisdiction. Such measures shall ensure the accurate enumeration, at a minimum, of target species, economic discards, and regulatory discards.

“(2) To the extent the measures submitted under paragraph (1) do not require United States fish processors and fish processing vessels (as defined in chapter 21 of title 46, United States Code) to weigh fish, the North Pacific Council and Secretary shall submit a plan to the Congress by January 1, 1998, to allow for weighing, including recommendations to assist such processors and processing vessels in acquiring necessary equipment, unless the Council determines that such weighing is not necessary to meet the requirements of this subsection.

“(i) FULL RETENTION AND UTILIZATION.—(1) The North Pacific Council shall submit to the Secretary by June 1, 1999, a report on the advisability of requiring the full retention by fishing vessels and full utilization by United States fish processors of economic discards in fisheries under its jurisdiction if such economic discards, or the mortality of such economic discards, cannot be avoided. The report shall address the pro-

jected impacts of such requirements on participants in the fishery.

“(2) The report shall address the advisability of measures to minimize processing waste, including standards setting minimum percentages which must be processed for human consumption. For the purpose of the report, ‘processing waste’ means that portion of any fish which is processed and which could be used for human consumption or other commercial use, but which is not so used.”

(b) NORTHEAST ATLANTIC OCEAN FISHERIES.—Section 314 (16 U.S.C. 1863) is amended by striking “1997” in subsection (a)(4) and inserting “2000”.

SEC. 118. TRANSITION TO SUSTAINABLE FISHERIES.

(a) The Act is amended by adding at the end of title III the following:

“SEC. 315. FISHING CAPACITY REDUCTION PROGRAMS.

“(a) IN GENERAL.—(1) The Secretary, with the approval of the appropriate Council, may conduct a fishing capacity reduction program (referred to in this section as the ‘program’) in a fishery if the Secretary determines that—

“(A) the program is necessary to prevent or end overfishing, rebuild stocks of fish, or adequate to achieve measurable and significant improvements in the conservation and management of the fishery;

“(B) the fishery management plan implemented for the fishery—

“(i) is consistent with the program objective;

“(ii) will prevent the replacement of fishing capacity removed by the program through a moratorium on new entrants, restrictions on vessel upgrades, and other effort control measures and accounting for the full potential capacity of the fleet; and

“(iii) establishes a specified or target total allowable catch that triggers closure of the fishery or proportional adjustments to reduce catch; and

“(C) the program is cost-effective and capable of repaying any debt obligation incurred under section 1112 of title XI of the Merchant Marine Act, 1936 (46 U.S.C. 1271 et seq.).

“(2) The objective of the program shall be to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time. To achieve that objective, the Secretary is authorized to pay the owners of—

“(A) permits authorizing participation in the fishery, Provided that such permits are surrendered for permanent revocation; or

“(B) fishing vessels, Provided that any such vessel is—

“(i) scrapped; or

“(ii) through the Secretary of the department in which the Coast Guard is operating, subjected to title restrictions that permanently prohibit and effectively prevent its use in fishing.

“(3) Participation in the program shall be voluntary, but the Secretary shall ensure compliance by all who do participate.

“(4) The Secretary shall consult with the appropriate Council, other Federal agencies, appropriate regional authorities, affected States and fishing communities, participants in the fishery, conservation organizations, and other interested parties throughout the development and implementation of any program.

“(b) PROGRAM FUNDING.—(1) The program may be funded by any combination of amounts—

“(A) available under clause (iv) of section 2(b)(1)(A) of the Act of August 11, 1939 (15 U.S.C. 713c-3(b)(1)(A); Saltonstall-Kennedy Act);

“(B) appropriated for fisheries disaster relief under section 316 of this Act or section 308 of the Interjurisdictional Fisheries Act (16 U.S.C. 4107);

“(C) provided by an industry fee system under this section and in accordance with section 1112 of title XI of the Merchant Marine Act, 1936; and

“(D) provided from any State or other public sources and private or nonprofit organizations.

“(2) All funds for the program, including any fees established under subsection (c), shall be paid into the fishing capacity reduction fund established under section 1112 of title XI of the Merchant Marine Act, 1936.

“(c) INDUSTRY FEE SYSTEM.—(1)(A) If an industry fee system is necessary to fund the program, the Secretary, with the approval of the appropriate Council, may conduct a referendum on such system. Prior to the referendum, the Secretary, in consultation with the Council, shall—

“(i) identify, to the extent practicable, and notify all permit or vessel owners who would be affected by the program and who meet eligibility requirements for participation in the referendum; and

“(ii) make available to such owners information about the industry fee system describing the schedule and procedures for the referendum, the proposed program, and the amount and duration and any other terms and conditions of the fee system.

“(B) The industry fee system shall be considered approved if the referendum votes which are cast in favor of the proposed system constitute a two-thirds majority of the participants voting.

“(2) Notwithstanding section 304(d) and consistent with an approved industry fee system, the Secretary is authorized to establish such a system to fund the program and repay debt obligations incurred pursuant to section 1112 of title XI of the Merchant Marine Act, 1936. The fees for a program under this section shall—

“(A) be established by the Secretary and adjusted from time to time as the Secretary determines necessary to ensure the availability of sufficient funds to repay such debt obligations;

“(B) not exceed 5 percent of the gross sale proceeds of all fish landed from the fishery for which the program is established;

“(C) be deducted by the first ex-vessel fish purchaser from the gross fish sales proceeds otherwise payable to the seller and accounted for and forwarded by such fish purchasers to the Secretary in such manner as the Secretary may establish; and

“(D) be in effect only until such time as the debt obligation has been fully paid.

“(d) IMPLEMENTATION PLAN.—(1) The Secretary, in consultation with the appropriate Council and other interested parties, shall prepare and publish in the Federal Register for a 60-day public comment period, an implementation plan for each program. The implementation plan shall—

“(A) define criteria for determining types and numbers of vessels which are eligible for participation in the program taking into account characteristics of the fishery, the requirements of applicable fishery management plans, the needs of fishing communities, any strategy developed under section 316, and the need to minimize program costs; and

“(B) establish procedures for program participation (such as submission of owner bid under an auction system or fair market-value assessment) including any terms and conditions for participation which the Secretary deems to be reasonably necessary to meet the goals of the program;

“(2) During the 60-day public comment period—

“(A) the Secretary shall conduct a public hearing in each State affected by the program; and

“(B) the appropriate Council shall submit its comments and recommendations, if any, regarding the plan and regulations.

“(3) Within 45 days after the close of the public comment period, the Secretary, in consultation with the appropriate Council, shall analyze the public comment received and publish in the Federal Register a final implementation plan for the program and regulations for its implementation. The Secretary may not adopt a final implementation plan involving industry fees or debt

obligation unless an industry fee system has been approved by a referendum under this section."

(b) The Secretary of Commerce shall establish a task force comprised of interested parties to study and report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives within two years of the date of enactment of this Act on the role of the Federal government in—

(1) subsidizing the expansion and contraction of fishing capacity in fishing fleets managed under the Magnuson Fishery Conservation and Management Act; and

(2) otherwise influencing the aggregate capital investments in fisheries.

(c) The Act, as amended by subsection (a), is amended by adding at the end of title III the following:

"SEC. 316. TRANSITION TO SUSTAINABLE FISHERIES.

"(a) SUSTAINABLE DEVELOPMENT STRATEGY.—(1) At the discretion of the Secretary or at the request of the Governor of an affected State or a fishing community, the Secretary, in consultation with the Councils and Federal agencies, as appropriate, may work with regional authorities, affected States, fishing communities, the fishing industry, conservation organizations, and other interested parties, to develop a sustainable development strategy for any fishery identified as overfished under section 304(d) or determined to be a commercial fishery failure under this section or any other Federal fishery for which a fishery management plan is being developed or amended under section 303.

"(2) Such sustainable development strategy shall—

"(A) develop a balanced and comprehensive long-term plan to guide the transition to a sustainable fishery and the development of fishery management plan under section 303 or a fishery rebuilding effort under section 304(d) which—

"(i) takes into consideration the economic, social, and environmental factors affecting the fishery;

"(ii) identifies alternative economic opportunities; and

"(iii) establishes long-term objectives for the fishery including vessel types and sizes, harvesting and processing capacity, and optimal fleet size;

"(B) identify Federal and State programs which can be used to provide assistance to fishing communities during development and implementation of a fishery recovery effort; and

"(C) establish procedures to implement such a plan and facilitate consensus and coordination in regional decision-making;

"(3) The Secretary shall complete and submit to the Congress a report on any sustainable development strategy developed under this section within 6 months after it is developed and annually thereafter.

"(b) FISHERIES DISASTER RELIEF.—(1) At the discretion of the Secretary or at the request of the Governor of an affected State or a fishery community, the Secretary shall determine whether there is a commercial fishery failure due to a fishery resource disaster as a result of—

"(A) natural causes;

"(B) man-made causes beyond the control of fishery managers to mitigate through conservation and management measures; or

"(C) undetermined causes.

"(2) Upon the determination under paragraph (1) that there is a commercial fishery failure, the Secretary is authorized to make sums available to be used by the affected State, fishing community, or by the Secretary in cooperation with the affected State or fishing community for assessing the economic and social effects of the commercial fishery failure, or any activity that the Secretary determines is appropriate to restore the fishery or prevent a similar failure in the future and to assist a fishing community affected

by such failure. Before making funds available for an activity authorized under this section, the Secretary shall make a determination that such activity will not expand the size or scope of the commercial fishery failure into other fisheries or other geographic regions.

"(3) The Federal share of the cost of any activity carried out under the authority of this section shall not exceed 75 percent of the cost of that activity.

"(4) There are authorized to be appropriated to the Secretary such sums as are necessary for each of the fiscal years 1995, 1996, 1997, 1998, 1999, and 2000."

(d) Section 2(b)(1)(A) of the Act of August 11, 1939 (15 U.S.C. 713c3(b)(1)(A)) is amended—

(1) by striking "and" at the end of clause (ii);

(2) by striking the period at the end of clause (iii) and inserting a semicolon and the word "and"; and

(3) by adding at the end the following new clause:

"(iv) to fund the Federal share of a buy-out program established under section 315(b) of the Magnuson Fishery Conservation and Management Act; and"

TITLE II—FISHERY MONITORING AND RESEARCH

SEC. 201. CHANGE OF TITLE.

The heading of title IV (16 U.S.C. 1881 et seq.) is amended to read as follows:

"TITLE IV—FISHERY MONITORING AND RESEARCH"

SEC. 202. REGISTRATION AND DATA MANAGEMENT.

Title IV (16 U.S.C. 1881 et seq.) is amended by inserting after the title heading the following:

"SEC. 401. REGISTRATION AND DATA MANAGEMENT.

"(a) STANDARDIZED FISHING VESSEL REGISTRATION AND DATA MANAGEMENT SYSTEM.—The Secretary shall, in cooperation with the Secretary of the department in which the Coast Guard is operating, the States, the Councils, and Marine Fisheries Commissions, develop recommendations for implementation of a standardized fishing vessel registration and data management system on a regional basis. The proposed system shall be developed after consultation with interested governmental and non-governmental parties and shall—

"(1) be designed to standardize the requirements of vessel registration and data collection systems required by this Act, the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and any other marine resource law implemented by the Secretary, and, with the permission of a State, any marine resource law implemented by such State;

"(2) integrate programs under existing fishery management plans into a nonduplicative data collection and management system;

"(3) avoid duplication of existing state, tribal, or federal systems (other than a federal system under paragraph (1)) and utilize, to the maximum extent practicable, information collected from existing systems;

"(4) provide for implementation through cooperative agreements with, appropriate State, regional, or tribal entities and Marine Fisheries Commissions;

"(5) provide for authorization of funding (subject to appropriations) to assist appropriate State, regional, or tribal entities and Marine Fisheries Commissions in implementation;

"(6) establish standardized units of measurement, nomenclature, and formats for the collection and submission of information;

"(7) minimize the paperwork required for vessels registered under the system;

"(8) include all species of fish within the geographic areas of authority of the Councils and all fishing vessels including vessels carrying a passenger for hire engaged in recreational fishing, except for private recreational fishing vessels used exclusively for pleasure;

"(9) require United States fish processors, and fish dealers and other first ex-vessel purchasers of fish that are subject to the proposed system to submit data (other than economic data) which may be necessary to meet the goals of the proposed system; and

"(10) prescribe procedures necessary to ensure—

"(A) the confidentiality of information collected under this section in accordance with section 402(b); and

"(B) the timely release or availability to the public of complete and accurate information collected under this section.

"(b) FISHING VESSEL REGISTRATION.—The registration system should, at a minimum, obtain the following information for each fishing vessel—

"(1) the name and official number or other identification, together with the name and address of the owner or operator or both;

"(2) gross tonnage, vessel capacity, type and quantity of fishing gear, mode of operation (catcher, catcher processor or other), and such other pertinent information with respect to vessel characteristics as the Secretary may require; and

"(3) identification (by species, gear type, geographic area of operations, and season) of the fisheries in which the fishing vessel participates.

"(c) FISHERY INFORMATION.—The data management system should, at a minimum, provide basic fisheries performance data for each fishery, including—

"(1) the number of vessels participating in the fishery including vessels carrying a passenger for hire engaged in recreational fishing;

"(2) the time period in which the fishery occurs;

"(3) the approximate geographic location, or official reporting area where the fishery occurs;

"(4) a description of fishing gear used in the fishery, including the amount and type of such gear and the appropriate unit of fishery effort; and

"(5) other such data as required under subsection 303(a)(5).

"(d) DEFINITION.—For the purposes of this section, the term "passenger for hire" shall have the same meaning as the definition for such term in section 2102(21a) of title 46, United States Code.

"(e) USE OF REGISTRATION.—Any registration under this section shall not be considered a permit for the purposes of this Act, and the Secretary may not revoke, suspend, deny, or impose any other conditions or restrictions on any such registration or the use of such registration under this Act.

"(f) PUBLIC COMMENT.—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall publish in the Federal Register for a 60-day public comment period, a proposal that would provide for implementation of a standardized fishing vessel registration and data collection system that meets the requirements of subsections (a) through (c). The proposal shall include—

"(1) a description of the arrangements for consultation and cooperation with the department in which the Coast Guard is operating, the States, the Councils, Marine Fisheries Commissions, the fishing industry and other interested parties; and

"(2) any proposed regulations or legislation necessary to implement the proposal.

"(g) CONGRESSIONAL TRANSMITTAL.—Within 60 days after the end of the comment period and after consideration of comments received under subsection (d), the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a proposal for implementation of a national fishing vessel registration system that includes—

"(1) any modifications made after comment and consultation;

"(2) a proposed implementation schedule; and

“(3) recommendations for any such additional legislation as the Secretary considers necessary or desirable to implement the proposed system.

“(h) REPORT TO CONGRESS.—Within 15 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall report to Congress on the need to include private recreational fishing vessels used exclusively for pleasure into a national fishing vessel registration and data collection system. In preparing its report, the Secretary shall cooperate with the Secretary of the department in which the Coast Guard is operating, the States, the Councils, and Marine Fisheries Commissions, and consult with governmental and nongovernmental parties.”

SEC. 203. DATA COLLECTION.

Section 402 is amended to read as follows:

“SEC. 402. DATA COLLECTION.

“(a) COUNCIL REQUESTS.—If a Council determines that additional information and data (other than information and data that would disclose proprietary or confidential commercial or financial information regarding fishing operations or fish processing operations) would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement a data collection program for the fishery which would provide the types of information and data (other than information and data that would disclose proprietary or confidential commercial or financial information regarding fishing operations or fish processing operations) specified by the Council. The Secretary shall approve such a data collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for a data collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this subsection regarding a Council request shall be made within a reasonable period of time after receipt of that request.

“(b) CONFIDENTIALITY OF INFORMATION.—(1) Any information submitted to the Secretary by any person in compliance with any requirement under this Act shall be confidential and shall not be disclosed, except—

“(A) to Federal employees and Council employees who are responsible for fishery management plan development and monitoring;

“(B) to State or Marine Fisheries Commission employees pursuant to an agreement with the Secretary that prevents public disclosure of the identity or business of any person;

“(C) when required by court order;

“(D) when such information is used to verify catch under an individual fishing quota system;

“(E) unless the Secretary has obtained written authorization from the person submitting such information to release such information and such release does not violate other requirements of this subsection; or

“(F) that observer data collected under the North Pacific Research Plan may be released as specified for weekly summary bycatch data identified by vessel, and haul-specific bycatch data without vessel identification.

Nothing in this paragraph prevents the use by the Secretary, or (with the approval of the Secretary) the Council, for conservation and management purposes information submitted in compliance with regulations promulgated under this Act, or the use, release, or publication of bycatch data pursuant to paragraph (1)(F).

“(2) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve such confidentiality, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection

shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with regulations promulgated under this Act or the use, release, or publication of bycatch data pursuant to paragraph (1)(F).

“(c) RESTRICTION ON USE OF CERTAIN DATA.—(1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this Act, the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), or the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such Acts or regulations thereunder.

“(2) The Secretary may not require the submission of a Federal or State income tax return or statement as a prerequisite for issuance of a Federal fishing permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

“(d) CONTRACTING AUTHORITY.—In case of a program for which—

“(1) the recipient of a grant, contract, or other financial assistance is specified by statute to be, or has customarily been, a State, Council, or a Marine Fisheries Commission; or

“(2) the Secretary has entered into a cooperative agreement with a State, Council, or Marine Fisheries Commission, such financial assistance may be provided by the Secretary to that recipient on a sole-source basis, notwithstanding any other provision of law.

“(e) RESOURCE ASSESSMENTS.—(1) The Secretary may use the private sector to provide vessels, equipment, and services necessary to survey the fishery resources of the United States when the arrangement will yield statistically reliable results.

“(2) The Secretary, in consultation with the appropriate Council and the fishing industry—

“(A) may structure competitive solicitations under paragraph (1) so as to compensate a contractor for a fishery resources survey by allowing the contractor to retain for sale fish harvested during the survey voyage; and

“(B) in the case of a survey during which the quantity or quality of fish harvested is not expected to be adequately compensatory, may structure those solicitations so as to provide that compensation by permitting the contractor to harvest on a subsequent voyage and retain for sale a portion of the allowable catch of the surveyed fishery.

“(3) The Secretary shall undertake efforts to expand annual fishery resource assessments in all regions of the Nation.”

SEC. 204. OBSERVERS.

Section 403 is amended to read as follows:

“SEC. 403. OBSERVERS.

“(a) GUIDELINES FOR CARRYING OBSERVERS.—Within one year of the date of enactment of the Sustainable Fisheries Act, the Secretary shall promulgate regulations, after notice and public comment, for fishing vessels that carry observers. The regulations shall include guidelines for determining—

“(1) when a vessel is not required to carry an observer on board because the facilities of such vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; and

“(2) actions which vessel owners or operators may reasonably be required to take to render such facilities adequate and safe.

“(b) TRAINING.—The Secretary, in cooperation with the appropriate States and the National Sea Grant College Program, shall—

“(1) establish programs to ensure that each observer receives adequate training in collecting and analyzing data necessary for the conservation and management purposes of the fishery to which such observer is assigned; and

“(2) require that an observer demonstrate competence in fisheries science and statistical analysis at a level sufficient to enable such person to fulfill the responsibilities of the position;

“(3) ensure that an observer has received adequate training in basic vessel safety; and

“(4) make use of university training facilities and resources, where possible, in carrying out this subsection.

“(c) WAGES AS MARITIME LIENS.—Claims for observers' wages shall be considered maritime liens against the vessel and be accorded the same priority as seamen's liens under admiralty and general maritime law.

“(d) OBSERVER STATUS.—(1) An observer on a vessel and under contract to carry out responsibilities under this Act or the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) shall be deemed to be a Federal employee for the purpose of compensation for work injuries under the Federal Employee Compensation Act (5 U.S.C. 8101 et seq.)

“(2) Paragraph (1) does not apply if the observer is engaged by the owner, master, or individual in charge of the vessel to perform any duties in service to the vessel.”

SEC. 205. FISHERIES RESEARCH.

Section 404 is amended to read as follows:

“SEC. 404. FISHERIES RESEARCH.

“(a) IN GENERAL.—The Secretary shall initiate and maintain, in cooperation with the Councils, a comprehensive program of fishery research to carry out and further the purposes, policy, and provisions of this Act. Such program shall be designed to acquire knowledge and information, including statistics, on fishery conservation and management and on the economics of the fisheries.

“(b) STRATEGIC PLAN.—Within one year after the date of enactment of the Sustainable Fisheries Act, and at least every 3 years thereafter, the Secretary shall develop and publish in the Federal Register a strategic plan for fisheries research for the five years immediately following such publication. The plan shall—

“(1) identify and describe a comprehensive program with a limited number of priority objectives for research in each of the areas specified in subsection (c);

“(2) indicate the goals and timetables for the program described in paragraph (1); and

“(3) provide a role for commercial fishermen in such research, including involvement in field testing.

“(4) provide for collection and dissemination, in a timely manner, of complete and accurate data concerning fishing activities, catch, effort, stock assessments, and other research conducted under this section.

“(c) AREAS OF RESEARCH.—The areas of research referred to in subsection (a) are as follows:

“(1) Research to support fishery conservation and management, including but not limited to, research on the economics of fisheries and biological research concerning the abundance and life history parameters of stocks of fish, the interdependence of fisheries or stocks of fish, the identification of essential fish habitat, the impact of pollution on fish populations, the impact of wetland and estuarine degradation, and other factors affecting the abundance and availability of fish.

“(2) Conservation engineering research, including the study of fish behavior and the development and testing of new gear technology and fishing techniques to minimize bycatch and any adverse effects on essential fish habitat and promote efficient harvest of target species.

“(3) Information management research, including the development of a fishery information base and an information management system that will permit the full use of data in the support of effective fishery conservation and management.

“(d) PUBLIC NOTICE.—In developing the plan required under subsection (a), the Secretary shall consult with relevant Federal, State, and international agencies, scientific and technical experts, and other interested persons, public and private, and shall publish a proposed plan in the Federal Register for the purpose of receiving public comment on the plan. The Secretary shall ensure that affected commercial fishermen are actively involved in the development of the portion of the plan pertaining to conservation engineering research. Upon final publication in the Federal Register, the plan shall be submitted by the Secretary to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives.”

SEC. 206. INCIDENTAL HARVEST RESEARCH.

Section 405 is amended to read as follows:

“SEC. 405. INCIDENTAL HARVEST RESEARCH.

“(a) COLLECTION OF DATA.—Within 9 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall, after consultation with the Gulf of Mexico Fishery Management Council and South Atlantic Fishery Management Council, conclude the collection of data in the program to assess the impact on fishery resources of incidental harvest by the shrimp trawl fishery within the authority of such Councils. Within the same time period, the Secretary shall make available to the public aggregated summaries of data collected prior to June 30, 1994 under such program.

“(b) IDENTIFICATION OF STOCK.—The program concluded pursuant to subsection (a) shall provide for the identification of stocks of fish which are subject to significant incidental harvest in the course of normal shrimp trawl fishing activity.

“(c) COLLECTION AND ASSESSMENT OF SPECIFIC STOCK DATA.—For stocks of fish identified pursuant to subsection (b), with priority given to stocks which (based upon the best available scientific information) are considered to be overfished, the Secretary shall conduct—

“(1) a program to collect and evaluate data on the nature and extent (including the spatial and temporal distribution) of incidental mortality of such stocks as a direct result of shrimp trawl fishing activities;

“(2) an assessment of the status and condition of such stocks, including collection of information which would allow the estimation of life history parameters with sufficient accuracy and precision to support sound scientific evaluation of the effects of various management alternatives on the status of such stocks; and

“(3) a program of data collection and evaluation for such stocks on the magnitude and distribution of fishing mortality and fishing effort by sources of fishing mortality other than shrimp trawl fishing activity.

“(d) BYCATCH REDUCTION PROGRAM.—Not later than twelve months after the enactment of the Sustainable Fisheries Act, the Secretary shall, in cooperation with affected interests, and based upon the best scientific information available, complete a program to—

“(1) develop technological devices and other changes in fishing operations necessary and appropriate to minimize the incidental mortality of bycatch in the course of shrimp trawl activity to the extent practicable, taking into account the level of bycatch mortality in the fishery on November 28, 1990;

“(2) evaluate the ecological impacts and the benefits and costs of such devices and changes in fishing operations; and

“(3) assess whether it is practicable to utilize bycatch which is not avoidable.

“(e) REPORT TO CONGRESS.—The Secretary shall, within one year of completing the pro-

grams required by this section, submit a detailed report on the results of such programs to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives.

“(f) IMPLEMENTATION CRITERIA.—Any conservation and management measure implemented under this Act to reduce the incidental mortality of bycatch in the course of shrimp trawl fishing must be consistent with—

“(1) measures applicable to fishing throughout the range of the bycatch species concerned; and

“(2) the need to avoid any serious adverse environmental impacts on such bycatch species or the ecology of the affected area.”

SEC. 207. MISCELLANEOUS RESEARCH.

(a) FISHERIES ECOSYSTEM MANAGEMENT RESEARCH.—Section 406 (16 U.S.C. 1882) is amended to read as follows:

“SEC. 406. FISHERIES ECOSYSTEM MANAGEMENT RESEARCH.

“(a) ESTABLISHMENT OF PANEL.—Not later than 180 days after the enactment of the Sustainable Fisheries Act, the Secretary shall establish a fisheries ecosystem management advisory panel under this Act to develop recommendations to expand the application of ecosystem principles in fishery conservation and management activities.

“(b) PANEL MEMBERSHIP.—The advisory panel shall consist of not more than 20 individuals and include—

“(1) individuals with expertise in the structures, functions, and physical and biological characteristics of ecosystems; and

“(2) representatives from the Councils, States, fishing industry, conservation organizations, or others with expertise in the management of marine resources.

“(c) RECOMMENDATIONS.—Prior to selecting advisory panel members, the Secretary shall, with respect to panel members described in subsection (b)(1), solicit recommendations from the National Academy of Sciences.

“(d) ECOSYSTEM REPORT.—Within two years of the date of enactment of this Act, the Secretary shall submit to the Congress a completed report of the fisheries ecosystem management advisory panel, which shall include—

“(1) an analysis of the extent to which ecosystem principles are being applied in fishery conservation and management activities, including research activities;

“(2) proposed actions by the Secretary and by the Congress that should be undertaken to expand the application of ecosystem principles in fishery conservation and management; and

“(3) such other information as may be appropriate.

“(e) PROCEDURAL MATTER.—The procedural matters under section 302(j) with respect to advisory panels shall apply to the Fisheries Ecosystem Management advisory panel.”

(b) GULF OF MEXICO RED SNAPPER RESEARCH.—Title IV of the Act (16 U.S.C. 1882) is amended by adding the following new section.

“SEC. 407. GULF OF MEXICO RED SNAPPER RESEARCH.

“(a) THE SECRETARY OF COMMERCE SHALL ENSURE THAT—

“(1) no later than one year after the effective date of the Sustainable Fisheries Act, an independent peer review is completed of whether—

“(A) the fishery statistics of the Secretary concerning the red snapper fishery in the Gulf of Mexico accurately and completely account for all commercial and recreational harvests and fishing effort on the stock;

“(B) the scientific methods, data and models used by the Secretary to assess the status and trends of the Gulf of Mexico red snapper stock are appropriate under this Act;

“(C) the scientific information upon which the fishery management plan for red snapper in the Gulf of Mexico is based is appropriate under this Act;

“(D) the management measures in the fishery management plan for red snapper in the Gulf of Mexico are appropriate for conserving and managing the red snapper fishery under this Act; and

“(E) the benefits and costs of establishing an individual fishing quota program for the red snapper fishery in the Gulf of Mexico and reasonable alternatives thereto have been properly evaluated under this Act; and

“(2) commercial and recreational fishermen in the red snapper fishery in the Gulf of Mexico are provided an opportunity to—

“(A) participate in the peer review under paragraph (1); and

“(B) provide information to the Secretary of Commerce in connection with the review of fishery statistics under paragraph (a)(1) without being subject to penalty under this Act or other applicable law for any past violation of a requirement to report such information to the Secretary of Commerce.

“(b) The Secretary of Commerce shall submit a detailed written report on the findings of the peer review conducted under subsection (a)(1) to the Gulf of Mexico Fishery Management Council no later than one year after the effective date of the Sustainable Fisheries Act.”

SEC. 208. STUDY OF CONTRIBUTION OF BYCATCH TO CHARITABLE ORGANIZATIONS.

(a) STUDY.—The Secretary of Commerce shall conduct a study of the contribution of bycatch to charitable organizations by commercial fishermen. The study shall include determination of—

(1) the amount of bycatch that is contributed each year to charitable organizations by commercial fishermen;

(2) the economic benefits to commercial fishermen from those contributions; and

(3) the impact on fisheries of the availability of those benefits.

(b) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Commerce shall submit to the Congress a report containing determinations made in the study under subsection (a).

(c) BYCATCH DEFINED.—In this section the term “bycatch” has the meaning given that term in section 3(2) of the Magnuson Fishery Conservation and Management Act, as amended by section 103 of this Act.

SEC. 209. STUDY OF IDENTIFICATION METHODS FOR HARVEST STOCKS.

(a) IN GENERAL.—The Secretary of Commerce shall conduct a study to determine the best possible method of identifying various Atlantic and Pacific salmon and steelhead stocks in the ocean at time of harvest. The study shall include an assessment of—

(1) coded wire tags;

(2) fin clipping; and

(3) other identification methods.

(b) REPORT.—The Secretary shall report the results of the study, together with any recommendations for legislation deemed necessary based on the study, within 6 months after the date of enactment of this Act to the Committee on Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 210. CLERICAL AMENDMENTS.

The table of contents is amended by striking the matter relating to title IV and inserting the following:

“Sec. 315. Fishing Capacity Reduction Programs.

“Sec. 316. Transition to sustainable fisheries.

“TITLE IV—FISHERY MONITORING AND RESEARCH

“Sec. 401. Registration and data management.

“Sec. 402. Data collection.

“Sec. 403. Observers.

“Sec. 404. Fisheries research.

“Sec. 405. Incidental harvest research.

“Sec. 406. Fisheries ecosystem management research.

“Sec. 407. Gulf of Mexico red snapper research.

TITLE III—FISHERIES FINANCING**SEC. 301. SHORT TITLE.**

This title may be cited as the "Fisheries Financing Act".

SEC. 302. FISHERIES FINANCING AND CAPACITY REDUCTION.

Title XI of the Merchant Marine Act, 1936 (46 U.S.C. App. 1271 et seq.), is amended by adding at the end the following new sections:

"SEC. 1111. (a) Pursuant to the authority granted under section 1103(a) of this title, the Secretary may, under such terms and conditions as the Secretary shall prescribe by regulation, guarantee and make commitments to guarantee the principal of, and interest on, obligations which aid in refinancing, in a manner consistent with the reduced cash flows available to obligors because of reduced harvesting allocations during implementation of a fishery recovery effort, existing obligations relating to fishing vessels or fishery facilities. Guarantees under this section shall be subject to all other provisions of this title not inconsistent with the provisions of this section. The provisions of this section shall, notwithstanding any other provisions of this title, apply to guarantees under this section.

"(b) Obligations eligible to be refinanced under this section shall include all obligations which financed or refinanced any expenditures associated with the ownership or operation of fishing vessels or fishery facilities, including but not limited to expenditures for reconstructing, reconditioning, purchasing, equipping, maintaining, repairing, supplying, or any other aspect whatsoever of operating fishing vessels or fishery facilities, excluding only such obligations—

"(1) which were not in existence prior to the time the Secretary approved a fishery rebuilding effort eligible for guarantees under this section and whose purpose, in whole or in part, involved expenditures which resulted in increased vessel harvesting capacity; and

"(2) as may be owed by an obligor either to any stockholder, partner, guarantor, or other principal of such obligor or to any unrelated party if the purpose of such obligation had been to pay an obligor's preexisting obligation to such stockholder, partner, guarantor, or other principal of such obligor.

"(c) The Secretary may refinance up to 100 percent of the principal of, and interest on, such obligations, but, in no event, shall the Secretary refinance an amount exceeding 75 percent of the unencumbered (after deducting the amount to be refinanced by guaranteed obligations under this section) market value, as determined by an independent marine surveyor or other competent person for a fishery facility, of the fishing vessel or fishery facility to which such obligations relate plus 75 percent of the unencumbered (including but not limited to homestead exemptions) market value, as determined by an independent marine surveyor, of all other supplementary collateral. The Secretary shall do so regardless of—

"(1) any fishing vessel or fishery facility's actual cost or depreciated actual cost; and

"(2) any limitations elsewhere in this title on the amount of obligations to be guaranteed or such amount's relationship to actual cost or depreciated actual cost.

"(d) Obligations guaranteed under this section shall have such maturity dates and other provisions as are consistent with the intent and purpose of this section (including but not limited to provisions for obligors to pay only the interest accruing on the principal of such obligations during the period in which fisheries stocks are recovering, with the principal and interest accruing thereon being fully amortized between the date stock recovery is projected to be completed and the maturity date of such obligations).

"(e) No provision of section 1104A(d) of this title shall apply to obligations guaranteed under this section.

"(f) The Secretary shall neither make commitments to guarantee nor guarantee obligations under this section unless—

"(1) the Secretary has first approved the fishery rebuilding effort for the fishery in which vessels eligible for the guarantee of obligations under this section are participants and has determined that such guarantees will have no adverse impacts on other fisheries in the region;

"(2) the Secretary has considered such factors as—

"(A) the projected degree and duration of reduced fisheries allocations;

"(B) the projected reduction in fishing vessel and fishery facility cash flows;

"(C) the projected severity of the impact on fishing vessels and fishery facilities;

"(D) the projected effect of the fishery rebuilding effort;

"(E) the provisions of any related fishery management plan under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.); and

"(F) the need for and advisability of guarantees under this section;

"(3) the Secretary finds that the obligation to be guaranteed will, considering the projected effect of the fishery recovery effort involved and all other aspects of the obligor, project, property, collateral, and any other aspects whatsoever of the obligation involved, constitute, in the Secretary's opinion, a reasonable prospect of full repayment; and

"(4) the obligors agree to provide such security and meet such other terms and conditions as the Secretary may, pursuant to regulations prescribed under this section, require to protect the interest of the United States and carry out the purpose of this section.

"(g) All obligations guaranteed under this section shall be accounted for separately, in a subaccount of the Federal Ship Financing Fund to be known as the Fishery Recovery Refinancing Account, from all other obligations guaranteed under the other provisions of this title and the assets and liabilities of the Federal Ship Financing Fund and the Fishery Recovery Refinancing Account shall be segregated accordingly.

"(h) For the purposes of this section, the term 'fishery rebuilding effort' means a fishery management plan, amendment, or regulations required under section 304(e) of the Magnuson Fishery Conservation and Management Act to rebuild a fishery which the Secretary has determined to be a commercial fishery failure under section 316 of such Act.

"SEC. 1112. (a) The Secretary is authorized to guarantee the repayment of debt obligations issued by entities under this section. Debt obligations to be guaranteed may be issued by any entity that has been approved by the Secretary and has agreed with the Secretary to such conditions as the Secretary deems necessary for this section to achieve the objective of the program and to protect the interest of the United States.

"(b) Any debt obligation guaranteed under this section shall—

"(1) be treated in the same manner and to the same extent as other obligations guaranteed under this title, except with respect to provisions of this title that by their nature cannot be applied to obligations guaranteed under this section;

"(2) have the fishing fees established under the program paid into a separate subaccount of the fishing capacity reduction fund established under this section;

"(3) not exceed \$100,000,000 in an unpaid principal amount outstanding at any one time for a program;

"(4) have such maturity (not to exceed 20 years), take such form, and contain such conditions as the Secretary determines necessary for the program to which they relate;

"(5) have as the exclusive source of repayment (subject to the proviso in subsection (c)(2)) and as the exclusive payment security, the fishing fees established under the program; and

"(6) at the discretion of the Secretary be issued in the public market or sold to the Federal Financing Bank.

"(c)(1) There is established in the Treasury of the United States a separate account which shall be known as the fishing capacity reduction fund (referred to in this section as the 'fund'). Within the fund, at least one subaccount shall be established for each program into which shall be paid all fishing fees established under the program and other amounts authorized for the program.

"(2) Amounts in the fund shall be available, without appropriation or fiscal year limitation, to the Secretary to pay the cost of the program, including payments to financial institutions to pay debt obligations incurred by entities under this section, Provided that funds available for this purpose from other amounts available for the program may also be used to pay such debt obligations.

"(3) Sums in the fund that are not currently needed for the purpose of this section shall be kept on deposit or invested in obligations of the United States.

"(d) The Secretary is authorized and directed to issue such regulations as the Secretary deems necessary to carry out this section.

"(e) For the purposes of this section, the term 'program' means a fishing capacity reduction program established under section 315 of the Magnuson Fishery Conservation and Management Act."

SEC. 303. FISHERIES LOAN GUARANTEE REFORM.

(a) AMENDMENT OF MERCHANT MARINE ACT, 1936.—Section 1104A of the Merchant Marine Act, 1936 (46 U.S.C. App. 1274) is amended—

(1) in paragraph (a)—

(A) by striking "or" and the end of paragraph (5);

(B) by striking the period at the end of paragraph (6) and inserting "; or";

(C) by inserting the following new paragraph:

"(7) financing or refinancing, including, but not limited to, the reimbursement of obligors for expenditures previously made for, the purchase of individual fishing quotas in accordance with section 303(d)(4) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1853(d)(4))."; and

(D) in the last sentence, by striking "paragraph (6)" and inserting "paragraphs (6) and (7)"; and

(2) in paragraph (b)(2)—

(A) by striking "equal to" in the third proviso and inserting "not to exceed"; and

(B) by striking "except that no debt may be placed under this proviso through the Federal Financing Bank." in the third proviso and inserting "and obligations related to fishing vessels and fishery facilities under this title shall be placed through the Federal Financing Bank unless placement through the Federal Financing Bank is not reasonably available or placement elsewhere is available at a lower annual yield than placement through the Federal Financing Bank."

(b) LIMIT ON GUARANTEES.—Fishing Vessel Obligation loan guarantees may not exceed \$40,000,000 annually for the purposes of section 504(b) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661c(b)).

(c) ADJUSTMENT OF FEES.—The Secretary of Commerce may take such actions as necessary to adjust fees imposed on new loan guarantee applicants to capture any savings from placement of loan guarantee obligations through the Federal Financing Bank if the total fees charged to applicants do not exceed the percentage amounts paid before the date of enactment of this Act.

(d) ADMINISTRATIVE COSTS.—(1) Fees generated from the adjustment in subsection (c) shall be deposited in the appropriate account of the Federal Ship Financing Fund. The Secretary of Commerce may transfer annually up to \$1,700,000 from such account to pay for the administrative costs associated with the Fisheries

Obligation Guarantee Program if that program has resulted in job cost, as defined in section 502(5) of the Federal Credit Reform Act (2 U.S.C. 661a(5)).

(2) Fees allocated to an individual fishing quota obligation guarantee program pursuant to section 303(d)(4)(A) (16 U.S.C. 1853(d)(4)(A)) shall be placed in a separate account for each such program in the Federal Ship Financing Fund for the purpose of providing budget authority for each such program. Amounts in any such accounts shall be identified in future fiscal year budget submissions of the Executive Branch.

(e) PROHIBITION.—Until October 1, 2001, no new loans may be guaranteed by the Federal Government for the construction of new fishing vessels if the construction will result in an increased harvesting capacity within the United States exclusive economic zone.

TITLE IV—MARINE FISHERY STATUTE REAUTHORIZATIONS

SEC. 401. MARINE FISH PROGRAM AUTHORIZATION OF APPROPRIATIONS.

(a) FISHERIES INFORMATION COLLECTION AND ANALYSIS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out fisheries information and analysis activities under the Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$49,340,000 for fiscal year 1996, \$50,820,000 for fiscal year 1997, and \$52,345,000 for each of the fiscal years 1998, 1999, and 2000. Such activities may include, but are not limited to, the collection, analysis and dissemination of scientific data necessary for the management of living marine resources and associated marine habitat.

(b) FISHERIES CONSERVATION AND MANAGEMENT OPERATIONS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out activities relating to fisheries conservation and management operations under the Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$28,183,000 for fiscal year 1996, \$29,028,000 for fiscal year 1997, \$29,899,000 for each of the fiscal years 1998, 1999, and 2000. Such activities may include, but are not limited to, development, implementation, and enforcement of conservation and management measures to achieve continued optimum use of living marine resources, hatchery operations, habitat conservation, and protected species management.

(c) FISHERIES STATE AND INDUSTRY COOPERATIVE PROGRAMS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out State and industry cooperative programs under the Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$22,405,000 for fiscal year 1996, \$23,077,000 for fiscal year 1997, and \$23,769,000 for each of the fiscal years 1998, 1999, and 2000. These activities include, but are not limited to ensuring the quality and safety of seafood products and providing grants to States for improving the management of interstate fisheries.

(d) AUTHORIZATION OF APPROPRIATIONS FOR CHESAPEAKE BAY OFFICE.—Section 2(e) of the National Oceanic and Atmospheric Administration Marine Fisheries Program Authorization Act (Public Law 98-210; 97 Stat. 1409) is amended—

(1) by striking “1992 and 1993” and inserting “1996 and 1997”;

(2) by striking “establish” and inserting “operate”;

(3) by striking “306” and inserting “307”;

(4) by striking “1991” and inserting “1992”.

(e) RELATION TO OTHER LAWS.—Authorizations under this section shall be in addition to monies authorized under the Magnuson Fishery

Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.), the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), the Endangered Species Act of 1973 (16 U.S.C. 3301 et seq.), the Anadromous Fish Conservation Act (16 U.S.C. 757 et seq.), and the Interjurisdictional Fisheries Act (16 U.S.C. 4107 et seq.).

SEC. 402. INTERJURISDICTIONAL FISHERIES ACT AMENDMENTS.

(a) REAUTHORIZATION.—Section 308 of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107) is amended—

(1) by amending subsection (a) to read as follows:

“(a) GENERAL APPROPRIATIONS.—There are authorized to be appropriated to the Department of Commerce for apportionment to carry out the purposes of this title—

“(1) \$3,400,000 for fiscal year 1996;

“(2) \$3,900,000 for fiscal year 1997;

“(3) \$4,400,000 for each of the fiscal years 1998, 1999, and 2000.”;

(2) by striking “1994 and 1995,” in subsection (b) and inserting “1994, 1995, 1996, 1997, 1998, 1999, and 2000”;

(3) by striking “\$350,000 for each of the fiscal years 1989, 1990, 1991, 1992, and 1993, and \$600,000 for each of the fiscal years 1994 and 1995,” in subsection (c) and inserting “\$650,000 for fiscal year 1996, \$700,000 for fiscal year 1997, \$750,000 for each of the fiscal years 1998, 1999, and 2000.”.

(b) AMENDMENT TO IMPLEMENT THE NORTHEAST, NORTHWEST, AND GULF OF MEXICO DISASTER RELIEF PROGRAMS.—Section 308(d) of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107(d)) is amended—

(1) by striking “award grants to persons engaged in commercial fisheries, for uninsured losses determined by the Secretary to have been suffered” in paragraph (1) and inserting “assist persons engaged in commercial fisheries, either directly through assistance to persons or indirectly through assistance to State and local government agencies and non-profit organizations, for projects or other measures designed to alleviate impacts determined by the Secretary to have been incurred”;

(2) by striking “a grant” in paragraph (3) and inserting “assistance”;

(3) by inserting “, if provided directly to a person,” in paragraph (3) after “subsection”;

(4) by striking out “gross revenues annually,” in paragraph (3) and inserting “net annual revenue from commercial fisheries.”;

(5) by striking paragraph (4) and inserting the following:

“(4) Assistance may not be provided under this subsection as part of a fishing capacity reduction program in a fishery unless the Secretary determines that—

“(A) adequate conservation and management measures are in place in that fishery; and

“(B) adequate measures are in place to prevent the replacement of fishing capacity eliminated by the program in that fishery.”;

(6) by striking “awarding” and all that follows in paragraph (5) and inserting “assistance provided under this subsection.”.

SEC. 403. ANADROMOUS FISHERIES AMENDMENTS.

Section 4(a)(2) of the Anadromous Fish Conservation Act (16 U.S.C. 757d(a)(2)) is amended by striking “and 1995.” and inserting “1995, 1996, 1997, 1998, 1999, and 2000.”.

SEC. 404. ATLANTIC COASTAL FISHERIES COOPERATIVE MANAGEMENT ACT AMENDMENTS.

(a) DEFINITION.—Paragraph (1) of section 803 of the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5102) is amended—

(1) by inserting “and” after the semicolon in subparagraph (A);

(2) by striking “States; and” in subparagraph (B) and inserting “States.”;

(3) by striking subparagraph (C).

(b) IMPLEMENTATION STANDARD FOR FEDERAL REGULATION.—Subparagraph (A) of section

804(b)(1) of such Act (16 U.S.C. 5103(b)(1)) is amended by striking “necessary to support” and inserting “compatible with”.

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 809 of such Act (16 U.S.C. 5108) is amended—

(1) by striking “and” after “1995.”;

(2) striking “1996.” and inserting “1996, and \$7,000,000 for each of the fiscal years 1997, 1998, 1999, and 2000.”.

SEC. 405. TECHNICAL AMENDMENTS TO MARITIME BOUNDARY AGREEMENT.

(a) EXECUTION OF PRIOR AMENDMENTS TO DEFINITIONS.—Notwithstanding section 308 of the Act entitled “An Act to provide for the designation of the Flower Garden Banks National Marine Sanctuary”, approved March 9, 1992 (Public Law 102-251; 106 Stat. 66) hereinafter referred to as the “FGB Act”, section 301(b) of that Act (adding a definition of the term “special areas”) shall take effect on the date of enactment of this Act.

(b) CONFORMING AMENDMENTS.—

(1) Section 301(h)(2)(A) of the FGB Act is repealed.

(2) Section 304 of the FGB Act is repealed.

(3) Section 3(15) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(15)) is amended to read as follows:

“(15) The term “waters under the jurisdiction of the United States” means—

“(A) the territorial sea of the United States;

“(B) the waters included within a zone, contiguous to the territorial sea of the United States, of which the inner boundary is a line co-terminous with the seaward boundary of each coastal State, and the other boundary is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured; and

“(C) the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, those areas east of the maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of Russia is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured, except that this subparagraph shall not apply before the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for the United States.”.

Mr. STEVENS. Mr. President, I thank the leader for his courtesy and for his support in moving forward on this bill. The statement made by the leader is correct. As I understand it, there could be, possibly, three votes tomorrow. We are going to try to work that out tonight and see what happens. It is my intention this evening to offer the managers' amendment to S. 39, which is a bill to reauthorize and strengthen the Magnuson Fisheries Conservation Management Act.

This managers' amendment will replace the substitute that was approved and reported by the Commerce Committee and will be adopted as original text when it is adopted by the Senate. This is bipartisan legislation that has been in the works now for over 3 years. We called it the “Sustainable Fisheries Act.” It is the most significant revision of the Magnuson Act since that bill was enacted in 1976.

I first introduced that 200-mile limit concept in the Senate, Mr. President, in 1971. We never envisioned the problems that exist today. I was very grateful to my friend from the State of

Washington—I used to call him my “southern neighbor”—Senator Magnuson, for having worked on that bill for a period of time. It was my motion, made after the bill was passed, that named the bill after the former Senator from Washington, who had been chairman of the Commerce Committee and of the Appropriations Committee.

At that time, in the 1970’s, we had two primary goals—to Americanize the fisheries off our shores within a 200-mile limit and to protect the U.S. fishery resources, or to protect the capability of the fisheries to sustain themselves.

We thought Americanization would go a long way toward conserving the fishery resources of this Nation. Foreign vessels have now given way to U.S. vessels that are capitalized now far beyond what we ever envisioned in the seventies, and the fisheries waste continues to get worse in many areas.

This bill, S. 39, revitalizes the conservation measures of the Magnuson Act. Senators KERRY, PRESSLER, HOLLINGS, MURKOWSKI, INOUE, LOTT, SIMPSON, and PELL have cosponsored this bill that I have introduced.

I ask unanimous consent that these and others who may wish to be added as cosponsors to this bill be added for the RECORD if their request is made before the close of business today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. S. 39, for the first time, would require: First, the reduction of bycatch in fisheries; require the fishery management councils and the Secretary of Commerce to prevent overfishing; authorize a vessel and permit reduction program to help eliminate overcapacity in our fisheries capability; require council members to recuse themselves from voting on matters they would personally benefit from; require fishing communities to be considered in fishery management decisions; create a lien registry to keep track of encumbrances on limited access permits; and create a new registration system to keep track of fishing vessels themselves.

This bill, S. 39, will strengthen existing sections of the Magnuson Act to protect essential fish habitat; streamline the approval process for fishery management plans and regulations; strengthen emergency regulatory authority, and expand research activities.

The waste reduction provisions of S. 39 are particularly needed now, Mr. President. Under S. 39, the regional councils will be required to include measures in every fisheries management plan to prevent overfishing. If a council allows a fishery to become overfished, the Secretary of Commerce will be required to step in and stop it.

We continue to support having management decisions made in the regions themselves. But if the fisheries management councils have allowed a fishery to become overfished, we want it to be stopped immediately. And this bill will authorize the Secretary of Commerce to step in at that point.

But I remind the Senate that the management decisions may be made and should be made by the councils themselves, and this bill preserves that authority.

Under S. 39, the councils will also be required to reduce the amount of bycatch in every fishery around our country. This bill will give the councils new tools, including harvest incentives and penalty fees, to stop wasteful practices.

The bycatch problem is of great concern in my State of Alaska, where over half of the Nation’s fish are harvested each year off our shores.

In 1995, 60 factory trawlers discarded nearly as much fish in the Bering Sea as was kept in the New England lobster fishery, the Atlantic mackerel fishery, the Gulf of Mexico shrimp fishery, the Pacific sablefish fishery, and the North Pacific halibut fishery combined.

The waste in that area was as great as the total catch of all the major fisheries off our shores. These 60 factory trawlers threw overboard—dead and unused—about one out of every four fish they caught.

I have a chart here to call to the attention of the Senate. Last year, the Bering Sea trawl vessels—this is all the trawl vessels and not just factory trawlers that are committing waste—threw 17 percent of their catch overboard, dead and not used. That total catch, as you can see by the chart, exceeds by almost 500 million pounds the total catch of all five of the major fisheries of the United States.

That is the way we are trying to find to reduce their bycatch. Bycatch is the harvest of fisheries that are not in the targeted fishery area; not the fish that a vessel is trying to catch, but the fish that is caught incidentally.

I hope that this bill will bring a stop to this inexcusable amount of waste.

This bill also addresses the divisive issue of individual fisheries quotas, the so-called IFQ’s, or CTQ’s.

The “individual fishing quota” as defined in S. 39 means both the transferable and nontransferable quotas that are known as IFQ’s. We place a moratorium on new IFQ programs until September 30 in the year 2000.

In the meantime, the National Academy of Sciences will study IFQ’s with the Secretary of Commerce, the councils, the regional councils, and two regional working groups to address many unresolved issues.

There are only three IFQ plans in our Nation today. Two of them are on the east coast: the wreckfish IFQ program and the surf clam IFQ program.

The largest IFQ program went into effect last year in the halibut/black cod fisheries off my State of Alaska. The Alaska program involves almost 100 times as much fishing vessels as the two east coast programs.

IFQ’s are a new tool that we did not even consider in 1990, the last time we reauthorized the Magnuson Act. They were not even dreamed of when we first passed the Magnuson Act.

Unlike other limited access systems, IFQ’s allow the potential consolidation of fishing efforts in a fishery. This characteristic may provide a useful tool to allow the market to drive a reduction in fishing capacity when needed, Mr. President. However, it has potential negative and other unknown effects.

We are worried about the new level of capital requirements of IFQ’s. We are worried that fisheries will become investor owned totally under IFQ’s and not the family traditional fishing that has been the hallmark of America’s fisheries. We are worried about the impact of IFQ’s on the fishing communities themselves. And we are worried about foreign control of IFQ’s, once they are established, and the fisheries themselves if a rigid U.S. ownership standard is not set for them.

In other words, we Americanized the system. And, now, if we really let IFQ’s go unrestrained, we could really end up with more ownership of the IFQ’s and destroy the whole purpose of the Magnuson Act to create an Americanized zone within which we would protect our fisheries and have a conservation ethic to be the major goal of the Magnuson Act.

The Magnuson Act, this bill, would permanently ban transferable IFQ’s in the House version that we received. That was H.R. 39.

Our Senate bill puts a 4-year moratorium on both transferable and nontransferable IFQ’s. We just do not have enough information yet, Mr. President, to decide what limitations ought to be put on the IFQ’s, if any. We need facts, and we need a study.

I believe the House will agree with this approach, Mr. President.

The academy’s IFQ report will be due in the year 1998, one year before the next reauthorization of the Magnuson Act.

S. 39 includes measures important to predominantly Native and aboriginal communities in both Alaska and Hawaii. For Alaska, this bill will codify the community development quota programs already adopted by the North Pacific Council. For Hawaii, it will provide CDQ authority based on the concepts that have already been developed in Alaska.

As I mentioned, this bill has been a bipartisan effort. It has not been an easy job, Mr. President, to bring together all of the diverse views in this body on this issue. But it is the best of what this body should be doing—responding together to the devastating, wasteful practices that we know of, and making every vessel follow sound conservation practices.

I want to take the time to specifically thank my good friend from Massachusetts, Senator KERRY, who has worked with me for some time on this issue. Through the change of political control, we find ourselves working together with very slight difference. This time I was chairman. The last time he

was. But in purpose we have had a singular purpose, and that is to stop the wasteful practices.

Senator PRESSLER and Senator HOLLINGS, the chairman and ranking member of our committee, and Senators LOTT, SNOWE, INOUE, MURKOWSKI, GORTON, HUTCHISON, BREAUX, and MURRAY, and all their staffs, have been very cooperative in this effort.

As I said, it has been contentious. Anyone that has ever dealt with fisheries and fishermen know the issues will get contentious. It takes a long time to work out these disputes.

I thank the staff involved: Trevor McCabe and Earl Comstock, who have worked with me; Tom Melius, who worked with Senator PRESSLER; Penny Dalton, who worked with Senator KERRY and Senator HOLLINGS; and Glenn Merrill and Alex Elkan, Sea Grant fellows in the Commerce Committee who worked with us this year.

Mr. President, this bill is the product of hearings we have held throughout this country.

We went to Maine; we went to Massachusetts, North Carolina, South Carolina, Louisiana; we went into Seattle; several places in my State, and we have held several hearings right here in Washington. This is the way I think the Senate should work. We should go out to the people, get their views and come back and try to find a way to meet the major contentions that have been pressed on us from out in our country.

It is not an easy bill for us to handle in the way we are now compelled to handle it because of the timeframe as we close the session. It has taken the cooperation of the majority and minority leader—and I do congratulate Senator DASCHLE for his role in this also—to make certain that we have had the time to proceed.

Where we are now is we have a time agreement and we have a specific allocation of opportunities for Members to offer their amendments. I believe most of those amendments have been cared for in our revisions of the managers' amendment which is a bipartisan effort by myself and Senator KERRY and our staffs, working with all the staffs of the Senate that were interested in this issue.

It is my intention now to yield to my good friend, and I know he has a statement to make. But we are hopeful that Senators who may have some interest in making comments realize what the leader has said. We will debate this tonight. We will debate the amendments that are offered pursuant to the agreement tonight but tomorrow there will be no debate. We have not asked for debate tomorrow. We just want to vote on the amendments that might be presented to us tonight and then final passage of this bill.

To me this is the most significant piece of legislation to be presented to this Congress. It will be the hallmark of conservation of fisheries throughout the world. I hope the Senate does not

miss that. The world is looking to us to see what we are going to do with regard to protecting the fisheries within our 200-mile limit. These are strong measures, Mr. President. The authorizations going to these councils are very strong. The regional fisheries councils were a creature of this Congress, as a matter of fact of this Senate. They amount to delegation of authority from the Federal Government to a new body created by Federal legislation and requests the States to delegate similar authority to those bodies. That has been carried out, and nowhere has the council been more involved in the daily lives of people than in my State through the activities of the North Pacific Fisheries Council. It is a unique council. It is totally off the waters of one State but it has members from the States of Washington and Oregon and a national representative also.

So it is something I hope the Senate realizes means a very great deal to me personally and to my State. Half of the coastline of the United States is off our shores. More than half of the fisheries are off our shores. More than half of the fish that our people consume come from the waters off the shores of Alaska. We want to preserve the reproductive capability of those fisheries. We do not want to see a continuation of the numbers on this chart.

When we see the possibility of hundreds of millions of pounds of fish being wasted because of fishing practices that could be avoided, we believe it is time for the Congress to act. I am glad that we have reached the point now where I believe the Congress will act, and I am hopeful that the House of Representatives will be willing to accept our changes and modifications to this bill.

Again, I commend my good friend who has traveled with me throughout the country for hearings on this measure, and I yield to the Senator from Massachusetts.

Mr. KERRY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

Mr. KERRY. Mr. President, I thank the Senator from Alaska not just for his comments but I particularly thank him for the great personal friendship that we have built over the course of these years working together on this and also for the great bipartisan approach to this.

This is tough legislation. There are enormous competing interests all across this country—sport fishermen, commercial fishermen, 15 different kinds of commercial fishermen in one particular area, all of them tugging at each other, a huge amount of vendors and others with interests to each of those fishermen, processors, foreign export involvement. The competing interests are as broad and as complicated as almost any that I have confronted in the course of my time in the Senate, perhaps with the exception of the Clean Air Act or something that similarly

brings every part of the country against another.

I think the distinguished Senator from Alaska has done a terrific job of helping to build that bipartisan effort here. We started out 4 years ago when I was chairman of the subcommittee, and at that time we held hearings in various parts of the country. At the time that the Senate switched control this bill basically stayed the same. The names switched, Senator STEVENS took over the subcommittee, but we continued to work in the same bipartisan way, and I think it is a tribute to his efforts and to Senator HOLLINGS' efforts as the ranking member of the full committee that we are now able to be here and able to proceed.

It is with great satisfaction that I am able to commend to my colleagues this piece of legislation which is appropriately called the Sustainable Fisheries Act of 1996. It is without question the most important rewrite of our fishing laws, the Federal fishing laws since 1976 when the Magnuson Fisheries and Conservation Management Act was enacted, and at that time as many remember we Americanized the fisheries within 200 miles of our shore. We reached out and said we are going to try to manage that 200-mile coastline better.

It has been a long time in coming, but this bill is going to result in a significantly improved regime for the management of the Nation's marine fishery resources. These amendments improve and strengthen the standards upon which the current management regime is based, and it enables us to further enhance our capacity to be able to restore and maintain healthy and sustainable fisheries.

The amendments that are offered in this bill were developed in conjunction with and for the most part supported by a diverse representation of groups, all of them with an interest in the marine fisheries including the commercial and recreational fishermen, the environmental community, coastal communities, and States.

In recent months we have all read many editorials that have been building up support around the country for the passage of this bill. I will share a quick piece from my hometown newspaper, the Boston Globe which wrote that "Before U.S. Senators go home . . . they have an obligation to complete legislation extending the Magnuson Fishery Conservation and Management Act, the foundation for rescuing America's troubled fishing industry."

Enactment of S. 39 is critical if we are going to put our fisheries back onto a sustainable path and literally avert an environmental catastrophe on a national level.

Of the 157 fishery resources for which the National Marine Fisheries Service manages, 36 percent—51 different stocks—are overfished; 44 percent or 69 stocks are fully harvested, and 20 percent are underutilized. The main point illustrated by these figures is that

many of the fishery resources that have provided the greatest economic benefit to fishermen and to this Nation are just simply overfished or approaching the overfished level. This situation is being exacerbated by the demands of a population with an increasing appetite for eating fish. The net effect has been that we have too many fishermen chasing too few fish.

We are precariously close to fisheries failures in many of our most commercially important fish stocks, and it is imperative that we take immediate action if we are to avert disasters such as the one that we are currently experiencing, literally living in, off the waters of New England. S. 39 provides guidance and the tools necessary to help ensure that fishery failures will be avoided and the fish stocks can be rebuilt to provide the greatest possible economic benefit to our Nation.

As I mentioned earlier, this bill came neither easily nor quickly. It is the result of 4 years of work, the subject of 15 hearings and countless staff hours and meetings among Senators and interested parties. I commend all of those parties for the fact that we are now on the floor, able to pass this legislation, as I am confident we will in a matter of hours. I would like to point out that, from the start, it has been the willingness to be bipartisan that has brought all of us to this point, and I think that is a tribute to the way in which the Senate can work when people set their minds to it.

It has been my sense that Senator STEVENS' own commitment to this obviously came out of the fact, which many may not realize, that he was one of the original crafters of the Magnuson bill when it was first passed in 1976. He has had a long-time commitment to achieving this. Obviously, because he represents the State of Alaska, he has enormous interests in what we are doing here today.

I also would like to express my gratitude to Senators GORTON and MURRAY for their recognition of the importance of this bill and the benefit that it holds out to our Nation as a whole. Fishery issues rarely lend themselves to unanimous agreement, as both Senator STEVENS and I have described, and the scope and breadth of the changes that are offered in this bill are such that the competing interest groups have had to fight fiercely to try to reach accommodation and compromise. The Senators from Washington have, quite rightly, represented the interests of their State. That is what they are supposed to do and that is how we are supposed to work through this process. I commend both of them for having done that diligently and tenaciously in this effort.

But in the end, it is our final responsibility to balance all of the parochial interests with the interests of the Nation as a whole. I believe that, while there may be parts of this bill which may not provide the full level of benefits that one particular group or an-

other may want, in the end this bill provides an overall benefit and balance to the Nation that greatly exceeds the sum of its parts.

Fishing has been and continues to be an extraordinarily important part of this Nation's heritage. We know that very, very well in Massachusetts, in New Hampshire—the Chair's State—in Maine, and all down our coastline. Since the first settlers came to this country, we have been dependent on the sea. We have, however, found that as Federal data on the overutilization of fish stocks has increased, we now understand there is a growing problem in the management of these resources. That growing problem threatens the sustainability of these recreationally and commercially valuable resources. So, before I elaborate on the benefits of S. 39, I would just like to highlight for a moment the economic asset that the fishing industry carries to this country.

Directly or indirectly, the seafood industry contributes nearly \$50 billion annually to the U.S. economy. According to data for 1994, U.S. commercial fishermen landed 10.5 billion pounds of fish and seafood products, producing a record \$3.8 billion in dockside revenues. By weight of catch, we are now the world's fifth leading fishing nation, and the United States is also the world's top seafood exporter, with exports valued at \$7.4 billion. Millions of salt water anglers have turned marine recreational fisheries into a multimillion dollar industry that caught an estimated 361.9 million fish—that includes those caught and released alive—and an estimated 66.1 million fishing trips; an extraordinary amount of activity. As an economic asset, recreational fisheries and related industries generate over \$7 billion annually to our economy.

In New England, we have, tragically, become all too familiar with the downside of all of this. We have seen the collapse of the cod and the haddock fisheries. It has come about principally because of overfishing and, as a result of that overfishing, our fishermen have fallen on hard times. In 1992, overfishing was estimated to cost Massachusetts alone about 88 million pounds of groundfish harvests worth at least \$193 million annually. For all of New England, annual losses total at least \$350 million and 14,000 jobs. While we do not have specific numbers for New England, at the national level the Department of Commerce estimates that rebuilding our fisheries to a more productive level could create 300,000 new jobs and billions of dollars in additional revenues.

So, I want to emphasize what we are doing here today is not the signal of the end of the fishing era, it is not the signal of a continuing decline in fisheries; it is our effort to guarantee that there is a growth industry, that there is an industry for the future. I repeat, the national estimates are, if we do this properly, we can create 300,000 new

jobs, billions of dollars of additional revenue, and we can have sustainable fisheries for generations to come.

The testimony of Nantucket fisherman Capt. Mark Simonitsch at a hearing I held in New Bedford summarizes the cost of overfishing very, very well. Let me just share his words. He said:

You sit there and you think over the years that, if you can finally pay your mortgage off, that the money is all going to go into your pocket. This year, I've yet to catch 50,000 pounds of fish. I have lost thousands of dollars. And my crew has made so little, a crew that has been with me, believe it or not, for 17 years, they may not come back next year. So I have chosen today to talk about solving the hard problem, Senator, and that's getting fish back.

That statement was from a Massachusetts fishing captain who called this crisis to the attention of all of us.

The Sustainable Fisheries Act goes a long way toward solving the problem of getting the fish back. In addition, the bill calls for monitoring the health of fisheries and limits on harvests to prevent overfishing from recurring. To quote Captain Simonitsch again, he said it's time to stop "all this wheelhouse thinking and tire kicking" and get the bill enacted.

The bill also continues my fight for assistance to New England fishermen, extending Federal authority for fisheries disaster relief and authorizing vessel and permit buyout programs to reduce excess fishing capacity and pressure on the fishing industry itself.

In addition to preventing overfishing, the Sustainable Fisheries Act calls for action to address two other important environmental concerns—reducing bycatch and waste, and protecting fish habitat.

As the director of the New England Aquarium pointed out in a recent letter:

At least 20 percent of our total fishery catch is thrown overboard dead or dying. In 1994, the U.S. fishing fleet off Alaska dumped a staggering 750 million pounds of bycatch, more fish [was dumped overboard and thrown away] than was caught by the entire New England fleet last year.

The letter goes on to say:

The greatest long-term threat to the viability of our nation's marine resources could be the continuing loss and degradation of coastal marine habitat. Louisiana alone has lost half a million acres of wetland since the mid-1950's. The National Marine Fisheries Service estimates that \$200 million is lost annually in reduced catches due to ongoing habitat loss.

As all of us know, if you destroy the habitat, you destroy the nurseries and you destroy the ecosystem on which those nurseries are dependent, which then diminishes the ability to have a sustainable fishery. We need to understand the linkage of those wetlands and the role they play in the spawning of fish and of the ecosystem to the total catch that will ultimately be available.

I might add that a couple of years ago, the Senator from Alaska and I took steps through the United Nations to end driftnet fishing. Driftnets, 30,000

miles of monofilament nets were being laid out at night in the northwest Pacific. These nets would break off and fish on their own. They would be what are called phantom nets or ghost fisheries where they would float to the surface as plastic and trap fish, mostly salmon coming out of the Columbia River, and they would sink to the bottom where the scavengers would eat the carcasses until it was light enough and drift some more.

There are still some individuals in certain nations who are continuing this outlawed practice of driftnet fishing. That is the kind of example of protection we need to be involved with to deal with the concerns of habitat and of bycatch and waste. This bill would require the fishery management plans to assess bycatch levels in each fishery and take steps to minimize the bycatch and the mortality of bycatch which cannot be avoided.

In addition, fishery managers are required under this bill to identify essential fish habitat and to minimize the adverse effects on habitat due to fishing.

In summary, Mr. President, the bill before us addresses many of the problems affecting the management of our fisheries and provides essential tools to reversing the damaging trends that I have outlined. Our Nation's fisheries are literally at a crossroads, and significant action is required to remedy our marine resource management problems and preserve the way of life of our coastal communities.

I believe that this bill goes a long way toward solving the hard problems and providing help for fishermen and coastal communities during the difficult rebuilding period. The opportunity to fish and to have fish on the dinner table is something that many Americans have simply taken for granted in the past. But unless we take the steps that are set forth in this bill to ensure that these vital resources are conserved, they will not be there for future generations.

This is a vital bill. It is a good bill for the environment, as Senator STEVENS said, and I share the view it is the most important environmental legislation that we will pass in this session. It is good for fishermen, it is good for economic welfare of this Nation, and I remain committed to the goal that fishing will continue to be a part, an essential part, of the culture of our coastal communities of the United States and of Massachusetts and of our economies. It is that important, and it means that much.

Finally, Mr. President, I would just like to say that there has been an extraordinary effort by both the majority staff and the minority staff who have labored literally for years, but particularly in the last few months, and an extraordinary amount of time has been put into developing this bill.

I would like to thank, on the Democratic side, Penny Dalton, Lila Helms, and Kate English, who each have done

just a tremendous job. On the Republican side, I would like to thank Trevor McCabe, Earl Comstock, and Tom Melius. And during the past 2 years there have been a number of people on my staff who have served as legislative fellows on my staff or on the Commerce Committee and who have put in an enormous amount of time and energy to make this bill possible. Particularly I would like to thank Steve Metruck, Alex Elkan, Peter Hill, and Tom Richey for their contribution to this legislation.

Mr. GORTON addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. KERRY. Mr. President, are we under controlled time?

The PRESIDING OFFICER. Yes.

Mr. KERRY. Are we divided equally?

The PRESIDING OFFICER. Yes, 60 minutes equally divided. The Senator from Massachusetts has 11 minutes remaining. The Senator from Alaska has 14 minutes 15 seconds remaining.

Mr. GORTON. Mr. President, there being relatively few people here, I ask unanimous consent that that time be extended at least for those Members who are willing to speak on this issue tonight.

Mr. KERRY. Mr. President, in order to keep an agreement here so we can know the time, I ask how much time the Senator from Washington needs.

Mr. GORTON. Somewhere in the neighborhood of 20 minutes.

Mr. KERRY. How much time does Senator MURRAY need?

Mrs. MURRAY. Approximately 10 minutes or less.

Mr. KERRY. Mr. President, I ask unanimous consent, in addition to the time allotted to both sides, the Senators from Washington be allowed to speak: Senator GORTON for 15 minutes and Senator MURRAY for 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Washington is recognized.

Mr. GORTON. Mr. President, our journey to this point on this bill has been long and tortured. And at the end of the road I find a product that, from the Washington State perspective, is greatly improved from the measure that passed out of committee and immeasurably better than H.R. 39, which was rejected by every Member of the Washington delegation, Republican and Democrat alike, and which has my support. Let me make absolutely clear, however, that even though I will vote for S. 39, as amended by the manager's amendment, any unilateral changes made by the House will be the death knell to the Sustainable Fisheries Act in this Congress.

The Sustainable Fisheries Act has been sold, and bought hook, line, and sinker, by the national press and the majority of my colleagues, as the strongest environmental bill of this Congress. That is, I am afraid, an overly simplistic characterization.

I do not, and have not, taken issue with the true conservation measures in

S. 39. But the act is as much a social and economic manifesto as an environmental one. The bill is as much about the allocation of fishery resources—the allocation between commercial and recreational fishers, between processors and harvesters, between onshore and offshore processors, and yes, between Washington and Alaska, as it is about the conservation of fish.

Before I comment on what I think is wrong with this measure, I would like to recognize those aspects that are sound. I generally endorse the measure's conservation provisions; its treatment of individual fishing quotas; and its efforts to mitigate the effects of the Federal court's allocation of shellfish resources to Indian tribes in Washington State.

CONSERVATION OF FISHERY RESOURCES

The conservation provisions in S. 39 are the only aspect of the bill that most of the public knows or cares about. Contrary to reports, I join my colleagues in lauding those provisions that aim to reduce waste and bycatch in the fisheries, to prevent overfishing, and to restore overfished fisheries to health. But I take a more cautious view of the extent to which these worthy goals will be achieved than do most of my colleagues and members of the national press.

This bill pushes the regional fishery management councils, some of which have proven unwilling to practice sound management, in the direction of responsible conduct. In fact, I don't believe that the Sustainable Fisheries Act empowers the fishery management councils, or the Secretary of Commerce, to do much more than these entities already are empowered to do. Rather, the Sustainable Fisheries Act is a statement by Congress that conservation of the resource must be a priority, and the bill highlights the tools that councils and the Secretary can use to achieve this goal.

I approve of inviting fishery managers to act more responsibly, but I urge vigilance. Regional politics and short-term interests have conspired in the past to undermine responsible resource management to certain fisheries. It is naive to think that this bill alone can correct this condition. It cannot. So while I support the conservation provisions in S. 39, I caution that the work of ensuring responsible conservation and management of fishery resources does not end with the passage of the Sustainable Fisheries Act—it only begins.

Ironically, the fishery that has been singled out in S. 39 for particularly stringent waste and bycatch reduction measures is the North Pacific groundfish fishery. I do not now object, and have never objected to the bill's prescriptions for this Washington State-dominated trawl fishery, but it is important to note that the singling out of this fishery is a function of politics and not sound science.

Despite its Alaska-heavy composition, the North Pacific Council, to

which many of the bill's waste and bycatch reduction provisions are addressed, has been praised for its resource conservation measures. Despite its recent dramatic public demonstrations, even GreenPeace acknowledged in 1992 that "The North Pacific * * * provide[s] a model for the way other [regional fishery management] Councils should be managing the fisheries in this nation and probably in the world." Again, I do not oppose strong and sensible bycatch and waste reduction measures in the North Pacific groundfish fishery, but only so long as the singling out of any sector of a fishery is supported by scientific evidence. I note that recently, GreenPeace launched a public relations attack on the Seattle-based factory trawlers in the Bering Sea pollock fishery. Certainly GreenPeace is within its rights to do so. I sincerely hope, however, that as we continue to strive toward responsible management of our fisheries, that we do not allow policy to be set by meretricious activists whose often uninformed rantings drown out the voices of scientists, fishery managers, and environmentalists who properly place conservation ahead of a radical social agenda.

IFQ'S

My opposition to this bill has often mistakenly been reduced only to a disagreement over the treatment of individual fishing quotas. Ironically, I believe that Senator STEVENS and I were, from the beginning, more in agreement on this issue than on a number of others that affect the allocation of resources in the North Pacific.

Although I am not an unqualified supporter of IFQ's, it is hard to ignore the success of the North Pacific halibut-sablefish IFQ program that was implemented last year. The program has not been flawless, but its initial effectiveness in improving safety, providing fresh fish year round to consumers, and reducing overcapitalization in a fishery—without a regional epidemic of bankruptcies or a hemorrhage of the Federal budget in the form of Federal buy-out assistance—is promising. Throughout this process, I have tried to ensure that this infant program will continue without interruption. I sincerely appreciate Senator STEVENS' support on this issue.

I believe that Senator STEVENS and I agree that IFQ's are a powerful tool, and that it is reasonable to adopt a moratorium to suspend, for a time, the implementation of new IFQ programs until we have had the chance further to study and better to understand the social and economic effects of IFQ's on the conservation and management of resources, on participants in all sectors of the industry—harvesters and processor alike, and on the American public.

Senator STEVENS and I have disagreed, however, on the duration of this moratorium. We also had a critical disagreement over whether or not IFQ's should be barred indefinitely in

the North Pacific by requiring a supermajority vote of a council to adopt new IFQ's in the absence of further congressional action on this subject.

Despite these disagreements, the Senate has reached a reasonable compromise. The moratorium on the implementation of new IFQ's is longer than I would have liked—it is 4 years—but it is finite, and requires no supermajority vote of councils after the moratorium expires. The compromise provisions also permit councils to study and develop IFQ's during the moratorium. Moreover, the moratorium on IFQ's will not preclude the implementation of a new bycatch accountability system that should help to reduce bycatch by holding every vessel accountable for what it catches.

Significantly, the Sustainable Fisheries Act provides for a comprehensive study of IFQ's by the National Academy of Sciences, which study which will be available to educate Congress when we next consider this issue. Education is critical: despite my reservations about implementing new IFQ's in the North Pacific at this time, I consider it pure folly to adopt the House approach of crippling all prospective quota programs before we have had the chance to assess them adequately.

MITIGATING THE EFFECTS OF U.S. VERSUS WASHINGTON

I fully support the provisions of the bill that attempt to mitigate the loss to Washington's commercial crabbers caused by the adjudication of tribal claims to shellfish in a subproceeding of U.S. versus Washington. Last year, a decision by a district court, a decision that is now on appeal, allocated a large portion of the catch to Indian tribes and threatens to deprive nontribal fishermen, who have been fishing for generations, of their livelihoods.

We have amended S. 39 in two ways to try to mitigate the loss to nontribal commercial crabbers in Washington. First, the manager's amendment now authorizes State-managed fisheries, such as the 250-vessel inner Puget Sound dungeness crab fishery, to obtain Federal funds for a license buy-out program.

Second, for the coastal dungeness fishery, the manager's amendment gives Washington, for a limited time until a Fishery Management Plan is in place, tools to regulate all crabbers equally in the exclusive economic zone adjacent to the State. This new regulatory authority will help to ensure that the cost of the tribal allocation will be borne more fairly by all commercial crabbers who fish in the EEZ adjacent to Washington, not just crabbers whose vessels are registered in the State.

The managers amendment permits the Washington Department of Fish and Wildlife, among other things, to set pot limits to slow the pace of fishing by all nontribal commercial crabbers to help facilitate management or settlement with the tribes.

Although this provision gives Washington, Oregon, and California new

powers to regulate vessels not registered in these respective States, and restates these States' ability to regulate landings, the provision is intentionally silent on whether the limited access program in each State can be enforced in the EEZ. I anticipate, however, that when it prepares a Fishery Management Plan for dungeness crab, the Pacific Council will be guided by the limited access programs already in place on the west coast.

Having just described those aspects of the bill that I support heartily, I would like to speak for a moment to those that I believe are subject to serious reservations.

There are three provisions in this bill that I think are misguided. They are: The provision regarding fishing communities; the demotion of the role of efficiency in fishery management; and the creation of a permanent entitlement program for Native Alaskans in the form of community development quotas.

FISHING COMMUNITIES

The managers' amendment corrects a fundamental inequity in the original S. 39, that would have further skewed the allocation of North Pacific fishery resources in Alaska's favor by giving economic protections and preferences to fishing communities, and by defining these communities so as apparently to exclude any in the State of Washington.

While my parochial concerns have been fully addressed in the manager's amendment by redefining "fishing communities" to include the communities of tens of thousands of Washingtonians employed in the fishing industry, I continue to believe that establishing a national standard to protect fishing communities is bad policy. It authorizes nothing certain except for bad policy and litigation.

Moreover, it seems to me to be contrary to the purported conservation goals of this bill to attempt to insulate fishing communities from the economic effects of instituting sound management and restoring healthy stocks. Correcting years of irresponsible management and concern for short-term profit cannot be accomplished painlessly, though we should strive to minimize that pain. Continuing to delay the inevitable, however, by giving councils another excuse for ineffective conservation measures will only make more likely the total demise of our fisheries.

EFFICIENCY

The Sustainable Fisheries Act demotes the role of efficiency in fishery management and conservation by changing national standard five from one of promoting efficiency in the use of fishery resources, where practicable, to merely considering efficiency. Again, this change was made on the pretext of improving conservation, but the provision's authors have never been able to explain how the current standard undermines conservation efforts, and why this change is needed.

Under the guise of promoting conservation, this provision promotes a foolish social agenda—one that fails to reorganize a sensible balance between the legitimate interests of traditional small-vessel fishers, the interests of consumers, and the need to improve productivity to remain competitive in a global economy.

There is, I believe, a perception that an attack on efficiency is a triumph for small vessels and a blow to what are perceived to be the larger, more cost-effective vessels such as those in Washington's factory trawlers fleet. This perception reveals a disturbing trend toward unfairly demonizing more productive, more efficient fleets. I repeat my earlier adomation—we need to recognize that good management, not small vessels or large vessels, leads to sound conservation and healthy fisheries, and that there is room in a healthy and efficient fishery for both.

CDQ'S

Without a doubt, the allocation-related provision in this bill that I find most objectionable is the provision mandating a permanent entitlement program for Native Alaskans through community development quotas—an entitlement program that will be paid for largely by the Washington fishing industry. Codifying this assistance program is not only inappropriate in a bill that purports to deal with resources, not social management, but is inappropriate in this Congress, which just recently succeeded in reforming another entitlement program called welfare.

CDQ's are set-aside programs that reserve a sizable percentage of various fisheries for Native Alaskan communities. Currently, CDQ's are not authorized by the Magnuson Act. Nevertheless, the Alaska-dominated North Pacific Council has reserved 7½ percent of the largely Washington-fished Bering Sea pollock stock for Native Alaskan communities, and even larger percentages in the halibut and sablefish fisheries. Recently, the council recommended CDQ's for crab and groundfish, but this recommendation has not yet been approved by the Secretary of Commerce. Not surprisingly, the council has not imposed CDQ's on fisheries dominated by Alaskans.

The fundamental unfairness of CDQ's was certainly appreciated by other Members of this body, for the Sustainable Fisheries Act, while going after fishermen from Washington State, protects other fishermen from this particular poison by specifically prohibiting CDQ programs in almost every other part of the country.

But since CDQ's would be a reality even in the absence of a Magnuson Act reauthorization, our ability to limit this unfair practice was slight indeed.

In exchange for allowing this bill to proceed, I have exacted concessions on the issues of CDQ's. But these concessions are small. First, to provide relief for the Bering Sea crabbers who, even before the implementation of CDQ's are struggling to survive amid record

low stocks, the managers' amendment provides for a graduated phase-in of development quotas. In addition, the manager's amendment provides for a study of CDQ's to determine if these development quotas are meeting their stated purpose of facilitating participating communities' entry into commercial fisheries, and to recommend how long this social assistance program should last.

Having commented on some of the substantive provisions in this bill, I would like to speak for a moment on the process that brought us to this point. As I stated in my opening remarks, getting here has not been easy. And I have come as far as I intend to go.

The committee mark of S. 39 was sprinkled with sweeteners for most interested parties—except Washington harvesters. Washington's sizable fishing fleet was presented with a poison pill more palatable only than the outrage our House delegation was forced to swallow last October.

Despite this strategic isolation, I had two invaluable assets—time, and the unwavering support of Senator MURRAY. As much as I would like to avoid having to repeat this process, I have truly appreciated the opportunity to work so closely with my colleague from Washington State.

When it became clear that Senator MURRAY and I had no intention of succumbing to the attack on our State's fishing industry, a sincere effort was made to address our concerns. Much of the credit for this final compromise is due to the tireless and creative efforts of Senator KERRY and his staff, Senator PRESSLER and his staff, and the majority leader and his assistants. Credit is due, too, to Senator STEVENS and his staff. Because of the different composition of our industries and our constituencies, the Senators from Washington and Alaska may rarely agree on the substance of fishery bills. But although we may lack agreement, I have never lacked trust and respect—I sincerely appreciate the constructive manner with which Senator STEVENS and his staff have worked with me and my office even as he resolutely protected the interests of his constituents.

The PRESIDING OFFICER. Under the previous order, the Senator from Washington is recognized for 10 minutes.

Mrs. MURRAY. Mr. President, the bill before the Senate this afternoon is the Sustainable Fishery Act, the Magnuson Act, and is the outcome of a very long and very difficult process. Only great willingness to compromise on everyone's part has enabled this bill to reach the Senate floor this evening.

This bill has been almost 4 years in the making, and it has gone through many changes, and improvements have been made along the way. I want to take this opportunity to thank the chairman and the ranking member of the subcommittee for their willingness to work through the difficult alloca-

tion issues in this bill so that the strong conservation provisions of this bill can move forward.

Mr. President, I also want to take this opportunity to thank my senior Senator, Senator GORTON, for his tremendous work on this bill and the opportunity to work with him on an issue of natural resources. His tenacity and perseverance throughout this debate has been very instructive and very much appreciated. I also want to take this opportunity to thank both his staff and my staff, Justin Le Blanc and Jeanne Bumpus, for their tireless work on this bill, as well.

Mr. President, we have reached a fair and reasonable compromise on this bill. As we send this bill to the House, I urge them not to undermine this bill by altering it to reflect parochial interests.

This bill serves two purposes: to conserve fishery resources and to preserve the fishing industry. It contains new provisions to address overfishing, bycatch, and impacts on fish habitat.

These provisions will strengthen our ability to conserve fish resources, and they will allow us to develop long-term, sustainable fisheries. This bill will enable us to turn around depleted fisheries and ensure we have fish for the future.

The help of the fishing industry is directly related to the health of the resource. The conservation provisions will, therefore, benefit the fisheries as well. By protecting the fish, the bill also protects jobs.

The bill sustains the fishing industry in other ways, as well. Natural standards promoting efficient use of fishing resources and promoting the safety of life at sea will help our fishers continue fishing. New consideration for fishing communities recognizes all fishers, no matter where they live, depend upon the fish.

Detailed studies of controversial fishery quota programs will be conducted by the National Academy of Sciences. A study of individual fishing quota programs will allow us to evaluate the potential benefits of such programs. A short moratorium on IFQs will allow us to review this study and to evaluate the success of existing programs. We should not prejudge the appropriateness of IFQ's at this time. Let's allow the study to provide us guidance on this important issue.

The Academy will also study community development quotas. The impacts of the new mandate for CDQ's on the fishing industry in the North Pacific need to be evaluated.

These programs will transfer considerable sums of money from Washington's distant water fleet to Alaskan coastal communities. The study will allow us to discern the effectiveness and appropriateness of this social assistance program.

The bill provides authority for fishery disaster relief programs, particularly buy-back programs which will

help stabilize fishing fleets. Many fishing fleets are suffering from tremendous harvest reductions as a result of natural disasters or man-made situations.

The recent Federal court decision in Washington State awarding native American tribes 50 percent of the shellfish has severely impacted the non-Indian shellfish harvesters. These provisions will provide an opportunity to help these fishers.

The temporary extension of Washington State jurisdiction into Federal waters will also allow the State to implement the reduction in non-Indian shellfish harvests fairly and equitably. I thank the junior Senator from Oregon for his willingness to reach an agreement on this issue.

In its original form, this bill could well have undermined the fishing industry of Washington State. But thanks to compromise and concession on all sides we have reached an agreement. We are now debating a bill that, in many ways, will benefit the Washington State fishing industry.

It keeps options open for Washington State fishers, and it ensures that we will have a strong, vital, sustainable industry long into the future. I support passage of this legislation and look forward to its timely submission to the President for his signature.

This bill will reauthorize the Magnuson Fishery Conservation and Management Act. The Magnuson Act was first passed in 1976 to Americanize the fisheries off the coasts of the United States and to ensure that the bountiful harvests being extracted from these seas were benefiting U.S. citizens and our economy. Over the last 20 years, this goal has by and large been achieved. In 1996, a new challenge faces us: The development of sustainable fishing practices that will guarantee a continued abundance of fish and continued opportunities for U.S. fishers.

The Sustainable Fisheries Act will improve the conservation and management of our fishery resources by re-emphasizing both. While the original intent of the Magnuson Act was to Americanize the fisheries and invest the management of the resources in those who know them best, the fishers; the outcome has not always been sound management or longterm conservation. This bill will help improve this situation. With provisions to prevent overfishing, to ensure the rebuilding of overfished stocks, to minimize bycatch, and to consider fish habitat, this bill places a greater degree of focus on the long-term sustainability of both the resource and the fishers harvesting the resource.

Strong new measures to reduce bycatch, the catching of unwanted or prohibited fish, and new considerations of essential fish habitat will help to maintain healthy fish stocks. The distant water fleet of the North Pacific, based in my State, is often accused of wasting an incredible amount of fish. Estimates suggest that up to 580 mil-

lion pounds a year of fish are dumped overboard dead or dying.

Federal fishery scientists have determined that the total population of Bering Sea groundfish alone is 44 billion pounds. Of that 44 billion pounds, scientists have determined that the acceptable biological catch, that is, the sustainable harvest level, is nearly 6.6 billion pounds. As an extra precaution, the North Pacific Fishery Management Council has established an annual groundfish harvest cap of 4.4 billion pounds, leaving one-third of the allowable biological catch unharvested.

With a total groundfish harvest of 4.4 billion pounds, 580 million pounds of discards suggests a bycatch rate of approximately 13 percent. The largest fishery in the United States, the North Pacific pollack fishery, is one of the cleanest fisheries in the world, with a bycatch rate of only 2 percent according to the United Nations Food and Agriculture Organization [FAO]. Compare these numbers with the average discard rate in world fisheries of 30 percent.

It is also important to note that the discarded fish in the North Pacific are quantified by Federal Fishery Observers and are counted against to the total allowable catch levels of the various species. To reduce bycatch is to make more efficient and responsible use of fishery resources. That is why this bill seeks to reduce bycatch in our Nation's fisheries. And that is why participants in the North Pacific groundfish fisheries have proposed requiring all fishers to retain all pollack and cod caught, regardless of what species the fishers are targeting. This step alone should reduce the amount of fish discarded in the North Pacific by one-half.

The amount of bycatch in the North Pacific is still very high. While the participants in those fisheries are beginning to address the problem, this bill will create new and stronger incentives to fish more cleanly. I strongly support the conservation provisions of this bill. I look forward to the improvement management of our fishery resources they will allow.

This bill also recognizes that the health and sustainability of fish stocks are more than just conservation issues, they are also economic and social issues. The people who take part in U.S. fisheries, the fishers, processors, and supporting industries, are all vitally dependent upon the fishery resources, their abundance and sustainability. This bill recognizes that dependence by requiring new considerations of the impacts of fishery management decisions on fishing communities.

The definition of fishing communities in this bill will work well. Fishing communities are those communities "substantially dependent upon or substantially engaged in the harvest of fishery resources." This definition recognizes that fishers are fishers no matter where they live. An individual fisher and his or her family, whether they work on a big boat and or a small boat, are equally dependent upon the

fish for their livelihoods no matter where they live. The fisher from a small New England port, an Alaska coastal town, or a metropolitan area like Seattle all make their living from the sea, their lives are all tied to the health and abundance of the fish they catch. They all deserve to be considered when difficult and painful fishery management practices need to be implemented. Under this bill, they will be.

In addition, this bill preserves the National Standard to promote efficiency in fishery management plans. According to the National Marine Fisheries Service [NMFS], an efficient fishery harvests fish with a minimal use of labor capital, interest, and fuel. Management regimes that allow a fishery to operate at the lowest possible cost are considered efficient. In encouraging efficient use of fishery resources, this National Standard highlights one way that a fishery can contribute to the Nation's benefit with the least cost to society. To weaken the efficiency standard would be to suggest that overcapitalization, too many boats fishing for too few fish, is acceptable when we all know it is not. It is in the Nation's best interest to promote efficient and sustainable use of our natural resources. Methods of efficiently harvesting fish within acceptable conservation limits should be the norm if the United States wants to continue to be competitive in the growing global market for fish products.

This bill places a 4-year moratorium on a somewhat controversial fishery management tool, individual fishing quotas or IFQ's. IFQ's allocate percentages of the total allowable catch of a fishery to individual participants. If they are transferable, they can be bought and sold either among participants or in a larger market. While opponents of IFQ's feel they are a privatization of a public resource and will result in large corporations owning the bulk of U.S. fisheries, proponents view IFQ's as an important fishery management tool that can address a number of the problems plaguing U.S. fisheries today.

Under current open access systems, there is a race for fish. Those who fish fast and furious win. This management style leads participants to fish inefficiently, catching as much fish as they can as quickly as they can without consideration for high bycatch rates or the harvest of lower value target fish. It creates incentives to invest in excess harvesting and processing capacity—bigger and better boats, bigger nets, more gear, and larger plants—than are needed to efficiently and sustainably harvest and process the allowable catch. This overcapitalization, while not creating huge conservation issues, weakens the economic viability of the fleet, threatening participants with bankruptcy and ruin. While it hasn't been much of an issue in the North Pacific, overcapitalization can create

enormous pressure to increase harvest levels beyond acceptable limits.

In addition, this race for fish creates serious safety considerations in many fisheries. Under this race, fishers feel compelled to keep fishing even when the weather or the conditions of the vessel or the health of the captain or crew would suggest otherwise. Unless fishery management plans provide opportunities and incentives for fishers to sit out storms and return to port for repairs or medical attention, lives will continue to be lost. The crab fishery in the North Pacific is the most dangerous occupation in the Nation. According to the U.S. Coast Guard, the 1990-94 average annual fatality rate in the crab fishery is 350 deaths per 100,000 workers, with a 1990-94 annual average of 7 deaths among 2,000 crabbers. The fatality rate for all U.S. fisheries over the same time is only 71 deaths per 100,000 workers. The all occupations rate is only 7 deaths per 100,000 workers.

For this very reason we included the promotion of safety of life at sea in the National Standards of the Magnuson Act. This provision remains in the bill. Fishery management plans will now be required to promote safe fishery practices. The Fishery Management Councils will not only have to consider safety, they will have to promote it to extent practicable. There are many ways to promote safety, and IFQ's may be one way.

When the halibut fishery in the North Pacific was conducted under open access, the fatality rate was almost as bad as crab, with 250 deaths per 100,000 workers. Under the IFQ plan of the last two seasons, the halibut fishery fatality rate dropped to zero. While two seasons of data is certainly not proof, it does suggest that IFQ's can address the safety issue by eliminating the race for fish.

Because of their potential to address issues such as waste, overcapitalization, and safety, IFQ's are considered by fishery managers in academia and State and Federal Government agencies, as well as environmental groups such as the Center for Marine Conservation, Environmental Defense Fund, and the World Wildlife Fund, as a promising fishery management tool that should be available to the Fishery Management Councils for their consideration. I agree. I believe that IFQ's should remain in the Councils' toolbox. Many of the concerns raised by opponents of IFQ's can be addressed within the design of any given IFQ system, much as they have been in the halibut/sablefish IFQ program. Issues such as entry-level quota share opportunities, ownership requirements, and caps on consolidation of shares can and have been incorporated into IFQ plans at the Council level.

Despite all this, I understand a fair degree of controversy remains over IFQ's. Because of that, I have agreed to a short moratorium on the implementation of IFQ's while the Councils con-

sider, discuss, and develop potential IFQ plans. However, I objected to provisions that prejudged the appropriateness of IFQ's as a management tool and created undue hurdles for IFQ's plans to overcome. This bill includes a comprehensive study of IFQ's by the National Academy of Sciences [NAS]. The assessment of IFQ's by the NAS will allow us, if it is determined necessary, to develop a broadly supported national policy on IFQ's during the next reauthorization of the Magnuson Act in 1999. This study should provide us the guidance we need in our assessment of IFQ's as a fishery management tool. We should withhold from determining their fate now, before we have the insights of the NAS study.

However, there are a number of issues regarding IFQ's on which there is currently agreement and these have been included in the bill. IFQ's may be revoked or limited at any time in accordance with procedures under the Magnuson Act. They shall not confer the right of compensation to the holder if revoked or limited. They shall not create a private property right to the fish before the fish are harvested. IFQ allocations should be fair and equitable and opportunities should be provided for small vessel owners and entry-level fishers. These are broadly-supported provisions on IFQ's and have appropriately been included in the bill.

Unresolved issues regarding IFQ's will be assessed by the NAS. Issues such as transferability, duration, corresponding processor quotas, conservation impacts, fishery characteristics, and potential social and economic costs and benefits to the Nation and to participants in the fishery all will be analyzed by the NAS. The NAS will also study mechanisms to prevent foreign control of our Nations fishery resources and should investigate foreign ownership in both the harvesting and processing sectors. In addition, the NAS is required to study the appropriate level of U.S. ownership of fishery vessels with particular reference to a relatively high U.S. ownership threshold. The NAS should consider this threshold in light of existing requirements for participation in U.S. fisheries.

I look forward to the outcome of this study of IFQ's by the NAS and to the discussion with my colleagues that will undoubtedly ensue upon the report's release.

While this bill imposes a moratorium on IFQ's, it mandates the development of another quota program: Community Development Quotas or CDQ's. CDQ's are guaranteed allocations of Bering Sea fishery resources to Native Alaskan coastal communities. It is argued that these communities have had a historical and traditional participation in these fisheries and were excluded from the Americanization of the fisheries during the late 1970's and the 1980's. While these communities certainly engaged in the harvest of near-shore fish species, it is less clear that they par-

ticipated in the Deep Ocean fisheries of the North Pacific. The existing CDQ program in pollock has transferred approximately \$25 million from the participants in the fishery, predominantly the distant water fleet from Washington state, to the CDQ communities. The mandated expansion of CDQ's will increase this cash transfer almost 5 times to \$117 million.

CDQ's were originally proposed as a temporary program to provide these communities with the capital and expertise to venture into the fisheries on their own. Under this bill, the CDQ program has been turned into a permanent entitlement. I want to make myself clear on this issue. I think it is laudable to empower these impoverished communities to develop independent business ventures and sustainable economies. The question arises as to whom should bear the burden of such efforts. Unfortunately, under the CDQ programs mandated under this bill, the participants in the Bering Sea fisheries, Washington State fishers fishing in Federal waters, bear the entire burden alone. A burden that should be borne by society at large, and particularly by the neighbors of those communities, other Alaskans.

However, this bill contains a study of CDQ's, again by the NAS, to investigate the implications of these programs for the Native Alaskan communities and fishery participants. The study will evaluate the effectiveness of the program in meeting the stated objectives of developing self-sustaining commercial fishing activities in the communities and employing community residents in commercial fishing operations. The study shall evaluate the social and economic conditions in the communities. I think it is important for this evaluation to include an assessment of what other types of assistance programs are or could be made available to these communities. This study will provide valuable insights into the effectiveness and appropriateness of the CDQ program.

In addition, this bill recognizes that not all of the Bering Sea fisheries can bear the full burden of the proposed CDQ programs at this time. The Bering Sea crab fishery is in a serious state of decline at this time and the crabbers are suffering under the strain of reduced catches. This bill recognizes the state of affairs in the crab fishery by phasing in the CDQ percentage allocation over the next several years, to ease the crab fishery into the larger CDQ allocations.

This bill contains important provisions that will enable Washington State to mitigate the impacts on shellfish harvesters of the recent Federal court decision allocating 50 percent of shellfish to the treaty tribes of Washington State in their usual and accustomed areas. These provisions include a limited extension of State management authority into the Federal Exclusive Economic Zone [EEZ] for Dungeness crab. This extension, although

rather limited in scope and time, provides the State of Washington the authority it must have to effectively implement the court order to comanage the shellfish resources such that the tribes may harvest 50 percent of the resource.

In addition, this bill contains authority to implement fishing capacity reduction programs, or buy-back programs. These programs will allow fishing fleets severely impacted by a natural disaster or some man-made decision beyond the control of fishery managers, such as the recent Federal court order regarding tribal shellfish harvests, to mitigate the impacts of such situations by buying people out of the fishery in order to restore viability to the fleet. It is anticipated that the state of Washington could use such authority to develop a buy-back program for the Inner Sound Dungeness crab fleet so severely impacted by the recent shellfish decision.

We have all come a long way on this bill. I reiterate my support for passage of this legislation.

The PRESIDING OFFICER. The Chair announces that, by leadership agreement, previous time restraints have been removed.

The Senator from Louisiana is recognized.

Mr. BREAU. Mr. President, I take a few minutes to make comments about a bill that I have been fooling around with for almost as many years as I have served in the Congress. I remember quite well when I was in the other body and served as chairman of the Fisheries Committee back in 1972, I hate to say how long it has been that we started working on the concept, over 20 years ago, to say that the fishing areas around the United States belong to the people of the United States.

At that time, we were being literally inundated by foreign fishing fleets from Japan and other nations which saw the areas around the coastal waters of the entire United States off of our 30 coastal States as very valuable areas. They were coming in and really displacing our own American fishing men and women, and doing it at a rate that would have soon, I think, destroyed the areas of the United States as far as fisheries is concerned.

We came up with the Fisheries Management Conservation Act. It was a very long and drawn-out process that we entered into to come up with this legislation that said that these waters are going to be reserved for the U.S. industry first, and that you could only fish if you are a foreigner if you had a fishing agreement with our country that gave you an allocation of how much you could fish for.

It was an interesting effort to try and get the foreign fishermen out. We came up with an acronym, one that I was proud of coming up with. The whole premise of the bill was to "phase out foreign fishermen." We called it PUFF. Puff—they were gone. Today, the foreign fishermen have been essentially

removed from our U.S. waters. It is mainly now being fished by American fishing men and women, and the industry is really an American industry. So now the great challenge is not to keep the foreigners out, but rather to manage the stocks in a way that preserves them for the U.S. industry. This is what this legislation is about.

All of the councils that we have around the country are composed of experts in the fishing area, men and women who represent recreational fishermen, commercial fishermen, scientists, who serve on the fishing council, and their job is to come up with management programs for the various species. It took a long time to reach the point where we are today. Today, the challenge is sound management. You can only have good management if you have good science. You cannot come up with a fishery plan that makes sense if you do not know how many fish you have in the waters off of our coasts.

Therefore, the science is incredibly important, to have the best available scientific information about the conditions of the stock. This legislation moves in that direction to allow for even better science to be obtained, to make these decisions. I applaud the Members who have been involved in insisting this be what our standard is.

In addition, the question of bycatch, something that every fisherman is affected by: If you are fishing for shrimp and catching a lot of other fish that you are not targeting, you have a bycatch, an extra catch that you are not trying to do. We need a lot more studies on bycatch, on how to prevent bycatch without destroying the fishermen who are going after a targeted species. In this legislation, there is more work in that area as well.

By and large, we have to resist the temptation for us to try and manage fisheries from here in Washington. I don't think we have a fish biologist as a Member of the Senate. We are not biologists. I don't think anybody has that background. We should make sure that the councils do the management plans, working with the National Marine Fishery Service. We have to be very careful if we try and say that the councils cannot do this or that because we in Washington know better. The councils have the first obligation of coming up with management plans based on science. Now and then, we get inundated by one particular group of fishermen, maybe recreational fishermen, that say, "You have to ban all catches of red snapper," and then the commercial boys say, "No, you need to catch more red snapper because there are a lot more out there."

We are tempted to enact amendments to legislation here in Washington that would do fishery management from the floor of the Senate or from the Commerce Committee. I suggest that that is the wrong way to do it. We ought to strengthen the councils and not weaken them, and let them come up with

the proper management plans. This is an issue that never has been Democratic or Republican; it's where you are from, the different areas of the northeast, the southeast, the gulf coast, and the Northwest. We have intermural battles here between Alaska and Oregon and Washington, between Texas and Louisiana and the gulf and Florida. But we have come together with this piece of legislation.

I commend JOHN KERRY and TED STEVENS for their ability to bring this product to the floor. Is it perfect? Of course not. Nothing here ever will be. But it is a good bill and one that makes sense. I congratulate the ranking member and the chairman of the subcommittee for their work. I support this legislation. We will monitor how it is implemented very carefully to see if further improvements can be made in the future. It has been a long time since 1976 and all those years since we tried to put this together. It is working. We can take a lot of credit and be proud of the work we have done. There is a lot more that needs to be done, and this legislation moves us in that direction. I support the legislation.

The PRESIDING OFFICER. Who yields time?

Mr. KERRY. How much time is remaining?

Mr. SMITH. The Senator from Massachusetts has 11 minutes remaining. The Senator from Alaska has 14 minutes.

Mr. KERRY. The Senator from Oregon requests how much time?

Mr. WYDEN. Does the Senator have 5 or 6 minutes?

Mr. KERRY. I yield 6 minutes to the Senator from Oregon.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, I rise in support of S. 39, the Sustainable Fisheries Management Act. This bill is a good step forward in the management of our Nations' fisheries, addressing important areas of concern such as rebuilding over-fished stocks and collecting better data so we can manage our fisheries more effectively. I guess I'm the only Member of Congress in the position of voting for this legislation in both Houses of the Congress.

I want to thank Senators STEVENS and KERRY, and their staffs especially, for their help and guidance to me, the newest member on the Commerce Committee, on issues of great importance to the fishermen, fishing communities, and the fishing industry in Oregon. I commend them for their hard work on this legislation and hope that we will be signing this bill into law in the very near future.

I would also like to thank Senators MURRAY and GORTON for their willingness to address an issue critical to the Oregon crab fishery. I am satisfied that the compromise we have reached will go a long way to helping the State of Washington address its crab management concerns, and assure Oregon crab fishermen continued access to crab fishing areas off of the Washington coast.

The State of Washington is currently struggling to address management issues arising from a recent Federal court decision that requires the State of Washington to provide Washington's Indian tribes with 50 percent of the Washington crab fishery. Historically, Oregon crabbers have also fished off of Washington's coast and it is easy to see how this new situation could create conflict.

Historically as well, Oregon, Washington, and California have enjoyed an excellent working relationship with regard to the crab fishery. So, it was with concern that I reviewed the original proposal to extend state jurisdiction into the Exclusive Economic Zone [EEZ] for all fisheries without a Federal management plan. In my view, this original proposal had the potential to restrict many Oregon fishermen from fishing in their traditional areas.

With respect to the crab fishery alone, the potential effects were ominous for all segments of the crab fishery in Oregon, crab fishermen, the coastal communities of Astoria and Warrenton and the crab processors in those communities who provide employment to hundreds of workers.

The Oregon crabbers fishing off the Washington coast represent a significant percentage of the crab landings to Astoria and Warrenton: these boats land almost 85 percent of the crab processed in these two ports. To say that this fishery is significant to these communities barely conveys the vital importance of this fishery to the economy of Oregon's north coast. Fishermen, equipment suppliers, crab processors, and their employees are all intimately tied to this natural resource.

The compromise Senators MURRAY, GORTON, and I have reached restricts the extension of State jurisdiction to conservation measures within the crab fishery only. These restrictions would apply equally to all boats fishing in the same waters. Each State's limited entry programs and landing laws are respected. To address the harvest requirements of Federal Court Order, *U.S. v. Washington* 89-3, the State of Washington may close areas or restrict the number of crab pots laid by crabbers. Our intent is to give the State of Washington flexibility in meeting requirements of the Federal court order while minimizing the restrictions on Oregon's crabbers.

Perhaps the most important part of the State jurisdiction provisions is a clause stating that the Pacific Fisheries Management Council should develop and submit a fishery management plan for Dungeness crab and other shellfish. The timely development of a Federal fishery management plan for Dungeness crab is essential if we are to avoid inter-State conflicts in the future. To this end, the bill also requires the Pacific Fisheries Management Council to report to the relevant Senate and House Committees within a year regarding their progress on a plan.

Again, I appreciate the willingness of the Senators from Washington to ad-

dress this issue. I look forward to working with them on these issues in the future.

As I mentioned above, I have voted on both the House and Senate versions of this bill. Not only did I support the House bill, I voted for key conservation amendments that were adopted as floor amendments, including those on over-fishing and habitat protection. The conservation provisions of S. 39 are also significant, several of which are of particular importance to Oregon. Reauthorization of the Magnuson Act is a high priority for Oregon fishermen and conservation groups alike.

The new mandatory provisions requiring fishery management councils to develop criteria for determining when a fishery is over-fished, and for rebuilding those fisheries, will help us set a solid target for rebuilding over-fished stocks both in the Pacific Northwest.

Likewise the measure adding a new national standard to the Magnuson Act requiring that conservation and management measures minimize by-catch—the incidental harvest of nontarget fish—makes a good effort at reducing one of the most distressing aspects of our fisheries.

The bill also defines essential fish habitat and requires the councils to minimize adverse effects on habitat due to fishing.

I shall note at this time some disappointment with regard to the communities provisions. While in the House I supported Congressman MILLER's proposal on communities. The Oregon fishery is in large measure family owned and shore-based, and I would have preferred to have communities language in the bill that recognized and protected our fishing communities more fully.

During our discussions on passage of the bill, it was made clear to me that a protracted fight over the communities language would jeopardize the entire Magnuson reauthorization. In my view this would have hurt Oregon more than it would have helped. Reluctantly, I have for now agreed not to insist on stronger communities language and get this reauthorization done.

Mr. President, although S. 39 is not perfect, it is one of the strongest pieces of conservation legislation to pass the Senate this year. I urge passage of this legislation.

Mr. HOLLINGS. Mr. President, this year marks the 20th anniversary of the Magnuson Fishery Conservation and Management Act, our Nation's primary law to protect and develop the wealth of fishery resources found off American coasts. Those resources are a valuable national heritage. In 1995, U.S. commercial fishermen landed a record 9.9 billion pounds of fish, producing over \$3.7 billion in dockside revenues. By weight of catch, the United States is the fifth largest fishing nation. We are also the world's top seafood exporter, with exports valued at \$3.3 billion in 1995.

Over the past two decades, the Magnuson Act has guided the development of the U.S. fishing industry, as we successfully Americanized our fisheries. However, in some regions we unfortunately were more successful in promoting fishing than in preserving fish. As the competition among U.S. fishermen grew, the unique and participatory process established by the Magnuson Act began to show a few signs of aging. Three years ago the Commerce Committee began a systematic review of Federal programs and regulations that affect marine fisheries management. Since then we have held over a dozen hearings here in Washington and in fishing communities around the Nation. We have heard from almost 200 witnesses from South Carolina to Maine and from Hawaii to Alaska. The final result of that review is the bill before the Senate today. S. 39, the Sustainable Fisheries Act, represents the efforts of Senators STEVENS and KERRY, myself and other Members to address the issues identified. This reauthorization of the Magnuson Act builds upon our past experience to stop over-fishing and waste, protect essential marine habitat, and streamline the management process.

Turning to the Southeast, where commercial fishermen landed over 275 million pounds of seafood—valued at \$238 million—in 1995, fishing plays a vital role in the economies of many coastal communities like Murrells Inlet, Charleston, McClellanville, and Beaufort. In addition, the sportfishing industry is an important part of the regional and local economies. In 1995, an estimated 2.3 million anglers participated in marine recreational fisheries in the south Atlantic region. These fishermen made over 18 million fishing trips, catching more than 65 million fish, including seatrout, catfish, and red drum.

The south Atlantic Spanish mackerel fishery, in particular, has been cited as a Magnuson Act success story. Prior to the 1980's, mackerel catches essentially were unregulated, leading to over-harvesting by both commercial fishermen and sport anglers. The South Atlantic Council then stepped in to implement quotas, bag limits, and trip limits and this once-depleted population now seems well on its way to rebuilding. Unfortunately, for every success story like Spanish mackerel or striped bass, we still hear all too many tragedies.

In addition, we have seen growing interest in reducing waste and unnecessary bycatch in our fisheries. The United Nations estimates that about 27 million tons of fish each year—about a third of world harvests—are caught and thrown back because they are too small, there is no market, or a quota has been exceeded. South Carolina shrimpers are far too familiar with this issue and have struggled for years to prevent endangered sea turtles from drowning in their nets. The spirit of cooperation and innovation that they have shown in working with State and

Federal managers to successfully tackle the sea turtle problem demonstrates an approach which should be effective in dealing with other bycatch problems.

Habitat protection also has become a greater concern in recent years as coastal development and marine pollution threaten the environment and subsequently the health of many fish stocks. Half of the world's population now lives within 40 miles of the coastline, and scientists estimate that by the turn of the century, more than three-quarters of Americans will live within 50 miles of the U.S. coastline. Essential fish habitat must be identified and conserved if we are going to maintain healthy fish stocks in the future.

Finally, while the growing frustration with large government bureaucracies and overregulation is not confined to marine fisheries, we certainly need to take steps to streamline the process and eliminate unnecessary red-tape. The goal of the council process established under the Magnuson Act was to ensure the participation of all those affected by fishery regulations. However, we cannot allow that process to become so cumbersome that it fails to effectively conserve our fisheries resources, and we must have in place reasonable safeguards against conflicts of interest.

Those of us who are interested in the protection and responsible use of our marine resources have learned a lot about managing marine fisheries over the past two decades. We recognize that the days of superabundant fish stocks are gone forever, and we are confronting a basic fact of life—there aren't enough fish to go around. We also have seen that rebuilding efforts, like the plan for Spanish mackerel, can be successful. And we now understand the importance of ecological considerations like habitat and bycatch in managing our fisheries.

Building on that increased understanding, S. 39, the Sustainable Fisheries Act, extends the authorization of appropriations for the Magnuson Act through fiscal year 1999. The bill also: First, caps fishery harvests at the maximum sustainable levels and requires action to prevent overfishing and rebuild depleted fisheries; second, broadens existing Federal authority to identify and protect essential fish habitat; third, minimizes waste and discards of unusable fish; fourth, streamlines the approval process for fishery management plans and regulations; fifth, tightens financial disclosure and conflict-of-interest requirements for council members; sixth, establishes a moratorium on management plans that allow private ownership of harvest quotas and fees to cover the administrative costs of such a plan; and seventh, reauthorizes other fishery programs and statutes, including the Interjurisdictional Fisheries Act, the Anadromous Fish Conservation Act, and the Atlantic Coastal Fisheries Cooperative Management Act.

Mr. President, S. 39 is the result of extensive bipartisan efforts by Senator KERRY and Senator STEVENS. As a result of their hard work, we have before us a good bill that furthers the goals and policies of the Magnuson Act. I encourage my colleagues to vote for this vital legislation today.

Mr. MURKOWSKI. Mr. President, I very strongly support the passage of S. 39, a bill to reauthorize and revitalize the Fishery Conservation and Management Act, also known as the Magnuson Act. This is without a doubt the single most important conservation bill that has come before this Congress.

The text before us today has changed greatly since the bill I had the honor to cosponsor, along with Senator STEVENS and Senator KERRY, in the final days of the 103d Congress. In the almost 2 years since that day, Senator STEVENS and Senator KERRY have led a remarkable bipartisan effort to resolve other Members' problems with the bill as originally introduced.

I cannot say, Mr. President, that I am completely happy with all of the changes that have been necessary to accommodate the interests of various Members. However, Mr. President, I can say that I have watched the evolution of this legislation with very close attention, and am confident that the managers have made every possible effort to make those accommodations without violating the integrity of the bill.

I also want to recognize the tremendous effort that has been made by fishing industry groups, the environmental community and others, all of whom participated in bringing this bill to this point, just steps from completion.

My own efforts in connection with this bill have largely focused on certain issues that have recently exploded into international prominence—fishery bycatch and discard.

Worldwide, the Food and Agriculture Organization of the United Nations reports that with total fishery landings of 83 million metric tons, plus discards of up to 27 million metric tons, we may be taking as much as 10 million tons per year more than the oceans can sustain.

I introduced the first bill to address bycatch and discard back in 1993. Today, almost 3 years later, I am very pleased to say we are finally on the verge of taking action. The bill before us follows the lead of my early bill by establishing a new national standard calling for bycatch to be avoided where possible, and where it cannot be avoided, for steps to minimize the resulting fishery mortalities. This will put us on the road to stopping the shameful waste that is currently occurring in many fisheries.

Following this principle, Senator STEVENS has authored a separate section of the bill for Alaska only, which calls for annual bycatch reductions for the Gulf of Alaska and Bering Sea off Alaska.

Among other provisions, this bill will improve fisheries conservation and utilization, on which so many individuals in our coastal communities depend. It will for the first time address the problem of overfishing by requiring corrective action to be taken when a fishery is or is in danger of becoming overfished. It will also strengthen the fisheries management process by improving the way that regional fishery councils function, improve the way fisheries research is conducted and make many other changes of great importance and urgent need.

Mr. President, two issues which have been most contentious during this reauthorization process are the prospects for a new type of fishery limitation called an individual fishing quota program, and for a community development quota program intended to pass through some of the benefits from fisheries in the Bering Sea to disadvantaged, largely Native communities in that area.

In Alaska, and elsewhere, there has been considerable debate on redesigning fishery management using an individual fishing quota system. I won't attempt to get into the level of detail necessary to explain how this would differ from the existing system of management. Suffice it to say that supporters believe this would solve most of today's problems of overcapitalized fisheries with the least government interference, and opponents claim it would not only be costly to the government but hugely unfair to those who are excluded and to communities dependent on fishing.

The bill before us represents a compromise between these two positions. It contains a moratorium on new individual fishing quota systems, and a comprehensive study of their potential—both good and bad—and of their actual impacts in those cases where they have already been used. I believe this is a compromise worthy of the Senate's support.

In the case of the community development program proposal, we also see the results of sensible, needed compromise. The bill before us today provides a mechanism to assign some of the volume of fish coming from Bering Sea fisheries to the task of helping provide a stable, permanent economic base for some of the poorest, most disadvantaged communities in the country. This is a very worthy goal, and it is also one that I believe deserves the support of my colleagues.

There are far too many other specifics in this bill to recount them all, or to provide my views on each and every issue the bill addresses. Instead, let me close with this: if there is anything on which we can agree, it is the need for productive, healthy oceans. That is the goal of this bill, and this bill is Congress' farthest ever reach toward reaching it. Let's not waste it.

Mr. INOUE. Mr. President, I rise to join my colleague, the senior Senator from Alaska, in support of the manager's substitute for the Committee on

Commerce, Science and Transportation's amendment to S. 39. I wish to thank my colleagues Senator STEVENS and Senator KERRY for their leadership in accommodating a multitude of diverse concerns and requests and bringing this monumental legislation to the Senate floor. S. 39 represents a truly bipartisan approach to fisheries issues that are of vital importance to our nation's economy and environment.

There are many commendable features to the manager's amendment including a section which provides authority for the western Alaska and western Pacific community development quota (CDQ) programs.

Mr. President, for 190 years the United States limited its authority to regulate fishing in the waters surrounding its coast to the three-mile territorial sea. Exploiting that forbearance, by the mid-1930s, foreign fishing vessels routinely fished for salmon, crab, and other fish stocks within sight of the Alaska coast.

In 1976, in order to end foreign fishing within 200 miles of the coast of the United States, the Congress enacted the Magnuson Fishery Conservation and Management Act (MFCMA). Section 302 of the Act divides the 200-mile zone—which today is known as the exclusive economic zone (EEZ)—into eight subzones and establishes a fishery management council for each subzone. The Act authorizes each council to prepare a fishery management plan and authorizes the Secretary of Commerce to approve and by regulation implement each fishery management plan (FMP) for each fish stock located within its subzone that the council determines "requires conservation and management."

In addition to preventing overfishing, the Congress intended the Secretary's implementation of fishery management plans to advance an equally important policy objective—the transfer of the economic benefits derived from fishing inside the EEZ from foreign fishermen to United States fishermen. When the Magnuson Act was enacted, with little exception, American fishermen were not participating in fisheries beyond the territorial sea.

In the EEZ Alaska subzone, for example, in 1975 Japanese and Soviet fishermen harvested 1,310,000 metric tons of pollock, while United States fishermen harvested less than 3,000 metric tons. And Japanese fishermen harvested 30,000 metric tons of sablefish, while United States fishermen harvested 1,000 metric tons. By 1987, United States fishermen had replaced foreign fishermen in the Alaska subzone. And by 1991, United States processors had replaced foreign processors. As a consequence, in 1992, U.S. fishermen harvested pollock and other groundfish in the Alaska subzone that had an ex-vessel value of \$675 million.

Between 1984 and 1992, the catch of pollock by U.S. fishermen increased from 8,400 metric tons to 1,402,300 metric tons, and the catch of sablefish by

U.S. fishermen increased from 9,900 metric tons to 23,700 metric tons.

The revenues realized by U.S. fishermen who replaced foreign fishermen in the pollock fishery conducted in the Alaska subzone increased from \$1.4 million in 1984 to \$388.8 million in 1992. And the earnings of U.S. fishermen who replaced foreign fishermen in the sablefish fishery increased from \$7 million to \$53.5 million.

However, there was one group of U.S. fishermen—the Eskimo and Aleut fishermen residing in 55 Native villages scattered along the windswept coast of the Bering Sea—who, through no fault of their own, were precluded from participating in the fisheries which the Secretary's implementation of fishery management plans in the Alaska subzone had forced open.

For generations, life in the Native villages had revolved around subsistence fishing, hunting, and gathering. Isolated by their distant locations and indigenous cultures, between the entry of Alaska into the Union in 1959 and the enactment of the Magnuson Act in 1976, residents of the 55 villages were left out of Alaska's poststatehood rush to economic and social modernity. In 1990, the median population of the 55 villages was 278 persons.

In 1968, the Federal Field Committee for Development Planning in Alaska described the situation in the region in which most of the villages are located as follows:

Bluntly put, the region has no apparent base for economic growth. It has a rapidly growing population without local employment prospects and generally without the cultural, educational, and skill prerequisites for successful out-migration. In the foreseeable future, outside of the conversion of the present subsistence [salmon] fishery in the Yukon and Kuskokwim Rivers to a more efficient commercial operation, any growth of opportunity either for employment or for enterprise in the region, will result directly from government action. The only prospect for expansion of the public sector, in turn, can be anticipated as a result of efforts to overcome the cultural and economic handicaps of the region's population.

The Field Committee's assessment accurately described the underlying cause of a growing social crisis in Bering Sea coastal villages that, over the succeeding 20 years, intensified. In 1970-71, for example, the village of Nome experienced 9 suicides and 22 suicide attempts in 24 months, committed primarily by Eskimo adolescents. A knowledgeable local physician described the epidemic of self-destruction as "the end result of a long series of problems" caused by "the traditional village life dying out and the [subsistence] culture becoming nonexistent;" a social upheaval that young Natives returning home "from outside schools to find their skills unneeded in the village" exacerbated.

Seventeen years later, the situation both in Bering Sea coastal villages and in other Native villages had deteriorated to the point that as the Anchorage Daily News, which won a Pulitzer

Prize for its coverage, explained in 1988:

Across the state, the Eskimos, Indians and Aleuts of Bush Alaska are dying in astonishing numbers. By suicide, accident and other untimely, violent means, death is stealing the heart of a generation and painting the survivors with despair . . . An epidemic of suicide, murder and self-destruction threatens to overwhelm cultures that have for centuries survived and prospered in the harshest environments on earth . . . The village of Alakanuk [one of the 55 Bering Sea coastal villages referred to above] lived on the razor's edge: a town of 550 with eight suicides, dozens of attempts, two murders and four drownings in 16 months. This was Eskimo Armageddon. But while Alakanuk's experience has been the worst, it is by no means an isolated example. The pace of suicide, self-destruction and abuse is accelerating all over Alaska.

The Daily News series, which was entitled "People in Peril," drew public attention to a social crisis of which Native leaders long had been aware. Seizing the opportunity, the Alaska Federation of Natives [AFN], a statewide organization representing Native interests, prepared a report documenting the conditions and challenges confronting the Native people, entitled "A Call for Action," that was submitted to the Congress. In pertinent part, "A Call to Action" concluded that:

[L]arge numbers of Natives who want to work in their home villages or region have no possibility of doing so. In most Native villages, the prospects for private sector economic development are limited, and due to declining oil revenues, state spending is projected to steadily decline throughout the 1990s. The projected decline in economic activity in rural Alaska coincides with the steadily increasing number of young Native adults who will be seeking to enter the work force. Every effort to take advantage of limited opportunities for private economic development should be encouraged.

For Eskimo and Aleut residents of Bering Sea coastal villages, AFN's admonition was particularly ironic because, due in large part to the Magnuson Act, the ocean lapping at their doorsteps was roiling with private economic activity that for 16 years had been regulated by the North Pacific Fishery Management Council [Council] and the Secretary in a manner that had for the most part excluded their participation, even though section 301(a)(4)(A) of the act required the Council and the Secretary to regulate the opportunity to participate in Bering Sea fisheries in a manner that was "fair and equitable" to all fishermen, including Eskimo and Aleut fishermen who reside in Bering Sea coastal villages.

The Council and the Secretary's failure to regulate Bering Sea fisheries in a manner that provided fishermen in Bering Sea coastal villages a "fair and equitable" opportunity to participate was particularly troubling given the fact that the Council and the Secretary both have a fiduciary obligation to exercise their regulatory authority in a manner that advances the well-being of Alaska Natives.

Two months after the Alaska Federation of Natives presented A Call for Action to Congress, in May of 1989, the Council planning committee recommended that the Council amend its relevant fishery management plans to establish a western Alaska community development quota program. The objective of the program was to facilitate access to Bering Sea fisheries by Eskimo and Aleut residents of Bering Sea coastal villages by providing the villages in which they reside an opportunity to harvest a small portion of the total allowable catch of certain fish stocks.

After careful review and numerous opportunities for public comment, in June of 1991, the Council approved an amendment to the Bering Sea and Aleutian Islands groundfish fisheries management plan that established a western Alaska community development quota program for Bering Sea pollock and allocated 7.5 percent of the Bering Sea pollock total allowable catch to "communities of the Bering Sea coast" that participate in the program. In May of 1992, the Secretary approved the amendment and in November of that year promulgated a rule adopting regulations which established a procedure for village participation in the program.

The regulations identified 55 eligible Bering Sea coastal villages. To be eligible, a village was required to be located within fifty miles of the Bering Sea coast and to have been determined by the Secretary of the Interior, pursuant to the Alaska Native Claims Settlement Act, to be a "Native village." In addition, the residents of an eligible village must have conducted more than half of their commercial or subsistence fishing effort in the waters of the Bering Sea. Finally, an eligible village "must not have previously developed harvesting or processing capability sufficient to support substantial" participation in the Bering Sea groundfish fishery.

To participate in the western Alaska pollock community development quota program, the 55 villages formed six organizations: the Yukon Delta Fisheries Development Association, the Bristol Bay Economic Development Corporation, the Norton Sound Economic Development Corporation, the Coastal Villages Fishing Cooperative, the Aleutian Pribilof Island Development Association, and the Central Bering Sea Fishermen's Association. Each organization then submitted a community development plan to the Governor of Alaska. When the Governor approved the plans, in December of 1992, the Secretary issued each organization the share of the 7.5 percent of the pollock total allowable catch that the Governor had determined was needed by the organization to implement its community development plan.

Each community development quota organization has entered into a joint venture with an experienced fishing company to assist in the harvesting of

its share of the pollock community development quota allocation. These joint venture efforts have provided employment for village residents on joint venture fishing vessels, in the processing of the pollock catch, and in the management of the joint ventures. Of coequal importance, the sale of the catch has provided working capital that each organization has used to finance village fishery-related economic development activities that otherwise would not be occurring.

To what extent has the western Alaska pollock community development quota program contributed to alleviating the social problems described in "A Call for Action"?

Alarmed by "A Call for Action's" documentation of the accelerating social disintegration taking place in Native villages, in 1990, the Congress established a Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives to conduct "a comprehensive study" of "the social and economic status of Alaska Natives," and to recommend actions that the Congress and the State of Alaska should take to better address the needs of Alaska Natives for "economic self-sufficiency * * * and reduced incidence of social problems."

In 1994, the Commission published a three-volume report that summarized the results of its investigation. Among the recommendations listed in its report, the Commission urged the Council "to expand the community development quota [program] to other fisheries in the future."

In fact, while the Commission was studying the community development quota program, the Council had already acted upon the Commission's report by recommending to the Secretary that he establish a western Alaska community development quota program for Bering Sea halibut and sablefish, in which the six community development quota organizations are presently participating. And in June of 1995, the Council recommended to the Secretary that he establish a third western Alaska community development quota program for Bering Sea crab species and other groundfish species.

To facilitate the efficient implementation of the programs, the substitute amendment to the Sustainable Fisheries Act amends the Magnuson Act to require the North Pacific Fishery Management Council and the Secretary to establish a single western Alaska community development quota program and to annually allocate a percentage of the total allowable catch and guideline harvest levels of each Bering Sea fishery to the program. The eligibility standards for participating in the program are the same standards that the Secretary previously established by regulation.

Mr. President, I am pleased to note that the substitute amendment also authorizes the Western Pacific Regional Fishery Management Council

and the Secretary to establish a western Pacific community development program.

Much like their brothers and sisters in Alaska, those indigenous people who for centuries had traditionally fished in the waters of the Western Pacific, have been increasingly foreclosed from access to the fishery, largely due to the fleets of foreign fishing vessels whose number, vessel size, and methods of harvesting have dominated the Western Pacific fishery.

The Western Pacific community development quota program would be applied in the Western Pacific Region but would not, in all likelihood, employ a percentage of the total allowable catch of any particular species. Accordingly, while there is a section of the substitute bill that addresses fees associated with the allocation of a percentage of total allowable catch, it is not anticipated that the requirements of the section addressing fees would apply. Rather, it is anticipated that the Western Pacific program would place a priority on enabling access to the fishery for those that have been economically-fore closed from such access. Measures to enhance access might include regulation of limited entry permits, area closures, fishing zones, and vessel size. Joint venture agreements for the harvesting and processing of fish might also be employed as they are in the north Pacific region.

In addition, under the western Pacific program authority, the Western Pacific Regional Fishery Management Council would be authorized to take into account traditional indigenous fishing practices in preparing any fishery management plan.

The substitute also establishes authority for the Secretary of Commerce and the Secretary of the Interior to make direct grants to eligible western Pacific communities, as recommended by the Western Pacific Fishery Management Council, for the purpose of establishing fishery demonstration projects to foster and promote traditional indigenous fishing practices. The demonstration projects are intended to foster and promote the involvement of western Pacific communities in the conservation and management of fisheries through the application of traditional fishing practices as a means for developing or enhancing western Pacific community-based fishing opportunities, the preservation of the island-based cultural values that shape their historical conservation ethic, and the development and implementation of community-based research and education programs.

I am also pleased that the manager's substitute includes a provision authorizing Pacific Insular Area Fisheries Agreements for the purpose of enhancing fisheries conservation and management in the Pacific. This program will be funded under terms similar to those imposed on U.S. fishermen who seek access to fish resources in foreign waters. This program will greatly benefit

our Nation and fisheries resources throughout the Pacific Ocean.

I congratulate Senator STEVENS, Senator KERRY and their staff, particularly Penny Dalton, Alex Elkan, Trevor McCabe, Earl Comstock, GLENN Merrill and Tom Melius for this great accomplishment.

The PRESIDING OFFICER. The time of the Senator has expired.

Who yields time?

Mr. STEVENS. How much time remains, Mr. President?

The PRESIDING OFFICER. The Senator from Alaska has 14 minutes under his control.

Mr. STEVENS. I ask unanimous consent that we be permitted to maintain the control of the time we have on the bill and that the Senator from Maine now be able to present her amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Maine.

There will be 30 minutes, equally divided, on this amendment.

AMENDMENT NO. 5381

(Purpose: To limit lobstering other than by pots or traps if no regulations to implement a coastal fishery management plan for American lobster have been issued by December 31, 1997)

Ms. SNOWE. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Maine [Ms. SNOWE] proposes an amendment numbered 5381.

Ms. SNOWE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 161, line 21, strike "810 and 811," and insert "811 and 812."

On page 163, line 4, strike the closing quotation marks and the second period.

On page 163, between lines 4 and 5, insert the following:

"SEC. 810. TRANSITION TO MANAGEMENT OF AMERICAN LOBSTER FISHERY BY COMMISSION.

"(a) TEMPORARY LIMITS.—Notwithstanding any other provision of this Act or of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), if no regulations have been issued under section 804(b) of this Act by December 31, 1997, to implement a coastal fishery management plan for American lobster, then the Secretary shall issue interim regulations before March 1, 1998, that will prohibit any vessel that takes lobsters in the exclusive economic zone by a method other than pots or traps from landing lobsters (or any parts thereof) at any location within the United States in excess of—

"(1) 100 lobsters (or parts thereof) for each fishing trip of 24 hours or less duration (up to a maximum of 500 lobsters, or parts thereof, during any 5-day period); or

"(2) 500 lobsters (or parts thereof) for a fishing trip of 5 days or longer.

"(b) SECRETARY TO MONITOR LANDINGS.—Before January 1, 1998, the Secretary shall monitor, on a timely basis, landings of

American lobster, and, if the Secretary determines that catches from vessels that take lobsters in the exclusive economic zone by a method other than pots or traps have increased significantly, then the Secretary may, consistent with the national standards in section 301 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801), and after opportunity for public comment and consultation with the Atlantic States Marine Fisheries Commission, implement regulations under section 804(b) of this Act that are necessary for the conservation of American lobster.

"(c) REGULATIONS TO REMAIN IN EFFECT UNTIL PLAN IMPLEMENTED.—Regulations issued under subsection (a) or (b) shall remain in effect until the Secretary implements regulations under section 804(b) of this Act to implement a coastal fishery management plan for American lobster."

Ms. SNOWE. Mr. President, first of all, I want to thank Senator STEVENS for giving me the opportunity to offer this amendment. Before discussing some of the provisions of this amendment, I want to commend Senator STEVENS for his achievement in bringing this bill before the Senate and for ultimate passage.

As those of us from coastal States know, fisheries management issues can be extremely complex in both technical and political senses. These complexities are greatly heightened at the present time when so many of our fisheries are either fully or overexploited.

That is why the reauthorization of the Magnuson Act has been a long and arduous process. But Senator STEVENS and Senator KERRY have been able to work through the complexities and conundrums and resolve seemingly intractable disputes in an effort to fashion compromise legislation that we are considering today. It is truly a monumental achievement. Senator STEVENS in particular has been a leader in fisheries issues for a decade and, as a framer of the original Magnuson Act, deserves our appreciation.

Mr. President, if you ask any American what they think of when they think of Maine, they will tell you lobsters. Maine is indelibly linked with its lobster industry, and with good reason. Lobstering is a proud and historic tradition in our State. It exemplifies some of the best qualities of Maine, and indeed, the American character—rugged independence, a willingness to work hard, and a profound respect for mother nature.

Of course, lobstering is also an essential element of the Maine and New England economies. If you drive along the coast of Maine and see the lobster boats moored in the harbors of our 144 fishing villages, and the lobster traps spread out in the yards of the homes nearby, it won't take you long to understand how many people depend on the lobster industry for a living.

My amendment is designed to protect the lobstering tradition in Maine and New England. It is a very important amendment, Mr. President, because the lobster resource now faces a serious threat. And if this threat remains unaddressed, our lobstering tradition could be jeopardized.

My amendment deals with a wasteful and destructive form of lobster harvesting known as dragging. The original amendment I was prepared to offer would have imposed tough new restrictions on dragging within 60 days. But after listening to concerns expressed by other Senators, I have agreed to substantially revise the amendment. This is a true compromise, and it is very deserving of the Senate's support.

Most people know that lobstering is general conducted with traps that are baited and rest on the ocean bottom. This is the time honored and sustainable method of catching lobsters. The trap method permits the lobstermen to bring lobsters to the surface alive and unharmed, and then to safely discard those lobsters that should not be retained, such as juveniles, egg-bearing females, and older brood stock lobsters—lobsters that are essential to replenishing the resource.

There are other ways to catch lobsters, however. Some fishermen drag nets, like those used to catch finfish such as cod, along the ocean bottom to scoop up the lobsters. But these nets are indiscriminate. Undersized and oversized lobsters, along with egg-bearing females, get swept into the nets. When the nets are dragged across the bottom, and they hauled up to the surface, many lobsters are broken and crushed, including those that should be protected and returned to the water safely to reproduce.

This method of harvest is very damaging to the resource. That's why Canada, the world's largest lobster producer, and Maine, the United States' largest producer, prohibit any of their vessels from dragging for lobsters. That's why Massachusetts, America's second largest lobster producer, just enacted a new law to sharply restrict dragging by any of its vessels. And it's why Massachusetts and New Hampshire prohibit dragging for lobsters in State waters.

Inexplicably, however, dragging for lobsters is permitted under the status quo in Federal waters. And because Federal lobster management is currently in a state of limbo, we do not have comprehensive and active lobster management in the Federal zone at this time. The Commerce Department has turned Federal lobster management over to the Atlantic States Marine Fisheries Commission [ASMFC], a State-based organization. But the commission is not expected to complete a plan until sometime late in 1997.

Obviously, lobsters don't recognize the State-Federal line. They cross it at will. So anything that happens on one side of the line affects the lobster resource on the other side. It's the same stock. Thus, lobstermen in State waters can abide by the strictest regulations possible, but their conservation efforts will be undermined as long as dragging occurs right across the State line—and there is no doubt that it is occurring.

Reports in New England indicate that there are increasing numbers of

dragging vessels engaged in directed fishing for lobsters in the Federal zone just outside State waters. The Maine Marine Patrol has seen an increase in directed dragging in the Federal zone. And lobster industry officials from Maine, Massachusetts, and New Hampshire are reporting it.

And these officials expect dragging activity to increase further over the next couple of years as new groundfishing restrictions take effect and prompt more displaced groundfishermen to seek alternative fishing opportunities.

My original amendment sought to control the unwise practice of directed, or intentional, dragging for lobsters. A dragger would have been prohibited from landing more than 100 lobsters per 24-hour fishing day, with a maximum limit of 500 lobsters for a fishing trip of 5 days or longer. These landings limits were taken straight from the law enacted this summer by Massachusetts and signed by the Governor. States could have set the tighter limits, but landings would have been capped at the levels in the amendment.

These landings limits were intended to make it economically infeasible for dragger vessels to intentionally target lobsters, while permitting draggers that unintentionally catch lobsters when they are fishing for other species, like cod, to sell their incidental by-catch. It would have prevented draggers from easily circumventing the conservation laws of Maine and Massachusetts.

While I thought the amendment was a very reasonable one, other States expressed concern about the abrupt imposition of new Federal regulations on them, so I agreed to a substantial compromise. Instead of imposing the landings limits immediately, the amendment I am offering today permits the Atlantic States Marine Fisheries Commission and the Secretary of Commerce to develop and issue regulations for a Federal management plan for American lobster by December 31, 1997.

If a plan is not completed by the end of 1997, then the amendment would require the Secretary to implement the landings limits that were contained in the earlier amendment. To prevent an explosion in new dragging effort before the deadline, the amendment directs the Secretary to monitor lobster landings, and if he determines that a substantial increase in dragging is occurring, he is given discretionary—and I repeat, discretionary—authority to issue interim regulations to control the increase.

Mr. President, the deadline in my amendment is obviously more than a year away and it gives the ASMFC and the Secretary ample time to get a handle on Federal lobster management. In fact, the commission has said that it can complete a plan by the fall of 1997, so the deadline is realistic. My amendment will simply help to ensure that the commission meets its own schedule for a plan, which will, hopefully, ad-

dress the dragging issue. If the commission fails to meet this deadline, then and only then will the dragging restrictions go into effect. Once the commission completes its plan, the restrictions would be voided.

This is a very fair amendment, Mr. President, and, frankly, it represents a substantial compromise on the part of the American lobster industry. It provides plenty of time for the management process to work, while sending a message to the appropriate authorities that the issue of dragging for lobsters must be addressed. But if that process bogs down, and we're faced with the prospect of more and more dragging for lobsters, then responsible lobstermen will receive some interim protection until the commission completes its plan.

Lobster dragging is not only inconsistent with the conservation of this fully exploited resource, it discourages conservation efforts aimed at trap lobstermen. Trap lobstermen in Maine are facing stringent new State regulations. All lobstermen who fish in the Federal zone will have to reduce fishing effort by at least 20 percent in order for the ASMFC to meet its goals. How can we expect these responsible lobstermen to sacrifice and accept burdensome new regulations when wasteful and destructive dragging is allowed to continue unabated just across the State line?

The answer is that we can't. What we can expect is that these lobstermen will resist new regulations imposed on them, and the conservation program for the entire resource will be undermined.

Mr. President, this amendment is about responsible fishing practices. And it is about equity for responsible fishermen. With the substantial concessions that I have agreed to, this amendment gives the appropriate authorities plenty of time to work out a comprehensive plan. But if the process fails, then we have to act.

The amendment is pro-conservation, and it is pro-lobsterman. It is strongly supported by the State of Maine, the State of Massachusetts, and the entire lobster industry throughout New England and the Northeast.

Mr. President, my amendment presents an opportunity for Senators to cast a vote for equity for the great majority of America's lobstermen who fish the right way, and for a healthy lobster resource. It would be the height of irony if the Senate passed this Magnuson reauthorization bill, whose hallmark is the protection of America's fisheries, without approving this modest amendment. We can't let that happen, Mr. President. I urge my colleagues to support my amendment.

Mr. KERRY. Mr. President, I thank the Senator from Maine for her efforts. As she knows, we had a number of issues for a number of different Senators. But I think she has gone a long way in helping to get resolved any of those issues, and we are delighted to accept the amendment.

Mr. STEVENS. Mr. President, we are prepared to accept the amendment.

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

The amendment (No. 5381) was agreed to.

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senator's amendment be made a part of the managers' amendment when I present it later this evening.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I could extend comments at length because of some of the comments made by the Senators from Washington. I do not intend to prolong the debate.

I want to state, however, that the provisions for the community development quotas are based in part on the authority of Congress to regulate the commerce of the Indian tribes. The communities of the west coast of Alaska are predominantly Alaska Native people. They were there and fishing a long time before anyone else came on the fishing scene. As a matter of fact, there were no factory trawlers off Alaska from the State of Washington until about 9 years ago. During the period of time since then the amount of fish taken by those trawlers has come up from zero to at one time as high as 65 percent. As a result of negotiations, there is now allocated 65 percent to the fisheries offshore and 35 for the onshore fisheries.

We are allocating a portion of the fisheries to the communities involved that are historic native communities along our coast. I am sad that the Members from Washington do not agree with that concept. We have watched, I might say, with awe the development of the Indian law in the State of Washington that leads to a substantial claim by the Indians of Washington on the fish of the rivers, particularly the Columbia.

This is not the place to get into the argument about it, but we have worked out in Alaska a basis of allocation to protect the species. The Magnuson Act was designed to protect the fish, not fishermen. The amendments for CDQ allocation are to protect communities, not fishermen. They are to protect the traditional fishing communities along the west coast, and as I said half the coastline of the United States is involved and very few communities are protected under the provisions of the CDQ concept.

I do appreciate the comments they made and the attitude that has been demonstrated here by all Senators to try to get this bill resolved in the Senate and get it to the House and hopefully to the President before this Congress adjourns. I do want the Senate to know, however, that this is not a subject that will go away. We will be involved in fisheries legislation, I am sure, as long as the Senate and the Congress are in being and as long as there are fisheries because it is a matter of Federal jurisdiction. Whether we

like it or not, we have to exercise our responsibility and we have to find a way to accommodate the claims of persons who are entitled to fish in the waters off our shores.

We have tried our best to do that while at the same time protecting those people who have traditionally relied upon the sole source for their income, and that is the fish resources off the State of Alaska. That is the case for those Native communities. They are devastated now, Mr. President, and we are trying to find a way to protect their future.

I do believe we have the right as the Congress of the United States to pass a law which commits a portion of the fish resources to those communities under the constitutional powers of the United States Congress to deal with the rights of Indian people, and that is why I am pleased to have the provisions in this bill which I think confirm the action of our regional council. The fisheries development quotas were first put into being by action of the council itself. We are now confirming that that is legitimate action under the concept of the Magnuson Act.

Mr. President, it is my intention now to offer the managers' amendment. I would like to ask at the same time that the clerk under the direction of the staffs of myself and Senator KERRY be authorized to make the technical amendments necessary to incorporate the amendments that have already been adopted. The amendments that were covered by the time agreement are to be put into the managers' amendment, and we are doing that at the present time. And the amendment of Senator SNOWE will also be put in the managers' amendment.

So I suggest the absence of a quorum, if I might just do it for a moment. I will yield to my friend from Massachusetts if he wishes to make some comment.

I suggest the absence of a quorum, Mr. President,

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5382

(Purpose: To amend the Magnuson Fishery Conservation and Management Act to authorize appropriations to provide for sustainable fisheries, and for other purposes.)

Mr. STEVENS. Mr. President, I send to the desk the managers' amendment.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for himself and Mr. KERRY, proposes an amendment numbered 5382.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. STEVENS. Mr. President, I ask unanimous consent this amendment be adopted now as original text, and if the Senator from Texas wishes to offer an amendment, that that be in order when she arrives—

Mr. KERRY. Mr. President, reserving the right to object.

The PRESIDING OFFICER. Objection is heard.

Mr. STEVENS. And the amendment offered by the Senator from Texas be subject to a time agreement we have already entered into, 30 minutes in the usual form, subject to the restrictions contained in the time agreement that has already been entered into on S. 39.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Alaska?

Mr. KERRY. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Massachusetts reserves the right to object.

Mr. KERRY. Mr. President, I have no objection.

The PRESIDING OFFICER. Without objection, the unanimous-consent request is agreed to.

The amendment (No. 5382) was agreed to.

Mr. KERRY. Mr. President, but I do want to request a time agreement with respect to—

Mr. STEVENS. We did. Subject to the consideration—30 minutes was allowed on any amendment in the first degree. It will not be subject to second-degree amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I do now ask that we have the agreement I sought previously; the clerk, working with the staffs of the two managers, myself and Senator KERRY, be permitted to make technical changes necessary to conform this amendment. I have sent to the desk the managers' amendment with the Snowe amendment. We will now have another amendment offered, which I intend to oppose, by the way, but it will be offered. Should it be adopted tomorrow, then it would be inserted into this amendment. So it would be an amendment to this managers' amendment we offered.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. I now ask no further amendments be in order, other than the one amendment of the Senator from Texas.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. SNOWE. Mr. President, I rise in support of the committee substitute and of S. 39, the Sustainable Fisheries Act, as amended.

Before discussing some of the provisions of the bill, I wanted to commend

Senator STEVENS for his achievement in bringing this bill to the verge of Senate passage. As those of us from coastal States know, fisheries management issues can be extremely complex, in both the technical and political senses. And these complexities are greatly heightened at the present time when so many of our fisheries are either fully exploited or overexploited.

That is why the reauthorization of the Magnuson Act has been a long and arduous process. But Senator STEVENS, working with Senator KERRY, have been able to plow through the complexities and the conundrums, and to resolve seemingly intractable disputes, in an effort to fashion the compromise legislation that we are considering today. It's truly a monumental achievement. And Senator STEVENS, in particular, who has been a leader on fisheries issues for decades, and a framer of the original Magnuson Act, deserves our appreciation.

Mr. President, as other Senators have mentioned, this bill strengthens the conservation provisions of the Magnuson Act, and it will lead to the elimination of overfishing and fisheries rebuilding in all our marine fisheries. Consistent with the title, letter, and spirit of the bill, I firmly believe that our fisheries must be sustainably managed. And sustainable management will require regulation.

Given the state of many of our fisheries, we cannot avoid conservation measures. But in the course of developing these measures, it is also equally important that the Federal Government consider the economic costs of fisheries conservation. In some cases, those costs can be severe, as in the case of the New England groundfish industry, which is now facing a mandatory 80 percent fishing effort reduction in 2 years. Yet despite the importance of economic considerations, there is no requirement in the Magnuson Act to require fishery management councils to try to minimize the adverse economic impacts of fisheries regulations on fishing communities.

During markup in the Commerce Committee, I offered an amendment which establishes a new national standard requiring all fishery management plans to minimize adverse economic impacts on fishing communities. The amendment was adopted by voice vote. This provision is retained in the bill on the floor today, although we have modified it to make clear that these economic considerations are not designed to trump conservation considerations in the process of developing fishery management plans.

In addition to the economic impacts language, the bill before us contains other provisions that I had offered as amendments during the committee process. One directs the Secretary of Commerce to establish an advisory panel consisting of scientists, State officials, fishermen, and conservationists to study and explore ways that the National Marine Fisheries Service can expand the application of ecosystems

principles in its fisheries research and management programs.

Currently, the service takes a narrow approach that focuses primarily on individual fish populations. I, along with many scientists, believe that the Government should take a more holistic approach that looks at fisheries in the context of the ecosystems in which they live. The report required by my amendment would be completed within 2 years.

Another of my provisions from the committee bill would preserve the existing ban on the sale of undersized lobsters in the United States. This language insures that the ban will remain in place even after the Atlantic States Marine Fisheries Commission assumes responsibility for lobster management in the Federal zone. Obviously, this ban protects juvenile lobsters that must, if we are going to conserve this resource, be given an opportunity to reach sexual maturity.

Negotiated rulemaking was the subject of another of my amendments in committee, and the bill retains those provisions. Negotiated rulemaking is a form of alternative dispute resolution in which representatives of all of the stakeholders in a dispute hold a series of negotiations with a professional facilitator to achieve consensus. Negotiated rulemaking provides an opportunity to overcome some of the divisiveness that we have seen in some fisheries controversies. My amendment would authorize the Councils, as well as the Secretary, to use negotiated rulemaking when they develop fishery management plans.

Mr. President, I would also like to mention three amendments that I offered prior to floor consideration, and that have been included in the manager's amendment.

The first directs the National Academy of Sciences to conduct an independent scientific peer review of the scientific information which forms a basis of the northeast multispecies fishery management plan. This is the plan that covers the New England groundfish industry.

As I noted earlier, due to serious concerns about the health of the groundfish resource, the New England Council has implemented a management plan that will reduce fishing effort by 80 percent within 2 years. This science has been controversial within the industry in the New England region, and before moving forward with such draconian regulations, I think we owe it to those most affected by the plan to get a second opinion on this science before it's too late. This peer review amendment will give us that second opinion.

My other amendments allow the State of Maine to permit Maine-licensed lobstermen to continue to fish in four pockets of Federal water that are surrounded on three sides by State waters, and make transshipment permits available to certain Canadian transport vessels involved in the sardine trade between Maine and Canada.

Mr. President, the bill is a fair product which resolves many competing concerns. I urge its adoption.

Mr. STEVENS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. BROWN). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 5383

Mrs. HUTCHISON. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Texas [Mrs. HUTCHISON] proposes an amendment numbered 5383.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 142, line 7, "insert "To the maximum extent practicable", before "Any".

On page 142, line 10, "strike "must" and insert in lieu thereof "should".

On page 148, strike lines 1 through 17.

Mrs. HUTCHISON. Mr. President, we are going to try to work to see if we can get these amendments in a form that is acceptable to the others that are interested in this bill. It is very important to many of the recreational fishermen in my State that we try to have a level playing field for the recreational fishing people. I would like to try to work this out, and hopefully put off the vote until tomorrow.

Mr. BREAU addressed the Chair.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. BREAU. Just to inquire of the Chair, under the existing agreement of the managers, is there time to discuss the amendment before the vote would occur tomorrow?

Mr. STEVENS. No.

The PRESIDING OFFICER. Currently there are 49 seconds left. Under the current guidelines we are operating under, there is no time set aside for debate tomorrow, the Chair is advised.

Mr. BREAU. I will suggest at least a couple minutes on each side, for the author of the amendment and those who oppose the amendment, to make comments before we vote tomorrow.

Mr. STEVENS addressed the Chair.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Mr. President, I notified the Senator from Texas it is my intention, and I believe it is the intention of the Senator from Massachusetts, to join together to oppose this amendment in its present form. Should it be modified in a way that is acceptable, it would, of course, be acceptable to the Senator from Louisiana. At the

present time it is my understanding there is not the opportunity to debate the amendment, but it is my understanding the Senator has offered the amendment with the hopes that through the night that this can be negotiated out to be acceptable to all concerned, including the Senator from Louisiana.

I state, it would be my intention, if there is to be any discussion of this tomorrow, it would be by whatever agreement we make now. And if the Senator wishes some time tomorrow, I do not think that is impossible.

How much time would the Senator like tomorrow?

Mr. KERRY. Two minutes on each side.

Mr. BREAU. I think we have more than one amendment at the desk in its current form.

Mr. STEVENS. One amendment that hits the bill in two spots. The Senator is correct. Again, we intend to oppose this amendment, and ask the Senate to oppose it in its present form. If it is modified, it will be modified to meet the Senator's acceptance. It would have to take unanimous consent.

Mr. KERRY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KERRY. Mr. President, obviously, the purpose of the agreement which we entered into previously was to set aside time tonight for the purposes of debate. And it is my understanding, the majority leader said there would be no debate tomorrow, there would only be votes.

I think it is fair to allow both sides 2 minutes, but I would be adverse to opening it up to a whole process of debate tomorrow. I mean, if they reach agreement, then there is no need for debate. If they do not reach agreement, then it is going to take a very quick explanation of the two sides because both managers are going to be opposing this. I do not think we ought to open it up for a lengthy period.

Mr. BREAU. Two minutes.

Mr. KERRY. Mr. President, I ask unanimous consent that there be 2 minutes for each side tomorrow prior to a vote, if there is to be a vote, in order to explain both positions.

The PRESIDING OFFICER. Is there objection to 4 minutes equally divided?

Mr. STEVENS. Mr. President, I shall not object, but I want to make it clear in the RECORD, if we can, that the Senator from Texas has the right to modify her amendment tomorrow in any form she wishes to do so. We will oppose it in its present form, and we will oppose it unless it meets an agreement of the managers of the bill.

The PRESIDING OFFICER. The unanimous consent before the Senate is a request for 4 minutes equally divided between the two sides, with the Senator from Texas retaining the right to modify her amendment. Is there objection? Without objection, it is so ordered.

Who seeks recognition.

Mr. STEVENS. Mr. President, I know of no further business to come before the Senate on this bill. As I understand it, all of the amendments that were to be considered by the time agreement have now been brought before the Senate, and there is no more time left—I yield back whatever time I have.

Mr. President, I ask unanimous consent that Senator COHEN be added as a cosponsor of the amendment of Senator SNOWE, which was previously adopted.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KERRY. Mr. President, I yield back whatever time I have.

The PRESIDING OFFICER. The Senator from Massachusetts yields back his time. The Senator from Alaska yields back his time. All time has been yielded back.

Mr. STEVENS. If all time is yielded back, Mr. President, I would like to move on now to the matter of closing. I suggest the absence of a quorum.

The assistant legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. STEVENS. Mr. President, I ask unanimous consent that there now be a period for the transaction of morning business with Senators permitted to speak therein for up to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ESCALANTE NATIONAL MONUMENT PROPOSAL

Mr. HATCH. Mr. President, for my colleagues who may have missed it, today President Clinton used executive power under the 1906 Antiquities Act to designate nearly 2 million acres in southern Utah as a national monument.

A national monument, as my colleagues know, effectively locks up land within its boundaries preventing any kind of responsible development and limiting existing rights, including water rights, in the second driest State in this Union.

Utah is already home to five national parks, two national monuments, two national recreation areas, seven national forests, one national wildlife refuge, and 800,000 acres of wilderness.

We prize our land in Utah. We believe we ought to preserve as much of it as we can, and we would like to continue working on legislation to designate more wilderness in Utah.

But the process the President is using is flawed and inherently unfair. I just say, the unilateral action taken by the President today is out of bounds. Members from Utah's congressional delegation and our State Governor had to read about this proposal in the Washington Post. That is the first time

we heard about it. There has been no consultation whatsoever in the development of the proposal. We have seen no maps; no boundaries; there have been no phone conversations; no TV or radio discussion shows; no public hearings; absolutely nothing from this President.

None of the procedures for review and comment that are built into our environmental laws, such as the National Environmental Policy Act or FLPMA have been followed. These procedures are a part of our law precisely to guard against the Federal Government from usurping State or local prerogatives without public knowledge or comment.

While the 1906 Antiquities Act may, indeed, give the President the literal authority to take this action, it is quite clear to me that in using this authority, President Clinton is violating the spirit of U.S. environmental laws and, indeed, of American democracy itself.

It was no doubt inconceivable before today that any President of the United States would take such dramatic action—action that so dramatically affects any State—without due diligence. And it is plain to this Senator that the White House either flunks the test of due diligence or takes this action deliberately without regard to its negative impact on our State.

What should be especially relevant, and alarming, to every Senator is that this disregard for established public law requiring public input, let alone the disregard of established traditions of democracy, can be applied elsewhere other than Utah. Today, Utah; tomorrow, your State.

I hope my colleagues will not brush off the precedent this Executive action creates. There are numerous negative consequences to this President's action today. Among the most serious is the effect on education in Utah.

Many States in the West depend on school trust lands to help finance their educational systems. In fact, 22 States, most of the States west of the Mississippi River, have trust lands.

Utah relies heavily on the income produced by these trust lands to help finance our schools. The national monument proclaimed by President Clinton will capture approximately 200,000 acres of Utah school trust lands and render them useless to Utah schoolchildren. I say to my colleagues, and to President Clinton if he is listening, this is a potential loss of \$1 billion to Utah schools, and these environmental extremists are already talking that it is only \$36,000 a year. That is how ridiculous they are.

There is not a single State in America that can afford to lose that kind of money for education—that is \$1 billion worth—let alone Utah, which, because we have so much public nontaxable land, is always straining to fund education.

What is even more appalling is the fact that the resources President Clinton is taking away from Utah kids, in

effect, is their own land. These school trust lands were deeded to Utah to be held in trust for our children's education, and with one stroke of the pen, these 200,000 acres will be gone.

The Utah Public Education Coalition, which includes professional educators, State and local administrators, the PTA and school employees, have come out strongly against this arbitrary action by the President.

I ask unanimous consent that their letter to President Clinton, position statement and resolution, be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. HATCH. Mr. President, another adverse ramification of the President's action today is inability to responsibly extract the high-quality, clean-burning, low-sulfur coal that lies in the Kaiparowits coal basin. Please note, the coal is in the basin, not on the Kaiparowits Plateau. This is not a strip mine. This is a mine right in the side that will not even show.

The basin has been called the "Saudi Arabia of coal." There are about 62 billion tons of coal here, about 16 billion tons of which can be mined with existing technologies. That is enough coal to fulfill Utah's energy needs for the next 1,000 years, and, I might add, the energy needs of this country. That is environmentally sound coal that could be blended with the dirty coal from the East, and it would be in the best interest of the environment of this country.

I find it a little ironic that the President wants to prevent the mining of this clean, environmentally beneficial coal while we are still paying billions of dollars to clean our dirty air from burning high-sulfur, dirty coal.

These coal reserves, in addition to being a financial asset to our State, are a critical energy resource for our entire country. We are being extremely shortsighted if we forget this fact.

How can we justify sending U.S. troops to keep the Middle East stable and to keep the oil flowing when President Clinton refuses to develop energy resources right here in our own country? We have to do both. We have to act in the best interest of the energy needs of this country. What the President did today is not in the best interest.

Mr. President, we should not forget the impact the restrictions on water rights will have, not only on Utah, but also on Colorado, New Mexico, Nevada, Arizona, and California.

Utah is the second driest state in the union. This action by President Clinton would deny our state the right to develop its water in southern Utah.

Finally, Mr. President, I wonder how the Administration plans to pay for the operations and maintenance of what would be the largest national monument in the United States.

Already, the National Park Service is stretched to the limit. Adding nearly 2

million acres to their inventory—almost the size of Yellowstone—raises real questions about our stewardship of this land. We want to preserve land in southern Utah.

There is no question that Utahns want to protect as much land as we can. We would support a well thought out proposal for additional national park or wilderness areas in southern Utah.

We also recognize that there are differences of opinion concerning the number of acres and management prerogatives. We believe those are matters for negotiation and compromise, not for making political hay with important special interest groups.

We would like to work with President Clinton to develop a sound preservation plan. And, the offer is still open to work together on this.

But, frankly, I say to my colleagues, real damage has been done here—both to Utah and to the tradition of open debate. The failure even to consult prior to making this decision should be considered devastating to representative democracy.

Our Utah newspapers have thus far been unanimous in their criticism of the President's action. But, they also represent the people of Utah. They may be sympathetic to environmental concerns—just as Utahns are—and they may support more protected land in southern Utah—just as many Utahns do—but they draw the line on a Federal Government exercising what they construe as abusive power—just as Utahns do.

So permit me to quote from an editorial this morning from the San Francisco Chronicle: "The question is whether a decision of such magnitude should be carried out by executive order. We think not."

While acknowledging their differences with me and my colleagues on the specifics of the wilderness bill proposed earlier, the Chronicle goes on to suggest that:

"In this case, Clinton is taking the wrong route—an election-year shortcut—to the right goal."

The bottom line here, Mr. President, is that any proposal that is going to have such an incredible impact on the people of Utah—or of any other State—ought to be vetted by our political process.

People ought to be able to debate it in the press, on talk radio, in civic clubs, and across back fences. They ought to be able to write their Congressman. They ought to be able to support it or protest it.

Utahns have had little opportunity to do either. There is something fundamentally wrong with a Presidential action that deprives a State of \$6.5 billion in revenue, \$1 billion for education, surrounding States with water resources, and the entire Nation of important energy resources without even a hearing or a vote.

One last thing: I want to put the Senate, the House, and the President on

notice that this issue is not over. William Jefferson Clinton's signature on this order isn't the end of it.

We cannot suffer this kind of an assault on Utah without a fight. So, today it begins.

Mr. President, I will just conclude with these comments. There is no question that Utahans want to protect as much lands as we can. We would support a well-thought-out proposal for additional national park or wilderness areas in southern Utah and even a national monument, which is not as good as wilderness areas or national parks.

We also recognize that there are differences of opinion concerning the number of acres in management prerogatives. We believe those are matters for negotiation and compromise, not for making political hay with important special interest groups.

We would like to work with President Clinton, if he would, to develop a sound preservation plan. And the offer is still open for us to still work together on this. But, frankly, I say to my colleagues, real damage has been done here, both to Utah and to the tradition of open debate. The failure to even consult prior to making this decision is to be considered devastating to representative democracy.

I ask unanimous consent that a number of documents be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Standard-Examiner, Sept. 10, 1996]

BILL CLINTON SHOULD WAIT FOR UTAH'S INPUT

In the battle between environmentalists, the federal government and Utah's congressional delegation, the battle for wilderness has taken a creative turn.

President Clinton and his Secretary of the Interior, Bruce Babbitt, have floated an unusual trial balloon: The administration may invoke a 1906 statute to create a 1.8 million-acre national monument encompassing Utah's Kaiparowits Plateau.

It would be called Canyons of the Escalante National Monument, and the thing that's driving Gov. Mike Leavitt and Utah's congressional delegation crazy is that Clinton can accomplish the task with a stroke of his pen—Congress and the state be damned.

It's the kind of bold move Clinton might enjoy taking in an election year, cuddling up to and solidifying his support among environmentalists across the nation, who have been pushing for designation of 5.7 million acres of wilderness in Utah.

Such a move would surely anger the less environmentally inclined of Southern Utah, though, since they've been counting on the mining of Kaiparowits Plateau coal by the Dutch firm Andalex Resources Inc., which plans to start a 50-year coal mining operation within the next year, bringing in paved roads and about 1,000 jobs.

The Kaiparowits is pretty much ground zero in the battleground between those lobbying for 5.7 million acres of wilderness and those who prefer 2 million acres. In the 5.7 million-acre plan, virtually all of the Kaiparowits Plateau is set aside as wilderness, whereas in the 2 million-acre alternative only about 12 percent would be preserved.

Debate is a good thing, but this latest move by the White House ought to be alarm-

ing to all sides. It means the president, if he has a mind to, can bypass public comment and unilaterally create de facto wilderness. As the administration has said, the 1906 law permitting Clinton this discretion can be used to protect objects of historical, biological or archaeological importance.

If, indeed, that is the case with the Kaiparowits Plateau—and it may well be—Clinton should use the standard means for coming to that conclusion: study, debate and action. To do otherwise in an election year can be seen as nothing but what it is: pandering to a specific constituency.

[From the San Francisco Chronicle, Sept. 18, 1996]

CANYONS OF THE ESCALANTE

Our concern with President Clinton's intention to establish the Canyons of the Escalante National Monument has nothing to do with its paleontological or archeological value.

Indeed, there are compelling reasons to preserve a 1.8 million-acre, red-rocked patch of southern Utah, with its stunning buttes, steep canyons and array of artifacts from tribes that once inhabited the foreboding terrain.

The question is whether a decision of such magnitude should be carried out by executive order.

We think not.

This may well be a worthy idea, but it deserves a fair hearing. It deserves to go through public deliberations—as slow and messy as democracy may be—to fully air the concerns about sealing off access to a potentially rich coal field.

There is no dispute that President Clinton has the legal authority under the Antiquities Act of 1906 to declare the national monument. President Teddy Roosevelt invoked the same statute in 1908 to protect the Grand Canyon.

Utah's congressional delegation is understandably irate at the prospect of a Clinton-decreed monument. In their view, the president is rolling over their concerns—and scoffing at the five electoral votes he had no chance of getting anyway—to score points with the broader electorate. Polls show that voters are concerned about environmental protection, and the deficiency of such a sensibility in Congress.

We certainly would not want to defer to Utah politicians on this issue. After all, their pro-development bent was clearly evident in a Utah Wilderness Bill that has been languishing in the U.S. Senate.

Still, they deserve to be heard. Some of the canyon land in the new monument would have been designated as wilderness in the Utah bill. Which approach would provide the proper level of protection? That and other land-management issues were worth exploring—in a public process.

By drawing a circle around a chunk of southern Utah, Clinton will have headed off the exploitation of a precious area.

In doing it by executive order, however, Clinton and the environmental community are likely to encounter intensified hostility in future skirmishes over development and preservation. Utah may not matter on the electoral map, but small Western states pack disproportionate clout on Capitol Hill, particularly in the U.S. Senate, and they often band together on land issues.

In this case, Clinton is taking the wrong route—an election-year shortcut—to the right goal.

[From the Salt Lake Tribune, Sept. 13, 1996]

A MONUMENT TO RASHNESS

The Clinton administration would be denying its own land-management process if it

were to create unilaterally a huge Canyons of the Escalante National Monument on federal land in southern Utah. It should forgo such rash action and await results from processes already in motion.

The concept of a Canyons of the Escalante National Monument blindsided most everybody last weekend, when a Washington Post story revealed that President Clinton was considering such protection for 1.8 million acres in Kane and Garfield counties. Under the 1906 Antiquities Act, he has the right to establish national monuments, just as other presidents have on Utah's public lands. But a designation of this magnitude, at this time, would not be well-advised.

There are two intertwined developments here, and the administration ought to let them run their course rather than pre-empt them with a national monument designation. One is the ongoing preparation of an environmental impact statement (EIS) for Andalex Resources' request to develop its coal-mining claims on the Kaiparowits Plateau. The other is the ongoing fight over wilderness designation on Utah's Bureau of Land Management lands.

The Interior Department is involved in both, developing an EIS on Andalex that is now projected to be ready sometime next year and, at the recent behest of Secretary Bruce Babbitt, conducting a new inventory of BLM lands in Utah for wilderness designation. Wilderness advocates, who oppose the Andalex mine, have been critical of the EIS process, yet they endorse the re-inventory. It is a bit disingenuous to applaud the agency on one project and distrust it on a related one.

Of course, the Utah Wilderness Coalition, which wants 5.7 million acres of wilderness designation on Utah's BLM lands and hopes Babbitt's re-inventory will facilitate that, is primarily looking for results—and, concurrently, for the blocking of the Andalex mine. And Clinton's designation of a national monument would give it more than it ever envisioned.

The proposed national monument would involve three potential wilderness areas—the Kaiparowits Plateau, the Grand Staircase and the Escalante Canyons. The UWC recommended 1.27 million acres of wilderness in those three areas. So, President Clinton's designation of a 1.8-million-acre national monument would give environmentalists a half-million more acres of protection than even they suggested. Obviously, that's a stretch.

By the same token, little sympathy should be reserved for the members of the Utah congressional delegation, who whined about learning of the national monument idea through the press. They already know about an unbalanced process, since they were accused of conducting one last year prior to unveiling their original 1.8-million-acre wilderness bill.

The delegation bill was inadequate on acreage and was particularly short in the Escalante-Kaiparowits areas, where it recommended only about 360,000 acres of wilderness. The wilderness study areas that the BLM had established a decade earlier covered 2 times that much in this precious region. So, while a national monument providing 1.8 million acres of protection may be off the scale, so too was the delegation's meager 360,000 acres.

Other considerations that should cause the president to look before he leaps include Utah's school trust lands and the future of the Kaiparowits coal reserves. If a national monument were designated, some sort of compensation for school trust lands within the area would be necessary. But the educators protest too much; their windfall from the development of these lands is not a pri-

mary consideration on which to base land-management decisions.

As for the estimated 62 billion tons of coal under the Kaiparowits Plateau, that is a natural resource as well as the unusual land above it. The president ought to think twice before considering a designation that would inhibit the use of that resource, which, if not developed now by Andalex, may be needed decades from now.

Obviously, the process for determining how much of southern Utah's public lands to protect—whether by wilderness designation, national monument, conservation area, eco-region or some other brand name—has not been productive so far. But if the president's own Interior Department is assessing the impact of the proposed Andalex mine and re-assessing wilderness acreage, it makes little sense for him to obviate the agency's work now by cavalierly dubbing the whole area a national monument.

— U.S. SENATE,

Washington, September 17, 1996.

The PRESIDENT,

The White House, Washington, DC.

DEAR MR. PRESIDENT: Last Saturday, we met with Secretary of Interior Babbitt and Council on Environmental Quality (CEQ) Director McGinty to discuss the possible designation to the Canyons of the Escalante National Monument. We are writing to strenuously voice our opposition to this action.

Since the proposal surfaced in a Washington Post article in September 7, we have been unable to ascertain any information on the specifics of this proposal now under review by the White House. Repeated requests for information from both CEQ and the Department of Interior have resulted in no further clarification of the story. Even our meeting last Saturday yielded nothing new on this subject. It has been very frustrating to know that senior officials in the Administration have been considering creating a new national monument in Utah, and yet we are unable to learn any of the details—i.e., the exact location, the specific boundaries, the impact on existing rights-of-way and permits, which federal agency will manage the proposed monument, the impact to state school trust lands, etc. In our opinion, this is not the way to go about the establishment of a new national monument, let alone carrying out the public's business.

We have expressed our specific concerns to Secretary Babbitt and Director McGinty, and we trust they will bring these items to your attention prior to your making any decision to proceed further on this project this week or, for that matter, anytime in the coming months. However, we would like to reiterate these concerns to you so there can be no misunderstanding.

As we indicated on Saturday, we believe this proposal, as indicated in the Post article, should be rejected for several critical reasons:

The total acreage of the Monument proposal will be approximately 1.8 million acres. If this acreage figure is correct, this proposal would create the largest national monument in the continental United States, 1½ times the size of the Grand Canyon National Park. This land will be withdrawn from multiple use without any public comment and review, including congressional hearings and meetings, and without consulting the land managers on the ground who must deal with any conflicts that will occur.

The State of Utah is bound by this fiduciary responsibility to show complete and undivided loyalty to the school children of Utah—the sole beneficiaries of the trust created at statehood—and properly manage these lands to enhance our schools. That is

the reason for their existence. Placing these lands within the proposed Monument's boundaries will create state inholdings within a national monument, which severely limits the proper management of these lands by the trustee, the Utah State Schools and Institutional Trust Lands Board.

Understandably, the Board is very concerned about the future of the billions of tons of clean, low sulfur coal that is located on these school trust lands. The Utah Geological Survey has estimated the net present value of the coal in this area at over \$1 billion. This revenue flow is vital to Utah, as the Utah Public Education Coalition has stated. If this much land is taken from the school children of Utah, the state and board of education would have no choice but to file a lawsuit as trustees for the beneficiaries for taking over a billion dollars of school resources without fair and timely compensation.

Those who support the Monument proposal have spoken of the need to protect the land for generations to come; we would argue for support of a better and more responsible proposal that protects the beauty of our land while enhancing the educational component of our society for these future generations. As we understand the proposal, it would not achieve both results.

Acceptance of the Monument proposal would send the message to every public lands state in the nation that at anytime the Executive Branch could withdraw millions of acres of lands within that state from multiple use purposes without the benefit of a single comment from the affected state. In fact, it may occur without any notification.

The Monument proposal will basically withdraw from future development the largest untapped energy reserve in the United States, valued by the State of Utah to be more than \$1 trillion. The energy in the Kaiparowits Coal Basin is comparable to 20 to 30 billion barrels of OPEC oil, and would satisfy the energy needs of Utah for many generations to come. The inclusion of this resource within the Monument proposal will have an enormous fiscal impact on all taxpayers of approximately \$6 to \$9 billion in lost federal royalties. Under the Monument proposal, this resource will never be available for future generations. We question whether these economic and national security issues have been thoroughly discussed by the administration prior to the formulation of this proposal.

Mr. President, for these and many other compelling reasons, we have very serious reservations about the Monument proposal. We have been provided with no details on this proposal. That is why we strongly encourage you to resist any temptation or campaign advice to issue a proclamation designating a new national monument in Utah this week or in the coming weeks, until a complete analysis conducted through a public process can be undertaken with us and the citizens of our state. It is only through such an open process that these and the many other issues related to the establishment of a national monument can be properly addressed.

We would appreciate your serious consideration of these issues.

Sincerely,

MICHAEL O. LEAVITT,
Governor.

ROBERT F. BENNETT,
U.S. Senator.

ORRIN G. HATCH,
U.S. Senator.

JAMES V. HANSEN,
Member of Congress.

ENID GREENE,
Member of Congress.

EXHIBIT 1
THE UTAH PUBLIC
EDUCATION COALITION,
September 11, 1996.

The PRESIDENT,
The White House,
Washington, DC.

DEAR MR. PRESIDENT: The Utah Public Education Coalition is adamantly opposed to the proposed designation of the Kaiparowits Coal Basin and other lands in Utah as the Escalante National Monument. We oppose this designation as currently proposed for a variety of reasons.

First of all, there has been so little discussion and review of the proposal that it is not clear what the boundaries are. Potentially 200,000 acres of school trust lands granted to support our schools are within the boundaries of the proposed designation. If this much land is taken from the school children of Utah, the state and board of education would have no choice but to file a lawsuit as trustees for the beneficiaries for taking over a billion dollars of school resources without fair and timely compensation.

One of our major concerns is over the designation of the Kaiparowits Coal Basin as part of this national monument. This land is separate from the Kaiparowits Plateau which is known for its scenic beauty and unique land formations. The Kaiparowits Coal Basin is composed of considerably less scenic terrain and is interlaced with many miles of country roads, an airstrip, an old coal mine, drill sites, and abandoned mine sites.

The designation would frustrate environmentally sound recovery of an important national resource. The coal resources in the Kaiparowits Coal Basin represent the largest untapped energy reserve in the United States, and this coal is among the least polluting in the world. Development of this underground coal will be important to our nation and will return \$6 to \$9 billion to the national treasury in royalties plus additional funds through the multiplier effect.

We further believe that there is no reason to declare this a national monument to protect the canyons of the Escalante as they are already protected. At this time, 90 percent of the canyons of the Escalante are already in the Glen Canyon National Recreation Area. The remaining 10 percent are near the town of Escalante and are in current wilderness study areas.

On behalf of the children and our schools, we ask that you not designate any further lands in Utah as a national monument without full consideration of the impacts on education in Utah and full compensation for any restrictions placed Utah's school trust lands.

Sincerely,

Linda M. Sarkinson, Utah PTA, Brent Thure, Utah School Superintendents Association; Mossi W. White, Utah School Boards Association; W. Lee Glad, Utah Association of Elementary School Principals; Janet A. Cannon, Utah State Board of Education; Phil Oyler, Utah Association of Secondary School Principals; Scott W. Bean, Utah State Office of Education; Kelly Atkinson, Utah School Employees Association; Phyllis Sorensen, Utah Education Association.

POSITION STATEMENT IN OPPOSITION TO THE PROPOSED DECLARATION OF THE CANYONS OF THE ESCALANTE NATIONAL MONUMENT

(By the Utah Public Education Coalition)

The position of the Utah Public Education Coalition is in support of careful consideration of the environment. Additionally, our position is in defense of educational opportunities for our children, a strong adherence to

issues of integrity, and a position that the best decisions are made in an environment of information, communication, balance, and knowledge.

The following educational issues are important:

Within the boundaries of the proposed 1.8 million acres under consideration are approximately 200,000 acres of SCHOOL TRUST LANDS that do not belong to the federal government.

At statehood, the federal government entered into a compact with the state of Utah in which it was agreed not to tax the federal lands in exchange for 5.8 million acres being granted to support education. Utah is bound by the fiduciary duty to show undivided loyalty to the schools of Utah, who are the beneficiaries of the trust created by the Enabling Act. The federal government is also bound, as grantor, by the terms of the grant. We expect our President to show integrity in abiding by its compacts with its own people.

Any attempt to deny the schools of Utah full fair market value for the lands so granted would initiate a takings procedure by the education family and the state as trustee for the full value plus interest. Governor Mike Leavitt's office and the Utah Geological Survey has estimated that the net present value of the coal underlying the Kaiparowits Coal Basin on the school lands alone is between \$640 million and \$1.1 billion.

The National Education Association Legislative Platform has a plank to protect land set aside to support schools. There are 22 states that have trust lands (Alaska, Arizona, Arkansas, California, Colorado, Hawaii, Idaho, Louisiana, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming).

The energy in the Kaiparowits Coal Basin represents the largest untapped energy reserve in the continental United States. This is not just a Utah issue; this issue is a national issue, especially with the recent power outages on the west coast.

Inclusion of the Kaiparowits Coal Basin in the proposal has an enormous fiscal impact on the taxpayers of approximately \$6 billion to \$9 billion in lost royalty.

Designation of 1.8 million acres is not necessarily a pro-environmental position as the coal from the Kaiparowits is among the cleanest coal with the lowest sulfur content. At this time, 90% of the canyons of the Escalante are already in the Glen Canyon National Recreation Area. The remaining 10% are near the town of Escalante and are in current wilderness study areas.

The coal resources are NOT located on the Kaiparowits Plateau. The coal resources are located in the Kaiparowits Coal Basin to the west of the plateau.

The Kaiparowits Coal Basin is not pristine. Within 2 miles radius there are 36 miles of publicly maintained roads, an air strip, drill holes, a previously mined coal site, numerous other mining sites, fences and cattle watering holes.

The Kaiparowits Plateau is composed of towering cliffs and spectacular, stark scenery. On the other hand, the Kaiparowits Coal Basin has been described an undulating grey terrain. Parts of "Planet of the Apes" were filmed there.

There is a middle ground. Development of the coal resources can occur under the ground with the mine portal occupying only 40 acres of the surface, about .004% of the Kaiparowits Coal Basin. Citizens can continue to enjoy the Canyons of the Escalante and the Kaiparowits Plateau under the protection of a National Recreation Area and wilderness study areas. Improvement of the existing road would eliminate the need for additional road construction.

RESOLUTION IN SUPPORT OF AN EXCHANGE OF UTAH SCHOOL TRUST LANDS FOR FEDERAL LANDS IN THE SMOKY HOLLOW AREA OF KANE COUNTY, UTAH

(By The Utah Public Education Coalition)

Whereas, Under the Utah Enabling Act the federal government granted to the state certain sections of the public domain, now known as School Trust lands, to be used exclusively for generating revenue to support Utah's public education system; and

Whereas, These School Trust lands are scattered and isolated parcels which are now totally surrounded within a larger matrix of federal lands, and management of the surrounding federal lands by the federal government for non-economic purposes is in direct conflict with the state's fiduciary responsibility to create revenue from these trust lands for the state's public education system, and that such federal land management conflicts are in direct violation of the grant made by the United States government to the State of Utah; and

Whereas, Utah School Trust lands located within the Kaiparowits and Alton coalfields of southern Utah contain hundreds of millions of recoverable tons of high-grade bituminous coal, enough to supply all the electrical power requirements for the entire state of Utah for the next 100 years at present rates of consumption; and

Whereas, This coal reserve constitutes one of the most important sources of future revenue for Utah's School Trust and shall be protected by the State now and forever in the future; and

Whereas, Most of these School Trust coal reserves are scattered throughout federally designated wilderness study areas in the interior of the Kaiparowits coalfield or in areas of the Alton coalfield designated by the federal government as "unsuitable for mining" because of proximity to the viewshed from Bryce Canyon National Park; and

Whereas, These federal non-use designations prevent the development of the inheld School Trust resources for the support of the schools within these areas; and

Whereas, The development of underground coal deposits by modern underground mining methods requires large blocks of contiguous acreage; and

Whereas, It is the responsibility of the State of Utah to assure the beneficiaries of the Utah school trust that in the future the federal government will be required to provide just and adequate compensation for any defacto takings of any and all School Trust assets within the Kaiparowits/Alton coalfields resulting from any federal action or land designation which effectively renders inheld trust lands incapable of providing revenue to Utah's education system as mandated by the Utah Enabling Act; and

Whereas, Present and future management conflicts between the Utah School Trust and the federal government could be quickly, easily and permanently resolved to the mutual benefit of all parties by simply trading School Trust coal resources within federal wilderness study areas/unsuitability areas for federal coal resources of equal value located outside of these designated areas; and

Whereas, Such an exchange would allow the Utah School Trust to provide long term economic benefits to the state's education system as required by law while allowing the federal government the ability to manage its land in accordance with non-economic objectives (wilderness values, national park viewsheds, etc.) and thereby avoid serious, and inevitable, future land use conflicts between the federal government and the Utah School Trust involving the Kaiparowits/Alton areas; and

Whereas, Andalex Resources is now proposing an underground coal mine on existing federal and school trust leases located in the Smoky Hollow area at the southern tip of the Kaiparowits coalfield, and the federal government has formally and officially determined that this area clearly and obviously does not qualify for wilderness designation; and

Whereas, The state of Utah Division of Oil, Gas and Mining has approved the Smoky Hollow Mine Permit Application Package and has determined that the mine can be constructed, operated and reclaimed in accordance with all necessary state and federal environmental protection laws and regulations; and

Whereas, The Utah Public Education Coalition, the Utah School Trust Administration, the Utah Association of Counties, and the Utah State Legislature have gone on record in support of responsible development of the Smoky Hollow coal reserves as is now being proposed by Andalex; therefore be it

Resolved, That the Utah Public Education Coalition hereby reaffirms its strong support for responsible development of the Smoky Hollow coal resources as proposed by Andalex; and be it further

Resolved, That the Utah Public Education Coalition supports and advocated an exchange of scattered School Trust coal lands located within the Kaiparowits wilderness study areas and the Alton unsuitability area for a block of land located in the Smoky Hollow area which could be developed as part of the Smoky Hollow underground coal mining operation; and be it further

Resolved, That the Utah Public Education Coalition urges the Board of Trustees of the School and Institutional Trust Lands Administration, the Utah Governor's office, and Utah's congressional delegation to jointly petition the US Department of Interior to expedite this exchange on an equal-value basis, subject to valid existing rights, as being in the best and highest interest of Utah's public education system and the people of the state of Utah and the United States.

Linda M. Sarkinson, Utah PTA; Brent Thurie, Utah School Superintendents Association; Mossi W. White, Utah School Boards Association; W. Lee Glad, Utah Association of Elementary School Principals; Janet A. Cannon, Utah State Board of Education; Phil Oyler, Utah Association of Secondary School Principals; Scott W. Bean, Utah State Office of Education; Kelly Atkinson, Utah School Employees Association; Phyllis Sorensen, Utah Education Association.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business yesterday, Tuesday, September 17, 1996 the Federal debt stood at \$5,190,807,990,011.88.

Five years ago, September 17, 1991, the Federal debt stood at \$3,625,799,000,000.

Ten years ago, September 17, 1986, the Federal debt stood at \$2,106,475,000,000.

Fifteen years ago, September 17, 1981, the Federal debt stood at \$976,369,000,000.

Twenty-five years ago, September 17, 1971, the Federal debt stood at \$415,338,000,000. This reflects an increase of more than \$4 trillion (\$4,775,469,990,011.88) during the 25 years from 1971 to 1996.

AIR BAG SAFETY AND EFFECTIVENESS

Mr. PRESSLER. Mr. President, I rise to make a few remarks concerning child passenger vehicle occupant protection.

Earlier this year, the Senate Committee on Commerce, Science, and Transportation held an oversight hearing on the safety and effectiveness of driver side and passenger side air bags. At the hearing, we learned that generally air bags are safe. They are credited with saving approximately 900 lives since 1987 and with reducing the severity of injury in many more instances. So it is abundantly clear that air bags are an important automotive safety device.

Unfortunately, there is a downside to air bag use. While usually minor in nature, in some cases they cause injuries. In the worst cases, they have caused death. This is especially true in the case of children with some data showing two children die because of a passenger side air bag deployment for every one saved by the deployment.

The Committee's oversight hearing highlighted issues like this and also explored actions underway at the National Highway Traffic Safety Administration (NHTSA) to improve child passenger safety. At the hearing, I stressed the need to publicize the importance of putting child safety seats in the back seat and not in a passenger seat equipped with an air bag.

Subsequent to our hearing, I was pleased that a coalition was formed to alert the public of passenger side air bag dangers to infants and children. I also have followed closely the initiatives at NHTSA to change federal air bag requirements, encourage the introduction of new air bag technology, and improve child restraint system performance.

These steps are needed and they hold promise for child passenger safety improvements. However, more comprehensive action is needed.

Yesterday, the National Transportation Safety Board (NTSB) released the findings of its 2-year child occupant safety study. Pointing to the dangers and risks to children posed by passenger-side air bags and improperly used child restraint systems, the NTSB called on NHTSA, State Governors, and automobile manufacturers to take steps to address continuing safety problems.

For instance, the NTSB study found inadequacies in NHTSA's proposed rulemaking on smart air bags and air bag warning labels. On August 1, 1996, NHTSA proposed changes to federal air bag requirements to encourage the introduction of new air bag technology. If automobile manufacturers do not provide the so-called smart air bags, the NHTSA proposal would require manufacturers to post new and more prominent air bag warning labels inside the vehicle.

The safety study, however, concluded that the NHTSA proposal will not ac-

celerate the development of more intelligent systems. As a result of its review of the proposed rulemaking, the NTSB called on NHTSA to do more to encourage automobile manufacturers to install intelligent air bag systems and specifically recommended that NHTSA establish an implementation timetable.

In another area, the NTSB safety study investigated air bag deployment rates and recommended that NHTSA's technical air bag deployment threshold standards be reevaluated. The recommendation urges the consideration of technical standards for less aggressive air bag deployment, particularly for those on the passenger side of motor vehicles.

Its my recollection that NHTSA has said the technology for less aggressive air bag deployment currently is not available. However, technically it can be done. Canada, as I understand it, is on the verge of requiring less aggressive deployment standards for air bags in any car sold in Canada. Until "smart" air bags are available, this may be the best interim solution and NHTSA should carefully investigate this possibility. The NTSB recommendations make clear the lack of testing that was done prior to putting passenger side air bags into the automotive fleet.

The NTSB also asked NHTSA to revise several motor vehicle safety standards governing air bags and passenger restraint systems. As revisions are made, testing and performance standards that reflect an actual accident environment must be developed.

Quick action on these recommendations is required because there are nearly 22 million vehicles currently on the road with passenger-side air bags. NHTSA's proposed rulemaking will not affect these vehicles. Also, an estimated 13 million additional vehicles will be sold yearly before the new standards take effect.

Something must be done to protect children in vehicles like these. Changes in air bag deployment rates and the installation of on-off deployment switches are two of the options that could be evaluated.

The NTSB's safety study also explores in detail the difficulties parents and care givers have in securing a child restraint system properly in vehicles. Inadequacies in the design of child restraint systems themselves and the need to improve seatbelt fit for children were singled out by the NTSB as an area in which safety improvements can be made.

These problems warrant action and I encourage NHTSA to act swiftly on the NTSB recommendations. I will continue to follow this safety issue closely and plan on holding a hearing early in the next Congress to examine the NTSB's safety study.

Mr. President, finally we need to get a simple message to parents. We must tell parents that until less aggressive passenger side air bags or "smart" air

bags are available there is something they can do to protect their children. Specifically, they should consider placing all children under 12 in the back seat of their vehicles whenever the vehicle is in motion. Studies have shown the back seat to be the safest place for children in passenger vehicles. In fact, Germany already requires this by law.

I want to applaud the NTSB's call for educational campaigns emphasizing the importance of transporting children in the back seat of passenger vehicles. I know of one car manufacturer that recently developed an advertising campaign urging this safety measure as part of its efforts to raise public awareness on the dangers of passenger side air bags to children. We must improve vehicle occupant protection and initiatives like these offer significant safety benefits.

TRIBUTE TO SENATOR MICHAEL ANTHONY FIGURES

Mr. HEFLIN. Mr. President, Alabama State Senator Michael Anthony Figures, of Mobile, passed away on Friday, September 13, 1996. He was President Pro Tem of the State Senate, making him the highest-ranking African-American in the State legislature.

This is the second highest-ranking position in the Alabama Senate and one of the most powerful and visible posts in State government. Senator Figures was the first black to ever hold the job and was exceptionally effective and politically astute. He could dissect an issue and get to its essence very quickly and directly. He was very close to Lieutenant Governor Don Siegelman, President of the Senate, and was instrumental in carrying out his legislative agenda.

Senator Figures, who was only 48 years of age, was almost universally admired by the people who knew and worked with him. Both friends and political adversaries admired and appreciated his honesty, integrity, and work ethic.

Senator Figures was born on October 13, 1947, the youngest of three sons of Reverend Coleman and Mrs. Augusta Mitchell Figures. He attended Stillman College and the University of Alabama Law School. He was first elected to the State Senate in 1978 as a Democrat, at that time only the third black person to serve in the Senate. He represented District 33, which includes part of Mobile and Prichard.

Over the years, he built a solid legislative record on local and statewide issues. He worked long and hard to ensure minority representation while helping to create a "strong" mayoral position in Mobile's city government. Many view his finest legislative accomplishment the 1994 Senate passage of former Governor Jim Folsom's "Alabama First" education reform plan. Although it did not pass the House, it received 32 out of 35 votes in the Senate, due largely to Senator Figures' tenacious leadership and persuasion.

Senator Figures was a founder of the Alabama New South Coalition, started in the 1980's to promote progressive causes and candidates. This influential political caucus has been instrumental in bringing blacks and whites in Alabama together. Senator Figures's wife, Vivian Davis Figures, is a member of the Mobile City Council. They had four sons together, Jelani Anthony, Shomari Coleman, Akil Michael, and Derrick.

Senator Figures was a visionary and progressive leader who will be sorely missed by the people of Alabama. He had considerable ability, intellect, and drive. As one of the most influential politicians in Alabama's government, he had an unyielding desire to correct what he perceived as wrongs in society. He was an outstanding orator and had a quick mind and will be impossible to replace. He had an uncommon ability to smooth over disagreements and build bridges. Other members of the Senate really listened to him and responded to his arguments.

Much of his success was rooted in his high degree of integrity. He was a stickler for following the Senate's procedural rules, even if bending those rules might have helped his side prevail. He never compromised his honesty or credibility as he quickly ascended to the heights of power and influence.

The sad and untimely death of State Senator Michael Figures is an immeasurable loss for my State. He was an uncommon force for justice and progress who accomplished a great deal in a relatively short time. I extend my sincerest condolences to Vivian and their entire family in the wake of this loss. I hope they find some solace in the fact that he truly made Alabama a better state and better place to live. His many lasting contributions will stand as his personal legacy and as a testament to his ideals and leadership.

WHY TAMPER WITH AN ENVIRONMENTAL SUCCESS STORY

Mr. LOTT. Mr. President, I am pleased to note that, once again, American business has succeeded in significantly reducing the amount of chemicals released into the environment. According to the most recent report from the Toxic Release Inventory (TRI) Data Release of 1994, releases of chemicals declined nearly nine percent between 1993 and 1994. Since the TRI began in 1988, overall chemical releases have dropped more than 44 percent. This decline is particularly impressive because it has occurred in tandem with economic growth. This is an environmental success story.

This successful reduction affirms that an approach to environmental protection which encourages the participation of states and businesses can and does work. It argues for a continuation of approaches to environmental protection that use voluntary solutions, technological innovations and

increased flexibility. As the report shows, we should have confidence in this successful public policy strategy.

Unfortunately, though, these promising statistics have been ignored. The TRI facts have not deterred the Clinton Administration from considering further burdens on America's society.

The Environmental Protection Agency (EPA) has announced that it plans to require businesses to file new extensive reports about how chemicals are used in the manufacturing process. This proposal is called "Materials Accounting," and it is flawed for several reasons.

First, the proposal to track materials would place a new and very costly hardship on the business community. Initial estimates indicate that the additional cost to our Nation's businesses in direct reporting paperwork costs alone could be as much as \$800 million. In addition to being extremely costly, this proposal is completely at odds with the President's pledge in March 1995 to simplify and ease paperwork burdens on American businesses.

I'm even reminded of the President's recent speech in Kalamazoo, MI, where he reaffirmed this goal to reduce administrative burdens. Well, for me, nearly \$1 billion is real money. It is a real cost for America's business community. It is a real paperwork burden that cannot be ignored.

Already TRI generates 80,000 reports per year. And, it takes EPA nearly 2 years to provide this existing information to the communities nearest to the facilities producing these reports. It seems very basic—before EPA unilaterally increases the size of its two-inches thick report and further delays its publication, specific statutory authority should be provided. The EPA's actions to expand it reporting requirements are not authorized in law. How can EPA be responsive and concerned about the risks faced by communities living near the reporting facilities, when it requires a 2-year detour of the data with its Washington bureaucrats?

Apart from the billion-dollar administrative cost, Materials Accounting will jeopardize America's global competitiveness by putting our most innovative technologies at risk. Our country's position in the world's economy is dependent upon the development of superior technology and the ability to protect that technology from competitors, both international and domestic. Information about the amounts of chemicals used in and created during a production process will provide competitors with access to trade secrets. This does not make good business sense. In fact this seriously endangers the confidentiality of proprietary business information which is essential in the marketplace.

Third, this approach would make sense only if substantial, tangible and quantified environmental benefits clearly exceeded the costs. However, I have seen no analysis which supports this premise. On the contrary, I believe

the implementation of a Materials Accounting program will dilute the focus of TRI by forcing businesses to commit finite resources to trivial or even non-existent risks, rather than more pressing, real risks. It will also unnecessarily confuse citizens. This does not make good policy sense. Chemical use is not directly related to information a community must receive about the real risks faced from actual releases from neighborhood facilities.

In my view, TRI should focus on telling the American public about the risks directly associated with exposure to chemical releases. This was the view of Congress back in 1988 when TRI was enacted. If EPA is looking for a new mission, it should expand its public outreach efforts by the communication of risk information that is both meaningful and understandable.

EPA should undertake practical and timely risk communications which are locally based. Risk communication is the heart and soul of a community's right-to-know. Reporting to citizens the number of pounds per year release of a certain chemical is neither valuable nor worthwhile information. It says nothing about potential risks to human health or the environment. Real risk depends on three factors: First, inherent toxicity of the material; second, its concentration; and third, its location relative to humans. Unfortunately, this simple scientific formula has been ignored by EPA.

EPA also should stop trying to increase the number of chemicals on the list without first ensuring that sound science-based criteria are in place. More listings without scientific criteria will not automatically make a community safer. EPA must first have a clear understanding of the real exposure risk to avoid public confusion. EPA should use the accepted basic risk formula.

Last, EPA does not have the statutory authority to collect and then disseminate information about chemical use. The Emergency Planning and Community Right-to-Know Act explicitly states the types of information that may be collected by EPA. While all this information bears an indirect relationship to potential releases and emissions, the Act does not allow EPA to disperse sensitive chemical use information. This proposal, therefore, is well beyond the scope of the basic statute which established the TRI Program.

Let me remind my colleagues that Congress considered the use aspect when the original program was created. And, chemical use was explicitly and consciously rejected.

"Materials Accounting" raises more questions than it answers.

Regulations are powerful, but they shift America's resources poorly. Because regulations cause consumers and businesses to spend a good deal of their money in ways they do not freely choose, Congress must first consider the consequences of this coerced spend-

ing before it becomes our public policy. A rule that has a \$1 billion consequence is a rule that deserves the attention of Congress.

With claims, counterclaims and even the withdrawal-of-claims that there are growing risks from everything around us, it is even more imperative for every citizen to know where the true risks are coming from. I believe the American people want their elected officials to look carefully into all aspects of environmental protection. The following questions need to have a response in the public record:

(a) What benefit does the public derive from the publication of incomprehensible data on chemical use which has no correlation to risk from exposure?

(b) Would the public benefit more from a prioritization of "worst case" emission risks to human health than use reporting?

(c) How will EPA protect the proprietary formulations that are a valuable intellectual property?

Mr. President, it is clear that the administration's materials accounting approach has no statutory basis. It is also clear that it will place an enormous burden on America's industrial communities. As a result, American jobs will be sacrificed for questionable, even limited, community environmental benefit.

It is clear to me that congressional action must precede any administrative action.

Mr. President, I stand here today, along with many of my Senate colleagues who are committed to protecting and informing communities in our home States. We want to work on refining the policies which will update the TRI program. We want to make it truly responsive to the communities living nearest the facilities while preserving the right of businesses to remain competitive in the global marketplace.

I would like to pause and take a philosophical view for just a moment. Let's step back from TRI and consider all regulations in general. In the aggregate, regulatory compliance costs Americans around \$670 billion every year—nearly 10 percent of our economy's GDP. This is substantial both in terms of dollars and percentage. This is why our public policy must meet this challenge in a systematic, responsive and balanced manner.

Basic fairness must be an integral part of the solution as Congress reviews and updates any regulation. Basic fairness should also be part of the equation used by the administration as it approaches new initiatives. Basic fairness is the American way.

The focus of the issue must not be whether we need environmental protection enforcement—of course we do. Rather we must look at how to achieve effective and appropriate environmental protection. Congress must ensure that both the enforcement agencies and the regulated community have

incentives to encourage compliance. There must also be a mechanism for the agencies to prioritize environmental initiatives. And, of course, this process must respect our Bill of Rights.

I started today by reporting on TRI's success story, and the agency's response of adding more reports and more costs. This could undermine the existing voluntary efforts of industry. I think everyone would agree that cooperative problem solving approaches work better than adversarial methods. The latter could even produce disdain and lawlessness.

I also started by saying that states deserve part of the credit for the TRI success story. State governments have come a long way in terms of developing their own core levels of expertise. As regulations are updated, Congress must recognize states as a genuine partner in protecting our environment.

The wisdom of this is demonstrated in a separate but vital illustration of state ingenuity. Seventeen states, including my own state of Mississippi, have developed a voluntary environmental audit process, and early indications are that the process is working. It is an alternative to the one-size-fits-all, Washington-expert, command-and-control methods mandated in the past. It is common sense, and it actually produces positive results for our environment at less cost. It represents basic fairness. This is what Congress ought to be advocating.

Mr. President, I want to conclude by saying that Congress needs to turn the spotlight back to TRI's original intent. This can be achieved by having both Congress and the EPA answer one fundamental question: What chemical release information will be useful to people living near an industrial facility?

TRIBUTE TO RALPH GABBARD

Mr. FORD. Mr. President, Kentucky and the Nation suffered a great loss last week with the passing of Mr. Ralph Gabbard. Ralph was a nationally known broadcast executive, serving as president of Gray Communications. He was a leader in the television broadcast industry in my State, and ultimately was a national leader as well. Ralph was at the forefront of the industry's development in Kentucky for the better part of the last 30 years, including successful efforts to bring a television station to the mountains of eastern Kentucky.

Among other things, he served as chairman of the CBS Affiliates Advisory Board and the National Association of Broadcasters television board. Most recently, Ralph played a significant role in industry discussions with the Clinton administration which led to the announcement of steps to improve the quality of children's programming.

But beyond the long list of personal accomplishments, Ralph was probably best known for his integrity, his honesty, and his common courtesy in dealing with others. I was privileged to

deal with Ralph on more than one occasion, and had great respect and trust in his abilities. He was a true asset for my State, and his presence will be missed.

Mr. President, I ask that two articles which recently appeared in the Lexington Herald-Leader describing the life and accomplishments of Ralph Gabbard be inserted into the RECORD at this point.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

NATIONALLY KNOWN BROADCAST EXECUTIVE
ROSE FROM KENTUCKY TEEN DISC JOCKEY

(By Jennifer Hewlett)

Ralph Gabbard, who rose from teen-age disc jockey to a TV station executive in Lexington to a nationally known figure in the broadcast industry, died while in Boston on a business trip. He was 50.

Security workers at the Four Seasons Hotel found Mr. Gabbard, president and board member of Gray Communications Systems Inc., dead about 7 a.m. yesterday, apparently of a heart attack, after he failed to answer a wake-up call, said Bill Fielder, chief financial officer of Gray, who had dinner with Mr. Gabbard Monday night.

Gray Communications, based in Georgia, owns several TV stations, including WKYT (Channel 27) in Lexington and WYMT (Channel 57) in Hazard.

Mr. Gabbard was perhaps best known for his affiliation with the two Kentucky CBS-affiliated stations, where he spent much of his career before moving up the industry ladder.

He was thought to have been the first person to do on-air television editorials in the Lexington market. He also was credited with bringing the people of the mountains of Eastern Kentucky closer together through WYMT.

"No one will disagree with this statement; no one can. Ralph Gabbard defined and dominated this television market for a quarter century. All you had to do with Ralph was convince him something was necessary to be the best, to be No. 1, and it was done," said Barry Peel, who covers state government for WKYT's Frankfort bureau.

Peel said that Mr. Gabbard was instrumental in WKYT's decision to outbid WLEX-TV (Channel 18) for the University of Kentucky coaches' shows and the right to broadcast replays of UK games. Some thought he was "nuts" because the high bid initially lost money for the station. In the end, Channel 27's identity with UK sports has been a key to its dominance, Peel said.

"To be identified with UK sports is a major component of image, and, let's face it, we're in the image business. He knew that and time has proven him right," Peel said.

Mr. Gabbard recently stepped down as chairman of the National Association of Broadcasters television board. He had served as chairman of the CBS Affiliates Advisory Board, which represents more than 200 CBS stations nationwide, and was a member of the Network Affiliated Stations Alliance Steering Committee, which represents more than 650 CBS, ABC and NBC affiliates in congressional issues affecting telecommunications.

He met with President Clinton in March to discuss children's television.

"Ralph was an exceptional person in so many ways. He was an honest man with a real commitment to the business of broadcasting and the audiences we serve," said Peter Lund, president and chief executive officer of CBS Inc.

Mr. Gabbard also led the drive several years ago to revitalize Renfro Valley in Rockcastle County, where many country music stars had performed.

"He had the vision of what Renfro Valley is today. It had a special place in his heart," said Connie Hunt, vice president of entertainment for the Renfro Valley Entertainment Center.

Mr. Gabbard had grown up listening to country music and even dabbled in writing songs, mostly lyrics. Two songs he wrote or cowrote—"Lone Star Cafe" and "Please Play More Kenny Rogers"—got on the country charts. The Rogers song edged into the Top 40. He also wrote a song called "I've Always Wanted to Sing in Renfro Valley."

J.P. Pennington of the musical group Exile, who had known Mr. Gabbard since they were children, said that he and Mr. Gabbard recently collaborated on two songs, "Lovin' Machine" and "Two-Heart Harmony." The first song they wrote together at Pennington's house. Mr. Gabbard supplied the title for the second song.

Mr. Gabbard was "too shy" to sing before an audience himself, but "he had definitely a keen musical sense about him," Pennington said.

BROADCAST EXECUTIVE

Mr. Gabbard had been president and general manager of Kentucky Central Television Inc., which sold its holdings, including the Kentucky stations, to Gray a couple of years ago. Mr. Gabbard had tried to put together a group of people to buy WKYT and WYMT, but they were outbid. He was named president and chief executive officer of Gray Communications Broadcast Group in September 1994, and president and board member of Gray Communications Systems Inc. last December.

He was in Boston to meet with potential investors in an effort to raise \$150 million for Gray Communications to buy John H. Phipps Inc. of Tallahassee, Fla., whose holdings include TV stations in Tallahassee and Knoxville.

"We've lost a very special friend, and most of us will tell you that we lost a very special mentor," said Wayne Martin, WKYT president and general manager. "The loss is significant to others beyond WKYT—he was nationally recognized."

Jim Jordan, a longtime friend and business associate, said: "It's a very sad day . . . he was the best broadcaster I ever met, period."

Jordan said that Mr. Gabbard had a great eye for spotting on-air and management talent.

Cawood Ledford, former broadcast voice of the University of Kentucky Wildcats, said: "His word was as good as a contract to me. I'll miss him tremendously as a personal friend."

Ledford also said he always "borrowed generously" from Mr. Gabbard when he was invited to give speeches. Mr. Gabbard, he said, had a knack for remembering jokes, and when Ledford was scheduled to give a speech, he often called Mr. Gabbard to refresh his memory on jokes that Mr. Gabbard had told him, then used them in his speeches.

SPINNING DISCS

Mr. Gabbard, a Berea native, was just a teenager when he had his first disc jockey job. He was a disc jockey, announcer and advertising salesman for WEKY-1340 AM in Richmond and a disc jockey and sales manager at WRVK-AM in Renfro Valley in the early to mid-1960s. He went on to become an advertising salesman and announcer for Lexington's WVLK radio and station manager of WEKY.

"I loved being a disc jockey more than anything I ever did, I guess. I got a charge out of talking to people and having them respond," he said several years ago.

He said he got into broadcasting in 1963 by accident. A high school teacher assigned students topics for speeches, and Gabbard—who was a "very average student"—got the topic that was left over: radio.

He drove from Berea to a Richmond radio station to ask for Associated press copy so he could practice reading.

The station had a young disc jockey named Ralph Hacker, who told Mr. Gabbard the station was looking for an announcer. He asked Mr. Gabbard to apply for the job.

Mr. Gabbard made an audition tape, and the station's manager told him he was pretty bad, but the manager was desperate for announcers and hired him anyway, he said in a 1987 interview.

He found his niche selling advertising.

After high school, he enrolled at Eastern Kentucky University with the idea of becoming a pharmacist. But by the end of his freshman year, he was making so much money selling ads that he quit school.

After the series of radio jobs, Mr. Gabbard became general sales manager of WKYT about 1970.

WKYT was struggling, Mr. Gabbard had said. His reaction was to develop creative sales packages and market them aggressively.

Later in the mid-1970s, he was promoted to vice president and general manager of WKYT. The move made him the youngest vice president and general manager of a top 100-market, network-affiliated television station in the country.

The TV business was simple then, with just the three commercial networks and Kentucky Educational Television. Lexington didn't have an independent station.

As vice president and general manager, Mr. Gabbard hired executives from outside the television industry because he wanted people who would "come in unprejudiced." He also put more emphasis on news.

When Mr. Gabbard got WKYT on more solid ground, he turned his attention to the mountains.

He was largely responsible for the opening of WYMT in Hazard, a satellite station of WKYT. The purpose of the Hazard station was to capture Eastern Kentucky audiences previously reached by television stations in West Virginia and other states, he said.

"It stands for 'We're your mountain television,'" he said in 1991.

After the first five years, the station still hadn't shown a net profit but Mr. Gabbard maintained it was still a wise investment.

"It's good to be able to say, 'There's a little crown jewel sitting there that we're proud of,'" he said.

He liked to say that WYMT had united Kentucky's mountain communities.

"Without Ralph Gabbard, there would be no 'YMT,'" said Tony Turner, WYMT news director. "It was his dream, his idea. He mapped it out, and there were a lot of obstacles."

Mr. Gabbard also went to Washington to urge Kentucky congressmen and senators to promote legislation that would discourage Eastern Kentucky cable systems from dropping KET.

He was a past president of the Kentucky Broadcasters Association and received its most prestigious honor, the Al Temple Award, in 1993.

He also had served on many boards, including local and regional hospital boards, and the boards of the Chamber of Commerce, Big Brothers, United Way and Boy Scouts. He was a member of the Georgetown College board of trustees at his death. He also was a member of the board of Host Communications Inc. in Lexington.

Mr. Gabbard is survived by his wife, Jackie Upton Gabbard; four sons, Joseph Marlon

Gabbard, Jason Ralph Gabbard, James Matthew Gabbard and Jesse Eden Gabbard; his mother, Maggie Eden Gabbard; and a sister, Charlotte Moore, all of Lexington.

Services will be at 11 a.m. Friday at Calvary Baptist Church in Lexington. Visitation will be from 1 to 4 p.m. and from 6 to 9 p.m. Thursday at W.R. Milward Mortuary—Broadway. Burial will be in Lexington Cemetery.

RALPH GABBARD SHAPED AND EXPANDED TV'S INFLUENCE

Lexington broadcasting executive Ralph Gabbard was a bona fide success story, rising from his Berea boyhood to a position of national leadership in the television industry.

His untimely death this week at 50 leaves his many friends and colleagues in shock, but the end of a life lived so fully and energetically leaves an example worth heeding.

As the driving force behind WKYT-TV (Channel 27) in the Lexington market, Mr. Gabbard realized early on that the advent of cable TV was a threat—or perhaps an opportunity. His response was typically savvy and creative.

Mr. Gabbard believed that his station would thrive the more it stressed its local identity. Thus he built a strong news team, became the TV flagship for University of Kentucky sports and made sure that WKYT played a role in every possible civic activity.

He extended this philosophy when WKYT bought and beefed up its sister station in the mountains, WYMT-TV. The stations enhanced each other naturally, giving each a toehold exactly where needed, and extending their company's influence throughout Kentucky.

By serving his community and region the best way he knew, Mr. Gabbard also bolstered a thriving business. He had been the station's president and general manager when it was part of the old Garvice Kincaid empire, and when WKYT was sold to Gray Communications Inc. in 1994, he was named president of the new parent company.

By then, Mr. Gabbard was a respected national figure in the TV industry, a true accomplishment for someone outside the big-city markets. He served as chairman of the CBS-TV affiliates and was a director of the National Association of Broadcasters.

Mr. Gabbard played a key role in the recent compromise between the TV industry and the Clinton administration to improve children's programming.

Throughout his career, Mr. Gabbard forged ahead with boldness, tenacity and innovation. He treated the Lexington TV market as if it were in the big leagues, and that's where he ultimately put himself.

That's a notable legacy and the reason that Ralph Gabbard will be sorely missed.

HONORING THE SCHEPKER'S ON THEIR 50TH WEDDING ANNIVERSARY

Mr. ASHCROFT. Madam President, families are the cornerstone of America. The data are undeniable: Individuals from strong families contribute to the society. In an era when nearly half of all couples married today will see their union dissolve into divorce, I believe it is both instructive and important to honor those who have taken the commitment of till death us do part seriously, demonstrating successfully the timeless principles of love, honor, and fidelity. These characteristics make our country strong. For these important reasons, I rise today to honor Jacob and Sophie Schepker of St.

Louis, MO, who on August 10, 1996, celebrated their 50th wedding anniversary. My wife, Janet, and I look forward to the day we can celebrate a similar milestone. Jacob and Sophie's commitment to the principles and values of their marriage deserves to be saluted and recognized.

INTELLIGENCE REAUTHORIZATION BILL

Mr. HATCH. Mr. President, I rise in support of S. 1718, the intelligence reauthorization bill, with the understanding that one inequity contained in the bill will be corrected in conference.

The bill in its current form contains what I believe is an inappropriate encroachment on the authority of the Federal Bureau of Investigation to staff its position of Assistant Director, National Security Division.

The current bill requires that the FBI consult with the DCI prior to this appointment. The FBI, like any other agency, should be vested with the sound discretion to fill its ranks in a manner that is not burdened by outside Agency influence. I perceive this proposed requirement as an infringement by the foreign intelligence community upon domestic law enforcement.

I recognize that, with respect to the FBI's National Security Division, there is some overlap between intelligence and law enforcement, but that alone does not justify the necessity of this measure. Let's not place an unnecessary check upon the FBI by imposing this additional requirement.

Remember, it was the National Security Division which, notwithstanding bureaucratic hostility within the CIA, vigorously pursued the Aldrich Ames case. How zealous will future NSD higher ups be if they feel their career may turn on CIA approval?

I urge each of you to support language which we have negotiated with the Intelligence Committee and the administration, which deletes the requirement that the FBI Director consult with the DCI prior to the appointment of its Assistant Director, National Security Division.

Replacing this requirement is a provision whereby the FBI Director notifies the DCI of its selection to this vital position. The DCI may then, but is not required, to consult with the FBI Director concerning the selection.

It is my belief that this provision more clearly recognizes the separate and distinct missions, as well as the differing standards by which the intelligence and law enforcement communities must operate. I urge each of my colleagues to endorse this proposed change.

HAPPY BIRTHDAY TO MARY SINGLETARY TAYLOR

Mr. HEFLIN. Mr. President, I rise today to extend my birthday wishes to Mrs. Mary Singletary Taylor, a native

of Henry County, AL. She was born 98 years ago today—September 18, 1898. I understand that with the exception of some hearing loss, Mrs. Taylor is in good shape and still reads the Dothan Eagle newspaper each morning before working on her tatting. She calls her tatting, which is a handmade lace and somewhat of a lost art, her therapy.

Mary's parents were W.B. and LaNora Singletary and her husband was Jasper Taylor, a farmer. Her niece is our own LaRose Taylor Shirley, who most of us know as a 16-year member of the U.S. Capitol Police Force. LaRose also hails from Henry County, which is located in the southeastern corner of Alabama.

Mary S. Taylor was a lifelong resident of Newville, AL, in Henry County, and now resides in the Henry County Nursing Home in Abbeville. She attended a one-room school in Caps, AL, until she finished the fifth grade and then transferred to the Abbeville Normal School, where she completed her education. She was an active and dedicated member of the Tolbert Baptist Church for approximately 70 wonderful years.

Mary was a homemaker and was known far and wide as an excellent and talented seamstress. She was especially known for her handmade baby clothes and her tatting.

I am pleased to congratulate Mrs. Taylor for reaching this milestone in her life and wish her many, many more happy birthdays.

MESSAGES FROM THE HOUSE

At 11:57 a.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bill, without amendment:

S. 533. An act to clarify the rules governing removal of cases to Federal court, and for other purposes.

The message also announced that the House has passed the following bill, with an amendment, in which it requests the concurrence of the Senate:

S. 1507. An act to provide for the extension of the Parole Commission to oversee cases of prisoners sentenced under prior law, to reduce the size of the Parole Commission, and for other purposes.

The message further announced that the House has passed the following bills and joint resolution, in which it requests the concurrence of the Senate:

H.R. 1684. An act to require the Secretary of the Treasury to mint coins in commemoration of the 150th anniversary of the death of Dolly Madison.

H.R. 1776. An act to require the Secretary of the Treasury to mint coins in commemoration of Black Revolutionary War patriots and the 275th anniversary of the 1st Black Revolutionary War patriot, Crispus Attucks.

H.R. 1886. An act for the relief of John Wesley Davis.

H.R. 2026. An act to require the Secretary of the Treasury to mint coins in commemoration of the 200th anniversary of the death of George Washington.

H.R. 2941. An act to improve the quantity and quality of the quarters of land management agency field employees, and for other purposes.

H.R. 3676. An act to amend title 18, United States Code, to clarify the intent of Congress with respect to the Federal carjacking prohibition.

H.R. 3723. An act to amend title 18, United States Code, to protect proprietary economic information, and for other purposes.

H.R. 3802. An act to amend section 552 of title 5, United States Code, popularly known as the Freedom of Information Act, to provide for public access to information in an electronic format, and for other purposes.

H.R. 3803. An act to authorize funds for the George Bush School of Government and Public Service.

H.R. 3936. An act to encourage the development of a commercial space industry in the United States, and for other purposes.

H.R. 3968. An act to make improvements in the operation and administration of the Federal courts, and for other purposes.

H.R. 4039. An act to make technical and clarifying amendments to recently enacted provisions relating to titles II and XVI of the Social Security Act and to provide for a temporary extension of demonstration project authority in the Social Security Administration.

H.J. Res. 191. An act to confer honorary citizenship of the United States on Agnes Gonxha Bojaxhiu, also known as Mother Teresa.

At 12:51 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 4040. An act to amend title 49, United States Code, relating to intermodal safe container transportation.

The message also announced that the House insists upon its amendment to the bill (S. 640) to provide for the conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and for other purposes, disagreed to by the Senate, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and appoints Mr. SHUSTER, Mr. YOUNG of Alaska, Mr. BOEHLERT, Mr. OBERSTAR, and Mr. BORSKI as the managers of the conference on the part of the House.

The message further announced that the House disagrees to the amendment of the Senate to the bill (H.R. 3259) to authorize appropriations for fiscal year 1997 for intelligence and intelligence-related activities of the U.S. Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and appoints the following Members as the managers of the conference on the part of the House:

From the Permanent Select Committee on Intelligence, for consideration of

the House bill and the Senate amendment, and modifications committed to conference: Mr. COMBEST, Mr. DORNAN, Mr. YOUNG of Florida, Mr. HANSEN, Mr. LEWIS of California, Mr. GOSS, Mr. SHUSTER, Mr. MCCOLLUM, Mr. CASTLE, Mr. DICKS, Mr. RICHARDSON, Mr. DIXON, Mr. TORRICELLI, Mr. COLEMAN, Mr. SKAGGS, and Ms. PELOSI.

From the Committee on National Security, for consideration of defense tactical intelligence and related agencies: Mr. STUMP, Mr. SPENCE, and Mr. DELUMS.

At 2:35 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bills, without amendment:

S. 1636. An act to designate the United States Courthouse under construction at 1030 Southwest 3rd Avenue, Portland, Oregon, as the "Mark O. Hatfield United States Courthouse," and for other purposes.

S. 1995. An act to authorize construction of the Smithsonian Institution National Air and Space Museum Dulles Center at Washington Dulles International Airport, and for other purposes.

The message also announced that the House agrees to the report of the committee on conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3675) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-4102. A communication from the Director of the Office of Congressional Affairs, transmitting, pursuant to law, a rule entitled "Topical Guidelines for the Licensing Support System," received on September 17, 1996; to the Committee on Environment and Public Works.

EC-4103. A communication from the Assistant Secretary of the Interior for Fish and Wildlife and Parks, transmitting, pursuant to law, a rule entitled "Migratory Bird Hunting," (RIN1018-AD69) received on September 16, 1996; to the Committee on Environment and Public Works.

EC-4104. A communication from the Inspector General of the U.S. Environmental Protection Agency, transmitting, pursuant to law, the annual report relative to the Superfund program for fiscal year 1995; to the Committee on Environment and Public Works.

EC-4105. A communication from the Director of the Office of Regulatory Management and Information, U.S. Environmental Protection Agency, transmitting, pursuant to law, a rule entitled "Approval and Promulgation of Implementation Plans State," (FRL5606-3) received on September 16, 1996; to the Committee on Environment and Public Works.

EC-4106. A communication from the Director of the Office of Regulatory Management and Information, U.S. Environmental Pro-

tection Agency, transmitting, pursuant to law, two rules including a rule entitled "Pesticide Tolerances for Emergency Exemptions," (FRL5395-8, 5612-2) received on September 17, 1996; to the Committee on Environment and Public Works.

EC-4107. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, pursuant to law, a report relative to the Poplar Island, Maryland environmental restoration project; to the Committee on Environment and Public Works.

EC-4108. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, a draft of proposed legislation to modify the project for deep-draft navigation at Wilmington Harbor, Northeast Cape Fear River, North Carolina; to the Committee on Environment and Public Works.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-670. A resolution adopted by the Board of Commissioners of Broward County, Florida, relative to East Coast Buffer/Water Preserve Areas; to the Committee on Appropriations.

POM-671. A resolution adopted by the the Council of the Borough of Stone Harbor, New Jersey, relative to funding for Energy and Water Development; to the Committee on Appropriations.

POM-672. A resolution adopted by the the Council of the Borough of Stone Harbor, New Jersey, relative to funding for Energy and Water Development; to the Committee on Environment and Public Works.

POM-673. A joint resolution adopted by the the General Assembly of the State of Colorado; to the Committee on Foreign Relations.

"HOUSE JOINT RESOLUTION 96-1022

"Whereas, on April 26, 1986, an accident at the Soviet-designed nuclear reactor at Chernobyl caused the worst nuclear disaster in history; and

"Whereas, the response of the Soviet government to this disaster included a temporary one-hundred-fold increase in the levels of permissible iodine contamination; and

"Whereas, this disaster caused the death of untold numbers of people, the evacuation of many thousands from their homes, and the radioactive contamination of more than 38,000 square miles of Ukraine and Belarus; and

"Whereas, three nuclear reactors still operate at the site under precarious conditions; and

"Whereas, the long term environmental and public health effects of this disaster are still unknown; and

"Whereas, the concrete shell built to contain the radiation remaining at the site is deteriorating and estimates for the construction of a proper containment shell run into the billions of dollars; and

"Whereas, the people of Ukraine are still struggling to cope with the effects of the Chernobyl disaster, including the threat of the structural failure of the containment shell, which could release up to ten tons of highly radioactive material into the environment; Now, therefore, be it

"Resolved by the House of Representatives of the Sixtieth General Assembly of the State of Colorado, the Senate concurring herein: (1) That the General Assembly expresses sympathy with and extends condolences to the people of Ukraine on the tenth anniversary of the Chernobyl disaster;

(2) That the General Assembly urges that if the United States government provides assistance to mitigate the effects of the

Chernobyl disaster, this aid should be targeted to the affected areas of Ukraine, be it further

"Resolved, That a copy of this resolution be sent to the President of the United States, the Secretary of State of the United States, the Speaker of the United States House of Representatives, the President of the United States Senate, and the Ukrainian Ambassador to the United States."

POM-674. A resolution adopted by the Association of Hawaiian Civic Clubs relative to funding for current Hawaiian programs; to the Committee on Indian Affairs.

POM-675. A joint resolution adopted by the General Assembly of the State of Colorado; to the Committee on Rules and Administration.

"HOUSE JOINT RESOLUTION 96-1006

"Whereas, John L. "Jack" Swigert, Jr., was born in Denver, Colorado, on August 30, 1931, to Virginia and John Leonard Swigert, both noted citizens of the community; and

"Whereas, Jack Swigert excelled in academics and athletics while attending Regis and East high schools in Denver and the University of Colorado in Boulder, where he earned a degree in mechanical engineering and also played guard on the varsity football team; and

"Whereas, Jack Swigert early in life manifested what was to become a lifelong passion for flying, earning a pilot's license at sixteen years of age, participating in the Air Force Officer Training Corps at the University of Colorado, and joining the United States Air Force after his graduation; and

"Whereas, Jack Swigert served and flew missions in Korea and Japan from 1953 to 1956 in support of the United States and Allied Forces; and

"Whereas, from 1957 to 1965, Jack Swigert was a test pilot for North American Aviation, Inc., and Pratt and Whitney Aircraft, making significant contributions to aviation science and receiving the AIAA Octave Chanute Award for demonstrating the feasibility of the Rogallo Wing as a landing system for returning space vehicles; and

"Whereas, Jack Swigert logged over 2,900 hours of flight time with the United States Air Force, the National Aeronautics and Space Administration, and the Air National Guard; and

"Whereas, in 1966, after earning a master's degree in aerospace science from Rensselaer Polytechnic Institute in Troy, New York, Jack Swigert was selected by NASA to be one of the few civilians to participate in the Apollo moon missions; and

"Whereas, in 1970, while Jack Swigert served as Command Module Pilot of the Apollo 13 Mission, an oxygen tank explosion damaged the service module and threatened to maroon the spacecraft in outer space. Along with fellow astronauts James Lovell, Jr., and Fred Haise, Jr., and with the assistance of the Houston ground controllers, Jack Swigert executed a daring "slingshot" maneuver around the moon that whirled the space craft onto a new flight path and safety piloted the damaged spacecraft back to earth; and

"Whereas, from 1973 to 1979, Jack Swigert served as executive director of the Committee on Science and Technology of the United States House of Representatives, where he advocated advanced scientific development and exploration; and

"Whereas, upon his return to Colorado, Jack Swigert entered politics and, in 1982, ran a successful campaign for the newly created Sixth Congressional District seat, campaigning vigorously despite increasingly serious diagnoses of cancer; and

"Whereas, Jack Swigert as he had throughout his life, maintained his courage, dis-

cipline, and sense of humor in his final battle; and

"Whereas, Jack Swigert was a pioneer in space industries, and his efforts assisted Colorado's rapidly growing involvement in space and space-related activities in the 1970s; and

"Whereas, Colorado has since acquired and developed the necessary attributes to become an internationally recognized center for excellence in space operations and planetary environmental technology; and

"Whereas, in the spirit of Jack Swigert, Colorado's universities and colleges have made significant contributions to the advancement of space research and development; Now, therefore, be it

Resolved by the House of Representatives of the Sixtieth General Assembly of the State of Colorado, the Senate concurring herein: That John L. "Jack" Swigert, Jr., pilot, scientist, administrator, pioneer, and explorer, who demonstrated heroism, political faith, and passionate devotion to his country and who represents an ideal to all citizens of this state and nation, is hereby designated by the General Assembly of the State of Colorado to be honored and memorialized by a statue in the United States Capitol in Washington, D.C., be it further

"Resolved: 1. That the Jack Swigert Memorial Commission is hereby established and shall consist of seven citizens of Colorado, with members appointed as follows:

"(a) One member to be appointed by the Speaker of the Colorado House of Representatives;

"(b) One member to be appointed by the Majority Leader of the Colorado House of Representatives;

"(c) One member to be appointed by the Minority Leader of the Colorado House of Representatives;

"(d) One member to be appointed by the President of the Colorado State Senate;

"(e) One member to be appointed by the Majority Leader of the Colorado State Senate;

"(f) One member to be appointed by the Minority Leader of the Colorado State Senate; and

"(g) One member to be appointed by the Governor of the State of Colorado.

"2. That the Jack Swigert Memorial Commission is hereby authorized and is hereby required to raise sufficient donations through public subscription from private sources to cover all costs of the entire project, including sculpture, transportation, and erection in the United States Capitol.

"3. That the Jack Swigert Memorial Commission shall direct such donations to the state treasurer to be accepted pursuant to section 24-22-105, Colorado Revised Statutes.

"4. That the Jack Swigert Memorial Commission shall give account of income and expenditures to the Joint Budget Committee of the Colorado General Assembly.

"5. That no public moneys shall be expended by the Jack Swigert Memorial Commission and the members thereof shall not be paid any salary or per diem for serving on the commission. The Jack Swigert Memorial Commission may use public facilities to hold public meetings.

"6. That ownership of the completed sculpture shall vest in the State of Colorado; be it further

"Resolved, That copies of this Memorial be transmitted to the President of the Senate and the Speaker of the House of Representatives of the United States Congress and to each member of the Congressional delegation from Colorado."

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. CHAFEE, from the Committee on Environment and Public Works, without amendment:

H.R. 2504. A bill to designate the Federal Building located at the corner of Patton Avenue and Otis Street, and the United States Courthouse located on Otis Street, in Asheville, North Carolina, as the "Veach-Baley Federal Complex."

H.R. 3186. A bill to designate the Federal building located at 1655 Woodson Road in Overland, Missouri, as the "Sammy L. Davis Federal Building."

H.R. 3400. A bill to designate the United States courthouse to be constructed at a site on 18th Street between Dodge and Douglas Streets in Omaha, Nebraska, as the "Roman L. Hruska United States Courthouse."

H.R. 3572. A bill to designate the bridge on United States Route 231 which crosses the Ohio River between Maceo, Kentucky, and Rockport, Indiana, as the "William H. Natcher Bridge."

S. 1875. A bill to designate the United States Courthouse in Medford, Oregon, as the "James A. Redden Federal Courthouse."

S. 1977. A bill to designate a United States courthouse located in Tampa, Florida, as the "Sam M. Gibbons United States Courthouse," and for other purposes.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. KOHL:

S. 2088. A bill to amend the Internal Revenue Code of 1986 to provide a credit against tax for employers who provide child care assistance for dependents of their employees, and for other purposes; to the Committee on Finance.

By Mr. THOMAS:

S. 2089. A bill to transfer land administered by the Bureau of Land Management to the States in which the land is located; to the Committee on Energy and Natural Resources.

By Mrs. BOXER:

S. 2090. A bill to provide for the conveyance of certain land in the State of California to the Hoopa Valley Tribe; to the Committee on Energy and Natural Resources.

By Mr. PRESSLER (for himself and Mr. HARKIN):

S. 2091. A bill to provide for small business and agriculture regulatory relief; to the Committee on Commerce, Science, and Transportation.

By Mr. STEVENS (for Mr. THURMOND (for himself and Mr. HEFLIN)):

S.J. Res. 61. A joint resolution granting the consent of Congress to the Emergency Management Assistance Compact; read the first time.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BIDEN (for himself, Mr. ABRAHAM, Mr. AKAKA, Mr. BAUCUS, Mr. BINGAMAN, Mrs. BOXER, Mr. BRADLEY, Mr. BRYAN, Mr. BURNS, Mr. CHAFEE, Mr. COHEN, Mr. COVERDELL, Mr. D'AMATO, Mr. DOMENICI, Mr. DORGAN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FORD, Mr. FRIST, Mr. GLENN, Mr. GRASSLEY, Mr. GREGG, Mr. HATCH, Mrs. HUTCHISON, Mr. INOUE, Mr.

JOHNSTON, Mrs. KASSEBAUM, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mr. LOTT, Mr. MACK, Mr. MCCAIN, Ms. MIKULSKI, Ms. MOSELEY-BRAUN, Mr. MOYNIHAN, Mr. MURKOWSKI, Mrs. MURRAY, Mr. PELL, Mr. REID, Mr. ROBB, Mr. ROCKEFELLER, Mr. ROTH, Mr. SARBANES, Mr. SIMON, Mr. SMITH, Ms. SNOWE, Mr. SPECTER, Mr. STEVENS, Mr. THOMAS, Mr. THURMOND, and Mr. WELLSTONE):

S. Res. 295. A resolution to designate October 18, 1996, as "National Mammography Day"; to the Committee on the Judiciary.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KOHL:

S. 2088. A bill to amend the Internal Revenue Code of 1986 to provide a credit against tax for employers who provide childcare assistance for dependents of their employees, and for other purposes; to the Committee on Finance.

THE CHILD CARE INFRASTRUCTURE ACT

• Mr. KOHL. Mr. President, as we reach the end of the 104th Congress, we can be proud of the business we have finished, and we should look forward to finishing the business we have just begun. In that spirit, I introduce the Child Care Infrastructure Act of 1996—a tax credit designed to encourage employers to increase the supply of quality child care by providing it to their employees.

My bill responds to the challenges presented by the landmark welfare legislation recently enacted. And it responds to the fundamental changes in the American economy that have led to parents entering the workforce in record numbers.

Already in my State of Wisconsin, 67 percent of the women with children under 6 are in the workforce, yet there is only 1 accredited child care center for every 2,800 of these kids. Wisconsin has 6,500 children from 4,000 families on waiting lists for child care. What is most amazing is that Wisconsin, even with this sort of supply bottleneck, is considered by many to be one of the best States in which to find quality child care.

With the advent of welfare reform, and the movement of more mothers of young children into the workforce, the shortage of good child care will only get worse. Conservative estimates show that at least 8,000 new, full-time child care slots will be needed in Milwaukee County alone to provide for the children of welfare mothers moving into work.

Quality child care is the answer on many levels to the challenges of an economy fueled more and more by working parents. Safe child care is the link that makes it possible for welfare mothers to move from dependency to a decent job. Stimulating child care gives our youngest children a leg up on a lifetime of learning. Employer-provided child care gives working parents the peace of mind to perform their jobs well.

The Child Care Infrastructure Act of 1996 creates a tax credit for employers who get involved in increasing the supply of quality child care. The credit goes to employers who engage in activities like: building and subsidizing an entire child care center, reserving slots in a child care center for employees, or contracting with a resource and referral agency to provide services such as placement or the design of a family day care network to employees. The credit is designed so that any company—small or large—has an incentive to get involved in the provision of quality child care to its employees.

The credit is limited to 50 percent of \$150,000 per year. The credit will sunset after 3 years. With this legislation, I want to encourage companies to consider providing child care as an employee benefit. However, I believe, and study after study has shown, that once a company offers this benefit, they will want to continue it even without a tax write-off. That is because companies that provide child care find their workers stay in their jobs longer (cutting training costs), have higher morale, work harder, and take less sick leave.

I had the opportunity during the August recess to visit Quad Graphics, a large printing firm in Wisconsin that is known for its provision of quality child care to its employees through on-site child care centers. Quad Graphics is one of Working Mothers magazine's "100 Best Companies"—primarily because of the quality of its on-site child care centers. Talking to the parents of children at one of those centers—seeing the happy and healthy children greeting their parents on their breaks and at lunch—was all the evidence I needed to convince me that we ought to be encouraging this sort of corporate involvement nationwide. Their 24 hour facility improves the company's bottom line—Quad Graphics is able to attract and retain dedicated employees who want a job that allows them to be near their children. And that day care center improves the participating families' bottom line as well—many parents I spoke with told me they would not be able to work, or to work well, if they had to worry each day about whether their children were cared for, safe, and happy.

The 21st century economy will be one in which more of us are working, and more of us are trying to balance work and family. How well we adjust to that balance will determine how strong we are as an economy and as a nation of families. My legislation is an attempt to encourage businesses to play an active role in this deeply important transition.

In the 1950's, Federal, State, local governments, communities and businesses banded together to build a highway system that is the most impressive in the world. Those roads allowed our economy to flourish and our people to move safely and quickly to work. In the 1990's, we need the same sort of national, comprehensive effort to build

safe and affordable child care for our children. As more and more parents—of all income levels—move into the work force, they need access to quality child care just as much as their parents needed quality highways to drive to work. And if we are successful—and I plan to be successful—in the 21st century excellent child care—like the care these kids are getting—will be as common as interstate highways.

Child care is an investment that is good for children, good for business, good for our States, and good for the Nation. We need to involve every level of government—and private communities and private businesses—in building a child care infrastructure that is the best in the world. My legislation is a first, essential step toward this end.

Mr. President, I ask unanimous consent that the text of my legislation and a section-by-section summary be placed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 2088

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Child Care Infrastructure Act of 1996".

SEC. 2. ALLOWANCE OF CREDIT FOR EMPLOYER EXPENSES FOR CHILD CARE ASSISTANCE.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to business related credits) is amended by adding at the end the following new section:

"SEC. 45D. EMPLOYER-PROVIDED CHILD CARE CREDIT.

"(a) IN GENERAL.—For purposes of section 38, the employer-provided child care credit determined under this section for the taxable year is an amount equal to 50 percent of the qualified child care expenditures of the taxpayer for such taxable year.

"(b) DOLLAR LIMITATION.—The credit allowable under subsection (a) for any taxable year shall not exceed \$150,000.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED CHILD CARE EXPENDITURE.—The term 'qualified child care expenditure' means any amount paid or incurred—

"(A) to acquire, construct, rehabilitate, or expand property—

"(i) which is to be used as part of a qualified child care facility of the taxpayer,

"(ii) with respect to which a deduction for depreciation (or amortization in lieu of depreciation) is allowable, and

"(iii) which does not constitute part of the principal residence (within the meaning of section 1034) of the taxpayer or any employee of the taxpayer,

"(B) for the operating costs of a qualified child care facility of the taxpayer, including costs related to the training of employees, to scholarship programs, and to the providing of increased compensation to employees with higher levels of child care training,

"(C) under a contract with a qualified child care facility to provide dependent care services to employees of the taxpayer, or

"(D) under a contract to provide dependent care resource and referral services to employees of the taxpayer.

“(2) QUALIFIED CHILD CARE FACILITY.—
 “(A) IN GENERAL.—The term ‘qualified child care facility’ means a facility—
 “(i) the principal use of which is to provide dependent care assistance, and
 “(ii) which meets the requirements of all applicable laws and regulations of the State or local government in which it is located, including, but not limited to, the licensing of the facility as a child care facility.

Clause (i) shall not apply to a facility which is the principal residence (within the meaning of section 1034) of the operator of the facility.

“(B) SPECIAL RULES WITH RESPECT TO A TAXPAYER.—A facility shall not be treated as a qualified child care facility with respect to a taxpayer unless—

“(i) enrollment in the facility is open to employees of the taxpayer during the taxable year,

“(ii) the facility is not the principal trade or business of the taxpayer unless at least 30 percent of the enrollees of such facility are dependents of employees of the taxpayer, and

“(iii) the use of such facility (or the eligibility to use such facility) does not discriminate in favor of employees of the taxpayer who are highly compensated employees (within the meaning of section 414(q)).

“(d) RECAPTURE OF ACQUISITION AND CONSTRUCTION CREDIT.—

“(1) IN GENERAL.—If, as of the close of any taxable year, there is a recapture event with respect to any qualified child care facility of the taxpayer, then the tax of the taxpayer under this chapter for such taxable year shall be increased by an amount equal to the product of—

“(A) the applicable recapture percentage, and

“(B) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted if the qualified child care expenditures of the taxpayer described in subsection (c)(1)(A) with respect to such facility had been zero.

“(2) APPLICABLE RECAPTURE PERCENTAGE.—

“(A) IN GENERAL.—For purposes of this subsection, the applicable recapture percentage shall be determined from the following table:

“If the recapture event occurs in:	The applicable recapture percentage is:
Years 1-3	100
Year 4	85
Year 5	70
Year 6	55
Year 7	40
Year 8	25
Years 9 and 10	10
Years 11 and thereafter	0.

“(B) YEARS.—For purposes of subparagraph (A), year 1 shall begin on the first day of the taxable year in which the qualified child care facility is placed in service by the taxpayer.

“(3) RECAPTURE EVENT DEFINED.—For purposes of this subsection, the term ‘recapture event’ means—

“(A) CESSATION OF OPERATION.—The cessation of the operation of the facility as a qualified child care facility.

“(B) CHANGE IN OWNERSHIP.—

“(i) IN GENERAL.—Except as provided in clause (ii), the disposition of a taxpayer's interest in a qualified child care facility with respect to which the credit described in subsection (a) was allowable.

“(ii) AGREEMENT TO ASSUME RECAPTURE LIABILITY.—Clause (i) shall not apply if the person acquiring such interest in the facility agrees in writing to assume the recapture liability of the person disposing of such interest in effect immediately before such disposi-

tion. In the event of such an assumption, the person acquiring the interest in the facility shall be treated as the taxpayer for purposes of assessing any recapture liability (computed as if there had been no change in ownership).

“(4) SPECIAL RULES.—

“(A) TAX BENEFIT RULE.—The tax for the taxable year shall be increased under paragraph (1) only with respect to credits allowed by reason of this section which were used to reduce tax liability. In the case of credits not so used to reduce tax liability, the carryforwards and carrybacks under section 39 shall be appropriately adjusted.

“(B) NO CREDITS AGAINST TAX.—Any increase in tax under this subsection shall not be treated as a tax imposed by this chapter for purposes of determining the amount of any credit under subpart A, B, or D of this part.

“(C) NO RECAPTURE BY REASON OF CASUALTY LOSS.—The increase in tax under this subsection shall not apply to a cessation of operation of the facility as a qualified child care facility by reason of a casualty loss to the extent such loss is restored by reconstruction or replacement within a reasonable period established by the Secretary.

“(e) SPECIAL RULES.—For purposes of this section—

“(1) AGGREGATION RULES.—All persons which are treated as a single employer under subsections (a) and (b) of section 52 shall be treated as a single taxpayer.

“(2) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

“(3) ALLOCATION IN THE CASE OF PARTNERSHIPS.—In the case of partnerships, the credit shall be allocated among partners under regulations prescribed by the Secretary.

“(f) NO DOUBLE BENEFIT.—

“(1) REDUCTION IN BASIS.—For purposes of this subtitle—

“(A) IN GENERAL.—If a credit is determined under this section with respect to any property by reason of expenditures described in subsection (c)(1)(A), the basis of such property shall be reduced by the amount of the credit so determined.

“(B) CERTAIN DISPOSITIONS.—If during any taxable year there is a recapture amount determined with respect to any property the basis of which was reduced under subparagraph (A), the basis of such property (immediately before the event resulting in such recapture) shall be increased by an amount equal to such recapture amount. For purposes of the preceding sentence, the term ‘recapture amount’ means any increase in tax (or adjustment in carrybacks or carryovers) determined under subsection (d).

“(2) OTHER DEDUCTIONS AND CREDITS.—No deduction or credit shall be allowed under any other provision of this chapter with respect to the amount of the credit determined under this section.

“(g) TERMINATION.—This section shall not apply to taxable years beginning after December 31, 1999.”

(b) CONFORMING AMENDMENTS.—

(1) Section 38(b) of the Internal Revenue Code of 1986 is amended—

(A) by striking out “plus” at the end of paragraph (1),

(B) by striking out the period at the end of paragraph (12), and inserting a comma and “plus”, and

(C) by adding at the end the following new paragraph:

“(13) the employer-provided child care credit determined under section 45D.”

SECTION-BY-SECTION

SECTION 1. SHORT TITLE

The bill's short title is the “Child Care Infrastructure Act of 1996”.

SECTION 2. ALLOWANCE OF CREDIT FOR EMPLOYER EXPENSES FOR CHILD CARE ASSISTANCE

This section adds a new business related credit called the “employer-provided child care credit.” The credit is set at 50 percent of eligible expenditures up to a limit of \$150,000 per taxpayer per tax year. Qualified expenditures mean amounts spent to: build, rehabilitate or expand a qualified child care facility for the taxpayer's employees; to subsidize the operating costs of such a facility; to contract with a child care facility to provide services for the taxpayer's employees; and to contract with a resource and referral service for the taxpayers' employees. The tax credit will not be available to build, rehabilitate, or expand a child care facility if that facility is also the home of the taxpayer or one of the taxpayer's employees.

A child care facility is considered “qualified” if its principle use is to provide dependent care assistance, and if the facility meets all applicable state licensing requirements and other regulations. If the facility is a family day care center located in a home, i.e., if the facility is the primary residence of the operator of the facility, then the requirement that the facility's principle use be as a dependent care center is waived.

A facility also will not be treated as “qualified” unless enrollment is open to employees of the taxpayer, and unless the facility does not discriminate in favor of highly compensated employees. A taxpayer whose primary business is the provision of dependent care assistance will not be eligible for the credit unless the taxpayer's investment is in a facility in which 30 percent of the enrollees are dependents of employees of the taxpayer. The provision was added to ensure that for-profit day care centers would not be eligible for a tax credit simply for engaging in their primary business by building a center. They will, however, be eligible if they build a center chiefly for the children of their employees.

Under a set of recapture rules, a taxpayer who invests in a facility that ceases activity or changes ownership in less than ten years will have some of his or her credit clawed back. The applicable recapture percentage ranges from 100 percent in years 1 through 3 of the center's operation to 10 percent in years 9 and 10.

The credit will be in effect beginning after December 21, 1996 and sunset on December 31, 1999.●

By Mr. THOMAS:

S. 2089. A bill to transfer land administered by the Bureau of Land Management to the States in which the land is located; to the Committee on Energy and Natural Resources.

BUREAU OF LAND MANAGEMENT LEGISLATION

● Mr. THOMAS. Mr. President, today, I introduce legislation that would transfer the lands controlled by the Bureau of Land Management [BLM] to the States. This bill is similar to legislation I introduced in the Senate last year, but has a number of very important changes designed to improve the measure and ensure these public lands remain in public hands. In addition, the measure also protects access to these lands after they are transferred

to ensure that multiple use activities will continue on them when they become State property.

After I introduced S. 1031 last year, some folks misleadingly claimed my legislation would allow the States to selloff the lands that were transferred to them and give them to the highest bidder. False claims were also made that access to these lands for hunting, fishing, and recreation would be limited. These attacks may have played well with the environmental community, unfortunately they have nothing to do with the truth about this effort.

Currently, the BLM controls nearly 270 million acres of land in the United States. The agency administers over 18 million acres of land in Wyoming and much more in other Western States. This landownership pattern puts a heavy burden on the people of Wyoming and throughout the West and affects our economy and communities across the West. The bill I am introducing today would ensure that these lands remain public—only administered by the States rather than the Federal Government. It is also important to note that this bill only deals with lands administered by the BLM. This legislation would do nothing to alter the management of our national parks, national forests, or wilderness areas.

Let me be clear, I believe strongly that the State governments can do a much better job of managing the BLM lands in their States. Transferring these lands to the States is a common-sense approach to bring public management of these areas closer to local people. However, I also feel strongly that these lands should remain public and available to folks for a variety of uses. The key is to allow local people to make decisions regarding management of these public resources rather than bureaucrats in Washington, DC.

The principle behind my efforts to transfer the BLM lands is to give local people the opportunity to have real input into how these areas are managed. It has never been the intent of any supporters of this legislation to privatize or restrict access to these public lands. Although the opponents of this bill use every scare tactic imaginable, the real issue regarding my legislation is whether you believe land management decisions can be made better by folks in Washington or Cheyenne? This is not a question about making public lands private, this is a question about fairness and who can do a better job of listening to the concerns of local people.

I trust the people of Wyoming and the other States to make the proper decisions for themselves. Hopefully, the legislation I introduce today will allow us to begin focusing on the real questions in this matter, rather than the attacks and half-truths used by the opponents of my bill.●

By Mrs. BOXER:

S. 2090. A bill to provide for the conveyance of certain land in the State of

California to the Hoopa Valley Tribe; to the Committee on Energy and Natural Resources.

THE HOOPA VALLEY RESERVATION SOUTH BOUNDARY ADJUSTMENT ACT

● Mrs. BOXER. Mr. President, I am pleased to introduce legislation that would allow the Hoopa Valley Tribe to obtain lands of deep cultural and historical significance.

The Hoopa Valley Tribe has resided in Hoopa Valley, beginning at the mouth of the Trinity River Canyon in Humboldt County for 10,000 years. In the 1950s, a settlement agreement between the Hoopa Valley Tribe and the United States Government designated a 12-by-12 mile area for the Hoopa Valley Reservation. When this land was surveyed and demarcated, a “dog-leg” was created along the southern boundary which omitted certain lands the Tribe has deemed culturally and religiously significant.

My legislation will remedy this situation by transferring 2,641 acres of the Six Rivers National Forest to the Hoopa Valley Tribe. I join the United States Forest Service in commending the Hoopa Valley Tribe for its history of natural resource management and expertise. This legislation enjoys broad bipartisan support in California and in the House, where it was sponsored by Congressman FRANK RIGGS.

I urge my colleagues to support this bill, so that we can quickly provide the Hoopa Valley Tribe with lands necessary to maintain their cultural and religious heritage.●

By Mr. PRESSLER (for himself and Mr. HARKIN):

S. 2091. A bill to provide for small business and agriculture regulatory relief; to the Committee on Commerce, Science, and Transportation.

THE SMALL BUSINESS AND FARM TRANSPORTATION REGULATORY RELIEF ACT OF 1996

Mr. PRESSLER. Mr. President, today I am introducing the Small Business and Farm Transportation Regulatory Relief Act of 1996. I am pleased to be joined in this effort by Senator HARKIN. This legislation is designed to address transportation and economic concerns raised recently by the agriculture community and small business owners and operators. These concerns stem from a U.S. Department of Transportation [DOT] proposal to apply Federal hazardous materials regulations to intrastate commerce. Let me explain.

Since 1987, a rulemaking has been underway at DOT to fully impose Federal hazardous materials regulations on intrastate commerce. The intent is to achieve compatibility between Federal and State hazardous materials transportation regulations. If implemented as currently planned, however, farmers and agriculture retailers could face new costs and regulatory burdens.

Mr. President, I understand the rationale behind DOT's push for uniformity in hazardous materials regulations. Indeed, the Congress has a lengthy record promoting Federal and State

compatibility of motor carrier and hazardous materials transportation regulations. However, the legitimate need for exceptions to these regulations should not be ignored.

States have already achieved general compatibility with Federal hazardous materials regulations. In doing so, some agricultural States have also provided limited regulatory exemptions in this area to farmers and retailers. These exceptions are due to the seasonal nature of the planting and harvesting seasons associated with a farmer's work and the minimal risk associated with the transport of agricultural production materials.

For example, the very nature of a farmer's work requires the use of fuel, fertilizers, and pesticides. These products are transported from retail sites to farm and from farm to field, primarily on sparsely traveled roads. Have these exceptions from stringent hazardous materials regulations jeopardized safety? No. The record is clear. Public safety has not been adversely affected by farmers doing their jobs free of regulatory burdens.

Mr. President, the agriculture industry has worked to explain its position to DOT throughout the public comment periods. Unfortunately, we cannot be sure to what extent DOT will address these concerns until the rule is final. Waiting until then could be too late. Congressional action is necessary to prevent unnecessary regulations and economic burdens on our farmers.

The legislation we are introducing today would ensure States are allowed to maintain existing exceptions for farmers and agribusinesses. It also ensures States can continue to grant targeted exceptions for farmers in the future, as long as such exceptions will not adversely impact public safety.

In addition to addressing farm-related transportation concerns, this legislation would also streamline regulatory requirements for small business operators. It is based on a DOT supplemental notice of proposed rulemaking, Docket No. HM 200, issued March 20, 1996.

The DOT proposal would, in part, exempt certain quantities and types of hazardous materials from regulations concerning their transport. These so-called materials of trade are often the types of products used by small businesses across our country. Because transporting these small quantities of materials pose minimal risks to public safety and property, DOT is correctly proposing to lift the stringent hazardous materials transportation regulations currently imposed on operators. In my view, and the view of many others, DOT is on the right track. However, Congress should ensure DOT stays on that track.

According to DOT officials, the rulemaking is expected to be completed by the end of this year. But there is no firm deadline. Given this issue has been part of the rulemaking under consideration for the past 10 years, many small

business owners are skeptical about DOT meeting its target date. Indeed, there is no legal assurance that DOT will finish what it has started. After all, Federal agencies are known to miss target dates for completing rulemakings or implementing regulations. DOT is no exception.

Small business owners have no way of knowing when or if the proposed materials of trade regulatory exceptions will be a reality. Therefore, we are introducing legislation today to address this uncertainty and impose a needed congressional directive. This bill would establish a deadline for DOT and help ensure unnecessary regulatory burdens on small business owners are lifted in a timely manner. The deadline for DOT to complete the small business exception final rule would be December 31, 1996. That is the same date DOT announced as its target.

Mr. President, I want to acknowledge the efforts going on in the other body to address the concerns I have just outlined. Representatives DELAY, EWING, BUYER, and POSHARD have been working on legislative measures very similar to the proposal Senator HARKIN and I are introducing. We share a common goal. Sound transportation and policy cannot be achieved by a one-size-fits-all approach.

I urge my colleagues to join in sponsoring this very important and necessary legislation and urge its swift passage.

ADDITIONAL COSPONSORS

S. 39

At the request of Mr. STEVENS, the name of the Senator from Rhode Island [Mr. PELL] was added as a cosponsor of S. 39, a bill to amend the Magnuson Fishery Conservation and Management Act to authorize appropriations, to provide for sustainable fisheries, and for other purposes.

S. 55

At the request of Mr. INOUE, the name of the Senator from California [Mrs. FEINSTEIN] was added as a cosponsor of S. 55, a bill to amend title 38, United States Code, to deem certain service in the organized military forces of the Government of the Commonwealth of the Philippines and the Philippine Scouts to have been active service for purposes of benefits under programs administered by the Secretary of Veterans Affairs.

S. 607

At the request of Mr. WARNER, the name of the Senator from Alaska [Mr. STEVENS] was added as a cosponsor of S. 607, a bill to amend the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to clarify the liability of certain recycling transactions, and for other purposes.

S. 880

At the request of Mrs. HUTCHISON, the name of the Senator from Wyoming [Mr. SIMPSON] was added as a cosponsor

of S. 880, a bill to enhance fairness in compensating owners of patents used by the United States.

S. 912

At the request of Mr. KOHL, the name of the Senator from California [Mrs. FEINSTEIN] was added as a cosponsor of S. 912, a bill to amend the Internal Revenue Code of 1986 with respect to the eligibility of veterans for mortgage revenue bond financing, and for other purposes.

S. 1379

At the request of Mr. SIMPSON, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 1379, a bill to make technical amendments to the Fair Debt Collection Practices Act, and for other purposes.

S. 1987

At the request of Mr. BROWN, the name of the Senator from Colorado [Mr. CAMPBELL] was added as a cosponsor of S. 1987, a bill to provide that members of the Armed Forces who performed services for the peacekeeping efforts in Somalia shall be entitled to tax benefits in the same manner as if such services were performed in a combat zone, and for other purposes.

S. 1987

At the request of Mr. FAIRCLOTH, the name of the Senator from Missouri [Mr. BOND] was added as a cosponsor of S. 1987, a bill to amend titles II and XVIII of the Social Security Act to prohibit the use of social security and medicare trust funds for certain expenditures relating to union representatives at the Social Security Administration and the Department of Health and Human Services.

S. 2054

At the request of Mr. COCHRAN, the name of the Senator from South Dakota [Mr. PRESSLER] was added as a cosponsor of S. 2054, a bill to amend the Higher Education Act of 1965 to exempt certain small lenders from the audit requirements of the guaranteed student loan program.

SENATE RESOLUTION 295—TO DESIGNATE OCTOBER 18, 1996, AS NATIONAL MAMMOGRAPHY DAY

Mr. BIDEN (for himself, Mr. ABRAHAM, Mr. AKAKA, Mr. BAUCUS, Mr. BINGAMAN, Mrs. BOXER, Mr. BRADLEY, Mr. BRYAN, Mr. BURNS, Mr. CHAFEE, Mr. COHEN, Mr. COVERDELL, Mr. D'AMATO, Mr. DOMENICI, Mr. DORGAN, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FORD, Mr. FRIST, Mr. GLENN, Mr. GRASSLEY, Mr. GREGG, Mr. HATCH, Mrs. HUTCHISON, Mr. INOUE, Mr. JOHNSTON, Mrs. KASSEBAUM, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mr. LOTT, Mr. MACK, Mr. MCCAIN, Ms. MIKULSKI, Ms. MOSELEY-BRAUN, Mr. MOYNIHAN, Mr. MURKOWSKI, Mrs. MURRAY, Mr. PELL, Mr. REID, Mr. ROBB, Mr. ROCKEFELLER, Mr. ROTH, Mr. SARBANES, Mr. SIMON, Mr. SMITH, Ms. SNOWE, Mr. SPECTER, Mr. STEVENS, Mr. THOMAS, Mr. THURMOND, and Mr.

WELLSTONE) submitted the following resolution; which was referred to the Committee on the Judiciary:

S.RES. 295

Whereas according to the American Cancer Society, 184,300 women will be diagnosed with breast cancer in 1996, and 44,300 women will die from this disease;

Whereas in the decade of the 1990's, it is estimated that about 2,000,000 women will be diagnosed with breast cancer, resulting in nearly 500,000 deaths;

Whereas the risk of breast cancer increases with age, with a woman at age 70 having twice as much of a chance of developing the disease than a woman at age 50;

Whereas at least 80 percent of the women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at a certified facility, can provide a safe and quick diagnosis;

Whereas experts agree that mammography is the best method of early detection of breast cancer, and early detection is the key to saving lives; and

Whereas mammograms can reveal the presence of small cancers of up to 2 years or more before regular clinical breast examination or breast self-examination (BSE), savings as many as 30 percent more lives: Now, therefore, be it

Resolved, That the Senate designates October 18, 1996, as "National Mammography Day". The Senate requests that the President issue a proclamation calling upon the people of the United States to observe such day with appropriate programs and activities.

Mr. BIDEN. Mr. President, I submit a resolution designating October 18, 1996 as National Mammography Day.

Over the course of the past 3 years, I have submitted resolutions that designate a special day to encourage women to get mammograms as part of the early detection process in the fight against breast cancer. Historically this day has been designated as October 19, but because it falls on a Saturday this year, October 18 will be National Mammography Day.

In 1992 and 1993 a joint resolution was adopted by the Congress and signed into law by the President. And, last year, even though the House refused to take up commemoratives, this resolution was approved by the Senate. I feel that the Senate should again go on record to continue to educate and raise the consciousness about the importance of early detection and the value of mammography.

Mr. President, according to the American Cancer Society, national figures on breast cancer indicate that, in 1996 alone, 184,300 women will be diagnosed with breast cancer. Forty-four thousand three hundred women will succumb to this disease.

My home State of Delaware still ranks among the worst in breast cancer mortality among the 50 states, with an estimated 660 new breast cancer cases and over 160 breast cancer deaths for 1996.

Although a cure for breast cancer may be some time away, early detection and treatment are crucial to ensure survival. Studies have shown and experts agree, that mammography is

one of the best methods to detect breast cancer in its early stages. Mammograms can reveal the presence of small cancers up to 2 years before regular clinical breast examinations or breast self-examinations [BSE], saving as many as a third more lives of those diagnosed with the disease.

With 50 percent of the breast cancer cases occurring in women over age 65, no women can be considered immune from the disease; in fact, at least 80 percent of the women who get breast cancer have no family history of the disease.

Mr. President, the resolution I am submitting today sets aside 1 day in the midst of National Breast Cancer Awareness Month to encourage women to receive or sign up for a mammogram, as well as to bring about greater awareness and understanding of one of the key components in fighting this disease.

AMENDMENTS SUBMITTED

THE FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

DOMENICI AMENDMENT NO. 5368

Mr. DOMENICI proposed an amendment to the bill (S. 1994) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes; as follows:

On page 119, line 1, strike all after "activities", through "collections" on line 2.

BRYAN AMENDMENT NO. 5369

Mr. BRYAN proposed an amendment to the bill, S. 1994, supra; as follows:

At the appropriate place, insert the following:

SEC. . SPECIAL FLIGHT RULES IN THE VICINITY OF GRAND CANYON NATIONAL PARK.

The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration, shall take such action as may be necessary to provide 30 additional days for comment by interested persons on the special flight rules in the vicinity of Grand Canyon National Park described in the notice of proposed rulemaking issued on July 31, 1996, at 61 Fed. Reg. 40120 et seq.

ROTH (AND MOYNIHAN) AMENDMENT NO. 5370

Mr. ROTH (for himself and Mr. MOYNIHAN) proposed an amendment to the bill, S. 1994, supra; as follows:

At the appropriate place, insert the following:

TITLE —EXTENSION OF AIRPORT AND AIRWAY TRUST FUND EXPENDITURE AUTHORITY

SEC. . EXPENDITURES FROM AIRPORT AND AIR- WAY TRUST FUND.

Section 9502(d)(1) of the Internal Revenue Code of 1986 (relating to expenditures from Airport and Airway Trust Fund) is amended by—

(1) striking "1996" and inserting "1997"; and

(2) inserting "or the Federal Aviation Reauthorization Act of 1996" after "Administration Authorization Act of 1994".

EXON (AND OTHERS) AMENDMENT NO. 5371

Mr. EXON (for himself, Mr. DASCHLE, Mr. DORGAN, and Mr. PRESSLER) proposed an amendment to the bill, S. 1994, supra; as follows:

On page 95 at the end of line 11 insert the following new sentence: "Services for which costs may be recovered included the costs of air traffic control, navigation, weather services, training and emergency services which are available to facilitate safe transportation over the United States, and other services provided by the Administrator or by programs financed by the Administrator to flights that neither take off nor land in the United States."

DORGAN (AND PRESSLER) AMENDMENT NO. 5372

Mr. DORGAN (for himself and Mr. PRESSLER) proposed an amendment to the bill, S. 1994, supra; as follows:

At the appropriate place, insert the following: "Notwithstanding any other provision of law, the Surface Transportation Board shall not increase fees for services in connection with rail maximum rate complaints pursuant to 49 CFR Part 1002, STB Ex Parte No. 542."

GRAHAM AMENDMENT NO. 5373

Mr. FORD (for Mr. GRAHAM) proposed an amendment to the bill, S. 1994, supra; as follows:

At the appropriate place, insert the following new section:

SEC. . ADVANCE ELECTRONIC TRANSMISSION OF CARGO AND PASSENGER INFOR- MATION.

(a) CARGO INFORMATION.—

(1) IN GENERAL.—Section 431(b) of the Tariff Act of 1930 (19 U.S.C. 1431(b)) is amended—

(A) by striking "Any manifest" and inserting "(1) Any manifest", and

(B) by adding at the end the following new paragraph:

"(2)(A) Every passenger air carrier required to make entry or to obtain clearance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission cargo manifest information described in subparagraph (B) in advance of such entry or clearance in such manner as the Secretary shall prescribe.

"(B) The information described in this subparagraph is as follows:

"(i) The airport of arrival or departure, whichever is appropriate.

"(ii) The airline prefix code.

"(iii) The carrier code.

"(iv) The flight number.

"(v) The date of scheduled arrival or date of departure, whichever is appropriate.

"(vi) The permit to proceed to the destination, if applicable.

"(vii) The master and house air waybill numbers and quantities.

"(viii) The first airport of lading of the cargo.

"(ix) A description and weight of the cargo.

"(x) The shipper's name and address from all air waybills.

"(xi) The consignee name and address from all air waybills.

"(xii) Notice that actual boarded quantities are not equal to air waybill quantities.

"(xiii) Transfer or transit information.

"(xiv) Warehouse or other location of the cargo.

"(xv) Any other data that the Secretary may by regulation prescribe."

(2) CONFORMING AMENDMENT.—Subsection (d)(1)(A) of section 431 of such Act is amended by inserting before the semicolon "or subsection (b)(2)".

(b) PASSENGER INFORMATION.—The Part II of title IV of the Tariff Act of 1930 is amended by inserting after section 431 the following new section:

"SEC. 432. PASSENGER MANIFEST INFORMATION REQUIRED FOR AIR CARRIERS.

"(a) IN GENERAL.—Every passenger air carrier required to make entry or obtain clearance under the customs laws of the United States (or the authorized agent of such carrier) shall provide by electronic transmission passenger manifest information described in subsection (b) in advance of such entry or clearance in such manner and form as the Secretary shall prescribe.

"(b) INFORMATION DESCRIBED.—The information described in this subsection is as follows:

"(1) Full name of each passenger.

"(2) Date of birth and citizenship of each passenger.

"(3) Passport number and country of issuance of each passenger.

"(4) Passenger name record.

"(5) Any additional data that the Secretary, by regulation, determines is reasonably necessary to ensure aviation safety pursuant to the Customs laws of the United States."

(c) DEFINITION.—Section 401 of the Tariff Act of 1930 is amended by adding at the end the following new subsection:

"(t) PASSENGER AIR CARRIER.—The term 'passenger air carrier' means an air carrier (as defined in section 40102(a)(2) of title 49, United States Code) or foreign air carrier (as defined in section 40102(a)(21) of such title 49) that provides transportation of passengers to or from any place in the United States."

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect 45 days after the date of the enactment of this Act.

MCCAIN AMENDMENT NO. 5374

Mr. MCCAIN proposed an amendment to the bill, S. 1994, supra; as follows:

On page 111, beginning with line 16, strike through line 10 on page 115 and insert the following:

(c) CONSIDERATION IN SENATE.—An implementing bill introduced in the Senate shall be referred to the Committee on Commerce, Science, and Transportation. The Committee on Commerce, Science, and Transportation shall report the bill with its recommendations within 60 days following the date of introduction of that bill. Upon the reporting of the bill by the Committee on Commerce, Science, and Transportation, the reported bill shall be referred sequentially to the Committee on Finance for a period of 60 legislative days.

On page 116, strike lines 3 through 9.

BROWN AMENDMENT NO. 5375

(Ordered to lie on the table.)

Mr. BROWN submitted an amendment intended to be proposed by him to the bill, S. 1994, supra; as follows:

At the appropriate place in title VI, insert the following new section:

SEC. 6 . REQUIREMENTS FOR PROCUREMENT CONTRACTS.

(a) GRANTS.—

(1) IN GENERAL.—Notwithstanding any other provision of law, neither the Secretary

nor the Administrator may award a grant for an airport-related project unless the grant agreement specifies that, subject to paragraph (2)—

(A) competitive procedures shall be used for awarding any contract in an amount greater than or equal to \$5,000,000 that is funded in whole or in part with funds made available by the grant; and

(B) the reporting requirements under subsection (b) shall apply to any contract funded in whole or in part with such funds that is awarded without using competitive procedures.

(2) EXCEPTIONS.—The exclusion of a particular source by a contractor for reasons described in subsection (b) of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) and a failure to use competitive procedures for reasons that, under subsection (c) of such section, would justify a failure of the head of an executive agency to use competitive procedures shall not be considered a violation of a clause included in a grant agreement under paragraph (1) and shall not necessitate a report under that paragraph.

(3) APPLICABILITY.—Paragraph (1) shall apply to grants referred to in this paragraph that are awarded on or after the date of enactment of this Act.

(b) CONTENT OF REPORT.—A report submitted under this section shall state—

(1) the number of bids from qualified bidders that were in amounts lower than the amount specified in the bid submitted by the bidder awarded the contract;

(2) for each bid referred to in paragraph (1) (other than the bid submitted by the bidder awarded the contract)—

(A) the amount by which the bid submitted by the bidder awarded the contract exceeded the lower bid;

(B) a description of any qualitative differences between the property or services that were the subject of the lower bid and the property or services that are the subject of the bid submitted by the bidder awarded the contract; and

(C) a justification for rejecting the lower bid, including any exception under applicable law.

(c) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

(1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Federal Aviation Administration.

(2) COMPETITIVE PROCEDURES.—The term “competitive procedures”—

(A) with respect to the awarding of a contract by the Secretary or the Administrator, has the meaning provided that term in section 4(5) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(5)); and

(B) with respect to the awarding of a contract or subcontract by a contractor, contracting procedures that the Secretary or the Administrator (as the case may be) determines are substantially similar to the competitive procedures used by the Secretary for the acquisition of the same or similar property or services.

(3) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

SIMPSON AMENDMENT NO. 5376

(Ordered to lie on the table.)

Mr. SIMPSON submitted an amendment intended to be proposed by him to the bill, S. 1994, supra; as follows:

At the appropriate place, insert the following new section:

SEC. . PILOT AGE RESTRICTION.

The Secretary of Transportation, acting through the Administrator of the Federal Aviation Administration, shall—

(1) determine criteria for granting exemptions to the regulations of the Federal Aviation Administration that restrict commercial pilots who have attained the age of 60; and

(2) revise to the regulations of the Federal Aviation Administration to provide for exemptions referred to in paragraph (1).

HELMS AMENDMENT NO. 5377

Mr. MCCAIN (for Mr. HELMS) proposed an amendment to the bill, S. 1994, supra; as follows:

On page 39, line 20, insert the following:

SEC. 41 . TRANSFER OF AIR TRAFFIC CONTROL TOWER; CLOSING OF FLIGHT SERVICE STATIONS.

(a) HICKORY, NORTH CAROLINA TOWER.—

(1) TRANSFER.—The Administrator of the Federal Aviation Administration may transfer any title, right, or interest the United States has in the air traffic control tower located at the Hickory Regional Airport to the City of Hickory, North Carolina, for the purpose of enabling the city to provide air traffic control services to operators of aircraft.

BROWN AMENDMENT NO. 5378

Mr. MCCAIN (for Mr. BROWN) proposed an amendment to the bill, S. 1994, supra; as follows:

At the appropriate place insert the following:

SEC. . REPORTING FOR PROCUREMENT CONTRACTS.

Section 47112 is amended by adding at the end the following new subsection:

“(d) REPORTING FOR PROCUREMENT CONTRACTS.—(1) The Secretary of Transportation shall promulgate regulations to require that each grant agreement that includes the awarding of any contract that includes Federal funds in an amount greater than or equal to \$5,000,000 under this subchapter provides for a report to the Secretary that states—

“(A) the number of bids from qualified, responsive and reasonable bidders that were in amounts lower than the amount specified in the bid submitted by the bidder awarded the contract;

“(B) for each bid referred to in subparagraph A (other than the bid submitted by the bidder awarded the contract) the amount by which the bid submitted by the bidder awarded the contract exceeded the lower bid.

“(2) APPLICABILITY.—This subsection shall apply to grants referred to in this paragraph that are awarded on or after the date of enactment of this Act.”.

MCCAIN AMENDMENT NO. 5379

Mr. MCCAIN proposed an amendment to the bill, S. 1994, supra; as follows:

On page 2, in the item relating to title III, strike “AIRPORT” and insert “AVIATION”.

On page 14, line 11, strike “AIRPORT” and insert “AVIATION”.

THE DEPARTMENT OF JUSTICE APPROPRIATIONS ACT, 1997

FAIRCLOTH (AND OTHERS) AMENDMENT NO. 5380

(Ordered to lie on the table.)

Mr. FAIRCLOTH (for himself, Mr. SIMON, Ms. MOSELEY-BRAUN, and Mr. ABRAHAM) submitted an amendment intended to be proposed by them to the

bill (H.R. 3814) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1997, and for other purposes; as follows:

At the appropriate place, insert the following new section:

EXTENSION OF AUTHORIZED PERIOD OF STAY FOR CERTAIN NURSES

SEC. . (a) ALIENS WHO PREVIOUSLY ENTERED THE UNITED STATES PURSUANT TO AN H-1A VISA.—

(1) Notwithstanding any other provision of law, the authorized period of stay in the United States of any nonimmigrant described in paragraph (2) is hereby extended through September 30, 1997.

(2) A nonimmigrant described in this paragraph is a nonimmigrant—

(A) who entered the United States as a nonimmigrant described in section 101(a)(15)(H)(i)(a);

(B) who was within the United States on or after September 1, 1995, and who is within the United States on the date of the enactment of this Act; and

(C) whose period of authorized stay has expired or would expire before September 30, 1997 but for the provisions of this section.

(3) Nothing in this section may be construed to extend the validity of any visa issued to a nonimmigrant described in section 101(a)(15)(H)(i)(A) of the Immigration and Nationality Act or to authorize the re-entry of any person outside the United States on the date of the enactment of this Act.

(b) CHANGE OF EMPLOYMENT.—A nonimmigrant whose authorized period of stay is extended by operation of this section shall be eligible to change employers in accordance with section 214.2(h)(2)(i)(D) of title 8, Code of Federal Regulations (as in effect on the day before the date of the enactment of this Act).

(c) REGULATIONS.—Not later than 30 days after the date of the enactment of this Act, the Attorney General shall issue regulations to carry out the provisions of this section.

(d) INTERIM TREATMENT.—A nonimmigrant whose authorized period of stay is extended by operation of this section, and the spouse and child of such nonimmigrant, shall be considered as having continued to maintain lawful status as a nonimmigrant through September 30, 1997.

THE SUSTAINABLE FISHERIES ACT FISHERIES STOCK RECOVERY FINANCING ACT

SNOWE (AND COHEN) AMENDMENT NO. 5381

Ms. SNOWE (for herself and Mr. COHEN) proposed an amendment to the bill (S. 39) to amend the Magnuson Fishery Conservation and Management Act to authorize appropriations, to provide for sustainable fisheries, and for other purposes; as follows:

On page 161, line 21, strike “810 and 811,” and insert “811 and 812.”.

On page 163, line 4, strike the closing quotation marks and the second period.

On page 163, between lines 4 and 5, insert the following:

“SEC. 810. TRANSITION TO MANAGEMENT OF AMERICAN LOBSTER FISHERY BY COMMISSION.

“(a) TEMPORARY LIMITS.—Notwithstanding any other provision of this Act or of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), if no

regulations have been issued under section 804(b) of this Act by December 31, 1997, to implement a coastal fishery management plan for American lobster, then the Secretary shall issue interim regulations before March 1, 1998, that will prohibit any vessel that takes lobsters in the exclusive economic zone by a method other than pots or traps from landing lobsters (or any parts thereof) at any location within the United States in excess of—

“(1) 100 lobsters (or part thereof) for each fishing trip of 24 hours or less during (up to a maximum of 500 lobsters, or parts thereof, during any 5-day period); or

“(2) 500 lobsters (or parts thereof) for a fishing trip of 5 days or longer.

“(b) SECRETARY TO MONITOR LANDINGS.—Before January 1, 1998, the Secretary shall monitor, on a timely basis, landings of American lobster, and, if the Secretary determines that catches from vessels that take lobsters in the exclusive economic zone by a method other than pots or traps have increased significantly, then the Secretary may, consistent with the national standards in section 301 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801), and after opportunity for public comment and consultation with the Atlantic States Marine Fisheries Commission, implement regulations under section 804(b) of this Act that are necessary for the conservation of American lobster.

“(c) REGULATIONS TO REMAIN IN EFFECT UNTIL PLAN IMPLEMENTED.—Regulations issued under subsection (a) or (b) shall remain in effect until the Secretary implements regulations under section 804(b) of this Act to implement a coastal fishery management plan for American lobster.”.

STEVENS (AND KERRY)
AMENDMENT NO 5382

Mr. STEVENS (for himself and Mr. KERRY) proposed an amendment to the bill, S. 39, supra; as follows:

In lieu of the matter proposed to be inserted, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Sustainable Fisheries Act”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Amendment of the Magnuson Fishery Conservation and Management Act.

TITLE I—CONSERVATION AND
MANAGEMENT

Sec. 101. Findings; purposes; policy.
Sec. 102. Definitions.
Sec. 103. Authorization of appropriations.
Sec. 104. Highly migratory species.
Sec. 105. Foreign fishing and international fishery agreements.
Sec. 106. National standards.
Sec. 107. Regional fishery management councils.
Sec. 108. Fishery management plans.
Sec. 109. Action by the Secretary.
Sec. 110. Other requirements and authority.
Sec. 111. Pacific community fisheries.
Sec. 112. State jurisdiction.
Sec. 113. Prohibited acts.
Sec. 114. Civil penalties and permit sanctions; rebuttable presumptions.
Sec. 115. Enforcement.
Sec. 116. Transition to sustainable fisheries.
Sec. 117. North Pacific and northwest Atlantic Ocean fisheries.

TITLE II—FISHERY MONITORING AND
RESEARCH

Sec. 201. Change of title.
Sec. 202. Registration and information management.
Sec. 203. Information collection.
Sec. 204. Observers.
Sec. 205. Fisheries research.
Sec. 206. Incidental harvest research.
Sec. 207. Miscellaneous research.
Sec. 208. Study of contribution of bycatch to charitable organizations.
Sec. 209. Study of identification methods for harvest stocks.
Sec. 210. Review of Northeast fishery stock assessments.
Sec. 211. Clerical amendments.

TITLE II—FISHERIES FINANCING

Sec. 301. Short title.
Sec. 302. Individual fishing quota loans
Sec. 303. Fisheries financing and capacity reduction.

TITLE IV—MARINE FISHERY STATUTE
REAUTHORIZATIONS

Sec. 401. Marine fish program authorization of appropriations.
Sec. 402. Interjurisdictional Fisheries Act amendments.
Sec. 403. Anadromous fisheries amendments.
Sec. 404. Atlantic coastal fisheries amendments.
Sec. 405. Technical amendments to maritime boundary agreement.
Sec. 406. Amendments to the Fisheries Act.

SEC. 2. AMENDMENT OF MAGNUSON FISHERY CONSERVATION AND MANAGEMENT ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

TITLE I—CONSERVATION AND
MANAGEMENT

SEC. 101. FINDINGS; PURPOSES; POLICY.

Section 2 (16 U.S.C. 1801) is amended—
(1) by striking subsection (a)(2) and inserting the following:

“(2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a con-

sequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.”;

(2) by inserting “to facilitate long-term protection of essential fish habitats,” in subsection (a)(6) after “conservation.”;

(3) by adding at the end of subsection (a) the following:

“(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

“(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fishery resources important in sustaining their economic growth.”;

(4) by striking “principles;” in subsection (b)(3) and inserting “principles, including the promotion of catch and release programs in recreational fishing;”;

(5) by striking “and” after the semicolon at the end of subsection (b)(5);

(6) by striking “development.” in subsection (b)(6) and inserting “development in a non-wasteful manner; and”;

(7) by adding at the end of subsection (b) the following:

“(7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.”;

(8) in subsection (c)(3)—

(A) by striking “promotes” and inserting “considers”; and

(B) by inserting “minimize bycatch and” after “practical measures that”;

(9) striking “and” at the end of paragraph (c)(5);

(10) striking the period at the end of paragraph (c)(6) and inserting “; and”; and

(11) adding at the end of subsection (c) a new paragraph as follows:

“(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.”.

SEC. 102. DEFINITIONS.

Section 3 (16 U.S.C. 1802) is amended—

(1) by redesignating paragraphs (2) through (32) as paragraphs (5) through (35) respectively, and inserting after paragraph (1) the following:

“(2) The term ‘bycatch’ means fish which are harvested in a fishery, but which are not sold or kept for personal use, and includes economic discards and regulatory discards. Such term does not include fish released alive under a recreational catch and release fishery management program.

“(3) The term ‘charter fishing’ means fishing from a vessel carrying a passenger for hire (as defined in section 2101(21a) of title 46, United States Code) who is engaged in recreational fishing.

“(4) The term ‘commercial fishing’ means fishing in which the fish harvested, either in whole or in part, are intended to enter commerce or enter commerce through sale, barter or trade.”;

(2) in paragraph (7) (as redesignated)—

(A) by striking “COELENTERATA” from the heading of the list of corals and inserting “CNIDARIA”; and

(B) in the list appearing under the heading “CRUSTACEA”, by striking “Deep-sea Red

Crab—Geryon quinquedens” and inserting “Deep-sea Red Crab—Chaceon quinquedens”;

(3) by redesignating paragraphs (9) through (35) (as redesignated) as paragraphs (11) through (37), respectively, and inserting after paragraph (8) (as redesignated) the following:

“(9) The term ‘economic discards’ means fish which are the target of a fishery, but which are not retained because they are of an undesirable size, sex, or quality, or for other economic reasons.

“(10) The term ‘essential fish habitat’ means those waters and substrate necessary to fish for spawning, breeding, feeding or growth to maturity.”;

(4) by redesignating paragraphs (16) through (37) (as redesignated) as paragraphs (17) through (38), respectively, and inserting after paragraph (15) (as redesignated) the following:

“(16) The term ‘fishing community’ means a community which is substantially dependent on or substantially engaged in the harvest or processing of fishery resources to meet social and economic needs, and includes fishing vessel owners, operator, and crew and United States fish processors that are based in such community.”;

(5) by redesignating paragraphs (21) through (38) (as redesignated) as paragraphs (22) through (39), respectively, and inserting after paragraph (20) (as redesignated) the following:

“(21) The term ‘individual fishing quota’ means a Federal permit under a limited access system to harvest a quantity of fish, expressed by a unit or units representing a percentage of the total allowable catch of a fishery that may be received or held for exclusive use by a person. Such term does not include community development quotas as described in section 305(i).”;

(6) by striking “of one and one-half miles” in paragraph (23) (as redesignated) and inserting “of two and one-half kilometers”;

(7) by striking paragraph (28) (as redesignated), and inserting the following:

“(28) The term ‘optimum’, with respect to the yield from a fishery, means the amount of fish which—

“(A) will provide the greatest overall benefit to the Nation, particularly with respect to food production and recreational opportunities, and taking into account the protection of marine ecosystems;

“(B) is prescribed on the basis of the maximum sustainable yield from the fishery, as reduced by any relevant social, economic, or ecological factor; and

“(C) in the case of an overfished fishery, provides for rebuilding to a level consistent with producing the maximum sustainable yield in such fishery.”;

(8) by redesignating paragraphs (29) through (39) (as redesignated) as paragraphs (31) through (41), respectively, and inserting after paragraph (28) (as redesignated) the following:

“(29) The terms ‘overfishing’ and ‘overfished’ mean a rate or level of fishing mortality that jeopardizes the capacity of a fishery to produce the maximum sustainable yield on a continuing basis.

“(30) The term ‘Pacific Insular Area’ means American Samoa, Guam, the Northern Mariana Islands, Baker Island, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Island, Wake Island, or Palmyra Atoll, as applicable, and includes all islands and reefs appurtenant to such island, reef, or atoll.”;

(9) by redesignating paragraphs (32) through (41) (as redesignated) as paragraphs (34) through (43), respectively, and inserting after paragraph (31) (as redesignated) the following:

“(32) The term ‘recreational fishing’ means fishing for sport or pleasure.

“(33) The term ‘regulatory discards’ means fish harvested in a fishery which fishermen are required by regulation to discard whenever caught, or are required by regulation to retain but not sell.”;

(10) by redesignating paragraphs (36) through (43) (as redesignated) as paragraphs (37) through (44), respectively, and inserting after paragraph (35) (as redesignated) the following:

“(36) The term ‘special areas’ means the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990. In particular, the term refers to those areas east of the maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of Russia is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured.”;

(11) by striking “for which a fishery management plan prepared under title III or a preliminary fishery management plan prepared under section 201(g) has been implemented” in paragraph (42) (as redesignated) and inserting “regulated under this Act”;

(12) by redesignating paragraph (44) (as redesignated) as paragraph (45), and inserting after paragraph (43) the following:

“(44) The term ‘vessel subject to the jurisdiction of the United States’ has the same meaning such term has in section 3(c) of the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1903(c)).”

SEC. 103. AUTHORIZATION OF APPROPRIATIONS.

The Act is amended by inserting after section 3 (16 U.S.C. 1802) the following:

“SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Secretary for the purposes of carrying out the provisions of this Act, not to exceed the following sums:

- “(1) \$147,000,000 for fiscal year 1996;
- “(2) \$151,000,000 for fiscal year 1997;
- “(2) \$155,000,000 for fiscal year 1998; and
- “(4) \$159,000,000 for fiscal year 1999.”

SEC. 104. HIGHLY MIGRATORY SPECIES.

Section 102 (16 U.S.C. 1812) is amended by striking “promoting the objective of optimum utilization” and inserting “shall promote the achievement of optimum yield”.

SEC. 105. FOREIGN FISHING AND INTERNATIONAL FISHERY AGREEMENTS.

(a) AUTHORITY TO OPERATE UNDER TRANSSHIPMENT PERMITS.—Section 201 (16 U.S.C. 1821) is amended—

(1) by striking paragraphs (1) and (2) of subsection (a) and inserting the following:

“(1) is authorized under subsections (b) or (c) or section 204(e), or under a permit issued under section 204(d);

“(2) is not prohibited under subsection (f); and”;

(2) by striking “(i)” in subsection (c)(2)(D) and inserting “(h)”;

(3) by striking subsection (f);

(4) by redesignating subsections (g) through (j) as subsections (f) through (i), respectively;

(5) in paragraph (2) of subsection (h) (as redesignated), redesignate subparagraphs (B) and (C) as subparagraphs (C) and (D), respectively, and insert after subparagraph (A) the following:

“(B) in a situation where the foreign fishing vessel is operating under a Pacific Insular Area fishing agreement, the Governor of the applicable Pacific Insular Area, in consultation with the Western Pacific Council, has established an observer coverage program that is at least equal in effectiveness to the program established by the Secretary.”; and

(6) in subsection (i) (as redesignated) by striking “305” and inserting “304”.

(b) INTERNATIONAL FISHERY AGREEMENTS.—Section 202 (16 U.S.C. 1822) is amended—

(1) by adding before the period at the end of subsection (c) “or section 204(e)”;

(2) by adding at the end the following:

“(h) BYCATCH REDUCTION AGREEMENTS.—

“(1) The Secretary of State, in cooperation with the Secretary, shall seek to secure an international agreement to establish standards and measures for bycatch reduction that are comparable to the standards and measures applicable to United States fishermen for such purposes in any fishery regulated pursuant to this Act for which the Secretary, in consultation with the Secretary of State, determines that such an international agreement is necessary and appropriate.

“(2) An international agreement negotiated under this subsection shall be—

“(A) consistent with the policies and purposes of this Act; and

“(B) subject to approval by Congress under section 203.

“(3) Not later than January 1, 1997, and annually thereafter, the Secretary, in consultation with the Secretary of State, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a report describing actions taken under this subsection.”.

(c) PERIOD FOR CONGRESSIONAL REVIEW OF INTERNATIONAL FISHERY AGREEMENTS.—Section 203 (16 U.S.C. 1823) is amended—

(1) by striking “GOVERNING” in the section heading;

(2) by striking “agreement” each place it appears in subsection (a) and inserting “agreement, bycatch reduction agreement, or Pacific Insular Area fishery agreement”;

(3) by striking “60 calendar days of continuous session of the Congress” in subsection (a) and inserting “120 days (excluding any days in a period for which the Congress is adjourned sine die)”;

(4) by striking subsection (c);

(5) by redesignating subsection (d) as subsection (c); and

(6) by striking “agreement” in subsection (c)(2)(A), as redesignated, and inserting “agreement, bycatch reduction agreement, or Pacific Insular Area fishery agreement”.

(d) TRANSSHIPMENT PERMITS AND PACIFIC INSULAR AREA FISHING.—Section 204 (16 U.S.C. 1824) is amended—

(1) by inserting “or subsection (d)” in the first sentence of subsection (b)(7) after “under paragraph (6)”;

(2) by striking “the regulations promulgated to implement any such plan” in subsection (b)(7)(A) and inserting “any applicable federal or State fishing regulations”;

(3) by inserting “or subsection (d)” in subsection (b)(7)(D) after “paragraph (6)(B)”;

and

(4) by adding at the end the following:

“(d) TRANSSHIPMENT PERMITS.—

“(1) AUTHORITY TO ISSUE PERMITS.—The Secretary may issue a transshipment permit under this subsection which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the exclusive economic zone or, with the concurrence of a State, within the boundaries of that State, to a point outside the United States to any person who—

“(A) submits an application which is approved by the Secretary under paragraph (3); and

“(B) pays a fee imposed under paragraph (7).

“(2) TRANSMITTAL.—Upon receipt of an application for a permit under this subsection, the Secretary shall promptly transmit copies of the application to the Secretary of State,

Secretary of the department in which the Coast Guard is operating, any appropriate Council, and any affected State.

“(3) APPROVAL OF APPLICATION.—The Secretary may approve, in consultation with the appropriate Council or Marine Fisheries Commission, an application for a permit under this section if the Secretary determines that—

“(A) the transportation of fish or fish products to be conducted under the permit, as described in the application, will be in the interest of the United States and will meet the applicable requirements of this Act;

“(B) the applicant will comply with the requirements described in section 201(c)(2) with respect to activities authorized by any permit issued pursuant to the application;

“(C) the applicant has established any bonds or financial assurances that may be required by the Secretary; and

“(D) no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated to the Secretary an interest in performing the transportation at fair and reasonable rates.

“(4) WHOLE OR PARTIAL APPROVAL.—The Secretary may approve all or any portion of an application under paragraph (3).

“(5) FAILURE TO APPROVE APPLICATION.—If the Secretary does not approve any portion of an application submitted under paragraph (1), the Secretary shall promptly inform the applicant and specify the reasons therefor.

“(6) CONDITIONS AND RESTRICTIONS.—The Secretary shall establish and include in each permit under this subsection conditions and restrictions, including those conditions and restrictions set forth in subsection (b)(7), which shall be complied with by the owner and operator of the vessel for which the permit is issued.

“(7) FEES.—The Secretary shall collect a fee for each permit issued under this subsection, in an amount adequate to recover the costs incurred by the United States in issuing the permit, except that the Secretary shall waive the fee for the permit if the foreign nation under which the vessel is registered does not collect a fee from a vessel of the United States engaged in similar activities in the waters of such foreign nation.

“(e) PACIFIC INSULAR AREAS.—

“(1) NEGOTIATION OF PACIFIC INSULAR AREA FISHERY AGREEMENTS.—The Secretary of State, with the concurrence of the Secretary and in consultation with any appropriate Council, may negotiate and enter into a Pacific Insular Area fishery agreement to authorize foreign fishing within the exclusive economic zone adjacent to a Pacific Insular Area—

“(A) in the case of American Samoa, Guam, and the Northern Mariana Islands, at the request and with the concurrence of, and in consultation with, the Governor of the Pacific Insular Area to which such agreement applies; and

“(B) in the case of a Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands, at the request of the Western Pacific Council.

“(2) AGREEMENT TERMS AND CONDITIONS.—A Pacific Insular Area fishery agreement—

“(A) shall not be considered to supersede any governing international fishery agreement currently in effect under this Act, but shall provide an alternative basis for the conduct of foreign fishing within the exclusive economic zone adjacent to Pacific Insular Areas;

“(B) shall be negotiated and implemented consistent only with the governing international fishery agreement provisions of this title specifically made applicable in this subsection;

“(C) may not be negotiated with a nation that is in violation of a governing inter-

national fishery agreement in effect under this Act;

“(D) shall not be entered into if it is determined by the Governor of the applicable Pacific Insular Area with respect to agreements initiated under paragraph (1)(A), or the Western Pacific Council with respect to agreements initiated under paragraph (1)(B), that such an agreement will adversely affect the fishing activities of the indigenous people of such Pacific Insular Area;

“(E) shall be valid for a period not to exceed three years and shall only become effective according to the procedures in section 203; and

“(F) shall require the foreign nation and its fishing vessels to comply with the requirements of paragraphs (1), (2), (3) and (4)(A) of section 201(c), section 201(d), and section 201(h).

“(3) PERMITS FOR FOREIGN FISHING.—

“(A) Application for permits for foreign fishing authorized under a Pacific Insular Areas fishing agreement shall be made, considered and approved or disapproved in accordance with paragraphs (3), (4), (5), (6), (7)(A) and (B), (8), and (9) of subsection (b), and shall include any conditions and restrictions established by the Secretary in consultation with the Secretary of State, the Secretary of the department in which the Coast Guard is operating, the Governor of the applicable Pacific Insular Area, and the appropriate Council.

“(B) If a foreign nation notifies the Secretary of State of its acceptance of the requirements of this paragraph, paragraph (2)(F), and paragraph (5), including any conditions and restrictions established under subparagraph (A), the Secretary of State shall promptly transmit such notification to the Secretary. Upon receipt of any payment required under a Pacific Insular Area fishing agreement, the Secretary shall thereupon issue to such foreign nation, through the Secretary of State, permits for the appropriate fishing vessels of that nation. Each permit shall contain a statement of all of the requirements, conditions, and restrictions established under this subsection which apply to the fishing vessel for which the permit is issued.

“(4) MARINE CONSERVATION PLANS.—

“(A) Prior to entering into a Pacific Insular Area fishery agreement, the Western Pacific Council and the appropriate Governor shall develop a 3-year marine conservation plan detailing uses for funds to be collected by the Secretary pursuant to such agreement. Such plan shall be consistent with any applicable fishery management plan, identify conservation and management objectives (including criteria for determining when such objectives have been met), and prioritize planned marine conservation projects. Conservation and Management objectives shall include, but not be limited to—

“(i) establishment of Pacific Insular Area observer programs, approved by the Secretary in consultation with the Western Pacific Council, that provide observer coverage for foreign fishing under Pacific Insular Area fishery agreements that is at least equal in effectiveness to the program established by the Secretary under section 201(h);

“(ii) conduct of marine and fisheries research, including development of systems for information collection, analysis, evaluation, and reporting;

“(iii) conservation, education, and enforcement activities related to marine and coastal management, such as living marine resource assessments, habitat monitoring and coastal studies;

“(iv) grants to the University of Hawaii for technical assistance projects by the Pacific Island Network, such as education and training in the development and implementation

of sustainable marine resources development projects, scientific research, and conservation strategies; and

“(v) western Pacific community-based demonstration projects under section 112(b) of the Sustainable Fisheries Act and other coastal improvement projects to foster and promote the management, conservation, and economic enhancement of the Pacific Insular Areas.

“(B) In the case of American Samoa, Guam, and the Northern Mariana Islands, the appropriate Governor, with the concurrence of the Western Pacific Council, shall develop the marine conservation plan described in subparagraph (A) and submit such plan to the Secretary for approval. In the case of other Pacific Insular Areas, the Western Pacific Council shall develop and submit the marine conservation plan described in subparagraph (A) to the Secretary for approval.

“(C) If a Governor or the Western Pacific Council intends to request that the Secretary of State renew a Pacific Insular Area fishery agreement, a subsequent 3-year plan shall be submitted to the Secretary for approval by the end of the second year of the existing 3-year plan.

“(5) RECIPROCAL CONDITIONS.—Except as expressly provided otherwise in this subsection, a Pacific Insular Area fishing agreement may include terms similar to the terms applicable to United States fishing vessels for access to similar fisheries in waters subject to the fisheries jurisdiction of another nation.

“(6) USE OF PAYMENTS BY AMERICAN SAMOA, GUAM, NORTHERN MARIANA ISLANDS.—Any payment received by the Secretary under a Pacific Insular Area fishery agreement for American Samoa, Guam, or the Northern Mariana Islands shall be deposited into the United States Treasury and then covered over to the Treasury of the Pacific Insular Area for which those funds were collected. Amounts deposited in the Treasury of a Pacific Insular Area shall be available, without appropriation for fiscal year limitation, to the Governor of the Pacific Insular Area—

“(A) to carry out the purposes of this subsection;

“(B) to compensate (i) the Western Pacific Council for mutually agreed upon administrative costs incurred relating to any Pacific Insular Area fishery agreement for such Pacific Insular Area, and (ii) the Secretary of State for mutually agreed upon travel expenses for no more than 2 Federal representatives incurred as a direct result of complying with paragraph (1)(A); and

“(C) to implement a marine conservation plan developed and approved under paragraph (4).

“(7) WESTERN PACIFIC SUSTAINABLE FISHERIES FUND.—There is established in the United States Treasury a Western Pacific Sustainable Fisheries Fund into which any payments received by the Secretary under a Pacific Insular Area fishery agreement for any Pacific Insular Area other than American Samoa, Guam, or the Northern Mariana Islands shall be deposited. The Western Pacific Sustainable Fisheries Fund shall be made available, without appropriation or fiscal year limitation, to the Secretary, who shall provide such funds only to—

“(A) the Western Pacific Council for the purpose of carrying out the provisions of this subsection, including implementation of a marine conservation plan approved under paragraph (4);

“(B) the Secretary of State for mutually agreed upon travel expenses for no more than 2 federal representatives incurred as a direct result of complying with paragraph (1)(B); and

“(C) the Western Pacific Council to meet conservation and management objectives in

the State of Hawaii if monies remain in the Western Pacific Sustainable Fisheries Fund after the funding requirements of subparagraphs (A) and (B) have been satisfied.

Amounts deposited in such fund shall not diminish funding received by the Western Pacific Council for the purpose of carrying out other responsibilities under this Act.

“(8) USE OF FINES AND PENALTIES.—In the case of violations occurring within the exclusive economic zone off American Samoa, Guam, or the Northern Mariana Islands, amounts received by the Secretary which are attributable to fines or penalties imposed under this Act, including such sums collected from the forfeiture and disposition or sale of property seized subject to its authority, after payment of direct costs of the enforcement action to all entities involved in such action, shall be deposited into the Treasury of the Pacific Insular Area adjacent to the exclusive economic zone in which the violation occurred, to be used for fisheries enforcement and for implementation of a marine conservation plan under paragraph (4).”

(e) ATLANTIC HERRING TRANSSHIPMENT.—Within 30 days of receiving an application, the Secretary shall, under Section 204(d) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, issue permits to up to fourteen Canadian transport vessels that are not equipped for fish harvesting or processing, for the transshipment, within the boundaries of the State of Maine or within the portion of the exclusive economic zone east of the line 69 degrees 30 minutes west and within 12 nautical miles from the seaward boundary of that State, of Atlantic herring harvested by United States fishermen within the area described and used solely in sardine processing. In issuing a permit pursuant to this subsection, the Secretary shall provide a waiver under section 201(h)(2)(C) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, provided that such vessels comply with Federal or State monitoring and reporting requirements for the Atlantic herring fishery, including the stationing of United States observers aboard such vessels, if necessary.

(f) LARGE SCALE DRIFTNET FISHING.—Section 206 (16 U.S.C. 1826) is amended—

(1) in subsection (e), by striking paragraphs (3) and (4), and redesignating paragraphs (5) and (6) as (3) and (4), respectively; and

(2) in subsection (f), by striking “(e)(6),” and inserting “(e)(4).”

(g) RUSSIAN FISHING IN THE BERING SEA.—No later than September 30, 1997, the North Pacific Fishery Management Council, in consultation with the North Pacific and Bering Sea Advisory Body, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a report describing the institutional structures in Russia pertaining to stock assessment, management, and enforcement for fishery harvests in the Bering Sea, and recommendations for improving coordination between the United States and Russia for managing and conserving Bering Sea fishery resources of mutual concern.

SEC. 106. NATIONAL STANDARDS.

(a) Section 301(a)(5) (16 U.S.C. 1851(a)(5)) is amended by striking “promote” and inserting “consider”.

(b) Section 301(a) (16 U.S.C. 1851(a)) is amended by adding at the end thereof the following:

“(8) Conservation and management measures shall, consistent with the conservation requirements of this Act (including the prevention of overfishing and rebuilding of over-

fished stocks), take into account the importance of fishery resources to fishing communities in order to (A) provide for the sustained participation of such communities, and (B) to the extent practicable, minimize adverse economic impacts of such communities.

“(9) Conservation and management measures shall, to the extent practicable, (A) minimize bycatch and (B) to the extent bycatch cannot be avoided, minimize the mortality of such bycatch.

“(10) Conservation and management measures shall, to the extent practicable, promote the safety of human life at sea.”

SEC. 107. REGIONAL FISHERY MANAGEMENT COUNCILS.

(a) Section 302(a) (16 U.S.C. 1852(a)) is amended—

(1) by inserting “(1)” after the subsection heading;

(2) by redesignating paragraphs (1) through (8) as subparagraphs (A) through (H), respectively;

(3) by striking “section 304(f)(3)” wherever it appears and inserting “paragraph (3)”;

(4) in paragraph (1)(B), as amended—

(A) by striking “and Virginia” and inserting “Virginia, and North Carolina”;

(B) by inserting “North Carolina, and” after “except”;

(C) by striking “19” and inserting “21”; and

(D) by striking “12” and inserting “13”;

(5) by striking paragraph (1)(F), as redesignated, and inserting the following:

(F) PACIFIC COUNCIL.—The Pacific Fishery Management Council shall consist of the States of California, Oregon, Washington, and Idaho and shall have authority over the fisheries in the Pacific Ocean seaward of such States. The Pacific Council shall have 14 voting members, including 8 appointed by the Secretary in accordance with subsection (b)(2) (at least one of whom shall be appointed from each such State), and including one appointed from an Indian tribe with Federally recognized fishing rights from California, Oregon, Washington, or Idaho in accordance with subsection (b)(5).”

(6) by indenting the sentence at the end thereof and inserting “(2)” before “Each Council”; and

(7) by adding at the end the following:

“(3) The Secretary shall have authority over any highly migratory species fishery that is within the geographical area of authority of more than one of the following Councils: New England Council, Mid-Atlantic Council, South Atlantic Council, Gulf Council, and Caribbean Council.”

(b) Section 302(b) (16 U.S.C. 1852(b)) is amended—

(1) by striking “subsection (b)(2)” in paragraphs (1)(C) and (3), and inserting in both places “paragraphs (2) and (5)”;

(2) by striking the last sentence in paragraph (3) and inserting the following: “Any term in which an individual was appointed to replace a member who left office during the term shall not be counted in determining the number of consecutive terms served by that Council member.”; and

(3) by striking paragraph (5) and inserting after paragraph (4) the following:

“(5)(A) The Secretary shall appoint to the Pacific Council one representative of an Indian tribe with Federally recognized fishing rights from California, Oregon, Washington, or Idaho from a list of not less than 3 individuals submitted by the tribal governments. The Secretary, in consultation with the Secretary of the Interior and tribal governments, shall establish by regulation the procedure for submitting a list under this subparagraph.

“(B) Representation shall be rotated among the tribes taking into consideration—

“(i) the qualifications of the individuals on the list referred to in subparagraph (A),

“(ii) the various rights of the Indian tribes involved and judicial cases that set forth how those rights are to be exercised, and

“(iii) the geographic area in which the tribe of the representative is located.

“(C) A vacancy occurring prior to the expiration of any term shall be filled in the same manner as set out in subparagraphs (A) and (B), except that the Secretary may use the list from which the vacating representative was chosen.

“(6) The Secretary may remove for cause any member of a Council required to be appointed by the Secretary in accordance with paragraphs (2) or (5) if—

“(A) the Council concerned first recommends removal by not less than two-thirds of the members who are voting members and submits such removal recommendation to the Secretary in writing together with a statement of the basis for the recommendation; or

“(B) the member is found by the Secretary, after notice and an opportunity for a hearing in accordance with section 554 of title 5, United States Code, to have committed an act prohibited by section 3071(1)(O).”

(c) Section 302(d) (16 U.S.C. 1852(d)) is amended in the first sentence—

(1) by striking “each Council,” and inserting “each Council who are required to be appointed by the Secretary and”; and

(2) by striking “shall, until January 1, 1992,” and all that follows through “GS-16” and inserting “shall receive compensation at the daily rate of GS-15, step 7”.

(d) Section 302(e) (16 U.S.C. 1852(e)) is amended by adding at the end the following:

“(5) At the request of any voting member of a Council, the Council shall hold a roll call vote on any matter before the Council. The official minutes and other appropriate records of any Council meeting shall identify all roll call votes held, the name of each voting member present during each roll call vote, and how each member voted on each roll call vote.”

(e) Section 302(g) (16 U.S.C. 1852(g)) is amended by redesignating paragraph (4) as paragraph (5), and by inserting after paragraph (3) the following:

“(4) The Secretary shall establish advisory panels to assist in the collection and evaluation of information relevant to the development of any fishery management plan or plan amendment for a fishery to which subsection (a)(3) applies. Each advisory panel shall participate in all aspects of the development of the plan or amendment; be balanced in its representation of commercial, recreational, and other interests; and consist of not less than 7 individuals who are knowledgeable about the fishery for which the plan or amendment is developed, selected from among—

“(A) members of advisory committees and species working groups appointed under Acts implementing relevant international fishery agreements pertaining to highly migratory species; and

“(B) other interested persons.”

(f) Section 302(h) (16 U.S.C. 1852(h)) is amended—

(1) by striking paragraph (1) and inserting the following:

“(1) for each fishery under its authority that requires conservation and management, prepare and submit to the Secretary (A) a fishery management plan, and (B) amendments to each such plan that are necessary from time to time (and promptly whenever changes in conservation and management measures in another fishery substantially affect the fishery for which such plan was developed);”

(2) in paragraph (2)—

(A) by striking “section 204(b)(4)(C),” in paragraph (2) and inserting “section 204(b)(4)(C) or section 204(d),”;

(B) by striking "304(c)(2)" and inserting "304(c)(4)"; and

(3) by striking "304(f)(3) 'in paragraph (5) and inserting 'subsection (a)(3)'".

(g) Section 302 is amended further by striking subsection (i), and by redesignating subsections (j) and (k) as subsections (i) and (j), respectively.

(h) Section 302(i), as redesignated, is amended—

(1) by striking "of the Councils" in paragraph (1) and inserting "established under subsection (g)";

(2) by striking "of a Council:" in paragraph (2) and inserting "established under subsection (g):";

(3) by striking "Council's" in paragraph (2)(C);

(4) by adding the following at the end of paragraph (2)(C): "The published agenda of the meeting may not be modified to include additional matters for Council action without public notice or within 14 days prior to the meeting date, unless such modification is to address an emergency action under section 305(c), in which case public notice shall be given immediately.";

(5) by adding the following at the end of paragraph (2)(D): "All written information submitted to a Council by an interested person shall include a statement of the source and date of such information. Any oral or written statement shall include a brief description of the background and interests of the person in the subject of the oral or written statement.";

(6) by striking paragraph (2)(E) and inserting:

"(E) Detailed minutes of each meeting of the Council, except for any closed session, shall be kept and shall contain a record of the persons present, a complete and accurate description of matters discussed and conclusions reached, and copies of all statements filed. The Chairman shall certify the accuracy of the minutes of each such meeting and submit a copy thereof to the Secretary. The minutes shall be made available to any court of competent jurisdiction.";

(7) by striking "by the Council" the first place it appears in paragraph (2)(F);

(8) by inserting "or the Secretary, as appropriate" in paragraph (2)(F) after "of the Council"; and

(9) by striking "303(d)" each place it appears in paragraph (2)(F) and inserting "402(b)"; and

(10) by striking "303(d)" in paragraph (4) and inserting "402(b)".

(i) Section 302(j), as redesignated, is amended—

(1) by inserting "and Recusal" after "Interest" in the subsection heading;

(2) by striking paragraph (1) and inserting the following:

"(1) For the purposes of this subsection—
" (A) the term 'affected individual' means an individual who—

" (i) is nominated by the Governor of a State for appointment as a voting member of a Council in accordance with subsection (b)(2); or

" (ii) is a voting member of a Council appointed—

" (I) under subsection (b)(2); or

" (II) under subsection (b)(5) who is not subject to disclosure and recusal requirements under the laws of an Indian tribal government; and

" (B) the term 'designated official' means a person with expertise in Federal conflict-of-interest requirements who is designated by the Secretary, in consultation with the Council, to attend Council meetings and make determinations under paragraph (7)(B).";

(3) by striking "(1)(A)" in paragraph (3)(A) and inserting "(1)(A)(i)";

(4) by striking "(1)(B) or (C)" in paragraph (3)(B) and inserting "(1)(A)(ii)";

(5) by striking "(1)(B) or (C)" in paragraph (4) and inserting "(1)(A)(ii)";

(6)(A) by striking "and" at the end of paragraph (5)(A);

(B) by striking the period at the end of paragraph (5)(B) and inserting a semicolon and the word "and"; and

(C) by adding at the end of paragraph (5) the following:

"(C) be kept on file by the Secretary for use in reviewing determinations under paragraph (7)(B) and made available for public inspection at reasonable hours.";

(7) by striking "(1)(B) or (C)" in paragraph (6) and inserting "(1)(A)(ii)";

(8) by redesignating paragraph (7) as paragraph (8) and inserting after paragraph (6) the following:

"(7)(A) After the effective date of regulations promulgated under subparagraph (F) of this paragraph, an affected individual required to disclose a financial interest under paragraph (2) shall not vote on a Council decision which would have a significant and predictable effect on such financial interest. A Council decision shall be considered to have a significant and predictable effect on a financial interest if there is a close causal link between the Council decision and an expected and substantially disproportionate benefit to the financial interest of the affected individual relative to the financial interests of other participants in the same gear type or sector of the fishery. An affected individual who may not vote may participate in Council deliberations relating to the decision after notifying the Council of the voting recusal and identifying the financial interest that would be affected.

"(B) At the request of an affected individual, or upon the initiative of the appropriate designated official, the designated official shall make a determination for the record whether a Council decision would have a significant and predictable effect on a financial interest.

"(C) Any Council member may submit a written request to the Secretary to review any determination by the designated official under subparagraph (B) within 10 days of such determination. Such review shall be completed within 30 days of receipt of the request.

"(D) Any affected individual who does not vote in a Council decision in accordance with this subsection may state for the record how he or she would have voted on such decision if he or she had voted.

"(E) If the Council makes a decision before the Secretary has reviewed a determination under subparagraph (C), the eventual ruling may not be treated as cause for the invalidation or reconsideration by the Secretary of such decision.

"(F) The Secretary, in consultation with the Councils and by not later than one year from the date of enactment of the Sustainable Fisheries Act, shall promulgate regulations which prohibit an affected individual from voting in accordance with subparagraph (A), and which allow for the making of determinations under subparagraphs (B) and (C)."; and

(9) by striking "(1)(B) or (C)" in paragraph (8), as redesignated, and inserting "(1)(A)(ii)".

SEC. 108. FISHERY MANAGEMENT PLANS.

(a) REQUIRED PROVISIONS.—Section 303(a) (16 U.S.C. 1853(a)) is amended—

(1) in paragraph (1)(A) by inserting "and rebuild overfished stocks" after "overfishing";

(2) by inserting "commercial, recreational, and charter fishing in" in paragraph (5) after "with respect to";

(3) by striking paragraph (7) and inserting the following:

"(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 305(b)(1)(A), minimize to the extent practicable adverse effects on such habitat caused by fishing, and identify other actions to encourage the conservation and enhancement of such habitat";

(4) by striking "and" at the end of paragraph (8);

(5) by inserting "and fishing communities" after "fisheries" in paragraph (9)(A);

(6) by striking the period at the end of paragraph (9) and inserting a semicolon; and

(7) by adding at the end the following:

"(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or the Secretary has determined is approaching an overfished condition or is overfished, contain conservation and management measures to prevent overfishing or end overfishing and rebuild the fishery;

"(11) establish a standardized reporting methodology to assess the amount and type of bycatch occurring in the fishery, and include conservation and management measures that, to the extent practicable and in the following priority—

" (A) minimize bycatch; and

" (B) minimize the mortality of bycatch which cannot be avoided;

" (12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

" (13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

" (14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.";

(b) IMPLEMENTATION.—Not later than 24 months after the date of enactment of this Act, each Regional Fishery Management Council shall submit to the Secretary of Commerce amendments to each fishery management plan under its authority to comply with the amendments made in subsection (a) of this section.

(c) DISCRETIONARY PROVISIONS.—Section 303(b) (16 U.S.C. 1853(b)) is amended—

(1) by striking paragraph (3) and inserting the following:

"(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the—

" (A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

" (B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

" (C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;";

(2) by striking "system for limiting access to" in paragraph (6) and inserting "limited access system for";

(3) by striking "fishery" in subparagraph (E) of paragraph (6) and inserting "fishery and any affected fishing communities";

(4) by inserting "one or more" in paragraph (8) after "require that";

(5) by striking "and" at the end of paragraph (9);

(6) by redesignating paragraph (10) as paragraph (12); and

(7) by inserting after paragraph (9) the following:

"(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

"(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and"

(d) REGULATIONS.—Section 303 (16 U.S.C. 1853) is amended by striking subsection (c) and inserting the following:

"(c) PROPOSED REGULATIONS.—Proposed regulations which the Council deems necessary or appropriate for the purposes of—

"(1) implementing a fishery management plan or plan amendment shall be submitted to the Secretary simultaneously with the plan or amendment under section 304; and

"(2) making modifications to regulations implementing a fishery management plan or plan amendment may be submitted to the Secretary at any time after the plan or amendment is approved under section 304."

(e) INDIVIDUAL FISHING QUOTAS.—Subsection 303 (16 U.S.C. 1853) is amended further by striking subsection (d), (e), and (f), and inserting the following:

"(d) INDIVIDUAL FISH QUOTAS.—

"(1)(A) A Council may not submit and the Secretary may not approve or implement before October 1, 2000, any fishery management plan, plan amendment, or regulation under this Act which creates a new individual fishing quota program.

"(B) Any fishery management plan, plan amendment, or regulation approved by the Secretary on or after January 4, 1995, which creates any new individual fishing quota program shall be replaced and immediately returned by the Secretary to the appropriate Council and shall not be resubmitted, reapproved, or implemented during the moratorium set forth in subparagraph (A).

"(2)(A) No provision of law shall be construed to limit the authority of a Council to submit and the Secretary to approve the termination or limitation, without compensation to holders of any limited access system permits, of a fishery management plan, plan amendment, or regulation that provides for a limited access system, including an individual fishing quota program.

"(B) This subsection shall not be construed to prohibit a Council from submitting, or the Secretary from approving and implementing, amendments to the North Pacific halibut and sablefish, South Atlantic wreckfish, or Mid-Atlantic surf clam and ocean (including mahogany) quahog individual fishing quota programs.

"(3) An individual fishing quota or other limited access system authorization—

"(A) shall be considered a permit for the purposes of sections 307, 308, and 309;

"(B) may be revoked or limited at any time in accordance with this Act;

"(C) shall not confer any right of compensation to the holder of such individual fishing quota or other such limited access system authorization if it is revoked or limited; and

"(D) shall not create, or be construed to create, any right, title, or interest in or to any fish before the fish is harvested.

"(4)(A) A Council may submit, and the Secretary may approve and implement, a pro-

gram which reserves up to 25 percent of any fees collected from a fishery under section 304(d)(2) to be used, pursuant to section 1104(a)(7), to issue obligations that aid in financing the—

"(i) purchase of individual fishing quotas in that fishery by fishermen who fish from small vessels; and

"(ii) first-time purchase of individual fishing quotas in that fishery by entry level fishermen.

"(B) A Council making a submission under subparagraph (A) shall recommend criteria, consistent with the provisions of this Act, that a fisherman must meet to qualify for guarantees under clauses (i) and (ii) of subparagraph (A) and the portion of funds to be allocated for guarantees under each clause.

"(5) In submitting and approving any new individual fishing quota program on or after October 1, 2000, the Councils and the Secretary shall consider the report of the National Academy of Sciences required under section 108(f) of the Sustainable Fisheries Act, and any recommendation contained in such report, and shall ensure that any such program—

"(A) establishes procedures and requirements for the review and revision of the terms of any such program (including any revisions that may be necessary once a national policy with respect to individual fishing quota programs is implemented), and, if appropriate for the renewal reallocation, or reissuance of individual fishing quotas;

"(B) provides for the effective enforcement and management of any such program, including adequate observer coverage, and for fees under section 304(d)(2) to recover actual costs directly related to such enforcement and management; and

"(C) provides for a fair and equitable initial allocation of individual fishing quotas, prevents any person from acquiring an excessive share of the individual fishing quotas issued, and considers the allocation of a portion of the annual harvest in the fishery for entry-level fishermen, small vessel owners, and crew members who do not hold or qualify for individual fishing quotas."

(f) INDIVIDUAL FISHING QUOTA REPORT.—(1) Not later than October 1, 1998, the National Academy of Sciences, in consultation with the Secretary of Commerce and the Regional Fishery Management Councils, shall submit to the Congress a comprehensive final report on individual fishing quotas, which shall include recommendations to implement a national policy with respect to individual fishing quotas. The report shall address all aspects of such quotas, including an analysis of—

(A) the effects of limiting or prohibiting the transferability of such quotas;

(B) mechanisms to prevent foreign control of the harvest of United States fisheries under individual fishing quota programs, including mechanisms to prohibit persons who are not eligible to be deemed a citizen of the United States for the purpose of operating a vessel in the coastwise trade under section 2(a) and section 2(c) of the Shipping Act, 1916 (46 U.S.C. 802 (a) and (c) from holding individual fishing quotas;

(C) the impact of limiting the duration of individual fishing quota programs;

(D) the impact of authorizing Federal permits to process a quantity of fish that correspond to individual fishing quotas, and of the value created for recipients of any such permits, including a comparison of such value to the value of the corresponding individual fishing quotas;

(E) mechanisms to provide for diversity and to minimize adverse social and economic impacts on fishing communities, other fisheries affected by the displacement of vessels, and any impacts associated with the shifting

of capital value from fishing vessels to individual fishing quotas, as well as the use of capital construction funds to purchase individual fishing quotas;

(F) mechanisms to provide for effective monitoring and enforcement, including the inspection of fish harvested and incentives to reduce bycatch, and in particular economic discards;

(G) threshold criteria for determining whether a fishery may be considered for individual fishing quota management, including criteria related to the geographical range, population dynamics and condition of a fish stock, the socioeconomic characteristics of a fishery (including participants' involvement in multiple fisheries in the region), and participation by commercial, charter, and recreational fishing sectors in the fishery;

(H) mechanisms to ensure that vessel owners, vessel masters, crew members, and United States fish processors are treated fairly and equitably in initial allocations, to require persons holding individual fishing quotas to be on board the vessel during such quotas, and to facilitate new entry under individual fishing quota programs;

(I) potential social and economic costs and benefits to the nation, individual fishing quota recipients, and any recipients of Federal permits described in subparagraph (D) under individual fishing quota programs, including from capital gains revenue, the allocation of such quotas or permits through Federal auctions, annual fees and transfer fees at various levels, or other measures;

(J) the value created for recipients of individual fishing quotas, including a comparison of such value to the value of the fish harvested under such quotas and to the value of permits created by other types of limited access systems, and the effects of creating such value on fishery management and conservation; and

(K) such other matters as the National Academy of Sciences deems appropriate.

(2) The report shall include a detailed analysis of individual fishing quota programs already implemented in the United States, including the impacts: of any limits on transferability, on past and present participants, on fishing communities, on the rate and total amount of bycatch (including economic and regulatory discards) in the fishery, on the safety of life and vessels in the fishery, on any excess harvesting or processing capacity in the fishery, on any gear conflicts in the fishery, on product quality from the fishery, on the effectiveness of enforcement in the fishery, on the size and composition of fishing vessel fleets, of the economic value created by individual fishing quotas for initial recipients and non-recipients, on conservation of the fishery resource, on fishermen who rely on participation in several fisheries, on the success in meeting any fishery management plan goals, and the fairness and effectiveness of the methods used for allocating quotas and controlling transferability. The report shall also include any information about individual fishing quota programs in other countries that may be useful.

(3) The report shall identify and analyze alternative conservation and management measures, including other limited access systems such as individual transferable effort systems, that could accomplish the same objectives as individual fishing quota programs, as well as characteristics that are unique to individual fishing quota programs.

(4) The Secretary of Commerce shall, in consultation with the National Academy of Sciences, the Councils, the fishing industry, affected States, conservation organizations and other interested persons, establish two individual fishing quota review groups to assist in the preparation of the report, which

shall represent: (A) Alaska, Hawaii, and the other Pacific coastal States; and (B) Atlantic coastal States and the Gulf of Mexico coastal States. The Secretary shall, to the extent practicable, achieve a balanced representation of viewpoints among the individuals on each review group. The review groups shall be deemed to be advisory panels under section 302(g) of the Magnuson Fishery Conservation and Management Act, as amended by this Act.

(5) The Secretary of Commerce, in consultation with the National Academy of Sciences and the Councils, shall conduct public hearings in each Council region to obtain comments on individual fishing quotas for use by the National Academy of Sciences in preparing the report required by this subsection. The National Academy of Sciences shall submit a draft report to the Secretary of Commerce by January 1, 1998. The Secretary of Commerce shall publish in the Federal Register a notice and opportunity for public comment on the draft of the report, or any revision thereof. A detailed summary of comments received and views presented at the hearings, including any dissenting views, shall be included by the National Academy of Sciences in the final report.

(6) Section 210 of Public Law 104-134 is hereby repealed.

(g) NORTH PACIFIC LOAN PROGRAM.—(1) By not later than October 1, 1997 the North Pacific Fishery Management Council shall recommend to the Secretary of Commerce a program which uses the full amount of fees authorized to be used under section 303(d)(4) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, in the halibut and sablefish fisheries off Alaska to guarantee obligations in accordance with such section.

(2)(A) For the purposes of this subsection, the phrase “fishermen who fish from small vessels” in section 303(d)(4)(A)(i) of such Act shall mean fishermen wishing to purchase individual fishing quotas for use from Category B, Category C, or Category D vessels, as defined in part 676.20(c) of title 50, Code of Federal Regulations (as revised as of October 1, 1995), whose aggregate ownership of individual fishing quotas will not exceed the equivalent of a total of 50,000 pounds of halibut and sablefish harvested in the fishing year in which a guarantee application is made if the guarantee is approved, who will participate aboard the fishing vessel in the harvest of fish caught under such quotas, who have at least 150 days of experience working as part of the harvesting crew in any U.S. commercial fishery, and who do not own in whole or in part any Category A or Category B vessel, as defined in such part and title of the Code of Federal Regulations.

(B) For the purposes of this subsection, the phrase “entry level fishermen” in section 303(d)(4)(A)(ii) of such Act shall mean fishermen who do not own any individual fishing quotas, who wish to obtain the equivalent of not more than a total of 8,000 pounds of halibut and sablefish harvested in the fishing year in which a guarantee application is made, and who will participate aboard the fishing vessel in the harvest of fish caught under such quotas.

(h) COMMUNITY DEVELOPMENT QUOTA REPORT.—Not later than October 1, 1998, the National Academy of Sciences, in consultation with the Secretary, the North Pacific and Western Pacific Councils, communities and organizations participating in the program, participants in affected fisheries, and the affected States, shall submit to the Secretary of Commerce and Congress a comprehensive report on the performance and effectiveness of the community development quota programs under the authority of the North Pacific and Western Pacific Councils. The report shall—

(1) evaluate the extent to which such programs have met the objective of providing communities with the means to develop ongoing commercial fishing activities;

(2) evaluate the manner and extent to which such programs have resulted in the communities and residents—

(A) receiving employment opportunities in commercial fishing and processing; and

(B) obtaining the capital necessary to invest in commercial fishing, fish processing, and commercial fishing support projects (including infrastructure to support commercial fishing);

(3) evaluate the social and economic conditions in the participating communities and the extent to which alternative private sector employment opportunities exist;

(4) evaluate the economic impacts on participants in the affected fisheries, taking into account the condition of the fishery resource, the market, and other relevant factors;

(5) recommend a proposed schedule for accomplishing the development purposes of community development quotas; and

(6) address such other matters as the National Academy of Sciences deems appropriate.

(i) EXISTING QUOTA PLANS.—Nothing in this Act or the amendments made by this Act shall be construed to require a reallocation of individual fishing quotas under any individual fishing quota program approved by the Secretary before January 4, 1995.

SEC. 109. ACTION BY THE SECRETARY.

(a) SECRETARIAL REVIEW OF PLANS AND REGULATIONS.—Section 304 (16 U.S.C. 1854) is amended by striking subsections (a) and (b) and inserting the following:

“(a) REVIEW OF PLANS.—

“(1) Upon transmittal by the Council to the Secretary of a fishery management plan or plan amendment, the Secretary shall—

“(A) immediately commence a review of the plan or amendment to determine whether it is consistent with the national standards, the other provisions of this Act, and any other applicable law; and

“(B) immediately publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

“(2) In undertaking the review required under paragraph (1), the Secretary shall—

“(A) take into account the information, views, and comments received from interested persons;

“(B) consult with the Secretary of State with respect to foreign fishing; and

“(C) consult with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea and to fishery access adjustments referred to in section 303(a)(6).

“(3) The Secretary shall approve, disapprove, or partially approve a plan or amendment within 30 days of the end of the comment period under paragraph (1) by written notice to the Council. A notice of disapproval or partial approval shall specify—

“(A) the applicable law with which the plan or amendment is inconsistent;

“(B) the nature of such inconsistencies; and

“(C) recommendations concerning the actions that could be taken by the Council to conform such plan or amendment to the requirements of applicable law.

If the Secretary does not notify a Council within 30 days of the end of the comment period of the approval, disapproval, or partial approval of a plan or amendment, then such

plan or amendment shall take effect as if approved.

“(4) If the Secretary disapproves or partially approves a plan or amendment, the Council may submit a revised plan or amendment to the Secretary for review under this subsection.

“(5) For purposes of this subsection and subsection (b), the term ‘immediately’ means on or before the 5th day after the day on which a Council transmits to the Secretary a fishery management plan, plan amendment, or proposed regulation that the Council characterizes as final.

“(b) REVIEW OF REGULATIONS.—

“(1) Upon transmittal by the Council to the Secretary of proposed regulations prepared under section 303(c), the Secretary shall immediately initiate an evaluation of the proposed regulations to determine whether they are consistent with the fishery management plan, plan amendment, this Act and other applicable law. Within 15 days of initiating such evaluation the Secretary shall make a determination and—

“(A) if the determination is affirmative, the Secretary shall publish such regulations in the Federal Register, with such technical changes as may be necessary for clarity and an explanation of those changes, for a public comment period of 15 to 60 days; or

“(B) if that determination is negative, the Secretary shall notify the Council in writing of the inconsistencies and provide recommendations on revisions that would make the proposed regulations consistent with the fishery management plan, plan amendment, this Act, and other applicable law.

“(2) Upon receiving a notification under paragraph (1)(B), the Council may revise the proposed regulations and submit them to the Secretary for re-evaluation under paragraph (1).

“(3) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (1)(A). The Secretary shall consult with the Council before making any revisions to the proposed regulations, and must publish in the Federal Register an explanation of any differences between the proposed and final regulations.”

(b) PREPARATION BY THE SECRETARY.—Section 304(c) (16 U.S.C. 1854(c)) is amended—

(1) by striking the subsection heading and inserting “PREPARATION AND REVIEW OF SECRETARIAL PLANS”;

(2) by striking “or” at the end of paragraph (1)(A);

(3) by striking all that follows “further revised plan” in paragraph (1) and inserting “or amendment; or”;

(4) by inserting after subparagraph (1)(B), as amended, the following new subparagraph:

“(C) the Secretary is given authority to prepare such plan or amendment under this section.”;

(5) by striking paragraph (2) and inserting: “(2) In preparing any plan or amendment under this subsection, the Secretary shall—

“(A) conduct public hearings, at appropriate times and locations in the geographical areas concerned, so as to allow interested persons an opportunity to be heard in the preparation and amendment of the plan and any regulations implementing the plan; and

“(B) consult with the Secretary of State with respect to foreign fishing and with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea.”;

(6) by inserting “for a fishery under the authority of a Council” after “paragraph (1)” in paragraph (3);

(7) by striking “system described in section 303(b)(6)” in paragraph (3) and inserting “system, including any individual fishing quota program”; and

(8) by inserting after paragraph (3) the following new paragraphs:

“(4) Whenever the Secretary prepares a fishery management plan or plan amendment under this section, the Secretary shall immediately—

“(A) for a plan or amendment for a fishery under the authority of a Council, submit such plan or amendment to the appropriate Council for consideration and comment; and

“(B) publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

“(5) Whenever a plan or amendment is submitted under paragraph (4)(A), the appropriate Council must submit its comments and recommendations, if any, regarding the plan or amendment to the Secretary before the close of the 60-day period referred to in paragraph (4)(B). After the close of such 60-day period, the Secretary, after taking into account any such comments and recommendations, as well as any views, information, or comments submitted under paragraph (4)(B), may adopt such plan or amendment.

“(6) The Secretary may propose regulations in the Federal Register to implement any plan or amendment prepared by the Secretary. In the case of a plan or amendment to which paragraph (4)(A) applies, such regulations shall be submitted to the Council with such plan or amendment. The comment period on proposed regulations shall be 60 days, except that the Secretary may shorten the comment period on minor revisions to existing regulations.

“(7) The Secretary shall promulgate final regulations within 30 days after the end of the comment period under paragraph (6). The Secretary must publish in the Federal Register an explanation of any substantive differences between the proposed and final rules. All final regulations must be consistent with the fishery management plan, with the national standards and other provisions of this Act, and with any other applicable law.”

(c) INDIVIDUAL FISHING QUOTA AND COMMUNITY DEVELOPMENT QUOTA FEES.—Section 304(d) (16 U.S.C. 1854(d)) is amended—

(1) by inserting “(1)” immediately before the first sentence; and

(2) by inserting at the end the following:

“(2)(A) Notwithstanding paragraph (1), the Secretary is authorized and shall collect a fee to recover the actual costs directly related to the management and enforcement of any—

“(i) individual fishing quota program; and

“(ii) community development quota program that allocates a percentage of the total allowable catch of a fishery to such program.

“(B) Such fee shall not exceed 3 percent of the ex-vessel value of fish harvested under any such program, and shall be collected at either the time of the landing, filing of a landing report, or sale of such fish during a fishing season or in the last quarter of the calendar year in which the fish is harvested.

“(C)(i) Fees collected under this paragraph shall be in addition to any other fees charged under this Act and shall be deposited in the Limited Access System Administration Fund established under section 305(h)(5)(B), except that the portion of any such fees reserved under section 303(d)(4)(A) shall be deposited in the Treasury and available, subject to annual appropriations, to cover the costs of new direct loan obligations and new loan guarantee commitments as required by section 504(b)(1) of the Federal Credit Reform Act (2 U.S.C. 661c(b)(1)).

“(ii) Upon application by a State, the Secretary shall transfer to such State up to 33

percent of any fee collected pursuant to subparagraph (A) under a community development quota program and deposited in the Limited Access System Administration Fund in order to reimburse such State for actual costs directly incurred in the management and enforcement of such program.”

(d) DELAY OF FEES.—Notwithstanding any other provision of law, the Secretary shall not begin the collection of fees under section 304(d)(2) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, in the surf clam and ocean (including mahogany) quahog fishery or in the wreckfish fishery until after January 1, 2000.

(e) OVERFISHING.—Section 304(e) (16 U.S.C. 1854(e)) is amended to read as follows:

“(e) REBUILDING OVERFISHED FISHERIES.—

“(1) The Secretary shall report annually to the Congress and the Councils on the status of fisheries within each Council’s geographical area of authority and identify those fisheries that are overfished or are approaching a condition of being overfished. For those fisheries managed under a fishery management plan or international agreement, the status shall be determined using the criteria for overfishing specified in such plan or agreement. A fishery shall be classified as approaching a condition of being overfished if, based on trends in fishing effort, fishery resource size, and other appropriate factors, the Secretary estimates that the fishery will become overfished within two years.

“(2) If the Secretary determines at any time that a fishery is overfished, the Secretary shall immediately notify the appropriate Council and request that action be taken to end overfishing in the fishery and to implement conservation and management measures to rebuild affected stocks of fish. The Secretary shall publish each notice under this paragraph in the Federal Register.

“(3) Within one year of an identification under paragraph (1) or notification under paragraphs (2) or (7), the appropriate Council (or the Secretary, for fisheries under section 302(a)(3)) shall prepare a fishery management plan, plan amendment, or proposed regulations for the fishery to which the identification or notice applies—

“(A) to end overfishing in the fishery and to rebuild affected stocks of fish; or

“(B) to prevent overfishing from occurring in the fishery whenever such fishery is identified as approaching an overfished condition.

“(4) For a fishery that is overfished, any fishery management plan, amendment, or proposed regulations prepared pursuant to paragraph (3) or paragraph (5) for such fishery shall—

“(A) specify a time period for ending overfishing and rebuilding the fishery that shall—

“(i) be as short as possible, taking into account the status and biology of any overfished stocks of fish, the needs of fishing communities, recommendations by international organizations in which the United States participates, and the interaction of the overfished stock of fish within the marine ecosystem; and

“(ii) not exceed 10 years, except in cases where the biology of the stock of fish, other environmental conditions, or management measures under an international agreement in which the United States participates dictate otherwise;

“(B) allocate both overfishing restrictions and recovery benefits fairly and equitably among sectors of the fishery; and

“(C) for fisheries managed under an international agreement, reflect traditional participation in the fishery, relative to other nations, by fishermen of the United States.

“(5) If, within the one-year period beginning on the date of identification or notifica-

tion that a fishery is overfished, the Council does not submit to the Secretary a fishery management plan, plan amendment, or proposed regulations required by paragraph (3)(A), the Secretary shall prepare a fishery management plan or plan amendment and any accompanying regulations to stop overfishing and rebuild affected stocks of fish within 9 months under subsection (c).

“(6) During the development of a fishery management plan, a plan amendment, or proposed regulations required by this subsection, the Council may request the Secretary to implement interim measures to reduce overfishing under section 305(c) until such measures can be replaced by such plan, amendment, or regulations. Such measures, if otherwise in compliance with the provisions of this Act, may be implemented even though they are not sufficient by themselves to stop overfishing of a fishery.

“(7) The Secretary shall review any fishery management plan, plan amendment, or regulations required by this subsection at routine intervals that may not exceed two years. If the Secretary finds as a result of the review that such plan, amendment, or regulations have not resulted in adequate progress toward ending overfishing and rebuilding affected fish stocks, the Secretary shall—

“(A) in the case of a fishery to which section 302(a)(3) applies, immediately make revisions necessary to achieve adequate progress; or

“(B) for all other fisheries, immediately notify the appropriate Council. Such notification shall recommend further conservation and management measures which the Council should consider under paragraph (3) to achieve adequate progress.”

(f) FISHERIES UNDER AUTHORITY OF MORE THAN ONE COUNCIL.—Section 304(f) is amended by striking paragraph (3).

(g) ATLANTIC HIGHLY MIGRATORY SPECIES.—Section 304 (16 U.S.C. 1854) is amended further by striking subsection (g) and inserting the following:

“(g) ATLANTIC HIGHLY MIGRATORY SPECIES.—

“(1) PREPARATION AND IMPLEMENTATION OF PLAN OR PLAN AMENDMENT.—The Secretary shall prepare a fishery management plan or plan amendment under subsection (c) with respect to any highly migratory species fishery to which section 302(a)(3) applies. In preparing and implementing any such plan or amendment, the Secretary shall—

“(A) consult with and consider the comments and views of affected Councils, commissioners and advisory groups appointed under Acts implementing relevant international fishery agreements pertaining to highly migratory species, and the advisory panel established under section 302(g);

“(B) establish an advisory panel under section 302(g) for each fishery management plan to be prepared under this paragraph;

“(C) evaluate the likely effects, if any, of conservation and management measures on participants in the affected fisheries and minimize, to the extent practicable, any disadvantage to United States fishermen in relation to foreign competitors;

“(D) with respect to a highly migratory species for which the United States is authorized to harvest an allocation, quota, or at a fishing mortality level under a relevant international fishery agreement, provide fishing vessels of the United States with a reasonable opportunity to harvest such allocation, quota, or at such fishing mortality level;

“(E) review, on a continuing basis (and promptly whenever a recommendation pertaining to fishing for highly migratory species has been made under a relevant international fishery agreement), and revise as

appropriate, the conservation and management measures included in the plan;

“(F) diligently pursue, through international entities (such as the International Commission for the Conservation of Atlantic Tunas), comparable international fishery management measures with respect to fishing for highly migratory species; and

“(G) ensure that conservation and management measures under this subsection—

“(i) promote international conservation of the affected fishery;

“(ii) take into consideration traditional fishing patterns of fishing vessels of the United States and the operating requirements of the fisheries;

“(iii) are fair and equitable in allocating fishing privileges among United States fishermen and do not have economic allocation as the sole purpose; and

“(iv) promote, to the extent practicable, implementation of scientific research programs that include the tagging and release of Atlantic highly migratory species.

“(2) CERTAIN FISH EXCLUDED FROM ‘BYCATCH’ DEFINITION.—Notwithstanding section 3(2) fish harvested in a commercial fishery managed by the Secretary under this subsection or the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971d) that are not regulatory discards and that are tagged and released alive under a scientific tagging and release program established by the Secretary shall not be considered bycatch for purposes of this Act.”

(h) COMPREHENSIVE MANAGEMENT SYSTEM FOR ATLANTIC PELAGIC LONGLINE FISHERY.—

(1) The Secretary of Commerce shall—

(A) establish an advisory panel under section 302(g)(4) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, for pelagic longline fishing vessels that participate in fisheries for Atlantic highly migratory species;

(B) conduct surveys and workshops with affected fishery participants to provide information and identify options for future management programs;

(C) to the extent practicable and necessary for the evaluation of options for a comprehensive management system, recover vessel production records; and

(D) complete by January 1, 1998, a comprehensive study on the feasibility of implementing a comprehensive management system for pelagic longline fishing vessels that participate in fisheries for Atlantic highly migratory species, including, but not limited to, individual fishing quota programs and other limited access systems.

(2) Based on the study under paragraph (1)(D) and consistent with requirements of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), in cooperation with affected participants in the fishery, the United States Commissioners on the International Commission for the Conservation of Atlantic Tunas, and the advisory panel established under paragraph (1)(A), the Secretary of Commerce may, after October 1, 1998, implement a comprehensive management system pursuant to section 304 of such Act (16 U.S.C. 1854) for pelagic longline fishing vessels that participate in fisheries for Atlantic highly migratory species. Such a system may not implement an individual fishing quota program until after October 1, 2000.

(i) REPEAL OR REVOCATION OF A FISHERY MANAGEMENT PLAN.—Section 304, as amended, is further amended by adding at the end the following:

“(h) REPEAL OR REVOCATION OF A FISHERY MANAGEMENT PLAN.—The Secretary may repeal or revoke a fishery management plan for a fishery under the authority of a Council only if the Council approves the repeal or revocation by a three-quarters majority of the voting members of the Council.”

(j) AMERICAN LOBSTER FISHERY.—Section 304(h) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, shall not apply to the American Lobster Fishery Management Plan.

SEC. 110. OTHER REQUIREMENTS AND AUTHORITY.

(a) Section 305 (18 U.S.C. 1855) is amended—

(1) by striking the title and subsection (a);

(2) by redesignating subsection (b) as subsection (f); and

(3) by inserting the following before subsection (c):

“SEC. 305. OTHER REQUIREMENTS AND AUTHORITY.

“(a) GEAR EVALUATION AND NOTIFICATION OF ENTRY.—

“(1) Not later than 18 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall publish in the Federal Register, after notice and an opportunity for public comment, a list of all fisheries—

“(A) Under the authority of each Council and all fishing gear used in such fisheries, based on information submitted by the Councils under section 303(a); and

“(B) to which section 302(a)(3) applies and all fishing gear used in such fisheries.

“(2) The Secretary shall include with such list guidelines for determining when fishing gear or a fishery is sufficiently different from those listed as to require notification under paragraph (3).

“(3) Effective 180 days after the publication of such list, no person or vessel may employ fishing gear or engage in a fishery not included on such list without giving 90 days advance written notice to the appropriate Council, or the Secretary with respect to a fishery to which section 302(a)(3) applies. A signed return receipt shall serve as adequate evidence of such notice and as the date upon which the 90-day period begins.

“(4) A Council may submit to the Secretary any proposed changes to such list or such guidelines the Council deems appropriate. The Secretary shall publish a revised list, after notice and an opportunity for public comment, upon receiving any such proposed changes from a Council.

“(5) A Council may request the Secretary to promulgate emergency regulations under subsection (c) to prohibit any persons or vessels from using an unlisted fishing gear or engaging in an unlisted fishery if the appropriate Council, or the Secretary for fisheries to which section 302(a)(3) applies, determines that such unlisted gear or unlisted fishery would compromise the effectiveness of conservation and management efforts under this Act.

“(6) Nothing in this subsection shall be construed to permit a person or vessel to engage in fishing or employ fishing gear when such fishing or gear is prohibited or restricted by regulation under a fishery management plan or plan amendment, or under other applicable law.

“(b) FISH HABITAT.—(1)(A) The Secretary shall, within 6 months of the date of enactment of the Sustainable Fisheries Act, establish by regulation guidelines to assist the Councils in the description and identification of essential fish habitat in fishery management plans (including adverse impacts on such habitat) and in the consideration of actions to ensure the conservation and enhancement of such habitat. The Secretary shall set forth a schedule for the amendment of fishery management plans to include the identification of essential fish habitat and for the review and updating of such identifications based on new scientific evidence or other relevant information.

“(B) The Secretary, in consultation with participants in the fishery, shall provide

each Council with recommendations and information regarding each fishery under that Council’s authority to assist it in the identification of essential fish habitat, the adverse impacts on that habitat, and the actions that should be considered to ensure the conservation and enhancement of that habitat.

“(C) The Secretary shall review programs administered by the Department of Commerce and ensure that any relevant programs further the conservation and enhancement of essential fish habitat.

“(D) The Secretary shall coordinate with and provide information to other Federal agencies to further the conservation and enhancement of essential fish habitat.

“(2) Each Federal agency shall consult with the Secretary with respect to any action authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken, by such agency that may adversely affect any essential fish habitat identified under this Act.

“(3) Each Council—

“(A) may comment on and make recommendations to the Secretary and any Federal or State agency concerning any activity authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken, by any Federal or State agency that, in the view of the Council, may affect the habitat, including essential fish habitat, of a fishery resource under its authority; and

“(B) shall comment on and make recommendations to the Secretary and any Federal or State agency concerning any such activity that, in the view of the Council, is likely to substantially affect the habitat, including essential fish habitat, of an anadromous fishery resource under its authority.

“(4)(A) If the Secretary receives information from a Council or Federal or State agency or determines from other sources that an action authorized, funded, or undertaken, or proposed to be authorized, funded, or undertaken, by any State or Federal agency would adversely affect any essential fish habitat identified under this Act, the Secretary shall recommend to such agency measures that can be taken by such agency to conserve such habitat.

“(B) Within 30 days after receiving a recommendation under subparagraph (A), a Federal agency shall provide a detailed response in writing to any Council commenting under paragraph (3) and the Secretary regarding the matter. The response shall include a description of measures proposed by the agency for avoiding, mitigating, or offsetting the impact of the activity on such habitat. In the case of a response that is inconsistent with the recommendations of the Secretary, the Federal agency shall explain its reasons for not following the recommendations.”

(b) Section 305(c) (16 U.S.C. 1855(c)) is amended—

(1) in the heading by striking “ACTIONS” and inserting “ACTIONS AND INTERIM MEASURES”;

(2) in paragraphs (1) and (2)—

(A) by striking “involving” and inserting “or that interim measures are needed to reduce overfishing for”; and

(B) by inserting “or interim measures” after “emergency regulations”; and

(C) by inserting “or overfishing” after “emergency”; and

(3) in paragraph (3)—

(A) by inserting “or interim measure” after “emergency regulation” each place such term appears;

(B) by striking subparagraph (B);

(C) by redesignating subparagraph (C) as subparagraph (D); and

(D) by inserting after subparagraph (A) the following:

“(B) shall, except as provided in subparagraph (C), remain in effect for not more than

180 days after the date of publication, and may be extended by publication in the Federal Register for one additional period of not more than 180 days, provided the public has had an opportunity to comment on the emergency regulation or interim measure, and, in the case of a Council recommendation for emergency regulations or interim measures, the Council is actively preparing a fishery management plan, plan amendment, or proposed regulations to address the emergency or overfishing on a permanent basis;

“(C) that responds to a public health emergency or an oil spill may remain in effect until the circumstances that created the emergency no longer exist, provided that the public has an opportunity to comment after the regulation is published, and, in the case of a public health emergency, the Secretary of Health and Human Services concurs with the Secretary’s action; and”.

(c) Section 305(e) is amended—

(1) by striking “12291, dated February 17, 1981,” and inserting “12866, dated September 30, 1993;” and

(2) by striking “subsection (c) or section 304(a) and (b)” and inserting “subsections (a), (b), and (c) of section 304”.

(d) Section 305, as amended, is further amended by adding at the end the following:

“(g) NEGOTIATED CONSERVATION AND MANAGEMENT MEASURES.—

“(1)(A) In accordance with regulations promulgated by the Secretary pursuant to this paragraph, a Council may establish a fishery negotiation panel to assist in the development of specific conservation and management measures for a fishery under its authority. The Secretary may establish a fishery negotiation panel to assist in the development of specific conservation and management measures required for a fishery under section 304(e)(5), for a fishery for which the Secretary has authority under section 304(g), or for any other fishery with the approval of the appropriate Council.

“(B) No later than 180 days after the date of enactment of the Sustainable Fisheries Act, the Secretary shall promulgate regulations establishing procedures, developed in cooperation with the Administrative Conference of the United States, for the establishment and operation of fishery negotiation panels. Such procedures shall be comparable to the procedures for negotiated rulemaking established by subchapter III of chapter 5 of title 5, United States Code.

“(2) If a negotiation panel submits a report, such report shall specify all the areas where consensus was reached by the panel, including, if appropriate, proposed conservation and management measures, as well as any other information submitted by members of the negotiation panel. Upon receipt, the Secretary shall publish such report in the Federal Register for public comment.

“(3) Nothing in this subsection shall be construed to require either a Council or the Secretary, whichever is appropriate, to use all or any portion of a report from a negotiation panel established under this subsection in the development of specific conservation and management measures for the fishery for which the panel was established.

“(h) CENTRAL REGISTRY SYSTEM FOR LIMITED ACCESS SYSTEM PERMITS.—

“(1) Within 6 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall establish an exclusive central registry system (which may be administered on a regional basis) for limited access system permits established under section 303(b)(6) or other Federal law, including individual fishing quotas, which shall provide for the registration of title to, and interests in, such permits, as well as for procedures for changes in the registration of title to such permits upon the occurrence of in-

voluntary transfers, judicial or nonjudicial foreclosure of interests, enforcement of judgments thereon, and related matters deemed appropriate by the Secretary. Such registry system shall—

“(A) provide a mechanism for filing notice of a nonjudicial foreclosure or enforcement of a judgment by which the holder of a senior security interest acquires or conveys ownership of a permit, and in the event of a nonjudicial foreclosure, by which the interests of the holders of junior security interests are released when the permit is transferred;

“(B) provide for public access to the information filed under such system, notwithstanding section 402(b); and

“(C) provide such notice and other requirements of applicable law that the Secretary deems necessary for an effective registry system.

“(2) The Secretary shall promulgate such regulations as may be necessary to carry out this subsection, after consulting with the Councils and providing an opportunity for public comment. The Secretary is authorized to contract with non-federal entities to administer the central registry system.

“(3) To be effective and perfected against any person except the transferor, its heirs and devisees, and persons having actual notice thereof, all security interests, and all sales and other transfers of permits described in paragraph (1), shall be registered in compliance with the regulations promulgated under paragraph (2). Such registration shall constitute the exclusive means of perfection of title to, and security interests in, such permits, except for federal tax liens thereon, which shall be perfected exclusively in accordance with the Internal Revenue Code of 1986 (26 U.S.C. 1 et seq.). The Secretary shall notify both the buyer and seller of a permit if a lien has been filed by the Secretary of Treasury against the permit before collecting any transfer fee under paragraph (5) of this subsection.

“(4) The priority of security interests shall be determined in order of filing, the first filed having the highest priority. A validly-filed security interest shall remain valid and perfected notwithstanding a change in residence or place of business of the owner of record. For the purposes of this subsection, ‘security interest’ shall include security interests, assignments, liens and other encumbrances of whatever kind.

“(5)(A) Notwithstanding section 304(d)(1), the Secretary shall collect a reasonable fee of not more than one-half of one percent of the value of a limited access system permit upon registration of the title to such permit with the central registry system and upon the transfer of such registered title. Any such fee collected shall be deposited in the Limited Access System Administration Fund established under subparagraph (B).

“(B) There is established in the Treasury a Limited Access System Administration Fund. The Fund shall be available, without appropriation or fiscal year limitation, only to the Secretary for the purposes of—

“(i) administering the central registry system; and

“(ii) administering and implementing this Act in the fishery in which the fees were collected. Sums in the Fund that are not currently needed for these purposes shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.”.

(e) REGISTRY TRANSITION.—Security interests on permits described under section 305(h)(1) of the Magnuson Fishery Conservation and Management Act, as amended by this Act, that are effective and perfected by otherwise applicable law on the date of the final regulations implementing section 305(h) shall remain effective and perfected if, within 120 days after such date, the secured party

submits evidence satisfactory to the Secretary of Commerce and in compliance with such regulations of the perfection of such security.

SEC. 111. PACIFIC COMMUNITY FISHERIES.

(a) HAROLD SPARCK MEMORIAL COMMUNITY DEVELOPMENT QUOTA PROGRAM.—Section 305, as amended, is amended further by adding at the end:

“(i) ALASKA AND WESTERN PACIFIC COMMUNITY DEVELOPMENT PROGRAMS.—

“(1)(A) The North Pacific Council and the Secretary shall establish a western Alaska community development quota program under which a percentage of the total allowable catch of any Bering Sea fishery is allocated to the program.

“(B) To be eligible to participate in the western Alaska community development quota program under subparagraph (A) a community shall—

“(i) be located within 50 nautical miles from the baseline from which the breadth of the territorial sea is measured along the Bering Sea coast from the Bering Strait to the westernmost of the Aleutian Islands, or on an island within the Bering Sea;

“(ii) not be located on the Gulf of Alaska coast of the north Pacific Ocean;

“(iii) meet criteria developed by the Governor of Alaska, approved by the Secretary, and published in the Federal Register;

“(iv) be certified by the Secretary of the Interior pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.) to be a Native village;

“(v) consist of residents who conduct more than one-half of their current commercial or subsistence fishing effort in the waters of the Bering Sea or waters surrounding the Aleutian Islands; and

“(vi) not have previously developed harvesting or processing capability sufficient to support substantial participation in the groundfish fisheries in the Bering Sea, unless the community can show that the benefits from an approved Community Development Plan would be the only way for the community to realize a return from previous investments.

“(C)(i) Prior to October 1, 2001, the North Pacific Council may not submit to the Secretary any fishery management plan, plan amendment, or regulation that allocates to the western Alaska community development quota program a percentage of the total allowable catch of any Bering Sea fishery for which, prior to October 1, 1995, the Council had not approved a percentage of the total allowable catch for allocation to such community development quota program. The expiration of any plan, amendment, or regulation that meets the requirements of clause (ii) prior to October 1, 2001, shall not be construed to prohibit the Council from submitting a revision or extension of such plan, amendment, or regulation to the Secretary if such revision or extension complies with the other requirements of this paragraph.

“(ii) With respect to a fishery management plan, plan amendment, or regulation for a Bering Sea fishery that—

“(I) allocates to the western Alaska community development quota program a percentage of the total allowable catch of such fishery; and

“(II) was approved by the North Pacific Council prior to October 1, 1995;

the Secretary shall, except as provided in clause (iii) and after approval of such plan, amendment, or regulation under section 304, allocate to the program the percentage of the total allowable catch described in such plan, amendment, or regulation. Prior to October 1, 2001, the percentage submitted by the Council and approved by the Secretary for any such plan, amendment, or regulation

shall be no greater than the percentage approved by the Council for such fishery prior to October 1, 1995.

“(iii) The Secretary shall phase in the percentage for community development quotas approved in 1995 by the North Pacific Council for the Bering Sea crab fisheries as follows:

“(I) 3.5 percent of the total allowable catch of each such fishery for 1998 shall be allocated to the western Alaska community development quota program;

“(II) 5 percent of the total allowable catch of each such fishery for 1999 shall be allocated to the western Alaska community development quota program; and

“(III) 7.5 percent of the total allowable catch of each such fishery for 2000 and thereafter shall be allocated to the western Alaska community development quota program, unless the North Pacific Council submits and the Secretary approves a percentage that is no greater than 7.5 percent of the total allowable catch of each such fishery for 2001 or the North Pacific Council submits and the Secretary approves any other percentage on or after October 1, 2001.

“(D) This paragraph shall not be construed to require the North Pacific Council to re-submit, or the Secretary to reapprove, any fishery management plan or plan amendment approved by the North Pacific Council prior to October 1, 1995, that includes a community development quota program, or any regulations to implement such plan or amendment.

“(2)(A) The Western Pacific Council and the Secretary may establish a western Pacific community development program for any fishery under the authority of such Council in order to provide access to such fishery for western Pacific communities that participate in the program.

“(B) To be eligible to participate in the western Pacific community development program, a community shall—

“(i) be located within the Western Pacific Regional Fishery Management Area;

“(ii) meet criteria developed by the Western Pacific Council, approved by the Secretary and published in the Federal Register;

“(iii) consist of community residents who are descended from the aboriginal people indigenous to the area who conducted commercial or subsistence fishing using traditional fishing practices in the waters of the Western Pacific region;

“(iv) not have previously developed harvesting or processing capability sufficient to support substantial participation in fisheries in the Western Pacific Regional Fishery Management Area; and

“(v) develop and submit a Community Development Plan to the Western Pacific Council and the Secretary.

“(C) In developing the criteria for eligible communities under subparagraph (B)(ii), the Western Pacific Council shall base such criteria on traditional fishing practices in or dependence on the fishery, the cultural and social framework relevant to the fishery, and economic barriers to access to the fishery.

“(D) For the purposes of this subsection ‘Western Pacific Regional Fishery Management Area’ means the area under the jurisdiction of the Western Pacific Council, or an island within such area.

“(E) Notwithstanding any other provision of this Act, the Western Pacific Council shall take into account traditional indigenous fishing practices in preparing any fishery management plan.

“(3) The Secretary shall deduct from any fees collected from a community development quota program under section 304(d)(2) the costs incurred by participants in the program for observer and reporting requirements which are in addition to observer and reporting requirements of other participants

in the fishery in which the allocation to such program has been made.

“(4) After the date of enactment of the Sustainable Fisheries Act, the North Pacific Council and Western Pacific Council may not submit to the Secretary a community development quota program that is not in compliance with this subsection.”

(b) WESTERN PACIFIC DEMONSTRATION PROJECTS.—(1) The Secretary of Commerce and the Secretary of the Interior are authorized to make direct grants to eligible western Pacific communities, as recommended by the Western Pacific Fishery Management Council, for the purpose of establishing not less than three and not more than five fishery demonstration projects to foster and promote traditional indigenous fishing practices. The total amount of grants awarded under this subsection shall not exceed \$500,000 in each fiscal year.

(2) Demonstration projects funded pursuant to this subsection shall foster and promote the involvement of western Pacific communities in western Pacific fisheries and may—

(A) identify and apply traditional indigenous fishing practices;

(B) develop or enhance western Pacific community-based fishing opportunities; and

(C) involve research, community education, or the acquisition of materials and equipment necessary to carry out any such demonstration project.

(3)(A) The Western Pacific Fishery Management Council, in consultation with the Secretary of Commerce, shall establish an advisory panel under section 302(g) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1852(g)) to evaluate, determine the relative merits of, and annually rank applications for such grants. The panel shall consist of not more than 8 individuals who are knowledgeable or experienced in traditional indigenous fishery practices of western Pacific communities and who are not members or employees of the Western Pacific Fishery Management Council.

(B) If the Secretary of Commerce or the Secretary of the Interior awards a grant for a demonstration project not in accordance with the rank given to such project by the advisory panel, the Secretary shall provide a detailed written explanation of the reasons therefor.

(4) The Western Pacific Fishery Management Council shall, with the assistance of such advisory panel, submit an annual report to the Congress assessing the status and progress of demonstration projects carried out under this subsection.

(5) Appropriate Federal agencies may provide technical assistance to western Pacific community-based entities to assist in carrying out demonstration projects under this subsection.

(6) For the purposes of this subsection, ‘western Pacific community’ shall mean a community eligible to participate under section 305(i)(2)(B) of the Magnuson Fishery Conservation and Management Act, as amended by this Act.

SEC. 112. STATE JURISDICTION.

(a) Paragraph (3) of section 306(a) (16 U.S.C. 1856(a)) is amended to read as follows:

“(3) A State may regulate a fishing vessel outside the boundaries of the State in the following circumstances:

“(A) The fishing vessel is registered under the law of that State, and (i) there is no fishery management plan or other applicable federal fishing regulations for the fishery in which the vessel is operating; or (ii) the State’s laws and regulations are consistent with the fishery management plan and applicable federal fishing regulations for the fishery in which the vessel is operating.

“(B) The fishery management plan for the fishery in which the fishing vessel is operating delegates management of the fishery to a State and the State’s laws and regulations are consistent with such fishery management plan. If at any time the Secretary determines that a State law or regulation applicable to a fishing vessel under this circumstance is not consistent with the fishery management plan, the Secretary shall promptly notify the State and the appropriate Council of such determination and provide an opportunity for the State to correct any inconsistencies identified in the notification. If, after notice and opportunity for corrective action, the State does not correct the inconsistencies identified by the Secretary, the authority granted to the State under this subparagraph shall not apply until the Secretary and the appropriate Council find that the State has corrected the inconsistencies. For a fishery for which there was a fishery management plan in place on August 1, 1996 that did not delegate management of the fishery to a State as of that date, the authority provided by this subparagraph applies only if the Council approves the delegation of management of the fishery to the State by a three-quarters majority vote of the voting members of the Council.

“(C) The fishing vessel is not registered under the law of the State of Alaska and is operating in a fishery in the exclusive economic zone off Alaska for which there was no fishery management plan in place on August 1, 1996, and the Secretary and the North Pacific Council find that there is a legitimate interest of the State of Alaska in the conservation and management of such fishery. The authority provided under this subparagraph shall terminate when a fishery management plan under this Act is approved and implemented for such fishery.”

(b) Section 306(b) (16 U.S.C. 1856(b)) is amended by adding at the end the following:

“(3) If the State involved requests that a hearing be held pursuant to paragraph (1), the Secretary shall conduct such hearing prior to taking any action under paragraph (1).”

(c) Section 306(c)(1) (16 U.S.C. 1856(c)(1)) is amended—

(1) by striking “(4)(C); and” in subparagraph (A) and inserting “(4)(C) or has received a permit under section 204(d);”;

(2) by striking the period at the end of subparagraph (B) and inserting a semicolon and the word “and”; and

(3) by inserting after subparagraph (B) the following:

“(C) the owner or operator of the vessel submits reports on the tonnage of fish received from vessels of the United States and the locations from which such fish were harvested, in accordance with such procedures as the Secretary by regulation shall prescribe.”

(d) INTERIM AUTHORITY FOR DUNGENESS CRAB.—(1) Subject to the provisions of this subsection and notwithstanding section 306(a) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1856(a)), the States of Washington, Oregon, and California may each enforce State laws and regulations governing fish harvesting and processing against any vessel operating in the exclusive economic zone off each respective State in a fishery for Dungeness crab (Cancer magister) for which there is no fishery management plan implemented under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(2) Any law or regulation promulgated under this subsection shall apply equally to vessels operating in the exclusive economic zone and adjacent State waters and shall be limited to—

(A) establishment of season opening and closing dates, including presoak dates for crab pots;

(B) setting of minimum sizes and crab meat recovery rates;

(C) restrictions on the retention of crab of a certain sex; and

(D) closure of areas or pot limitations to meet the harvest requirements arising under the jurisdiction of *United States v. Washington*, subproceeding 89-3.

(3) With respect to the States of Washington, Oregon, and California—

(A) any State law limiting entry to a fishery subject to regulation under this subsection may not be enforced against a vessel that is operating in the exclusive economic zone off that State and is not registered under the law of that State, if the vessel is otherwise legally fishing in the exclusive economic zone, except that State laws regulating landings may be enforced; and

(B) no vessel may harvest or process fish which is subject to regulation under this subsection unless under an appropriate State permit or pursuant to a Federal court order.

(4) The authority provided under this subsection to regulate the Dungeness crab fishery shall terminate on October 1, 1999, or when a fishery management plan is implemented under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) for such fishery, whichever date is earlier.

(5) Nothing in this subsection shall reduce the authority of any State, as such authority existed on July 1, 1996, to regulate fishing, fish processing, or landing of fish.

(6)(A) It is the sense of Congress that the Pacific Fishery Management Council, at the earliest practicable date, should develop and submit to the Secretary fishery management plans for shellfish fisheries conducted in the geographic area of authority of the Council, especially Dungeness crab, which are not subject to a fishery management plan on the date of enactment of this Act.

(B) Not later than December 1, 1997, the Pacific Fishery Management Council shall provide a report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives describing the progress in developing the fishery management plans referred to in subparagraph (A) and any impediments to such progress.

SEC. 113. PROHIBITED ACTS.

(a) Section 307(1)(J)(i) (16 U.S.C. 1857(1)(J)(i)) is amended—

(1) by striking “plan,” and inserting “plan”; and

(2) by inserting before the semicolon the following: “, or in the absence of any such plan, is smaller than the minimum possession size in effect at the time under a coastal fishery management plan for American lobster adopted by the Atlantic States Marine Fisheries Commission under the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5101 et seq.)”.

(b) Section 307(1)(K) (16 U.S.C. 1857(1)(K)) is amended—

(1) by striking “knowingly steal or without authorization, to” and inserting “to steal or attempt to steal or to negligently and without authorization”; and

(2) by striking “gear, or attempt to do so;” and insert “gear;”.

(c) Section 307(1)(L) (16 U.S.C. 1857(1)(L)) is amended to read as follows:

“(L) to forcibly assault, resist, oppose, impede, intimidate, sexually harass, bribe, or interfere with any observer on a vessel under this Act, or any data collector employed by the National Marine Fisheries Service or under contract to any person to carry out responsibilities under this Act;”.

(d) Section 307(1) (16 U.S.C. 1857(1)) is amended—

(1) by striking “or” at the end of subparagraph (M);

(2) by striking “pollock.” in subparagraph (N) and inserting “pollock; or”; and

(3) by adding at the end the following:

“(O) to knowingly and willfully fail to disclose, or to falsely disclose, any financial interest as required under section 302(j), or to knowingly vote on a Council decision in violation of section 302(j)(7)(A).”.

(e) Section 307(2)(A) (16 U.S.C. 1857(2)(A)) is amended to read as follows:

“(A) in fishing within the boundaries of any State, except—

“(i) recreational fishing permitted under section 201(i);

“(ii) fish processing permitted under section 306(c); or

“(iii) transshipment at sea of fish or fish products within the boundaries of any State in accordance with a permit approved under section 204(d);”.

(f) Section 307(2)(B) (16 U.S.C. 1857(2)(B)) is amended—

(1) by striking “(j)” and inserting “(i)”;

(2) by striking “204(b) or (c)” and inserting “204(b), (c), (d)”.

(g) Section 307(3) (16 U.S.C. 1857(3)) is amended to read as follows:

“(3) for any vessel of the United States, and for the owner or operator of any vessel of the United States, to transfer at sea directly or indirectly, or attempt to so transfer at sea, any United States harvested fish to any foreign fishing vessel, while such foreign vessel is within the exclusive economic zone or within the boundaries of any State except to the extent that the foreign fishing vessel has been permitted under section 204(d) or section 306(c) to receive such fish;”.

(h) Section 307(4) (16 U.S.C. 1857(4)) is amended by inserting “or within the boundaries of any State” after “zone”.

SEC. 114. CIVIL PENALTIES AND PERMIT SANCTIONS; REBUTTABLE PRESUMPTIONS.

(a) Section 308(a) (16 U.S.C. 1858(a)) is amended by striking “ability to pay,” and adding at the end the following new sentence: “In assessing such penalty the Secretary may also consider any information provided by the violator relating to the ability of the violator to pay, provided that the information is served on the Secretary at least 30 days prior to an administrative hearing”.

(b) The first sentence of section 308(b) (16 U.S.C. 1858(b)) is amended to read as follows: “Any person against whom a civil penalty is assessed under subsection (a) or against whom a permit sanction is imposed under subsection (g) (other than a permit suspension for nonpayment of penalty or fine) may obtain review thereof in the United States district court for the appropriate district by filing a complaint against the Secretary in such court within 30 days from the date of such order.”.

(c) Section 308(g)(1)(C) (16 U.S.C. 1858(g)(1)(C)) is amended by striking the matter from “or (C) any” through “overdue,” and inserting the following: “(C) any amount in settlement of a civil forfeiture imposed on a vessel or other property, or any civil penalty or criminal fine imposed on a vessel or owner or operator of a vessel or any other person who has been issued or has applied for a permit under any marine resource law enforced by the Secretary has not been paid and is overdue, or (D) any payment required for observer services provided to or contracted by an owner or operator who has been issued a permit or applied for a permit under any marine resource law administered by the Secretary has not been paid and is overdue.”.

(d) Section 310(e) (16 U.S.C. 1860(e)) is amended by adding at the end the following new paragraph:

“(3) For purposes of this Act, It shall be a rebuttable presumption that any vessel that is shoreward of the outer boundary of the exclusive economic zone of the United States or beyond the exclusive economic zone of any nation, and that has gear on board that is capable of use for large-scale driftnet fishing, is engaged in such fishing.”.

SEC. 115. ENFORCEMENT.

(a) the second sentence of section 311(d) (16 U.S.C. 1861(d)) is amended—

(1) by striking “Guam, any Commonwealth, territory, or” and inserting “Guam or any”; and

(2) by inserting a comma before the period and the following: “and except that in the case of the Northern Mariana Islands, the appropriate court is the United States District Court for the District of the Northern Mariana Islands”.

(b) Section 311(e)(1) (16 U.S.C. 1861(e)(1)) is amended—

(1) by striking “fishery” each place it appears and inserting “marine”;

(2) by inserting “of not less than 20 percent of the penalty collected or \$20,000, which ever is the lesser amount,” after “reward” in subparagraph (B), and

(3) by striking subparagraph (E) and inserting the following:

“(E) claims of parties in interest to property disposed of under section 612(b) of the Tariff Act of 1930 (19 U.S.C. 1612(b)), as made applicable by section 310(c) of this Act or by any other marine resource law enforced by the Secretary, to seizures made by the Secretary, in amounts determined by the Secretary to be applicable to such claims at the time of seizure; and”.

(c) Section 311(e)(2) (16 U.S.C. 1861(e)(2)) is amended to read as follows:

“(2) Any person found in an administrative or judicial proceeding to have violated this Act or any other marine resource law enforced by the Secretary shall be liable for the cost incurred in the sale, storage, care, and maintenance of any fish or other property lawfully seized in connection with the violation.”.

(d) Section 311 (16 U.S.C. 1861) is amended by redesignating subsection (g) as subsection (h), and by inserting the following after subsection (f):

“(g) ENFORCEMENT IN THE PACIFIC INSULAR AREAS.—The Secretary, in consultation with the Governors of the Pacific Insular Areas and the Western Pacific Council, shall to the extent practicable support cooperative enforcement agreements between Federal and Pacific Insular Area authorities.”.

“(e) Section 311 (16 U.S.C. 1861), as amended by subsection (d), is amended by striking “201(b), (c),” in subsection (i)(1), as redesignated, and inserting “201(b) or (c), or section 204(d).”.

SEC. 116. TRANSITION TO SUSTAINABLE FISHERIES.

“(A) Section 312 is amended to read as follows:

“SEC. 312. TRANSITION TO SUSTAINABLE FISHERIES.

“(a) FISHERIES DISASTER RELIEF.—(1) At the discretion of the Secretary or at the request of the Governor of an affected State or a fishing community, the Secretary shall determine whether there is a commercial fishery failure due to a fishery resource disaster as a result of—

“(A) natural causes;

“(B) man-made causes beyond the control of fishery managers to mitigate through conservation and management measures; or

“(C) undetermined causes.

“(2) Upon the determination under paragraph (1) that there is a commercial fishery

failure, the Secretary is authorized to make sums available to be used by the affected State, fishing community, or by the Secretary in cooperation with the affected State or fishing community for assessing the economic and social effects of the commercial fishery failure, or any activity that the Secretary determines is appropriate to restore the fishery or prevent a similar failure in the future and to assist a fishing community affected by such failure. Before making funds available for an activity authorized under section, the Secretary shall make a determination that such activity will not expand the size or scope of the commercial fishery failure in that fishery or into other fisheries or other geographic regions.

"(3) The Federal share of the cost of any activity carried out under the authority of this subsection shall not exceed 75 percent of the cost of that activity.

"(4) There are authorized to be appropriated to the Secretary such sums as are necessary for each of the fiscal years 1996, 1997, 1998, and 1999.

"(b) FISHING CAPACITY REDUCTION PROGRAM.—(1) The Secretary, at the request of the appropriate Council for fisheries under the authority of such Council, or the Governor of a State for fisheries under State authority, may conduct a fishing capacity reduction program (referred to in this section as the 'program') in a fishery if the Secretary determines that the program—

"(A) is necessary to prevent or end overfishing, rebuild stocks of fish, or achieve measurable and significant improvements in the conservation and management of the fishery;

"(B) is consistent with the federal or State fishery management plan or program in effect for such fishery, as appropriate, and that the fish management plan—

"(i) will prevent the replacement of fishing capacity removed by the program through a moratorium on new entrants, restrictions on vessel upgrades, and other effort control measures, taking into account the full potential fishing capacity of the fleet; and

"(ii) establishes a specified or target total allowable catch or other measures that trigger closure of the fishery or adjustments to reduce catch; and

"(C) is cost-effective and capable of repaying any debt obligation incurred under section 111 of title XI of the Merchant Marine Act, 1936.

"(2) The objective of the program shall be to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time. To achieve that objective, the Secretary is authorized to pay—

"(A) the owner of a fishing vessel, if such vessel is (i) scrapped, or (ii) through the Secretary of the department in which the Coast Guard is operating, subjected to title restrictions that permanently prohibit and effectively prevent its use in fishing, and if the permit authorizing the participation of the vessel in the fishery is surrendered for permanent revocation and the owner relinquishes any claim associated with the vessel and permit that could qualify such owner for any present or future limited access system permit in the fishery for which the program is established; or

"(B) the holder of a permit authorizing participation in the fishery, if such permit is surrendered for permanent revocation, and such holder relinquishes any claim associated with the permit and vessel used to harvest fishery resources under the permit that could qualify such holder for any present or future limited access system permit in the fishery for which the program was established.

"(3) Participation in the program shall be voluntary, but the Secretary shall ensure compliance by all who do participate.

"(4) The Secretary shall consult, as appropriate, with Councils, Federal agencies, State and regional authorities, affected fishing communities, participants in the fishery, conservation organizations, and other interested parties throughout the development and implementation of any program under this section.

"(c) PROGRAM FUNDING.—(1) The program may be funded by any combination of amounts—

"(A) available under clause (iv) of section 2(b)(1)(A) of the Act of August 11, 1939 (15 U.S.C. 713c-3(b)(1)(A); the Saltonstall-Kennedy Act);

"(B) appropriated for the purposes of this section;

"(C) provided by an industry fee system established under subsection (d) and in accordance with section 1111 of title XI of the Merchant Marine Act, 1936; or

"(D) provided from any State or other public sources or private or non-profit organizations.

"(2) All funds for the program, including any fees established under subsection (d), shall be paid into the fishing capacity reduction fund established under section 1111 of title XI of the Merchant Marine Act, 1936.

"(d) INDUSTRY FEE SYSTEM.—(1)(A) If an industry fee system is necessary to fund the program, the Secretary, at the request of the appropriate Council, may conduct a referendum on such system. Prior to the referendum, the Secretary, in consultation with the Council, shall—

"(i) identify, to the extent practicable, and notify all permit or vessel owners who would be affected by the program; and

"(ii) make available to such owners information about the industry fee system describing the schedule, procedures, and eligibility requirements for the referendum, the proposed program, and the amount and duration and any other terms and conditions of the proposed fee system.

"(B) The industry fee system shall be considered approved if the referendum votes which are cast in favor of the proposed system constitute a two-thirds majority of the participants voting.

"(2) Notwithstanding section 304(d) and consistent with an approved industry fee system, the Secretary is authorized to establish such a system to fund the program and repay debt obligations incurred pursuant to section 1111 of title XI of the Merchant Marine Act, 1936. The fees for a program established under this section shall—

"(A) be determined by the Secretary and adjusted from time to time as the Secretary considers necessary to ensure the availability of sufficient funds to repay such debt obligations;

"(B) not exceed 5 percent of the ex-vessel value of all fish harvested from the fishery for which the program is established;

"(C) be deducted by the first ex-vessel fish purchaser from the proceeds otherwise payable to the seller and accounted for and forwarded by such fish purchasers to the Secretary in such manner as the Secretary may establish; and

"(D) be in effect only until such time as the debt obligation has been fully paid.

"(e) IMPLEMENTATION PLAN.—(1) The Secretary, in consultation with the appropriate Council or State and other interested parties, shall prepare and publish in the Federal Register for a 60-day public comment period an implementation plan, including proposed regulations, for each program. The implementation plan shall—

"(A) define criteria for determining types and numbers of vessels which are eligible for participation in the program taking into account characteristics of the fishery, the requirements of applicable fishery manage-

ment plans, the needs of fishing communities, and the need to minimize program costs; and

"(B) establish procedures for program participation (such as submission of owner bid under an auction system or fair market-value assessment) including any terms and conditions for participation which the Secretary deems to be reasonably necessary to meet the goals of the program.

"(2) During the 60-day public comment period—

"(A) the Secretary shall conduct a public hearing in each State affected by the program; and

"(B) the appropriate Council or State shall submit its comments and recommendations, if any, regarding the plan and regulations.

"(3) Within 45 days after the close of the public comment period, the Secretary, in consultation with the appropriate Council or State, shall analyze the public comment received and publish in the Federal Register a final implementation plan for the program and regulations for its implementation. The Secretary may not adopt a final implementation plan involving industry fees or debt obligation unless an industry fee system has been approved by a referendum under this section."

(b) STUDY OF FEDERAL INVESTMENT.—The Secretary of Commerce shall establish a task force comprised of interested parties to study and report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives within 2 years of the date of enactment of this Act on the role of the Federal government in—

(1) subsidizing the expansion and contraction of fishing capacity in fishing fleets managed under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.); and

(2) otherwise influencing the aggregate capital investments in fisheries.

(c) Section 2(b)(1)(A) of the Act of August 11, 1939 (15 U.S.C. 713c(b)(1)(A)) is amended—

(1) by striking "and" at the end of clause (ii);

(2) by striking the period at the period at the end of clause (iii) and inserting a semicolon and the word "and"; and

(3) by adding at the end the following new clause:

"(iv) to fund the Federal share of a fishing capacity reduction program established under section 312 of the Magnuson fishery Conservation and Management Act; and"

SEC. 117. NORTH PACIFIC AND NORTHWEST ATLANTIC OCEAN FISHERIES.

(a) NORTH PACIFIC FISHERIES CONSERVATION.—Section 313 (16 U.S.C. 1862) is amended—

(1) by striking "RESEARCH PLAN" in the section heading and inserting "CONSERVATION";

(2) in subsection (a) by striking "North Pacific Fishery Management Council" and inserting "North Pacific Council"; and

(3) by adding at the end the following:

"(f) BYCATCH REDUCTION.—In implementing section 303(a)(11) and this section, the North Pacific Council shall submit conservation and management measures to lower, on an annual basis for a period of not less than four years, the total amount of economic discards occurring in the fisheries under its jurisdiction.

"(g) BYCATCH REDUCTION INCENTIVES.—(1) Notwithstanding section 304(d), the North Pacific Council may submit, and the Secretary may approve, consistent with the provisions of this Act, a system of fines in a fishery to provide incentives to reduce bycatch and bycatch rates; except that such fines shall not exceed \$25,000 per vessel per season. Any fines collected shall be deposited

in the North Pacific Fishery Observer Fund, and may be made available by the Secretary to offset costs related to the reduction of bycatch in the fishery from which such fines were derived, including conservation and management measures and research, and to the State of Alaska to offset costs incurred by the State in the fishery from which such penalties were derived or in fisheries in which the State is directly involved in management or enforcement and which are directly affected by the fishery from which such penalties were derived.

"(2)(A) Notwithstanding section 303(d), and in addition to the authority provided in section 303(b)(10), the North Pacific Council may submit, and the Secretary may approve, conservation and management measures which provide allocations of regulatory discards to individual fishing vessels as an incentive to reduce per vessel bycatch and bycatch rates in a fishery, provided that—

"(i) such allocations may not be transferred for monetary consideration and are made only on an annual basis; and

"(ii) any such conservation and management measures will meet the requirements of subsection (h) and will result in an actual reduction in regulatory discards in the fishery.

"(B) The North Pacific Council may submit restrictions in addition to the restriction imposed by clause (i) of subparagraph (A) on the transferability of any such allocations, and the Secretary may approve such recommendation.

"(h) CATCH MEASUREMENT.—(1) By June 1, 1997 the North Pacific Council shall submit, and the Secretary may approve, consistent with the other provisions of this Act, conservation and management measures to ensure total catch measurement in each fishery under the jurisdiction of such Council. Such measures shall ensure the accurate enumeration, at a minimum, of target species, economic discards, and regulatory discards.

"(2) To the extent the measures submitted under paragraph (1) do not require United States fish processing vessels (as defined in chapter 21 of title 46, United States Code) to weigh fish, the North Pacific Council and the Secretary shall submit a plan to the Congress by January 1, 1998, to allow for weighing, including recommendations to assist such processors and processing vessels in acquiring necessary equipment, unless the Council determines that such weighing is not necessary to meet the requirements of this subsection.

"(i) FULL RETENTION AND UTILIZATION.—(1) The North Pacific Council shall submit to the Secretary by October 1, 1998 a report on the advisability of requiring the full retention by fishing vessels and full utilization by United States fish processors of economic discards in fisheries under its jurisdiction if such economic discards, or the mortality of such economic discards, cannot be avoided. The report shall address the projected impacts of such requirements on participants in the fishery and describe any full retention and full utilization requirements that have been implemented.

"(2) The report shall address the advisability of measures to minimize processing waste, including standards setting minimum percentages which must be processed for human consumption. For the purpose of the report, 'processing waste' means that portion of any fish which is processed and which could be used for human consumption or other commercial use, but which is not so used."

"(b) NORTHWEST ATLANTIC OCEAN FISHERIES.—Section 314 (16 U.S.C. 1863) is amended by striking "1997" in subsection (a)(4) and inserting "1999".

TITLE II—FISHERY MONITORING AND RESEARCH

SEC. 201. CHANGE OF TITLE.

The heading of title IV (16 U.S.C. 1881 et seq.) is amended to read as follows:

"TITLE IV—FISHERY MONITORING AND RESEARCH".

SEC. 202. REGISTRATION AND INFORMATION MANAGEMENT.

Title IV (16 U.S.C. 1881 et seq.) is amended by inserting after the title heading the following:

"SEC. 401. REGISTRATION AND INFORMATION MANAGEMENT.

"(a) STANDARD FISHING VESSEL REGISTRATION AND INFORMATION MANAGEMENT SYSTEM.—The Secretary shall, in cooperation with the Secretary of the department in which the Coast Guard is operating, the States, the Councils, and Marine Fisheries Commissions, develop recommendations for implementation of a standardized fishing vessel registration and information management system on a regional basis. The recommendations shall be developed after consultation with interested governmental and nongovernmental parties and shall—

"(1) be designed to standardize the requirements of vessel registration and information collection systems required by this Act, the Marine Mammal Protection Act (16 U.S.C. 1361 et seq.), and any other marine resource law implemented by the Secretary, and, with the permission of a State, any marine resource law implemented by such State;

"(2) integrate information collection programs under existing fishery management plans into a nonduplicative information collection and management system;

"(3) avoid duplication of existing state, tribal, or federal systems and shall utilize, to the maximum extent practicable, information collected from existing systems;

"(4) provide for implementation of the system through cooperative agreements with appropriate State, regional, or tribal entities and Marine Fisheries Commissions;

"(5) provide for funding (subject to appropriations) to assist appropriate State, regional, or tribal entities and Marine Fisheries Commissions in implementation;

"(6) establish standardized units of measurement, nomenclature, and formats for the collection and submission of information;

"(7) minimize the paperwork required for vessels registered under the system;

"(8) include all species of fish within the geographic areas of authority of the Councils and all fishing vessels including charter fishing vessels, but excluding recreational fishing vessels;

"(9) require United States fish processors, and fish dealers and other first ex-vessel purchasers of fish that are subject to the proposed system, to submit information (other than economic information) which may be necessary to meet the goals of the proposed system; and

"(10) include procedures necessary to ensure—

"(A) the confidentiality of information collected under this section in accordance with section 403(b); and

"(B) the timely release or availability to the public of information collected under this section consistent with section 402(b).

"(b) FISHING VESSEL REGISTRATION.—The proposed registration system should, at a minimum, obtain the following information for each fishing vessel—

"(1) the name and official number or other identification, together with the name and address of the owner or operator or both;

"(2) gross tonnage, vessel capacity, type and quantity of fishing gear, mode of operation (catcher, catcher processor, or other), and such other pertinent information with

respect to vessel characteristics as the Secretary may require; and

"(3) identification (by species, gear type, geographic area of operations, and season) of the fisheries in which the fishing vessel participates.

"(c) FISHERY INFORMATION.—The proposed information management system should, at a minimum, provide basic fisheries performance information for each fishery, including—

"(1) the number of vessels participating in the fishery including charter fishing vessels;

"(2) the time period in which the fishery occurs;

"(3) the approximate geographic location or official reporting area where the fishery occurs;

"(4) a description of fishing gear used in the fishery, including the amount and type of such gear and the appropriate unit of fishing effort; and

"(5) other information required under subsection 303(a)(5) or requested by the Council under section 402.

"(d) USE OF REGISTRATION.—Any registration recommended under this section shall not be considered a permit for the purposes of this Act, and the Secretary may not propose to revoke, suspend, deny, or impose any other conditions or restrictions on any such registration or the use of such registration under this Act.

"(e) PUBLIC COMMENT.—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall publish in the Federal Register for a 60-day public comment period a proposal that would provide for implementation of a standardized fishing vessel registration and information collection system that meets the requirements of subsections (a) through (c). The proposal shall include—

"(1) a description of the arrangements of the Secretary for consultation and cooperation with the department in which the Coast Guard is operating, the States, the Councils, Marine Fisheries Commissions, the fishing industry and other interested parties; and

"(2) any proposed regulations or legislation necessary to implement the proposal.

"(f) CONGRESSIONAL TRANSMITTAL.—Within 60 days after the end of the comment period and after consideration of comments received under subsection (e), the Secretary shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a recommended proposal for implementation of a national fishing vessel registration system that includes—

"(1) any modifications made after comment and consultation;

"(2) a proposed implementation schedule, including a schedule for the proposed cooperative agreements required under subsection (a)(4); and

"(3) recommendations for any such additional legislation as the Secretary considers necessary or desirable to implement the proposed system.

"(g) REPORT TO CONGRESS.—Within 15 months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall report to Congress on the need to include recreational fishing vessels into a national fishing vessel registration and information collection system. In preparing its report, the Secretary shall cooperate with the Secretary of the department in which the Coast Guard is operating, the States, the Councils, and Marine Fisheries Commissions, and consult with governmental and nongovernmental parties."

SEC. 203. INFORMATION COLLECTION.

Section 402 is amended to read as follows:

SEC. 402. INFORMATION COLLECTION.

"(a) COUNCIL REQUESTS.—If a Council determines that additional information (other than information that would disclose proprietary or confidential commercial or financial information regarding fishing operations or fish processing operations) would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement an information collection program for the fishery which would provide the types of information (other than information that would disclose proprietary or confidential commercial or financial information regarding fishing operations or fish processing operations) specified by the Council. The Secretary shall undertake such an information collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for an information collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this subsection regarding a Council request shall be made within a reasonable period of time after receipt of that request.

"(b) CONFIDENTIALITY OF INFORMATION.—(1) Any information submitted to the Secretary by an person in compliance with any requirement under this Act shall be confidential and shall not be disclosed, except—

"(A) to Federal employees and Council employees who are responsible for fishery management plan development and monitoring;

"(B) to State or Marine Fisheries Commission employees pursuant to an agreement with the Secretary that prevents public disclosure of the identify or business of any person;

"(C) when required by court order;

"(D) when such information is used to verify catch under an individual fishing quota program;

"(E) that observer information collected in fisheries under the authority of the North Pacific Council may be released to the public as specified in a fishery management plan or regulation for weekly summary bycatch information identified by vessel, and for haul-specific bycatch information without vessel identification; or

"(F) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this Act.

"(2) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this Act, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with any requirement or regulation under this Act or the use, release, or publication of bycatch information pursuant to paragraph (1)(E).

"(c) RESTRICTION ON USE OF CERTAIN INFORMATION.—(1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this Act, the Marine Mammal Protection Act of

1972 (16 U.S.C. 1361 et seq.), and the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such Acts or regulations thereunder.

"(2) The Secretary may not require the submission of a federal or State income tax return or statement as a prerequisite for issuance of a permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

"(d) CONTRACTING AUTHORITY.—Notwithstanding any other provision of law, the Secretary may provide a grant, contract, or other financial assistance on a sole-source basis to a State, Council, or Marine Fisheries Commission for the purpose of carrying out information collection or other programs if—

"(1) the recipient of such a grant, contract, or other financial assistance is specified by statute to be, or has customarily been, such State, Council, or Marine Fisheries Commission; or

"(2) the Secretary has entered into a cooperative agreement with such State, Council, or Marine Fisheries Commission.

"(e) RESOURCE ASSESSMENTS.—(1) The Secretary may use the private sector to provide vessels, equipment, and services necessary to survey the fishery resources of the United States when the arrangement will yield statistically reliable results.

"(2) The Secretary, in consultation with the appropriate Council and the fishing industry—

"(A) may structure competitive solicitations under paragraph (1) so as to compensate a contractor for a fishery resources survey by allowing the contractor to retain for sale fish harvested during the survey voyage;

"(B) in the case of a survey during which the quantity or quality of fish harvested is not expected to be adequately compensatory, may structure those solicitations so as to provide that compensation by permitting the contractor to harvest on a subsequent voyage and retain for sale a portion of the allowable catch of the surveyed fishery; and

"(C) may permit fish harvested during such survey to count towards a vessel's catch history under a fishery management plan if such survey was conducted in a manner that precluded a vessel's participation in a fishery that counted under the plan for purposes of determining catch history.

"(3) The Secretary shall undertake efforts to expand annual fishery resource assessments in all regions of the Nation."

SEC. 204. OBSERVERS.

Section 403 is amended to read as follows:

"SEC. 403. OBSERVERS.

"(a) GUIDELINES FOR CARRYING OBSERVERS.—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall promulgate regulations, after notice and opportunity for public comment, for fishing vessels that carry observers. The regulations shall include guidelines for determining—

"(1) when a vessel is not required to carry an observer on board because the facilities of such vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; and

"(2) actions which vessel owners or operators may reasonably be required to take to render such facilities adequate and safe.

"(b) TRAINING.—The Secretary, in cooperation with the appropriate States and the National Sea Grant College Program, shall—

"(1) establish programs to ensure that each observer receives adequate training in collecting and analyzing the information necessary for the conservation and management purposes of the fishery to which such observer is assigned;

"(2) require that an observer demonstrate competence in fisheries science and statistical analysis at a level sufficient to enable such person to fulfill the responsibilities of the position;

"(3) ensure that an observer has received adequate training in basic vessel safety; and

"(4) make use of university and any appropriate private nonprofit organization training facilities and resources, where possible, in carrying out this subsection.

"(c) OBSERVER STATUS.—An observer on a vessel and under contract to carry out responsibilities under this Act or the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) shall be deemed to be a Federal employee for the purpose of compensation under the Federal Employee Compensation Act (5 U.S.C. 8101 et seq.)."

SEC. 205. FISHERIES RESEARCH.

Section 404 is amended to read as follows:

"SEC. 404. FISHERIES RESEARCH.

"(a) IN GENERAL.—The Secretary shall initiate and maintain, in cooperation with the Councils, a comprehensive program of fishery research to carry out and further the purposes, policy, and provisions of this Act. Such program shall be designed to acquire knowledge and information, including statistics, on fishery conservation and management and on the economics and social characteristics of the fisheries.

"(b) STRATEGIC PLAN.—Within one year after the date of enactment of the Sustainable Fisheries Act, and at least every 3 years thereafter, the Secretary shall develop and publish in the Federal Register a strategic plan for fisheries research for the five years immediately following such publication. The plan shall—

"(1) identify and describe a comprehensive program with a limited number of priority objectives for research in each of the areas specified in subsection (c);

"(2) indicate goals and timetables for the program described in paragraph (1);

"(3) provide a role for commercial fishermen in such research, including involvement in field testing;

"(4) provide for collection and dissemination, in a timely manner, of complete and accurate information concerning fishing activities, catch, effort, stock assessments, and other research conducted under this section; and

"(5) be developed in cooperation with the Councils and affected States, and provide for coordination with the Councils, affected States, and other research entities.

"(c) AREAS OF RESEARCH.—Areas of research are as follows:

"(1) Research to support fishery conservation and management, including but not limited to, biological research concerning the abundance and life history parameters of stocks of fish, the interdependence of fisheries or stocks of fish, the identification of essential fish habitat, the impact of pollution on fish populations, the impact of wetland and estuarine degradation, and other factors affecting the abundance and availability of fish.

"(2) Conservation engineering research, including the study of fish behavior and the development and testing of new gear technology and fishing techniques to minimize

bycatch and any adverse effects on essential fish habitat and promote efficient harvest of target species.

"(3) Research on the fisheries, including the social cultural, and economic relationships among fishing vessel owners, crew, United States fish processors, associated shoreside labor, seafood markets and fishing communities.

"(4) Information management research, including the development of a fishery information base and an information management system under section 401 that will permit the full use of information in the support of effective fishery conservation and management.

"(d) PUBLIC NOTICE.—In developing the plan required under subsection (a), the Secretary shall consult with relevant Federal, State, and international agencies, scientific and technical experts, and other interested persons public and private, and shall publish a proposed plan in the Federal Register for the purpose of receiving public comment on the plan. The Secretary shall ensure that affected commercial fishermen are actively involved in the development of the portion of the plan pertaining to conservation engineering research. Upon final publication in the Federal Register, the plan shall be submitted by the Secretary to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives."

SEC. 206. INCIDENTAL HARVEST RESEARCH.

Section 405 is amended to read as follows:

"SEC. 405. INCIDENTAL HARVEST RESEARCH.

"(a) COLLECTION OF INFORMATION.—Within nine months after the date of enactment of the Sustainable Fisheries Act, the Secretary shall, after consultation with the Gulf Council and South Atlantic Council, conclude the collection of information in the program to assess the impact on fishery resources of incidental harvest by the shrimp trawl fishery within the authority of such Councils. Within the same time period, the Secretary shall make available to the public aggregated summaries of information collected prior to June 30, 1994 under such program.

"(b) IDENTIFICATION OF STOCK.—The program concluded pursuant to subsection (a) shall provide for the identification of stocks of fish which are subject to significant incidental harvest in the course of normal shrimp trawl fishing activity.

"(c) COLLECTION AND ASSESSMENT OF SPECIFIC STOCK INFORMATION.—For stocks of fish identified pursuant to subsection (b), with priority given to stocks which (based upon the best available scientific information) are considered to be overfished, the Secretary shall conduct—

"(1) a program to collect and evaluate information on the nature and extent (including the spatial and temporal distribution) of incidental mortality of such stocks as a direct result of shrimp trawl fishing activities;

"(2) an assessment of the status and condition of such stocks, including collection of information which would allow the estimation of life history parameters with sufficient accuracy and precision to support sound scientific evaluation of the effects of various management alternatives on the status of such stocks; and

"(3) a program of information collection and evaluation for such stocks on the magnitude and distribution of fishing mortality and fishing effort by sources of fishing mortality other than shrimp trawl fishing activity.

"(d) BYCATCH REDUCTION PROGRAM.—Not later than 12 months after the enactment of the Sustainable Fisheries Act, the Secretary shall, in cooperation with affected interests, and based upon the best scientific information available, complete a program to—

"(1) develop technological devices and other changes in fishing operations necessary and appropriate to minimize the incidental mortality of bycatch in the course of shrimp trawl activity to the extent practicable, taking into account the level of bycatch mortality in the fishery on November 28, 1990;

"(2) evaluate the ecological impacts and the benefit and costs of such devices and changes in fishing operations; and

"(3) assess whether it is practicable to utilize bycatch which is not avoidable.

"(e) REPORT TO CONGRESS.—The Secretary shall, within one year of completing the programs required by this section, submit a detailed report on the results of such programs to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives.

"(f) IMPLEMENTATION CRITERIA.—Any conservation and management measure implemented under this Act to reduce the incidental mortality of bycatch in the course of shrimp trawl fishing shall be consistent with—

"(1) measures applicable to fishing throughout the range in United States waters of the bycatch species concerned; and

"(2) the need to avoid any serious adverse environmental impacts on such bycatch species or the ecology of the affected area."

SEC. 207. MISCELLANEOUS RESEARCH.

(A) FISHERIES SYSTEMS RESEARCH.—Section 406 (16 U.S.C. 1882) is amended to read as follows:

"SEC. 406. FISHERIES SYSTEMS RESEARCH.

"(a) ESTABLISHMENT OF PANEL.—Not later than 180 days after the date of enactment of the Sustainable Fisheries Act, the Secretary shall establish an advisory panel under this Act to develop recommendations to expand the application of ecosystem principles in fishery conservation and management activities.

"(b) PANEL MEMBERSHIP.—The advisory panel shall consist of not more than 20 individual and include—

"(1) individuals with expertise in the structures, functions, and physical and biological characteristics of ecosystem; and

"(2) representatives from the Councils, States, fishing industry, conservation organizations, or others with expertise in the management of marine resources.

"(c) RECOMMENDATIONS.—Prior to selecting advisory panel members, the Secretary shall, with respect to panel members described in subsection (b)(1), solicit recommendations from the National Academy of Sciences.

"(d) REPORT.—Within 2 years after the date of enactment of this Act, the Secretary shall submit to the Congress a completed report of the panel established under this section, which shall include—

"(1) an analysis of the extent to which ecosystem principles are being applied in fishery conservation and management activities, including research activities;

"(2) proposed actions by the Secretary and by the Congress that should be undertaken to expand the application of ecosystem principles in fishery conservation and management; and

"(3) such other information as may be appropriate.

"(e) PROCEDURAL MATTER.—The advisory panel established under this section shall be deemed an advisory panel under section 302(g)."

(b) GULF OF MEXICO RED SNAPPER RESEARCH.—Title IV of the Act (16 U.S.C. 1882) is amended by adding the following new section:

"SEC. 407. GULF OF MEXICO RED SNAPPER RESEARCH.

"(a) INDEPENDENT PEER REVIEW.—(1) Within 30 days of the date of enactment of the

Sustainable Fisheries Act, the Secretary shall initiate an independent peer review to evaluate—

"(A) the accuracy and adequacy of fishery statistics used by the Secretary for the red snapper fishery in the Gulf of Mexico to account for all commercial, recreational, and charter fishing harvests and fishing effort on the stock;

"(B) the appropriateness of the scientific methods, information, and models used by the Secretary to assess the status and trends of the Gulf of Mexico red snapper stock and as the basis for the fishery management plan for the Gulf of Mexico red snapper fishery;

"(C) the appropriateness and adequacy of the management measures in the fishery management plan for red snapper in the Gulf of Mexico for conserving and managing the red snapper fishery under this Act; and

"(D) the costs and benefits of all reasonable alternatives to an individual fishing quota program for the red snapper fishery in the Gulf of Mexico.

"(2) The Secretary shall ensure that commercial, recreational, and charter fishermen in the red snapper fishery in the Gulf of Mexico are provided an opportunity to—

"(A) participate in the peer review under this subsection; and

"(B) provide information to the Secretary concerning the review of fishery statistics under this subsection without being subject to penalty under this Act or other applicable law for any past violation of a requirement to report such information to the Secretary.

"(3) The Secretary shall submit a detailed written report on the findings of the peer review conducted under this subsection to the Gulf Council no later than one year after the date of enactment of the Sustainable Fisheries Act.

"(b) PROHIBITION.—In addition to the restrictions under section 303(d)(1)(A), the Gulf Council may not, prior to October 1, 2000, undertake or continue the preparation of any fishery management plan, plan amendment or regulation under this Act for the Gulf of Mexico commercial red snapper fishery that creates an individual fishing quota program or that authorizes the consolidation of licenses, permits, or endorsements that result in different trip limits for vessels in the same class.

"(c) REFERENDUM.—

"(1) On or after October 1, 2000, the Gulf Council may prepare and submit a fishery management plan, plan amendment, or regulation for the Gulf of Mexico commercial red snapper fishery that creates an individual fishing quota program or that authorizes the consolidation of licenses, permits, or endorsements that result in different trip limits for vessels in the same class, only if the preparation of such plan, amendment, or regulation is approved in a referendum conducted under paragraph (2) and only if the submission to the Secretary of such plan, amendment, or regulation is approved in a subsequent referendum conducted under paragraph (2).

"(2) The Secretary, at the request of the Gulf Council, shall conduct referendums under this subsection. Only a person who held an annual vessel permit with a red snapper endorsement for such permit on September 1, 1996 (or any person to whom such permit with such endorsement was transferred after such date) and vessel captains who harvested red snapper in a commercial fishery using such endorsement in each red snapper fishing season occurring between January 1, 1993 and such date may vote in a referendum under this subsection. The referendum shall be decided by a majority of the votes cast. The Secretary shall develop a formula to weight votes based on the proportional harvest under each such permit and endorsement and by each such captain in the fishery

between January 1, 1993 and September 1, 1996. Prior to each referendum, the Secretary, in consultation with the Council, shall—

“(A) identify and notify all such persons holding permits with red snapper endorsements and all such vessel captains; and

“(B) make available to all such persons and vessel captains information about the schedule, procedures, and eligibility requirements for the referendum and the proposed individual fishing quota program.

“(d) CATCH LIMITS.—Any fishery management plan, plan amendment, or regulation submitted by the Gulf Council for the red snapper fishery after the date of enactment of the Sustainable Fisheries Act shall contain conservation and management measures that—

“(1) establish separate quotas for recreational fishing (which, for the purposes of this subsection shall include charter fishing) and commercial fishing that, when reached, result in a prohibition on the retention of fish caught during recreational fishing and commercial fishing, respectively, for the remainder of the fishing year; and

“(2) ensure that such quotas reflect allocations among such sectors specified in part 641.24 and 641.25 of title 50, Code of Federal Regulations (as revised as of October 1, 1995), and do not reflect any harvests in excess of such allocations.”.

SEC. 208. STUDY OF CONTRIBUTION OF BYCATCH TO CHARITABLE ORGANIZATIONS.

(a) STUDY.—The Secretary of Commerce shall conduct a study of the contribution of bycatch to charitable organizations by commercial fishermen. The study shall include determinations of—

(1) the amount of bycatch that is contributed each year to charitable organizations by commercial fishermen;

(2) the economic benefits to commercial fishermen from those contributions; and

(3) the impact on fisheries of the availability of those benefits.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, the Secretary of Commerce shall submit to the Congress a report containing determinations made in the study under subsection (a).

(c) BYCATCH DEFINED.—In this section the term “bycatch” has the meaning given that term in section 3 of the Magnuson Fishery Conservation and Management Act, as amended by section 102 of this Act.

SEC. 209. STUDY OF IDENTIFICATION METHODS FOR HARVEST STOCKS.

(a) IN GENERAL.—The Secretary of Commerce shall conduct a study to determine the best possible method of identifying various Atlantic and Pacific salmon and steelhead stocks in the ocean at time of harvest. The study shall include an assessment of—

(1) coded wire tags;

(2) fin clipping; and

(3) other identification methods.

(b) REPORT.—The Secretary shall report the results of the study, together with any recommendations for legislation deemed necessary based on the study, within 6 months after the date of enactment of this Act to the Committee on Resources of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

SEC. 210. REVIEW OF NORTHEAST FISHERY STOCK ASSESSMENTS.

The National Academy of Sciences, in consultation with regionally recognized fishery experts, shall conduct a peer review of Canadian and United States stock assessments, information collection methodologies, biological assumptions and projections, and other relevant scientific information used as

the basis for conservation and management in the Northeast multispecies fishery. The National Academy of Sciences shall submit the results of such review to the Congress and the Secretary of Commerce no later than March 1, 1997.

SEC. 211. CLERICAL AMENDMENTS.

The table of contents is amended by striking the matter relating to title IV and inserting the following:

“Sec. 312. Transition to sustainable fisheries.

“Sec. 313. North Pacific fisheries conservation.

“Sec. 314. Northwest Atlantic Ocean fisheries reinvestment program.

“TITLE IV—FISHERY MONITORING AND RESEARCH

“Sec. 401. Registration and information management.

“Sec. 402. Information collection.

“Sec. 403. Observers.

“Sec. 404. Fisheries research.

“Sec. 405. Incidental harvest research.

“Sec. 406. Fisheries systems research.

“Sec. 407. Gulf of Mexico red snapper research.”.

TITLE III—FISHERIES FINANCING

SEC. 301. SHORT TITLE.

This title may be cited as the “Fisheries Financing Act”.

SEC. 302. INDIVIDUAL FISHING QUOTA LOANS.

(a) AMENDMENT OF MERCHANT MARINE ACT, 1936.—Section 1104A of the Merchant Marine Act, 1936 (46 U.S.C. App. 1274) is amended—

(1) by striking “or” at the end of subsection (a)(5);

(2) by striking the period at the end of subsection (a)(6) and inserting a semicolon and “or”;

(3) by adding at the end of subsection (a) the following:

“(7) financing or refinancing, including, but not limited to, the reimbursement of obligors for expenditures previously made, for the purchase of individual fishing quotas in accordance with section 303(d)(4) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1853(d)(4)).”; and

(4) by striking “paragraph (6)” in the last sentence of subsection (a) and inserting “paragraphs (6) and (7)”; and

(5) by striking “equal to” in the third proviso of subsection (b)(2) and inserting “not to exceed”.

(b) PROHIBITION.—Until October 1, 2001, no new loans may be guaranteed by the Federal Government for the construction of new fishing vessels if the construction will result in an increased harvesting capacity within the United States exclusive economic zone.

SEC. 303. FISHERIES FINANCING AND CAPACITY REDUCTION.

(a) CAPACITY REDUCTION AND FINANCING AUTHORITY.—Title XI of the Merchant Marine Act, 1936 (46 U.S.C. App. 1271 et seq.), is amended by adding at the end the following new sections:

“SEC. 1111. (a) The Secretary is authorized to guarantee the repayment of debt obligations issued by entities under this section. Debt obligations to be guaranteed may be issued by any entity that has been approved by the Secretary and has agreed with the Secretary to such conditions as the Secretary deems necessary for this section to achieve the objective of the program and to protect the interest of the United States.

“(b) Any debt obligation guaranteed under this section shall—

“(1) be treated in the same manner and to the same extent as other obligations guaranteed under this title, except with respect to provisions of this title that by their nature cannot be applied to obligations guaranteed under this section;

“(2) have the fishing fees established under the program paid into a separate subaccount

of the fishing capacity reduction fund established under this section;

“(3) not exceed \$100,000,000 in an unpaid principal amount outstanding at any one time for a program;

“(4) have such maturity (not to exceed 20 years), take such form, and contain such conditions as the Secretary determines necessary for the program to which they relate;

“(5) have as the exclusive source of repayment (subject to the proviso in subsection (c)(2)) and as the exclusive payment security, the fishing fees established under the program; and

“(6) at the discretion of the Secretary be issued in the public market or sold to the Federal Financing Bank.

“(c)(1) There is established in the Treasury of the United States a separate account which shall be known as the fishing capacity reduction fund (referred to in this section as the ‘fund’). Within the fund, at least one sub-account shall be established for each program into which shall be paid all fishing fees established under the program and other amounts authorized for the program.

“(2) Amounts in the fund shall be available, without appropriation or fiscal year limitation, to the Secretary to pay the cost of the program, including payments to financial institutions to pay debt obligations incurred by entities under this section; provided that funds available for this purpose from other amounts available for the program may also be used to pay such debt obligations.

“(3) Sums in the fund that are not currently needed for the purpose of this section shall be kept on deposit or invested in obligations of the United States.

“(d) The Secretary is authorized and directed to issue such regulations as the Secretary deems necessary to carry out this section.

“(e) For the purposes of this section, the term ‘program’ means a fishing capacity reduction program established under section 312 of the Magnuson Fishery Conservation and Management Act.

“SEC. 1112. (a) Notwithstanding any other provision of this title, all obligations involving any fishing vessel, fishery facility, aquaculture facility, individual fishing quota, or fishing capacity reduction program issued under this title after the date of enactment of the Sustainable Fisheries Act shall be direct loan obligations, for which the Secretary shall be the obligee, rather than obligations issued to obligees other than the Secretary and guaranteed by the Secretary. All direct loan obligations under this section shall be treated in the same manner and to the same extent as obligations guaranteed under this title except with respect to provisions of this title which by their nature can only be applied to obligations guaranteed under this title.

“(b) Notwithstanding any other provisions of this title, the annual rate of interest which obligors shall pay on direct loan obligations under this section shall be fixed at two percent of the principal amount of such obligations outstanding plus such additional percent as the Secretary shall be obligated to pay as the interest cost of borrowing from the United States Treasury the funds with which to make such direct loans.”.

TITLE IV—MARINE FISHERY STATUTE REAUTHORIZATIONS

SEC. 401. MARINE FISH PROGRAM AUTHORIZATION OF APPROPRIATIONS.

(a) FISHERIES INFORMATION COLLECTION AND ANALYSIS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out fisheries information and analysis activities under the

Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$51,800,000 for fiscal year 1997, and \$52,345,000 for each of the fiscal years 1998, 1999, and 2000. Such activities may include, but are not limited to, the collection, analysis, and dissemination of scientific information necessary for the management of living marine resources and associated marine habitat.

(b) FISHERIES CONSERVATION AND MANAGEMENT OPERATIONS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out activities relating to fisheries conservation and management operations under the Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$29,028,000 for fiscal year 1997, and \$29,899,000 for each of the fiscal years 1998, 1999, and 2000. Such activities may include, but are not limited to, development, implementation, and enforcement of conservation and management measures to achieve continued optimum use of living marine resources, hatchery operations, habitat conservation, and protected species management.

(c) FISHERIES STATE AND INDUSTRY COOPERATIVE PROGRAMS.—There are authorized to be appropriated to the Secretary of Commerce, to enable the National Oceanic and Atmospheric Administration to carry out State and industry cooperative programs under the Fish and Wildlife Act of 1956 (16 U.S.C. 742a et seq.) and any other law involving those activities, \$27,932,000 for fiscal year 1997, and \$28,226,000 for each of the fiscal years 1998, 1999, and 2000. These activities include, but are not limited to, ensuring the quality and safety of seafood products and providing grants to States for improving the management of interstate fisheries.

(d) AUTHORIZATION OF APPROPRIATIONS FOR CHESAPEAKE BAY OFFICE.—Section 2(e) of the National Oceanic and Atmospheric Administration Marine Fisheries Program Authorization Act (Public Law 98-210; 97 Stat. 1409) is amended—

(1) by striking "1992 and 1993" and inserting "1997 and 1998";

(2) by striking "establish" and inserting "operate";

(3) by striking "306" and inserting "307"; and

(4) by striking "1991" and inserting "1992".

(e) RELATION TO OTHER LAWS.—Authorizations under this section shall be in addition to monies authorized under the Magnuson Fishery Conservation and Management Act of 1976 (16 U.S.C. 1801 et seq.), the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), the Endangered Species Act of 1973 (16 U.S.C. 3301 et seq.), the Anadromous Fish Conservation Act (16 U.S.C. 757 et seq.), and the Interjurisdictional Fisheries Act (16 U.S.C. 4107 et seq.).

(f) NEW ENGLAND HEALTH PLAN.—The Secretary of Commerce is authorized to provide up to \$2,000,000 from previously appropriated funds to Caritas Christi for the implementation of a health care plan for fishermen in New England if Caritas Christi submits such plan to the Secretary no later than January 1, 1997, and the Secretary, in consultation with the Secretary of Health and Human Services, approves such plan.

SEC. 402. INTERJURISDICTIONAL FISHERIES ACT AMENDMENTS.

(a) REAUTHORIZATION.—Section 308 of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107) is amended—

(1) by amending subsection (a) to read as follows:

"(a) GENERAL APPROPRIATIONS.—There are authorized to be appropriated to the Department of Commerce for apportionment to carry out the purposes of this title—

"(1) \$3,400,000 for fiscal year 1996;

"(2) \$3,900,000 for fiscal year 1997;

"(3) \$4,400,000 for each of the fiscal years 1998, 1999, and 2000.";

(2) by striking "\$350,000 for each of the fiscal years 1989, 1990, 1991, 1992, and 1993, and \$600,000 for each of the fiscal years 1994 and 1995," in subsection (c) and inserting "\$700,000 for fiscal year 1997, and \$750,000 for each of the fiscal years 1998, 1999, and 2000.".

(b) NEW ENGLAND REPORT.—Section 308(d) of the Interjurisdictional Fisheries Act of 1986 (16 U.S.C. 4107(d)) is amended by adding at the end the following new paragraph:

"(7) With respect to funds available for the New England region, the Secretary shall submit to the Congress by January 1, 1997, with annual updates thereafter as appropriate, a report on the New England fishing capacity reduction initiative which provides:

"(A) the total number of Northeast multispecies permits in each permit category and calculates the maximum potential fishing capacity of vessels holding such permits based on the principal gear, gross registered tonnage, engine horsepower, length, age, and other relevant characteristics;

"(B) the total number of days at sea available to the permitted Northeast multispecies fishing fleet and the total days at sea weighted by the maximum potential fishing capacity of the fleet;

"(C) an analysis of the extent to which the weighted days at sea are used by the active participants in the fishery and of the reduction in such days as a result of the fishing capacity reduction program; and

"(D) an estimate of conservation benefits (such as reduction in fishing mortality) directly attributable to the fishing capacity reduction program.".

SEC. 403. ANADROMOUS FISHERIES AMENDMENTS.

Section 4 of the Anadromous Fish Conservation Act (16 U.S.C. 757d) is amended to read as follows:

"SEC. 4. (a)(1) There are authorized to be appropriated to carry out the purposes of this Act not to exceed the following sums:

"(A) \$4,000,000 for fiscal year 1997; and

"(B) \$4,250,000 for each of fiscal years 1998, 1999, and 2000.

"(2) Sums appropriated under this subsection are authorized to remain available until expended.

"(b) Not more than \$625,000 of the funds appropriated under this section in any one fiscal year shall be obligated in any one State."

SEC. 404. ATLANTIC COASTAL FISHERIES AMENDMENTS.

(a) DEFINITION.—Paragraph (1) of section 803 of the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5102) is amended—

(1) by inserting "and" after the semicolon in subparagraph (A);

(2) by striking "States; and" in subparagraph (B) and inserting "States."; and

(3) by striking subparagraph (C);

(b) IMPLEMENTATION STANDARD FOR FEDERAL REGULATION.—Subparagraph (A) of section 804(b)(1) of such Act (16 U.S.C. 5103(b)(1)) is amended by striking "necessary to support" and inserting "compatible with".

(c) AMERICAN LOBSTER MANAGEMENT.—Section 809 (16 U.S.C. 5108) and section 810 of such Act are redesignated as section 811 and 812, respectively, and the following new section is inserted at the end of section 808:

"SEC. 809. STATE PERMITS VALID IN CERTAIN WATERS.

"(a) PERMITS.—Notwithstanding any provision of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), the Atlantic Coastal Fisheries Cooperative Management Act (16 U.S.C. 5101 et seq.), or

any requirement of a fishery management plan or coastal fishery management plan to the contrary, a person holding a valid license issued by the State of Maine which lawfully permits that person to engage in commercial fishing for American lobster may, with the approval of the State of Maine, engage in commercial fishing for American Lobster in the following areas designated as federal waters, if such fishing is conducted in such waters in accordance with all other applicable federal and state regulations:

"(1) west of Monhegan Island in the area located north of the line 43° 42' 08" N, 69° 34' 18" W and 43° 42' 15" N, 69° 19' 18" W;

"(2) east of Monhegan Island in the area located west of the line 43° 44' 00" N, 69° 15' 05" W and 43° 48' 10" N, 69° 08' 01" W;

"(3) south of Vinalhaven in the area located west of the line 43° 52' 21" N, 68° 39' 54" W and 43° 48' 10" N, 69° 08' 01" W; and

"(4) south of Bois Bubert Island in the area located north of the line 44° 19' 15" N, 67° 49' 30" W and 44° 23' 45" N, 67° 40' 33" W.

(b) ENFORCEMENT.—The exemption from federal fishery permitting requirements granted by subsection (a) may be revoked or suspended by the Secretary in accordance with section 308(g) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1858(g)) for violations of such Act or this Act.

"SEC. 810. TRANSITION TO MANAGEMENT OF AMERICAN LOBSTER FISHERY BY COMMISSION.

"(a) TEMPORARY LIMITS.—Notwithstanding any other provision of this Act or of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), if no regulations have been issued under section 804(b) of this Act by December 31, 1997, to implement a coastal fishery management plan for American lobster, then the Secretary shall issue interim regulations before March 1, 1998, that will prohibit any vessel that takes lobsters in the exclusive economic zone by a method other than pots or traps from landing lobsters (or any parts thereof) at any location within the United States in excess of—

"(1) 100 lobsters (or parts thereof) for each fishing trip of 24 hours or less duration (up to a maximum of 500 lobsters, or parts thereof, during any 5-day period); or

"(2) 500 lobsters (or parts thereof) for a fishing trip of 5 days or longer.

(b) SECRETARY TO MONITOR LANDINGS.—Before January 1, 1998, the Secretary shall monitor, on a timely basis, landings of American lobster, and, if the Secretary determines that catches from vessels that take lobsters in the exclusive economic zone by a method other than pots or traps have increased significantly, then the Secretary may, consistent with the national standards in section 301 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801), and after opportunity for public comment and consultation with the Atlantic States Marine Fisheries Commission, implement regulations under section 804(b) of this Act that are necessary for the conservation of American lobster.

(c) REGULATIONS TO REMAIN IN EFFECT UNTIL PLAN IMPLEMENTED.—Regulations issued under subsection (a) or (b) shall remain in effect until the Secretary implements regulations under section 804(b) of this Act to implement a coastal fishery management plan for American lobster."

(d) AUTHORIZATION OF APPROPRIATIONS.—Section 810 of such Act, as amended by this Act, is amended further by striking "1996." and inserting "1996, and \$7,000,000 for each of the fiscal years 1997, 1998, 1999, and 2000."

SEC. 405. TECHNICAL AMENDMENTS TO MARITIME BOUNDARY AGREEMENT.

(a) EXECUTION OF PRIOR AMENDMENTS TO DEFINITIONS.—Notwithstanding section 308 of

the Act entitled "An Act to provide for the designation of the Flower Garden Banks National Marine Sanctuary", approved March 9, 1992 (Public Law 102-251; 106 Stat. 66) hereinafter referred to as the "FGB Act", section 301(b) of that Act (adding a definition of the term "special areas") shall take effect on the date of enactment of this Act.

(b) CONFORMING AMENDMENTS.—

(1) Section 301(h)(2)(A) of the FGB Act is repealed.

(2) Section 304 of the FGB Act is repealed.

(3) Section 3(15) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(15)) is amended to read as follows:

"(15) The term 'waters under the jurisdiction of the United States' means—

"(A) the territorial sea of the United States;

"(B) the waters included within a zone, contiguous to the territorial sea of the United States, of which the inner boundary is a line coterminous with the seaward boundary of each coastal State, and the other boundary is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured; and

"(C) the areas referred to as eastern special areas in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990; in particular, those areas east of the maritime boundary, as defined in that Agreement, that lie within 200 nautical miles of the baselines from which the breadth of the territorial sea of Russia is measured but beyond 200 nautical miles of the baselines from which the breadth of the territorial sea of the United States is measured, except that this subparagraph shall not apply before the date on which the Agreement between the United States and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990, enters into force for the United States."

SEC. 406. AMENDMENTS TO THE FISHERIES ACT.

Section 309(b) of the Fisheries Act of 1995 (Public Law 104-43) is amended by striking "July 1, 1996" and inserting "July 1, 1997".

HUTCHISON AMENDMENT NO. 5383

Mrs. HUTCHISON proposed an amendment to the bill, S. 39, supra; as follows:

On page 142, line 7, insert "To the maximum extent practicable," before "Any".

On page 142, line 10, strike "must" and insert in lieu thereof "should".

On page 148, strike lines 1 through 17.

ECONOMIC ESPIONAGE ACT OF 1996

**SPECTER (AND KOHL)
AMENDMENT NO. 5384**

Mr. STEVENS (for Mr. SPECTER for himself and Mr. KOHL) proposed an amendment to the bill (H.R. 3723) to amend title 18, United States Code, to protect proprietary economic information, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Economic Espionage Act of 1996".

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) sustaining a healthy and competitive national economy is imperative;

(2) the development and production of proprietary economic information involves

every aspect of interstate commerce and business;

(3) the development, production, protection, and lawful exchange, sale, and transfer of proprietary economic information is essential to maintaining the health and competitiveness of interstate commerce and the national economy;

(4) much proprietary economic information moves in interstate and foreign commerce and proprietary economic information that does not move in interstate or foreign commerce directly and substantially affects proprietary economic information that does;

(5) the theft, wrongful destruction or alteration, misappropriation, and wrongful conversion of proprietary economic information substantially affects and harms interstate commerce, costing United States firms, businesses, industries, and consumers millions of dollars each year; and

(6) enforcement of existing State laws protecting proprietary economic information is frustrated by the ease with which stolen or wrongfully appropriated proprietary economic information is transferred across State and national boundaries.

(b) PURPOSE.—The purpose of this Act is—

(1) to promote the development and lawful utilization of United States proprietary economic information produced for, or placed in, interstate and foreign commerce by protecting it from theft, wrongful destruction or alteration, misappropriation, and conversion; and

(2) to secure to authors and inventors the exclusive right to their respective writings and discoveries.

SEC. 3. PREVENTION OF ECONOMIC ESPIONAGE AND PROTECTION OF PROPRIETARY ECONOMIC INFORMATION IN INTERSTATE AND FOREIGN COMMERCE.

(a) IN GENERAL.—Title 18, United States Code, is amended by inserting after chapter 89 the following new chapter:

"CHAPTER 90—PROTECTION OF PROPRIETARY ECONOMIC INFORMATION

"Sec.

"1831. Definitions.

"1832. Criminal activities affecting proprietary economic information.

"1833. Criminal forfeiture.

"1834. Civil remedies.

"1835. Extraterritoriality.

"1836. Construction with other laws.

"1837. Preservation of confidentiality.

"1838. Prior authorization requirement.

"1839. Law enforcement and intelligence activities.

"§ 1831. Definitions

"As used in this chapter:

"(1) The term 'person' means a natural person, corporation, agency, association, institution, or any other legal, commercial, or business entity.

"(2) The term 'proprietary economic information' means all forms and types of financial, business, scientific, technical, economic, or engineering information, including data, plans, tools, mechanisms, compounds, formulas, designs, prototypes, processes, procedures, programs, codes, or commercial strategies, whether tangible or intangible, and whether stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing that—

"(A) the owner thereof has taken reasonable measures, under the circumstances, to keep such information confidential; and

"(B) the information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable, acquired, or developed by legal means by the public.

The term does not include any general knowledge, experience, training, or skill that a person lawfully has acquired due to

his work as an employee of or as an independent contractor for any person.

"(3) The term 'owner' means the person or persons in whom, or government component, department, or agency in which, rightful legal, or equitable title to, or license in, proprietary economic information is reposed.

"(4) The term 'without authorization' means not permitted, expressly or implicitly, by the owner.

"§ 1832. Criminal activities affecting proprietary economic information

"(a) Any person, with intent to, or reason to believe that it will, injure any owner of proprietary economic information and with intent to convert it to his or her own use or benefit or the use or benefit of another, who knowingly—

"(1) steals, or without authorization appropriates, takes, carries away, or conceals, or by fraud, artifice, or deception obtains such information;

"(2) without authorization copies, duplicates, sketches, draws, photographs, downloads, uploads, alters, destroys, photocopies, replicates, transmits, delivers, sends, mails, communicates, or conveys such information;

"(3) receives, buys, or possesses such information, knowing the same to have been stolen or appropriated, obtained, or converted without authorization;

"(4) attempts to commit any offense described in paragraphs (1) through (3);

"(5) solicits another to commit any offense described in paragraphs (1) through (3); or

"(6) conspires with one or more other persons to commit any offense described in paragraphs (1) through (3), and one or more of such persons do any act to effect the object of the conspiracy,

shall, except as provided in subsection (b), be fined up to \$250,000, or twice the value of the proprietary economic information, whichever is greater, or imprisoned not more than 10 years, or both.

"(b) Any organization that commits any offense described in subsection (a) shall be fined up to \$10,000,000, or twice the value of the proprietary economic information, whichever is greater.

"(c) This section does not prohibit the reporting of any suspected criminal activity or regulatory violation to any appropriate agency or instrumentality of the United States, a State, a political subdivision of a State, or to Congress.

"§ 1833. Criminal forfeiture

"(a) Notwithstanding any provision of State law, any person or organization convicted of a violation under this chapter shall forfeit to the United States—

"(1) any property constituting or derived from, any proceeds the person or organization obtained, directly or indirectly, as the result of such violation; and

"(2) any of the person's or organization's property used, or intended to be used, in any manner or part to commit or facilitate the commission of such violation.

"(b) The court, in imposing a sentence on such person or organization, shall order, in addition to any other sentence imposed pursuant to this chapter, that the person or organization forfeit to the United States all property described in this section.

"(c) Property subject to forfeiture under this section, any seizure and disposition thereof, and any administrative or judicial proceeding in relation thereto, shall be governed by section 413 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 853), except for subsection 413(d) which shall not apply to forfeitures under this section.

"(d) Notwithstanding section 524(c) of title 28, there shall be deposited in the Crime Victims Fund established under section 1402 of

the Victims of Crime Act of 1984 (42 U.S.C. 10601) all amounts from the forfeiture of property under this section remaining after the payment of expenses and sale authorized by law.

“§ 1834. Civil remedies

“(a) The district courts of the United States shall have jurisdiction to prevent and restrain violations of sections 1832 of this chapter by issuing appropriate orders.

“(b) The Attorney General may institute proceedings under this section. Pending final determination thereof, the court may at any time enter such restraining orders or prohibitions, or take such other actions, including the acceptance of satisfactory performance bonds, as it shall deem proper.

“(c) A final judgment or decree rendered in favor of the United States in any criminal proceeding brought by the United States under this chapter shall estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding brought by the United States.

“§ 1835. Extraterritoriality

“(a) This chapter applies to conduct occurring within the United States.

“(b) This chapter also applies to conduct occurring outside the United States if—

“(1) the offender is a natural person who is a citizen or permanent resident alien of the United States, or an organization organized under the laws of the United States or a State or political subdivision thereof; or

“(2) an act in furtherance of the offense was committed in the United States.

“§ 1836. Construction with other laws

“This chapter shall not be construed to preempt or displace any other Federal or State remedies, whether civil or criminal, for the misappropriation of proprietary economic information, or to affect the otherwise lawful disclosure of information by any government employee under section 552 of title 5 (commonly known as the Freedom of Information Act).

“§ 1837. Preservation of confidentiality

“In any prosecution or other proceeding under this chapter, the court shall enter such orders and take such other action as may be necessary and appropriate to preserve the confidentiality of proprietary economic information, consistent with rule 16 of the Federal Rules of Criminal Procedure, the Federal Rules of Evidence, and other applicable laws. An interlocutory appeal by the United States shall lie from a decision or order of a district court authorizing or directing the disclosure of proprietary economic information.

“§ 1838. Prior authorization requirement

“The United States may not file a charge under this chapter or use a violation of this chapter as a predicate offense under any other law without the personal approval of the Attorney General, the Deputy Attorney General, or the Assistant Attorney General for the Criminal Division of the Department of Justice or the Acting Attorney General, the Acting Deputy Attorney General, or the Acting Assistant Attorney General for the Criminal Division of the Department of Justice.

“§ 1839. Law enforcement and intelligence activities

“This chapter does not prohibit any and shall not impair otherwise lawful activity conducted by an agency or instrumentality of the United States, a State, or a political subdivision of a State.”

(b) TECHNICAL AMENDMENT.—The table of chapters for title 18, United States Code, is amended by inserting after the item relating to chapter 89 the following new item:

“90. Protection of Proprietary Economic Information 1831”.

(c) REPORT.—Not later than 2 years and 4 years after the date of enactment of this Act, the Attorney General shall report to Congress on the amounts received and distributed from forfeitures of property deposited as provided in section 1833(d) of title 18, United States Code, as added by subsection (a) of this section.

SEC. 4. WIRE AND ELECTRONIC COMMUNICATIONS INTERCEPTION AND INTERCEPTION OF ORAL COMMUNICATIONS.

Section 2516(1)(a) of title 18, United States Code, is amended by inserting “chapter 90 (relating to economic espionage and protection of proprietary economic information in interstate and foreign commerce),” after “title:”

SEC. 5. PREVENTION OF FOREIGN ECONOMIC ESPIONAGE.

(a) IN GENERAL.—Part I of title 18, United States Code, is amended by inserting after chapter 27 the following new chapter:

“CHAPTER 28—ECONOMIC ESPIONAGE

“Sec.

“571. Definitions.

“572. Economic espionage.

“573. Criminal forfeiture.

“574. Civil remedies.

“575. Prior authorization requirement.

“576. Construction with other laws.

“577. Preservation of confidentiality.

“578. Law enforcement and intelligence activities.

“§ 571. Definitions

“For purposes of this chapter, the following definitions shall apply:

“(1) FOREIGN AGENT.—The term ‘foreign agent’ means any officer, employee, proxy, servant, delegate, or representative of a foreign government.

“(2) FOREIGN INSTRUMENTALITY.—The term ‘foreign instrumentality’ means any agency, bureau, ministry, component, institution, association, or any legal, commercial, or business organization, corporation, firm, or entity that is substantially owned, controlled, sponsored, commanded, managed, or dominated by a foreign government or subdivision thereof.

“(3) OWNER.—The term ‘owner’ means the person or persons in whom, or the government component, department, or agency in which, rightful legal, or equitable title to, or license in, proprietary economic information is reposed.

“(4) PROPRIETARY ECONOMIC INFORMATION.—The term ‘proprietary economic information’ means all forms and types of financial, business, scientific, technical, economic, or engineering information (including data, plans, tools, mechanisms, compounds, formulas, designs, prototypes, processes, procedures, programs, codes, or commercial strategies) whether tangible or intangible, and whether stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing, if—

“(A) the owner thereof has taken reasonable measures to keep such information confidential; and

“(B) the information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable through legal means by, the public.

“(5) WITHOUT AUTHORIZATION.—The term ‘without authorization’ means not permitted, expressly or implicitly, by the owner.

“§ 572. Economic espionage

“(a) IN GENERAL.—Any person who, with knowledge or reason to believe that he or she is acting on behalf of, or with the intent to benefit, any foreign government, instrumentality, or agent, knowingly—

“(1) steals, or without authorization appropriates, takes, carries away, or conceals, or by fraud, artifice, or deception obtains proprietary economic information;

“(2) without authorization copies, duplicates, sketches, draws, photographs, downloads, uploads, alters, destroys, photocopies, replicates, transmits, delivers, sends, mails, communicates, or conveys proprietary economic information;

“(3) receives, buys, or possesses proprietary economic information, knowing the same to have been stolen or appropriated, obtained, or converted without authorization;

“(4) attempts to commit any offense described in any of paragraphs (1) through (3);

“(5) solicits another to commit any offense described in any of paragraphs (1) through (4); or

“(6) conspires with one or more other persons to commit any offense described in any of paragraphs (1) through (4), and one or more of such persons do any act to effect the object of the conspiracy,

shall, except as provided in subsection (b), be fined not more than \$500,000, or twice the value of the proprietary economic information, whichever is greater, or imprisoned not more than 25 years, or both.

“(b) ORGANIZATIONS.—Any organization that commits any offense described in subsection (a) shall be fined not more than \$10,000,000, or twice the value of the proprietary economic information, whichever is greater.

“(c) EXCEPTION.—It shall not be a violation of this section to disclose proprietary economic information in the case of—

“(1) appropriate disclosures to Congress; or

“(2) disclosures to an authorized official of an executive agency that are deemed essential to reporting a violation of United States law.

“§ 573. Criminal forfeiture

“(a) IN GENERAL.—Notwithstanding any provision of State law to the contrary, any person or organization convicted of a violation under this chapter shall forfeit to the United States—

“(1) any property constituting, or derived from, any proceeds the person or organization obtained, directly or indirectly, as the result of such violation; and

“(2) any of the property of that person or organization used, or intended to be used, in any manner or part, to commit or facilitate the commission of such violation.

“(b) COURT ACTION.—The court, in imposing sentence on such person, shall order, in addition to any other sentence imposed pursuant to this chapter, that the person forfeit to the United States all property described in this section.

“(c) APPLICABILITY OF OTHER LAW.—Property subject to forfeiture under this section, any seizure and disposition thereof, and any administrative or judicial proceeding in relation thereto, shall be governed by the provisions of section 413 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 853), other than subsection (d) of that section.

“§ 574. Scope of extraterritorial jurisdiction

“(a) This chapter applies to conduct occurring within the United States.

“(b) This chapter also applies to conduct occurring outside the United States if—

“(1) the offender is a natural person who is a citizen or permanent resident alien of the United States, or an organization organized under the laws of the United States or a State or political subdivision thereof; or

“(2) an act in furtherance of the offense was committed in the United States.

“§ 575. Civil remedies

“(a) The district courts of the United States shall have jurisdiction to prevent and

restrain violations of section 572 of this chapter by issuing appropriate orders.

"(b) The Attorney General may institute proceedings under this section. Pending final determination thereof, the court may at any time enter such restraining orders or prohibitions, or take such other actions, including the acceptance of satisfactory performance bonds, as it shall deem proper.

"(c) A final judgment or decree rendered in favor of the United States in any criminal proceeding brought by the United States under this chapter shall estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding brought by the United States.

"§ 576. Prior authorization requirement

"The United States may not file a charge under this chapter or use a violation of this chapter as a predicate offense under any other law without the personal approval of the Attorney General, the Deputy Attorney General, or the Assistant Attorney General for the Criminal Division of the Department of Justice or the Acting Attorney General, the Acting Deputy Attorney General, or the Acting Assistant Attorney General for the Criminal Division of the Department of Justice.

"§ 577. Construction with other laws

"This chapter shall not be construed to preempt or displace any other remedies, whether civil or criminal, provided by Federal, State, commonwealth, possession, or territorial laws that are applicable to the misappropriation of proprietary economic information.

"§ 578. Preservation of confidentiality

"In any prosecution or other proceeding under this chapter, the court shall enter such orders and take such other action as may be necessary and appropriate to preserve the confidentiality of proprietary economic information, consistent with the requirements of the Federal Rules of Criminal Procedure, the Federal Rules of Civil Procedure, the Federal Rules of Evidence, and all other applicable laws. An interlocutory appeal by the United States shall lie from a decision or order of a district court authorizing or directing the disclosure of proprietary economic information.

"§ 579. Law enforcement and intelligence activities

"This chapter does not prohibit, and shall not impair, otherwise lawful activity conducted by an agency of the United States, a State, or a political subdivision of a State, or an intelligence agency of the United States."

(b) CLERICAL AMENDMENT.—The table of chapters at the beginning of part I of title 18, United States Code, is amended by inserting after the item relating to chapter 27 the following new item:

"28. Economic Espionage 571".

(c) CONFORMING AMENDMENT.—Section 2516(1)(a) of title 18, United States Code, is amended by inserting "chapter 28 (relating to economic espionage)," after "or under the following chapters of this title:"

GRASSLEY (AND KYL) AMENDMENT NO. 5835

Mr. STEVENS (for Mr. GRASSLEY, for himself and Mr. KYL) proposed an amendment to amendment No. 5384 to the bill, H.R. 3723, supra; as follows:

At the appropriate place, add the following new section:

SEC. 6. (a) WIRE AND COMPUTER FRAUD.—Section 1343 of title 18, United States Code, is amended—

(1) by adding at the end the following new subsection:

"(b) SECRET SERVICE JURISDICTION.—"The Secretary of the Treasury and the Attorney General are authorized to enter into an agreement under which the United States Secret service may investigate certain offenses under this section."

(b) USE OF CERTAIN TECHNOLOGY TO FACILITATE CRIMINAL CONDUCT.—

(1) INFORMATION.—The Administrative Office of the United States Courts shall establish policies and procedures for the inclusion in all Presentence Reports of information that specifically identifies and describes any use of encryption or scrambling technology that would be relevant to an enhancement under Section 3C1.1 (dealing with Obstructing or Impeding the Administration of Justice) of the Sentencing Guidelines or to offense conduct under the Sentencing Guidelines.

(2) COMPILING AND REPORT.—The United States Sentencing Commission shall—

(A) compile and analyze any information contained in documentation described in paragraph (1) relating to the use of encryption or scrambling technology to facilitate or conceal criminal conduct; and

(B) based on the information compiled and analyzed under subparagraph (A), annually report to the Congress on the nature and extent of the use of encryption or scrambling technology to facilitate or conceal criminal conduct."

(c) Section 1029 of Title 18, United States Code is amended by—"Striking the (a)(5) in the second place it appears and replacing it with (a)(8); by striking the (a)(6) the second place it appears and replacing it with (a)(9); and by adding the following new section:

"(a)(10) knowingly and with intent to defraud uses, produces, traffics in, or possesses any device containing electronically stored monetary value."

HATCH AMENDMENT NO. 5386

Mr. STEVENS (for Mr. HATCH) proposed an amendment to amendment No. 5384 to the bill, H.R. 3723, supra; as follows:

At the appropriate place in the bill, add the following:

SEC. ____ TRANSFER OF PERSONS FOUND NOT GUILTY BY REASON OF INSANITY.

(a) AMENDMENT OF SECTION 4243 OF TITLE 18.—Section 4243 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(i) CERTAIN PERSONS FOUND NOT GUILTY BY REASON OF INSANITY IN THE DISTRICT OF COLUMBIA.—

"(1) TRANSFER TO CUSTODY OF THE ATTORNEY GENERAL.—Notwithstanding section 301(h) of title 24 of the District of Columbia Code, and notwithstanding subsection 4247(j) of this title, all persons who have been committed to a hospital for the mentally ill pursuant to section 301(d)(1) of title 24 of the District of Columbia Code, and for whom the United States has continuing financial responsibility, may be transferred to the custody of the Attorney General, who shall hospitalize the person for treatment in a suitable facility.

"(2) APPLICATION.—

"(A) IN GENERAL.—The Attorney General may establish custody over such persons by filing an application in the United States District Court for the District of Columbia, demonstrating that the person to be transferred is a person described in this subsection.

"(B) NOTICE.—The Attorney General shall, by any means reasonably designed to do so, provide written notice of the proposed trans-

fer of custody to such person or such person's guardian, legal representative, or other lawful agent. The person to be transferred shall be afforded an opportunity, not to exceed 15 days, to respond to the proposed transfer of custody, and may, at the court's discretion, be afforded a hearing on the proposed transfer of custody. Such hearing, if granted, shall be limited to a determination of whether the constitutional rights of such person would be violated by the proposed transfer of custody.

"(C) ORDER.—Upon application of the Attorney General, the court shall order the person transferred to the custody of the Attorney General, unless, pursuant to a hearing under this paragraph, the court finds that the proposed transfer would violate a right of such person under the United States Constitution.

"(D) EFFECT.—Nothing in this paragraph shall be construed to—

"(i) create in any person a liberty interest in being granted a hearing or notice on any matter;

"(ii) create in favor of any person a cause of action against the United States or any officer or employee of the United States; or

"(iii) limit in any manner or degree the ability of the Attorney General to move, transfer, or otherwise manage any person committed to the custody of the Attorney General.

"(3) CONSTRUCTION WITH OTHER SECTIONS.—Subsections (f) and (g) and section 4247 shall apply to any person transferred to the custody of the Attorney General pursuant to this subsection."

(b) TRANSFER OF RECORDS.—Notwithstanding any provision of the District of Columbia Code or any other provision of law, the District of Columbia and St. Elizabeth's Hospital—

(1) not later than 30 days after the date of enactment of this Act, shall provide to the Attorney General copies of all records in the custody or control of the District or the Hospital on such date of enactment pertaining to persons described in section 4243(i) of title 18, United States Code (as added by subsection (a));

(2) not later than 30 days after the creation of any records by employees, agents, or contractors of the District of Columbia or of St. Elizabeth's Hospital pertaining to persons described in section 4243(i) of title 18, United States Code, provide to the Attorney General copies of all such records created after the date of enactment of this Act;

(3) shall not prevent or impede any employee, agent, or contractor of the District of Columbia or of St. Elizabeth's Hospital who has obtained knowledge of the persons described in section 4243(i) of title 18, United States Code, in the employee's professional capacity from providing that knowledge to the Attorney General, nor shall civil or criminal liability attach to such employees, agents, or contractors who provide such knowledge; and

(4) shall not prevent or impede interviews of persons described in section 4243(i) of title 18, United States Code, by representatives of the Attorney General, if such persons voluntarily consent to such interviews.

(c) CLARIFICATION OF EFFECT ON CERTAIN TESTIMONIAL PRIVILEGES.—The amendments made by this section shall not be construed to affect in any manner any doctor-patient or psychotherapist-patient testimonial privilege that may be otherwise applicable to persons found not guilty by reason of insanity and affected by this section.

(d) SEVERABILITY.—If any provision of this section, an amendment made by this section, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of

this section and the amendments made by this section shall not be affected thereby.

**HATCH (AND KOHL) AMENDMENT
NO. 5387**

Mr. STEVENS (for Mr. HATCH, for himself and Mr. KOHL) proposed an amendment to amendment No. 5384 proposed by Mr. SPECTER to the bill, H.R. 3723, supra; as follows:

At the appropriate place in the bill, add the following:

SEC. — ESTABLISHING BOYS AND GIRLS CLUBS.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Boys and Girls Clubs of America, chartered by an Act of Congress on December 10, 1991, during its 90-year history as a national organization, has proven itself as a positive force in the communities it serves;

(B) there are 1,810 Boys and Girls Clubs facilities throughout the United States, Puerto Rico, and the United States Virgin Islands, serving 2,420,000 youths nationwide;

(C) 71 percent of the young people who benefit from Boys and Girls Clubs programs live in our inner cities and urban areas;

(D) Boys and Girls Clubs are locally run and have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement;

(E) Boys and Girls Clubs are located in 289 public housing sites across the Nation;

(F) public housing projects in which there is an active Boys and Girls Club have experienced a 25 percent reduction in the presence of crack cocaine, a 22 percent reduction in overall drug activity, and a 13 percent reduction in juvenile crime;

(G) these results have been achieved in the face of national trends in which overall drug use by youth has increased 105 percent since 1992 and 10.9 percent of the Nation's young people use drugs on a monthly basis; and

(H) many public housing projects and other distressed areas are still underserved by Boys and Girls Clubs.

(2) PURPOSE.—It is the purpose of this section to provide adequate resources in the form of seed money for the Boys and Girls Clubs of America to establish 1,000 additional local Boys and Girls Clubs in public housing projects and other distressed areas by 2001.

(b) DEFINITIONS.—For purposes of this section—

(1) the terms "public housing" and "project" have the same meanings as in section 3(b) of the United States Housing Act of 1937; and

(2) the term "distressed area" means an urban, suburban, or rural area with a high percentage of high risk youth as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)).

(c) ESTABLISHMENT.—

(1) IN GENERAL.—For each of the fiscal years 1997, 1998, 1999, 2000, and 2001, the Director of the Bureau of Justice Assistance of the Department of Justice shall provide a grant to the Boys and Girls Clubs of America for the purpose of establishing Boys and Girls Clubs in public housing projects and other distressed areas.

(2) CONTRACTING AUTHORITY.—Where appropriate, the Secretary of Housing and Urban Development, in consultation with the Attorney General, shall enter into contracts with the Boys and Girls Clubs of America to establish clubs pursuant to the grants under paragraph (1).

(d) REPORT.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Attorney General shall submit to the Committees on

the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing Boys and Girls Clubs in public housing projects and other distressed areas, and the effectiveness of the programs in reducing drug abuse and juvenile crime.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) \$20,000,000 for fiscal year 1997;

(B) \$20,000,000 for fiscal year 1998;

(C) \$20,000,000 for fiscal year 1999;

(D) \$20,000,000 for fiscal year 2000; and

(E) \$20,000,000 for fiscal year 2001.

(2) VIOLENT CRIME REDUCTION TRUST FUND.—

The sums authorized to be appropriated by this subsection may be made from the Violent Crime Reduction Trust Fund.

THE NATIONAL INFORMATION INFRASTRUCTURE PROTECTION ACT OF 1996

HATCH AMENDMENTS NOS. 5388-5389

Mr. STEVENS (for Mr. HATCH) proposed two amendments to the bill (S. 982) to protect the national information infrastructure, and for other purposes; as follows:

AMENDMENT NO. 5388

At the appropriate place in the bill, add the following:

SEC. . TRANSFER OF PERSONS FOUND NOT GUILTY BY REASON OF INSANITY.

(a) AMENDMENT OF SECTION 4243 OF TITLE 18.—Section 4243 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(i) CERTAIN PERSONS FOUND NOT GUILTY BY REASON OF INSANITY IN THE DISTRICT OF COLUMBIA.—

"(1) TRANSFER TO CUSTODY OF THE ATTORNEY GENERAL.—Notwithstanding section 301(h) of title 24 of the District of Columbia Code, and notwithstanding subsection 4247(j) of this title, all persons who have been committed to a hospital for the mentally ill pursuant to section 301(d)(1) of title 24 of the District of Columbia Code, and for whom the United States has continuing financial responsibility, may be transferred to the custody of the Attorney General, who shall hospitalize the person for treatment in a suitable facility.

"(2) APPLICATION.—

"(A) IN GENERAL.—The Attorney General may establish custody over such persons by filing an application in the United States District Court for the District of Columbia, demonstrating that the person to be transferred is a person described in this subsection.

"(B) NOTICE.—The Attorney General shall, by any means reasonably designed to do so, provide written notice of the proposed transfer of custody to such person or such person's guardian, legal representative, or other lawful agent. The person to be transferred shall be afforded an opportunity, not to exceed 15 days, to respond to the proposed transfer of custody, and may, at the court's discretion, be afforded a hearing on the proposed transfer of custody. Such hearing, if granted, shall be limited to a determination of whether the constitutional rights of such person would be violated by the proposed transfer of custody.

"(C) ORDER.—Upon application of the Attorney General, the court shall order the person transferred to the custody of the Attorney General, unless, pursuant to a hearing under this paragraph, the court finds

that the proposed transfer would violate a right of such person under the United States Constitution.

"(D) EFFECT.—Nothing in this paragraph shall be construed to—

"(i) create in any person a liberty interest in being granted a hearing or notice on any matter;

"(ii) create in favor of any person a cause of action against the United States or any officer or employee of the United States; or

"(iii) limit in any manner or degree the ability of the Attorney General to move, transfer, or otherwise manage any person committed to the custody of the Attorney General.

"(3) CONSTRUCTION WITH OTHER SECTIONS.—Subsections (f) and (g) and section 4247 shall apply to any person transferred to the custody of the Attorney General pursuant to this subsection."

(b) TRANSFER OF RECORDS.—Notwithstanding any provision of the District of Columbia Code or any other provision of law, the District of Columbia and St. Elizabeth's Hospital—

(1) not later than 30 days after the date of enactment of this Act, shall provide to the Attorney General copies of all records in the custody or control of the District or the Hospital on such date of enactment pertaining to persons described in section 4243(i) of title 18, United States Code (as added by subsection (a));

(2) not later than 30 days after the creation of any records by employees, agents, or contractors of the District of Columbia or of St. Elizabeth's Hospital pertaining to persons described in section 4243(i) of title 18, United States Code, provide to the Attorney General copies of all such records created after the date of enactment of this Act;

(3) shall not prevent or impede any employee, agent, or contractor of the District of Columbia or of St. Elizabeth's Hospital who has obtained knowledge of the persons described in section 4243(i) of title 18, United States Code, in the employee's professional capacity from providing that knowledge to the Attorney General, nor shall civil or criminal liability attach to such employees, agents, or contractors who provide such knowledge; and

(4) shall not prevent or impede interviews of persons described in section 4243(i) of title 18, United States Code, by representatives of the Attorney General, if such persons voluntarily consent to such interviews.

(c) CLARIFICATION OF EFFECT ON CERTAIN TESTIMONIAL PRIVILEGES.—The amendments made by this section shall not be construed to affect in any manner any doctor-patient or psychotherapist-patient testimonial privilege that may be otherwise applicable to persons found not guilty by reason of insanity and affected by this section.

(d) SEVERABILITY.—If any provision of this section, an amendment made by this section, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this section and the amendments made by this section shall not be affected thereby.

AMENDMENT NO. 5389

At the appropriate place in the bill, add the following:

SEC. . ESTABLISHING BOYS AND GIRLS CLUBS.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Boys and Girls Clubs of America, chartered by an Act of Congress on December 10, 1991, during its 90-year history as a national organization, has proven itself as a positive force in the communities it serves;

(B) there are 1,810 Boys and Girls Clubs facilities throughout the United States, Puerto Rico, and the United States Virgin Islands, serving 2,420,000 youths nationwide;

(C) 71 percent of the young people who benefit from Boys and Girls Clubs programs live in our inner cities and urban areas;

(D) Boys and Girls Clubs are locally run and have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement;

(E) Boys and Girls Clubs are located in 289 public housing sites across the Nation;

(F) public housing projects in which there is an active Boys and Girls Club have experienced a 25 percent reduction in the presence of crack cocaine, a 22 percent reduction in overall drug activity, and a 13 percent reduction in juvenile crime;

(G) these results have been achieved in the face of national trends in which overall drug use by youth has increased 105 percent since 1992 and 10.9 percent of the Nation's young people use drugs on a monthly basis; and

(H) many public housing projects and other distressed areas are still underserved by Boys and Girls Clubs.

(2) PURPOSE.—It is the purpose of this section to provide adequate resources in the form of seed money for the Boys and Girls Clubs of America to establish 1,000 additional local Boys and Girls Clubs in public housing projects and other distressed areas by 2001.

(b) DEFINITIONS.—For purposes of this section—

(1) the terms "public housing" and "project" have the same meanings as in section 3(b) of the United States Housing Act of 1937; and

(2) the term "distressed area" means an urban, suburban, or rural area with a high percentage of high risk youth as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)).

(c) ESTABLISHMENT.—

(1) IN GENERAL.—For each of the fiscal years 1997, 1998, 1999, 2000, and 2001, the Director of the Bureau of Justice Assistance of the Department of Justice shall provide a grant to the Boys and Girls Clubs of America for the purpose of establishing Boys and Girls Clubs in public housing projects and other distressed areas.

(2) CONTRACTING AUTHORITY.—Where appropriate, the Secretary of Housing and Urban Development, in consultation with the Attorney General, shall enter into contracts with the Boys and Girls Clubs of America to establish clubs pursuant to the grants under paragraph (1).

(d) REPORT.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing Boys and Girls Clubs in public housing projects and other distressed areas, and the effectiveness of the programs in reducing drug abuse and juvenile crime.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

- (A) \$20,000,000 for fiscal year 1997;
- (B) \$20,000,000 for fiscal year 1998;
- (C) \$20,000,000 for fiscal year 1999;
- (D) \$20,000,000 for fiscal year 2000; and
- (E) \$20,000,000 for fiscal year 2001.

(2) VIOLENT CRIME REDUCTION TRUST FUND.—The sums authorized to be appropriated by this subsection may be made from the Violent Crime Reduction Trust Fund.

THE NATIONAL TRANSPORTATION SAFETY BOARD AMENDMENTS OF 1996

PRESSLER AMENDMENT NO. 5390

Mr. STEVENS (for Mr. PRESSLER) proposed an amendment to the bill (S. 1831) to amend title 49, United States Code, to authorize appropriations for fiscal years 1997, 1998, and 1999 for the National Transportation Safety Board, and for other purposes; as follows:

On page 2, before line 1, insert the following:

TITLE I—NTSB AMENDMENTS

On page 2, line 1, strike "**SECTION 1.**" and insert "**SEC. 101.**"

On page 2, line 4, strike "**SEC. 2.**" and insert "**SEC. 102.**"

On page 3, line 3, strike "**SEC. 3.**" and insert "**SEC. 103.**"

On page 3, line 17, strike "**SEC. 4.**" and insert "**SEC. 104.**"

On page 4, line 8, strike "**SEC. 5.**" and insert "**SEC. 105.**"

On page 4, after line 15, insert the following:

TITLE II—INTERMODAL TRANSPORTATION

SEC. 201. SHORT TITLE.

This title may be cited as the "Intermodal Safe Container Transportation Amendments Act of 1996".

SEC. 202. AMENDMENT OF TITLE 49, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 49 of the United States Code.

SEC. 203. DEFINITIONS.

Section 5901 (relating to definitions) is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) except as otherwise provided in this chapter, the definitions in sections 10102 and 13102 of this title apply.";

(2) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively; and

(3) by inserting after paragraph (5) the following:

"(6) 'gross cargo weight' means the weight of the cargo, packaging materials (including ice), pallets, and dunnage."

SEC. 204. NOTIFICATION AND CERTIFICATION.

(a) PRIOR NOTIFICATION.—Subsection (a) of section 5902 (relating to prior notification) is amended—

(1) by striking "Before a person tenders to a first carrier for intermodal transportation a" and inserting "If the first carrier to which any";

(2) by striking "10,000 pounds (including packing material and pallets), the person shall give the carrier a written" and inserting "29,000 pounds is tendered for intermodal transportation is a motor carrier, the person tendering the container or trailer shall give the motor carrier a";

(3) by striking "trailer." and inserting "trailer before the tendering of the container or trailer.";

(4) by striking "electronically." and inserting "electronically or by telephone."; and

(5) by adding at the end thereof the following: "This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier."

(b) CERTIFICATION.—Subsection (b) of section 5902 (relating to certification) is amended to read as follows:

"(b) CERTIFICATION.—

"(1) IN GENERAL.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

"(2) CONTENTS OF CERTIFICATION.—The certification required by paragraph (1) shall include—

"(A) the actual gross cargo weight;

"(B) a reasonable description of the contents of the container or trailer;

"(C) the identity of the certifying party;

"(D) the container or trailer number; and

"(E) the date of certification or transfer of data to another document, as provided for in paragraph (3).

"(3) TRANSFER OF CERTIFICATION DATA.—A carrier who receives a certification may transfer the information contained in the certification to another document or to electric format for forwarding to a subsequent carrier. The person transferring the information shall state on the forwarded document the date on which the data was transferred and the identity of the party who performed the transfer.

"(4) SHIPPING DOCUMENTS.—For purposes of this chapter, a shipping document, prepared by the person who tenders a container or trailer to a first carrier, that contains the information required by paragraph (2) meets the requirements of paragraph (1).

"(5) USE OF 'FREIGHT ALL KINDS' TERM.—The term 'Freight All Kinds' or 'FAK' may not be used for the purpose of certification under section 5902(b) after December 31, 2000, as a commodity description for a trailer or container if the weight of any commodity in the trailer or container equals or exceeds 20 percent of the total weight of the contents of the trailer or container. This subsection does not prohibit the use of the term after that date for rating purposes.

"(6) SEPARATE DOCUMENT MARKING.—If a separate document is used to meet the requirements of paragraph (1), it shall be conspicuously marked 'INTERMODAL CERTIFICATION'.

"(7) APPLICABILITY.—This subsection applies to any person, domestic or foreign, who first tenders a container or trailer subject to this chapter for intermodal transportation within the United States."

(c) FORWARDING CERTIFICATIONS.—Subsection (c) of section 5902 (relating to forwarding certifications to subsequent carriers) is amended—

(1) by striking "transportation." and inserting "transportation before or when the loaded intermodal container or trailer is tendered to the subsequent carrier. If no certification is received by the subsequent carrier before or when the container or trailer is tendered to it, the subsequent carrier may presume that no certification is required."; and

(2) by adding at the end thereof the following: "If a person inaccurately transfers the information on the certification, or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest for any such fine, penalty, cost (including storage), or interest incurred as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall

have a lien against the contents of the container or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure."

(d) LIABILITY.—Section 5902 is amended by redesignating subsection (d) as subsection (e), and by inserting after subsection (c) the following:

"(d) LIABILITY TO OWNER OR BENEFICIAL OWNER.—If—

"(1) a person inaccurately transfers information on a certification required by subsection (b)(1), or fails to forward a certification to the subsequent carrier;

"(2) as a result of the inaccurate transfer of such information or a failure to forward a certification, the subsequent carrier incurs a bond, fine, penalty, or cost (including storage), or interest; and

"(3) that subsequent carrier exercises its rights to a lien under section 5905,

then that person is liable to the owner or beneficial owner, or to any other person paying the amount of the lien to the subsequent carrier, for the amount of the lien and all costs related to the imposition of the lien, including court costs and legal fees incurred in connection with it."

(e) NONAPPLICATION.—Subsection (e) of section 5902, as redesignated, is amended—

(1) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively; and

(2) by inserting before paragraph (2), as redesignated, the following:

"(1) The notification and certification requirements of subsections (a) and (b) of this section do not apply to any intermodal container or trailer containing consolidated shipments loaded by a motor carrier if that motor carrier—

"(A) performs the highway portion of the intermodal movement; or

"(B) assumes the responsibility for any weight-related fine or penalty incurred by any other motor carrier that performs a part of the highway transportation."

SEC. 205. PROHIBITIONS.

Section 5903 (relating to prohibitions) is amended—

(1) by inserting after "person" a comma and the following: "To whom section 5902(b) applies,;"

(2) by striking subsection (b) and inserting the following:

"(b) TRANSPORTING PRIOR TO RECEIVING CERTIFICATION.—

"(1) PRESUMPTION.—If no certification is received by a motor carrier before or when a loaded intermodal container or trailer is tendered to it, the motor carrier may presume that the gross cargo weight of the container or trailer is less than 29,001 pounds.

"(2) COPY OF CERTIFICATION NOT REQUIRED TO ACCOMPANY CONTAINER OR TRAILER.—Notwithstanding any other provision of this chapter to the contrary, a copy of the certification required by section 5902(b) is not required to accompany the intermodal container or trailer;"

(3) by striking "10,000 pounds (including packing materials and pallets)" in subsection (c)(1) and inserting "29,000 pounds"; and

(4) by adding at the end the following:

"(d) NOTICE TO LEASED OPERATORS.—

"(1) IN GENERAL.—If a motor carrier knows that the gross cargo weight of an intermodal container or trailer subject to the certification requirements of section 5902(b) would result in a violation of applicable State gross vehicle weight laws, then—

"(A) the motor carrier shall give notice to the operator of a vehicle which is leased by the vehicle operator to a motor carrier that

transports an intermodal container or trailer of the gross cargo weight of the container or trailer as certified to the motor carrier under section 5902(b);

"(B) the notice shall be provided to the operator prior to the operator being tendered the container or trailer;

"(C) the notice required by this subsection shall be in writing, but may be transmitted electronically; and

"(D) the motor carrier shall bear the burden of proof to establish that it tendered the required notice to the operator.

"(2) REIMBURSEMENT.—If the operator of a leased vehicle transporting a container or trailer subject to this chapter is fined because of a violation of a State's gross vehicle weight laws or regulations and the lessee motor carrier cannot establish that it tendered to the operator the notice required by paragraph (1) of this subsection, then the operator shall be entitled to reimbursement from the motor carrier in the amount of any fine and court costs resulting from the failure of the motor carrier to tender the notice to the operator."

SEC. 206. LIENS.

Section 5905 (relating to liens) is amended—

(1) by striking subsection (a) and inserting the following:

"(a) GENERAL.—If a person involved in the intermodal transportation of a loaded container or trailer for which a certification is required by section 5902(b) of this title is required, because of a violation of a State's gross vehicle weight laws or regulations, to post a bond or pay a fine, penalty, cost (including storage), or interest resulting from—

"(1) erroneous information provided by the certifying party in the certification to the first carrier in violation of section 4903(a) of this title;

"(2) the failure of the party required to provide the certification to the first carrier to provide it;

"(3) the failure of a person required under section 5902(c) to forward the certification to forward it; or

"(4) an error occurring in the transfer of information on the certification to another document under section 5902(b)(3) or (c), then the person posting the bond, or paying the fine, penalty, costs (including storage), or interest has a lien against the contents equal to the amount of the bond, fine, penalty, cost (including storage), or interest incurred, until the person receives a payment of that amount from the owner or beneficial owner of the contents, or from the person responsible for making or forwarding the certification, or transferring the information from the certification to another document;"

(2) by inserting a comma and "or the owner or beneficial owner of the contents," after "first carrier" in subsection 9(b)(1); and

(3) by striking "cost, or interest," in subsection (b)(1) and inserting "cost (including storage), or interest. The lien shall remain in effect until the lien holder has received payment for all costs and expenses described in subsection (a) of this section."

SEC. 207. PERISHABLE AGRICULTURAL COMMODITIES.

Section 5906 (relating to perishable agricultural commodities) is amended by striking "Sections 5904(a)(2) and 5905 of this title do" and inserting "Section 5905 of this title does".

SEC. 208. EFFECTIVE DATE.

(a) IN GENERAL.—Section 5907 (relating to regulations and effective date) is amended to read as follows:

"§ 5907. Effective date

"This chapter shall take effect 180 days after the date of enactment of the Intermodal Safe Container Transportation Amendments Act of 1996."

(b) CLERICAL AMENDMENT.—The table of sections for chapter 59 is amended by striking the item relating to section 5709 and inserting the following:

"§5907. Effective date".

SEC. 209. RELATIONSHIP TO OTHER LAWS.

(a) IN GENERAL.—Chapter 59 is amended by adding at the end thereof the following:

"§ 5908. Relationship to other laws

"Nothing in this chapter affects—

"(1) chapter 51 (relating to transportation of hazardous material) or the regulations promulgated under that chapter; or

"(2) any State highway weight or size law or regulation applicable to tractor-trailer combinations."

(b) CLERICAL AMENDMENT.—The table of sections for such chapter is amended by adding at the end thereof the following:

"5908. Relationship to other laws"

NOTICE OF HEARING

SPECIAL COMMITTEE ON AGING

Mr. COHEN. Mr. President, I wish to announce that the Special Committee on Aging will hold a hearing on Tuesday, September 24, 1996, at 9 a.m., in room 628 of the Dirksen Senate Office Building. The hearing will discuss Social Security reform.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. MCCAIN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet at 2 p.m. on Wednesday, September 18, 1996, in closed/open session, to receive testimony on the report of the Downing Assessment Task Force on the bomb attack on Khobar Towers in Saudi Arabia, and other issues related to United States policy in the Middle East.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. MCCAIN. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be granted permission to meet during the session of the Senate on Wednesday, September 18, 1996, for purposes of conducting a full committee hearing which is scheduled to begin at 9:30 a.m. The purpose of this hearing is to consider S. 1920, a bill to amend the Alaska National Interest Lands Conservation Act, and for other purposes; and S. 1998, a bill to provide for expedited negotiations between the Secretary of the Interior and the villages of Chickaloon-Moose Creek Native Association, Inc., Ninilchik Native Association, Inc., Seldovia Native Association, Inc., Tyonek Native Corporation, and Knikatnu, Inc., regarding the conveyances of certain lands in Alaska under the Alaska Native Claims Settlement Act, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. MCCAIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to

meet during the session of the Senate on Wednesday, September 18, 1996, at 10 a.m. to hold a hearing on S. 961, the Omnibus Patent Act of 1996.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. McCAIN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Wednesday, September 18, 1996, at 2 p.m. to hold a hearing on violent and drug trafficking crimes: the Bailey decision's effect on prosecutions under 924(c).

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON EAST ASIAN AND PACIFIC AFFAIRS

Mr. McCAIN. Mr. President, I ask unanimous consent that the Subcommittee on East Asian and Pacific Affairs of the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, September 18, 1996, at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON HUD OVERSIGHT

Mr. McCAIN. Mr. President, I ask unanimous consent that the Subcommittee on HUD Oversight and Structure of the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Wednesday, September 18, 1996, to conduct a hearing on oversight of the Fair Housing Act and its enforcement.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

ENTHRONEMENT OF ARCHBISHOP SPYRIDON

• Ms. SNOWE. Mr. President, as a member of the Greek Orthodox faith, I would like to join my colleagues and so many other Americans in honoring the enthronement for His Eminence Metropolitan Spyridon to become the fifth Archbishop of America since the establishment in 1922 of the Greek Orthodox Archdiocese of North and South America. The Christian Orthodox faith, under the spiritual guidance of the Ecumenical Patriarch, is one of the world's great religions. It traces its roots to the original Holy Apostles, and today includes over 250 million faithful worldwide.

Archbishop Spyridon's enthronement this Saturday, September 21, at the Archdiocesan Cathedral of the Holy Trinity in New York City, is an historic occasion. This event, coming after the long and venerated reign of Archbishop Iakovos, is a hallowed symbol of the Church's continuity in the Americas under the spiritual guidance and jurisdiction of the Ecumenical Patriarchate. At the same time, this sacred event demonstrates the growth

and maturation of the Greek Orthodox Church in our hemisphere, with the enthronement of the first Archbishop born and raised within the Archdiocese of North and South America.

Archbishop Spyridon, the son of Clara and the late Dr. Constantine Papageorge, was born in Warren, OH, on September 24, 1944. He attended school in the United States, and graduated from high school in Tarpon Springs, FL.

Archbishop Spyridon then went on to study at the renowned Theological School of Halki in Turkey, where he graduated in 1966 with highest honors. Until closed by the Turkish Government in 1971, this was the only theological school maintained by the Christian Orthodox Ecumenical Patriarchate. The Halki Theological School, if it were still in operation, would last year have celebrated its 150th anniversary. Archbishop Spyridon undertook subsequent postgraduate studies at the University of Geneva in Switzerland and at the Bochum University in Germany.

Since finishing his education, Archbishop Spyridon undertook high religious missions in a variety of locales. Early in his career, he served as secretary of the Ecumenical Patriarchate delegation to the World Council of Churches, as secretary of the Orthodox Center of the Ecumenical Patriarchate at Chambesy in Geneva, and as dean of the Greek Orthodox Community of St. Andrew in Rome. In 1985 the Ecumenical Patriarchate selected him titular bishop of Apamea and assigned him as the auxiliary bishop to the Greek Orthodox Archdiocese of Austria and Exarchate of Italy. In 1991 the Holy Synod of the Ecumenical Patriarchate elected Spyridon as the first Metropolitan for the newly created Archdiocese of Italy and Exarchate of Southern Europe.

Mr. President, these are just the highlights of service so far of this tremendously skilled, youthful and devoted man of faith, a man who is fluent in Greek, French, Italian, German, and, of course, English. Now he will bring his energy and experiences to his new calling as Archbishop of the Greek Orthodox Archdiocese of North and South America, where, in America alone, he will preside over 550 Greek Orthodox parishes, with over 1.5 million members.

I again wish to add my voice to all those honoring Archbishop Spyridon at the time of his enthronement. This is, of course, a time for celebration and prayer. But it is also a time for welcoming the Archbishop home after his decades of service to the faith throughout the world. •

EVOLUTION OF A PLATFORM PLANK

• Mr. MOYNIHAN. Mr. President, I would like to make a few, brief comments about the evolution of the welfare plank in the Democratic Party's national platform for the coming election.

JULY 8: FIRST DRAFT

Staff members of the Democratic National Committee wrote the initial draft of the party platform. The document was dated July 8, 1996, and contained the following plank on welfare:

Welfare Reform. There is no greater gap between mainstream American values and modern American government than our failed welfare system. When Bill Clinton became President, the welfare system undermined the very values—work, family, and, especially, personal responsibility—that it should promote. Over the past four years, President Clinton—without help from Congress—has dramatically transformed the welfare system. He has freed 40 states from federal rules and regulations so they can reform their welfare systems. The Clinton Administration has granted [70] waivers—more than twice as many waivers as granted in the Reagan-Bush years. For 75 percent of all Americans on welfare, the rules have changed for good, and welfare is becoming what it should be: a second chance, not a way of life. Welfare rolls are finally coming down—there are 1.3 million fewer people on welfare today than there were in 1992.

The President has also taken strong executive action to make sure that the welfare system strengthens families and demands responsibility. He ordered states to require minor mothers to stay in school and turn their lives around so they can get a job and get off welfare for good. He also ordered states to require mothers to name the father of their children before they can get welfare, so we can find those fathers and make them pay the child support they owe.

Now we must finish the job. We should pass national welfare reform to end welfare as we know it across America. Unfortunately, the plan proposed by Senator Dole and Speaker Gingrich was weak on work and tough on children. That's the wrong approach. We should be tough on work and demand responsibility, but we shouldn't punish children for their parents' mistakes. A real bipartisan welfare reform plan should require that anyone on welfare who can work, goes to work. And we should provide child care and health care so parents can work. We should impose strict time limits so that no one who can work can stay on welfare forever. We should require minor mothers to live with their parents or another responsible adult.

JULY 26: INITIAL DRAFT REVISED BY DRAFTING COMMITTEE

The initial draft was sent to members of the drafting committee, chaired by Georgia Gov. Zell Miller. The 15 members of the drafting committee met on July 11 in Kansas City to revise the initial draft. On July 26, the drafting committee issued its revised draft of the platform and sent it to the members of the platform committee. The revised welfare plank was slightly longer, but contained essentially the same language as the first version:

Welfare reform. Today's Democratic Party knows there is no greater gap between mainstream American values and modern American government than our failed welfare system. When Bill Clinton became President, the welfare system undermined the very values—work, family, and personal responsibility—that it should promote. The welfare system should reflect those values: we want to help people who want to help themselves and their children.

Over the past 4 years, President Clinton—acting alone—has dramatically transformed the welfare system. He has freed 41 states from federal rules and regulations so they

can reform their welfare systems. The Clinton Administration has granted 69 waivers—more than twice as many waivers as granted in the Reagan-Bush years. For 75 percent of all Americans on welfare, the rules have changed for good already, and welfare is becoming what it should be: a second chance, not a way of life. Welfare rolls are finally coming down—there are 1.3 million fewer people on welfare today than there were when President Clinton took office in January 1993.

The President has also taken strong executive action to make sure that the welfare system strengthens families and demands responsibility. He ordered states to require minor mothers to stay in school and turn their lives around so they can get a job and get off welfare for good. He also directed states to require mothers to help identify and find absent fathers so we can make them pay the child support they owe. He challenged all states to require teen mothers to live at home or with a responsible adult. And the President fought to make sure that poor children get health care and nutrition to meet their basic needs.

Now we must finish the job, and pass national welfare reform. Unfortunately, the plan proposed by Senator Dole and Speaker Gingrich was weak on work and tough on children. That is the wrong approach. We should be tough on work and demand responsibility, but we should not punish children for their parents' mistakes. A real bipartisan welfare reform plan should require that, anyone on welfare who can work, goes to work. And we should provide child care and health care so parents can work. We should impose strict time limits so that no one who can work can stay on welfare forever. We should require minor mothers to live with their parents or another responsible adult. If the Republican Party puts politics aside, we can finish the job President Clinton started, and end welfare as we know it across America. Passing legislation is not enough; we should make sure people get the skills they need to get jobs, and that there are jobs for them to go to so they leave welfare and stay off. Welfare reform should put more people to work and move them into the economic mainstream, not take jobs away from working families.

JULY 31—AUGUST 4: DNC STAFF CHANGE PLATFORM

The President announced on July 31 that he would sign the Dole-Gingrich welfare plan into law—which he did on August 22. Democratic National Committee staff thereupon revised the platform plank on welfare to reflect the President's newly announced intentions. The platform plank on welfare, which previously denounced the legislation Congress had passed, now endorsed it.

AUGUST 5: FINAL PLATFORM ISSUED

The full platform committee met in Pittsburgh, PA on August 5 and approved the changes to the Kansas City draft. The new platform plank on welfare, as changed by DNC staff, was nearly identical to the final version approved by the convention delegates in Chicago on August 27 with the exception of one sentence noted below which was formally added as an amendment during the Pittsburgh session. The new plank reads as follows:

Welfare reform. Today's Democratic Party knows there is no greater gap between mainstream American values and modern American government than our failed welfare sys-

tem. When Bill Clinton became President, the welfare system undermined the very values—work, family, and personal responsibility—that it should promote. The welfare system should reflect those values: we want to help people who want to help themselves and their children.

Over the past 4 years, President Clinton has dramatically transformed the welfare system. He has freed 41 states from federal rules and regulations so they can reform their welfare systems. The Clinton Administration has granted 69 waivers—more than twice as many waivers as granted in the Reagan-Bush years. For 75 percent of all Americans on welfare, the rules have changed for good already, and welfare is becoming what it should be: a second chance, not a way of life. Welfare rolls are finally coming down—there are 1.3 million fewer people on welfare today than there were when President Clinton took office in January 1993.

Now, because of the President's leadership and with the support of a majority of the Democrats in Congress, national welfare reform is going to make work and responsibility the law of the land. Thanks to President Clinton and the Democrats, the new welfare bill includes the health care and child care people need so they can go to work confident their children will be cared for. Thanks to President Clinton and the Democrats, the new welfare bill imposes time limits and real work requirements—so anyone who can work, does work, and so that no one who can work can stay on welfare forever. Thanks to President Clinton and the Democrats, the new welfare bill cracks down on deadbeat parents and requires minor mothers to live at home with their parents or with another responsible adult.

We are proud the President forced Congressional Republicans to abandon their wrong-headed and mean-spirited efforts to punish the poor. Republicans wanted to eliminate the guarantee of health care for the poor, the elderly, and the disabled. They were wrong, and we stopped them. Republicans wanted to destroy the food stamp and school lunch programs that provide basic nutrition to millions of working families and poor children. They were wrong, and we stopped them. Republicans wanted to gut child abuse prevention and foster care. They were wrong, and we stopped them. Republicans wanted to cut off young, unwed mothers—because they actually thought their children would be better off living in an orphanage. They were dead wrong, and we stopped them. The bill Republicans in Congress passed last year was values-backward—it was soft on work and tough on children, and we applaud the President for stopping it.

We know the new bill passed by Congress is far from perfect—parts of it should be fixed because they go too far and have nothing to do with welfare reform. First, Republicans cut too far into nutritional assistance for working families with children; we are committed to correcting that. Second, Republicans insisted on using welfare reform as a vehicle to cut off help to legal immigrants. That was wrong. Legal immigrants work hard, pay their taxes, and serve America. It is wrong to single them out for punishment just because they are immigrants. We pledge to make sure that legal immigrant families with children who fall on hard times through no fault of their own can get help when they need it. And we are committed to continuing the President's efforts to make it easier for legal immigrants who are prepared to accept the responsibilities of citizenship to do so.

But the new welfare plan gives America an historic chance: to break the cycle of dependency for millions of Americans, and give them a real chance for an independent fu-

ture. It reflects the principles the President has insisted upon since he started the process that led to welfare reform. Our job now is to make sure this welfare reform plan succeeds, transforming a broken system that holds people down into a working system that lifts people up and gives them a real chance to build a better life.

States asked for this responsibility—now we have to make sure they shoulder it. We must make sure as many people as possible move from welfare to work. We must make sure that children are protected. In addition to health care and nutritional assistance, states should provide in-kind vouchers to children whose parents have reached the time limit. We challenge states to exempt battered women from time limits and other restrictions. [We challenge states to ensure that hard-earned, federal taxpayer dollars are spent effectively and fraud and abuse are prevented.] (The preceding sentence was added as an amendment to the platform during the Pittsburgh meeting.) We challenge the business community to provide more of the private sector jobs people on welfare need to build good lives and strong families. We know that passing legislation is not enough; we must make sure people get the skills they need to get jobs, and that there are jobs for them to go to so they leave welfare and stay off. We want to make sure welfare reform will put more people to work and move them into the economic mainstream, not take jobs away from working families.

We call on all Americans to make the most of this opportunity—never to use welfare reform as an excuse to demonize or demean people, but rather as a chance to bring all our people fully into the economic mainstream, to have a chance to share in the prosperity and the promise of American life.

Following the Pittsburgh meeting, in an August 6 Washington Post article by Kevin Merida entitled "Democrats Play Down Platform Differences," White House deputy chief of staff Harold Ickes was quoted as characterizing disputes over platform planks as "some fusses around the edges," and as stating, "I can't think of any changes of consequence since the drafting" of the platform in Kansas City.

In an August 29 Washington Post column entitled "Bathos and Nothingness," columnist Robert D. Novak wrote, "The platform's denunciation of Republican welfare reform was obediently reversed, with neither protest nor debate, once Clinton signed the bill. Nor was the change mentioned on the convention floor in the non-debate preceding voice-vote approval of the platform. Far from being debated, the declaration of party principles was not even explained." Indeed.●

TRIBUTE TO THE VERMONT EXPOS

● Mr. LEAHY. Mr. President, I stand here today to pay tribute to Vermont's only professional sports team, the Vermont Expos, who won the New York Penn League baseball championship last week.

In 1994, the Vermont Expos arrived in Burlington thanks to my good friend Ray Pecor, who worked exhaustively with State and local officials to bring professional baseball back to Vermont. He wanted the Expos to be a team the entire State could be proud of. Now,

after just 3 years in Vermont, the Expos are champions.

This year, the Expos played with a never say die style. They came from behind regularly to snatch victory from the jaws of defeat. In the championship series, the Expos came from behind to win in three of their four playoff victories. This never say die attitude not only made baseball extremely exciting in Vermont this summer, but helped the Expos develop a mystique that many teams take years to build.

The gritty style of play the Expos showed throughout the year reflects the attitude of their manager, Kevin Higgins, who had the responsibility of molding a team of rookies into a championship ball club. After the Expos beat the St. Catharines Stompers, 4 to 3, on Wednesday to win the championship, Higgins acknowledged that "these are the best fans in the league and I think they know it."

The workmanlike efforts of the Expos also reflect the hard work of their General Manager, Kyle Bostwick of St. Albans, and his predecessor, the late Tom Racine of Burlington. These two men were major factors in bringing a championship ball club to Burlington.

Never before have I seen a community become so attached to a team so quickly. Take John Douglas of Colchester, who housed Expos teammates Jamey Carroll and Shannon Swaino for the season. Douglas said he treats the two young men as if they were his own.

But the bond between the team and their fans goes beyond the cool summer nights at Centennial Field. It stretches into the very culture of our State. In Vermont, we take pride in our work ethic. We believe that hard work will be rewarded. In all my years of following professional sports, I have never seen a team that so typified the culture around them. I can honestly say this group of young ballplayers will never be forgotten.

I ask my colleagues to join me in congratulating the Vermont Expos and their fans for winning the 1996 New York Penn League championship. Now there are two "Champs" in Vermont.●

ENTHRONEMENT OF ARCHBISHOP SPYRIDON

● Mr. SARBANES. Mr. President, a new chapter commences in the life of the Greek Orthodox Church of America this Saturday with the enthronement in New York of new Archbishop Spyridon at the Holy Trinity Cathedral in New York City. Archbishop Spyridon, the first American-born hierarch to hold this position, assumes this important responsibility at a time when the Orthodox Church in America faces great challenges and opportunities. All Americans of Greek Orthodox faith have great hope that this new spiritual leader will continue the Greek Orthodox Church's positive role in the religious life of our country.

In pursuing this mission, the new Archbishop will build on a firm foundation established by his predecessors—Archbishop Iakovos, who did so much to advance Orthodoxy in the Americas, Archbishop Michael, and the late Patriarch Athenagoras, who led the church during its early and difficult period in America.

Archbishop Spyridon was born in Warren, OH, the son of Clara and the late Dr. Constantine Papageorge, and spent most of his youth in Tarpon Springs, FL where, as a teenager, he divided his summers between Florida and the Island of Rhodes, the home of his father. The Archbishop graduated high school in Tarpon Springs and then enrolled in the Theological School of Halki near Istanbul, Turkey, where he was graduated with honors. He pursued graduate studies in Switzerland and Germany and is fluent in English, French, Greek, German, and Italian. He eventually was assigned to the permanent delegation of the Ecumenical Patriarchate to the World Council of Churches in Geneva, Switzerland, and later served as Secretary of the Orthodox Center of the Ecumenical Patriarchate located in Chambesy, Switzerland. In 1976 he was assigned to duties as Dean of the Greek Orthodox community of St. Andrew's in Rome and later assumed added responsibilities as Orthodox Executive Secretary of the International Joint Commission for Theological Dialogue Between the Orthodox and Roman Catholic Churches. He was elected a Bishop on November 5, 1985; and in 1991 he became the first person ever elevated to Metropolitan of Venice, Italy.

The new Archbishop's responsibility includes serving as the direct representative in the United States of the Ecumenical Patriarchate in Istanbul, the spiritual center of world Orthodox Christianity. His personal and ecclesiastical experience combine a rich grounding in Orthodox spirituality, a meaningful involvement in interfaith-ecumenical activities, and an understanding of the American tradition of religious freedom and separation of church and state.

I join with Orthodox throughout our country and all Americans of good faith who wish His Eminence a long life, a productive ministry, and the strength and wisdom to meet the many challenges which await him.●

SWISS AGREEMENT TO INVESTIGATE JEWISH FUNDS IN SWISS BANKS

● Mr. D'AMATO. Mr. President, I rise today to discuss the recent agreement of the Swiss to investigate the issue of Jewish money, as well as looted assets that were deposited in Swiss banks before and during the war.

The Swiss, in responding to overwhelming international pressure have agreed to yet another commission to investigate the issue. I must state that we have heard this before. We were told

at the end of the WWII that the Swiss would look for Jewish assets and they responded by saying that they found nothing. Yet in 1949, the Swiss concluded an agreement with the Polish Government to turn over the assets of heirless, largely meaning Jewish assets. The problem was that they made this agreement with the Communist-run Polish Government and not the Jewish people to whom the assets belonged. According to their own sources, the Swiss had no laws on the books providing for this. Nevertheless, they did the same thing the following year with the Communist-run Hungarian and Czech Governments. While saying all along they had no Jewish assets in Switzerland, the Swiss nevertheless found enough to conclude agreements with other governments to turn over funds that did not belong to them. Clearly they have not been forthcoming with the world.

The Swiss again investigated the subject in the early 1960's. Again, they found money, some \$2 million. Yet, all along there were public statements to the effect that little money would be found.

In 1995, another search was made and some \$32 million in dormant accounts were found. Again, Swiss banks and Swiss Government officials said this proves that there was not a lot of money left over.

One must ask oneself, however, if the Swiss keep saying that there is no Jewish money in Switzerland from the 1930's and 1940's, why then do they keep finding money? Clearly the answer must be that they are in fact sitting on great sums of money and are letting it come out in drips and drabs, only in response to immense international pressure. They seem to think that they can outlast us. Well, they are wrong.

They can create commission after commission to study the issue, but the only way to solve the issue once and for all is to open their books, entirely, and put this all to rest. Stonewalling will not work, we understand what they are trying to do. Enough is enough. Open the books now.●

REV STEVEN D. RILEY

● Mr. LEVIN. Mr. President, I rise today to honor a distinguished Michigan citizen, Rev. Steven D. Riley, who celebrates his 15th year as Pastor of Christ Temple Baptist Church in Ypsilanti, MI.

Reverend Riley was born and educated in Michigan, and is the only child of Geraldine Riley. He was baptized into the Christian faith in 1967, ordained a Minister of the Baptist Church on March 17, 1974, and installed as Pastor of Christ Temple Baptist Church on January 25, 1981. Reverend Riley has traveled across the country conducting numerous preaching revivals in his service to the Christian faith. He has also served the Ypsilanti community at hundreds of weddings and funerals. Reverend Riley's public service

also extends to affiliations with the NAACP, the Fraternal Order of Police, and Operation PUSH.

Rev. Steven D. Riley has devoted his life to his community and the betterment of humankind, and in doing so has become a role model for us all. I know that my Senate colleagues join me in honoring Reverend Riley on his 15 years of outstanding service at Christ Temple Baptist Church. ●

WILMINGTON BLUE ROCKS WIN CAROLINA LEAGUE CHAMPIONSHIP

● Mr. BIDEN. Mr. President, last Wednesday evening, with a 6-4, 11th-inning victory over the Kinston Indians, the Wilmington Blue Rocks captured the Carolina League championship for the second time in their 4-year history. I would like to take this opportunity to join all Delawareans in congratulating Manager John Mizerock, his players and coaches, and the entire Blue Rocks' organization for their outstanding season, and—again on behalf of all Delawareans—I'd like to thank them for providing us with yet another summer of enjoyable family entertainment.

For 40 years, up until the spring of 1993, Wilmington was without professional baseball until our late Mayor Dan Frawley, former State Representative Steve Taylor, and dozens of other public officials, businesspersons, and community leaders made a commitment to build a stadium and lure a minor league franchise to the city. Now, "The Boys of Summer" have returned each spring, averaging more than 300,000 fans annually as the Blue Rocks have captured the Northern Division title in each of their 4 years, winning the League Championship in 1994 and again this year.

But for all of their success on the field, the Blue Rocks' real contribution has been the sense of community pride which they have brought to the Wilmington area. The people of Wilmington have welcomed these young men from around the country and from as far away as Latin America into their homes and their hearts, and in droves have brought their families out to Frawley Stadium on spring and summer afternoons and evenings to share a few hours of family fun watching their boys in action. In return, the Blue Rocks players and management have involved themselves in the community, visiting schools and conducting baseball clinics, providing our youngsters with fine role models. What's more, the construction of Frawley Stadium and the activity at the stadium has led to the revitalization of an old neighborhood, with the South Madison Street corridor becoming a prime location for restaurants and community events.

Matt Minker and his partners, including my good friends Frank and Fran Long, have given the club ownership with a local flavor, ensuring that the franchise is more than just a business, but an integral part of commu-

nity life in Wilmington. Ken Shepard, the vice president of baseball operations, and his fine staff have run a first-rate operation where excellent baseball is played in a stadium that is fan-friendly—and especially kid-friendly—and always immaculately clean. A friend of mine remembers hearing Ken Shepard tell his staff just minutes after the Blue Rocks concluded their championship season of 1994, that even though there wouldn't be another game for more than 6 months, he wanted the stadium cleaned up "as if there was going to be a game here tomorrow night"—and it was. That commitment to excellence has led to national recognition of the Wilmington Blue Rocks' as one of the premier minor-league organizations in the Nation.

Blue Rocks' fans will remember another season of first-rate baseball on the diamond at Frawley Stadium; the dramatic win last Wednesday night on Matt Smith's 11th-inning home run; Sean McNally's ninth-inning scamper around the bases to score all the way from first-base on Michael Evans' hit to right-center field clinching the Northern Division title on Labor Day night; Jimmy Byington playing all nine positions in a single game in June; and countless other late-inning rallies, dramatic home runs, and superb pitching performances.

But they've taken home a lot of other memories this summer as well. Memories of clear blue-sky afternoons when the yard work took a back seat to a couple of hours with the kids in the sun at Frawley Stadium; and of summer evenings with the sun setting beyond the stands down the left-field line as a crowd of 5 or 6,000 stood and cheered as the Blue Rocks' pitcher fired a strike to open the game. There'll be memories of legions of kids trailing along behind Rocky Bluewinkle, the blue moose who is the team's mascot; and memories of the mad scrambles to catch the souvenir frisbees that Rocky threw into the stands; of the hilarious Dizzy Bat Races which every evening left several volunteers from the audience sprawled on the green grass, disoriented, and having the time of their lives; and of The Macarena dance at the end of the fifth inning and thousands of fans moving in unison to "YMCA" during the seventh-inning stretch each evening.

Nor will fans forget some of the characters who highlighted their afternoons and evenings at our "Field of Dreams"; Blue Rocks employee Chris "The Dancing Machine" Parise standing on the third-base dugout and leading the fans in "The Chicken Dance"; stadium organist Mike Mixon playing "McNamara's Band" whenever third-baseman Sean McNally came to bat; Jimmy, the soft-pretzel vendor in the stands whose energy and charisma probably doubled the sale of soft pretzels at the stadium; the "Balloon Man" enchanting the younger children with hats and animals made out of balloons; and countless other players, employ-

ees, and fans who made each trip to the ballpark a memorable one.

For most fans, however, the Blue Rocks memories of summer 1996 will revolve around the family and friends who shared those good times with them. It is the sharing of good times like that that binds families and friends together, and as we congratulate the Blue Rocks on their Carolina League championship, we thank them for allowing us to share their success with one another. ●

"COUNTDOWN TO A MELTDOWN"

● Mr. MOYNIHAN. Mr. President, this past Sunday, September 15, 1996, the Outlook section of the Washington Post contained an excellent article, "Countdown to a Meltdown," by Lanny J. Davis, an attorney with the firm of Patton Boggs, L.L.P. The article concerns the Y2K problem, as the computer literate refer to it. What happens to the internal clocks and software of the Nation's—indeed, the world's—government, business, and personal computers at 12:01 a.m. on January 1, 2000, when they need date code space for four digits, rather than two? Will the computers crash? Will they assume the year is 1900? Mr. Davis quotes one industry expert as calling the Y2K defect "the most devastating virus ever to infect the world's business and information technology systems." Estimates of the cost of fixing this defect range as high as \$75 billion—if we act expeditiously. The longer we delay, the more costly the solution.

On July 31, I wrote to the President concerning this problem. I offered the following suggestion:

A presidential aide should be appointed to take responsibility for assuring that all Federal agencies including the military be Y2K date compliant by January 1, 1999 and that all commercial and industrial firms doing business with the Federal government also be compliant by that date. I am advised that the Pentagon is further ahead on the curve here than any of the Federal agencies. You may wish to turn to the military to take command of dealing with the problem.

A general—given the national security implications—to take charge, to determine what the Federal government must do to respond to this looming menace, and how it ought to go about doing it. I put a copy of this letter, along with the summary of a Congressional Research Service (CRS) report I requested on the subject, in the September 5 CONGRESSIONAL RECORD.

I will introduce legislation shortly to establish a commission to investigate the problem and suggest remedies. There is not much time left to resolve it. The consequences of procrastination, as the attached article indicates, are grave indeed.

I ask that the article, "Countdown to a Meltdown," appear in the RECORD at this point.

The article follows:

[The Washington Post, Sept. 15, 1996]
COUNTDOWN TO A MELTDOWN

BEFORE THE YEAR 2000, WE HAVE TO SPEND
BILLIONS TO FIX A VERY STRANGE GLITCH
(By Lanny J. Davis)

In the classic '50s science fiction film "The Day the Earth Stood Still," an alien lands his flying saucer in front of the Washington Monument and demands that the earthlings destroy their nuclear weapons. When they doubt his powers, the alien gives them a demonstration. At noon on a designated day, he eliminates all sources of energy on the planet, from electricity to water power to gasoline. Cars stop. Trains stop. Telephones stop. The lights go out.

At 12:01 a.m., Jan. 1, year 2000—or the "Y2K," as computer aficionados refer to it—the world won't exactly "stand still." But it could come close unless the world's major governments and businesses start to fix their computer systems right away.

The general public knows Y2K (for Year Two Kilo—the Greek prefix kilo meaning 1,000) as the "Year 200 Problem." Although it's finally beginning to get some attention, there is still little sense of urgency because it is seen as three years away. But the fact is that for some institutions, including parts of the federal government, it will very soon be too late. We could end up with a real catastrophe that could affect many people's lives around the globe in annoying and profound ways.

The reason is simple: Virtually all computers used by business and government won't know what to do when their internal clocks try to switch from 1999 to 2000. They'll go haywire. (Most newer personal computers for home use will be unaffected.)

The problem is that computers (and the software inside that tells them what to do) are programmed with only the last two digits in the year being variable, i.e., 19XX. But when the clock moves to 12:01 a.m. on Jan. 1, 2000, the computer's program will need code space for four digits. One of two things will happen: The computer will cease functioning ("crash"); or more likely, it will change the last two digits from "99" to "00," thus causing the computer's internal calendar to register as if the current date is Jan. 1, 1900.

There is a solution, but it is time consuming and costly.

Current estimates for business and government range from \$50 billion to \$75 billion—and will only increase as 2000 draws closer. Unfortunately, the alternative is unthinkable. One industry expert has called the Y2K defect "the most devastating virus ever to infect the world's business and information technology systems." If the problem isn't fixed, here are just some of the things that will happen:

Vital military and defense systems will shut down.

Taxpayers will receive notices from the IRS saying that they owe millions of dollars in back taxes.

Banks will shut off credit and send foreclosure notices to millions.

Social Security, Medicare and other government benefit programs based on age will not function, as the computer determines, for instance, that retirees are minus 35 years old, instead of 65 (take the year 1900 and subtract their birth year of 1935). Millions of workers will not receive their pension checks.

Thousands of airplanes all over the world will be grounded when records show that maintenance has not been done for 100 years.

For the same reason, prison records will show criminals overdue for release.

The economic and political ramifications of this issue are immense. Kevin Shick, research director of the Gartner Group, a con-

sulting firm that developed early expertise on this issue, told the House Information and Technology subcommittee in April that it is highly probable that 90 percent of all computer program applications in the world are dependent on the correct date being recorded.

The questions are: How'd we get into this mess? Who's to blame? What do we do about it? Who's going to pay to fix it?

A major sub-industry has arisen in the last few years to correct the problems. There are many small software houses and consulting companies that have developed "software for the calendrically challenged" and other "tools" to address the problem. And such giants as Oracle, Computer Associates, IBM and Arthur Anderson have shown interest in assisting companies to solve the Y2K problems, often at costs in the tens of millions of dollars or more.

Experts differ on the extent of corporate America's state of readiness for the Y2K: The computer magazine *Datamation* estimated that, as of last year, more than two-thirds of the companies that use mainframe computers at least has a team in place to consider how to deal with the problem. However the Gartner Group's Schick says that only 17 percent of the companies have sought the necessary outside help.

Governments are waking up, but slowly. At a recent Y2K conference in Austin, an industry expert warned that fewer than 25 percent of state government systems will be ready. One of the first public officials to take notice of the problem, Sen. Daniel Patrick Moynihan (D-N.Y.), is just now planning to ask President Clinton to appoint a blue ribbon commission to study and make recommendations on this issue. They're going to need to work fast. Recently, the Securities and Exchange Commission announced that it may promulgate rules requiring public companies to detail their readiness for the Y2K.

One reason for the urgency is that this is not a simple problem to fix. There are three options: replace all old software, which would likely be prohibitively expensive; modify the software's two-digit year code to a four-digit code, with instructions that 2000 follows 1999, which would require the location and correction of every "time field" in millions of lines of code in every software and hardware system; or program the computer so that, when faced with two double-zero dates, it chooses the more logical of them. For example, a computer can be told that a 1996 driver's license with a five-year term has expired in the year 2001, even though the internal clock reads 1901. This last solution seems on its face the simplest, and cheapest. Unfortunately, it doesn't do the job in most instances. For example, if the issue is knowing the person's age, the computer has no way of knowing whether someone born in the year 2002 is 2 years old or 102 years old.

Finding a solution that identifies and corrects all Y2K defects may well prove impossible. Certain programs were deliberately written in obscure programming languages. In the Pentagon, for example, many of the codes were uniquely written by one or two individuals using top-secret technology and cannot be addressed by off-the-shelf software.

Even for the best technicians, the nightmare is finding all the Y2K defects in a computer system. For instance, the dates themselves have been expressed in a variety of ways by programmers—December 12, 1945, 12 December 1945, 12-12-45, etc. All conceivable methods of expressing those date fields must be located and corrections made. If only a few have been missed, it can cause a ripple effect through a computer network, leading to a crash.

The solution is time and money.

But why should those who bought computer products be left with the tab for cleaning this mess up? Wasn't it obvious when software was being written that at some point the year 2000 would come? Why didn't programmers anticipate the problem and deal with it?

As one leading Y2K commentator, Warren Reid, notes: "The Year 2000 problem was caused by shortsightedness and human error." One thing is certain—there is plenty of blame to go around.

Programmers and software houses say the main reason was cost. George Munoz, chief financial officer of the Treasury Department, testified recently that in the early 1980s, when most of these systems were being developed, memory was expensive and the cost of adding another two digits to every date field would have been considerable. Thus, he and other industry experts explain, programmers decided to save the money and make the fix when 2000 got closer.

For this reason, many in the industry suggest that responsibility for the Y2K problem is not assignable. As Munoz testified in April: "Did this problem arise because of someone's negligence? To this, we emphatically respond: No."

But if that is the "no fault" explanation, why weren't the purchasers and licensees of these software programs and computer systems at least informed about the coming problem? Why weren't they allowed to decide for themselves whether they wanted to pay then or pay later? And what about hardware and software sold in the recent years, when memory is much less of a problem (with today's PCs having more storage space and processing capacity than many mainframes 30 years ago)?

These questions may get answered in court as businesses go looking to recover their costs from the vendors who sold them these products, though no major Y2K lawsuits have yet been filed.

On the other hand, vendors (and their attorneys) are likely to remind any customers pressing these theories that they should have known that when the year 2000 tolled, the problem would arise. For the most part, the buyers of these big systems are sophisticated information managers.

Ultimately, the verdict is likely to be that everyone shares a piece of the blame—both vendors who failed to inform and buyers who chose to ignore, figuring someone else would fix it. Perhaps it's human nature: Governments, and people, are more likely to respond to a crisis than anticipate it.

Though costs are hard to estimate, they can be approximated, based on the amount of computer code within a particular company or government agency. Coopers & Lybrand has found that on average one of every 50 lines of code contains a date reference. Each individual application may contain thousands of lines of code. All software must be searched line by line; for every million lines of code, nine to 16 staff years will be needed to correct the problem.

It costs about \$1-\$2 per line of code, most industry analysts say. The Information Technology Association of America, representing the software and information services industry, estimates the total U.S. cost in the range of \$50 billion to \$75 billion. The Social Security Administration says it will take between \$30 million and \$60 million to fix its programs, the Defense Department over \$1 billion. For the state of Maryland, current estimates for the fix exceed \$25 million. Recent hearings by the House Information Technology Subcommittee found that when state and local government costs are taken into account, as well as the various indirect costs of lost productivity and diversion of personnel and resources, the public

sector costs of the Y2K crisis reaches tens of billions of dollars in the United States alone.

Private sector costs are likely to be as high. The Gartner Group estimates that a mid-sized company with 8,000 computer programs will spend between \$3.6 million and \$4.2 million to repair "date challenged" software.

Who's left paying the bill? Surprise: first and foremost, the taxpayer. Then, either in the courts or by negotiation, the rest of the pain of solving the problem is likely to be shared by vendors, users and consumers. And the longer a company or an agency waits, the more it will cost. At the start of 1999, the cost will be three times that of starting today, because the supply of trained programmers able to fix the problem will not keep up with demand.

Once the alien in the movie made the Earth stand still, he convened the leaders of the world to a meeting in front of his space ship. The Earth's leaders told him they now believed in his powers and promised to destroy all the planet's nuclear weapons forthwith. But as soon as the alien left, they went back to their old habits of building more.

The real-life inhabitants of a planet that is so dependent on computers might take a lesson from that. Having let the technology experts put one past us this time, we shouldn't let them do it again.●

RECLAMATION RECYCLING AND WATER CONSERVATION ACT

● Mr. REID. Mr. President, I want to express my support for the Reclamation Recycling and Water Conservation Act, S. 1901, and its companion bill, H.R. 3660, that promotes the desalination and water reclamation projects in the arid West. I have long supported water reclamation and desalination as a means of conserving water which is a precious commodity in Nevada and other Western States.

In the past, with the senior Senator from Illinois [Senator SIMON], I have advocated legislation that would authorize desalination technology research on a national scale. Public investment in desalination technology is vital to the future of fresh water supply of the Nation. Nevertheless, I support this regional legislation because of the special water needs of NV, Utah, California, and New Mexico. I particularly note that this bill will provide for Clark County, NV, the fastest growing county in the Nation, to reduce its dependence on fresh water from the Colorado River and rely on desalination and wastewater recycling to meet the needs of the expanding community. This approach by Clark County and other Western communities to their water problems appears to be insightful recognition of the limited fresh water resources of the West.

This legislation is good common sense and I commend my colleague from Utah [Senator BENNETT], for his sponsorship. Not only does reclamation and reuse make good conservation policy but will also prove cost effective because it will cost less for municipalities to provide for recycling than to build new reservoirs and conduits. Consequently, there should not be any opposition to a bill that encourages con-

servations initiatives as well as fiscal responsibility of municipalities and Federal assistance.

I recommend this authorizing bill to my colleagues for unanimous consent so that the Secretary of the Interior can initiate such planning, designing, and construction of the projects that are itemized within the bill.●

NATIONAL PAYROLL WEEK

● Mr. WARNER. Mr. President, I rise today during National Payroll Week to recognize the contributions to American businesses and workers that are regularly made by payroll professionals. I am proud to participate in National Payroll Week by paying tribute to the professionals who pay the wages, report the earnings, and withhold the taxes of over 124 million American workers annually.

Payroll departments collectively withhold, report, and deposit nearly \$880 billion in taxes on behalf of the Federal Government alone. They spend more than \$15 billion each year just to comply with the huge web of Federal, State, and local wage and tax laws and an additional \$6 billion annually complying with Federal, State, and local, unemployment insurance laws.

More importantly, however, payroll professionals routinely protect American workers by helping to enforce fair labor practices by ensuring that workers receive overtime pay that they are due. Payroll departments also ensure through wage reporting that retirees' Social Security benefits accurately reflect their career earnings.

The work of payroll departments transcends office matters, though. Payroll professionals help identify deadbeat parents by filing new hire reports to child support enforcement agencies in more than two dozen States. This action helps identify noncustodial parents and ensures that child support payments can be withheld from a parent's pay, if appropriate. In fact, payroll departments collect from noncustodial parents more than half of all child support payments—more than \$8.1 billion over the last 10 years.

Mr. President, payroll professionals clearly play an essential role benefiting millions of Americans across our Nation. I am indeed glad to take this opportunity to express my appreciation and that of the people of Virginia for the fine work of America's payroll professionals.●

THE IMPORTANCE OF DIET IN CANCER PREVENTION

● Mr. HOLLINGS. Mr. President, very few cancer researchers have stressed the importance of diet in the prevention of cancer. Dr. Daniel Nixon of Charleston, SC is a pioneer in this field. I ask that there be printed in the RECORD an article from *the Post and Courier* profiling Dr. Nixon's professional accomplishments in preventative medicine.

The article follows:

DANIEL NIXON—HE FIGHTS CANCER WITH STRAWBERRIES

(By Dottie Ashley)

Some people dream of having a lavish home in the Bahamas or owning a private jet.

Dr. Daniel Nixon dreams of a super strawberry springing from the soil in South Carolina.

If Nixon's dream comes true, the results could prolong the lives of thousands of cancer patients so that they, too, may dream once more.

"South Carolina is a perfect place for cancer research because here we have both tumors of affluence and tumors of poverty, a large population of the very rich and of the very poor," say Nixon.

In the war against cancer, Nixon, associate director for Cancer Prevention and Control of the Hollings Cancer Center at the Medical University of South Carolina, is in charge of special weapons and tactics.

As the Folk Professor of Experimental Oncology at MUSC, Nixon has mounted his attack on cancer with an arsenal of cancer-preventing compounds that block the formation of cancer cells.

VOLUNTEERS ARE TESTED

A former associate director for the Cancer Prevention Research Program of the National Cancer Institute, Nixon has formed a networking arrangement between MUSC and other state agencies.

To conduct his research, which is funded largely by grants from the Washington State Raspberry Commission, Nixon has called on the services of the General Clinical Research Center at MUSC to monitor the concentrations of ellagic acid in the blood and urine of 12 healthy volunteers who are fed bowls of raspberries.

His research has been recognized by the Society for Nutritional Oncology Adjuvant Therapy, and Nixon will receive the Green Ribbon Award at a ceremony Sept. 18 in Philadelphia. The award is given by the society to recognize outstanding clinical research contributions to nutritional oncology in the areas of prevention, supportive nutrition and adjunctive therapy.

Nixon has seen both sides of the cancer-treatment coin.

"For 13 years, I administered chemotherapy to cancer patients, and finally I had to convince myself that we were not going to get rid of cancer by treatment only, that we had to have prevention as well," says Nixon, who also is the former head of medical oncology at Emory University's Winship Oncology clinic.

TREATED MISS LILLIAN

At Emory, Nixon was oncologist for Lillian Carter, mother of President Jimmy Carter.

"Dan Nixon is the most dedicated doctor I know. No matter how bad the news may be, he exudes hope," says Carter's sister-in-law, Sybil Carter, reached at her home in Plains, Ga. "He's Jimmy Carter's favorite physician."

Nixon recalls, "Miss Lillian was wonderful. She gave me a baseball that Fernando Valenzuela had signed and I still have it."

Prevention research is designed not only for those who do not have cancer, but also for those who have received, or are receiving treatment for cancer. Nixon believes that where cancer cells are already growing, in many cases, they may retreat when bombarded with raspberries and strawberries—more specifically, ellagic acid.

Raspberries and strawberries are extremely high in ellagic acid, a nutrient Nixon believes will prevent both the formation and advance of certain cancers, even in

people considered to be at high risk for the disease.

"Ellagic acid is an effective cancer prevention agent in animals. It stops the development of several types of cancer tumors, and there's reason to believe it can do the same for humans," says Nixon.

His research efforts include gathering information linking the connection between diet and cancer in the body by using a whole-body calorimeter, a \$80,000 machine that he had brought to MUSC which monitors fluctuations in whole-body temperature over a 90 to 120-minute period.

MEASURES HEAT LOSS

"This is the newest calorimeter in the United States. The calorimeter measures heat loss, which is calories expended. If a person is obese, he is calorically thrifty and suffers a greater cancer risk. The calorimeter helps us determine why that is."

Still retaining his soft-spoken Southern accent, despite time spent at Harvard and in Washington, D.C., Nixon has a calm demeanor that's reassuring to patients.

"The most important thing is to really take time and listen to your patients," he says. "They help you make the diagnosis and teach you so much about cancer treatment."

Born in Brunswick, Nixon moved with his family to Ware County and later to Bacon County, Ga., when his father, who was a forester, took a job in the Okefenokee Swamp. After enrolling at the University of Georgia, Nixon double-majored in chemistry and zoology and went on to attend the Medical College of Georgia in Augusta.

He did his internship in Augusta, then served as a Clinical Fellow in Medicine (Oncology) at Massachusetts General Hospital and as a Research Fellow in The Huntington Laboratories at Harvard Medical School.

In spite of his gentle manner, Nixon is all business.

"I want people to realize that this work we are doing in science, not home economics," he says, as he points out that at work in his experiments are thousands of phytochemicals which have been manufactured by plants to protect themselves against insects and other predators.

FRUITS AND VEGETABLES

"These are not the usual vitamins and minerals that we are studying. We've known that fruits and vegetables are good for us. Now we want to know why."

As Nixon has investigated the connection between cancer and diet over the years, he has concluded that often the feeding of a normal American high-fat diet to a cancer patient may actually feed the tumor and encourage its growth.

"When I did a metabolic balance study, I found the cancer patients gained fat weight, not lean weight," he says. "People must learn to view eating food such as high-fiber cereal as the same as taking a drug to battle cancer. We need to learn how to feed our cancer patients without feeding their cancers."

For the past year, Nixon has worked in collaboration with scientific investigators at Clemson University who test the ellagic acid-laden blood which he sends them to find out what it does to tumor cells.

"We've found that the ellagic acid is readily absorbed and a lot of it gets into the blood stream. This is an effective delivery system to cells throughout the body.

"In animals it seems to protect genes against carcinogens, maybe even against tobacco carcinogens. Diets heavy in fats are the worst, as it appears that cancer thrives on fat calories."

He advises limiting fat intake to 20 to 25 percent of the total calories consumed daily.

WOMEN'S NUTRITION

Nixon's work with cancer prevention ranges from Emory's Winship clinic for Neoplastic Disease to working with the National Cancer Institute in Bethesda, Md., where he participated in a National Health Institute-funded Women's Intervention Nutrition Study designed to determine if reduced caloric intake contributes to a more favorable outcome in cancer therapy and reducing the chance of relapse.

After living in Bethesda for 2½ years, the Nixons returned to Atlanta, where Nixon served as vice president for cancer detection and treatment for the American Cancer Society.

In 1994, Nixon was asked to come to MUSC. He is enthusiastic concerning the support he has received from MUSC president Dr. James B. Edwards and Sen. Ernest F. Hollings.

"They have been wonderful about getting things going here in cancer prevention. For the past two years, we have been putting together a statewide network involving Clemson, the USC School of Public Health, oncologists in Spartanburg and Greenville as well as the S.C. Primary Research Consortium, based here at MUSC.

"We are working with a grant from the Centers for Disease Control which is funding volunteers in intervention control groups. People can be subjects in the groups or they can be counselors, whom we will train, to work with the cancer patients.

"We now know that about 70 percent of malignancies are either caused by tobacco or are in some way related to what we eat.

"If we can get rid of 70 percent of cancer, then we can turn our time and money to heart disease, diabetes, osteoporosis and toward antiaging research. There's no reason that humans can't live to be 120 years old."

WEIGHT LOSS

One of the cancer patients who volunteered in a clinical trial is Clare Howard, 64, who was the first patient to have her metabolic activity measured in the calorimeter.

Required to keep a record of what she has eaten each day, she has lost 26 pounds in the past year.

"I'm glad to take part in these cancer trials," she says. "And most of all, it's been wonderful to work with a doctor who is as compassionate as Dr. Nixon. I feel like he really cares."

Nixon's work is greatly admired by Dr. David Gangemi, director of Greenville Hospital System/Clemson University Biomedical Cooperative. "Dr. Nixon is a true star in the field of cancer prevention. And, going beyond that, this cooperation between Clemson and MUSC could change the economy of this state. If we are able to develop a strawberry with even more ellagic acid, then some farmers who grow tobacco could simply switch to strawberries.

"Also, this national grant we have will bring preventive medicine to the forefront, and this is greatly needed because there are some people in the medical community, such as some surgeons, who don't fully appreciate the preventive approach to cancer."

Dr. Dwight Camper of Clemson's Plant Pathology and Physiology Department, says of the MUSC partnership, "We are elated because this project gives us an opportunity to team the plant scientists with the medical professionals—the first time this has been done in South Carolina.

NAVAL RESERVE CAPTAIN

Nixon doesn't restrict his research to institutions of higher learning. About six years ago, Nixon, who holds the rank of captain in the Naval Reserve, worked with the Navy on a nutrition experiment that involved two destroyers which spent six months at sea.

"We worked with the chef on one of the destroyers to prepare food that followed the National Cancer Institute Dietary Guidelines and on the other ship they served regular Navy food," says Nixon.

"On the ship using the Dietary Guidelines, those who were obese lost weight. Also, the sailors seemed to like this food better," says Nixon.

Also, he has established a relationship with Johnson & Wales University to train future chefs to cook high-fiber, low-fat dishes.

"I tell them that chefs are the pharmacists of the future," says Nixon. "And I truly believe that."

"This year we have started to go into the schools systems to teach nutrition and we've opened a teaching center on St. Helena Island at the Beaufort-Jasper Comprehensive Health Agency clinic, near the Penn Center. There, we have teaching kitchens to demonstrate good nutrition because lots of diabetes and cancer can be found among the people there."

People can, in fact, alter their taste buds, Nixon says. "I grew up eating traditional, good Southern food, like fried chicken and vegetables cooked with fat. But I no longer enjoy fatty foods. Now, with all the no-fat and low-fat foods on the market, you don't really have to sacrifice enjoyment."

And to experience an impromptu dinner with the Nixons, indeed is proof.

It's a rainy summer evening and Nixon and his wife, Gayle, who is a cardiology research nurse, are in the middle of packing up their Sullivan's Island home to move into town for several months, while their new home is being built.

"We are donating this house to the United Methodist Relief Center, which is part of the Hibben Street United Methodist Church in Mount Pleasant," explains Mrs. Nixon, who points out after the house is moved, they plan to build their new home on the beachfront site.

For dinner, Mrs. Nixon serves boiled shrimp, along with carrots, grapes, blueberries, nonfat potato chips, as well as iced tea.

A careful shopper, she was glad when the National Labeling Education Act was implemented in 1993.

"When the amount of fat a food contains is listed on the bottle or box, they you know for sure whether you want to buy it," she says.

The Nixons met when she was a nurse in training at the Medical College of Georgia and he was in medical school.

"Gayle kind of pushed me into getting interested in nutrition," says Nixon. "She was also very interested in public health work and in the way that the food in people's diets had an impact on their well being."

This shared interest led to their book "The Cancer Recovery Eating Plan: The Right Foods to Help Fuel Your Recovery," published by Random House in 1994 and released in paperback last spring.

The Nixons say they don't miss the bustle of Atlanta.

"I was the 'stadium doc' at the home Atlanta Braves games, which meant if somebody got hit in the head with a foul ball that I would go and put an ice pack on it," Nixon says. "That was fun, but I don't really miss Atlanta at all."

Nixon feels he has found his dream job.

"Now I can really talk to patients; whereas, when I was doing chemotherapy, sometimes I would have as many as 60 patients a day, and I really had no time to talk." ●

FOREIGN CURRENCY REPORTS

In accordance with the appropriate provisions of law, the Secretary of the Senate herewith submits the following report(s) of standing committees of the Senate, certain joint committees of the Congress, delegations and groups, and select and special committees of the Senate, relating to expenses incurred in the performance of authorized foreign travel:

CONSOLIDATED REPORT OF EXPENDITURE OF FOREIGN CURRENCIES AND APPROPRIATED FUNDS FOR FOREIGN TRAVEL BY MEMBERS AND EMPLOYEES OF THE U.S. SENATE, UNDER AUTHORITY OF SEC. 22, P.L. 95-384—22 U.S.C. 1754(b), COMMITTEE ON APPROPRIATIONS, FOR TRAVEL FROM APR. 1 TO JUNE 30, 1996

Name and country	Name of currency	Per diem		Transportation		Miscellaneous		Total

Republican Leader, July 16, 1996.

COMPREHENSIVE METHAMPHETAMINE CONTROL ACT OF 1996

The text of the bill (S. 1965) to prevent the illegal manufacturing and use of methamphetamine, as passed by the Senate on September 17, 1996, is as follows:

S. 1965

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Comprehensive Methamphetamine Control Act of 1996".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.

Sec. 2. Findings.

TITLE I—IMPORTATION OF METHAMPHETAMINE AND PRECURSOR CHEMICALS

Sec. 101. Support for international efforts to control drugs.

Sec. 102. Penalties for manufacture of listed chemicals outside the United States with intent to import them into the United States.

TITLE II—PROVISIONS TO CONTROL THE MANUFACTURE OF METHAMPHETAMINE

Sec. 201. Seizure and forfeiture of regulated chemicals.

Sec. 202. Study and report on measures to prevent sales of agents used in methamphetamine production.

Sec. 203. Increased penalties for manufacture and possession of equipment used to make controlled substances.

Sec. 204. Addition of iodine and hydrochloric gas to list II.

Sec. 205. Civil penalties for firms that supply precursor chemicals.

Sec. 206. Injunctive relief.

Sec. 207. Restitution for cleanup of clandestine laboratory sites.

Sec. 208. Record retention.

Sec. 209. Technical amendments.

Sec. 210. Withdrawal of regulations.

TITLE III—INCREASED PENALTIES FOR TRAFFICKING AND MANUFACTURE OF METHAMPHETAMINE AND PRECURSORS

Sec. 301. Penalty increases for trafficking in methamphetamine.

Sec. 302. Enhanced penalties for offenses involving certain listed chemicals.

Sec. 303. Enhanced penalty for dangerous handling of controlled substances; amendment of sentencing guidelines.

TITLE IV—LEGAL MANUFACTURE, DISTRIBUTION, AND SALE OF PRECURSOR CHEMICALS

Sec. 401. Diversion of certain precursor chemicals.

Sec. 402. Mail order restrictions.

TITLE V—EDUCATION AND RESEARCH

Sec. 501. Interagency methamphetamine task force.

Sec. 502. Public health monitoring.

Sec. 503. Public-private education program.

Sec. 504. Suspicious orders task force.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Methamphetamine is a very dangerous and harmful drug. It is highly addictive and

is associated with permanent brain damage in long-term users.

(2) The abuse of methamphetamine has increased dramatically since 1990. This increased use has led to devastating effects on individuals and the community, including—

(A) a dramatic increase in deaths associated with methamphetamine ingestion;

(B) an increase in the number of violent crimes associated with methamphetamine ingestion; and

(C) an increase in criminal activity associated with the illegal importation of methamphetamine and precursor compounds to support the growing appetite for this drug in the United States.

(3) Illegal methamphetamine manufacture and abuse presents an imminent public health threat that warrants aggressive law enforcement action, increased research on methamphetamine and other substance abuse, increased coordinated efforts to prevent methamphetamine abuse, and increased monitoring of the public health threat methamphetamine presents to the communities of the United States.

TITLE I—IMPORTATION OF METHAMPHETAMINE AND PRECURSOR CHEMICALS

SEC. 101. SUPPORT FOR INTERNATIONAL EFFORTS TO CONTROL DRUGS.

The Attorney General, in consultation with the Secretary of State, shall coordinate international drug enforcement efforts to decrease the movement of methamphetamine and methamphetamine precursors into the United States.

SEC. 102. PENALTIES FOR MANUFACTURE OF LISTED CHEMICALS OUTSIDE THE UNITED STATES WITH INTENT TO IMPORT THEM INTO THE UNITED STATES.

(a) **UNLAWFUL IMPORTATION.**—Section 1009(a) of the Controlled Substances Import and Export Act (21 U.S.C. 959(a)) is amended—

(1) in the matter before paragraph (1), by inserting “or listed chemical” after “schedule I or II”; and

(2) in paragraphs (1) and (2), by inserting “or chemical” after “substance”.

(b) **UNLAWFUL MANUFACTURE OR DISTRIBUTION.**—Paragraphs (1) and (2) of section 1009(b) of the Controlled Substances Import and Export Act (21 U.S.C. 959(b)) are amended by inserting “or listed chemical” after “controlled substance”.

(c) **PENALTIES.**—Section 1010(d) of the Controlled Substances Import and Export Act (21 U.S.C. 960(d)) is amended—

(1) in paragraph (5), by striking “or” at the end;

(2) in paragraph (6), by striking the comma at the end and inserting “; or”; and

(3) by adding at the end the following:

“(7) manufactures, possesses with intent to distribute, or distributes a listed chemical in violation of section 959 of this title.”

TITLE II—PROVISIONS TO CONTROL THE MANUFACTURE OF METHAMPHETAMINE

SEC. 201. SEIZURE AND FORFEITURE OF REGULATED CHEMICALS.

(a) **PENALTIES FOR SIMPLE POSSESSION.**—Section 404 of the Controlled Substances Act (21 U.S.C. 844) is amended—

(1) in subsection (a)—

(A) by adding after the first sentence the following: “It shall be unlawful for any person knowingly or intentionally to possess any list I chemical obtained pursuant to or under authority of a registration issued to that person under section 303 of this title or section 1008 of title III if that registration has been revoked or suspended, if that registration has expired, or if the registrant has ceased to do business in the manner contemplated by his registration.”; and

(B) by striking “drug or narcotic” and inserting “drug, narcotic, or chemical” each place it appears; and

(2) in subsection (c), by striking “drug or narcotic” and inserting “drug, narcotic, or chemical”.

(b) **FORFEITURES.**—Section 511(a) of the Controlled Substances Act (21 U.S.C. 881(a)) is amended—

(1) in paragraphs (2) and (6), by inserting “or listed chemical” after “controlled substance” each place it appears; and

(2) in paragraph (9), by—

(A) inserting “dispensed, acquired,” after “distributed,” both places it appears; and

(B) striking “a felony provision of”.

(c) **SEIZURE.**—Section 607 of the Tariff Act of 1930 (19 U.S.C. 1607) is amended—

(1) in subsection (a)(3), by inserting “or listed chemical” after “controlled substance”; and

(2) by amending subsection (b) to read as follows:

“(b) As used in this section, the terms ‘controlled substance’ and ‘listed chemical’ have the meaning given such terms in section 102 of the Controlled Substances Act (21 U.S.C. 802).”

SEC. 202. STUDY AND REPORT ON MEASURES TO PREVENT SALES OF AGENTS USED IN METHAMPHETAMINE PRODUCTION.

(a) **STUDY.**—The Attorney General of the United States shall conduct a study on possible measures to effectively prevent the diversion of red phosphorous, iodine, hydrochloric gas, and other agents for use in the production of methamphetamine. Nothing in this section shall preclude the Attorney General from taking any action the Attorney General already is authorized to take with regard to the regulation of listed chemicals under current law.

(b) **REPORT.**—Not later than January 1, 1998, the Attorney General shall submit a report to the Congress of its findings pursuant to the study conducted under subsection (a) on the need for and advisability of preventive measures.

(c) **CONSIDERATIONS.**—In developing recommendations under subsection (b), the Attorney General shall consider—

(1) the use of red phosphorous, iodine, hydrochloric gas, and other agents in the illegal manufacture of methamphetamine;

(2) the use of red phosphorous, iodine, hydrochloric gas, and other agents for legitimate, legal purposes, and the impact any regulations may have on these legitimate purposes; and

(3) comments and recommendations from law enforcement, manufacturers of such chemicals, and the consumers of such chemicals for legitimate, legal purposes.

SEC. 203. INCREASED PENALTIES FOR MANUFACTURE AND POSSESSION OF EQUIPMENT USED TO MAKE CONTROLLED SUBSTANCES.

(a) **IN GENERAL.**—Section 403(d) of the Controlled Substances Act (21 U.S.C. 843(d)) is amended—

(1) by striking “(d) Any person” and inserting “(d)(1) Except as provided in paragraph (2), any person”; and

(2) by adding at the end the following:

“(2) Any person who, with the intent to manufacture or to facilitate the manufacture of methamphetamine, violates paragraph (6) or (7) of subsection (a), shall be sentenced to a term of imprisonment of not more than 10 years, a fine of not more than \$30,000, or both; except that if any person commits such a violation after one or more prior convictions of that person—

“(A) for a violation of paragraph (6) or (7) of subsection (a);

“(B) for a felony under any other provision of this subchapter or subchapter II of this chapter; or

“(C) under any other law of the United States or any State relating to controlled substances or listed chemicals,

has become final, such person shall be sentenced to a term of imprisonment of not more than 20 years, a fine of not more than \$60,000, or both.”.

(b) **SENTENCING COMMISSION.**—The United States Sentencing Commission shall amend the sentencing guidelines to ensure that the manufacture of methamphetamine in violation of section 403(d)(2) of the Controlled Substances Act, as added by subsection (a), is treated as a significant violation.

SEC. 204. ADDITION OF IODINE AND HYDROCHLORIC GAS TO LIST II.

(a) **IN GENERAL.**—Section 102(35) of the Controlled Substances Act (21 U.S.C. 802(35)) is amended by adding at the end the following:

“(I) Iodine.

“(J) Hydrochloric gas.”.

(b) **IMPORTATION AND EXPORTATION REQUIREMENTS.**—(1) Iodine shall not be subject to the requirements for listed chemicals provided in section 1018 of the Controlled Substances Import and Export Act (21 U.S.C. 971).

(2) **EFFECT OF EXCEPTION.**—The exception made by paragraph (1) shall not limit the authority of the Attorney General to impose the requirements for listed chemicals provided in section 1018 of the Controlled Substances Import and Export Act (21 U.S.C. 971).

SEC. 205. CIVIL PENALTIES FOR FIRMS THAT SUPPLY PRECURSOR CHEMICALS.

(a) **OFFENSES.**—Section 402(a) of the Controlled Substances Act (21 U.S.C. 842(a)) is amended—

(1) in paragraph (9), by striking “or” after the semicolon;

(2) in paragraph (10), by striking the period and inserting “; or”; and

(3) by adding at the end the following:

“(11) to distribute a laboratory supply to a person who uses, or attempts to use, that laboratory supply to manufacture a controlled substance or a listed chemical, in violation of this title or title III, with reckless disregard for the illegal uses to which such a laboratory supply will be put.

As used in paragraph (11), the term ‘laboratory supply’ means a listed chemical or any chemical, substance, or item on a special surveillance list published by the Attorney General, which contains chemicals, products, materials, or equipment used in the manufacture of controlled substances and listed chemicals. For purposes of paragraph (11), there is a rebuttable presumption of reckless disregard at trial if the Attorney General notifies a firm in writing that a laboratory supply sold by the firm, or any other person or firm, has been used by a customer of the notified firm, or distributed further by that customer, for the unlawful production of controlled substances or listed chemicals a firm distributes and 2 weeks or more after the notification the notified firm distributes a laboratory supply to the customer.”

(b) **CIVIL PENALTY.**—Section 402(c)(2) of the Controlled Substances Act (21 U.S.C. 842(c)(2)) is amended by adding at the end the following:

“(C) In addition to the penalties set forth elsewhere in this title or title III, any business that violates paragraph (11) of subsection (a) shall, with respect to the first such violation, be subject to a civil penalty of not more than \$250,000, but shall not be subject to criminal penalties under this section, and shall, for any succeeding violation, be subject to a civil fine of not more than \$250,000 or double the last previously imposed penalty, whichever is greater.”.

SEC. 206. INJUNCTIVE RELIEF.

(a) **TEN-YEAR INJUNCTION MAJOR OFFENSES.**—Section 401(f) of the Controlled

Substances Act (21 U.S.C. 841(f)) is amended by—

- (1) inserting "manufacture, exportation," after "distribution,"; and
- (2) striking "regulated".

(b) TEN-YEAR INJUNCTION OTHER OFFENSES.—Section 403 of the Controlled Substances Act (21 U.S.C. 843) is amended—

- (1) in subsection (e), by—
 - (A) inserting "manufacture, exportation," after "distribution,"; and
 - (B) striking "regulated"; and
- (2) by adding at the end the following:

"(f) INJUNCTIONS.—(1) In addition to any penalty provided in this section, the Attorney General is authorized to commence a civil action for appropriate declaratory or injunctive relief relating to violations of this section or section 402.

"(2) Any action under this subsection may be brought in the district court of the United States for the district in which the defendant is located or resides or is doing business.

"(3) Any order or judgment issued by the court pursuant to this subsection shall be tailored to restrain violations of this section or section 402.

"(4) The court shall proceed as soon as practicable to the hearing and determination of such an action. An action under this subsection is governed by the Federal Rules of Civil Procedure except that, if an indictment has been returned against the respondent, discovery is governed by the Federal Rules of Criminal Procedure."

SEC. 207. RESTITUTION FOR CLEANUP OF CLANDESTINE LABORATORY SITES.

Section 413 of the Controlled Substances Act (21 U.S.C. 853) is amended by adding at the end the following:

"(q) The court, when sentencing a defendant convicted of an offense under this title or title III involving the manufacture of methamphetamine, may—

"(1) order restitution as provided in sections 3612 and 3664 of title 18, United States Code;

"(2) order the defendant to reimburse the United States for the costs incurred by the United States for the cleanup associated with the manufacture of methamphetamine by the defendant; and

"(3) order restitution to any person injured as a result of the offense as provided in section 3663 of title 18, United States Code."

SEC. 208. RECORD RETENTION.

Section 310(a)(1) of the Controlled Substances Act (21 U.S.C. 830(a)(1)) is amended by striking the dash after "transaction" and subparagraphs (A) and (B) and inserting "for two years after the date of the transaction."

SEC. 209. TECHNICAL AMENDMENTS.

Section 102 of the Controlled Substances Act (21 U.S.C. 802) is amended—

(1) in paragraph (34), by amending subparagraphs (P), (S), and (U) to read as follows:

- "(P) Isosafrole.
 "(S) N-Methylephedrine.
 "(U) Hydriodic acid."; and

(2) in paragraph (35), by amending subparagraph (G) to read as follows:

"(G) 2-Butanone (or Methyl Ethyl Ketone)."

SEC. 210. WITHDRAWAL OF REGULATIONS.

The final rule concerning removal of exemption for certain pseudoephedrine products marketed under the Federal Food, Drug, and Cosmetic Act published in the Federal Register of August 7, 1996 (61 FR 40981-40993) is null and void and of no force or effect.

TITLE III—INCREASED PENALTIES FOR TRAFFICKING AND MANUFACTURE OF METHAMPHETAMINE AND PRECURSORS

SEC. 301. PENALTY INCREASES FOR TRAFFICKING IN METHAMPHETAMINE.

(a) DIRECTIVE TO THE UNITED STATES SENTENCING COMMISSION.—Pursuant to its au-

thority under section 994 of title 28, United States Code, the United States Sentencing Commission shall review and amend its guidelines and its policy statements to provide for increased penalties for unlawful manufacturing, importing, exporting, and trafficking of methamphetamine, and other similar offenses, including unlawful possession with intent to commit any of those offenses, and attempt and conspiracy to commit any of those offenses. The Commission shall submit to Congress explanations therefor and any additional policy recommendations for combating methamphetamine offenses.

(b) IN GENERAL.—In carrying out this section, the Commission shall ensure that the sentencing guidelines and policy statements for offenders convicted of offenses described in subsection (a) and any recommendations submitted under such subsection reflect the heinous nature of such offenses, the need for aggressive law enforcement action to fight such offenses, and the extreme dangers associated with unlawful activity involving methamphetamine, including—

(1) the rapidly growing incidence of methamphetamine abuse and the threat to public safety such abuse poses;

(2) the high risk of methamphetamine addiction;

(3) the increased risk of violence associated with methamphetamine trafficking and abuse; and

(4) the recent increase in the illegal importation of methamphetamine and precursor chemicals.

SEC. 302. ENHANCED PENALTIES FOR OFFENSES INVOLVING CERTAIN LISTED CHEMICALS.

(a) CONTROLLED SUBSTANCES ACT.—Section 401(d) of the Controlled Substances Act (21 U.S.C. 841(d)) is amended by striking "not more than 10 years," and inserting "not more than 20 years in the case of a violation of paragraph (1) or (2) involving a list I chemical or not more than 10 years in the case of a violation of this subsection other than a violation of paragraph (1) or (2) involving a list I chemical."

(b) CONTROLLED SUBSTANCE IMPORT AND EXPORT ACT.—Section 1010(d) of the Controlled Substance Import and Export Act (21 U.S.C. 960(d)) is amended by striking "not more than 10 years," and inserting "not more than 20 years in the case of a violation of paragraph (1) or (3) involving a list I chemical or not more than 10 years in the case of a violation of this subsection other than a violation of paragraph (1) or (3) involving a list I chemical."

(c) SENTENCING GUIDELINES.—

(1) IN GENERAL.—The United States Sentencing Commission shall, in accordance with the procedures set forth in section 21(a) of the Sentencing Act of 1987, as though the authority of that section had not expired, amend the sentencing guidelines to increase by at least two levels the offense level for offenses involving list I chemicals under—

(A) section 401(d) (1) and (2) of the Controlled Substances Act (21 U.S.C. 841(d) (1) and (2)); and

(B) section 1010(d) (1) and (3) of the Controlled Substance Import and Export Act (21 U.S.C. 960(d) (1) and (3)).

(2) REQUIREMENT.—In carrying out this subsection, the Commission shall ensure that the offense levels for offenses referred to in paragraph (1) are calculated proportionally on the basis of the quantity of controlled substance that reasonably could have been manufactured in a clandestine setting using the quantity of the list I chemical possessed, distributed, imported, or exported.

SEC. 303. ENHANCED PENALTY FOR DANGEROUS HANDLING OF CONTROLLED SUBSTANCES: AMENDMENT OF SENTENCING GUIDELINES.

(a) IN GENERAL.—Pursuant to its authority under section 994 of title 28, United States Code, the United States Sentencing Commission shall determine whether the Sentencing Guidelines adequately punish the offenses described in subsection (b) and, if not, promulgate guidelines or amend existing guidelines to provide an appropriate enhancement of the punishment for a defendant convicted of such an offense.

(b) OFFENSE.—The offense referred to in subsection (a) is a violation of section 401(d), 401(g)(1), 403(a)(6), or 403(a)(7) of the Controlled Substances Act (21 U.S.C. 841(d), 841(g)(1), 843(a)(6), and 843(a)(7)), in cases in which in the commission of the offense the defendant violated—

(1) subsection (d) or (e) of section 3008 of the Solid Waste Disposal Act (relating to handling hazardous waste in a manner inconsistent with Federal or applicable State law);

(2) section 103(b) of the Comprehensive Environmental Response, Compensation and Liability Act (relating to failure to notify as to the release of a reportable quantity of a hazardous substance into the environment);

(3) section 301(a), 307(d), 309(c)(2), 309(c)(3), 311(b)(3), or 311(b)(5) of the Federal Water Pollution Control Act (relating to the unlawful discharge of pollutants or hazardous substances, the operation of a source in violation of a pretreatment standard, and the failure to notify as to the release of a reportable quantity of a hazardous substance into the water); or

(4) section 5124 of title 49, United States Code (relating to violations of laws and regulations enforced by the Department of Transportation with respect to the transportation of hazardous material).

TITLE IV—LEGAL MANUFACTURE, DISTRIBUTION, AND SALE OF PRECURSOR CHEMICALS

SEC. 401. DIVERSION OF CERTAIN PRECURSOR CHEMICALS.

(a) IN GENERAL.—Section 102(39) of the Controlled Substances Act (21 U.S.C. 802(39)) is amended—

(1) in subparagraph (A)(iv)(I)(aa), by striking "as" through the semicolon and inserting "pseudoephedrine or its salts, optical isomers, or salts of optical isomers, or phenylpropanolamine or its salts, optical isomers, or salts of optical isomers unless otherwise provided by regulation of the Attorney General issued pursuant to section 204(e) of this title"; and

(2) in subparagraph (A)(iv)(II), by inserting "pseudoephedrine, phenylpropanolamine," after "ephedrine".

(b) LEGITIMATE RETAILERS.—Section 102 of the Controlled Substances Act (21 U.S.C. 802) is amended—

(1) in paragraph (39)(A)(iv)(I)(aa), by adding before the semicolon the following: "except that any sale of ordinary over-the-counter pseudoephedrine or phenylpropanolamine products by retail distributors shall not be a regulated transaction (except as provided in section 401(d) of the Comprehensive Methamphetamine Control Act of 1996)";

(2) in paragraph (39)(A)(iv)(II), by adding before the semicolon the following: "except that the threshold for any sale of products containing pseudoephedrine or phenylpropanolamine products by retail distributors or by distributors required to submit reports by section 310(b)(3) of this title shall be 24 grams of pseudoephedrine or 24 grams of phenylpropanolamine in a single transaction";

(3) by redesignating paragraph (43) relating to felony drug offense as paragraph (44); and

(4) by adding at the end the following:

"(45) The term 'ordinary over-the-counter pseudoephedrine or phenylpropanolamine product' means any product containing pseudoephedrine or phenylpropanolamine that is—

"(A) regulated pursuant to this title; and

"(B)(i) except for liquids, sold in package sizes of not more than 3.0 grams of pseudoephedrine base or 3.0 grams of phenylpropanolamine base, and that is packaged in blister packs, each blister containing not more than two dosage units, or where the use of blister packs is technically infeasible, that is packaged in unit dose packets or pouches; and

"(ii) for liquids, sold in package sizes of not more than 3.0 grams of pseudoephedrine base or 3.0 grams of phenylpropanolamine base.

"(46)(A) The term 'retail distributor' means a grocery store, general merchandise store, drug store, or other entity or person whose activities as a distributor relating to pseudoephedrine or phenylpropanolamine products are limited almost exclusively to sales for personal use, both in number of sales and volume of sales, either directly to walk-in customers or in face-to-face transactions by direct sales.

"(B) For purposes of this paragraph, sale for personal use means the sale of below-threshold quantities in a single transaction to an individual for legitimate medical use.

"(C) For purposes of this paragraph, entities are defined by reference to the Standard Industrial Classification (SIC) code, as follows:

"(i) A grocery store is an entity within SIC code 5411.

"(ii) A general merchandise store is an entity within SIC codes 5300 through 5399 and 5499.

"(iii) A drug store is an entity within SIC code 5912."

(C) REINSTATEMENT OF LEGAL DRUG EXEMPTION.—Section 204 of the Controlled Substances Act (21 U.S.C. 814) is amended by adding at the end the following new subsection:

"(e) REINSTATEMENT OF EXEMPTION WITH RESPECT TO EPHEDRINE, PSEUDOEPHEDRINE, AND PHENYLPROPANOLAMINE DRUG PRODUCTS.—Pursuant to subsection (d)(1), the Attorney General shall by regulation reinstate the exemption with respect to a particular ephedrine, pseudoephedrine, or phenylpropanolamine drug product if the Attorney General determines that the drug product is manufactured and distributed in a manner that prevents diversion. In making this determination the Attorney General shall consider the factors listed in subsection (d)(2). Any regulation issued pursuant to this subsection may be amended or revoked based on the factors listed in subsection (d)(4)."

(d) REGULATION OF RETAIL SALES.—

(1) PSEUDOEPHEDRINE.—

(A) LIMIT.—

(i) IN GENERAL.—Not sooner than the effective date of this section and subject to the requirements of clause (ii), the Attorney General may establish by regulation a single-transaction limit of 24 grams of pseudoephedrine base for retail distributors. Notwithstanding any other provision of law, the single-transaction threshold quantity for pseudoephedrine-containing compounds may not be lowered beyond that established in this paragraph.

(ii) CONDITIONS.—In order to establish a single-transaction limit of 24 grams of pseudoephedrine base, the Attorney General shall establish, following notice, comment, and an informal hearing that since the date of enactment of this Act there are a significant number of instances where ordinary over-the-counter pseudoephedrine products

as established in paragraph (45) of section 102 of the Controlled Substances Act (21 U.S.C. 802 (45)), as added by this Act, sold by retail distributors as established in paragraph (46) in section 102 of the Controlled Substances Act (21 U.S.C. 802(46)), are being widely used as a significant source of precursor chemicals for illegal manufacture of a controlled substance for distribution or sale.

(B) VIOLATION.—Any individual or business that violates the thresholds established in this paragraph shall, with respect to the first such violation, receive a warning letter from the Attorney General and, if a business, the business shall be required to conduct mandatory education of the sales employees of the firm with regard to the legal sales of pseudoephedrine. For a second violation occurring within 2 years of the first violation, the business or individual shall be subject to a civil penalty of not more than \$5,000. For any subsequent violation occurring within 2 years of the previous violation, the business or individual shall be subject to a civil penalty not to exceed the amount of the previous civil penalty plus \$5,000.

(2) PHENYLPROPANOLAMINE.—

(A) LIMIT.—

(i) IN GENERAL.—Not sooner than the effective date of this section and subject to the requirements of clause (ii), the Attorney General may establish by regulation a single-transaction limit of 24 grams of phenylpropanolamine base for retail distributors. Notwithstanding any other provision of law, the single-transaction threshold quantity for phenylpropanolamine-containing compounds may not be lowered beyond that established in this paragraph.

(ii) CONDITIONS.—In order to establish a single-transaction limit of 24 grams of phenylpropanolamine base, the Attorney General shall establish, following notice, comment, and an informal hearing, that since the date of enactment of this Act there are a significant number of instances where ordinary over-the-counter phenylpropanolamine products as established in paragraph (45) of section 102 of the Controlled Substances Act (21 U.S.C. 802(45)), as added by this Act, sold by retail distributors as established in paragraph (46) in section 102 of the Controlled Substances Act (21 U.S.C. 802(46)), are being used as a significant source of precursor chemicals for illegal manufacture of a controlled substance in bulk.

(B) VIOLATION.—Any individual or business that violates the thresholds established in this paragraph shall, with respect to the first such violation, receive a warning letter from the Attorney General and, if a business, the business shall be required to conduct mandatory education of the sales employees of the firm with regard to the legal sales of pseudoephedrine. For a second violation occurring within 2 years of the first violation, the business or individual shall be subject to a civil penalty of not more than \$5,000. For any subsequent violation occurring within 2 years of the previous violation, the business or individual shall be subject to a civil penalty not to exceed the amount of the previous civil penalty plus \$5,000.

(3) SIGNIFICANT NUMBER OF INSTANCES.—

(A) IN GENERAL.—For purposes of this subsection, isolated or infrequent use, or use in insubstantial quantities, of ordinary over-the-counter pseudoephedrine or phenylpropanolamine, as defined in section 102(45) of the Controlled Substances Act, as added by section 401(b) of this Act, and sold at the retail level for the illicit manufacture of methamphetamine or amphetamine may not be used by the Attorney General as the basis for establishing the conditions under paragraph (1)(A)(ii) of this subsection, with respect to pseudoephedrine, and paragraph

(2)(A)(ii) of this subsection, with respect to phenylpropanolamine.

(B) CONSIDERATIONS AND REPORT.—The Attorney General shall—

(i) in establishing a finding under paragraph (1)(A)(ii) or (2)(A)(ii) of this subsection, consult with the Secretary of Health and Human Services in order to consider the effects on public health that would occur from the establishment of new single transaction limits as provided in such paragraph; and

(ii) upon establishing a finding, transmit a report to the Committees on the Judiciary in both, respectively, the House of Representatives and the Senate in which the Attorney General will provide the factual basis for establishing the new single transaction limits.

(4) DEFINITION OF BUSINESS.—For purposes of this subsection, the term "business" means the entity that makes the direct sale and does not include the parent company of a business not involved in a direct sale regulated by this subsection.

(5) JUDICIAL REVIEW.—Any regulation promulgated by the Attorney General under this section shall be subject to judicial review pursuant to section 507 of the Controlled Substances Act (21 U.S.C. 877).

(e) EFFECT ON THRESHOLDS.—Nothing in the amendments made by subsection (b) or the provisions of subsection (d) shall affect the authority of the Attorney General to modify thresholds (including cumulative thresholds) for retail distributors for products other than ordinary over-the-counter pseudoephedrine or phenylpropanolamine products (as defined in section 102(45) of the Controlled Substances Act, as added by this section) or for non-retail distributors, importers, or exporters.

(f) COMBINATION EPHEDRINE PRODUCTS.—

(1) IN GENERAL.—For the purposes of this section, combination ephedrine products shall be treated the same as pseudoephedrine products, except that—

(A) a single transaction limit of 24 grams shall be effective as of the date of enactment of this Act and shall apply to sales of all combination ephedrine products, notwithstanding the form in which those products are packaged, made by retail distributors or distributors required to submit a report under section 310(b)(3) of the Controlled Substances Act (as added by section 402 of this Act);

(B) for regulated transactions for combination ephedrine products other than sales described in subparagraph (A), the transaction limit shall be—

(i) 1 kilogram of ephedrine base, effective on the date of enactment of this Act; or

(ii) a threshold other than the threshold described in clause (i), if established by the Attorney General not earlier than 1 year after the date of enactment of this Act; and

(C) the penalties provided in subsection (d)(1)(B) of this section shall take effect on the date of enactment of this Act for any individual or business that violates the single transaction limit of 24 grams for combination ephedrine products.

(2) DEFINITION.—For the purposes of this section, the term "combination ephedrine product" means a drug product containing ephedrine or its salts, optical isomers, or salts of optical isomers and therapeutically significant quantities of another active medicinal ingredient.

(g) EFFECTIVE DATE OF THIS SECTION.—Notwithstanding any other provision of this Act, this section shall not apply to the sale of any pseudoephedrine or phenylpropanolamine product prior to 12 months after the date of enactment of this Act, except that, on application of a manufacturer of a particular pseudoephedrine or phenylpropanolamine drug product, the Attorney General may, in

her sole discretion, extend such effective date up to an additional six months. Notwithstanding any other provision of law, the decision of the Attorney General on such an application shall not be subject to judicial review.

SEC. 402. MAIL ORDER RESTRICTIONS.

Section 310(b) of the Controlled Substances Act (21 U.S.C. 830(b)) is amended by adding at the end the following:

"(3) MAIL ORDER REPORTING.—(A) Each regulated person who engages in a transaction with a nonregulated person which—

"(i) involves ephedrine, pseudoephedrine, or phenylpropanolamine (including drug products containing these chemicals); and

"(ii) uses or attempts to use the Postal Service or any private or commercial carrier;

shall, on a monthly basis, submit a report of each such transaction conducted during the previous month to the Attorney General in such form, containing such data, and at such times as the Attorney General shall establish by regulation.

"(B) The data required for such reports shall include—

"(i) the name of the purchaser;

"(ii) the quantity and form of the ephedrine, pseudoephedrine, or phenylpropanolamine purchased; and

"(iii) the address to which such ephedrine, pseudoephedrine, or phenylpropanolamine was sent."

TITLE V—EDUCATION AND RESEARCH

SEC. 501. INTERAGENCY METHAMPHETAMINE TASK FORCE.

(a) ESTABLISHMENT.—There is established a "Methamphetamine Interagency Task Force" (referred to as the "interagency task force") which shall consist of the following members:

(1) The Attorney General, or a designee, who shall serve as chair.

(2) 2 representatives selected by the Attorney General.

(3) The Secretary of Education or a designee.

(4) The Secretary of Health and Human Services or a designee.

(5) 2 representatives of State and local law enforcement and regulatory agencies, to be selected by the Attorney General.

(6) 2 representatives selected by the Secretary of Health and Human Services.

(7) 5 nongovernmental experts in drug abuse prevention and treatment to be selected by the Attorney General.

(b) RESPONSIBILITIES.—The interagency task force shall be responsible for designing, implementing, and evaluating the education and prevention and treatment practices and strategies of the Federal Government with respect to methamphetamine and other synthetic stimulants.

(c) MEETINGS.—The interagency task force shall meet at least once every 6 months.

(d) FUNDING.—The administrative expenses of the interagency task force shall be paid out of existing Department of Justice appropriations.

(e) FACA.—The Federal Advisory Committee Act (5 U.S.C. App. 2) shall apply to the interagency task force.

(f) TERMINATION.—The interagency task force shall terminate 4 years after the date of enactment of this Act.

SEC. 502. PUBLIC HEALTH MONITORING.

The Secretary of Health and Human Services shall develop a public health monitoring program to monitor methamphetamine abuse in the United States. The program shall include the collection and dissemination of data related to methamphetamine abuse which can be used by public health officials in policy development.

SEC. 503. PUBLIC-PRIVATE EDUCATION PROGRAM.

(a) ADVISORY PANEL.—The Attorney General shall establish an advisory panel consisting of an appropriate number of representatives from Federal, State, and local law enforcement and regulatory agencies with experience in investigating and prosecuting illegal transactions of precursor chemicals. The Attorney General shall convene the panel as often as necessary to develop and coordinate educational programs for wholesale and retail distributors of precursor chemicals and supplies.

(b) CONTINUATION OF CURRENT EFFORTS.—The Attorney General shall continue to—

(1) maintain an active program of seminars and training to educate wholesale and retail distributors of precursor chemicals and supplies regarding the identification of suspicious transactions and their responsibility to report such transactions; and

(2) provide assistance to State and local law enforcement and regulatory agencies to facilitate the establishment and maintenance of educational programs for distributors of precursor chemicals and supplies.

SEC. 504. SUSPICIOUS ORDERS TASK FORCE.

(a) IN GENERAL.—The Attorney General shall establish a "Suspicious Orders Task Force" (the "Task Force") which shall consist of—

(1) appropriate personnel from the Drug Enforcement Administration (the "DEA") and other Federal, State, and local law enforcement and regulatory agencies with the experience in investigating and prosecuting illegal transactions of listed chemicals and supplies; and

(2) representatives from the chemical and pharmaceutical industry.

(b) RESPONSIBILITIES.—The Task Force shall be responsible for developing proposals to define suspicious orders of listed chemicals, and particularly to develop quantifiable parameters which can be used by registrants in determining if an order is a suspicious order which must be reported to DEA. The quantifiable parameters to be addressed will include frequency of orders, deviations from prior orders, and size of orders. The Task Force shall also recommend provisions as to what types of payment practices or unusual business practices shall constitute prima facie suspicious orders. In evaluating the proposals, the Task Force shall consider effectiveness, cost and feasibility for industry and government, and other relevant factors.

(c) MEETINGS.—The Task Force shall meet at least two times per year and at such other times as may be determined necessary by the Task Force.

(d) REPORT.—The Task Force shall present a report to the Attorney General on its proposals with regard to suspicious orders and the electronic reporting of suspicious orders within one year of the date of enactment of this Act. Copies of the report shall be forwarded to the Committees of the Senate and House of Representatives having jurisdiction over the regulation of listed chemical and controlled substances.

(e) FUNDING.—The administrative expenses of the Task Force shall be paid out of existing Department of Justice funds or appropriations.

(f) FACA.—The Federal Advisory Committee Act (5 U.S.C. App. 2) shall apply to the Task Force.

(g) TERMINATION.—The Task Force shall terminate upon presentation of its report to the Attorney General, or two years after the date of enactment of this Act, whichever is sooner.

MEASURE READ THE FIRST TIME—SENATE JOINT RESOLUTION 61

Mr. STEVENS. Mr. President, I send to the desk a joint resolution on behalf of Senators THURMOND and HEFLIN and ask for its first reading.

The PRESIDING OFFICER. The clerk will read the joint resolution for the first time.

A joint resolution (S.J. Res. 61) regarding the Emergency Management Assistant Compact.

Mr. STEVENS. Mr. President, I now ask for second reading, and I object to my own request on behalf of the other side of the aisle.

The PRESIDING OFFICER. The bill will be read on the next legislative day.

ECONOMIC ESPIONAGE ACT

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3723, which is now at the desk.

The PRESIDING OFFICER. The clerk will report the bill.

The assistant legislative clerk read as follows:

A bill (H.R. 3723) to amend Title 18 U.S. Code to protect proprietary economic information, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 5384

(Purpose: To propose a substitute)

Mr. STEVENS. Mr. President, I send a substitute amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS] for Mr. SPECTER, for himself and Mr. KOHL, proposes an amendment numbered 5384.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

AMENDMENT NO. 5385 TO AMENDMENT NO. 5384

(Purpose: To amend title 18, United States Code, to prohibit certain activities relating to the use of computers, and for other purposes)

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. GRASSLEY, for himself and Mr. KYL, proposes an amendment numbered 5385 to Amendment No. 5384.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, add the following new section: Sec. 6.

(a) WIRE AND COMPUTER FRAUD.—Section 1343 of title 18, United States Code, is amended—

(1) by adding at the end the following new subsection:

“(b) SECRET SERVICE JURISDICTION.—“The Secretary of the Treasury and the Attorney General are authorized to enter into an agreement under which the United States Secret Service may investigate certain offenses under this section.”

(a) USE OF CERTAIN TECHNOLOGY TO FACILITATE CRIMINAL CONDUCT.—

(1) INFORMATION.—The Administrative Office of the United States Courts shall establish policies and procedures for the inclusion in all Presentence Reports of information that specifically identifies and describes any use of encryption or scrambling technology that would be relevant to an enhancement under Section 3C1.1 (dealing with Obstructing or Impeding the Administration of Justice) of the Sentencing Guidelines or to offense conduct under the Sentencing Guidelines.

(2) COMPILING AND REPORT.—The United States Sentencing Commission shall—

(A) compile and analyze any information contained in documentation described in paragraph (1) relating to the use of encryption or scrambling technology to facilitate or conceal criminal conduct; and

(B) based on the information compiled and analyzed under subparagraph (A), annually report to the Congress on the nature and extent of the use of encryption or scrambling technology to facilitate or conceal criminal conduct.”

(c) Section 1029 of Title 18, United States Code is amended by—“Striking the (a)(5) in the second place it appears and replacing it with (a)(8); by striking the (a)(6) the second place it appears and replacing it with (a)(9); and by adding the following new section:

“(a)(10) knowingly and with intent to defraud uses, produces, traffics in, or possesses any device containing electronically stored monetary value.”

Mr. GRASSLEY. Mr. President, I'm pleased that the Senate has passed the economic espionage bill. This is an important measure that I believe will save American business significant amounts of money. The theft of confidential information from American businesses is a serious problem, and this bill takes important steps in the right direction.

I am particularly pleased that the Senate has accepted the amendment I offered with Senator KYL. This amendment commissions the first-ever study on the criminal misuse of encryption technologies. Under the Grassley-Kyl amendment, court officers who prepare pre-sentencing reports will include information on the use of encryption to conceal criminal conduct, obstruct investigations, and commit crimes. The sentencing commission will then collect and collate this information and include it in its annual report to congress.

In this way, I am hopeful that Congress and executive branch will have reliable data on whether the criminal misuse of encryption is actually a problem and, if so, what response to this problem would be appropriate.

As chairman of the Oversight Subcommittee on the Judiciary Committee, I did an informal survey of state-level law enforcement concerning the criminal misuse of encryption. This informal survey, while not scientific, provides valuable insights into the actions of the criminal element in our society.

Here are just some of the responses my subcommittee received.

In one case involving John Lucich of the New Jersey attorney general's office was involved, a computer was seized pursuant to a warrant in a serious assault case. Examination revealed that approximately 20 percent of the hard drive files were encrypted. Investigators sought the assistance of two different Federal agencies. Both of these agencies were unsuccessful in decrypting the files. Finally, a third Federal agency was successful in decrypting the files after expending considerable resources. The Decrypted files did not contain evidence of the assault but rather contained evidence of child pornography. The encryption type likely used was “DES.”

And Officer Tim O'Neill of the Roseville, California Police Department reported to the subcommittee that he participated in a search involving a complaint against a subject who was on probation for solicitation/annoyance of minors. The subject had a hidden encrypted file on his personal computer. In the “slack” area at the end of the file the officer found names, addresses, school, grade, and phone numbers of 4-5 young teen girls. The encryption type used was known as “pincrypt.”

Officer Mike Menz of the same department advised the subcommittee that he was working on a joint State/Federal major check fraud case where part of the potential evidence was encrypted.

Ivan Ortman, a senior prosecutor in Seattle, Washington, encountered some encrypted files and password protection in a cellular phone fraud investigation. For a number of files the popular and inexpensive “PGP” type of encryption was used. Orton indicated that no effort was even made to examine the files as the police could not locate any method for “cracking that encryption.”

In other words, why try since such an effort is certain to be futile. Surely a rational society should look long and hard at this situation.

Agent Chuck Davis of the Colorado Bureau of Investigation reported to the subcommittee that he has encountered encryption as well as password protection problems. In one embezzlement case, a computer system has seized. Examination revealed that files on the hard disk were encrypted. The software manufacturers were contacted and the technical personnel who wrote the program advised that, “they had left no ‘back door’ access to the product as this would adversely impact sales. The hallmark of the program's appeal is

that it cannot be broken, even by those who created it.” Agent Davis advised that his investigation was “halted” due to the time and expense of a “brute force attack”. The encryption program used was entitled “watchdog.”

Agent Davis also advised the subcommittee that password protection also presents problems for other types of investigators. In cases involving theft of drugs from an emergency room by a doctor, bribery/extortion by a police officer, and the suicide by an 11 year-old boy after telling friends that he had been molested by a family friend, investigators encountered password protection. The first two cases were successfully resolved through assistance from the manufacturer of the software.

The third case, however, especially illustrates the seriousness of decryption problems—determining the unique key or in this case, password from a large number of possibilities. According to Agent Davis, a mere 4 character password has 1.9 million possibilities due to the number of keyboard characters. Can you imagine how difficult it must be to figure a short, 4 character password. What if the password were 10 characters or 20 or more? It's easy to see why criminals are moving toward password protection for their records.

Mr. President, I don't know what the Grassley-Kyl amendment's study will show. But at least anecdotally, there seems to be a serious and growing problem with criminals using encryption to commit crimes or conceal criminal conduct. I hope we can figure out what to do about the problem in a fair and balanced way. I yield the floor.

Mr. KYL. Mr. President, I rise to comment on the economic espionage bill introduced by Senators SPECTER and KOHL. I was pleased that the Senate Judiciary Committee passed this bill, which will strengthen current public law on crimes against our industries. It will protect our businesses by punishing those who steal vital proprietary information for the benefit of a foreign government or a corporation.

Economic espionage is not a new crime. The success of many U.S. firms has made them a large target for the theft of trade secrets. It is much easier for a foreign firm to steal American trade secrets, with little or no penalty, than it is for a firm to spend a large amount of capital on research and development. Economic espionage may be the future of intelligence.

Only recently have American firms begun to recognize the economic impact espionage has on U.S. firms. In 1992, a survey by the American Society for Industrial Security discovered that American firms lost roughly \$597 million in product development and specification data and \$110 million in manufacturing process information, due to espionage. These losses are likely to continue. I am pleased that the Chairman and ranking member have produced a bill that will for the first time

penalize those who try to steal ideas that Americans have worked hard to develop.

One problem not yet adequately addressed is how to collect necessary intelligence in an age when encryption protects computer communication. In order to maintain our national security interests, I support some measure of constitutional authority to collect intelligence even in situations where communications have been encrypted. To that end, Mr. President, I am hopeful that my colleagues will adopt an amendment to this bill that Senator GRASSLEY and I have sponsored. It will amend the federal sentencing guidelines to require that the Federal Sentencing Commission collect, compile, and report annually on information collected from pretrial sentence reports and other relevant documents indicating the use of encryption to further or conceal criminal conduct.

Whatever one's view of export policy, it is clear that law enforcement must have better records of criminals who use encryption technology. This amendment will accomplish that.

Mr. President, passing an economic espionage law will deter criminals from stealing trade secrets from American businesses. I urge my colleagues to adopt our amendment and pass the bill. The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5385) was agreed to.

Mr. GRASSLEY. I am pleased that the amendment I offered with my good friend Senator KYL has been accepted. This amendment requires the Sentencing Commission to report to Congress every year on the criminal misuse of encryption technologies, including to obstruct or impede the administration of justice. I think that this will help Congress obtain reliable data on the question of whether encryption is actually being used by criminals to commit crimes.

The Grassley-Kyl amendment also provides the Attorney General and Secretary of the Treasury with the authority to enter into an agreement providing the United States Secret Service with concurrent jurisdiction to investigate certain types of wire fraud offenses. I considered amending 18 U.S.C. 1343 to specifically encompass computer frauds, but after reviewing the case law (see, *E.G., U.S. v. Riggs*, 967 F.2d 561 (11th Cir. 1992)) and consulting with the Justice Department, I have decided that this is not necessary. My hope is that Federal law enforcement and the Justice Department will make more use of section 1343 to prosecute computer crimes. Specifically, I would like this interpretation to be committed to writing and distributed to Federal prosecutors in the field.

Mr. LEAHY. I concur in the view of the Senator from Iowa that amending section 1343 as he originally considered is not necessary. Section 1343 already encompasses frauds effected by the

interstate or foreign transmission of wire communications involving, among other things, writings, signs, or signals and, consequently, would encompass frauds effected by means of computers in interstate or foreign commerce. I know the Justice Department already interprets 1343 in this way. I too would urge the Justice Department to ensure that Federal prosecutors in the field are familiar with the scope of criminal conduct, including fraud effected by means of computers, encompassed by the wire fraud statute.

Regarding the new requirement that the Sentencing Commission report on the criminal misuse of encryption technologies. I caution that the results of this report—whatever they may be—will be necessarily incomplete and should not be viewed out of context. Instances in which encryption technologies have been used to thwart the theft of valuable computerized data, which has been encrypted, and to prevent crimes, such as economic espionage, do not usually draw the attention of law enforcement and therefore will not be included in the report.

Mr. GRASSLEY. I wonder whether the chairman and ranking member of the Technology Subcommittee agree with this analysis of section 1343.

Mr. SPECTER. I have listened to your exchange with Senator LEAHY and I fully agree that section 1343 already encompasses computer fraud and that amending it is not necessary.

Mr. KOHL. I too listened to your exchange with Senator LEAHY, and I am also of the view that section 1343 covers some computer crimes and that no amendment was necessary.

AMENDMENT NO. 5386

(Purpose: To improve the treatment and security of certain persons found not guilty by reason of insanity in the District of Columbia, and for other purposes)

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. HATCH, proposes an amendment numbered 5386.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the bill, add the following:

SEC. . TRANSFER OF PERSONS FOUND NOT GUILTY BY REASON OF INSANITY.

(a) AMENDMENT OF SECTION 4243 OF TITLE 18.—Section 4243 of title 18, United States Code, is amended by adding at the end the following new subsection:

“(i) CERTAIN PERSONS FOUND NOT GUILTY BY REASON OF INSANITY IN THE DISTRICT OF COLUMBIA.—

“(1) TRANSFER TO CUSTODY OF THE ATTORNEY GENERAL.—Notwithstanding section 301(h) of title 24 of the District of Columbia Code, and notwithstanding subsection 4247(j) of this title, all persons who have been com-

mitted to a hospital for the mentally ill pursuant to section 301(d)(1) of title 24 of the District of Columbia Code, and for whom the United States has continuing financial responsibility, may be transferred to the custody of the Attorney General, who shall hospitalize the person for treatment in a suitable facility.

“(2) APPLICATION.—

“(A) IN GENERAL.—The Attorney General may establish custody over such persons by filing an application in the United States District Court for the District of Columbia, demonstrating that the person to be transferred is a person described in this subsection.

“(B) NOTICE.—The Attorney General shall, by any means reasonably designed to do so, provide written notice of the proposed transfer of custody to such person or such person's guardian, legal representative, or other lawful agent. The person to be transferred shall be afforded an opportunity, not to exceed 15 days, to respond to the proposed transfer of custody, and may, at the court's discretion, be afforded a hearing on the proposed transfer of custody. Such hearing, if granted, shall be limited to a determination of whether the constitutional rights of such person would be violated by the proposed transfer of custody.

“(C) ORDER.—Upon application of the Attorney General, the court shall order the person transferred to the custody of the Attorney General, unless, pursuant to a hearing under this paragraph, the court finds that the proposed transfer would violate a right of such person under the United States Constitution.

“(D) EFFECT.—Nothing in this paragraph shall be construed to—

“(i) create in any person a liberty interest in being granted a hearing or notice on any matter;

“(ii) create in favor of any person a cause of action against the United States or any officer or employee of the United States; or

“(iii) limit in any manner or degree the ability of the Attorney General to move, transfer, or otherwise manage any person committed to the custody of the Attorney General.

“(3) CONSTRUCTION WITH OTHER SECTIONS.—Subsections (f) and (g) and section 4247 shall apply to any person transferred to the custody of the Attorney General pursuant to this subsection.”

(b) TRANSFER OF RECORDS.—Notwithstanding any provision of the District of Columbia Code or any other provision of law, the District of Columbia and St. Elizabeth's Hospital—

(1) not later than 30 days after the date of enactment of this Act, shall provide to the Attorney General copies of all records in the custody or control of the District or the Hospital on such date of enactment pertaining to persons described in section 4243(i) of title 18, United States Code (as added by subsection (a));

(2) not later than 30 days after the creation of any records by employees, agents, or contractors of the District of Columbia or of St. Elizabeth's Hospital pertaining to persons described in section 4243(i) of title 18, United States Code, provide to the Attorney General copies of all such records created after the date of enactment of this Act;

(3) shall not prevent or impede any employee, agent, or contractor of the District of Columbia or of St. Elizabeth's Hospital who has obtained knowledge of the persons described in section 4243(i) of title 18, United States Code, in the employee's professional capacity from providing that knowledge to the Attorney General, nor shall civil or criminal liability attach to such employees, agents, or contractors who provide such knowledge; and

(4) shall not prevent or impede interviews of persons described in section 4243(i) of title 18, United States Code, by representatives of the Attorney General, if such persons voluntarily consent to such interviews.

(c) CLARIFICATION OF EFFECT ON CERTAIN TESTIMONIAL PRIVILEGES.—The amendments made by this section shall not be construed to affect in any manner any doctor-patient or psychotherapist-patient testimonial privilege that may be otherwise applicable to persons found not guilty by reason of insanity and affected by this section.

(d) SEVERABILITY.—If any provision of this section, an amendment made by this section, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this section and the amendments made by this section shall not be affected thereby.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5386) was agreed to.

AMENDMENT NO. 5387 TO AMENDMENT NO. 5384

(Purpose: To provide funding for the establishment of Boys and Girls Clubs in public housing projects and other distressed areas, and for other purposes)

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. HATCH, for himself, and Mr. KOHL, proposes an amendment numbered 5387 to amendment No. 5384.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the bill, add the following:

SEC. . ESTABLISHING BOYS AND GIRLS CLUBS.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Boys and Girls Clubs of America, chartered by an Act of Congress on December 10, 1991, during its 90-year history as a national organization, has proven itself as a positive force in the communities it serves;

(B) there are 1,810 Boys and Girls Clubs facilities throughout the United States, Puerto Rico, and the United States Virgin Islands, serving 2,420,000 youths nationwide;

(C) 71 percent of the young people who benefit from Boys and Girls Clubs programs live in our inner cities and urban areas;

(D) Boys and Girls Clubs are locally run and have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement;

(E) Boys and Girls Clubs are located in 289 public housing sites across the Nation;

(F) public housing projects in which there is an active Boys and Girls Club have experienced a 25 percent reduction in the presence of crack cocaine, a 22 percent reduction in overall drug activity, and a 13 percent reduction in juvenile crime;

(G) these results have been achieved in the face of national trends in which overall drug use by youth has increased 105 percent since 1992 and 10.9 percent of the Nation's young people use drugs on a monthly basis; and

(H) many public housing projects and other distressed areas are still underserved by Boys and Girls Clubs.

(2) PURPOSE.—It is the purpose of this section to provide adequate resources in the form of seed money for the Boys and Girls Clubs of America to establish 1,000 additional local Boys and Girls Clubs in public housing projects and other distressed areas by 2001.

(b) DEFINITIONS.—For purposes of this section—

(1) the terms "public housing" and "project" have the same meanings as in section 3(b) of the United States Housing Act of 1937; and

(2) the term "distressed area" means an urban, suburban, or rural area with the high percentage of high risk youth as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)).

(c) ESTABLISHMENT.—

(1) IN GENERAL.—For each of the fiscal years 1997, 1998, 1999, 2000, and 2001, the Director of the Bureau of Justice Assistance of the Department of Justice shall provide a grant to the Boys and Girls Clubs of America for the purpose of establishing Boys and Girls Clubs in public housing projects and other distressed areas.

(2) CONTRACTING AUTHORITY.—Where appropriate, the Secretary of Housing and Urban Development, in consultation with the Attorney General, shall enter into contracts with the Boys and Girls Clubs of America to establish clubs pursuant to the grants under paragraph (1).

(d) REPORT.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing Boys and Girls Clubs in public housing projects and other distressed areas, and the effectiveness of the programs in reducing drug abuse and juvenile crime.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) \$20,000,000 for fiscal year 1997;

(B) \$20,000,000 for fiscal year 1998;

(C) \$20,000,000 for fiscal year 1999;

(D) \$20,000,000 for fiscal year 2000; and

(E) \$20,000,000 for fiscal year 2001;

(2) VIOLENT CRIME REDUCTION TRUST FUND.—The sums authorized to be appropriated by this subsection may be made from the Violent Crime Reduction Trust Fund.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 5387) was agreed to.

Mr. STEVENS. Mr. President, I ask unanimous consent that the substitute, as amended, be agreed to, the bill be deemed read the third time, and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee substitute amendment was agreed to.

The bill (H.R. 3723), as amended, was passed.

Mr. KOHL. Mr. President, I am pleased that today the Senate has taken up and passed H.R. 3723. We are sending that bill back to the House with substitute. This language, which I drafted with Senator SPECTER, is based on our companion measures, S. 1556 ("The Economic Espionage Act") and S.1557 ("The Economic Security Act").

I would like to take this opportunity to point out several provisions of our legislation and explain their purpose and meaning.

This legislation includes a provision penalizing the theft of proprietary economic information and a second provision penalizing that theft when it is done on behalf of or to benefit a foreign government, instrumentality, or agent. The principle purpose of this second (foreign government) provision is not to punish conventional commercial theft and misappropriation of trade secrets (which is covered by the first provision). Thus, to make out an offense under this section, the prosecution must show in each instance that the perpetrator intended to, or had reason to believe that his or her actions would aid a foreign government, instrumentality, or agent. Enforcement agencies should administer this section with its principle purpose in mind and therefore should not apply section 572 to foreign corporations when there is no evidence of foreign government sponsored or coordinated intelligence activity. This particular concern is borne out in our understanding of the definition of "foreign instrumentality," which indicates that a foreign organization must be "substantially owned, controlled, sponsored, commanded, managed, or dominated by a foreign government or subdivision thereof." We do not mean for the test of substantial control to be mechanistic or mathematical. The simple fact that the majority of the stock of a company is owned by a foreign government will not suffice under this definition, nor for that matter will the fact that a foreign government only owns 10 percent of a company exempt it from scrutiny. Rather the pertinent inquiry is whether the activities of the company are, from a practical and substantive standpoint, foreign government directed.

To make out a case under these two provisions (sections 1832 and 572), the prosecution would have to show that the accused knew or had reason to know that a trade secret had been stolen or appropriated without authorization. This threshold separates conduct that is criminal from that which is innocent. Thus, for example, these sections would not give rise to prosecution for legitimate economic collection or reporting by personnel of foreign governments or international financial institutions, such as the World Bank, because such legitimate collection or reporting would not include the collection or reporting of trade secrets that had been stolen, misappropriated or converted without authorization.

In the section dealing with foreign government sponsored espionage, and derived from S. 1557, the definition of proprietary economic information is different from the definition of proprietary economic information in section 2. In particular, the definition contained in section 1831(2) indicates that "general knowledge" is not included in the term, while the definition in section 571(4) does not. We do not intend

to imply by this difference that general knowledge can or should be the subject of a prosecution under section 572. Of course, someone can use their general experience and skills and work for a foreign government. They cannot, however, steal a piece of proprietary economic information for an owner and thereby violate section 572 of this provision. Our point is simply that when a person is working on behalf of a foreign government, instrumentality or agency, that person has to be particularly careful to ensure that the information being used is not proprietary economic information.

Some people have asked whether a piece of proprietary economic information has to be novel or inventive. Unlike patented material, something does not have to be novel, in the patent law sense, in order to be a piece of proprietary economic information. Of course, often it will be because an owner will have a patented invention that he or she has chosen to maintain the material as a piece of proprietary economic information rather than reveal it through the patent process. Even if the material is not novel in the patent law sense, some form of novelty is probably inevitable since "that which does not possess novelty is usually known; secrecy, in the context of trade secrets implies at least minimal novelty." *Kewanee Oil Co. v. Bicron Corp.*, 416 U.S. 470, 476 (1974). While we do not strictly impose a novelty or inventiveness requirement in order for material to be considered proprietary economic information, looking at the novelty or uniqueness of a piece of information or knowledge should inform courts in determining whether something is a matter of general knowledge, skill or experience.

Although we do not require novelty or inventiveness, the definition of proprietary economic information includes the provision that an owner have taken reasonable measures under the circumstances to keep the information confidential. We do not with this definition impose any requirements on companies or owners. Each owner must assess the value of the material it seeks to protect, the extent of a threat of theft, and the ease of theft in determining how extensive their protective measures should be. We anticipate that what constitutes reasonable measures in one particular field of knowledge or industry may vary significantly from what is reasonable in another field or industry. However, some common sense measures are likely to be common across the board. For example, it is only natural that an owner would restrict access to proprietary economic information to the people who actually need to use the information. It is only natural also that an owner clearly indicate in some form or another that the information is proprietary. However, owners need not take heroic or extreme protective measures in order for their efforts to be reasonable.

Some people have asked how this legislation might affect reverse engineer-

ing. Reverse engineering is a broad term that encompasses a variety of actions. The important thing is to focus on whether the accused has committed one of the prohibited acts of this statute rather than whether he or she has "reverse engineered." If someone has lawfully gained access to a trade secret or a piece of proprietary economic information, and can replicate it without violating copyright, patent or this law, then that form of "reverse engineering" should be fine. For example, if a person can drink Coca-Cola and, because he happens to have highly refined taste buds, can figure out what the formula is, then this legislation cannot be used against him. Likewise, if a person can look at a product and, by using their own general skills and expertise, dissect the necessary attributes of the product, then that person should be free from any threat of prosecution.

We have been deeply concerned about the efforts taken by courts to protect the confidentiality of proprietary economic information. It is important that in the early stages of a prosecution the issue whether material is proprietary economic information not be litigated. Rather, courts should, when entering these orders, always assume that the material at issue is in fact proprietary economic information.

We are also concerned that victims of economic espionage receive compensation for their losses. This legislation incorporates through reference existing law to provide procedures to be used in the detention, seizure, forfeiture, and ultimate disposition of property forfeited under the section. Under these procedures, the Attorney General is authorized to grant petitions for mitigation or remission of forfeiture and for the restoration of forfeited property to the victims of an offense. The Attorney General may also take any other necessary or proper action to protect the rights of innocent people in the interest of justice. In practice, under the forfeiture laws, victims are afforded priority in the disposition of forfeited property since it is the policy of the Department of Justice to provide restitution to the victims of criminal acts whenever permitted to do so by the law. Procedures for victims to obtain restitution may be found at Section 9 of Title 28, Code of Federal Regulations.

In addition to requesting redress from the Attorney General, any person—including a victim—asserting an interest in property ordered forfeited may petition for a judicial hearing to adjudicate the validity of the alleged interest and to revise the order of forfeiture. Additionally, forfeitures are subject to a requirement of proportionality under the Eight Amendment; that is, the value of the property forfeited must not be excessively disproportionate to the crimes in question.

Finally, we have required that the Attorney General report back to us on victim restitution two and four years

after the enactment of this legislation. We have heard from some companies that they only rarely obtain restitution awards despite their eligibility. We wish to carefully monitor restitution to ensure that the current system is working well and make any changes that may be necessary.

Mr. President, we have worked closely in cooperation with the Administration in drafting this legislation. It is a bipartisan measure, broadly supported, and necessary for our country's future industrial vitality.

NATIONAL INFORMATION INFRASTRUCTURE PROTECTION ACT OF 1996

Mr. STEVENS. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of Calendar No. 563, S. 982.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 982) to protect the national information infrastructure, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on the Judiciary, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Information Infrastructure Protection Act of 1996".

SEC. 2. COMPUTER CRIME.

Section 1030 of title 18, United States Code, is amended—

- (1) in subsection (a)—*
- (A) in paragraph (1)—*
 - (i) by striking "knowingly accesses" and inserting "having knowingly accessed";*
 - (ii) by striking "exceeds" and inserting "exceeding";*
 - (iii) by striking "obtains information" and inserting "having obtained information";*
 - (iv) by striking "the intent or";*
 - (v) by striking "is to be used" and inserting "could be used"; and*
 - (vi) in inserting before the semicolon at the end the following: "willfully communicates, delivers, transmits, or causes to be communicated, delivered, or transmitted, or attempts to communicate, deliver, transmit or cause to be communicated, delivered, or transmitted the same to any person not entitled to receive it, or willfully retains the same and fails to deliver it to the officer or employee of the United States entitled to receive it";*
- (B) in paragraph (2)—*
 - (i) by striking "obtains information" and inserting "obtains—*
 - "(A) information"; and*
 - (ii) by adding at the end the following new subparagraphs:*
 - "(B) information from any department or agency of the United States; or*
 - "(C) information from any protected computer if the conduct involved an interstate or foreign communication;";*
- (C) in paragraph (3)—*
 - (i) by inserting "nonpublic" before "computer of a department or agency";*
 - (ii) by striking "adversely"; and*
 - (iii) by striking "the use of the Government's operation of such computer" and inserting*

"that use by or for the Government of the United States";

(D) in paragraph (4)—

(i) by striking "Federal interest" and inserting "protected"; and

(ii) by inserting before the semicolon the following: "and the value of such use is not more than \$5,000 in any 1-year period";

(E) by striking paragraph (5) and inserting the following:

"(5)(A) knowingly causes the transmission of a program, information, code, or command, and as a result of such conduct, intentionally causes damage without authorization, to a protected computer;

"(B) intentionally accesses a protected computer without authorization, and as a result of such conduct, recklessly causes damage; or

"(C) intentionally accesses a protected computer without authorization, and as a result of such conduct, causes damage"; and

(F) by inserting after paragraph (6) the following new paragraph:

"(7) with intent to extort from any person, firm, association, educational institution, financial institution, government entity, or other legal entity, any money or other thing of value, transmits in interstate or foreign commerce any communication containing any threat to cause damage to a protected computer;"

(2) in subsection (c)—

(A) in paragraph (1), by striking "such subsection" each place that term appears and inserting "this section";

(B) in paragraph (2)—

(i) in subparagraph (A)—

(I) by inserting ", (a)(5)(C)," after "(a)(3)"; and

(II) by striking "such subsection" and inserting "this section";

(ii) by redesignating subparagraph (B) as subparagraph (C);

(iii) by inserting immediately after subparagraph (A) the following:

"(B) a fine under this title or imprisonment for not more than 5 years, or both, in the case of an offense under subsection (a)(2), if—

"(i) the offense was committed for purposes of commercial advantage or private financial gain;

"(ii) the offense was committed in furtherance of any criminal or tortious act in violation of the Constitution or laws of the United States or of any State; or

"(iii) the value of the information obtained exceeds \$5,000"; and

(iv) in subparagraph (C) (as redesignated)—

(I) by striking "such subsection" and inserting "this section"; and

(II) by adding "and" at the end;

(C) in paragraph (3)—

(i) in subparagraph (A)—

(I) by striking "(a)(4) or (a)(5)(A)" and inserting "(a)(4), (a)(5)(A), (a)(5)(B), or (a)(7)"; and

(II) by striking "such subsection" and inserting "this section"; and

(ii) in subparagraph (B)—

(I) by striking "(a)(4) or (a)(5)" and inserting "(a)(4), (a)(5)(A), (a)(5)(B), (a)(5)(C), or (a)(7)"; and

(II) by striking "such subsection" and inserting "this section"; and

(D) by striking paragraph (4);

(3) in subsection (d), by inserting "subsections (a)(2)(A), (a)(2)(B), (a)(3), (a)(4), (a)(5), and (a)(6) of" before "this section."; and

(4) in subsection (e)—

(A) in paragraph (2)—

(i) by striking "Federal interest" and inserting "protected";

(ii) in subparagraph (A), by striking "the use of the financial institution's operation or the Government's operation of such computer" and inserting "that use by or for the financial institution or the Government"; and

(iii) by striking subparagraph (B) and inserting the following:

"(B) which is used in interstate or foreign commerce or communication";

(B) in paragraph (6), by striking "and" at the end;

(C) in paragraph (7), by striking the period at the end and inserting "; and"; and

(D) by adding at the end the following new paragraphs:

"(8) the term 'damage' means any impairment to the integrity or availability of data, a program, a system, or information, that—

"(A) causes loss aggregating at least \$5,000 in value during any 1-year period to one or more individuals;

"(B) modifies or impairs, or potentially modifies or impairs, the medical examination, diagnosis, treatment, or care of one or more individuals;

"(C) causes physical injury to any person; or

"(D) threatens public health or safety; and

"(9) the term 'government entity' includes the Government of the United States, any State or political subdivision of the United States, any foreign country, and any state, province, municipality, or other political subdivision of a foreign country."; and

(5) in subsection (g)—

(A) by striking "; other than a violation of subsection (a)(5)(B)."; and

(B) by striking "of any subsection other than subsection (a)(5)(A)(ii)(II)(bb) or (a)(5)(B)(ii)(II)(bb)" and inserting "involving damage as defined in subsection (e)(8)(A)".

AMENDMENTS NOS. 5388 AND 5389 EN BLOC

Mr. STEVENS. Mr. President, I send two amendments to the desk, en bloc, on behalf of Senator HATCH, and I ask for their consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. HATCH, proposes amendments numbered 5388 and 5389, en bloc.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT NO. 5388

(Purpose: To improve the treatment and security of certain persons found not guilty by reason of insanity in the District of Columbia)

At the appropriate place in the bill, add the following:

SEC. —. TRANSFER OF PERSONS FOUND NOT GUILTY BY REASON OF INSANITY.

(a) AMENDMENT OF SECTION 4243 OF TITLE 18.—Section 4243 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(i) CERTAIN PERSONS FOUND NOT GUILTY BY REASON OF INSANITY IN THE DISTRICT OF COLUMBIA.—

"(1) TRANSFER TO CUSTODY OF THE ATTORNEY GENERAL.—Notwithstanding section 301(h) of title 24 of the District of Columbia Code, and notwithstanding subsection 4247(j) of this title, all persons who have been committed to a hospital for the mentally ill pursuant to section 301(d)(1) of title 24 of the District of Columbia Code, and for whom the United States has continuing financial responsibility, may be transferred to the custody of the Attorney General, who shall hospitalize the person for treatment in a suitable facility.

"(2) APPLICATION.—

"(A) IN GENERAL.—The Attorney General may establish custody over such persons by filing an application in the United States District Court for the District of Columbia, demonstrating that the person to be transferred is a person described in this subsection.

"(B) NOTICE.—The Attorney General shall, by any means reasonably designed to do so, provide written notice of the proposed transfer of custody to such person or such person's guardian, legal representative, or other lawful agent. The person to be transferred shall be afforded an opportunity, not to exceed 15 days, to respond to the proposed transfer of custody, and may, at the court's discretion, be afforded a hearing on the proposed transfer of custody. Such hearing, if granted, shall be limited to a determination of whether the constitutional rights of such person would be violated by the proposed transfer of custody.

"(C) ORDER.—Upon application of the Attorney General, the court shall order the person transferred to the custody of the Attorney General, unless, pursuant to a hearing under this paragraph, the court finds that the proposed transfer would violate a right of such person under the United States Constitution.

"(D) EFFECT.—Nothing in this paragraph shall be construed to—

"(i) create in any person a liberty interest in being granted a hearing or notice on any matter;

"(ii) create in favor of any person a cause of action against the United States or any officer or employee of the United States; or

"(iii) limit in any manner or degree the ability of the Attorney General to move, transfer, or otherwise manage any person committed to the custody of the Attorney General.

"(3) CONSTRUCTION WITH OTHER SECTIONS.—Subsections (f) and (g) and section 4247 shall apply to any person transferred to the custody of the Attorney General pursuant to this subsection."

(b) TRANSFER OF RECORDS.—Notwithstanding any provision of the District of Columbia Code or any other provision of law, the District of Columbia and St. Elizabeth's Hospital—

(1) not later than 30 days after the date of enactment of this Act, shall provide to the Attorney General copies of all records in the custody or control of the District or the Hospital on such date of enactment pertaining to persons described in section 4243(i) of title 18, United States Code (as added by subsection (a));

(2) not later than 30 days after the creation of any records by employees, agents, or contractors of the District of Columbia or of St. Elizabeth's Hospital pertaining to persons described in section 4243(i) of title 18, United States Code, provide to the Attorney General copies of all such records created after the date of enactment of this Act;

(3) shall not prevent or impede any employee, agent, or contractor of the District of Columbia or of St. Elizabeth's Hospital who has obtained knowledge of the persons described in section 4243(i) of title 18, United States Code, in the employee's professional capacity from providing that knowledge to the Attorney General, nor shall civil or criminal liability attach to such employees, agents, or contractors who provide such knowledge; and

(4) shall not prevent or impede interviews of persons described in section 4243(i) of title 18, United States Code, by representatives of the Attorney General, if such persons voluntarily consent to such interviews.

(c) CLARIFICATION OF EFFECT ON CERTAIN TESTIMONIAL PRIVILEGES.—The amendments made by this section shall not be construed to affect in any manner any doctor-patient or psychotherapist-patient testimonial privilege that may be otherwise applicable to persons found not guilty by reason of insanity and affected by this section.

(d) SEVERABILITY.—If any provision of this section, an amendment made by this section, or the application of such provision or

amendment to any person or circumstance is held to be unconstitutional, the remainder of this section and the amendments made by this section shall not be affected thereby.

AMENDMENT NO. 5389

(Purpose: To provide funding for the establishment of Boys and Girls Clubs in public housing projects and other distressed areas, and for other purposes)

At the appropriate place in the bill, add the following:

SEC. . ESTABLISHING BOYS AND GIRLS CLUBS.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Boys and Girls Clubs of America, chartered by an Act of Congress on December 10, 1991, during its 90-year history as a national organization, has proven itself as a positive force in the communities it serves;

(B) there are 1,810 Boys and Girls Clubs facilities throughout the United States, Puerto Rico, and the United States Virgin Islands, serving 2,420,000 youths nationwide;

(C) 71 percent of the young people who benefit from Boys and Girls Clubs programs live in our inner cities and urban areas;

(D) Boys and Girls Clubs are locally run and have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement;

(E) Boys and Girls Clubs are located in 289 public housing sites across the Nation;

(F) public housing projects in which there is an active Boys and Girls Club have experienced a 25 percent reduction in the presence of crack cocaine, a 22 percent reduction in overall drug activity, and a 13 percent reduction in juvenile crime;

(G) these results have been achieved in the face of national trends in which overall drug use by youth has increased 105 percent since 1992 and 10.9 percent of the Nation's young people use drugs on a monthly basis; and

(H) many public housing projects and other distressed areas are still underserved by Boys and Girls Clubs.

(2) PURPOSE.—It is the purpose of this section to provide adequate resources in the form of seed money for the Boys and Girls Clubs of America to establish 1,000 additional local Boys and Girls Clubs in public housing projects and other distressed areas by 2001.

(b) DEFINITIONS.—For purposes of this section—

(1) the terms "public housing" and "project" have the same meanings as in section 3(b) of the United States Housing Act of 1937; and

(2) the term "distressed area" means an urban, suburban, or rural area with a high percentage of high risk youth as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)).

(c) ESTABLISHMENT.—

(1) IN GENERAL.—For each of the fiscal years 1997, 1998, 1999, 2000, and 2001, the Director of the Bureau of Justice Assistance of the Department of Justice shall provide a grant to the Boys and Girls Clubs of America for the purpose of establishing Boys and Girls Clubs in public housing projects and other distressed areas.

(2) CONTRACTING AUTHORITY.—Where appropriate, the Secretary of Housing and Urban Development, in consultation with the Attorney General, shall enter into contracts with the Boys and Girls Clubs of America to establish clubs pursuant to the grants under paragraph (1).

(d) REPORT.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the

progress made under this Act in establishing Boys and Girls Clubs in public housing projects and other distressed areas, and the effectiveness of the programs in reducing drug abuse and juvenile crime.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) \$20,000,000 for fiscal year 1997;

(B) \$20,000,000 for fiscal year 1998;

(C) \$20,000,000 for fiscal year 1999;

(D) \$20,000,000 for fiscal year 2000; and

(E) \$20,000,000 for fiscal year 2001.

(2) VIOLENT CRIME REDUCTION TRUST FUND.—The sums authorized to be appropriated by this subsection may be made from the Violent Crime Reduction Trust Fund.

Mr. KYL. Mr. President. I rise to comment on S. 982, the National Information Infrastructure Protection Act. I was pleased that the Senate Judiciary Committee unanimously passed the bill that Senator LEAHY and I introduced, which will strengthen current public law on computer crime and protect the national information infrastructure. It will protect banks, hospitals, and other information-intensive businesses which maintain sensitive computer files from those who improperly enter into computer systems.

Although there has never been an accurate nationwide reporting system for computer crime, it is clear that computer crime is rising. For example, the Computer Emergency and Response Team [CERT] at Carnegie-Mellon University reports that computer intrusions have increased from 132 in 1989 to 2,341 last year. A recent Rand Corporation study reported 1,172 hacking incidents during the first 6 months of 1994. Clearly there is a need to reform the current criminal statutes covering computer abuse.

The law needs to keep pace with technology. Crime is increasingly being perpetrated electronically, and we need to amend our laws to stop it. We, therefore, introduced the National Information Infrastructure Protection Act last year. Why is this bill important? First, it will protect against the interstate or foreign theft of information by computer. The provision is necessary because the court held, in the case of *United States v. Brown*, 925 F.2d 1301, 1308 (10th Cir. 1991), that purely intangible intellectual property, such as computer programs, do not count as goods, wares, merchandise, securities, or moneys which have been stolen, converted, or taken within the meaning of 18 U.S.C. §2314, the Interstate Transportation of Stolen Property. There are no Federal penalties for theft of computer information across state lines or internationally. In most cases, the Department of Justice attempts to use other statutes to prosecute these criminals.

Second, the provision adds a new section to the Computer Fraud and Abuse Act to provide penalties for the interstate or international transmission of threats against computers, computer networks, and their data and programs. Unlawful threats would include interference in any way with the normal operation of the computer or system in

question, such as denying access to authorized users, erasing or corrupting data or programs, slowing down the operation of the computer or system, or encrypting data and then demanding money for the key. The provision is important because there have been cases where hackers have threatened to demolish a computer information system unless they were granted free access to accounts. It is sophisticated extortion.

Finally, S. 982 amends 18 U.S.C. §1030(a)(4) to ensure that felony-level sanctions apply when unauthorized use, or use in excess of authorization, is significant. Hackers, for example, have broken into computers only for the purpose of using their processing programs, sometimes amassing computer time worth far more than \$5,000. The bill would penalize those whose trespassing, in which only computer use is obtained, amounts to greater than \$5,000 during any 1-year period. Companies should not be stuck with the bill for electronic joyriders. Although they may not damage or steal information, hackers who browse through computer systems are a significant liability to businesses who must pay for a new security system, and the expensive time the hacker used.

There is widespread support for changes to the statute. For example, Attorney General Reno, in connection with the June 27, 1995 oversight hearing of the Department of Justice, said that S. 982 would "address many of the concerns that have been identified by computer security experts with respect to the need for greater protection of networks."

As FBI Director Louis Freeh responded, when asked during the February 28, 1996 joint hearing with the Select Committee on Intelligence on Economic Espionage, if he would appreciate the Senate acting on S. 982, "[S. 982] does fill a gap. It's very important."

On October 11, 1995 the Deputy Assistant Director of Investigations of the United States Secret Service, speaking before the House Committee on Banking and Financial Services Subcommittee on Domestic and International Monetary Policy, listed S. 982 as one of the bills that "enhance our ability to investigate and prosecute violations domestically, while offering guidelines for foreign government authorities."

This bill is timely because of the recent incident concerning the Department of Justice's homepage. Hackers penetrated the DOJ's computers, leaving pictures of swastikas and Adolph Hitler for the world to view. The damage caused by these criminals should not be prosecuted by relying on common law criminal mischief statutes. If our bill had been law, Federal prosecutors could have charged the hackers with violating more than trespassing statutes.

Mr. President, the Kyl-Leahy National Information Infrastructure Protection Act of 1995 will deter criminal

activity and protect our Nation's infrastructure. I urge my colleagues to pass the bill.

Mr. LEAHY. Mr. President, I am pleased that the Senate has today taken the important step of passing the National Information Infrastructure Protection Act of 1996, NII Protection Act, which I have sponsored with Senators KYL and GRASSLEY.

This legislation will help safeguard the privacy, security, and reliability of our national computer systems and networks and the information stored in, and carried on, those networks. Those systems and networks are vulnerable to the threat of attack by hackers, high-technology criminals and spies. The NII Protection Act will increase protection for both government and private computers, and the information on those computers, from the growing threat of computer crime.

Our dependency on computers and the growth of the Internet are both integrally linked to people's confidence in the privacy, security, and reliability of computer networks. That is why I have worked over the past decade to make sure the laws we have in place foster both privacy and security, and provide a sound foundation for new communications technologies to flourish.

Every technological advance provides new opportunities for legitimate uses and the potential for criminal exploitation. Existing criminal statutes provide a good framework for prosecuting most types of computer-related criminal conduct. But as technology changes and high-technology criminals devise new ways to use technology to commit offenses we have yet to anticipate, we must be ready to readjust and update our criminal code.

The NII Protection Act closes a number of gaps in the Computer Fraud and Abuse statute, which was originally enacted in 1984. This legislation would strengthen law enforcement's hands in fighting crimes targeted at computers, networks, and computerized information by, among other things, designating new computer crimes, and by extending protection to computer systems used in foreign or interstate commerce or communications.

We need to protect both government and private computers, and the information on those computers, from the very real and growing threat of computer crime. The facts speak for themselves—computer crime is on the rise. On September 12, a computer hacker attack, which shut down a New York Internet access provider with thousands of business and individual customers, made front page news, and revealed the vulnerability of every network service provider to such an attack. The Computer Emergency and Response Team [CERT] at Carnegie-Mellon University reports that over 12,000 Internet computers were attacked in 2,412 incidents in 1995 alone. A 1996 survey conducted jointly by the Computer Security Institute and the

FBI showed that 42 percent of the respondents sustained an unauthorized use or intrusion into their computer systems in the past 12 months.

Nevertheless, while our current statute, in section 1030(a)(2), prohibits misuse of a computer to obtain information from a financial institution, it falls short of protecting the privacy and confidentiality of information on computers used in interstate or foreign commerce and communications. This gap in the law has become only more glaring as more Americans have connected their home and business computers to the global Internet.

This is not just a law enforcement issue, but an economic one. Breaches of computer security result in direct financial losses to American companies from the theft of trade secrets and proprietary information. A December 1995 report by the Computer Systems Policy Project, comprised of the CEO's from 13 major computer companies, estimates that financial losses in 1995 from breaches of computer security systems ranged from \$2 to \$4 billion. The report predicts that these numbers could rise in the year 2000 to \$40 to \$80 billion worldwide. The estimated amount of these losses is staggering.

The NII Protection Act would extend the protection already given to the computerized information of financial institutions and consumer reporting agencies, to computerized information held on computers used in interstate or foreign commerce or communications, if the conduct involved interstate or foreign communications. The provision is designed to protect against the interstate or foreign theft of information by computer.

Computer hackers have accessed sensitive government data regarding Operation Desert Storm, penetrated NASA computers, and broken into Federal courthouse computer systems containing confidential records. These outside hackers are subject to criminal prosecution under section 1030(a)(3) of the computer fraud and abuse statute. Yet, this statute contains no prohibition against malicious insiders: Those Government employees who abuse their computer access privileges by snooping through confidential tax returns, or selling confidential criminal history information from the National Crime Information Center [NCIC]. The NCIC is currently the Nation's most extensive computerized criminal justice information system, containing criminal history information, files on wanted persons, and information on stolen vehicles and missing persons.

I am very concerned about continuing reports of unauthorized access to highly personal and sensitive government information about individual Americans, such as NCIC data. For example, a "Dear Abby" column that appeared on June 20, 1996 in newspapers across the country carried a letter by a woman who claimed her in-laws "ran her name through the FBI computer" and, apparently, used access to the NCIC for personal purposes.

This published complaint comes on the heels of a General Accounting Office [GAO] report presented on July 28, 1993, before the House Government Operations Committee, Subcommittee on Information, Justice, Agriculture, and Transportation, on the abuse of NCIC information. Following an investigation, GAO determined that NCIC information had been misused by insiders—individuals with authorized access—some of whom had sold NCIC information to outsiders and determined whether friends and relatives had criminal records. The GAO found that some of the misuse jeopardized the safety of citizens and potentially jeopardized law enforcement personnel. Yet, no Federal or State laws are specifically directed at NCIC misuse and most abusers of NCIC were not criminally prosecuted. GAO concluded that Congress should enact legislation with strong criminal sanctions for the misuse of NCIC data.

This bill would criminalize these activities by amending the privacy protection provision in section 1030(a)(2) and extending its coverage to Federal Government computers. If the information obtained is of minimal value, the penalty is only a misdemeanor. If, on the other hand, the offense is committed for purposes of commercial advantage or private financial gain, for the purpose of committing any criminal or tortious act in violation of the Constitution or laws of the United States or of any State, or if the value of the information obtained exceeds \$5,000, the penalty is a felony.

The current statute, in section 1030(a)(5), protects computers and computer systems from damage caused by either outside hackers or malicious insiders "through means of a computer used in interstate commerce or communications." It does not, however, expressly prohibit the transmission of harmful computer viruses or programs from abroad, even though, a criminal armed with a modem and a computer can wreak havoc on computers located in the United States from virtually anywhere in the world. This is a significant challenge in fighting cybercrime: There are no borders or passport checkpoints in cyberspace. Communications flow seamlessly through cyberspace across datelines and the reach of local law enforcement.

Indeed, we have seen a number of examples of computer crimes directed from abroad, including the 1994 intrusion into the Rome Laboratory at Griffiss Air Force Base in New York from the United Kingdom and the 1996 intrusion into Harvard University's computers from Buenos Aires, Argentina.

Additionally, the statute falls short of protecting our Government and financial institution computers from intrusive codes, such as computer viruses or worms. Generally, hacker intrusions that inject worms or viruses into a government or financial institution computer system, which is not used in

interstate communications, are not federal offenses. The legislation would change that limitation and extend federal protection from intentionally damaging viruses to government and financial institution computers, even if they are not used in interstate communications.

The NII Protection Act would close these loopholes. Under the legislation, outside hackers—including those using foreign communications—and malicious insiders face criminal liability for intentionally damaging a computer. Outside hackers who break into a computer could also be punished for any reckless or other damage they cause by their trespass.

The current statute protects against computer abuses that cause computer "damage", a term that is defined to require either significant financial losses or potential impact on medical treatment. Yet, the NII and other computer systems are used for access to critical services such as emergency response systems, air traffic control, and the electrical power systems. These infrastructures are heavily dependent on computers. A computer attack that damages those computers could have significant repercussions for our public safety and our national security. The definition of "damage" in the Computer Fraud and Abuse statute should be sufficiently broad to encompass these types of harm against which people should be protected. The NII Protection Act addresses this concern and broadens the definition of "damage" to include causing physical injury to any person and threatening the public health or safety.

Finally, this legislation address a new and emerging problem of computer-age blackmail. This is a high-technology variation on old fashioned extortion. One case has been brought to my attention in which a person threatened to crash a computer system unless he was given free access to the system and an account. One can imagine situations in which hackers penetrate a system, encrypt a database and then demand money for the decoding key. This new provision would ensure law enforcement's ability to prosecute modern-day blackmailers, who threaten to harm or shut down computer networks unless their extortion demands are met.

Confronting cybercrime with up-to-date criminal laws, coupled with tough law enforcement, are critical for safeguarding the privacy, confidentiality and reliability of our critical computer systems and networks. I commend the Attorney General and the prosecutors within the Department of Justice who have worked diligently on this legislation and for their continuing efforts to address this critical area of our criminal law.

In sum, the NII Protection Act will provide much needed protection for our Nation's critical information infrastructure by penalizing those who abuse computers to damage computer

networks, steal classified and valuable computer information, and commit other crimes on-line.

Mr. STEVENS. Mr. President, I ask unanimous consent that the amendments be agreed to, the motions to reconsider be laid on the table, en bloc, the committee amendment be agreed to, the bill be deemed read for the third time, passed, as amended, the motion to reconsider be laid upon the table, and that any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments (Nos. 5388 and 5389), en bloc, were agreed to.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 982), as amended, was deemed read the third time, and passed, as follows:

S. 982

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Information Infrastructure Protection Act of 1996".

SEC. 2. COMPUTER CRIME.

Section 1030 of title 18, United States Code, is amended—

(1) in subsection (a)—
 (A) in paragraph (1)—
 (i) by striking "knowingly accesses" and inserting "having knowingly accessed";
 (ii) by striking "exceeds" and inserting "exceeding";
 (iii) by striking "obtains information" and inserting "having obtained information";
 (iv) by striking "the intent or";
 (v) by striking "is to be used" and inserting "could be used"; and
 (vi) by inserting before the semicolon at the end the following: "willfully communicates, delivers, transmits, or causes to be communicated, delivered, or transmitted, or attempts to communicate, deliver, transmit or cause to be communicated, delivered, or transmitted the same to any person not entitled to receive it, or willfully retains the same and fails to deliver it to the officer or employee of the United States entitled to receive it";

(B) in paragraph (2)—
 (i) by striking "obtains information" and inserting "obtains—
 "(A) information"; and
 (ii) by adding at the end the following new subparagraphs:

"(B) information from any department or agency of the United States; or
 "(C) information from any protected computer if the conduct involved an interstate or foreign communication;";

(C) in paragraph (3)—
 (i) by inserting "nonpublic" before "computer of a department or agency";
 (ii) by striking "adversely"; and
 (iii) by striking "the use of the Government's operation of such computer" and inserting "that use by or for the Government of the United States";

(D) in paragraph (4)—
 (i) by striking "Federal interest" and inserting "protected"; and
 (ii) by inserting before the semicolon the following: "and the value of such use is not more than \$5,000 in any 1-year period";

(E) by striking paragraph (5) and inserting the following:

"(5)(A) knowingly causes the transmission of a program, information, code, or command, and as a result of such conduct, intentionally causes damage without authorization, to a protected computer;

"(B) intentionally accesses a protected computer without authorization, and as a result of such conduct, recklessly causes damage; or

"(C) intentionally accesses a protected computer without authorization, and as a result of such conduct, causes damage;"; and

(F) by inserting after paragraph (6) the following new paragraph:

"(7) with intent to extort from any person, firm, association, educational institution, financial institution, government entity, or other legal entity, any money or other thing of value, transmits in interstate or foreign commerce any communication containing any threat to cause damage to a protected computer;";

(2) in subsection (c)—

(A) in paragraph (1), by striking "such subsection" each place that term appears and inserting "this section";

(B) in paragraph (2)—

(i) in subparagraph (A)—

(I) by inserting ", (a)(5)(C)," after "(a)(3)"; and

(II) by striking "such subsection" and inserting "this section";

(ii) by redesignating subparagraph (B) as subparagraph (C);

(iii) by inserting immediately after subparagraph (A) the following:

"(B) a fine under this title or imprisonment for not more than 5 years, or both, in the case of an offense under subsection (a)(2), if—

"(i) the offense was committed for purposes of commercial advantage or private financial gain;

"(ii) the offense was committed in furtherance of any criminal or tortious act in violation of the Constitution or laws of the United States or of any State; or

"(iii) the value of the information obtained exceeds \$5,000;"; and

(iv) in subparagraph (C) (as redesignated)—

(I) by striking "such subsection" and inserting "this section"; and

(II) by adding "and" at the end;

(C) in paragraph (3)—

(i) in subparagraph (A)—

(I) by striking "(a)(4) or (a)(5)(A)" and inserting "(a)(4), (a)(5)(A), (a)(5)(B), or (a)(7)"; and

(II) by striking "such subsection" and inserting "this section"; and

(ii) in subparagraph (B)—

(I) by striking "(a)(4) or (a)(5)" and inserting "(a)(4), (a)(5)(A), (a)(5)(B), (a)(5)(C), or (a)(7)"; and

(II) by striking "such subsection" and inserting "this section"; and

(D) by striking paragraph (4);

(3) in subsection (d), by inserting "subsections (a)(2)(A), (a)(2)(B), (a)(3), (a)(4), (a)(5), and (a)(6) of" before "this section.";

(4) in subsection (e)—

(A) in paragraph (2)—

(i) by striking "Federal interest" and inserting "protected";

(ii) in subparagraph (A), by striking "the use of the financial institution's operation or the Government's operation of such computer" and inserting "that use by or for the financial institution or the Government"; and

(iii) by striking subparagraph (B) and inserting the following:

"(B) which is used in interstate or foreign commerce or communication;";

(B) in paragraph (6), by striking "and" at the end;

(C) in paragraph (7), by striking the period at the end and inserting "; and"; and

(D) by adding at the end the following new paragraphs:

"(8) the term 'damage' means any impairment to the integrity or availability of data, a program, a system, or information, that—

"(A) causes loss aggregating at least \$5,000 in value during any 1-year period to one or more individuals;

"(B) modifies or impairs, or potentially modifies or impairs, the medical examination, diagnosis, treatment, or care of one or more individuals;

"(C) causes physical injury to any person;

or

"(D) threatens public health or safety; and

"(9) the term 'government entity' includes the Government of the United States, any State or political subdivision of the United States, any foreign country, and any state, province, municipality, or other political subdivision of a foreign country."; and

(5) in subsection (g)—

(A) by striking "other than a violation of subsection (a)(5)(B)."; and

(B) by striking "of any subsection other than subsection (a)(5)(A)(ii)(II)(bb) or (a)(5)(B)(ii)(II)(bb)" and inserting "involving damage as defined in subsection (e)(8)(A)".

SEC. 3. TRANSFER OF PERSONS FOUND NOT GUILTY BY REASON OF INSANITY.

(a) AMENDMENT OF SECTION 4243 OF TITLE 18.—Section 4243 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(i) CERTAIN PERSONS FOUND NOT GUILTY BY REASON OF INSANITY IN THE DISTRICT OF COLUMBIA.—

"(1) TRANSFER TO CUSTODY OF THE ATTORNEY GENERAL.—Notwithstanding section 301(h) of title 24 of the District of Columbia Code, and notwithstanding subsection 4247(j) of this title, all persons who have been committed to a hospital for the mentally ill pursuant to section 301(d)(1) of title 24 of the District of Columbia Code, and for whom the United States has continuing financial responsibility, may be transferred to the custody of the Attorney General, who shall hospitalize the person for treatment in a suitable facility.

"(2) APPLICATION.—

"(A) IN GENERAL.—The Attorney General may establish custody over such persons by filing an application in the United States District Court for the District of Columbia, demonstrating that the person to be transferred is a person described in this subsection.

"(B) NOTICE.—The Attorney General shall, by any means reasonably designed to do so, provide written notice of the proposed transfer of custody to such person or such person's guardian, legal representative, or other lawful agent. The person to be transferred shall be afforded an opportunity, not to exceed 15 days, to respond to the proposed transfer of custody, and may, at the court's discretion, be afforded a hearing on the proposed transfer of custody. Such hearing, if granted, shall be limited to a determination of whether the constitutional rights of such person would be violated by the proposed transfer of custody.

"(C) ORDER.—Upon application of the Attorney General, the court shall order the person transferred to the custody of the Attorney General, unless, pursuant to a hearing under this paragraph, the court finds that the proposed transfer would violate a right of such person under the United States Constitution.

"(D) EFFECT.—Nothing in this paragraph shall be construed to—

"(i) create in any person a liberty interest in being granted a hearing or notice on any matter;

"(ii) create in favor of any person a cause of action against the United States or any officer or employee of the United States; or

"(iii) limit in any manner or degree the ability of the Attorney General to move, transfer, or otherwise manage any person committed to the custody of the Attorney General.

"(3) CONSTRUCTION WITH OTHER SECTIONS.—Subsections (f) and (g) and section 4247 shall apply to any person transferred to the custody of the Attorney General pursuant to this subsection."

(b) TRANSFER OF RECORDS.—Notwithstanding any provision of the District of Columbia Code or any other provision of law, the District of Columbia and St. Elizabeth's Hospital—

(1) not later than 30 days after the date of enactment of this Act, shall provide to the Attorney General copies of all records in the custody or control of the District or the Hospital on such date of enactment pertaining to persons described in section 4243(i) of title 18, United States Code (as added by subsection (a));

(2) not later than 30 days after the creation of any records by employees, agents, or contractors of the District of Columbia or of St. Elizabeth's Hospital pertaining to persons described in section 4243(i) of title 18, United States Code, provide to the Attorney General copies of all such records created after the date of enactment of this Act;

(3) shall not prevent or impede any employee, agent, or contractor of the District of Columbia or of St. Elizabeth's Hospital who has obtained knowledge of the persons described in section 4243(i) of title 18, United States Code, in the employee's professional capacity from providing that knowledge to the Attorney General, nor shall civil or criminal liability attach to such employees, agents, or contractors who provide such knowledge; and

(4) shall not prevent or impede interviews of persons described in section 4243(i) of title 18, United States Code, by representatives of the Attorney General, if such persons voluntarily consent to such interviews.

(c) CLARIFICATION OF EFFECT ON CERTAIN TESTIMONIAL PRIVILEGES.—The amendments made by this section shall not be construed to affect in any manner any doctor-patient or psychotherapist-patient testimonial privilege that may be otherwise applicable to persons found not guilty by reason of insanity and affected by this section.

(d) SEVERABILITY.—If any provision of this section, an amendment made by this section, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of this section and the amendments made by this section shall not be affected thereby.

SEC. 4. ESTABLISHING BOYS AND GIRLS CLUBS.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—The Congress finds that—

(A) the Boys and Girls Clubs of America, chartered by an Act of Congress on December 10, 1991, during its 90-year history as a national organization, has proven itself as a positive force in the communities it serves;

(B) there are 1,810 Boys and Girls Clubs facilities throughout the United States, Puerto Rico, and the United States Virgin Islands, serving 2,420,000 youths nationwide;

(C) 71 percent of the young people who benefit from Boys and Girls Clubs programs live in our inner cities and urban areas;

(D) Boys and Girls Clubs are locally run and have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement;

(E) Boys and Girls Clubs are located in 289 public housing sites across the Nation;

(F) public housing projects in which there is an active Boys and Girls Club have experienced a 25 percent reduction in the presence

of crack cocaine, a 22 percent reduction in overall drug activity, and a 13 percent reduction in juvenile crime;

(G) these results have been achieved in the face of national trends in which overall drug use by youth has increased 105 percent since 1992 and 10.9 percent of the Nation's young people use drugs on a monthly basis; and

(H) many public housing projects and other distressed areas are still underserved by Boys and Girls Clubs.

(2) PURPOSE.—It is the purpose of this section to provide adequate resources in the form of seed money for the Boys and Girls Clubs of America to establish 1,000 additional local Boys and Girls Clubs in public housing projects and other distressed areas by 2001.

(b) DEFINITIONS.—For purposes of this section—

(1) the terms "public housing" and "project" have the same meanings as in section 3(b) of the United States Housing Act of 1937; and

(2) the term "distressed area" means an urban, suburban, or rural area with a high percentage of high risk youth as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)).

(c) ESTABLISHMENT.—

(1) IN GENERAL.—For each of the fiscal years 1997, 1998, 1999, 2000, and 2001, the Director of the Bureau of Justice Assistance of the Department of Justice shall provide a grant to the Boys and Girls Clubs of America for the purpose of establishing Boys and Girls Clubs in public housing projects and other distressed areas.

(2) CONTRACTING AUTHORITY.—Where appropriate, the Secretary of Housing and Urban Development, in consultation with the Attorney General, shall enter into contracts with the Boys and Girls Clubs of America to establish clubs pursuant to the grants under paragraph (1).

(d) REPORT.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing Boys and Girls Clubs in public housing projects and other distressed areas, and the effectiveness of the programs in reducing drug abuse and juvenile crime.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) \$20,000,000 for fiscal year 1997;

(B) \$20,000,000 for fiscal year 1998;

(C) \$20,000,000 for fiscal year 1999;

(D) \$20,000,000 for fiscal year 2000; and

(E) \$20,000,000 for fiscal year 2001.

(2) VIOLENT CRIME REDUCTION TRUST FUND.—

The sums authorized to be appropriated by this subsection may be made from the Violent Crime Reduction Trust Fund.

HONORARY CITIZENSHIP OF THE UNITED STATES ON MOTHER TERESA

Mr. STEVENS. Mr. President, I now ask unanimous consent that the Senate proceed to the consideration of House Joint Resolution 191, which was received from the House.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A joint resolution (H.J. Res. 191) to confer honorary citizenship of the United States on Agnes Gonxha Bojaxhiu also known as Mother Teresa.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the joint resolution?

There being no objection, the Senate proceeded to consider the joint resolution.

Mr. STEVENS. Mr. President, I am proud to be able to offer this resolution which confers honorary citizenship of the United States on Mother Teresa.

I ask unanimous consent that the resolution be deemed read the third time, passed, the preamble be agreed to, the motion to reconsider be laid on the table, and that any statements relating to the resolution appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The joint resolution (H.J. Res. 191) was deemed read the third time, and passed.

The preamble was agreed to.

SUPPORTING THE INDEPENDENCE AND SOVEREIGNTY OF UKRAINE

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senate Foreign Relations Committee be discharged from further consideration of House Concurrent Resolution 120, and the Senate now proceed to its consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows: A concurrent resolution (H. Con. Res. 120) supporting the independence and sovereignty of Ukraine and the progress of its political and economic reforms.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. STEVENS. I ask unanimous consent the resolution be deemed agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, and that any statements relating to the resolution appear in the RECORD at this point.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 120) was agreed to.

The preamble was agreed to.

OAHU NATIONAL WILDLIFE REFUGE

Mr. STEVENS. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of Calendar No. 459, H.R. 1772.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 1772) to authorize the Secretary of the Interior to acquire certain interests in the Waihee Marsh for inclusion in the Oahu National Wildlife Refuge Complex.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. STEVENS. I ask unanimous consent that the bill be deemed read for a third time and passed, the motion to reconsider be laid on the table, and any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1772) was deemed read for a third time and passed.

SILVIO O. CONTE NATIONAL FISH AND WILDLIFE REFUGE ACT

Mr. STEVENS. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of Calendar No. 517, H.R. 2909.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2909) to amend the Silvio O. Conte National Fish and Wildlife Refuge Act to provide that the Secretary of the Interior may acquire land for purposes of that Act only by donation or exchange, or otherwise with the consent of the owner of the lands.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. STEVENS. Mr. President, I ask unanimous consent that the bill be deemed read for a third time and passed, the motion to reconsider be laid on the table, and any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2909) was deemed read for a third time and passed.

UNANIMOUS-CONSENT AGREEMENT—H.R. 3676, S. 2006, AND S. 2007

Mr. STEVENS. Mr. President, I ask unanimous consent the Senate now proceed to the consideration en bloc of H.R. 3676, which is at the desk, Calendar 560, which is S. 2006, and Calendar 561, which is S. 2007.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HATCH. Mr. President, I rise in strong support of the Carjacking Correction Act of 1996, a bill I introduced earlier this year in the Senate, the companion of which, H.R. 3676, has now come over from the House. This bill adds an important clarification to the Federal carjacking statute, to provide that a rape committed during a carjacking should be considered a serious bodily injury.

I am pleased to be joined in this effort by the ranking member of the Judiciary Committee, Senator BIDEN. He has long been a leader in addressing the threat of violence against women, and demonstrates that again today.

I also want to thank Representative JOHN CONYERS, the ranking member of the House Judiciary Committee, who brought this matter to my attention, and has led the effort in the House for passage of this legislation.

This correction to the law is necessitated by the fact that at least one court has held that under the Federal carjacking statute, rape would not constitute a serious bodily injury. Few crimes are as brutal, vicious, and harmful to the victim than rape by an armed thug. Yet, under this interpretation, the sentencing enhancement for such injury may not be applied to a carjacker who brutally rapes his victim.

In my view, Congress should act now to clarify the law in this regard. The bill I introduced this year, S. 2006, and its companion House bill, H.R. 3676, would do this by specifically including rape as serious bodily injury under the statute.

I urge my colleagues to support this bill, and anticipate its swift passage.

The bill (H.R. 3676) was ordered to a third reading, was read the third time, and passed.

S. 2006

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Carjacking Correction Act of 1996".

SEC. 2. CLARIFICATION OF INTENT OF CONGRESS WITH RESPECT TO THE FEDERAL CARJACKING PROHIBITION.

Section 2119(2) of title 18, United States Code, is amended by inserting "," including any conduct that, if the conduct occurred in the special maritime and territorial jurisdiction of the United States, would violate section 2241 or 2242 of this title" after "(as defined in section 1365 of this title";

CARJACKING CORRECTION ACT OF 1996

The bill (S. 2007) to clarify the intent of Congress with respect to the Federal carjacking prohibition, was considered.

Mr. BIDEN. Mr. President, I am very pleased that this bill will soon become law. I commend my cosponsor, Senator HATCH, and I also commend Representative CONYERS, who championed this bill over in the House, and with whom I was proud to work on it.

A few months ago, the first circuit court of appeals made a mistake. It made, in my view, a very big mistake: It said that the term "serious bodily injury" in one of our Federal statutes does not include rape.

Let me tell you about the case. One night near midnight, a woman went to her car after work. While she was getting something out of the back seat, a man with a knife came up from behind and forced her back into the car. He drove her to a remote beach, ordered her to take off her clothes, and made her squat down on her hands and knees.

Then he raped her. After the rape, he drove off in her car, leaving her alone on the side of the road.

The man was convicted under the Federal carjacking statute. That statute provides for an enhanced sentence of up to 25 years if the defendant inflicts "serious bodily injury" in the course of a carjacking.

When it got time to sentence the defendant, the prosecutor asked the court to enhance the sentence because of the rape. Mind you, there was no dispute that the defendant had, in fact, raped the victim.

The trial judge agreed with the prosecutor, and gave the defendant the statutory 25 years maximum, finding that the rape constituted "serious bodily injury."

But when the case went up to the first circuit, that court said "no"—rape is not serious bodily injury. To support its ruling, and I'm now quoting the opinion, the court said that "There was no evidence of any cuts or bruises in her vaginal area."

That, in my view, is absolutely outrageous—and Senator HATCH and I proposed this bill to set matters straight.

Under the code, "serious bodily injury" has several definitions. It includes: a substantial risk of death; protracted and obvious disfigurement; protracted loss or impairment of a bodily part or mental faculty; and it also includes extreme physical pain.

It takes no great leap of logic to see that a rape involves extreme physical pain, and I would go so far as to say that only a panel of male judges could fail to make that leap and even think—let alone rule—that rape does not involve extreme pain.

Rape is one of the most brutal and serious crimes any woman can experience. It is a violation of the first order, but it has all too often been treated like a second class crime. According to a report I issued a few years ago, a robber is 30 percent more likely to be convicted than a rapist; a rape prosecution is more than twice as likely as a murder prosecution to be dismissed; a convicted rapist is 50 percent more likely to receive probation than a convicted robber.

No crime carries a perfect record of arrest, prosecution, and incarceration—but the record for rape is especially wanting.

And this first circuit decision helps explain why: too often, our criminal justice system just doesn't get it.

If the first circuit decision were allowed to stand, it would mean that a criminal would spend more time behind bars for breaking a man's arm than for raping a woman.

For 5 long years, I worked to pass a piece of legislation that I have cared about like no other: The Violence Against Women Act. The act does a great many practical things:

It funds more police and prosecutors specially trained and devoted to combating rape and family violence;

It trains police, prosecutors, and judges in the ways of rape and family violence—so they can better understand and respond to the problem;

It provides shelters for more than 60,000 battered women and their children;

It provides extra lighting and emergency phones in subways, bus stops, and parks;

It provides for more rape crises centers;

It set up a national hotline that battered women can call around the clock—to get advice and counseling when they are in the throes of a crisis;

And we're getting rape education efforts going with our young people—so we can break the cycle of violence before it gets started.

But the Violence Against Women Act also meant to do something else, beyond these concrete measures: it also sent a clarion call across our land that crimes against women will no longer be treated as second class crimes.

For too long, the victims of these crimes have been seen not as innocent targets of brutality, but as participants who somehow bear shame or even some responsibility for the violence.

This is especially true when it comes to victims who know their assailants. For too long, we have been quick to call theirs a private misfortune rather than a public disgrace. We have viewed the crime as less than criminal, the abuser less than culpable, and the victim less than worthy of justice.

We must remain ever vigilant in our efforts to make our streets and our neighborhoods and our homes safe for women.

And we need to make sure—right now—that no judge ever misreads the carjacking statute again. With this bill, we are telling them that we intend, that we always intended, for those words "serious bodily injury" to mean rape—no if's, and's or but's.

I thank my colleagues for their support.

The bill (S. 2007) was ordered to be engrossed for a third reading, was read the third time, and passed; as follows:

S. 2007

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Carjacking Correction Act of 1996".

SEC. 2. CLARIFICATION OF INTENT OF CONGRESS WITH RESPECT TO THE FEDERAL CARJACKING PROHIBITION.

Section 2119(2) of title 18, United States Code, is amended by inserting "including any conduct that, if the conduct occurred in the special maritime and territorial jurisdiction of the United States, would violate section 2241 or 2242 of this title" after "(as defined in section 1365 of this title)".

ELECTRONIC FREEDOM OF INFORMATION ACT AMENDMENTS

Mr. STEVENS. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of H.R. 3802, which is at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 3802) to amend section 552 of title 5, United States Code, popularly known as the Freedom of Information Act, to provide public access to information in an electronic format, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Mr. President, I am delighted that we have today reached final passage of important amendments to the Freedom of Information Act that will bring the FOIA into the electronic age. Sending these amendments to the President for enactment is a tremendous way to mark the 30th anniversary of the Freedom of Information Act.

The FOIA has served the country well in maintaining the right of Americans to know what their government is doing—or not doing. As President Johnson said in 1966, when he signed the Freedom of Information Act into law:

This legislation springs from one of our most essential principles: A democracy works best when the people have all the information that the security of the Nation permits.

Just over the past few months, records released under the FOIA have revealed FAA actions against ValuJet before the May 11 crash in the Everglades, the government's treatment of South Vietnamese commandos who fought in a CIA-sponsored army in the early 1960's, the high salaries paid to independent counsels, the unsafe lead content of D.C. tap water, and the types of tax cases that the IRS recommends for criminal prosecution.

In the 30 years since the Freedom of Information Act became law, technology has dramatically altered the way government handles and stores information. Gone are the days when agency records were solely on paper stuffed into file cabinets. Instead, agencies depend on personal computers, computer databases and electronic storage media, such as CD-ROM's, to carry out their mission.

The time is long overdue to update this law to address new issues related to the increased use of computers by Federal agencies. Computers are just as ubiquitous in Federal agency offices as in the private sector. We need to make clear that the FOIA is not just a right to know what's on paper law, but that it applies equally to electronic records.

That is why Senator BROWN, Senator KERRY and I, with the strong support of many library, press, civil liberties, consumer and research groups, have pushed for passage of the Electronic FOIA bill. The Senate recognized the need to update the FOIA in the last Congress by passing an earlier version of this bill.

This legislation takes steps so that agencies use technology to make government more accessible and accountable to its citizens. Storing government information on computers should actually make it easier to provide public access to information in more meaningful formats. For example, people with sight or hearing impairments can use special computer programs to translate electronic information into braille or large print or synthetic speech output.

Electronic records also make it possible to provide dial-up access to any citizen who can use computer networks, such as the Internet. Those Americans living in the remotest rural area in Vermont, or in a distant State far from Federal agencies' public reading rooms here in Washington, DC, should be able to use computer networks to get direct access to the warehouse of unclassified information stored in government computer banks. The explosion of the Internet adds enormously to the need for clarification of the status of electronic government records under the FOIA and the significance of this legislation for citizen access. These amendments to the FOIA will encourage Federal agencies to use the Internet to increase access to Government records for all Americans.

Ensuring public access to electronic government records is not just important for broader citizen access. Information is a valuable commodity and the Federal Government is probably the largest single producer and repository of accurate information. This Government information is a national resource that commercial companies pay for under the FOIA, add value to, and then sell—creating jobs and generating revenue in the process. It is important for our economy and for American competitiveness that fast, easy access to that resource in electronic form be available. The electronic FOIA bill would contribute to our information economy.

I would like to highlight some of what this bill would accomplish. First, it would require agencies to provide records in a requested format whenever possible. Second, the bill would encourage agencies to increase on-line access to government records that agencies currently put in their public reading rooms. These records would include copies of records that are the subject of repeated FOIA requests.

Finally, the bill would address the biggest single complaint of people making FOIA requests: delays in getting a response. I understand that at the FBI, the delays can stretch to over 4 years. Because of these delays, writers, students and teachers and others working under time deadlines, have been frustrated in using FOIA to meet their research needs. Long delays in access can mean no access at all.

The current time limits in the FOIA are a joke. Few agencies actually respond to FOIA requests within the 10-day limit required in the law. Such routine failure to comply with the statutory time limits is bad for morale in the agencies and breeds contempt by citizens who expect government officials to abide by, not routinely break, the law.

I appreciate the budget and resource constraints under which agencies are operating. We have made every effort in this bill to make sure it works for both agencies and requestors. Some agencies, particularly those with huge

backlogs of FOIA requests resulting in delays of up to four years for an agency response, are concerned that the bill removes backlogs as an automatic excuse to ignore the time limits. But we should not give agencies an incentive to create backlogs. Agencies will have to show that they are taking steps to reduce their backlogs before they qualify for additional time to respond to a FOIA request.

While increased computer access to government records may necessitate an initial outlay of money and effort, as more information is made available on-line, the labor intensive task of physically searching and producing documents should be reduced. The net result should be increased efficiency in satisfying agency FOIA obligations, reduced paperwork burdens, reduced errors and better service to the public.

The Electronic FOIA bill should help agencies comply with the law's time limits by doubling the ten-day time limit to give agencies a more realistic time period for responding to FOIA requests, making more information available on-line, requiring the use of better record management techniques, such as multi-track processing, and providing expedited access to requestors who demonstrate a compelling need for a speedy response.

All these steps, and others in the bill, may not provide a total cure but should help reduce the endemic delay problems.

This legislation has had a lengthy germination. Senator BROWN and I first introduced the bill in the 102d Congress, when I chaired extensive hearings on the bill. We introduced the legislation again in the 103d Congress, and saw the bill pass through the Judiciary Committee and then the Senate only to falter in the House of Representatives. In this Congress, the Senate Judiciary Committee again considered this legislation, reported it favorably, and the Senate has passed it for the second time, bringing us to final passage of the legislation.

I commend members of the House Government Reform and Oversight Subcommittee on Government Management, Information and Technology, and, in particular, Chairman Horn, Ranking Member Maloney, and Representatives Tate and Peterson, for taking up the challenge and moving this legislation this year. They saw this bill for what it is: a good government issue, not a partisan one.

We have worked diligently to sort out any differences in the House and Senate bills, and we can all be proud of the final product reflected in the final legislation passed today. I want to specially thank Chairman HATCH and Chairman SPECTER for their cooperation in moving this bill through Committee and the staffs from the House and Senate. In particular, Mark Uncafer, Janie Kong and David McMullan from the House, and David Miller, Richard Hertling, Manus Cooney, and Elizabeth Kessler from the Senate, as

well as my own Judiciary Committee staff, should be applauded for their hard work on this legislation and making sure the process worked.

I also want to commend the following organizations because without their support over the years, it would have been much more difficult to pass this legislation: the American Society of Newspaper Editors, the Newspaper Association of America, the National Newspaper Association, the Association of American Publishers, Radio and TV News Directors Association, the Society of Professional Journalists, the National Association of Broadcasters, Public Citizen, OMB Watch, American Library Association, the National Security Archive, the Federation of American Scientists, the ACLU, the Fund for Constitutional Government, the Lawyers Committee for Human Rights, the Electronic Frontier Foundation, the Electronic Privacy Information Center, the Center for Democracy and Technology, and Americans for Tax Reform.

Finally, I want to thank Sally Katzen, the Administrator of the Office of Information and Regulatory Affairs at OMB, for the time and effort she committed to working through the many concerns of Federal agencies who institutionally resist change in this area.

Even as we have worked on this legislation, new issues about the coverage of the FOIA have surfaced. I refer specifically to the recent D.C. Court of Appeals case that decided that the National Security Council is not an "agency" subject to the FOIA, despite the fact that the NSC has complied with the FOIA for years under both Republican and Democratic Presidents. Litigation on this matter continues and the case may now go to the U.S. Supreme Court. Clarification of the offices within the White House that are subject to the FOIA may be a matter requiring congressional attention in the next Congress.

As the Federal government increasingly maintains its records in electronic form, we need to make sure that this information is available to citizens on the same basis as information in paper files. Enactment of the Electronic Freedom of Information amendments of 1996 will fulfill the promise first made thirty years ago in the FOIA that citizens have a right to know and a right to see the records the government collects with their tax dollars.

Mr. STEVENS. I ask unanimous consent the bill be deemed read for a third time and passed, the motion to reconsider be laid upon the table, and any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3802) was deemed read for a third time and passed.

NATIONAL TRANSPORTATION
SAFETY BOARD AMENDMENTS
OF 1996

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 503, S. 1831.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1831) to amend title 49, United States Code, to authorize appropriations for fiscal years 1997, 1998, and 1999 for the National Transportation Safety Board, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. PRESSLER. Mr. President, I am pleased to bring to the Senate S. 1831, the National Transportation Safety Board Amendments of 1996. This bill is sponsored by myself, along with Senators HOLLINGS, LOTT, FORD, and STEVENS. As chairman of the Committee on Commerce, Science, and Transportation, I urge swift passage of this bipartisan reauthorization bill.

Mr. President, the National Transportation Safety Board [NTSB] is one of our government's most important independent agencies. Its statutory mission is to determine the probable cause of transportation accidents and to promote transportation safety. The NTSB is world renowned for its timely and expert determinations of accident causation and for issuing realistic and feasible safety recommendations.

The NTSB investigates all types of transportation accidents and incidents. It also conducts transportation safety studies and evaluates the effectiveness of other government agencies' programs for preventing transportation accidents. Indeed, its work product is critical.

As my colleagues are acutely aware, the NTSB is faced with an extremely heavy workload. In addition to investigating the two most recent major aviation accidents, TWA flight 800 and ValuJet flight 592, the NTSB continues its work on several other major ongoing investigations, including the USAir accident near Pittsburgh, Pennsylvania, the school bus/train collision in Fox River Grove, Illinois, and the MARC commuter Train/Amtrak collision near Silver Spring, MD. Many other investigations also are underway.

Mr. President, the NTSB's authorization expires at the end of fiscal year 1996—the end of this month. Earlier this year, the Senate Committee on Commerce, Science, and Transportation held a hearing on issues relating to reauthorization of the NTSB. On June 4, 1996, S. 1831 was introduced. It was ordered reported by a unanimous vote of the Commerce Committee on June 6, 1996.

S. 1831 provides a three year authorization of appropriations for fiscal years 1997, 1998 and 1999 at a level of 370 FTEs. It establishes sufficient funding

levels to enable the NTSB to carry out its immense workload, yet does so in a fiscally responsible manner.

The bill also includes a few minor statutory changes as requested by the NTSB. First, the bill provides a temporary deferral of Freedom of Information Act (FOIA) requests regarding the release of foreign aviation accident or incident information for 2 years or until the foreign government leading the investigation approves the release of the information. This would apply to NTSB participation in foreign accident investigations only. Additionally, the NTSB would not be restricted from utilizing foreign accident investigation information in making safety recommendations.

Mr. President, the December 1995 American Airlines accident in Colombia is a good example of the kind of problem this provision seeks to remedy. Because of the location of the accident, the Colombian government is leading the investigation and the NTSB is participating. As a participant, NTSB has complete access to accident information, but the Government of Colombia—as lead investigator—determines when any information can be released. Since NTSB is covered by FOIA, any information in the Board's possession could be requested under FOIA. To avoid releasing information prior to the Colombian government's approval, I am told the NTSB avoids bringing any accident information into its actual possession and control. This hampers NTSB's ability to effectively assist in the investigation of this type of accident.

Second, the legislation creates a statutory exemption from FOIA for aviation data voluntarily supplied to the NTSB. The aviation industry currently generates a wealth of information not required to be collected by the government. While this data could be extremely useful to the NTSB, the industry is reluctant to share it because of concerns it will be released to the public through FOIA requests. This provision is designed to encourage the aviation industry to more freely share significant safety-related data with the Board.

Finally, S. 1831 grants authority to the Board to charge non-NTSB personnel attending its training courses for the costs associated with their attendance.

The NTSB carries out an enormously important public service. They do admirable work and deserve our full support. This legislation will ensure the NTSB can continue its essential work in an efficient manner.

Mr. President, the amendment I am offering to S. 1831 is almost identical to S. 1957, the Intermodal Safe Container Transportation Amendments Act of 1996, which I introduced on July 16, 1996. It is designed to give motor carriers the information necessary to prevent the carriage of overweight intermodal containers. S. 1957, cosponsored by Senators LOTT, INOUE and BREAUX,

is a bipartisan technical corrections bill to the Intermodal Safe Container Transportation Act of 1992.

To address legitimate concerns raised by shippers and carriers about implementation of the 1992 Act, including timely compliance and the need for world-wide education, this amendment would help streamline the implementation process. It would reduce unnecessary paperwork requirements that otherwise would be imposed and allow greater use of electronic interchange technology to expedite the transfer of information. It also would eliminate needless compliance burdens on smaller shipments, yet ensure the intent of the 1992 Act is not jeopardized.

Mr. President, overweight vehicles impair safety and cause severe damage to our nation's highway infrastructure. The purpose of the 1992 Act was to help prevent the operation of overweight vehicles on our nation's roads and highways. This amendment would help ensure the purpose of the 1992 Act is carried out by allowing the law to be implemented in a reasonable manner.

Mr. President, this amendment is critical to the future of intermodal transportation. I urge its adoption and passage of S. 1831.

Mr. FORD. Mr. President, the passage of S. 1831, which reauthorizes the National Transportation Safety Board [NTSB] is a very important matter.

One cannot watch television lately without seeing the NTSB in action. Everyone knows that the NTSB is the primary agency responsible for investigating each accident. When an accident occurs, it is the NTSB's job to secure the scene, and coordinate all activities. The Board has spent and is still spending countless hours trying to figure out the TWA crash off of Long Island, the ValuJet crash in Florida, the USAir crash in Pittsburgh, the American crash in Cali, Colombia, and the crash of Ron Brown's plane in Croatia, to name but a few. No matter what the circumstances of any accident, the NTSB is always there to fulfill their vital role. The Board's work in other transportation areas also continues. Rail, highway, and maritime accidents continue to receive the care and attention of the NTSB needed to make our transportation system safer.

I would like to commend all the NTSB staff and its Board members for their fine work and dedication. While we often recognize the Chairman of the Board, Jim Hall, and the Vice Chairman, Bob Francis, they know the quality of the NTSB employees. The staff's efforts are really an example of public service at its very best.

The President has also given the NTSB a new role. The NTSB has been designated as the lead agency for providing information and coordinating services for the families of victims of aviation disasters. This is a key role. The NTSB may require additional resources, and we may need to revisit the issue next year.

The bill before us today ensures that the NTSB will be able to continue carrying out its mandate. The bill provides \$42.4 million for fiscal year 1997, \$44.4 million for fiscal year 1998, and \$46.6 million for fiscal year 1999. The bill authorizes 370 FTE's, an additional 20 FTE's from the original request submitted by the administration. It is clear from seeing the demands placed on the NTSB that the additional staff are needed.

As a cosponsor of the bill, I urge my colleagues to support it.

Mr. INOUE. Mr. President, I rise in support of S. 1831 which is similar to H.R. 3152 which the Senate will pass tonight. Title I of this bill reauthorizes the National Transportation Safety Board [NTSB]. The NTSB plays an integral role in the transportation life of this nation and it deserves our continued support and respect. The NTSB has over many years acquitted itself in determining the cause of transportation accidents and recommending actions to prevent repetitions of these accidents. Particularly over the last several months NTSB has shown the World its professionalism. I wish to note my firm support for the agency its members and its personnel and assure them and this body of my continued support for an appropriation that allows it to accomplish its mission. Safety is the highest mission any agency can have and the NTSB clearly is a lead agency in ensuring the safety of the travelling public.

I also support title II of S. 1831, which contains the Intermodal Safe Container Transportation Amendments Act of 1996. These amendments modify the Intermodal Safe Container Transportation Act of 1992, Public Law 102-548 in an effort to strengthen that legislation. These amendments have been crafted in a true bipartisan manner. The Commerce Committee staff has crafted these amendments with industry representatives and in consultation with the Department of Transportation. In fact, these amendments are supported by a wide range of transportation and shipper interests. Carriers of every transportation mode have written in support of these amendments. In addition, the Nation's largest shipper associations and the nation's ports also support this effort.

These amendments will prevent cargo at the Nation's ports from simply lying at those ports and ensure rather that cargo speeds to its destination. Under the original legislation, cargo in containers weighing over 10,000 pounds would have to be certified, in writing, by the shipper before the container could leave the port for its next destination. The truck driver or the rail carrier taking the container to its next destination would be required to carry that certification and subject to a fine if he or she is caught without this piece of paper. Potentially, the certification could be delayed, or in the case of international cargo there could be delayed, or in the case of international cargo there could

be confusion as to the requirement for a certificate. Should a container not have a certificate it would be required to stay at the port or at the point of shipment clogging the port and delaying delivery of critical time sensitive cargo.

These amendments clarify and simplify the procedures for certification. One provision of these amendments prevents delay and confusion by the simple expedient of raising the certification requirement to 29,000 pounds. Certification as to the weight of the container will be required if its weight is in excess of that amount. With this provision fewer containers will be required to remain at port or point of shipment awaiting certification.

Another provision dispenses with the requirement that the certification be carried with the container. Instead, the information on the certification will be required to be made available on request. Thus, police officers or state officials requesting the certification information could access it by fax or other electronic means. The information would be provided without the unnecessarily delaying transport.

It is important to note what these amendments do not do. They do not in anyway alter any State or Federal law limiting the amount of weight a motor carrier or rail carrier may carry. Likewise, the amendments do not change current limits concerning the amount of hazardous materials a carrier may transport. These limits are left intact. It bears repeating: These amendments do not change any law respecting the transportation of hazardous materials or place any additional burden on the Nation's highway and bridges.

I urge my colleagues to vote in favor of this legislation.

Mr. HOLLINGS. Mr. President, I am pleased the Senate is considering S. 1831, a bill which reauthorizes the National Transportation Safety Board [NTSB].

As we know, all too well I might add, the NTSB is required to investigate transportation accidents. It is called upon immediately following a transportation catastrophe to send out the right people to carry out a thorough examination of the facts and circumstances surrounding each event. We can see evidence of NTSB investigators carrying out this mandate every day on the news as they continue the grim task of investigating the crash of TWA Flight 800 off the coast of Long Island. This inquiry is being conducted simultaneously with the ValuJet Flight 592 investigation in the Everglades. The NTSB is asked repeatedly to assist in investigations overseas such as the one a few months ago in Croatia where my good friend Ron Brown was killed in a military plane crash. When a barge hits a railroad bridge, or a train collides with another train, the NTSB is called upon to figure out what happened, and more importantly, to figure out how to prevent tragedies from recurring.

Concerning TWA Flight 800, the NTSB is working with local and State officials, the FBI, the Navy, and most importantly, with the families. The investigation is a painstaking, detailed process—literally requiring divers to pick up by hand the wreckage 110 feet below the surface. The divers, working in teams, have done an extraordinary job to facilitate the NTSB's investigation. Teamwork is essential and the efforts of all involved are very much appreciated.

The NTSB does excellent work. I would especially like to commend its Chairman Jim Hall and Vice Chairman Robert Francis for all their hard work and dedication. Their service on the NTSB could not have come at a more critical time, and I appreciate their great efforts as well as those of the other members of the Board and all the NTSB staff.

As I have said before, if this were a perfect world, we would not need the NTSB. But as we have seen all too well in the last few months, we need the NTSB now more than ever. Ensuring the safety of our transportation system is of primary importance, and I believe passage of this bill is vital to that goal.

I urge my colleagues to vote in favor of this legislation.

Mr. BREAU. Mr. President, I rise in support of the bill that reauthorizes the operations of the National Transportation Safety Board [NTSB]. The NTSB is an extremely important Federal agency, as evidenced by their professionalism in the investigation of the recent Valujet and TWA airplane disasters. Safety should be one of the paramount transportation issues confronting the Federal Government, and the Federal Government's paramount transportation safety agency is the NTSB. The NTSB deserves our support.

I am particularly pleased to see that the NTSB reauthorization has been amended to include a new Title II, which would add the provisions of S. 1957, the Intermodal Safe Container Transportation Act Amendments Act. The Intermodal Safe Container Transportation Amendments Act is a bill which would address some of the problems which were created with the 1992 enactment of the original Intermodal Safe Container Transportation Act.

The purpose for enacting the original Intermodal Safe Container Transportation Act was to ensure that intermodal shipping containers were not exceeding certain weight limitations. Overweight shipping containers constitute a significant threat to the safety of our Nations infrastructure. The principals of the original enactment were sound. Unfortunately, the implementation of that original Intermodal Safe Container Act has the potential to unnecessarily create a number of problems that could impede the transfer of intermodal containers and affect our international and domestic intermodal trade.

A coalition of ocean shipping companies, trucking companies, railroad

companies, ports and shippings have worked hard to develop a legislative proposal to address the problems that could be caused through the implementation of the original law. Senate Commerce Committee staff has worked to further refine the industry proposal. I believe that the provisions embodied in S. 1957, balance the interests of all segments of the transportation community, while at the same time preserving the original bill's intent to protect our infrastructure from overweight containers. This bill in no way impedes the application of current laws governing the safe transportation of hazardous materials.

As a Senator from the State of Louisiana, who represents the Port of the New Orleans, I understand the special importance of continuing to facilitate international and domestic trade in as safe a manner as possible. I urge my colleagues to support the NTSB reauthorization bill, and to help facilitate the implementation of the Intermodal Safe Contained Transportation Act.

AMENDMENT NO. 5390

(Purpose: To amend chapter 59 of title 49, United States Code, relating to intermodal safe container transportation)

Mr. STEVENS. Mr. President, Senator PRESSLER has an amendment at the desk. I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. PRESSLER, proposes an amendment numbered 5390.

Mr. STEVENS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 2, before line 1, insert the following:

TITLE I—NTSB AMENDMENTS

On page 2, line 1, strike "SECTION 1." and insert "SEC. 101."

On page 2, line 4, strike "SEC. 2." and insert "SEC. 102."

On page 3, line 3, strike "SEC. 3." and insert "SEC. 103."

On page 3, line 17, strike "SEC. 4." and insert "SEC. 104."

On page 4, line 8, strike "SEC. 5." and insert "SEC. 105."

On page 4, after line 15, insert the following:

**TITLE II—INTERMODAL
TRANSPORTATION**

SEC. 201. SHORT TITLE.

This title may be cited as the "Intermodal Safe Container Transportation Amendments Act of 1996".

SEC. 202. AMENDMENT OF TITLE 49, UNITED STATES CODE.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 49 of the United States Code.

SEC. 203. DEFINITIONS.

Section 5901 (relating to definitions) is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) except as otherwise provided in this chapter, the definitions in sections 10102 and 13102 of this title apply."

(2) by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively; and

(3) by inserting after paragraph (5) the following:

"(6) 'gross cargo weight' means the weight of the cargo, packaging materials (including ice), pallets, and dunnage."

SEC. 204. NOTIFICATION AND CERTIFICATION.

(a) PRIOR NOTIFICATION.—Subsection (a) of section 5902 (relating to prior notification) is amended—

(1) by striking "Before a person tenders to a first carrier for intermodal transportation a" and inserting "If the first carrier to which any";

(2) by striking "10,000 pounds (including packing material and pallets), the person shall give the carrier a written" and inserting "29,000 pounds is tendered for intermodal transportation is a motor carrier, the person tendering the container or trailer shall give the motor carrier a";

(3) by striking "trailer." and inserting "trailer before the tendering of the container or trailer.";

(4) by striking "electronically." and inserting "electronically or by telephone."; and

(5) by adding at the end thereof the following: "This subsection applies to any person within the United States who tenders a container or trailer subject to this chapter for intermodal transportation if the first carrier is a motor carrier."

(b) CERTIFICATION.—Subsection (b) of section 5902 (relating to certification) is amended to read as follows:

"(b) CERTIFICATION.—

"(1) IN GENERAL.—A person who tenders a loaded container or trailer with an actual gross cargo weight of more than 29,000 pounds to a first carrier for intermodal transportation shall provide a certification of the contents of the container or trailer in writing, or electronically, before or when the container or trailer is so tendered.

"(2) CONTENTS OF CERTIFICATION.—The certification required by paragraph (1) shall include—

"(A) the actual gross cargo weight;

"(B) a reasonable description of the contents of the container or trailer;

"(C) the identify of the certifying party;

"(D) the container or trailer number; and

"(E) the date of certification or transfer of data to another document, as provided for in paragraph (3).

"(3) TRANSFER OF CERTIFICATION DATA.—A carrier who receives a certification may transfer the information contained in the certification to another document or to electronic format for forwarding to a subsequent carrier. The person transferring the information shall state on the forwarded document the date on which the data was transferred and the identify of the party who performed the transfer.

"(4) SHIPPING DOCUMENTS.—For purposes of this chapter, a shipping document, prepared by the person who tenders a container or trailer to a first carrier, that contains the information required by paragraph (2) meets the requirements of paragraph (1).

"(5) USE OF 'FREIGHT ALL KINDS' TERM.—The term 'Freight All Kinds' or 'FAK' may not be used for the purpose of certification under section 5902(b) after December 31, 2000, as a commodity description for a trailer or container if the weight of any commodity in the trailer or container equals or exceeds 20 percent of the total weight of the contents of the trailer or container. This subsection does not prohibit the use of the term after that date for rating purposes.

"(6) SEPARATE DOCUMENT MARKING.—If a separate document is used to meet the requirements of paragraph (1), it shall be conspicuously marked 'INTERMODAL CERTIFICATION'.

"(7) APPLICABILITY.—This subsection applies to any person, domestic or foreign, who first tenders a container or trailer subject to this chapter for intermodal transportation within the United States."

(c) FORWARDING CERTIFICATIONS.—Subsection (c) of section 5902 (relating to forwarding certifications to subsequent carriers) is amended—

(1) by striking "transportation." and inserting "transportation before or when the loaded intermodal container or trailer is tendered to the subsequent carrier. If no certification is received by the subsequent carrier before or when the container or trailer is tendered to it, the subsequent carrier may presume that no certification is required."; and

(2) by adding at the end thereof the following: "If a person inaccurately transfers the information on the certification, or fails to forward the certification to a subsequent carrier, then that person is liable to any person who incurs any bond, fine, penalty, cost (including storage), or interest for any such fine, penalty, cost (including storage), or interest incurred as a result of the inaccurate transfer of information or failure to forward the certification. A subsequent carrier who incurs a bond, fine, penalty, or cost (including storage), or interest as a result of the inaccurate transfer of the information, or the failure to forward the certification, shall have a lien against the contents of the containers or trailer under section 5905 in the amount of the bond, fine, penalty, or cost (including storage), or interest and all court costs and legal fees incurred by the carrier as a result of such inaccurate transfer or failure."

(d) LIABILITY.—Section 5902 is amended by redesignating subsection (d) as subsection (e), and by inserting after subsection (c) the following:

"(d) LIABILITY TO OWNER OR BENEFICIAL OWNER.—If—

"(1) a person inaccurately transfers information on a certification required by subsection (b)(1), or fails to forward a certification to the subsequent carrier;

"(2) as a result of the inaccurate transfer of such information or a failure to forward a certification, the subsequent carrier incurs a bond, fine, penalty, or cost (including storage), or interest; and

"(3) that subsequent carrier exercises its rights to a lien under section 5905,

then that person is liable to the owner or beneficial owner, or to any other person paying the amount of the lien to the subsequent carrier, for the amount of the lien and all costs related to the imposition of the lien, including court costs and legal fees incurred in connection with it."

(e) NONAPPLICATION.—Subsection (e) of section 5902, as redesignated, is amended—

(1) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively; and

(2) by inserting before paragraph (2), as redesignated, the following:

"(1) The notification and certification requirements of subsections (a) and (b) of this section do not apply to any intermodal container or trailer containing consolidated shipments loaded by a motor carrier if that motor carrier—

"(A) performs the highway portion of the intermodal movement; or

"(B) assumes the responsibility for any weight-related fine or penalty incurred by any other motor carrier that performs a part of the highway transportation."

SEC. 205. PROHIBITIONS

Section 5903 (relating to prohibitions) is amended—

(1) by inserting after "person" and comma and the following: "to whom section 5902(b) applies,";

(2) by striking subsection (b) and inserting the following:

"(b) TRANSPORTING PRIOR TO RECEIVING CERTIFICATION.—

"(1) PRESUMPTION.—If no certification is received by a motor carrier before or when a loaded intermodal container or trailer is tendered to it, the motor carrier may presume that the gross cargo weight of the container or trailer is less than 29,001 pounds.

"(2) COPY OF CERTIFICATION NOT REQUIRED TO ACCOMPANY CONTAINER OR TRAILER.—Notwithstanding any other provision of this chapter to the contrary, a copy of the certification required by section 5902(b) is not required to accompany the intermodal container or trailer.";

(3) by striking "10,000 pounds (including packing materials and pallets)" in subsection (c)(1) and inserting "29,000 pounds"; and

(4)—by adding at the end the following:

"(d) NOTICE TO LEASED OPERATORS.—

"(1) IN GENERAL.—If a motor carrier knows that the gross cargo weight of an intermodal container or trailer subject to the certification requirements of section 5902(b) would result in a violation of applicable State gross vehicle weight laws, than—

"(A) the motor carrier shall give notice to the operator of a vehicle which is leased by the vehicle operator to a motor carrier that transports an intermodal container or trailer of the gross cargo weight of the container or trailer as certified to the motor carrier under section 5902(b);

"(B) the notice shall be provided to the operator prior to the operator being tendered the container or trailer;

"(C) the notice required by this subsection shall be in writing, but may be transmitted electronically; and

"(D) the motor carrier shall bear the burden of proof to establish that it tendered the required notice to the operator.

"(2) REIMBURSEMENT.—If the operator of a leased vehicle transporting a container or trailer subject to this chapter is fined because of a violation of a State's gross vehicle weight laws or regulations and the lessee motor carrier cannot establish that it tendered to the operator the notice required by paragraph (1) of this subsection, then the operator shall be entitled to reimbursement from the motor carrier in the amount of any fine and court costs resulting from the failure of the motor carrier to tender the notice to the operator."

SEC. 206. LIENS.

Section 5905 (relating to liens) is amended—

(1) by striking subsection (a) and inserting the following:

"(a) GENERAL.—If a person involved in the intermodal transportation of a loaded container or trailer for which a certification is required by section 5902(b) of this title is required, because of a violation of a State's gross vehicle weight laws or regulations, to post a bond or pay a fine, penalty, cost (including storage), or interest resulting from—

"(1) erroneous information provided by the certifying party in the certification to the first carrier in violation of section 5903(a) of this title;

"(2) the failure of the party required to provide the certification to the first carrier to provide it;

"(3) the failure of a person required under section 5902(c) to forward the certification to forward it; or

"(4) an error occurring in the transfer of information on the certification to another document under section 5902(b)(3) or (c), then

the person posting the bond, or paying the fine, penalty, costs (including storage), or interest has a lien against the contents equal to the amount of the bond, fine, penalty, cost (including storage), or interest incurred, until the person receives a payment of that amount from the owner or beneficial owner of the contents, or from the person responsible for making or forwarding the certification, or transferring the information from the certification to another document.";

(2) by inserting a comma and "or the owner or beneficial owner of the contents," after "first carrier" in subsection (b)(1); and

(3) by striking "cost, or interest." in subsection (b)(1) and inserting "cost (including storage), or interest. The lien shall remain in effect until the lien holder has received payment for all costs and expenses described in subsection (a) of this section."

SEC. 207. PERISHABLE AGRICULTURAL COMMODITIES.

Section 5906 (relating to perishable agricultural commodities) is amended by striking "Section 5904(a)(2) and 5905 of this title do" and inserting "Section 5905 of this title does".

SEC. 208. EFFECTIVE DATE.

(a) IN GENERAL.—Section 5907 (relating to regulations and effective date) is amended to read as follows:

§ 5907. Effective date

"This chapter shall take effect 180 days after the date of enactment of the Intermodal Safe Container Transportation Amendments Act of 1996."

(b) CLERICAL AMENDMENT.—The table of sections for chapter 59 is amended by striking the items relating to section 5709 and inserting the following:

"5907. Effective date".

SEC. 209. RELATIONSHIP TO OTHER LAWS.

(a) IN GENERAL.—Chapter 59 is amended by adding at the end thereof the following:

§ 5908. Relationship to other laws

"Nothing in this chapter affects—

"(1) chapter 51 (relating to transportation of hazardous material) or the regulations promulgated under that chapter; or

"(2) any State highway weight or size law or regulation applicable to tractor-trailer combinations."

(b) CLERICAL AMENDMENT.—The table of sections for such chapter is amended by adding at the end thereof the following:

"5908. Relationship to other laws"

Mr. STEVENS. I ask this amendment be agreed to.

The amendment (No. 5390) was agreed to.

Mr. STEVENS. I ask unanimous consent the bill be considered read for a third time, the Senate immediately proceed to Calendar 508, H.R. 3159, further, all after the enacting clause be stricken and the text of S. 1831, as amended, be inserted in lieu thereof, the bill be deemed read for a third time and passed, the motion to reconsider be laid upon the table, any statements related to the bill be printed at the appropriate place in the RECORD, and finally, S. 1831 be placed back on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3159), as amended, was deemed read a third time and passed, as follows:

[The bill was not available for printing. It will appear in a future issue of the RECORD.]

ORDERS FOR THURSDAY, SEPTEMBER 19, 1996

Mr. STEVENS. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until the hour of 9:30 a.m. on Thursday, September 19; further, that immediately following the prayer, the Journal of proceedings be deemed approved to date, the morning hour be deemed to have expired, the time for the two leaders be reserved for their use later in the day, and there be a period for the transaction of morning business not to extend beyond the hour of 11 a.m., with the following Senators to be recognized for the designated time: Senator THOMAS for 30 minutes; Senator CONRAD for 30 minutes; Senator HEFLIN for 10 minutes; Senator REID for 10 minutes; Senator MURKOWSKI for 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I further ask unanimous consent that following morning business at 11 a.m., the Senate resume consideration of S. 39, the Magnuson fisheries bill. At that time, under a previous order, there will be 4 minutes of debate equally divided on a Hutchison amendment. Following that debate time, I ask unanimous consent that the Senate proceed to a rollcall vote on or in relation to the Hutchison amendment, if necessary, to be followed by a rollcall vote on passage of S. 39, the Magnuson fisheries bill, as amended, and I ask paragraph 4 of rule XII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. STEVENS. Mr. President, tomorrow at 11 a.m., following the 4 minutes of debate, the Senate will proceed to one, perhaps two, consecutive rollcall votes—first, on or in relation to the Hutchison amendment, if necessary, to be followed by a vote on the passage of the Magnuson fisheries bill. Following the votes, or vote, the Senate may be asked to turn to consideration of any of the following items: The pipeline safety bill, the maritime bill, H.R. 1350, available appropriations bills or conference reports. Rollcall votes are, therefore, possible throughout Thursday's session on the items just mentioned or any other items cleared for action.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. STEVENS. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 8:48 p.m., adjourned until Thursday, September 19, 1996, at 9:30 a.m.

EXTENSIONS OF REMARKS

IN RECOGNITION OF LYNN ROGERS, PRESIDENT OF THE DELAWARE VOLUNTEER FIREMEN'S ASSOCIATION

HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. WELDON of Pennsylvania. Mr. Speaker, as founder and cochairman of the Congressional Fire Services Caucus [CFSI], I have had the distinct pleasure of traveling across the country and speaking to fire service organizations of every kind. In all my journeys, I cannot recall an organization that captures the spirit of the American fire services like the Delaware Volunteer Firemen's Association [DVFA].

At the end of this month, the entire Delaware volunteer fire service will assemble at Rehoboth Beach for its second annual conference and 76th anniversary. The purpose of the event is to reflect on a successful year of achievements and look ahead to the challenges facing them. There were many achievements which can be attributed to the tireless work of DVFA president, Mr. Lynn Rogers.

Like most volunteer firefighters, Lynn wears many hats. A successful businessman, fire chief and family man, Lynn has successfully balanced his time to ensure that the things most important to him receive the attention they deserve. In addition, he has played an important role within the fire service at the national level through his support of the Congressional Fire Services Institute.

To put it simply, Lynn Rogers is the quintessential volunteer. When CFSI had 15,000 dinner invitations to stuff, Lynn recruited over 100 friends and family members from Milton, DE and surrounding communities to help with the task. When the institute reserved a ballroom to accommodate 2,000 attendees for the Eighth Annual National Fire and Emergency Services Dinner, Lynn responded by bringing the largest delegation of fire service leaders to the event. And throughout his tenure as president of DVFA, Lynn graciously responded to calls for assistance, gladly providing whatever help he could to CFSI.

When my Delaware colleagues speak of their fire service as the State's third political party, they do so out of respect and admiration for the men and women who contribute their time and energy to public safety. I hold them in the same high esteem, and offer my congratulations to Lynn Rogers, the Delaware Volunteer Firemen's Association and the Ladies Auxiliary for a successful year.

HONORING MACMURRAY COLLEGE ON THE OCCASION OF ITS SESQUICENTENNIAL CELEBRATION ON OCTOBER 13, 1996

HON. RAY LAHOOD

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. LAHOOD. Mr. Speaker, I rise today to pay tribute to MacMurray College of Jacksonville, IL. MacMurray College is celebrating its sesquicentennial anniversary and will be closing out its year-long celebration on October 12 and 13, 1996, in conjunction with its homecoming weekend.

MacMurray College was founded in 1846 as a small, liberal arts school. At that time, it was an all women's college; a brother school was formed in 1955. The two were merged in 1969, making MacMurray the coeducational school that it is today. For the past 150 years, it has given all of its students a broad-based and well-rounded education and has done a tremendous job preparing our children for the rigors of the real world.

MacMurray's small size and its 13-to-1 student-faculty ratio have given its students an opportunity to receive a highly personalized education, and to really form a close and lasting bond with their instructors. This is especially meaningful to me because of my teaching background. I understand how much students can benefit from forming close relationships with their instructors, an opportunity which is readily available at MacMurray.

Mr. Speaker, I am proud to be able to say that I represent this college and its students as a Member of Congress. It is institutions like MacMurray that help our children learn, grow, and become leaders, both in our own communities and throughout the country and the world. I hope that all of you will join me in congratulating the faculty, students, employees, and graduates of MacMurray College for all of their accomplishments and milestones reached during their first 150 years of existence, and I know you will all join me in wishing them well during the next 150.

CONGRATULATIONS TO MICHAEL SIMPSON, WINNER OF THE OKLAHOMA VOICE OF DEMOCRACY ESSAY SCHOLARSHIP PROGRAM

HON. STEVE LARGENT

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. LARGENT. Mr. Speaker, each year the Veterans of Foreign Wars of the United States and its Ladies Auxiliary conduct the Voice of Democracy broadcast script writing contest. The contest theme this year was "Answering America's Call." I am proud to report that Michael Simpson was named the Oklahoma State winner and he is from my district in Tulsa, OK.

Michael Simpson, a senior at Nathan Hale High School, is the son of Mr. and Mrs. Michael Simpson. He plans a career in engineering. Mike was sponsored by VFW Post 577 in Tulsa, OK.

It is with great pride that I submit for publication in the CONGRESSIONAL RECORD, the winning essay written by Mr. Michael Simpson of Tulsa, OK.

ANSWERING AMERICA'S CALL

(By Michael Simpson)

I know some people feel my generation isn't up to the challenge that will soon be bestowed upon us. I believe we are.

While developing my thoughts on this theme I tried to determine what my audience would like to hear. After much consideration and soul searching, I decided that I must speak from my heart . . . especially after a story my granddad told me.

Recently, while visiting with a young man, my granddad mentioned something about the Korean War. The young man, with a puzzled look on his face said, "The Korean War? Wasn't that a television show?" My granddad kind of chuckled, and then, with a sad look on his face said to me, "30,000 fatalities and this kid thought it was a television program."

I realized then what an awesome responsibility my generation faces; the stewardship of this great nation and the legacy entrusted to us.

Our values should define what we want to achieve in our lives and we are effective only when our actions are in line with those values. To that end, I have devised three personal goals that I invite my generation to adopt.

These include:

First, and foremost, taking responsibility; second, getting an education; and third, being a hero. Allow me to elaborate a little on each of these goals.

My first goal is taking responsibility. Each of us need to be responsible for our own actions . . . we need to vote, serve jury duty and provide for the children we bring into this world.

Everyone has an excuse these days. In general, society seems to be a broken record; I grew up poor, I came from a broken family, I'm the wrong gender. It's never-ending. Need I go on?

Now don't misunderstand, these are serious elements to overcome, but we cannot allow them to hinder our success. Stop making excuses . . . and start making choices. Stop pointing fingers . . . and start making a difference. As Eleanor Roosevelt said, "The choices we make are ultimately our responsibility."

My second goal is getting an education. Education is something that can never be taken from you. It is an asset that cannot be stolen. Years ago, it was possible for a person with a ninth-grade education to start in the company mail room, work hard, and eventually become president. Those days are gone. Hard work just isn't enough anymore.

Today's technology demands a higher level of education in order to survive and thrive. Not only does it prepare you for the work force, it also provides the tools needed to be a good citizen. Knowledge of current events, politics and economics are necessities in our ever-expanding global environment.

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

My third goal is being a hero. A hero doesn't always have to be the Audy Murphys, the Winston Churchills, or the fireman on the 6 o'clock news. You don't have to save a life or lead a country . . . you merely have to make a difference.

Small kindnesses can make lasting impressions. Delivering food baskets, returning a lost wallet, or coaching Little League Baseball—none of these acts go unnoticed and the rewards are priceless. The purpose is not recognition but to feel good about yourself and to inspire others. There are too few heroes these days—we should all strive to become one.

These three goals are my answer, my pledge, to America's Call—and it's a pledge that I've signed in my heart.

In closing, I would like to assure you, and my grandad, that I do know about the Korean War. I know that it was not a television program, and, for the record, there were actually 33,651 fatalities.

THE FUTURE OF AMTRAK

HON. NANCY L. JOHNSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mrs. JOHNSON of Connecticut. Mr. Speaker, I am introducing legislation today that will create a 5-year dedicated capital funding program for Amtrak as it transitions away from Federal operating support. This proposal will redirect .5 cent of the existing 4.3 cents gas tax into a dedicated trust fund for Amtrak, allowing Amtrak to quickly reinvest in much needed capital improvements. The remaining 3.8 cents in gas tax revenues will be shifted to the highway trust fund.

Amtrak is an essential part of our national transportation system, providing 22 million intercity rail passenger trips per year to over 500 destinations in 45 States. In 1995, Congress and the administration both determined that Amtrak must reduce its reliance on Federal funding—directing Amtrak to operate without Federal support by the year 2002.

Without adequate funding during this transition period, Amtrak cannot make the investments necessary to survive independently. Unfortunately, Amtrak will need an estimated \$4 billion in capital improvements by 2002 due to funding shortages in the 1980's. This new capital investment alternative is necessary to improve rolling stock, cars and locomotives, upgrade maintenance facilities, and prevent the deterioration of track and signal equipment. Unless Amtrak's capital equipment is improved, it will not be able to operate as a self-sufficient entity as Congress directed.

Between 1982 and 1994, travel on Amtrak rose 40 percent. A dedicated capital funding source will cut Amtrak's operating and maintenance costs, improving reliability and performance. Moreover, these upgrades will reduce air pollution, fuel consumption, highway congestion, and urban parking problems. I urge my colleagues to cosponsor this important piece of legislation.

BRUCE F. VENTO CONSUMER
INTERNET PRIVACY PROTECTION
ACT OF 1996

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. VENTO. Mr. Speaker, the age of the Internet is upon us and evolving faster than we ever imagined. Each day new companies and industries grow out of the constant technological innovation that has come to symbolize this information superhighway. The Internet has reached into our schools, businesses and homes. It has allowed average Americans sitting in the privacy of their living rooms to connect with and explore the world. The Internet provides us with entertainment, information and communication. But with all the wonders of the Internet comes the potential for problems. Today, I am introducing the Consumer Internet Privacy Protection Act of 1996 in an effort to address just one such problem.

To gain access to the Internet's endless web of sites, users must work through an Internet provider or server. While these servers provide a valuable service to their customers, they are also capable of collecting an enormous amount of personal information about these individuals. Besides the personal information an Internet server may collect when they enroll a subscriber, servers are also capable of identifying the sites their subscribers visit. Without doubt such information would be quite valuable to direct marketers and those interested in marketing, while providing servers with yet another source of revenue for providing such personal private information. The result—subscribers are inundated with junk mail and/or e-mail.

My legislation is intended to inform and protect the privacy of the Internet user by requiring servers to obtain the written consent of their subscribers before disclosing any of their personal information to third parties. In addition, my bill requires a server to provide its subscribers access to any personal information collected by the server on its users, along with the identity of any recipients of such personal information.

As the Internet becomes a more integral part of our daily lives, it is important that we in Congress take a commonsense approach, like this legislation, to ensure the citizens of our nation are able to benefit from this technology without sacrificing their personal privacy. My legislation will not hamper the growth and innovation of the Internet in any way. It will merely provide an opportunity for the consumers of Internet services to protect their privacy if they so wish. After all, the preservation of our privacy is one of our Nation's most cherished freedoms, which technology must not be allowed to circumvent.

PERSONAL EXPLANATION

HON. ED PASTOR

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. PASTOR. Mr. Speaker. Due to mechanical problem on my flight to Washington yesterday, I was delayed in Chicago and was not

present for rollcall votes Nos. 414–417. Had I been present, I would have voted "aye" on all four of these bills.

THANK YOU, BRYAN WIRWICZ, FOR
YOUR LOYAL SERVICE

HON. JACK FIELDS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. FIELDS of Texas. Mr. Speaker, it was with mixed emotions that I announced last December 11 my decision to retire from Congress at the end of my current term. As I explained at the time, the decision to retire was made more difficult because of the loyalty and dedication of my staff—and because of the genuine friendship, I feel for each of them.

Today, I want to thank one member of my staff, Bryan Wirwicz, my longtime press secretary, for everything he's done for me and my constituents in the 16 years he has worked in my office.

I met Bryan during my first congressional campaign in 1980. He had recently graduated from the University of North Carolina at Chapel Hill with a degree in journalism and political science. Bryan had participated in a 3-day seminar, sponsored by the National Republican Congressional Committee, designed to teach young people how to handle media relations for congressional candidates. His name was passed along to me as someone who might be helpful to me in my campaign.

It was our first political campaign, and we learned together as we worked together. After I was elected, I asked Bryan if he would move to Washington, DC, to serve on my congressional staff.

He did so, but departed in mid-1982 to work in an unsuccessful congressional campaign in California. In early 1983, he went to work for our former colleague, Win Weber of Minnesota. Bryan and I stayed in touch, and we eventually decided to team up once again. He rejoined my staff in mid-1983, and has been with me since that time.

Through the years, Bryan has worked with local, statewide, and national news reporters—developing and maintaining excellent working relationships with them. I've told Bryan many times that I consider him to be the best writer around. In the op-ed pieces, newsletters press releases, and position papers he has prepared for me over the years, Bryan has been able to summarize and explain complex and oftentimes highly technical issues in plain English, allowing my constituents to more easily understand those issues and my positions on them.

Bryan is a generalist, but he is also a quick study—quickly gaining an understanding of maritime issues when I served as ranking minority member of the House Merchant Marine and Fisheries Committee, and gaining an understanding of telecommunications and securities issues when I became chairman of the House Telecommunications and Finance Subcommittee in 1995.

In 1993, when I ran for the U.S. Senate, I ask Bryan to take a leave of absence from my official staff, move to Houston, and join my campaign staff. As I told him at the time, his participation in my Senate campaign provided me with a "comfort level" that I would not have enjoyed had he not been with me. I lost

that campaign, but Bryan's presence made the experience more enjoyable, or at least more bearable, that it would have been without him.

Mr. Speaker, Bryan is one of those hard-working men and women who make all of us in this institution look better than we deserve. I know he has done that for me, and I appreciate this opportunity to publicly thank him for his dedication, loyalty, and professionalism.

Bryan plans to continue working in the public relations and media relations arena. He also plans to continue devoting his spare time to his two primary hobbies—bicycling and investing. I wish him may more miles of scenic, safe, and relaxing bicycling, as well as many more years of double-digit returns on his Compaq, Merck, PepsiCo. and other stocks.

Mr. Speaker, I know you join with me in saying "thank you" to Bryan Wirwicz for his loyal service to me, to the men and women of Texas' Eighth Congressional District, and to this great institution, and I know you join me in wishing him the very best in all of his future endeavors.

TRIBUTE TO VRETENAR CONSTRUCTION 1996 ST. FRANCIS BUSINESS OF THE YEAR

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. KLECZKA. Mr. Speaker, I rise today in recognition of Vretenar Construction, city of St. Francis 1996 Business of the Year.

Vretenar Construction, formerly known as Vretenar & Sons, was founded by John Vretenar, Sr. in 1949 with a trailer, a wheel barrow, a mud box, and a lot of hard work. Forty seven years later, Vretenar Construction remains a family business, run by John's son Milton and Milt's wife Elizabeth since John's retirement in 1965. Even Milt and Betty's son Craig was involved in the family business until he became building inspector for the city of St. Francis.

Vretenar Construction has provided many years of service to the community, building homes, and buildings for area residents and businesses. But their dedication extends well beyond that. Milt, the longtime mayor of the city of St. Francis and a talented mason contractor, is constantly donating his time and skills to a city he loves so dearly. Milt quietly helps out wherever he can, from construction of the veteran's memorial to repairs on the St. Francis Historical Society house to a host of other projects too numerous to mention. He and Betty also remain involved in a number of community organizations and have for so many years been so committed to making St. Francis a great place to live and work.

Vretenar Construction is a perfect example of a business with a strong community spirit. It is certainly a well-deserving recipient of the city of St. Francis Economic Development Committee's Business of the Year honor. For the Vretenars, community service is truly a family affair.

TRIBUTE TO MISS ARIANE FRANCO

HON. JOSÉ E. SERRANO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. SERRANO. Mr. Speaker, I rise today to pay tribute to an extraordinary young Puerto Rican, Miss Ariane Franco, for her dedication to excel academically and serve the community. She is an inspiration and a role model for many young students in the Nation, specially the Puerto Rican and South Bronx communities to which she belongs.

Ariane was recently selected as the Boys and Girls Clubs of America's Northeast Youth of the Year. She will represent the Northeast as one of the five finalists in this year's competition, which is being held in Washington, DC.

Like many other youngsters across the Nation, Ariane was raised in a family which faced many difficulties. Her desire to do something positive led her to achieve academically and to serve the community.

Ariane has been an active member of the Kips Bay Boys and Girls Club over the past 4 years. At the club, she worked as a tutor for remedial math and reading, and as a computer instructor. She was also involved in numerous community service programs, including the Club's Smart Moves Program. Through this program, Ariane taught youngsters to be aware of and to prevent substance abuse, teen pregnancy, peer pressure and AIDS.

Ariane's strong determination to fight adversity, and her family's spiritual strength have molded her into a very positive individual, always full of optimism and with the desire to help others.

In addition to her community activism and leadership, Ariane is an excellent student. In spite of difficulties, she remained an honor student throughout her 4 years of high school at Stevenson's in the Bronx. She now attends the University of Scranton in Pennsylvania. Her strong desire to inform people about the truth has led her to major in communications with the goal of becoming a journalist.

Mr. Speaker, I ask my colleagues to join me in recognizing Miss Ariane Franco for her leadership and commitment to her community, and for serving as a role model for young people. Young individuals like Ariane make all of us proud, specially our Puerto Rican community of the South Bronx.

RECOGNITION OF THE METAL DYNAMICS CORPORATION'S CERTIFICATION TO NQS 9000

HON. STEVE LARGENT

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. LARGENT. Mr. Speaker, I rise today to recognize the owner and employees of Metal Dynamics Corp. [MDC] of Tulsa, OK, for being the first foundry in the United States to be certified to NQS 9000. This certification recognizes that MDC has implemented and maintained a quality system fully compliant with each provision of ISO 9002-1994.

NQS 9000 is an industry-specific quality program created and administered by the

Non-Ferrous Founders' Society [NFFS]. Sponsored by the Defense Logistics Agency Technical Enterprise Team as part of the AMC lead time and cost reduction program, NQS 9000 is a low cost alternative to traditional ISO 9000 registration for the foundry industry. ISO 9000 is the recognized standard in the quality control community. NFFS developed the NQS 9000 program so that a foundry can pursue a higher level of quality without paying the expensive fees charged by many ISO consultants. The Metal Dynamics Corp. was one of the first companies to enroll in NQS 9000 and achieved NQS certification in only 6 months.

The Metal Dynamics Corp., owned by Don Doss since 1976, has 43 employees, and works with stainless, ferrous and nonferrous materials to do investment casting and sand casting. Among their products are components for the Trident Seawolf Submarine. The employees of MDC are to be commended for their efforts to change old habits and learn new ones—to operate as a progressive and proactive team. Businesses such as Metal Dynamics Corp., which emphasize the importance of a commitment to quality and a proactive approach to achieving it, serve as an example and set a high standard for others in the industry. Their proven success is an incentive for achievement.

Don Doss, the president and owner of the Metal Dynamics Corp., continues to prove himself not only as an advocate, but also as a pioneer in quality control. A graduate from the University of Tulsa in mechanical engineering, he joined NFFS in 1976 when he gained ownership of MDC. He served as president of NFFS from 1982 to 1983, and on the Cast Metals Institute Board from 1986 to 1990. He is currently a board member of the American Foundryman's Society [AFS] and is chairman of the NFFS Quality Task Force, which established the NQS program. By implementing the program at his own foundry and earning the certification, Mr. Doss has demonstrated the benefit of the NFFS NQS 9000 program. By being the first foundry to be certified, the Metal Dynamics Corp. has secured respect and recognition for itself and other small foundries among world leaders in the industry.

Mr. Speaker, I would like to commend Don Doss and the employees of the Metal Dynamics Corp. for their admirable efforts to provide quality products, which in turn help our country to be economically stronger and more competitive. I would also like to recognize the other small foundries like Metal Dynamics Corp. It is their devoted hard work, commitment to success, and willingness to change for the better that stand out as encouragement for the rest of us. Theirs is the attitude that made our country great, and that will secure for us our future.

“REMEMBERING AMERICA'S POW/MIAS”

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. SOLOMON. Mr. Speaker, I would be remiss if I did not bring to your attention an inspirational essay by one of America's leading advocates for veterans, my very distinguished

colleague, BOB STUMP of Arizona. Chairman STUMP has led the fight in the POW/MIA movement for years. His moving words on this most important subject need to be heard.

For that reason, Mr. Speaker, I would like to submit for the RECORD, Congressman STUMP's memorable tribute to those who have made the ultimate sacrifice for their Nation—and especially for those not fortunate enough to make it home.

On this Friday, September 20, 1996, I would urge all Americans to take the time to reflect upon Mr. STUMP's tribute to our Prisoners of War and Missing in Action. Thanks to the words and effort of people like Chairman STUMP, the tremendous sacrifices of these courageous Americans will not be forgotten. His words truly deserve the attention of every American who enjoys the freedom preserved by these courageous American heroes.

REMEMBERING AMERICA'S POW/MIA'S

(By Congressman Bob Stump)

As we commemorate National POW/MIA Recognition Day, it is altogether fitting that we pay homage to those Americans who were taken prisoner of war or listed as missing in action and presumed dead.

Throughout the history of the United States, in six major wars spanning 220 years, more than 500,000 Americans have been taken prisoner of war. Each has experienced horrors unimaginable and indefinable in the annals of civilized existence. Most endured long-term deprivation of freedom and the loss of human dignity.

How can we possibly acknowledge their sacrifice or their memory in the context of what they experienced or how they survived?

National POW/MIA Recognition Day allows Americans to comprehend and appreciate the dedication to life and freedom that these brave men and women endured in the service of their country. A just nation and its people must acknowledge their survival in captivity by continuing to assure them and their families that what they sacrificed and endured in the face of adversity was not offered in vain.

In the Revolutionary War, more than 20,000 Americans were taken prisoner and 8,500 died in captivity, mostly from disease.

During the Civil War, and estimated 194,000 Union soliders and 214,000 Confederates became prisoners of war. Between the North and the South, 56,194 Americans died in captivity, mostly from disease.

In world War I, 4,120 Americans were taken prisoner—147 of them died in captivity forcing a third Geneva Convention covering the humane treatment for prisoners-of-war.

No one could ever perceive nor comprehend the absolute barbaric treatment American prisoners experienced in World War II, especially at the hands of the Japanese. In the Pacific, 11,107 Americans, or 40 % of those taken prisoner, died in captivity. In contrast, of the 93,941 Americans taken prisoner in Europe, all but 1,121 or 1 percent were released.

Once again, outrage prompted the world community to pass four new Geneva Conventions. In August 1949, the new treaty strengthened the former ones by codifying the general principles of international law governing the treatment of civilians in wartime. Included in that treaty was a pledge, "to treat prisoners humanely, feed them adequately, and deliver relief supplies to them." Additionally, prisoners of war would not be forced to disclose more than minimal information to their captors.

These new provisions were soon tested during the Korean War where 8,177 Americans were classified as missing-in-action, and another 7,140 were identified as prisoners of

war. Between April and September 1953, a total of 4,418 POWs were released by the Communist Chinese, leaving 2,722 Americans unaccounted for. Five months later, in February 1954, the United States declared the remaining 8,177 Americans missing and presumed dead.

Perhaps more than any war, Vietnam continues to illustrate the complexity of the POW/MIA issue. In 1973, the Pentagon listed almost 3,100 Americans as POW/MIA's. In April 1973, 591 Americans were released by the North Vietnamese. As of this date, The National League of Families of American Prisoners and Missing in Southeast Asia report that "2,146 Americans are still missing and unaccounted for from the Vietnam War."

For more than 20 years, the families of those men classified as missing-in-action have suffered the anguish of not knowing whether their sons, their fathers or their husbands are alive or dead. National POW/MIA Recognition Day allows us to keep their memories alive.

It is for that reason that we reflect upon the sacrifices made by Americans who were captured and returned home as well as to those still listed as missing-in-action.

Americans should never forget that their love of this country and all that it stands for, their dedication to service, their ideals, their courage, their convictions and their sacrifices must never be forgotten.

The most fitting words imaginable are those of President Abraham Lincoln to the mother of five sons lost on the field of battle: "I cannot refrain from tendering to you the tanks of the Republic they died to save. I pray that our heavenly father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom."

TRIBUTE TO THE JOB CORPS

HON. ED WHITFIELD

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. WHITFIELD. Mr. Speaker, I rise today to voice my support for Job Corps and to commend the students and staff who participate in this remarkable program.

The largest Job Corps facility is located in my district. The Earle C. Clements Job Corps Center in Morganfield, KY, serves over 3,000 disadvantaged youth annually. Nationally, over 60,000 students benefit from this program.

Their mission is to provide quality job training in a student-oriented program. By targeting the needs of students to prepare them for the job market, Job Corps is providing a dual service—to the young men and women enrolled in training programs and to our society. It serves students by giving them the skills and esteem they need to become more responsible, employable and productive citizens. It also serves society by providing training to individuals who otherwise might not have the skills needed to hold a job or pursue a career. Students more than return the Government's investment in them through taxes they will later pay and reduced welfare, unemployment, and criminal justice costs.

Job Corps students also have an impact on local communities. In the past 5 years, students have contributed over \$42 million nationwide.

In my district alone, Clements Job Corps Center students have constructed four houses in conjunction with the habitat for humanity program. The Student Government Association sponsors teams that annually participate in the local March of Dimes WalkAmerica and American Cancer Society Walk-a-thon. Students learning heavy equipment operations at the Clements center's satellite campus saved Hopkins County over \$40,000 in equipment lease costs and manpower by constructing a water-retaining basin and earthen dam as the county closed its landfill, while they learned the skills that will lead them into productive careers.

Job Corps offers these students the opportunity to succeed.

Mr. Speaker, this is a program that works. National statistics show that last year 73 percent of all Job Corps participants found jobs or pursued higher education. Forty-six percent of those eligible obtained their GED.

The results at the Earle C. Clements Job Corps Center topped these national averages. At the Clements center, 83 percent of all participants found jobs or went on to higher education. This is impressive considering that 80 percent of the students were high school dropouts and 37 percent came from families on public assistance.

Across my district, business owners and management complain about the lack of skilled workers in the labor force. Job Corps helps meet that demand by providing individuals specialized training in such trades as carpentry, auto mechanics, computer repair, and health occupations. Students also learn social skills to complement their training.

Mr. Speaker, Job Corps is a success story. Learning about the Clements Job Corps Center and the entire national program has been an enriching experience for me. It is with great pleasure that I rise today to honor the dedicated staff and hard-working students at the Earle C. Clements Job Corps Center, who are having a positive impact on their community while taking the first step toward living the American dream.

CRIME

HON. LEE H. HAMILTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. HAMILTON of Indiana. Mr. Speaker, I would like to insert my Washington Report for Wednesday, September 18, 1996, into the CONGRESSIONAL RECORD.

FIGHTING CRIME

The fear of crime is a part of life for far too many Americans. Hoosiers tell me that insecurity from crime gnaws away at our spirit, restricts our freedom, and forces us to rearrange our lives. All of us are victims of crime. We pay the cost of crime in higher insurance rates, higher prices, higher taxes, and a poorer quality of life. Despite recent reductions in the crime rate, fear of crime continues to register as a top concern of Hoosiers in every poll. They worry that laws are not strictly enforced, that sentences are too light, that judges are too lenient, and that dangerous criminals are let free to roam the streets.

The most recent statistics indicate that the nation's crime rate has fallen by about 4% in recent years. This is an improvement,

but Hoosiers are right to be skeptical and demand more progress. First, even a 10% or 20% reduction in crime would leave us far less safe than we were twenty or thirty years ago. Persons who remember what it was like to leave a home unlocked or the keys in the ignition will not and should not be satisfied with only a modest reduction in the crime rate. Second, while crime has declined significantly in cities, it continues to rise in small communities and rural areas. I have pushed for more attention to the unique crime problems in these communities, which are too often ignored by the media and policymakers. Crime has long been primarily a state and local matter, but there are things the federal government can do to help.

POLICE

One reason given for the reduction in urban crime rates is the increased focus cities have placed on community policing. More communities in southern Indiana are adapting this technique to fit our needs, and I am hopeful we can achieve a similar reduction in crime. For example, many officers meet regularly with local business and neighborhood organizations, patrol public places on foot and on bicycle, and run drug education programs in our local schools.

Our law enforcement officers are often overwhelmed, however, by increases in violent crime. In 1960, there were about 3 police officers for every violent crime in America. By 1993, that number was reversed: 3 violent crimes per police officer. More officers are clearly needed. I am pleased that the federal COPS program has provided funding for more than 70 new officers in southern Indiana, all paid for by reductions in the federal workforce. These officers are an important addition to the work of all Ninth District law enforcement, and we must continue our efforts to provide more police.

PROSECUTORS

Even the best police work will fall short without tough follow-up by prosecutors. My sense is that too little attention has been paid to the problems facing prosecutors. Anyone who watched the O.J. Simpson trial knows how difficult it is to prove a criminal case. Congress should help give prosecutors more tools and more resources, similar to the way it has assisted local police departments. At the county level, prosecutors and judges are so burdened with growing case-loads, it is difficult to prosecute minor offenses. The U.S. Attorney's office has too few resources to meet the demands placed on it, which means that less serious offenses get reduced sentences or plea bargains. Criminals who commit minor offenses are more likely to commit major offenses later. It is short-sighted to let them get off the hook.

PRISONS

With my support, Congress has passed a number of measures in recent years to increase funding for state and federal prisons. These were also paid for by reducing the federal workplace. I supported measures to encourage states to enact "truth-in-sentencing" laws that require prisoners to serve at least 85% of their sentences. At the federal level, tough provisions like the "three strikes and you're out" provision in 1994 anti-crime legislation mean that repeat violent felons will be kept off the streets.

For example, last year a New Albany man was sentenced to almost 30 years in prison for repeated felonies with a firearm. Although he had been arrested more than 30 times on charges of rape, sexual battery, trespassing, and other offenses, the state legislature provided only a three-year maximum sentence for his 1994 armed robbery. Because of the tough new federal sentences, however, this repeat criminal received a sen-

tence ten times harsher than under state law.

As crime rates and sentences increase, prisons are becoming more crowded. Indiana prisons are 14% overcrowded today, and county jails face a similar situation. Without enough jail cells, courts are forced to reduce sentences or release prisoners early. In addition to building more prisons, one solution is to reduce recidivism, the rate ex-convicts return to crime. The primary purpose of prison must be to prevent them from committing crimes again. Many correctional facilities have begun to require more work from inmates, as well as drug treatment and literacy training. Congress has provided funds to create youth boot camps, which impose discipline and order on younger inmates. These are the inmates who are most likely to be corrupted by older, more seasoned criminals in traditional prisons, and the ones who will benefit most from tough training.

PREVENTION

We must also address the root causes of crime by providing strong alternatives to broken families, as well as opportunities for young people to pursue normal, law abiding lives. It is important to focus on our young people before they turn to criminal activity. I am particularly concerned that more of our young people are turning to illegal drugs. We must act now to ensure that this group is not lost to the cycle of drugs and violent crime. There are a number of outstanding community groups in southern Indiana, often working with churches, that run youth centers, drug treatment, job training, and counseling. These groups deserve our strong support. Parents, schools, churches, community groups, and public officials must do everything in their power to ensure that our children become productive, law-abiding citizens.

There is no single answer to fighting crime. It is a complex problem, with no easy solutions. Police, prosecution, prisons, and prevention are all critical components of an effective anti-crime strategy. Congress' role must be to facilitate the work of state and local governments to protect all our citizens from crime.

TOM BIGLER HONORED

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. KANJORSKI. Mr. Speaker, in 1993, I stood before my colleagues in the House of Representatives to bring to your attention the accomplishments of a good friend and community leader, Mr. Tom Bigler. I am pleased to once again join in a community salute to Tom as he is honored by the Ethics Institute of Northeast Pennsylvania.

Mr. Speaker, Tom Bigler spent much of his life as a broadcast journalist. His editorial commentary during his 20 years at WBRE-TV became legendary and he set the standard for local news broadcasting which is still practiced today.

Today Tom teaches journalism and communications at Wilkes University and continues his dedication to the community through his volunteer service. This month Tom will assume the presidency of the Board of Directors of the Family Service Association of the Wyoming Valley.

His affiliation with the Wilkes-Barre Chamber of Commerce, The Osterhout Library,

Leadership Wilkes-Barre and of course the Ethics Institute have kept Tom on the forefront of local issues and policymaking.

For several years, Tom has brought his keen insight on current events to print as a columnist for the Times Leader.

Mr. Speaker, I am pleased to once again have the opportunity to bring the many accomplishments of this distinguished community leader, Mr. Tom Bigler to the attention of my colleagues. I applaud the choice of the Ethics Institute for selecting him as this year's honoree. I join with his many friends, family and the community in thanking Tom for his years of service and dedication to the community of northeastern Pennsylvania.

TRIBUTE TO BONITA HOUSE OF BERKELEY, CA

HON. RONALD V. DELLUMS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. DELLUMS. Mr. Speaker, I rise today to pay tribute to the accomplishments of Bonita House of Berkeley, CA, on the occasion of their 25th anniversary of service to the community. Bonita House has provided extremely important services to our community and provided valuable assistance to thousands of Bay Area residents who struggle with mental disabilities and substance abuse problems, allowing them to regain their independence and become productive members of society.

Bonita House was the first psychiatric residential treatment facility in Alameda County. In 1971, Bonita House opened the Berkeley Creative Living Center which was the first living center of its kind. This center has been instrumental in supporting people living with mental disabilities to achieve relatively autonomous and independent lives. It also opened the doors to the Junkman's Palace Cafe. Junkman's Palace Cafe illustrates one of many creative and innovative treatment methods implemented by Bonita House. The cafe has been a productive source for alternative vocational training and rehabilitation.

In 1982, Bonita House was given a HUD grant to open a living facility for adults with mental disabilities.

In 1991, Bonita House implemented a treatment strategy to deal with the dual issues of substance abuse and mental health problems.

The expansion of programs, the establishment of subsidiary agencies, and the implementation of integrated treatment services, are testimony to Bonita House's commitment to our community. It is with these attributes in mind that it gives me great honor to recognize Bonita House on their 25 years of distinguished service.

CLARION COUNTY, PA:
COMMUNITY OF THE YEAR

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. CLINGER. Mr. Speaker, all eyes in the Commonwealth of Pennsylvania—and increasingly throughout the Nation—are fixed admiringly on Clarion County.

I have the pleasure to report that Clarion County, in the Fifth Congressional District, is the selection for the prestigious Community of the Year honor by the Pennsylvania State Chamber of Business and Industry. And this distinction follows on the heels of the Clarion River's selection for tribute during Pennsylvania's River Month last June.

On what grounds, Mr. Speaker, is Clarion County sweeping all honors this year? I have a hunch, and I will share it with you. But I maintain that the best way for you and our colleagues to understand is for each of you to visit for yourselves.

That's because Clarion County is nothing short of a stunning natural treasure. And, importantly, those who call it home recognize its wonders and true value. They share a very real commitment to serve as its stewards not only for today but for all future generations.

And it's paying off. Their dedication to preserving the beauty of northwest Pennsylvania has contributed to the region's flourishing reputation as a tourist's haven. The dividends, cautiously earned, will continue to be paid through the years.

I am especially pleased, Mr. Speaker, to share this honor with my colleagues in the House today. Just hours ago, the Resources Committee reported legislation to designate 51.7 miles of the Clarion River as part of the National Wild and Scenic River System. This legislation is really the product of 4½ years of impassioned public effort, and I ask for the support of the House to enact it in the waning days of the 104th Congress.

Thank you, Mr. Speaker, for this opportunity to offer my most sincere congratulations to the people of Clarion County, PA.

HEALTH CARE FOR KIDS

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. STARK. Mr. Speaker, I am introducing today a bill to require insurers to offer health insurance policies for kids, coupled with a sliding scale 80 percent refundable tax credit to help families buy such insurance policies.

There are 10 million children in the United States without health insurance. Health insurance equals access to health care. Access to health care equals better health and a better quality of life. It is that simple. As a recent article in the *Journal of the American Medical Association* (JAMA, August 14, 1996, p. 477) so well said:

... access to health care is dramatically increased if one has health insurance, and this increased access has in turn been shown to improve outcomes, such as whether one lives or dies. The most significant action within the health system that we can take to preserve health and improve longevity is to provide health insurance to everyone.

The bill I am introducing is about the life and death—and lifetime productivity—of our Nation's children.

This bill is not a mandate; it does not require any individual to buy health insurance. It does, however, make sure that there is widespread competition in the offering of these health insurance policies and it does help families, even very low income families, buy a policy of their choice.

Health insurance for children in America is getting worse—not better. With the cuts in Medicaid, it may get disastrously worse. We desperately need to reverse the trend of rising uninsured rates for children. The General Accounting Office recently issued report to Senator CHRISTOPHER DODD, dated June 17, 1996, entitled "Health Insurance for Children: Private Insurance Coverage Continues to Deteriorate" (GAO/HEHS-96-129). The report states:

The number of children without health insurance coverage was greater in 1994 than at any time in the last 8 years. In 1994, the percentage of children under 18 years old without any health insurance coverage reached its highest level since 1987—14.2 percent or 10 million children who were uninsured. In addition, the percentage of children with private coverage has decreased every year since 1987, and in 1994 reached its lowest level in the past 8 years—65.6 percent.

To repeat, health insurance can mean the difference between life and death—and between a good quality life and a stunted life. The GAO's report I have just cited provides a concise summary of why the lack of insurance is so important:

Studies have shown that uninsured children are less likely than insured children to get needed health and preventive care. The lack of such care can adversely affect children's health status throughout their lives. Without health insurance, many families face difficulties getting preventive and basic care for their children. Children without health insurance or with gaps in coverage are less likely to have routine doctor visits or have a regular source of medical care. They are also less likely to get care for injuries, see a physician if chronically ill, or get dental care. They are less likely to be appropriately immunized to prevent childhood illness—which is considered by health experts to be one of the most basic elements of preventive care.

My bill is a small, incremental step forward. If it is by no means everything I would like. If I could waive a magic wand, I would make sure that everyone in America had high quality health insurance tomorrow morning. That is not going to happen—but this small step, starting with children, could help millions of children grow up to be healthier, more productive citizens. Like my amendment which started the COBRA Health Continuation Program which has been used by 40 million Americans, this bill could make a world of difference to millions of Americans in the years ahead.

Under the bill, insurance companies would be subject to a tax penalty if they did not offer for sale—so-called guaranteed issue—a policy which provided a Medicare-type package of health benefits, with additions designed for well-baby and well-child care and with a 10 percent—but no more than \$10 per Part B service—rather than Medicare's 20 percent copay. By requiring insurers to offer such a benefit package, consumers will be able to shop widely for a policy they can afford. The competition in this sector should help make affordable policies available.

The key problem is to make this policy affordable to the families of the 10 million uninsured. The basic reason so many children are uninsured is that they are in working families which are not eligible for Medicaid, but the families do not have health insurance offered through the workplace and cannot afford the \$500 to \$700 per child these policies will prob-

ably cost. Therefore, I propose a refundable tax credit to make the policies affordable. The tax credit/payment will be phased out at the rate of 50 cents per dollar of tax liability of the purchaser.

In the past, refundable tax credits have had integrity problems. I propose to avoid this abuse of the program by requiring that the taxpayer submit a 1099 type form with their tax form, in which the insurance company will certify that a tax-qualified kid's insurance policy has been purchased. The companies will, of course, also submit this documentation directly to the IRS so that a data match can be performed before refunds are issued.

I do not spell out how the 80 percent credit is to be financed, but the money can be found as part of a future reconciliation bill. If additional funds can be found, the credit percentage can be phased out more slowly to help additional families.

To repeat, the bill is not a mandate, but a chance for parents to have affordable private health insurance for their children. It uses the private market exclusively. It is a first step and as additional moneys become available, we can add a maternity and prenatal benefit for mothers-to-be and a slower phaseout of the credit.

I welcome cosponsors of the bill, and comments and suggestions from the public on ways to improve the bill and to help finance the proposal. I am introducing the bill late in this Congress so that the public can review the bill before the start of the 105th Congress and suggest changes and improvements before its reintroduction in the next Congress.

TRIBUTE TO ST. MARK CATHOLIC CHURCH

HON. PETER J. VISCLOSKEY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. VISCLOSKEY. Mr. Speaker, I rise to congratulate St. Mark Catholic Church, its pastor, the Reverend Robert P. Gehring, and the 421 parish families, on the celebration of St. Mark's 75th anniversary. On September 22, 1996, St. Mark Church, located in Gary IN, will hold a grand banquet at the Hellenic Cultural Center in Merrillville, IN, to proclaim its celebration theme, "Continuing the Mission of Christ." This banquet will be preceded by a jubilee Mass at St. Mark Church celebrated by Bishop Dale J. Melczek.

I would also like to congratulate the current Pastoral Council, which include Maria Azcona, Richard Burgess, Joan Bynum, Pat Corgan, Jesse Covarrubias, Alma Erris, Maria Gutierrez, Marcia Mizen, Roni Opong-Duah, Natalie Ousley, Felicia Flowers Smith, and Carl Terlicher. In 1994, this council, which serves as an advisory body to assist the pastor in decisions concerning the operations of St. Mark Church, replaced the former parish council.

Early in this century, traveling missionaries ministered to the needs of Catholics in the northwest Indiana area, and small parishes were formed in scattered villages and towns to aid the missionaries in their work. However, there was a strong need to establish a permanent parish. Without waiting for church authorities to ease a critical situation, a group of laymen collaborated to begin a Catholic parish in

Glen Park, IN. Members of that group included: J.J. Kelley, Thomas F. Kennedy, Maurice Cox, John B. Rockford, and John P. Churchill. These men purchased a building from the German Evangelical Church of North America on May 19, 1921, and they moved the building from 20th and Grant Street to a site at 39th and Broadway.

In August of that same year, Father John B. DeVille, an assistant at Holy Angels Parish, told the committee and Bishop Herman J. Alerding that he would accept the responsibility of ministering to the spiritual needs of the fledgling St. Mark Parish. Father DeVille celebrated Mass regularly in the church on Broadway, and he taught religious education classes to children.

On February 4, 1922, the first marriage at St. Mark Church took place between Carlo Terlicher and Aurelia Chiabai. Aurelia Terlicher, who is 92 years old this month, is still a member of the St. Mark Parish family. Albert Antonio Sgambelluri was the first to be baptized at St. Mark on October 2, 1921.

It wasn't until June 17, 1923, that Bishop Herman J. Alerding appointed Father Joseph Ryder as the first pastor of St. Mark Church. Within 5 years of its inception, the rapidly growing St. Mark Parish needed newer and larger facilities. As a result, construction of the combination church, school, and convent began in July, 1926, on the selected site at 501 West Ridge Road. The Right Reverend John Francis Noll presided over the dedication ceremony of the new facility in July, 1927.

At first, Sisters of the Poor Handmaids of Jesus Christ gave their time and service to the schoolchildren of St. Mark. However, after the school building was completed, Father Ryder secured the services of the Dominican Sisters and they assumed the role of faculty at the school and resided in the convent on Ridge Road. The Sisters of the Poor Handmaids of Jesus Christ eventually replaced the Dominican Sisters in September 1931. In June 1986, the Sisters reluctantly announced the end of their ministry at the school. A new principal, Ms. Muriel Lennstrum, was hired along with several other lay teachers.

In April, 1951, a new school building was completed to accommodate the evergrowing enrollment of schoolchildren. In the early years of the parish, St. Mark School originated from religious education classes. As St. Mark celebrates its 75th anniversary, Ms. Maria Vazquez serves as principal of St. Mark School, which boasts an enrollment of 149 pupils enrolled in the grade school. Clare Coppinger and Dorothy Pictor have organized an alumni association with over 1,000 members from the classes of 1932–1957.

Mr. Speaker, I ask you and my other distinguished colleagues to join me in congratulating the current pastor, the Reverend Robert P. Gehring, and the 421 parish families of St. Mark as they celebrate the church's 75th Anniversary. St. Mark is a multiethnic and multicultural parish known for its caring and welcoming of all people. May they continue to celebrate for many years to come.

POW-MIA RECOGNITION DAY

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. GILMAN. Mr. Speaker, I rise today to remind my colleagues of the importance of National POW–MIA Recognition Day on September 20, 1996. I urge my colleagues to participate in recognizing America's heroes, those who are presumed missing in action.

Our Nation has fought six major conflicts in its history. In those wars, over 500,000 Americans have been taken prisoner of war. Those servicemen and women experienced numerous hardships and treatment which could often be described only as barbaric during the course of captivity. Those Americans imprisoned by the Japanese during World War II faced the worst possible conditions in captivity and were firsthand witnesses to the utter depravity of their fellowmen.

I have been a strong advocate of an accounting of our POW–MIA's since I first came to the Congress in 1973. I proudly supported the creation of the Select Committee on Missing Persons in Southeast Asia, the National POW–MIA Recognition days, and POW–MIA legislation because I believe the families of those who are missing in action deserve no less. Hopefully 1996 will be the last year that such an occasion will be necessary. My hope is that by this time next year, our Government will have obtained a full accounting of those brave American's whose fates, at this time, are still unknown.

Permit me to focus special recognition on those POW–MIA's from Korea and Vietnam. Despite the administration's best assurances to the contrary, many of us remain unconvinced that the Governments of North Korea and Vietnam have been fully cooperating with the United States on this issue. Regrettably, by normalizing relations with Vietnam, I believe that we have withdrawn our leverage over the Vietnamese government on this issue.

On September 18, 1996, the Washington Times ran a front page story about the latest POW–MIA hearing held by Chairman DORNAN's Subcommittee on Military Personnel. This hearing, on September 17, 1996, consisted of several key witnesses, including a former aide to President Eisenhower, and a high ranking Czech defector who was a member of Czechoslovakia's Defense Ministry.

The defector, former Gen. Jan Sejna, testified that Soviet and Czech military doctors performed ghastly medical experiments on U.S. POW's in North Korea during the Korean war. Those experiments were used to test the psychological endurance of American GI's, as well as their resistance to chemical, biological, and radioactive agents. Moreover, Mr. Sejna also stated that he helped organize shipments of POW's to the U.S.S.R. during the Vietnam war, and that at least 200 were sent there between 1961 and 1968.

Hopefully this information will lead to a further investigation regarding the safe return of any living POW's who may still be in captivity in Korea or elsewhere.

Americans should always bear in mind the love of country that America's veterans have shown as well as their personal sacrifices, courage, convictions, and dedication to freedom that these individuals have exhibited.

Veterans Affairs Committee Chairman BOB STUMP recently quoted a portion of President Abraham Lincoln's letter to a mother who lost five sons on the battlefield: "I cannot refrain from tendering to you the thanks of the Republic they died to save. I pray that our heavenly Father may assuage the anguish of your bereavement, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.

May it be of some solace to the families and loved ones of our missing and POW's that there are many of us in the Congress committed to a full and final accounting of our missing.

A GREAT AMERICAN RETIRES AFTER 40 YEARS OF SERVICE

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. SOLOMON. Mr. Speaker, today our Nation salutes the career of a distinguished Naval officer, Adm. Bruce DeMars, who will retire from the Navy this fall after more than 40 years of dedicated service to our country. For the last 8 years, Admiral DeMars held the position of Director, Naval Nuclear Propulsion Program, and faced the task of strengthening the capability and quality of our Nation's nuclear powered warships despite ever-tightening budget constraints in the post-cold war era.

Admiral DeMars was appointed Director, Naval Nuclear Propulsion Program after compiling an impressive record of accomplishments, including tours as the Commanding Officer, U.S.S. *Cavalla* (SSN 684), Commander, U.S. Naval Forces Marianas/U.S. Naval Base Guam, and as Deputy Chief of Naval Operations for Submarine Warfare. At the time of his appointment, the Navy had plans for substantial nuclear powered warship construction—the product of a continuing Soviet threat. The sudden and dramatic collapse of the Soviet Union during the next few years called for a comprehensive review of our defense requirements. The *Seawolf* attack submarine program was terminated, and Admiral DeMars faced the difficult challenge of adjusting to drastically changing defense requirements while maintaining the program's long established reputation for technical excellence and uncompromising safety. The program's reputation had been established by Adm. Hyman G. Rickover, the program's founder, and later commended by President Reagan as recognized worldwide for excellence in all phases of its work.

Admiral DeMars met this challenge headon, continuing the superb performance, safety, and environmental record of nuclear powered warships. Our nuclear powered warships benefit from acceptance in foreign ports worldwide, which reflects the emphasis placed on safety—not only for the sailors who must work and live on these warships, but for preserving the environment which affects all of us. Over the past 8 years, these warships safely steamed over 40 million miles, and over 20,000 sailors and officers were trained to operate their nuclear propulsion plants. In 1994, nuclear powered warships reached the significant milestone of over 100 million miles safely

steamed since the program's inception. In recognition of this event, the President wrote " * * * The Naval Nuclear Propulsion Program, with its high standards and efficiency, exemplifies the level of excellence we are working toward throughout our government." Congress highlighted this remarkable achievement in the conference report accompanying the fiscal year 1995 National Defense Authorization Act.

Admiral DeMars effectively managed fleet downsizing while facilitating force modernization initiatives. He oversaw the successful construction and delivery to the fleet of 35 nuclear powered warships, while directing the overhaul, refueling, or decommissioning of 98 ships. Of particular note, he sought to attain long-term cost savings by reducing the size of the Naval nuclear industrial base. In the wake of a sharply reduced rate of ship building, he made the necessary adjustment of going from multiple suppliers to, in most cases, one—a change crucial to achieving an economic defense while still fostering a viable industrial base in this highly specialized area.

Admiral DeMars completed development of the nuclear propulsion plant for the revolutionary *Seawolf* attack submarine class, which recently completed initial sea trials with exceptional success. The *Seawolf* will be the fastest, quietest, and most heavily armed submarine in the world. While concluding development of *Seawolf*, he initiated development of a new attack submarine class to capture the militarily significant *Seawolf* advances in a more affordable ship.

For five decades the use of nuclear energy as a means of propulsion in warships has been pivotal to our national security. Since the world's first true submersible, the *Nautilus*, broadcast her historic message "Underway on nuclear power.", nuclear powered warships have been a valuable asset in projecting U.S. naval dominance worldwide. Today, our submarines are deployed around the globe, and our nuclear powered aircraft carriers have answered the call to provide essential military assistance worldwide in regions such as the Persian Gulf, Bosnia, and the Straits of Taiwan. The Naval Nuclear Propulsion Program developed and implemented nuclear propulsion technology, and its continuing success has hinged on the exceptional leadership demonstrated by its director.

Mr. Speaker, Admiral DeMars' contributions to his Nation and his commitment to providing the best possible national defense demonstrate a record of excellence to which all military leaders should aspire. In a period of drastic change, he took tremendous strides in restructuring our Navy to help enable continued military superiority well into the next century. We thank him for a job masterfully done.

TRIBUTE TO THE DE ANZA
HISTORIC TRAIL

HON. BILL BAKER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. BAKER of California. Mr. Speaker, the Juan Bautista De Anza National Historic Trail was a major link between my home State of California and Mexico. That's why, on October 12, a relay will begin over the trail's historical route starting in Hermosillo, Sonora, Mexico.

The De Anza Trail was designated as a historic trail in legislation passed almost unanimously in Congress and signed into law by August 15, 1990. The October 12 event is being organized and administered by Heritage Trails Fund, a non-profit organization headquartered in my district. Heritage Trails acts in concert with the National Park Service.

A host of volunteers in California, Arizona, and Mexico, coordinated by committees in some 20 United States and Mexican counties, have organized this memorable event, and they deserve great credit for their efforts.

The significance of the De Anza Trail is rooted in the late 18th century. In 1775–76, Colonel Juan Bautista de Anza led 240 colonists from Mexico to what is now San Francisco. They began a mission and built the Presidio, securing California for Mexico and preventing Russian and British advances in northern California. The rest, of course, is history, and the De Anza Trail was history's pathway.

Several people involved in this wonderful effort deserve specific recognition. George Cardinet, president of the Heritage Trails Fund, and Nancy DuPont, executive director of the fund, have done remarkable work in putting the event together. Arizona's Don Garate of the Tumacacori National Historic Park, Hermosillo's Senor Enrique Salgado of Cablagata de Kino fame, Dr. Juan Ignacio Rodriguez of Mexico City, chairman of the Anza Committee of Mexico, all deserve our thanks for their superb efforts. Rudy Col, director of the port of entry in Nogales also deserves our thanks for his work in coordinating a gala entry of the relay at the U.S. border.

The relay will carry this message from the CONGRESSIONAL RECORD, greetings to the mayor of San Francisco from officials in Mexico, as well as flasks of water from the Sonoran River to be poured into the waters of the Golden Gate at Fort Point, the site of Anza and Moraga's Castillo San Joaquin.

This is a signal international event, a sturdy link in the strong chain of United States-Mexican relations, and I trust that my colleagues will join me in wishing all who participate in it the very best as they celebrate this historic venture.

TRIBUTE TO THE REVEREND DR.
CARLYLE F. STEWART

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. LEVIN. Mr. Speaker, I rise today to honor Rev. Carlyle F. Stewart III, who has provided many years of dedicated service to the Detroit metropolitan community.

Dr. Stewart has been the pastor of Hope United Methodist Church in Southfield, MI for the past 13 years. He is a leader who reaches out to the community offering spiritual guidance and enrichment. He listens to people. He leads.

Dr. Stewart is the cofounder of the Detroit Black United Methodist Youth Scholarship Committee which has awarded over \$60,000 in scholarships to black United Methodist youths in the Detroit area. In addition, Dr. Stewart is the founder of the National African-American Youth Assistance Leadership Institute, Citizens Against Violence, and the South-

field Education Action Committee. Currently, Dr. Stewart is actively involved in the Boys to Men mentoring program for African-American males and the Banded Project of the Spaulding Institute which finds homes for African-American children. This list of Dr. Stewart's accomplishments represents only the tip of the iceberg concerning his many initiatives dedicated to improving peoples' lives.

Under the leadership of Dr. Stewart, it is no surprise that the congregation at Hope United Methodist Church has been growing dramatically. I have been privileged to know Dr. Stewart over the years and to participate in a variety of activities in his church.

Mr. Speaker, on Saturday, September 21, Reverend Stewart will be honored in the city of Southfield. There will be a theatrical performance based on Dr. Stewart's book, "Street Corner Theology: Indigenous Reflections on the Reality of God in the African-American Experience." Many officials and other dignitaries will gather to recognize Dr. Carlyle Stewart's numerous accomplishments over the years. I would like to extend my sincere appreciation to Rev. Carlyle F. Stewart III, for his outstanding service to our community.

TRIBUTE TO WAYNE DOEDE

HON. JERRY WELLER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. WELLER. Mr. Speaker, today I'd like to congratulate Wayne Doede as the New Lenox Chamber of Commerce's 1996 Citizen of the Year.

Mr. Doede is a long-time resident and small business owner in New Lenox whose contributions to the community have been greatly appreciated by the residents.

As the owner of Doede Nursery & Garden Center, Mr. Doede has been very active with the Chamber of Commerce. He has chaired the Chamber's Old Fashioned Christmas Tree Decorating event for 14 years, and has served on the Economic Development Committee, Retail Committee Chairman, Citizens of the Year Decorating Committee and has chaired the Candidates Forum for 10 years.

As a well-respected member of the community, Mr. Doede has also been named the "Rookie of the Year" 1981–1982 for the Lions Club, he was chairman of the United Methodist Men for 12 years and been active in the church's youth group organizing several events.

Mr. Doede and his wife Donna have been married for 30 years and have three children.

Many of his friends describe Wayne as hard-working, a person with a vision and a good person who is fun to be around. However, it is his commitment to family, church, and community earns him the Chamber's Citizen of the Year award.

Congratulations Wayne on this wonderful award. You are deserving and I thank you for your dedication and devotion to your community, neighbors, friends and family.

PERSONAL EXPLANATION

HON. RICHARD BURR

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. BURR. Mr. Speaker, on rollcall vote No. 261 I inadvertently voted "aye" when I meant to vote "nay".

GORDON "GORDY" WILLIAMS SAN DIEGO'S NATIVE SON LABOR HERO

HON. BOB FILNER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. FILNER. Mr. Speaker, I rise today to recognize Gordon "Gordy" Williams, the San Diego County Building & Construction Trades Council's 1996 Retired Labor Leader of the Year.

Gordy Williams, a native of San Diego County, was raised in the great South Bay community of National City. He joined Painters' Union Local 333 at the age of 18. Four years later he was elected to the executive board of his union, where he became its business representative nearly 25-years ago.

Gordy Williams' enormously productive tenure in local 333 caught the attention of the International Brotherhood of Painters and Allied Trades, which soon made him a general representative for the International Union. Gordy also served as delegate to the Building Trades Council for many years, including a term as its president. He also served as an officer of the San Diego-Imperial Counties Labor Council, as well as the California State Council of Painters.

But Gordy Williams did not stop there. He found the time and energy to serve the community at large—including the board of directors of National City Parks Apartments, a low-income housing complex owned and operated by the San Diego Building & Construction Trades Corporation; the California Regional Coastal Commission; and as a trustee of the San Diego Leukemia Society. He also found the time to be the master chef at the Building Trades Holiday Bowl tailgate parties and the Letter Carriers' Annual Food Drive. And, he has done all this despite health problems which he has faced with great courage.

Mr. Speaker, Gordy Williams is a great man, and a true friend. I join his building and construction trades brothers and sisters in San Diego and around the country in thanking him for his dedication and great spirit, and in wishing him the very best in his retirement.

TRIBUTE TO RABBI MICHAEL EHRLICH

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. ACKERMAN. Mr. Speaker, I rise today to join with my constituents and the members of the Oakland Jewish Center as they honor their Rabbi, an outstanding leader, Michael Ehrlich.

For more than a quarter of a century Rabbi Ehrlich has served the community in a variety of effective positions that included youth leader, teacher, principal, and Rabbi. Imbued at home at an early age with a strong responsibility to serve both individuals and the community, Rabbi Ehrlich received his formal preparation at the Ramaz School and went on to study in a joint program at Columbia University and the Jewish Theological Seminary of America. He was ordained in 1968.

Before coming to the Oakland Jewish Center, Rabbi Ehrlich served at the Conservative Synagogue on Fifth Avenue and as a teacher and principal at the Jewish Center of Bayside Hills. He has been involved in religious and secular training since 1964 and recently retired from the New York City school system after more than a quarter-century of dedicated service.

Rabbi Ehrlich has these many years emerged as a distinguished spiritual leader, an educator and community servant. In all his endeavors he has demonstrated a unique ability to bring people of all beliefs together into a common bond to create that which is both beneficial, supportive and comforting to our community. The tribute from his congregation is a tribute to us all.

Mr. Speaker, I ask that you join with me and my colleagues, and rise in honor of this man, who has meant so much to his community, Rabbi Michael Ehrlich.

A TRIBUTE TO AMERICAN LEGION POST 91 FOR 75 YEARS OF SERVICE

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. SOLOMON. Mr. Speaker, as a lifetime member of the American Legion myself, it is with great pride that I commemorate the Frederick L. Clark American Legion Post 91 of Mechanicville, NY, in my congressional district. And it is with great humility that I stand here today and try and do justice to all the tremendous service and good this post has done for veterans and their families, as well as the entire community over the past 75 years.

This past year, I had the tremendous good fortune of addressing both the New York State and the National American Legion Convention where I was awarded with the American Legion's Distinguished Public Service Award. Mr. Speaker, it occurred to me that among all the things I've done in this Congress, I literally cherish above all else the time I've spent working alongside the American Legion. Together we've achieved so much on behalf of flag and country.

But Mr. Speaker, those achievements are what makes the men and women of American Legion posts like No. 91 in Mechanicville the true heroes. Not only have they served their country in uniform, but they have served America and their fellow veterans as members of the Legion. A group that is always in the forefront of efforts to develop and maintain adequate veterans benefits and programs.

And as if that wasn't enough, there are the tremendous programs and activities the members of post 91 run on behalf of their community. I'm talking about things like scholarships

and teams they sponsor for the youth in Mechanicville as well as community wide events.

Because of efforts like these, their promotion of pride, patriotism and good citizenship goes unparalleled. And that's why I can't wait to renew the fight for a constitutional amendment to protect Old Glory alongside my fellow Legionnaires from post 91 in Mechanicville, NY.

Mr. Speaker, protecting our flag, watching out for fellow veterans and ensuring a strong national defense may seem like a large and daunting agenda to some. But that's not half of what post 91 in Mechanicville has done. It's hard to even imagine all they have accomplished over the course of 75 years of service. But I know there's no limit to what they can accomplish. That's because this post is made up of patriotic Americans who have served their country and earned the right to call themselves veterans of the U.S. Armed Forces and proud members of the American Legion.

At this time, Mr. Speaker, I ask that you and all Members join me in paying tribute to all the members of Mechanicville Legion Post 91 for their tireless and selfless devotion to America and their community.

"THE EXPORT PROGRAMS EXTENSION ACT OF 1996"

HON. TOBY ROTH

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. ROTH. Mr. Speaker, today I have introduced the Export Programs Extension Act of 1996. This legislation provides for a 1-year reauthorization of three vitally important export agencies: the Overseas Private Investment Corporation [OPIC], the U.S. Trade and Development Agency [TDA], and the export programs of the International Trade Administration [ITA], principally the U.S. and Foreign Commercial Service.

Each of these agencies generates increased exports by American companies, creating new jobs for American workers. During its 25 year history, OPIC's investment guarantees and insurance have supported \$43 billion in exports, translating into 200,000 American jobs. In its 10 years of operation, TDA has supported \$7 billion in U.S. exports, resulting in nearly 140,000 jobs for U.S. workers. ITA facilitates \$5 billion in U.S. exports annually, which result in 100,000 new jobs every year.

This bill provides a simple extension of authority for these three agencies for 1 year, at levels consistent with the anticipated appropriations levels and the administration's budget request for fiscal year 1997.

The bill further provides that the statutory ceilings on OPIC's investment guaranties and insurance liabilities would be combined into a single overall ceiling on both activities. By making this change in law, the ceiling on OPIC's overall contingent liability is kept at current levels for the upcoming year, while giving OPIC flexibility to meet the demand by U.S. exporters for their assistance to American companies.

In my view, the provisions of this bill represent a workable legislative compromise for the upcoming fiscal year and I recommend to my colleagues that these provisions form the

basis for reauthorizing those important programs before the Congress adjourns for the year.

TRIBUTE TO LEROY PATTERSON

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Ms. JACKSON-LEE of Texas. Mr. Speaker, I want to pay tribute to a good friend of mine, Leroy Patterson, who recently succumbed to cancer. After being on Houston radio for more than 21 years, Leroy was aptly introduced for his show as one of the world's most respected news people. He brought a broad range of programming to Houston's airways with his shows "Community Hot-line," "On the Front-line," "Wake-up Call Black America," and "Sports Time-out." He is not out of the talk-show host mold of today's hate radio. His daily shows reflected his own self-respect and competence. Careful preparation, thoughtfulness and totally objective demeanor on-air were the hallmarks of his work. Constructive community spirit is the lasting imprint that his work left on the entire city of Houston.

His roots grew strongly from his humble beginnings in Marshall, TX, where his parents instilled his positive attitude, wholesome character, and his desire to succeed. He was educated at H.B. Pemberton High School and Tennessee State University. He served in the Air Force and the Air Force Reserve and worked at the U.S. Post Office for a time.

In 1975, he started his work in communication and began broadcasting over the Houston airways. He was the news director and program director at KYOK-AM radio. At KYOK, he started a number of Afro-centric programs, including the "Community Hot Line" talk show. His interests conveyed his own broad spectrum of coverage involving politics, human interest, education, and sports.

In 1980, he joined the KMJQ-FM Majic 102 radio team. After being a member of the team for only a year, he was promoted to news and community affairs director. He found a home at Majic 102 and stayed there for 16 years. In June 1996, because of his health, he took a medical leave of absence and then retired.

After surviving prostate cancer surgery and participating in the million man march, he went through a period of introspection and decided to take an African name—Ambakisyee Jabari. Ambakisyee is a Tanzanian name that means, "God has been merciful to me." Jabari is a Swahili name that means brave. He felt that changing his name was necessary to alleviate my legal of consciousness to a higher plane and to set my spirit free. Indeed, his spirit is free and his consciousness is on a higher level. The comforting sound of his voice and his wonderful soul will be missed by everyone he touched.

His years of radio service to the Houston community earned him many public service awards. Among his awards and recognitions of his accomplishments are the "Kid-Care Family Service Award for helping to change the lives of children throughout the Houston area; West Houston Outreach and Family Counseling Center Award for his outstanding and dedicated community service; Shape Center Greater Houston Educational Task Force

Award for the enhancement of education in the African-American community, the Black United Fund of Houston, Texas; American Cancer Society Award for starting the hotline for prostate cancer; Thurgood Marshall Law School Award; Over-The-Hill, Inc. Award as a person reform advocate; Black Data Processing Award for sponsoring the Houston High School Computer Team Competition; City Wide Club Award for exceptional community service, and many others too numerous to name.

His commitment to public service outside of his broadcasting duties was also widely known. He was a frequent worker and contributor to the Houston chapter of the NAACP as well as the Mount Olive Baptist Church, the South Post Oak Baptist Church, the Gethsemane Missionary Baptist Church, the Houston Community Anti-Drug Coalition, and the National Black United Front, amongst others.

Ambakisyee Jabari is survived by his loving wife, Allie, and their four children: Lisa C. Milton, Cessandra J. Johnson, Ronie L. Johnson, and Kenneth R. Johnson.

WELFARE BILL SIGNALS
REVOLUTION

HON. NEWT GINGRICH

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. GINGRICH. Mr. Speaker, I want to encourage my colleagues to read the following column by Dick Williams from the Atlanta Journal Constitution. Welfare reform must be implemented if our country is going to continue to prosper. The welfare reform bill which was recently signed into law is an historical achievement that encourages personal responsibility, imposes work requirements and time limits, ends welfare for noncitizens and felons, and moves power and responsibility back to the States and communities. Local solutions to local problems are more effective than wasteful and inefficient Federal bureaucracies. As Dick Williams points out, the welfare system is destroying the Nation by warping the behavior of millions. It must change and that change is better managed by the governments closest to the people:

WELFARE BILL SIGNALS REVOLUTION
(By Dick Williams)

History was made this week, the sort that will go in the textbooks. President Clinton's decision to spit in the face of his party's history and sign the Republican welfare reform bill means the beginning of the welfare state's going out-of-business sale.

It also answers a question first raised two years ago when Newt Gingrich and his Republicans won control of the people's House. Was it to be a revolution? Or was it simply a modest counterrevolution—one that would trim Democratic excesses?

The answer is revolution.

After Reconstruction, Jim Crow and the ascendancy of the nondemocratic elites in Washington, Congress has decided to trust the states to care for the poor, just as the Founding Fathers intended.

Three times Congress, with substantial Democratic support, tried to end welfare as we know it. Twice Clinton refused.

But this president, we know now, will stop at nothing to be reelected. Being re-elected was far more important than party principle,

the so-called 60-year-old guarantees to the poor (with an outcome the New Deal neither envisioned nor would have countenanced).

As we in Atlanta emerge from the emotional peaks and valleys of the Olympics, the welfare picture will begin to emerge. The cynicism of Clinton and his spouse, the former head of the Children's Defense Fund, will be ever more apparent.

The Clintons know we are a conservative nation. They know candidate Clinton's election is inseparable from his pledge to end welfare as we know it. That statement alone made him a different kind of Democrat. He had to spend three years in office proving his campaign was just a trick.

In the meantime, Gingrich had put flesh on the vague Clinton bone. "It is impossible to maintain civilization," he said over and over, "with 12-year-olds having babies, 15-year-olds killing each other, 17-year-olds dying of AIDS and 18-year-olds getting diplomas they can't even read."

Specifics won, stabbing at the national mood. Now with Clinton's promise to sign the transfer of welfare to the states, time limits for welfare recipients and requirements for work after two years on the dole, the most important part of the Contract With America is about to become law.

"Where is the sense of decency?" railed U.S. Rep. John Lewis (D-Ga.). "Where is the heart of this Congress? This bill is mean; it is base; it is downright lowdown."

That is Lewis saying that the Democratic governor of Georgia and the Democratic speaker of the Georgia House and the Democratic General Assembly can't be counted on to care for the less fortunate.

Once the Olympic flame has moved on, the Centennial Park bomber is caught and the tragedy of TWA Flight 800 is resolved, such stories will pick up steam. It will take strong will to withstand the misfortunes of others, but the bigger picture is essential. The welfare system was destroying the nation by warping the behavior of millions. It must change, and that change is better managed by the governments closest to the people.

TRIBUTE TO THE HONORABLE
JAMES H. QUILLEN ON HIS
RETIREMENT FROM CONGRESS

HON. JOHN JOSEPH MOAKLEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. MOAKLEY. Madam Speaker, I would like to take this opportunity to pay tribute to a dear friend of mine and my longtime colleague on the Rules Committee JIMMY QUILLEN.

JIMMY QUILLEN joined the Rules Committee with another dear friend of mine, Claude Pepper, in 1965.

But this year he will be retiring and the entire country will be the worse for the loss of his service.

JIMMY QUILLEN is the longest serving Republican on the House Rules Committee and the longest serving Tennessee Representative in history.

But JIMMY's service merits distinction for its quality as well as its longevity.

He began serving his country as I did, in the Navy in World War II.

He was elected to the Tennessee State House and eventually chosen as speaker of that body.

And in their wisdom, the people of the First District of Tennessee first elected him to Congress in 1963 and every other year thereafter.

He has been married for 44 years to his beloved Cecile. It is partly to spend more time with her that he is leaving us and I can think of no more compelling reason.

Although most Democrats may not realize it, JIMMY QUILLEN is one of the few Members with an assigned seat on the House Floor. He sits in the second seat in the second row from which he discussed his trademark wisdom and anecdotes. Anyone who tries to sit in that seat supposedly learns very quickly that it is not theirs to use.

But it has not only been in the Congress where JIMMY QUILLEN made his mark. I'm told that nearly every single road, medical school, and institution in eastern Tennessee is named after JIMMY QUILLEN. And, after 34 years of unparalleled service to the people of the First District of Tennessee, JIMMY deserves every accolade he gets.

Like many of my colleagues, I always admired JIMMY QUILLEN. I heard the story of his taking his office door off the hinges to represent his open-door policy when we was first elected and it has served as a great inspiration to me and to many of my colleagues as we work to emulate his great record of constituent service.

He has been a distinguished hard-working, kind member of the Rules Committee and although I often wished he were arguing on our side, he has been a very worthy adversary and he will be sorely missed.

Mr. Speaker, it has been a great honor serving with JIMMY QUILLEN on the Rules Committee and I join the entire Congress in wishing him well in his retirement.

CONSTITUTION WEEK, SEPTEMBER
17-23, 1996

HON. JAN MEYERS

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mrs. MYERS of Kansas. Mr. Speaker, September 17 to 23 is Constitution Week. On behalf of the Daughters of the American Revolution I take pride in reminding my colleagues and all Americans to take a few minutes to reflect on that great document written and ratified 209 years ago this week.

The Constitution of the United States of America is an enduring safeguard of our freedom. Its Framers knew then that personal liberty is inherent in every human, but that a careful balance between that liberty and social order was the key ingredient of a strong nation. Our Republic's longevity throughout the crucible of history is testament to their success at achieving that balance in our basic framework. Our generation will be judged by future generations on how well we maintain that delicate balance, not forgetting that with our unparalleled freedoms, each of us also shoulders unparalleled responsibilities.

My heartfelt thanks go to the Prairie Rose Chapter of the Kansas Society of the Daughters of the American Revolution for their distinguished service to our Nation by helping to make every American aware of the foundation of our glorious freedom. Hopefully, through the efforts of patriotic Americans such as they, our enhanced knowledge of our own Constitution will help make us a stronger and more cohesive nation.

APPOINTMENT OF CONFEREES ON
H.R. 3666, DEPARTMENTS OF VET-
ERANS AFFAIRS AND HOUSING
AND URBAN DEVELOPMENT, AND
INDEPENDENT AGENCIES APPROPRIATIONS ACT, 1997

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Ms. DeLAURO. Mr. Speaker, I rise in strong support of the motion to instruct the conferees on H.R. 3666, Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act of 1997, which the House passed on September 11, 1996. The issues of parity for mental health coverage and allowing a 48 hours hospital stay for newborns and mothers following child birth are extremely timely and relevant.

As an active participant in the fight for health care reform, I continue to believe that all Americans should have the security of knowing that they will have health care coverage—regardless of their health or economic status.

Perhaps no group of individuals has faced more discrimination by our Nation's health care system than those with mental illnesses. In the past 15 years, a revolution has occurred in neurobiology that has clearly documented that many of these severe mental illnesses are, in fact, physical illnesses. These physical disorders of the brain—neurobiological disorders—are characterized by neuroanatomical and neurochemical abnormalities. Controlled clinical research undertaken by scientists across the Nation have produced a body of irrefutable scientific evidence documenting the physical nature of these disorders.

Despite this, individuals with neurobiological disorders and their families continue to face discrimination and stigmatization by health insurance plans and society at large. I have visited with families who have had to cope not only with the emotional pain of dealing the neurobiological disorders, such as schizophrenia and autism, but the financial hardship as well.

Health insurance coverage for mental disorders is often limited to 30 to 60 inpatient days per year, compared with 120 days for physical illnesses; copayments, which are usually about 20 percent for physical illnesses, are often raised to 50 percent. Because of these arbitrary limits on coverage, individuals and families affected by these disorders are faced with onerous financial burdens. These people deserve the same kind of care and treatment that is available to those who suffer from other severe illnesses such as cancer, diabetes, or heart disease.

Families who are faced with severe mental illnesses should not be placed in a different category—financially burdened, stigmatized, and treated as if they had done something wrong.

On June 8, 1995, I introduced the Equitable Health Care for Neurobiological Disorders Act of 1995. My bill would help these individuals and their families by requiring nondiscriminatory treatment of neurobiological disorders. Health care plans would be required to provide coverage that is not more restrictive than coverage provided for other major physical illnesses and that is consistent with effective

and common methods of controlling health care costs—such as copayments and deductibles. My bill also stipulates specific benefits that must be provided and assesses a penalty on those plans that do not comply with the Act's requirements.

I believe that the provisions included in the Senate's version of the VA/HUD appropriations bill is a strong start toward achieving equity for those who truly suffer from mental illness. Requiring equal health coverage for these disorders is not just important to individuals suffering from neurobiological disorders and their families. It is also important to the Nation. According to the National Institutes of Mental Health, equitable insurance coverage for severe mental disorders will yield \$2.2 billion in net savings each year through decreased use of general medical services and a substantial decrease in social costs.

I also strongly support the provision included in the Senate VA/HUD appropriations bill requiring health plan coverage for a minimum hospital stay of 48 hours for newborns and mothers following childbirth.

I have spoken with Wilfred Reguero, M.D., the chairman of the St. Raphael OB/Gyn Department, and other hospital staff at a trip to St. Raphael's Hospital in my district. They told me of the dangers of early discharges for new mothers and their infants—discharges that are dictated by certain insurance companies, not doctors. The decision to discharge a new mother and her child should be based on medical criteria, not on the bottom line.

According to reports published by the University of California San Francisco and Dartmouth's Hitchcock Medical Center, a post-delivery hospital stay of 24 hours or less means infants are not adequately tested and monitored by medical professionals for conditions that appear in the first few days of life, including jaundice and excessive weight loss. The reports found that mothers also experience medical difficulties, including lactation difficulties, urinary tract infections, incisional pain and post-partum pain and depression.

I have cosponsored two bills H.R. 1948 and 1950 which would require health plans to provide maternity benefits for a minimum hospital stay for a mother and her newborn following the birth of her child. The bills do not mandate the length of hospital stays, but requires that longer stays are covered if deemed necessary by a woman, her family, and her physician. The legislation includes:

A minimum stay of 48 hours for vaginal deliveries and 96 hours for caesarean-section deliveries.

An exception for home births.

A requirement for health plans to provide written notice to enrollees regarding coverage included in the act.

I know that many States, including Connecticut, are pursuing similar laws, but we need Federal legislation to make sure that women who are covered by health insurance companies that are headquartered in other States are protected under the law. That's why I am so pleased that this legislation was included in the Senate VA/HUD appropriations bill and should be included in the final VA/ HUD appropriations bill as well.

I urge my colleagues to join me in supporting these instructions. Adoption of these policies will go a long way toward saving billions or dollars, eliminating the stigma and misunderstanding so often associated with

neurobiological disorders, and ensuring that all mothers and babies are adequately cared for.

A SALUTE TO PFC JAMES W.
REESE OF CHESTER

HON. THOMAS M. FOGLIETTA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. FOGLIETTA. Mr. Speaker, I rise today to pay special tribute to PFC James W. Reese on the occasion of the rededication of the James W. Reese Army Reserve Center.

PFC James W. Reese, a native son of Chester, PA, and Delaware County Congressional Medal of Honor winner, was born April 16, 1920. Bill, as he was affectionately referred to by his friends, attended public school in Chester, graduating from Chester High School in 1938. Entering the service in November 1941, Bill was assigned to the 26th Infantry, First Infantry Division stationed in Florida. Bill was with the division when they landed in North Africa and crossed the Mediterranean to assault the shores of Sicily at midnight on July 9, 1943. It was there that Bill won his country's highest decoration, the Congressional Medal of Honor, as he lost his life fighting bravely against heavy enemy odds. His citation reads:

For conspicuous gallantry and intrepidity at the risk of life, above and beyond the call of duty in action involving actual conflict with the enemy on August 5, 1943 at Mt. Vassillio, Sicily. When the enemy launched a counterattack which threatened the position of his company, Private Reese, as Acting Squad Leader of a 60MM mortar squad, displayed superior leadership and on his own initiative, maneuvered his squad forward to a favorable position, from which, by skillfully directing the fire of his weapon, he caused many casualties in the enemy ranks and aided materially in repulsing the counterattack. When the enemy fire became so severe as to make his position untenable, he ordered the other members of his squad to withdraw to a safer position, but declined to seek safety for himself. So as to bring more effective fire upon the enemy, Private Reese, without assistance, moved his mortar to a new position and attacked an enemy machine gun nest. He had only three rounds of ammunition but secured a direct hit with his last round, completely destroying the nest and killing the occupants. Ammunition being exhausted, he abandoned the mortar, seized a rifle and continued to advance, moving into an exposed position overlooking the enemy. Despite a heavy concentration of machine gun, mortar, and artillery fire, the heaviest experienced by his unit throughout the entire Sicilian campaign, he remained at his position and continued to inflict casualties upon the enemy until he, himself was killed. His bravery coupled with his gallant and unswerving determination to close in on the enemy, regardless of the consequences and obstacles which he faced, are a priceless inspiration to our armed forces.

In light of these brave and unselfish acts in the face of enemy fire, I am honored to join the U.S. Army in rededicating this reserve center to Bill Reese who represents all of the many heroic service personnel both past and present who have made the ultimate sacrifice so that you and I may live as free Americans.

TRIBUTE TO DR. DONALD SUGGS

HON. WILLIAM (BILL) CLAY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. CLAY. Mr. Speaker, I rise today to pay tribute to my good friend, constituent, and a wonderful American, Dr. Donald Suggs.

Dr. Suggs is a man of many gifts and talents, and shares each selflessly with his community and friends. As president and publisher of the No. 1 African-American weekly newspaper in America, the St. Louis American, Donald keeps the metropolitan St. Louis community apprised of prevalent issues on the Federal, State, and local levels. Each week more than 65,000 readers in the area pick up a copy of the free publication to read about politics, business, the arts, and other subjects of interest to the broader African-American community.

Each year the St. Louis American spotlights the community's unsung heroes at the "St. Louis American Salute to Excellence in the Community". Proceeds from the banquet held in honor of the recipients are used to fund scholarships for promising young men and women in the community.

In addition to running the newspaper company, Dr. Suggs provides medical service to indigent residents in his successful oral surgery practice. He is also president of Alexander-Suggs Gallery of African American Art, a founding board member of the Center for African Art in New York, and serves on the board of directors of the Regional Commerce and Growth Association.

It gives me great pleasure to share with our colleagues an inspirational account of the life of Dr. Donald Suggs as recorded in the September 1996 edition of St. Louis Commerce.

[From the St. Louis Commerce/September 1996]

THE AMERICAN WAY

In addition to being a practicing oral surgeon, an activist during the civil rights movement, an art dealer and collector, a managing principal in a pre-paid dental plan and a partner in an airport retail concession business, Donald M. Suggs somehow has found the time and energy to steer one of the most acclaimed African-American newspapers in the country into 40 to 45 percent of all African-American households in the St. Louis metro area.

Suggs and two partners bought the St. Louis American in 1980. A few years later, Suggs brought a majority share and took an active role in the paper's operation in 1984.

"The decision to be involved in The St. Louis American was not a well-thought-out business decision," remembers Suggs, who is president and publisher. "The paper was burdened with debt in a segment of publishing that didn't have any discernible prospects for growth."

As publisher, Suggs has been able to raise capital through his personal resources and company earnings, reduce the paper's debt load, increase circulation and bolster the staff in key positions.

"Revenues have multiplied by five in the last nine years and our revenue from the first two quarters of this year is up 23 percent over last year," remarks Suggs. The newspaper is distributed free from more than 650 distribution points throughout the St. Louis area.

Ten years ago, the circulation for the American averaged from 4,000 to 6,000 copies

per week. Today, the audited circulation is 65,500, making the 68-year-old paper the area's largest black weekly, the largest black newspaper in Missouri and one of the largest in the country. In relation to the size of St. Louis' African-American population, the paper's percentage of household penetration ranks at or near the top in the nation.

In addition to increased revenues and circulation, The St. Louis American has improved dramatically the quality of the news content. Earlier this summer, the American was named the best African-American newspaper in the nation by the National Newspaper Publishers Association (NNPA) in competition with 220 other papers.

The John B. Russwurm Award is named after the co-publisher of the first African-American newspaper in America. On March 16, 1827, Russwurm and Samuel E. Cornish began publishing Freedom's Journal, whose goal was to "arrest the progress of prejudice and to shield ourselves against its consequent evils."

This year was the first time any newspaper in Missouri had received the Russwurm award. In the finals, the American topped the Baltimore Afro-American and the Los Angeles Sentinel.

Suggs says. "(The Russwurm) is a premier award and it has been a great boost for morale of the staff." Besides winning NNPA awards for general excellence and best paper, the American also won awards for writing, layout and design, special sections and advertising.

Another indication of the improved quality of the American has been the regularity with which it has either won or placed high in recent Missouri Press Association competitions which include all papers in Missouri. The American has 18 full-time employees.

Suggs' earlier interests didn't point to his becoming a newspaper publisher.

Born and raised in East Chicago, Ind., in a solid, 2-parent household, Suggs went to Indiana University where he received a bachelor's degree and a doctorate in dental surgery. He did his post-graduate work at Washington University and Homer G. Phillips Hospital. He was chief of oral surgery at Dover Air Force Base in Delaware before coming back to St. Louis.

"In 1961, I was completing my tour with the Air Force. I was offered a job at Washington University's dental school. When I arrived, the offer was rescinded because I was black," notes Suggs. He later was asked to join the faculty at Saint Louis University's dental school where he served as the school's first African-American associate clinical professor. During this period, Suggs also worked in anesthesia at various hospitals in St. Louis to supplement his income.

During his tenure as a part-time faculty member, Suggs became active in the civil rights movement during the 1960s and 1970s. In 1968, he served as St. Louis chairman of the Poor People's March in Washington.

"After my third child was born, I knew I had to have more money than the amount I was earning teaching and giving anesthesia, so I started my oral surgery practice on North Kingshighway. I'm still practicing part-time," says Suggs.

After his private practice became successful, Suggs was able to pursue his growing interest in serious art. "I slowly started acquiring pieces. Some time later, I had the opportunity to get into the business side of art," says Suggs.

As long-time president of the Alexander-Suggs Gallery of African Art based in St. Louis and New York City, he broadened his contacts in the art world. Later, as founder and chairman of the African Continuum, he helped bring non-commercial artistic endeavors to St. Louis. He also was a founding

board member of the Center for African Art in New York City, now known as the Museum of African Art.

His involvement in the art world and the civil rights movement were an impetus for Suggs to buy The St. Louis American. "I got involved in the paper because of my interest in social change and my desire to have some influence on major public policy issues," Suggs says.

Now, Suggs feels he can help have a positive impact on the African-American community through involvement in major economic and infrastructure issues that affect the entire region. "It is much easier to make positive changes for African Americans in an economy that is growing. For instance, interest rates, trade policy and their effect on the economy have as much or more influence on the African-American community's well-being as do major social policies," says Suggs.

"That is why we are so interested in the RCGA's creation of the Greater St. Louis Economic Development Council and its commitment to create 100,000 new jobs. Transportation issues like airport expansion and MetroLink expansion are of great interest because of their potential economic benefits for the entire community." Suggs currently serves on RCGA's board of directors.

Suggs also is concerned with St. Louis' failure to give greater priority to the recruitment and nurturing of top-level, professional African Americans. The St. Louis region needs to be more proactive in encouraging and supporting minority business, he says.

"St. Louis has done, with a few notable expectations, a poor job of attracting well-prepared people—particularly entrepreneurs—who are now going to Atlanta, New York, Chicago, Houston or Los Angeles for opportunities. Although there has been some improvement in recent years, we still don't have our share of highly-motivated, talented African Americans and that is a big concern," he says. Minority entrepreneurship and business development are underutilized resources for this region.

What does the future hold for the American?

"Our strategic plan includes providing more comprehensive coverage of the black business community. A stronger black business community is a boon to St. Louis' economy. We also have expanded our working women's sections and we are developing a new minority health section in collaboration with some local African-American physicians that focuses on health education, behavior modification and health careers," says Suggs.

ARE OUR CHILDREN BETTER OFF TODAY THAN THEY WERE FOUR YEARS AGO?

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. SOLOMON. Mr. Speaker, the American people understand the connection between the drug crisis and our Nation's most critical domestic problems. Drug use permeates and exacerbates virtually every social, health and economic problem facing this country.

Education is one area where we can see the devastation caused by increasing drug use. Drug use is the major contributor to poor academic performance and accounts for our Nation's staggering dropout rate of 25 percent.

For this President to call himself the education president, when we have witnessed across the board increase in drugs by school children under his watch, is at best disingenuous. Drug use erodes self-discipline, motivation and concentration, making it difficult for teachers to teach and for students to learn. Since Bill Clinton's election, marijuana use among young people has doubled.

Mr. Speaker, according to a report by the Partnership for a Drug Free America, the national dropout rate hovers at 25 percent, and the rate climbs to nearly 50 percent in New York City, Chicago and Detroit. The report states that the explanation for these shocking statistics is poor academic performance—caused or exacerbated by illegal drug use. And yet we have a President who tells America's young people that if he had to do over again he would inhale.

In research conducted among young male adults, 60 percent of those who had used illegal drugs by the age of 12 had also dropped out of school—with devastating consequences, for the users and for society. Drug use by 12-year-olds has skyrocketed under President Clinton's term. Dropouts are twice as likely as are high school graduates to live in poverty. A strong correlation also exists between educational failure and crime. In New York City, for example, a staggering 90 percent of the inmates of the city's prisons are former dropouts.

Illegal drug use has escalated dramatically during President Clinton's term of office. Today, one in three high school students are using illegal drugs and one in four are dropping out of school. The total lack of Presidential leadership concerning teen drug use will have lasting and devastating consequences on the educational process in the United States.

President Clinton's decision to place our country's drug problem on a back burner has reduced our children's chances of obtaining the education they need. In the America I know and love, people care more about their children than about themselves. Isn't it time for us to ask if our children and grandchildren are better off today than they were 4 years ago?

KILDEE HONORS MARCANTONIO MOROLLA

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. KILDEE. Mr. Speaker, I rise today to honor the recipient of the 1996 Golden Door Award, Marcantonio "Tony" Morolla. Mr. Morolla will receive the award at the annual dinner meeting of the International Institute of Flint on Tuesday, October 8.

The International Institute of Flint presents this award annually to a foreign-born citizen who has substantially improved life in the Flint community.

Tony was born in Triggiano, Bari in southern Italy. He immigrated to the United States with his parents, Girolamo and Antonia Morolla, and his two sisters in 1955. The family struggled during their early years in the United States. The automotive industry was in a downturn and layoffs at the automobile plants were frequent. During these years Girolamo

often thought about leaving his job at the V-8 engine plant and moving his family back to Italy. The couple resolved to stay in the United States. They instilled their determination to thrive into their children.

Tony Morolla has lived his life as a testament to his parents' spirit. He completed 2 years of service in the U.S. Army. After obtaining his associate of arts degree he worked as a caseworker in the 7th District Congressional Office of then Congressman Donald Riegle. He continued his studies at the University of Michigan-Flint and received a bachelor of arts degree in Urban Studies/Political Science in 1973. Tony worked during this time as the consortium manager for the Flint Area Chamber of Commerce. He continued his public service career as the associate director of the YMCA outreach project. In 1974 the city of Flint employed him as a personnel technician. Two years later he was promoted to his present position as civil service director for the city of Flint. Tony was awarded a master's degree in public administration in 1990.

His commitment to the city of Flint extends beyond his professional career. The list of organizations he has volunteered for is long. It includes the Urban League of Flint, Holy Redeemer Church, Donovan-Mayotte School, Powers High School, St. Pius Church, American Society for Public Administration, YMCA, and the Optimists Club.

Two organizations in particular have benefited from Tony's expertise. He has served in the capacity of president for both the Sons of Italy and the International Institute of Flint. He was instrumental in reactivating the State Lodge for the Sons of Italy and has devoted numerous hours in promoting the International Institute of Flint's mission for greater global understanding.

Recognizing that education is a stepping stone to a better life Tony shares his knowledge with the next generation by teaching courses at the University of Michigan-Flint and the Detroit College of Business. With his wife Hilary, he has three children, Marc, Heather, and Ashley.

Mr. Speaker, I ask the Congress to rise with me to honor this great American. My hometown of Flint has benefited from the contributions of Tony Morolla. We are a better community because of his indomitable spirit.

HONORING BRISTOL TENNESSEE TREE CITY USA BOARD

HON. JAMES H. QUILLEN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Mr. QUILLEN. Mr. Speaker, I rise today to recognize the Bristol Tennessee Tree City USA [TCUSA] Board for their outstanding efforts in planting over 1 million trees in the city of Bristol which is located in the First District of Tennessee. The individual responsible for the success of this project is Donald H. Ellis, D.D.S.

Seven years ago, Dr. Ellis embarked on an ambitious goal. With the help of thousands of Tennessee volunteers, Dr. Ellis began working to plant 1 million trees in Bristol before the Tennessee bicentennial in 1996. At that rate, 22 trees would be planted for every citizen living in Bristol.

I'm pleased to announce that as of September 6, 1996, Dr. Ellis and the city of Bristol have achieved this goal and more. In all, the citizens of Bristol have planted 1,003,402 trees since 1989, and I am so proud of their efforts.

Reforestation projects like this are important in helping to preserve our precious natural resources. In addition, planting over 1 million trees would not be possible without the help of true Tennessee volunteers.

Mr. Speaker, they call Tennessee the volunteer State, and in part, it is because of efforts like these. Once again, let me commend Dr. Donald H. Ellis, the Bristol Tennessee Tree City USA Board, and the city of Bristol for a job well done.

OPPOSING THE INCLUSION OF H.R. 1855, THE ELIZABETH MORGAN BILL, IN H.R. 3675, THE DEPARTMENT OF TRANSPORTATION APPROPRIATIONS BILL

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 18, 1996

Ms. NORTON. Mr. Speaker, I want to associate myself with the remarks of Members who have opposed on constitutional law and international treaty grounds the attachment to the Transportation appropriations bill of H.R. 1855, a bill which strips the District of Columbia courts of jurisdiction over the child custody case Morgan versus Foretich. In addition, I must oppose the bill on home rule grounds.

This matter now comes on the floor enclosed in a conference report which cannot be amended. The Chair of the full Government Reform Committee and the Chair of the D.C. Subcommittee have obtained a waiver of the relevant point of order. They have thus cleared the way for a matter that I believe to be deeply unconstitutional and that badly transgresses all principles of self-government to come to the floor.

In 1987, Elizabeth Morgan was held in jail for 2 years because she would not reveal the whereabouts of a child she said she believed had been sexually abused. In substantially less time than she had served, release of such a person is usually allowed or required. I was not a Member of Congress at that time. Apparently, largely because of the length of the incarceration, an act of Congress freed Ms. Morgan. No one is incarcerated; nor does the present matter have anything else in common with that situation, as is clear from remarks of Members from both parties, the majority of whom have spoken against this unprecedented trespass into the unique and exclusive realm of the judiciary.

I believe that what has transpired here today, in any case, is a complete nullity that guarantees the continuation of an inflammatory domestic dispute that has made a mockery of the legal concept of the best interests of the child. The constitutional doubt surrounding this matter is so large that it does not merit unworthy precedent set in the House today.

The adoption of this bill also puts the Congress on a collision course with international law. The New Zealand court that has jurisdiction over the child holds the child's passport

and has ruled that she may not leave New Zealand. David Howman, a barrister, the guardian appointed by the family court in New Zealand, has written the counsel to the D.C. Subcommittee that, "I am directed by His Honour Judge Mahony that the enclosed statement is to be made available to you for the purpose of * * * fully and properly informing the Congressional Subcommittee dealing with bill H.R. 1855 of the position relating to Hillary/Ellen." The court says:

The Court has held [the child's] passport since 1990 when the question of her care and residence first came before the Court. There is also a condition on the custody order issued in 1990 that she not be taken from New Zealand without order of the Court. If and when it is appropriate for an application to be made to this Court for removal of that condition or return of the passport the application will be considered at that time.

Thus, if the Congress of the United States permits the child to return through H.R. 1855, it is almost certainly in violation of the Hague Convention as it relates to child custody.

The insult to the District, its residents, and its independent judiciary is no less serious. The home rule trespass is all the more serious because of the absolute and unflinching necessity for an independent judiciary at every level of Government. No principle of the Constitution was considered more fundamental by the framers. Imagine the chill this bill sends to the sitting judiciary in the Nation's capital. Now, not only the city council and the executive agencies of the District, but also the judiciary is fair game for imposition of a Member's views regarding his pet issues. No member would even think of attempting to intrude into the legitimate and exclusive jurisdiction of the courts in any other jurisdiction of the United States or the territories.

I am attaching the letter of the court appointed guardian and the statements of the New Zealand family court. I am also attaching a Legal Times article detailing further my position on this matter.

DAVID HOWMAN, BARRISTER,
WELLINGTON, NEW ZEALAND,

September 18, 1996.

Mr. HOWARD A. DENIS,
Counsel, House of Representatives, Committee
on Government Reform and Oversight,
Washington, DC.

DEAR MR. DENIS: I was appointed by the Family Court in New Zealand to assist that Court in proceedings involving Hillary/Ellen Morgan. Principal Family Court Judge P.D. Mahony made that appointment late last year.

Subsequently the Family Court conducted a hearing to consider matters relating to the child. I have been asked to communicate with you on behalf of the Court as a result of the Court's decision. This communication is for the purpose of fully and properly informing the Congressional Subcommittee dealing with Bill H.R. 1855 of the position relating to Hillary/Ellen. I am directed by His Honour Judge Mahony that the enclosed statement is to be made available to you for that purpose.

Please could you write to confirm receipt and to confirm that the statement will be made available to your Congressional Subcommittee accordingly.

Yours sincerely

DAVID HOWMAN,
Barrister.

MORGAN VERSUS FORETICH

1. The New Zealand Family Court recently considered an application concerning the

child Hillary Foretich/Ellen Morgan in relation to Bill HR 1588. The Court had received this application in July 1995 for Ellen to give evidence live by video-link to the Congressional sub-committee from Christchurch, New Zealand. That application was declined in the interim and subsequently dismissed. There is no current or further application before the Court concerning Ellen and Bill HR 1588.

2. Whether or not that Bill is passed is not an issue for this Court and it is not the business of the Court to express any view about it.

3. The Court has made no ruling concerning Ellen's return to the United States.

The Court has held her passport since 1990 when the question of her care and residence first came before the Court. There is also a condition on the custody order issued in 1990 that she not be taken from New Zealand without order of the Court. If and when it is appropriate for an application to be made to this Court for removal of that condition or return of the passport the application will be considered at that time.

4. In all issues affecting children in relation to their care, the overriding duty of the New Zealand Family Court is to treat the welfare of the child as the first and paramount consideration. A primary consideration in this case is the protection of privacy of the child. Proceedings before the New Zealand Family Court are held in private and there are statutory restrictions on reporting of cases heard by the Court, again directed at protecting the privacy of children.

It is the wish of this Court that those who have an official interest in relation to one or other aspect of Ellen's case, exercise care and restraint in order to preserve her privacy.

[From the Legal Times, Mar. 14, 1996]

CUSTODY SAGA'S LATEST TWIST—BID TO AID
MORGAN HITS HOME-RULE SNAG

(By Jonathan Groner)

Over the last 11 years, the Elizabeth Morgan custody case has touched on everything from feminism and fathers' rights to the reach of courts' contempt powers. Now, thanks to D.C. Delegate Eleanor Holmes Norton, there's a new, and unlikely wrinkle: D.C. home rule.

In January, four U.S. representatives—including three from the D.C. suburbs—introduced legislation seeking to quash the D.C. courts' jurisdiction over Morgan's protracted battle with her ex-husband for custody of their daughter. The bill would allow Morgan and her daughter Hilary, 13, to return to the United States from New Zealand, secure from any orders of the D.C. Superior Court.

But Delegate Norton's objections have begun to stall the bill, which had earlier seemed to be on the fast track to approval in both houses of Congress.

"I looked deeply at the bill," Norton says, alluding to what she views as its unqualified assault on the independence of the District's local courts. "There is far more trouble in it than I had thought. What I learned is absolutely startling."

The legislation is intended to help Morgan, 48, who spent 25 months in D.C. jail in the 1980s on contempt charges in the highly publicized case. Asserting that her ex-husband Eric Foretich, 53, had sexually abused the girl, she refused to permit his visitations and sent the child out of the country. Foretich denies the charges.

Morgan, who was then a D.C. plastic surgeon was released in 1989 by an act of Congress and in 1990 joined Hilary in New Zealand.

Elizabeth Morgan and her daughter, who now prefers to be called Ellen, have both declared recently that they would like to return to the United States and be reunited with the rest of their family.

Elizabeth Morgan's second husband, Paul Michel, is a judge here on the U.S. Court of Appeals for the Federal Circuit, and her father, William, 85, also lives in the area; he is hospitalized at present, suffering from heart disease. Her mother, Antonia Morgan, 81, lives with Elizabeth and Hilary in Auckland.

Moreover, Elizabeth Morgan, suffering from ulcerative colitis, recently underwent emergency removal of her colon and reportedly would like to benefit from U.S. medical care.

The Morgans' desire to return home drew the attention of Reps. Thomas Davis III (R-Va.), Frank Wolf (R-Va.), Constance Morella (R-Md.), and Susan Molinari (R-N.Y.), who are pressing the legislation.

Until recently, little vocal opposition had emerged to the bill. But Norton, who says she supported Morgan's release from jail and doesn't express a view on the truth of the sexual-abuse allegations, has recently begun to oppose the measure publicly and has moved to slow the bill's progress.

NO RESPECT FOR HOME RULE

Since the bill would impinge on the jurisdiction of the D.C. courts, the views of the District's only congressional representative are likely to be taken seriously by House leaders. And for Norton, the Morgan case has become both a constitutional and a home rule issue.

"The sponsors show no respect for the home rule powers of my jurisdiction," says Norton, referring to the idea of a congressional act to remove a case from D.C.'s local courts. "The bill is two or three lawsuits waiting to happen."

Norton cites another objection: that the bill may be unconstitutional because it is "almost an open-and-shut bill of attainder." Bills of attainder, which are legislative measures that punish citizens without the safe-guards of trial and appeal, are banned by the U.S. Constitution.

Norton says the Morgan measure is a bill of attainder because it would legislatively "wipe out the rights of another party." She was referring to Foretich, a McLean, Va., oral surgeon, who in Norton's view would be denied the benefits of a 1987 order from D.C. Superior Court Judge Herbert Dixon Jr. that awarded him visitation rights.

Elizabeth Morgan is under a terrible misapprehension if she thinks Congress is going to bring her back," Norton adds. "It is just not going to happen."

Norton says that she and several other representatives objected to the bill's being placed on the "suspension calendar," a technique reserved for noncontroversial measures that are approved by the House without debate.

In deference to these objections, the office of Speaker Newt Gingrich (R-Ga.) removed the bill from the suspension calendar, and it remains pending in the House Government Reform and Oversight Subcommittee on the District of Columbia.

PRIVATE AGREEMENT SOUGHT

Norton says she is about to write an open letter to the members of the House, listing her objections to the bill and declaring that the best way to solve the long-simmering Morgan-Foretich dispute is not through legislation, but by compromise between the parties.

Foretich has proposed a consent decree under which he would drop his demand for custody or visitation with his daughter as long as Dixon's court retains jurisdiction. Morgan has rejected this overture, terming it a ruse.

The Morgan case, which in the 1980's became a cause célèbre for feminists and their opponents, is now becoming caught up in thorny issues involving D.C. politics and home rule, in which suburban D.C. Republican representatives—Davis represents the district where Morgan grew up—face off against the District's Democratic delegate.

Also coming to the fore is the obscure constitutional ban on bills of attainder.

"The authors of this bill themselves could not have made it more clear that this is a bill of attainder," says Jonathan Turley, a professor at George Washington University Law School who recently entered the case as a pro bono lawyer for Foretich. "They created an extremely damning record. This bill will have a half-life of one day under judicial review."

LAWSUIT THREATENED

Should the bill pass both houses of Congress and be signed by President Bill Clin-

ton, Turley says, he will immediately file suit in U.S. District Court against it.

"Not only is it grossly unfair to the targeted individual," Turley says, "but its potential for future abuse cannot be overstated."

Turley contends in court papers that the bill amounts to a legislative punishment of Foretich, even though it does not explicitly brand him a criminal. Turley says the bill implies that Hilary would not find "safety" unless Foretich were barred from seeing her, and that "the denial of a father's right to visitation or custody is punitive." Foretich declines comment.

But Howard Denis, counsel to the D.C. subcommittee, rejects Turley's arguments.

"Ultimately, it would be a matter for the courts to decide," says Denis. "But I take the view that it is not a bill of attainder, because it does not impose punishment on any individual."

"We have done research showing that the bill will pass constitutional muster," Denis adds. "But it's too soon to talk about the nuts and bolts of it."

Morgan's lead attorney, Stephen Sachs of D.C.'s Wilmer, Cutler & Pickering, was traveling and unavailable for comment. Co-counsel Juanita Crowley, also a Wilmer, Cutler partner, did not return calls, nor did Judge Michel, Morgan's husband.

Morgan's partisans have said that they are not trying to punish Foretich, but to permit Morgan and her daughter to return on humanitarian grounds.

Judge Dixon's order, said Davis on the House floor, is an "antiquated" one that "does not address the current circumstances of the welfare of a young teenage girl" who wants to return to the United States and "pursue her dreams."

In a Jan. 25, 1996, letter to Rep. Wolf, Michel described what he saw during a four-week visit to Auckland in December and January: "Contrary to what some people may assume, the difficulties of life in exile for all three of the women in my New Zealand family grow, not diminish, with each passing year. . . . In addition, Ellen's teenage years are not helped by being deprived of family life with her stepfather."

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, September 19, 1996, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

SEPTEMBER 20

10:00 a.m.
Governmental Affairs
Business meeting, to consider pending calendar business. SD-342

SEPTEMBER 24

9:00 a.m.
Special on Aging
To hold hearings to examine Social Security reform proposals. SD-628

9:30 a.m.
Indian Affairs
To hold hearings to examine civil jurisdiction in Indian country. SR-485

10:00 a.m.
Foreign Relations
To hold hearings to examine the need for ballistic missile defense. SD-419

Judiciary
To hold hearings on the role of the Department of Justice in implementing

the Prison Litigation Reform Act and the Civil Rights for Institutionalized Persons Act. SD-226

SEPTEMBER 25

9:30 a.m.
Commerce, Science, and Transportation
Science, Technology, and Space Subcommittee
To hold hearings on issues relating to the study of Mars. SR-253

Indian Affairs
To hold hearings to examine the phase out of the Navajo/Hopi relocation program. SR-485

10:00 a.m.
Judiciary
To resume hearings to examine White House access to FBI background summaries. SD-226

10:30 a.m.
Veterans' Affairs
To hold joint hearings with the Select Committee on Intelligence on the Department of Defense and Intelligence reports of U.S. military personnel exposures to chemical agents during the Persian Gulf War. SH-216

Select on Intelligence
To hold joint hearings with the Committee on Veterans Affairs on the Department of Defense and Intelligence reports of U.S. military personnel exposures to chemical agents during the Persian Gulf War. SH-216

2:30 p.m.
Energy and Natural Resources
Forests and Public Land Management Subcommittee
To hold hearings on S. 987, to provide for the full settlement of all claims of Swain County, North Carolina, against the United States under the agreement dated July 30, 1943. SD-366

SEPTEMBER 26

9:30 a.m.
Commerce, Science, and Transportation
Aviation Subcommittee
To hold hearings to examine the status of air service to small communities. SR-253

2:00 p.m.
Energy and Natural Resources
Oversight and Investigations Subcommittee
To hold hearings to examine the National Environmental Policy Act decision making process with regard to Federal Land Management Agencies and the role of the Council on Environmental Quality. SD-366

Judiciary
To hold hearings to review the annual refugee consultation process. SD-226

SD-366

Wednesday, September 18, 1996

Daily Digest

HIGHLIGHTS

- Senate passed FAA Authorization bill.
- Senate agreed to Transportation Appropriations Conference Report.
- House passed Department of Transportation Appropriations Conference Report.
- House Committees ordered reported 24 sundry measures.

Senate

Chamber Action

Routine Proceedings, pages S10729–S10898

Measures Introduced: Four bills and two resolutions were introduced, as follows: S. 2088–2091, S.J. Res. 61, and S. Res. 295. **Pages S10837–38**

Measures Reported: Reports were made as follows:

H.R. 2504, to designate the Federal building located at the corner of Patton Avenue and Otis Street, and the United States Courthouse located on Otis Street, in Asheville, North Carolina, as the "Veach-Baley Federal Complex".

H.R. 3186, to designate the Federal building located at 1655 Woodson Road in Overland, Missouri, as the "Sammy L. Davis Federal Building".

H.R. 3400, to designate the United States courthouse to be constructed at a site on 18th Street between Dodge and Douglas Streets in Omaha, Nebraska, as the "Roman L. Hruska United States Courthouse".

H.R. 3572, to designate the bridge on United States Route 231 which crosses the Ohio River between Maceo, Kentucky, and Rockport, Indiana, as the "William H. Natcher Bridge".

S. 1875, to designate the United States Courthouse in Medford, Oregon, as the "James A. Redden Federal Courthouse".

S. 1977, to designate a United States courthouse located in Tampa, Florida, as the "Sam M. Gibbons United States Courthouse". **Page S10837**

Measures Passed:

FAA Authorization: By a unanimous vote of 99 yeas (Vote No. 293), Senate passed H.R. 3539, to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration,

after striking all after the enacting clause and inserting in lieu thereof the text of S. 1994, Senate companion measure, and after agreeing to the following amendments proposed thereto:

Pages S10741–56, S10759–76

Chafee Modified Amendment No. 5361, to remove certain provisions with regard to Federal Aviation Administration authority to regulate aircraft engine standards, and to provide that the Environmental Protection Agency shall consult with the FAA on aircraft engine emission standards.

Pages S10741–42

Ford (for Reid) Amendment No. 5359, to express the sense of the Senate regarding acts of international terrorism. **Page S10743**

Ford (for Bryan) Amendment No. 5369, to provide for additional days for comment for proposed regulations establishing special flight rules in the vicinity of Grand Canyon National Park. **Page S10743**

Ford (for Dorgan) Amendment No. 5372, to prohibit the Surface Transportation Board from increasing user fees. **Page S10743**

Ford (for Exon) Amendment No. 5371, to assure adequate resources for the Essential Air Service Program. **Page S10743**

McCain (for Domenici) Amendment No. 5368, of a technical nature. **Pages S10743–44**

McCain (for Helms) Amendment No. 5377, to provide for the transfer of the United States' interest in the Hickory, North Carolina Air Traffic Control Tower. **Page S10744**

Roth/Moynihan Amendment No. 5370, to provide for expenditures from the Airport and Airway Trust Fund. **Page S10744**

McCain (for Brown) Amendment No. 5378, to provide for the reporting for procurement contracts. **Page S10750**

Simon/Jeffords Amendment No. 5364, to amend the Employee Retirement Income Security Act of 1974 with respect to the auditing of employee benefit plans.

Pages S10741–42, S10752

Ford (for Graham) Amendment No. 5373, to clarify the authority of the Customs Service to require air carriers to provide by electronic transmission advance cargo and passenger manifest information.

Page S10753

McCain Amendment No. 5379, of a technical nature.

Page S10753

McCain Amendment No. 5374, to provide for sequential referral of an implementing bill to the Committee on Commerce, Science, and Transportation and the Committee on Finance.

Page S10753

Senate insisted on its amendment and requested a conference with the House thereon.

Page S10776

Subsequently, S. 1994 was returned to the Senate calendar.

Page S10777

Economic Espionage Act: Senate passed H.R. 3723, to amend title 18, United States Code, to protect proprietary economic information, after agreeing to the following amendments proposed thereto:

Pages S10882–85

Stevens (for Specter/Kohl) Amendment No. 5384, in the nature of a substitute.

Pages S10882–85

Stevens (for Grassley/Kyl) Amendment No. 5385, to prohibit certain activities relating to the use of computers.

Pages S10882–84

Stevens (for Hatch) Amendment No. 5386, to improve the treatment and security of certain persons found not guilty by reason of insanity in the District of Columbia.

Pages S10884–85

Stevens (for Hatch) Amendment No. 5387, to provide funding for the establishment of Boys and Girls Clubs in public housing projects and other distressed areas.

Page S10885

National Information Infrastructure Protection Act: Senate passed S. 982, to protect the national information infrastructure, after agreeing to a committee amendment in the nature of a substitute, and the following amendments proposed thereto:

Pages S10886–91

Stevens (for Hatch) Amendment No. 5388, to improve the treatment and security of certain persons found guilty by reason of insanity in the District of Columbia.

Pages S10887–90

Stevens (for Hatch) Amendment No. 5389, to provide funding for the establishment of Boys and Girls Clubs in public housing projects and other distressed areas.

Pages S10888–90

Mother Teresa Honorary Citizenship: Senate agreed to H.J. Res. 191, to confer honorary citizenship of the United States on Agnes Gonxha

Bojaxhiu, also known as Mother Teresa, clearing the measure for the President.

Pages S10891–92

Ukraine Independence and Sovereignty: Committee on Foreign Relations was discharged from further consideration of H. Con. Res. 120, supporting the independence and sovereignty of Ukraine and the progress of its political and economic reforms, and the resolution was then agreed to.

Page S10892

Waihee Marsh: Senate passed H.R. 1772, to authorize the Secretary of the Interior to acquire certain interests in the Waihee Marsh for inclusion in the Oahu National Wildlife Refuge Complex, clearing the bill for the President.

Page S10892

Silvio O. Conte National Fish and Wildlife Refuge: Senate passed H.R. 2909, to amend the Silvio O. Conte National Fish and Wildlife Refuge Act to provide that the Secretary of the Interior may acquire lands for purposes of that Act only by donation or exchange, or otherwise with the consent of the owner of the lands, clearing the bill for the President.

Page S10892

Carjacking Correction Act: Senate passed H.R. 3676, to clarify the intent of Congress with respect to the Federal carjacking prohibition, clearing the bill for the President.

Page S10892

Carjacking Correction Act: Senate passed S. 2006, to clarify the intent of Congress with respect to the Federal carjacking prohibition.

Pages S10892–93

Carjacking Correction Act: Senate passed S. 2007, to clarify the intent of Congress with respect to the Federal carjacking prohibition.

Page S10893

Electronic Freedom of Information Amendments: Senate passed H.R. 3802, to amend section 552 of title 5, United States Code, popularly known as the Freedom of Information Act, to provide for public access to information in an electronic format, clearing the bill for the President.

Pages S10893–94

National Transportation Safety Board Amendments: Senate passed H.R. 3159, to authorize appropriations for fiscal years 1997, 1998, and 1999 for the National Transportation Safety Board, after striking all after the enacting clause and inserting in lieu thereof the text of S. 1831, Senate companion measure, after agreeing to the following amendment proposed thereto:

Pages S10895–98

Stevens (for Pressler) Amendment No. 5390, relating to intermodal safe container transportation.

Pages S10897–98

Subsequently, S. 1831 was returned to the Senate calendar.

Page S10898

Transportation Appropriations, 1997—Conference Report: By 85 yeas to 14 nays (Vote No.

294), Senate agreed to the conference report on H.R. 3675, making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997, clearing the measure for the President. **Pages S10777-94**

Sustainable Fisheries Act: Senate began consideration of S. 39, to amend the Magnuson Fishery Conservation and Management Act to authorize appropriations, and to provide for sustainable fisheries, agreeing to a committee amendment in the nature of a substitute, and taking action on the following amendments proposed thereto: **Pages S10794-S10827**

Adopted:

Snowe Amendment No. 5381, to limit lobstering other than by pots or traps if no regulations to implement a coastal fishery management plan for American lobster have been issued by December 31, 1997. **Pages S10823-24**

Stevens/Kerry Amendment No. 5382, in the nature of a substitute. **Page S10825**

Pending:

Hutchison Amendment No. 5383, to make certain modifications to provisions with regard to regional fishery management councils. **Pages S10826-27**

A unanimous-consent-time agreement was reached providing for the further consideration of the bill and the amendment proposed thereto, with votes to occur thereon, on Thursday, September 19, 1996.

Page S10898

Messages From the House: **Pages S10835-36**

Communications: **Page S10836**

Petitions: **Pages S10836-37**

Statements on Introduced Bills: **Pages S10838-41**

Additional Cosponsors: **Pages S10841-42**

Amendments Submitted: **Pages S10842-67**

Notices of Hearings: **Page S10867**

Authority for Committees: **Pages S10867-68**

Additional Statements: **Page S10868**

Text of S. 1965, Comprehensive Methamphetamine Control Act of 1996 as Previously Passed: **Pages S10738-39, S10878-82**

Record Votes: Two record votes were taken today. (Total—294) **Pages S10759, S10794**

Adjournment: Senate convened at 9:30 a.m., and adjourned at 8:48 p.m., until 9:30 a.m., on Thursday, September 19, 1996. (For Senate's program, see the remarks of the Acting Majority Leader in today's Record on page S10898.)

Committee Meetings

(Committees not listed did not meet)

U.S. POLICY IN MIDDLE EAST

Committee on Armed Services: Committee concluded hearings on the Report of the Downing Assessment Task Force on the bomb attack on Khobar Towers in Saudi Arabia, and other issues related to United States policy in the Middle East, after receiving testimony from William J. Perry, Secretary of Defense; Gen. John M. Shaliskashvili, USA, Chairman, Joint Chiefs of Staff; and Gen. Wayne A. Downing, USA (Ret.), Director, Downing Assessment Task Force.

FAIR HOUSING REFORM

Committee on Banking, Housing, and Urban Affairs: Subcommittee on HUD Oversight and Structure concluded oversight hearings on the Department of Housing and Urban Development's Office of Fair Housing, and on S. 1132, to amend the Fair Housing Act to permit a restriction relating to the maximum number of unrelated persons in a dwelling if such restriction's purpose is to limit land use to single family dwellings, after receiving testimony from Deval J. Patrick, Assistant Attorney General, Civil Rights Division, Department of Justice; Mayor Barbara Fahey, Edmonds, Washington; Mayor Susan Golding, San Diego, California; Mayor Rita L. Mullins, Palatine, Illinois; Victor J. Wolski, Pacific Legal Foundation, Sacramento, California; Rick Disney, Douglas and Wuester, Fort Worth, Texas; Robert F. Hoyt, Wilmer, Cutler and Pickering, Washington, D.C., on behalf of the American Alliance for Rights and Responsibilities; and Joel McNair, Pathway Homes, Inc., Fairfax, Virginia.

ALASKA LANDS

Committee on Energy and Natural Resources: Committee concluded hearings on the following bills:

S. 1920, to amend the Alaska National Interest Lands Conservation Act to ensure that Federal agencies are fairly implementing the Act, after receiving testimony from Senator Stevens; George T. Frampton, Jr., Assistant Secretary of the Interior for Fish and Wildlife and Parks; Alaska State Senator John Torgerson, Kenai; Bill Horn, Birch, Horton, Bittner, and Cherot, Washington, D.C., on behalf of the Alaska Professional Hunters Association and the Alaska Professional Sportfish Coalition; and Julie Kitka, Alaska Federation of Natives, Jack Hession, Sierra Club, and Allen Smith, The Wilderness Society, all of Anchorage, Alaska; and

S. 1998, to provide for expedited negotiations between the Secretary of the Interior and the villages of Chickaloon-Moose Creek Native Association, Inc., Ninilchik Native Association, Inc., Seldovia Native Association, Inc., Tyonek Native Corporation and Knikatu, Inc. regarding the conveyances of certain lands in Alaska under the Alaska Native Claims Settlement Act, after receiving testimony from George T. Frampton, Jr., Assistant Secretary of the Interior for Fish and Wildlife and Parks; William J. Chandler, National Parks and Conservation Association, Washington, D.C.; and Mark W. Kroloff, Cook Inlet Region, Inc., and Agnes Brown, Cook Inlet United Deficiency Land Management Association, both of Anchorage, Alaska.

U.S. POLICY TOWARD INDONESIA

Committee on Foreign Relations: Subcommittee on East Asian and Pacific Affairs concluded hearings on United States policy and recent developments with regard to Indonesia, after receiving testimony from Winston Lord, Assistant Secretary of State for East Asian and Pacific Affairs; Kurt M. Campbell, Deputy Assistant Secretary of Defense for Asian and Pacific Affairs; Paul D. Wolfowitz, Johns Hopkins University School of Advanced International Studies, and Ernest Z. Bower, U.S.-ASEAN Council for Business and Technology, Inc., both of Washington, D.C.; Sidney Jones, Human Rights Watch/Asia, New York, New York; and Donald K. Emmerson, University of Wisconsin, Madison.

OMNIBUS PATENT ACT

Committee on the Judiciary: Committee concluded hearings on S. 1961, to establish the United States

Intellectual Property Organization, and to amend the provisions of title 35, United States Code, relating to procedures for patent applications, commercial use of patents, and reexamination reform, after receiving testimony from Senator Lautenberg; Marybeth Peters, Register of Copyrights and Associate Librarian for Copyright Services, Library of Congress; Bruce A. Lehman, Assistant Secretary and Commissioner of Patents and Trademarks, Department of Commerce (Arlington, Virginia); Mary Ann Alford, Reebok International Ltd., New York, New York, on behalf of the International Trademark Association; William Patry, Yeshiva University, and Saul Schneiderman, Library of Congress Professional Guild, both of Washington, D.C.; Ronald J. Stern, Patent Office Professional Association, Arlington, Virginia; and Gary L. Griswold, 3M Company, St. Paul, Minnesota, on behalf of the Intellectual Property Owners.

VIOLENT AND DRUG TRAFFICKING CRIMES PROSECUTIONS

Committee on the Judiciary: Committee concluded hearings to examine the Bailey decision's effect on certain prosecutions of violent and drug trafficking crimes, after receiving testimony from Senator Helms; Kevin Di Gregory, Deputy Assistant Attorney General, Criminal Division, Department of Justice; Tony Wilson, former Drug Enforcement Agency Agent, Chantilly, Virginia; Thomas Hungar, Gibson, Dunn and Crutcher, Washington, D.C.; David M. Zlotnick, Roger Williams University School of Law, Bristol, Rhode Island; and Jeffrey Fluck, Raleigh Police Department, Raleigh, North Carolina.

House of Representatives

Chamber Action

Bills Introduced: 12 public bills, H.R. 4102-4113, were introduced. Pages H10601-02

Reports Filed: Reports were filed as follows:

H.R. 3024, to provide a process leading to full self-government for Puerto Rico, amended (H. Rept. 104-713 Part II); and

H.R. 2988, to amend the Clean Air Act to provide that traffic signal synchronization projects are exempt from certain requirements of Environmental Protection Agency Rules, amended (H. Rept. 104-807). Page H10601

Speaker Pro Tempore: Read a letter from the Speaker wherein he designated Representative Hast-

ings of Washington to act as Speaker pro tempore for today. Page H10527

Intelligence Authorization Conference: The House disagreed with the Senate amendment to H.R. 3259, to authorize appropriations for fiscal year 1997 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and agreed to a conference. Appointed as conferees from the Permanent Select Committee on Intelligence: Representatives Combest, Dornan, Young of Florida, Hansen, Lewis of California, Goss, Shuster, McCollum, Castle, Dicks, Richardson, Dixon, Torricelli, Coleman, Skaggs, and Pelosi; and from

the Committee on National Security for consideration of defense tactical intelligence and related agencies: Representatives Stump, Spence, and Delums. **Page H10531**

Water Resources Conference: The House insisted on its amendment to S. 640, to provide for conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and agreed to a conference. Appointed as conferees: Representatives Shuster, Young of Alaska, Boehlert, Oberstar, and Bor-ski. **Pages H10531–32**

Suspensions: The House voted to suspend the rules and pass the following measures:

Railroad Unemployment Insurance: H.R. 2594, amended, to amend the Railroad Unemployment Insurance Act to reduce the waiting period for benefits payable under that Act; **Pages H10532–34**

Aviation Disaster Family Assistance Act of 1996: H.R. 3923, amended, to amend title 49, United States Code, to require the National Transportation Safety Board and individual air carriers to take actions to address the needs of families of passengers involved in aircraft accidents (agreed to by a yea-and-nay vote of 401 yeas to 4 nays, Roll No. 418); **Pages H10534–40, H10552–53**

Deepwater Port Modernization Act: H.R. 2940, amended, to amend the Deepwater Port Act of 1974; **Pages H10540–43**

Snow Removal Policy Act of 1996: H.R. 3348, amended, to direct the President to establish standards and criteria for the provision of major disaster and emergency assistance in response to snow-related events; **Pages H10543–46**

Safe Container Act Amendments: H.R. 4040, to amend title 49, United States Code, relating to intermodal safe container transportation; **Pages H10546–48**

National Air and Space Museum Annex: S. 1995, to authorize construction of the Smithsonian Institution National Air and Space Museum Dulles Center at Washington Dulles International Airport—clearing the measure for the President; and **Pages H10548–50**

Mark O. Hatfield Court House: S. 1636, to designate the United States Courthouse under construction at 1030 Southwest 3rd Avenue, Portland, Oregon, as the “Mark O. Hatfield United States Courthouse”—clearing the measure for the President. **Pages H10550–52**

Department of Transportation Appropriations Act: By a yea-and-nay vote of 395 yeas to 19 nays,

Roll No. 419, the House agreed to the conference report on H.R. 3675, making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1997. **Pages H10553–67**

H. Res. 522, the rule which waived points of order against the conference report was agreed to earlier by a voice vote. **Pages H10553–57**

Referrals: Two Senate-passed measures, S. Con. Res. 67, to authorize printing of the report of the Commission on Protecting and Reducing Government Secrecy, and S. 2085, to authorize the Capitol Guide Service to accept voluntary services were referred to the Committee on House Oversight. **Page H10600**

Senate Messages: Messages received from the Senate today appear on page H10567.

Quorum Calls—Votes: Two yea-and-nay votes developed during the proceedings of the House today and appear on pages H10552–53 and H10567. There were no quorum calls.

Adjournment: Met at 10 a.m. and adjourned at 6:34 p.m.

Committee Meetings

USDA—TEAM NUTRITION

Committee on Agriculture: Subcommittee on Department Operations, Nutrition, and Foreign Agriculture held a hearing to review contracting practices and other activities at the USDA relating to Team Nutrition. Testimony was heard from Robert A. Robinson, Director, Food and Agriculture Issues, GAO; and Ellen Haas, Under Secretary, Food, Nutrition, and Consumer Services, USDA.

SUMITOMO CORPORATION

Committee on Banking and Financial Services: Held a hearing on recent events surrounding Sumitomo Corporation. Testimony was heard from Representative Schumer; Susan M. Phillips, member, Board of Governors, Federal Reserve System; Brooksley E. Born, Chair, Commodity Futures Trading Commission; and public witnesses.

MISCELLANEOUS MEASURES

Committee on Commerce: Ordered reported the following bills; H.R. 4012, to waive temporarily the Medicare enrollment composition rules for The Wellness Plan; H.R. 2923, to extend for 4 additional years the waiver granted to the Watts Health Foundation from the membership mix requirement for health maintenance organizations participating in the Medicare Program; H.R. 2988, amended, to amend the

Clean Air Act to provide that traffic signal synchronization projects are exempt from certain requirements of environmental Protection Agency rules; H.R. 3632, to amend title XIX of the Social Security Act to repeal the requirement for annual resident review for nursing facilities under the Medicaid Program and to require resident reviews for mentally ill or mentally retarded residents when there is a significant change in physical or mental condition; H.R. 3633, to amend titles XVIII and XIX of the Social Security Act to permit a waiver of the prohibition of offering nurse aide training and competency evaluation programs in certain nursing facilities; H.R. 4083, to extend certain programs under the Energy Policy and Conservation Act through September 30, 1997; H.R. 3391, amended, to amend the Solid Waste Disposal Act to require at least 85 percent of funds appropriated to the Environmental Protection Agency from the leaking underground storage tank trust fund to be distributed to States for cooperative agreement for undertaking corrective action and for enforcement of subtitle I of such act; and H.R. 1186, amended, Professional Boxing Safety Act of 1996.

MISCELLANEOUS MEASURES; DRAFT REPORTS

Committee on Government Reform and Oversight: Ordered reported the following bills: H.R. 3877, amended, to designate the U.S. post office building in Camden, AR, as the "Honorable David H. Pryor Post Office Building"; and S. 868, to provide authority for leave transfer for Federal employees who are adversely affected by disasters or emergencies.

The Committee also approved the following draft reports entitled: "Investigation of White House Travel Office Firings and Related Matters"; and "Sampling and Statistical Adjustment in the Decennial Census: Fundamental Flaws."

SHOOTDOWN OF BROTHERS TO THE RESCUE

Committee on International Relations: Subcommittee on the Western Hemisphere held a hearing on the Shootdown of Brothers to the Rescue: What Happened? Testimony was heard from the following officials of the Department of Defense: Col. Michael C. McMahan, Deputy J-3, Atlantic Command; and Maria Fernandez, Deputy Assistant Secretary, Inter-American Affairs; and Jose J. Basulto, President, Brothers to the Rescue.

MISCELLANEOUS MEASURES

Committee on the Judiciary: Ordered reported the following bills: H.R. 3874, Civil Rights Commission Act; and H.R. 2092, amended, Private Security Officer Quality Assurance Act of 1995.

The Committee also approved a private claims bill.

The Committee began markup of H.R. 3852, Comprehensive Methamphetamine Control Act of 1996.

Will continue tomorrow.

MISCELLANEOUS MEASURES

Committee on the Judiciary: Subcommittee on Commercial and Administrative Law approved for full Committee action the following measures: H.J. Res. 193, granting the consent of Congress to the Emergency Management Assistance Compact; and H.J. Res. 194, granting the consent of the Congress to amendments made by Maryland, Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact.

Prior to this action, the Subcommittee held a hearing on these measures. Testimony on H.J. Res. 163 was heard from John P. Carey, General Counsel, FEMA; Tom Feuerborn, Director, Department of Civil Emergency Management, State of Oklahoma; David McMillion, Director, Emergency Management Agency, State of Maryland; and Eric L. Tolbert, Chief, Bureau of Preparedness and Response, Division of Emergency Management, Department of Community Affairs, State of Florida. Testimony on H.J. Res. 194 was heard from Representative Davis and Robert Polk, General Counsel, Washington Metropolitan Area Transit Authority.

The Subcommittee also held a hearing on H.J. Res. 189, granting the consent of Congress to the Interstate Insurance Receivership Compact. Testimony was heard from Leo W. Fraser, Jr., member, Senate, State of New Hampshire; and Robert G. Lange, Director, Department of Insurance, State of Nebraska.

PRISON INDUSTRIES

Committee on the Judiciary: Subcommittee on Crime held a hearing on prison industries. Testimony was heard from the following officials of the Bureau of Prisons, Department of Justice: Kathleen M. Hawk, Director; and Steve Schwalb, Assistant Director; and public witnesses.

TERRORIST ATTACK AGAINST U.S. FORCES IN DHAHRAN

Committee on National Security: Held a hearing on the July 25, 1996 terrorist attack against U.S. military forces in Dhahran.

MISCELLANEOUS MEASURES

Committee on Resources: Ordered reported the following bills: H.R. 2392, amended, to amend the Umatilla Basin Project Act to establish boundaries for irrigation districts within the Umatilla Basin; H.R. 3258,

amended, to direct the Secretary of the Interior to convey certain real property located within the Carlsbad project in New Mexico to Carlsbad Irrigation District; H.R. 2561, amended, Glacier Bay National Park and Preserve Boundary Adjustment Act of 1995; H.R. 3973, amended, to provide for a study of the recommendations of the Joint Federal-State Commission on Policies and Programs Affecting Alaska Natives; H.R. 3155, amended, to amend the Wild and Scenic Rivers Act by designating the Wekiva River, Seminole Creek, and Rock Springs Run in the State of Florida for study and potential addition to the National Wild and Scenic Rivers System; H.R. 3568, to designate 51.7 miles of the Clarion River, located in Pennsylvania, as a component of the National Wild and Scenic Rivers System; H.R. 3497, amended, to expand the boundary of the Snoqualmie National Forest; H.R. 4067, amended, to provide for representation of the Northern Mariana Islands by a nonvoting Delegate in the House of Representatives; H.R. 2041, amended, Guam War Restitution Act; and H.R. 3752, amended, American Land Sovereignty Protection Act of 1996.

U.S.-PUERTO RICO POLITICAL STATUS ACT

Congressional Record

The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed at one time. ¶Public access to the Congressional Record is available online through *GPO Access*, a service of the Government Printing Office, free of charge to the user. The online database is updated each day the Congressional Record is published. The database includes both text and graphics from the beginning of the 103d Congress, 2d session (January 1994) forward. It is available on the Wide Area Information Server (WAIS) through the Internet and via asynchronous dial-in. Internet users can access the database by using the World Wide Web; the Superintendent of Documents home page address is http://www.access.gpo.gov/su_docs, by using local WAIS client software or by telnet to swais.access.gpo.gov, then login as guest (no password required). Dial-in users should use communications software and modem to call (202) 512-1661; type swais, then login as guest (no password required). For general information about *GPO Access*, contact the *GPO Access* User Support Team by sending Internet e-mail to help@eids05.eids.gpo.gov, or a fax to (202) 512-1262; or by calling (202) 512-1530 between 7 a.m. and 5 p.m. Eastern time, Monday through Friday, except for Federal holidays. ¶The Congressional Record paper and 24x microfiche will be furnished by mail to subscribers, free of postage, at the following prices: paper edition, \$112.50 for six months, \$225 per year, or purchased for \$1.50 per issue, payable in advance; microfiche edition, \$118 per year, or purchased for \$1.50 per issue payable in advance. The semimonthly Congressional Record Index may be purchased for the same per issue prices. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington, D.C. 20402. ¶Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. ¶With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.
