STUDENT INTERNET SAFETY ACT OF 2009

SPEECH OF

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 16, 2009

Mr. BURTON of Indiana. Madam Speaker, I am proud to join my colleagues in supporting the "Student Internet Safety Act of 2009" (H.R. 780), which the House of Representatives passed on June 16, 2009. H.R. 780 amends the Elementary and Secondary Education Act of 1965 to allow local educational agencies that receive Title II (teacher grants) funds and Safe and Drug-Free Schools and Communities funds, to develop and implement programs promoting safe Internet use by students (i.e. how to prevent online stalking and promoting parental involvement).

My colleague from Florida, Representative ADAM PUTNAM is the author of H.R. 780. I commend Representative PUTNAM in crafting thoughtful and much needed legislation to provide schools with the ability to teach children about the potential dangers associated with the Internet. Congressman PUTNAM said that "We teach our children how to look both ways before crossing the street; we also need to teach them the safety rules for the 'information superhighway.'" I could not agree more and that is why I was pleased that the House Leadership scheduled a vote on H.R. 780.

I have been a champion for parental rights and for the protection of children from violent and sexually explicit material for decades. I was one of the leading proponents of the "Parental Choice in Television Act" and the "Children's Protection from Violent Programming Act" which lead to the enactment of the V-chip provision of the Telecommunications Act of 1996, (Public Law 104-104). Because of those efforts, today the V-chip is in practically every television in America and it has proven to be a very successful tool, in conjunction with the television rating system, for parents who want to protect their kids from violent or sexually explicit material on television.

Today, however, the problem is not television but the Internet and that is why H.R. 780 is so important. It will provide another avenue for children to learn about Internet safety. There are things parents can do to help to keep their kids safe on the Internet. For example the National Center for Missing & Exploited Children recommends that:

Parents choose search engines carefully. Some are specifically designed for kids, and others offer kid-safe options.

Parents tell kids when they come across any material making them feel scared, uncomfortable, or confused to immediately tell them or another trusted adult.

Parents help kids find information online. By searching the Internet together parents can

help them find reliable sources of information and distinguish fact from fiction.

Parents talk with their Internet service providers (ISPs) as many offer filters to prevent kids from accessing inappropriate sites. As a consumer parents have a right to choose an ISP with the services meeting their family's needs.

There are more tips on safe Internet usage as well as tips on how kids can use e-mail and social networking sites safely on the National Center for Missing and Exploited Children's website at www.missingkids.com. And if a child has ever been sent inappropriate material by someone he or she met online or ever inadvertently encountered inappropriate material, a report of these types of incidents can be filed at www.CyberTipline.com or by calling 1-800-THE-LOST.
