

United States has designated it as a state sponsor of terrorism. The Second Circuit effectively read into the tort exception an exception for terrorist-related torts. Even the Solicitor General, who has adopted an unduly restrictive interpretation of the FSIA's exceptions, concluded that the Second Circuit misread the statute on this critical point.

The Second Circuit's and other lower courts' decisions on these seemingly technical jurisdictional points not only deprive the victims of terrorism the compensation to which they are entitled but also remove a powerful weapon in our arsenal against foreign terrorism. We can no longer wait for the Supreme Court to correct these errant decisions. The Court's refusal earlier this year to hear the plaintiffs' appeal of the Second Circuit's decision in *In re Terrorist Attacks*, despite the importance of the case and the conflicts among the lower courts on the key issues it presents, suggests that the Court may well never do so.

That is why I have introduced the Justice Against Sponsors of Terrorism Act. The act's main provisions would amend FSIA to make clear that, as Congress originally intended, a foreign state may be sued under the torts exception if it sponsors terrorists who commit terrorist attacks on our soil, without regard to whether it is a state-designated sponsor of terrorism, and amend the ATA to ensure that its anti-terrorism provisions, like FSIA's, are given the meaning Congress intended. I urge my colleagues to support these modest, but critical, amendments.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON FINANCE

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on December 23, 2009, at 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. CRAPO. Mr. President, I ask unanimous consent that Marques Chavez be granted the privilege of the floor for the remainder of today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

NUCLEAR FORENSICS AND ATTRIBUTION ACT

Mr. CASEY. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 244, H.R. 730.

The PRESIDING OFFICER. The clerk will report the bill by title.

The bill clerk read as follows:

A bill (H.R. 730) to strengthen efforts in the Department of Homeland Security to develop nuclear forensics capabilities to permit

attribution of the source of nuclear material, and for other purposes.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Homeland Security and Governmental Affairs with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Nuclear Forensics and Attribution Act".

SEC. 2. FINDINGS.

Congress finds the following:

(1) *The threat of a nuclear terrorist attack on American interests, both domestic and abroad, is one of the most serious threats to the national security of the United States. In the wake of an attack, attribution of responsibility would be of utmost importance. Because of the destructive power of a nuclear weapon, there could be little forensic evidence except the radioactive material in the weapon itself.*

(2) *Through advanced nuclear forensics, using both existing techniques and those under development, it may be possible to identify the source and pathway of a weapon or material after it is interdicted or detonated. Though identifying intercepted smuggled material is now possible in some cases, pre-detonation forensics is a relatively undeveloped field. The post-detonation nuclear forensics field is also immature, and the challenges are compounded by the pressures and time constraints of performing forensics after a nuclear or radiological attack.*

(3) *A robust and well-known capability to identify the source of nuclear or radiological material intended for or used in an act of terror could also deter prospective proliferators. Furthermore, the threat of effective attribution could compel improved security at material storage facilities, preventing the unwitting transfer of nuclear or radiological materials.*

(4)(A) *In order to identify special nuclear material and other radioactive materials confidently, it is necessary to have a robust capability to acquire samples in a timely manner, analyze and characterize samples, and compare samples against known signatures of nuclear and radiological material.*

(B) *Many of the radioisotopes produced in the detonation of a nuclear device have short half-lives, so the timely acquisition of samples is of the utmost importance. Over the past several decades, the ability of the United States to gather atmospheric samples—often the preferred method of sample acquisition—has diminished. This ability must be restored and modern techniques that could complement or replace existing techniques should be pursued.*

(C) *The discipline of pre-detonation forensics is a relatively undeveloped field. The radiation associated with a nuclear or radiological device may affect traditional forensics techniques in unknown ways. In a post-detonation scenario, radiochemistry may provide the most useful tools for analysis and characterization of samples. The number of radiochemistry programs and radiochemists in United States National Laboratories and universities has dramatically declined over the past several decades. The narrowing pipeline of qualified people into this critical field is a serious impediment to maintaining a robust and credible nuclear forensics program.*

(5) *Once samples have been acquired and characterized, it is necessary to compare the results against samples of known material from reactors, weapons, and enrichment facilities, and from medical, academic, commercial, and other facilities containing such materials, throughout the world. Some of these samples are available to the International Atomic Energy Agency through safeguards agreements, and some countries maintain internal sample databases. Access to samples in many countries is limited by national security concerns.*

(6) *In order to create a sufficient deterrent, it is necessary to have the capability to positively identify the source of nuclear or radiological material, and potential traffickers in nuclear or radiological material must be aware of that capability. International cooperation may be essential to catalogue all existing sources of nuclear or radiological material.*

SEC. 3. SENSE OF CONGRESS ON INTERNATIONAL AGREEMENTS FOR FORENSICS COOPERATION.

It is the sense of the Congress that the President should—

(1) *pursue bilateral and multilateral international agreements to establish, or seek to establish under the auspices of existing bilateral or multilateral agreements, an international framework for determining the source of any confiscated nuclear or radiological material or weapon, as well as the source of any detonated weapon and the nuclear or radiological material used in such a weapon;*

(2) *develop protocols for the data exchange and dissemination of sensitive information relating to nuclear or radiological materials and samples of controlled nuclear or radiological materials, to the extent required by the agreements entered into under paragraph (1); and*

(3) *develop expedited protocols for the data exchange and dissemination of sensitive information needed to publicly identify the source of a nuclear detonation.*

SEC. 4. RESPONSIBILITIES OF DOMESTIC NUCLEAR DETECTION OFFICE.

(a) *ADDITIONAL RESPONSIBILITIES.—Section 1902 of the Homeland Security Act of 2002 (as redesignated by Public Law 110-53; 6 U.S.C. 592) is amended—*

(1) *in subsection (a)—*

(A) *in paragraph (9), by striking "and" after the semicolon;*

(B) *by redesignating paragraph (10) as paragraph (14); and*

(C) *by inserting after paragraph (9) the following:*

"(10) lead the development and implementation of the national strategic five-year plan for improving the nuclear forensic and attribution capabilities of the United States required under section 1036 of the National Defense Authorization Act for Fiscal Year 2010;

"(11) establish, within the Domestic Nuclear Detection Office, the National Technical Nuclear Forensics Center to provide centralized stewardship, planning, assessment, gap analysis, exercises, improvement, and integration for all Federal nuclear forensics and attribution activities—

"(A) to ensure an enduring national technical nuclear forensics capability to strengthen the collective response of the United States to nuclear terrorism or other nuclear attacks; and

"(B) to coordinate and implement the national strategic five-year plan referred to in paragraph (10);

"(12) establish a National Nuclear Forensics Expertise Development Program, which—

"(A) is devoted to developing and maintaining a vibrant and enduring academic pathway from undergraduate to post-doctorate study in nuclear and geochemical science specialties directly relevant to technical nuclear forensics, including radiochemistry, geochemistry, nuclear physics, nuclear engineering, materials science, and analytical chemistry;

"(B) shall—

"(i) make available for undergraduate study student scholarships, with a duration of up to 4 years per student, which shall include, if possible, at least 1 summer internship at a national laboratory or appropriate Federal agency in the field of technical nuclear forensics during the course of the student's undergraduate career;

"(ii) make available for doctoral study student fellowships, with a duration of up to 5 years per student, which shall—

"(I) include, if possible, at least 2 summer internships at a national laboratory or appropriate Federal agency in the field of technical

nuclear forensics during the course of the student's graduate career; and

"(II) require each recipient to commit to serve for 2 years in a post-doctoral position in a technical nuclear forensics-related specialty at a national laboratory or appropriate Federal agency after graduation;

"(iii) make available to faculty awards, with a duration of 3 to 5 years each, to ensure faculty and their graduate students have a sustained funding stream; and

"(iv) place a particular emphasis on reinvigorating technical nuclear forensics programs while encouraging the participation of undergraduate students, graduate students, and university faculty from historically Black colleges and universities, Hispanic-serving institutions, Tribal Colleges and Universities, Asian American and Native American Pacific Islander-serving institutions, Alaska Native-serving institutions, and Hawaiian Native-serving institutions; and

"(C) shall—

"(i) provide for the selection of individuals to receive scholarships or fellowships under this section through a competitive process primarily on the basis of academic merit and the nuclear forensics and attribution needs of the United States Government;

"(ii) provide for the setting aside of up to 10 percent of the scholarships or fellowships awarded under this section for individuals who are Federal employees to enhance the education of such employees in areas of critical nuclear forensics and attribution needs of the United States Government, for doctoral education under the scholarship on a full-time or part-time basis;

"(iii) provide that the Secretary may enter into a contractual agreement with an institution of higher education under which the amounts provided for a scholarship under this section for tuition, fees, and other authorized expenses are paid directly to the institution with respect to which such scholarship is awarded;

"(iv) require scholarship recipients to maintain satisfactory academic progress; and

"(v) require that—

"(I) a scholarship recipient who fails to maintain a high level of academic standing, as defined by the Secretary, who is dismissed for disciplinary reasons from the educational institution such recipient is attending, or who voluntarily terminates academic training before graduation from the educational program for which the scholarship was awarded shall be liable to the United States for repayment within 1 year after the date of such default of all scholarship funds paid to such recipient and to the institution of higher education on the behalf of such recipient, provided that the repayment period may be extended by the Secretary if the Secretary determines it necessary, as established by regulation; and

"(II) a scholarship recipient who, for any reason except death or disability, fails to begin or complete the post-doctoral service requirements in a technical nuclear forensics-related specialty at a national laboratory or appropriate Federal agency after completion of academic training shall be liable to the United States for an amount equal to—

"(aa) the total amount of the scholarship received by such recipient under this section; and

"(bb) the interest on such amounts which would be payable if at the time the scholarship was received such scholarship was a loan bearing interest at the maximum legally prevailing rate;

"(13) provide an annual report to Congress on the activities carried out under paragraphs (10), (11), and (12); and"; and

(2) by adding at the end the following new subsection:

"(b) DEFINITIONS.—In this section:

"(1) ALASKA NATIVE-SERVING INSTITUTION.—The term 'Alaska Native-serving institution' has the meaning given the term in section 317 of the Higher Education Act of 1965 (20 U.S.C. 1059d).

"(2) ASIAN AMERICAN AND NATIVE AMERICAN PACIFIC ISLANDER-SERVING INSTITUTION.—The term 'Asian American and Native American Pacific Islander-serving institution' has the meaning given the term in section 320 of the Higher Education Act of 1965 (20 U.S.C. 1059g).

"(3) HAWAIIAN NATIVE-SERVING INSTITUTION.—The term 'Hawaiian native-serving institution' has the meaning given the term in section 317 of the Higher Education Act of 1965 (20 U.S.C. 1059d).

"(4) HISPANIC-SERVING INSTITUTION.—The term 'Hispanic-serving institution' has the meaning given that term in section 502 of the Higher Education Act of 1965 (20 U.S.C. 1101a).

"(5) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term 'historically Black college or university' has the meaning given the term 'part B institution' in section 322(2) of the Higher Education Act of 1965 (20 U.S.C. 1061(2)).

"(6) TRIBAL COLLEGE OR UNIVERSITY.—The term 'Tribal College or University' has the meaning given that term in section 316(b) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b))."

(b) JOINT INTERAGENCY ANNUAL REPORTING REQUIREMENT TO CONGRESS AND THE PRESIDENT.—

(1) IN GENERAL.—Section 1907(a)(1) of the Homeland Security Act of 2002 (6 U.S.C. 596a(a)(1)) is amended—

(A) in subparagraph (A)(ii), by striking ";" and inserting a semicolon;

(B) in subparagraph (B)(iii), by striking the period at the end and inserting ";" and"; and

(C) by adding at the end the following new subparagraph:

"(C) the Director of the Domestic Nuclear Detection Office and each of the relevant departments that are partners in the National Technical Forensics Center—

"(i) include, as part of the assessments, evaluations, and reviews required under this paragraph, each office's or department's activities and investments in support of nuclear forensics and attribution activities and specific goals and objectives accomplished during the previous year pursuant to the national strategic five-year plan for improving the nuclear forensic and attribution capabilities of the United States required under section 1036 of the National Defense Authorization Act for Fiscal Year 2010;

"(ii) attaches, as an appendix to the Joint Interagency Annual Review, the most current version of such strategy and plan; and

"(iii) includes a description of new or amended bilateral and multilateral agreements and efforts in support of nuclear forensics and attribution activities accomplished during the previous year."

Mr. CASEY. I ask unanimous consent that the committee substitute amendment be agreed to, the bill, as amended, be read a third time and passed, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 730), as amended, was read the third time and passed.

EXTENDING THE COMMERCIAL SPACE TRANSPORTATION LIABILITY REGIME

Mr. CASEY. Mr. President, I ask unanimous consent that the Senate

proceed to the consideration of Calender No. 249, H.R. 3819, an act to extend the commercial space transportation liability regime.

The PRESIDING OFFICER. The clerk will report the bill by title.

The bill clerk read as follows:

A bill (H.R. 3819) to extend the commercial space transportation liability regime.

There being no objection, the Senate proceeded to consider the bill.

Mr. CASEY. Mr. President, I ask unanimous consent that the bill be read a third time, passed, and the motion to reconsider be laid upon the table and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3819) was ordered to be read a third time, was read the third time, and passed.

DISCHARGE AND REFERRAL—EXECUTIVE NOMINATION

Mr. CASEY. Mr. President, as in executive session, I ask unanimous consent that the Committee on Environment and Public Works be discharged from further consideration of the following nomination and that the nomination be referred to the Committee on Commerce, Science, and Transportation:

Timothy McGee, of Louisiana, to be an Assistant Secretary of Commerce.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR THURSDAY, DECEMBER 24, 2009

Mr. CASEY. I ask unanimous consent that when the Senate completes its business today, it adjourn until 6:45 a.m., Thursday, December 24; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of H.R. 3590, with the time until 7 a.m. equally divided and controlled between the two leaders or their designees, and the Senate proceed to vote on passage of the bill at 7 a.m., as provided for under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. CASEY. Mr. President, there will be two rollcall votes beginning at 7 a.m. tomorrow. The first vote will be on passage of H.R. 3590. The second vote will be on passage of H.R. 4314. Senators are encouraged to be in the Chamber at the beginning of the first vote and to vote from their desks.

ADJOURNMENT UNTIL 6:45 A.M. TOMORROW

Mr. CASEY. If there is no further business to come before the Senate, I
