

ratings. We didn't talk about having a AAA rating because we were above even that. Our rating was so superior to anyone else's, the rating system didn't even really apply to the United States. Well, now, not only does it apply, but the danger is that we won't even qualify for the top rating.

Do you know what it is that would cause them to downgrade the debt of the United States? It is not a failure to raise the debt limit by August 2; it is the failure to address this fiscal imbalance, these massive, unsustainable deficits. That is what they have told us has to be corrected or else the downgrade follows, and a downgrade will be enormously problematic because it has all kinds of knock-on effects.

So we have heard about a lot of different ideas that have been floated, and I congratulate and commend everybody who has been involved in putting in a lot of effort. I don't agree with everything that everybody has talked about doing, but I think we have seen people from both parties make a good-faith effort to try to solve this problem one way or another. But the fact is there is only one proposal on the table that has passed either body, and there is only one proposal that actually solves our long-term fiscal challenge in the law that has already passed—the bill that has already been passed.

So my question now is, Will the President join us and put our government on a path to a balanced budget? We don't expect to get there overnight. By the way, the various levels of cuts and spending and the exact terms of the balanced budget amendment naturally would be subject to discussion. But will the President join us in this effort to restore fiscal sanity and give us the basis for strong economic growth? That is the question, and that is the opportunity for the President.

Now, I know the President has been dismissive of the idea of balancing our budget, but I certainly hope he is not so opposed to balancing our budget that he would reject the debt limit increase that he has said we desperately need. There is an opportunity here to solve two problems at once—to solve this problem over the looming date of August 2 by which he has said we absolutely must raise the debt limit, but the more important opportunity is to put our house in fiscal order.

The House took a very important step in that direction. The Senate will have a vote later this week. I hope my colleagues in the Senate will embrace this opportunity and the President will join us and will put our Federal Government on a path to balance.

With that, I yield the floor.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER (Mrs. HAGAN). Morning business is closed. The Senator from Oregon.

Mr. MERKLEY. Madam President, I ask unanimous consent to speak as in morning business for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2012—Continued

Mr. MERKLEY. Madam President, I rise to address amendment No. 570, offered by Senator WYDEN, regarding closure of the Umatilla Chemical Depot. It is an amendment on which I am proud to partner with him.

This is a very important issue to my home State of Oregon. We have a situation where 20 years of planning have gone forward to arrange for the final transition of this chemical depot based on the recommendations of the Base Closure and Realignment Commission. Indeed, the BRAC Commission, as it is known, noted:

On completion of the chemical demilitarization mission in accordance with treaty obligations, close Umatilla Chemical Depot, Oregon.

This was language that was specifically done to recognize that the chemical depot had to complete its work dismantling the chemical weapons stored there according to the Chemical Weapons Convention Treaty. That treaty had a deadline of April 29, 2012, and thus it wasn't clear that the work would be done within the 6 years outlined for most of the BRAC's work. So they changed the language from "close the Umatilla Chemical Depot" to "on completion of the chemical demilitarization mission in accordance with treaty obligations."

So since this has been a discussion for so long, with the community working so hard with so many stakeholders in order to put the plans together to transition this base to a productive civilian role, it came as a complete shock recently when the community was notified by the Army that, despite the specific language that accommodated the treaty deadline of April 2012, they were going to rule that the transfer under the BRAC legislation could not be completed because it was an exception—even an exception written into the law—to the initial 6 years.

It was quite a shock because a local reuse authority has been formed and has been working hard with representatives from all local stakeholders to make sure this base is transferred in a way that creates the best possible economy and best use of this land. It has been a complicated task. It has been an earnest effort.

This is not the time for the Army to change the rules, digging up a clause and misapplying that clause, ignoring the exception written into the law, and claiming that this work done over all this time doesn't matter.

That is why I am so delighted to join with Senator WYDEN in putting a clarification into statute that says, yes, what the original legislation said with an April 2012 deadline recognizing our treaty obligations must be honored and

the BRAC process must be honored for the best use of this land in the community.

MORNING BUSINESS

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. JOHNSON of South Dakota. Madam President, I ask unanimous consent to return to morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE RYAN PLAN

Mr. JOHNSON of South Dakota. Madam President, I quote former Reagan Economic Adviser Bartlett on the House Republican plan.

Distributionally, the Ryan plan is a monstrosity. The rich would receive huge tax cuts while the social safety net would be shredded to pay for them. Even as an opening bid to begin budget negotiations with the Democrats, the Ryan plan cannot be taken seriously. It is less of a wish list than a fairy tale, utterly disconnected from the real world, backed up by make-believe numbers and unreasonable assumptions. Ryan's plan isn't even an act of courage. It is just pandering to the Tea Party. A real act of courage would have been for him to admit, as all serious budget analysts know, that revenues will have to rise well above 19 percent of GDP to stabilize the debt.

Former Reagan administration economic adviser Bruce Bartlett from Capital Gains and Games Blog, "Imbalanced Budget."

I would clarify the impact of the balanced budget proposal. He has called it sheer idiocy. That comes from the former Reagan economic adviser.

MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2012—Continued

AMENDMENT NO. 575

Ms. AYOTTE. Madam President, I ask unanimous consent to set aside the pending amendment and call up my amendment No. 575, which is at the desk.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The clerk will report.

The assistant bill clerk read as follows:

The Senator from New Hampshire [Ms. AYOTTE] proposes an amendment numbered 575.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require the Secretary of Veterans Affairs, in coordination with the Defense Advanced Research Projects Agency, to submit a report to Congress detailing the Secretary's plans, and identifying challenges, both technical and administrative, to ensure that advanced, next-generation prosthetics are made available to injured members of the Armed Forces and veterans in a timely manner)

On page 112, between lines 2 and 3, insert the following:

SEC. 230. (a) Not later than 90 days after the date of the enactment of this Act, the Secretary of Veterans Affairs, in coordination with the Defense Advanced Research Projects Agency (DARPA), shall submit to the Committee on Appropriations, the Committee on Veterans' Affairs, and the Committee on Armed Services of the Senate and the Committee on Appropriations, the Committee on Veterans' Affairs, and the Committee on Armed Services of the House of Representatives a report, in writing, on the plans of the Secretary to make available to injured members of the Armed Forces and veterans the next generation of advanced prosthetics.

(b) The report required by subsection (a) shall include the following:

(1) Details of the strategic plan and timetable of the Secretary to make available to injured members of the Armed Forces and veterans the next generation of advanced prosthetics

(2) A description of the challenges, both technical and administrative, that could delay injured members of the Armed Forces and veterans access to prosthetics described in paragraph (1).

(3) The plans of the Secretary to address these challenges described under paragraph (2).

The PRESIDING OFFICER. The Senator from New Hampshire.

Ms. AYOTTE. Madam President, I have offered an amendment to H.R. 2055. It seeks to help to make sure our wounded warriors get the benefits of next-generation advanced prosthetics in a timely fashion.

This amendment would require the Secretary of Veterans Affairs to submit to Congress a report within 90 days, identifying the bureaucratic hurdles and redtape we need to cut through to make sure the research that is being done and the next-generation advanced prosthetics that are being developed to help our wounded warriors will get to them as quickly as possible.

We have invested substantial taxpayer dollars, including through the Defense Advanced Research Project Agency, or DARPA, in developing this great technology in advanced next-generation prosthetics.

Last week, I had the chance to go to Walter Reed Hospital and meet with some of our wounded warriors. They are absolutely amazing Americans, and what they have done for our country is incredible. We can never repay the sacrifices they have made. But the last thing they should have to put up with is waiting for years of delay through the FDA or other government agencies to make sure they can get the very best technology available for next-generation advanced prosthetics. That is why I offer this amendment.

I hope this amendment will be passed to make sure we can cut through the

redtape, that the Veterans' Administration will identify any hurdles that are present, that we can get through those hurdles and get that technology to our wounded warriors as soon as possible, given what they have done for our country and continue to do in fighting on our behalf. They are heroes, and they deserve to not have to wait and wade through government bureaucracy.

The PRESIDING OFFICER. The Senator from California.

AMENDMENT NO. 577

Mrs. BOXER. Madam President, I ask unanimous consent to set aside any pending amendments and call up amendment No. 577.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The clerk will report.

The assistant bill clerk read as follows:

The Senator from California [Mrs. BOXER] proposes an amendment numbered 577.

Mrs. BOXER. Madam President, I ask unanimous consent that the amendment be considered as read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, add the following:

SEC. ____ No later than 90 days after enactment of this Act, the Secretary of Defense shall report to the Committees on Appropriations of the Senate and the House of Representatives on the status and improvement plan for all DODEA schools with an overall condition rating of Q3 (poor) or Q4 (failing) as identified in the October 2009 Report to Congress on Department of Defense Education Activity's Military Construction Program.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Madam President, the Department of Defense runs schools that serve over 86,000 children across America, Europe, and in the Pacific region. That is why I was able to get together with Senator GRAHAM and Senator INHOFE to work on a way we could get those schools fixed because they are crumbling. Since a picture is worth a thousand words, I will show this picture from one of the schools.

We can see the tiles on the roof crumbling. We have had that in our public schools, before we woke up. Literally, these tiles fall down, and it is just by the grace of God that a child or a teacher doesn't get hit and very hurt. Clearly, we need to do something about it.

What I would like to say is, we started off with an amendment that actually required the DOD to fix these schools. Now we are asking for a report that they do it because we have to avoid some parliamentary procedure problems of legislating on approps. So we believe we have done this.

I think everyone should be read last month's Newsweek. They published an investigation by the Standard for Public Integrity, which documented the conditions of DOD-run schools with se-

rious problems, leaks, corrosion, mold and overcrowding and relying on temporary facilities.

My amendment has the strong support of the National Military Families Association. They sent me a statement and I will close with this.

DOD schools, especially at U.S. installations overseas, are a community focal point and a key element in the support network for our military families stressed by a decade of war. Poorly repaired or out-of-date buildings can also create the perception among military families that their children's education is not a priority for our Nation.

I urge support for this bipartisan amendment, and I would yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Madam President, I ask unanimous consent that the Johnson-Kirk amendment No. 556 be modified further with the changes that are at the desk; that Senator WARNER be added as a cosponsor to the Johnson-Kirk amendment; that the pending amendments be set aside and two amendments from Senator HUTCHISON be called up, No. 562 and No. 563 en bloc, and following the reporting of the Hutchison amendments, the following pending amendments be agreed to:

Johnson-Kirk No. 556, as further modified; Wyden No. 570; Hutchison, No. 562; and Hutchison No. 563; further, the pending McCain amendment No. 553 be withdrawn; that no other amendments, motions or points of order be in order other than motions to table or budget points of order and the applicable motions to waive; that at 4:45 p.m., the Senate proceed to a vote in relation to the following amendments in the order listed below: Ayotte amendment No. 575, Boxer amendment No. 577, and Coburn amendment No. 564; that upon disposition of the Coburn amendment, the substitute amendment, as amended, be agreed to; the bill be read a third time and the Senate proceed to a vote on passage of the bill, as amended; and the motions to reconsider be made and laid upon the table; finally, that upon passage, the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and the Chair be authorized to appoint conferees on the part of the Senate, with a ratio of 9 to 8.

The PRESIDING OFFICER. Is there objection?

Mr. REID. I would ask that my request be modified to allow 2 minutes of debate, equally divided, between the votes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

AMENDMENT NO. 556, AS FURTHER MODIFIED

The amendment (No. 556), as further modified, is as follows:

On page 114 between lines 18 and 19, insert the following:

SEC. 301. Not later than 90 days after enactment of this Act, the Executive Director of Arlington National Cemetery shall provide a

report to the Committees on Appropriations of the Senate and the House of Representatives; the Senate Armed Services Committee; the Senate Veterans' Affairs Committee; and the Senate Homeland Security and Governmental Affairs Committee detailing the strategic plan and timetable to modernize the Cemetery's Information Technology system, including electronic burial records. The report should also include a description of the steps taken by the Executive Director in 2011 to implement information technology and management systems improvements, and identify any remaining information technology and systems infrastructure needs of Arlington National Cemetery.

AMENDMENTS NOS. 562 AND 563

The PRESIDING OFFICER. The clerk will report the Hutchison amendments.

The assistant bill clerk read as follows:

The Senator from Texas [Mrs. HUTCHISON] proposes amendments numbered 562 and 563.

The amendments are as follows:

AMENDMENT NO. 562

(Purpose: To restrict the use of funds for a permanent United States Africa Command headquarters outside of the United States)

On page 84, between lines 5 and 6, insert the following:

SEC. 127. None of the funds appropriated or otherwise made available by this title may be obligated or expended for a permanent United States Africa Command headquarters outside of the United States until the Secretary of Defense provides the congressional defense committees an analysis of all military construction costs associated with establishing a permanent location overseas versus in the United States.

(Purpose: To limit the availability of funds for military construction projects at Grafenwohr and Baumholder, Germany, pending a report on the brigade combat team scheduled to be withdrawn from Germany in 2015)

On page 84, between lines 5 and 6, insert the following:

SEC. 127. None of the funds appropriated or otherwise made available by this title may be obligated or expended on a military construction project at Grafenwohr, Germany, or Baumholder, Germany, until the Secretary of the Army submits to Congress, in writing, a report on installations and properties in Germany that the Army intends to return to the host nation, including—

(1) intended timelines for closures along with the list of military construction projects required at other installations to facilitate the downsizing and consolidation of Army forces in Germany;

(2) an identification of the brigade combat team that will be withdrawn from Germany; and

(3) an estimate of costs (including operation and maintenance costs and military construction costs) to be incurred during fiscal years 2012 through 2015 in connection with keeping the brigade identified in Germany through September 30, 2015 versus stationing a similar brigade in the United States.

The PRESIDING OFFICER. Amendment No. 556, as further modified, and amendments Nos. 570, 562, and 563 are agreed to.

Amendment No. 553 is withdrawn.

The PRESIDING OFFICER. The Senator from Arizona.

AMENDMENT NO. 564

Mr. MCCAIN. Madam President, I rise in support of the Coburn amendment and ask unanimous consent to engage in a colloquy with the Senator from Oklahoma.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Madam President, I think it is important for us to understand what this amendment is about.

It does not affect the decisions regarding disability as a result of Agent Orange that have already been decided under the guidelines that were extended by the Secretary of Veterans Affairs. This is a prospective amendment. So any allegation that this somehow affects previous awarding of disability payments is not correct. It is a prospective amendment for cases that will be decided in the future.

The issue of disability is always one that is very difficult because we start on the basis that concerns men and women who have served honorably in the military. Obviously, the predilection is, appropriately, to grant disabilities where those claims are made. But we now have a situation where somewhere around \$40 billion, \$41 billion, simply over the issue of heart disease, can be awarded without what appears to be a direct connection to Agent Orange.

There were many of our men and women who were serving in the conflict in Vietnam who were exposed to Agent Orange, but there were many more who were not. I don't think one can make a case that someone who was stationed on a ship in the Gulf of Tonkin and was many miles from any Agent Orange, that one could make a plausible case that Agent Orange was the cause of this disability.

What this amendment tries to do is give a realistic set of parameters for the awarding of disability payment for those who actually were exposed, and not only exposed but also that there is a direct connection between the exposure to herbicides and the outcome.

There are many needs amongst our veterans. They are there every single day. The purpose of this amendment is to make sure there is a legitimate need for compensation for those who were exposed to Agent Orange and a direct connection between that exposure and certain disabilities, particularly heart disease, Parkinson's disease, Hodgkin's, et cetera. What we are trying to do is make sure those who were actually exposed, and there is a direct connection, are rewarded, and adequately so, but at the same time not have a situation where it is an open-ended expenditure of taxpayers' dollars.

The Veterans' Disability Benefits Commission endorsed the need for establishing a new framework for presumptions with more transparent processes but failed to take the full step of embracing causality in decision-making. This amendment will achieve that goal identified by the Institute of Medicine to ensure that scientifically

based causality is at the heart of the disability determination process.

I would match the commitment of the Senator from Oklahoma and my own for veterans with the commitment of anyone in this body, but there also has to be some rationality associated with it. I was a great admirer of the Honorable Tony Principi, who was the former Secretary of Veterans Affairs. Again, I want to quote from his statement:

If the American people lose faith in the integrity of our disability benefit system, veterans and their families will be the ones who suffer. The surest way for that to happen is for the public to be convinced that presumptive service connection decisions are based on anything other than sound scientific advice.

These presumptions, as they presently exist, are not based on sound scientific advice. With some I am sure this amendment is not popular, but I thank my colleague from Oklahoma for bringing it to the attention of this body.

Mr. COBURN. Madam President, I thank the Senator from Arizona. We want to make sure any veteran who has a positive causation factor from any aspect that would lead to any disability, that we meet that need. That is not what this is about.

This has been looked at two times by the Institute of Medicine. The first time there was no study—none of the studies they cited showed even positive association. The last time we had two that showed some positive association but absolutely no causation. There is a big difference in science. Something can be associated with something and doesn't mean it causes it. On that basis, the Secretary committed this country to make payments to people for disabilities that are not associated with their service. The point is, in a limited budget going forward, if we are paying for disabilities that are not associated with service, that means we are going to have less money available for those veterans who do have a disability.

We have heard, No. 1, this will reverse all that has come before. It will not. It is prospective only. It will not change the presumption that if someone was in or above Vietnam they have the presumption of being exposed to Agent Orange. That will not change at all. The previous scientific diseases that were based on causation will not be eliminated at all. But, in fact, those that are not associated with causality will be eliminated.

Will they be eliminated in the future? If the science at some point in time shows us that there is a causal relationship between that exposure and disease, then we can do something about it. But now we are throwing money at disabilities that are not associated and not caused by veterans' exposure to this herbicide.

I ask, given where we are in this country and the fact that we are going to have a tough time funding veterans

programs in the future anyway, that we ought not spend a dollar on something that is not directly caused by a veteran's exposure to Agent Orange so that we have that dollar to pay for those who truly were exposed and truly have a disability.

I yield back to the Senator from Arizona.

Mr. MCCAIN. I thank the Senator from Oklahoma. I ask him, I have heard anecdotally the eligibility for disability under the guidelines as issued by the Secretary of the Army—and, by the way, we are talking about \$40-some billion additional of taxpayers' money. I think that should be the subject of legislative action rather than a decision made by the Secretary of Veterans Affairs.

Is it not true that, anecdotally, we have heard that people who were in the Korean war and not the Vietnam war have somehow become eligible? And people who were on ships in the Gulf of Tonkin, not anywhere near Agent Orange, have also been declared eligible?

Mr. COBURN. They are eligible, and there are some reasons for that. But that is not what this debate is about. We are not questioning it. We are just saying on this basis we are not using science how we have used it in every other aspect of veterans' disability. Now we are going beyond science.

When we look at the total number of studies, rarely 3 percent or so show any association, and association does not imply any causation. So we have the Secretary who has made a decision to commit this country to \$42 billion of additional expenditures not based on sound science but the fact that he can do that, and that is what I think is wrong. If the veterans committee thinks there is the science to do that, they should bring a bill to the floor and do that. But the science is not there. I have looked at it. I have read it. It is not there.

The Institute of Medicine says it is not there, and they say disability ought to be based on causation, not on association.

Mr. MCCAIN. Madam President, I yield the floor.

Mr. JOHNSON of South Dakota. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. BOXER. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 577, AS MODIFIED

Mrs. BOXER. Madam President, I ask unanimous consent that Boxer amendment No. 577 be modified with the changes that are already at the desk.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendment (No. 577), as modified, is as follows:

At the appropriate place, add the following:

SEC. ____ . No later than 90 days after enactment of this Act, the Secretary of Defense shall report to the Congressional Defense Committees of the Senate and the House of Representatives on the status and improvement plan for all DODEA schools with an overall condition rating of Q3 (poor) or Q4 (failing) as identified in the October 2009 Report to Congress on Department of Defense Education Activity's Military Construction Program.

Mrs. BOXER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. JOHNSON of South Dakota. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JOHNSON of South Dakota. I thank the Chair.

AMENDMENT NO. 575

The PRESIDING OFFICER. Under the previous order, the question is on agreeing to amendment No. 575.

The amendment (No. 575) was agreed to.

AMENDMENT NO. 577, AS MODIFIED

The PRESIDING OFFICER. Under the previous order, the question is on agreeing to the Boxer amendment No. 577, as modified.

The amendment (No. 577), as modified, was agreed to.

AMENDMENT NO. 564

The PRESIDING OFFICER. There will now be 2 minutes of debate equally divided on the Coburn amendment.

The Senator from Oklahoma.

Mr. COBURN. This is a commonsense amendment that will secure this for veterans and make sure we are not paying for disabilities for those who are not truly service connected, that are not based on science or causation. I know it is a tough vote, but in the environment we face today we ought to be using science to positively connect causality with any disability we grant.

With that, I reserve the remainder of my time.

Mrs. MURRAY. So my colleagues know, there is a reason we have made this type of compensation like Agent Orange presumptive. It is because our military did a miserable job of tracking these exposures, and it is because no veteran will ever be able to go to a map and tell you with certainty where they were exposed. No veteran will tell you what and how much of this poison Agent Orange they inhaled. So we have to look at the facts with reason and compassion, and in this case on the one hand we have the knowledge that we sprayed a known killer throughout the area where a number of these veterans were serving.

We have had thousands of veterans who have come forward and believe their cancers and ailments were caused by that exposure. We have studies that show veterans exposed to Agent Orange are more likely to have heart disease,

cancer, and other conditions. We have the Institute of Medicine which has recommended giving these veterans the benefit of the doubt, and we have the Secretary of Veterans Affairs who has decided we need to move forward to provide compensation.

On the other hand, you have an amendment today—while it makes a compelling case for saving money, it hasn't presented any evidence at all that Agent Orange did not cause the conditions faced by these Vietnam veterans coming forward. An amendment that asks our veterans to wait longer? That is something they have already done too much of. They have been waiting and getting sicker. They have been dying for 40 years or more. We should not ask them to wait longer.

The PRESIDING OFFICER. The Senator's time has expired.

Mrs. MURRAY. I thank the Chair. I urge my colleagues to vote to table this amendment. And if the Senator wants to finish his remarks, I will move to table when he is finished.

Mr. COBURN. I wish to make one point. The Institute of Medicine did not recommend this. As a matter of fact, their recommendation was that causality ought to be the only way in which we would do this.

I would ask for the yeas and nays on the amendment.

Mrs. MURRAY. Madam President, I move to table the amendment. I ask for the yeas and nays.

The PRESIDING OFFICER. The question is on agreeing to the motion.

Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll. The legislative clerk called the roll.

Mr. KYL. The following Senator is necessarily absent: the Senator from Arkansas (Mr. BOOZMAN).

The PRESIDING OFFICER (Mr. WHITEHOUSE). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 69, nays 30, as follows:

Boozman

The motion was agreed to.

Mr. DURBIN. Mr. President, I rise to express my support for the fiscal year 2012 Military Construction and Veterans Affairs appropriations bill.

As a nation we are dedicated to taking care of our troops, those same troops who deploy into harm's way regardless of whether we are able to come to an agreement on our debt ceiling.

We are also dedicated to upholding our commitment to our veterans who have fought past wars and did so because they believed in this country and the freedoms we all enjoy today.

This bill passed the Appropriations Committee unanimously on June 30, and I'm pleased the Senate moved quickly to bring this measure to the floor for debate.

Our Nation has been at war for almost a decade. We are involved in three wars. In support of our troops on the front lines, we need to make sure they have the infrastructure they need to train and the family housing facilities they deserve.

The bill includes \$11.1 billion for military construction worldwide to provide for barracks, readiness centers, schools, hospitals and clinics.

In particular, it provides the entire requested amount, \$1.2 billion, for reservist construction projects.

Several of these projects from the President's budget are in Illinois, totaling some \$146 million. The bill provides for Army Reserve centers in Homewood and Rockford, IL. It also provides for an Army National Guard Readiness Center in Normal, IL, as well as renovations to the Great Lakes Naval Station.

The bill provides funding for necessary projects like these all across the country.

Without them, our Guard and Reserve would struggle to maintain the training and preparations necessary in a time of war.

The bill also keeps our commitment to our veterans, some of whose lives have changed forever as a result of their service.

We are all committed to providing our veterans with the care, services and facilities they deserve, even in tough budget years.

As such, the bill provides VA medical research at \$72 million above the budget request for mental health, traumatic brain injury, spinal cord injury, burns and sensory loss.

These are key areas for a cohort of veterans who are surviving in larger numbers than previous wars due to improved medical care.

To take one example: Our men and women on the front lines are increas-

ingly suffering brain injuries from improvised explosive device, IED, blasts. While we have advanced our understanding of how traumatic brain injury, TBI, affects the brain, there is still a lot more to learn through this research.

This funding will also continue work with prosthetics. Walter Reed Army Medical Center has done amazing work with providing prosthetics that even help return some servicemembers to their pre-injury jobs in the military.

Many use their new prosthetics and relearn how to not only take care of themselves, but also ski, ride a bike, and even fish. Without this funding our troops and veterans would not have access to the amazing medical advances which make these activities possible.

Another key area of this bill fully funds the information technology infrastructure at the VA. This will allow the agency to continue developing and improving electronic health records, paperless claims systems, and implementing the seamless integration between the DOD and the VA.

These systems should help address the claims backlog—a problem our veterans deserve to have addressed.

Yes, the VA has expanded eligibility to include those exposed to Agent Orange, a policy long time coming. Yes, there are large numbers of OEF and OIF veterans submitting claims, an unfortunate state of events.

But not one of these veterans deserves to wait for months and years for a response to their disability claim. We can do better. And we must do better.

And for our veterans who have been severely injured as a result of their service and now require full-time care, the VA has already begun accepting applications for the Caregivers Program. Over 1,100 applications have been received nationwide by the end of last month.

I am proud to have helped create this program as part of the Caregiver and Veterans Omnibus Health Services Act of 2009.

The Caregiver Program helps keep the promise our country has made to our veterans by providing comfortable and dignified home care by a family member for post-9/11 veterans.

I have met several of these veterans and their caregivers in Illinois. It has been a long and winding road, but we are finally going in the right direction and supporting those families whose servicemember was severely injured.

This bill provides 100 percent of the President's request, \$208 million, for implementation of the Caregivers Program, and our veterans and their families are depending on the passage of this bill.

Americans are counting on us to pass bills and legislate. Our servicemembers are counting on us to fund their needs so they can get on with the business of keeping us safe. And our veterans are expecting us to honor our commitment and honor their service by paying for the care and services they have so rightly earned.

Senator JOHNSON and Senator KIRK, the managers of this bill, have put a great deal of effort into creating a spending bill that is fiscally responsible without sacrificing the needs of our men and women in uniform. I look forward to the conclusion of debate on this bill and moving to final passage.

Mr. WARNER. Mr. President, I call to the attention of my colleagues two amendments that Senator WEBB and I have filed to the Military Construction and Veterans Affairs, and Related Agencies Appropriations Act for 2012.

Each of these amendments relates to the Navy's proposal to build a new nuclear pier facility to support east coast aircraft carriers. With annual recurring costs, this new project would likely cost just shy of a billion dollars.

At a time when our Nation is in a severe fiscal crisis and the Navy cannot pay to maintain the infrastructure it currently owns. As Admiral Mullen has said, the greatest challenge to our national security is our mounting debt.

Together, these amendments would save nearly \$15 million for an unnecessary Navy military construction project at Naval Station Mayport, FL. We are awaiting completion of an independent GAO assessment of the strategic risks to our carrier fleet which include manmade and natural disasters. It would also consider the cost and benefits of what other measures we can take to mitigate risk.

This is not a small project, the Navy estimates its homeporting plan will cost nearly \$600 million, but that cost could escalate to up to \$1 billion during the eight years ahead. Tack on to that more than \$20 million in annual maintenance costs currently estimated for an additional homeport and we are signing the taxpayer up for a big bill, much of which is not funded. It is in the "outyears" as they say.

The justification for a new homeport is the mitigation of the risk of a terrorist attack, accident, or natural disaster occurring at the nuclear handling facility at the existing carrier homeport at Norfolk, VA.

However, the current Navy plan fails to take into account the two additional east coast carrier capable facilities at Newport News, VA, and the Naval Shipyard. Each of these facilities maintains separate nuclear handling sites located many miles apart. If there were damage to the existing Naval base, the Navy could simply disperse the carriers to other piers. That is a lot cheaper and more efficient than building a new, duplicative facility.

Additionally, recent Navy briefings indicate there is a 50-percent greater chance of a major hurricane hitting Mayport than Norfolk. Why would we want to build a new facility at a higher risk location?

The Navy has also identified unfunded priorities totaling \$11.8 billion between fiscal year 2008 and fiscal year 2012. These priorities are in critical areas including shipbuilding, military construction, maintenance, and acquisition programs—programs which are

critical to both our current and future readiness.

We must maintain our existing infrastructure properly before pursuing a duplicative homeporting project. It is more fiscally responsible for the Navy to reduce its current unfunded requirements, which total tens of billions of dollars.

With our serious fiscal reality, it is much more responsible to focus on taking care of the infrastructure we have then embarking on buying new infrastructure which we cannot afford and piles more money onto our national debt.

The PRESIDING OFFICER. The substitute amendment, as amended, is agreed to.

The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. JOHNSON of South Dakota. Mr. President, I would like to yield to Senator KIRK for any final remarks he may have.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. KIRK. Mr. President, I remind Members, we are now moving to final passage on our first appropriations bill of this Congress. It has been 2 years since the Senate has passed a separate freestanding appropriations bill, but this is a bipartisan measure. It is marked to the House budget level, the Paul Ryan budget. We made difficult decisions cutting 24 separate military construction programs. We denied the Court of Appeals for Veterans Claims a new building. We came in below the President, about \$1.2 billion below the President; \$620 million below last year, and even \$2.6 million below the House-passed bill.

This is the bill that takes care of over 22 million veterans and our military construction needs. I thank Chairman JOHNSON for his work as we get the Appropriations Committee going again in a bipartisan way.

With that, I yield back to the chairman.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. JOHNSON of South Dakota. Mr. President, shortly we will be voting on final passage of the MILCON-VA appropriations bill. I would like to thank Leaders REID and MCCONNELL and Chairman INOUE and Vice Chairman COCHRAN for their leadership and support in getting us to this point.

I would especially like to thank my ranking member, Senator KIRK, for his cooperation and support in crafting this bill and steering it through the Senate. I am confident we would not be where we are today without his help and hard work on this bill.

I also thank my colleagues for helping us to move this bill forward by re-

jecting dilatory amendments and by showing restraint in offering amendments to this bill. A number of Senators have filed amendments that are very important to them but are also controversial or not relevant to the bill. I appreciate their willingness to postpone debate on some of these issues so as not to bog down this bill.

For example, I know Senators WEBB and WARNER feel very strongly about their amendments regarding the homeporting of a Navy carrier on the east coast, and I know the Florida Senators have equally strong feelings on this subject. I understand the Defense authorization bill includes a provision mandating a GAO report on this issue, and I appreciate the willingness of both delegations to postpone the debate on the carrier issue so we can focus on timely passage of this appropriations bill.

Mr. President, I also thank the subcommittee staff who do the heavy lifting in the drafting and managing of the bill on the Senate floor.

As I have said many times, this is a good bill. It is bipartisan, and it is responsible. I urge all of my colleagues to support it.

Mr. KIRK. If the Senator would yield?

Mr. JOHNSON of South Dakota. Yes.

Mr. KIRK. I also thank Dave Schiappa, Laura Dove, and Ashley Messick on the Senate floor for guiding this bill through; Chairman INOUE and especially his staff director, Charlie Houy; Vice Chairman COCHRAN and his staff director, Bruce Evans.

I thank Chairman JOHNSON and especially Tina Evans, Chad Schulken, Andy Vanlandingham, Dennis Balkham, D'Ann Lettieri, and Patrick Magnuson who have brought this first appropriations bill of this Congress through.

With that, I yield the floor.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

Mr. JOHNSON of South Dakota. I ask for the yeas and nays on passage of the bill.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

Mr. KYL. The following Senator is necessarily absent: the Senator from Arkansas (Mr. BOOZMAN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 97, nays 2, as follows:

The PRESIDING OFFICER. The Senate insists on its amendment, requests a conference with the House on the disagreeing votes of the two Houses, and the Chair appoints:

Mr. JOHNSON of South Dakota, Mr. INOUE, Ms. LANDRIEU, Mrs. MURRAY, Mr. REED of Rhode Island, Mr. NELSON of Nebraska, Mr. PRYOR, Mr. TESTER, Mr. LEAHY, Mr. KIRK, Mrs. HUTCHISON, Mr. MCCONNELL, Ms. MURKOWSKI, Mr. BLUNT, Mr. HOEVEN, Mr. COATS, and Mr. COCHRAN, conferees on the part of the Senate.

The majority leader is recognized.

Mr. REID. Mr. President, I express my appreciation to the chairman and the ranking member of the subcommittee for the work they have done on this bill. It took a little longer than we wanted, but they got it done. They have been excellent managers of this important legislation. It is our first appropriations bill. Senator MCCONNELL and I want to do other appropriations bills. It would be a new day to do these bills rather than having a big omnibus bill. Again, I express my appreciation to the managers.

There will be no more rollcall votes today. Tomorrow, I am going to move to proceed to the bill that we call the Cut, Cap, and Balance bill received from the House today. Under the rules of the Senate, a cloture vote on the motion to proceed will occur Saturday. Therefore, I expect a cloture vote sometime before lunchtime.

I am committed to allowing a full and fair debate on this bill. I want the proponents and the opponents to have plenty of time to air their views. If the proponents of the bill would like to have the vote sooner, they can let me know and we will try to work something out. There may be efforts to try to advance that vote. As far as I am concerned, we should have a full and fair debate, and I look forward to that.

The PRESIDING OFFICER. The minority leader is recognized.

Mr. MCCONNELL. Mr. President, let me echo the remarks of the majority leader regarding the chairman and the ranking members of this subcommittee, who have done a fine job. I commend Senator KIRK, who has served around here for the last couple of years. It is truly remarkable to pass an appropriations bill. We passed it at a level where it is likely to be conferenced successfully with the House. I congratulate both Senators—in particular our new Senator from Illinois.

I also share the view of the majority leader that we should have a vigorous debate over cut, cap, and balance. I look forward to being here Saturday to vote to proceed to that bill.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KIRK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.
