

following: “**SENSE OF CONGRESS ON IMPORTANCE OF ESTABLISHING A HOMEPORT FOR A NUCLEAR-POWERED AIRCRAFT CARRIER AT MAYPORT NAVAL STATION, FLORIDA.**”

It is the sense of Congress that—

(1) as mandated in the 2010 Quadrennial Defense Review, in order to mitigate the risk of a terrorist attack, accident, or natural disaster, the United States Navy will homeport an East Coast carrier in Mayport, Florida;

(2) numerous studies have affirmed what the Navy has maintained all along, that dispersing our capital ships is in our best national security interest;

(3) this decision has been supported by the past four Chiefs of Naval Operations, and both President George W. Bush and President Barack Obama;

(4) during this time of fiscal austerity, the case for strategic dispersal has been strengthened by the recent Government Accountability Office report that states that the total one-time cost of homeporting a nuclear-powered aircraft carrier at Naval Station Mayport is expected to be between \$258,700,000 and \$356,000,000, which is well below the Navy’s estimate of the one-time cost as \$537,600,000;

(5) the infrastructure improvements necessary to ready Mayport for a carrier move in 2019 are purposefully spread out over the next five years in order to mitigate the impact on the Navy’s budget in any given year; and

(6) dispersing the East Coast carrier fleet is a national security priority, and the infrastructure improvements necessary to achieve this goal are vital to the defense of our Nation.
