Whereas, as of 2014, the majority of direct support professionals are employed in home and community-based settings and this majority is projected to increase over the next decade;

Whereas there is a documented and increasing critical shortage of direct support professionals throughout the United States; and

Whereas many direct support professionals are forced to leave their jobs due to inadequate wages and benefits and limited opportunities for advancement, creating demonstrated high turnover and vacancy rates, which adversely affect the quality of support and the safety and health of individuals with disabilities: Now, therefore, be it
