DISMANTLING THE WOTUS RULE

(Mr. ALLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ALLEN. Mr. Speaker, waters of the United States, or WOTUS, has been a thorn in the side of Americans, especially our farmers, since its introduction. WOTUS is a rule issued under the Clean Water Act by the EPA and Army Corps of Engineers designed to redefine the scope of waters protected and regulated by the Federal Government.

WOTUS would grant the Federal Government regulatory power over virtually any place where water flows in the United States; that includes ditches, puddles, streams, or any man-made constructions, you name it. If enacted, it would undermine the rights of States, local governments and landowners, and create more red tape, preventing economic growth and jobs, particularly in the agriculture industry. If it sounds ridiculous, that is because it is.

WOTUS was flawed from the beginning. It has been held up in the courts since 2015.

To ensure WOTUS never sees the light of day and completely eliminate the potential of it becoming a reality, I introduced legislation to repeal this harmful rule.

I look forward to working with President Trump and my colleagues on this very important issue.

CERBERUS CAPITAL MANAGEMENT

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, before President Trump and Steve Bannon bring in a Wall Street billionaire to

delve into our Nation's most classified intelligence, the American people have a right to know the facts about who he and his firm are.

If you believe in the United States military, as I do, and not simply cashing it out to private guns for hire, then we would best pay attention to Stephen Feinberg, CEO of Cerberus, who is to be tasked with leading a review of our U.S. intelligence agencies.

Cerberus also owns DynCorp, which is in a legal dispute over a \$10 billion State Department contract for operations in foreign countries.

The Director of Homeland Security, retired General Kelly, received \$166,000 as an adviser to DynCorp prior to his Cabinet appointment. Simply put, Cerberus profits off the privatization of war.

Handing the keys to our intelligence agencies over to Wall Street is dangerous. Privatization of our homeland security and Armed Forces jeopardizes our national security. It is critical we stand together, take action to demand transparency, prevail for the sake of future generations, and prevent the siphoning of funds intended for our military.

Before any Wall Street speculator sets foot on our Nation's most precious security turf, the American people and our military need complete disclosure and divestiture of all Cerberus' and Mr. Feinberg's holdings.

PARKING DRIVE-BY LAWSUITS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, Weingarten Realty owns several shopping centers in Texas. Recently they were sued by plaintiffs who had never visited the shopping center.

The complaint?

Allegedly, nine designated ADA van-accessible parking spaces were not dispersed far enough apart.

The plaintiff did not notify Weingarten of the alleged violations before filing the lawsuit, so Weingarten couldn't comply.

The real estate company believes they were in compliance with the ADA. But often companies like Weingarten decide the best economic decision is to settle the lawsuit rather than an expensive court trial. Businesses are told to either pay a settlement or face an expensive trial.

The bipartisan bill, the ADA Education and Reform Act of 2017, requires plaintiffs to give businesses notice and time to fix the alleged ADA infraction before a lawsuit is filed.

Mr. Speaker, the ADA was designed to improve access for the disabled, not allow a handful of greedy plaintiffs who have never been on the premises to use a loophole to extort unsuspecting businessowners of money.

And that is just the way it is.
