

America Free Trade Agreement (CAFTA) and the Korea-U.S. Free Trade Agreement (KORUS), the United States has closed roughly 60,000 manufacturing facilities here at home. To put things into perspective, this represents 3 times the number of people that live here in Brook Park, OH. If you would go around Brook Park today, every man you would see would be equal to 3 manufacturing facilities closed, for every woman you would see would be equal to 3 manufacturing facilities closed and for every child you would see would be equal to 3 manufacturing facilities closed. The 60,000 closed facilities equates to around 5 million lost manufacturing jobs. This number represents the entire population of the states of Montana, Idaho, Wyoming, North Dakota and South Dakota combined. It's not just about manufacturing jobs, the U.S. has also experienced job loss in the sectors of computer programming, call centers, engineering and service sector jobs as well and many other employment sectors. In Ohio alone, since NAFTA, we have lost over 300,000 manufacturing jobs which is more than every man woman and child that lives in the city of Cincinnati.

Along with the jobs that are lost directly in manufacturing, there are effects to the local community. First, because manufacturing jobs typically pay more than other jobs in the area, when they are lost there is a natural downward pressure that is put on wages and benefits to remaining jobs in the immediate area. Secondly, the combination of the lost manufacturing jobs and the downward pressure on the remaining jobs means less money for the community tax base, which affects the schools, police and fire departments, roads and bridges and other public services. This means the public sector workers are left struggling to maintain a decent standard of living for their families. Donald Trump has been right to highlight NAFTA and the impact it has had on our trade deficit. Yet his administration has failed to propose the bold changes needed to properly replace NAFTA, reduce our trade deficit, and create more manufacturing jobs that would raise wages for workers at home and abroad, as was promised.

There are conditions needed in future trade agreements that the Trump Administration has not committed to, to make trade fair and a level playing field. First, we a strong and enforceable labor and environmental standard that will not only lift wages and protect jobs here at home, but will lift working conditions abroad. So far the Trump Administration only seeks to use the weak and unenforceable standards from previous agreements. Second, we need to end investor state protections that make it easier for multi-national corporations to shift jobs overseas and end investor state dispute settlements that allow corporations to sue the United States taxpayers because of a law that may protect its citizens yet may increase corporate production costs. Third, we need stronger rules of origin laws and close the back door that allows parts made in China and Vietnam and assembled in the United States and labeled made in the USA in order to get tariff relief protection. Tariff deduction should not be granted unless the majority of the product is made here at home. Lastly, we need to end the NAFTA ban on "Buy America" so tax dollars can be used as much as possible to create jobs that local communities desperately need. The White House plan to renegotiate NAFTA is vague on these four points. If the NAFTA renegotiations process is going to benefit American workers we have to hold the White House more accountable for these promised changes and more.

Finally, the NAFTA renegotiations cannot be done behind closed doors with corporate

advisors dictating the terms of the Agreement. This creates too many conflicts of interests. They must be transparent and exposed to public scrutiny. The United Steelworkers stand ready to lend their voice and resources to ensure these points are part of any NAFTA renegotiations. Thank You Congressman KAPTUR for your work and your consideration.

NAFTA HEARING, MARK PAYNE

I am here to talk about manufacturing in Cleveland and the effect NAFTA has had on our Site. At one time our Site had over 14,000 workers. Our Aluminum Plant phased out 2005 and the equipment was loaded up and sent to Cifunza, Mexico.

Our Casting Plant phased out in 2010 and its work was sent to Mexico and Tupy, Brazil. Engine Plant 2 Phased out in 2012 and is now sitting idle. This Plant won the Shingo Award for best quality!

What is the common denominator here? Bad Trade Agreements!!!!

We battled against the EPA Restrictions in the Casting Plant. We fought against low wages from other countries.

How do you compete against poverty wages? Against lax EPA standards from other countries? Against a lack of investment in America?

Across from our Union Hall once stood our Casting Plant, it is now just an open field . . . Was it dirty work, yes, but it was our work!!!!

Our workers know the effects of a bad Trade Agreement!

But, we did not have a Level Playing field! Trade Agreements seeks to drive down our wages in a race to the bottom. The current Mexican auto worker wage has even fallen under NAFTA, from \$3.95 an hour to \$2.93 an hour.

With fair competition we have proven that we will excel in the global marketplace. But we must have a living wage for a fair day of work. We must invest in America.

The problem is our Trade agreements "perception" of progress, without making any. The problem is our trade agreements reward Companies that take work out of America.

Are the Trade agreements unlocking the opportunities for America or are we just widening the lane for our jobs to leave America?

Trades Agreements has cost Ohio over 323,000 manufacturing jobs. Under NAFTA the trade imbalance in the auto sector has grown from \$3.5 billion in 1993 to \$45.1 billion in 2016.

Ford will say that they were only following their "Way Forward" Strategy. For Cleveland NAFTA has been a job killing strategy.

No one can tell me that low wages mixed with lax EPA standards was not a part of Ford's "Way Forward" decision to relocate our work.

Nothing stings worse than having your jobs moved to another country produce the product you used to make, and have that same product brought back into this Country for us to buy.

In Cleveland, we are slowly coming back, we produce the 3.5 and 3.7 V-6 Ecoboost engines and we were able to accomplish a 'reverse NAFTA', bring work from Spain to Cleveland when we launched a new 4 cyl engine. We are also slated to produce the engine from the New Ranger/Bronco vehicles coming out in 2019.

Work coming back to Cleveland is like Lebron James coming back to the Cavs. They should have never left! Ohio is a great place for work to come to . . . no social unrest, just hard working men and women from a blue collar town, building quality engines.

In closing, I want to thank Congresswoman Marcy Kaptur for fighting the good fight and

for supporting good paying jobs in America once again. Congresswoman, Spread our message! The UAW has your back!

Ms. KAPTUR. Mr. Speaker, they directly know the negative impacts of NAFTA. Amy stressed the changing nature of manufacturing in Ohio, making up one of eight jobs. Donnie discussed how Ohio has lost over 300,000 manufacturing jobs as well as the imperative for a new NAFTA transparent agreement. Mark Payne spoke about the need for a continental living wage and investment in American job growth. All three emphasized a deal that works for jobs here in America, America's workers, and Buy American provisions.

Mr. Speaker, I urge my colleagues and the administration to take heed of their testimony. We need to create jobs here in America and across this continent that are living wage jobs.

SALUTING THE LIFE AND SERVICE OF FORMER MARINE AND ONEIDA COUNTY DEPUTY SHERIFF KURT B. WYMAN

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to salute Deputy Kurt B. Wyman, a Marine Corps veteran and Oneida County sheriff's deputy who was killed in the line of duty in 2011 at only 24 years old.

Deputy Wyman served with distinction in Iraq, earning the Iraqi Campaign Medal, Sea Service Deployment Ribbon, Armed Forces Reserve Medal, and the Navy and Marine Corps Achievement Medal. During his service in the Oneida County Sheriff's Office, he was named Rookie of the Year and earned the Grand Cordon Medal twice.

Following his tragic death, the Deputy Kurt B. Wyman Foundation was created to celebrate and honor his distinguished life of service to our community and our Nation. Through the foundation's efforts, the Deputy Kurt B. Wyman Memorial Park in Whitestown was constructed as a resource for local families.

Each year, an annual fall festival and a motorcycle ride are held at the park to honor and remember Deputy Wyman's legacy. I am honored to be joined by so many others who are grateful citizens by riding my own Harley-Davidson in this beautiful tribute to Deputy Wyman each year.

Please join me and our entire community today in celebrating the life of Deputy Kurt B. Wyman, who paid the ultimate sacrifice in service to our community and this great Nation.

PUERTO RICO IS FACING A HUMANITARIAN CRISIS

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
