In order to promote a strong, lasting foundation for the national innovation ecosystem and increase the positive economic and social impact of federally funded research, the Secretary of Defense may—

SEC. 3 . DEPARTMENT OF DEFENSE ENVIRONMENTAL RESTORATION PROGRAMS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Defense has identified nearly 39,500 sites that fall under the installation restoration program sites and munitions response sites.

(2) The installation response program addresses contamination from hazardous substances, pollutants, or contaminants and active military installations, formerly used defense site properties, and base realignment and closure locations in the United States.

(3) Munitions response sites are known or suspected to contain unexploded ordnance, discarded military munitions, or munitions constituents are addressed through the military munitions response program.

(4) The installation restoration program sites and munitions response sites have had significant impacts on state and local governments that have had to bear the increased costs of environmental degradation, notably groundwater contamination, and local populations that have had to live with the consequences of contaminated drinking, including increased health concerns and decreasing property values.

(5) Through the end of fiscal year 2017, the Department of Defense had achieved response complete at 86 percent of installation restoration program sites and munitions response sites, but projects that it will fall short of meeting its goal of 90 percent by the end of fiscal year 2018.

(6) The fiscal year 2019 budget request for environmental restoration and base realignment and closure amounted to nearly \$1,318,320,000, a decrease of \$53,429,000 from the amount authorized in the National Defense Authorization Act for Fiscal Year 2018 (Public Law 115-91).

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the environmental restoration and base realignment and closure programs are important for the protection of the environment, the health of the military and civilian personnel and their families who live and work on military installations, to ensure that current and legacy military operations do not adversely affect the health or environments of surrounding communities;

(2) the Department of Defense and the Armed Forces should seek to reduce the financial burden on state and local government who are bearing significant costs of cleanup stemming from defense related activities;

(3) the Department of Defense and the Armed Forces should expedite and stream-

line cleanup at locations where contamination is having a direct impact on civilian access to clean drinking water;

(4) the Department of Defense and the Armed Forces should continue to engage with and help allay local community concerns about the safety of the drinking water due to environmental degradation caused by defense related activities; and

(5) the Department of Defense should seek opportunities to accelerate environmental restoration efforts where feasible, to include programming additional resources for response actions, investing in technology solutions that may expedite response actions, improving contracting procedures, increasing contracting capacity, and seeking opportunities for partnerships and other cooperative approaches.

(c) BRIEFING REQUIRED.—Not later than 120 days after enactment of this Act, the Assistant Secretary of Defense for Energy, Installations, and Environment shall provide a briefing to the Committees on Armed Services of the Senate and House of Representatives on initiatives being pursued to accelerate environmental restoration efforts.

In the administration of this section, the Secretary shall take such action as may be necessary and appropriate to insure that female individuals shall be eligible for appointment and admission to the Coast Guard Academy, and that the relevant standards required for appointment, admission, training, graduation, and commissioning of female individuals shall be the same as those required for male individuals, except for those minimum essential adjustments in such standards required because of physiological differences between male and female individuals.”;

“(5) may require the receipt of prearrival messages from any vessel, destined for a port or place subject to the jurisdiction of the United States, in sufficient time to permit advance vessel traffic planning before port entry, which shall include any information that is not already a matter of record and that the Secretary determines necessary for the control of the vessel and the safety of the port or the marine environment; and

“(6) may prohibit the use on vessels of electronic or other devices that interfere with communication and navigation equipment, except that such authority shall not apply to electronic or other devices certified to transmit in the maritime services by the Federal Communications Commission and used within the frequency bands 157.1875–157.4375 MHz and 161.7875–162.0375 MHz.

“(b) COOPERATIVE AGREEMENTS.—

“(2) LIMITATION.—

“(A) A nongovernmental entity may not under this subsection carry out an inherently governmental function.

“(B) As used in this paragraph, the term ‘inherently governmental function’ means any activity that is so intimately related to the public interest as to mandate performance by an officer or employee of the Federal Government, including an activity that requires either the exercise of discretion in applying the authority of the Government or the use of judgment in making a decision for the Government.

“(1) COAST GUARD VESSEL TRAFFIC SERVICE PILOTS.—Any pilot, acting in the course and scope of his or her duties while at a Coast Guard Vessel Traffic Service, who provides information, advice, or communication assistance while under the supervision of a Coast Guard officer, member, or employee shall not be liable for damages caused by or related to such assistance unless the acts or omissions of such pilot constitute gross negligence or willful misconduct.

“(2) NON-FEDERAL VESSEL TRAFFIC SERVICE OPERATORS.—An entity operating a non-Federal vessel traffic information service or advisory service pursuant to a duly executed written agreement with the Coast Guard, and any pilot acting on behalf of such entity, is not liable for damages caused by or related to information, advice, or communication assistance provided by such entity or pilot while so operating or acting unless the acts or omissions of such entity or pilot constitute gross negligence or willful misconduct.

“§ 70002. Special powers

“The Secretary may order any vessel, in a port or place subject to the jurisdiction of the United States or in the navigable waters of the United States, to operate or anchor in a manner the Secretary directs if—

“(1) the Secretary has reasonable cause to believe such vessel does not comply with any regulation issued under section 70034 or any other applicable law or treaty;

“(2) the Secretary determines such vessel does not satisfy the conditions for port entry set forth in section 70021 of this title; or

“(3) by reason of weather, visibility, sea conditions, port congestion, other hazardous circumstances, or the condition of such vessel, the Secretary is satisfied such direction is justified in the interest of safety.

“§ 70003. Port access routes

“(a) AUTHORITY TO DESIGNATE.—Except as provided in subsection (b) and subject to the requirements of subsection (c), in order to provide safe access routes for the movement of vessel traffic proceeding to or from ports or places subject to the jurisdiction of the United States, the Secretary shall designate necessary fairways and traffic separation schemes for vessels operating in the territorial sea of the United States and in high seas approaches, outside the territorial sea, to such ports or places. Such a designation shall recognize, within the designated area, the paramount right of navigation over all other uses.

“(b) LIMITATION.—

“(1) IN GENERAL.—No designation may be made by the Secretary under this section if—

“(A) the Secretary determines such a designation, as implemented, would deprive any person of the effective exercise of a right granted by a lease or permit executed or issued under other applicable provisions of law; and

“(B) such right has become vested before the time of publication of the notice required by paragraph (1) of subsection (c).

“(2) CONSULTATION REQUIRED.—The Secretary shall make the determination under paragraph (1)(A) after consultation with the head of the agency responsible for executing the lease or issuing the permit.

“(c) CONSIDERATION OF OTHER USES.—Before making a designation under subsection (a), and in accordance with the requirements of section 70004, the Secretary shall—

“(1) undertake a study of the potential traffic density and the need for safe access routes for vessels in any area for which fairways or traffic separation schemes are proposed or that may otherwise be considered and publish notice of such undertaking in the Federal Register;

“(2) in consultation with the Secretary of State, the Secretary of the Interior, the Secretary of Commerce, the Secretary of the Army, and the Governors of affected States, as their responsibilities may require, take into account all other uses of the area under consideration, including, as appropriate, the exploration for, or exploitation of, oil, gas, or other mineral resources, the construction or operation of deepwater ports or other structures on or above the seabed or subsoil of the submerged lands or the Outer Continental Shelf of the United States, the establishment or operation of marine or estuarine sanctuaries, and activities involving recreational or commercial fishing; and

“(3) to the extent practicable, reconcile the need for safe access routes with the needs of all other reasonable uses of the area involved.

“(d) STUDY.—In carrying out the Secretary’s responsibilities under subsection (c), the Secretary shall—

“(1) proceed expeditiously to complete any study undertaken; and

“(2) after completion of such a study, promptly—

“(A) issue a notice of proposed rulemaking for the designation contemplated; or

“(B) publish in the Federal Register a notice that no designation is contemplated as a result of the study and the reason for such determination.

“(e) IMPLEMENTATION OF DESIGNATION.—In connection with a designation made under this section, the Secretary—

“(1) shall issue reasonable rules and regulations governing the use of such designated areas, including rules and regulations regarding the applicability of rules 9 and 10 of the International Regulations for Preventing Collisions at Sea, 1972, relating to narrow channels and traffic separation schemes, respectively, in waters where such regulations apply;

“(2) to the extent that the Secretary finds reasonable and necessary to effectuate the purposes of the designation, make the use of designated fairways and traffic separation schemes mandatory for specific types and sizes of vessels, foreign and domestic, operating in the territorial sea of the United States and for specific types and sizes of vessels of the United States operating on the high seas beyond the territorial sea of the United States;

“(3) may, from time to time, as necessary, adjust the location or limits of designated fairways or traffic separation schemes in order to accommodate the needs of other uses that cannot be reasonably accommodated otherwise, except that such an adjustment may not, in the judgment of the Secretary, unacceptably adversely affect the purpose for which the existing designation was made and the need for which continues; and

“(4) shall, through appropriate channels—

“(A) notify cognizant international organizations of any designation, or adjustment thereof; and

“(B) take action to seek the cooperation of foreign States in making it mandatory for vessels under their control to use, to the same extent as required by the Secretary for vessels of the United States, any fairway or traffic separation scheme designated under this section in any area of the high seas.

“§ 70004. Considerations by Secretary

“In carrying out the duties of the Secretary under sections 70001, 70002, and 70003, the Secretary shall—

“(1) take into account all relevant factors concerning navigation and vessel safety, protection of the marine environment, and the safety and security of United States ports and waterways, including—

“(A) the scope and degree of the risk or hazard involved;

“(B) vessel traffic characteristics and trends, including traffic volume, the sizes and types of vessels involved, potential interference with the flow of commercial traffic, the presence of any unusual cargoes, and other similar factors;

“(C) port and waterway configurations and variations in local conditions of geography, climate, and other similar factors;

“(D) the need for granting exemptions for the installation and use of equipment or devices for use with vessel traffic services for certain classes of small vessels, such as self-propelled fishing vessels and recreational vessels;

“(1) require vessels operating in an area of a vessel traffic service to utilize or to comply with the vessel traffic service, including the carrying or installation of equipment and devices as necessary for the use of the service; and

“(2) waive, by order or regulation, the application of any United States law or regulation concerning the design, construction, operation, equipment, personnel qualifications, and manning standards for vessels operating in waters over which the United States exercises jurisdiction if such vessel is not en route to or from a United States port or place, and if vessels en route to or from a United States port or place are accorded equivalent waivers of laws and regulations of the neighboring nation, when operating in waters over which that nation exercises jurisdiction.

“(d) SHIP REPORTING SYSTEMS.—The Secretary, in cooperation with the International Maritime Organization, may implement and enforce two mandatory ship reporting systems, consistent with international law, with respect to vessels subject to such reporting systems entering the following areas of the Atlantic Ocean:

(2) The outcome of the demonstration program, including—

(A) the number of participants in the demonstration program that successfully completed the Basic Officer Training course or the Commissioned Officer Training course;

(D) such recommendation for modifications to the demonstration program as the Secretary considers appropriate to increase further inclusion of individuals with auditory disabilities serving as officers in the Air Force or other Armed Forces.

(3) Such recommendations for legislative or administrative action as the Secretary considers appropriate in light of the demonstration program.

(g) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

Modification to amendment No. 53 offered by Mr. CURBELO of Florida:

The amendment as modified is as follows:

Page 877, insert after line 9 the following new section (and redesignate the succeeding sections accordingly):

consent the modification be considered as read.

The Acting CHAIR. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Acting CHAIR. Is there objection to the original request of the gentleman from Texas?

There was no objection.

The Acting CHAIR. The amendment is modified.

The Chair recognizes the gentleman from Texas

Mr. THORNBERRY. Mr. Chairman, I yield 3 minutes to the gentleman from Texas (Mr. MCCAUL), the chairman of the Homeland Security Committee.

Mr. MCCAUL. Mr. Chairman, I thank Chairman THORNBERRY for yielding me time.

Mr. Chairman, protecting U.S. Government communication networks from foreign adversaries such as China is vital to our national security. I share the concerns of FBI Director Wray, who testified before the Senate. He was deeply concerned about the risk of allowing any company or entity that is beholden to foreign governments that don't share our values to gain positions of power inside our telecommunications networks.

Mr. Chairman, I am pleased to see that section 880 of the NDAA of FY19 addresses this concern by prohibiting Federal departments and agencies from procuring equipment and services from foreign firms such as ZTE and Huawei. Specifically, ZTE violated U.S. sanctions and then got caught lying about it. After agreeing to discipline their employees, they lied again and, instead, gave those employees a bonus.

Now it appears that we are offering them the same kind of deal. They clearly do not have a record built on trust with the United States Government. This poses significant risks to our Nation's security.

However, this prohibition does not apply to State and local governments, who often rely on Federal grant dollars and play a major role in the protection of our Nations' security, and that is why I have offered this amendment.

My amendment simply extends the prohibition on purchasing ZTE and Huawei products and services to Federal grant money and loans to better safeguard State and local communications networks.

Mr. Chair, I urge my colleagues to protect our Nation's communications networks from foreign adversaries and support this amendment.

Mr. GARAMENDI. Mr. Chairman, I yield 2 minutes to the gentlewoman from New Mexico (Ms. MICHELLE LUJAN GRISHAM).

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Mr. Chairman, New Mexico is home to the Kirtland Air Force Research Laboratory that develops groundbreaking technologies that support our men and women in the Armed Forces.

These technologies often have a range of commercial applications that

can re-energize domestic manufacturing, create high-paying jobs, and increase economic development in our State, which has the second highest unemployment rate in the Nation.

High-speed internet servers, GPS, electric vehicles, and even microwave ovens are just a few of the examples of transformational technologies that were originally developed by the Federal Government.

My amendments would help facilitate the commercialization of innovative DOD-developed technologies by investing in the scientists, engineers, and mathematicians serving in our military laboratories.

By providing laboratory personnel with business education, entrepreneurial sabbaticals, and new opportunities to partner with universities and businesses, we can make cutting-edge technologies more widely available to American businesses and consumers, grow our economy, and ensure that the United States leads the world in innovation.

Mr. Chairman, I urge my colleagues to support my amendments.

Mr. THORNBERRY. Mr. Chairman, I yield 1 minute to the gentleman from Maine (Mr. POLIQUIN).

Mr. POLIQUIN. Mr. Chairman, I greatly appreciate everybody recognizing the importance of the hardworking folks at the Defense Financing Accounting Services.

Lots of our fellow Americans might not realize that DFAS has an incredibly important function to cut the payroll checks for our men and women in uniform, and also they pay the vendors, suppliers, and contractors that keep our military operating; 122 million transactions last year.

Mr. Chairman, during the past 20 years, the Pentagon has consolidated 300 DFAS offices into 10 today, and the civilian workforce has been reduced from 27,000 to 13,000.

Mr. Chairman, I am so pleased and grateful that the Armed Services Committee and the Rules Committee are advancing my amendment to clarify that there is no intention by the House of Representatives to further consolidate any DFAS location or jobs.

Mr. Chairman, I am so proud of the 600 hardworking Mainers who cut checks for our brave military personnel at the DFAS facility in Limestone, Maine, way up north in Aroostook County. These 600 Maine jobs are so important to our families and also to our military personnel.

Mr. GARAMENDI. Mr. Chairman, I yield 1 minute to the gentleman from New York (Mr. SUOZZI).

Mr. SUOZZI. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I am pleased that my bipartisan amendment has been included in this en bloc package.

There is a major problem in our country that Americans want us to address. It is a bipartisan issue related to contamination related from defense-related activities, and I want to thank

the chairman of the committee for his assistance in working on this, as well as my colleagues, Congressman COOK and Congresswoman HANABUSA, for their work in helping to get this done.

Military bases and munitions storage depots and armament manufacturing facilities have left behind a multibillion-dollar legacy of required environmental cleanup.

Under my amendment, the Assistant Secretary of Defense for Energy, Installations, and the Environment will be required to brief the Committee on Armed Services on initiatives being pursued to accelerate environmental restoration efforts.

In my district alone, there is a site that was contaminated by a Grumman in conjunction with the United States Navy. It was discovered over 40 years ago. It has contaminated groundwater, which is the sole source of drinking water on Long Island.

There are people that are trying to get these things cleaned up, but there is so much bureaucracy, so much red tape, so much finger-pointing, that we need to send a clear message from Congress that we need the executive branch to work together with us to accelerate this cleanup.

Mr. Chairman, this amendment will help get that done.

Mr. THORNBERRY. Mr. Chairman, I yield 1 minute to the gentlewoman from Missouri (Mrs. HARTZLER), the distinguished chair of our Subcommittee on Oversight and Investigations.

Mrs. HARTZLER. Mr. Chairman, I rise in support of this en bloc package.

Mr. Chairman, this package includes a bipartisan amendment to ensure that video surveillance equipment is included in the scope of the NDAA's prohibition on using certain Chinese technology in government agencies.

China is actively expanding the role of its companies in the U.S. domestic communications and public safety sectors. Video surveillance and security equipment sold by Chinese companies exposes the U.S. Government to significant vulnerabilities due to built-in backdoors baked right into their products.

These backdoors can be used to covertly funnel data, including live video and audio surveillance of America's sensitive military installations and embassies, back to Chinese operatives. Given what we know about China's intentions and the security risks posed by these firms, we have absolutely no business helping China extend its networks further and further into our agencies.

Mr. Chairman, I want to thank Chairman THORNBERRY and Ranking Member SMITH for including this amendment in the package.

Mr. SMITH of Washington. Mr. Chairman, I yield 1 minute to the gentleman from Illinois (Mr. SCHNEIDER).

Mr. SCHNEIDER. Mr. Chairman, I want to thank the ranking member for yielding me the time.

Mr. Chairman, I rise today in support of my amendment to increase flexibility within the Small Business Innovative Research and Technology Transfer Programs.

Mr. Chairman, I want to thank Chairman THORNBERRY and Ranking Member SMITH for including it in this en bloc package.

Federal research programs invest in the future and ensure we stay at the global forefront of innovation and advancement.

But this investment is only the first step of the process. We must ensure that innovators and entrepreneurs have the tools necessary to bring their ideas to market.

Currently, SBIR and STTR recipients are restricted in how much funding they can use towards commercialization.

My amendment would increase the amount of funding recipients in phase 1 and phase 2 can use to pay for assistance protecting intellectual property, conducting market research, mapping out manufacturing plans, and other steps that would help them successfully commercialize their ideas.

My amendment would help empower successful innovators with more resources to turn federally funded research into viable commercial products, creating quality jobs and securing our Nation's creative leadership.

MODIFICATION TO AMENDMENTS EN BLOC NO. 1
OFFERED BY MR. THORNBERRY OF TEXAS

Mr. THORNBERRY. Mr. Chairman, I ask unanimous consent that amendment No. 55 be removed from the en bloc package.

The Acting CHAIR. The Clerk will report the modification.

The Clerk read the modification as follows:

Strike amendment #55

The Acting CHAIR. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Acting CHAIR. Amendments en bloc No. 1 is modified.

The Chair recognizes the gentleman from Texas.

Mr. THORNBERRY. Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of Washington. Mr. Chairman, I yield 1 minute to the gentleman from California (Mr. TAKANO).

Mr. TAKANO. Mr. Chairman, I rise in support of my amendment, which would create a demonstration program in the Air Force for 15 to 20 deaf and hard-of-hearing individuals to serve their country.

This amendment is inspired by a young deaf man I met a few years ago named Keith Nolan. He excelled at the first two levels of Army ROTC and was prepared to take the next step when he was told that he could not continue because he is deaf. Including this amendment is an incredible tribute to Keith's advocacy, and I urge my colleagues in the Senate to maintain this provision.

I want to thank the chairman and ranking member for including this amendment. I am excited that we are taking this step forward to give the deaf community a chance to defend the country that they love and that we love.

Mr. SMITH of Washington. Mr. Chair, I yield 1 minute to the gentleman from Illinois (Mr. LIPINSKI).

Mr. LIPINSKI. Mr. Chairman, Iran is the world's foremost state sponsor of terrorism. In spite of their weak economy and U.S.-imposed sanctions in response to Iran's support for terrorism, abuse of human rights, and acquisition of prohibited weapons, they continue to support violent groups abroad.

As our diplomatic and military leaders determine how best to respond to Iran, they and the world, including Iranians, should have a detailed accounting of the amount spent by Iran to support specific terrorist groups. This is especially important in light of the escalating conflict between Israel and Iran-backed forces in Syria.

My amendment requires an annual report from the Secretary of State and the Director of National Intelligence describing Iranian expenditures on military and terrorist activities outside their country. This will send a clear message to Iran and our allies that we do not tolerate support of terrorism.

Mr. Chair, I thank the chairman and ranking member for including my amendment in this en bloc, and I urge my colleagues to support it.

Mr. SMITH of Washington. Mr. Chairman, we have no further speakers. I urge adoption of the amendment, and I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc, as modified, offered by the gentleman from Texas (Mr. THORNBERRY).

The en bloc amendments, as modified, were agreed to.

AMENDMENT NO. 3 OFFERED BY MR. GUTHRIE

The Acting CHAIR. It is now in order to consider amendment No. 3 printed in House Report 115-702.

Mr. GUTHRIE. Mr. Chair, I rise in support of my amendment.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title III, insert the following:

SEC. 3. PRODUCTION AND USE OF NATURAL GAS AT FORT KNOX.

(a) PRODUCTION AND USE OF NATURAL GAS AT FORT KNOX.—Chapter 449 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 4782. Natural gas: production, treatment, management, and use at Fort Knox, Kentucky

“(a) AUTHORITY.—(1) The Secretary of the Army may provide for the production, treatment, management, and use of natural gas located under Fort Knox, Kentucky, without regard to section 3 of the Mineral Leasing Act for Acquired Lands (30 U.S.C. 352).

“(2) The Secretary is authorized to enter into a contract with an appropriate entity to carry out paragraph (1).

“(b) LIMITATION ON USES.—Any natural gas produced under subsection (a) may be used only to support activities and operations at Fort Knox and may not be sold for use elsewhere.

“(c) OWNERSHIP OF FACILITIES.—The Secretary of the Army may take ownership of any gas production and treatment equipment and facilities and associated infrastructure from an entity with which the Secretary has entered into a contract under subsection (a) in accordance with the terms of the contract.

“(d) APPLICABILITY.—The authority of the Secretary of the Army under this section is effective as of August 2, 2007.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“4782. Natural gas: production, treatment, management, and use at Fort Knox, Kentucky.”.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from Kentucky (Mr. GUTHRIE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Kentucky.

Mr. GUTHRIE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chair, I really appreciate the chairman of the Armed Services Committee and the chairman of the Natural Resources Committee for working with me on this amendment.

I rise in support of the amendment to clarify Congress' intent with regard to energy security and conservation programs at Fort Knox.

In January 2009, a major ice storm hit my district, crippling local infrastructure for days. This outage across the region also affected Fort Knox, due to the post's reliance on the local energy grid.

This weather event highlighted a vulnerability that local leaders at Fort Knox took very seriously and had already been working for years to mitigate. With the full support of the Pentagon, the leaders on post and in the community around Fort Knox have made great strides to make Fort Knox the Army's first energy-secure installation. This really is a great story and one that we in Congress should support.

My amendment is about how natural gas fits into the complex, highly sophisticated energy security program at Fort Knox, Kentucky being blessed with natural gas. The award-winning combination of features and the Fort Knox energy program ranges from new power generation facilities to a geothermal pond, infrared heating system, extensive energy efficiency upgrades, and even a solar array. The dashboard in the control room is incredible to see as energy officials can remotely observe and analyze current energy consumption and efficiency, isolated to the level of individual rooms in the buildings on post.

While the energy conservation program started in the 1970s, the natural

gas story really came into focus a little over 10 years ago when the Army established service contracts with local companies to drill and pump methane gas on post. This is everything we want for our national security: energy independence and security that saves Federal money, off-the-grid capability during moments of a national crisis, and utilizing energy resources efficiency as close to the source as possible.

Natural gas has been produced and used on post since 2009 and makes up about 28 percent of annual needs. The amount of gas produces enough for an entire summer load. However, the catch is, and why we are here with this amendment, that the Interior Department has raised concerns because the Army did not go through the typical Bureau of Land Management lease process.

The Bureau of Land Management lease process will not work for this kind of operation because it is not in our national security interest to give mineral rights for DOD property to a third party. The Army should be able to access the resources on post for consumption and use on post without having to go through a third party or remit royalties.

This amendment simply allows Fort Knox to continue their great energy security success story and gives them the ability to remain the number one energy-secure Army installation.

Mr. Chair, I reserve the balance of my time.

Mr. LOWENTHAL. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from California is recognized for 5 minutes.

Mr. LOWENTHAL. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I am a little surprised that someone from Kentucky is sponsoring this amendment, because if this amendment were to become law, who would be the biggest loser? It would be the Commonwealth of Kentucky.

When the Army started developing natural gas under Fort Knox, it did so without notifying the Department of the Interior, which is the agency that is responsible for these resources. Now the Defense Department has admitted that it was a mistake and says that it has taken steps to prevent this from ever happening again. But we still know that they are producing gas, and I am glad that they have taken steps to prevent this in the future.

To my knowledge, that is not the critical issue. The critical issue is that we have a real problem here. That is, the natural gas that is under Fort Knox belongs to the American people, not the military, and royalties are owed to the American people when that gas is sold. As we know, half of those royalties would go to Kentucky.

For example, in 2014, the Army estimated that it effectively cheated Kentucky out of \$250,000, and now there are 4 more years of cheating Kentucky and

the American people out of their royalties. That number is probably much larger now than the \$250,000 a year.

We have no indication that the Army has paid any of these royalties, and until we deal with that issue that they are not paying royalties for the gas that the American people and the people of Kentucky own, we should not be letting them off the hook.

I would ask the sponsor of the amendment to look closely at this issue and what his home State stands to lose because of it and then to reconsider again whether or not he wants this amendment to be adopted.

I yield back the balance of my time.

Mr. GUTHRIE. Mr. Chairman, I just want to close by saying that it is owned by the American people, the military, which is why we are here today at the national level. It is owned by the American people. There are things that we can work through so that we can move forward.

Fort Knox is an economic driver in the community. The Federal tax dollars that come to Fort Knox to support our men and women contribute greatly to that community. Being energy secure is a vital component when we look at the overall needs of the Army and the importance of every Army post, and Fort Knox can certainly make a great claim, being off the grid and being able to operate in times of national emergencies.

So I do think this has been thought through. I think instead of going through the other process, we need to move forward and let the Department of Defense do what the Pentagon had sent Fort Knox forward to do.

Mr. Chair, I appreciate the comments of my friend from California, but I do think this is the right policy to move forward, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Kentucky (Mr. GUTHRIE).

The amendment was agreed to.

AMENDMENT NO. 8 OFFERED BY MR. AMODEI

The Acting CHAIR. It is now in order to consider amendment No. 8 printed in House Report 115-702.

Mr. AMODEI. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Add at the end the following:

DIVISION E—NATIONAL STRATEGIC AND CRITICAL MINERALS PRODUCTION

SEC. 4801. FINDINGS.

Congress finds that—

(1) in agreement with Executive Order 13806, a healthy manufacturing and defense industrial base and resilient supply chains are essential to the economic strength and national security of the United States. Modern supply chains, however are often long and the ability of the United States to manufacture or obtain goods critical to national security could be hampered by an inability to obtain various essential components, which themselves may not be directly related to national security;

(2) in agreement with Executive Order 13817, the United States is heavily reliant on imports of certain mineral commodities that are vital to the Nation's security and economic prosperity;

(3) this dependency of the United States on foreign sources creates a strategic vulnerability for both its economy and military to adverse foreign government actions, natural disaster, and other events that can disrupt supply of these key minerals. Increased private-sector domestic exploration, production, recycling, and reprocessing of critical minerals, and support for efforts to identify more commonly available technological alternatives to these minerals, will reduce our dependence on imports, preserve our leadership in technological innovation, support job creation, improve national security and balance of trade, and enhance the technological superiority and readiness of our Armed Forces, which are among the Nation's most significant consumers of critical minerals;

(4) the industrialization of developing nations has driven demand for nonfuel minerals necessary for telecommunications, military technologies, healthcare technologies, and conventional and renewable energy technologies;

(5) the availability of minerals and mineral materials are essential for economic growth, national security, technological innovation, and the manufacturing and agricultural supply chain;

(6) minerals and mineral materials are critical components of every transportation, water, telecommunications, and energy infrastructure project necessary to modernize the crumbling infrastructure of the United States;

(7) the exploration, production, processing, use, and recycling of minerals contribute significantly to the economic well-being, security, and general welfare of the United States; and

(8) the United States has vast mineral resources but is becoming increasingly dependent on foreign sources of mineral resources, as demonstrated by the fact that—

(A) 25 years ago, the United States was dependent on foreign sources for 45 nonfuel mineral materials, of which—

(i) 8 were imported by the United States to fulfill 100 percent of the requirements of the United States for those nonfuel mineral materials; and

(ii) 19 were imported by the United States to fulfill greater than 50 percent of the requirements of the United States for those nonfuel mineral materials;

(B) by 2015 the import dependence of the United States for nonfuel mineral materials increased from dependence on the import of 45 nonfuel mineral materials to dependence on the import of 47 nonfuel mineral materials, of which—

(i) 19 were imported by the United States to fulfill 100 percent of the requirements of the United States for those nonfuel mineral materials; and

(ii) 22 were imported by the United States to fulfill greater than 50 percent of the requirements of the United States for those nonfuel mineral materials;

(C) according to the Department of Energy, the United States imports greater than 50 percent of the 41 metals and minerals key to clean energy applications;

(D) the United States share of worldwide mineral exploration dollars was 7 percent in 2015, down from 19 percent in the early 1990s;

(E) the 2014 Ranking of Countries for Mining Investment, which ranks 25 major mining countries, found that 7- to 10-year permitting delays are the most significant risk to mining projects in the United States; and

(F) in late 2016, the Government Accountability Office found that—

(i) “the Federal government’s approach to addressing critical materials supply issues has not been consistent with selected key practices for interagency collaboration, such as ensuring that agencies’ roles and responsibilities are clearly defined”; and

(ii) “the Federal critical materials approach faces other limitations, including data limitations and a focus on only a subset of critical materials, a limited focus on domestic production of critical materials, and limited engagement with industry”.

(b) CONSIDERATION OF CERTAIN DOMESTIC MINES AS INFRASTRUCTURE PROJECTS.—A domestic mine that, as determined by the lead agency, will provide strategic and critical minerals shall be considered to be an infrastructure project, as described in Executive Order 13807.

SEC. 4804. RESPONSIBILITIES OF THE LEAD AGENCY.

(a) IN GENERAL.—The lead agency shall appoint a project lead within the lead agency, who shall coordinate and consult with cooperating agencies and any other agencies involved in the permitting process, project proponents, and contractors to ensure that cooperating agencies and other agencies involved in the permitting process, project proponents, and contractors—

(1) minimize delays;

(2) set and adhere to timelines and schedules for completion of the permitting process;

(3) set clear permitting goals; and

(4) track progress against those goals.

(b) DETERMINATION UNDER NEPA.—

(1) IN GENERAL.—To the extent that the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) applies to the issuance of any mineral exploration or mine permit, the requirements of that Act shall be considered to have been procedurally and substantively satisfied if the lead agency determines that any State or Federal agency acting under State or Federal law has addressed or will address the following factors:

(A) The environmental impact of the action to be conducted under the permit.

(B) Possible adverse environmental effects of actions under the permit.

(C) Possible alternatives to issuance of the permit.

(D) The relationship between long- and short-term uses of the local environment and the maintenance and enhancement of long-term productivity.

(A) explain the rationale used in reaching the determination;

(B) state the facts in the record that are the basis for the determination; and

(C) show that the facts in the record could allow a reasonable person to reach the same determination as the lead agency did.

(c) COORDINATION ON PERMITTING PROCESS.—

(1) IN GENERAL.—The lead agency shall enhance government coordination for the permitting process by—

(A) avoiding duplicative reviews;

(B) minimizing paperwork; and

(C) engaging other agencies and stakeholders early in the process.

(A) deferring to, and relying on, baseline data, analyses, and reviews performed by State agencies with jurisdiction over the proposed project; and

(B) to the maximum extent practicable, conducting any consultations or reviews concurrently rather than sequentially if the concurrent consultation or review would expedite the process.

(3) MEMORANDUM OF AGENCY AGREEMENT.—If requested at any time by a State or local planning agency, the lead agency, in consultation with other Federal agencies with relevant jurisdiction in the environmental review process, may establish memoranda of agreement with the project sponsor, State and local governments, and other appropriate entities to accomplish the coordination activities described in this subsection.

SEC. 4805. FEDERAL REGISTER PROCESS FOR MINERAL EXPLORATION AND MINING PROJECTS.

(a) DEPARTMENTAL REVIEW.—Absent any extraordinary circumstances, as determined by the Secretary of the Interior or the Secretary of Agriculture, as applicable, and except as otherwise required by law, the Secretary of the Interior or the Secretary of Agriculture, as applicable, shall ensure that each Federal Register notice associated with the issuance of a mineral exploration or mine permit and required by law shall be—

SEC. 4806. SECRETARIAL ORDER NOT AFFECTED.

This division shall not apply to any mineral described in Secretarial Order 3324, issued by the Secretary of the Interior on December 3, 2012, in any area to which the order applies.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from Nevada (Mr. AMODEI) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Nevada.

Mr. AMODEI. Mr. Chairman, I yield myself 1 minute.

My amendment would streamline the permitting process for production of minerals deemed critical and strategic for national security and other infrastructure needs.

What does the word “streamline” mean? If you read the amendment, it means 30 months. Now, I am a little embarrassed to tell you that streamline is 30 months, but unless the parties agree to something longer, it is 30 months.

When you say “deemed critical,” if you read the amendment, you will see

multiple pages basically paying respect to the NEPA process and also setting forth due process and asking for a Federal representative of the lead agency to coordinate Federal permitting actions so that we proceed as expeditiously as possible when there is, in fact, a need that affects the Armed Services of our country for supply chain and things like that that are critical.

Mr. Chair, I reserve the balance of my time.

Mr. LOWENTHAL. Mr. Chair, I rise in opposition to the amendment.

The Acting CHAIR (Mr. BARTON). The gentleman from California is recognized for 5 minutes.

Mr. LOWENTHAL. Mr. Chair, I yield myself such time as I may consume.

Mr. Chairman, this amendment is simply an attempt to waive portions of our environmental laws for all—and I use the word “all”—new mines by pretending that these mines are essential for national security.

Under this amendment, even sand and gravel—yes, sand and gravel—would become a critical and strategic mineral. The proponents of this amendment have argued in the past that sand and gravel are extremely important when you need to build roads. I will agree with that; it is. But this is a deliberate distortion of the meaning of what is a critical mineral.

When it comes to minerals, just because something is important does not mean that it is critical. When someone is in critical condition in the hospital, that doesn't simply mean that their condition is important. It has a specific meaning. The same is true for critical minerals.

All reputable definitions of critical minerals make it clear that there must be a risk of losing access to the mineral for it truly to be called critical. Even the definition from an executive order signed by President Trump just 5 months ago says that a critical mineral has to have a supply chain that is vulnerable to disruption.

□ 1500

In the final list of critical minerals identified by the Secretary of the Interior published just last week, the department states that it recognizes the economic significance and indispensable nature of minerals such as sand and gravel. But it also states: “. . . these minerals do not currently meet the definition of critical” because we are not reliant on imports and we have access here in the United States to adequate domestic sources.

Simply put, we are not at risk of losing access to our supplies of sand and gravel, and no foreign government is threatening to close down our quarries.

We should not be waiving environmental laws for every single mineral simply because it is important for something.

Supporters of the amendment say a broad definition is needed because what is and isn't critical changes all the

time, so we shouldn't tie our hands. But I point out, it only took 4 months for the Interior Department of this administration to publish their final list of critical minerals, and that is starting from scratch.

Clearly the existing process is already very quick and very flexible. There is no need to define everything as critical and weaken environmental protections for all mines just so a mining company doesn't have to wait 4 months.

Also, if this amendment looks familiar to many of my colleagues, that is because it is language that has come out of the Natural Resources Committee on a party line vote in each of the past four Congresses. In the past three Congresses it passed the House, again on a party line vote, only to go nowhere in the Senate.

The reason why it goes nowhere in the Senate is because that body understands what the definition of a critical and strategic mineral is. This amendment would have similar luck in the Senate, and it has no business being added to a defense authorization bill.

Mr. Chairman, I urge my colleagues to oppose this amendment, and I reserve the balance of my time.

Mr. AMODEI. Mr. Chairman, I yield 1 minute to the gentleman from Arizona (Mr. GOSAR).

Mr. GOSAR. Mr. Chairman, I rise today in support of my good friend and colleague, Representative AMODEI's, amendment.

The amendment aims to streamline a bureaucratic process that is hampering the production of defense critical metals and minerals. Strategic and critical minerals are important to national security and help provide our troops with the equipment and weapons they need to keep us safe.

A nonclassified defense study recently found that failure to have a reliable supply chain for at least 16 of the 35 critical minerals has already caused significant weapon system production delays for the Department of Defense.

A recent report published by the Department of the Interior and the U.S. Geological Survey found the U.S. is 100 percent net import reliant on foreign countries, including China, for 20 different critical minerals. Such reliance threatens our national security as well as our ability to make equipment and weapons that our troops need to be successful in their missions.

I applaud Representative AMODEI and his strong leadership and tireless efforts to support the needs of our men and women in uniform, and I urge the adoption of this amendment.

Mr. LOWENTHAL. Mr. Chairman, I reserve the balance of my time.

Mr. AMODEI. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is good to hear that my colleagues from the Golden State think that the administration is doing a good job in this area in some respects, and it is good to hear about concerns about the State of Kentucky.

But let's talk about what is actually in the amendment.

So let's talk about what is not in the amendment first. First of all, there is nothing in the amendment that says you must approve a request to be considered a strategic critical mineral. So when we talk in the context of, oh, gee, this could be sand and gravel, some Federal land manager in the executive department, under the provisions in this amendment, has to find that. By the way, there are multiple pages saying how they go about that. So it is 30 months. Guess what? After that 30 months, you don't get a yes.

So when we talk about how the sky is going to fall, let's keep in mind that if you can't satisfy them on whatever it is that is critical, then guess what? You may get a no, as should be done if it doesn't satisfy that.

So to indicate in context that this is something that is going to make everything critical omits the whole application process and omits the consideration process that goes over 30 months.

Now, I just want to point out a couple other things, because, quite frankly, although maybe the other side thinks that the crystal ball that the administration has is an excellent one, I beg to differ. Since we are talking about things that happened in specific States, let's talk about the Loma Prieta earthquake that happened in northern California a while back that, quite frankly, shut down freeways—major arteries—in the bay area.

Now, I don't know if sand and gravel would have been appropriate and critical for that, but guess what? To those people in the bay area who wanted that transportation infrastructure open, they wanted it open as soon as possible. So if we have to wait for 30 months to haul loads of sand and gravel and make concrete to get the 580 or the 680, or whatever it was, in the East Bay open, then perhaps there was an argument for that. I don't know, unless something like that happens again.

But for those minerals that are critical to our healthcare industry, our defense industry, and all of those sorts of things, they ought to have the opportunity to apply and see if they get told yes or no in 30 months.

Mr. Chairman, I yield back the balance of my time.

Mr. LOWENTHAL. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Nevada (Mr. AMODEI).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. LOWENTHAL. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Nevada will be postponed.

AMENDMENT NO. 10 OFFERED BY MR. MCGOVERN

The Acting CHAIR. It is now in order to consider amendment No. 10 printed in House Report 115-702.

Mr. MCGOVERN. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle F of title V, add the following new section:

SEC. 5. ATOMIC VETERANS SERVICE MEDAL.

(a) SERVICE MEDAL REQUIRED.—The Secretary of Defense shall design and produce a military service medal, to be known as the "Atomic Veterans Service Medal", to honor retired and former members of the Armed Forces who are radiation-exposed veterans (as such term is defined in section 1112(c)(3) of title 38, United States Code).

(b) DISTRIBUTION OF MEDAL.—

(1) ISSUANCE TO RETIRED AND FORMER MEMBERS.—At the request of a radiation-exposed veteran, the Secretary of Defense shall issue the Atomic Veterans Service Medal to the veteran.

(2) ISSUANCE TO NEXT-OF-KIN.—In the case of a radiation-exposed veteran who is deceased, the Secretary may provide for issuance of the Atomic Veterans Service Medal to the next-of-kin of the person.

(3) APPLICATION.—The Secretary shall prepare and disseminate as appropriate an application by which radiation-exposed veterans and their next-of-kin may apply to receive the Atomic Veterans Service Medal.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from Massachusetts (Mr. MCGOVERN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. MCGOVERN. Mr. Chairman, this is an amendment that I am offering along with my colleague from Minnesota (Mr. EMMER). I want to thank him for his leadership on this issue.

Our amendment would very simply create a service medal to be awarded to atomic veterans or their surviving family members in honor of their service and sacrifice to our Nation.

Between 1945 and 1962, about 225,000 members of our Armed Forces participated in hundreds of nuclear weapons tests. Now known as atomic veterans, these GIs were placed in extremely dangerous areas and were constantly exposed to potentially dangerous levels of radiation in performance of their duties. They were sworn to secrecy, unable to even talk to their doctors about their past exposure to radiation.

Thankfully, Presidents Bill Clinton and George H.W. Bush recognized the atomic veterans' valiant service and acted to provide specialized care and compensation for their harrowing duty.

In 2007, our allies Great Britain, New Zealand, and Australia, enacted their versions of this amendment by authorizing a medal to honor their atomic veterans who served with the United States.

Regrettably, the Pentagon remains silent on honoring the service of our atomic veterans, arguing that to do so would diminish the service of other military personnel who are tasked with dangerous missions. Mr. Chairman, this is a pitiful excuse.

Tragically, more than 75 percent of atomic veterans have already passed

away, never having received this recognition. They served honorably and kept a code of silence that most certainly led to many of these veterans passing away prematurely.

Past administrations and Congresses have dealt with thornier issues of legality and compensation. What remains is recognizing these veterans' duty, honor, and faithful service to our Nation.

I want to thank my colleagues in the House for unanimously voting favorably last year by a vote of 424-0. I was shocked when the Service Medal was not included in the conference report. So I am urging my colleagues to join me in voting for this amendment again. Let us send a message to the Senate that this is important and that we are not going to give up. Together we can show them that we are serious about honoring this brave and distinguished group of patriotic Americans.

We owe it to our atomic veterans to recognize them for their selfless service to our Nation.

Mr. Chairman, let me close by saying, our veterans who are now known as atomic veterans served this country with great distinction. When they left the service they raised our families, they worked in our factories, and they contributed to our communities. They are getting older. Let us not wait until there are no surviving atomic veterans before we do the right thing.

I ask my colleagues to join me in honoring our atomic veterans. This is the right thing to do. It is shameful that we have not been able to do this sooner. I am confident that maybe this is the moment where we will do the right thing.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Massachusetts (Mr. MCGOVERN).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. MCGOVERN. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Massachusetts will be postponed.

AMENDMENT NO. 13 OFFERED BY MR. MCKINLEY

The Acting CHAIR. It is now in order to consider amendment No. 13 printed in House Report 115-702.

Mr. MCKINLEY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title VIII, add the following:

SEC. 8. ADDITION OF DOMESTICALLY PRODUCED DINNER WARE TO THE BERRY AMENDMENT.

(a) IN GENERAL.—Section 2533a(b) of title 10, United States Code, is amended by adding at the end the following:

“(3) Dinner ware.”.

(b) EFFECTIVE DATE.—Section 2533a(b)(3) of title 10, United States Code, as added by subsection (a), shall apply with respect to contracts entered into after the date that is one year after the date of enactment of this Act.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from West Virginia (Mr. MCKINLEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from West Virginia.

Mr. MCKINLEY. Mr. Chairman, I rise in support of my amendment to H.R. 5515.

Let's put this in historical context: In 1941, Congress passed the Berry amendment, which requires the Department of Defense to purchase certain items only from American companies. That list includes American-made products and already includes textiles, clothing, shoes, food, and certain tools. Our amendment would simply add dinnerware.

America has some of the best and most talented producers of nontoxic, lead-free dinnerware in the globe. Companies like Coors in Tucson, Arizona; Emerson Creek in Bedford, Virginia; and Homer Laughlin in West Virginia.

It makes common sense that when we purchase equipment for our military, whether it is weapons, food or supplies, it is incumbent upon us to consider American jobs as well.

This amendment solidifies that belief. It shows our strong support for American manufacturing and already has been supported and endorsed by the Alliance for American Manufacturing. Importantly, it would ensure access to safe dinnerware for our military, free from lead or other carcinogenic materials.

According to the National Institutes of Health and the Food and Drug Administration, there have been numerous violations involving lead and other contaminants in dinnerware coming from China, Mexico, and other suppliers around the world leading to concerns for their use by American troops.

Mr. Chairman, I urge my colleagues to stand with American manufacturers, safety and health concerns, and the jobs that are created in our communities by supporting this amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I appreciate and understand all Members' desire to not only support jobs in their district, but to support American manufacturing. I share, of course, that goal. At the same time, I must oppose this amendment because there is simply no national security justification to mandate where DOD buys its plates and mugs.

Now, there was a view in the past that textiles, food, and certain tools

were essential for the health and well-being of our military and related to their combat effectiveness. It is absolutely true that we have had troops die from exposure to tainted food, and that not having the appropriate tools has had an effect on the quality of our weaponry.

□ 1515

I have never heard that argument apply when it comes to plates and bowls and knives or forks and spoons that we are about to discuss with the next amendment.

Mr. Chairman, adding this mandate hurts our troops because if these suppliers of plates are the best price, then that is what DOD buys. But if it costs more to buy these plates, that money has to come from somewhere. And that money will come from bullets or fuel or other things that are essential for our troops to have. I cannot tell you how many fewer bullets the Pentagon will be able to buy because they have to pay more for their bowls and plates and mugs.

I also can't tell you how much more exactly the Pentagon will expend in ensuring compliance with this mandate, to do the studies to check the quality, to have a report if they should fall in one of the exceptions, which are all there within the law. But I know it will be some.

Some money, some added bureaucracy is too much. As a matter of fact, the underlying bill is trying to go the other way and get more resources into the hands of our warfighters to increase what we send to the tooth and reduce the tail.

I would just say one other point at this point, Mr. Chairman.

Where does this stop? Where does this end?

Last year, we had knives and forks and spoons. This year, we have got plates and mugs. Does it next go to the trays that they carry their food on? What about the plastic cups that they may drink from?

Do we just keep rolling with this and go all the way to the hand soap and toilet paper in the bathroom?

I don't know where it stops. If there is not a national security justification to put this added cost and added mandate, we should not do it to our troops. Therefore, I must oppose the gentleman's amendment and other amendments that are not related to national security.

Mr. Chairman, I reserve the balance of my time.

Mr. MCKINLEY. Mr. Chairman, I appreciate the remarks of the chairman.

As far as it relates to national security, our schools and our hospitals all across America consider it a serious enough situation on their chinaware because of the lead content and other carcinogenic materials that they have mandated for the health of our children across America that they must have lead-free chinaware.

But, unfortunately, what is happening for our military is that we don't

have that requirement. By putting lead-free American products in, we would be able to have control. You say our troops can get sick from tainted food. They can get sick as well from the plates that they eat from if it migrates out of the material into their food when you put hot contents on it or cook it in a microwave. Those things can happen with that.

If the schools and the hospitals think it is enough of a concern that they make this mandate, quite frankly, I think we ought to consider the same thing for our troops so that they are not made sick.

As far as the price and the quality, if that language in the Berry amendment deals with satisfactory quality and fair price is the standard, all we are doing is adding that to it.

So I don't see that issue being valid on this, because if it is not good quality, even if it is American-made, you are going to be able at a very minimum to acquire it from someone else at the same time.

Mr. Chairman, again, I urge my colleagues to stand with us on this issue of American-made products safe for our troops.

Mr. Chairman, I yield back the balance of my time.

Mr. THORNBERRY. Mr. Chairman, I yield myself the balance of my time simply to say: Mr. Chairman, before we add this additional burden on our troops and what we provide to them, there ought to be a scintilla of evidence that this is a problem with the military.

Saying, well, somebody might get sick some day is not sufficient to say we are going to take more money away from your needs and put it into plates and mugs. We have got to have a sense of priority and a sense of evidence of where the real problems are.

Mr. Chairman, therefore, I oppose the gentleman's amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from West Virginia (Mr. MCKINLEY).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. MCKINLEY. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from West Virginia will be postponed.

AMENDMENT NO. 19 OFFERED BY MS. TENNEY

The Acting CHAIR. It is now in order to consider amendment No. 19 printed in House Report 115-702.

Ms. TENNEY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle B of title VIII, add the following:

SEC. ____ ADDITION OF DOMESTICALLY PRODUCED STAINLESS STEEL FLATWARE TO THE BERRY AMENDMENT.

(a) IN GENERAL.—Section 2533a(b) of title 10, United States Code, as amended by adding at the end the following:

“(3) Stainless steel flatware.”.

(b) EFFECTIVE DATE.—Section 2533a(b)(3) of title 10, United States Code, as added by subsection (a), shall apply with respect to contracts entered into after the date that is one year after the date of enactment of this Act.

The Acting CHAIR. Pursuant to House Resolution 908, the gentlewoman from New York (Ms. TENNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from New York.

Ms. TENNEY. Mr. Chairman, once again, I stand on the floor of this great body to urge my colleagues to support American manufacturing and American workers.

The first shovel was struck into the ground in Rome, New York, to build the Erie Canal, which started the Industrial Revolution in America on July 4, 1817. We were booming. Paul Revere started his company there. Remington Arms was founded just down the road in Ilion, New York, which supplied our military with firearms. These two iconic companies remain, but many more have left.

Throughout our Nation and the region that I represent, factories that once boomed with activity and production are now shuttered and empty. Meanwhile, an entire segment of the population has been pushed out of the workforce.

President Trump described the America we know in central New York in his first inaugural speech: Our manufacturing plants are now “rusted out factories scattered like tombstones across the landscape.”

In the 22nd District, the Rust Belt of New York, and in many other regions across this Nation, economic activity has been on a consistent downturn. Well-paying manufacturing jobs have become increasingly hard to come by, leaving former industrial communities like ours empty as families and businesses flee in droves. In my home State of New York, we have lost 1 million residents since 2010 alone.

Here in Washington and in State capitals across the country, special interests have been placed before the American worker. It is time to put our citizens and our workforce first.

Mr. Chairman, the amendment that I have introduced will level the playing field for American companies, and it will show our American workforce that they have not been forgotten. And importantly, it will reduce our military's dependence on foreign goods.

For 30 years, the Berry amendment included a domestic sourcing for stainless steel flatware. However, in 2006, the provision was removed when Oneida Limited, once in our region, the sole Berry-compliant manufacturer in the U.S., closed its U.S.-based factories and moved its operations to China, where

almost all flatware is now manufactured.

In a true American comeback story worthy of a Hollywood Cinderella story, two former Oneida Limited employees opened a new company, Sherrill Manufacturing.

Greg Owens and Matt Roberts purchased Oneida's closed factory and old equipment. They refurbished the old equipment and opened Sherrill Manufacturing. They hired many former Oneida Limited employees and now have a workforce of nearly 80. The product line Sherrill employees create is appropriately known as Liberty Tabletop.

This former factory “tombstone” on our landscape is now a symbol of American ingenuity, craftsmanship, hard work, and freedom.

The story of rebirth has given hope to my district. Sherrill Manufacturing has a strong and proven record of selling high-quality products at market prices. Since 2008, Sherrill has been among the top providers of flatware to the Department of Defense and the General Services Administration, fulfilling more than \$6.8 million in Federal contracts over the subsequent 8 years.

While I understand that there may be some concerns that this domestic sourcing provision will increase costs, GSA has already found Sherrill's flatware to be offered at “fair and reasonable” prices, which is a major reason why the agency already purchases flatware from Sherrill.

Most importantly, my amendment retains all existing waivers under the Berry amendment, unlike some other Berry amendments. In the case of negative changes to price or quality, the Department of Defense can use other sources of flatware, including in other countries. Under this amendment, it doesn't cost the Department of Defense anything to use Sherrill.

Mr. Chairman, at this time, it is true that the only current Berry-compliant flatware manufacturer is located in my district. It is Sherrill. However, that does not mean that others who support domestic manufacturing cannot begin production and comply with this amendment.

Opening a door for American manufacturers can encourage entrepreneurs across the country to start an operation of their own. My amendment encourages the American, free market principles of competition and ingenuity. Again, this amendment does not cost the Department of Defense.

Passing this amendment will prove to American entrepreneurs and visionaries that Congress' stated support for American jobs and American manufacturing is not merely just lip service. It shows Congress is committed to putting our Nation back on the path to prosperity.

I would like to thank my colleagues who had cosponsored this bipartisan amendment: My fellow New Yorker, Representative JOHN KATKO, who has 15

businesses in the neighboring New York district he represents that are a part of the Sherrill Manufacturing supply chain; Representatives POLIQUIN and LIPINSKI, both great supporters of domestic sourcing and Buy America; Representative WALTER B. JONES, a dedicated member of the House Armed Services Committee; and Representative TIM RYAN, an outspoken advocate for American manufacturing.

The Acting CHAIR. The time of the gentlewoman from New York has expired.

Mr. THORNBERRY. Mr. Chairman, I claim the time in opposition to the amendment.

The Acting CHAIR. The gentleman from Texas is recognized for 5 minutes.

Mr. THORNBERRY. Mr. Chairman, I yield 30 seconds to the gentlewoman from New York (Ms. TENNEY).

Ms. TENNEY. Mr. Chairman, again, I want to emphasize that this amendment supports American manufacturing, helps a domestic supply chain that spans 40 congressional districts from New York to California, and decreases the Department of Defense's dependence on foreign producers and goods.

Removing the variability and uncertainty that comes with foreign sourcing of necessary materials for our military is the smart thing to do, considering almost all our goods of this type are now made in China.

Mr. Chairman, today we have the opportunity to give American manufacturing the boost it deserves, while adding a measure of certainty to DOD procurement, and I urge my colleagues to support this amendment.

Mr. THORNBERRY. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, I again want to express my admiration for the gentlewoman from New York and her advocacy for workers and businesses in her district. But I must oppose the amendment.

The fundamental question before the House is: Are we going to inflict higher costs on the Department of Defense with a mandate that requires where the Department buys its forks and spoons and knives and plates and mugs?

That is the question.

If any of these suppliers provide the best price, that is where DOD is going to go buy them. So these amendments, both the last one and this one, only become relevant if the costs are higher and we are making DOD buy the higher-priced items anyway.

Now, as I mentioned, there may be some justification for that when there is a vital national security concern. But when it comes to forks and plates, I don't think that exists.

So the only way these amendments matter is if it forces DOD to pay more. And when it forces DOD to pay more for plates and bowls and forks and knives, then you are taking money away from bullets and fuel and guns and ships and the things that help keep America safe.

Mr. Chairman, creating domestic jobs is not the primary mission of the Department of Defense. Our focus, the Department's focus and our focus in this bill when it comes to this Congress, is to protect the Nation and to support the men and women who risk their lives for us. We have got to give them everything they need to do their job. We should not do anything that would divert from that.

So I, again, with all admiration for the gentlewoman from New York and the gentleman from West Virginia, I just say, if we are going to tell DOD where they have to buy their forks and knives and plates, where does it end?

I have a manufacturer, I am sure, in my district that would love to supply the Department of Defense with something or another.

□ 1530

We cannot go down this road. We must let the Department buy the best value. That is what I think all Members should support.

Mr. Chair, I oppose the amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from New York (Ms. TENNEY).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Ms. TENNEY. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from New York will be postponed.

The Chair understands that amendment No. 22 will not be offered.

It is now in order to consider amendment No. 31 printed in House Report 115-702.

It is now in order to consider amendment No. 32 printed in House Report 115-702.

AMENDMENT NO. 43 OFFERED BY MR. ENGEL

The Acting CHAIR. It is now in order to consider amendment No. 43 printed in House Report 115-702.

Mr. ENGEL. Mr. Chair, I have an amendment at the desk.

The text of the amendment is as follows:

SEC. 12 5. APPROPRIATE CONGRESSIONAL COMMITTEES.

In this subtitle, the term “appropriate congressional committees” means—

(1) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(2) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from New York (Mr. ENGEL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New York.

Mr. ENGEL. Mr. Chair, let me say that, since August of 2017, the Burmese military has inflicted horrific violence against the Rohingya in Burma’s Rakhine State and is, today, using the same tactics against the Kachin. The result: 700,000 refugees. I didn’t get that wrong. It is 700,000 refugees pushed into Bangladesh. Eighty percent are women and children, many of whom are now victims of horrific gender-based violence. It is the sort of treatment ethnic minorities have endured there for decades.

This a manmade crisis—ethnic cleansing, perhaps genocide—and to date there has been no accountability. This measure would change that. It would limit U.S. military-to-military assistance with the Burmese military until we see progress on human rights and accountability.

It would authorize tough financial sanctions and visa bans against military and security forces involved in human rights abuses, promote transparency, and push reform in the Burmese gem sector, a target of corrupt military influence; and it requires the Secretary of State to determine what, in addition to ethnic cleansing, might have occurred.

This body has long stood on the side of freedom, democracy, and human rights in Burma. I urge all Members to join me today in doing the same thing by supporting this measure.

Mr. Chair, I urge all Members to support this, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from New York (Mr. ENGEL).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. ENGEL. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New York will be postponed.

AMENDMENT NO. 50 OFFERED BY MR. POLIS

The Acting CHAIR. It is now in order to consider amendment No. 50 printed in House Report 115-702.

Mr. POLIS. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of subtitle A of title XXXI, add the following new section:

SEC. 31 BUDGET REDUCTION FOR WEAPONS ACTIVITIES.

Notwithstanding the amounts set forth in the funding tables in division D, the amount authorized to be appropriated by section 3101 for the National Nuclear Security Administration, as specified in the corresponding funding table in section 4701, for weapons activities is hereby reduced by \$198,000,000. The amount of such reduction shall not be available for any purpose other than deficit reduction.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from Colorado (Mr. POLIS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. POLIS. Mr. Chair, my amendment, which I am proud to sponsor with Representative BLUMENAUER, makes a small, sensible reduction to unnecessary nuclear weapons spending.

The National Defense Authorization that we have before us this week authorizes hundreds of millions of dollars for our nuclear weapons program, even \$65 million to reduce an additional low-yield warhead. While the threats that we face around the world are different than what they were a few years ago, we cannot afford to sacrifice the fiscal security of our Nation in the name of national security.

Spending more than we have and more than we need to on the military makes us less secure, rather than more secure, by mortgaging our future and that of future generations to those foreign nations which hold our debt.

My amendment would simply make a small start by reducing the funding for the National Security Administration’s weapons account by \$198 million, the exact amount that the agency itself says that it doesn’t need.

Let me be clear: This amendment will maintain all of our nuclear capabilities and research; but for a body that should be making the hard choices to get our budget under control, why should we be giving the National Security Administration more money than they want, need, or are asking for?

We need to start getting our budget under control. This is a small step. I offered other amendments that were blocked. This one is allowed. I hope that my Republican and Democratic colleagues can come together to show that we are serious about cutting unnecessary spending and reducing our deficit.

Mr. Chair, I reserve the balance of my time.

Mr. ROGERS of Alabama. Mr. Chair, I claim time in opposition to this amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. ROGERS of Alabama. Mr. Chair, I yield myself such time as I may consume.

I strongly oppose this amendment. This amendment is not about stewardship of taxpayers’ dollars, good govern-

ment, or setting priorities. Instead, this amendment is part of a broader, antinuclear agenda that we see year in and year out.

Let’s be clear about what this amendment does. It cuts \$145 million in desperately needed funding for recapitalizing nuclear weapons production buildings dating back to the 1940s and the 1950s.

Here is a quote from General Klotz, President Obama’s NNSA Administrator, before my subcommittee a few years ago:

Our infrastructure is extensive, complex, and, in many critical areas, several decades old. More than half of the NNSA’s approximately 6,000 real property assets are over 40 years old, and nearly 30 percent date back to the Manhattan Project era.

Many of the enterprise’s critical utility, safety, and support systems are failing at an increasing and unpredictable rate, which poses both programmatic and safety risk.

That was in 2016. Folks, let me assure you, this problem has not gotten any better since then. I know that it has only gotten worse because I have visited all NNSA sites and have seen these deplorable conditions firsthand.

We are asking the Nation’s highly skilled scientists, engineers, and technicians to design and build our nuclear weapons in buildings that are literally falling down around them. We have had large chunks of concrete fall from ceilings into operating workspaces. We have even had tape and plastic sheathing around 40-year-old pots carrying radioactive liquids. I have personally seen tarps hung over sensitive diagnostic equipment to prevent leaking roofs from destroying equipment worth tens of millions of dollars.

NNSA has a \$3.7 billion backlog in deferred maintenance and repair needs. The funding that this amendment would strip away is sorely needed to help dig out of this hole. It is unfortunate that the gentleman does not at least recognize that this amendment would do harm to the safety of our workers.

I urge my colleagues to recognize this amendment for what it is and reject this broader agenda to undercut the U.S. nuclear deterrent.

Mr. Chair, I urge a “no” vote, and I reserve the balance of my time.

Mr. POLIS. Mr. Chair, I yield myself such time as I may consume.

Our nuclear arsenal is capable of ending human life on the planet five to seven times. I don’t understand the need for redundancy when it comes to the extinction of humanity. Once should be more than enough to kill every man, woman, and child on the face of the planet. My amendment doesn’t address all of that, but it does make a cut of \$198 million in unnecessary spending for nuclear weapons.

Mr. Chair, I urge my colleagues to vote “yes” on my amendment, and I yield back the balance of my time.

Mr. ROGERS of Alabama. Mr. Chair, I yield 2 minutes to the gentleman from Tennessee (Mr. DESJARLAIS), my friend and colleague and a member of the Subcommittee on Strategic Forces.

Mr. DESJARLAIS. Mr. Chair, I join the gentleman in expressing my opposition to this amendment. The NNSA's mission is, arguably, one of the most critical national security roles across the U.S. Government.

As my colleague from Alabama pointed out, after years of insufficient funding, our Nuclear Security Enterprise is now facing a myriad of infrastructure problems and potential failures. To quote Los Alamos lab director Dr. Charlie McMillan: "One of the things that keeps me up at night is the realization that essential capabilities are held at risk by the possibility of such failures."

The amendment offered by the gentleman from Colorado would only exacerbate these problems. Most of the cuts made by this amendment would come from high-priority deferred maintenance and infrastructure repairs. With a \$3.7 billion infrastructure and maintenance backlog, these cuts are unacceptable and pose a serious threat not only to the NNSA mission, but to the occupational well-being of its employees as well.

Under the leadership of Chairman THORNBERRY and Chairman ROGERS, the committee has worked hard over the past 2 years to mitigate these infrastructure issues and prevent the occurrence of a single-point failure within the Nuclear Security Enterprise. It is critical that we continue to push forward with these efforts and resolve these outstanding issues. As such, I strongly urge my colleagues to oppose this amendment.

Mr. ROGERS of Alabama. Mr. Chair, I yield 30 seconds to the gentleman from Texas (Mr. THORNBERRY), the full committee chairman, for any comments he may have.

Mr. THORNBERRY. Mr. Chair, the men and women of NNSA are like the military: they are going to get the job done under whatever conditions are required. But this amendment affects their work environment, their health and safety, and whether we can attract and retain top-quality people. It is the people who would suffer under this; it is not the mission. I understand people are antinuclear, but it is the people who would suffer.

As both gentlemen have said, we have a tremendous backlog. This just helps us catch up a little bit.

Mr. ROGERS of Alabama. Mr. Chair, I urge a "no" vote, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Colorado (Mr. POLIS).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. POLIS. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Colorado will be postponed.

AMENDMENT NO. 55 OFFERED BY MR. GALLAGHER

The Acting CHAIR. It is now in order to consider amendment No. 55 printed in House Report 115-702.

Mr. GALLAGHER. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Subparagraph (A) of section 1252(c)(2) is amended by adding at the end the following:

(vii) The abuse of employment and student visa programs to enter the United States in order to conduct political, academic, or social influence efforts, or for the purposes of establishing Chinese Communist Party cells or other entities under the control or coordination of the Chinese Communist Party.

(viii) The Chinese Communist Party's coercion or intimidation of Chinese nationals studying or working in the United States or outside China.

The Acting CHAIR. Pursuant to House Resolution 908, the gentleman from Wisconsin (Mr. GALLAGHER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Wisconsin.

Mr. GALLAGHER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, as a free and open society, the United States has always drawn in those from around the world seeking to study here, to live here, individuals seeking to observe and participate in our way of life. Indeed, we benefit from these visitors when they take on our values and go home with them.

However, when an individual comes to study and work in the United States, we must take care both that they are here for their stated purpose and that they are allowed to fulfill their legitimate goal without disruption.

As one FBI study has found, foreign intelligence services have been taking advantage of higher education institutions and personnel for many years. This problem is particularly acute with China. That is why administrations on both sides of the aisle have considered measures to protect academic research from foreign exploitation.

In recent years, we have seen a number of cases damaging the national security:

In 2008, a Tennessee professor was convicted of exporting defense articles without a license after using Chinese students to conduct Air Force research that they exported to China;

In 2009, a researcher at Duke University sent data back to China, which led to the creation of a multibillion-dollar Chinese company;

And in 2015, Chinese professors were among six defendants charged by the Department of Justice with theft of trade secrets on behalf of Chinese companies and academic institutions.

As the United States addresses China's increasingly aggressive rise, it is critical that we consider how to effectively address these issues as a free so-

ciety. That is why my amendment requires that a whole-of-government strategy on China mandated by the NDAA incorporate two key elements: exploitation of visa programs to enter the United States by the Chinese Communist Party and the party's intimidation and coercion of Chinese nationals in the United States.

This is not a blanket ban or requirement of any sort to limit the number of Chinese students studying in the U.S.; rather, it is merely adding an important element to the existing strategy required under the NDAA to address a whole-of-government challenge comprehensively.

Mr. Chair, I urge my colleagues to support this amendment, and I reserve the balance of my time.

□ 1545

Mr. LARSEN of Washington. Mr. Chair, I claim time in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. LARSEN of Washington. Mr. Chair, I rise in opposition, and I want to commend my friend from Wisconsin for correctly identifying one of the strategic challenges that China poses, but I am concerned this effort to amend section 1252 will make flawed language even worse.

The bill currently requires the President to provide a report to Congress that outlines a strategy to respond to competitive and, at times, malicious actions by China. In fact, my friend from Wisconsin has outlined several instances where we have been successful in ferreting out these actions all without his amendment being law.

So let me be clear, though, on the strategy. The strategy cannot and should not always be only responding to China. The U.S. needs to develop a proactive, assertive agenda to contrast with and to compete with China. Rather than setting up actions that could restrict student visa programs or suggesting that Chinese visitors are in the U.S. to do the bidding of the Chinese Communist Party, Congress should be taking a proactive approach consistent with our national security interests and, importantly, our values.

Now, I don't want to dwell too much on what is called the Confucius Institute in that issue, except to say that part of our response to something like the Confucius Institute ought to be U.S. programs to support Chinese language and culture programs for students in this country, instead of outsourcing it. There is an example where we can go on offense, instead of always responding or reacting to actions by China. Schools that wish to have Chinese language instruction should not have to rely on China for funding, as an example.

So I am deeply concerned the language in the underlying bill takes a reflexive and a narrow-minded view of the real challenge posed by China. Closing off our country is the wrong approach.

To use a football metaphor, closing off our Nation to foreign investment and to students is thinking like a defensive coordinator and not a particularly creative one. Instead, we need to think like a head coach, developing new offensive and defensive strategies, a new playbook revamping the old one.

So let me clarify. Going on offense is not just a reaction to China. It represents a strategy to keep the U.S. engaged in the global community. We should focus on multiple aspects of public policy: education, foreign trade, investment, immigration, military capabilities, innovation, and, of course, our bilateral relationship with China. A smarter strategic plan would demonstrate to the world and to the Chinese people the superiority of the U.S. model: democracy, free and open elections, diversity, open markets, and a free press. We should be exposing Chinese students to these values, making sure they understand that they have a different choice.

This is what Congress should be working on, not adding new provisions to an already flawed report. I urge my colleagues to oppose the Gallagher amendment.

Mr. Chair, I reserve the balance of my time.

Mr. GALLAGHER. Mr. Chairman, I yield 1 minute to the gentlewoman from Missouri (Mrs. HARTZLER).

Mrs. HARTZLER. Mr. Chairman, I rise in strong support of this amendment. I thank the gentleman from Wisconsin for bringing this important issue into the forefront.

We need to face the reality that China is actively pursuing a whole-of-nation approach to gain global influence. This includes targeting U.S. universities by exploiting our student visa program in order to gain access and steal sensitive, proprietary, and classified information.

According to DOD, in 2014, almost a quarter of foreign efforts to steal sensitive information happened through academic institutions. What is even more alarming is that, under Chinese law, citizens are required to provide data, information, and technological support or assistance to the Chinese Government upon request. This means that China can intimidate and coerce its citizens to provide information.

The amendment offered today will ensure that this form of espionage is thoroughly considered as we develop our whole-of-government China strategy. I do support what the gentleman said that we need to go on the offensive as well, but that doesn't mean we give up the defense, and we need to be smart in that strategy as well. I urge my colleagues to vote "yes."

Mr. LARSEN of Washington. Mr. Chair, may I ask how much time both parties have left.

The Acting CHAIR. The gentleman from Washington has 2 minutes remaining. The gentleman from Wisconsin has 2 minutes remaining.

Mr. LARSEN of Washington. Mr. Chair, I yield 2 minutes to the gentlewoman from California (Ms. JUDY CHU).

Ms. JUDY CHU of California. Mr. Chairman, I rise in strong opposition to Mr. GALLAGHER's amendment to the National Defense Authorization Act.

This harmful amendment would add language to the NDAA that specifically targets Chinese foreign nationals who receive U.S. employment or student visas for extra scrutiny by our Federal Government. If this amendment were to confine itself to the serious issue of safeguarding American interests against foreign political influence, industrial acquisitions, and regional global capabilities, it might be supportable. But this amendment specifically targets an ethnic population in this country by singling out the Chinese who participate in student visa programs and who are receiving employment visas.

While there is no doubt that we must take national security threats from foreign countries seriously, including Russia, this amendment assumes that there is widespread abuse of our visa program from China alone and attempts to paint all Chinese students, scholars, and employees, en masse, as potential spies for China.

This underlying bill already includes elements to address interstate strategic competition and does so without creating a precedent for singling out individuals because of their country of origin. We have seen how our government's policies and actions towards foreign nationals have the ability to impact Americans of certain ethnic backgrounds.

We need to look no further than the examples of Sherry Chen and Dr. Xioaxing Xi, two Chinese-American scientists who were wrongfully accused of being spies for China, only to have their charges dropped with no explanation. In fact, just this month, Sherry Chen was exonerated by a judge who said that her case was a case of gross miscarriage of justice.

It is reckless to categorize an entire country of people as a threat to our national security, and I reject these overly broad and dangerous attempts to build a case that all Chinese students and employees should be viewed with more suspicion in this country than others.

Mr. LARSEN of Washington. Mr. Chairman, I yield back the balance of my time.

Mr. GALLAGHER. Mr. Chairman, I yield 1½ minutes to the gentleman from South Carolina (Mr. WILSON).

Mr. WILSON of South Carolina. Mr. Chairman, I thank Congressman MIKE GALLAGHER for his military service and now service in Congress.

I am grateful to speak in support of Congressman MIKE GALLAGHER's amendment that would require the executive branch to create a strategy to address the abuse of visa programs used to enter the United States to conduct political activity and establish groups in support of the Chinese Communist Party.

Organizations like the Confucius Institute and the Thousand Talents pro-

gram are clear examples as to why Congressman GALLAGHER makes perfect sense, and it is critical to our national security. Confucius Institutes are currently active in 103 college campuses, despite Li Changchun, a member of the Chinese Communist Party's Politburo Standing Committee, calling the institutes "an important part of China's overseas propaganda setup."

Additionally, FBI Director Christopher Wray described the Confucius Institutes operating in the United States as exploiting the very open research and development environment we have, which we all revere, but they are taking advantage of it.

Unfortunately, my amendment, co-sponsored by Congressman GALLAGHER and Congresswoman VICKY HARTZLER, dealing with organizations like the Confucius Institutes was not ruled in order. It is critical that the whole-of-government China strategy include vulnerabilities within our academic community, and for this reason, I urge everyone to support Congressman GALLAGHER's amendment.

Mr. GALLAGHER. Mr. Chairman, with the few seconds that I have left, I would just say, to extend the football metaphor, perhaps to the point of absurdity, our defense doesn't even get on the field. We keep drawing pick six after pick six; therefore, allowing intellectual property theft, which is the greatest transfer of wealth in human history, by the Chinese, which is what the Blair-Huntsman Commission laid out.

So I look forward to working with my colleague on a more comprehensive approach, but in the meantime, I hope he will work with me on this.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Wisconsin (Mr. GALLAGHER).

The amendment was agreed to.
