CHINA IS CHEATING ITS WAY TO
THE TOP

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2018

Mr. POE of Texas. Mr. Speaker, Communist China is a growing threat to the United States and global peace. Its values and interests do not match our own. This is evident by recent reports of a atheist China imprisoning thousands of Muslim Uighurs in reeducation camps and the ongoing persecution of Tibetans and Chinese Christians. China's interests completely conflict with our democratic principles and the international order that has kept the peace since the end of the Second World War. China is cheating, stealing, and bullying its way towards great power status. It is our duty to stand up to Beijing's bad behavior.

Two decades ago, America, as the leader of the free world and the largest economy on Earth, gave the People's Republic of China a chance to prove itself as member of the global economy. We believed they were making free market reforms and potentially ending their communist system which had kept millions in poverty. By granting Beijing permanent normal trade relations, many in Congress hope that opening the global market to China would encourage further liberalization within the repressive state. But instead of the world changing China, China has been working to change the world to get ahead. While it did embrace some elements of capitalism, it bent the rules using state-owned enterprises and corruption to cheat. It made investments in innovative American companies so it could steal technology. It forced American companies wanting to do business in China to surrender certain rights, including intellectual property. And Beijing instituted a widespread cyber theft campaign to steal trade secrets and cutting-edge research. Beijing made the decision to cheat the international system it was invited into so that it could gain strategic dominance.

Until now, China's deception worked. It even tried to export its unfair business practices through the Belt and Road Initiative. But this too proved to be a giant debt trap that Beijing sold to developing nations. Countries like Sri Lanka and Malaysia have ended their participation in China's ambitious plan because they realized that all of the projects the People's Republic was building in their countries benefited only China. Even the workers employed to construct Belt and Road infrastructure in these countries were Chinese rather than local workers. Instead they were left with were roads to nowhere and crushing debt to China. Fortunately, the world is waking up to Beijing's modern colonialism.

But China's ambition to pull ahead at others expense did not end there. Within all of Beijing's economic malpractice, it has aimed to seize technology and strategic positioning that would also give it a military edge over the United States. By stealing American technology, China has been able field advance

weapon systems before our own forces. Meanwhile through Belt and Road, China acquired ports and airports around the globe that can be used as military bases that then enable them to control strategic chokepoints and resources without firing a shot. We have most evidently seen this in illegal island building in the South China Sea. Combined with its rapid military build-up, which will give China a fleet that outnumbers the U.S. Navy by 2020, we are quickly losing our military supremacy to China. The ramifications of such a dramatic shift in power from the U.S. to China will be devastating to our way of life.

Against an authoritarian China that can overmatch our own forces, American will be severely limited in how it protects its interests abroad and respond to Chinese aggression. Principles such as freedom of the seas and free flow of trade will be in jeopardy, having a direct impact on the daily lives of Americans. We must also remember that throughout history such major shifts in geopolitical power rarely came peacefully. In humanity's enduring battle between tyranny and democracy, America has played a decisive role in creating world where freedom preserved over evil. That world is now again in danger.

And that's just the way it is.

HON. EDWARD R. ROYCE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 20, 2018

Mr. ROYCE of California. Mr. Speaker, I rise to recognize and thank Darrin Schrader, who has served this House proudly for over 25 years. He began his career in the office of Representative Bill Baker (R-CA), and then transitioned to my office in 1997. Darrin has been by my side, as my aide-de-camp, for the last 22 years, and I would have it no other way.

His loyalty and dedication to the job of serving the people of Southern California is unsurpassed. As my special assistant, Darrin personally oversaw millions of constituent correspondence; a task that grew exponentially with the advent of email. He also helped secure millions in funding for important infrastructure and homeland security projects.

My office has been served well by Darrin's encyclopedic memory and masterful research skills. He has often known the answer to my question before I even ask it. Few can match his resourcefulness or reliability.

While sometimes presenting a stoic façade, Darrin's subtle charm and hidden humor have permeated my office for the last two decades. He has earned the respect of his peers and become an integral and irreplaceable member of Team Royce.

I ask my colleagues to join me in thanking Darrin Schrader for his selfless sacrifice to public service.
