Congressional Record

PROCEEDINGS AND DEBATES OF THE 116th CONGRESS, FIRST SESSION

Vol. 165

WASHINGTON, WEDNESDAY, JULY 17, 2019

No. 120

House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. CUELLAR).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
July 17, 2019.

I hereby appoint the Honorable HENRY CUELLAR to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 3, 2019, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties. All time shall be equally allocated between the parties, and in no event shall debate continue beyond 11:50 a.m. Each Member, other than the majority and minority leaders and the minority whip, shall be limited to 5 minutes.

ADVANCE TO IMPEACHMENT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. GREEN) for 5 minutes.

Mr. GREEN of Texas. Mr. Speaker, and still I rise, a proud American. But I am especially proud, Mr. Speaker, of this House of Representatives because, yesterday, this House engaged in the first part of a bipartisan—bipartisan—effort.

It was bipartisan yesterday, but it is a bifurcated effort as well. Bifurcated because, yesterday, this House voted with a vote of 244 to condemn the

President. Yesterday's vote was to condemn, the first part of the bifurcated process. Today's vote is to determine whether or not we will punish the President.

The effort yesterday was wonderful. I supported it. But it does not punish the President. It does not fine him. He will remain in office.

Today, we will deal with the question of what his punishment should be. Today, between 4 and 5, somewhere in there, there will be Articles of Impeachment voted on. This will be the opportunity for us to go on record letting the world know where we stand.

If we vote to table, we are voting not to advance impeachment. If we vote to send it to the Committee on the Judiciary, we are voting not to advance impeachment.

I will not vote to table. I will not vote to send it to the Committee on the Judiciary. I will want to move forward so that we can move to vote to impeach.

This President has committed impeachable offenses. Yesterday, we condemned him for them. Today is our opportunity to punish him for them.

And for those who might say, "Well, if you do this, there may be some people who won't like you," well, there are times when you have to do that which is neither safe nor politic nor popular. You have to do it because it is right.

But I would also say this: If we voted yesterday to condemn him, those who are not going to like you are not going to like you any more today when you vote to impeach than they will if you vote not to impeach. They are still going to be where they were when you decided that you were not going to support what the President has been doing since he has been in office.

Finally this, Mr. Speaker. I love my country. It means something to me to be a part of the fiber and fabric of this country. And because I love it, I will not allow anyone to be above the law.

The President has been above the law some 91 days since the Mueller report was presented—some 91 days. I think that it is time for us to send the President a clear message that he is not above the law. I think it is time for us to impeach.

I also believe that this, and understand, what we are doing today with impeachment, does not impact the Mueller report. It does not impact what the Committee on the Judiciary is doing or any other committee investigating obstruction. Obstruction has nothing to do with what we will vote on today. This is about what the President has done.

You cannot incite people to harm other people with your words. You can't yell, "Fire," in a crowded theater.

The President has committed an impeachable offense, and we ought to take it up. He ought to be impeached.

I will vote to advance to impeachment, and I pray that this President will be impeached today.

The SPEAKER pro tempore. Members are reminded to refrain from engaging in personalities toward the President.

IMMIGRATION CRISIS REQUIRES IMMIGRATION REFORM

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX of North Carolina. Mr. Speaker, our country is seeing unprecedented numbers of illegal aliens attempting to circumvent U.S. immigration and asylum laws at our southern border.

The Department of Homeland Security reported that 104,344 arrests occurred last month, making 4 straight months of arrests totaling over 100,000. That is the equivalent to the entire population of Watauga County in

H5915

North Carolina's Fifth District being detained at our southern border every 2 weeks.

Our Border Patrol officers, aid workers, and National Guard units have been overwhelmed performing the vital and often thankless work upholding the rule of law to keep our country safe. They deserve the support of this body, and so do those who have legitimate asylum petitions and humanitarian needs.

As we know, many in this recent migrant influx include women with children who want the life of opportunity that this country and our freedoms afford. Caring for children and families at our southern border need not be a partisan issue.

Last month, House Republicans delivered \$4.6 billion to help manage the humanitarian crisis and strengthen border security. While this funding is necessary to address the border crisis, more needs to be done to modify the law and streamline asylum regulations.

Rather than pivot to political pandering and policy extremes like open borders, we need to recognize the complex failures of our current system and address them head-on. That is why I am proud to cosponsor the Fix the Immigration Loopholes Act. This bill updates immigration law to efficiently process real asylum claims and safely return children to their countries of origin. It is past time that we debate it on the House floor.

I call on Speaker PELOSI to continue our progress addressing the border crisis by bringing up bipartisan legislation for comprehensive immigration reform. The immigration crisis our country is facing has strained our country's border security and customs enforcement protections to the breaking point. Letting this crisis continue is not an option.

50TH ANNIVERSARY OF THE "APOLLO 11" MOON LANDING

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Texas (Ms. JOHNSON) for 5 minutes.

Ms. JOHNSON of Texas. Mr. Speaker, as chairwoman of the Committee on Science, Space, and Technology, it is an honor to stand before you today to celebrate the 50th anniversary of *Apollo 11*.

On the morning of July 16, 1969, Neil Armstrong, Michael Collins, and Buzz Aldrin lifted off from NASA's Cape Kennedy. That day, millions watched in awe as NASA launched *Apollo 11*'s Saturn V rocket and began the long journey to accomplish the goals set by President Kennedy less than 10 years earlier to land a man on the Moon before the end of the decade.

As President Kennedy said in his speech at Rice University in September 1962: "We choose to go to the Moon in this decade and do the other things, not because they are easy, but because they are hard."

There is no better explanation that captures the American spirit. We

choose to take giant leaps. We choose to know the unknown. We choose to lead into the future.

On July 20, 1960, just 4 days after the launch, the world listened and watched as the first steps were taken on the Moon. Again, hundreds of millions of people across the world watched as history was made.

Five times more, NASA astronauts landed on the Moon and returned home safely. President Kennedy's promise that our great democracy could achieve these hard things became a reality.

As we watched those things in July 50 years ago, dreams began to form. Every person watching the success of the Apollo program, young and old, no matter their background, was filled with inspiration.

Some youngsters could say to themselves, "I will be an astronaut," or, "I will be a scientist." As they looked up to the Moon, they pictured themselves up there amongst those American heroes an unimaginable distance away.

This impact has its greatest effect on our young people. We must always remember that inspiration when we set out to accomplish our greatest goals, the youth inspiration. The world's rising generations are watching, always setting their eyes on the sky and the stars. Young girls and young boys from all backgrounds thrive off the visions that we have now and imagine themselves becoming a part of it when they can.

We must meet this great responsibility to the following generations by providing opportunities for them to do great things with the challenge we face today. As my predecessor, chairman of the then-Committee of Science and Astronautics, Congressman George P. Miller said after the *Apollo 11* crew splashed down safely in the Pacific Ocean:

Those of us who are privileged to live today will pass this on to our children and our grandchildren, and they will, in turn, brag about the fact that we were there. The flight of *Apollo 11* is perhaps the greatest secular achievement that the world has ever seen.

This achievement was made possible by the unified efforts of nearly a half million men and women, scientists and engineers, technicians and craftsmen, and the support of the American people and their government. The United States discovery and exploration enterprise is unmatched.

Just as we once set our sights to be the first to land on the Moon, let us bring that same sense of commitment to meeting other challenges facing our Nation.

FOR THE BENEFIT OF ALL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Alabama (Mr. BROOKS) for 5 minutes.

Mr. BROOKS of Alabama. Mr. Speaker, this week America celebrates the 50th anniversary of one of mankind's—

and America's—greatest achievements: walking on the surface of the Moon.

Although then only a child, I well remember the earth shake and the dishes in our kitchen cabinets rattle as the Saturn V engines were tested nearby. Even now, 50 years after the Moon landing, I get chills remembering when Apollo astronauts landed and later planted the American flag on the Moon's surface.

It was American ingenuity, boldness, technical prowess, and economic might that made this historic achievement possible.

I am proud to say the legacy of the *Apollo 11* Moon landing lives on in the Tennessee Valley of Alabama that I represent. Some history is in order:

The Tennessee Valley's Marshall Space Flight Center is the birthplace of America's space program. Americans generally, and Alabamians in particular, designed and engineered the Saturn V rocket that launched the historic *Apollo 11* and took American astronauts to the Moon.

I will never forget the flames and the roar as our Saturn V rocket was launched and carried the *Apollo 11* crew in vehicles to the Moon. I remember with tremendous pride Neil Armstrong's words as he set foot on the Moon: "That's one small step for man, one giant leap for mankind."

That giant leap meant to benefit all mankind is a prime example of American exceptionalism and helped cement America's status as the best, most powerful and most influential nation in world history.

When Neil Armstrong and Buzz Aldrin planted America's flag on the Moon surface on July 20, 1969, there was no doubt that America's space program had passed the Russians and become the preeminent leader in space exploration, a position America maintains today.

This week, America not only reflects on the miraculous achievements of the *Apollo 11* mission, but we also honor those who played a critical role in its ultimate success. The Tennessee Valley is immensely proud of our pivotal role in landing a man on the Moon and, equally importantly, returning them alive to Earth.

Reflecting our pride in America's achievement, there are two—that is, two—Saturn V rockets displayed at the United States Space and Rocket Center in Huntsville, Alabama.

□ 1015

These Saturn V displays help inspire the next generation to reach for the stars and achieve what now may be thought impossible.

While it is important to remember the historic achievements of the Apollo missions, it is also important to honor those who sacrificed their lives in the effort to achieve American greatness.

In that vein, Huntsville has named schools after Apollo Command Pilot Virgil "Gus" Grissom, Senior Pilot Ed White, and Pilot Roger Chaffee, each of
