A large part of their success lies in Levatas's excellent company culture. In fact, Levatas was recently honored by Entrepreneur magazine in the "2018 Top Company Cultures" for the "Small Companies" category. They have also been recognized by the Florida community as well. In 2018, Palm Beach Tech Association awarded Chris Nielsen, Ryan Gay, CEO of Levatas, and Levatas Golden Palm awards for excellence. In addition to numerous accolades, Levatas has made significant contributions to their community. Through Levatas's GenerosiTeam initiative, employees have supported local philanthropic organizations including the Big Heart Brigade, Sheridan House, One Blood Organization Blood Drive, Children's Miracle Network donation drive, and other nonprofits.

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM-117. A joint resolution adopted by the Legislature of the State of Maine urging the President of the United States and the United States Congress to enact legislation to allow the importation of safe, affordable prescription medications from Canada and other Organization for Economic Cooperation and Development nations; to the Committee on Health, Education, Labor, and Pensions.

HOUSE PAPER NO. 1184

Whereas, Maine residents have a high median age and a low median income and are especially vulnerable to high prescription drug costs; and

Whereas, in Canada, within walking distance of Maine's border, the same medications used by Maine residents, manufactured by the same companies in the same factories, are available for a fraction of the price charged in the United States; and

Whereas, Maine has previously allowed the personal importation of safe prescription medications, which saved residents and businesses as much as half the cost of their medications, significantly decreasing their health care and insurance costs; and

Whereas, Maine's ability to import such medications has since been blocked by federal law, thus inserting the Federal Government between Maine people and potentially lifesaving medications while also preventing free-market competition from working to benefit consumers; and

Whereas, in 2014, Americans spent \$1,112 per person on prescription drugs while Canadians spent \$772 and Danes spent \$325, and nearly one in three Americans have been unable to afford the medicine they were prescribed at some point in their lives; and

Whereas, multiple members of Congress from both major political parties, including Maine's delegation, have introduced legislation to allow wholesalers, pharmacies and individuals to import qualifying prescription drugs from licensed sellers in Canada and other member nations of the Organization for Economic Cooperation and Development, using standards for the approval and sale of such medications comparable to those in the United States, that are purchased from an entity certified by the United States Food and Drug Administration and that have the same active ingredient, strength and route of administration as drugs approved in the United States; and
