PURPOSE OF THE BILL

The purpose of H.R. 1225 is to establish, fund, and provide for the use of amounts in a National Park Service and Public Lands Legacy Restoration Fund to address the maintenance backlog of the National Park Service, United States Fish and Wildlife Service, Bureau of Land Management, and Bureau of Indian Education, and for other purposes.

BACKGROUND AND NEED FOR LEGISLATION

Across our nation’s public lands, federal land management agencies are facing a deferred maintenance backlog that negatively impacts agency budgets and threatens visitor safety, access, and enjoyment. Currently, the Department of the Interior (DOI) has a deferred maintenance backlog of more than \$16 billion.¹ The National Park Service (NPS) alone has a backlog of nearly \$12 billion²—the majority of DOI’s total—but the U.S. Fish and Wildlife Service (FWS) and the Bureau of Land Management (BLM) also have substantial maintenance backlogs. FWS has a deferred maintenance backlog of \$1.3 billion, and BLM has a backlog of \$960 million.³ In addition, the Bureau of Indian Education (BIE), which serves 47,000 students in 23 states, has a deferred maintenance backlog of \$673.9 million—more than half of the agency’s total budget authority in FY18.⁴

Maintaining and preserving America’s public lands has long been an issue of interest to lawmakers, federal agencies, and the public. Unfortunately, years of inadequate funding, expansion of the parks system, and increased visitation have strained federal land management agencies, inhibiting their ability to fund necessary repairs. The cost to repair facilities often increases with time, exacerbating the problem. Furthermore, repair costs are not limited only to facilities, but also to roads, bridges, and other public lands infrastructure, which are often expensive to maintain. In an effort to address this issue, many agencies are actively working to reduce their backlogs through alternative strategies. NPS, for example, employs a holistic funding model that includes accepting philanthropic donations, utilizing volunteers, and partnering with friends’ groups.

Despite these efforts to address deferred maintenance through alternative funding sources, the backlog has increased over the past decade. From FY2009 through FY2018, NPS spent roughly \$10.5 billion on maintenance projects, and the backlog still increased by

\$1.7 billion as of FY16. Accordingly, there is a significant need for a dedicated, substantial, and effective solution to the deferred maintenance backlog.

The Restore Our Parks and Public Lands Act would reduce the maintenance backlog on our public lands through the establishment of the National Park Service and Public Lands Legacy Restoration Fund (Fund). The Fund will receive 50 percent of receipts generated from energy development on federal land and water not allocated for other purposes.

The Fund would also receive mandatory funding for the deferred maintenance needs on NPS, FWS, and BLM lands, and BIE schools. The Fund would draw monies from all sources of federal energy revenue—including onshore and offshore development and renewable energy sources. This funding will enable land management agencies to launch a targeted effort to aggressively reduce the deferred maintenance backlog with a dedicated funding stream, while ensuring that existing revenue streams remain intact and fulfilled.

Hon. RAÚL M. GRIJALVA,
*Chairman, Committee on Natural Resources,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 1225, the Restore Our Parks and Public Lands Act.

Bill summary: H.R. 1225 would establish the National Park Service and Public Lands Legacy Restoration Fund within the Department of the Treasury. For each fiscal year over the 2020–2024 period, up to 50 percent of all receipts collected from onshore and offshore energy development on public lands and waters would be deposited into the fund, not to exceed \$1.3 billion in any year. Deposited funds, including cash donations to the fund, would be available to the Department of the Interior without further appropriation.

Under H.R. 1225, the fund's unspent amounts could be invested in Treasury securities; the income would be available for expenditure without further appropriation. DOI also would be required to include in its annual budget request a list and description of the projects it plans to pursue.

Estimated Federal cost: The estimated budgetary effect of H.R. 1225 is shown in Table 1. The costs of the legislation fall within budget function 300 (natural resources and the environment).

TABLE 1.—ESTIMATED DIRECT SPENDING UNDER H.R. 1225

	By fiscal year, millions of dollars—													
	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2019–2024	2019–2029	
Estimated Budget Authority	0	1,300	1,324	1,347	1,365	1,377	90	66	46	27	13	6,713	6,955	
Estimated Outlays	0	0	78	218	447	747	1,034	1,179	1,108	924	634	1,490	6,369	

Basis of estimate: For this estimate, CBO assumes that the legislation will be enacted near the end of 2019. CBO estimates that enacting H.R. 1225 would cost \$6.4 billion over the 2019–2029 period.

Revenues from Energy Leases

In its May 2019 baseline, CBO projects that gross offsetting receipts from onshore and offshore leases will total about \$9 billion annually and \$46 billion over the 2020–2024 period. CBO estimates that approximately 51 percent of the gross receipts collected in 2020 will be distributed to states or allocated for other purposes under current law. Although that percentage could change, CBO anticipates that there will be more than the bill’s limit of \$1.3 billion available, so that the maximum amount would be deposited each year.

Interest on Treasury Investments

H.R. 1225 would authorize DOI to invest unspent balances in Treasury securities; any interest earned would be available for expenditure from the fund. Based on the interest rate projections underlying CBO’s May 2019 baseline, CBO estimates that enacting the bill would result in an additional \$455 million being credited to the fund over the 2019–2029 period.

Pace of Spending

CBO expects that under H.R. 1225, amounts deposited into the fund at the end of each fiscal year effectively would not be available for spending until the following year. Thus, CBO does not estimate any spending under the bill in 2020.

H.R. 1225 would require funds to be allocated as follows:

- Eighty percent to the National Park Service (NPS) for deferred maintenance, split equally between transportation and nontransportation projects,
- Ten percent to the U.S. Fish and Wildlife Service (USFWS) to address the maintenance backlog in the national wildlife refuge system,
- Five percent to the Bureau of Land Management to address a backlog in public access and recreation projects, and
- Five percent to the Bureau of Indian Education for school construction and deferred maintenance.

Administrative costs would be capped at 10 percent of total annual spending; other spending limitations are included in the bill.

Using information from the NPS and USFWS about how the funds might be used, CBO anticipates that those agencies would primarily focus in the first year on hiring staff for project management, planning, and design. Subsequent funding, CBO anticipates, would go to small- to large-scale projects for transportation, water and utilities, and restoration and reconstruction. The cost of individual projects would depend on their type and scale.¹ Based on

¹ One larger deferred-maintenance project is construction and repairs along the George Washington Memorial Parkway near Washington, D.C., estimated in 2015 at about \$475 million. See Government Accountability Office, *National Park Service: Process Exists for Prioritizing Asset Maintenance Decisions, but Evaluation Could Improve Efforts*, GAO-17-136 (December 2016), www.gao.gov/products/GAO-17-136. Smaller projects include rehabilitating a flood protection levee at the Don Edwards San Francisco Bay National Wildlife Refuge (\$6 million) and replacing a deficient visitor center and water treatment center at Wrangell-Saint Elias National Park and Preserve (\$3 million). More information about such projects can be found at the Department of

historical spending patterns, CBO estimates that spending from the fund would be slow in the early years and would peak over the 2024–2028 period as larger projects are completed. (According to the NPS, most projects last between 3½ and 5 years.) Although most currently identified projects would be completed by 2029, CBO anticipates that DOI would continue to spend amounts in the fund after that.

Donations

H.R. 1225 would authorize DOI to accept cash donations to the fund; such collections are treated as reductions in direct spending and also would be available for spending without further appropriation. CBO expects that any donations would be offset by expenditures, and the net effect on direct spending would be negligible over the 2019–2029 period.

Pay-As-You-Go considerations: The Statutory Pay-As-You-Go Act of 2010 establishes budget-reporting and enforcement procedures for legislation affecting direct spending or revenues. The net changes in outlays that are subject to those pay-as-you-go procedures are shown in Table 1.

Increase in long-term deficits: CBO estimates that enacting H.R. 1225 would not increase on-budget deficits by more than \$5 billion in any of the four consecutive 10-year periods beginning in 2030.

Mandates: None.

Dear Chairman Grijalva:

I write concerning H.R. 1225, the "Restore Our Parks Act." This bill was primarily referred to the Committee on Natural Resources, and additionally to the Committee on Education on Labor. As a result of your having consulted with me concerning this bill generally, I agree to forgo formal consideration of the bill so the bill may proceed expeditiously to the House floor.

I also request that you support my request to name members of the Committee to any conference committee to consider such provisions.

Finally, I would appreciate a response confirming this understanding and ask that a copy of our exchange of letters on this matter be included in the committee report for H.R. 1225 and in the *Congressional Record* during floor consideration thereof.

Very truly yours,
