THE DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 1997

BAUCUS AMENDMENT NO. 5357

(Ordered to lie on the table.)

Mr. BAUCUS submitted an amendment intended to be proposed by him to the bill (H.R. 3662) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1997, and for other purposes; as follows:

At the appropriate place in title I, insert the following:

SEC. 1. KERR HYDROELECTRIC PROJECT.

For fiscal year 1997 and each fiscal year thereafter, the Secretary of the Interior shall not recommend that the Federal Energy Regulatory Commission impose, and the Commission shall not impose, as a condition to the modification of the Kerr Hydroelectric Project (FERC Project No. 5-021), a requirement to construct offshore revetment structures in Flathead Lake, Montana.

• Mr. BAUCUS. Mr. President; I submit an amendment to H.R. 3662, the fiscal year 1997 Interior appropriations bill.

From 1961 to his retirement from the Senate in 1977, Montana's Mike Mansfield served as Senate majority leader. It was the longest term as majority leader in American history.

During these years, the Senate passed the Voting Rights Act, created Medicare, passed the Clean Air and Clean Water Acts, debated the Cuban missile crisis and the war in Vietnam. On all these issues and more, Mike was a respected national leader.

Yet when Mike was asked to reflect back on his years in the Senate and identify his single proudest accomplishment, he responded, "saving Flathead Lake from the Army Corps of Engineers."

If you don't know Montana; and you don't know Flathead Lake; and you don't know Mike Mansfield, this answer may come as a surprise. But for those of us who know all three, this is perfectly easy to understand.

Located in western Montana, between Missoula and Kalispell, Flathead Lake is the largest fresh water lake in the United States, outside of the Great Lakes. Surrounded by the Mission Mountains and the Swan Range to the west, it is a place of spectacular beauty.

And it is also a place that is very much a part of so many Montanans—including this Senator. From boating, water skiing, fishing, or just sitting around a bonfire along the Lake's shore, Flathead Lake is a very special Montana place.

The corps had a plan to radically raise the level of this lake, transforming it forever and drowning many of the coves, shorelines, and fishing spots Montanans know so well. Montanans liked it just the way it was—and we still do today.

Yet some folks outside Montana just don't get it. They think they can im-

prove Flathead Lake. And that brings me to the amendment now before us.

The U.S. Fish and Wildlife Service has asked the Federal Energy Regulatory Commission for approval to construct an 8,700-foot-long retaining wall, at the cost of \$10 to \$14 million, near the north shore of the lake.

In theory, this great wall would prevent shore erosion and restore waterfowl habitat. These are commendable goals. But the cost of this proposal outweighs any possible benefits.

The view of the lake from the town of Bigfork, for example, would be ruined. Boaters would see a neo-industrial monstrosity instead of a peaceful shore. It is a bad idea, and my amendment would nip this weed in the bud by prohibiting construction of this wall.

Frankly, the Fish and Wildlife Service doesn't need to mandate lowering the level of Flathead Lake. And it doesn't need to mandate a big concrete slab in the lake to stem shoreline erosion. If erosion is proven to be an ongoing and significant problem, the Fish and Wildlife Service needs to find unobtrusive remedial measures that respect Flathead Lake and the people who enjoy it.

I believe this is just simple common sense. One Great Wall of China is plenty. None of us will ever improve on what the Good Lord did when he created Flathead Lake. Let us admit that right now and pass this amendment. •

THE FEDERAL AVIATION
REAUTHORIZATION ACT OF 1996

HEFLIN AMENDMENT NO. 5358

(Ordered to lie on the table.)

Mr. HEFLIN submitted an amendment intended to be proposed by him to the bill (S. 1994) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. 409. GADSDEN AIR DEPOT, ALABAMA.

(b) CONDITIONS.—Any waiver granted under subsection (a) shall be subject to the following conditions:

(1) The city of Gadsden, Alabama, shall agree that, in conveying any interest in the property which the United States conveyed to the city by a deed described in subsection (a), the city will receive an amount for such interest which is equal to the fair market value (as determined pursuant to regulations issued by the Secretary).

(2) Any such amount so received by the city shall be used by the city for the development, improvement, operation, or maintenance of (A) a public airport, or (B) lands (including any improvements thereto) which
