

Mr. BALDACCI. Mr. Speaker, reserving the right to object, I wish to state the minority has no objection to the approval of H.R. 2700, as amended.

Mr. Speaker, I urge my colleagues to support H.R. 2700, as amended. This bill designates a post office in Elmendorf, TX as the Amos F. Longoria Post Office Building, with an amendment offered by Senator PRYOR. The amendment addresses mailing problems facing by Elderhostel, an independent nonprofit organization which operates a central course catalog and registration system for college level classes for people over the age of 60.

Mr. Speaker, H.R. 2700, as amended, will solve a problem caused by the fact that Elderhostel does not fit neatly into the Postal Service's definitions and I urge my colleagues to support this measure.

Mr. MCHUGH. Mr. Speaker, will the gentleman yield?

Mr. BALDACCI. I yield to the gentleman from New York.

Mr. MCHUGH. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, this bill was passed and amended by this body on July 30, 1996 under suspension of the rules, as the gentleman from Maine just noted. It does what I certainly believe and I hope all our colleagues agree is a very worthwhile step in creating certain mailing rights for very worthy organization involved in educational activities.

I would note for the record, Mr. Speaker, that a preliminary analysis by the Congressional Budget Office reports that the enactment of the amendment as placed in this bill by the Senate would result in a cost to the U.S. Postal Service. However, as the Postal Service is classified as off budget, pay-as-you-go procedures would not apply. Mr. Speaker, I would urge our colleagues to support this bill as amended by the Senate. I think it is a worthy initiative that would do this House proud and I certainly hope for its passage.

Mr. BALDACCI. Mr. Speaker, I withdraw my reservation of objection?

The SPEAKER pro tempore. Is there objection to the original request of the gentleman from New York?

There was no objection.

A motion to reconsider was laid on the table.

#### GENERAL LEAVE

Mr. MCHUGH. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the Senate amendment to H.R. 2700.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

#### NATIONAL INVASIVE SPECIES ACT OF 1996

Mr. BOEHLERT. Mr. Speaker, I ask unanimous consent that the Commit-

tee on Transportation and Infrastructure and the Committee on Resources be discharged from further consideration of the bill (H.R. 4283) to provide for ballast water management to prevent the introduction and spread of nonindigenous species into the waters of the United States, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

□ 2300

Mr. OBERSTAR. Mr. Speaker, reserving the right to object, the bill before us is nearly identical to the Invasive Species Act that the House passed by voice vote earlier this week, except for limited amendments requested by the other body. I continue to have some concerns about at least one of those changes, but on balance those concerns are outweighed by the net gains to the Great Lakes region and to the rest of the Nation from this legislation.

One of the concerns I have is a major concern with the application of this legislation to the salt water ports, and with our chairman managing this bill, and with his deep concern for environmental issues, I do want to ask the gentleman from New York [Mr. BOEHLERT] for a commitment that we will examine these issues in the proper detail that they deserve in the coming Congress.

(Mr. OBERSTAR asked and was given permission to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, if the gentleman would yield, my colleague has those assurances.

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I will not object to passage of the National Invasive Species Act of 1996. The bill before us now is nearly identical to the Invasive Species bill that the House passed by voice vote earlier this week, except for limited amendments which have been requested by the other body. I continue to have some concerns regarding one of those changes, but on balance, those concerns are outweighed by the net gains to the Great Lakes region and to the Nation from this bill being signed into law this Congress.

This bill will contribute toward preventing further invasions by, and the spread of, nonindigenous aquatic species. It builds on the very successful program in the Great Lakes, which was developed under the 1990 "Nonindigenous Aquatic Nuisance Prevention and Control Act," and expands the scope of the law to the entire Nation.

Also of critical importance, the bill should promote the development of new technologies, recognizing the limitations of ballast exchange in preventing the spread of invasive species that already have been introduced into the Great Lakes and other U.S. waters.

We all have a great deal at stake in passage of this bill this year. Passage of this bill into law will:

Help prevent further unnecessary devastation of our most valuable fisheries, as has

happened repeatedly in my district in the Duluth-Superior Harbor, in the Great Lakes, and is at risk of happening in the Chesapeake Bay, the San Francisco Bay Delta Estuary, the Gulf of Mexico, and other of our most treasured ecosystems;

Avoid public and private expenditures of millions of dollars a year on clearing zebra mussels from intake pipes and water treatment systems, increasing the cost of providing water and electricity to our citizens; and help preserve native species and the natural biodiversity of our Nation's aquatic ecosystems.

Finally, this bill includes certain exemptions which concern me. I intend to further examine these provisions and their impacts when we return next year. Along those lines, I would like to clarify that nothing in the bill supersedes any requirement or prohibition under any other law pertaining to the discharge or exchange of ballast water, including any conditions for lifting the export ban on Alaska North Slope crude oil.

I will not object to passage of this bill.

Mr. OBERSTAR. Mr. Speaker, further reserving the right to object, I yield to the gentleman from Ohio [Mr. LATOURETTE] and compliment him for the leadership that he has taken on authoring this legislation, which I am proud to cosponsor and for moving it along.

(Mr. LATOURETTE asked and was given permission to revise and extend his remarks.)

Mr. LATOURETTE. Mr. Speaker, I thank the gentleman from Minnesota [Mr. OBERSTAR] for yielding, and I thank him because he has gone above and beyond reaching across the aisle to make sure we can get this done. I thank the gentleman from Pennsylvania [Mr. SHUSTER], the gentleman from Pennsylvania [Mr. BORSKI], but most of all I thank the gentleman from New York [Mr. BOEHLERT] without whose persistence and shepherding we would not be here, and I thank his staff, in particular Ben Grumbles.

Also, Mr. Speaker, it happens to be Chairman BOEHLERT's birthday and I am not going to hold him up any longer. I would hope that we could all support this bill and I thank all my colleagues for making it happen.

Mr. Speaker, I rise in strong support of H.R. 4283, the National Invasive Species Act, as amended by the Senate. We arrive at this point today due to strong bipartisan cooperation. Many concerns were raised about the potential impact of the Senate amendments. After careful review, I am pleased to report that the Senate amendments will not compromise the fundamental purpose and goals of H.R. 4283.

H.R. 4283 will build upon the Nonaquatic Nuisance Prevention and Control Act of 1990 that addressed zebra mussels and other invasive species in the Great Lakes. However, it is important to note that H.R. 4283 is national in scope, extending a voluntary incentive-based approach to all coasts and regions at risk. H.R. 4283 coordinates agencies, research institutions and others to prevent and control the introduction and spread of invasive species primarily through voluntary ballast water exchange and management education and research.

Mr. Speaker, we are in the closing minutes, so I will make my comments brief. I would like to thank Mr. SHUSTER for his tireless efforts moving H.R. 4283. Additionally, I would like to extend my thanks to Ranking Member OBERSTAR for his support and Ranking Member of the Water Resources Subcommittee Mr. BORSKI for his time and attention on this issue. Mr. Speaker, we would not be here today without the stewardship and persistence of the chairman of the Water Resources Subcommittee, Mr. BOEHLERT, my sincere thanks to him.

I would also like to thank the cosponsor of H.R. 4283.

I would also like to thank our colleagues in the Senate, especially the senior Senator from Ohio, Senator GLENN, a Great Lakes champion who has been a catalyst on this issue.

Mr. Speaker, I would be remiss if I did not take time to thank the staffers who, unfortunately, do not get near the credit they deserve. These men and women have spent countless hours on H.R. 4283, and they have my deep appreciation and my thanks. I would hate to leave someone out, but let me thank Rochelle Sturtevant of my staff, Ben Grumbles of the Water Resources Subcommittee, the staff of the House Committee on Resources, the House Committee on Science, as well as Allegra Cangelosi of the Northeast-Midwest Institute.

Mr. Speaker, I ask my colleagues to support this truly bipartisan effort that will prevent other areas throughout our Nation from facing the costs and environmental damage that we in the Great Lakes have witnessed.

Mr. OBERSTAR. Mr. Speaker, I join in unexpectedly wishing a happy and well deserved birthday to my good friend from New York.

Mr. BOEHLERT. Mr. Speaker, I thank the gentleman.

Mr. Speaker, I strongly urge my colleagues to support the National Invasive Species Act of 1996.

Mr. OBERSTAR. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. HANSEN). Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the bill as follows:

H.R. 4283

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; REFERENCES.

(a) IN GENERAL.—This Act may be cited as the "National Invasive Species Act of 1996".

(b) REFERENCES.—Whenever in this Act an amendment or repeal is expressed in terms of an amendment to or repeal of a section or other provision, the reference shall be considered to be made to a section or other provision of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 et seq.).

#### SEC. 2. AMENDMENTS TO THE NONINDIGENOUS AQUATIC NUISANCE PREVENTION AND CONTROL ACT OF 1990.

(a) FINDINGS; DEFINITIONS.—

(1) FINDINGS.—Section 1002(a) (16 U.S.C. 4701(a)) is amended—

(A) by striking paragraphs (2) and (3) and inserting the following new paragraphs:

"(2) when environmental conditions are favorable, nonindigenous species become established, may compete with or prey upon native species of plants, fish, and wildlife,

may carry diseases or parasites that affect native species, and may disrupt the aquatic environment and economy of affected near-shore areas;

"(3) the zebra mussel was unintentionally introduced into the Great Lakes and has infested—

"(A) waters south of the Great Lakes, into a good portion of the Mississippi River drainage;

"(B) waters west of the Great Lakes, into the Arkansas River in Oklahoma; and

"(C) waters east of the Great Lakes, into the Hudson River and Lake Champlain;"

(B) in paragraph (4)—

(i) by inserting "by the zebra mussel and ruffe, round goby, and other nonindigenous species" after "other species"; and

(ii) by striking "and" at the end;

(C) in paragraph (5), by striking the period and inserting a semicolon; and

(D) by adding at the end the following new paragraphs:

"(6) in 1992, the zebra mussel was discovered at the northernmost reaches of the Chesapeake Bay watershed;

"(7) the zebra mussel poses an imminent risk of invasion in the main waters of the Chesapeake Bay;

"(8) since the Chesapeake Bay is the largest recipient of foreign ballast water on the East Coast, there is a risk of further invasions of other nonindigenous species;

"(9) the zebra mussel is only one example of thousands of nonindigenous species that have become established in waters of the United States and may be causing economic and ecological degradation with respect to the natural resources of waters of the United States;

"(10) since their introduction in the early 1980's in ballast water discharges, ruffe—

"(A) have caused severe declines in populations of other species of fish in Duluth Harbor (in Minnesota and Wisconsin);

"(B) have spread to Lake Huron; and

"(C) are likely to spread quickly to most other waters in North America if action is not taken promptly to control their spread;

"(11) examples of nonindigenous species that, as of the date of enactment of the National Invasive Species Act of 1996, infest coastal waters of the United States and that have the potential for causing adverse economic and ecological effects include—

"(A) the mitten crab (*Eriocheir sinensis*) that has become established on the Pacific Coast;

"(B) the green crab (*Carcinus maenas*) that has become established in the coastal waters of the Atlantic Ocean;

"(C) the brown mussel (*Perna perna*) that has become established along the Gulf of Mexico; and

"(D) certain shellfish pathogens;

"(12) many aquatic nuisance vegetation species, such as Eurasian watermilfoil, hydrilla, water hyacinth, and water chestnut, have been introduced to waters of the United States from other parts of the world causing or having a potential to cause adverse environmental, ecological, and economic effects;

"(13) if preventive management measures are not taken nationwide to prevent and control unintentionally introduced nonindigenous aquatic species in a timely manner, further introductions and infestations of species that are as destructive as, or more destructive than, the zebra mussel or the ruffe infestations may occur;

"(14) once introduced into waters of the United States, aquatic nuisance species are unintentionally transported and introduced into inland lakes and rivers by recreational boaters, commercial barge traffic, and a variety of other pathways; and

"(15) resolving the problems associated with aquatic nuisance species will require the participation and cooperation of the Federal Government and State governments, and investment in the development of prevention technologies."

(2) DEFINITIONS.—Section 1003 (16 U.S.C. 4702) is amended—

(A) by striking paragraph (1) and redesignating paragraphs (2) through (8) as paragraphs (1) through (7), respectively;

(B) in paragraph (2), as redesignated by subparagraph (A) of this paragraph, by striking "assistant Secretary" and inserting "Assistant Secretary";

(C) by redesignating paragraphs (9) through (15) as paragraphs (11) through (17), respectively; and

(D) by inserting after paragraph (7), as redesignated by subparagraph (A) of this paragraph, the following:

"(8) 'Great Lakes region' means the 8 States that border on the Great Lakes;

"(9) 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional corporation (as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)) that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

"(10) 'interstate organization' means an entity—

"(A) established by—

"(i) an interstate compact that is approved by Congress;

"(ii) a Federal statute; or

"(iii) a treaty or other international agreement with respect to which the United States is a party; and

"(B) (i) that represents 2 or more—

"(I) States or political subdivisions thereof; or

"(II) Indian tribes; or

"(ii) that represents—

"(I) 1 or more States or political subdivisions thereof; and

"(II) 1 or more Indian tribes; or

"(iii) that represents the Federal Government and 1 or more foreign governments; and

"(C) has jurisdiction over, serves as forum for coordinating, or otherwise has a role or responsibility for the management of, any land or other natural resource;"

(b) AQUATIC NUISANCE SPECIES CONTROL PROGRAM.—

“(k) SAFETY EXEMPTION.—

“(1) MASTER DISCRETION.—The master of a vessel is not required to conduct a ballast water exchange if the master decides that the exchange would threaten the safety or stability of the vessel, its crew, or its passengers because of adverse weather, vessel architectural design, equipment failure, or any other extraordinary conditions.

(3) CRUDE OIL TANKER BALLAST FACILITY STUDY.—(A) Within 60 days of the date of enactment of this Act, the Secretary of the department in which the Coast Guard is operating, in consultation with the Under Secretary of Commerce for Oceans and Atmosphere, affected shoreside ballast water facility operators, affected crude oil tanker operators, and interested parties, shall initiate a study of the effectiveness of existing shoreside ballast water facilities used by crude oil tankers in the coastwise trade off Alaska in preventing the introduction of nonindigenous aquatic species into the waters off Alaska, as well as the cost and feasibility of modifying such facilities to improve such effectiveness.

(B) The study required under subparagraph (A) shall be submitted to the Congress by no later than October 1, 1997.

“(i) to be highly susceptible to invasion by aquatic nuisance species resulting from ballast water operations and other operations of vessels; and

“(ii) to require further study.

“(B) REQUIREMENTS FOR SURVEYS.—In conducting the surveys under this paragraph,

the Task Force shall, with respect to each such survey—

“(i) examine the attributes and patterns of invasions of aquatic nuisance species; and

“(ii) provide an estimate of the effectiveness of ballast water management and other vessel management guidelines issued and regulations promulgated under this subtitle in abating invasions of aquatic nuisance species in the waters that are the subject of the survey.

“(2) BALLAST WATER DISCHARGE SURVEYS.—

“(A) IN GENERAL.—The Secretary, in cooperation with the Task Force, shall conduct surveys of ballast water discharge rates and practices in the waters referred to in paragraph (1)(A) on the basis of the criteria under clauses (i) and (ii) of such paragraph.

“(B) REQUIREMENTS FOR SURVEYS.—In conducting the surveys under this paragraph, the Secretary shall—

“(i) examine the rate of, and trends in, ballast water discharge in the waters that are the subject of the survey; and

“(ii) assess the effectiveness of voluntary guidelines issued, and regulations promulgated, under this subtitle in altering ballast water discharge practices to reduce the probability of accidental introductions of aquatic nuisance species.

“(3) COLUMBIA RIVER.—The Secretary, in cooperation with the Task Force and academic institutions in each of the States affected, shall conduct an ecological and ballast water discharge survey of the Columbia River system consistent with the requirements of paragraphs (1) and (2).”;

(4) by adding at the end the following new subsections:

“(e) REGIONAL RESEARCH GRANTS.—Out of amounts appropriated to carry out this subsection for a fiscal year, the Under Secretary may—
