

throughout the region. Among the eager participants are school groups who can gain hands-on experience at the new center.

The Oglebay Institute's efforts to educate and fully engage are critical to an environmentally-conscious future, and worthy of our attention and praise. The Schrader Environmental Education Center will undoubtedly prove to be an enormous asset to West Virginians and the entire region as a way to improve our understanding of science and our nature. This is a special day for the Oglebay Institute and the entire Wheeling area.●

#### CHAMPIONING THE GIFT OF LIFE

● Mr. TORRICELLI. Mr. President, I rise today to recognize Dr. R. Gordon Douglas, Jr., President of the Vaccine Division of Merck & Co., Inc. as he prepares for his retirement after decades of distinguished service. As a leader in one of New Jersey's largest pharmaceutical companies, Dr. Douglas has been responsible for the research, development, manufacturing and marketing of Merck's vaccine line. In addition to his responsibilities at Merck, Dr. Douglas has helped improve the lives of thousands of people throughout the world through his leadership roles in his company's and the State's blood drives.

In 1998, Dr. Douglas encouraged over 3,400 Merck employees in New Jersey to give the life-saving gift of blood. He took a significant leadership role with the New Jersey Blood Services by chairing the Blood Donor Campaign in 1997-1998 and encouraging colleagues in other corporations to increase their blood drive efforts. Under his leadership, the Merck Blood Drive Program received the America's Blood Centers 1999 Platinum Award, the highest blood drive award given by the Nation's largest network of independent, community blood centers.

Dr. Douglas has served as a physician, academician, and world-class leader in the fight against infectious diseases. As a graduate of Cornell University Medical School, he has served as a clinical investigator at the National Institute of Health, a member of the faculty at the Baylor College of Medicine, and the School of Medicine at the University of Rochester, and later returned to Cornell as Chairman of the Department of Medicine in the Medical College before beginning his career at Merck.

In a career marked by many valuable achievements, I am pleased today to highlight Dr. Douglas' contributions to New Jersey and society.●

#### ORDER OF PROCEDURE

Ms. COLLINS. Mr. President, I do have some unanimous-consent requests that I would like to propound at the request of the leader.

### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate immediately proceed to executive session to consider the following nomination on the Executive Calendar, No. 36.

I finally ask unanimous consent that the nomination be confirmed, the motion to reconsider be laid upon the table, that any statements relating to the nomination be printed at the appropriate place in the RECORD, the President be immediately notified of the Senate's action, and that the Senate then return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

#### NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Gordon Davidson, of California, to be a Member of the National Council on the Arts for a term expiring September 3, 2004.

### LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

Ms. COLLINS. Mr. President, I do want to inform my colleagues who are waiting to speak that it will not take me long to conclude these unanimous consent requests and that it will not preclude them from being able to deliver their remarks.

#### COASTAL BARRIER RESOURCES SYSTEM CORRECTIONS

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 83, S. 574.

The PRESIDING OFFICER. The clerk will report.

The legislative assistant read as follows:

A bill (S. 574) to direct the Secretary of the Interior to make corrections to a map relating to the Coastal Barrier Resources System.

There being no objection, the Senate proceeded to consider the bill.

Mr. CHAFEE. Mr. President, I am pleased to offer my support for S. 574, a bill that would direct the Secretary of the Interior to make two technical corrections to a coastal barrier unit in Delaware. Congress enacted the Coastal Barrier Resources Act in 1982 to address financial and ecological problems caused by development of coastal barriers along the eastern seaboard. The law was so successful that we expanded the Coastal Barrier System in 1990 with the support of the National Taxpayers Union, the American Red Cross, Coast Alliance, and Tax Payers for Common Sense, to name just a few.

When we mapped the coastline some mistakes were made, and S. 574 would make technical corrections. The first change modifies the upper north-

eastern boundary to exclude land under development at the time of its inclusion into the system. The second change modifies the northwestern boundary to include a section of the Cape Henlopen State Park that was mistakenly excluded when the boundary was drawn. S. 574 is identical to a bill that passed the Senate by unanimous consent last year.

Ms. COLLINS. Mr. President, I ask unanimous consent that the bill be considered read a third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed at the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 574) was considered read a third time and passed, as follows:

S. 574

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. CORRECTIONS TO MAP.

(a) IN GENERAL.—Not later than 30 days after the date of enactment of this Act, the Secretary of the Interior shall make such corrections to the map described in subsection (b) as are necessary to move on that map the boundary of the otherwise protected area (as defined in section 12 of the Coastal Barrier Improvement Act of 1990 (16 U.S.C. 3503 note; Public Law 101-591)) to the Cape Henlopen State Park boundary to the extent necessary—

(1) to exclude from the otherwise protected area the adjacent property leased, as of the date of enactment of this Act, by the Barcroft Company and Cape Shores Associates (which are privately held corporations under the law of the State of Delaware); and

(2) to include in the otherwise protected area the northwestern corner of Cape Henlopen State Park seaward of the Lewes and Rehoboth Canal.

(b) MAP DESCRIBED.—The map described in this subsection is the map that is included in a set of maps entitled "Coastal Barrier Resources System", dated October 24, 1990, as revised October 15, 1992, and that relates to the unit of the Coastal Barrier Resources System entitled "Cape Henlopen Unit DE-03P".

#### USE OF THE CAPITOL GROUNDS FOR CONCERTS TO BE CONDUCTED BY THE NATIONAL SYMPHONY ORCHESTRA

Ms. COLLINS. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Con. Res. 29, which is at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative assistant read as follows:

A concurrent resolution (S. Con. Res. 29) authorizing the use of the Capitol Grounds for concerts to be conducted by the National Symphony Orchestra.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Ms. COLLINS. I ask unanimous consent that the resolution be agreed to, the motion to reconsider be laid upon the table, and that any statements relating to the resolution be printed at the appropriate place in the RECORD.
