

In addition, EPA's duty to conduct a monitoring and notification program is subject to the same conditions as a State program. This means that EPA has the same flexibility that States are provided to target available resources to those waters that it determines are the highest priorities.

Finally, like the House-passed bill, the Senate amendment provides that the term "coastal recreation waters" includes only the Great Lakes and waters that are adjacent to the coastline of the United States. "Coastal recreation waters" is not synonymous with the "coastal zone" as defined under the Coastal Zone Management Act. The Senate amendment further clarifies in bill language that geographic scope of this act does not include any inland waters and does not extend beyond the mouth of any river or stream or other body of water having unimpaired natural connection with open sea.

I urge all Members to support H.R. 999, as amended.

Mr. HORN. I thank the gentleman from California, Mr. BILBRAY, for all of his hard work on H.R. 999, the Beaches Environmental Assessment and Coastal Health Act of 2000. I strongly urge that we pass this much needed environmental initiative today.

As a Representative from California, with beautiful beaches stretching along the coastal areas in my district, I have seen first-hand the need to establish national safety standards for monitoring coastal recreation waters. Beachgoers in my district and across the nation are often forced to postpone their recreational plans due to contamination by urban runoff or sewage spills. Swimming along California's shore should not pose a potential health hazard. However, in 1999, Los Angeles County—including Long Beach—issued advisories or closed beaches 460 times.

H.R. 999 addresses this problem by providing effective mechanisms to ensure that beach water quality is monitored and safe for recreational use. The bill amends the Clean Water Act to establish a grant program for states to monitor coastal recreation waters. It also sets a deadline for updating state water quality standards to protect the public from disease-carrying pathogens. I should also mention that updated water quality standards are not only good for public health, but also for the environment—cleaner waters mean healthier marine animals and protected aquatic habitats.

Each year over 180 million people visit coastal waters for recreational purposes. I believe we owe it to each citizen of our nation to pass this bill and ensure that they can enjoy safe, hazard-free coastal waters. I strongly urge my colleagues to join me in supporting final passage of H.R. 999.

Mr. BORSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BOEHLERT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. ISAKSON). The question is on the motion offered by the gentleman from New York (Mr. BOEHLERT) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 999.

The question was taken; and (two-thirds having voted in favor thereof)

the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. BOEHLERT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 999.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Utah (Mr. HANSEN) and the gentleman from Puerto Rico (Mr. ROMERO-BARCELO) each will control 20 minutes.

The Chair recognizes the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3745, introduced by the gentleman from Iowa (Mr. NUSSLE), authorizes the Secretary of the Interior to purchase two tracts of land from willing sellers for addition to the Effigy Mounds National Monument. The gentleman from Iowa (Mr. NUSSLE) deserves credit for crafting this legislation which protected the rights of property owners while also helping to expand the Effigy Mounds for the public enjoyment.

Mr. Speaker, Effigy Mounds is located in northeastern Iowa along the Mississippi River and borders Wisconsin. Currently, the 1,481-acre Monument protects approximately 200 mound sites built by Eastern Woodland Indians from about 500 BC to 1300 AD. Although prehistoric mounds are common from the Midwest to the Atlantic Seaboard, they seldom are found in an effigy outline of mammals, birds, or reptiles. The 200 mounds, including the 29 effigy mounds, are thought to have served a variety of purposes such as territory markers, burials, or other cultural activities.

H.R. 3745 authorizes the acquisition of two parcels of land from willing sellers in order to expand the boundaries of the existing monument. The Iowa Natural Heritage Foundation has negotiated the purchase of the Ferguson-Kistler Tract which represents the largest of the parcels. This tract also contains two effigy mounds and numerous other historic and prehistoric sites. The State of Iowa owns the second parcel.

Mr. Speaker, an amendment was passed during committee proceedings on this bill which excluded those landowners not wanting to be within the boundaries. The gentleman from Iowa (Mr. NUSSLE) worked hard to make sure these property owners are protected. Now this bill is ready to move forward.

I urge my colleagues to support H.R. 3745, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. ROMERO-BARCELO. Mr. Speaker, I yield myself such time as I may consume.

(Mr. ROMERO-BARCELO asked and was given permission to revise and extend his remarks.)

Mr. ROMERO-BARCELO. Mr. Speaker, the National Park Service has identified several parcels of land near the existing boundaries of the Effigy Mounds National Monument in northeastern Iowa that would be valuable additions to the Monument.

H.R. 3745, as introduced by the gentleman from Iowa (Mr. NUSSLE) would have authorized the Secretary to purchase all of these parcels from willing sellers only and to adjust the boundaries of the Monument to include these lands, once they were acquired. As introduced, the bill was identical to legislation sponsored by Senator GRASSLEY.
