NOMINATION OF GEN. R.E. EBERHART

Mr. ALLARD. Mr. President, I would like to take this opportunity to congratulate General Ralph E. Eberhart, United States Air Force, on his appointment to serve as the first Commander-in-Chief of Northern Command as well as the commander of NORAD. General Eberhart's qualifications for this very important position are impeccable, and I have absolutely no doubt that he will bring the same success to Northern Command as he did to US Space Command.

Before General Eberhart departs US Space Command, I want to express my most sincere appreciation to him for his steadfast advocacy of military space capabilities over the past two years. His visionary leadership and dedication as the Commander-in-Chief of US Space Command and, until recently, Air Force Space Command, has truly brought military space into a new era. When he took command of US Space Command in February 2000, our country had just completed Operation Allied Force in Kosovo. At that time we recognized the value that space-based capabilities bring to the flight.

GPS-guided weapons were the preferred munition and satellite communications provided double the bandwidth available in Desert Storm. Since Operation Allied Force, General Eberhart was able to increase the effectiveness of these very same capabilities by pressing for the integration of space capabilities with air, maritime and land assets. US Space Command's contributions are the hallmarks of Operation Enduring Freedom.

When military historians look back at Operation Enduring Freedom, they will note the extreme effectiveness bombs delivered with pinpoint accuracy within minutes of being requested by soldiers on the ground. They will note persistent surveillance and near-real time threat information beamed to cockpits. These capabilities would not be possible if it weren't for US Space Command. Space-based capabilities are an enabler of not just the Air Force's transformation, but also the Navy and Army.

General Eberhart's leadership of NORAD during Operation Noble Eagle is equally impressive. After September 11, NORAD went from having 14 aircraft on alert to more than 100. General Eberhart faced the challenges of supporting continuous combat air patrols, including all the supporting logistics such as tankers and integrating NATO AWACS. The change in focus of NORAD since Sept 11 is not, unfortunately, temporary and points our nation's need for a Unified Command to address threats to the United States as well as operations in North America.

North Command is crucial to our national security. I am very proud to host this command in Colorado and sincerely look forward to continue working with General Eberhart.
