

Motorsports is now the fastest growing sport in the country, drawing millions of spectators and tens of millions of television viewers each year. For example, 13 million fans will attend NASCAR races alone in 2003. Millions of additional fans will attend races sanctioned by the Automobile Racing Club of America, (ACRA); Championship Auto Racing Teams (CART); Indy Racing League (IRL); and the Sports Car Club of America (SCCA).

Tracks are found throughout the country, with over 900 facilities in all 50 States hosting races sponsored by sanctioning bodies. These tracks make significant contributions to the economies of our communities, ranging from smaller facilities that host weekly racing series to the largest superspeedways such as Talladega and Daytona.

Fans travel hundreds and sometimes thousands of miles to attend these races, frequently arriving several days ahead of the headline event. Once at the destination track, they enjoy a variety of interactive entertainment attractions, including racing simulators, concerts, memorabilia vendors, hospitality facilities, opportunities to meet drivers, tours of the track and garage areas, etc. Motorsports entertainment facilities are amusement parks, dedicated to the themes of speed and competition.

My resolution today recognizes the importance and growth of motorsports. I urge my colleagues to support this resolution, which honors the motorsports entertainment industry for its impressive contributions to the national economy and its ongoing evolution.
