

Small businesses that employ fewer than 20 employees pay almost \$7,000 a year in regulatory costs per employee. Instead of using these funds to create new jobs, pay higher salaries or fund new or expanded health care benefits, small business owners are forced to pay to comply with too many inflexible and Draconian Federal regulations.

Democrats are working hard to make bureaucrats more powerful. Mr. Speaker, Republicans are working hard to make American companies more competitive.

CALLING FOR RESIGNATION OF SECRETARY RUMSFELD

(Mr. CONYERS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CONYERS. Mr. Speaker, I regret to come here this morning to again call for the resignation of the Secretary of Defense, Donald Rumsfeld. The pictures, the videos that continue of our troops humiliating prisoners in Abu Ghraib and the acts of retaliation by Iraqi militants, the graphic accounts of sexual and physical abuse that go on and on and on, this is not about the failure of some rogue elements in the military. Quite the contrary.

It is a part of the total failure of leadership at our highest levels, and I refer my colleagues to The New Yorker magazine article by the distinguished investigative journalist Seymour Hersh.

MEDICARE PRESCRIPTION DRUGS

(Mr. ROGERS of Alabama asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROGERS of Alabama. Mr. Speaker, relief from skyrocketing prescription drug prices is finally on its way.

Beginning in June, Alabama seniors previously without prescription drug coverage should begin to see savings of between 10 and 25 percent on their medications. For example, seniors who previously paid \$100 per month for one prescription could now pay as little as \$75 per month under this new 100 percent voluntary plan. These same seniors could now see savings of up to \$300 per year just on this one medication; and for low-income seniors, even more help is on the way.

Thanks to a \$600-per-month credit, 21,400 seniors in my congressional district should see an additional assistance with their drug bills. What is more, Alabama seniors will soon be eligible for important new features like diabetes screening and a free welcome-to-Medicare physical.

The legislation makes important new investments in our rural hospitals and clinics as well. These investments will help improve the health for all of our seniors, as well as all of our families and children.

TIME TO HELP SENIORS FIGURE OUT WHAT BENEFIT IS BEST FOR THEM

(Mrs. WILSON of New Mexico asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. WILSON of New Mexico. Mr. Speaker, on the first day that seniors could sign up for prescription drug cards, the discount cards, I went to the Barelas Senior Center, and I sat down at one of the tables at lunchtime and chatted with a little lady and started talking about this new card that would be available.

She say, oh, I already know; I talked to AARP and I already have my card. She pulled it out of her wallet and she showed me, and it had the Medicare sign on it. She said, I asked the lady and I tried to use it, and I did on Saturday, and they let me use it, and I saved \$7.

It is not too hard for people to understand what these prescription drug cards will do for them; and when I talked to more people at the Barelas Senior Center, they were very interested in the \$600 that can be added to that debit-like card to help them with the cost of their drugs.

It is time to put aside the bickering and help seniors figure out which benefit is the best for them so that they can afford their prescription drugs.

BETTER HEARING AND SPEECH MONTH

(Mr. RYUN of Kansas asked and was given permission to address the House for 1 minute.)

Mr. RYUN of Kansas. Mr. Speaker, I rise today to recognize the month of May as Better Hearing and Speech Month.

I am one of 2 million Americans who have experienced a hearing loss personally, but my hearing loss was the result of a birth defect as an illness that took place early in my life, and there are many who need help as a result of this.

Today, we are exposed to harmful levels of toxic noise in our environment and must be aware of these harmful sounds and do our best to protect ourselves from them so that we can avoid problems in the future.

One-third of our seniors have hearing loss. Eighty percent of these seniors have not sought treatment, and 75 percent of those needing hearing aids do not have them.

Left untreated, hearing loss leads to isolation, depression, and dangerous situations.

I introduced the Hearing Health Accessibility Act, H.R. 2821, to give seniors direct access to audiologists under Medicare. This would provide effective care for our seniors with hearing loss because hearing aids are expensive, and most insurance companies do not cover them.

I have also introduced the Hearing Aid Assistance Tax Credit, H.R. 3103.

This \$500 tax credit would be available once every 5 years to children and those over 55.

I encourage my colleagues to cosponsor these initiatives.
