

(4) The Department of Energy has admitted that those Mallinkrodt workers were subjected to risks and had their health endangered as a result of working with these highly radioactive materials.

(5) The Department of Energy reported that workers at the Weldon Springs feed materials plant handled plutonium and recycled uranium, which are highly radioactive.

(6) The National Institute of Occupational Safety and Health admits that—

(A) the operations at the St. Louis downtown site consisted of intense periods of processing extremely high levels of radionuclides; and

(B) the Institute has virtually no personal monitoring data for Mallinkrodt workers prior to 1948.

(7) The National Institute of Occupational Safety and Health has informed claimants and their survivors at those 3 Mallinkrodt sites that if they are not interviewed as a part of the dose reconstruction process, it—

(A) would hinder the ability of the Institute to conduct dose reconstruction for the claimant; and

(B) may result in a dose reconstruction that incompletely or inaccurately estimates the radiation dose to which the energy employee named in the claim had been exposed.

(8) Energy workers at the Iowa Army Ammunition Plant (also known as the Burlington Atomic Energy Commission Plant and the Iowa Ordnance Plant) between 1947 and 1975 were exposed to levels of radionuclides and radioactive material, including enriched uranium, plutonium, tritium, and depleted uranium, in addition to beryllium and photon radiation, that are greater than the current maximum Federal standards for exposure.

(9) According to the National Institute of Occupational Safety and Health—

(A) between 1947 and 1975, no records, including bioassays or air samples, have been located that indicate any monitoring occurred of internal doses of radiation to which workers described in paragraph (8) were exposed;

(B) between 1947 and 1955, no records, including dosimetry badges, have been located to indicate that any monitoring occurred of

the external doses of radiation to which such workers were exposed;

(C) between 1955 and 1962, records indicate that only 8 to 23 workers in a workforce of over 1,000 were monitored for external radiation doses; and

(D) between 1970 and 1975, the high point of screening at the Iowa Army Ammunition Plant, only 25 percent of the workforce was screened for exposure to external radiation.

(10) The Department of Health and Human Services published the first notice of proposed rulemaking concerning the Special Exposure Cohort on June 25, 2002, and the final rule published on May 26, 2004.

(11) Many of those former workers have died while waiting for the proposed rule to be finalized, including some claimants who were waiting for dose reconstruction to be completed.

(12) Because of the aforementioned reasons, including the serious lack of records and the death of many potential claimants, it is not feasible to conduct valid dose reconstructions for the Iowa Army Ammunition Plant facility or the Mallinkrodt facilities.

(b) INCLUSION OF CERTAIN FORMER WORKERS IN COHORT.—Section 3621(14) of the Energy Employees Occupational Illness Compensation Program Act of 2000 (title XXXVI of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398); 42 U.S.C. 7384f(14)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D); and

(2) by inserting after subparagraph (B) the following new subparagraph (C):

“(C) Subject to the provisions of section 3612A and section 3146(e) of the National Defense Authorization Act for Fiscal Year 2005, the employee was so employed for a number of work days aggregating at least 45 work-days at a facility operated under contract to the Department of Energy by Mallinkrodt Incorporated or its successors (including the St. Louis downtown or ‘Destrehan’ facility during any of calendar years 1942 through 1958 and the Weldon Springs feed materials plant facility during any of calendar years 1958 through 1966), or at a facility operated by the Department of Energy or under contract by Mason & Hangar-Silas Mason Com-

pany at the Iowa Army Ammunition Plant (also known as the Burlington Atomic Energy Commission Plant and the Iowa Ordnance Plant) during any of the calendar years 1947 through 1975, and during the employment—

“(i)(I) was monitored through the use of dosimetry badges for exposure at the plant of the external parts of an employee’s body to radiation; or

“(II) was monitored through the use of bioassays, in vivo monitoring, or breath samples for exposure at the plant to internal radiation; or

“(ii) worked in a job that had exposures comparable to a job that is monitored, or should have been monitored, under standards of the Department of Energy in effect on the date of enactment of this subparagraph through the use of dosimetry badges for monitoring external radiation exposures, or bioassays, in vivo monitoring, or breath samples for internal radiation exposures, at a facility.”

(c) FUNDING OF COMPENSATION AND BENEFITS.—(1) Such Act is further amended by inserting after section 3612 the following new section:

**“SEC. 3612A. FUNDING FOR COMPENSATION AND BENEFITS FOR CERTAIN MEMBERS OF THE SPECIAL EXPOSURE COHORT.**

“(a) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated to the Department of Labor for each fiscal year after fiscal year 2004 such sums as may be necessary for the provision of compensation and benefits under the compensation program for members of the Special Exposure Cohort described in section 3621(14)(C) in such fiscal year.

“(b) PROHIBITION ON USE FOR ADMINISTRATIVE COSTS.—(1) No amount authorized to be appropriated by subsection (a) may be utilized for purposes of carrying out the compensation program for the members of the Special Exposure Cohort referred to in that subsection or administering the amount authorized to be appropriated by subsection (a).

“(2) Amounts for purposes described in paragraph (1) shall be derived from amounts authorized to be appropriated by section 3614(a).

## NOTICE

*Incomplete record of Senate proceedings. Except for concluding business which follows, today’s Senate proceedings will be continued in the next issue of the Record.*

### ORDERS FOR FRIDAY, JUNE 18, 2004

Mr. FRIST. I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. on Friday, June 18. I further ask that following the prayer and the pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then resume consideration of Calendar No. 503, S. 2400, the Department of Defense authorization bill. I further ask consent that the cloture vote be vitiated. I further ask consent that the Brownback recognition request be vitiated.

The PRESIDING OFFICER. Without objection, it is so ordered.

### PROGRAM

Mr. FRIST. Mr. President, tomorrow the Senate will resume consideration of the Defense authorization bill. As I mentioned earlier, we intend to complete action on this bill early next week. The chairman and ranking member of the Armed Services Committee have done a superb job in moving this bill forward, and as I commented a couple of hours ago on the floor, we made real progress over the last 48 hours. We will maintain that momentum and that effort over the course of tomorrow’s session.

As I stated, I vitiated the scheduled cloture vote in anticipation of further cooperation and with the view of finishing the bill on Tuesday. I also stated earlier that we would not have rollcall votes tomorrow, although a number of

Senators have expressed an interest in offering their amendments, and a number have said they still want to offer an amendment. If that is the case, I ask that they contact the managers so that we can proceed in that fashion tomorrow.

The next votes will occur Monday at approximately 5:30, and there will likely be a number of votes after 5:30 on Monday night, given that we will be voting on some of the amendments considered tomorrow as well as Monday during the day.

Finally, as a reminder, the resolution we just adopted moments ago provides for the official photograph of the Senate to occur on Tuesday, June 22. Members are asked to be at their desk at 2:15 sharp that day for this photograph.
