

just 2 years ago. Throughout her career, Mary touched the lives of thousands of students, helping them to realize their potential and make their dreams a reality.

In addition to her daily professional contributions, Mary has long been a staunch advocate for teachers and education. She has worked with legislators at every level of government to ensure that their concerns and needs were heard. She was elected to serve on the Connecticut AFL-CIO Executive Board and the Greater New Haven Labor Council. But perhaps where she had the greatest impact was through her 24 year tenure as the President of the West Haven Federation of Teachers and School Nurses—the longest consecutive term of any president of any American Federation of Teachers Local in Connecticut. Her diligence, commitment and dedication earned her a distinguished reputation throughout Connecticut. In fact just prior to her stepping down in June of this year, Mary was honored by the Connecticut branch of the American Federation of Teachers with the prestigious Unionist of the Year Award—the highest such honor bestowed by the organization.

We have certainly been fortunate to have an individual like Mary working so hard, not only on behalf of our students, but for our teachers and our education system as well. For her many contributions and outstanding service, I am proud to stand today to join the West Haven Federation of Teachers and School Nurses, family, friends, and colleagues in extending my sincere thanks and appreciation to Mary Moninger-Elia for her lifetime of good work. Hers is a legacy that will continue to live on through the many lives she has touched.

MARRIAGE PROTECTION AMENDMENT

SPEECH OF

HON. MARILYN N. MUSGRAVE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 30, 2004

Mrs. MUSGRAVE. Mr. Speaker, I rise today to thank Dr. D. James Kennedy and his supporters for their support of the Marriage Protection Amendment.

Dr. Kennedy is a well-known Christian television and radio broadcaster whose programs reach some three million people, weekly. Dr. Kennedy is President of Coral Ridge Ministries, a Christian broadcasting organization, founder and president of Evangelism Explosion, a Christian lay-evangelism training program used in every nation, and Senior Minister of Coral Ridge Presbyterian Church in Fort Lauderdale. Dr. Kennedy is a respected and articulate advocate of the return to Christian moral standards in public life.

Dr. Kennedy's Center for Reclaiming America has collected the names of more than 430,000 petition signers who believe marriage is the union of a man and a woman, and they are opposed to efforts to redefine it. These 430,000 citizens from across the nation have petitioned Congress to pass the Marriage Protection Amendment.

PAYING TRIBUTE TO WEST ELK MOUNTAIN RESCUE

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. McINNIS. Mr. Speaker, I rise today to pay tribute to the West Elk Mountain Rescue team, a dedicated group of people from my home district who risk their lives so that others might live. This 22 member rescue team is composed of dedicated men and women that volunteer using their own resources to equip themselves with the knowledge to find and rescue people in need. I want to take this opportunity to recognize their many years of service to their community before this body of Congress and this Nation.

The WEMR was created in 1996 and works under the authority of the Gunnison County Sheriff's office. The team consists of mainly men and women, but also includes a five-year old golden retriever/labrador mix rescue dog who aides local and national law enforcement agencies. The human members of the team come from Crawford, Hotchkiss, Paonia, Cedaredge, and Eckert to cover a search area encompassing both Delta and Gunnison counties. Team members are certified and trained in CPR/First Aid, emergency medical technicians, avalanche rescue, water rescue, technical rock climbing skills, and general rescue. The group acquires many of its members from people who were once in need of the team's services.

Mr. Speaker, West Elk Mountain Rescue is a dedicated group of people who avail themselves to the community everyday of the year to provide search and rescue expertise to those in dire need. These brave men and women risk danger to their own lives and take time away from their families to serve others. Their dedication to their community is highly commendable and I am honored to recognize their service before this body of Congress and this Nation.

LAKE FENTON COMMUNITY SCHOOLS

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. KILDEE. Mr. Speaker, I rise before you today to bring to your attention an event that took place in my district. On Saturday, August 21, 2004, the Lake Fenton Community School District gathered to mark the official ribbon cutting and formal dedication of their newly constructed Lake Fenton High School. The celebration concluded on Sunday, August 22, 2004 with a non-denominational service and community open house.

Lake Fenton High School was first dedicated on May 19, 1961. With increasing enrollment and changing educational needs, the Lake Fenton Board of Education and the Lake Fenton Schools Support Services/Facilities Committee implemented plans to build a new high school. Their hard work and dedication resulted in three elective bond activities, and the final product is the first newly built facility within the Lake Fenton School District, and the

only new high school constructed within Genesee County in over 30 years. This is indeed an accomplishment worth commending.

The new high school boasts state of the art technology, computer and science labs, a media center, auditorium, gymnasium, and an outdoor athletic facility. The labs will allow the school to fully support their new program entitled "Project Lead the Way". This program introduces students to the demanding field of Engineering and Digital Electronics. As stated by their principal, Julie Clontz, Lake Fenton High School is trying to in every way possible to adjust their curriculum to meet the needs of the students and help prepare them for life after high school. The completion of this beautiful new facility and the implementation of these exciting educational programs is without a doubt a step in the right direction. Superintendent Ralph Coaster has provided excellent leadership in this endeavor.

Mr. Speaker, as a Member of Congress, I consider it both my duty and privilege to work to improve the quality of our public school system. I am glad that communities such as Lake Fenton share this sentiment. They continue to work diligently to ensure students have the tools necessary to compete and succeed. I ask my colleagues of the 108th Congress to please join me in congratulating this fine community and its school district and in wishing them the very best in future endeavors.

INTRODUCING THE RELIEF FOR LIFE-SAVING BLOOD DONORS ACT 2004

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to introduce the Relief for Life-Saving Blood Donors Act, a bill to provide a tax deduction for the selfless act of donating blood.

Each year, more than 4.5 million Americans need a life-saving blood transfusion, and about 25 percent of all Americans will need a blood transfusion at least once in their life. This means that almost every American will come to know, through their own experience or through those of a friend or family member, the importance that the small act of blood donation can make. Indeed, a single blood donation can help as many as three people.

While 60 percent of Americans are eligible to give blood, only about 5 percent of that population, or about 8.8 million Americans, actually do. According to the American Association of Blood Banks, the average donor is a college-educated white male between the ages of 30 and 50, who is married and has an above average income. Nevertheless, blood donations are increasingly coming from women and minority groups, engendering greater participation at the community level by members who seek to develop a more solid sense of neighborhood unity.

America's blood supply is critical to our Nation's seniors. While those aged 69 years and older account for just 10 percent of the population, they require 50 percent of blood transfusions. This statistic will only increase with the aging of the Baby Boomer population, and the need for blood will be even greater.
