

other professionals, students, and young people with whom he comes into contact each year through institutions such as the IIE, the Economic Club of New York, the Foreign Policy Association, the Fellows of the Phi Beta Kappa Society, and U.S. Council for International Business.

He's not a proselytizer, nor is his style preachy. The soft-spoken Mr. Russo learned the art of subtlety from his late father, Lucio, a Staten Island lawyer who was also a member of the state Assembly for 22 years. He also learned forthrightness and resourcefulness from his late mother, Tina, who encouraged him to get summer jobs on the floor of the American Stock Exchange; it was his mother who elicited his continuing involvement with the March of Dimes, where he's vice chairman. (His parents died in a car accident last year.)

"I figured out early in life that success is a matter of focus and energy," Mr. Russo said. "If you find something that you like to do, then you've got to do it with all your passion."

It's an attitude that helped him ace undergraduate studies at Fordham University, and Cornell University, where he earned an MBA as well as a law degree. Mr. Russo was also elected to the honor societies Phi Beta Kappa and Phi Kappa Phi. It's an attitude that helped him distinguish himself as a young lawyer at the SEC, which he joined after Cornell.

It's an attitude that helped him become partner and member of the management committee of the prestigious law firm Cadwalader, Wickersham & Taft. And it's an attitude that most certainly helped land him the job of the first director of the Commodity Futures Trading Commission's Division of Trading and Markets. (Mr. Russo is also the author of two books on federal securities and commodities laws, and frequently writes for trade and mainstream publications on commodities, securities, banking, and financial market regulation.)

His career has fetched him numerous honors. The National Law Journal listed him as one of the "100 Most Influential Lawyers in America." Not long ago, Mr. Russo was an inaugural inductee into the Futures Industry Association Hall of Fame. These honors are to be savored, of course, but Mr. Russo isn't one to brag about them. During lunch, in fact, he credited his colleagues and parents, and averred: "I've been enormously lucky in my life."

There's one aspect of his luck that Mr. Russo chooses to highlight—his wife, Marcy, who helps run a Jewish educational foundation; and his children: twin daughters Alexa and Morgan, 15, and son Tyler, 9.

The reporter obtained a sense of how much Mr. Russo's family shares his dedication to education and cultural bridge-building—which he said were essential not only for sustaining America's economic might but also for engendering enhanced awareness overseas of the homespun values of tolerance, friendship, and hospitality that serve as underpinnings of American society.

On the evening after the lunch with Mr. Russo, he'd invited several young Fulbright scholars from Iraq, India, China, Syria, and other countries to his Fifth Avenue apartment for a reception. The view of Central Park was stunning; the food was scrumptious. But the highlight of the evening was clearly violin renditions of Bach by Alexa and Morgan, accompanied on the piano by their fellow student from the Dalton School, Gennifer Tsoi.

They often give such performances, Mr. Russo said, they visit senior citizens' homes and hospices to give comfort and spread good will through their music. The reporter thought: Like father, like daughters. ●
