TITLE II—BUDGET PROCESS

SEC. 201. PAY-AS-YOU-GO POINT OF ORDER IN THE SENATE.

(a) POINT OF ORDER.—

(1) IN GENERAL.—It shall not be in order in the Senate to consider any direct spending or revenue legislation that would increase the on-budget deficit or cause an on-budget deficit for either of the applicable time periods as measured in paragraphs (5) and (6).

(2) APPLICABLE TIME PERIODS.—For purposes of this subsection, the term “applicable time period” means either—

(A) the period of the current fiscal year, the budget year, and the ensuing 4 fiscal years following the budget year; or

(B) the period of the current fiscal year, the budget year, and the ensuing 9 fiscal years following the budget year.

(3) DIRECT SPENDING LEGISLATION.—For purposes of this subsection and except as provided in paragraph (4), the term “direct spending legislation” means any bill, joint resolution, amendment, motion, or conference report that affects direct spending as that term is defined by, and interpreted for purposes of, the Balanced Budget and Emergency Deficit Control Act of 1985.

(4) EXCLUSION.—For purposes of this subsection, the terms “direct spending legislation” and “revenue legislation” do not include—

(A) any concurrent resolution on the budget; or

(B) any provision of legislation that affects the full funding of, and continuation of, the deposit insurance guarantee commitment in effect on the date of enactment of the Budget Enforcement Act of 1990.

(5) BASELINE.—Estimates prepared pursuant to this subsection shall—

(A) use the baseline surplus or deficit used for the most recently adopted concurrent resolution on the budget; and

(B) be calculated under the requirements of subsections (b) through (d) of section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985 (as in effect prior to September 30, 2002) for fiscal years beyond those covered by that concurrent resolution on the budget.

(6) PRIOR SURPLUS.—If direct spending or revenue legislation increases the on-budget deficit or causes an on-budget deficit when taken individually, it must also increase the on-budget deficit or cause an on-budget deficit when taken together with all direct spending and revenue legislation enacted since the beginning of the calendar year not accounted for in the baseline under paragraph (5)(A), except that direct spending or revenue effects resulting in net deficit reduction enacted in any bill pursuant to a reconciliation instruction since the beginning of that same calendar year shall never be made available on the pay-as-you-go ledger and shall be dedicated only for deficit reduction.

(b) SUPERMAJORITY WAIVER AND APPEALS.—

(1) WAIVER.—This section may be waived or suspended in the Senate only by the affirmative vote of three-fifths of the Members, duly chosen and sworn.

(2) APPEALS.—Appeals in the Senate from the decisions of the Chair relating to any provision of this section shall be limited to 1 hour, to be equally divided between, and controlled by, the appellant and the manager of the bill or joint resolution, as the case may be. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

(c) DETERMINATION OF BUDGET LEVELS.—For purposes of this section, the levels of new budget

authority, outlays, and revenues for a fiscal year shall be determined on the basis of estimates made by the Senate Committee on the Budget.

(a) **IN GENERAL.**—It shall not be in order in the Senate to consider any reconciliation bill, resolution, amendment, amendment between Houses, motion, or conference report pursuant to section 310 of the Congressional Budget Act of 1974 that would cause or increase a deficit or reduce a surplus in either of the following periods:

(1) The current fiscal year, the budget year, and the ensuing 4 fiscal years following the budget year.

(2) The current fiscal year, the budget year, and the ensuing 9 fiscal years following the budget year.

(b) **SUPERMAJORITY WAIVER AND APPEAL IN THE SENATE.**—

SEC. 203. SENATE POINT OF ORDER AGAINST LEGISLATION INCREASING LONG-TERM DEFICITS.

(a) **CONGRESSIONAL BUDGET OFFICE ANALYSIS OF PROPOSALS.**—The Director of the Congressional Budget Office shall, to the extent practicable, prepare for each bill and joint resolution reported from committee (except measures within the jurisdiction of the Committee on Appropriations), and amendments thereto and conference reports thereon, an estimate of whether the measure would cause, relative to current law, a net increase in deficits in excess of \$5,000,000,000 in any of the four 10-year periods beginning in fiscal year 2018 through fiscal year 2057.

(b) **POINT OF ORDER.**—It shall not be in order in the Senate to consider any bill, joint resolution, amendment, motion, or conference report that would cause a net increase in deficits in excess of \$5,000,000,000 in any of the 4 10-year periods beginning in 2018 through 2057.

(c) **SUPERMAJORITY WAIVER AND APPEAL IN THE SENATE.**—

(1) **WAIVER.**—This section may be waived or suspended only by the affirmative vote of three-fifths of the Members, duly chosen and sworn.

(2) **APPEAL.**—An affirmative vote of three-fifths of the Members, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

(d) **DETERMINATIONS OF BUDGET LEVELS.**—For purposes of this section, the levels of net deficit increases shall be determined on the basis of estimates provided by the Senate Committee on the Budget.

(f) **SUNSET.**—This section shall expire on September 30, 2017.

SEC. 204. EMERGENCY LEGISLATION.

(a) **SENATE.**—

(1) **AUTHORITY TO DESIGNATE.**—In the Senate, with respect to a provision of direct spending or receipts legislation or appropriations for discretionary accounts that Congress designates as an emergency requirement in such measure, the amounts of new budget authority, outlays, and receipts in all fiscal years resulting from that provision shall be treated as an emergency requirement for the purpose of this subsection.

(2) **EXEMPTION OF EMERGENCY PROVISIONS.**—Any new budget authority, outlays, and receipts resulting from any provision designated as an emergency requirement, pursuant to this subsection, in any bill, joint resolution, amendment, or conference report shall not count for purposes of sections 302 and 311 of the Congressional Budget Act of 1974 and sections 201, 203, and 207 of this resolution (relating to pay-as-you-go in the Senate, long-term deficits, and discretionary spending limits).

(3) **DESIGNATIONS.**—If a provision of legislation is designated as an emergency requirement under this subsection, the committee report and any statement of managers accompanying that legislation shall include an explanation of the manner in which the provision meets the criteria in paragraph (6).

(4) **DEFINITIONS.**—In this subsection, the terms “direct spending”, “receipts”, and “appropriations for discretionary accounts” mean any provision of a bill, joint resolution, amendment, motion, or conference report that affects direct spending, receipts, or appropriations as those terms have been defined and interpreted for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(5) **POINT OF ORDER.**—

(A) **IN GENERAL.**—When the Senate is considering a bill, resolution, amendment, motion, or conference report, if a point of order is made by a Senator against an emergency designation in that measure, that provision making such a designation shall be stricken from the measure and may not be offered as an amendment from the floor.

(B) **SUPERMAJORITY WAIVER AND APPEALS.**—

(i) **WAIVER.**—Subparagraph (A) may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn.

(ii) **APPEALS.**—Appeals in the Senate from the decisions of the Chair relating to any provision of this paragraph shall be limited to 1 hour, to be equally divided between, and controlled by, the appellant and the manager of the bill or joint resolution, as the case may be. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this paragraph.

(C) **DEFINITION OF AN EMERGENCY DESIGNATION.**—For purposes of subparagraph (A), a provision shall be considered an emergency designation if it designates any item as an emergency requirement pursuant to this subsection.

(D) **FORM OF THE POINT OF ORDER.**—A point of order under subparagraph (A) may be raised by a Senator as provided in section 313(e) of the Congressional Budget Act of 1974.

(E) **CONFERENCE REPORTS.**—When the Senate is considering a conference report on, or an amendment between the Houses in relation to, a bill, upon a point of order being made by any Senator pursuant to this subsection, and such point of order being sustained, such material contained in such conference report shall be deemed stricken, and the Senate shall proceed to consider the question of whether the Senate shall recede from its amendment and concur with a further amendment, or concur in the House amendment with a further amendment, as the case may be, which further amendment shall consist of only that portion of the conference report or House amendment, as the case may be, not so stricken. Any such motion in the Senate shall be debatable. In any case in which such point of order is sustained against a conference

report (or Senate amendment derived from such conference report by operation of this paragraph), no further amendment shall be in order.

(6) **CRITERIA.**—

(A) **IN GENERAL.**—For purposes of this subsection, any provision is an emergency requirement if the situation addressed by such provision is—

(i) necessary, essential, or vital (not merely useful or beneficial);

(ii) sudden, quickly coming into being, and not building up over time;

(iii) an urgent, pressing, and compelling need requiring immediate action;

(iv) subject to subparagraph (B), unforeseen, unpredictable, and unanticipated; and

(v) not permanent, temporary in nature.

(B) **UNFORESEEN.**—An emergency that is part of an aggregate level of anticipated emergencies, particularly when normally estimated in advance, is not unforeseen.

(7) **REPEAL.**—In the Senate, section 402 of H. Con. Res. 95 (109th Congress), the concurrent resolution on the budget for fiscal year 2006, shall no longer apply.

A point of order pursuant to this section shall be raised against such provision or provisions as described in subsections (e) and (f).

(b) **CHANGES IN MANDATORY PROGRAMS PRODUCING NET COSTS.**—A provision or provisions shall be subject to a point of order pursuant to this section if—

TITLE IV—POLICY

SEC. 401. POLICY ON MIDDLE-INCOME TAX RELIEF.

(a) **IN THE HOUSE.**—

(1) **IN GENERAL.**—It is the policy of the House to minimize fiscal burdens on middle-income families and their children and grandchildren. It is the policy of the House to provide immediate relief for the tens of millions of middle-income households who would otherwise be subject to the Alternative Minimum Tax under current law. Furthermore, it is the policy of the House to support extension of middle-income tax relief and enhanced economic equity through policies such as—

(A) extension of the child tax credit;

(B) extension of marriage penalty relief;

(C) extension of the 10 percent individual income tax bracket;

(D) elimination of estate taxes on all but a minute fraction of estates by reforming and substantially increasing the unified tax credit;

(E) extension of the research and experimentation tax credit;

(F) extension of the deduction for State and local sales taxes;

(G) extension of the deduction for small business expensing; and

(H) enactment of a tax credit for school construction bonds.

(2) **OTHER MATTERS.**—The House assumes the cost of enacting such policies is offset by reforms within the Internal Revenue Code of 1986 that promote economic efficiency, higher rates of tax compliance to close the "tax gap", and reduced taxpayer burdens through tax simplification.

(b) **IN THE SENATE.**—

(1) **IN GENERAL.**—The Senate adopted by a vote of 97 to 1 an amendment to S.Con.Res. 21 as reported by the Senate Committee on the Budget which, with regard to tax relief, reduced the revenue aggregates by \$179,816,000,000 to provide for—

- (C) extension of the 10 percent individual income tax bracket;

- (E) extension of the adoption tax credit;
- (F) extension of the dependent care tax credit;
- (G) extension of the treatment of combat pay for purposes of determining the Earned Income Tax Credit; and
- (H) other, unspecified tax relief.

(2) **POLICY.**—It is the policy of the Senate that this resolution supports both the enactment of the policies listed in paragraph (1) and the Senate pay-as-you-go rule in section 201, and that any additional revenues needed to meet the Senate's tax policy goals can be achieved by closing the tax gap, shutting down abusive tax shelters, addressing offshore tax havens, and without raising taxes.

SEC. 402. POLICY ON DEFENSE PRIORITIES.

It is the policy of this resolution that—

(1) implementing the recommendation of the National Commission on Terrorist Attacks Upon the United States (commonly referred to as the 9/11 Commission) to adequately fund cooperative threat reduction and nuclear nonproliferation programs should receive higher priority than the President's budget provides;

(2) TRICARE fees for military retirees under the age of 65 should remain at current levels;

(3) military pay and benefits should be enhanced to improve retention of experienced personnel;

(4) the recommendations of the bipartisan "Walter Reed Commission" (the President's Commission on Care for America's Returning Wounded Warriors) and other United States Government investigations into military healthcare facilities and services should be funded;

(5) higher priority defense needs could be addressed by funding missile defense at an adequate but lower level, not providing funding for development of space-based missile defense interceptors, and by restraining excessive cost and schedule growth in defense research, development and procurement programs;

(6) sufficient resources should be provided for the Department of Defense to do a more careful job of addressing as many as possible of the 1,378 unimplemented recommendations made by the Government Accountability Office over the last 6 years to improve practices at the Department of Defense, including investigation of the billions of dollars of obligations, disbursements and overcharges for which the Department of Defense cannot account; and

(7) savings from the actions recommended in paragraphs (5) and (6) of this section should be used to fund the priorities identified in paragraphs (1) through (4) in this section.

SEC. 403. POLICY ON COLLEGE AFFORDABILITY.

It is the policy of this resolution that nothing in this resolution should be construed to reduce any assistance that makes college more affordable for students, including but not limited to assistance to student aid programs run by non-profit state agencies.

TITLE V—SENSE OF THE HOUSE AND SENSE OF CONGRESS

SEC. 501. SENSE OF CONGRESS ON SERVICEMEMBERS' AND VETERANS' HEALTH CARE AND OTHER PRIORITIES.

It is the sense of Congress that—

(1) Congress supports excellent health care for current and former members of the United States Armed Services, who have served well and honorably and have made significant sacrifices for this Nation;

(2) this resolution provides \$43,125,000,000 in discretionary budget authority for 2008 for Function 700 (Veterans Benefits and Services), including veterans' health care, which is \$6,668,000,000 more than the 2007 level, \$5,474,000,000 more than the Congressional

Budget Office's baseline level for 2008, and \$3,576,000,000 more than the President's budget for 2008;

(3) this resolution provides funding to implement, in part, recommendations of the bipartisan "Walter Reed Commission" (the President's Commission on Care for America's Returning Wounded Warriors) and other United States Government investigations into military and veterans health care facilities and services;

(4) this resolution assumes the rejection of the enrollment fees and co-payment increases in the President's budget;

(5) this resolution provides additional funding above the President's inadequate budget levels for the Department of Veterans Affairs to research and treat veterans' mental health, post-traumatic stress disorder, and traumatic brain and spinal cord injuries; and

(6) this resolution provides additional funding above the President's inadequate budget levels for the Department of Veterans Affairs to improve the speed and accuracy of its processing of disability compensation claims, including funding to hire additional personnel above the President's requested level.

SEC. 502. SENSE OF CONGRESS ON THE INNOVATION AGENDA: A COMMITMENT TO COMPETITIVENESS TO KEEP AMERICA #1.

(a) It is the sense of Congress to provide sufficient funding that our Nation may continue to be the world leader in education, innovation and economic growth. This resolution provides substantial increased funding above the President's requested level for 2008, and additional amounts in subsequent years in Function 250 (General Science, Space and Technology) and Function 270 (Energy). Additional increases for scientific research and education are included in Function 500 (Education, Employment, Training, and Social Services), Function 550 (Health), Function 300 (Environment and Natural Resources), Function 350 (Agriculture), Function 400 (Transportation), and Function 370 (Commerce and Housing Credit), all of which receive more funding than the President requested.

(b) America's greatest resource for innovation resides within classrooms across the country. The increased funding provided in this resolution will support important initiatives to educate 100,000 new scientists, engineers, and mathematicians, and place highly qualified teachers in math and science K–12 classrooms.

(c) Independent scientific research provides the foundation for innovation and future technologies. This resolution will put us on the path toward doubling funding for the National Science Foundation, basic research in the physical sciences, and collaborative research partnerships; and toward achieving energy independence through the development of clean and sustainable alternative energy technologies.

SEC. 503. SENSE OF CONGRESS ON HOMELAND SECURITY.

It is the sense of Congress that—

(1) this resolution assumes additional homeland security funding above the President's requested level for 2008 and every subsequent year;

(2) this resolution assumes funding above the President's requested level for 2008, and additional amounts in subsequent years, in the four budget functions: Function 400 (Transportation), Function 450 (Community and Regional Development), Function 550 (Health), and Function 750 (Administration of Justice) that fund most nondefense homeland security activities; and

(3) the homeland security funding provided in this resolution will help to strengthen the security of our Nation's transportation system, particularly our ports where significant security shortfalls still exist and foreign ports, by expanding efforts to identify and scan all high-risk United States-bound cargo, equip, train and support first responders (including enhancing

interoperable communications and emergency management), strengthen border patrol, and increase the preparedness of the public health system.

SEC. 504. SENSE OF CONGRESS REGARDING THE ONGOING NEED TO RESPOND TO HURRICANES KATRINA AND RITA.

The sense of Congress is as follows:

(1) Critical needs in the Gulf Coast region should be addressed without further delay. The budget resolution creates a reserve fund that would allow for affordable housing that may be used to focus on areas devastated by Hurricanes Katrina and Rita, as well as new funding for additional recovery priorities.

(2) Additional oversight and investigation is needed to ensure that recovery efforts are on track, develop legislation to reform the contracting process, and better prepare for future disasters. Those efforts should be made in close consultation with residents of affected areas. For example, the budget resolution provides additional 2007 funding for the Federal Emergency Management Agency, some of which may be used for this purpose.

SEC. 505. SENSE OF CONGRESS REGARDING LONG-TERM SUSTAINABILITY OF ENTITLEMENTS.

(a) FINDINGS.—Congress finds the following:

(1) The aging of the United States population is going to put unprecedented pressure on the Nation's retirement and health care systems.

(2) The long-term strength of Social Security would be improved through a fiscally responsible policy of reducing the deficit and paying down the debt that has accumulated since 2001, thus reducing debt service payments and freeing up billions of dollars that can be dedicated to meeting social security's obligations.

(3) A policy of reducing and eventually eliminating the deficit and paying down the debt is a key factor in improving the long-term strength of the economy as a whole, because a lower debt burden frees up resources for productive investments that will result in higher economic growth, provide a higher standard of living for future generations, and enhance the Nation's ability to meet its commitments to its senior citizens.

(4) The most significant factor affecting the Nation's entitlement programs is the rapid increase in health care costs. The projected increasing costs of Medicare and Medicaid are not unique to these programs but rather are part of a pattern of rising costs for the health sector as a whole.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the growing cost of entitlements should be addressed in a way that is fiscally responsible and promotes economic growth, that addresses the causes of cost growth in the broader health care system, and that protects beneficiaries without leaving a legacy of debt to future generations.

SEC. 506. SENSE OF CONGRESS REGARDING THE NEED TO MAINTAIN AND BUILD UPON EFFORTS TO FIGHT HUNGER.

(a) FINDINGS.—Congress finds the following:

(1) More than 35 million individuals (12.4 million of them children) are food insecure, uncertain of having, or unable to acquire enough food. 10.8 million Americans are hungry because of lack of food.

(2) Despite the critical contributions of the Department of Agriculture nutrition programs and particularly the food stamp program that significantly reduced payment error rates while increasing enrollment to partially mitigate the impact of recent increases in the poverty rate, significant need remains.

(3) Nearly 25 million people, including nine million children and three million seniors, sought emergency food assistance from food pantries, soup kitchens, shelters, and local charities last year.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Department of Agriculture programs that help fight hunger should be

maintained and that Congress should seize opportunities to enhance those programs to reach people in need and to fight hunger.

SEC. 507. SENSE OF CONGRESS REGARDING AFFORDABLE HEALTH COVERAGE.

(a) FINDINGS.—Congress finds the following:

(1) More than 46 million Americans, including nine million children, lack health insurance. People without health insurance are more likely to experience problems getting medical care and to be hospitalized for avoidable health problems.

(2) Most Americans receive health coverage through their employers. A major issue facing all employers is the rising cost of health insurance. Small businesses, which have generated most of the new jobs annually over the last decade, have an especially difficult time affording health coverage, due to higher administrative costs and fewer people over whom to spread the risk of catastrophic costs. Because it is especially costly for small businesses to provide health coverage, their employees make up a large proportion of the nation's uninsured individuals.

(b) SENSE OF CONGRESS.—It is the sense of Congress that legislation consistent with the pay-as-you-go principle should be adopted that makes health insurance more affordable and accessible, with attention to the special needs of small businesses, and that lowers costs and improves the quality of health care by encouraging integration of health information technology tools into the practice of medicine, and promoting improvements in disease management and disease prevention.

SEC. 508. SENSE OF CONGRESS REGARDING EXTENSION OF THE STATUTORY PAY-AS-YOU-GO RULE.

It is the sense of Congress that in order to reduce the deficit Congress should extend PAYGO consistent with provisions of the Budget Enforcement Act of 1990.

SEC. 509. SENSE OF CONGRESS ON LONG-TERM BUDGETING.

It is the sense of Congress that the determination of the congressional budget for the United States Government and the President's budget request should include consideration of the Financial Report of the United States Government, especially its information regarding the Government's net operating cost, financial position, and long-term liabilities.

SEC. 510. SENSE OF CONGRESS REGARDING PAY PARITY.

It is the sense of Congress that rates of compensation for civilian employees of the United States should be adjusted at the same time, and in the same proportion, as are rates of compensation for members of the uniformed services.

SEC. 511. SENSE OF CONGRESS REGARDING WASTE, FRAUD, AND ABUSE.

It is the sense of Congress that all committees should examine programs within their jurisdiction to identify wasteful and fraudulent spending. To this end, section 207 of this resolution includes cap adjustments to provide appropriations for 3 programs that accounted for a significant share of improper payments reported by Federal agencies in 2006: Social Security Administration Continuing Disability Reviews, the Medicare/Medicaid Health Care Fraud and Abuse Control Program, and Unemployment Insurance. Section 207 also includes a cap adjustment for the Internal Revenue Service for tax compliance efforts to close the tax gap. In addition, the resolution's deficit-neutral reserve funds require authorizing committees to cut

lower-priority and wasteful spending to accommodate higher-priority programs. Finally, section 207 of the resolution directs all committees to review the performance of programs within their jurisdiction and report recommendations annually to the Committees on the Budget as part of the views and estimates process required by section 301(d) of the Congressional Budget Act of 1974.

SEC. 512. SENSE OF CONGRESS REGARDING THE IMPORTANCE OF CHILD SUPPORT ENFORCEMENT.

It is the sense of Congress that—

(1) additional legislative action is needed to ensure that States have the necessary resources to collect all child support that is owed to families and to allow them to pass 100 percent of support on to families without financial penalty; and

(2) when 100 percent of child support payments are passed to the child, rather than administrative expenses, program integrity is improved and child support participation increases.

SEC. 513. SENSE OF THE HOUSE ON STATE VETERANS CEMETERIES.

It is the sense of the House that the Federal Government should pay the plot allowance for the interment in a State veterans cemetery of any spouse or eligible child of a veteran, consistent with the pay-as-you-go principle.

SEC. 514. SENSE OF CONGRESS ON THE STATE CRIMINAL ALIEN ASSISTANCE PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) Control of illegal immigration is a Federal responsibility.

(2) The State Criminal Alien Assistance Program (referred to in this section as "SCAAP") carried out pursuant to section 241(i) of the Immigration and Nationality Act (8 U.S.C. 1231(i)) provides critical funding to States and localities for reimbursement of costs incurred as a result of housing undocumented criminal aliens.

(3) Congress appropriated \$300,000,000 for SCAAP to reimburse State and local governments for those costs in fiscal year 2004.

(4) Congress appropriated \$305,000,000 for SCAAP to reimburse State and local governments for those costs in fiscal year 2005.

(5) Congress appropriated \$405,000,000 for SCAAP to reimburse State and local governments for those costs in fiscal year 2006.

(6) Congress appropriated \$399,000,000 for SCAAP to reimburse State and local governments for those costs in fiscal year 2007.

(7) Congress has authorized to be appropriated \$950,000,000 to carry out SCAAP for each of the fiscal years 2008 through 2011.

(b) SENSE OF CONGRESS.—It is the sense of Congress that SCAAP funding for fiscal year 2008 should be consistent with the goal of achieving the program's fully authorized level.

TITLE VI—RECONCILIATION

SEC. 601. RECONCILIATION IN THE HOUSE.

Not later than September 10, 2007, the House Committee on Education and Labor shall report to the House of Representatives changes in laws to reduce the deficit by \$750,000,000 for the period of fiscal years 2007 through 2012.

SEC. 602. DEFICIT REDUCTION RECONCILIATION INSTRUCTION IN THE SENATE.

Not later than September 10, 2007, the Senate Committee on Health, Education, Labor, and Pensions shall report changes in laws within its jurisdiction to reduce the deficit by \$750,000,000 for the period of fiscal years 2007 through 2012.

And the House agree to the same.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the concurrent resolution (S. Con. Res. 21) revising the congressional budget for the United States Government for fiscal year 2007, establishing the congressional budget for the United States Government for fiscal year 2008, and setting forth appropriate budgetary levels for fiscal years 2009 through 2012, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment struck all of the Senate concurrent resolution after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment that is a substitute for the Senate concurrent resolution and the House amendment. The differences between the Senate concurrent resolution, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

DISPLAYS AND AMOUNTS

The required contents of concurrent budget resolutions are set forth in section 301(a) of the Congressional Budget Act of 1974. The years in this document are fiscal years unless otherwise noted.

The treatment of budget function levels in the Senate-passed and House-passed budget resolutions and the conference report is as follows:

Senate Concurrent Resolution

The Senate concurrent resolution includes all of the items required under Section 301(a) of the Congressional Budget Act.

House Amendment

The House amendment includes all of the items required as part of a concurrent budget resolution under section 301(a) of the Congressional Budget Act other than the spending and revenue levels for Social Security (which are used to enforce a point of order applicable only in the Senate). It also includes a new separate function category, Function 970 (Overseas Deployments and Other Activities).

Conference Agreement

The conference agreement includes all of the items required by Section 301(a) of the Budget Act.

AGGREGATE AND FUNCTION LEVELS

Pursuant to section 301(a)(3) of the Budget Act, the budget resolution must set appropriate levels for each major functional category based on the 302(a) allocations and the budgetary totals.

The respective levels of the Senate concurrent resolution, the House amendment, and conference agreement for each major budget function, as well as revenue totals, are discussed in the following section. A summary of the overall budget policy is as follows:

Total spending is \$2.965 trillion in budget authority (BA) and \$2.937 trillion in outlays in 2008, and \$15.538 trillion in BA and \$15.567 trillion in outlays over 2008–2012.

Discretionary spending for 2008 totals \$1.100 trillion in BA and \$1.145 trillion in outlays in 2008, and \$5.246 trillion in BA and \$5.615 trillion in outlays over 2008–2012. Excluding funding for overseas deployments and other activities, discretionary spending for 2008 totals \$954.1 billion in BA and \$1.029 trillion in outlays. These aggregate amounts (minus cap adjustments for program integrity initiatives) are allocated to the Appropriations Committees to be suballocated among their respective appropriations subcommittees.

Mandatory spending totals \$1.866 trillion in BA and \$1.792 trillion in outlays in 2008, and \$10.293 trillion in BA and \$9.952 trillion in outlays over 2008–2012. This includes \$750 million in reconciled savings over 2007–2012. These savings are reflected in Function 500. Specific policies to achieve those savings will be determined by the committees of jurisdiction.

Revenue totals \$2.685 trillion in 2008, and \$14.828 trillion over five years. Specific policies will be determined by the Committee on Finance in the Senate and the Committee on Ways and Means in the House.

The conference report reduces the budget deficit from \$251.7 billion in 2008, to a surplus of \$41.5 billion in 2012.

The following section describes the conference report's revenue levels and spending according to the budget's functional categories.

REVENUES

Summary

The revenue component of the budget resolution reflects all of the federal government's tax receipts that are classified as "on budget." This includes individual income taxes; corporate income taxes; excise taxes, such as the gasoline tax; and other taxes, such as estate and gift taxes. Taxes collected for the Social Security system—the Old Age and Survivors and Disability Insurance (OASDI) payroll tax—are "off budget." The Hospital Insurance payroll tax portion of Medicare, the Federal Unemployment Tax Act payroll tax, railroad retirement and other retirement systems are all "on budget." Customs duties, tariffs, and other miscellaneous receipts are also included in the revenue component. Pursuant to the Congressional Budget Act of 1974 and the Budget Enforcement Act of 1990, Social Security payroll taxes are not included in the budget resolution.

Senate Resolution

The Senate budget resolution includes \$2.0 trillion in on-budget revenues for 2008, and \$11.1 trillion over 2008–2012. (The corresponding revenue figures on a unified basis are \$2.7 trillion for 2008 and \$14.8 trillion over five years.) The resolution provides two years of relief from the Alternative Minimum Tax (AMT), protecting some 20 million middle-class taxpayers from being subject to the AMT in 2007 and 2008. The cost of providing this relief is fully offset. The resolution also assumes the extension of the college tuition deduction, with the costs offset.

The revenue level in the Senate resolution is \$179.8 billion below the levels in the CBO baseline over 2007–2012. This provides for the extension after 2010 of middle-class tax relief—child tax credit, the 10 percent bracket, and marriage penalty relief—as well as continuation of the estate tax at 2009 levels adjusted for inflation. In addition, this revenue reduction accommodates extension of other tax provisions expiring in 2010, such as the adoption tax credit, the dependent care tax credit, and the treatment of combat pay for purposes of the earned income tax credit.

The Senate resolution includes several reserve funds that provide for tax relief, including refundable tax relief and the extension of expiring tax relief, as long as the costs of these provisions are offset. These deficit-neutral reserve funds would accommodate, for instance, tax relief related to agriculture, energy, higher education, and manufacturing as well as the extension of enhanced charitable giving from individual retirement accounts, the State and local sales tax deduction, the new markets tax credit, and the above-the-line deduction for teacher classroom supplies.

The Senate resolution assumes that any additional revenues needed under the resolution can be achieved by closing the tax gap, shutting down abusive tax shelters, addressing offshore tax havens, and without raising taxes. To help close the tax gap and bolster Internal Revenue Service (IRS) enforcement, the resolution fully funds the President's budget request for the IRS, including additional resources available through a discretionary cap adjustment that directs \$406 million to IRS enforcement activities.

House Amendment

The House amendment matches the level of revenues under the CBO baseline in each year over the 2007–2012 period. This includes \$2.1 trillion in on-budget revenues for 2008, and \$11.3 trillion over 2008–2012. (The corresponding revenue figures on a unified basis are \$2.7 trillion for 2008 and \$15.0 trillion over five years.)

By following CBO's baseline path of revenues, the House amendment achieves current-law total revenue levels, but does not assume maintaining current tax law. Thus, the House amendment accommodates reform of the AMT and extension of tax cuts benefiting middle-income households (including the child tax credit, marriage penalty relief, the 10 percent bracket, and the deduction for State and local sales taxes), as long as such changes to tax law are accomplished in a deficit-neutral manner over the 2007–2012 and 2007–2017 periods.

The House amendment also accommodates deficit-neutral extension of other expiring tax provisions, such as the research and experimentation tax credit and the deduction for small business expensing. In addition, the House amendment accommodates deficit-neutral elimination of estate taxes on all but a minute fraction of estates by reforming and substantially increasing the unified tax credit. It also accommodates other high priority deficit-neutral revenue adjustments, such as providing a tax credit for local bonds to support the repair or construction of public schools.

Conference Agreement

The conference agreement includes \$2.0 trillion in on-budget revenues for 2008, and \$11.1 trillion over 2008–2012. (The corresponding revenue figures on a unified basis are \$2.7 trillion for 2008 and \$14.8 trillion over five years.) The resolution provides immediate relief from the Alternative Minimum Tax (AMT), with its cost fully offset. The resolution also reflects extension of the college tuition deduction, with the costs offset. The agreement supports tax relief that

would benefit the middle class—including extension of the child tax credit, 10 percent bracket, and marriage penalty relief—and provide for estate tax reform. Additionally, the agreement includes several deficit-neutral reserve funds that provide for a wide range of tax policies.

The revenue level in the conference agreement is \$180 billion below the levels in the CBO baseline over 2007–2012. Revenue legislation is subject to House and Senate pay-as-you-go (paygo) rules. Additionally, the House reserve fund adjustment for revenue measures (Section 321)—the House "trigger" mechanism—creates a second procedural hurdle in the House only, in addition to the paygo rule, to ensure fiscal responsibility.

NATIONAL DEFENSE: FUNCTION 050

Function Summary

The National Defense function includes the military activities of the Department of Defense (DoD), the nuclear-weapons related activities of the Department of Energy (DoE) and the National Nuclear Security Administration, and the national security activities of several other agencies such as the Selective Service, Coast Guard and Federal Bureau of Investigation. The programs in this function include: the pay and benefits of active, Guard, and reserve military personnel; DoD operations including training, maintenance of equipment, and facilities; health care for military personnel and dependents; procurement of weapons; research and development; construction of military facilities, including housing; research on nuclear weapons; and the cleanup of nuclear weapons production facilities.

Senate Resolution

The Senate resolution calls for a total of \$648.8 billion in BA and \$617.8 billion in outlays for 2008, and \$2.9 trillion in BA and outlays over five years. This includes full funding for the President's request for war costs for 2007 through 2009.

Excluding requested war funds, the Senate resolution provides \$503.8 billion in BA and \$511.1 billion in outlays for defense in 2008. This funding for defense was equal to the level requested by the President for 2008 (as re-estimated by CBO), for a total increase of \$39.6 billion in BA over the 2007 level adjusted for inflation.

The Senate resolution rejects the President's proposals for new TRICARE enrollment fees and deductibles for military retirees under the age of 65.

Additionally, the Senate resolution assumes full funding of the President's request for \$690 million to support the baseline cost to completion for the waste treatment plant and associated facilities at the Hanford Nuclear Reservation. The resolution additionally assumes increases totaling \$22.9 million for the Hanford tank farm and other Hanford cleanup-related programs.

The Senate resolution recognizes that many communities will experience significant population growth or declines resulting from the Base Realignment and Closure (BRAC) 2005 process, and it supports additional funding to accommodate the needs of these communities.

The National Guard has a long history of outstanding service to our nation. Since September 11, 2001, our reliance on the National Guard has only increased with many thousands of troops serving the nation both at home and abroad. The President has now announced that National Guard units will face re-activation for additional tours of duty in Iraq and Afghanistan despite the fact that they have not had the amount of time at home station between deployments that is expected under Department of Defense standards. Congress has provided the National

Guard with significant resources in recognition of the important role the Guard plays in our national security and to ensure that it has the tools to continue to perform its missions. The Senate resolution assumed continued funding of the National Guard at levels at least as high as those assumed in the President's Budget. The Senate resolution encourages the Appropriations Committee to provide for critical needs for National Guard equipment left unfunded in the President's Budget.

The Senate resolution includes a cap adjustment provision allowing the Chairman of the Budget Committee to revise the discretionary spending cap for appropriations related to operations in Iraq, Afghanistan, and other war-related costs. The cap adjustment allowed under the Senate resolution is \$145.2 billion in budget authority for 2008 and \$50.0 billion for 2009 (a portion of these costs are expected to fall under budget functions other than National Defense). The Senate resolution's levels of deficits and debt assumes that this cap adjustment is fully utilized.

An additional defense-related cap adjustment provision allows the Chairman of the Budget Committee to increase the discretionary cap by up to \$5.0 billion to address deficiencies in training, equipment, force protection, logistics, or other matters necessary for the protection of United States military forces, or to address deficiencies at Walter Reed and other military medical facilities.

The existence of these cap adjustments would not prevent the Appropriations Committee from reporting emergency supplemental appropriations legislation if war costs exceed the allotted level. Emergency funding falls outside the discretionary spending caps included in the resolution, and hence does not require an adjustment.

For 2007, the Senate resolution assumes the enactment of the President's full emergency request for war costs, consisting of \$99.6 billion in BA and \$27.0 billion in outlays. Each of these levels is equal to CBO's reestimate of the President's war funding request.

House Amendment

The House amendment reflects a total of \$507.0 billion in BA and \$514.4 billion in outlays in 2008, and \$2.7 trillion in BA and outlays over five years. The defense of our nation ranks first among our priorities, and the House amendment accordingly provides robust funding for Function 050 (National Defense). The amendment calls, however, for a reallocation of resources to address threats facing the nation and to guarantee first-rate health care for members of our armed forces. It includes assumptions on specific defense policy in Title IV, Section 402.

The National Commission on Terrorist Attacks Upon the United States (commonly referred to as the 9/11 Commission) identified terrorists with weapons of mass destruction as one of the nation's gravest threats. It recommended that Congress supply more resources to secure nuclear weapons and the fissile materials used in making these weapons. It is the policy of the House amendment that non-proliferation programs, such as the Cooperative Threat Reduction program, be given greater priority and higher funding.

High among our priorities is the health care guaranteed our armed forces, not only while they are in harm's way, but when they return from combat with injuries. For that reason, the House amendment opposes Tricare fee increases and calls for a substantial increase in the veterans' health care system. The amendment notes the upcoming recommendations of the President's Commission on Care for America's Returning Wounded Warriors and other government in-

vestigations in connection with the substandard care at Walter Reed Army Medical Center, and allows funds for action when those recommendations are received.

It is the policy of the House amendment that acquisition programs such as missile defense and satellite procurement be funded at lower, but still robust levels. Development of space-based interceptors as part of the missile defense program should be de-emphasized and satellite development and procurement should proceed along a more measured schedule. DoD's satellite programs have experienced significant cost growth and the President's request for satellite acquisition reflects a 26 percent increase above the 2007 enacted level.

The House amendment recognizes the need for DoD to root out wasteful spending with far more diligence. Seventeen years after passage of the Chief Financial Officers Act of 1990, DoD still cannot pass a standard audit. The Department cannot adequately track what it owns or the spending in its annual budgets. DoD has allowed the cost of its major acquisition programs to grow at an unsustainable rate. The Department's major acquisition programs grew by \$317.0 billion above their initial projections from 2002 to 2006. DoD has awarded contracts for its foreign deployments that have been grossly more wasteful than domestic contracts, especially in Iraq. Furthermore, DoD continues to fund weapons systems that were developed years ago to counter Cold War-era threats, which may not be as effective in protecting the nation from today's threats.

Over the last six years, the Government Accountability Office (GAO) has performed numerous audits of DoD's financial management, contracting, and business practices. GAO made 2,544 recommendations, of which 1,378 have yet to be implemented. The House amendment assumes that enhancing accounting practices at DoD and implementing many GAO recommendations would yield substantial savings that could be applied to meet critical defense priorities. The amendment also directs the committees with jurisdiction over defense and armed services to conduct more oversight with the objective of ferreting out wasteful practices, fraud, and abuse.

For mandatory programs, the House amendment matches the President's assumptions regarding offsetting receipts.

Conference Agreement

The conference agreement for Function 050 includes a total of \$507.0 billion in BA and \$514.4 billion in outlays in 2008, and \$2.7 trillion in BA and outlays over five years. The conference agreement does not assume enactment of the President's proposals for new TRICARE enrollment fees and deductibles for military retirees under the age of 65. In keeping with the Senate resolution, the conference agreement assumes that total National Defense funding includes no less than \$5.0 billion to address deficiencies in training, equipment, force protection, logistics, and military medical care. The conference agreement reaffirms the Senate resolution's position on the importance of robust funding for atomic energy defense environmental cleanup activities.

For mandatory programs, the conference agreement matches the President's assumptions regarding offsetting receipts.

The conference agreement reflects war costs in Function 970, as in the House amendment.

The conference agreement also includes a deficit-neutral reserve fund (Section 302) to provide increased flexibility to the relevant House and Senate committees on various issues related to meeting our commitments to wounded and disabled military personnel and veterans, as well as their survivors.

The conference agreement includes a statement of policy on defense issues (Section 402). The House Budget Committee report (H. Rept. 110-69) discussed key priorities to be funded within the defense allocation and the need for the Department of Defense to root out wasteful spending (such as the continued funding of some Cold War-era weapons systems, which may not be as effective in protecting the nation from today's threats). The conference agreement reaffirms these priorities.

INTERNATIONAL AFFAIRS: FUNCTION 150

Function Summary

The International Affairs function includes funding for operations of U.S. embassies and other diplomatic missions abroad; development aid and technical assistance to developing countries; security assistance to foreign governments; refugee assistance; Foreign Military Sales Trust Fund; contributions to international organizations, including financial institutions; and the Export-Import Bank and other trade promotion programs. The major agencies in this function include the Departments of Agriculture, State, and the Treasury; the United States Agency for International Development; and the Millennium Challenge Corporation.

Senate Resolution

The Senate resolution calls for a total of \$39.2 billion in BA and \$36.9 billion in outlays, including the 2008 emergency request, and \$180.0 billion in BA and \$172.3 billion in outlays over five years. Excluding assumed war costs provided under a cap adjustment, discretionary spending for 2008 totals \$36.5 billion in BA and \$35.9 billion in outlays. The discretionary level is \$6.5 billion above the 2007 level adjusted for inflation. The Senate resolution includes an increase in funding for international programs and additional funds for trade enforcement.

Overall, the Senate resolution increases funding for the President's Emergency Plan for AIDS Relief above the requested level and provides a U.S. contribution to the Global Fund for HIV/AIDS, Tuberculosis and Malaria of \$940 million.

House Amendment

The House amendment reflects a total of \$34.7 billion in non-emergency BA and \$33.1 billion in non-emergency outlays in 2008, and \$178.3 billion in BA and \$165.0 billion in outlays over five years. The House amendment's discretionary budget authority for 2008 is \$2.0 billion (5.9 percent) more than the amount needed to maintain purchasing power at the 2007 level. The amendment matches the President's Function 150 request for activities related to the United States' overseas military deployments and the Emergency Plan for AIDS Relief, which includes the Global HIV/AIDS Initiative. The House also notes the importance of adequate funding for core U.S. development assistance and other high priority programs.

Consistent with the President's budget, the House amendment also provides full funding to continue agreements that the United States reached in 1998 with Israel and Egypt regarding levels of military financing and economic support.

The House amendment provides additional funding for 2008 for the McGovern-Dole International Food for Education and Child Nutrition Program. This program has been demonstrated to help reduce child hunger and malnutrition, and increase enrollment and attendance in schools in beneficiary countries.

The House notes the large amount of unobligated funding that is still available for the Millennium Challenge Corporation, which has received almost \$6.0 billion in total appropriations from fiscal years 2004 through 2007.

The House also notes the strong support enjoyed by H.R. 1595, a measure designed to provide compensation to the Guamanian victims of the Imperial Japanese military occupation during World War II.

Conference Agreement

The conference agreement includes \$34.7 billion in BA and \$33.1 billion in outlays in 2008, and \$180.1 billion in BA and \$166.5 billion in outlays over five years. The conference agreement reflects international affairs funding associated with overseas deployments and related activities in Function 970, as in the House amendment.

GENERAL SCIENCE, SPACE, AND TECHNOLOGY:
FUNCTION 250

Function Summary

The General Science, Space, and Technology function includes funding for the National Aeronautics and Space Administration (NASA), except aviation programs, the National Science Foundation (NSF), as well as programs in the Department of Energy (DoE) Office of Science.

Senate Resolution

The Senate resolution calls for a total of \$27.6 billion in BA and \$26.4 billion in outlays for 2008, and \$137.5 billion in BA and \$136.4 billion in outlays over five years.

The Senate resolution assumes the President's request of \$17.3 billion for NASA. The United States' goals for space exploration were defined in the President's 'Vision for Space Exploration' and included in the National Aeronautics and Space Administration Authorization Act of 2005. The resolution recognizes the importance of our nation's space program and endorsed the Act's balanced goals of exploration, science and aeronautics. The Act calls for retirement of the Space Shuttle by 2010 and first flight of its replacement by 2014. The Senate resolution recognizes the strategic importance of uninterrupted access to space and supported efforts to reduce this four-year gap in U.S. human space flight.

In addition, the Senate resolution notes the importance of incentives to promote innovation and competitiveness through research as essential to our nation's efforts to advance the scientific and technological developments necessary to maintain our quality of life and economic security. The resolution also reflects the Senate's concern about the geographic imbalance of federal research funding and believes that it is incumbent upon departments and agencies to ensure a more equitable distribution of funding and research infrastructure development throughout the nation.

The Senate resolution provides a \$1.0 billion increase for additional investments in innovation and education, and \$40 million for NSF nanotechnology programs.

House Amendment

The House amendment reflects a total of \$27.6 billion in BA and \$26.5 billion in outlays in 2008, and \$149.6 billion in BA and \$145.8 billion in outlays over five years. Funding in Function 250 exceeds the funding levels in the President's budget and the current services level for all five years in the budget window. Additional increases for scientific research and education are included in Function 270 (Energy), Function 300 (Environment and Natural Resources), Function 350 (Agriculture), Function 370 (Commerce and Housing Credit), Function 400 (Transportation), Function 500 (Education, Training, Employment, and Social Services), and Function 550 (Health), all of which receive more funding than the President requested. These increases will support the goals of the House Leadership's Innovation Agenda: to put NSF funding on a path toward doubling, to train

more qualified science and math teachers, and to invest in basic research on energy technologies.

Conference Agreement

The conference agreement includes \$27.6 billion in BA and \$26.5 billion in outlays in 2008 and \$149.6 billion in BA and \$145.8 billion in outlays over five years. The conference agreement provides significant increases for NSF and the DoE Office of Science, and fully funds the President's 2008 request for NASA at \$17.3 billion. For NASA, this represents an increase of \$696 million, or 4 percent, above the 2007 level adjusted for inflation.

ENERGY: FUNCTION 270

Function Summary

The Energy function includes funding for most civilian energy and environmental programs in the Department of Energy (DoE). This function also includes the Rural Utilities Service of the Department of Agriculture, the Tennessee Valley Authority, the Federal Energy Regulatory Commission, and the Nuclear Regulatory Commission. This function does not include DoE's national security activities, which are in the National Defense function, or its basic research and science activities, which are in the General Science, Space and Technology function.

Senate Resolution

The Senate resolution calls for a total of \$3.7 billion in BA and \$1.3 billion in outlays for 2008, and \$16.6 billion in BA and \$8.5 billion in outlays over five years. The Senate resolution assumes \$1.6 billion for the DoE's Energy Efficiency and Renewable Energy program. This funding level is \$385 million above the President's request. In addition, the Senate resolution rejects the President's proposed cuts to the fossil energy research and development program.

The Senate resolution includes a deficit-neutral reserve fund for energy legislation that would reduce our nation's dependence on foreign sources of energy, expand production and use of alternative fuels and alternative fuel vehicles, promote renewable energy development, improve electricity transmission, encourage responsible development of domestic oil and natural gas resources, or reward conservation and efficiency. The reserve fund will provide committees increased flexibility in finding offsets for legislation that addresses the energy challenges facing our nation. The Senate resolution also includes a deficit-neutral reserve fund which accommodates the extension of various energy tax incentives.

The Senate resolution rejects the President's proposal to increase the interest rates Power Marketing Administrations pay when they borrow funds from the Treasury. The resolution also rejects the proposal to accelerate the Bonneville Power Administration's (BPA's) debt repayment. The BPA proposal could lead to higher electricity rates for power customers in the Northwest and circumvent the regional decision making process. It is unfortunate that the President's budget proposed this again after it was explicitly rejected by Congress last year. The resolution does not assume any savings from the proposal and includes a deficit-neutral reserve fund for legislation blocking the proposal. The levels for the energy function assume funding to accommodate legislation blocking the BPA proposal.

The Senate resolution adds funding for carbon sequestration and capture technology and funding for geothermal, ocean, and hydroelectric energy assistance.

House Amendment

The House amendment reflects a total of \$3.2 billion in BA and \$1.1 billion in outlays for 2008, and \$16.0 billion in BA and \$7.9 bil-

lion in outlays over five years. The amendment provides funding above the President's request and the level needed to maintain current services for Function 270. This increased funding could be used for research, development, and deployment of renewable and alternative energy technology and resources.

The House amendment also establishes a reserve fund to facilitate the development of conservation and efficiency technologies, clean domestic renewable energy resources, and alternative fuels that will reduce our reliance on foreign oil. The federal government, and particularly the DoE, should take the lead in research and development, and to that end, the House amendment includes an increase in Function 270 above baseline, while emphasizing that this is a first step toward increases that need to come soon and be substantial.

In the meantime, the DoE should husband its resources and program work at the national laboratories to advance the technologies of energy conservation and efficiency and of clean, renewable energy. Other agencies and departments of the government should join this effort. The House amendment recognizes, for example, the role that the Department of Agriculture could take in developing new energy sources such as cellulose ethanol, and approves this mission among those cited in Function 350.

Funding sources for research and development are scattered throughout the budget. These sources need to be inventoried, and where possible, refocused on research and development of clean and renewable energies.

Conference Agreement

The conference agreement includes \$3.4 billion in BA and \$1.2 billion in outlays for 2008, and \$16.6 billion in BA and \$8.5 billion in outlays over five years. The conference agreement rejects the proposal to accelerate the Bonneville Power Administration's (BPA's) debt repayment. The BPA proposal could lead to higher electricity rates for power customers in the Northwest and circumvent the regional decision making process. It is unfortunate that the President's budget proposed this again after it was explicitly rejected by Congress last year. The conference agreement does not assume any savings from the proposal and includes a deficit-neutral reserve fund for legislation rejecting the proposal. The levels for the energy function assume funding to accommodate legislation rejecting the BPA proposal.

The conference agreement also rejects the President's proposal to increase the interest rates Power Marketing Administrations pay when they borrow funds from the Treasury.

The conference agreement includes a deficit-neutral reserve fund to accommodate energy legislation in both the House and the Senate.

NATURAL RESOURCES AND ENVIRONMENT:
FUNCTION 300

Function Summary

The Natural Resources and Environment function consists of funding for water resources, conservation, land management, pollution control and abatement, and recreational resources. Major departments and agencies in this function are the Department of the Interior (including the National Park Service, the Bureau of Land Management, the Bureau of Reclamation, the Fish and Wildlife Service, and the Minerals Management Service), conservation-oriented and land management agencies within the Department of Agriculture (including the Forest Service), the National Oceanic and Atmospheric Administration at the Department of Commerce, the Army Corps of Engineers, and the Environmental Protection Agency (EPA).

Senate Resolution

The Senate resolution calls for a total of \$32.9 billion in BA and \$34.9 billion in outlays for 2008, and \$169.7 billion in BA and \$176.4 billion in outlays over five years. The Senate resolution includes \$8.1 billion for the EPA. This is \$877 million above the President's request and \$170 million above the 2007 level adjusted for inflation. In nominal dollars, the President's proposed 2008 funding level of \$7.2 billion would be the lowest budget for EPA since 1997. The Senate resolution assumes \$1.5 billion for Superfund, an increase of \$211 million above the President's request. The Senate resolution also assumes full funding for EPA's programs to support clean and safe drinking water. It rejects the President's proposal to cut a variety of environmental protection programs.

The Senate resolution rejects the President's proposal to permit oil and gas leasing in the Arctic National Wildlife Refuge (ANWR) and does not assume savings from the proposal. The Senate resolution also does not assume any savings from the President's proposal to sell Federal lands.

It rejects the proposal in the President's budget to reallocate the repayment of the capital costs of the Pick-Sloan Missouri Basin irrigation program to power customers. The resolution recognizes the importance of the Bureau of Reclamation rural water program to support ongoing Municipal, Rural, and Industrial (MR&I) systems for the Great Plains Region. The Bureau of Reclamation supplies drinking water to 2.6 million people in the Great Plains region and is encouraged to prioritize the completion of the Pick Sloan-Missouri Basin Program—Garrison Diversion Unit, the Mni Wiconi Project, Dry Prairie, Perkins County, and the Lewis and Clark projects. Together, these projects have a capability of \$200 million. The resolution supports funding these projects at a level that is as close as possible to the full capability for these vital rural water development projects. The Senate resolution adds funding for the Forest Service.

House Amendment

The House amendment reflects a total of \$32.8 billion in BA and \$34.9 billion in outlays for 2008 and \$172.2 billion in BA and \$178.3 billion in outlays over five years. The House amendment rejects the President's proposed cuts to priority programs, such as the Land and Water Conservation Fund, the Fish and Wildlife Service's wildlife refuge system, the EPA's grants to States and Tribes to address water and air quality, and other EPA programs. It also includes funding to address high-priority brownfield redevelopment concerns. In addition, the amendment accommodates the President's recommendation to increase funding for the operation and maintenance of the national park system. The House amendment includes a deficit-neutral reserve fund to facilitate the reauthorization of the Farm Bill, providing resources for such objectives as to secure an economic safety net for agricultural producers, conserve our natural resources, and address nutrition needs.

Conference Agreement

The conference agreement includes \$33.4 billion in BA and \$35.2 billion in outlays for 2008, and \$173.2 billion in BA and \$179.3 billion in outlays over five years. The funding levels in the conference agreement assume that if the severity of the fire season requires additional funding, wildland fire suppression activities will be funded for 2008 at no less than \$400 million above the ten-year average at the Forest Service and \$100 million above the ten-year average at the Department of the Interior.

AGRICULTURE: FUNCTION 350

Function Summary

The Agriculture function includes farm income stabilization, agricultural research, and other services administered by the U.S. Department of Agriculture. The discretionary programs include research and education programs, economics and statistics services, administration of the farm support programs, farm loan programs, meat and poultry inspection, and a portion of the Public Law 480 international food aid program. The mandatory programs include commodity programs, crop insurance, and certain farm loans.

Senate Resolution

The Senate resolution reflects a total of \$20.5 billion in BA and \$21.5 billion in outlays for 2008 and \$105.0 billion in BA and \$102.9 billion in outlays over five years. With the 2002 Farm Bill expiring this year, the Senate resolution provides a deficit-neutral reserve fund for the reauthorization of agricultural programs. To address the needs of rural America and promote new sources of renewable energy from U.S. farm products, it would provide a \$15.0 billion deficit-neutral reserve fund for the 2007 through 2012 period to reauthorize the Farm Bill. The reauthorization of the Farm Bill will provide an economic safety net for agricultural producers, enhance the stewardship of our natural resources, address domestic nutrition needs, increase agricultural research, and improve our export competitiveness.

House Amendment

The House amendment reflects a total of \$20.4 billion in BA and \$19.5 billion in outlays for 2008 and \$105.0 billion in BA and \$101.0 billion in outlays over five years. The amendment provides sufficient funding to bolster commodity support, agricultural research, and animal and plant inspection programs. The amendment includes a deficit-neutral reserve fund to facilitate the reauthorization of the Farm Bill, providing resources for such objectives as to secure an economic safety net for agricultural producers, conserve our natural resources, and address nutrition needs.

Conference Agreement

The conference agreement includes a total of \$20.5 billion in BA and \$19.6 billion in outlays for 2008, and \$105.5 billion in BA and \$101.5 billion in outlays over five years. The conference agreement includes a deficit-neutral reserve fund (Section 307) to provide up to an additional \$20.0 billion for the 2007 Farm Bill to improve the economic safety net for farmers, address domestic nutrition needs, enhance conservation programs, and encourage the production of renewable energy resources and other purposes.

COMMERCE AND HOUSING CREDIT: FUNCTION 370

Function Summary

The Commerce and Housing Credit function includes mortgage credit, the Postal Service, deposit insurance, and other advancement of commerce (the majority of the discretionary and mandatory spending in this function). The mortgage credit component of this function includes housing assistance through the Federal Housing Administration, the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac), the Government National Mortgage Association (Ginnie Mae), and rural housing programs of the Department of Agriculture. The function also includes net Postal Service spending and spending for deposit insurance activities of banks, thrifts, and credit unions. Most of the Commerce Department is provided for in this function, including the International Trade Administration, the Bu-

reau of Economic Analysis, the Patent and Trademark Office, the National Institute of Standards and Technology, the National Telecommunications and Information Administration, and the Bureau of the Census. Finally, the function also includes funding for independent agencies such as the Securities and Exchange Commission, the Commodity Futures Trading Commission, the Federal Trade Commission, the Federal Communications Commission, and the majority of the Small Business Administration.

Senate Resolution

The Senate resolution calls for a total of \$10.7 billion in unified BA and \$3.7 billion in unified outlays for 2008, and \$47.8 billion in unified BA and \$7.1 billion in unified outlays over five years. The Senate resolution rejects the President's proposal to cut assistance to America's small businesses. The President has tried repeatedly to reduce the Manufacturing Extension Program (MEP), which helps small businesses adopt advanced manufacturing technologies, but Congress has consistently restored the funding. The Senate resolution restores cuts to this vital program. The Senate resolution also provides robust resources for the Small Business Administration.

House Amendment

The House amendment reflects a total of \$11.0 billion in unified BA and \$3.8 billion in unified outlays for 2008 and \$55.0 billion in unified BA and \$13.9 billion in unified outlays over five years. The House amendment's discretionary function total includes significantly increased funding for the Bureau of Census, reflecting continued preparation for the 2010 census. For 2008, and over the following four years, funding in Function 370 is above the level in the President's budget.

Conference Agreement

The conference agreement calls for a total of \$11.1 billion in unified BA and \$3.8 billion in unified outlays for 2008, and \$55.1 billion in unified BA and \$14.1 billion in unified outlays over five years.

TRANSPORTATION: FUNCTION 400

Function Summary

The Transportation function consists mostly of the programs administered by the Department of Transportation, including programs for highways, mass transit, aviation, and maritime activities. This function also includes two components of the Department of Homeland Security: the Coast Guard and the Transportation Security Administration. In addition, this function includes several small transportation-related agencies and the research program for civilian aviation at NASA.

Senate Resolution

The Senate resolution calls for a total of \$83.9 billion in BA and \$81.4 billion in outlays for 2008, and \$390.2 billion in BA and \$425.3 billion in outlays over five years. The Senate resolution provides \$1.8 billion in BA for Amtrak, a funding level that is \$880 million above the President's request and \$480 million above the 2007 level adjusted for inflation. Amtrak is a vital link to many small communities, and the Senate resolution will help Amtrak pay off debt and continue to improve its operations. The Senate resolution also provides full funding for highway, safety, and transit programs.

House Amendment

The House amendment reflects a total of \$82.7 billion in BA and \$80.8 billion in outlays for 2008 and \$393.7 billion in BA and \$426.7 billion in outlays over five years. It fully funds the highway, safety, and transit programs authorized in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A

Legacy for Users (SAFETEA-LU). Specifically, the House amendment includes both the revenue aligned budget authority (RABA) and the funding for transit capital projects that the President's 2008 budget cuts. In addition, the House amendment maintains Amtrak, provides additional funding for grants to airports, and rejects the President's cuts to aviation programs within NASA.

Conference Agreement

The conference agreement provides a total of \$82.8 billion in BA and \$81.1 billion in outlays for 2008 and \$393.2 billion in BA and \$426.1 billion in outlays over five years. The conference agreement fully funds the highway, safety, and transit programs authorized in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Specifically, the conference agreement includes the revenue aligned budget authority (RABA) that the President's 2008 budget cuts. Among other transportation programs, the conference agreement provides \$1.8 billion in BA for Amtrak.

COMMUNITY AND REGIONAL DEVELOPMENT: FUNCTION 450

The Community and Regional Development function includes federal programs to improve community economic conditions, promote rural development, and assist in federal preparations for and response to disasters. This function provides appropriated funding for the Community Development Block Grant (CDBG), Department of Agriculture rural development programs, the Bureau of Indian Affairs, the Federal Emergency Management Agency (including homeland security grants), and other disaster mitigation and community development-related programs. It also provides mandatory funding for the federal flood insurance program.

Senate Resolution

The Senate resolution calls for a total of \$15.4 billion in BA and \$22.5 billion in outlays for 2008, and \$70.7 billion in BA and \$96.9 billion in outlays over five years. This level restores cuts proposed in the President's budget for community development programs and several Department of Homeland Security (DHS) grant programs, including first responder grants. In addition, the Senate resolution includes increases in funding for security grant programs relating to port security, rail and transit security, interoperable communications equipment, and emergency management performance grants.

House Amendment

The House amendment reflects a total of \$15.0 billion in BA and \$22.0 billion in outlays in 2008, and \$71.9 billion in BA and \$94.5 billion in outlays over five years. The House amendment provides more than the President's 2008 discretionary funding level for Function 450, rejecting the President's cuts to the Community Development Block Grant (CDBG) program and providing additional funds for this and other key priorities like rural development and disaster preparedness.

Conference Agreement

The conference agreement includes a total of \$15.8 billion in BA and \$22.3 billion in outlays for 2008, and \$76.0 billion in BA and \$97.6 billion in outlays over five years. The conference agreement provides funding for continued investments in and additional resources for community development and homeland security, including community development block grants, interoperable communications equipment grants, and emergency management performance grant programs.

EDUCATION, TRAINING, EMPLOYMENT, AND SOCIAL SERVICES: FUNCTION 500

Function Summary

The Education, Training, Employment and Social Services function includes funding for the Department of Education, as well as programs in the Department of Health and Human Services (HHS) and the Department of Labor. This function provides funding for elementary and secondary, career and technical, and post-secondary educational programs; job training and employment services; children and family services; and statistical analysis and research related to these areas. It also contains funding for the Library of Congress and independent research and art agencies such as the Corporation for Public Broadcasting, the Smithsonian Institution, the National Gallery of Art, the John F. Kennedy Center for the Performing Arts, the National Endowment for the Arts, and the National Endowment for the Humanities.

Senate Resolution

The Senate resolution calls for a total of \$93.9 billion in BA and \$90.4 billion in outlays in 2008 and \$490.6 billion in BA and \$478.0 billion in outlays over five years. The Senate resolution provides \$2.0 billion in 2009 advance funding for Function 500 programs.

The Senate resolution recognizes that investments in education and training programs are critical to our nation's long-term economic outlook and provides \$9.3 billion above the President's 2008 discretionary request for this function, including \$2.0 billion in advance 2009 funding. Specifically, the Senate resolution rejects the President's proposed cuts and provides the largest increase since 2002 for elementary and secondary programs, particularly for Title I, the Individuals with Disabilities Education Act (IDEA), and Impact Aid. The Senate resolution provides an increase for Head Start and fully accommodates the President's proposed increases in the maximum Pell grant.

The Senate resolution provides a deficit-neutral reserve fund to facilitate enactment of legislation to improve college access and affordability. The Senate resolution provides \$100 million for summer education programs, and a deficit-neutral reserve fund to facilitate enactment of legislation to provide assistance to States for offering or expanding preschool for children from low-income families. The Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution for legislation appropriating up to \$17 million for 2008 if the Comptroller General makes certain certifications to Congress regarding the Smithsonian Institution.

House Amendment

The House amendment calls for a total of \$92.5 billion in BA and \$91.1 billion in outlays for 2008 and \$484.7 billion in BA and \$475.3 billion in outlays over five years. The House amendment specifically rejects the President's cuts to education, including his plan to eliminate many education programs. The amendment also rejects the President's steep cuts to job training and social services programs, including the Community Services Block Grant and the Social Services Block Grant.

In contrast to the President's funding cuts, the House amendment makes a down payment toward addressing long-standing needs in education, training, and social services. To that end, the amendment provides an appropriated program level for Function 500 that is \$7.9 billion above the 2008 level in the President's budget. Those additional resources include \$5.9 billion in 2008 funding and an increase of \$2.0 billion in advance 2009 funding.

The House amendment's increased funding could be used for vital programs that help

children and adults who most need assistance, including Head Start, Title I and other elementary and secondary education programs authorized under the No Child Left Behind Act, and employment training and national service programs such as VISTA. The additional funding also could bolster the federal government's commitment to cover a growing share of the cost of special education under the Individuals with Disabilities Education Act. Finally, the increased funds could help secure college access, equity, and success for every American by raising the maximum Pell Grant to at least \$4,600, maintaining Supplemental Opportunity Educational Grants and the Leveraging Educational Assistance Partnerships, and broadening access to Hispanic-serving institutions, Historically Black Colleges and Universities, and other high-quality educational opportunities.

The House amendment also contains a reserve fund to accommodate legislation that makes college more affordable.

Conference Agreement

The conference agreement includes \$93.9 billion in BA and \$91.0 billion in outlays in 2008 as well as \$2.0 billion in advance 2009 funding, and \$492.3 billion in BA and \$480.1 billion in outlays over five years. For 2008, the conference agreement provides \$7.5 billion above the President in discretionary BA, plus the additional \$2.0 billion in advance BA for 2009. The conference report rejects the President's program eliminations and cuts. Additional funding is provided for investments in educational opportunities, social services, and job training.

The conference agreement recognizes that funding for education programs has been insufficient to meet the mandates created by federal laws, and, even more important, to ensure that every child receives a world-class education. The agreement envisions significant investments in this area.

The conference agreement recognizes that early childhood education programs provide a sound return on investment. Despite efforts to increase preschool programs at the state level, the conference agreement acknowledges that many preschool children do not have access to early childhood education programs and further investments should be considered at the federal level. The conference agreement also contains a reserve fund to accommodate legislation that makes college more affordable.

HEALTH: FUNCTION 550

Function Summary

The Health function includes most direct health care service programs as well as funding for anti-bioterrorism activities, national biomedical research, protecting the health of the general population and workers in their places of employment, providing health services for under-served populations, and promoting training for the health care workforce. The Senate resolution calls for a total of \$291.3 billion in BA and \$290.2 billion in outlays for 2008, and \$1.7 trillion in BA and \$1.7 trillion in outlays over five years. The Senate resolution includes increases above the

2007 enacted level adjusted for inflation for NIH, HRSA, CDC, FDA, and IHS. Significant increases for Community Health Centers and health professions within HRSA are also included. The Senate resolution assumes funding for the last phase of HHS' National Strategy for Pandemic Influenza. The resolution rejects the President's proposed \$146 million cut for Rural Health Activities in HRSA. The resolution also supports funding demonstration programs to provide patient navigator services as authorized in the Patient Navigator, Outreach, and Chronic Disease Prevention Act under HRSA. In addition, the Senate resolution contains various health care related deficit-neutral reserve funds, including a reserve fund for SCHIP legislation.

House Amendment

The House amendment calls for a total of \$286.8 billion in BA and \$286.3 billion in outlays for 2008 and \$1.6 trillion in BA and outlays over five years. The discretionary resources for Function 550 for 2008 represent an increase over both the 2007 level and the President's request. The House amendment increases resources for public health programs to provide for advances in science, improvements in health, access to quality health care for underserved populations, and other critical programs.

Programs in Function 550 are also addressed in the House amendment's deficit-neutral reserve funds for SCHIP and for Transitional Medical Assistance.

Conference Agreement

The conference agreement includes a total of \$287.5 billion in BA and \$286.4 billion in outlays for 2008, and \$1.6 trillion in BA and \$1.6 trillion in outlays over five years. In addition to increases for other health agencies, the conference agreement includes significant increases for Community Health Centers and the National Health Service Corps within HRSA as well as funding for patient navigator services. The conference agreement also contains several health care related deficit-neutral reserve funds, including a reserve fund for SCHIP legislation.

MEDICARE: FUNCTION 570

Function Summary

The Medicare function includes funding to administer and to provide benefits under the Medicare program. Medicare is a federal health insurance program that currently covers 43 million Americans aged 65 and older, as well as younger adults who are disabled or suffer from end-stage renal disease.

Congress provides an annual appropriation for the costs of administering Medicare, including resources to conduct program integrity activities to guard against improper payments, fraud, and abuse. The remainder of spending in this function is mandatory and reflects payments to health care providers and private insurance plans, as well as beneficiary premiums and other receipts and payments to the Medicare trust funds, under the Part A Hospital Insurance (HI) program, the Part B Supplementary Medical Insurance (SMI) program, the Part C Medicare Advantage program, and the Part D Prescription Drug program.

Senate Resolution

The Senate resolution calls for a total of \$390.0 billion in BA and \$390.0 billion in outlays for 2008, and \$2.2 trillion in BA and \$2.2 trillion in outlays over five years. For 2008, the discretionary funding levels in this function include a discretionary cap adjustment of up to \$383 million for program integrity activities of the Health Care Fraud and Abuse Control (HCFAC program) to address improper payments, fraud, and abuse in the Medicare program. In addition, the manda-

tory funding levels in this function assume Medicare savings of \$15.0 billion over five years from reducing certain overpayments to health care providers. Specific policies to enact these savings will be determined by the Senate Finance Committee. The function also assumes an additional savings of \$400 million over five years to offset SCHIP shortfall legislation.

House Amendment

The House amendment reflects a total of \$389.6 billion in BA and \$389.7 billion in outlays in 2008, and \$2.2 trillion in BA and \$2.2 trillion in outlays over five years. It assumes the extension of Medicare premium assistance for qualified individuals with incomes between 120 and 135 percent of the federal poverty level and limited financial resources. The amendment assumes that savings from Medicare program efficiency improvements will offset the costs of extending the premium assistance program as well as other initiatives to improve the Medicare program for beneficiaries.

The House amendment assumes targeted assistance to hospitals with 100 beds or more that have faced a reduction in Medicare disproportionate share hospital payments due to assignment to a Micropolitan area.

The amendment accommodates a discretionary cap adjustment of \$183 million for additional activities aimed at detecting and preventing Medicare fraud. The Health Care Fraud and Abuse Control program—a joint effort of the Department of Health and Human Services, the HHS Office of Inspector General, and the Department of Justice—generated roughly \$4 in program savings for every dollar spent in 2004 and 2005.

The House amendment also contains a reserve fund to accommodate legislation for Medicare program improvements.

Conference Agreement

The conference agreement reflects a total of \$389.6 billion in BA and \$389.7 billion in outlays in 2008, and \$2.2 trillion in BA and \$2.2 trillion in outlays over five years. Discretionary and mandatory spending levels in this function are consistent with the CBO baseline funding levels.

For fiscal year 2008, the discretionary funding levels in Function 920 include a discretionary cap adjustment of up to \$383 million for program integrity activities of the Health Care Fraud and Abuse Control (HCFAC) program, to address improper payments, fraud and abuse in the Medicare program.

Senate Resolution

The Senate resolution calls for a total of \$379.8 billion in BA and \$383.6 billion in outlays for 2008, and \$2.0 trillion in BA and \$2.0 trillion in outlays over five years. The Senate resolution includes increases for the Low-Income Home Energy Assistance Pro-

gram to continue providing heating and cooling assistance to over five million low income households, including the working poor, disabled persons, elderly, and families with young children. The Senate resolution also includes a deficit-neutral reserve fund to provide up to an additional \$5.0 billion in mandatory child care funding.

House Amendment

The House amendment calls for a total of \$379.9 billion in BA and \$383.5 billion in outlays for 2008 and \$2.0 trillion in BA and outlays over five years. The House amendment provides increased funding that could be used to meet urgent needs related to Hurricane Katrina recovery and to begin addressing long-ignored challenges facing children and families, including large backlogs in the Social Security disability system. The amendment also includes a deficit-neutral reserve fund to facilitate the reauthorization of the Farm Bill, providing resources for such objectives as to secure an economic safety net for agricultural producers, conserve our natural resources, and address nutrition needs.

Conference Agreement

The conference agreement includes a total of \$380.8 billion in BA and \$384.3 billion in outlays for 2008, and \$2.0 trillion in BA and \$2.0 trillion in outlays over five years. The total includes increased funding for the Low-Income Home Energy Assistance Program, critical Hurricane Katrina recovery efforts, and other challenges, including a reduction of Social Security disability backlogs. The total Income Security funding level in the conference report (including Function 920) also assumes the President's full request for a cap adjustment for program integrity efforts, including additional funding for in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews, but does not assume enactment of proposals which would adversely affect workers who have received unemployment benefits. The conference agreement also includes a deficit-neutral reserve fund to provide up to an additional \$5.0 billion in mandatory child care funding and a farm bill reserve fund which accommodates nutrition needs.

SOCIAL SECURITY: FUNCTION 650

Function Summary

The Social Security function includes funding for the Old-Age, Survivors, and Disability Insurance (OASDI) programs, which provide earned Social Security benefits to nearly 50 million eligible retired workers, disabled persons, and their spouses and survivors. In addition, this function provides funding to the Social Security Administration (SSA) and the Office of the Inspector General (OIG) to administer the Social Security program and ensure program integrity.

Under provisions of the Congressional Budget Act and the Budget Enforcement Act, the Old-Age and Survivors Insurance (OASI) trust fund and the Disability Insurance (DI) trust fund are off-budget and do not appear in the budget resolution totals. A small portion of spending in Function 650, the general fund transfer of income taxes on Social Security benefits to the trust funds, is considered on-budget and appears in the budget resolution totals.

Senate Resolution

The Senate resolution calls for \$19.6 billion in on-budget BA and outlays for 2008, and \$121.8 billion in on-budget BA and outlays over five years. (The corresponding figures on a unified basis are \$615.3 billion in BA and \$612.8 billion in outlays for 2008 and \$3.4 trillion in BA and outlays over five years.) This spending reflects the general fund transfer of

income taxes on Social Security benefits to the trust funds.

For 2008, the Senate resolution provides \$5.1 billion in BA and \$5.1 billion in outlays for SSA administrative expenses, as outlined in section 102(c) of the resolution, which represents a \$297 million increase over the President's request. The additional funding is intended to help address the serious and growing backlog of Social Security disability claims and hearings.

House Amendment

The House amendment reflects \$19.6 billion in on-budget BA and outlays for 2008, and \$121.8 billion in on-budget BA and outlays over five years. (The corresponding figures on a unified basis are \$615.0 billion in BA and \$612.6 billion in outlays for 2008 and \$3.4 trillion in BA and outlays over five years.) It rejects the President's private account proposal for Social Security.

The administrative budget for the Social Security Administration (SSA) includes resources in Function 570 (Medicare) and Function 600 (Income Security) as well as Function 650. The House amendment assumes a \$9.9 billion discretionary funding level for SSA. The additional resources will prevent increases in the backlogs of disability decisions and hearings that would occur under the President's budget. The House amendment will enable SSA to address the significant number of individuals waiting for disability and hearing decisions.

The House amendment also accommodates an additional \$213 million through a discretionary cap adjustment for program integrity initiatives. The cap adjustment allows the agency to conduct an increasing number of Continuing Disability Reviews (CDRs) and Supplemental Security Income redeterminations.

Conference Agreement

The conference agreement includes \$19.6 billion in on-budget BA and outlays for 2008, and \$121.8 billion in on-budget BA and outlays over five years. (The corresponding figures on a unified basis are \$615.0 billion in BA and \$612.6 billion in outlays for 2008 and \$3.4 trillion in BA and outlays over five years.) The discretionary and mandatory funding levels in this function are consistent with the CBO baseline.

For 2008, the conference agreement provides total net resources for the administrative expenses of SSA and the OIG (across all relevant functions) of \$10.1 billion, \$430 million above the President's requested level. The total SSA funding level in the conference agreement assumes both the President's full request for a cap adjustment in Function 920 for program integrity efforts (including continuing disability reviews (CDRs) and SSI redeterminations) as well as additional resources in Function 600 to address the disability hearings and claims backlog.

VETERANS BENEFITS AND SERVICES: FUNCTION 700

Function Summary

The Veterans Benefits and Services function covers the programs of the Department of Veterans Affairs (VA), including veterans' medical care, compensation and pensions, education and rehabilitation benefits, and housing programs. It also includes the Department of Labor's Veterans' Employment and Training Service, the United States Court of Appeals for Veterans Claims, and the American Battle Monuments Commission.

Senate Resolution

The Senate resolution calls for a total of \$85.3 billion in BA and \$84.4 billion in outlays for 2008, and \$448.4 billion in BA and \$446.8

billion in outlays over five years. The Senate resolution provides \$43.1 billion in BA in 2008 for discretionary veterans' programs, including medical care. This amount is \$3.6 billion more than the President's proposed funding level and represents 98 percent of the level requested in The Independent Budget, a plan developed by four leading veterans' groups. The funding in the Senate resolution will ensure that the Veterans Health Administration within VA can provide the highest quality health care for all veterans.

In 2005, the President's budget underfunded the Veterans Health Administration, and VA was forced to ask Congress for two supplemental funding requests. The Senate resolution provides full funding to ensure that VA can meet its obligations to veterans.

The Senate supports the determination that robust resources are needed by VA to address the backlog and delay in the disability evaluation and claims process, and that funding should be dedicated to address and improve this process.

House Amendment

The House amendment reflects a total of \$85.2 billion in BA and \$82.8 billion in outlays for 2008, and \$452.8 billion in BA and \$448.2 billion in outlays over five years. For 2008, the House amendment provides \$6.6 billion of discretionary BA over the 2007 level, for a level that is \$3.5 billion above the 2008 funding in the President's budget. The amendment reflects the high priority of adequately funding veterans programs. It rejects the veterans' health care enrollment fees and co-payment increases that were imposed by the President's budget.

The House amendment provides full funding to support excellent health care for veterans and current service members. In particular, the House amendment provides funding to begin implementing future recommendations of the President's Commission on Care for America's Returning Wounded Warriors (the bi-partisan "Walter Reed Commission") and other United States Government investigations into military and veterans' health care facilities and services.

The House amendment provides additional funding in Function 700 above the President's requested levels for 2008 to address important priorities including veterans' mental health, post-traumatic stress disorder, traumatic brain injury, and spinal cord injury. The amendment also has additional funding for disability compensation claims processing so that VA can significantly reduce the inventory of pending claims.

Conference Agreement

The conference agreement provides a total of \$85.3 billion in BA and \$84.4 billion in outlays for 2008 and \$452.8 billion in BA and \$450.9 billion in outlays over five years. The conference agreement provides \$43.1 billion in 2008 for discretionary veterans' programs, including medical care. This amount is \$6.7 billion more than the 2007 enacted level and \$3.6 billion more than the President's proposed funding level for 2008. This level is consistent with the Independent Budget, a plan developed by four leading veterans' groups, and recommendations of the American Legion.

ADMINISTRATION OF JUSTICE: FUNCTION 750

Function Summary

The Administration of Justice function includes funding for federal law enforcement activities at the Department of Justice (DOJ) including criminal investigations by the Federal Bureau of Investigation (FBI) and the Drug Enforcement Agency (DEA). The function also includes funding for border enforcement by the Department of Homeland Security (DHS). Additionally, the function includes funding for civil rights enforcement

and prosecution; federal block, categorical, and formula law enforcement grant programs to state and local governments; prison construction and operation; the United States Attorneys; and the federal judiciary.

Senate Resolution

The Senate resolution calls for a total of \$48.8 billion in BA and \$47.1 billion in outlays for 2008, and \$242.8 billion in BA and \$242.9 billion in outlays over five years. This level restores cuts proposed in the President's budget and provides additional resources for several law enforcement grant programs such as COPS, including meth hotspot grants, and the Edward Byrne Memorial Justice Assistance Grant program. In addition, the Senate resolution restores cuts and provides additional resources to the State Criminal Alien Assistance Program. The Senate resolution also includes increases in funding proposed in the President's budget for border security.

House Amendment

The House amendment reflects a total of \$46.9 billion in BA and \$46.2 billion in outlays in 2008, and \$238.2 billion in BA and \$238.3 billion in outlays over five years. The House amendment rejects the cuts to local law enforcement and first responders in the President's budget, including cuts to the Edward Byrne Memorial Justice Assistance Grant program. The amendment provides funding above the President's budget level for 2008 for that purpose and for purposes such as protecting the borders and funding the 9/11 Commission recommendations.

Conference Agreement

The conference agreement includes a total of \$48.0 billion in BA and \$47.1 billion in outlays for 2008, and \$246.8 billion in BA and \$246.4 billion in outlays over five years. The agreement continues funding for local law enforcement, including Edward Byrne Memorial Justice Assistance Grants and COPS grants. In addition, the agreement also provides resources to help meet the 9/11 Commission recommendations and to protect the borders.

GENERAL GOVERNMENT: FUNCTION 800

Function Summary

The General Government function consists of the activities of the Legislative Branch, the Executive Office of the President, general tax collection and fiscal operations of the Department of the Treasury (including the IRS), the Office of Personnel Management, the property and personnel costs of the General Services Administration, and general purpose fiscal assistance to states, localities, the District of Columbia, and U.S. territories.

Senate Resolution

The Senate resolution calls for \$18.8 billion in BA and \$19.1 billion in outlays for 2008 and \$98.6 billion in BA and \$98.6 billion in outlays over five years. The Senate resolution fully funds the President's budget request for the IRS, including additional resources available through a discretionary cap adjustment that directs \$406 million to IRS enforcement activities. The Senate resolution includes reserve funds to accommodate legislation to reduce the deficit by reducing improper payments and requiring recovery audits. It also includes a deficit-neutral reserve fund to accommodate legislation that reauthorizes the Secure Rural Schools and Community Self-Determination Act of 2000. The expiration of this law would have a significant impact on rural communities. The Senate resolution also includes funding for a Commission on Budgetary Accountability and Review of Federal Agencies.

House Amendment

The House amendment reflects a total of \$18.6 billion in BA and \$19.0 billion in outlays

for 2008 and \$99.8 billion in BA and \$99.7 billion in outlays over five years. The House amendment includes a program integrity initiative to increase Internal Revenue Service tax compliance efforts to collect unpaid taxes from those who are not paying what they owe. The funding in this function is adequate to provide for the reestablishment of the Office of Technology Assessment. The amendment also includes a deficit-neutral reserve fund to accommodate legislation that reauthorizes the Secure Rural Schools and Community Self-Determination Act of 2000.

Conference Agreement

The conference agreement includes \$18.6 billion in BA and \$19.0 billion in outlays for 2008, and \$99.7 billion in BA and \$99.6 billion in outlays over five years. It fully funds the President's budget request for the IRS, including additional resources available through a discretionary cap adjustment (included in Function 920) that directs \$406 million to IRS enforcement activities. The conference agreement includes a deficit-neutral reserve fund to accommodate legislation that provides for the reauthorization of the Secure Rural Schools and Community Self-Determination Act of 2000, or makes changes to the Payments in Lieu of Taxes Act of 1976, or both.

NET INTEREST: FUNCTION 900

Function Summary

The Net Interest function is entirely mandatory with no discretionary components. It consists primarily of the interest paid by the federal government to private and foreign government holders of U.S. Treasury securities. It includes the interest on the public debt after deducting the interest income received by the federal government from trust fund investments, loans and cash balances, and earnings of the National Railroad Retirement Investment Trust.

The Federal government's net interest payments on its debt increased by 48 percent between 2003 and 2006 and is now one of the largest components of the federal budget.

Senate Resolution

The Senate resolution calls for BA and outlays of \$255.5 billion in unified net interest payments in 2008 and a total of \$1.4 trillion over five years.

House Amendment

The House amendment calls for BA and outlays of \$254.6 billion in unified net interest payments in 2008 and a total of \$1.4 trillion over five years.

Conference Agreement

The conference agreement includes BA and outlays of \$255.7 billion in unified net interest payments in 2008 and a total of \$1.4 trillion over five years.

ALLOWANCES: FUNCTION 920

Function Summary

The Allowances function is used for planning purposes to address the budgetary effects of proposals or assumptions that cross several budget functions. Once such changes are enacted, the budgetary effects are distributed to the appropriate budget function.

Senate Resolution

The Senate resolution calls for a total of -\$16.7 billion in BA and -\$7.5 billion in outlays for 2008, and -\$46.5 billion in BA and -\$38.1 billion in outlays over five years.

House Amendment

The House amendment did not include any spending or cuts in Function 920.

Conference Agreement

The conference agreement includes a total of -\$6.4 billion in BA and -\$2.2 billion in outlays for 2008, and -\$35.2 billion in BA and

-\$30.0 billion in outlays over five years. These funding levels reflect adjustments for program integrity and other non-security adjustments.

UNDISTRIBUTED OFFSETTING RECEIPTS: FUNCTION 950

Function Summary

The Undistributed Offsetting Receipts function includes major offsetting receipt items that would distort the funding levels of other functional categories if they were distributed to them. Examples of such items include the employer share of federal employee retirement benefits, outer continental shelf rents and royalties, and the sale of major assets.

Senate Resolution

The Senate resolution calls for unified undistributed offsetting receipts of -\$84.7 billion in BA and outlays for 2008 and -\$422.1 billion over five years. That amount generally matches CBO's baseline estimate of undistributed offsetting receipts, with the exception that it assumes -\$775 million in 2008 and -\$3.1 billion over the 2008-2012 period in additional offsetting receipts from legislation to provide a remedy for errors in certain oil and gas leases.

House Amendment

The House amendment represents CBO's baseline estimate of unified undistributed offsetting receipts of -\$83.9 billion in BA and outlays for 2008 and -\$419.0 billion over five years.

Conference Agreement

The conference agreement includes a total of unified undistributed offsetting receipts of -\$83.9 billion in BA and outlays for 2008 and -\$419.0 billion over five years.

OVERSEAS DEPLOYMENTS AND OTHER ACTIVITIES: FUNCTION 970

Function Summary

This is a new function included in the House amendment, consisting of funding for overseas deployments and other activities.

Senate Resolution

The Senate resolution did not include Function 970.

House Amendment

The House amendment includes the House-passed supplemental for 2007 (H.R. 1591) in Function 970 and, as a placeholder, accommodates up to the President's funding levels for overseas deployments and related activities in 2008 and 2009.

Conference Agreement

The Senate recedes to the House amendment to include Function 970. As a placeholder, the conference agreement's levels accommodate the President's requests for overseas deployments and other activities for 2008 and 2009, as well as the conference agreement for H.R. 1591, the supplemental appropriations bill for 2007 (excluding out-year changes in mandatory programs).

BUDGET ENFORCEMENT

Senate Resolution

Sec. 201. Paygo

Section 201 of the Senate-passed resolution would restore the strong paygo, or pay-as-you-go, rule in the Senate. The paygo rule requires that new mandatory spending and tax cuts be offset or get 60 votes. Reinstating a strong paygo rule represents a crucial first step in restoring fiscal discipline. Paygo was instrumental in our turning deficits into surpluses in the 1990s.

Paygo does not prohibit new mandatory spending or new tax cuts. It simply says that they should be paid for so that the deficit isn't worsened. Paygo ensures that if something is not paid for, it can only pass if it has broad bipartisan support.

The current paygo rule, which expires on September 30, 2008, includes a loophole that exempts all legislation assumed in any budget resolution. The Senate resolution would eliminate this loophole and apply paygo to all new mandatory spending and revenue legislation. It would extend the stronger paygo rule through 2017 and effectively repeal the current, weaker version of the paygo rule. Consistent with ending this loophole, the Senate resolution assumes that all existing balances on the Congressional pay-as-you-go ledger would be eliminated, and the scorecard reset to zero for all time periods.

The Senate resolution also clarifies language in the paygo rule which prohibits any net savings enacted in any bill pursuant to a reconciliation instruction from being made available on the paygo ledger. In 1993, the Senate originally created the paygo rule as a provision in the FY1994 budget resolution (H. Con. Res. 64), specifically for the purpose of preventing the deficit reduction expected to be achieved in a subsequent reconciliation bill from being used to offset the costs of any new mandatory spending or revenue legislation. The Senate resolution restores this original intent, by clarifying that savings enacted in any reconciliation bill shall never be placed on the paygo ledger and used as offsets for another reconciliation bill (even if enacted pursuant to reconciliation instructions in the same budget resolution) or as offsets for any other legislation. For paygo purposes, all net savings enacted pursuant to reconciliation are to be dedicated solely to deficit reduction.

Sec. 202. Point of Order Against Reconciliation Legislation That Would Increase the Deficit or Reduce a Surplus

Section 202 of the Senate resolution creates a new 60-vote point of order against reconciliation measures that would cause or increase an on-budget deficit or decrease an on-budget surplus. Reconciliation is a fast-track process that was intended to be used for deficit reduction. Unfortunately, in recent years the reconciliation process has been abused, as a fast-track means of enacting legislation that has dramatically worsened deficits and increased our debt.

Sec. 203. Point of Order Against Long-Term Deficit Increases

Section 203 of the Senate resolution establishes a 60-vote point of order against legislation that would cause a net deficit increase in excess of \$5.0 billion (including changes in revenues and mandatory spending, but excluding debt service) in any of the four ten-year periods 2018-2027, 2028-2037, 2038-2047, or 2048-2057. The provision sunsets at the end of 2017, and effectively repeals the long-term spending point of order in Section 407 of H. Con. Res. 95, the fiscal year 2006 budget resolution conference report.

Sec. 204. Point of Order Against Emergency Designations

Under Section 204 of the Senate resolution, all emergency designations would be subject to an emergency designation point of order, which can only be waived with 60 votes.

Sec. 205. Extension of 60-Vote Enforcement

Section 205 of the Senate resolution extends the current 60-vote enforcement of existing budgetary points of order through 2017.

Sec. 206. Advance Appropriations

Section 206 of the Senate resolution would provide a supermajority point of order against appropriations in fiscal year 2008 bills that would first become effective in any year after fiscal year 2008, and against appropriations in fiscal year 2009 bills that would first become effective in any year after 2009. It does not apply against appropriations for

the Corporation for Public Broadcasting, nor does it apply against changes in mandatory programs or deferrals of mandatory budget authority from one year to the next. There is an exemption for each of fiscal years 2008 and 2009 of up to \$25.2 billion for the following:

Labor, HHS:

Employment and Training Administration
Education for the Disadvantaged
School Improvement
Children and Family Services (Head Start)
Special Education
Vocational and Adult Education

Financial Services and General Government:
Payment to Postal Service
Transportation, Housing and Urban Development: Section 8 Renewals

Sec. 207. Discretionary Spending Caps

Currently, there are no discretionary spending limits for any fiscal year. Section 207 of the Senate resolution would strengthen fiscal responsibility by establishing discretionary spending limits for 2007 and 2008, and enforce them with a point of order in the Senate that could only be waived with 60 votes.

Section 207 of the Senate resolution permits adjustments to the discretionary spending limits in 2008 for program integrity initiatives, including Social Security Administration continuing disability reviews and Supplemental Security Income redeterminations, enhanced Internal Revenue Service tax enforcement to address the tax gap, appropriations for Health Care Fraud and Abuse Control (HCFAC) program at the Department of Health and Human Services, and unemployment insurance improper payment reviews. It also provides for adjustments in 2008 and 2009 for war-related expenses.

Sec. 208. Inapplicability of Previous Allocations

Because the Senate resolution establishes new discretionary spending limits for 2007 and 2008 and new committee spending allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, Section 208 of the Senate resolution clarifies that the "deeming" provisions of last year's emergency supplemental in Section 7035 of Public Law 109-234 shall no longer apply in the Senate.

Sec. 209. Point of Order To Save Social Security First

Section 209 of the Senate resolution creates a 60-vote point of order requiring the President to submit a legislative proposal to Congress and requiring Congress to enact legislation that would ensure the long-term solvency of Social Security, before Congress considers any legislation that would worsen budget deficits and weaken the solvency of Social Security.

Sec. 210. Point of Order Against Legislation That Raises Income Tax Rates

Section 210 of the Senate resolution would create a 60-vote point of order against any legislation that includes a Federal income tax rate increase.

Sec. 211. Circuit Breaker To Protect Social Security

Section 211 of the Senate resolution would create a 60-vote point of order, in any year in which CBO projects an on-budget deficit for the budget year or any subsequent fiscal year, against a budget resolution for that year (and amendments thereto) which would fail to reduce on-budget deficits relative to CBO's projections and put the budget on a path to achieve on-budget balance within five years. There is an exception during times of war and low economic growth.

Sec. 212. Point of Order—20% Limit on New Direct Spending in Reconciliation Legislation

Section 212 of the Senate resolution would create a 60-vote point of order against provisions of any reconciliation legislation (and provisions of any amendment thereto) that would increase outlays if the effect of all the provisions in any committee's jurisdiction would create gross new direct spending exceeding 20% of the total savings instruction to that committee.

Sec. 213. Point of Order Against Legislation That Raises Income Tax Rates for Small Businesses, Family Farms, or Family Ranches

Section 213 of the Senate resolution would create a 60-vote point of order against legislation that includes a Federal income tax rate increase on incomes generated by small businesses, family farms, or family ranches.

Sec. 214. Point of Order Against Provisions of Appropriations Legislation That Constitute Changes in Mandatory Programs With Net Costs

Section 214 of the Senate resolution would create a 60-vote point of order against provisions of appropriations legislation that would have been estimated as affecting direct spending or receipts were they included in legislation other than appropriations legislation, if such provision has a net cost over the total of the period of the current year, the budget year, and all fiscal years covered under the most recently-adopted concurrent resolution on the budget.

Sec. 215. Disclosure of Interest Costs

Section 215 of the Senate resolution is a 60-vote point of order against direct spending and revenue legislation that fails to include a CBO estimate of the cost of the debt servicing that would be caused by such legislation.

Sec. 225. Application and Effect of Changes in Allocations and Aggregates

Section 325 of the Senate resolution details the adjustment procedures required to accommodate legislation provided for in this resolution. This section provides that the adjustments shall apply while the legislation is under consideration and take effect upon enactment of the legislation. In addition, the section requires the adjustments to be printed in the Congressional Record.

The section also notes that, for purposes of enforcement, aggregate and allocation levels resulting from adjustments made pursuant to this resolution will have the same effect as if adopted in the original levels of Title I of this resolution. This section also provides that the Committee on the Budget shall determine the budgetary levels and estimates which are required to enforce points of order under the Congressional Budget Act.

Sec. 326. Adjustments To Reflect Changes in Concepts and Definitions

Section 326 of the Senate resolution requires the chairman of the Committee on the Budget to adjust levels and allocations in this resolution upon enactment of legislation that changes concepts or definitions.

Sec. 327. Exercise of Rulemaking Powers

Section 327 of the Senate resolution provides that, once adopted, the provisions of the resolution are incorporated into the rules of the Senate and shall supersede inconsistent rules. The section recognizes the constitutional right of the Senate to change those rules at any time.

House Amendment

Sec. 301. Program Integrity Initiatives

Section 301 of the House amendment provides for specific allocation adjustments for the Committee on Appropriations when the

Committee reports legislation that includes increased appropriations for the following four program integrity initiatives: (1) continuing disability reviews and Supplemental Security Income redeterminations for the Social Security Administration; (2) improved compliance with the provisions of the Internal Revenue Code; (3) the Health Care Fraud and Abuse Control program at the Department of Health and Human Services; and (4) unemployment insurance improper payment reviews.

The adjustments under this section are intended to do no more than provide additional administrative funding for current program integrity activities to eliminate errors or fraud in the operation of a number of federal programs and compliance with federal tax laws. For example, the adjustment for unemployment compensation programs is provided to increase limited administrative funding for current program integrity activities, and not to finance other proposals that would adversely affect workers who have received unemployment benefits.

The section outlines procedures for these allocation adjustments. In addition, the section directs committees of the House of Representatives to include recommendations for improved governmental performance in views and estimates submitted to the Committee on the Budget pursuant to section 301(d) of the Congressional Budget Act.

Sec. 302. Advance Appropriations

Section 302 of the House amendment limits the amount and type of advance appropriations for 2009 and 2010. Under this section, advance appropriations for 2009 or 2010 are restricted to \$25.6 billion for programs, projects, activities, or accounts identified in the joint explanatory statement of managers that will accompany this resolution. This total reflects an increase of \$2.0 billion over the previous limit. The section defines advance appropriations as any new discretionary budget authority provided in a bill or joint resolution making general or continuing appropriations for 2008 that first becomes available for any fiscal year after 2008.

Sec. 303. Overseas Deployments and Emergency Needs

Section 303 of the House amendment establishes a procedure whereby provisions or measures reported by the Committee on Appropriations will be exempt from the restrictions under titles III and IV of the Congressional Budget Act of 1974. The exemption will apply if: (1) the Committee determines and designates that amounts appropriated are necessary for overseas deployments and related activities; or, (2) the Committee provides nondefense discretionary appropriations and designates those amounts as necessary to meet emergency needs.

Sec. 304. Application and Effect of Changes in Allocations and Aggregates

Section 304 of the House amendment details the allocation and aggregate adjustment procedures that are required to accommodate legislation for the reserve funds and program integrity initiatives in this resolution. This section provides that the adjustments shall apply while the legislation is under consideration and take effect upon enactment of the legislation. In addition, the section requires the adjustments to be printed in the Congressional Record.

The section also notes that, for purposes of enforcement, aggregate and allocation levels resulting from adjustments made pursuant to this resolution will have the same effect as if adopted in the original levels of Title I of this budget resolution. This section also provides that the Committee on the Budget shall determine the budgetary levels and estimates which are required to enforce points of order under the Congressional Budget Act.

Sec. 305. Adjustments To Reflect Changes in Concepts and Definitions

Section 305 of the House amendment requires the chairman of the Committee on the Budget to adjust levels and allocations in this budget resolution upon enactment of legislation that changes concepts or definitions.

Sec. 306. Compliance With Section 13301 of the Budgetary Enforcement Act of 1990

Section 306 of the House amendment provides that administrative expenses of the Social Security Administration shall be part of the annual appropriations process by including those expenses in the Committee on Appropriations' allocation pursuant to Section 302 of the Congressional Budget Act.

Sec. 307. Exercise of Rulemaking Powers

Section 307 of the House amendment provides that, once adopted, the provisions of the budget resolution are incorporated into the rules of the House of Representatives and shall supersede inconsistent rules. The section recognizes the constitutional right of the House of Representatives to change those rules at any time.

Conference Agreement

In January, the House of Representatives adopted the first-ever House of Representatives pay-as-you-go (paygo) rule—specifying that any legislative changes to mandatory spending or revenues would have to be done in a deficit-neutral way. Given the serious long-term fiscal challenges including a growing burden of national debt facing our nation, a rigorous enforcement of paygo is especially critical. The House has aggressively enforced the paygo requirement since its passage, and in this resolution the House and Senate reaffirm a commitment to a strict enforcement of the pay-as-you-go rules. The House's commitment to paygo is also reinforced by the tough trigger mechanism contained in Section 321 of the conference agreement and further described in Section 321 of this Statement of Managers.

The following are the concrete steps the conference report takes to reinforce and extend this commitment to fiscal responsibility:

First, Section 201 of the conference report toughens the Senate paygo rule, restoring it to the form that existed in the 1990s. This session of Congress will mark the first time ever that both the House and the Senate will be governed by internal rules implementing the pay-as-you-go principle. To ensure that these rules are more effectively enforced, the Senate paygo rule included in this resolution matches the enforcement windows established in the House rule.

Second, Section 508 of the conference report expresses Congress's commitment to an additional paygo enforcement mechanism: reinstating the statutory paygo rule that was in place in the 1990s and that is widely credited with helping bring the budget from then-record deficits in the early 1990s to the budget surpluses achieved by the end of that decade. Because the conference agreement is a concurrent resolution, separate legislation will be required to implement this policy, but the conference report gives this policy a strong and clear endorsement.

Third, Section 203 of the conference report contains a Senate point of order that would be imposed against legislation that has a significant deficit impact in any of the four decades (2018–2057) following the ten-year period covered by the House and Senate paygo rules.

Fourth, Section 321 of the conference report includes a House trigger mechanism to ensure that legislation is fiscally responsible or faces a second procedural hurdle in the House in addition to the paygo rule.

In all, this conference report implements policies and rules consistent with fiscal responsibility and the pay-as-you-go principle, ensuring that they apply to the actions of the entire Congress. The goal is to bring the budget back to balance, something that this conference report achieves in 2012.

Sec. 201. Pay-As-You-Go Point of Order in the Senate

In Section 201 of the conference agreement, which applies only in the Senate, the Senate insists on, and the House recedes from its disagreement with, Section 201 of the Senate resolution, the paygo point of order in the Senate, with a technical amendment to enforce points of order over two time periods: (1) the period of the current fiscal year, the budget year, and the total of the ensuing four fiscal years following the budget year, and (2) the period of the current fiscal year, the budget year, and the total of the ensuing nine fiscal years following the budget year. These are the time periods for which paygo is enforced in the House.

As in the past, the paygo rule embodied in Section 201 of the conference agreement requires that new mandatory spending and tax cuts be offset or get 60 votes to waive the point of order. Section 201 strengthens paygo enforcement by eliminating a loophole that previously exempted from the point of order all deficit increases assumed in any budget resolution. Under Section 201, paygo will be applied to all new mandatory spending and revenue legislation that would worsen the deficit in either of the two relevant time periods. It would extend this stronger paygo rule through 2017 and effectively repeal the current, weaker version of the paygo rule.

Consistent with ending this loophole, the Senate resolution assumes that all existing balances on the Congressional pay-as-you-go ledger would be eliminated, and the scorecard reset to zero for all time periods.

Section 201 of the conference agreement also clarifies language in the paygo rule which prohibits any net savings enacted in any bill pursuant to a reconciliation instruction from being made available on the paygo ledger. In 1993, the Senate originally created the paygo rule as a provision in the FY1994 budget resolution (H. Con. Res. 64), specifically for the purpose of preventing the deficit reduction expected to be achieved in a subsequent reconciliation bill from being used to offset the costs of any new mandatory spending or revenue legislation. Section 201 of the conference agreement restores this original intent, by clarifying that savings enacted in any reconciliation bill shall never be placed on the paygo ledger and used as offsets for another reconciliation bill (even if enacted pursuant to reconciliation instructions in the same budget resolution) or as offsets for any other legislation. For paygo purposes, all net savings enacted pursuant to reconciliation are to be dedicated solely to deficit reduction.

Sec. 202. Senate Point of Order Against Reconciliation Legislation That Would Increase the Deficit or Reduce a Surplus

The Senate insists on, and the House recedes from its disagreement with, Section 202 of the Senate resolution, with a technical amendment to enforce the point of order over two time periods: (1) the period of the current fiscal year, the budget year, and the total of the ensuing four fiscal years following the budget year, and (2) the period of the current fiscal year, the budget year, and the total of the ensuing nine fiscal years following the budget year. Section 202 creates a new point of order against reconciliation measures that would cause or increase an on-budget deficit or decrease an on-budget surplus. It can be waived with 60 votes.

Sec. 203. Senate Point of Order Against Legislation Increasing Long-Term Deficits

The Senate insists on, and the House recedes from its disagreement with, Section 203 of the Senate resolution. It establishes a point of order in the Senate against legislation that would cause a net deficit increase in excess of \$5.0 billion (including changes in revenues and mandatory spending, but excluding debt service) in any of the four ten-year periods 2018–2027, 2028–2037, 2038–2047, or 2048–2057. The point of order can be waived with 60 votes. The provision sunsets at the end of fiscal year 2017, and effectively repeals the long-term spending point of order in Section 407 of H. Con. Res. 95, the fiscal year 2006 budget resolution conference report.

Sec. 204. Emergency Legislation

In subsection (a) of Section 204 of the conference agreement, which applies only in the Senate, the Senate insists on Section 204 of the Senate resolution with an amendment. Under Section 204(a), emergency designations will be subject to an emergency designation point of order in the Senate, which can be waived with 60 votes. The amendment deleted an exception adopted to the Senate resolution in Amendment 534 offered by Senator DeMint.

In subsection (b) of Section 204 of the conference agreement, which applies only in the House, the House recedes from its position in Section 303 of the House amendment and concurs with a further amendment, and the Senate agrees to the same. In the House, discretionary appropriations that are designated as emergencies shall not count for the purposes of Titles III and IV of the Congressional Budget Act of 1974. In the House, any provisions designated as emergencies under rules in effect for 2007 will be accommodated under Section 204 in this resolution.

Sec. 205. Extension of Enforcement of Budgetary Points of Order in the Senate

In Section 205 of the conference agreement, which applies only in the Senate, the Senate insists on Section 205 of the Senate resolution with an amendment, and the House agrees to the same. Section 205 extends 60-vote enforcement of budgetary points of order in the Senate, other than those pursuant to Sections 425 and 303 of the Budget Act, through 2017.

Sec. 206. Point of Order Against Advance Appropriations

In subsection (a) of Section 206 of the conference agreement, which applies only in the Senate, the Senate insists on, and the House recedes from its disagreement with, Section 206 of the Senate resolution. It provides a supermajority point of order in the Senate against appropriations in fiscal year 2009 bills that would first become effective in any year after fiscal year 2008, and against appropriations in fiscal year 2009 bills that would first become effective in any year after fiscal year 2009. It does not apply against appropriations for the Corporation for Public Broadcasting, nor does it apply against changes in mandatory programs or deferrals of mandatory budget authority from one year to the next. There is an exemption for each of fiscal years 2008 and 2009 of up to \$25.2 billion for the following:

Accounts identified for Advance Appropriations in the Senate

Labor, HHS:

Employment and Training Administration
Education for the Disadvantaged
School Improvement
Children and Family Services (Head Start)
Special Education
Vocational and Adult Education
Financial Services and General Government:
Payment to Postal Service Transportation,

Housing and Urban Development: Section 8 Renewals

In subsection (b) of Section 206 of the conference agreement, which applies only in the House, the House insists on Section 302 of the House amendment. It defines advance appropriations, and restricts advance appropriations for fiscal years 2009 or 2010 to a total of \$25.6 billion for the following accounts:

Accounts Identified for Advance Appropriations in the House

Advance Appropriations for Fiscal Year 2009

Employment and Training Administration
Education for the Disadvantaged
School Improvement
Children and Family Services (Head Start)
Special Education
Vocational and Adult Education
Payment to Postal Service
Section 8 Renewals

Advance Appropriations for Fiscal Year 2010

Corporation for Public Broadcasting

Sec. 207. Discretionary Spending Limits, Program Integrity Initiatives, and Other Adjustments

In subsection (a), (b), and (c) of Section 207 of the conference agreement, which apply only in the Senate, the Senate insists on Section 207 of the Senate resolution with an amendment in the nature of a substitute. Currently, there are no discretionary spending limits for any fiscal year. Section 207 will strengthen fiscal responsibility by establishing discretionary spending limits in the Senate for fiscal years 2007 and 2008, and enforce them with a Senate point of order that can only be waived with 60 votes. It permits adjustments to the discretionary spending limits in the Senate for fiscal year 2008 for program integrity initiatives, including Social Security Administration continuing disability reviews and Supplemental Security Income redeterminations, enhanced Internal Revenue Service tax enforcement to address the tax gap, appropriations for Health Care Fraud and Abuse Control (HCFAC) program at the Department of Health and Human Services, and in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews.

In subsection (d) of Section 207 of the conference agreement, which applies only in the House, the House insists on Section 301 of the House amendment with an amendment. The House amendment provides for several program integrity adjustments for 2008 in the same areas as in the Senate resolution, including for Social Security Administration continuing disability reviews and Supplemental Security Income redeterminations, enhanced Internal Revenue Service tax enforcement to address the tax gap, appropriations for the Health Care Fraud and Abuse Control (HCFAC) program at the Department of Health and Human Services, and in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews.

The conference agreement allows for adjustments to be made to the discretionary spending limits in the Senate, aggregates, and 302(a) allocations of the House and Senate Appropriations Committees up to the total budget authority shown in Section 103 (21) for overseas deployments and related activities (and the new outlays flowing therefrom). In the Senate, if additional funding is required beyond the level specified in Section 103 (21), such funding would be provided pursuant to Section 204. In the House, if additional appropriations are required beyond this level, and such additional amounts are specifically designated as necessary for over-

seas deployments and related activities, then new budget authority, outlays or receipts resulting therefrom shall not count for the purposes of titles III and IV of the Congressional Budget Act of 1974.

Subsection (e) of Section 207 of the conference agreement, which applies in the House and Senate, directs all House and Senate Committees to include recommendations for improved governmental performance in the views and estimates that they submit to the respective Committees on the Budget under section 301(d) of the Congressional Budget Act.

Subsection (f) of Section 207 of the conference agreement, which applies in both the House and Senate, allows adjustments to the levels and limits in this resolution to reflect differences between the levels assumed in this resolution and the levels that may ultimately be enacted in 2007 supplemental appropriations legislation currently under consideration in Congress. Similar language was included in the conference report on the fiscal year 2004 budget resolution (H. Con. Res. 95, 108th Congress) regarding 2003 supplemental appropriations.

Sec. 208. Inapplicability of Previous Allocations in the Senate

In Section 208 of the conference agreement, which applies only in the Senate, the Senate insists on, and the House recedes from its disagreement with, Section 208 of the Senate resolution. Because this concurrent resolution on the budget for fiscal year 2008 establishes new discretionary spending limits for fiscal years 2007 and 2008 and new committee spending allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, Section 208 of the Senate resolution clarifies that the "deeming" provisions of last year's emergency supplemental in Section 7035 of Public Law 109-234 shall no longer apply in the Senate.

Sec. 209. Senate Point of Order Against Provisions of Appropriations Legislation That Constitute Changes in Mandatory Programs With Net Costs

In Section 209 of the conference agreement, which applies only in the Senate, the Senate insists on Section 214 of the Senate resolution with a substitute, and the House agrees to the same. Section 209 would create a 60-vote point of order against provisions of appropriations legislation constituting Changes in Mandatory Programs (ChIMPs) that would have been estimated as affecting direct spending or receipts were they included in legislation other than appropriations legislation, if all three of the following conditions are met:

(1) the provision would increase BA in—

(a) at least one of the nine fiscal years that follow the budget year, and

(b) over the period of the total of the budget year and the nine fiscal years following the budget year;

(2) the provision would increase net outlays over the period of the total of the nine fiscal years following the budget year; and

(3) the sum total of all changes in mandatory programs in the legislation would increase net outlays as measured over the period of the total of the nine fiscal years following the budget year.

The point of order does not apply against legislation making supplemental appropriations for fiscal year 2007. Nor does it apply against any ChIMPs that were enacted in each of the three fiscal years prior to the budget year (including those done as a result of the year-long funding resolution enacted for 2007). The point of order works like the Byrd rule in that it applies against individual provisions of legislation rather than against an entire bill, amendment, or conference report. If the point of order is not

waived then the offending provision is stricken.

Sec. 210. Compliance With Section 13301 of the Budget Enforcement Act of 1990

In Section 210 of the conference agreement, the House recedes from its position in Section 306 of the House amendment and concurs with a further amendment, and the Senate agrees to the same. Subsection (a) of Section 210 applies in both the House and Senate. Subsection (b) of Section 210 applies only in the House.

Sec. 211. Application and Effect of Changes in Allocations and Aggregates

In Section 211 of the conference agreement, the House insists on, and the Senate recedes from its disagreement with, Section 304 of the House amendment.

Sec. 212. Adjustments to Reflect Changes in Concepts and Definitions

In Section 212 of the conference agreement, the House insists on, and the Senate recedes from its disagreement with, Section 305 of the House amendment.

Sec. 213. Exercise of Rulemaking Powers

In Section 213 of the conference agreement, the House recedes from its position in Section 307 of the House amendment and concurs with a further amendment, and the Senate agrees to the same.

Section 306 of the Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution by up to \$15.0 billion for legislation which is deficit-neutral over the total of 2007–2012 that would do one or more of the following: reauthorize the Food Security and Rural Investment Act of 2002; strengthen agriculture and rural economies and critical nutrition programs; provide agriculture-related tax relief and rural development investment incentives for counties impacted by high rates of out-migration; or improve the environment by reducing dependence on foreign sources of energy through expanded production and use of alternative fuels. This section anticipates that the Farm Bill will ultimately be comprised of titles from more than one committee, and would therefore allow the Chairman to revise multiple committee allocations, and revenue and spending aggregates, to accommodate the legislation.

Sec. 307. Deficit-Neutral Reserve Fund for Energy Legislation

Section 307 of the Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution for one or more pieces of legislation—including tax legislation—that would reduce our nation's dependence on foreign sources of energy, expand production and use of alternative fuels and alternative fuel vehicles, promote renewable energy development, improve electricity transmission, encourage responsible development of domestic oil and natural gas resources, or reward conservation and efficiency; provided the legislation is deficit-neutral over the total of 2007–2012.

Legislation to increase the reimbursement rate for physician services under Medicare Part B and that includes financial incentives for physicians to improve the quality and efficiency of items and services furnished to Medicare beneficiaries through the use of consensus-based quality measures, provided that it is deficit-neutral over 2007–2012; and

Sec. 309. Deficit-Neutral Reserve Fund for Small Business Health Insurance

Sec. 310. Deficit-Neutral Reserve Fund for County Payments

Section 310 of the Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution by up to \$440 million in 2008 and up to \$2.2 billion over the total of 2008–2012 for county payments legislation that reauthorizes the Secure Rural Schools and Community Self-Determination Act of 2000, provided the legislation is deficit-neutral over the total of 2007–2012. Section 313 of the Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution for legislation that prohibits the Bonneville Power Administration from making early payments on its federal bond debt, provided the legislation is deficit-neutral over the total of 2007–2012. The proposal in the President's budget would have a detrimental impact on electricity rates in the Northwest.

Sec. 314. Deficit-Neutral Reserve Fund for Indian Claims Settlement

Section 314 of the Senate resolution allows the Chairman of the Budget Committee to revise the levels in the resolution for legislation to provide a statutory settlement for Indian trust fund litigation involving the accounting and management of individual Indian trust monies and assets, including the Cobell v. Kempthorne litigation, as well as provisions to offset the cost of the settlement, provided that the legislation is deficit-neutral over the total of 2007–2012.

House Amendment

Sec. 201. Reserve Fund for the State Children's Health Insurance Program

The reserve fund accommodates the Committee on Energy and Commerce reporting legislation of up to \$50.0 billion in additional outlays to improve children's health through reauthorization of the State Children's Health Program (SCHIP) as long as the authorizing legislation placed before the House complies with the pay-as-you-go principle. These additional resources will sustain current caseloads, expand coverage, and reduce the number of uninsured children. Of the over nine million uninsured children in this nation, around six million are eligible for

SCHIP or Medicaid but do not receive coverage.

Sec. 202. Reserve Fund for Reform of the Alternative Minimum Tax

The reserve fund for Alternative Minimum Tax (AMT) relief accommodates legislation that reforms the tax code to shield middle-income families from the AMT as long as it adheres to the pay-as-you-go principle. Without reform, the number of taxpayers subject to the AMT will rise from 4.2 million in 2006 to 23.2 million in 2007 and to 25.7 million in 2008, according to the Joint Committee on Taxation.

Sec. 203. Reserve Fund to Provide for Middle-Income Tax Relief and Economic Equity

The reserve fund for middle-income tax relief supports legislation to reduce tax burdens on middle-income families and taxpayers that complies with the pay-as-you-go principle. This includes legislation such as the extension of the 10 percent individual income tax rate, marriage penalty relief, the child tax credit, the research and experimentation tax credit, the deduction for small business expensing, and the deduction for State and local sales taxes. It also accommodates elimination of estate taxes on all but a minute fraction of estates, and a tax credit for school construction.

Sec. 204. Reserve Fund for Agriculture

The reserve fund accommodates legislation that reauthorizes the Farm Security and Rural Investment Act of 2002 (Public Law 107-171) or prior farm support acts, or authorizes similar programs, or both, to the extent that such legislation complies with the pay-as-you-go principle. The section also provides for an increase in budget authority up to \$20.0 billion over six years (2007–2012) above the Congressional Budget Office's current estimate of spending for these programs if the funding increases are appropriately offset. The resolution allows for the House to continue to address a number of priorities, such as maintaining a strong farm safety net for our nation's agricultural producers; delivering natural resource conservation measures on private lands; investing in energy research; and rural development projects that strengthen our rural economies; and enhancing food nutrition assistance to help fight hunger. The reserve fund could also facilitate a new Farm Bill that provides enhanced conservation, research, and marketing assistance to crops that have not received traditional commodity support.

Sec. 205. Reserve Fund for Higher Education

The reserve fund accommodates reforms to the student loan programs that increase benefits to students, consistent with the pay-as-you-go principle adopted by the House. The Higher Education Act is scheduled to be reauthorized this year, and this reserve fund will provide committees maximum flexibility in finding offsets to make college more affordable for students.

Sec. 206. Reserve Fund for Improvements in Medicare

The reserve fund accommodates additional mandatory spending for Medicare program improvements such as increasing the Medicare reimbursement rate for physicians while holding beneficiaries harmless from associated premium increases, as long as the legislation is consistent with the House pay-as-you-go principle. Current law calls for Medicare payment rates to physicians to be cut by nearly 40 percent over the next eight years. The House supports Federal investments in health information technology that will improve the quality and efficiency of not only Medicare, but also the health sector as a whole. Another possible area for program improvement is the Part D prescription drug benefit.

Sec. 207. Reserve Fund for Creating Long-Term Energy Alternatives

The reserve fund accommodates legislation consistent with H.R. 6 that invests in renewable or alternative energy resources, promotes new emerging energy technologies, or develops greater energy efficiency, to the extent that such legislation complies with the pay-as-you-go principle.

Sec. 208. Reserve Fund for Affordable Housing

The reserve fund accommodates legislation that creates an affordable housing fund, offset by savings from reforming the regulation of certain government-sponsored entities, such as Fannie Mae and Freddie Mac, to the extent that such legislation complies with the pay-as-you-go principle.

Sec. 209. Reserve Fund for Equitable Benefits for Filipino Veterans of World War II

The reserve fund accommodates additional mandatory spending to provide equitable benefits for all Filipino veterans of World War II and their survivors and dependents, consistent with the pay-as-you-go principle. Most Filipino veterans who fought alongside American troops, and their families, are currently not eligible for equitable federal benefits.

Sec. 210. Reserve Fund for Secure Rural Schools and Community Self-Determination Act Reauthorization

The reserve fund accommodates any legislation that reauthorizes the Secure Rural Schools and Community Self-Determination Act (Public Law 106-393), to the extent that such legislation complies with the pay-as-you-go principle. That law provides economic assistance for roads and schools in rural communities affected by the loss of receipts from sales on federal lands in their communities. The assistance is intended to compensate local governments for the tax-exempt status of the national forests and other federal lands.

Sec. 211. Reserve Fund for Receipts from the Bonneville Power Administration

Sec. 212. Reserve Fund for Transitional Medical Assistance

The reserve fund accommodates extension of Transitional Medical Assistance (TMA) through 2008, as long as it complies with the pay-as-you-go principle. TMA provides temporary Medicaid assistance for families transitioning to the workforce.

The House recedes to the Senate with an amendment which incorporates Sections 302, 317, and 336 of the Senate resolution as well as Section 209 of the House amendment. The combined reserve fund would accommodate legislation consistent with the pay-as-you-go principle that improves services and benefits to wounded or disabled military personnel and retirees, veterans, and their survivors and dependents, which may include enhancing medical care and disability benefits, expanding eligibility to receive both disability compensation and retired pay (for combat-

disabled retirees), eliminating the offset between survivor benefit annuities and dependency and indemnity compensation, improving disability evaluations, enhancing educational benefits, or increasing benefits to Filipino veterans of World War II and their survivors and dependents.

The House recedes to the Senate with a substitute. The reserve funds for higher education in the House and Senate have identical goals and the identical effect of accommodating deficit-neutral legislation to make higher education more accessible and more affordable. The conference agreement could facilitate legislation that would enhance benefits for post-secondary students, including, but not limited to, reductions in interest rates on student loans, significant increases in grant aid for students, or tax benefits.

Sec. 307. Deficit-Neutral Reserve Fund for the Farm Bill

The Senate recedes to the House with a substitute. Section 307 provides for an increase in budget authority of up to \$20.0 billion over six years (2007–2012) if the funding increases are appropriately offset. Subsection (a) retains the language of Section 306 in the Senate resolution with an amendment. This subsection applies only in the Senate. Subsection (b) retains the language of Section 204 in the House resolution. This subsection applies only in the House.

Sec. 308. Deficit-Neutral Reserve Fund for Energy Legislation

The House recedes to the Senate with a substitute. Section 308 of the conference agreement is a deficit-neutral energy reserve fund with two parts. Subsection (a) combines language similar to the reserve funds included in Section 307 and Section 332 of the Senate resolution and would apply only to the Senate. This subsection allows the Senate's discretionary spending limits to be adjusted in addition to the aggregates and allocations. Subsection (b) is similar to Section 207 of the House amendment and would apply only to the House.

Sec. 309. Deficit-Neutral Reserve Fund for County Payments Legislation

The Senate recedes to the House with an amendment. The amendment clarifies that the reserve fund could accommodate legislation that provides for the reauthorization of the Secure Rural Schools and Community Self-Determination Act of 2000 (Public Law 106-393), or makes changes to the Payments in Lieu of Taxes Act of 1976 (Public Law 94-565), or both. The reserve fund would accommodate deficit-neutral legislation in the House and the Senate, and allows the Senate's discretionary spending limits to be adjusted in addition to the aggregates and allocations.

Sec. 310. Deficit-Neutral Reserve Fund for Terrorism Risk Insurance Reauthorization

The House recedes to Section 311 of the Senate resolution with a technical amendment to accommodate legislation in the House and Senate consistent with House and Senate pay-as-you-go rules. Sec. 311. Deficit-Neutral Reserve Fund for Affordable Housing

The House recedes to Section 312 of the Senate resolution with a technical amendment to accommodate legislation in the House and Senate consistent with House and Senate pay-as-you-go rules. The conference agreement consolidates Sections 309, 316, and 343 of the Senate resolution into two subsections, 314(a) and 314(b), with amendments. This reserve fund applies in the Senate and in the House of Representatives.

Sec. 315. Deficit-Neutral Reserve Fund for Child Care

Sec. 318. Deficit-Neutral Reserve Fund for Manufacturing Initiatives in the Senate

Subsection (b) accommodates legislation for a demonstration project regarding Medicaid coverage of low-income HIV-infected individuals. Subsection (c) retains the language of Section 212 of the House amendment with an amendment. This reserve fund applies in the Senate and in the House of Representatives.

Sec. 321. House Reserve Fund Adjustment for Revenue Measures

Section 321 of the conference agreement creates a reserve fund to consider any revenue measure (including a conference report) in the House. It applies to bills that would reduce revenues below the sum of aggregate revenue levels for a five-year period as measured against the Congressional Budget Office baseline for the most recent concurrent resolution of the budget. The revenue measure can only become effective upon certification by the Secretary of the Treasury and the Director of the Office of Management and Budget that the reduction in revenues due to the measure for the period comprising fiscal years through 2012 will not exceed the lesser of \$179.8 billion or 80 percent of the fiscal year 2012 unified budget surplus, as estimated by them within six months prior to the first day of the first taxable year affected, said taxable year in no case earlier than 2010. If this provision is not included, the Chairman of the House Budget Committee will adjust aggregate revenue levels in the resolution to create a point of order in the House against the measure under Section 311 of the Budget Act. The Chairman would readjust the levels upon disposition of any measure considered in violation of this section. This point of order would be in addition to a House paygo point of order, which lies against any bill that is not deficit-neutral, notwithstanding any other provisions of this conference agreement.

Any measure, including a conference report, decreasing total revenues, would have the point of order against it in the House, unless it contains a provision consistent with the following:

"None of the provisions of this Act or amendments made by it, shall have legal force or effect unless within six months prior to the first day of the first taxable year affected, said taxable year in no case earlier than 2010, the Secretary of the Treasury and the Director of the Office of Management and Budget project a unified budget surplus for the fiscal year 2012, estimate the budgetary impact of this Act, and certify by issuance of a joint communication, to be published in the Federal Register, that the

estimated reduction in revenues for the period comprising fiscal years through 2012 resulting from this Act (including amendments made by this Act) will not exceed the lesser of \$179.8 billion or 80 percent of the projected fiscal year 2012 unified budget surplus."

Section 321 is a reserve fund that applies in the House only. It does not apply in the Senate. Its inclusion in this conference report, and the inclusion of the above language by the House of Representatives in this joint statement regarding the operation of this section in the House, is not to be construed as setting any procedural precedent in the Senate and does not reflect the Senate's agreement to any provisions in any conference agreement on revenue measures that are affected in the House by the requirements of this reserve fund.

Sec. 322. Deficit-Neutral Reserve Fund for San Joaquin River Restoration and Navajo Nation Water Rights Settlements

Section 322 is a deficit-neutral reserve fund for legislation that would fulfill the purposes of the San Joaquin River Restoration Settlement Act, implement a Navajo Nation water rights settlement as authorized by the Northwestern New Mexico Rural Water Projects Act, or both. The reserve fund would accommodate deficit-neutral legislation in both the House and the Senate.

Sec. 323. Deficit-Neutral Reserve Fund for Selected Tax Relief Policies in the Senate

The Senate insists on Sections 303, 328, and 331 of the Senate resolution with an amendment. This section applies only in the Senate.

The conference agreement reaffirms these priorities.

Sec. 403. Policy on College Affordability

NATIONAL DEFENSE AUTHORIZATION
ACT FOR FISCAL YEAR 2008

The SPEAKER pro tempore. Pursuant to House Resolution 403 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 1585.

□ 1301

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 1585) to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2008, and for other purposes, with Mr. ROSS in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Missouri (Mr. SKELTON) and the gentleman from California (Mr. HUNTER) each will control 45 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, today the House begins consideration of H.R. 1585, the National Defense Authorization Act for Fiscal Year 2008. This bill is a collective effort in the bipartisan tradition of the House Armed Services Committee, which approved the bill in markup last week by a vote of 58-0.

I want to thank our committee members, particularly our subcommittee chairmen and ranking members, for their outstanding work. And special thanks go to the ranking member, DUNCAN HUNTER, and I appreciate his working so hard in a very bipartisan manner to make this bill come to the floor. He's been a partner in this, and I appreciate it. I am proud that we're always able to work together in our efforts to enhance our Nation's defense.

Mr. Chairman, the polestar of this year's Defense authorization is readiness. Continued reports on the state of readiness for our ground forces, particularly our nondeployed and next-to-deploy forces, are of deep concern. To restore readiness and ensure our forces will be ready if they are called upon for the next fight, this bill fully funds the budget request for the Army and Marine Corps reset of equipment at \$13.6 billion and \$8.4 billion respectively.

They add some \$1 billion in a strategic readiness fund to meet critical readiness requirements identified by a new Defense Readiness Production Board.

It increases training by \$250 million so that our units may get more training time.

It requires a plan and a timeline for replenishing prepositioned stocks.

And it strengthens the National Guard by adding \$1 billion for National Guard and Reserve equipment from their unfunded requirements list, ensuring that the National Guard is able to meet its homeland and civil support missions, and also adding a range of authorities through the National Guard Empowerment Act.

This bill looks out for our troops in harm's way by dedicating substantial resources to improve protection, including \$4.6 billion for Mine Resistant Ambush Protected vehicles, known as MRAPs, and providing funds for personal body armor and up-armored Humvees.

To reduce the strain on our force and in keeping with the House Armed Services Committee's long advocacy of the need to boost end strength, that is, the number of troops, the bill has authorized an increase in the size of the Army by 36,000 Army troops and Marines by 9,000.

Our servicemembers and their families make countless sacrifices and our pride in them knows no bounds. We express our thanks to them through a 3.5 percent pay raise, by blocking TRICARE and pharmacy program fee increases, by expanding special compensation for combat-related disabled retirees, and establishing a special sur-

vivor indemnity allowance to begin to address the offset to the survivor benefit plan and the dependents indemnity plan.

Provisions also include the Wounded Warrior Assistance Act, which addresses many of the problems identified at Walter Reed Army Medical Center; and, Mr. Chairman, you will recall we passed that as a stand-alone bill just a few weeks ago.

Accountability with respect to our own ongoing operations in Iraq and Afghanistan is also an important component of the measure. The bill requires General Petraeus and Ambassador Crocker to report on the implementation of the Joint Campaign Plan for Iraq, as well as on efforts made by the Iraqi Government to achieve political reconciliation.

Secretary Gates is also required to report on the proposed force levels for the 6 months following September, to discuss the missions of our forces, and to inform Congress about contingency planning. The information from this report will help us ask the right questions, the tough questions, and make frank judgments about how we are going to pass the baton on to the Iraqis. I am convinced that the sectarian violence will only be overcome by Iraqi political progress, and thus far, I haven't seen much of that since then.

September's report will be an opportunity for General Petraeus and Ambassador Crocker to lay out the straight facts. Time is short with the American people, and the Iraqis must act soon. This report will provide real and substantial information.

Calling attention to the forgotten war in Afghanistan, the bill provides funds for the Afghanistan security forces and requires a long-term sustainment plan so that the Afghans can build the logistics and other capabilities they need for long-term security.

The bill establishes a new Special Inspector General for Afghan Reconstruction to ensure accountability in contracting there and extends the authority of the Special Inspector General for Iraq Reconstruction.

The bill also brings more contracting accountability to both Afghanistan and Iraq by forcing the Departments of Defense and State to work together in assigning responsibility for overseeing the thousands of contractors in these places, particularly those who do carry weapons.

And finally, Mr. Chairman, the bill requires that the Secretary of Defense undertake an analysis of the Department's roles and missions. In 1947, a similar effort helped shape the Pentagon through the National Security Act. After 60 years, it is time for a new analysis to help eliminate duplication among the services, identify core competencies, and strengthen the Department of Defense and the military while helping us spend money much more wisely.
