PATIENT ALERT PROGRAM RE-

Mr. SCOTT of Virginia. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6503) to amend the Violent Crime Control and Law Enforcement Act of 1994 to reauthorize the Missing Alzheimer's Disease Patient Alert Program.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6503

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Missing Alzheimer's Disease Patient Alert Program Reauthorization of 2008".

SEC. 2. REAUTHORIZATION OF THE MISSING ALZHEIMER'S DISEASE PATIENT ALERT PROGRAM.

Section 240001 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14181) is amended—

(1) by amending subsection (a) to read as follows:

“(a) GRANT.—Subject to the availability of appropriations to carry out this section, the Attorney General, through the Bureau of Justice Assistance and in consultation with the Secretary of Health and Human Services,

shall award competitive grants to nonprofit organizations to assist such organizations in paying for the costs of planning, designing, establishing, and operating locally based, proactive programs to protect and locate missing patients with Alzheimer's disease and related dementias and other missing elderly individuals.”;

(2) in subsection (b)—

(A) by inserting “competitive” after “to receive a”; and

(B) by adding at the end the following new sentence: “The Attorney General shall periodically solicit applications for grants under this section by publishing a request for applications in the Federal Register and by posting such a request on the website of the Department of Justice.”;

(3) by amending subsection (c) to read as follows:

“(c) PREFERENCE.—In awarding grants under subsection (a), the Attorney General shall give preference to national nonprofit organizations that have a direct link to patients, and families of patients, with Alzheimer's disease and related dementias.”; and

(4) by amending subsection (d) to read as follows:

“(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$5,000,000 for each of the fiscal years 2009 through 2015.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virginia (Mr. SCOTT) and the gentleman from Indiana (Mr. PENCE) each will control 20 minutes.

The Chair recognizes the gentleman from Virginia.

GENERAL LEAVE

Mr. SCOTT of Virginia. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. SCOTT of Virginia. I yield myself such time as I may consume.

Mr. Speaker, H.R. 6503, the Missing Alzheimer's Disease Patient Alert Program Reauthorization of 2008, helps to address the serious problem of seniors who go missing each year as a result of dementia.

The Missing Alzheimer's Disease Patient Alert Program was created in 1994. While Congress has continued to support and fund it, its formal authorization expired in 1998. This legislation, sponsored by the gentlelady from California (Ms. WATERS), will reauthorize the program.

It authorizes the Attorney General to award competitive grants to nonprofit organizations for the planning, establishing, and operating locally based programs to protect and locate missing persons with Alzheimer's disease, dementia, or other problems.

This is an excellent measure that responds to a critical problem. Accordingly, I urge my colleagues to support the legislation.

I reserve the balance of my time.

Mr. PENCE. Mr. Speaker, I rise in support of this legislation and yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6503, the Missing Alzheimer's Disease Patient Alert Program Reauthorization of 2008, and I would ask unanimous consent to yield the balance of the time on our side to a member of our conference who, while not a member of the Judiciary Committee of the House, Congressman TIM MURPHY of Pennsylvania is a man who possesses a Ph.D. in psychology, has a deep personal interest and background in this area and it seems to us to be altogether fitting if he'd carry our support for this important and bipartisan legislation.

So by unanimous consent, I would like to yield the balance of our time to Mr. MURPHY to carry that legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, I thank the gentleman from Indiana for allowing me to participate in this particular bill to help not only our seniors but everyone who is afflicted, the 5 million Americans who suffer from Alzheimer's disease or dementia. Of these, nearly 3 million, or 60 percent, will become lost from their families or loved ones or caretakers. If not found within 24 hours, up to half will become seriously injured or die.

H.R. 6503, the Missing Alzheimer's Disease Patient Alert Program, will increase the chance of locating missing persons suffering from this disease within the critical first 24 hours. H.R. 6503 authorizes funds for grants for nonprofit organizations to assist in paying for the costs of establishing and operating programs to protect and locate missing patients with Alzheimer's disease.

With police departments now being called upon to find missing elderly, these community organizations are critical in assisting law enforcement officials with their searches. Tips from family and people in the community often lead to the whereabouts of any missing person, including the elderly.

Each year, thousands more Americans are being diagnosed with Alzheimer's disease and other forms of dementia. The symptoms of these diseases often leave their victims feeling disoriented, lost, and vulnerable. H.R. 6503, the Missing Alzheimer's Disease Patient Alert Program, provides support to those local programs working everyday to offer these patients protection and their loved ones some peace of mind.

I might add here that just this weekend I found out a dear friend of mine was recently diagnosed with Alzheimer's. He's been a long-distance runner for all of his adult life, and ironically enough, he's still able to go out and find trails and run on them, but it is something that his doctors are concerned about for him that one day will he, too, become one who is perhaps lost as he tries to negotiate his community and his neighborhood.
