

of Kentucky and the United States House of Representatives. Congressman LEWIS has represented the 2nd Congressional District of the state of Kentucky for the past 14 years.

RON was born and raised in South Shore, Kentucky. He graduated from McKell High School and worked his way through Morehead State University before transferring to the University of Kentucky, where he received a Bachelor of Arts in history and political science. Following graduation, he worked as a salesman and then taught at a business college in Louisiana. He returned to Morehead State and earned a Master of Arts in Higher Education and then attended Southern Baptist Seminary and became an ordained Baptist minister.

RON has long been an ardent supporter of our national defense. In 2005, he and the entire Kentucky delegation successfully fought the closing of Fort Knox, one of our nation's premier military installations employing nearly 9,000 personnel. Due in large part to RON's leadership during this most recent round of base realignment, Fort Knox was designated to remain open and to keep the majority of our nation's gold reserves.

From his post on the powerful Ways and Means Committee, RON has been a champion for farmers in his heartland district. He sponsored the Rural Communities Investment Act, which provides tax incentives to make interest income on farm real estate and certain rural housing loans exempt from federal taxation. He has also worked to develop alternative fuels made from crops grown in his district, sponsoring legislation to promote increased use of ethanol and biodiesel, made from corn and soybeans.

Madam Speaker, I ask my colleagues to join me in recognizing a dedicated leader and friend to many in this body. I know his family, his wife, Kayi; his two children, Ronald Brent and Allison Faye; and his many friends and colleagues join me in honoring his accomplishments and extending thanks for his service over the years on behalf of the commonwealth of Kentucky and the United States of America.

RON will surely enjoy the well deserved time he now has to spend with his family and loved ones. I wish him the best of luck in all his future endeavors.

HON. J. RANDY FORBES

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 25, 2008

Description of Request: Provide \$250,000 to enhance perimeter security at the Chesterfield, VA Emergency Operations Center to assure the safety of personnel during response efforts, as well as the protection of our emergency response critical infrastructure. The Emergency Operations Center (EOC) is a highly sensitive public safety agency. The function of the EOC is to provide information to public safety providers and citizens on a range of items to include criminal activity, terrorist activity or natural disasters. In the event of a terrorist or an individual(s) who may want to hinder or interrupt the public safety system in the County, the logical place to strike is the EOC. In order to mitigate the risk of sabotage or criminal activity, providing physical security to our facility is necessary.

Mandatory vehicle access control at military installations is a Department of Defense (DoD) requirement per DoD Directives 5200.8 and 5200.8R. Based on a Staff Integrated Vulnerability Assessment conducted in October 2006, the entrance and guardhouse configuration at Gate 15 are inadequate for both industrial access and from a security/safety standpoint and require upgrading. This project provides for industrial access improvements of Gate 15 including the truck and private automobile inspection area, Pass Office Renovations and counter terrorism measures at Gate 15.

This project supports the increase in trainee requirements at Fort Lee as part of the increase in permanent end strength of the Army. The estimated and intended use is 1200 soldiers. All existing adequate facilities are being fully utilized to support current operations. If this project is not provided, there will not be sufficient adequate permanent facilities to support the Grow the Force initiative and soldiers will continue to work out of temporary and/or relocatable buildings which have limited operational capabilities and limited useful life expectancies.
