The college that time and again was the defining force behind so many students and graduates in the last century will now be the university that will propel new generations into this age and beyond, and it will do so with the same bedrock foundation that places the individual education of each student first and the forward-looking focus that enables Husson students and graduates to set and reach any goal. Husson University understands, conveys, and puts into action what the English poet, Robert Browning, once so eloquently expressed in words "a man's reach should exceed his grasp or what's a Heaven for?"●

FISHMAN REALTY GROUP

● Ms. SNOWE. Mr. President, today I recognize Fishman Realty Group of Portland, a 12 person real estate firm providing vital assistance to naval personnel transitioning from Brunswick Naval Air Station in my home State of Maine as a result of the 2005 Base Realignment and Closure round. In this effort, Fishman Realty Group manages the Army Corps of Engineers' Homeowners' Assistance Program, a crucial initiative that enables departing Navy personnel to sell their homes to the Federal government. In turn, service members and their families are able to purchase homes elsewhere without missing a step in not only their service, but also their livelihood. Given the housing crisis our country is currently facing, fostering a smooth transition for our service members is an absolute necessity.

With the Brunswick Naval air Station slated for closure in 2011, the prospect that our current precarious housing market would hinder naval families from selling their homes is certainly unsettling. For instance, service members reassigned to another base could potentially face large losses on their homes—impeding the ability of these men and women to purchase homes elsewhere and continue their duties.

That is why Fishman Realty Group has proven to be a beacon in combating markets depressed by crumbling housing prices. Through the Homeowners' Assistance Program, Fishman Realty Group is responsible for maintaining and listing the properties that the government has acquired from the departing personnel, preventing financial loss for their families, and protecting an already depressed market from further economic turmoil. As the sailors of Brunswick Naval Air Station depart, they need not fear that their homes will become financial burdens.

The effort of Fishman Realty Group is a shining example of how small businesses can make a tangible and tremendous difference during an economic downturn. Founded by Alan Fishman in 1987, Fishman Realty Group offers

full service real estate brokering and property management throughout the greater Portland area. Additionally, the firm couples these offerings with local appraisers, lenders, and engineers; and facilitates transactions within and around the Portland community. In these challenging times for the housing market, it is a testament to Fishman Realty Group's business integrity that it reaches out to help military families, demonstrating that their business ethic is fundamentally grounded in putting others first.

In 21 years of service to Portland communities, Fishman Realty Group has transformed landscapes and expanded opportunities for hundreds of businesses and families. I wish Fishman Realty Group and its employees continued success, and I thank them for their commitment to the community of Brunswick Naval Air Station.●

UNITED RADIO BROADCASTERS

● Mr. VITTER. Mr. President, today I wish to briefly discuss some of the amazing efforts broadcasters have made and are currently undertaking not due to government mandates or regulation, but rather as stewards of the public airwaves and as proud members of their local communities.

We all know how my home State and our gulf neighbors were ravaged by the 2005 hurricane season. What many do not realize however is that our local broadcasters performed heroically during this traumatic time. Despite personal losses and risks to their own safety, broadcasters worked feverishly to keep their signals on the air before, during, and after these devastating storms. Their efforts in the wake of Hurricane Katrina literally proved to be a life line to many victims who were stranded by the storm.

Even when towers did go down during Katrina, the citizens of Louisiana witnessed a rare phenomenon in today's world. Radio broadcasters, who were competitors just the day before, banded together combining resources and personnel to establish the United Radio Broadcasters of New Orleans. By putting aside self interests, the United Radio Broadcasters were able to keep the citizens of Louisiana up to date with vital and even life saving information.

Today, we continue to see similar efforts benefiting communities across the country. For example, in a recent edition of Radio Guide, there is an inspiring article about steps one broadcaster is taking to improve its connection to the local community in times of need. Clear Channel has unveiled a series of emergency response teams that can be deployed to areas hit by natural disasters. Specifically, these teams operate as radio stations on wheels. Armed with mobile towers, generators, satellite/Internet connectivity, and other radio infrastructure needs, they have the ability to keep a

station on the air even if the station's permanent studio or tower is knocked out of commission. Some of these emergency assets were successfully deployed in Baton Rouge during Hurricane Gustav last month. While it is my hope that these capabilities rarely, if ever, have to be used, it is comforting to know they are at the ready.

This endeavor and similar investments being made by broadcasters across the country represent a strong commitment to serving local communities. While many here in Washington want to increase the level of regulation placed upon local broadcasters, I would point out that the examples I spoke of today were not dictated from some federal agency. Rather, these efforts were voluntarily undertaken by the men and women who are committed to serving the needs of their local listeners.●
