COMMEMORATING 20TH ANNIVERSARY OF ADA AND RECOGNIZING SPEAKER PRO TEMPORE LANGEVIN

(Ms. PELOSI asked and was given permission to address the House for 1 minute.)

Ms. PELOSI. Mr. Speaker, I rise to call to the attention of our colleagues the historic moment that we are all enjoying right now. Today is the 20th anniversary of the Americans with Disabilities Act. What better way for us to observe that important legislation's anniversary than to have this be the day that, for the first time in our country's history, a gentleman with the challenges that Mr. LANGEVIN faces is presiding as Speaker of the House of Representatives. Congratulations to you, Mr. Speaker.

It is appropriate for us to address our remarks to the Speaker and, in this case, the outpouring of appreciation for this special occasion is marked, not just because you are a person with disabilities, but because you are JIM LANGEVIN of Rhode Island, who it is an honor for all of us to call colleague.

It's important that you are the first, because when you came to the Congress, you inspired us, you transformed our thinking about respecting people for what they can do without hesitating about any limitations they may have.

My colleagues, many of you were present when I took the gavel from Mr. BOEHNER as the first woman Speaker of the House, and it was a highly emotional day for some of us.

Today is a similar day. It is a day when we are making history in this body. Thanks to the work of the Architect of the Capitol, but practically invisible to the eye, a system has been developed so that Mr. LANGEVIN, with great dignity, can take the chair to preside.

Any one of us in our families or in this body is one phone call away from, or a diagnosis, news of an accident, whatever it may be that may physically limit our participation here. But that should not deprive anyone of the honor and the prestige of presiding over the House. And from this day forward, this House will be an example to the rest of the country that these physical obstacles of three stairs, and to the extent that you may be interested in the engineering of it all, it's very interesting.

But not to take away from the fact that the person who is the first to do so is Mr. LANGEVIN. His leadership in the Congress is recognized. And so it is
