

mark. More specifically, we urge you to support, at the very least, \$5.25 billion for the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) and \$750 million for the Global Fund to Fight AIDS, Tuberculosis and Malaria, as explicitly allocated in S. 1601. In total, we support \$1.05 billion for the Global Fund (of which \$300 million is contained in the Senate Labor, Health and Human Services appropriations bill). Moreover, we are strongly opposed to language contained in the House Subcommittee Mark prohibiting funding for syringe exchange programs, which are proven to reduce the incidence of HIV infection.

U.S. global health programs including PEPFAR, along with U.S. contributions to the Global Fund, are reducing disease burden in low- and middle-income countries, and these programs have important national security and diplomatic elements for the United States. Global health programs directly impact American security interests by stabilizing parts of the world where extremism and a lack of alternatives are a recipe for future conflict. The economic impact of global health activities is also felt in the U.S., providing thousands of jobs to help plan and implement global health programming and to conduct health-related research at colleges and universities.

Thanks to the help of the United States, the Global Fund has grown into a proven, country-driven, performance-based mechanism which ensures that countries themselves are responsible for building their own sustainable programs. The Global Fund has a robust history of improving its function and continues to do so through its recent announcement of an improvements agenda to further ensure every dollar is utilized effectively, remains accountable, and is transparent in operation.

We also welcome PEPFAR's leadership on advancing combination HIV prevention approaches and urge the conferees to ensure that these interventions are implemented to their fullest and meet the needs of those most at-risk, especially marginalized populations. Moreover, integration of HIV/AIDS prevention, care and treatment programs—and, where appropriate, other critical global health programs funded by this bill, including maternal health, child survival, family planning/reproductive health, and nutrition—is critical for ensuring that the health needs of individuals are met and the impact of funding is maximized.

In recent months, U.S.-funded research has made enormous progress in shaping the response to AIDS and malaria worldwide. These remarkable scientific advances call for a renewed emphasis on ensuring that we maintain robust support for PEPFAR and the Global Fund and continue the vital U.S. commitment to the fight against global HIV/AIDS, TB and malaria.

These programs amount to a fraction of one percent of the federal budget, but they affect the lives of tens of millions, guard against future conflicts, open up developing markets, and will have lasting impact on the global AIDS epidemic in the long term.

Thank you for considering this request.

PRAYER

Reverend Jay Therrell, Cape Coral First United Methodist Church, Cape Coral, Florida, offered the following prayer:

Heavenly Father, Your word says that "from everyone who has been given much, much will be demanded." Today, we offer our gratitude for the blessings of freedom You have given our Nation. You have blessed us with much. Acknowledging our blessings, we pray that You would continue to remind us that America has been blessed to be a blessing to others.

Grant the Members of this House of Representatives Your wisdom and grace to provide leadership at home and around the world. Help our country to continue to be a light to everyone by pointing all people to true freedom and justice that can only come from You.

As we enter this season of hope, please bless this Congress and all of our leaders with Your guidance to make decisions filled with Your love. God, please continue to bless America, but please help America to bless You.

We ask these things in the name of Your Son, Jesus.

Amen.
