

come forward and lead the House in the Pledge of Allegiance.

Ms. HAHN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

HONORING THE MEMORY OF BETTY ROSE STAIR PATCHELL

(Mr. CRAWFORD asked and was given permission to address the House for 1 minute.)

Mr. CRAWFORD. Mr. Speaker, I rise today to honor the memory of Betty Rose Stair Patchell. Betty's memory will continue to live on with her beloved family and friends.

Betty was married to Jack Daves Patchell for over 45 years. Together they had three children: George, Jacque, and Mark. Betty was a devoted mother, grandmother of four, and great-grandmother of 10.

Betty began her 50-year career as organist, at the age of 15, for the First Baptist Church of Heber Springs, Arkansas. She was an accomplished pianist and a member of the National Guild of Piano Teachers. Over the years, Betty served countless organizations as an accompanist.

Betty had a love for the arts, as well, as an oil and water color painter. She also loved to garden. Betty was an avid golfer, and for over 20 years she assisted pro golfers in the annual Shell Open Golf Tournament.

My thoughts and prayers are with Betty's family. While her presence here on Earth will be missed, her example will be a guide for her family and friends.

God bless Betty Rose Stair Patchell, and God bless her family.

TAX DAY

(Mr. KUCINICH asked and was given permission to address the House for 1 minute.)

Mr. KUCINICH. On tax day, remember the ramifications of waging wars abroad.

In 2011, 39 percent of our income tax dollars went to the Pentagon and war, only 9 percent for trade, commerce, education, and employment programs. The Center for Arms Control and Non-Proliferation estimates the war in Iraq and Afghanistan cost the average American family of four almost \$13,000 in 2011 alone.

National unemployment rates continue to be between 9 and 10 percent, while our families struggle to pay their mortgages, send their kids to school, and feed their families. Compared to the approximately \$159 billion budgeted in fiscal year 2011 for wars, the \$6

billion Congress budgeted for the Workforce Investment Act, primary Federal programs supporting workforce development, is paltry.

We have nearly 23 million Americans either unemployed or underemployed and about 5.5 million who have been unemployed for 27 weeks or more. Wake up, America. Wars are ruining our economy. On tax day, remember our government has a responsibility to use our money wisely, not to waste hard-earned tax dollars on unnecessary wars.

The answer to war and economic decline is peace and prosperity.

DOMESTIC OIL PRODUCTION

(Mr. BUCSHON asked and was given permission to address the House for 1 minute.)

Mr. BUCSHON. I recently conducted a survey on my Web site regarding gas prices because I wanted to hear directly from my constituents how higher gas prices are affecting their lives, and I received over 880 responses.

Henry, from Odon, Indiana, told me he owned a car wash, and when people are paying \$40 extra for gas, they aren't paying for a car wash, affecting his small business and his employees.

Rob, from Lynnville, Indiana, lives in a rural part of the State. He and his wife are forced to drive over 30 miles to get to work. A \$1 increase per gallon of gas can cost them up to \$2,000 extra per year.

An overwhelming majority of responders believe we should expand our domestic oil production and become more energy independent. After paying \$3.91 per gallon in Evansville, Indiana, last week, I agree.

Since President Obama has taken office in January 2009, domestic oil production has decreased by 7 percent on Federal lands. In January 2009, gas was \$1.83 per gallon. It's an average of \$3.86 per gallon today. Under this administration, they have risen over 100 percent, the highest for any President.

I urge the President and the Senate to act on the nine bills the House has passed to reduce energy costs and help reduce gas prices for all Americans.

BUDGET

(Ms. HAHN asked and was given permission to address the House for 1 minute.)

Ms. HAHN. Mr. Speaker, before we left 2 weeks ago, my Republican friends attempted to enact their budget, a budget that would have ended Medicare as we know it, shifting costs to seniors and raising their health care costs by \$6,000 a year; a budget that would cut taxes for the wealthiest Americans and multinational corporations by \$4.6 trillion; a budget that would slash Medicaid, food stamps, and Pell Grants for students. Thankfully, the Senate has said "no."

Now, instead of reaching across the aisle and instead of working with us to

pass bipartisan transportation and jobs legislation, Republicans are pushing legislation to allow the importation of animal remains. Yes, that's how we're spending our valuable time today, considering laws to allow hunters to bring back polar bear heads. Really?

I will vote, again, against this budget, and I ask my Republican friends to let go of their tricks, concentrate on what's important, and work with us to create jobs.

BUFFETT RULE TARGETS SMALL BUSINESSES

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, the President's proposal of the Buffett rule tax increase is just another political gimmick, rejected by the Senate, which is targeted at small business owners. With our Nation's record unemployment rate of over 8 percent throughout the last 3 years, it is clear the President's policies are destroying jobs and chilling economic growth.

In last week's Washington Post, Charles Krauthammer wrote:

The Buffett Rule is nothing but a form of redistributionism that has vanishingly little to do with debt reduction and everything to do with reelection.

The President is using the Buffett rule tax increase as a way to distract Americans from focusing on his failure to implement policies that will create jobs. House Republicans remain focused on reducing barriers that are discouraging job creation.

I urge my colleagues in the Senate and the President to put party politics aside and work with House Republicans to enact policies that will help create jobs for American families.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

GOP BUDGET AND MEDICARE

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, today the House will vote on a rule that once again moves forward the misguided Republican budget. The American people cannot afford this misguided budget which devastates seniors and working families. The Republican budget ends Medicare guarantee, shifting health costs to our seniors. That's a no-no. It turns Medicare into a private voucher system. That's a no-no. It increases prescription drugs for America's seniors.

The American people deserve better than to be left out in the cold with cuts to Medicare, SNAP, and our educational programs. After a long life of service to our Nation, our seniors deserve a strong safety net. Let's stop
