

The United States is the world leader in textile research and development.

American companies and universities are developing new textile materials such as conductive fabric with antistatic properties and high-tech textiles that monitor movement and heart rates.

When consumers in the United States and around the world demand our products, we deliver.

The United States textile industry is the third leading exporter of products worldwide. In fact, recently total textile and apparel exports reached a record \$22.4 billion.

This legislation makes sense plain and clear. Why shouldn't our national policies support American companies and workers?

We should be in the business of creating policies that reward hard working Americans who work hard every day rather than supporting a Tax Code and trade policies that help big companies send U.S. jobs overseas.

Right now, the stakes couldn't be higher.

That is why the Wear American Act and supporting American workers is so important.

#### U.S.-MOROCCO PEACE AND FRIENDSHIP TREATY

Mr. CASEY. Mr. President: I would like to take this occasion to extend congratulations to His Majesty King Mohammed VI and the people of Morocco on the 225th anniversary of the Treaty of Peace and Friendship between the United States and the Kingdom of Morocco.

Negotiations for this treaty began in 1783 and the draft was signed in 1786. Future Presidents John Adams and Thomas Jefferson were the American signatories. The treaty was then presented to the Senate, which ratified it on July 18, 1787, making it the first treaty to receive U.S. Senate ratification.

The treaty represented the second time that Morocco and the United States affirmed diplomatic relations between the two countries. It is also worthy of mention that that Sultan, Mohammed III, was the first head of state, and Morocco the first country, to recognize the new United States as an independent country in 1777.

The Treaty of Peace and Friendship, whose anniversary we commemorate this month, provided for the United States' diplomatic representation in Morocco and open commerce at any Moroccan port on the basis of "most favored nation." It also established the principle of non-hostility when either country was engaged in war with any other nation.

Most importantly, the treaty provided for the protection of U.S. shipping vessels at a time when American merchant ships were at risk of harassment by various European warships. The treaty specifically stated:

If any Vessel belonging to the United States shall be in any of the Ports of His

Majesty's Dominions, or within Gunshot of his Forts, she shall be protected as much as possible and no Vessel whatever belonging either to Moorish or Christian Powers with whom the United States may be at War, shall be permitted to follow or engage her, as we now deem the Citizens of America our good Friends.

A further indication of the early and close relationship between the United States and Morocco can be seen in a letter President George Washington wrote to Sultan Mohammed III on December 1, 1789. President Washington wrote:

It gives me pleasure to have this opportunity of assuring your majesty that I shall not cease to promote every measure that may conduce to the friendship and harmony which so happily subsist between your empire and these . . . This young nation, just recovering from the waste and desolation of long war, has not, as yet, had time to acquire riches by agriculture or commerce. But our soil is beautiful, and our people industrious and we have reason to flatter ourselves that we shall gradually become useful to our friends.

United States relations with Morocco have strengthened in the decades and centuries following the historic treaty. For example, during World War I, Morocco was aligned with the Allied forces, and in 1917 and 1918, Moroccan soldiers fought valiantly alongside United States Marines at Chateau Thierry, Mont Blanc, and Soissons.

During World War II, Moroccan national defense forces aided American and British forces in the region. Morocco hosted one of the most pivotal meetings of the Allied leaders in World War II. In January 1943, United States President Franklin Roosevelt, British Prime Minister Winston Churchill and Free French commander Charles De Gaulle met for 4 days in the Casablanca neighborhood of Anfa to discuss strategy against the Axis powers. It was during this series of meetings that the Allies agreed to launch their continental counter push against Axis aggression through a beach head landing on the French Atlantic coast.

Following Morocco's independence in 1956, President Dwight Eisenhower communicated to King Mohammed V that "my government renews its wishes for the peace and prosperity of Morocco." The King responded by reassuring President Eisenhower that Morocco would be a staunch ally in the fight against the proliferation of communism in the region.

The United States Agency for International Development, USAID, and its predecessor agencies, as well as the Peace Corps, have been active in Morocco since 1953. Currently, there are more than 200 volunteers in Morocco working in the areas of health, youth development, small business and the environment.

Following the September 11, 2001 attacks, Morocco was one of the first nations to express its solidarity with the United States and immediately renewed its commitment as a strong ally to combat terrorism. Cooperation between the United States and Morocco

on these issues includes data sharing, law enforcement partnerships, improved capabilities to oversee strategic checkpoints, and joint efforts to terminate terrorist organization financing.

It is important to extend our warm congratulations to His Majesty King Mohammed VI as well as to the people of Morocco on the anniversary of the Treaty of Peace and Friendship, which set the stage for continued and sustained engagement between our two countries.

#### ADDITIONAL STATEMENTS

##### REMEMBERING JOHN W. MAHAN

• Mr. BAUCUS. Mr. President, today I wish to recognize a remarkable Montanan and American. John W. Mahan, or Jack as we all knew him, died peacefully on Independence Day, July 4, at his home in Helena, MT. He was my neighbor and friend. I ask my colleagues in the Senate to join me in honoring Jack and offering condolences to his family and loved ones.

The Fourth of July was a fitting day for this World War II veteran and lifelong national veterans' advocate to leave this world. Majority leader Mike Mansfield, a veteran of World War I, once said that Jack Mahan "has done more for the veterans of Montana and the nation than any other man I know."

Jack was born into a family dedicated to national service. His father, John Senior, served as the national commander of the Disabled American Veterans as a brigadier general. John Senior later served as Montana's adjutant general. Jack's mother Iola served as president of the American Legion Auxiliary in Helena.

After the Japanese attack on Pearl Harbor, Jack enlisted in the Navy Air Corps. Jack went on to bravely serve as a dive bomber pilot in the Pacific during World War II.

After the war, Jack took the lead on tackling challenges facing his fellow World War II veterans in Montana and across the country.

Jack fought for bonuses for WWII veterans—a practice that was done after WWI to help get returning troops back on their feet.

Although, the Montana Supreme Court declared these "bonus" payments unconstitutional, Jack worked with veterans groups and Montana officials to build popular support and eventually secured an "honorarium" payment instead of a "bonus." Jack's "honorarium," paid for by a 2-cent tax on cigarettes, raised \$22 million for World War II veterans. In today's dollars, that is \$226 million.

In the late 1950s, Jack led the way in establishing the veterans hospital at Fort Harrison, west of Helena.

Again, Jack worked with Montanans, veterans groups, and Members of Congress to raise \$5.4 million to begin the first phase of building for the hospital.

Today, Montana veterans still rely on the hospital in Fort Harrison for their basic medical needs.

During his work, Jack met the acquaintance and earned the respect of Presidents Dwight D. Eisenhower, John F. Kennedy, Lyndon B. Johnson, Richard Nixon, and Gerald Ford.

Jack had a truly remarkable life and career of service to our country. He served as the national commander-in-chief of Veterans of Foreign Wars from 1958 to 1959.

He served as the national chairman of the Veterans for John F. Kennedy's Presidential campaign committee in 1960. He also served as the under secretary to the VA Memorial Services and Director of the National Cemetery System in the Nixon administration.

On this very day, we have brave Americans patrolling the mountains of Afghanistan. May Jack's memory be a reminder of the obligation we owe to these brave warriors when they come home. His legacy is a reminder of what dedicated public service can deliver for our Nation's finest. We will miss you, Jack.●

#### TRIBUTE TO DES R. GOYAL

● Mr. BLUNT. Mr. President, I rise today to honor Des R. Goyal as he completes a long and distinguished career with the U.S. Army Corps of Engineers, USACE. Mr. Goyal was born and educated in India, where he eventually received his Bachelor's and Master's degrees in Mechanical Engineering. In 1970, he came to the United States to further his studies while earning his U.S. citizenship. Mr. Goyal started his career with the Corps in 1978 as a project engineer on navigation locks in the Corps of Engineers Huntington District. Since that time, he has held numerous assignments with the Corps of Engineers, including working on military construction projects in Saudi Arabia and serving in Germany as Chief of the Mechanical/Electrical design branch for the Corps of Engineers Europe Division. In 1999, he was assigned the job of Chief, Operations Division, Kansas City District of the Corps of Engineers.

2011 was arguably the most challenging year in the 114-plus-year history of the Corps of Engineers, Kansas City District. While executing the challenging Operations and Maintenance program, the District battled an epic 145-day flood in the Missouri River Basin and established a Recovery Field Office in Joplin, MO to respond to the fifth deadliest tornado in U.S. history. As an integral part of the Operations Division, Mr. Goyal led the effort to ensure his Emergency Management and Contingency Operations were fully manned by competent personnel from throughout the District. These additional missions comprised approximately 25 percent of the Kansas City District's workforce at various times, placing significant stress on the organization. However, Mr. Goyal remained

poised and calm, responding with a plea for volunteers, and was instrumental in the success of these efforts. During these challenges, he clearly demonstrated strong leadership and technical competency. His past experiences significantly augmented the success of the mission during this time-frame.

Throughout his career, Des Goyal has promoted leadership and mission execution. He has mentored many USACE employees and military personnel while leading the efforts on large, complex projects and programs throughout the world. He has tremendous passion for the advancement of his colleagues and those they serve. He championed the use of the Student Career Employment Program, SCEP, in the Corps of Engineers Northwest District, which serves as a valuable tool in providing college students the critical experience and networking opportunities to encourage employment in a public service career. Mr. Goyal continues to press for positive change through a focus on good government, professional organizations and community service.

I thank Des Goyal for his service to his adopted country and wish Des and his wife, Usha, an enjoyable retirement.●

#### NORTHWEST KIDNEY CENTERS

● Ms. CANTWELL. Mr. President, today I wish to congratulate Northwest Kidney Centers on its 50th Anniversary. Northwest Kidney Centers was established as the first out-of-hospital dialysis program in the world, opening its doors in Seattle, WA, on January 8, 1962.

Just 2 years after the development of the Teflon shunt at the University of Washington, community leaders in Seattle came together to raise money and find a space to establish a center to deliver dialysis treatments outside of a hospital, which led to the creation of the community-based Northwest Kidney Centers.

Chronic kidney disease is now an epidemic, affecting one in seven American adults. Northwest Kidney Centers is working to reverse this trend, focusing on community education and prevention. Each year, Northwest Kidney Centers allocates funding toward public health education about kidney disease and organ donation, participating in outreach events and reaching more than 12,000 people with kidney information. It also developed a "Living Well with CKD" program which offers classes on treatment options and good nutrition. This program reaches nearly 1,000 pre-dialysis patients and family members each year, at no cost to the participants.

I take great pride in the fact that Seattle is the birthplace of chronic dialysis treatments and that Northwest Kidney Centers continues to take the lead on developments in the field. Northwest Kidney Centers hosted clinical trials to develop the anti-anemia drug

Epogen, and set up the Northwest Organ Procurement Agency. In 2008, Northwest Kidney Centers spearheaded the creation of the Kidney Research Institute, a collaboration with the University of Washington Medical School which has become a scientific leader focusing on ways to prevent, detect, treat, and eventually cure kidney disease.

I applaud Northwest Kidney Centers for its contributions to the State of Washington and the kidney disease and dialysis field as a whole. As the organization celebrates its 50th Anniversary, I extend my congratulations to the entire Northwest Kidney Centers community—patients, physicians, employees, supporters and volunteers—and thank them for their dedication and commitment to improving the lives of kidney patients in my State.●

#### RECOGNIZING THE MIDCOAST AREA VETERANS MEMORIAL WALL

● Ms. SNOWE. Mr. President, today I wish to honor and recognize with the highest esteem the many volunteers, veterans' organizations and civic and municipal entities responsible for establishing the Midcoast Area Veterans Memorial Wall in Rockland, Maine, that honors the extraordinary service and sacrifice of all our Nation's military veterans.

Established and managed by the Midcoast Area Veterans Memorial Corporation, a nonprofit corporation comprised of members from the American Legion, the Veterans of Foreign Wars (VFW), the Marine Corps League, Rockland Rotary, Rockland Kiwanis, the Benevolent and Protective Order (BPO) of Elks, and the City of Rockland, the Memorial Wall is located on upper Limerock Street in Rockland on property owned by the American Legion Post No. 1. The location of the Memorial is, appropriately, also the site of an 1861 Civil War encampment of the local Fourth Regiment of Maine Volunteers.

Undeniably, nothing unites us more as Mainers and Americans than the limitless pride we take in our revered and noble veterans. Indeed, in Maine, we also cherish the tremendous distinction of having, on any given day, the second most veterans per capita of any State in the Nation. Such devotion to country is the embodiment of the self-sacrificing principles that Mainers live by and have passed down from one generation to the next. This selfless way of thinking also inspired and motivated a small group of individuals more than 16 years ago to begin formulating plans to establish a memorial to honor our veterans in Midcoast Maine. After a long, dedicated effort and several site location changes, the Midcoast Area Veterans Memorial Wall has finally secured a permanent home.

The Midcoast Area Veterans Memorial Wall is by all accounts a beautifully designed and landscaped tribute
