

44-year career in the aerospace industry as he prepares for his retirement from Gulfstream Aerospace on March 31, 2013, as senior vice president for Programs, Engineering and Test.

During Pres' 19 years with Gulfstream, he was responsible for leading the teams that designed, developed, tested and certified the Gulfstream V and G550 aircraft. This earned him the Robert J. Collier trophies from the National Aeronautics Association in 1997 and 2003, respectively, which are awarded annually for the greatest achievement in aeronautics and astronautics in North America.

Under Pres' direction, Gulfstream developed and certified six new aircraft, the G650, G550, GV, G450, G280 and G150. In conjunction with these new products, Pres was also responsible for launching a number of industry-leading product enhancements, including the Gulfstream Enhanced Vision System and Synthetic Vision-Primary Flight Display.

Most recently, Pres oversaw the development of the company's much-anticipated G650, one of the world's most sophisticated business-jet aircraft. The G650, which entered service in 2012, was designed with technological advances such as a digital fly-by-wire system, triplex flight management systems, auto emergency descent and enhanced and synthetic vision systems. Pres also supervised the design and development of the G280, an aircraft that has been noted for its best-in-class performance, cabin comfort and technology.

From my conversations with Gulfstream officials and my knowledge of Pres' tremendous accomplishments, I know that the loss will be great. However, with the team Pres has led and his strong vision, I have no doubt the future of Gulfstream is as bright as Pres' own future beyond Gulfstream. Congratulations to Pres on taking the next steps in life.●
