

and Antigua and Barbuda's Permanent Representative to the Organization of American States (OAS) who distinguished herself in strengthening the bonds of friendship between Antigua and Barbuda and our country as well as by her work through the OAS in promoting peace and goodwill in our hemisphere. Ambassador Lovell will enter into retirement on December 1, 2014 having served her country for over thirty-one years, ten of which were spent in the roles of Ambassador and Permanent Representative in Washington D.C.

As Ambassador to the United States of America, Ambassador Lovell built bridges of understanding at both the executive and legislative branches where she consistently engaged officials on the imperative of implementing mutually beneficial policies. Beyond this, she earned the trust of the fourteen member independent countries of the Caribbean Community (CARICOM) to lead discussions with members of the legislative branch on issues ranging from energy through security and immigration to trade. Always active in promoting the rights of the underserved and the underrepresented, Ambassador Lovell was a passionate advocate for youth, afro-descents and women at the OAS. Propelled by the belief that young people are our investment in the future, she identified youth empowerment as the theme when she chaired the Permanent Council of the OAS. Her initiative was complemented by the thirty-four Foreign Ministers and Representatives of the highest policy making body of the OAS, the General Assembly, (the Thirty-Eighth Regular Session) who crafted a declaration, Youth and Democratic Values, that committed the hemisphere to strengthening the political, social and economic participation of youth in the democratic process.

During Ambassador Lovell's tenure, Antigua and Barbuda spearheaded the adoption of two landmark Conventions at the OAS that would help to eliminate racism and intolerance. These were the Inter-American Convention against Racism, Racial Discrimination and Related Forms of Intolerance and the Inter-American Convention on All Forms of Discrimination and Intolerance. Furthermore, on the question of women's rights, Ambassador Lovell has championed women entrepreneurship and has worked against domestic violence.

Ambassador Lovell is an ardent believer in international cooperation and by forming partnerships with friendly countries; she has laid the groundwork in establishing a modern address system for her country that would lead to the better provision of government services such as the distribution of utilities. In 2010, Ambassador Lovell was bestowed a knighthood, the highest honor of Antigua and Barbuda for her services rendered in the field of diplomacy and carries the title Dame Commander of the Most Distinguished Order of the Nation. Ambassador Lovell has received commendations by the State of Maryland, the City of Baltimore, the Maryland House of Delegates, the Lieutenant Governor of the Commonwealth of Pennsylvania, the National Association of Negro Business and Professional Women's Club and the Consulate General of Antigua and Barbuda. Under Ambassador Lovell's leadership, the Embassy of Antigua and Barbuda had been selected as one of the top ten embassies in Washington D.C.

Mr. Speaker, I know my fellow members of the House of Representatives agree that Am-

bassador Lovell deserves to be recognized for a job well done and for her many years of service to the people of Antigua and Barbuda, the United States of America and the Organization of American States.

IN RECOGNITION OF N.E. REED ON  
HIS RETIREMENT AS EDMONSON  
COUNTY JUDGE-EXECUTIVE

**HON. BRETT GUTHRIE**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 2, 2014*

Mr. GUTHRIE. Mr. Speaker, I rise today in recognition of N.E. Reed. After serving more than 20 years as the Edmonson County Judge-Executive, N.E. will retire at the end of the year.

Prior to taking elected office in 1994, N.E. taught at Kyrock Elementary School, was an employee at Cutler Hammer and worked in the dairy industry doing quality assurance.

Throughout each of these jobs, N.E. has always been a fixture in the Edmonson County community. His list of accomplishments is long; from purchasing buildings to serve as the home of key local offices, to rebuilding others, N.E. has left his mark on Edmonson County. During his time as Chair of the Regional Development Board, N.E. expanded the county's buildings—all while leaving Edmonson County debt free. Basketball courts, playgrounds and walking trails are among the many additions he made by investing in local parks for the community.

Mammoth Cave, which covers a large part of Edmonson County, didn't become what it is today overnight. N.E. ensured that families who sold land to create the park were protected and that the land would be preserved for future generations to enjoy.

N.E.'s commitment and selflessness is clear to everyone in Edmonson County. But it is even more evident that by putting the people first, he has established a strong community that will benefit the entire region for years to come.

I am grateful for all of N.E.'s hard work and dedication to the people of Edmonson County. I wish him well on his retirement and look forward to continuing to work with him in the community.

IN MEMORY OF THOMAS “TOMMY”  
THOMPSON

**HON. JOE BARTON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, December 2, 2014*

Mr. BARTON. Mr. Speaker, I rise with a heavy heart today to honor an amazing life, and a legendary career. On November 6th, America lost one of the great innovators in medical technology and a dear friend of mine, Thomas “Tommy” Thompson. While Tommy Thompson may not be a household name, there is not one household in America who has not been touched by his life’s work.

Tommy was a dynamic medical device innovator whose passion in life was to improve the human condition. And in this pursuit he was immensely successful. But Tommy wasn’t content with his own successes, he wanted to make sure that the countless doctors, engineers and other innovators in this field also had an environment where they could develop medical breakthroughs. Tommy was the type of leader who didn’t just point out problems, he tirelessly fought to fix them. In 1992, he joined with a group of innovators to establish the Medical Device Manufacturers Association to give the innovative and entrepreneurial sector of the industry a strong and independent voice in the nation’s capital. What started as a handful of medical technology companies has grown to nearly 300 members across the United States. Under Tommy’s leadership, the association helped drive countless policies and regulations that improved patient care and innovation. For the past few years, Tommy discussed the devastating impact the medical device tax was having on innovators trying to develop the cures of tomorrow. Tommy was also a tireless advocate to ensure patients and physicians had access to the technologies they needed, and worked to remove barriers and roadblocks so that they could obtain the best care possible. There is no question that medical technology innovators today are standing on the shoulders of Tommy and all the passion and hard work he dedicated towards improving the innovation ecosystem. To honor Tommy, I will continue to work to repeal this tax.

Tommy’s passion also extended to helping organizations and individuals in his home state of Texas. He devoted countless hours to many of his favorite organizations there including the Fairhill School, the Foundation for Lovejoy Schools, and Phi Kappa Sigma at The University of Texas.

Our thoughts and prayers go out to his wife Betty and all his family and loved ones at this difficult time. We have all lost a great man whose love of improving patient care was second only to that for his family.

At one time or another everyone wonders what kind of legacy our lives might produce, and what it is that future generations may say about our brief time here on Earth. Tommy never said it—he was too humble and too magnanimous—but I will: Tommy Thompson was a legend and a leader in the medical device industry, allowing patients around the world to live longer, healthier lives. He gave so much of his time, treasure and talents, never expecting anything in return. Whether helping a local school or giving time to mentor an engineer just starting in the field, Tommy

cared about people and improving this world. That is his legacy. That is what he will always be known for. That is a legacy anyone would be proud of, and we will be forever grateful for all that Tommy did on behalf of patients and innovators.

Thomas “Tommy” Thompson led a life dedicated to that old-fashioned notion that if you’re focused on helping others, you truly can change the world. Tommy did change the world, and we are all better off thanks to his selfless passion and generosity.

Mr. GUTHRIE. Mr. Speaker, I rise today in recognition of Dr. Mike McCall. After more than 15 years serving as the President of the Kentucky Community and Technical College System (KCTCS), Dr. McCall will retire in January 2015.

KCTCS, a network of 16 colleges located throughout the Commonwealth of Kentucky, currently educates more than 92,000 students. Dr. McCall has been the recipient of numerous awards and honors, but it is Kentucky that is the real winner. Dr. McCall’s career dedicated to better serving community and technical colleges has been one that will create a lasting impact on the Commonwealth. I wish Dr. McCall well during this new phase of his life and know that KCTCS will continue to grow and prosper.

Ms. NORTON. Mr. Speaker, I rise today to ask the House of Representatives to join me in celebrating Step Afrika! on its 20th anniversary, which will be celebrated on December 4, 2014.

Founded two decades ago, Step Afrika! was originally created as a cultural exchange program with the Soweto Dance Theatre of Johannesburg, South Africa, and has grown to become an internationally recognized dance company.

Stepping is a uniquely American art form that originated on the campuses of Historically Black Colleges and Universities. Step Afrika! is the first professional company dedicated to the art of stepping. Step Afrika! promotes an appreciation for stepping through performances and arts education programs in the District of Columbia, across the rest of the United States and around the world.

Step Afrika! specializes in the use of stepping as an educational tool for young students. Step Afrika! brings stepping and its associated values of teamwork, commitment and discipline to students in classrooms, non-traditional dance venues and performing arts venues. Step Afrika! introduced stepping to the Kennedy Center’s Teaching Artist program in 1998, and served as the first step group for the Washington Performing Arts’ Concerts in Schools program.
