TEXT OF AMENDMENTS

SA 78. Mr. BLUNT (for himself and Mr. INHOFE) submitted an amendment intended to be proposed by him to the bill S. 1, to approve the Keystone XL Pipeline; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . . SENSE OF THE SENATE REGARDING BILATERAL OR OTHER INTERNATIONAL AGREEMENTS REGARDING GREENHOUSE GAS EMISSIONS.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) On November 11, 2014, President Barack Obama and President Xi Jinping of the People’s Republic of China announced the “U.S.-China Joint Announcement on Climate Change and Clean Energy Cooperation” (in this section referred to as the “Agreement”) reflecting “the principle of common but differentiated responsibilities and respective capabilities, in light of different national circumstances”.

(2) The Agreement stated the United States intention to reduce its greenhouse gas emissions by one-quarter by 2025 while allowing the People’s Republic of China to double its greenhouse gas emissions between now and 2030.

(3) While coal fired electricity remains the least expensive energy alternative, the reduction of coal use because of the Agreement would result in a 25 percent increase in electricity prices in the United States in 2025, according to analysis conducted by the Energy Information Administration.

(4) The people of China will not see similar electricity price increases as they continue to use low cost coal without limit for the foreseeable future, at least until 2030.

(5) Increases in the price of electricity can cause job losses in the United States industrial sector, which includes manufacturing, agriculture, and construction.

(6) The price of electricity is a top consideration for job creators when locating manufacturing facilities, especially in energy-intensive manufacturing such as steel and aluminum production.

(7) Requiring mandatory cuts in greenhouse gas emissions in the United States while allowing nations such as China and India to increase their greenhouse gas emissions results in jobs moving from the United States to other countries, especially to China and India, and is economically unfair.

(8) Imposing disparate greenhouse gas emissions commitments for the United States and countries such as China and India is environmentally irresponsible because it results in greater emissions as businesses move to countries with less stringent standards.

(9) Union members, families, consumers, communities, and local institutions like schools, hospitals, and churches are hurt by the resulting job losses.

(10) The poor, the elderly, and those on fixed incomes are hurt the most by the President’s promised increased electricity rates.

(b) **SENSE OF THE SENATE.**—It is the sense of the Senate that—
