**PILOT'S BILL OF RIGHTS 2**

Mr. INHOFE. Mr. President, I would like to make a comment about some legislation that we introduced last week that is going to be of supreme interest to a relatively small number of people—those people in America who are general aviation pilots. It actually affects other people too. This is something which is very significant, and I want to talk about it for a minute.

It is important to pilots and aviation enthusiasts all over the Nation. But over the course of my time, I can recall when there were so few of us who were active commercial pilots, and those individuals who had problems—particularly in our State of Oklahoma—would all come to me because they knew I had understanding of this. So people have come in for help.

One such person was Bob Hoover. Bob Hoover arguably may have been the best pilot of his time. He is still flying today. I guess he is in his nineties by now. But about 10, 15 years ago, one inspector didn't like something he did, and he took away his license.

There are literally thousands of people who make their living as airline pilots. In the case of Bob Hoover, he is the guy who would go up in a Shrike—Chris, do you know what a Shrike is? A Shrike is a twin-engine airplane. I used to own a Shrike. It is made by Aero Commander. He would put a glass of water up here on the top of the dash. He would do a barrel roll, and the water would not tip over. This guy was just incredible.

Anyway, it took an act of Congress that I introduced and passed to get him
