

Mrs. LUMMIS. I thank the gentleman from Utah, and I want to thank him for bringing this bill to the floor. I also want to thank the majority leader, KEVIN MCCARTHY, for bringing this bill to the floor tonight so we can see this authorization through before the end of this calendar year.

I am proud to join my friend, JACKIE SPEIER, my colleague from California, and other House colleagues, as well as Senator DIANNE FEINSTEIN and my Senator and dear friend, MIKE ENZI from Wyoming, in passing this reauthorization bill.

The stamp says, "Fund the Fight. Find a Cure." That is why we are here tonight. This is a budget-neutral way to fund critical research to treat and, hopefully, one day cure this disease.

Mr. Speaker, I rise today in proud support of the Breast Cancer Research Stamp Reauthorization Act of 2015. To have over \$80 million raised since 1998 from this stamp for breast cancer research and have it be budget-neutral is a wonderful way to acknowledge the importance of what we can do as private citizens once the government authorizes and empowers us to fund research through something we would buy every day anyway, and that is stamps.

So, once again, it is so important that we continue to support this funding of medical research and doing it in a fiscally responsible way that could save hundreds of lives. Who knows; maybe that one little book of stamps that you buy that helps fund breast cancer research will be the one that finds the cure.

Fund the fight. Find a cure.

Mr. Speaker, again, I want to thank my colleague, JACKIE SPEIER; the committee chairman, JASON CHAFFETZ; the majority leader, KEVIN MCCARTHY; and everyone who has cosponsored this bill, worked on this bill, brought it through the Senate, and brings it to the attention of the House of Representatives tonight.

We can fund the fight. We can find a cure. And tonight, this is the best way to move forward with that goal in mind.

Mrs. WATSON COLEMAN. Mr. Speaker, I yield back the balance of my time.

Mr. CHAFFETZ. Mr. Speaker, I yield myself such time as I may consume.

I want to thank all those involved because, as was noted earlier, every life in this building and across this country and across the world has been touched by breast cancer. I lost my mom to breast cancer. I lost my dad to cancer as well—colon cancer.

This is a program that seems to work. It has been in place since before the year 2000. The numbers are quite startling. Instead of paying 49 cents for a stamp, you pay 60 cents. And that money, accumulated over time, has generated tens of millions of dollars. It is something that is worthwhile.

I appreciate Mr. MCCARTHY and his passion for this issue. I appreciate Mrs.

LUMMIS and her desire to tackle this. I also appreciate what Ms. SPEIER and Mrs. WATSON COLEMAN have added to this discussion and their passion on tackling this issue. It truly transcends everything we do. It touches every life, and it is something we must win and we must overcome. This happens to be one of those government programs that actually works.

And so we are suggesting to our colleagues that we vote "aye" and support this and allow it to continue. It is one of the good things we do.

Mr. Speaker, I yield back the balance of my time.

Ms. JACKSON LEE. Mr. Speaker, I am pleased to rise today in support of S. 1170, the "Breast Cancer Research Stamp Reauthorization Act of 2015."

I would like to recognize Senator FEINSTEIN for her commendable leadership in fighting for greater awareness of breast cancer and finding cures and treatment through breast cancer research.

This is a simple yet incredibly power piece of legislation.

S. 1170 will reauthorize through December 31, 2019, the Breast Cancer Research Stamp, which will require the U.S. Postal Service to issue a special postage stamp for first-class mail that costs more than the regular first-class stamp in order to raise funds for breast cancer research.

Importantly, agencies receiving these funds from the Postal Service must use them on breast cancer research.

Breast cancer accounts for 1 in 4 cancer diagnoses among women in this country.

This is an astonishing statistic that cannot be overstated—it must be stopped.

Breast cancer is also the most commonly diagnosed cancer among African American women.

As an African American woman and I am a breast cancer survivor and I know these statistics all too well.

As a Member of Congress, a mother, grandmother, sister and wife, it is my responsibility and duty to fight to insure that every American can win in the fight against cancer.

I understand first-hand how important proper and adequate funding is to defeat breast cancer.

As a proud cancer survivor, I am also proud to have secured adoption of an amendment to the FY 2014 Defense Appropriation Act that increased funding for breast cancer research by \$10 million.

We must continue to raise funds for research in order to ensure that the women of our nation no longer have to suffer.

This bill will ensure that additional funds will be used towards life-saving research to protect all of our grandmothers, mothers, daughters, sisters, aunts and love ones.

I urge my colleagues to support this bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Utah (Mr. CHAFFETZ) that the House suspend the rules and pass the bill, S. 1170.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CHAFFETZ. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

#### REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 2646

#### EPILEPSY AWARENESS MONTH

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, I rise this evening to highlight November as Epilepsy Awareness Month.

Tragically, across the country today, thousands of families dealing with epilepsy and other debilitating seizure disorders have been forced to uproot their families as they travel to States where CBD oil already is legalized.

Especially in children, Mr. Speaker, CBD oil helps reduce the amount and duration of seizures; but over and over again, the government has stood in the way of access to lifesaving care for these children.

Children across the country like Sophie Weiss deserve better. Sophie is
