

her a friend. May she have a happy 70th birthday and enjoy many more to come.

**INTRODUCTION OF THE FAIRNESS
FOR BREASTFEEDING MOTHERS
ACT OF 2016**

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

Ms. NORTON. Mr. Speaker, today, I introduce the Fairness for Breastfeeding Mothers Act of 2016, a bill that would require buildings that are either federally owned or leased to provide designated private and hygienic lactation spaces for nursing mothers. For years, federal agencies such as the U.S. Department of Agriculture and the Centers for Disease Control and Prevention have encouraged breastfeeding—the benefits are so great that the Affordable Care Act amended federal law to require employers to provide a designated, non-bathroom space for returning employees to pump breastmilk for their newborns, ensuring that new mothers would be able to continue this essential practice even after returning to work. My bill would extend this requirement to include not just employees, but visitors and guests to federal facilities across the nation.

In Washington, D.C. alone, there are millions of tourists who visit federal sites, such as the Lincoln Memorial and the Smithsonian Institution. Increasingly, families understand the unique benefits of breastfeeding, and visitors to these buildings who have newborns and babies should have a private space to breastfeed or pump. The benefits of breastfeeding are well documented—breastmilk contains antibodies and hormones that boost babies' immune systems, and studies have shown lower risks of asthma, diabetes, respiratory infections, and other diseases among breastfed babies. Moreover, breastfeeding also has benefits for nursing mothers, who, research has shown, have lower risks of diabetes and certain forms of cancer. Given the significant public health benefits of breastfeeding for both mother and baby, already recognized in federal policy, my bill is a logical next step to ensure visitors to federal sites have access to clean, hygienic, and private spaces to nurse or pump.

I urge my colleagues to support this bill, which would provide access to designated lactation rooms for guests to federally owned or leased buildings.

**HONORING THE MOST VENERABLE
ORDER OF THE HOSPITAL OF
SAINT JOHN OF JERUSALEM**

HON. JOE WILSON

OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

Mr. WILSON of South Carolina. Mr. Speaker, since 1888, the members of the Most Venerable Order of the Hospital of Saint John of Jerusalem have promoted peace and health in the Middle East through their hospital in East Jerusalem, Gaza, and the West Bank.

In 2015, the hospital and associated clinics treated over 125,000 patients—including

15,000 through mobile outreach. The Order has a strong foundation in Christian ideals, and a motto of "Pro Fide, Pro Utilitate Hominum: For the Faith and in the Service of Humanity," which speak to the inspiring scope of their global contribution.

The Order also features a diverse membership, who vow to "serve our lords, the sick and the poor," and to fulfill this promise through volunteer service, fundraising, and monetary donations. I would like to congratulate Priory/Regional Chair, Julian V. Brandt III, CStJ, of Charleston, South Carolina, for his dedication for the significant work that the Order is accomplishing around the world.

**CELEBRATING THE 10TH ANNIVERSARY
OF THE SCHOOL OF
SCIENCE AND TECHNOLOGY**

HON. LAMAR SMITH

OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

Mr. SMITH of Texas. Mr. Speaker, 2016 marks the 10th anniversary for the School of Science and Technology (SST) located in my district in San Antonio, Texas. SST provides a K–12 curriculum concentrated on educating students in science, technology, engineering, and math (STEM). In the rapidly changing world of science and technology, it is critical that our students receive STEM education from an early age. For a decade, SST has provided students with such an opportunity.

SST has been ranked among the top high schools in Texas for multiple years and has received the Bronze, Silver and Gold rankings from US News and World Report. This is a testament to the school's dedication to providing STEM education to students in the San Antonio area.

As Chairman of the House Science, Space and Technology Committee, I am committed to ensuring that our nation's youth have the scientific and mathematical skills to thrive in a technology-based economy. And I commend SST for its continued efforts to provide advanced STEM education to K–12 students.

In appreciation of all they have done, Mr. Speaker, I ask my colleagues to join me in celebrating the 10th anniversary of SST.

**INTRODUCTION OF THE COMMERCIAL
UAS MODERNIZATION ACT**

HON. EARL BLUMENAUER

OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Tuesday, February 2, 2016

Mr. BLUMENAUER. Mr. Speaker, the UAS industry is booming in Oregon and nationwide, but our laws and regulations are stifling innovation instead of encouraging it, forcing American companies to look overseas to test new technology. We must not miss the opportunity to harness the benefits and utility of UAS technology, which will bring advances in safety and efficiency in nearly every sector of the economy.

Today, I am introducing the Commercial UAS Modernization Act, which creates an interim framework that will promote American innovation in the rapidly growing field of un-

manned aircraft systems (UAS) and will facilitate the safe integration of UAS into the National Airspace System.

While the Federal Aviation Administration (FAA) is in the process of creating a regulatory framework for commercial UAS operation, the FAA's existing approach to UAS integration and regulation has been piecemeal at best. As a result, we are behind other countries in developing a regulatory regime that encourages growth of this burgeoning industry, and U.S. companies are being overtaken by competition in Canada, Europe, and Asia. This legislation offers a uniform and comprehensive approach that offers our drone industry a sensible path forward.

The UAS industry expects to produce more than 100,000 U.S. jobs, with \$82 billion in economic impact, within a decade after these regulations are complete. The potential social and economic benefits of this technology go far beyond package delivery and capturing photos and video footage. Around the world, UAS are being used to inspect critical infrastructure and conduct land surveys, fight forest fires and support emergency and disaster response, transport medical samples and supplies, analyze and manage crops, detect oil spills and predict volcanic eruptions, catch poachers, and deliver high-speed Internet to remote or underserved areas. Full integration of UAS into the national airspace could revolutionize the way entire sectors of our economy and governments function.

The Commercial UAS Modernization Act provides a much-needed update to federal rules, making it clear that flying smartphones should not be regulated like Predator drones.

**IRAN TERROR FINANCE
TRANSPARENCY ACT**

SPEECH OF

HON. CHRIS VAN HOLLEN

OF MARYLAND
IN THE HOUSE OF REPRESENTATIVES
Wednesday, January 13, 2016

Mr. VAN HOLLEN. Mr. Speaker, I rise in opposition to H.R. 3662.

The focus of the JCPOA is to achieve the long desired objective of preventing Iran from obtaining a nuclear weapon. We must be vigilant in our verification and enforcement of that agreement.

Iran's breach of the UN Resolutions regarding ballistic missiles is serious, but it is a distinct issue that requires its own targeted response. That is why President Obama was right to impose separate sanctions on Iran for its ballistic missile violations.

As Mr. ENGEL has indicated, this legislation is nothing but a blatantly partisan attempt to re-litigate the JCPOA. It was drafted without consulting a single Democrat on the House Foreign Affairs Committee, and passed out of Committee without a single Democratic vote.

Let us focus together on holding Iran accountable for all its actions—with respect to JCPOA, its ballistic missile program, and its support for groups in the region that have engaged in terrorism. But it is a sad day when our Republican colleagues play political games with important national security and foreign policy matters.
