

Mr. Speaker, in my home state of Texas, a law that would have cut off access to 75 percent of reproductive healthcare clinics in the state was challenged before the U.S. Supreme Court in 2014 and 2015.

On October 2, 2014, the Supreme Court made unconstitutional a Texas law that required that all reproduction healthcare clinics that provided the full range of services would be required to have a hospital-style surgery center building and staffing requirements.

This requirement meant only 7 clinics would be allowed to continue to provide a full spectrum of reproductive healthcare to women.

In 2015, the State of Texas once again threatened women's access to reproductive health care when it attempted to shutter all but 10 healthcare providers in the state of Texas.

The Supreme Court once again intervened on behalf of Texas women to block the move to close clinics in my state.

New attacks on women are now being couched with renewed attacks against the Affordable Care Act, which the majority has attempted to overturn with over 50 votes since its enactment.

The attacks against Planned Parenthood is a social and economic statement that if you are a woman with money you have the right to think for yourself regarding your healthcare choices, but if you are poor or lack healthcare options you do not have that same right.

Millions of women now have free coverage for comprehensive women's preventive medical services.

The reality is women who face difficult health care decisions do not do so lightly.

Women in this nation have a right to self-determination.

It is fundamental human right and one that should be cherished.

The most important right is the ability of each person to determine their destiny and this right has to be freely exercised.

Healthcare has become a fundamental right for our nation's citizens with the best possible outcomes for the millions of people who had no healthcare due to pre-existing illnesses or were penalized with higher premiums for pre-existing conditions.

Because of the Affordable Healthcare Act:

1. 100 million Americans no longer have a life-time limit on healthcare coverage.

2. 17 million children with pre-existing conditions can no longer be denied coverage by insurers.

3. 6.6 million young-adults up to age 26 can stay on their parents' health insurance plans.

4. 6.3 million Seniors in the "donut hole" have saved \$6.1 billion on their prescription drugs.

5. 3.2 million Seniors have access to free annual wellness visits under Medicare, and

6. 360,000 Small Businesses are using the Health Care Tax Credit to help them provide health insurance to their workers.

Statistics on Texas and the Affordable Care Act reveal that:

1. 3.8 million Texas residents receive preventive care services.

2. 7 million Texans no longer have lifetime limits on their healthcare insurance.

3. 300,731 young adults can remain on their parents' health insurance until age 26.

4. 5 million Texas residents can receive a rebate check from their insurance company if it does not spend 80 percent of premium dollars on healthcare.

5. 4,029 people with pre-existing conditions now have health insurance.

This year for the first time insurance companies are banned from:

1. discriminating against anyone with a pre-existing condition;

2. charging higher rates based on gender or health status;

3. enforcing lifetime dollar limits; and

4. enforcing annual dollar limits on health benefits.

Few people knew that health insurers viewed pregnancy as a pre-existing condition.

Because of the Affordable Care Act women can no longer be charged a higher rate just because they are women.

Attempts to weaken or end the ACA are wrong.

A January 2015, Gallup poll revealed that nationally the uninsured rate in the United States was reduced to 12.9%.

The uninsured rate nationally dropped 4.2% points since the enactment of the Affordable Care Act.

We are becoming a nation of equals when it comes to access to affordable healthcare insurance.

I urge all Members to join me in voting to sustain President Obama's veto of this latest Republican effort to turn the clock back on women's rights and the healthcare safety-net that is assuring longer and healthier lives for millions of Americans.

SUPPORTING PRESIDENT MA OF TAIWAN AND THE PROPOSED SOUTH CHINA SEA PEACE INITIATIVE ROAD MAP

HON. BLAKE FARENTHOLD

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. FARENTHOLD. Mr. Speaker, on January 28, President Ma Ying-jeou of the Republic of China (Taiwan) visited Taiping Island in the Nansha Islands ahead of the Lunar New Year to see the guards and medical staff stationed there. He unveiled "the South China Sea Peace Initiative Road Map" which could be applied as a reference to the parties concerned in the region. The content of the South China Sea Peace Initiative Road Map is stated as below:

"1. "Yes" to cooperation, "no" to confrontation: A cooperation and development mechanism that contributes to peace and prosperity in the South China Sea should first be established, and sovereignty disputes should be set aside for future resolution through peaceful means.

2. "Yes" to sharing, "no" to monopolizing: A cooperation and development mechanism should ensure equal participation and resource sharing among all parties concerned in the region in order to avoid undermining the rights and interests of any party.

3. "Yes" to pragmatism, "no" to intransigence: The initial focus should be on aspects which are beneficial to all parties concerned and on which consensus can be easily achieved; various cooperation items should be pragmatically and gradually promoted so as to avoid missing out on cooperation opportunities as a result of any party insisting on its position.

The viable path consists of shelving disputes, integrated planning, and zonal development. The two essential elaborations are: First, all parties concerned in the region should be included in the consultation mechanism for this initiative so that they can engage in cooperation and negotiations on integrated planning for the South China Sea. Second, the cooperation and consultation mechanism proposed in this initiative should be a provisional arrangement of a practical nature, and should not undermine the position of any party concerned or jeopardize or hamper the reaching of a final agreement on the South China Sea."

As a member of the Taiwan Congressional Caucus, I am glad to see that the national leader of Taiwan is willing to provide a peaceful approach to decrease the tension in this region.

IN RECOGNITION OF LIEUTENANT MATTHEW VANDERSLICE

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 3, 2016

Mr. KEATING. Mr. Speaker, I rise today to recognize Lieutenant Matt Vanderslice of the United States Coast Guard for his extraordinary actions on February 15, 2015.

Lieutenant Vanderslice, a native of Stonington, Connecticut, was accepted into the prestigious U.S. Coast Guard Academy, where he graduated in 2008 with a Bachelor of Science in Operations Research and Computer Analysis. While at the Academy, he was known to be an avid member of the rowing team and served as the team captain his senior year.

Following commissioning, Lieutenant Vanderslice served as a Deck Watch Officer aboard the USCGC *Hollyhock*, a 225-foot ice breaking buoy tender home ported near Detroit, Michigan. During his two year tenure, he sailed all five Great Lakes before being accepted to the flight training program.

Upon completion of helicopter pilot training, Lieutenant Vanderslice was stationed at Coast Guard Air Station Cape Cod Massachusetts for three years as a duty standing helicopter pilot. It was during this time, assigned as the co-pilot of the helicopter CGNR 6033, that Lieutenant Vanderslice, along with three other crewmembers, were tasked with responding to a distress signal picked up by the Coast Guard Rescue Coordination Center in Boston from the fishing vessel *Sedona*. The *Sedona* was stranded 200 nautical miles off the coast of Cape Cod.

Lieutenant Vanderslice and the aircraft commander, Lieutenant Hess, exhibited exceptional skill as they safely navigated through near-zero visibility, 55 knot winds, and unremitting snow and sleet. Even when extreme weather conditions caused equipment to malfunction and act erratically, Lieutenant Vanderslice was able to locate the vessel by manipulating the aircraft's avionics system and by making precise fuel calculations. His calm professionalism inspired the rest of the crew to remain confident and focused, which was essential to successful mission completion. In addition to his calm yet quick thinking, he managed to keep the operational commander apprised of mission progress, keep the aircraft
