FAMILIES OF FLINT

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, I am proud to cosponsor the Families of Flint bill, introduced by Mr. KILDEE, who has been working tirelessly to help his community cope with the crisis there. It is our moral obligation to make sure that those families get the help they need.

The tragedy in Flint has brought to light the danger of using lead pipes to deliver drinking water, particularly in older cities. According to the Environmental Protection Agency, 10 million American homes and buildings receive drinking water via pipes that contain lead, a known neurotoxin.

The time to act is now, but Congress has cut infrastructure funding for this purpose. This year, Congress budgeted just \$906 million for the safe drinking water fund. That is a cut of 34 percent compared to 2010, and far below the \$334 billion that is needed over the next 20 years. We can do much better.

I don't know whether a national lead pipe replacement program would have prevented the crisis in Flint, but I do know that without one, the next tragedy is inevitable.

CARVER COUNTY IS MINNESOTA'S HEALTHIEST

(Mr. EMMER of Minnesota asked and was given permission to address the House for 1 minute.)

Mr. EMMER of Minnesota. Mr. Speaker, it is with great pride that I rise today to celebrate Calvert County, located in Minnesota's Sixth Congressional District, for being named the healthiest county in Minnesota. This is the fourth consecutive year that Calvert County has received this impressive ranking. These rankings are completed by the County Health Rankings & Roadmaps program and are based on multiple factors, including: health, social, and economic factors, as well as clinical care, physical environment, and quality of life.

We are incredibly proud of the people, businesses, and healthcare providers in Calvert County for working to ensure that everyone in our community has the ability to lead a healthy life, for encouraging our many local leaders to implement change, and for constantly striving to influence health in a positive way. It is because of the residents' hard work and determination that Calvert County is the wonderful community that it is today—and for that, we all say thank you.

VOTE FOR EMERGENCY FUNDING TO FIGHT ZIKA VIRUS

(Mr. RUIZ asked and was given permission to address the House for 1 minute.)

Mr. RUIZ. Mr. Speaker, the Zika virus results in devastating human illness, like small, deformed brains in infants and paralyzing neurodegenerative diseases. It has already infected over 900 people in the United States and its territories, and it is just a matter of time before it will rapidly spread in the United States.

Mr. Speaker, Congress needs to do its job and protect the health security of the American people and vote for emergency funding to fight Zika now before we adjourn and before it is too late. Listen to the scientists, to the public experts, and to the CDC. All of them are echoing the same warning. Funding is imperative to prevent the spread of Zika, and it is our responsibility, our moral obligation, as Members of Congress, to protect the public against this potential crisis.

What are we waiting for? The House should not adjourn until we have passed H.R. 5044, the emergency supplemental on the Zika virus.

REJECT NEW FIDUCIARY RULE

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, I rise today in support of hardworking Americans trying to save money for their retirement without government intrusion.

This week, I join a majority of House Members in voting to disapprove of the Department of Labor's new fiduciary rule that will make it harder for low- and middle-income families to save for their retirement.

This extreme, partisan rule, if it is allowed to be implemented, will have a far-reaching negative impact on all Americans currently saving for their retirement. It is yet another attempted power grab by administration bureaucrats to impose more regulations that Americans do not need and are not asking for. It will narrow the options for retirees and drive up costs preventing smart investment.

Estimates show retirement planners would have to spend up to \$4.7 billion complying with the rule in the first year alone and another \$1.1 billion annually thereafter. We all know who will pay for these costs: the consumer, the saver, the man and woman who are simply trying to invest in their future for their families.

Mr. Speaker, I urge all of my colleagues to reject this new fiduciary rule and help all Americans retire with the financial security and peace of mind that they deserve.

SEXUAL ASSAULT AWARENESS MONTH

(Mr. DOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOLD. Mr. Speaker, I rise today to recognize April as Sexual Assault Awareness Month. As a father of two daughters, this issue is deeply personal for me.

When I think of my daughters' future, few things terrify me more than knowing that one in five women have experienced sexual assault on college campuses. That is why we need to pass the Campus Accountability and Safety Act. This is a commonsense, bipartisan solution to protect students and boost accountability and transparency at colleges and universities. Every day that goes by without passing this bill, more students are put at risk; and for me, that is simply unacceptable.

This issue obviously isn't just limited to college campuses, so I want to take a few moments to commend some of the amazing organizations that are working to keep families safe in our community.

The Zacharias Sexual Abuse Center and A Safe Place have both done incredible work in Illinois' 10th Congressional District. Not only have they worked tirelessly to provide resources and shelter for the survivors of sexual assault and domestic abuse, but they have also demonstrated a strong commitment to fighting the root cause of these tragedies.

We must provide these incredible organizations with the resources they need, so together we can prevent sexual assault and keep families safe.

RECOGNIZING YOUNG MEN AND WOMEN ATTENDING UNITED STATES SERVICE ACADEMIES

(Mr. COLLINS of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLLINS of Georgia. Mr. Speaker, I rise today to recognize 11 young men and women from the Ninth District of Georgia who have the honor of attending one of our four United States service academies next fall.

The United States service academies provide an outstanding opportunity for motivated young people to receive a fine education while gaining the skills necessary to serve their country as professional officers.

I take this time to congratulate each one of these individuals for their tremendous accomplishment.

Jacob Heydinger, Jacob Shewbert, Tiffany Haddock, and Cory Campbell will be attending the United States Air Force Academy in Colorado Springs, Colorado.

Matthew McClelland will be attending the United States Naval Academy in Annapolis, Maryland.

Sawyer Madsen, Gino Saponari, and Jonathan Olson will be attending the
