The SPEAKER pro tempore. Pursuant to House Resolution 743 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the consideration of the bill, H.R. 5055.

The Chair appoints the gentlewoman from Florida (Ms. ROS-LEHTINEN) to preside over the Committee of the Whole.

□ 1720

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 5055) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2017, and for other purposes, with Ms. ROS-LEHTINEN in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Idaho (Mr. SIMPSON) and the gentlewoman from Ohio (Ms. KAPTUR) each will control 30 minutes.

The Chair recognizes the gentleman from Idaho.

Mr. SIMPSON. Madam Chair, I yield myself such time as I may consume.

It is my distinct honor to bring this fiscal year 2017 Energy and Water Development and Related Agencies Appropriations Act before you today.

Before I go into the details, I would like to recognize the hard work of Chairman ROGERS and Ranking Member LOWEY on this bill and in the appropriations process in our trying to get back to regular order.

I would also like to thank my ranking member, Ms. KAPTUR. I appreciate her help and her hard work on this bill. This bill is a better bill because of her input on this legislation.

The bill provides \$37.4 billion for the activities of the Department of Energy, the Army Corps of Engineers, the Bureau of Reclamation, and other agencies under our jurisdiction. This is \$259 million more than last year's funding level and is \$168 million above the budget request.

This is a responsible bill that recognizes the importance of investing in this Nation's infrastructure and national defense. As we do each year, we work hard to incorporate priorities and perspectives from both sides of the aisle.

The administration's proposal to cut the programs of the Army Corps of Engineers by \$1.4 billion would have led to economic disruptions at our ports and waterways silted in and would have left our communities and businesses vulnerable to flooding. Instead, this bill recognizes the critical work of the Corps and provides \$6.1 billion for those activities. This includes \$1.8 billion for flood and coastal storm damage reduction projects. These projects prevented
